[Qualitative information on consolidated financial results]

Net sales rose to 46,575 million yen, and 8.5% increase from the same period of the previous year. This increase was mainly due to strong sales in Europe and Asia that countered the effects of the appreciation of the yen against other currencies.

Operating income amounted to 10,451 million yen, and increase of 3.5 times versus the same period of the previous year. This increase was principally owing to the improved cost efficiency following the shift of a portion of our manufacturing process to factories in China, and a gain of 4,441 million yen arising from the return of the substitutional portion of the Company's National Welfare Pension fund to the government. Income before income taxes was 10,933 million yen, 3.3 times higher than for the same period of the previous year, and net income for the quarter amounted to 6,847 million yen, an increase of 4.8 times over the same period of the previous year.

[Qualitative information on consolidated cash flows]

Total cash and cash equivalents (cash) at the end of period amounted to 24,892 million yen, up 316 million yen from the previous year.

(Net Cash Provided by Operating Activities)

Net cash provided by operating activities amounted to 1,752 million yen, down 1,582 million yen from the level for the same period of the previous year. Although net income increased for the period, this was more than offset by an increase in inventories and a decrease in income taxes payable.

(Net Cash Used in Investing Activities)

Net cash used in investing activities totaled 101 million yen, down 110 million yen from the same period of the previous year. Factors accounting for this decline included a reduction in capital investments and the sale of a warehouse of the Company's plant in the United Kingdom.

(Net Cash Used in Financing Activities)

Net cash used in financing activities was 1,916 million yen, up 1,161 million yen from the same period of the previous year. This mainly reflected the payment of cash dividends.

Table of Contents

[Qualitative information about the forecast for the year ending March 31, 2005]

The above performance forecast has primarily been adjusted from the prior forecast on April 28, 2004 because of a changed exchange rate assumption, 106 yen to US\$1 and 131 yen to 1 Euro for the year ending March 31, 2005 (outlook announced previously: 105 yen to US\$1 and 125 yen to 1 Euro). The above figures include a gain arising from the transfer to the government of the substitutional portion of the employees' pension fund managed by the Company that was reported in the first quarter. This transfer is as follows:

Consolidated:	An increase to operating income of 4,441 million yen (outlook announced previously: approximately 4,200 million yen)
Non-consolidated:	An increase to extraordinary income of 6,375 million yen (outlook announced previously: approximately 6,300 million yen)

FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements based on Makita's own projections and estimates. The power tools market, where Makita is mainly active, is subject to the effects of rapid shifts in economic conditions, demand for housing, currency exchange rates, changes in competitiveness, and other factors. Due to the risks and uncertainties involved, actual results could differ substantially from the content of these statements. Therefore, these statements should not be interpreted as representation that such objectives will be achieved.
