FORWARD LOOKING STATEMENTS

The following discussion and explanations should be read in conjunction with the financial statements and related notes contained elsewhere in this Form 10-QSB. Certain statements made in this discussion are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by terminology such as "may," "will," "should," "expects," "intends," "anticipates," "believes," "estimates," "predicts," or "continue" or the negative of these terms or other comparable terminology. Because forward-looking statements involve risks and uncertainties, there are important factors that could cause actual results to differ materially from those expressed or implied by these forward-looking statements. Although Patron Systems believes that expectations reflected in the forward-looking statements are reasonable, it cannot guarantee future results, performance or achievements. Moreover, neither Patron Systems nor any other person assumes responsibility for the accuracy and completeness of these forward-looking statements. Patron Systems is under no duty to update any forward-looking statements after the date of this report to conform such statements to actual results.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
SEPTEMBER 30, 2006

NOTE 1 - BASIS OF INTERIM FINANCIAL STATEMENT PRESENTATION

The accompanying unaudited Condensed Consolidated Financial Statements of Patron Systems, Inc. and subsidiaries (the "Company," "Patron," "we," "us," or "our") have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to Form 10-QSB. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows for all periods presented have been made. The results of operations for the three-month and nine-month periods ended September 30, 2006 are not necessarily indicative of the operating results that may be expected for the entire year ending December 31, 2006.

This form 10-QSB should be read in conjunction with the Company's 10-KSB for the year ended December 31, 2005.

NOTE 2 - THE COMPANY

ORGANIZATION AND DESCRIPTION OF BUSINESS

Patron Systems, Inc. ("Systems") is a Delaware corporation formed in April 2002 to provide comprehensive, end-to-end information security solutions to global corporations and government institutions.

Pursuant to an Amended and Restated Share Exchange Agreement dated October 11, 2002, Combined Professional Services ("CPS"), Systems and the stockholders of Systems consummated a share exchange ("Share Exchange"). As a result of the Share Exchange, the former stockholders of Systems became the majority stockholders of CPS. Accordingly, Systems became the accounting acquirer of CPS and the exchange was accounted for as a reverse merger and recapitalization of Systems. CPS subsequently merged with Systems, with Systems surviving the merger. The combined entity continued to use the name Patron Systems, Inc.

ANNUAL MEETING OF STOCKHOLDERS

On July 20, 2006, the Company held its annual meeting of stockholders. The stockholders approved the election of three directors: Mr. Robert Cross to serve until the annual meeting of stockholders in 2007; Mr. Braden Waverley to serve until the annual meeting of stockholders in 2008; and Mr. George Middlemas to serve until the annual meeting of stockholders in 2009. Additionally, the stockholders approved the three other proposals made as part of the 2006 proxy statement including the adoption of the Patron Systems, Inc. 2006 Stock Incentive Plan which provides for the grant of up to 5.6 million shares of common stock underlying stock options and other awards under the plan and the approval of an amendment to the Second Amended and Restated Certificate of Incorporation, as amended, to provide for a 1-for-30 reverse stock split of the Company's issued and outstanding common stock.

REVERSE STOCK SPLIT AND AMENDMENT TO CERTIFICATE OF INCORPORATION

On July 20, 2006, the Company's stockholders approved an amendment to its Second Amended and Restated Certificate of Incorporation, as amended, to provide for a 1-for-30 reverse stock split of our issued and outstanding Common Stock. Effective July 31, 2006, the Company's Second Amended and Restated Certificate of

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

Incorporation, as amended, to provide for a 1-for-30 reverse stock split of our issued and outstanding Common Stock was declared effective. All share information included in the accompanying financial statements and notes thereto give retroactive effect to the reverse split.

7

CONSOLIDATION OF SUBSIDIARIES

Effective September 19, 2006, we merged our wholly-owned subsidiaries Entelagent, CSSI and PILEC into our company through the filing with the Secretary of State of the States of Delaware and California, a Certificate of Ownership and Merger merging Entelagent Software Corp., (a California corporation), Complete Security Solutions, Inc., (a Delaware corporation) and PILEC Disbursement Company, (a Delaware corporation) into Patron Systems, Inc., (a Delaware corporation).

NOTE 3 - LIQUIDITY AND FINANCIAL CONDITION

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company incurred a net loss of \$7,053,184 for the nine months ended September 30, 2006, which includes an aggregate of \$1,436,574 of non-cash charges including the conversion option cost for bridge note and subordinated note holders, non-cash interest expense, the amortization of deferred compensation and the charge for stock option based compensation. The Company used net cash in its operating activities of \$5,017,206 during the nine months ended September 30, 2006. The Company's working capital deficiency at September 30, 2006 amounted to \$5,215,607 and the Company is continuing to experience shortages in working capital. The Company is also involved in litigation and is being investigated by the Securities and Exchange Commission with respect to certain of its press releases and its use of form S-8 to register shares of common stock issued to certain consultants (Note 15). The Company cannot provide any assurance that the outcome of these matters will not have a material adverse affect on its ability to sustain the business. These matters raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that may result from the outcome of this uncertainty.

The Company expects to continue incurring losses for the foreseeable future due to the inherent uncertainty that is related to establishing the commercial feasibility of technological products and developing a presence in new markets. The Company's ability to successfully market its software products, grow revenue and generate cash flows of certain businesses it acquired in 2005 is critical to the realization of its business plan. The Company raised \$5,640,501 of gross proceeds (\$5,301,450 net proceeds after the payment of certain transaction expenses) in financing transactions during the nine months ended September 30, 2006. The Company used \$5,017,206 of these proceeds to fund its operations and a net of \$607,152 in investing activities. On January 12, 2006, the Company offered its creditors and claimants an agreement to receive Series A-1 Preferred Stock, par value \$0.01 per share ("Series A-1 Preferred") for amounts owed to the holders of the Company's indebtedness (including lenders, past-due trade accounts, and employees, consultants and other service providers with claims for fees, wages or expenses) (Note 16). As of September 30, 2006, creditors representing approximately 93% of the Company's outstanding claims accepted this proposal by signing and returning to the Company the Stock Subscription Agreement and Mutual Release. On July 21, 2006, the Company's Board of Directors approved the completion of the creditor and claimant liabilities restructuring. A total of \$29,594,442 of debts, liabilities and other claims were settled by

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

the issuance of Series A-1 Preferred Stock. In addition, through July 21, 2006, the Company settled \$382,584 in claims for \$12,140 in cash. The total of all the settlements for Series A-1 Preferred and the cash settlements through July 21, 2006 represents 94% of the outstanding claims. The Company is currently unable to provide assurance that the acceptance of the claims settlement will actually improve the Company's ability to fund the further development of its business plan or improve its operations.

On July 12, 2006, the Board of Directors ratified, approved and adopted the indemnification and escrow agreements that the Company has entered into with its legal counsel, Stubbs, Alderton & Markiles, LLP. Accordingly, cash that was previously held in escrow for general working capital purposes, including the repayment of outstanding obligations, under the Company's merger agreement with Entelagent and the Series A Preferred Stock Financing documents was used to fund general operating activities.

The Company is currently in the process of attempting to raise additional capital and has taken certain steps to conserve its liquidity while it continues to integrate the businesses acquired in 2005. Although management believes that the Company has access to capital resources, the Company has not secured any commitments for additional financing at this time nor can the Company provide any assurance that it will be successful in its efforts to raise additional capital and/or successfully execute its business plan.

8

NOTE 4 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Entelagent Software Corporation, Complete Security Solutions, Inc. and PILEC Disbursement Company, which were merged into the Company on September 19, 2006. The accounts of LucidLine, Inc. have been included in discontinued operations through April 18, 2006, the date on which LucidLine was sold (Note 19). All significant inter-company transactions have been eliminated.

CASH

The Company considers all highly liquid securities purchased with original maturities of three months or less to be cash.

CONCENTRATION OF CREDIT RISK

The Company maintains cash with major financial institutions. Cash is insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$100,000 at each institution. From time to time amounts may exceed the FDIC limits. At September 30, 2006 the uninsured bank cash balances were \$0. The Company has not experienced any losses on these accounts.

REVENUE RECOGNITION

The Company derives revenues from the following sources: (1) sales of computer software, which includes new software licenses and software updates and product support revenues and (2) services, which include internet access, back-up, retrieval and restoration services and professional consulting services.

The Company applies the revenue recognition principles set forth under AICPA

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

Statement of Position ("SOP") 97-2 "Software Revenue Recognition" and Securities and Exchange Commission Staff Accounting Bulletin ("SAB") 104 "Revenue Recognition" with respect to its revenue. Accordingly, the Company records revenue when (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred, (iii) the vendor's fee is fixed or determinable, and (iv) collectability is reasonably assured.

The Company generates revenues through sales of software licenses and annual support subscription agreements, which include access to technical support and software updates (if and when available). Software license revenues are generated from licensing the rights to use products directly to end-users and through third party service providers.

Revenues from software license agreements are generally recognized upon delivery of software to the customer. All of the Company's software sales are supported by a written contract or other evidence of sale transaction such as a customer purchase order. These forms of evidence clearly indicate the selling price to the customer, shipping terms, payment terms (generally 30 days) and refund policy, if any. The selling prices of these products are fixed at the time the sale is consummated.

Revenue from post-contract customer support arrangements or undelivered elements are deferred and recognized at the time of delivery or over the period in which the services are performed based on vendor specific objective evidence of fair value for such undelivered elements. Vendor specific objective evidence is typically based on the price charged when an element is sold separately or, if an element is not sold separately, on the price established by an authorized level of management, if it is probable that the price, once established, will not change before market introduction. The Company uses the residual method prescribed in SOP 98-9, "Modification of SOP 97-2, Software Revenue Recognition With Respect to Certain Transaction" to allocate revenues to delivered elements once it has established vendor-specific objective evidence of fair value for such undelivered elements.

9

Professional consulting services are billed based on the number of hours of consultant services provided and the hourly billing rates. The Company recognizes revenue under these arrangements as the service is performed.

Revenue from the resale of third-party hardware and software is recognized upon delivery provided there are no further obligations to install or modify the hardware or software. Revenue from the sales of hardware/software is recorded at the gross amount of the sale when the contract satisfies the requirements of EITF 99-19 "Reporting Revenue Gross as a Principal versus Net as Agent."

BUSINESS COMBINATIONS

In accordance with business combination accounting, the Company allocated the purchase price of acquired companies to the tangible and intangible assets acquired, liabilities assumed, as well as in-process research and development based on their estimated fair values. The Company engaged a third-party appraisal firm to assist management in determining the fair values of certain assets acquired and liabilities assumed. Such a valuation requires management to make significant estimates and assumptions, especially with respect to intangible assets.

Management makes estimates of fair value based upon assumptions believed to be reasonable. These estimates are based on historical experience and information

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

obtained from the management of the acquired companies. Critical estimates in valuing certain of the intangible assets include but are not limited to: future expected cash flows from license sales, maintenance agreements, customer contracts and acquired developed technologies; expected costs to develop the in-process research and development into commercially viable products; the acquired company's brand awareness and market position, as well as assumptions about the period of time the acquired brand will continue to be used in the combined company's product portfolio; and discount rates. These estimates are inherently uncertain and unpredictable. Assumptions may be incomplete or inaccurate, and unanticipated events and circumstances may occur which may affect the accuracy or validity of such assumptions, estimates or actual results.

ACCOUNTS RECEIVABLE

The Company adjusts its accounts receivable balances that it deems to be uncollectible. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in the Company's existing accounts receivable. The Company reviews its allowance for doubtful accounts on a monthly basis and determines the allowance based on an analysis of its past due accounts. All past due balances that are over 90 days are reviewed individually for collectability. Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote.

PROPERTY AND EQUIPMENT

Property and equipment is stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets (generally three to five years). Maintenance and repairs are charged to expense as incurred; cost of major additions and betterments are capitalized. When property and equipment is sold or otherwise disposed of, the cost and related accumulated depreciation are eliminated from the accounts and any resulting gains or losses are reflected in the statement of operations in the period of disposal.

GOODWILL AND INTANGIBLE ASSETS

The Company accounts for Goodwill and Intangible Assets in accordance with Statement of Financial Accounting Standards ("SFAS") No. 141, "Business Combinations" and SFAS No. 142, "Goodwill and Other Intangible Assets." Under SFAS No. 142, goodwill and intangibles that are deemed to have indefinite lives are no longer amortized but, instead, are to be reviewed at least annually for impairment. Application of the goodwill impairment test requires judgment, including the identification of reporting units, assigning assets and liabilities to reporting units, assigning goodwill to reporting units, and determining the fair value. Significant judgments required to estimate the fair value of reporting units include estimating future cash flows, determining appropriate discount rates and other assumptions. Changes in these estimates and assumptions could materially affect the determination of fair value and/or goodwill impairment for each reporting unit. We have recorded goodwill in connection with the Company's acquisitions described in Note 5 amounting to \$22,440,412. The Company's annual impairment review of goodwill resulted in goodwill impairment charges totaling \$12,929,696 for the year ended December 31,

2005 (Note 5) resulting in \$9,510,716 in goodwill at September 30, 2006. Intangible assets continue to be amortized over their estimated useful lives. The Company evaluated the carrying amounts of its goodwill and intangible assets

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

as of September 30, 2006 and determined that impairment charges are not necessary.

LONG LIVED ASSETS

The Company periodically reviews the carrying values of its long lived assets in accordance with SFAS 144, "Long Lived Assets" when events or changes in circumstances would indicate that it is more likely than not that their carrying values may exceed their realizable value and records impairment charges when necessary. The Company's review of the carrying values of its long lived assets resulted in an impairment charge of \$1,705,455 for the year ended December 31, 2005 (Note 8).

USE OF ESTIMATES IN PREPARING FINANCIAL STATEMENTS

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenue and expenses during the reporting period.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts reported in the balance sheet for cash, accounts receivable, accounts payable accrued expenses, advances from stockholders and all note obligations classified as current liabilities approximate their fair values based on the short-term maturity of these instruments.

CONVERTIBLE PREFERRED STOCK

The Company accounts for conversion options embedded in convertible preferred stock in accordance with Statement of Financial Accounting Standard ("SFAS") No. 133 "Accounting for Derivative Instruments and Hedging Activities" ("SFAS 133") and Emerging Issues Task Force Issue ("EITF") 00-19 "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock" ("EITF 00-19"). SFAS 133 generally requires companies to bifurcate conversion options embedded in convertible notes and preferred shares from their host instruments and to account for them as free standing derivative financial instruments in accordance with EITF 00-19. SFAS 133 provides for an exception to this rule when convertible notes and mandatorily redeemable preferred shares, as host instruments, are deemed to be conventional as that term is described in the implementation guidance provided in paragraph 61 (k) of Appendix A to SFAS 133 and further clarified in EITF 05-2 "The Meaning of Conventional Convertible Debt Instrument" in Issue No. 00-19.

SFAS 133 provides for an additional exception to this rule when the economic characteristics and risks of the embedded derivative instrument are clearly and closely related to the economic characteristics and risks of the host instrument.

The Company determined that the conversion option embedded in its Series A Convertible Preferred Stock, par value \$0.01 per share ("Series A Preferred"), is not a free standing derivative in accordance with the implementation guidance provided in paragraph 61 (l) of Appendix A to SFAS 133.

STOCK BASED COMPENSATION

Prior to January 1, 2006, the Company accounted for employee stock transactions in accordance with Accounting Principles Board ("APB") Opinion No. 25 "Accounting for Stock Issued to Employees." The Company applied the proforma disclosure requirements of SFAS No. 123 "Accounting for Stock-Based

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

Compensation."

Effective January 1, 2006, the Company adopted SFAS No. 123R "Share Based Payment." This statement is a revision of SFAS Statement No. 123, and supersedes APB Opinion No. 25, and its related implementation guidance. SFAS 123R addresses all forms of share based payment ("SBP") awards including shares issued under employee stock purchase plans, stock options, restricted stock and stock appreciation rights. Under SFAS 123R, SBP awards result in a cost that is

11

measured at fair value on the awards' grant date, based on the estimated number of awards that are expected to vest. The Company adopted the modified prospective method with respect to accounting for its transition to SFAS 123(R) and measured unrecognized compensation cost as described in Note 18. Accordingly, the Company recognized in salaries and related expense in the statement of operations, \$307,629 and \$62,705 for the fair value of stock options expected to vest during the nine and three month periods ended September 30, 2006, respectively.

In the current quarter we have reclassified certain components of our stockholders' equity section to reflect the elimination of deferred compensation arising from unvested share-based compensation pursuant to the requirements of Staff Accounting Bulletin No. 107, regarding Statement of Financial Accounting Standards No. 123(R), "Share-Based Payment." This deferred compensation was previously recorded as an increase to additional paid-in capital with a corresponding reduction to stockholders' equity for such deferred compensation. This reclassification has no effect on net income or total stockholders' equity as previously reported. The Company will record an increase to additional paid-in capital as the share-based payments vest.

For the nine and three months ended September 30, 2005, the Company applied APB Opinion No. 25, "Accounting for Stock Issued to Employees." As required under SFAS No. 148, "Accounting for Stock-based Compensation - Transition and Disclosure," the following table presents pro-forma net income and basic and diluted earnings per share as if the fair value-based method had been applied to all awards during that period.

	NINE MONTHS ENDED SEPTEMBER 30, 2005	THREE MONTHS ENDED SEPTEMBER 30, 2005
	-----	-----
Net Loss, as reported	\$(19,910,022)	\$(12,677,722)
Stock-based employee compensation cost, under fair value accounting	(375,000)	(225,000)
	-----	-----
Pro-forma net loss under fair value method ...	\$(20,285,022)	\$(12,902,722)
	=====	=====
Net loss per share - basic and diluted, as reported	\$ (10.43)	\$ (6.18)
Net loss per share - basic and diluted, proforma	\$ (10.62)	\$ (6.29)

The fair value of all awards was estimated at the date of grant using the

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

Black-Scholes option pricing model with the following weighted average assumptions: risk free interest rate: 3.44% to 4.05%; expected dividend yield: 0%; expected option life: 3 to 4 years; volatility: 87% to 125%.

COMMON STOCK PURCHASE WARRANTS

The Company accounts for the issuance of common stock purchase warrants issued with registration rights in accordance with the provisions of EITF 00-19, "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock."

Based on the provisions of EITF 00-19, the Company classifies as equity any contracts that (i) require physical settlement or net-share settlement or (ii) gives the company a choice of net-cash settlement or settlement in its own shares (physical settlement or net-share settlement). The Company classifies as assets or liabilities any contracts that (i) require net-cash settlement (including a requirement to net cash settle the contract if an event occurs and if that event is outside the control of the company) or (ii) give the counterparty a choice of net-cash settlement or settlement in shares (physical settlement or net-share settlement).

12

INCOME TAXES

The Company accounts for income taxes under SFAS No. 109, "Accounting for Income Taxes." SFAS No. 109 requires the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statements and tax basis of assets and liabilities and for the expected future tax benefit to be derived from tax loss and tax credit carry forwards. SFAS No. 109 additionally requires the establishment of a valuation allowance to reflect the likelihood of realization of deferred tax assets.

NET LOSS PER SHARE

Basic net loss per common share is computed by dividing net loss by the weighted-average number of common shares outstanding during the period. Diluted net loss per common share also includes common stock equivalents outstanding during the period if dilutive. Diluted net loss per common share, if required, would be computed by dividing net loss by the weighted-average number of common shares outstanding without an assumed increase in common shares outstanding for common stock equivalents; as such common stock equivalents are anti-dilutive.

As a result of the consummation of the Share Exchange described in Note 2, the Company included 40,001 stock options with an exercise price of \$.30 per share that it issued to certain employees during 2002 in its calculation of weighted-average number of common shares outstanding for all periods presented.

Net loss per common share excludes the following outstanding options and warrants as their effect would be anti-dilutive:

	SEPTEMBER 30,	
	2006	2005
Options	463,970	373,000
Warrants	1,405,863	321,852
	1,869,833	694,852

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

=====

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In December 2004, the FASB issued SFAS No. 153, "Exchanges of Non-monetary Assets" (SFAS 153). SFAS 153 amends APB Opinion No. 29 to eliminate the exception for non-monetary exchanges of similar productive assets and replaces it with a general exception for exchanges of non-monetary assets that do not have commercial substance. A non-monetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. The provisions of SFAS 153 are effective for non-monetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. Earlier application is permitted for non-monetary asset exchanges occurring in fiscal periods beginning after December 16, 2004. The provisions of this statement are intended be applied prospectively. The adoption of this pronouncement did not have a material effect on the Company's financial statements.

In May 2005, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 154, "Accounting Changes and Error Corrections-a replacement of APB Opinion No. 20 and FASB Statement No. 3" ("SFAS 154"). This Statement replaces APB Opinion No. 20, Accounting Changes, and FASB Statement No. 3, Reporting Accounting Changes in Interim Financial Statements, and changes the requirements for the accounting for and reporting of a change in accounting principle. This Statement applies to all voluntary changes in accounting principle. It also applies to changes required by an accounting pronouncement in the unusual instance that the pronouncement does not include specific transition provisions. When a pronouncement includes specific transition provisions, those provisions should be followed.

APB Opinion No. 20 previously required that most voluntary changes in accounting principle be recognized by including in net income of the period of the change the cumulative effect of changing to the new accounting principle. This Statement requires retrospective application to prior periods' financial

13

statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. When it is impracticable to determine the period-specific effects of an accounting change on one or more individual prior periods presented, this Statement requires that the new accounting principle be applied to the balances of assets and liabilities as of the beginning of the earliest period for which retrospective application is practicable and that a corresponding adjustment be made to the opening balance of retained earnings (or other appropriate components of equity or net assets in the statement of financial position) for that period rather than being reported in an income statement. When it is impracticable to determine the cumulative effect of applying a change in accounting principle to all prior periods, this Statement requires that the new accounting principle be applied as if it were adopted prospectively from the earliest date practicable. This Statement is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The adoption of this pronouncement did not have a material effect on the Company's financial statements.

On June 29, 2005, the EITF ratified Issue No. 05-2, "The Meaning of 'Conventional Convertible Debt Instrument' in EITF Issue No. 00-19, 'Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

Company's Own Stock.'" EITF Issue 05-2 provides guidance on determining whether a convertible debt instrument is "conventional" for the purpose of determining when an issuer is required to bifurcate a conversion option that is embedded in convertible debt in accordance with SFAS 133. Issue No. 05-2 is effective for new instruments entered into and instruments modified in reporting periods beginning after June 29, 2005. The adoption of this pronouncement did not have a material effect on the Company's financial statements.

In September 2005, the EITF ratified Issue No. 05-4, "The Effect of a Liquidated Damages Clause on a Freestanding Financial Instrument Subject to EITF Issue No. 00-19, 'Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock.'" EITF 05-4 provides guidance to issuers as to how to account for registration rights agreements that require an issuer to use its "best efforts" to file a registration statement for the resale of equity instruments and have it declared effective by the end of a specified grace period and, if applicable, maintain the effectiveness of the registration statement for a period of time or pay a liquidated damage penalty to the investor. The Company is currently in the process of evaluating the effect that the adoption of this pronouncement may have on its financial statements.

In September 2005, the FASB ratified the Emerging Issues Task Force's ("EITF") Issue No. 05-7, "Accounting for Modifications to Conversion Options Embedded in Debt Instruments and Related Issues," which addresses whether a modification to a conversion option that changes its fair value affects the recognition of interest expense for the associated debt instrument after the modification and whether a borrower should recognize a beneficial conversion feature, not a debt extinguishment if a debt modification increases the intrinsic value of the debt (for example, the modification reduces the conversion price of the debt). This issue is effective for future modifications of debt instruments beginning in the first interim or annual reporting period beginning after December 15, 2005. The adoption of this pronouncement did not have a material effect on the Company's financial statements.

In September 2005, the FASB also ratified the EITF's Issue No. 05-8, "Income Tax Consequences of Issuing Convertible Debt with a Beneficial Conversion Feature," which discusses whether the issuance of convertible debt with a beneficial conversion feature results in a basis difference arising from the intrinsic value of the beneficial conversion feature on the commitment date (which is recorded in the stockholders' equity for book purposes, but as a liability for income tax purposes), and, if so, whether that basis difference is a temporary difference under FASB Statement No. 109, "Accounting for Income Taxes." This Issue should be applied by retrospective application pursuant to Statement 154 to all instruments with a beneficial conversion feature accounted for under Issue 00-27 included in financial statements for reporting periods beginning after December 15, 2005. The adoption of this pronouncement did not have a material effect on the Company's financial statements.

In February 2006, the FASB issued SFAS No. 155, "Accounting for Certain Hybrid Financial Instruments - an amendment of FASB Statements No. 133 and 150." SFAS No. 155 (a) permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation, (b) clarifies that certain instruments are not subject to the requirements of SFAS 133, (c) establishes a requirement to evaluate interests in securitized financial assets to identify interests that may contain an embedded derivative requiring bifurcation, (d) clarifies what may be an embedded derivative for certain concentrations of credit risk and (e) amends SFAS 140 to eliminate certain prohibitions related to derivatives on a qualifying special-purpose entity. SFAS 155 is applicable to new or modified financial instruments in fiscal years beginning after September 15, 2006, though the provisions related

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

to fair value accounting for hybrid financial instruments can also be applied to existing instruments. Early adoption, as of the beginning of an entity's fiscal year, is also permitted, provided interim financial statements have not yet been issued. We are currently evaluating the potential impact, if any, that the adoption of SFAS 155 will have on our consolidated financial statements.

In March 2006, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 156, Accounting for Servicing of Financial Assets (SFAS No. 156). SFAS No. 156 amends SFAS No. 140 "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities," to require all separately recognized servicing assets and servicing liabilities to be initially measured at fair value, if practicable. SFAS No. 156 also permits servicers to subsequently measure each separate class of servicing assets and liabilities at fair value rather than at the lower of cost or market. For those companies that elect to measure their servicing assets and liabilities at fair value, SFAS No. 156 requires the difference between the carrying value and fair value at the date of adoption to be recognized as a cumulative effect adjustment to retained earnings as of the beginning of the fiscal year in which the election is made. SFAS No. 156 is effective for the first fiscal year beginning after September 15, 2006. We are currently evaluating the potential impact, if any, that the adoption of SFAS 156 will have on our consolidated financial statements.

In July 2006, the Financial Accounting Standards Board issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Interpretation is effective for fiscal years beginning after December 15, 2006. We have not yet completed our analysis of the impact this Interpretation will have on our financial condition, results of operations, cash flows or disclosures.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("SFAS 157"). This Standard defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The adoption of SFAS 157 is not expected to have a material impact on the Company's financial position, results of operations or cash flows.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the consolidated financial statements upon adoption.

NOTE 5 - BUSINESS COMBINATIONS

On February 25, 2005, the Company acquired Complete Security Solutions, Inc. ("CSSI") and LucidLine, Inc. ("LucidLine") in separate merger transactions. Additionally, on March 30, 2005, the Company acquired Entelagent Software Corp. ("Entelagent") in a merger transaction. The Company accounted for these business combinations in accordance with the provisions of SFAS 141 "Accounting for Business Combinations."

In connection with these three merger transactions, the Company paid, \$200,000 in cash, 496,667 shares of common stock with a fair market value of \$12,665,000,

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

subordinated promissory notes in the aggregate principal amount of \$4,500,000, warrants to purchase up to 75,001 shares of common stock which were valued at \$1,912,500. Direct expenses incurred by the Company to complete these transactions amounted to \$912,663. The total purchase price for the three companies amounted to \$20,190,133.

The allocation of the purchase price was based upon a valuation study performed by an independent outside appraisal firm. The purchase price allocation resulted in the allocation of \$3,101,000 to intangible assets, including \$2,570,000 to developed technology and \$190,000 to in-process research and development. Additionally, the purchase price allocation resulted in the allocation of \$22,440,412 to goodwill.

15

The Company performed its annual impairment test of goodwill at its designated valuation date of December 31, 2005 in accordance with SFAS 142. As a result of these tests, the Company determined that the recoverable amount of goodwill with respect to its business amounted to \$9,510,716. Accordingly, the Company recorded a goodwill impairment charge in the amount of \$12,929,696 for the year ended December 31, 2005. Additionally, after reevaluating the resources available to the Company, the strategic direction of the business as well as the revised business plans and financial projections, the Company, during the quarter ended December 31, 2005, recorded a \$1,705,455 charge for the impairment of the developed technology assets acquired in the CSSI and Entelagent acquisitions. The remaining amount of goodwill and intangible assets is presented net of such impairment charges recorded during the year ended December 31, 2005. There have been no new developments since December 31, 2005 which would give rise to an impairment charge.

On April 18, 2006, the Company entered into a Stock Purchase Agreement with Walnut Valley, Inc. pursuant to which the Company sold all of the outstanding shares of LucidLine, Inc. As a result, LucidLine has been treated as a discontinued operation in these financial statements (Note 19).

NOTE 6 - OTHER CURRENT ASSETS

Other current assets consist of the following:

	SEPTEMBER 30, 2006

Prepaid expenses	\$ 27,365
Deposits	30,639

Other current assets	\$ 58,004
	=====

NOTE 7 - PROPERTY AND EQUIPMENT

	SEPTEMBER 30, 2006

Computers	\$ 234,136
Furniture and fixtures	31,962

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

Leasehold improvements	4,490

sub-total	270,588
less: accumulated depreciation	(77,045)
Property and equipment, net	\$ 193,543
	=====

Depreciation expense amounted to \$44,425 and \$25,491 for the nine months ended September 30, 2006 and 2005, respectively.

16

NOTE 8 - INTANGIBLE ASSETS

The components of intangible assets as of September 30, 2006 are set forth in the following table:

	SEPTEMBER 30, 2006

Developed technology	\$ 2,570,000
Customer relationships	180,000
Trademarks and tradenames	161,000
In-process research and development	920,815

	3,831,815
Amortization and impairment charge	(2,395,048)

Intangible assets, net	\$ 1,436,767
	=====

The amortization of intangible assets will result in the following additional expense by year:

YEARS ENDED DECEMBER 31,	INTANGIBLE AMORTIZATION
-----	-----
2006	\$ 85,398
2007	367,070
2008	379,501
2009	310,666
2010	180,016
2011	101,686
2012	12,430

	\$1,436,767
	=====

During the year ended December 31, 2005, the Company recorded a \$1,705,455 charge for the impairment of the developed technology assets acquired in the CSSI and Entelagent acquisitions (Note 5).

The Company classifies amortization of developed technology as a component of cost of sales and amortization of customer relationship and trademarks and tradenames as a component of general and administrative expense. Amortization

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

expense amounted to \$192,420 and \$342,483 for the nine months ended September 30, 2006 and 2005, respectively. Included in these amounts is \$99,980 and \$272,792 for the nine months ended September 30, 2006 and 2005, respectively, which is classified as cost of sales.

NOTE 9 - DEMAND NOTES PAYABLE

Through December 31, 2004, the Company borrowed an aggregate amount of \$695,000 from several unrelated parties. At September 30, 2006, all of the notes were settled in the creditor and claimant liabilities restructuring. Interest expense on the notes amounted to \$20,750 and \$52,125 for the nine months ended September 30, 2006 and 2005, respectively.

The remaining demand note at September 30, 2006, which amounts to \$312,556, is payable to Lok Technology and is secured by Entelagent's accounts receivable, which approximate \$86,000 and \$106,000 at September 30, 2006 and 2005, respectively. The note bears interest at 15% per annum. Interest on this demand note amounted to \$35,163 for the nine months ended September 30, 2006 and \$23,442 for nine months ended September 30, 2005. As described in Note 15, on May 4, 2006, the Company became aware of a complaint that Lok Technologies, Inc. had filed in the Superior Court of California, County of Santa Clara on or about March 30, 2006 against the Company, Entelagent Software Corp. and unnamed defendants.

17

As of September 30, 2006, \$743,500 of the Demand Notes have been surrendered as payment for Series A-1 Preferred stock as part of the creditor and claimant liabilities restructuring (Note 16).

NOTE 10 - BRIDGE NOTES PAYABLE

INTERIM BRIDGE FINANCING I

On February 28, 2005, the Company completed a \$3,500,000 financing (the "Interim Bridge Financing I") through the issuance of 10% Senior Convertible Promissory Notes (the "Bridge I Notes") and warrants to purchase up to 58,348 shares of the Company's common stock ("Bridge I Warrants"). The warrants have a term of 5 years and an exercise price of \$21.00 per share. The aggregate fair value of the Bridge I Warrants amounts to \$1,487,500. Prior to final maturity, the Bridge I Notes may be converted into securities that would be issuable at the first closing of a subsequent financing by the Company, for such number of offered securities that could be purchased for the principal amount being converted. The Bridge I Notes had an initial term of 120 days (due on June 28, 2005) with interest at a contractual rate of 10% per annum and featured an option for the Company to extend the term for an additional 60 days to August 27, 2005.

In accordance with APB 14, "Accounting for Convertible Debt and Debt Issued with Stock Purchase Warrants," the Company allocated \$2,456,140 of the proceeds to the Bridge I Notes and \$1,043,860 of proceeds to the Bridge I Warrants. The difference between the carrying amount of the Bridge I Notes and their contractual redemption amount was accreted as interest expense to June 28, 2005, their earliest date of redemption.

On June 28, 2005, the Company elected to extend the contractual maturity date of the Bridge I Notes for an additional 60 days to August 27, 2005, which caused the contractual interest rate to increase to 12% per annum. In addition, the

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

Company was required to issue the 58,348 additional warrants (the "Bridge I Extension Warrants") to purchase such number of shares of common stock equal to 1/60 of a share for each \$1.00 of principal amount outstanding. The Bridge I Extension Warrants have a term of 5 years and an exercise price of \$21.00 per share.

The Company did not redeem the Bridge I Notes on August 27, 2005 and, as a result, the notes automatically became convertible into 0.128 shares of common stock for each \$1 of principal then outstanding in accordance with the original note agreement. Accordingly, the Company recorded a charge of \$3,500,000 in 2005 based upon the intrinsic value of this conversion option measured at the original issuance date of the note in accordance with EITF 00-27. The Company has filed with the SEC on July 24, 2006 a registration statement for the resale of the restricted shares of the Company's common stock issuable upon exercise of the conversion option that would be issued in this transaction.

Contractual interest expense on the Bridge I Notes amounted to \$123,665 and \$204,167 for the nine months ended September 30, 2006 and 2005, respectively, and is included as a component of interest expense in the accompanying statement of operations.

As of September 30, 2006, \$3,180,025 of the Bridge I Notes were surrendered as payment for Series A-1 Preferred stock as part of the creditor and claimant liabilities restructuring (Note 16). With the surrender of the Bridge I Notes in payment for Series A-1 Preferred stock under the creditor and claimant liabilities restructuring, conversion options associated with the surrendered Bridge I Notes are no longer exercisable and have been cancelled. As of September 30, 2006, \$319,975 of Bridge I notes remain outstanding. The registration statement filed on July 24, 2006 includes the resale of the 40,957 restricted shares of the Company's common stock issuable upon the exercise of the conversion option associated with the Bridge I Notes.

INTERIM BRIDGE FINANCING II

On June 6, 2005, the Company completed a \$2,543,000 financing (the "Interim Bridge Financing II") through the issuance of (i) 10% Junior Convertible Promissory Notes (the "Bridge II Notes") and (ii) warrants to purchase up to

18

42,388 shares of common stock (the "Bridge II Warrants"). The warrants have a term of 5 years and an exercise price of \$18.00 per share. The aggregate fair value of the Bridge II Warrants amounts to \$673,895. Prior to maturity, the Junior Convertible Promissory Notes may be converted into the securities offered by the Company at the first closing of a subsequent financing for the Company, for such number of offered securities as could be purchased for the principal amount being converted.

In accordance with APB 14, the Company allocated \$2,010,277 of the proceeds to the Bridge II Notes and \$532,723 of proceeds to the Bridge II Warrants. The difference between the carrying amount of the Bridge II Notes and their contractual redemption amount is being accreted as interest expense to October 3, 2005, their earliest date of redemption.

The Bridge II Notes have an initial term of 120 days (due on various dates beginning October 3, 2005) with interest at 10% per annum and feature an option for the Company to extend the term for an additional 60 days to various dates beginning December 2, 2005. Upon the extension of the maturity date of the Bridge II Notes, the contractual interest rate would increase to 12% per annum,

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

and the Company would be required to issue warrants (the "Bridge II Extension Warrants") to purchase such number of shares of the Company's common stock equal to 1/60th of a share for each \$1.00 of principal then outstanding. The Bridge II Extension Warrants, issuable upon extension of the maturity date of the Junior Convertible Promissory notes, feature a term of 5 years and an exercise price of \$18.00 per share. In addition, if the Bridge II Notes are not paid in full on or before the extended maturity date, each note becomes convertible into .128 shares of the Company's common stock for each \$1.00 of principal then outstanding. The intrinsic value of this conversion option measured at the issuance date of the notes amounts to \$2,543,000 and would be recognized as interest expense in accordance with EITF 00-27. The Company has agreed to file with the SEC, a registration statement for the resale of the restricted shares of its common stock issuable upon exercise of the conversion option that would be issuable in this transaction, on a best efforts basis.

The Company sold these securities to seven accredited investors introduced by Laidlaw, placement agent in the Interim Bridge Financing II. The Company incurred \$386,027 of fees in connection with this transaction including a cash fee of \$305,160 and \$80,867 for the fair value of warrants to purchase 4,243 shares of the Company's common stock at an exercise price of \$18.00 per share.

The Company elected to extend the due dates of these notes by an additional 60 days to various dates beginning December 2, 2005. In addition, the Company was required to issue Bridge II Extension Warrants to purchase 42,388 shares of the Company's common stock. The Bridge II Extension Warrants have at term of 5 years and an exercise price of \$18.00 per share.

The Company did not redeem the Bridge II Notes on December 2, 2005 and, as a result, the notes automatically became convertible into 0.128 shares of common stock for each \$1 of principal then outstanding in accordance with the original note agreement. Accordingly, the Company recorded a charge of \$2,543,000 based upon the intrinsic value of this conversion option measured at the original issuance date of the note in accordance with EITF 00-27. The Company has filed with the SEC on July 24, 2006 a registration statement for the resale of the restricted shares of the Company's common stock issuable upon exercise of the conversion option that would be issued in this transaction.

Contractual interest expense on the Bridge II Notes amounted to \$117,261 and \$84,767 for the nine months ended September 30, 2006 and 2005, respectively and is included as a component of interest expense in the accompanying statement of operations.

As of September 30, 2006, \$2,343,000 of the Bridge II Notes were surrendered as payment for Series A-1 Preferred stock as part of the creditor and claimant liabilities restructuring (Note 16). With the surrender of the Bridge II Notes in payment for Series A-1 Preferred stock under the creditor and claimant liabilities restructuring, the conversion options associated with the surrendered Bridge II Notes are no longer exercisable and have been cancelled. As of September 30, 2006, \$200,000 of the Bridge II Notes remain outstanding. The registration statement filed on July 24, 2006 includes the resale of the 25,600 restricted shares of the Company's common stock issuable upon the exercise of the conversion option associated with the Bridge II Notes.

INTERIM BRIDGE FINANCING III

Beginning on July 1, 2005, and continuing through December 31, 2005, the Company completed, through 12 separate fundings, a \$5,234,000 financing (the "Interim

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

Bridge Financing III") through the issuance of (i) 10% Junior Convertible Promissory Notes (the "Bridge III Notes") and (ii) warrants to purchase up to 87,235 shares of common stock (the "Bridge III Warrants"). The warrants have a term of 5 years and an exercise price of \$18.00 per share. Prior to maturity, the Junior Convertible Promissory Notes may be converted into the securities offered by the Company at the first closing of a subsequent financing for the Company, for such number of offered securities as could be purchased for the principal amount being converted.

In accordance with APB 14, the Company allocated \$4,645,544 of the proceeds to the Bridge III Notes and \$587,595 of proceeds to the Bridge III Warrants. The difference between the carrying amount of the Bridge III Notes and their contractual redemption amount is being accreted as interest expense to various dates from November 1, 2005, their earliest date of redemption. Accretion of the aforementioned discount amounted to \$20,909 for the three months ended March 31, 2006 and is included as a component of interest expense in the accompanying statement of operations.

The Bridge III Notes had an initial term of 120 days (due on various dates beginning October 28, 2005) with interest at 10% per annum and feature an option for the Company to extend the term for an additional 60 days to various dates beginning December 28, 2005. Upon the extension of the maturity date of the Bridge III Notes, the contractual interest rate would increase to 12% per annum, and the Company would be required to issue warrants (the "Bridge III Extension Warrants") to purchase such number of shares of the Company's common stock equal to 1/60th of a share for each \$1.00 of principal then outstanding. The Bridge III Extension Warrants, issuable upon extension of the maturity date of the Junior Convertible Promissory Notes, feature a term of 5 years and an exercise price of \$18.00 per share. In addition, if the Bridge III Notes were not paid in full on or before the extended maturity date, each note became convertible into 0.128 shares of the Company's common stock for each \$1.00 of principal then outstanding. The intrinsic value of this conversion option measured at the issuance date of the notes amounts to \$5,234,000 and would have been recognized as interest expense in accordance with EITF 00-27. The Company agreed to file with the SEC, a registration statement for the resale of the restricted shares of its common stock issuable upon exercise of the conversion option that would be issuable in this transaction, on a best efforts basis.

Beginning on October 29, 2005, the Company elected to extend the contractual maturity date of the various Bridge III Notes for an additional 60 days to various dates beginning December 28, 2005, which caused the contractual interest rate to increase to 12% per annum. In addition, during the three month ended March 31, 2006, the Company was required to issue 39,917 additional warrants (the "Bridge III Extension Warrants"). The aggregate fair value of the warrants, which amounted to \$48,129 was recorded as a deferred financing cost and was being amortized over the 60-day extension period or until March 27, 2006 when the Bridge III Notes were surrendered as payment for the Series A-1 Preferred stock under the creditor and claimant liabilities restructuring. The Bridge III Extension Warrants have a term of 5 years and an exercise price of \$18.00 per share.

The Company did not redeem Bridge III Notes on contractual maturity dates that occurred through January 12, 2006 (the date of the Series A-1 creditor and claimant liabilities restructuring). As a result, \$3,400,000 of the Notes automatically became convertible into 0.128 shares of common stock for each \$1 of principal then outstanding in accordance with the original note agreement. This amounts to a total of 70,400 shares during the three months ended of March 31, 2006. Accordingly, the Company recorded a charge of \$550,000, in the three months ended March 31, 2006, based upon the intrinsic value of this conversion option measured at the original issuance date of the notes in accordance with EITF 00-27. With the surrender of the Bridge III Notes in payment for Series A-1 Preferred stock under the creditor and claimant liabilities restructuring, these

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

conversion options are no longer exercisable and have been cancelled.

As of September 30, 2006, all of the Bridge III Notes were surrendered as payment for Series A-1 Preferred stock as part of the creditor and claimant liabilities restructuring (Note 16).

Contractual interest expense on the Bridge III Notes amounted to \$153,036 and \$0 for the nine months ended September 30, 2006 and 2005, respectively, and is included as a component of interest expense in the accompanying statement of operations.

20

The Company sold these securities to Apex, Northwestern, and Advanced Equities. Funding for the Bridge III Notes included the conversion of \$1,650,000 of stockholder advances made during the period March 30, 2005 to June 30, 2005 into Bridge III Notes.

2006 BRIDGE NOTES

On January 18, 2006, the Company completed a financing of approximately \$540,000 in additional gross funds (the "2006 Bridge Note Financing") through the issuance of Subordinated Convertible Promissory Notes (the "2006 Bridge Notes") in the amount of \$720,001. The 2006 Bridge Note agreement provided for these notes to automatically convert into the same securities (consisting of shares of Series A Preferred Stock and warrants to purchase shares of the Company's common stock) offered by the Company in connection with its Series A Preferred Financing (as defined below). On March 27, 2006 (the date of the first closing of the Series A Preferred Financing), the 2006 Bridge Notes were converted into 7.2 Units in the Series A Preferred Financing described below. The \$180,000 difference between the gross proceeds received upon the original issuance of the notes and the redemption amount was recorded as an original issuance discount that was fully expensed during the nine months ended September 30, 2006.

Additionally, the Company paid Laidlaw & Company (UK) Ltd. (Laidlaw), as placement agent in the transaction, a fee of \$54,000 in conjunction with the 2006 Bridge Note Financing. This fee was fully amortized and recognized as interest expense during the nine months ended September 30, 2006.

INTERIM BRIDGE FINANCING IV

Beginning on July 18, 2006 and continuing through September 15, 2006, the Company obtained interim financing ("Interim Bridge Financing IV") totaling \$1,000,000 from Apex. This Interim Bridge Financing IV automatically converts into securities (consisting of shares of Series B Preferred Stock and warrants to purchase shares of the Company's common stock) offered by the Company in connection with its Series B Preferred Financing (see Note 20). On October 13, 2006, (the date of the first closing of the Series B Preferred Financing), the Interim Bridge Financing IV was converted into 10 Units in the Series B Preferred Financing described in Note 20 below.

NOTE 11 - RELATED PARTY TRANSACTIONS

EXPENSE REIMBURSEMENTS DUE TO OFFICERS AND STOCKHOLDERS

Certain stockholders and officers of the Company have paid expenses on the Company's behalf since its inception, of which \$4,458 remains outstanding at September 30, 2006. The amounts payable to such officers and stockholders are

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

due on demand.

As of September 30, 2006, \$135,535 of expense reimbursements were surrendered as payment for Series A-1 Preferred stock as part of the creditor and claimant liabilities restructuring (Note 16).

NOTES PAYABLE TO OFFICERS AND STOCKHOLDERS

As of September 30, 2006, \$284,212 of notes payable to officers and stockholders were surrendered as payment for Series A-1 Preferred stock as part of the creditor and claimant liabilities restructuring (Note 16).

CONSULTING AGREEMENT PAYABLE

On June 8, 2005, the Company negotiated a settlement regarding a consulting agreement payable with a related party. The terms of the settlement agreement terminated the prior agreement and reduced the remaining payments due under the contract to \$150,000 including a \$50,000 payment that was made upon the execution of the agreement and two additional \$50,000 payments including one to be made upon the completion of a follow-on-financing by the Company and one not later than September 30, 2005. The \$150,000 reduction in payments was recorded

21

as a reduction of general and administrative expense during the quarter ended June 30, 2005. Additionally, the settlement agreement terminated an obligation for the Company to issue 3,334 shares of unrestricted stock. The stock issuable under this commitment was recorded in 2004 as common stock issued in lieu of cash for services in the amount of \$78,900. The rescission of the stock issuable under this arrangement resulted in an additional reduction of \$78,900 in general and administrative expenses during the year ended December, 31, 2005.

The payment due on September 30, 2005 was not made by the Company. The \$100,000 balance due under this arrangement has been surrendered as payment for Series A-1 Preferred stock under the creditor and claimant liabilities restructuring described in Note 16.

NOTES PAYABLE (TO CREDITORS OF ACQUIRED BUSINESS)

The notes issued to creditors of Entelagent (in connection with the acquisition described in Note 5) include \$554,202 that is payable to related parties for settlements of accrued payroll, notes payable and other payables that remain outstanding at September 30, 2006. The original amount of these notes amounted to \$2,602,913. Aggregate interest expense on these notes amounted to \$74,184 and \$103,901 for the nine months ended September 30, 2006 and 2005, respectively.

During the nine months ended September 30, 2006, \$1,795,930 of the notes payable to creditors of acquired business were surrendered as payment for Series A-1 Preferred stock under the creditor and claimant liabilities restructuring. As of September 30, 2006, \$799,982 of the notes payable remain outstanding.

NOTE 12 - OTHER CURRENT LIABILITIES

Other current liabilities principally consist of \$439,146 of accrued payroll and sales tax liabilities and estimated penalties that the Company assumed in its acquisition of Entelagent (Note 5). The balance consists of various miscellaneous other current liabilities.

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

NOTE 13 - DEFERRED REVENUE

Deferred revenue at September 30, 2006 includes (1) \$153,348 for the fair value of remaining service obligations on maintenance and support contracts and (2) \$70,532 for contracts on which the revenue recognition is deferred until contract deliverables have been completed. Included in the contracts for which revenue recognition has been deferred are two contracts with a value of \$468,947 for which \$159,321 of revenue has been recognized and for which the majority of the remaining revenue is expected to be recorded during 2006.

NOTE 14 - ACCOMMODATION AGREEMENT

In November 2002, the Company entered into a financing arrangement with a third party financial institution (the "Lender"), pursuant to which the Company would borrow \$950,000 under a note to be collateralized by the pledge of 31,667 shares of registered stock from five different stockholders. In connection with this arrangement, the Company executed a series of Accommodation Agreements with these stockholders wherein each stockholder pledged their shares in return for the right to receive on or before November 17, 2003 the return of the pledged shares, or replacement shares in the event of foreclosure, and one additional share of common stock for every four shares pledged as compensation. The Company also agreed to use "best efforts" to register these shares with the Securities and Exchange Commission 12 months from the date of issue.

In December 2002, the Company received approximately \$450,000 of proceeds under the note and provided the Lender the pledged shares. Since that date, no additional proceeds were provided by the Lender and repeated attempts were made by the Company to secure the additional proceeds. The Company has effectively accounted for the Lender's failure to fund the facility and return the pledged shares as a foreclosure on the loan collateral. Accordingly, the Company recorded a \$1,047,728 loss during the year ended December 31, 2002.

22

On March 13, 2003, the Company issued 40,000 replacement shares with an aggregate fair value of \$3,708,000 to the stockholders who pledged their shares under the Accommodation Agreements. Accordingly, the Company recorded an additional loss of \$2,210,272 during the year ended December 31, 2003 for the difference between the loss the Company recorded upon the Lender's foreclosure of the collateral and the aggregate fair value of the replacement shares.

In addition, the Accommodation Agreements provided for the Company to pay a penalty in the event of its failure to cause the replacement shares to be registered on or before March 31, 2003. As a result, the Company has recorded stock based penalties for the fair value of 15,000 shares per quarter through December 31, 2005.

The total stock-based penalties associated with the Accommodation Agreements from April 2003 to December 31, 2005 were \$3,318,975. An aggregate of 165,000 shares were issuable through December 31, 2005 under the stock-based penalties associated with the Accommodation Agreements.

On March 27, 2006, the Company entered into an agreement to release and resolve all outstanding claims between the parties under the creditor and claimant liabilities restructuring (Note 16).

STOCK PLEDGE ARRANGEMENT

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

In April 2004, a stockholder of the Company entered into a one-year stock loan financing arrangement ("Stock Financing Facility") with a third party financial institution (the "Lender I"), pursuant to which such stockholder committed to obtain financing for the Company under a credit facility collateralized by the pledge of 22,834 shares of registered stock (the "Pledged Stock") that was pledged by a second stockholder (the "Pledging Stockholder"). In connection with this arrangement, the Company executed an accommodation agreement with the Pledging Stockholder committing to issue 22,834 shares of restricted stock (the "Replacement Stock") on April 2, 2005 (the "Termination Date") in the event of a loss of the Pledged Stock, plus a premium of 6,850 shares (the "Premium Shares") for entering into the agreement. The Company also agreed to register 10,000 shares of restricted stock held by the Pledging Stockholder (the "Held Stock") within thirty days of the agreement and to use its best efforts register with the SEC, both the Replacement Stock and Premium Stock within 12 months from their date of issue.

The Company received \$40,012 of funds but was unable to recover the Pledged Stock on the Termination Date. In addition, due to a delay in registering all of the shares under this arrangement, the Company entered into a secondary agreement with the Pledging Stockholder providing for: (1) the immediate issuance of the Replacement Shares and Premium Shares; (2) registration of the Replacement Shares, Premium Shares and Held Shares; (3) the retroactive accrual of a penalty from May 2, 2004 through the date the registration statement is filed payable in such number of shares that is equal to 15% of the Held Stock (prorated for each fraction of a year); and (4) the accrual of an additional penalty from April 2, 2005 through the date the registration statement is filed equal to 15% of the Replacement Stock and Premium Stock (prorated for each fraction of a year).

The Company recorded a charge of \$406,205 for the fair value of the Replacement Stock and Premium Stock (29,684 shares) issued to the Pledging Stockholder under this arrangement. Such charge, net of \$40,012 of advances received, is presented as a loss on collateralized financing arrangement in the accompanying statement of operations. The Company also recorded charges of \$8,560 and \$78,247 during the nine months ended September 30, 2006 and 2005, respectively for the fair value of 4,497 and 4,353 shares issuable during the nine months ended September 30, 2006 and 2005, respectively to the Pledging Stockholder as penalties for the delays in registering the stock. The charges associated with the penalties are included in stock based penalties under collateralized financing arrangement in the accompanying statements of operations.

23

NOTE 15 - COMMITMENTS AND CONTINGENCIES

SEC INVESTIGATION

Pursuant to Section 20(a) of the Securities Act and Section 21(a) of the Securities Exchange Act, the staff of the SEC (the "Staff"), issued an order (In the Matter of Patron Systems, Inc. - Order Directing a Private Investigation and Designating Officers to Take Testimony (C-03739-A, February 12, 2004)) (the "Order") that a private investigation (the "SEC Investigation") be made to determine whether certain actions of, among others, the Company, certain of its former officers and directors and others violated Section 5(a) and 5(c) of the Securities Act and/or Section 10 and Rule 10b-5 promulgated under the Exchange Act. Generally, the Order provides, among other things, that the Staff is investigating (i) the legality of two (2) separate Registration Statements filed by the Company on Form S-8, filed on December 20, 2002 and on April 2, 2003, as

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

amended on April 9, 2003 (collectively, the "Registration Statements"), covering the resale of, in the aggregate, 145,834 shares of common stock issued to various consultants of the Company, and (ii) whether in connection with the purchase or sale of shares of common stock, certain officers and directors of the Company and others (a) sold common stock in violation of Section 5 of the Securities Act and/or, (b) made misrepresentations and/or omissions of material facts and/or employed fraudulent devices in connection with such purchases and/or sales relating to certain of the Company's press releases regarding, among other items, proposed mergers and acquisitions that were never consummated. If the SEC brings an action against the Company, it could result in, among other items, a civil injunctive order or an administrative cease-and-desist order being entered against the Company, in addition to the imposition of a significant civil penalty. Moreover, the SEC Investigation and/or a subsequent SEC action could affect adversely the Company's ability to have its common stock become listed on a stock exchange and/or quoted on the NASD Bulletin Board or NASDAQ, the Company being able to sell its securities and/or have its securities registered with the SEC and/or in various states and/or the Company's ability to implement its business plan. The Company's legal counsel representing the Company in such matters has indicated that while the SEC Investigation is ongoing and the Company has not received correspondence from the SEC indicating that the matter is officially closed, the Staff has indicated that it does not intend to request additional information from the Company and that, at this time, it does not intend to recommend that the SEC bring an enforcement action against the Company, its former officers and directors.

LEGAL PROCEEDINGS

On January 5, 2006, Mark P. Gertz, Trustee in bankruptcy for Arter & Hadden, LLP, filed an Adversary Complaint for Recovery of Assets of the Estate in the United States Bankruptcy Court Northern District of Ohio Eastern Division, against the Company as successor in merger to Entelagent. Mr. Gertz seeks \$32,278 plus interest accruing at the statutory rate since July 15, 2003 for services rendered by Arter & Hadden, LLP to Entelagent. On September 11, 2006, the Company entered into a settlement and release agreement with Mark P. Gertz, Trustee in bankruptcy for Arter & Hadden, LLP which calls for the payment of \$32,500 in 13 installments of \$2,500.

On May 4, 2006, Patron became aware that Lok Technologies, Inc. had filed a complaint on or about March 30, 2006 against the Company, Entelagent Software Corp. and unnamed defendants in the Superior Court of California, County of Santa Clara alleging breach of contract, breach of duty of good faith and fair dealing and unjust enrichment and seeking damages, interest, disgorgement of any unjust enrichment, attorneys fees and cost. Prior to receipt of this notice of litigation, the Company had recorded a liability of \$320,000 plus accrued interest of \$159,432. The Company believes that it has defenses to these claims. The Company cannot provide any assurance that the ultimate settlement of this claim will not have a material adverse affect on its financial condition.

NOTE 16 - CREDITOR AND CLAIMANT LIABILITIES RESTRUCTURING

On January 12, 2006, the Company issued a Stock Subscription Agreement & Mutual Release ("the Original Release") to each creditor and claimant ("Subscriber") of the Company for purposes of entering into a final and binding settlement with respect to any and all claims, liabilities, demands, causes of action, costs, expenses, attorneys fees, damages, indemnities, and obligations of every kind and nature that the creditor and/or claimant may have with the Company ("Subscriber Claims"). Under terms of this agreement, the Company sold to the

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

Subscriber and the Subscriber purchased from the Company shares ("Stock") of its Series A-1 Preferred stock at a price of \$0.80 per share. The aggregate purchase price was equivalent to the value of the Subscriber Claims being settled through this settlement and release. Subscriber was deemed to have paid for the Stock through the settlement and release of Subscriber Claims. Each share of Stock was automatically convertible into 1/3 share of the Company's common stock upon the effectiveness of an amendment to the Company's certificate of incorporation which provided for a sufficient number of authorized but unissued and unreserved shares of the Company's common stock to permit the conversion of all issued and outstanding shares of Series A-1 Preferred. The Company issued the Series A-1 Preferred shares following the final determination of the claims and acceptance by the Company of each claimant submitted Stock Subscription Agreement and Mutual Release through countersignature thereof.

The Original Release also provided that in the event that (a) a bona fide sale or (series of related sales) by the Company of equity interests in the Company in an amount equal to or in excess of \$3,000,000 or (b) any merger, consolidation, recapitalization, reclassification, reincorporation, reorganization, share exchange, sale of all or substantially all of the assets of the Company or comparable transaction, was not consummated on or before March 31, 2006 (the "Termination Date"), the Stock Subscription Agreement & Mutual Release would terminate and be null and void, the Series A-1 Preferred issued to Subscriber would be cancelled and the Subscriber Claims would remain in full force and effect on their terms. Each Subscriber agreed not to transfer or sell any portion of the Stock until the next business day after the Termination Date, subject to (i) an effective registration under the Securities Act or in a transaction which is otherwise in compliance with the Securities Act, (ii) an effective registration under any applicable state securities statute or in a transaction otherwise in compliance with any applicable state securities statute, and (iii) evidence of compliance with the applicable securities laws of other jurisdictions. As described below, the Company completed the sale of \$4.8 million in equity securities under the Series A Preferred Financing on March 27, 2006 thereby eliminating the provision for automatic termination of this arrangement.

The Company has filed with the Securities and Exchange Commission on July 24, 2006 a registration statement ("Registration Statement") covering the resale of the underlying Stock and has agreed to use its best efforts to cause such Registration Statement to become effective as soon as practicable thereafter and in any event no later than 180 days from the date that the Company countersigns each Stock Subscription Agreement and Mutual Release. The Company shall keep the Registration Statement continuously effective under the Securities Act until the earlier of (i) the date when all shares of the Stock have been sold pursuant to the Registration Statement or an exemption from the registration requirements of the Securities Act, and (ii) two years from the effective date of the Registration Statement.

Through July 21, 2006, the Company issued additional Stock Subscription Agreements & Mutual Releases ("the Additional Release") to several creditors that had not signed the January 12, 2006 Original Release by April 30, 2006. The terms of the Additional Release were predominantly the same as the Original Release with the exception of the 120 day requirement for filing the Registration Statement.

On July 21, 2006, the Board of Directors authorized the completion of the Creditor and Claimant Liabilities Restructuring program. Under this program, claims totaling \$29,594,442 have been settled for 36,993,054 shares of Series A-1 Preferred Stock which were automatically converted, on July 31, 2006, into 12,331,056 shares of the Company's common stock. The total of all claims settled

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

represents 93% of the eligible claims. Additionally, the Company has settled claims totaling \$382,584 for \$12,140. The Company is currently unable to provide assurance that the acceptance of the claims settlement will actually improve the Company's ability to fund the further development of its business plan or improve its operations.

On July 31, 2006, following approval by the Company's stockholders, the Company amended its Second Amended and Restated Certificate of Incorporation, as amended, to affect a 1-for-30 reverse stock split.

LOSS (GAIN) ASSOCIATED WITH SETTLEMENT AGREEMENTS

During the nine months ended September 30, 2006 as part of the creditor and claimant liabilities restructuring, the Company settled a number of disputed and unresolved payables and outstanding claims resulting in a total net loss of \$505,910. Subsequent to the settlement of the creditor and claimant liabilities

25

restructuring for Series A-1 Preferred Stock, the Company also settled other claims that resulted in a gain of \$599,853, resulting in a net gain on settlement of \$93,944 for the nine months ended September 30, 2006.

Included among the claims settled for Series A-1 Preferred was a claim associated with Accommodation Agreements (Note 14). Settlement of this matter resulted in a gain of approximately \$3,022,000 which was offset by, among others, settlement losses associated with the Sherleigh Associates Profit Sharing Plan complaint (\$1,850,000), loss on the settlement of Richard Linting's lawsuit against the Company (\$1,129,000) and a loss associated with the reinstatement and subsequent settlement of the claim associated with the lawsuit brought by Marie Graul against the Company (\$751,377).

During the nine months ended September 30, 2005, the Company entered into a settlement agreement with Cook Associates to settle all claims related to a lawsuit filed by Cook Associates filed against the Company. This settlement resulted in the Company recognizing a gain on settlement of \$389,103.

NOTE 17 - SERIES A AND SERIES A-1 PREFERRED STOCK

On March 1, 2006, the Company filed with the Delaware Secretary of State a Certificate of Designation of Preferences, Rights and Limitations of Series A Convertible Preferred Stock and Series A-1 Convertible Preferred Stock designating the rights, preferences and privileges of 2,160 shares of Series A Convertible Preferred Stock and 50,000,000 shares of Series A-1 Convertible Preferred Stock.

SERIES A PREFERRED STOCK

The Series A Preferred Stock has a stated value of \$5,000 per share and carries a dividend of 10% per annum with such dividend accruing on a cumulative basis. The dividend is payable only (i) at such time as declared payable by the Board of Directors of the Company or (ii) in the event of liquidation, as part of the liquidation preference amount ("Liquidation Preference Amount"). Accrued but unpaid dividends on the Series A Preferred amount to \$246,968 at September 30, 2006.

The Series A Preferred is convertible, at the option of the holder, into shares of the Company's common stock ("Conversion Shares") at an initial conversion

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

price ("Initial Conversion Price") of \$2.40 per share based on the stated value of the Series A Preferred, subject to adjustment for stock splits, dividends, recapitalizations, reclassifications, payments made to Common Stock holders and other similar events and for issuances of additional securities at prices more favorable than the conversion price at the date of such issuance. The Company evaluated the conversion option at the commitment date of the financing in accordance with APB 14 and EITF 00-27 and determined that conversion price was not beneficial.

The Series A Preferred is mandatorily convertible into shares of the Company's common stock at the Initial Conversion Price, which is subject to adjustment as described above, on the date that: (i) there shall be an effective registration statement covering the resale of the Conversion Shares, (ii) the average closing price of the Company's common stock, for a period of 20 consecutive trading days is at least 250% of the then applicable Conversion Price, and (iii) the average daily trading volume of the Company's common stock for the same period is at least 8,334 shares.

The potential adjustment to the conversion price that would occur upon the completion of a subsequent financing transaction on terms more favorable than that of the Series A Preferred (if any) is considered to be a contingent conversion price in accordance with EITF 00-27. Accordingly, such adjustments would be measured and accounted for at the effective time of such adjustment, if any.

The Series A Preferred Liquidation Preference Amount is equal to 125% of the sum of: (i) the stated value of any then unconverted shares of Series A Preferred and (ii) any accrued and unpaid dividends thereon. An event of liquidation means any liquidation, dissolution or winding up of the Company, whether voluntary or involuntary, as well as any change of control of the Company which includes the sale by the Company of either (x) substantially all its assets or (y) the portion of its assets which comprises its core business technology, products or services.

26

SERIES A-1 PREFERRED STOCK

The Series A-1 Preferred Stock has a stated value of \$0.80 per share and carries a non-cumulative dividend of 5% per annum, with such dividend payable only (i) at such time as declared payable by the Board of Directors of the Company or (ii) in the event of liquidation, as part of the liquidation preference amount ("Series A-1 Liquidation Preference Amount"). The Series A-1 Liquidation Preference Amount is equal to the sum of: (i) the stated value of any then unconverted shares of Series A-1 Preferred and (ii) any accrued and unpaid dividends thereon. An event of liquidation means any liquidation, dissolution or winding up of the Company, whether voluntary or involuntary, as well as any change of control of the Company which includes the sale by the Company of either (x) substantially all its assets or (y) the portion of its assets which comprises its core business technology, products or services.

The Series A-1 Preferred is not convertible at the option of the holder. Each share of Series A-1 Preferred automatically converts into the Company's common stock, at a conversion price of \$2.40 per share based on the stated value of the Series A-1 Preferred, upon the effectiveness of an amendment to the Company's certificate of incorporation which provides for a sufficient number of authorized shares to permit the exercise or conversion of all issued and outstanding shares of Series A Preferred, Series A-1 Preferred and all options, warrants and other rights to acquire shares of the Company's common stock.

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

Through September 30, 2006, the Company has issued 36,993,054 shares of Series A-1 Preferred Stock which converted upon the effectiveness of an amendment to the Company's Second Amended and Restated Certificate of Incorporation to affect a 1-for-30 reverse stock split, into 12,331,056 shares of the Company's newly split common stock.

PRIVATE PLACEMENT OF SERIES A PREFERRED STOCK AND WARRANTS

In January 2006, the Company initiated a proposed \$5,400,000 financing transaction (the "Series A Preferred Financing") which would, for each \$100,000 Unit purchased, result in the issuance of (i) 20 shares of Series A Preferred Stock and (ii) warrants ("Investor Warrants") to purchase 13,888.9 shares of the Company's common stock. The minimum amount of the Series A Preferred Financing was \$3,000,000 ("Minimum Amount") and the maximum amount was \$5,400,000. Apex agreed to purchase up to \$1,500,000 which would all be available to fund the Minimum Amount, provided however, in the event that the Series A Preferred Financing was over-subscribed as to the Minimum Amount, then for each \$1.00 of such over subscription up to \$250,000, the Apex funding commitment would be reduced on a dollar for dollar basis, down to a minimum amount of \$1,250,000. Additionally, holders of the 2006 Bridge Notes were mandatorily obligated to exchange their 2006 Bridge Notes for Units in the Series A Preferred Financing upon consummation of the Series A Preferred Financing at the face value of their 2006 Bridge Notes. The issuance of Units to the holders of 2006 Bridge Notes counted toward satisfying the Minimum Amount.

The Investor Warrants have a term of 5 years and an exercise price of \$3.00 per share. Each Investor Warrant entitles the holder thereof to purchase 13,888.9 shares of the Company's common stock (the "Warrant Shares"), subject to anti-dilution provisions similar to those of the conversion rights of the Series A Preferred. The Company was obligated to include the Conversion Shares and the Warrant Shares in the Registration Statement originally filed on July 24, 2006. The Conversion Shares and the Warrant Shares have piggyback registration rights.

In connection with the Series A Preferred Financing, the Company retained Laidlaw as its non-exclusive placement agent ("Series A Preferred Placement Agent"). Laidlaw received, in its role as Series A Preferred Placement Agent, (i) a cash fee equal to 10% of all gross proceeds, excluding the Apex proceeds, delivered at each Closing and (ii) a warrant (the "Agent Warrants") to purchase the Company's common stock equal to 10% times the sum of (x) the Conversion Shares to be issued upon conversion of the shares of Series A Preferred issued at each Closing and (y) the number of shares of the Company's common stock reserved for issuance upon the exercise of the Investor Warrants issued at each closing. The Agent Warrants have a term of 5 years and an exercise price of \$3.00 per share. Additionally, the Company shall pay the Series A Preferred Placement Agent a non-accountable expense allowance of \$25,000.

On March 3, 2006, the investors in the Series A Preferred Financing agreed to a modification of the terms of this financing arrangement to waive the requirement for 100% completion of the creditor and claimant liabilities restructuring for release of the net proceeds of the Series A Preferred Financing in order to allow the Company to proceed with its business plan and to protect the investors in the Series A Preferred Financing. The modifications provided for the net proceeds of the Series A Preferred Financing to be deposited with an escrow agent whereby funds would be released to the Company to cover payroll, rent and other operating costs, including eligible payables not otherwise subject to the creditor and claimant liabilities restructuring, on a bi-monthly basis.

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

On March 27, 2006, the Company consummated the Series A Preferred Financing with the closing of funds totaling \$4,465,501, resulting in the issuance of 893 shares of Series A Preferred Stock and 620,233 common stock purchase warrants to the purchasers of the Series A Preferred Stock. This amount was comprised of \$720,001 associated with the conversion of the Bridge Notes, \$895,000 provided by Apex and \$2,850,500 from parties made available by the Series A Preferred Placement Agent. The Company also issued to Laidlaw 198,375 common stock purchase warrants, the "Agent Warrants", as Series A Preferred Placement Agent.

On April 3, 2006, the Company consummated an additional closing of the Series A Preferred Financing with the closing of funds totaling \$355,000, resulting in the issuance of 71 shares of Series A Preferred Stock and 49,306 common stock purchase warrants.

The 964 shares of Series A Preferred Stock outstanding as of April 3, 2006 are convertible, as described above, into 2,008,567 shares of the Company's newly split common stock.

In order to affect the availability of these funds to the Company prior to the completion of the creditor and claimant liabilities restructuring, the Company, on March 27, 2006, entered into a post-closing restricted cash escrow agreement ("Post-Closing Escrow Agreement") with an escrow agent ("Escrow Agent"). As of March 27, 2006, the Escrow Agent was provided \$2,183,026 in net offering proceeds. The escrow agent held the funds and made periodic disbursements to the Company on or after the 15th of each calendar month and on or after the last day of each calendar month. The Company was required to provide a detailed schedule of the mid-month, month-end and maximum monthly disbursement amounts to substantiate its request for a release of any funds. The Company is currently unable to provide assurance that the securing of additional funding, the completion of the creditor and claimant liabilities restructuring program and the acceptance by individual creditors of the claims settlement will actually improve the Company's ability to fund the further development of its business plan or improve its operations.

NOTE 18 - STOCKHOLDERS' EQUITY

ADDITIONAL SHARES ISSUED UNDER ANTI-DILUTION PROVISION

Effective April 1, 2006, the Company issued 251,175 shares of common stock under the provisions of an anti-dilution agreement associated with private placements of common stock that occurred in March, August and September 2004.

ISSUANCE OF COMMON STOCK PURCHASE WARRANTS

On January 28, 2006 the Company issued warrants for 20,000 shares at an \$18.00 per share exercise price to Apex in connection with the Interim Bridge Financing III financing. The aggregate fair value of these warrants amounted to \$20,316.

On February 13, 2006 the Company issued warrants for 6,000 shares at an \$18.00 per share exercise price to Apex in connection with the Interim Bridge Financing III financing. The aggregate fair value of these warrants amounted to \$6,634.

On February 21, 2006 the Company issued warrants for 1,250 shares at an \$18.00 per share exercise price to Apex in connection with the Interim Bridge Financing III financing. The aggregate fair value of these warrants amounted to \$1,382.

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

On March 1, 2006 the Company issued warrants for 6,417 shares at an \$18.00 per share exercise price to Apex in connection with the Interim Bridge Financing III financing. The aggregate fair value of these warrants amounted to \$10,029.

On March 17, 2006 the Company issued warrants for 3,750 shares at an \$18.00 per share exercise price to Apex in connection with the Interim Bridge Financing III financing. The aggregate fair value of these warrants amounted to \$5,861.

On March 22, 2006 the Company issued warrants for 2,500 shares at an \$18.00 per share exercise price to Apex in connection with the Interim Bridge Financing III financing. The aggregate fair value of these warrants amounted to \$3,907.

On March 27, 2006 the Company issued warrants for 620,233 shares at a \$3.00 per share exercise price to the investors in the Series A Preferred Financing in connection with the Series A Preferred Financing. Additionally, the Company issued 198,375 common stock purchase warrants at a \$3.00 per share exercise price to Laidlaw as placement agent in the Series A Preferred Financing.

On April 3, 2006 the Company issued warrants for 49,306 shares at a \$3.00 per share exercise price to Apex in connection with their investment in the Series A Preferred Financing.

ISSUANCE OF EMPLOYEE STOCK OPTIONS

During the nine months ended September 30, 2006, the Company issued stock options to employees to purchase 139,914 shares. These options include a grant to purchase 73,371 shares at \$1.65 per share, with a fair value of \$96,850, to the Chief Operating Officer of the Company, Mr. Braden Waverley, upon the signing of his employment agreement with the Company. Additionally, the Company granted options to purchase 26,204 shares at \$1.65 per share, with a fair value of \$34,589, to Mr. Martin T. Johnson, the Company's Chief Financial Officer, upon the signing of his employment agreement with the Company. On July 12, 2006, the Board of Directors approved the grant of 40,339 non-qualified stock options to 11 individuals. The exercise price for these options was \$1.35, the closing price for the Company's common stock on the date of grant, July 12, 2006.

The fair value of the unvested portion of stock options at September 30, 2006 is \$567,512 with a weighted-average remaining vesting period of 3.3 years.

SHARE-BASED COMPENSATION ARRANGEMENTS

The Company, since its inception has granted non-qualified stock options to various employees and non-employees at the discretion of the Board of Directors. Substantially all options granted to date have exercise prices equal to the fair value of underlying stock at the date of grant and terms of ten years. Vesting periods range from fully vested at the date of grant to four years.

As described in Note 4, the fair value of all awards was estimated at the date of grant using the Black-Scholes option pricing model. Assumptions relating to the estimated fair value of stock options that the Company granted prior to January 1, 2006 that were accounted for and recorded under the intrinsic value method prescribed under APB 25 are also described in Note 4.

On February 16, 2006, the Company issued an aggregate of 99,575 stock options to two newly hired executives upon signing their employment agreements. These options are exercisable at \$1.65 per share and have a term of ten years. The aggregate fair value of these options amounts to \$131,439. Assumptions relating to the estimated fair value of these stock options, which the Company is accounting for in accordance with SFAS 123(R) are as follows: risk-free interest rate of 4.45%; expected dividend yield zero percent; expected option life of four years; and current volatility of 125%.

The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant. The Company has not paid dividends to date and does not expect to pay dividends in the foreseeable future due to its substantial accumulated deficit and limited capital resources. Accordingly, expected dividends yields are currently zero. Historical cancellations and forfeitures of stock options granted through December 31, 2004 have been insignificant. However, the Company's operations and the nature of its business changed substantially during 2005 with the acquisition of businesses and the recruitment of a new Chief Operating Officer in 2006. Accordingly, the Company considers more recent data relating to employee turnover rates to be indicative of future vesting. Based on available data, the Company has assumed that approximately 94% of outstanding options will vest annually. Deferred compensation relating to options granted through December 31, 2005 has been adjusted to reflect this assumption. No options have been exercised to date. The Company will prospectively monitor employee terminations, exercises and other factors that could affect its expectations relating to the vesting of options in future periods. The Company will adjust its assumptions relating to its expectations of future vesting and the terms of options at such times that additional data indicates that changes in these assumptions are necessary. Expected volatility is principally based on the historical volatility of the Company's stock.

A summary of option activity for the nine months ended September 30, 2006 is as follows:

OPTIONS	SHARES	WEIGHTED- AVERAGE EXERCISE PRICE	WEIGHTED- AVERAGE REMAINING CONTRACTUAL TERM
----- Outstanding at January 1, 2006	428,022	\$21.09	7.2 years
Granted	139,914	\$ 1.56	
Exercised	--	--	
Forfeited or expired	(63,965)	\$ 9.88	
Outstanding at September 30, 2006	503,971	\$17.09	7.8 years
Exercisable at September 30, 2006	337,853	\$23.31	5.9 years

At September 30, 2006, the aggregate intrinsic value of options outstanding and options exercisable, based on the September 29, 2006 closing price of the Company common stock (\$2.00 per share) amounted to \$68,000 and \$68,000, respectively. In addition the table includes 156,670 fully vested and non-forfeitable stock options outstanding that it issued to non-employees through December 31, 2005. As of September 30, 2006, these options have a weighted average exercise price of \$17.39, weighted average remaining contractual term of 6.4 years and an aggregate intrinsic value of \$0. The Company did not enter into any stock based compensation arrangements with non-employees during the nine months ended September 30, 2006. Stock based compensation expense to non-employees amounted to \$1,239,083 during the nine months ended September 30, 2005, including \$708,750 relating to stock options and \$530,333 relating to issuances of common stock for services. All non-employee stock based compensation awards were accounted for in accordance with the provisions of EITF 96-18.

The weighted-average grant-date fair value of the 139,914 stock options granted during the nine months ended September 30, 2006 amounted to \$1.25 per share. The

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

Company granted 175,513 stock options with a weighted average grant-date fair value of \$8.31 per share or a total fair value of \$1,471,656 during the nine months ended September 30, 2005. There have also not been any exercises of stock options to date.

As of September 30, 2006, there was \$567,512 of unrecognized compensation cost related to non-vested share-based compensation arrangements including \$1,214,907 for the fair value of stock options that the Company accounted for under APB 25 through December 31, 2005 and \$175,368 for option granted during the nine months ended September 30, 2006 that that the Company is accounting for in accordance with SFAS 123(R). These costs are expected to be recognized over a weighted-average period of 3.3 years.

The total fair value of options vested during the nine months ended September 30, 2006 amounted to \$321,011. The Company did not modify any stock options granted to employees or non employees under share based payment arrangements. In addition, the Company did not capitalize the cost associated with stock based compensation.

30

NOTE 19 - DISCONTINUED OPERATIONS/ SALE OF LUCIDLINE

LucidLine, Inc. ("LucidLine") was a provider of bundled and branded high speed Internet access and synchronized remote data back-up, retrieval, and restoration services. The acquisition of LucidLine was intended to supply the expertise to establish the homeland security architecture, the risk and vulnerability assessment evaluation services and the development and operation of the homeland security data center solutions necessary to implement our former business plan to offer model homeland security architecture with state-of-the-art prevention, response and information management capabilities. The actual results were substantially different. The Company was unable to find any parties interested in its homeland security data center solutions, its risk and vulnerability assessment services and its homeland security architecture business. Additionally, LucidLine's commercial data backup and storage business was not growing sufficiently to cover the costs of operating the business.

During the period from the acquisition of LucidLine on February 25, 2005 through December 31, 2005, LucidLine generated revenue of almost \$227,000, incurred a net loss of approximately \$1.4 million and used net cash of over \$1.4 million. For the period from January 1, 2006 to March 31, 2006, LucidLine had revenue of nearly \$99,000, a net loss of approximately \$105,000 and used net cash of approximately \$194,000. Additionally, we recognized a loss on disposal of almost \$76,000.

Because of the Company's precarious financial position, the difficulty it was experiencing in finding parties interested in pursuing the concept of homeland security compliant data centers and the general lack of government funding for municipalities and counties to address homeland security focused IT infrastructure projects, the Company decided in the first quarter of 2006 to abandon its focus on the homeland security market portion of its business plan and to streamline its business to focus on enterprise level software and service solutions designed to help customers create, manage and apply complex rule sets that support business policies, enhance work flow processes, enforce regulatory compliance, and reduce the time, cost and overhead of electronic message management.

Having made this decision, the Company's management undertook a thorough review of all areas of its business, including the revenue, pricing, supplier contracts

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

and all other aspects of the LucidLine business unit, in an attempt to further cost-reduce the already cost-reduced business which had approximately \$65,000 per month in negative cash flow. While this effort reduced the potential negative cash flow to approximately \$35,000 per month through additional cost reductions, price increases and improved contract management, this negative cash flow would still result in a substantial drain on the Company's very limited cash resources. On the basis of this analysis, the Company decided to sell the business to a party who would purchase LucidLine and assume LucidLine's customer and supplier contract commitments. After approaching a number of parties, none of whom were interested in acquiring a money losing and significantly negative cash flow business, Walnut Valley, Inc. agreed to acquire the legal entity and all of its customer and supplier contract commitments for a substantial discount from the price the Company paid in February 2005. As the Company had found no other interested buyers and would have incurred a cash cost to shutdown the business far in excess of \$50,000, the Company decided to sell the LucidLine business to Walnut Valley.

On April 18, 2006, the Company entered into a Stock Purchase Agreement with Walnut Valley, Inc., pursuant to which the Company sold all of the outstanding shares of LucidLine to Walnut Valley, Inc. in consideration for a cash payment of \$25,000 and the issuance of a Promissory Note in the principal amount of \$25,000 by Walnut Valley in favor of the Company. The Company consummated the sale of LucidLine as a strategic business transaction designed to enhance our long-term profitability and strategic operations, and to further streamline its business focus on electronic message management.

The Company sold LucidLine to Walnut Valley, Inc. for an aggregate consideration of \$50,000. In February 2005, the Company paid to LucidLine's stockholders cash in the aggregate amount of \$200,000 and issued an aggregate of 146,667 shares of the Company's common stock valued at \$3,740,000.

31

NOTE 20 - SUBSEQUENT EVENTS

PRIVATE PLACEMENT OF SERIES B PREFERRED STOCK AND WARRANTS

On August 29, 2006, the Company initiated a proposed \$5,000,000 financing transaction (the "Series B Preferred Financing") which would, for each \$100,000 Unit purchased, result in the issuance of (i) 20 shares of Series B Preferred Stock and (ii) warrants ("Investor Warrants") to purchase Company common stock in an amount equal to 50% of the Conversion Shares. The minimum amount of the Series B Preferred Financing is \$3,000,000 ("Minimum Amount") and the maximum amount is \$5,000,000. Apex has agreed to purchase up to \$1,000,000 which will all be available to fund the Minimum Amount, provided however, in the event that the Series B Preferred Financing is over-subscribed as to the Minimum Amount, then for each \$1.00 of such over subscription up to \$2,000,000, the Apex funding commitment will be increased by \$0.333 to a maximum amount of \$1,666,667.

The Investor Warrants have a term of 5 years and an exercise price of the greater of i) \$2.40 per share or ii) that price per share equal to the volume weighted average closing price of the Company's common stock for the 10 trading days prior to the Closing date. Each Investor Warrant entitles the holder thereof to purchase up to 50% of the Conversion Shares in Company's common stock (the "Warrant Shares"), subject to anti-dilution provisions similar to those of the conversion rights of the Series B Preferred. The Conversion Shares and the Warrant Shares have piggyback registration rights.

In connection with the Series B Preferred Financing, the Company retained

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

Laidlaw & Company (UK) Ltd. as its non-exclusive placement agent ("Series B Preferred Placement Agent"). Laidlaw shall receive, in its role as Series B Preferred Placement Agent, (i) a cash fee equal to 13% of all gross proceeds, excluding the Apex proceeds, delivered at each Closing and (ii) a warrant (the "Agent Warrants") to purchase the Company's common stock equal to 10% times the sum of (x) the Conversion Shares to be issued upon conversion of the shares of Series B Preferred issued at each Closing and (y) the number of shares of the Company's common stock reserved for issuance upon the exercise of the Investor Warrants issued at each closing. The Agent Warrants have a term of 5 years and an exercise price of the greater of i) \$2.40 per share or ii) that price per share equal to the volume weighted average closing price of the Company's common stock for the 10 trading days prior to the Closing date. Additionally, the Company shall pay the Series B Preferred Placement Agent legal expenses not to exceed \$25,000.

On October 13, 2006, the Company consummated the first closing of the Series B Preferred Financing with the closing of funds totaling \$3,120,966. This amount was comprised of \$1,040,322 provided by Apex and \$2,080,644 from parties made available by the Series B Preferred Placement Agent. As part of this closing cash fees equal to \$280,484 were paid to the Series B Preferred Placement Agent.

SERIES B PREFERRED STOCK

The Series B Preferred Stock ("Series B Preferred") has a stated value of \$5,000 per share, has no maturity date, carries a dividend of 10% per annum, with such dividend accruing on a cumulative basis and payable only (i) at such time as declared payable by the Board of Directors of the Company or (ii) in the event of liquidation, as part of the liquidation preference amount ("Liquidation Preference Amount"). The Liquidation Preference Amount is equal to 125% of the sum of: (i) the stated value of any then unconverted shares of Series B Preferred and (ii) any accrued and unpaid dividends thereon. An event of liquidation means any liquidation, dissolution or winding up of the Company, whether voluntary or involuntary, as well as any change of control of the Company which includes the sale by the Company of either (x) substantially all its assets or (y) the portion of its assets which comprises its core business technology, products or services. The Series B Preferred Stock is junior to the Series A Preferred Stock with respect to liquidation and dividend rights.

The Series B Preferred is convertible, at the option of the holder, into shares of the Company's common stock ("Conversion Shares") at an initial conversion price ("Initial Conversion Price") which shall be the lesser of i) \$2.40 per share or ii) that price per share equal to the volume weighted average closing price of the Company's common stock for the 10 trading days prior to the original issuance date of such shares, based on the stated value of the Series B Preferred, subject to adjustment for stock splits, dividends, recapitalizations, reclassifications, payments made to Common Stock holders and other similar events and for issuances of additional securities at prices more favorable than the conversion price at the date of such issuance.

The Series B Preferred is mandatorily convertible at the then applicable conversion price ("Conversion Price") into shares of the Company's common stock at the then applicable Conversion Price on the date that: (i) there shall be an effective registration statement covering the resale of the Conversion Shares, (ii) the average closing price of the Company's common stock, for a period of 20 consecutive trading days is at least 250% of the then applicable Conversion Price, and (iii) the average daily trading volume of the Company's common stock for the same period is at least 8,334 shares.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

PATRON SYSTEMS, INC. AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS
SEPTEMBER 30, 2006

The following discussion and analysis should be read in conjunction with the Annual Report on Form 10-KSB, including the consolidated financial statements, and the related notes thereto, for the year ended December 31, 2005 of Patron Systems, Inc. and subsidiaries (collectively referred to as "Patron," the "Company," "we," "us," or "our"). Except for historical information contained herein, the matters discussed below are forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements involve risks and uncertainties, including, but not limited to, economic, governmental, political, competitive and technological factors affecting our operations, markets, products, prices and other factors discussed elsewhere in this report and other reports filed by us with the Securities and Exchange Commission ("SEC"). These factors may cause results to differ materially from the statements made in this report or otherwise made by or on our behalf.

OVERVIEW

On February 25, 2005, we consummated the acquisitions of Complete Security Solutions, Inc. ("CSSI") and LucidLine, Inc. ("LucidLine") pursuant to the filings of Agreements and Plans of Merger with the Secretaries of State of the States of Delaware and Illinois, respectively. On February 28, 2005, we consummated a private placement with accredited investors in the amount of \$3.5 million. On March 30, 2005, we consummated the acquisition of Entelagent Software Corp. ("Entelagent") pursuant to the filing of an Agreement and Plan of Merger with the Secretary of State of the State of California. We merged each of CSSI, Entelagent and PILEC Disbursement Company, a wholly-owned non-operating subsidiary into our company on September 19, 2006. From March 31, 2005 to December 31, 2005, we borrowed \$3,300,000 from a stockholder, Apex Investment Fund V, LP. During the three months ended September 30, 2005 we raised approximately \$3,600,000 in additional gross funds in five capital financing transactions, which includes converting \$1,650,000 in advances from stockholders into Bridge Notes. Net proceeds from all of these transaction amounted to \$3,594,000, which were used principally to fund operations and repay certain liabilities. We discuss these transactions in further detail in this report. During the nine months ended September 30, 2006, we raised \$5,640,501 of gross proceeds (\$5,301,450 net proceeds after the payment of certain transaction expenses) in various financing transactions. We used \$5,017,206 of these proceeds to fund operations and a net of \$607,152 in investing activities.

Our strategic mission is to solve a set of enterprise-level customer problems associated with electronic message management, whether in the form of e-mail, eforms or instant messaging. Our software and services solutions are designed to help our customers create, manage and apply complex rule sets that support business policies, enhance work flow processes, enforce regulatory compliance, and reduce the time, cost and overhead of message management. Our suite of products addresses e-mail policy management, e-mail retention policies,

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

archiving and eDiscovery, proactive e-mail supervision, and the protection of messages and their attachments in motion and at rest. Our eforms solution enables customers to quickly and easily create forms, capture, share, and manage data in an industry standard format.

We currently offer software solutions that fit into overall corporate compliance and data protection initiatives by automatically finding, archiving and applying persistent protection to sensitive data - beyond authentication - whenever, wherever and however sensitive data is shared, accessed and stored. Additionally we offer software solutions that support real-time secure collection, delivery and sharing of field-based report information. This software allows law enforcement and public-safety agencies to have real-time access to field reporting data for use inside a department or in a multi-jurisdictional information sharing system.

34

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the Condensed Consolidated Financial Statements and Notes thereto. Our application of accounting policies affects these estimates and assumptions. Actual results could differ from these estimates under different assumptions or conditions.

REVENUE RECOGNITION

We derive revenues from the following sources: (1) sales of computer software, which includes new software licenses and software updates and product support revenues and (2) services, which include internet access, back-up, retrieval and restoration services and professional consulting services.

We apply the revenue recognition principles set forth under AICPA Statement of Position ("SOP") 97-2 "Software Revenue Recognition" and Securities and Exchange Commission Staff Accounting Bulletin ("SAB") 104 "Revenue Recognition" with respect to all of our revenue. Accordingly, we record revenue when (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred, (iii) the vendor's fee is fixed or determinable, and (iv) collectability is probable.

We generate revenues through sales of software licenses and annual support subscription agreements which include access to technical support and software updates (if and when available). Software license revenues are generated from licensing the rights to use our products directly to end-users and through third party service providers.

Revenues from software license agreements are generally recognized upon delivery of software to the customer. All of our software sales are supported by a written contract or other evidence of sale transaction such as a customer purchase order. These forms of evidence clearly indicate the selling price to the customer, shipping terms, payment terms (generally 30 days) and refund policy, if any. The selling prices of these products are fixed at the time the sale is consummated.

Revenue from post contract customer support arrangements or undelivered elements are deferred and recognized at the time of delivery or over the period in which the services are performed based on vendor specific objective evidence of fair value for such undelivered elements. Vendor specific objective evidence is

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

typically based on the price charged when an element is sold separately or, if an element is not sold separately, on the price established by an authorized level of management, if it is probable that the price, once established, will not change before market introduction. We use the residual method prescribed in SOP 98-9 "Modification of SOP 97-2, Software Revenue Recognition With Respect to Certain Transactions" to allocate revenues to delivered elements once it has established vendor-specific evidence for such undelivered elements.

Professional consulting services are billed based on the number of hours of consultant services provided and the hourly billing rates. We recognize revenue under these arrangements as the service is performed.

Revenue from the resale of third-party hardware and software is recognized upon delivery provided there are no further obligations to install or modify the hardware or software. Revenue from the sales of hardware/software is recorded at the gross amount of the sale when the contract satisfies the requirements of EITF 99-19 "Reporting Revenue Gross as a Principal versus Net as Agent."

BUSINESS COMBINATIONS

In accordance with business combination accounting, we allocate the purchase price of acquired companies to the tangible and intangible assets acquired, liabilities assumed, as well as in-process research and development based on their estimated fair values. We have engaged a third-party appraisal firm to assist management in determining the fair values of certain assets acquired and liabilities assumed. Such a valuation requires management to make significant estimates and assumptions, especially with respect to intangible assets.

35

Management makes estimates of fair value based upon assumptions believed to be reasonable. These estimates are based on historical experience and information obtained from the management of the acquired companies. Critical estimates in valuing certain of the intangible assets include but are not limited to: future expected cash flows from license sales, maintenance agreements, customer contracts and acquired developed technologies; expected costs to develop the in-process research and development into commercially viable products; the acquired company's brand awareness and market position, as well as assumptions about the period of time the acquired brand will continue to be used in the combined company's product portfolio; and discount rates. These estimates are inherently uncertain and unpredictable. Assumptions may be incomplete or inaccurate, and unanticipated events and circumstances may occur which may affect the accuracy or validity of such assumptions, estimates or actual results.

GOODWILL AND INTANGIBLE ASSETS

We account for Goodwill and Intangible Assets in accordance with Statement of Financial Accounting Standards ("SFAS") No. 141, "Business Combinations" and SFAS No. 142, "Goodwill and Other Intangible Assets." Under SFAS No. 142, goodwill and intangibles that are deemed to have indefinite lives are no longer amortized but, instead, are to be reviewed at least annually for impairment. Application of the goodwill impairment test requires judgment, including the identification of reporting units, assigning assets and liabilities to reporting units, assigning goodwill to reporting units, and determining the fair value. Significant judgments required to estimate the fair value of reporting units include estimating future cash flows, determining appropriate discount rates and other assumptions. Changes in these estimates and assumptions could materially affect the determination of fair value and/or goodwill impairment for each

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

reporting unit. We have recorded goodwill in connection with the Company's acquisitions described in Note 5 amounting to \$22,440,412. The Company's annual impairment review of goodwill identified that goodwill impairment charges totaling \$12,929,696 were necessary for the year ended December 31, 2005 (Note 5). Intangible assets continue to be amortized over their estimated useful lives.

LONG LIVED ASSETS

The Company periodically reviews the carrying values of its long lived assets in accordance with SFAS 144, "Long Lived Assets" when events or changes in circumstances would indicate that it is more likely than not that their carrying values may exceed their realizable value and records impairment charges when necessary. The Company determined that an impairment charge of \$1,705,455 was necessary for the year ended December 31, 2005 (Note 8).

INCOME TAXES

We account for income taxes pursuant to SFAS No. 109, Accounting for Income Taxes. Deferred taxes arise from temporary differences, primarily attributable to the use of the cash method for tax purposes and accrual method for book purposes and net operating loss carry-forwards. The Company reserves for deferred tax assets when more likely than not, the benefit of the asset will not be realized in the future.

NET LOSS PER SHARE

Basic net loss per common share is computed by dividing net loss by the weighted-average number of common shares outstanding during the period. Diluted net loss per common share also includes common stock equivalents outstanding during the period if dilutive. Diluted net loss per common share has been computed by dividing net loss by the weighted-average number of common shares outstanding without an assumed increase in common shares outstanding for common stock equivalents; as such common stock equivalents are anti-dilutive.

USE OF ESTIMATES IN PREPARING FINANCIAL STATEMENTS

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenue and expenses during the reporting period. Actual results could differ from those estimates.

36

STOCK BASED COMPENSATION

Prior to January 1, 2006, the Company accounted for employee stock transactions in accordance with Accounting Principles Board ("APB") Opinion No. 25 "Accounting for Stock Issued to Employees." The Company has adopted the proforma disclosure requirements of SFAS No. 123 "Accounting for Stock-Based Compensation."

Effective January 1, 2006, the Company adopted SFAS No. 123R "Share Based Payment". This statement is a revision of SFAS Statement No. 123, and supersedes APB Opinion No. 25, and its related implementation guidance. SFAS 123R addresses

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

all forms of share based payment ("SBP") awards including shares issued under employee stock purchase plans, stock options restricted stock and stock appreciation rights. Under SFAS 123R, SBP awards result in a cost that will be measured at fair value on the awards' grant date, based on the estimated number of awards that are expected to vest that will result in a charge to operations.

NON-EMPLOYEE STOCK BASED COMPENSATION

We record the cost of stock based compensation awards that we have issued to non-employees for services at either the fair value of the services rendered or the instruments issued in exchange for such services, whichever is more readily determinable, using the measurement date guidelines enumerated in Emerging Issues Task Force ("EITF") Issue 96-18, "Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services."

RESULTS OF OPERATIONS

THREE MONTHS ENDED SEPTEMBER 30, 2006 COMPARED TO THE THREE MONTHS ENDED SEPTEMBER 30, 2005.

For the three months ended September 30, 2006, our consolidated revenues amounted to \$276,825 compared to \$93,457 for the three months ended September 30, 2005. The increase is principally the result of growth of our business, principally with the FormStream product, since the combinations were consummated with CSSI in February 2005 and Entelagent in March 2005.

Cost of Sales for the three months ended September 30, 2006 amounted to \$54,619 compared to \$133,124 for the three months ended September 30, 2005. Cost of sales during the three months ended September 30, 2006 and September 30, 2005 includes \$44,936 and \$133,124, respectively, associated with the amortization of developed technology that we acquired from CSSI and Entelagent.

Operating expenses amounted to \$1,315,328 for the three months ended September 30, 2006 as compared to \$2,199,920 for the three months ended September 30, 2005, a reduction of \$884,592. The reduction in operating expenses includes an increase of approximately \$62,000 for employee stock option compensation expense, approximately \$300,000 associated with the reduction in value of a put right in 2005 and an increase of approximately \$3,000 associated with a stock-based penalty under a collateralized financing arrangement. These increases were offset by approximately \$42,000 for reduced salaries associated with an reduction in the number of employees, an approximately \$286,000 reduction in expense associated with the amortization of stock-based compensation arrangements, approximately \$59,000 reduction in legal and professional fees associated with the work performed in 2005 to bring the Company's SEC filings into compliance and expenses associated with the 2005 acquisitions, a reduction of approximately \$104,000 in general and administrative expense, a \$135,000 reduction in expense associated with 2005 penalties under stock-based accommodation agreements and an approximately \$625,000 reduction associated with gains related to settlement agreements.

Our consolidated loss from operations for the three months ended September 30, 2006 amounted to \$1,156,877 compared to a loss of \$12,677,722 for the same period in 2005. Our loss was reduced as a result of the reductions in operating expenses and the increased revenues discussed above.

Interest expense during the three months ended September 30, 2006 amounted to \$64,564 as compared to \$10,158,714 for the three months ended September 30, 2005. The reduction is principally related to the issuance, in the three months ended September 30, 2005, of the Bridge III Notes and the associated

amortization of deferred financing costs and the accretion of debt discounts incurred with that financing not being incurred in the three months ended September 30, 2006. Additionally, the interest expense associated with the outstanding Acquisition Notes and the Bridge I, Bridge II and Bridge III Notes in the three months ended September 30, 2005 was reduced with the exchange of a substantial portion of these notes for Series A-1 Preferred Stock as of September 30, 2006. Non-cash interest relating to the amortization of deferred financing costs and the accretion of debt discounts during the three months ended September 30, 2006 amounted to approximately \$0 compared to \$1,865,355 in the same period in 2005. Amortization of deferred finance charges which have been classified as interest expense was \$0 in the three months ended September 30, 2006 compared to \$750,334 in the same period in 2005. Accretion of debt discounts during the three months ended September 30, 2006 were approximately \$0 compared to \$1,115,021 in the same period in 2005. Interest income, was \$809 and \$0 in the three months ended September 30, 2006 and 2005, respectively. Interest income represents the interest earned on cash balances.

During the three months ended September 30, 2006, the Company accrued dividends on its Series A Preferred of \$122,184.

For the three months ended September 30, 2006, the net loss available to common stockholders was \$1,279,061 or \$(0.12) per share on 10,490,543 weighted average common shares outstanding compared to a net loss available to common stockholders of \$12,677,722 or \$(6.18) per share on 2,049,970 weighted average common shares outstanding for the three months ended September 30, 2005.

NINE MONTHS ENDED SEPTEMBER 30, 2006 COMPARED TO THE NINE MONTHS ENDED SEPTEMBER 30, 2005.

For the nine months ended September 30, 2006, our consolidated revenues amounted to \$857,570 compared to \$184,300 for the nine months ended September 30, 2005. The increase is principally the result of growth of our business, principally with the FormStream product, since the combinations were consummated with CSSI in February 2005 and Entelagent in March 2005.

Cost of Sales for the nine months ended September 30, 2006 amounted to \$139,560 compared to \$282,858 for the nine months ended September 30, 2005. Cost of sales during the nine months ended September 30, 2006 and September 30, 2005 includes \$99,980 and \$280,855, respectively, associated with the amortization of developed technology that we acquired from CSSI and Entelagent.

Operating expenses amounted to \$5,824,458 for the nine months ended September 30, 2006 as compared to \$6,345,170 for the nine months ended September 30, 2005, a reduction of \$520,712. The reduction in operating expenses includes an increase of approximately \$1,086,000 for salaries associated with an increase in the number of employees from acquired businesses, approximately \$308,000 of employee stock option compensation expense, approximately \$173,000 for increased legal and professional fees that we incurred principally in connection with the year-end financial audit, the negotiation and settlement of various legal matters under the creditor and claimant liabilities restructuring program and the implementation of the Series A Preferred Stock private placement, approximately \$23,000 for amortization of acquired intangible assets, approximately \$251,000 in charges associated with the settlement of outstanding litigation, liabilities and claims under the creditor and claimant liabilities restructuring, approximately \$300,000 associated with the reduction in value of a put right in 2005 and approximately \$8,000 associated with a stock-based penalty under a collateralized financing arrangement. These increases were

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

partially offset by an approximately \$1,239,000 reduction in expense associated with the amortization of stock-based compensation arrangements, a reduction of approximately \$240,000 in general and administrative expense, an expense reduction of \$366,000 associated with a 2005 loss on a collateralized financing arrangement and approximately \$824,000 reduction in expense associated with a penalty provision of an Accommodation Agreement.

Our consolidated loss from operations for the nine months ended September 30, 2006 amounted to \$5,106,448 compared to a loss of \$6,443,728 for the same period in 2005. Our loss was reduced as a result of the reductions in operating expenses and the increase in revenues discussed above.

Interest expense during the nine months ended September 30, 2006 amounted to \$1,768,499 as compared to \$12,355,249 for the nine months ended September 30, 2005. The reduction is due to the issuance of Series A Preferred stock and its associated amortization of deferred financing costs and the accretion of debt

38

discounts and the intrinsic value of the conversion option for bridge note holders being lower in total during the nine months ended September 30, 2006 than the amortization of deferred financing costs and the accretion of debt discounts incurred during the nine months ended September 30, 2005. Offsetting this reduction was the increase in interest expense due to the increased level of total debt financing during the nine months ended September 30, 2006 than during the same period in 2005. Non-cash interest relating to the amortization of deferred financing costs and the accretion of debt discounts during the nine months ended September 30, 2006 amounted to approximately \$303,038 compared to \$3,678,606 in same period in 2005. The intrinsic value of the conversion option for bridge note holders, which has been classified as interest expense amounted to \$550,000 for the nine months ended September 30, 2006 compared to \$0 in the same period in 2005. Amortization of deferred finance charges which have been classified as interest expense was approximately \$282,129 in the nine months ended September 30, 2006 compared to \$1,751,232 in the same period in 2005. Accretion of debt discounts during the nine months ended September 30, 2006 were approximately \$20,909 compared to \$1,927,374 in the same period in 2005. Interest income, was \$2,770 and \$19,250 in the nine months ended September 30, 2006 and 2005, respectively. Interest income represents the interest earned from loans that we made to Entelagent prior to our acquisition of that business on March 30, 2005 and interest on cash balances in the nine months ended September 30, 2006.

During the nine months ended September 30, 2006, the Company accrued dividends on its Series A Preferred of \$246,968.

For the nine months ended September 30, 2006, the net loss available to common stockholders was \$7,300,152 or \$(1.48) per share on 4,945,846 weighted average common shares outstanding compared to a net loss available to common stockholders of \$19,910,022 or \$(10.43) per share on 1,909,483 weighted average common shares outstanding for the nine months ended September 30, 2005.

LIQUIDITY AND CAPITAL RESOURCES

We incurred a net loss of \$7,053,184 for the nine months ended September 30, 2006, which includes \$1,436,574 of non-cash charges including non-cash charges associated with the fair value of common stock we issued as penalties under certain registration rights agreements (\$8,560), fair value of a conversion option in connection with bridge note holders (\$550,000), accretion related to warrants issued in conjunction with notes payable (\$20,909), amortization of

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

deferred financing costs (\$282,129), amortization of deferred compensation (\$7,500), loss on disposal of discontinued operation (\$75,920), gain on settlements of outstanding debt (\$93,943), non-cash increase in interest payable to a former stockholder (\$48,400), depreciation and amortization (\$237,845), and a charge for stock option based compensation (\$307,629). We also used \$511,691 of our restricted cash escrowed to settle liabilities assumed. Including the amounts above, we used net cash flows in our operating activities of \$5,017,206 during the nine months ended September 30, 2006. Our working capital deficiency at September 30, 2006 amounts to \$5,215,607 and we are continuing to experience shortages in working capital. We are involved in litigation and are being investigated by the Securities and Exchange Commission with respect to certain of our press releases and our use of form S-8 to register shares of common stock that we issued to certain consultants in prior periods. Our legal counsel representing us in such matters has indicated that while the SEC investigation is ongoing and we have not received correspondence from the SEC indicating that the matter is officially closed, the Staff has indicated that it does not intend to request additional information from us and that, at this time, it does not intend to recommend that the SEC bring an enforcement action against us, our officers or directors. We cannot provide any assurance that the outcome of these matters will not have a material adverse affect on our ability to sustain the business. These matters raise substantial doubt about our ability to continue as a going concern.

We expect to continue incurring losses for the foreseeable future due to the inherent uncertainty that is related to establishing the commercial feasibility of technological products and developing a presence in new markets. The Company's ability to successfully integrate the acquired businesses described in Note 5 is critical to the realization of its business plan. The Company raised \$5,460,501 of gross proceeds (\$5,301,450 net proceeds after the payment of certain transaction expenses) in financing transactions during the nine months ended September 30, 2006. The Company used \$5,017,206 of these proceeds to fund its operations and a net of \$607,152 in investing activities, principally for the purchase and development of software technology. Additionally, the Company made \$125,000 in legal payments associated with the settlement of accommodation agreements and incurred \$54,000 in deferred financing costs. The Company received \$50,000 in proceeds from the disposition of discontinued operations and received \$180,000 in proceeds in connection with a financing settlement.

39

We are currently in the process of attempting to raise additional capital and have taken certain steps to conserve our liquidity while we continue to integrate the acquired businesses. Although we believe that we have access to capital resources, we have not secured any commitments for additional financing at this time nor can we provide any assurance that we will be successful in our efforts to raise additional capital and/or successfully execute our business plan. In an effort to secure additional financing, we completed a program pursuant to which we offered our creditors and claimants an agreement to receive shares of our capital stock for amounts owed to the holders of the Company's indebtedness (including lenders, past-due trade accounts, and employees, consultants and other service providers with claims for fees, wages or expenses) (Note 16).

OFF-BALANCE SHEET ARRANGEMENTS

At September 30, 2006, we did not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance, variable interest or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

arrangements or other contractually narrow or limited purposes. As such, we are not exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

CAUTIONARY STATEMENTS AND RISK FACTORS

The risks noted below and elsewhere in this report and in other documents we file with the SEC are risks and uncertainties that could cause our actual results to differ materially from the results contemplated by the forward-looking statements contained in this report and other public statements we make.

RISKS RELATED TO OUR COMMON STOCK

THERE IS SUBSTANTIAL DOUBT ABOUT OUR ABILITY TO CONTINUE AS A GOING CONCERN.

We currently have a number of obligations that we are unable to meet without generating additional revenues or raising additional capital. We are also subject to substantial litigation and an investigation by the SEC described elsewhere herein. If we cannot generate additional revenues or raise additional capital in the near future, we may become insolvent. As of September 30, 2006, our cash balance was \$60,156 and we had a working capital deficit of \$5,215,607. This raises substantial doubt about our ability to continue as a going concern. Historically, we have funded our capital requirements with debt and equity financing. Our ability to obtain additional equity or debt financing depends on a number of factors including our financial performance and the overall conditions in our industry. If we are not able to raise additional financing or if such financing is not available on acceptable terms, we may liquidate assets, seek or be forced into bankruptcy, and/or continue operations but suffer material harm to our operations and financial condition. These measures could have a material adverse affect on our ability to continue as a going concern.

We have restructured approximately 93% of our previously outstanding claims, liabilities, demands, causes of action, costs, expenses, attorneys' fees, damages, indemnities, and obligations of every kind and nature that certain creditors and claimants had with us pursuant to our creditor and claimant liabilities restructuring described in Note 16. We are currently unable to provide assurance that the acceptance of the claims settlement will actually improve our ability to fund the further development of our business plan or improve our operations. Our failure to fund the further development of our business plan and operations would materially adversely affect our ability to continue as a going concern.

INVESTORS MAY NOT BE ABLE TO ADEQUATELY EVALUATE OUR BUSINESS AND PROSPECTS DUE TO OUR LIMITED OPERATING HISTORY, LACK OF REVENUES AND LACK OF PRODUCT OFFERINGS.

We are at an early stage of executing our business plan and have no history of offering information security capabilities. We were incorporated in Delaware in 2002. Significant business operations only began with the acquisitions completed in February and March 2005. As a result of our limited history, it may be difficult to plan operating expenses or forecast our revenues accurately. Our assumptions about customer or network requirements may be wrong. The revenue and

income potential of these products is unproven, and the markets addressed by these products are volatile. If such products are not successful, our actual

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

operating results could be below our expectations and the expectations of investors and market analysts, which would likely cause the price of our common stock to decline.

We generated no revenue from operations before December 31, 2004 and only limited revenues in the year ended December 31, 2005. We have relied on financing generated from our capital raising activities to fund the implementation of our business plan. We have incurred operating and net losses and negative cash flows from operations since our inception. As of September 30, 2006, we had an accumulated deficit of approximately \$91.7 million. We may continue to incur operating and net losses, due in part to implementing our acquisitions strategy, engaging in financing activities and expansion of our personnel and our business development capabilities. We will continue to seek financing for the acquisition of other acquisition targets that we may identify in the future. We continue to believe that we will secure financing in the near future, but there can be no assurance of our success. If we are unable to obtain the necessary funding, it will materially adversely affect our ability to execute our business plan and to continue our operations.

In addition, we may not be able to achieve or maintain profitability, and, even if we do achieve profitability, the level of any profitability cannot be predicted and may vary significantly from quarter to quarter.

THE AUTOMATIC CONVERSION OF OUR SERIES A-1 PREFERRED STOCK HAS RESULTED IN SIGNIFICANT DILUTION TO OUR EXISTING STOCKHOLDERS AND A CHANGE IN CONTROL OF OUR COMPANY, AND COULD ALSO RESULT IN ADDITIONAL VOLATILITY IN THE PRICE OF OUR COMMON STOCK.

The automatic conversion of our Series A-1 Preferred Stock on July 31, 2006 resulted in significant dilution to our existing stockholders and resulted in our former creditors and claimants owning approximately 85.3% of our outstanding shares of common stock. These creditors and claimants, to the extent they act in concert, would be able to determine all actions brought before our stockholders.

Upon the registration of the shares of common stock issued upon the conversion of our Series A-1 Preferred Stock, there will be a substantial amount of shares eligible for sale in the public market. If former holders of our Series A-1 Preferred Stock decide to sell their shares of registered stock, such sales could result in significant volatility in the market price of our common stock and would likely cause the market price of our common stock to decline.

THERE CAN BE NO GUARANTY THAT A MARKET WILL DEVELOP FOR THE PRODUCTS WE INTEND TO OFFER.

We currently have a limited offering of products. We intend to acquire products through the acquisition of existing businesses. There is no guarantee, however, that a market will develop for Internet security solutions of the type we intend to offer. We cannot predict the size of the market for Internet security solutions, the rate at which the market will grow, or whether our target customers will accept our acquired products.

OUR OPERATING RESULTS MAY FLUCTUATE SIGNIFICANTLY, WHICH MAY RESULT IN VOLATILITY OR HAVE AN ADVERSE EFFECT ON THE MARKET PRICE OF OUR COMMON STOCK.

The market prices of the securities of technology-related companies have historically been volatile and may continue to be volatile. Thus, the market price of our common stock is likely to be subject to wide fluctuations. If our revenues do not grow or grow more slowly than we anticipate, if operating or capital expenditures exceed our expectations and cannot be reduced appropriately, or if some other event adversely affects us, the market price of our common stock could decline. Only a small public market currently exists for our common stock and the number of shares eligible for sale in the public market

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

is currently very limited, but is expected to increase. Sales of substantial shares in the future would depress the price of our common stock. In addition, we currently do not receive any stock market research coverage by any recognized stock market research or trading firm and our shares are not traded on any national securities exchange. A larger and more active market for our common stock may not develop.

41

Because of our limited operations history and lack of assets and revenues to date, our common stock is believed to be currently trading on speculation that we will be successful in implementing our acquisition and growth strategies. There can be no assurance that such success will be achieved. The failure to implement our acquisitions and growth strategies would likely adversely affect the market price of our common stock. In addition, if the market for technology-related stocks or the stock market in general experiences a continued or greater loss in investor confidence or otherwise fails, the market price of our common stock could decline for reasons unrelated to our business, results of operations and financial condition. The market price of our common stock also might decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. General political or economic conditions, such as an outbreak of war, a recession or interest rate or currency rate fluctuations, could also cause the market price of our common stock to decline. Our common stock has experienced, and is likely to continue to experience, these fluctuations in price, regardless of our performance.

WE ARE CURRENTLY SUBJECT TO AN SEC INVESTIGATION WHICH COULD HAVE AN ADVERSE AFFECT ON OUR BUSINESS AND RESULTS OF OPERATIONS.

Pursuant to Section 20(a) of the Securities Act and Section 21(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the staff of the SEC (the "Staff"), issued an order (In the Matter of Patron Systems, Inc. - Order Directing a Private Investigation and Designating Officers to Take Testimony (C-03739-A, February 12, 2004)) (the "Order") that a private investigation (the "SEC Investigation") be made to determine whether certain of our actions and certain of the actions of our former officers and directors and others (as described below) violated Section 5(a) and 5(c) of the Securities Act and/or Section 10 and Rule 10b-5 promulgated under the Exchange Act. Generally, the Order provides, among other things, that the Staff is investigating (i) the legality of two (2) separate Registration Statements filed by us on Form S-8, filed on December 20, 2002 and on April 2, 2003, as amended on April 9, 2003 (collectively, the "Registration Statements"), covering the resale of, in the aggregate, 4,375,000 shares of common stock issued to various of our consultants, and (ii) whether in connection with the purchase or sale of shares of common stock, certain of our officers, directors and others (a) sold common stock in violation of Section 5 of the Securities Act and/or, (b) made misrepresentations and/or omissions of material facts and/or employed fraudulent devices in connection with such purchases and/or sales relating to certain of our press releases regarding, among other items, proposed mergers and acquisitions that were never consummated. If the SEC brings an action against us, it could result in, among other items, a civil injunctive order or an administrative cease-and-desist order being entered against us, in addition to the imposition of a significant civil penalty. Moreover, the SEC Investigation and/or a subsequent SEC action could affect adversely our ability to have our common stock listed on a stock exchange and/or quoted on the OTC Bulletin Board or NASDAQ, our ability to sell our securities and/or have our securities registered with the SEC and/or in various states and/or our ability to implement our business plan. Our legal counsel representing us in such matters has indicated that while the SEC Investigation is ongoing and we have not received

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

correspondence from the SEC indicating that the matter is officially closed, the Staff has indicated that it does not intend to request additional information from us and that, at this time, it does not intend to recommend that the SEC bring an enforcement action against us or our former officers and directors. There can be no assurance that the SEC will accept the Staff's recommendation not to bring an enforcement action against us or that the Staff will not elect at some future time to seek additional information from us with respect to these matters.

FUTURE SALES OF SHARES BY EXISTING STOCKHOLDERS COULD CAUSE OUR STOCK PRICE TO DECLINE.

If our existing or future stockholders sell, or are perceived to sell, substantial amounts of our common stock in the public market, the market price of our common stock could decline. As of October 13, 2006, there were 14,462,260 shares of common stock outstanding, of which 5,527,432 shares were held by directors, executive officers and other affiliates, the sale of which are subject to volume limitations under Rule 144, various vesting agreements and our quarterly and other "blackout" periods. Furthermore, shares subject to outstanding options and warrants and shares reserved for future issuance under our stock option plan will become eligible for sale in the public market to the extent permitted by the provisions of various vesting agreements, the lock-up agreements and Rule 144 under the Securities Act.

42

THE UNPREDICTABILITY OF AN ACQUIRED COMPANY'S QUARTERLY RESULTS MAY CAUSE THE TRADING PRICE OF OUR COMMON STOCK TO DECLINE.

The quarterly revenues and operating results of companies we may acquire will likely continue to vary in the future due to a number of factors, many of which are outside of our control. Any of these factors could cause the price of our common stock to decline. The primary factors that may affect future revenues and future operating results include the following:

- o the demand for our subsidiaries' current product offerings and our future products;
- o the length of sales cycles;
- o the timing of recognizing revenues;
- o new product introductions by us or our competitors;
- o changes in our pricing policies or the pricing policies of our competitors;
- o variations in sales channels, product costs or mix of products sold;
- o our ability to develop, introduce and ship in a timely manner new products and product enhancements that meet customer requirements;
- o our ability to obtain sufficient supplies of sole or limited source components for our products;
- o variations in the prices of the components we purchase;

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

- o our ability to attain and maintain production volumes and quality levels for our products at reasonable prices at our third-party manufacturers;
- o our ability to manage our customer base and credit risk and to collect our accounts receivable; and
- o the financial strength of our value-added resellers and distributors.

Our operating expenses are largely based on anticipated revenues and a high percentage of our expenses are, and will continue to be, fixed in the short term. As a result, lower than anticipated revenues for any reason could cause significant variations in our operating results from quarter to quarter and, because of our rapidly growing operating expenses, could result in substantial operating losses.

OUR COMMON STOCK IS SUBJECT TO THE SEC'S PENNY STOCK RULES. THEREFORE, BROKER-DEALERS MAY EXPERIENCE DIFFICULTY IN COMPLETING CUSTOMER TRANSACTIONS AND TRADING ACTIVITY IN OUR SECURITIES MAY BE ADVERSELY AFFECTED.

If at any time a company has net tangible assets of \$5,000,000 or less and the common stock has a market price per share of less than \$5.00, transactions in the common stock may be subject to the "penny stock" rules promulgated under the Exchange Act. Under these rules, broker-dealers who recommend such securities to persons other than institutional accredited investors must:

- o make a special written suitability determination for the purchaser;
- o receive the purchaser's written agreement to a transaction prior to sale;
- o provide the purchaser with risk disclosure documents which identify certain risks associated with investing in "penny stocks" and which describe the market for these "penny stocks" as well as a purchaser's legal remedies; and
- o obtain a signed and dated acknowledgment from the purchaser demonstrating that the purchaser has actually received the required risk disclosure document before a transaction in a "penny stock" can be completed.

If our common stock becomes subject to these rules, broker-dealers may find it difficult to effectuate customer transactions and trading activity in our securities may be adversely affected. As a result, the market price of our securities may be depressed, and stockholders may find it more difficult to sell their shares of our common stock.

RISKS RELATED TO OUR BUSINESS

WE MAY BE UNABLE TO SUCCESSFULLY INTEGRATE ACQUIRED BUSINESSES.

Our business plan is dependent upon the acquisition and integration of companies that have previously operated independently. To date we have experienced delays in implementing our business plan as a result of limited capital resources, which have had a material adverse effect on our business. Further delays in the

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

process of integrating could cause an interruption of, or loss of momentum in, the activities of our business and the loss of key personnel. The diversion of management's attention and any delays or difficulties encountered in connection with our integration of acquired operations could have an adverse effect on our business, results of operations, financial condition or prospects.

WE CURRENTLY DO NOT HAVE SUFFICIENT REVENUES TO SUPPORT OUR BUSINESS ACTIVITIES AND IF OPERATING LOSSES CONTINUE, WILL BE REQUIRED TO OBTAIN ADDITIONAL CAPITAL THROUGH FINANCINGS WHICH WE MAY NOT BE ABLE TO SECURE.

To achieve our intended growth, we will require substantial additional capital. We have encountered difficulty and delays in raising capital to date and the market environment for development stage companies, like ours, remains particularly challenging. There can be no assurance that funds will be available when needed or on acceptable terms. Technology companies in general have experienced difficulty in recent years in accessing capital. Our inability to obtain additional financing may require us to delay, scale back or eliminate certain of our growth plans which could have a material and adverse effect on our business, financial condition or results of operations or could cause us to cease operations. Even if we are able to obtain additional financing, such financing could be structured as equity financing that would dilute the ownership percentage of any investor in our securities.

DOWNTURNS IN THE INTERNET INFRASTRUCTURE, NETWORK SECURITY AND RELATED MARKETS MAY DECREASE OUR REVENUES AND MARGINS.

The market for our current products and other products we intend to offer depends on economic conditions affecting the broader Internet infrastructure, network security and related markets. Downturns in these markets may cause enterprises and carriers to delay or cancel security projects, reduce their overall or security-specific information technology budgets or reduce or cancel orders for our current products and other products we intend to offer. In this environment, customers such as distributors, value-added resellers and carriers may experience financial difficulty, cease operations and fail to budget or reduce budgets for the purchase of our current products or other products we intend to offer. This, in turn, may lead to longer sales cycles, delays in purchase decisions, payment and collection, and may also result in price pressures, causing us to realize lower revenues, gross margins and operating margins. In addition, general economic uncertainty caused by potential hostilities involving the United States, terrorist activities, the decline in specific markets such as the service provider market in the United States, and the general decline in capital spending in the information technology sector make it difficult to predict changes in the purchase and network requirements of our potential customers and the markets we intend to serve. We believe that, in light of these events, some businesses may curtail or eliminate capital spending on information technology. A decline in capital spending in the markets we intend to serve may adversely affect our future revenues, gross margins and operating margins and make it necessary for us to gain significant market share from our future competitors in order to achieve our financial goals and achieve profitability.

COMPETITION MAY DECREASE OUR PROJECTED REVENUES, MARKET SHARE AND MARGINS.

The market for network security products is highly competitive, and we expect competition to intensify in the future. Competitors may gain market share and introduce new competitive products for the same markets and customers we intend to serve with our products. These products may have better performance, lower prices and broader acceptance than the products we currently offer or intend to offer.

Many of our potential competitors have longer operating histories, greater name recognition, large customer bases and significantly greater financial,

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

technical, sales, marketing and other resources than we have. In addition, some of our potential competitors currently combine their products with other companies' networking and security products. These potential competitors also often combine their sales and marketing efforts. Such activities may result in reduced prices, lower gross and operating margins and longer sales cycles for the products we currently offer and intend to offer. If any of our larger potential competitors were to commit greater technical, sales, marketing and other resources to the markets we intend to serve, or reduce prices for their

44

products over a sustained period of time, our ability to successfully sell the products we intend to offer, increase revenue or meet our or market analysts expectations could be adversely affected.

FAILURE TO ADDRESS EVOLVING STANDARDS IN THE NETWORK SECURITY INDUSTRY AND SUCCESSFULLY DEVELOP AND INTRODUCE NEW PRODUCTS OR PRODUCT ENHANCEMENTS WOULD CAUSE OUR REVENUES TO DECLINE.

The market for network security products is characterized by rapid technological change, frequent new product introductions, changes in customer requirements and evolving industry standards. We expect to introduce our products and enhancements to existing products to address current and evolving customer requirements and broader networking trends and vulnerabilities. We also expect to develop products with strategic partners and incorporate third-party advanced security capabilities into our intended product offerings. Some of these products and enhancements may require us to develop new hardware architectures that involve complex and time consuming processes. In developing and introducing our intended product offerings, we have made, and will continue to make, assumptions with respect to which features, security standards and performance criteria will be required by our potential customers. If we implement features, security standards and performance criteria that are different from those required by our potential customers, market acceptance of our intended product offerings may be significantly reduced or delayed, which would harm our ability to penetrate existing or new markets.

Furthermore, we may not be able to develop new products or product enhancements in a timely manner, or at all. Any failure to develop or introduce these new products and product enhancements might cause our existing products to be less competitive, may adversely affect our ability to sell solutions to address large customer deployments and, as a consequence, our revenues may be adversely affected. In addition, the introduction of products embodying new technologies could render existing products we intend to offer obsolete, which would have a direct, adverse effect on our market share and revenues. Any failure of our future products or product enhancements to achieve market acceptance could cause our revenues to decline and our operating results to be below our expectations and the expectations of investors and market analysts, which would likely cause the price of our common stock to decline.

WE HAVE EXPERIENCED ISSUES WITH OUR FINANCIAL SYSTEMS, CONTROLS AND OPERATIONS THAT COULD HARM OUR FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Our ability to sell our intended product offerings and implement our business plan successfully in a volatile and growing market requires effective management and financial systems and a system of financial processes and controls. Through the quarter ended December 31, 2005, our Chief Executive Officer and Acting Chief Financial Officer evaluated the effectiveness of our disclosure controls and procedures in accordance with Exchange Act Rules 13a-15 or 15d-15 and identified material weakness in our internal controls. These material weaknesses

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

affected our ability to timely file our reports with the SEC and communicate critical information to management that was needed to make business decisions. Although we have taken steps to correct these previous deficiencies and are currently in compliance with the SEC's reporting requirements, we have limited capital resources and are still at risk for the loss of key personnel in our finance department. The loss of key personnel in our finance department, or any other conditions that could disrupt our operations in this area, could have a material adverse affect on our ability to communicate critical information to management and our investors, raise capital and/or maintain compliance with our SEC reporting obligations. These circumstances, if they arise, could have a material adverse affect on our business.

We have limited management resources to date and are still establishing our management and financial systems. Growth, to the extent it occurs, is likely to place a considerable strain on our management resources, systems, processes and controls. To address these issues, we will need to continue to improve our financial and managerial controls, reporting systems and procedures, and will need to continue to expand, train and manage our work force worldwide. If we are unable to maintain an adequate level of financial processes and controls, we may not be able to accurately report our financial performance on a timely basis and our business and stock price would be harmed.

45

IF OUR FUTURE PRODUCTS DO NOT INTEROPERATE WITH OUR END CUSTOMERS' NETWORKS, INSTALLATIONS WOULD BE DELAYED OR CANCELLED, WHICH COULD SIGNIFICANTLY REDUCE OUR ANTICIPATED REVENUES.

Future products will be designed to interface with our end customers' existing networks, each of which have different specifications and utilize multiple protocol standards. Many end customers' networks contain multiple generations of products that have been added over time as these networks have grown and evolved. Our future products must interoperate with all of the products within these networks as well as with future products that might be added to these networks in order to meet end customers' requirements. If we find errors in the existing software used in our end customers' networks, we may elect to modify our software to fix or overcome these errors so that our products will interoperate and scale with their existing software and hardware. If our future products do not interoperate with those within our end customers' networks, installations could be delayed or orders for our products could be cancelled, which could significantly reduce our anticipated revenues.

AS A PUBLIC COMPANY, WE MAY INCUR INCREASED COSTS AS A RESULT OF RECENTLY ENACTED AND PROPOSED CHANGES IN LAWS AND REGULATIONS RELATING TO CORPORATE GOVERNANCE MATTERS AND PUBLIC DISCLOSURE.

Recently enacted and proposed changes in the laws and regulations affecting public companies, including the provisions of the Sarbanes-Oxley Act of 2002 and rules adopted or proposed by the SEC will result in increased costs for us as we evaluate the implications of these laws, regulations and standards and respond to their requirements. These laws and regulations could make it more difficult or more costly for us to obtain certain types of insurance, including director and officer liability insurance, and we may be forced to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. The impact of these events could also make it more difficult for us to attract and retain qualified persons to serve on our board of directors, board committees or as executive officers. We cannot estimate the amount or timing of additional costs we may incur as a result of these laws and regulations.

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

WE DEPEND ON OUR KEY PERSONNEL TO MANAGE OUR BUSINESS EFFECTIVELY IN A RAPIDLY CHANGING MARKET, AND IF WE ARE UNABLE TO HIRE ADDITIONAL PERSONNEL OR RETAIN EXISTING PERSONNEL, OUR ABILITY TO EXECUTE OUR BUSINESS STRATEGY WOULD BE IMPAIRED.

Our future success depends upon the continued services of our executive officers. The loss of the services of any of our key employees, the inability to attract or retain qualified personnel in the future, or delays in hiring required personnel, could delay the development and introduction of, and negatively impact our ability to sell, our intended product offerings.

WE MIGHT HAVE TO DEFEND LAWSUITS OR PAY DAMAGES IN CONNECTION WITH ANY ALLEGED OR ACTUAL FAILURE OF OUR PRODUCTS AND SERVICES.

Because our intended product offerings and services provide and monitor network security and may protect valuable information, we could face claims for product liability, tort or breach of warranty. Anyone who circumvents our security measures could misappropriate the confidential information or other property of end customers using our products, or interrupt their operations. If that happens, affected end customers or others may sue us. Defending a lawsuit, regardless of its merit, could be costly and could divert management attention. Our business liability insurance coverage may be inadequate or future coverage may be unavailable on acceptable terms or at all.

WE COULD BECOME SUBJECT TO LITIGATION REGARDING INTELLECTUAL PROPERTY RIGHTS THAT COULD BE COSTLY AND RESULT IN THE LOSS OF SIGNIFICANT RIGHTS.

In recent years, there has been significant litigation in the United States involving patents and other intellectual property rights. We may become a party to litigation in the future to protect our intellectual property or as a result of an alleged infringement of another party's intellectual property. Claims for alleged infringement and any resulting lawsuit, if successful, could subject us to significant liability for damages and invalidation of our proprietary rights. These lawsuits, regardless of their success, would likely be time-consuming and

46

expensive to resolve and would divert management time and attention. Any potential intellectual property litigation could also force us to do one or more of the following:

- o stop or delay selling, incorporating or using products that use the challenged intellectual property; and/or
- o obtain from the owner of the infringed intellectual property right a license to sell or use the relevant technology, which license might not be available on reasonable terms or at all; or redesign the products that use that technology.

If we are forced to take any of these actions, our business might be seriously harmed. Our insurance may not cover potential claims of this type or may not be adequate to indemnify us for all liability that could be imposed.

OUR INABILITY TO OBTAIN ANY THIRD-PARTY LICENSE REQUIRED TO DEVELOP NEW PRODUCTS AND PRODUCT ENHANCEMENTS COULD REQUIRE US TO OBTAIN SUBSTITUTE TECHNOLOGY OF LOWER QUALITY OR PERFORMANCE STANDARDS OR AT GREATER COST, WHICH COULD SERIOUSLY HARM OUR BUSINESS, FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

From time to time, we may be required to license technology from third parties to develop new products or product enhancements. Third-party licenses may not be available to us on commercially reasonable terms or at all. Our inability to obtain any third-party license required to develop new products or product enhancements could require us to obtain substitute technology of lower quality or performance standards or at greater cost, which could seriously harm our business, financial condition and results of operations.

GOVERNMENTAL REGULATIONS AFFECTING THE IMPORT OR EXPORT OF PRODUCTS COULD NEGATIVELY AFFECT OUR REVENUES.

Governmental regulation of imports or exports or failure to obtain required export approval of our encryption technologies could harm our international and domestic sales. The United States and various foreign governments have imposed controls, export license requirements and restrictions on the import or export of some technologies, especially encryption technology. In addition, from time to time, governmental agencies have proposed additional regulation of encryption technology, such as requiring the escrow and governmental recovery of private encryption keys.

In particular, in light of recent terrorist activity, governments could enact additional regulation or restrictions on the use, import or export of encryption technology. Additional regulation of encryption technology could delay or prevent the acceptance and use of encryption products and public networks for secure communications. This might decrease demand for our intended product offerings and services. In addition, some foreign competitors are subject to less stringent controls on exporting their encryption technologies. As a result, they may be able to compete more effectively than we can in the domestic and international network security market.

MANAGEMENT COULD INVEST OR SPEND OUR CASH OR CASH EQUIVALENTS AND INVESTMENTS IN WAYS THAT MIGHT NOT ENHANCE OUR RESULTS OF OPERATIONS OR MARKET SHARE.

We have made no specific allocations of our cash or cash equivalents and investments. Consequently, management will retain a significant amount of discretion over the application of our cash or cash equivalents and investments and could spend the proceeds in ways that do not improve our operating results or increase our market share. In addition, these proceeds may not be invested to yield a favorable rate of return.

ITEM 3. CONTROLS AND PROCEDURES

Members of our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures, as defined by paragraph (e) of Exchange Act Rules 13(a)-15 or 15(d)-15 for the fiscal quarter ended September 30, 2006, the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2006 our disclosure controls and procedures were not effective.

DISCLOSURE CONTROLS AND INTERNAL CONTROLS

Disclosure controls and procedures are controls and other procedures that are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934, as amended, such as this Report, is recorded, processed, summarized and reported

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Internal controls are procedures which are designed with the objective of providing reasonable assurance that our transactions are properly authorized, recorded and reported and our assets are safeguarded against unauthorized or improper use, to permit the preparation of our financial statements in conformity with generally accepted accounting principles.

Our company is not an "accelerated filer" (as defined in the Securities Exchange Act) and is not required to deliver management's report on control over our financial reporting until our year ended December 31, 2007. Nevertheless, we identified certain matters that constitute material weakness (as defined under the Public Company Accounting Oversight Board Auditing Standard No. 2) in our internal controls over financial reporting.

In previous periods, we reported that we had identified certain matters that constituted material weakness (as defined under the Public Company Accounting Oversight Board Auditing Standard No. 2) in our internal controls over financial reporting. The material weaknesses that we identified related to the fact that that our overall financial reporting structure and current staffing levels were not sufficient to support the complexity of our financial reporting requirements, we lacked the expertise we needed to apply complex accounting principles relating to our business combinations and participation in equity transactions and lacked the structure we need to ensure the timely filing of our tax returns.

Prior to the second quarter 2005, we did not have any full time employees including a Principal Accounting Officer assigned to perform any duties related to our financial reporting obligations. Accordingly we were unable, until the second quarter of 2005, to record, process and summarize all of the information that we needed to close our books and records on a timely basis and deliver our reports to the Securities and Exchange Commission within the time frames required under the Commission's rules.

During the third quarter of 2005, under the direction of our Chief Executive Officer, we addressed personnel changes necessary to review and analyze our internal control over financial reporting by engaging the services of an outside financial reporting specialist to conduct the review and analysis. During the fourth quarter of 2005, this outside financial reporting specialist, together with our Chief Executive Officer and our other full time personnel, undertook the process of forming a system of internal controls which was reasonably likely to materially affect and remedy the material weaknesses identified by our management. During the fourth quarter of 2005, we hired additional personnel and instituted various procedures that have enabled us to record, process and summarize transactions within the time frames required to timely file our reports under the Commission's rules. These improvements have enabled us to resolve all previous delinquencies relating to the filing of our annual and quarterly reports with the SEC. We also resolved the delinquent filing of our Forms 8-K/A from the acquisitions of CSSI, Entelagent and LucidLine in December 2005. We have timely filed our quarterly and annual reports for each period from and including the quarter ended June 30, 2005. We also assigned a key member of the accounting department with the task of filing previously delinquent tax returns and are undertaking a structure to ensure that our tax returns in the future are filed on a timely basis. We have completed filing all delinquent tax returns through the year ended December 31, 2004 and have filed on time our tax returns for the year ended December 31, 2005.

Although the improvements we have made in our financial reporting processes have enabled us to (a) record, process and summarize transactions within the

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

timeframes required to timely file our reports under the Commission's rules, (b) better plan transactions that involve the application of complex accounting principles and (c) improve our ability to comply with our tax reporting obligations, additional time is still required to test and document our internal and disclosure control processes to ensure their operating effectiveness.

We believe that the changes we have made in our financial reporting procedures have enabled us to substantially reduce previous financial reporting risks that existed as a result of our limited resources. We are continuing to evaluate our

48

risks and resources. We will seek to make additional changes in our financial reporting systems and procedures wherever necessary and appropriate to ensure their effectiveness in future periods.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On January 5, 2006, Mark P. Gertz, Trustee in bankruptcy for Arter & Hadden, LLP, filed an Adversary Complaint for Recovery of Assets of the Estate in the United States Bankruptcy Court Northern District of Ohio Eastern Division, against the Company as successor in merger to Entelagent. Mr. Gertz seeks \$32,278.18 plus interest accruing at the statutory rate since July 15, 2003 for services rendered by Arter & Hadden, LLP to Entelagent. On September 11, 2006, the Company entered into a settlement and release agreement with Mark P. Gertz, Trustee in bankruptcy for Arter & Hadden, LLP which calls for the payment of \$32,500 in 13 installments of \$2,500.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following unregistered securities have been sold by us during the period from July 1, 2006 to September 30, 2006:

DATE OF GRANT	TITLE AND AMOUNT OF SECURITIES GRANTED/EXERCISE PRICE IF APPLICABLE	NAME OF PRINCIPAL UNDERWRITER	NAME OR CLASS OF PERSONS WHO RECEIVED SECURITIES
July 2006	602,039/Series A-1 Preferred Stock	None	3 Accredited Creditors and Claimants in the Company's Debt Restructuring

The above unregistered securities were issued pursuant to an exemption from the registration requirements of the Securities Act under Section 4(2) of the Securities Act as such securities were issued to accredited investors and were not issued pursuant to any general solicitation or advertisement.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Edgar Filing: PATRON SYSTEMS INC - Form 10QSB

The Company's 2006 Annual Meeting of Stockholders (the "Annual Meeting") was held on July 20, 2006. Represented at the Annual Meeting, either in person or by proxy, were 1,378,448 voting shares of common stock, 21,709,603 voting shares of Series A-1 Preferred Stock and 638 voting shares of Series A Preferred Stock. The total number of common stock voting shares on an as converted basis represented at the meeting was 9,943,107 shares. The following actions were taken by a vote of the Company's stockholders at the Annual Meeting:

- 1. Mr. George Middlemas, Mr. Robert Cross and Mr. Braden Waverley were elected to serve as members of the Company's Board of Directors receiving 9,925,614; 9,925,285; and 9,925,614 votes in favor of election, respectively, and 17,492; 17,822; and 17,492 votes withheld, respectively.
- 2. The proposal to adopt the Patron Systems, Inc. 2006 Stock Incentive Plan was approved by stockholders. This proposal received 8,730,813 votes in favor of the adoption of the proposal; 395,467 votes against the proposal and 47,268 votes abstaining.
- 3. The proposal to amend the Company's Second Amended and Restated Certificate of Incorporation, as amended, to provide for a 1-for-30 reverse stock split of the Company's issued and outstanding Common Stock was approved by each class of securities and by all classes of securities taken as a group.

(1) On July 18, 2006, we issued 602,039 shares of Series A-1 Preferred Stock to three parties in consideration for \$481,631 of debt cancellation and claims settlement under the Creditor and Claimant Liabilities Restructuring. Each share of Series A-1 Preferred Stock was issued in consideration of the cancellation of \$0.80 of debt.

49

Holders of common stock voted 1,354,263 votes in favor of the proposal, 20,729 votes against the proposal and 3,456 votes abstaining. Holders of Series A-1 Preferred Stock voted 21,630,503 votes in favor of the proposal and 29,453 votes against the proposal. Holders of Series A Preferred Stock voted 632 votes in favor of the proposal and 6 votes against the proposal. All classes of securities taken as a group voting on an as converted basis voted a total of 9,880,055 votes in favor of the proposal; 43,047 votes against the proposal and 3,456 votes abstained.

- 4. The proposal to authorize the holder of any proxy solicited by the Company's Board of Directors to have the discretionary authority to vote to adjourn the Annual Meeting to a later date was approved by stockholders. This proposal received 9,604,156 votes in favor of the proposal; 159,379 votes against the proposal; and 163,044 votes abstained.

ITEM 6. EXHIBITS

See attached Exhibit Index.
