**Intershop Communications Reports  
Fourth Quarter and Full Year 2003 Financial Results**

*Positive Net Result For the Fourth Quarter 2003*

**Jena, Germany February 13, 2004 - Intershop Communications AG (Prime Standard: ISH1, Nasdaq: ISHP)**  
today announced financial results for the fourth quarter and full year 2003, ended December 31, 2003.

Revenue totaled Euro 4.6 million in the fourth quarter of 2003, as compared to Euro 6.5 million in the third quarter of 2003 and Euro 12.0 million in the fourth quarter of 2002. License revenue totaled Euro 1.5 million in the fourth quarter of 2003, as compared to Euro 2.2 million in the third quarter of 2003 and Euro 6.5 million in the fourth quarter

of 2002. Revenue for the full year of 2003 totaled Euro 23.2 million, as compared to Euro 45.1 million for the full year of 2002.

Intershop further reduced its total operational cost (cost of revenue plus operating expense) in the fourth quarter of 2003, with total operational cost declining 33% sequentially to Euro 7.2 million. Compared to the fourth quarter of 2002, Intershop reduced its total operational cost by Euro 6.3 million or 47%. Due to significant restructuring and efficiency measures implemented throughout 2003, Intershop reduced its total annual operational cost in 2003 by 39%, to Euro 45.0 million.

As a result of the continued reduction in total operational cost and other income in connection with terminating business operations in France, Intershop recorded Euro 0.1 in net income in the fourth quarter of 2003 million or Euro 0.00 per share, compared to a net loss of Euro 3.8 million or a net loss of Euro 0.17 per share in the third quarter of 2003. In comparison, Intershop's net loss in the fourth quarter of 2002 was Euro 1.0 million or a net loss of Euro 0.05 per share. For the full year of 2003, Intershop's net loss totaled Euro 18.6 million or a net loss of Euro 0.90 per share, compared to a net loss of Euro 27.6 million or a net loss of Euro 1.47 per share for the full year of 2002, a year-over-year reduction of 32%.

Total cash including cash, cash equivalents, marketable securities, and restricted cash declined from Euro 10.9 million as of September 30, 2003 to Euro 8.8 million as of December 31, 2003. Total cash includes freely available cash, which decreased from Euro 4.2 million as of September 30, 2003 to Euro 2.6 million as of December 31, 2003.

### **Operational Highlights for the Fourth Quarter of 2003**

- In the fourth quarter of 2003 Intershop continued to focus on empowering enterprises to migrate their disparate e-commerce initiatives onto Intershop's more powerful Enfinity platform with centralized management. Intershop's multi-channel e-commerce software Enfinity allows multiple buying and selling channels to be integrated into a single platform, providing an efficient and cost-effective alternative to conventional e-commerce applications. Enfinity thus fosters more efficient relationships with consumers, business partners, and suppliers.
- Intershop sold 10 new Enfinity product family configurations, including Enfinity platforms and solutions during the fourth quarter. In total, 456 Enfinity configurations have been sold globally as of December 31, 2003.
- Intershop customers in the fourth quarter of 2003 included HP, MAN, Otto, Deutsche Telekom, DaimlerChrysler Group subsidiary Smart GmbH, and KarstadtQuelle Group subsidiary Itellium Systems and Services GmbH.
- In the fourth quarter of 2003, Intershop implemented e-commerce solutions for retailer Jelmoli Versand AG, a subsidiary of the Swiss Heine Group, and SportScheck GmbH, a leading German sporting goods retailer, among others.
- Intershop's Enfinity-based software solutions continue to be an important driver of electronic commerce. According to industry analysis performed by Nielsen//NetRatings in September 2003, four out of five German online shops ran on Intershop's Enfinity solutions, including heavily visited websites such as Otto.de, Tchibo.de, T-Com.de, and Quelle.de.
- Intershop employed 278 full-time equivalent employees as of December 31, 2003, compared to 326 full-time equivalent employees as of September 30, 2003. The sequential reduction in headcount is largely due to the completion of restructuring measures announced on July 2, 2003. These measures included the termination of business operations in France, the transfer of Intershop's sales activities to local distributors in Sweden, Norway, and Denmark as well as reductions in the number of full-time employees in Germany. Furthermore, Intershop has transferred its sales and marketing operations in the United Kingdom to a local distributor, effective January 1, 2004.

## Management Review

Dr. Juergen Schoettler, Chief Executive Officer commented, Faced with challenging market conditions, Intershop ended the fourth quarter of 2003 with total revenues of Euro 4.6 million, resulting in full year 2003 total revenue of Euro 23.2 million. In response to the lower sales levels, Intershop has realigned the Company's business operations throughout 2003. In the course of these restructurings, Intershop shifted its European sales activities outside Germany to local distributors and reduced its total operational expenses by 39% year over year. As a result, Intershop reduced its full year 2003 net loss by 32% year over year.

Stabilizing the Company's cash position and generating positive operating cash flows remain top priorities. Parallel to these efforts, the Company is exploring external funding opportunities from financial as well as strategic investors. Through these activities and by executing on the planned delisting of Intershop's American Depositary Receipts (ADRs) from the Nasdaq National Market on February 17, 2004, we expect to facilitate our search for potential investors while at the same time further reducing operational costs.

Looking ahead, Intershop will launch Enfinity Suite 6, the latest version of its multi-channel e-commerce software, on March 18, 2004 at CeBIT in Hannover, Germany. The new Enfinity Suite 6 package will include six function modules, which could be deployed as a unified commerce solution or as separate applications, including: Consumer Channel, Business Channel, Partner Channel, Supplier Channel, Procurement Channel, and Content Channel. Each individual package will be optimized for the use of web services and fully supports both Linux and blade systems. With Enfinity Suite 6, Intershop continues its tradition as an innovator in e-commerce software.

## Business Outlook

Based on a reduced total operational cost base achieved in 2003 and against the backdrop of renewed signs of a recovery in corporate IT spending patterns in 2004, the Company expects to break even on an annual net income basis in 2004.

## About Intershop

Intershop Communications AG (Nasdaq: ISHP; Prime Standard: ISH1) is a leading provider of software solutions that help organizations evolve their trading relationships with consumers and business partners online. Founded in 1992, Intershop has a long tradition of driving innovation in e-commerce by automating and simplifying sales and buying processes. Intershop Solutions enable organizations to consolidate and manage unlimited online commerce channels on a single platform. As a result, Intershop customers benefit from reduced operating expenses and competitive advantages in their online sales activities. More than 300 enterprise customers worldwide, including Hewlett-Packard, BMW and Homebase, run Intershop Solutions. Four of the five largest e-commerce sites in Germany rely on Intershop Solutions: Otto, Tchibo, Deutsche Telekom, and Quelle. Intershop is headquartered in Jena, Germany, and has branch offices in the United States, Europe and Asia. More information about Intershop can be found on the Web at <http://www.intershop.com>.
