Payouts of performance awards are generally tied to achieving specified levels (threshold, target and maximum) of cumulative corporate economic value added and earnings per share growth for the performance period, with each performance measure carrying a 50% weighting. For business unit executives, including Messrs. Harden and Ponko, corporate economic value-added and earnings per share measures together carry a 50% weighting, and business unit operating income targets are weighted 50%. If the performance level falls between threshold and target or between target and maximum, the award is prorated. Performance award payouts would generally be made in August following the end of the applicable performance period. Cash performance awards may be paid in cash, common shares of the Registrant, other property, or any combination thereof, at the sole discretion of the Compensation Committee at the time of payment. Performance share awards will be paid in common shares of the Registrant. Unless the Board specifically provides otherwise, in the event of a change in control of the Registrant, all performance awards would be considered to be earned, payable in full, and immediately settled or distributed.
