Alvarion® Reports Q2 2011 Results

Company achieves its goal of returning to profitability in Q2 and
generates positive cash flow

Tel Aviv, July 26, 2011 — Alvarion Ltd. (NASDAQ:ALVR), the world's leading provider of 4G networks in the Broadband Wireless Access (BWA) market today announced financial results for the second quarter of 2011.

Q2 Highlights:

- Shipments of \$49.1 million, a 14.5% sequential increase
- Revenues of \$55.4 million, a 19.1% sequential increase
- GAAP net income of \$0.01 per share; non-GAAP net income of \$0.02 per share

In the second quarter of 2011, revenues were \$55.4 million, an increase of 19.1% from \$46.5 million in the first quarter of 2011, and an increase of 13.1% from \$49 million in the second quarter of 2010.

GAAP net income in the second quarter of 2011 was \$0.3 million, or \$0.01 per share. This compares to a net loss of (\$14.5) million, or (\$0.23) per share in Q1 2011, including restructuring and other charges of approximately \$7.1 million related mainly to employee termination expenses and vacating office space. GAAP net loss in the second quarter of 2010 was (\$10.6) million, or (\$0.17) per share.

Excluding stock based compensation, restructuring and related charges, as well as impairment charges, on a non-GAAP basis, the company reported net income of \$1.5 million, or \$0.02 per share, compared with non-GAAP net loss of (\$6.5) million, or (\$0.10) per share in the first quarter of 2011, and non-GAAP net loss of (\$6.6) million, or (\$0.11) per share in the second quarter of 2010.

Please refer to the accompanying financial table for reconciliation of GAAP financial information to non-GAAP for the second quarter of 2011 and the comparative periods.

Cash provided by operations in the second quarter of 2011 was \$1.4 million. As of June 30, 2011, cash, cash equivalents and investments totaled \$69.7 million.

Management Comments

“We are pleased to report that we have met our target of returning to profitability in Q2,” said Eran Gorev, President and CEO of Alvarion. “More importantly, we believe we have achieved a stable core business that will serve as a foundation upon which we can build through new growth-oriented initiatives.”

“In order-of-magnitude terms, our current core business is capable of sustaining a revenue run rate of about \$200 million per year with the prospect of moderate margin improvement. We remain committed to the carrier market where we continue to see profitable WiMAX infrastructure opportunities using the selective approach we adopted earlier this year. Margin improvement is expected to come from a gradual shift in business mix toward enterprise and vertical market applications. Near term, a particular quarter may be affected by temporary seasonal factors or the impact of recognizing revenue from shipments during earlier periods but, overall, we have created a right-sized, sustainably profitable operation.”

“Having stabilized the core business, our current priority is to develop new growth engines to expand operating leverage and improve valuation.”

Guidance

Management believes revenues in the second half of 2011 will be similar to the first half of the year at approximately \$100 million, skewed somewhat toward the fourth quarter. Depending on shipment volume and mix, Q3 results are likely to range between breakeven and a modest loss on a non-GAAP basis. However, management expects a small non-GAAP profit for the second half, as a stronger Q4 is expected to offset the timing issues for shipments in Q3.

Alvarion management will host a conference call today, July 26, at 9:00 a.m. Eastern time to discuss Q2 results and other matters.
