PRESS RELEASE

October 17, 2008

Sony Ericsson reports third quarter results

## Q3 highlights:

- Break even results, excluding restructuring charges, as challenging business conditions continued
- C902 Cyber-shot™ camera phone is hit model of the quarter
  - First Xperia™ branded multimedia phone X1 began shipping
- Expansion of music service offering with announcement of PlayNow™ plus

London, UK - The consolidated financial summary for Sony Ericsson Mobile Communications AB (Sony Ericsson) for the third quarter ended September 30, 2008 is as follows:

	Q3 2008	Q2 2008	Q3 2007
Number of units shipped (million)	25.7	24.4	25.9
Sales (Euro m.)	2,808	2,820	3,108
Gross margin (%)	22%	23%	31%
Operating income (Euro m.)	-33	-2	393
Operating margin (%)	-1%	-0%	13%
Restructuring charges (Euro m.)	35	11	0
Operating income excl. restructuring charges (Euro m.)	2	8	393
Operating margin excl. restructuring charges (%)	0%	0%	13%
Income before taxes (IBT) (Euro m.)	-23	8	384
IBT excl. restructuring charges (Euro m.)	12	19	384
Net income (Euro m.)	-25	6	267
Average selling price (Euro)	109	116	120

Units shipped in the quarter were 25.7 million, a sequential increase but flat year-on-year, while sales for the quarter were Euro 2,808 million, a decrease of 10% compared to the third quarter of 2007. Most of this decrease reflects the impact of exchange rate fluctuations, as well as a shift of the product mix to more lower priced phones. Gross margin also decreased year-on-year and sequentially due to continued price pressure at a time of adverse cost trends in the supplier base. This was partially mitigated by the introduction of new products at the end of the second quarter, such as the C902 Cyber-shot™ camera phone, which is selling well; however, strong competition continues, particularly in Europe. Income before taxes for the quarter was Euro 12 million, excluding restructuring charges of Euro 35 million, a decrease compared to the third quarter of 2007.

Average selling price (ASP) for Sony Ericsson decreased both sequentially and year-on-year in line with levels seen in previous quarters. This is due to selling more lower priced phones and increased price competition in the market for mid- to high-end phones. Sequentially, market share for the third quarter remained flat and is estimated to be around 8%.

“As expected the third quarter has continued to be challenging for Sony Ericsson. We have moved forward with our plans to align operations and resources with the consolidation of R&D facilities into a more agile and cost efficient organisational structure. As previously announced, our target remains to reduce operating expenses by Euro 300 million annually by the end of the second quarter 2009, with the full effects expected to appear in the second half of 2009. These plans are progressing in line with expectations,” said Dick Komiyama, President, Sony Ericsson. “We are committed to executing our alignment plan as speedily as possible to ensure we have the right size and organisational structure to return the business to healthy profitability.”

During the third quarter Sony Ericsson announced PlayNow™ plus, the next step in its music service offering. PlayNow™ plus is a high speed and high quality music download service for both the phone and PC that will launch in the fourth quarter with Telenor in Sweden with a special edition Sony Ericsson W902 Walkman® phone integrated with the PlayNow™ plus service. Further roll-outs of the service are planned with other network partners around the world in early 2009.

Sony Ericsson also announced a number of new phones in the quarter, including three new Walkman® phones, its first UMA handset (G705u) and the first models with integrated You Tube™ connectivity (W595, W902, G705). In addition, Sony Ericsson started a major marketing initiative to launch its first multimedia convergence phone under the new sub-brand; Xperia™, and started shipping the phone, the Xperia™ X1, at the end of the quarter.

As communicated previously, Sony Ericsson paid a second dividend to the parent companies totalling Euro 300 million (Euro 150 million each) in the quarter based on 2007 earnings, and at the end of September 2008 Sony Ericsson had net cash of Euro 1.4 billion.

Sony Ericsson forecasts that the global handset market for 2008 will grow at a rate of around 10% from more than 1.1 billion units in 2007, while the industry ASP will continue to decline. The majority of this growth is expected to be in emerging markets where lower priced phones dominate.
