Form 10-K
June 25, 2010

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-K

ý ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended March 31, 2010

or

o TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

(Commission File No.) 001-33531

AEROGROW INTERNATIONAL, INC.
(Exact name of registrant as specified in its charter)

Nevada
(State or other jurisdiction of incorporation or
organization)

46-0510685
(I.R.S. Employer Identification No.)

6075 Longbow Drive, Suite 200
Boulder, Colorado 80301

(303) 444-7755

(Address, including zip code and telephone number, including area code, of registrant's of principal executive office)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class:
Common Stock, par value \$0.001 per share

Name of each exchange on which registered:
OTC Bulletin Board

Securities registered pursuant to Section 12(g) of the Act:

None

Edgar Filing: AeroGrow International, Inc. - Form 10-K

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of the Form 10-K or any amendment to the Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the voting common stock held by non-affiliates of the registrant as of September 30, 2009 was \$1,341,498. For the purpose of the foregoing calculation only, all directors and executive officers of the registrant and owners of more than 5% of the registrant's common stock are assumed to be affiliates of the registrant. This determination of affiliate status is not necessarily conclusive for any other purpose.

The number of shares of the registrant's common stock outstanding as of May 31, 2010 is 12,398,249.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of our definitive Information Statement on Schedule 14C for the Annual Meeting of Stockholders are incorporated herein by reference in Part III of this Annual Report on Form 10-K to the extent stated herein. The information statement is expected to be filed with the Securities and Exchange Commission within 120 days of the fiscal year ended December 31, 2009.

This Annual Report on Form 10-K (“Annual Report”) for AeroGrow International, Inc. (“AeroGrow,” the “Company,” “we,” “our” or “us”), including the “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” contains forward-looking statements regarding future events and our future results that are based on current expectations, estimates, forecasts, and projections about the industry in which we operate and the beliefs and assumptions of our management. Words such as “expects,” “anticipates,” “targets,” “goals,” “projects,” “may,” “will,” “would,” “intends,” “plans,” “believes,” “seeks,” “estimates,” variations of such words, and similar expressions are intended to identify such forward-looking statements. These forward looking statements may include, among others, statements concerning our expectations regarding our business, growth prospects, revenue trends, operating costs, working capital requirements, competition, results of operations and other statements of expectations, beliefs, future plans and strategies, anticipated events or trends, and similar expressions concerning matters that are not historical facts. These forward-looking statements are only predictions that are subject to risks, uncertainties, and assumptions that are difficult to predict. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, those discussed in this Report under the section entitled “Risk Factors” in Item 1A of Part I and elsewhere, and in other

reports we file with the SEC, specifically the most recent reports on Form 10-Q. While forward-looking statements are based on reasonable expectations of our management at the time that they are made, you should not rely on them. We undertake no obligation to revise or update publicly any forward-looking statements for any reason.

PART I

ITEM 1. BUSINESS

Our Business

AeroGrow is a developer, marketer, direct-seller, and wholesaler of advanced indoor garden systems designed for consumer use and priced to appeal to the gardening, cooking, small indoor appliance, healthy eating, and home and office décor markets. To date, we have launched multiple lines of proprietary indoor gardens, more than 50 corresponding proprietary seed kits, and various cooking, gardening and décor accessories, both nationally and internationally.

As of March 31, 2010, we had manufactured and shipped over 958,202 AeroGarden® garden units and 2,037,531 seed kits to consumer and retailers worldwide. We commenced initial marketing and distribution of our products in March 2006 and have expanded these marketing efforts to encompass direct-to-consumer sales channels which include direct television, internet, and our own in-house direct mail catalogue, retail distribution, including brick and mortar retailers, online retailers and home shopping networks, and international markets.

Our principal products are indoor gardens and proprietary seed kits that allow consumers, with or without gardening experience, the ability to grow vegetables such as tomatoes, chili peppers and salad greens, fresh herbs including cilantro, chives, basil, dill, oregano, and mint, and flowers such as petunias, snapdragons, pink geraniums and phlox. Consumers can also plant and grow their own seeds using our proprietary “grow anything” kits, or use their AeroGardens as seed starters for their outdoor gardens with our “garden starter” trays.

Our indoor gardens are designed to be simple, consistently successful, and affordable. We believe that our focus on the design and features of our indoor gardening products made them the first of their kind on the consumer market. This conclusion was reached on the basis of market research, and a review of potentially competitive products offered at all ranges of functionality and price.

We believe that our products allow almost anyone, from consumers who have no gardening experience to professional gardeners, to produce year-round harvests of a variety of herbs, vegetables, and flowers, regardless of experience, season, weather, or availability of natural light. We believe that our indoor gardening products’ unique and attractive designs make them appropriate for use in almost any location, including kitchens, living areas, and offices.

Our indoor gardening units are sold through different channels matching customer needs and interests with the appropriate garden unit features and benefits at prices ranging from approximately \$50 to \$170 depending on the features and components, including size, design elements, light intensity and automated features.

Corporate History

AeroGrow International, Inc. (“AeroGrow”) was formed as a Nevada corporation on March 25, 2002. AeroGrow merged with Wentworth I, Inc., a Delaware corporation on February 24, 2006, and AeroGrow was the surviving corporation.

After more than three years of initial research and product development, we began sales activities in March 2006. Since that time, we have expanded all aspects of our operations in order to take advantage of what we believe to be an attractive market opportunity. We have increased the depth and breadth of our distribution through multiple sales channels. We have developed direct sales channels including web sales, direct television sales, including infomercials and 60 and 120 second television commercials, and a direct mail catalogue business with approximately 3.7 million

catalogues mailed in our fiscal year ended March 31, 2010 ("Fiscal 2010"). AeroGarden products are also sold through an estimated 1,290 retail storefronts in North America, and in nine countries internationally. We have expanded our product lines, and now offer more than 15 different indoor garden models, more than 50 seed kits, and various gardening and kitchen accessories.

Table of Contents

Hydroponics Industry - Background

Hydroponics is the science of growing plants using nutrients suspended in water instead of soil. Used commercially worldwide, hydroponics is considered an advanced and often preferred crop production method. Hydroponics is typically used inside greenhouses to give growers the ability to better regulate and control nutrient delivery, light, air, water, humidity, pests, and temperature. Hydroponic growers benefit by producing crops faster and with higher crop yields per acre than traditional soil-based growers.

Aeroponic technology is derived from hydroponics and occurs when plant roots are suspended in an air chamber and bathed with a nutrient solution. AeroGrow believes that the aeroponic technology used in our indoor gardening products is a technological advance over most hydroponic growing systems because plant roots are partially suspended in air and allowed direct access to oxygen, while being bathed in a highly oxygenated, nutrient rich solution. For these reasons, we believe the use of a well-designed and maintained aeroponic system can yield increases in growth rates and plant survival when compared to most hydroponic or dirt-based systems.

Until the development of our indoor gardening products, certain barriers prevented hydroponic or aeroponic technology from being incorporated into mainstream, mass-marketed consumer products, including:

- Consumers generally lack the specialized knowledge required to select, set up, operate, and maintain the various components for a typical hydroponic or aeroponic system, including growing trays, irrigation channels, growing media, nutrient reservoirs, and nutrient delivery systems consisting of electronic timers, pumps, motors, tubing, and nozzles;
- Consumers generally do not possess the specialized knowledge required to select, set up, operate, and maintain the varied indoor lighting systems that are necessary to grow plants indoors in the absence of adequate natural light;
- Consumers are often unable to properly mix and measure complex hydroponic nutrient formulas, which change depending on the plant variety and the stage of plant growth. In addition, consumers are unable to deal with the problem of nutrient spoilage; and
- Federally-mandated water quality reports show that the water in many large cities is not suitable for hydroponic or aeroponic growing and requires treatments in order to sustain growth.

Our research led us to believe that these complexities have been accepted in existing hydroponic market channels because hydroponic manufacturers have generally focused their product development and marketing efforts on satisfying the needs of the commercial greenhouse and dedicated hobbyist markets. These users are motivated to gain the specialized knowledge, equipment and experience currently required to successfully grow plants with these products. Our research indicated that the hydroponic growing equipment currently available in these markets is bulky, expensive and comprised of many, often unintegrated, parts.

We believe that the complexities of currently available commercial hydroponic products fail to address the needs and wants of the mass consumer market, leaving that market unserved. We further believe that our trade secrets, patented and patent-pending inventions, and companion technologies have simplified and improved hydroponic and aeroponic technologies and have enabled us to create an indoor aeroponic gardening system appropriate for the mass consumer market.

Our Proprietary Technology

We spent seven years innovating, simplifying, and integrating our proprietary technologies and inventions into a family of “plug and grow” indoor gardening products and related seed kits specifically designed and priced for the mass consumer market. We have used this technology platform to develop more than 15 different models of indoor gardens, each with different features and technology groupings, priced from approximately \$50 to \$170. We have filed 18 patent applications in the United States and internationally to protect our inventions, and six patents have been issued (three in the United States and three internationally). Following is a description of our proprietary technologies and inventions that are used in our indoor garden system and seed kits.

Rainforest Nutrient Delivery System. Our “rainforest” nutrient delivery system combines our patent-pending technologies with features from several hydroponic and aeroponic methodologies into a proprietary system that leaves plant roots suspended in an air gap. Plant roots take oxygen directly out of the air and, in testing of aeroponic systems by multiple different sources, including lettuce studies by NASA Small Business Innovation Research, plants grow faster as a result.

Table of Contents

Advanced Growing System. Our Advanced Growing System (“AGS”) is available on several of our indoor gardens and combines features from our rainforest delivery system with new technologies that deliver increased nutrient oxygenation, faster, healthier root growth, decreased needs for consumer maintenance, and increased product reliability. With AGS, plant roots are suspended in air in a 100% humid aeroponic chamber and then grow into a continuously oxygenated nutrient bath.

Pre-Seeded Bio-Grow Seed Pods. Our proprietary bio-grow seed pods include pre-implanted, specially selected seeds, a growing medium, removable bio-dome covers, and a grow basket.

Microprocessor-Based Control Panel and Nutrient Cycle Delivery System. Microprocessor-based control panels can include automated grow lights to ensure that plants receive proper lighting can feature nutrient and water reminder systems that alert consumers to add water and nutrients when needed. In addition, several systems allow consumers to select from multiple plant types (for example, lettuce, herbs, tomatoes, or flowers) and the system then automatically adjusts and optimizes the nutrient, water and lighting cycles based on the plant variety selected. In addition, some systems take into account stage of growth of the specific plants when optimizing these factors.

Custom Nutrients and Automatic pH Adjustment. We have developed nutrient solutions designed specifically to deliver the proper nutrients to plants, while offering consumers a user-friendly application methodology. Plant specific nutrients are included with each seed kit, and consumers simply add them when instructed by the microprocessor-based nutrient reminder. The pre-measured and mixed nutrients eliminate the need for measuring and mixing multi-part nutrient formulas and storing various nutrients in separate containers. Also formulated into the nutrients is a proprietary buffer that automatically adjusts tap water from around the country to the right pH ranges for plant growth. Without this adjustment, tap water from many areas in the country will severely limit, or inhibit, plant growth in most aeroponic and hydroponic systems.

Integrated and Automated Lighting System. Hydroponic systems typically do not incorporate built-in lighting systems. Our indoor gardening products include built-in adjustable grow lights with ballast, reflector hood, grow bulbs and an electronic timer. Our integrated lighting systems include high-output compact fluorescent light bulbs that deliver a spectrum and intensity of light designed to optimize plant growth without natural light. In addition, our lighting system is fully automated and controlled by our microprocessor-based control panel described above. Variations in lighting are a differentiator in our product lines, and we have several gardens on the market with “twice the light and twice the height” of our initial gardens, allowing consumers to grow larger plants such as full-sized tomatoes in our indoor gardens, and deliver higher yields.

New Technologies in Development. We are continually engaged in developing incremental improvements in lights, nutrients, oxygenation, seed variety selection, and style and design innovation that are introduced to products on an ongoing basis.

Markets

Based on our sales experience to date and our existing channels of distribution, and supplemented by our own formal and informal market research consisting of individual consumer interviews, focus groups, blog monitoring, customer modeling, and Internet survey responses, we believe that our indoor gardening products appeal to a broad spectrum of consumers across multiple areas of interest. We believe that our products appeal to at least four major market segments:

Gardener Market. The 2010 National Gardening Survey conducted by the National Gardening Association states that gardening is America’s number one hobby with more than 81 million households active in gardening. Based upon this survey, there were estimated to be 36 million households participating in food gardening and 13 million households

participating in fresh herb gardening. We believe that our indoor gardening products and related products offer both expert and novice gardeners several major benefits not readily available through traditional gardening methods, including:

- the ability to grow fresh herbs, lettuces, vegetables, tomatoes, and flowers year-round, regardless of indoor light levels or seasonal weather conditions,
- the ability to easily start plants indoors during colder months and then transplant them outdoors at the onset of the outdoor growing season,
- the ability to use stem cuttings to propagate multiple reproductions of the desired plants in our indoor gardening products, and
- the ease of growing in our indoor gardens, in contrast to the toil associated with traditional gardening, including preparing the soil, planting, thinning, weeding, watering, and removing pests.

Table of Contents

“Want-to-be” Gardener Market. We believe that many people have an interest in gardening but lack the knowledge, confidence, available space, equipment, or time to garden. We have observed the following barriers that often prevent people from gardening:

- gardening requires an ongoing time commitment,
- apartment, high-rise, and condominium dwellers often lack the land needed for a traditional garden,
- gardening requires physical work, which can be a significant barrier to people with limited mobility or health issues,
 - buying the necessary equipment to garden can be expensive, and
 - gardening requires knowledge and expertise.

We believe that our indoor gardening products overcome many of these barriers and provide a simple, convenient way for many current non-gardeners to begin to garden.

Cooking and Healthy Eating Market. Many Americans enjoy cooking as a hobby. Consumers in this market include:

- people interested in cooking who would appreciate the convenience and satisfaction of having a readily available supply of fresh-cut herbs to flavor soups, salads, and other dishes,
- people who prefer the distinctive texture and taste of freshly picked, vine-ripened tomatoes, basil, lettuces, and other vegetables over days-old supermarket produce, and
- people interested in healthy, pesticide-free foods for themselves and their families, reflecting both the rapidly growing interest in naturally and organically grown foods and the increasing number of people who, for health or weight concerns, include salads and fresh vegetables as part of their families’ diets.

We believe that our indoor gardening products are embraced in this market by people who understand the value of having an ongoing supply of fresh herbs and fresh produce throughout the year.

Home and Office Décor Market. Flowers are frequently used to brighten homes and offices around the world. It is difficult to readily grow flowers indoors due to a lack of sufficient light and growing knowledge. As a result, people often use cut flowers, which are expensive, short-lived, and require ongoing maintenance. Our indoor gardening products enable colorful and fragrant flowers to be easily grown indoors year-round. Flowers grown with our indoor gardening products will last for months with minimal care and maintenance. Flowers can be grown in a wide variety of indoor locations, including kitchen and bathroom countertops, living rooms, bedrooms, family rooms, offices, work stations, waiting rooms, and lobbies.

Products

Table of Contents

AeroGarden Indoor Gardens. We currently offer more than 15 different indoor garden models priced from approximately \$50 to \$170 and differentiated based on size, design, light intensity, degree of automation, inclusion of Adaptive Growth Technology or Advanced Growing Systems, height potential of light hoods, and inclusions of plant support systems.

Currently, our AeroGarden product line is divided into four main categories:

1. AeroGarden 3 Series – The AeroGarden 3 series features the Advanced Growing System, grow lights, a smaller footprint, and an attractive, stylish design that makes it suitable for use as a decorative feature throughout the home or office. AeroGarden 3's fit easily on kitchen counters, night stands, and end tables. Some models include upgraded trim and new finish designs such as the “Ladybug” garden targeted at all-family usage. Retail prices range from \$50 to \$60.
2. AeroGarden 6 Series – The AeroGarden 6 series features the Advanced Growing System, grow lights, greater output than the AeroGarden 3 series, and a space-saving configuration with a 30% smaller footprint relative to our AeroGarden 7 and AeroGarden Extra series, to fit more easily on countertops and in corners for apartments, condos, and smaller kitchens. Retail prices range from \$80 to \$100.
3. AeroGarden 7 Classic Series – Our original products which feature the rainforest nutrient delivery system, automated lights, and reminder systems. Retail prices range from \$100 to \$120.
4. AeroGarden Extra Series – Aerogarden 7 with extended lamp arms and greater light output for growing larger vegetables. Some models also include stainless steel trim. Retail prices range from \$150 to \$170.

AeroGarden Seed Kits. We currently offer more than 50 seed kits for use in our indoor gardening products. These seed kits include pre-seeded bio-grow seed pods and a three-to-six-month supply of nutrients, including our proprietary formula for adjusting water quality. Our seed kits retail at prices ranging from \$9.99 to \$24.99, and include:

- Vegetable Gardens: cherry tomato, chili pepper, salsa garden.
- Herb Gardens: gourmet herbs, Italian herbs, pesto basil.
- Flower Gardens: cascading petunias, English cottage, scented blooms, mountain meadow.
- Salad Gardens: salad greens, romaine lettuce.

Our seed kits are sold to consumers for use with our indoor gardening products. Individual seed kits are grown by consumers for three to six months and then new seed kits may be purchased for replanting.

AeroGarden Seed-Starting Kits. Developed for more experienced gardeners, our line of Seed Starting Trays and Master Gardener Kits are designed to allow consumers to plant and grow their own seeds in the AeroGarden. With our Seed Starter Trays, consumers can start up to 66 seedlings in our indoor gardens for transplant into their outdoor gardens when weather allows. With the Master Gardener Kit, consumers can grow their own seeds to maturity in the AeroGarden, or transplant seeds outdoors when weather allows.

Other Accessories. To complement and expand the functionality of our indoor gardening products, we have developed a variety of accessory products including cookbooks and cooking accessories. We also offer multiple wall brackets and other shelving and support systems, which can hold multiple indoor gardens at the same time. We also

offer the Herb ‘n Serve, a battery-operated herb blender and salad dressing maker, the Herb ‘n Save and Herb ‘n Ice accessories which are easy-to-use fresh herb storage devices, and many other accessory items.

Future Products. Our core technology platform can be leveraged by bundling different components into new products with a wide variety of features and price points that then can be sold through a variety of direct and retail channels for use in different settings around the home or office. Examples include a desk garden series, a professional system for larger plants and vegetables, patio and deck gardens, home décor and air freshening gardens, and additional seed kits and accessories.

Table of Contents

Integrated Marketing and Sales Channel Strategy

We consider our products to be an entirely new product category. A primary objective since launch has been to maximize the exposure of the product and educate consumers on the benefits of indoor gardening through an integrated marketing and distribution strategy. We launched with a nationwide public relations campaign during the first quarter of 2006, and have since received extensive media exposure, with multiple features on national talk shows as well local television coverage, local and national print articles and blog and Internet pieces. We combined the public relations launch with a retail and direct strategy focusing on high visibility partners and media, including product sales through retailers, national cataloguers, home shopping channels, direct television commercials, our own in-house direct response catalogue, internet sales, and inbound and outbound telemarketing.

Shift in Channel Strategy. During Fiscal 2010 we determined that broad distribution through the retail channel was not appropriate for a company at our stage of development because of relatively low profit margins, high capital requirements, and the operational requirements of our retailer customers. As a consequence, we terminated our relationships with certain retailers and re-focused our efforts on building our direct-to-consumer business. As of March 31, 2010, our products were being offered in approximately 1,290 storefronts in North America. During Fiscal 2011, we expect to further reduce the number of storefronts carrying our products as we continue to focus our efforts on building relationships with only those retailers, both traditional and non-traditional, that have historically proven to be good business partners for AeroGrow.

Direct Sales. In the fall of 2006 we launched an infomercial advertising campaign, which began with 30 minute programming and has since been supplemented with 60-second and 120-second television commercials. We have since created new 60-second and 120-second commercials highlighting our new products. Overall spending on TV advertising has decreased as a percentage of the overall marketing budget, as we have been cash constrained and therefore focused our spending on the most efficient media channels.

In June 2007, we produced and began mailing our own in-house, direct mail product catalogue, which tested successfully with a mailing of approximately 60,000 catalogues. In Fiscal 2010 we mailed approximately 3.7 million catalogues. With our catalogue sales we focus on remarketing to current customers and also prospecting for new customers using database marketing techniques.

We established our first consumer product website in the fall of 2006 and in late 2007 supplemented this with search engine advertising, banner advertising, email campaigns and web affiliate programs. In the fall of 2008 we took on in-house management of many of these programs from third-party providers and have seen resulting increases in efficiency. A key focus of our web and catalogue marketing is to maximize the lifetime value of AeroGrow customers through repeat sales of our seed kits, light bulbs and accessories.

During Fiscal 2010, direct-to-consumer sales represented 57.5% of our total net sales.

Retail Sales. Initial shipments to retailers commenced in March 2006. Over the next several years, we rapidly grew our retail distribution and as of March 31, 2009 our products were being sold through approximately 7,500 stores in North America. In Fiscal 2010, we reduced our sales to retailers as discussed above, and as of March 31, 2010 our products were being sold through approximately 1,290 stores in North America. During Fiscal 2010, sales to retailers represented 40.1% of our total net sales. Approximately 69% of our total sales to retailers represented sales to Canadian Tire Corporation, Amazon, Bed Bath & Beyond and QVC. Canadian Tire Corporation represented 35% of our total retail sales for the fiscal year ended March 31, 2010.

International Sales. We began testing international sales opportunities in the UK and Japan in late 2007, and have since expanded internationally into Australia, South Korea, Mexico, France and several other countries. During Fiscal

2010, international sales represented 2.4% of our total sales. International efforts in the fiscal year ending March 31, 2011 (“Fiscal 2011”) are expected to focus primarily on supporting distribution in existing markets. Material incremental expansion into new countries in Fiscal 2011 is not anticipated, and will be pursued in future years as and when resources allow.

Table of Contents

Competition

Aeroponic and hydroponic technologies have historically been limited to ardent hobbyists and commercial growing facilities. We believe that we are the first company to develop and offer a simple dirt-free indoor growing system for the mass consumer market.

Typical hydroponic manufacturers offer a range of equipment and accessories through distributors or small independent “hydro-shops” in a trade-oriented manner similar to plumbing or electrical suppliers. Purchasers typically mix and match equipment from various suppliers in an “a la carte” fashion to individually customize a large system that they then assemble on their premises. We believe that these products are substantially more expensive than our products.

We believe that our simplified and complete indoor gardening products and current and planned methods of distribution offer significant benefits from these traditional hydroponic industry practices. To date, we have discovered a kitchen design firm that has tried to introduce an indoor growing system into the market, to what appears to be very limited success. In our in-house laboratory tests, these systems have performed at levels far below our own systems in terms of germination success, longevity, speed-of-growth and overall yields.

However, we recognize that a large market exists for products like ours and that there are other companies that are better funded and have greater experience in producing hydroponic products in commercial markets, or that have been more successful in manufacturing or selling consumer product or soil-based gardening products.

Manufacturing

We source our AeroGarden products and accessory items from contract manufacturing companies that manufacture products using tooling we own, in accordance with our specifications, and subject to our intellectual property rights. We assemble and package our seed kits in our facilities in Indianapolis, Indiana.

We have three Chinese manufacturers of our garden products. Each is capable of manufacturing multiple garden models. We believe the existing production capacity of these manufacturers is more than sufficient to meet our garden requirements for the short-to-medium term. In addition, capacity expansion is available in a reasonable period of time with a nominal tooling investment. We also have multiple, dual-sourced manufacturers of our many component parts and accessories.

In July 2008 we opened a company-owned distribution center in Indianapolis, Indiana. We also produce and assemble our seed kits in this facility. Indoor gardening products are shipped from China either to our primary fulfillment center in Indianapolis, or to third-party fulfillment centers in North America, as well as to third party distribution facilities in countries outside the North America.

Product Returns and Warranties

To date, product returns have been within our expectations for both retail and direct-to-consumer sales. At retail, we generally use a “destroy in field” methodology as the cost of shipping a used product back to us often does not justify the value of the recovered unit. Some customers are obligated to ship products to our facility in order to receive credit for returned goods. In certain cases, customers are provided a fixed allowance, usually in the 1% to 2% range, to cover returned goods, which allowance is deducted from payments made by such customers. To our knowledge, our retailers are satisfied with these arrangements. Our manufacturers will provide us with replacement parts at no charge for products that are deemed defective due to materials or manufacturing complications. We record warranty liabilities at the time of sale for the estimated costs that may be incurred under our basic warranty program. The specific

warranty terms and conditions vary depending upon the product sold but generally include technical support, repair parts, and labor for periods up to one year. Factors that affect our warranty liability include the number of installed units currently under warranty, historical and anticipated rates of warranty claims on those units, and cost per claim to satisfy our warranty obligation.

7

Table of Contents

Intellectual Property

Our success and ability to compete are substantially dependent upon our internally developed technology and expertise. While we rely on patent, copyright, trade secret, and trademark law to protect our technology, we also believe that factors such as the technological and creative skills of our personnel, new product developments, frequent product enhancements, and reliable product maintenance are essential to establishing and maintaining a technology leadership position. There can be no assurance that others will not develop technologies that are similar or superior to our technology.

As of March 31, 2010, we have filed 14 patent applications in the United States and four patent applications internationally to protect our inventions, and of these, three United States and three international patents have been issued. We believe that the technology covered by our patent applications does not infringe on issued patents owned by others. We believe that if we fail to receive patents for any one of these patent applications, our operations will not be materially adversely affected. We believe that failure to obtain patents, however, will make it easier for competitors to bring competitive products to market. If competitive products perform better or are marketed by companies with greater financial and distribution resources than us, these competitive products may adversely affect our operations. In addition to the patents being sought, we maintain critical information about our products as trade secrets. The inventions under the patent applications have not been granted patents, and there can be no assurance that patents will be granted.

In addition, we have filed: (i) 34 trademark applications in the United States, 32 of which have registered and two of which have been allowed; and (ii) five trademark applications designating 32 countries, four of which have registered in 27 countries. We intend to prosecute to protect our products and brand equity.

Each of our employees, independent contractors, interns, and consultants has executed assignment of rights to intellectual property agreements and nondisclosure agreements. The assignment of application rights to intellectual property agreements grant us the right to own inventions and related patents which may be granted in the United States and throughout the world. The nondisclosure agreements generally provide that these people will not disclose our confidential information to any other person without our prior written consent. We have also obtained, both domestically and internationally, domain names for AeroGrow.com, AeroGarden.com, AeroGarden.net, AeroGarden.tv, AeroGarden.biz, and Getthegarden.com, among others.

Our success will depend upon our ability to obtain necessary intellectual property rights and protect our intellectual property rights. We cannot be certain that patents will be issued on the patent applications that we have filed, or that we will be able to obtain the necessary intellectual property rights, or that other parties will not contest our intellectual property rights.

Governmental Regulation and Certification

We believe that we are complying with United States regulations concerning the shipping and labeling of seeds and nutrients. Currently, the components for the indoor garden system are UL and/or ETL certified. These certifications confirm that the products have been tested and conform to a recognized level of fire and other safety standards for consumers. Such independent third party certification is required for sales of products through many major retailers.

We believe that our costs of compliance with environmental laws will not be material.

Personnel

As of March 31, 2010, AeroGrow employed 46 employees with 40 full-time and 6 part-time. In addition, we contract the services of part-time and project consultants on an “as needed” basis. We believe that our employee relations are good. Our outsourced business includes, but is not limited to, manufacturing, some telemarketing, infomercial production, and some fulfillment and shipping. Additional employees and/or consultants may be hired in the future as our operations grow.

Table of Contents

ITEM 1A. RISK FACTORS

Our business, future performance and forward-looking statements are affected by general industry and market conditions and growth rates, general U.S. and non-U.S. economic and political conditions (including the global economy), competition, interest rate and currency exchange rate fluctuations and other events. The following items are representative of the risks, uncertainties and other conditions that may impact our business, future performance and the forward-looking statements that we make in this report or that we may make in the future.

Risks Related to our Business, Products and Markets

We may need additional capital to fund our future operations and we may not be able to obtain the amount of capital required, particularly when the credit and capital markets are volatile.

During Fiscal 2010, we issued an aggregate of \$6,685,486 of Series A Convertible Preferred stock and incurred \$1,080,000 of bridge financing to help address our immediate short-term liquidity needs, fund prior operating losses and provide capital to support business operations. In addition, during June 2009 we converted certain accounts payable totaling approximately \$1.4 million to long-term debt, amended our working capital financing agreement and negotiated concessions with certain of our accounts payable creditors with regard to payment timing and amounts due. (See Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operation – Liquidity and Capital Resources, and Note 3– Current and Long Term Debt – Long Term Debt and Note 10 – Stockholders' Equity in the accompanying Notes to Financial Statements for additional details.)

In May and June 2010, we issued \$6,800,000 in three-year subordinated secured convertible notes to help address our liquidity requirements, refinance certain obligations and provide funding for future operations.

We may require additional capital to support our business, cover operational expenses, and finance planned growth. It is possible that none of our outstanding warrants and options will be exercised and we will therefore not receive additional capital from these sources. We may need to issue equity, debt, or securities convertible into equity, which are likely to rank senior to our common stock and to dilute the current stock ownership in AeroGrow. If we are unable to raise additional capital, or cannot raise capital on acceptable terms, we may not have sufficient capital to operate our business as planned and would have to modify our business plan or curtail some or all of our operations.

Because we have a limited operating history, we may not be able to successfully manage our business or achieve profitability.

We have a limited operating history upon which to base an evaluation of our prospects and the potential value of our common stock. Since commencing operations in 2002, we have not achieved profitability in any fiscal year. We are confronted with the risks inherent in an early stage company, including difficulties and delays in connection with the production and sales of our indoor garden systems, reliance on a small number of products and manufacturers, operational difficulties, and difficulty in estimating future sales, production requirements and costs, and administrative costs. If we cannot successfully manage our business, we may not be able to generate future profits and may not be able to support our operations. We are likely to incur additional expenses and losses in the further implementation of our business plan. We may not be able to improve operations and therefore may never become profitable.

We have incurred substantial losses since inception and may never achieve profitability.

Since we commenced operations in 2002, and through March 31, 2010, we incurred substantial losses, including a net loss of \$6,331,205 for the twelve month period ended March 31, 2010. As of March 31, 2010, our losses have resulted in an accumulated deficit of \$56,272,803. The future success of our business will depend on our ability to

profitably expand sales of our AeroGarden indoor garden systems, seed kits and accessory products to consumers, and develop new product extensions and applications.

We are subject to many of the risks common to developing enterprises, including undercapitalization, cash shortages, limitations with respect to financial and other resources, and insufficient scale to be self-sustaining. There is no assurance that we will ever attain profitability.

Table of Contents

A worsening of the United States economy could materially adversely affect our business.

The success of our business operations depends significantly on consumer confidence and spending, which deteriorated during the recent worldwide economic downturn. A continuation or re-occurrence of the economic downturn, and the consequent impact on consumer spending, could adversely impact our revenue, ability to market our products, build customer loyalty, or otherwise implement our business strategy. If the current economic situation persists, or deteriorates significantly, our business could be negatively impacted.

Our sales to retailer customers are highly concentrated in a small number of retailers in the United States and Canada, including traditional “brick and mortar” retailers, online retailers, and television shopping channels. The loss of one or more of these customers could have a material adverse impact on our business.

In the fiscal years ended March 31, 2010, and March 31, 2009, approximately 40.1% and 60.9%, respectively, of our net sales were to retailer customers. Of these sales, approximately 69% represented sales to our top four retailer customers. The loss of one or more of our key retailer customers, or a significant decline in orders from one or more of these retailers could materially affect our sales of indoor garden systems, seed kits and accessories, and therefore have a material adverse impact on our business and our financial results.

We have recently shifted the focus of our business strategy toward the direct-to-consumer sales channels. Failure to successfully develop our position in these channels could have an adverse impact on our future results of operations.

On January 15, 2010, we announced a strategic shift to increase our focus on the direct-to-consumer business channels. We intend to dedicate a larger proportion of our capital and human resources to develop these channels. Successfully growing these channels will require that we invest in revenue-generating media to attract new customers, effectively target our marketing messages to consumers, and develop ongoing relationships with consumers through excellence in our fulfillment, shipping and customer service operations. There can be no assurances given that we will be successful in achieving these requirements, or that we can do so on a timely basis. In the event we do not succeed in developing the direct-to-consumer channels as we intend, there could be a material adverse impact on our future results of operations.

A significant portion of our sales are to retailers, many of which have been adversely impacted by the deterioration in economic conditions and the consequent impact on consumer spending.

In the fiscal years ended March 31, 2010, and March 31, 2009, approximately 40.1% and 60.9%, respectively, of our net sales were to retailer customers. Our business plan anticipates continued sales through this distribution channel, albeit at lower levels than in prior years. Uncertainty about the current and future global economic conditions may cause consumers and retailers to defer purchases, attempt to return inventory, or cancel purchase orders for our products in response to tighter credit, decreased cash availability and declining consumer confidence. In the event that certain retailers are adversely impacted by the current economic downturn, re-structure their business operations to reduce costs and capital investment, or choose to reduce the breadth of their product offering, our sales could be adversely affected.

Our future depends on the success of our indoor garden systems, seed kits and accessory products. We do not know if our indoor garden systems, seed kits and accessory products will generate consumer acceptance on a broader scale.

We have introduced our indoor garden systems and seed kits as new products to consumer markets unfamiliar with their use and benefits. Although we believe that we have penetrated only a small portion of the potential market for our products, we cannot be certain that our products will generate widespread consumer adoption. If consumers do not purchase our products in sufficient numbers, we will not be profitable.

If we are unable to recruit, train and retain key personnel necessary to operate our business, our ability to successfully manage our business and develop and market our products may be harmed.

Table of Contents

To maintain our business position, we will need to attract, retain, and motivate highly skilled design, development, management, accounting, sales, merchandising, marketing, and customer service personnel. Competition for many of these types of personnel can be intense, depending on general economic conditions, alternative employment options, and job location. As a result, we may be unable to successfully attract or retain qualified personnel. Additionally, any of our officers or employees can terminate their employment with us at any time. The loss of any key employee, or our inability to attract or retain other qualified employees, could harm our business and results of operations.

As a result of the economic downturn, decline in consumer spending and the consequent impact on the sales of our products, we restructured our operations and implemented a substantial workforce reduction. These actions could adversely impact the morale and performance of our remaining employees and our ability to hire new personnel.

Our business was adversely impacted by the deterioration in the global economy and the consequent impact on our various channels of distribution. We restructured our business operations in order to re-size our overhead costs and streamline our distribution, fulfillment, and manufacturing operations. This resulted in a substantial decrease in the number of our full-time employees. These restructuring actions and headcount reductions could have unintended impacts on our remaining employees, could lead to a decline in employee morale, and could lead to a loss of additional personnel over and above the level desired by the Company. In the event of such employee attrition, we may not be able to replace the lost personnel on a timely basis, or with individuals having the same level of skills. In either case, our operations and our financial performance could be adversely impacted.

Our marketing strategies may not be successful, which would adversely affect our future revenue and profitability.

Our future revenue and profitability depend on the successful marketing of our indoor garden systems. We cannot give assurance that consumers will continue to be interested in purchasing our products. We use direct consumer marketing, including television commercials, infomercials, catalogue, magazine and newspaper advertising, and the Internet. In addition, we collaborate with our retailer customers to market our products to consumers. If our marketing strategies fail to attract an adequate number of customers, our product sales will not produce future revenue sufficient to meet our operating expenses or fund our future operations.

Our current or future manufacturers could fail to fulfill our orders for indoor garden systems, which would disrupt our business, increase our costs, and could potentially cause us to lose our market.

We currently depend on three contract manufacturers in China to produce our indoor garden systems. These manufacturers could fail to produce the indoor garden system to our specifications or in a workmanlike manner and may not deliver the systems on a timely basis. Our manufacturers must also obtain inventories of the necessary parts and tools for production. We own the tools and dies used by our manufacturers. Our manufacturers operate in China and may be subject to business risks that fall outside our control, including but not limited to, political, currency, and regulatory risks, each of which may affect the manufacturer's ability to fulfill our orders for indoor garden systems. In addition, weather or natural disasters in China could disrupt our supply of product. Any change in manufacturers could disrupt our ability to fulfill orders for indoor garden systems. Any change in manufacturers could disrupt our business due to delays in finding a new manufacturer, providing specifications, and testing initial production.

Our revenue and level of business activity are highly seasonal, requiring us to staff our operations, incur overhead and marketing costs, purchase and manufacture inventory, and incur other operating costs in advance of having firm customer orders for our products. A material variance in actual orders relative to anticipated orders could have an adverse impact on our business.

For the fiscal year ended March 31, 2010, approximately 56% of our total net sales occurred during four calendar months (September – December). We must estimate sales in advance of these peak months and operate our business

during the balance of the year in such a way as to insure that we can meet the demand for our products during the peak months. This requires us to incur significant operating, marketing, and overhead expenses, and to utilize cash and other capital resources to invest in inventory in advance of having certainty as to the ultimate level of demand for our product during the peak months. Significant variations in actual demand for our products during the peak months relative to our forecast could result in our sales being limited by lack of product, our not achieving a sufficient level of sales to cover expenses incurred throughout the balance of the year, or in our having excess inventory to liquidate at potentially lower margins. In any of these cases, there could be a material adverse impact on our financial performance.

Table of Contents

We are highly reliant upon a single company-operated distribution and seed kit manufacturing facility. Any material disruption to the operation of this facility could adversely affect our business.

In July 2008 we opened a company-operated distribution and fulfillment center in Indianapolis, Indiana to supplement our existing third-party logistics providers. Since then, our facility in Indianapolis has become our primary distribution and fulfillment center for the United States and Canada, with the majority of our shipment volume handled through this facility in our fiscal year ended March 31, 2010. In February 2009 we re-located our seed kit manufacturing operations to the facility in Indianapolis from its previous location in Longmont, Colorado. We now manufacture all of our seed kits in the Indianapolis facility. Any material disruption to the operation of this facility, whether caused by internal or external factors, could have a material adverse impact on our business and financial performance.

We rely on third party providers in our manufacturing, warehouse, distribution, order processing, and fulfillment operations. If these parties are unwilling to continue providing services to us, or are unable to adequately perform such services for us on a cost effective basis, our business could be materially harmed.

We engage third parties to perform certain critical functions supporting our business operations. Any disruption in our relationship with any of our vendors could cause significant disruption to our business and we may not be able to locate another party that can provide comparable services in a timely manner or on acceptable commercial terms. In addition, no assurance can be made that these relationships will be adequate to support our business as we follow our business plan.

Our intellectual property and proprietary rights give us only limited protection, and can be expensive to defend.

Our ability to produce and sell indoor garden systems exclusively depends in part on securing patent protection for the components of our systems, maintaining various trademarks, and protecting our operational trade secrets. To protect our proprietary technology, we rely on a combination of patents pending (and if granted, patents), trade secrets, and non-disclosure agreements, each of which affords only limited protection. We own the rights to 18 United States and international patent applications, three of which have been issued in the United States and three of which have issued internationally. However, the remaining patent applications may not result in issued patents and even issued patents may be challenged. We are selling our indoor garden systems prior to receiving issued patents relating to our patent applications. All of our intellectual property rights may be challenged, invalidated, or circumvented. Claims for infringement may be asserted or prosecuted against us in the future and we may not be able to protect our patents, if any more are obtained, and intellectual property rights against others. Our former employees or consultants may violate their non-disclosure agreements, leading to a loss of proprietary intellectual property. We could also incur substantial costs to assert our intellectual property or proprietary rights against others.

We may face significant competition, and if we are unable to compete effectively, our sales may be adversely affected.

We believe that our complete indoor garden systems offer significant benefits over traditional hydroponic industry products. There are companies in a variety of related markets including but not limited to, consumer electronics, commercial hydroponics, gardening wholesale, and soil-based gardening that are larger, better funded, have more recognizable brand names, and have experience in our channels of distribution. These companies could potentially decide to develop products to compete with our products. These companies could use hydroponic technologies, and could achieve better consumer acceptance. The success of any competing products may adversely impact us.

Increases in energy prices, resulting from general economic conditions, or other factors, may raise our cost of goods sold and adversely affect our business, results of operations and financial condition.

Energy costs, especially gasoline and fuel costs, are significant expenses in the delivery of our products. Increased costs resulting from general economic conditions, acts of nature, or other factors, may result in declining margins and operating results if market conditions prevent us from passing these increased costs on to our customers through timely price increases on our products.

Table of Contents

Our current or future manufacturers are located in China and therefore our product costs may be subject to fluctuations in the value of the dollar against the Chinese currency.

Although we purchase our AeroGarden products in U.S. dollars, the prices charged by our factories are predicated upon their cost for components, labor and overhead. Therefore, changes in the valuation of the U.S. dollar in relation to the Chinese currency may cause our manufacturers to raise prices of our products which could reduce our profit margins.

If our indoor garden systems fail to perform properly, our business could suffer with increased costs and reduced income.

We have sold more than 958,000 AeroGardens since our inception and have provided a limited warranty with each garden sold. In addition, our indoor garden systems are “guaranteed to grow.” We therefore may be required to replace or repair products or refund the purchase price to consumers. Failure of our products to meet expectations could damage our reputation, decrease sales, increase costs related to returns and repairs, delay market acceptance of our products, result in unpaid accounts receivable, and divert our resources to remedy the malfunctions. The occurrence of any of these events would have an adverse impact on our results of operations.

From time to time, we may be subject to litigation that, if decided adversely to us, could have a material adverse impact on our financial condition.

From time to time, we are a party to various litigation matters, in most cases involving ordinary and routine claims incidental to our business. We cannot estimate with certainty our ultimate legal and financial liability with respect to any such pending litigation matters. However, we believe, based on our examination of such matters, that our ultimate liability, if any, will not have a material adverse effect on our financial position, results of operations or cash flows.

In connection with the Linens ‘N Things (“LNT”) bankruptcy proceedings, a Complaint to Avoid and Recover Preferential Transfers was filed by LNT in the United States Bankruptcy Court for the District of Delaware on April 20, 2009 (the “Complaint”). The Complaint alleges that, pursuant to Sections 547 and 550 of the United States Bankruptcy Code, we are required to return to LNT approximately \$623,000 in “preferential” transfers allegedly made to AeroGrow during the 90-day period preceding the filing of the LNT bankruptcy cases. The Complaint also alleges that AeroGrow is required to pay to LNT approximately \$44,000 on account of credits allegedly earned but not redeemed by LNT prior to the filing of the LNT bankruptcy cases. We negotiated a settlement of all claims with LNT, executed a settlement agreement, and are now awaiting final approval of the settlement by the bankruptcy court. We do not anticipate there will be any material change to the terms of the executed settlement agreement, and the cost to us of the settlement is less than the amount previously accrued in our balance sheet and consolidated statement of operations in anticipation of the cost of defending, or settling, this matter.

Risks Related to the Market for our Securities

The market price of our shares may fluctuate greatly. Investors in AeroGrow bear the risk that they will not recover their investment.

Effective as of May 4, 2009, our common stock ceased to be listed on The Nasdaq Stock Market and is now traded on the OTC Bulletin Board. Currently, trading in our common stock is limited, and the price per share is likely to be influenced by the price at which and the amount of shares the selling security holders are attempting to sell at any time. This could have the effect of limiting the trading price or lowering the market price to the selling security holders’ offering prices. Common stock such as ours may be subject to the activities of persons engaged in short

selling securities, which generally has the effect of driving the price down. In addition, the common stock of emerging growth companies is typically subject to high price and volume volatility. Therefore, the price of our common stock has fluctuated, and may continue to fluctuate, widely. A full and stable trading market for our common stock may never develop and, as a result, stockholders may not be able to sell their shares at the time they elect, if at all.

Table of Contents

There may be substantial sales of our common stock by existing security holders which could cause the price of our stock to fall.

Future sales of substantial amounts of our common stock in the public market or the perception that such sales might occur, could cause the market price of our common stock to decline and could impair the value of an investment in our common stock and our ability to raise equity capital in the future.

Sales of our common stock by security holders, or even the appearance that such holders may make such sales, may limit the market for our common stock or depress any trading market volume and price before other investors are able to sell the common stock. Moreover, a number of shareholders have held their investment for a substantial period of time and may desire to sell their shares, which could drive down the price of our common stock.

We can issue debt securities and shares of preferred stock without stockholder approval, which could adversely affect the rights of common stockholders.

Our Articles of Incorporation allow our Board of Directors to approve the terms and conditions of debt securities and preferred stock for issuance by the Company, including but not limited to voting rights, conversion privileges and liquidation preferences, without the approval of common stockholders. The rights of the holders of our common stock may be adversely impacted as a result of the rights that could potentially be granted to holders of debt securities or preferred stock that we may issue in the future. In addition, there could be an impact on the price of our common stock because of the potential impact on the rights of common shareholders resulting from future issuances of debt or preferred stock.

Our outstanding warrants, options and additional future obligations to issue our securities to various parties, may dilute the value of an investment in AeroGrow and may adversely affect our ability to raise additional capital.

As of March 31, 2010, we were committed to issue up to 68,191,852 additional shares of common stock under the terms of outstanding warrants, options and other arrangements as detailed in Note 5 – Equity Compensation Plans and Note 9 – Stockholders' Equity in the accompanying Notes to Financial Statements.

In addition, during Fiscal 2010 we issued an aggregate of 7,586 shares of Series A Convertible Preferred stock giving the holders the right to convert their preferred shares into a total of 37,930,000 common shares of AeroGrow. The preferred shareholders also received 4,164 warrants to purchase additional preferred shares that could be converted into 20,820,000 shares of AeroGrow common stock. Furthermore, during the fiscal year ended March 31, 2010, we incurred \$1,080,000 in bridge financing in which we also issued warrants to purchase an additional 1,080,000 shares of AeroGrow common stock. In addition, during May and June 2010, we issued \$6,800,000 in secured subordinated convertible notes that can convert to 68,000,000 shares of common stock, and issued 68,000,000 warrants to purchase shares of common stock. See Management's Discussion and Analysis of Financial Condition – Liquidity and Capital Resources and Note 9 – Stockholders' Equity in the accompanying Notes to Financial Statements).

For the length of time the warrants, options and preferred shares are outstanding, the holders will have an opportunity to profit from a rise in the market price of our common stock without assuming all the risks of common share ownership. This may adversely affect the terms upon which we can obtain additional capital. The holders of such derivative securities would likely exercise or convert them at a time when we would be able to obtain equity capital on terms more favorable than the exercise or conversion prices provided by the notes, warrants or options.

Further, future sales of substantial amounts of these shares, or the perception that such sales might occur, could cause the market price of our common stock to decline and could impair the value of an investment in our common stock and our ability to raise equity capital in the future.

During Fiscal 2010, we issued an aggregate of \$6,685,486 Series A Convertible Preferred securities. During May and June 2010 we issued \$6,800,000 of subordinated secured convertible notes. The terms and conditions of these securities could significantly impact the price of our common shares, and could adversely impact our ability to raise additional equity capital.

Table of Contents

The holders of our Series A Convertible Preferred shares (the “Preferred Shareholders”) have the right to convert each of their shares and warrants into 5,000 common shares of AeroGrow. In addition, the Preferred Shareholders have the right to vote their shares on an as-converted basis on all matters voted on by common shareholders. The Preferred Shareholders also have the right to elect three Directors of AeroGrow, voting as a separate class. As a result of these rights, the Preferred Shareholders have effective control over AeroGrow and its governance. In addition, the Preferred Shareholders possess certain rights that give them preferences relative to common shareholders in the event of a sale or liquidation of the Company. It is possible that the Preferred Shareholders could take actions that could adversely impact the value of investments in common shares of the Company. In addition, the control position of the Preferred Shareholders, as well as other anti-dilution rights held by the Preferred Shareholders, could adversely impact our ability to raise capital in the future. The holders of our subordinated secured convertible notes have the right to convert the notes at a conversion price of \$0.10 per share of our common stock at any time during the three-year life of the notes. (For more detail on the Series A Convertible Preferred securities and the subordinated secured convertible notes, see Item 7 - Management’s Discussion and Analysis of Financial Condition – Liquidity and Capital Resources and Note 9 – Stockholders’ Equity in the accompanying Notes to Financial Statements.)

If an exemption from registration on which we have relied for any of our past offerings of common stock or warrants is challenged legally, our principals may have to spend time defending claims, and we would then risk paying expenses for defense, rescission, and/or regulatory sanctions.

To raise working capital, we offered common stock and warrants in private transactions that we believed to be exempt from registration under the Securities Act and state securities laws. In 2004 we conducted a state-registered offering in Colorado of common stock and warrants, intended to be exempt from registration under the Securities Act as an intrastate offering. However, because we are incorporated in Nevada, the offering did not satisfy all of the requirements for an intrastate offering. This could result in investors or regulators asserting that the Colorado offering and/or private offerings subsequent to the Colorado offering (if the private offerings were integrated with the Colorado offering) violated the Securities Act. There can be no assurance that investors or regulators will not be successful in asserting a claim that these transactions should not be integrated. In the event that one or more investors seeks rescission, with resulting return of investment funds and interest at a market rate, or that state or federal regulators seeks sanctions against us or our principals, we would spend time and financial resources to pay expenses for defense, rescission awards, or regulatory sanctions. The use of funds would reduce the capital available to operate our business. No assurance can be given regarding the outcome of any such actions.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. DESCRIPTION OF PROPERTY

We lease a 21,012 square foot office space in, Boulder, Colorado, with a current monthly rent of \$18,385. We also pay our proportionate share of building taxes, insurance and operating expenses. The initial term continues until January 31, 2012, unless modified under specified circumstances. The agreement contains other standard office lease provisions.

We also rent warehouse and manufacturing space in Indianapolis, Indiana. The Indianapolis facility houses our distribution and fulfillment operations and our seed kit manufacturing operations. We currently lease approximately 90,400 square feet of space in this facility at a monthly rental rate of \$16,950 with no additional operating expenses. The initial term of the lease expires on February 28, 2011.

While our facilities appear adequate for the foreseeable future, we may add space to meet future growth as needed. Upon expiration of our current leases, we believe that we will be able to either renew our existing leases or arrange new leases in nearby locations on acceptable terms. We believe that these properties are adequately covered by insurance.

ITEM 3. LEGAL PROCEEDINGS

Table of Contents

In connection with the Linens ‘N Things (“LNT”) bankruptcy proceedings, a Complaint to Avoid and Recover Preferential Transfers was filed by LNT in the United States Bankruptcy Court for the District of Delaware on April 20, 2009 (the “Complaint”). The Complaint alleges that, pursuant to Sections 547 and 550 of the United States Bankruptcy Code, we are required to return to LNT approximately \$623,000 in “preferential” transfers allegedly made to AeroGrow during the 90-day period preceding the filing of the LNT bankruptcy cases. The Complaint also alleges that AeroGrow is required to pay to LNT approximately \$44,000 on account of credits allegedly earned but not redeemed by LNT prior to the filing of the LNT bankruptcy cases. We negotiated a settlement of all claims with LNT, executed a settlement agreement, and are now awaiting final approval of the settlement by the bankruptcy court. We do not anticipate there will be any material change to the terms of the executed settlement agreement, and the cost to us of the settlement is less than the amount previously accrued in our balance sheet and consolidated statement of operations in anticipation of the cost of defending, or settling, this matter.

From time to time, we are also a party to various other litigation matters, in most cases involving ordinary and routine claims incidental to our business. We cannot estimate with certainty our ultimate legal and financial liability with respect to any such pending litigation matters. However, we believe, based on our examination of such matters, that our ultimate liability, if any, will not have a material adverse effect on our financial position, results of operations or cash flows.

ITEM 4. RESERVED

PART II

ITEM 5. MARKET FOR REGISTRANT’S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Our common stock has been listed on the OTC Bulletin Board (the “OTCBB”) since June 9, 2009 under the symbol AERO. In the past, our common stock was listed on the Pink Sheets Electronic OTC Market from May 4, 2009 through June 9, 2009, on the NASDAQ Capital Market from June 13, 2007, to May 1, 2009, and on the OTCBB from January 8, 2007 to June 12, 2007.

Price Range of Common Stock

The following table sets forth, for the periods indicated, the high and low daily closing prices of our common stock for the two most recently completed fiscal years while trading on the markets noted above.

	Fiscal Year Ended		Fiscal Year Ended	
	3/31/10		3/31/09	
	High	Low	High	Low
1st Quarter - Ended June 30	\$0.24	\$0.12	\$3.75	\$1.81
2nd Quarter - Ended Sept 30	\$0.18	\$0.07	\$3.22	\$1.27
3rd Quarter - Ended Dec 31	\$0.22	\$0.12	\$2.94	\$0.19
4th Quarter - Ended Mar 31	\$0.20	\$0.12	\$0.40	\$0.08

Holders

As of May 31, 2010, we had approximately 492 holders of record of our common stock.

Dividends

We have never declared or paid cash dividends on our common stock. We currently intend to retain all available funds and any future earnings for use in the operation of our business and do not anticipate paying any cash dividends in the foreseeable future. Any future determination to declare cash dividends will be made at the discretion of our board of directors, subject to compliance with covenants under any existing financing agreements, which may restrict or limit our ability to declare or pay dividends, and will depend on our financial condition, results of operations, capital requirements, general business conditions, and other factors that our board of directors may deem relevant.

Table of Contents

Equity Compensation Plan Information

The equity compensation plan information called for by Item 201(d) of Regulation S-K is set forth in Item 12 of Part III of this Annual Report under the heading “Equity Compensation Plan Information.”

Company Stock Performance

The following graph compares the cumulative total stockholder return data for our stock for the period beginning April 1, 2008 and ending on March 31, 2010 to the cumulative return over such period of (i) The Russell 2000 Index (RUT) and (ii) the Russell Microcap Index (IWC). The graph assumes \$100 was invested on March 31, 2008 in our Common Stock and in each of the comparative indices. Note that the historical stock price performance on the following graph is not necessarily indicative of future stock price performance.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Annual Report on Form 10-K ("Annual Report"), including the "Management's Discussion and Analysis of Financial Condition and Results of Operations," contains forward-looking statements regarding future events and our future results that are based on current expectations, estimates, forecasts, and projections about the industry in which we operate and the beliefs and assumptions of our management. Words such as "expects," "anticipates," "targets," "goals," "projects," "may," "will," "would," "could," "intends," "plans," "believes," "seeks," "estimates," variations of such words and expressions are intended to identify such forward-looking statements. These forward looking statements may include, among others, statements concerning our expectations regarding our business, growth prospects, revenue trends, operating costs, working capital requirements, competition, results of operations and other statements of expectations, beliefs, future plans and strategies, anticipated events or trends, and similar expressions concerning matters that are not historical facts. These forward-looking statements are only predictions that are subject to risks, uncertainties, and assumptions that are difficult to predict. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, those discussed in this Report under the section entitled "Risk Factors" in Item 1A of Part I and elsewhere, and in other reports we file with the SEC, specifically the most recent reports on Form 10-Q. While forward-looking statements are based on reasonable expectations of our management at the time that they are made, you should not rely on them. We undertake no obligation to revise or update publicly any forward-looking statements for any reason.

Executive Overview

We are in the business of developing, marketing, and distributing advanced indoor aeroponic and hydroponic garden systems. After several years of initial research and product development, we began sales activities in March 2006. Since that time we have expanded all aspects of our operations in order to take advantage of what we believe to be an attractive market opportunity. We currently offer more than 15 different indoor garden models, more than 50 seed kits, and various gardening and kitchen accessories. Although our business is focused on the United States and Canada, our products are available in nine other countries.

However, during the fiscal year ended March 31, 2010 ("Fiscal 2010"), we scaled back our operations as a result of the general economic downturn and the resulting decline in consumer confidence and spending. We also determined that broad distribution through retail channels was not appropriate for a company at our stage of development because of relatively low profit margins, high capital requirements, and the operational requirements of our retailer customers. As of March 31, 2010, our products were offered in approximately 1,290 storefronts in North America, as compared to approximately 7,500 stores as of March 31, 2009. Although we expect to further reduce the number of retailer storefronts carrying our products during the next fiscal year, we plan to maintain relationships with retailers, both traditional and non-traditional, that have historically proven to be good business partners for AeroGrow. In this regard, we plan to continue selling through our largest retailer customers, including three customers that comprised approximately 59% of our retailer sales during Fiscal 2010.

In Fiscal 2010, we re-focused our efforts towards building our direct-to-consumer business, which carries higher margin opportunity. To position our business for the future, we have substantially increased the depth and breadth of our direct sales distribution channels to include a direct mail catalogue business with approximately than 3.7 million catalogues mailed in Fiscal 2010, web sales, infomercials, and 60 and 120 second television commercials. Our products are also sold through television home shopping channels and by online retailers. In Fiscal 2010, approximately 57.5% of our total sales were to direct customers.

During Fiscal 2010 we began the process of re-capitalizing the Company by issuing approximately \$6.7 million in convertible preferred shares. In addition, we negotiated deferred payment arrangements with certain vendors, negotiated reduced balances with certain vendors, and reduced the amount of our interest-bearing debt and our accounts payable obligations. Nonetheless, we continued to face cash and liquidity constraints during Fiscal 2010 that were, at times, severe, and that had a material impact on our ability to operate our business. Subsequent to the end of Fiscal 2010, in May and June 2010, we issued \$6,800,000 in convertible secured subordinated debt to supplement our internal cash sources and to address our liquidity constraints. As a result, we believe that we have sufficient liquidity to execute our business plans for the fiscal year ending March 31, 2011.

Table of Contents

Our Critical Accounting Policies

Inventory

Inventories are valued at the lower of cost, determined by the first-in, first-out method, or market. Included in inventory costs where the Company is the manufacturer are raw materials, labor and manufacturing overhead. The Company records the raw materials at delivered cost. Standard labor and manufacturing overhead costs are applied to the finished goods based on normal production capacity as prescribed under ASC 330 (prior authoritative guidance: Accounting Research Bulletin (“ARB”) No. 43, Chapter 4, Inventory Pricing). A majority of the Company’s products are manufactured overseas and are recorded at cost.

	March 31, 2010	March 31, 2009
Finished goods	\$ 2,515,451	\$ 6,799,996
Raw materials	978,281	1,550,139
	\$ 3,493,732	\$ 8,350,135

The Company determines an inventory obsolescence reserve based on management’s historical experience and establishes reserves against inventory according to the age of the product. As of March 31, 2010, the Company had reserved \$670,134 for inventory obsolescence and as of March 31, 2009 the Company had reserved \$335,705.

Revenue Recognition

The Company recognizes revenue from product sales, net of estimated returns, when persuasive evidence of a sale exists: that is, a product is shipped under an agreement with a customer; risk of loss and title has passed to the customer; the fee is fixed or determinable; and collection of the resulting receivable is reasonably assured. Accordingly, the Company did not record \$1,354 and \$0 of revenue as of March 31, 2010 and March 31, 2009, respectively, related to the unpaid balance due for orders shipped in conjunction with the Company’s direct sales to consumers because the consumer has 36 days to evaluate the product, and is required to pay only the shipping and handling costs for such products before making the required installment payments after the expiration of the 36-day trial period. The Company offers the 36-day trial period intermittently. The Company also, as of March 31, 2010 and March 31, 2009, did not record \$561 and \$0, respectively, of product costs associated with the foregoing revenue in as much as the customer is required to return the product and the Company is therefore able to recover these costs through resale of the goods. The liability for sales returns is estimated based upon historical experience of return levels.

Additionally, the Company did not record \$339,041 and \$46,131 of revenue as of March 31, 2010 and March 31, 2009, respectively, related to the wholesale sales value of inventory held by its retail shopping channel customers as these sales are contingent upon the shopping channels selling the goods. Deferred payments for these goods are charged to Customer Deposits. The Company also deferred, as of March 31, 2010 and March 31, 2009, recognition of \$243,456, and \$21,336 of product and freight costs associated with these sales, which have been included in inventory.

The Company records estimated reductions to revenue for customer and distributor programs and incentive offerings, including promotions and other volume-based incentives. Certain incentive programs require the Company to estimate based on industry experience the number of customers who will actually redeem the incentive. At March 31, 2010 and March 31, 2009, the Company had accrued \$80,119 and \$431,148 respectively, as its estimate for the foregoing deductions and allowances. In addition, for the fiscal year ended March 31, 2010 and March 31, 2009, the Company had accrued \$66,000 and \$1,393,198 for possible returns or price markdowns associated with several large retailer accounts along with \$21,207 and \$30,310 of general allowance for potential returns. These accruals were recorded as bad debt expense, and an increase in allowance for bad debt, which reduced net trade receivables relating to retailers.

Warranty and Return Reserves

The Company records warranty liabilities at the time of sale for the estimated costs that may be incurred under its basic warranty program. The specific warranty terms and conditions vary depending upon the product sold but generally include technical support, repair parts and labor for periods up to one year. Factors that affect the Company's warranty liability include the number of installed units currently under warranty, historical and anticipated rates of warranty claims on those units, and cost per claim to satisfy the Company's warranty obligation. The manufacturers of the Company's products provide replacement parts for any defective components free of charge up to 2% of the total units purchased. Based upon the foregoing, the Company has recorded as of March 31, 2010 and March 31, 2009 a provision for potential future warranty costs of \$55,842 and \$69,587, respectively.

Table of Contents

The Company reserves for known and potential returns and associated refunds or credits related to such returns based upon historical experience. In certain cases, customers are provided a fixed allowance, usually in the 1% to 2% range, to cover returned goods from which this allowance is deducted from payments from such retailers. As of March 31, 2010 and March 31, 2009, the Company has recorded a reserve for customer returns of \$47,398 and \$101,743, respectively.

Shipping and Handling Costs

Shipping and handling costs associated with inbound freight are recorded in cost of revenue. Shipping and handling costs associated with freight out to customers are also included in cost of revenue. Shipping and handling charges paid by customers are included in product sales.

Stock Based Compensation

The Financial Accounting Standards Board (“FASB”) issued ASC 710-10-15 (prior authoritative guidance: FASB Statement No. 123R, Share-Based Payment). The Securities and Exchange Commission (“SEC”) provided for a phase-in implementation process, which required adoption of the new accounting standard no later than January 1, 2006. ASC 710-10-15 requires accounting for stock options using a fair-value-based method as described in such statement and recognizing the resulting compensation expense in the Company’s financial statements. Prior to January 1, 2006, the Company accounted for employee stock options using the intrinsic value method under APB No. 25, “Accounting for Stock Issued to Employees” and related Interpretations, which generally results in no employee stock option expense. The Company uses the Black-Scholes option valuation model to estimate the fair value of stock option awards issued under ASC 710-10-15. In addition, the Company uses the “simplified” method for determining the expected term of its “plain vanilla” stock options as permitted. For the years ended March 31, 2010, March 31, 2009, March 31, 2008, equity compensation in the form of stock options and grants of restricted stock totaled \$452,393, \$723,406, and \$710,899, respectively, and is included in the accompanying Statements of Operations in the following categories:

	Years ended		
	March 31, 2010	March 31, 2009	March 31, 2008
General and administrative	\$319,673	\$457,592	\$225,730
Research and development	6,644	121,952	300,702
Sales and marketing	126,076	143,862	184,467
Total	\$452,393	\$723,406	\$710,899

Advertising and Production Costs

The Company expenses all production costs related to advertising, including, print, television, and radio advertisements when the advertisement has been broadcast or otherwise distributed. The Company records media costs related to its direct-to-consumer advertisements, inclusive of postage and printing costs incurred in conjunction with mailings of direct response catalogues, and related direct response advertising costs, in accordance with the Statement of Position, ASC 340-20-25 (prior authoritative guidance: SOP 93-7, Reporting on Advertising Costs). In accordance with ASC 340-20-25, direct response advertising costs incurred should be reported as assets and should be amortized over the estimated period of the benefits, based on the proportion of current period revenue from the advertisement to probable future revenue. As of March 31, 2010 and March 31, 2009, the Company had deferred \$19,058 and \$346,130, respectively, related to such media costs. Advertising expenses for the years ended March 31, 2010, March 31, 2009 and March 31, 2008 were \$2,299,431, \$5,101,910 and \$6,955,555, respectively.

Research and Development

Research, development, and engineering costs are expensed as incurred, in accordance with ASC 730-10-25 (prior authoritative guidance: SFAS No. 2, Accounting for Research and Development Costs). Research, development, and

engineering expenses primarily include payroll and headcount related costs, contractor fees, infrastructure costs, and administrative expenses directly related to research and development support.

Deferred Debt Issuance Costs

The Company capitalizes debt issuance costs that are directly attributable to realizing the proceeds of the debt issued and these costs are amortized over the contractual life of the debt.

Table of Contents

New Accounting Pronouncements

In January 2010, the FASB issued a new accounting standard which updates and clarifies some existing disclosure requirements about fair value measurements codified within ASC 820, Fair Value Measurements and Disclosures. The majority of the provisions of this update are effective for interim and annual reporting periods beginning after December 15, 2009. The adoption of these provisions did not have a material impact on our financial statements.

In October 2009, the FASB issued a new accounting standard which provides guidance for arrangements with multiple deliverables. Specifically, the new standard requires an entity to allocate arrangement consideration at the inception of an arrangement to all of its deliverables based on their relative selling prices. In addition, the new standard eliminates the use of the residual method of allocation and requires the relative-selling-price method in all circumstances in which an entity recognizes revenue for an arrangement with multiple deliverables. In October 2009, the FASB also issued a new accounting standard which changes revenue recognition for tangible products containing software and hardware elements. Specifically, if certain requirements are met, revenue arrangements that contain tangible products with software elements that are essential to the functionality of the products are scoped out of the existing software revenue recognition accounting guidance and will be accounted for under the multiple-element arrangements revenue recognition guidance discussed above. We do not expect the adoption will have a material impact on our financial statements. This guidance is effective prospectively for revenue entered into or materially modified in fiscal years beginning after June 15, 2010.

In August 2009, the FASB issued a new accounting standard which provides additional guidance on the measurement of liabilities at fair value. Specifically, when a quoted price in an active market for the identical liability is not available, the new standard requires that the fair value of a liability be measured using one or more of the valuation techniques that should maximize the use of relevant observable inputs and minimize the use of unobservable inputs. In addition, an entity is not required to include a separate input or adjustment to other inputs relating to the existence of a restriction that prevents the transfer of a liability. Adoption did not have a material impact on our financial statements.

In June 2009, the FASB issued ASC 105, Generally Accepted Accounting Principles (prior authoritative guidance: SFAS No. 168, The FASB Accounting Standards Codification™ and the Hierarchy of Generally Accepted Accounting Principles). ASC 105 establishes the FASB ASC as the single source of authoritative nongovernmental U.S. GAAP, except for SEC rules and interpretive releases, which are sources of authoritative GAAP for SEC registrants. The standard is effective for interim and annual periods ending after September 15, 2009. The Company adopted the provisions of the standard on September 30, 2009, which did not have a material impact on our financial statements other than references to accounting standards in our accounting principles disclosure where modified.

In May 2009, the FASB issued ASC 855, Subsequent Events (prior authoritative guidance: SFAS No. 165, Subsequent Events). ASC 855 establishes general accounting standards and disclosures of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. It requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date. This Statement is effective for interim and annual periods ending after June 15, 2009, and as such, adopted this standard in the first quarter of our fiscal year ending March 31, 2010. The adoption of ASC 855 did not have a material effect on our financial position, results of operations or cash flows. We have performed an evaluation of subsequent events through the date of our filing of this Form 10-K.

In April 2009, the FASB issued ASC 825-10-65, Financial Instruments (prior authoritative guidance: Financial Staff Position (“FSP”) No. FAS 107-1 and Accounting Principles Board (“APB”) Opinion No. 28-1, Interim Disclosures about Fair Value of Financial Instruments). ASC 825-10-65 requires disclosures about fair values of financial instruments for interim reporting periods as well as in annual financial statements. ASC 825-10-65 enhances consistency in

financial reporting by increasing the frequency of fair value disclosures and is effective for interim and annual period ending after June 15, 2009, and is to be applied prospectively. The adoption of ASC 825-10-65 did not have a material impact on our financial statements.

Table of Contents

In October 2008, the FASB issued ASC 820-10-35-15A (prior authoritative guidance: FSP No. FAS 157-3, Determining the Fair Value of a Financial Asset in a Market that is Not Active), which clarifies the application of ASC 820 when the market for a financial asset is inactive. Specifically, ASC 820-10-35-15A clarifies how (1) the internal assumptions should be considered in measuring fair value when observable data are not present, (2) observable market information from an inactive market should be taken into account, and (3) the use of broker quotes or pricing services should be considered in assessing the relevance of observable and unobservable data to measure fair value. The guidance in ASC 820-10-35-15A was effective immediately. The adoption of ASC 820-10-35-15A did not have a material effect on our financial statements.

In May 2008, the FASB issued ASC 944-20 (prior authoritative guidance: SFAS No. 163, Accounting for Financial Guarantee Insurance Contracts—an interpretation of FASB Statement No. 60). Diversity exists in practice in accounting for financial guarantee insurance contracts by insurance enterprises under FASB Statement No. 60, Accounting and Reporting by Insurance Enterprises. This results in inconsistencies in the recognition and measurement of claim liabilities. This Statement requires that an insurance enterprise recognize a claim liability prior to an event of default (insured event) when there is evidence that credit deterioration has occurred in an insured financial obligation. This Statement requires expanded disclosures about financial guarantee insurance contracts. The accounting and disclosure requirements of the Statement will improve the quality of information provided to users of financial statements. ASC 944-20 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. The adoption of ASC 944-20 did not have a material impact on our financial position.

In March 2008, the FASB issued ASC 815-10-50 (prior authoritative guidance: SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities—An Amendment of FASB Statement No. 133). ASC 815-10-50 establishes the disclosure requirements for derivative instruments and for hedging activities with the intent to provide financial statement users with an enhanced understanding of the entity's use of derivative instruments, the accounting of derivative instruments, and related hedged items under ASC 815-10-50 and its related interpretations, and the effects of these instruments on the entity's financial position, financial performance, and cash flows. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2008. The adoption of ASC 815-10-50 did not have a material impact on our financial position disclosures.

In December 2007, the FASB issued ASC 805 (prior authoritative guidance: SFAS No. 141(R), Business Combinations), which amends SFAS No. 141, and provides revised guidance for recognizing and measuring identifiable assets and goodwill acquired, liabilities assumed, and any non-controlling interest in the acquiree. It also provides disclosure requirements to enable users of the financial statements to evaluate the nature and financial effects of the business combination. ASC 805 is effective for fiscal years beginning on or after January 1, 2009, and is to be applied prospectively. The adoption of ASC 805 did not have a material impact on our financial position.

In December 2007, the FASB issued ASC 810-10 (prior authoritative guidance: SFAS No. 160, Non-controlling Interests in Consolidated Financial Statements – an amendment of ARB No. 51), which establishes accounting and reporting standards pertaining to ownership interests in subsidiaries held by parties other than the parent, the amount of net income attributable to the parent and to the non-controlling interest, changes in a parent's ownership interest, and the valuation of any retained non-controlling equity investment when a subsidiary is deconsolidated. ASC 810-10 also establishes disclosure requirements that clearly identify and distinguish between the interests of the parent and the interests of the non-controlling owners. ASC 810-10 is effective for fiscal years beginning on or after January 1, 2009. The adoption of ASC 810-10 did not have a material impact on our financial position.

In February 2007, the FASB issued ASC 825-10 (prior authoritative guidance: SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities—including an amendment of FASB Statement 157). The Company adopted ASC 825-10 beginning April 1, 2008. The adoption of ASC 825-10 did not have a material effect on our

financial position.

Inflation and Seasonality

We do not currently expect inflation to have a significant effect on our operations. Because our indoor garden systems are designed for an indoor gardening experience, we experience slower sales in the United States during the late spring and summer months when our consumers may tend to garden outdoors. In addition, we have experienced increased sales during the holiday season in the fourth calendar quarter (the third quarter of our fiscal year). We sell to our international distributors in US Dollars thereby minimizing effects from currency fluctuations. We purchase our gardens and other accessory products from Chinese manufacturers, and these purchases are denominated in US Dollars. However, over time, the cost of the products we procure from China may be affected by changes in the value of the US Dollar relative to the Chinese currency.

Table of Contents

Results of Operations

The following table sets forth, as a percentage of sales, our financial results for the last three fiscal years:

	Fiscal Years Ended March 31,					
	2010		2009		2008	
Revenue						
Product sales- retail	40.1	%	60.9	%	62.4	%
Product sales- direct-to-consumer	57.5	%	32.9	%	35.7	%
Product sales- international	2.4	%	6.2	%	1.9	%
Total sales	100.0	%	100.0	%	100.0	%
Operating expenses						
Cost of revenue	68.7	%	63.3	%	59.9	%
Research and development	2.5	%	5.7	%	6.8	%
Sales and marketing	35.4	%	36.8	%	41.9	%

Total operating expenses	136.3	%	124.6	%	124.5	%
Loss from Operations	-36.3	%	-24.6	%	-24.5	%
Total other (income)/expense, net	0.4	%	2.9	%	1.1	%
Net Loss	-36.7	%	-27.5	%	-25.6	%

Fiscal Years Ended March 31, 2010 and March 31, 2009

Summary Overview

For the fiscal year ended March 31, 2010 (“Fiscal 2010”), our net sales totaled \$17,251,347, a decrease of 53.9% from the fiscal year ended March 31, 2009 (“Fiscal 2009”).

Our sales to retailer customers declined by 69.7% to \$6,923,619, representing 78.7% of the overall sales decrease we experienced during Fiscal 2010. The reduction in sales to retailers reflected a combination of factors, included our decision to de-emphasize sales to retailers because of the higher risk and lower margins associated with these sales. In addition, during Fiscal 2010, retailers generally took a more cautious approach to inventory decisions, resulting in fewer and smaller orders than in previous years. As a result of our strategic decision to reduce our exposure to the retail channel, and, in some case, inventory actions by certain retailers, we reduced the number of retail store doors carrying our products, to an estimated 1,290 at March 31, 2010, from approximately 7,500 a year earlier.

Our direct-to-consumer sales also declined, by 19.4% to \$9,921,278, despite a 78.9% year-over-year increase in the efficiency of our marketing efforts during Fiscal 2010, as measured by dollars of direct-to-consumer sales per dollar of advertising expense. However, we reduced our revenue-generating advertising spending by 54.9% during Fiscal 2010, more than offsetting the increase in marketing efficiency, because of our cash constraints, and our decision to implement a more targeted marketing program during the year in light of the difficult macroeconomic environment. Sales to international distributors also fell, by 82.5% to \$406,450 in Fiscal 2010 as we did not promote international sales, and our distributors’ inventory levels in existing markets were sufficient to meet most of our international consumer demand, thereby limiting re-orders.

Table of Contents

Our gross margin for the fiscal year ended March 31, 2010 was 31.3%, down from 36.7% in the prior year. The reduction in gross margin reflected a number of factors including severe operational inefficiencies caused by our cash constraints during Fiscal 2010, a higher inventory reserve established during Fiscal 2010, and the impact of fixed facility costs on a lower level of revenue during the year.

Operating expenses other than cost of revenue for the fiscal year ended March 31, 2010 totaled \$11,642,130, 49.3% or \$11,320,576 lower than the prior fiscal year. This decrease reflected the combined impacts of lower headcount and cost reduction initiatives executed throughout the year. Sales and marketing costs were reduced by 55.7%, including a \$2,802,479, or 54.9% reduction in advertising spending caused in large part by the cash constraints we experienced throughout Fiscal 2010, as well as by planned reductions we implemented in reaction to the impact of the global economic recession on consumer spending. General and administrative expense totaled \$5,112,647 during Fiscal 2010, representing a \$1,930,744, or 27.4% reduction relative to the prior fiscal year. The lower general and administrative expense primarily reflected the impact of headcount reductions, lower legal and accounting costs, lower facility costs, and reductions in corporate and governance expenses, partially offset by a higher allowance for bad debts associated with the termination of our relationships with certain retailers. Research and development costs also declined year-over-year, by \$1,721,752, or 80.2%, to \$424,741 in Fiscal 2010. The reduction in research and development expense primarily reflected the impact of lower headcount relative to the prior fiscal year.

Our loss from operations totaled \$6,237,182 for Fiscal 2010, as compared to a loss of \$9,223,625 in the prior year. The lower loss reflected the impact of cost savings initiatives and lower media spending which offset the impact of lower sales and gross margin during Fiscal 2010.

Other expense for Fiscal 2010 totaled \$94,023 as compared to \$1,089,889 in the prior year. The year-over-year change reflected \$807,310 in gains recorded as a result of negotiated reductions in accounts payable amounts owed to certain vendors, and a \$56,819 decrease in interest expense resulting from a lower average level of debt outstanding being offset by a higher effective interest rate during Fiscal 2010.

The net loss for Fiscal 2010 was \$6,331,205 as compared to a net loss of \$10,313,514 in Fiscal 2009. The lower loss reflected the impact of cost savings initiatives, lower media spending, and the gains recorded on the negotiated reductions in accounts payable which offset the impact of lower sales and gross margin during the period.

Revenue

The table set forth below shows quarterly revenues by sales channel for the fiscal years ended March 31, 2010, and March 31, 2009:

	Quarters ended				Year ended
	30-Jun-08	30-Sep-08	31-Dec-08	31-Mar-09	31-Mar-09
Sales – retail	\$2,642,575	\$11,508,030	\$5,621,688	\$3,048,651	\$22,820,944
Sales – direct-to-consumer	3,339,410	1,365,438	4,867,808	2,731,362	12,304,018
Sales – international	738,096	981,462	521,389	83,959	2,324,906
	\$6,720,081	\$13,854,930	\$11,010,885	\$5,863,972	\$37,449,868
	Quarters ended				Year ended
	30-Jun-09	30-Sep-09	31-Dec-09	31-Mar-10	31-Mar-10
Sales – retail	\$868,263	\$1,831,781	\$3,649,483	\$574,092	\$6,923,619
Sales – direct-to-consumer	2,010,243	1,375,141	4,159,984	2,375,910	9,921,278
Sales – international	101,187	79,027	129,781	96,455	406,450
	\$2,979,693	\$3,285,949	\$7,939,248	\$3,046,457	\$17,251,347

Table of Contents

In Fiscal 2010, revenue totaled \$17,251,347, a decrease of \$20,198,521, or 53.9%, from Fiscal 2009.

78.7% of the overall sales decline resulted from a \$15,897,325, or 69.7%, year-over-year reduction in our sales to retailers, to \$6,923,619 in Fiscal 2010 from \$22,820,944 in Fiscal 2009. The decrease in our sales to retailers partially reflected our strategic decision to reduce our exposure to the retail channel because of our determination that sales to retailers were not generating sufficient financial return to compensate for the high level of capital required to support the sales, and to the risks associated with being a supplier to large retail chains. In addition, the decline in sales to retailers reflected more conservative product, procurement, and inventory management strategies being executed by major retail chains during Fiscal 2010, and a comparison to a prior year period in which more retailer customers stocked AeroGrow products. As of March 31, 2010, AeroGrow products were being sold through approximately 1,290 storefronts in the United States and Canada, as compared to approximately 7,500 storefronts at March 31, 2009. We expect the number of stores carrying our products will vary during the fiscal year ending March 31, 2011, and will likely decline during the year due to our strategy of reducing the breadth of our retail distribution and focusing on a small number of key retailer customers, including both traditional brick and mortar and non-traditional retailers. However, because of the potential variability in the number of stores carrying our products, and the potential impact of web-based retailers, TV sales channels, and catalogue retailers, which do not have storefronts, on our reported sales to retailers, we do not believe “sales per store” is a meaningful metric for assessing our retail business.

Direct-to-consumer sales also decreased \$2,382,740 year-over-year, to \$9,921,278. The decline principally reflected a reduction in the amount of revenue-generating media spending during Fiscal 2010 relative to Fiscal 2009. Specifically, infomercial spending declined \$388,981 year-over-year, and there was a 24% decrease in the number of catalogues mailed, to 3,678,080. The decline in spending reflected management’s determination to more precisely target marketing spending because of the reduced level of consumer spending in the economy generally, cash constraints experienced during Fiscal 2010, and analysis demonstrating that broadcast media spending in the April to June time period had historically resulted in an inadequate return on investment. During Fiscal 2010, direct-to-consumer sales were down 19.4% relative to Fiscal 2009, despite a much larger 54.9% reduction in the total amount of revenue-generating media spending.

From time-to-time, during the Fiscal 2010, we offered our direct customers 36 days to evaluate the product (“Trial Sales”), with the customer paying only the shipping and handling costs for such products before making required installment payments after the expiration of the 36-day trial period. As of March 31, 2010, we did not record \$1,354 of revenue, related to the unpaid balance due for orders shipped in conjunction with these Trial Sales. This compares to \$0 in the unpaid balance of Trial Sales that were not recorded as of March 31, 2009. Also, as of March 31, 2010, we did not record \$561 of product costs associated with the Trial Sales because in the event the customer returned the product, we were able to recover these costs through resale of the goods. Similarly, as of March 31, 2009, there was \$0 of unrecorded product cost relating to Trial Sales.

International sales totaled \$406,450 in Fiscal 2010 as compared to \$2,324,906 in the prior fiscal year. Fiscal 2009 was the first full fiscal year of revenue for our international operations and included large initial stocking shipments to distributors in several countries. In Fiscal 2010, the worldwide recession impacted the marketing activities of our distributors, as well as consumer demand for our products in international markets, with the result that inventory levels at our international distributors remained sufficient to meet local demand for our products, limiting re-orders from these customers relative to the Fiscal 2009 period. As of March 31, 2010, our products were being sold in nine countries outside the United States and Canada, principally in Europe, Asia and in Australia.

Table of Contents

The following table presents our quarterly sales by product category, in US Dollars and as a percent of total net revenue, for Fiscal 2010 and Fiscal 2009.

	Quarters ended				Year ended
	30-Jun-08	30-Sep-08	31-Dec-08	31-Mar-09	31-Mar-09
Product Revenue					
AeroGardens	\$4,983,416	\$11,278,260	\$8,683,670	\$4,189,614	\$29,134,960
Seed kits and accessories	1,736,665	2,576,670	2,327,215	1,674,358	8,314,908
Total	\$6,720,081	\$13,854,930	\$11,010,885	\$5,863,972	\$37,449,868
% of Revenue					
AeroGardens	74.2	% 81.4	% 78.9	% 71.4	% 77.8
Seed kits and accessories	25.8	% 18.6	% 21.1	% 28.6	% 22.2
Total	100.0	% 100.0	% 100.0	% 100.0	% 100.0
Quarters ended					
	30-Jun-09	30-Sep-09	31-Dec-09	31-Mar-10	31-Mar-10
Product Revenue					
AeroGardens	\$1,584,308	\$2,343,439	\$5,662,031	\$1,858,339	\$11,448,117
Seed kits and accessories	1,395,385	942,510	2,277,217	1,188,118	5,803,230
Total	\$2,979,693	\$3,285,949	\$7,939,248	\$3,046,457	\$17,251,347
% of Revenue					
AeroGardens	53.2	% 71.3	% 71.3	% 61.0	% 66.4
Seed kits and accessories	46.8	% 28.7	% 28.7	% 39.0	% 33.6
Total	100.0	% 100.0	% 100.0	% 100.0	% 100.0

Year-over-year, sales of our AeroGardens decreased 60.7% during Fiscal 2010, to \$11,448,117, principally reflecting the decline in sales to retailer customers, and, to a lesser extent, the sales declines in other channels of distribution. Seed kit and accessory sales also declined, by \$2,511,678 or 30.2%, to \$5,803,230, again reflecting the overall decline in sales in all channels of distribution. The lower decline in seed kit and accessory sales relative to the decline in garden sales reflected the impact of our expanded base of cumulative gardens sold since inception, to 958,000. On a cumulative basis, we have sold over 2,037,000 seed kits to-date, and, in Fiscal 2010, sales of seed kits and accessories represented 33.6% of our total net revenue, up from 22.2% in the prior fiscal year.

Cost of Revenue

Cost of revenue for Fiscal 2010 totaled \$11,846,399, a 50.0% decrease from the prior fiscal year. Cost of revenue includes product costs for purchased and manufactured products, freight costs for inbound freight from manufacturers and outbound freight to customers, costs related to warehousing, and duties and customs applicable to products imported. The year-over-year decline in cost of revenue principally resulted from the decrease in sales during the period. As a percent of total revenue, these costs totaled 68.7% in Fiscal 2010, as compared to 63.3% in the year earlier period. The increase in costs as a percent of revenue reflects changes in channel, customer, and product mix, as well as the impact of fixed facility costs on a lower revenue base. These latter costs principally reflect the impact of our Indianapolis, Indiana manufacturing and distribution center which was opened in July 2008 and became fully operational in October 2008. In addition, during Fiscal 2010 we experienced increased raw material, freight, fulfillment, and labor costs resulting from our severe cash constraints and the consequent adverse impact on our operational efficiencies. Finally, cost of revenue in Fiscal 2010 included the impact of \$670,134 in reserves taken for excess and obsolete inventory, as compared to \$335,705 in Fiscal 2009. The reserve in Fiscal 2010 principally related to the decision to de-emphasize our sales to retailers, and the consequent need to dispose of excess finished goods, raw materials, packaging, and marketing materials designated for the retail channel.

Our gross margin varies based upon the factors impacting net revenue and cost of revenue as discussed above, as well as the mix of our revenue that comes from the retail, direct-to-consumer, and international channels. In a direct-to-consumer sale, we recognize as revenue the full consumer purchase price for the product as opposed to retail sales, where we recognize as revenue the wholesale price for the product which we charge to the retailer. Media costs associated with direct sales are included in sales and marketing costs. For international sales, margins are structured based on the distributor purchasing products by letter of credit or cash-in-advance terms with the distributor bearing all of the marketing and distribution costs within their territory, hence international margins are lower than margins from domestic retail sales.

Table of Contents

Gross margin for Fiscal 2010 was 31.3% of net revenue, as compared to 36.7% in the prior fiscal year. The decline in gross margin as a percent of net revenue principally reflected the operational cost impacts noted above as well as the higher inventory reserve established during Fiscal 2010.

Sales and Marketing

Sales and marketing costs for Fiscal 2010 totaled \$6,104,742, a reduction of \$7,668,080, or 55.7%, from the prior fiscal year. Sales and marketing costs include all costs associated with the marketing, sales, operations, customer support, and sales order processing for our products. The following table breaks down the components of our sales and marketing costs for Fiscal 2010 and Fiscal 2009:

	Fiscal Years Ended March 31,	
	2010	2009
Advertising	\$ 2,299,431	\$ 5,101,910
Salaries and related expenses	2,431,068	3,772,942
Sales commissions	309,283	1,145,141
Trade shows	43,877	302,138
Other	1,021,083	3,450,691
	\$ 6,104,742	\$ 13,772,822

Advertising is principally made up of the costs of developing and airing our infomercials and short-form television commercials, the costs of development, production, printing, and postage for our catalogues, and mailing and web media costs for search and affiliate web marketing programs. Each of these are key components of our integrated marketing strategy because they generate direct-to-consumer sales and help build awareness of, and consumer demand for, our products in all our channels of distribution. Advertising expense totaled \$2,299,431 for the fiscal year ended March 31, 2010, a decrease of \$2,802,479, or 54.9%, from the prior fiscal year, principally reflecting management's determination to more precisely target marketing spending because of the reduced level of consumer spending in the economy generally during Fiscal 2010, cash constraints experienced throughout Fiscal 2010, and analysis demonstrating that media spending in the April to June time period had historically resulted in an inadequate return on investment. Spending on television advertising during Fiscal 2010 totaled \$222,751, a \$1,566,849 reduction from the prior year, while spending on catalogues totaled \$1,641,249, a reduction of \$711,673. Spending on other forms of advertising, including online advertising, totaled \$435,431 during Fiscal 2010, a \$523,957 reduction from the prior year.

Sales and marketing personnel costs include salaries, payroll taxes, employee benefits and other payroll costs for our sales, operations, customer service, graphics and marketing departments. For Fiscal 2010, these costs totaled \$2,431,068, a decrease of \$1,341,874, or 35.6%, from the prior fiscal year. The decrease principally reflected headcount reductions in sales, marketing, and operations personnel. In addition Fiscal 2010 personnel costs included a \$76,305 increase in severance expense over that recorded in Fiscal 2009, primarily attributable to the departure of our former vice president of sales and marketing during Fiscal 2010.

Sales commissions, ranging from 2.5% to 7% of cash collections from our retailer customers, are paid to third-party sales representative organizations that assist us in developing and maintaining our relationships with retailers. For the fiscal year ended March 31, 2010, sales commissions totaled \$309,283, a 73.0% decrease relative to the prior fiscal year. The decrease principally reflected the overall decline in sales to retailers during the fiscal year.

Trade show expense comprises all the costs necessary to participate in trade shows and includes show fees, expenses related to developing, transporting and setting up show booths, and travel and entertainment costs, among others. Trade show expense in Fiscal 2010 totaled \$43,877, down \$258,261 from the prior year. The decrease

resulted from our decision not to participate in trade shows that had been part of our marketing program for the retail distribution channel in the prior fiscal year. Given our shift in strategic focus away from retail distribution in Fiscal 2010, these shows no longer fit our marketing requirements. In addition, cash constraints experienced during Fiscal 2010 limited our ability to participate in shows to support our direct response marketing efforts.

Other sales and marketing costs include third party contracted service, promotional items, media production costs, travel related costs, displays and order processing costs. These costs totaled \$1,021,083 in Fiscal 2010, down \$2,429,608 from the prior year because of the reduction in related headcount as well as our focus on bringing services in house, or eliminating them.

Table of Contents

General and Administrative

General and administrative expense for the fiscal year ended March 31, 2010 totaled \$5,112,647, down \$1,930,744, or 27.4% from the prior fiscal year. The decrease reflected lower headcount and spending reductions in all areas including payroll related costs which totaled \$1,880,345, and were down \$568,824, legal, accounting and other contracted services fees which totaled \$514,489 and were down \$642,153, and corporate governance and insurance costs which totaled \$356,409, and were down \$119,018. Fiscal 2010 also included a \$40,308 increase in severance expense over that recorded in Fiscal 2009, primarily attributable to the departure of our former chief executive officer during Fiscal 2010.

Research and Development

Research and development costs totaled \$424,741 for Fiscal 2010, a decline of \$1,721,752, or 80.2%, from the prior fiscal year. Research and development costs comprise the costs associated with our engineering staff that develops new AeroGarden models and technologies, and our plant laboratories that research new plant varieties that will grow well in our AeroGarden products, as well as technologies such as improved lighting and nutrient formulation and delivery to enhance the performance of our products. The decrease in research and development spending in Fiscal 2010 reflected lower headcount costs resulting from staffing reductions, and the impact of cash constraints experienced during the year that impacted our ability to spend on new product design and development efforts.

Operating Loss

The loss from operations totaled \$6,237,182 for the fiscal year ended March 31, 2010, \$2,986,433, or 32.4%, less than the prior year.

Other Income and Expense

Other expense for Fiscal 2010 and Fiscal 2009 totaled to \$94,023 and \$1,089,889, respectively. The year-over-year change of \$995,866 was driven by \$807,310 of gains attributable to negotiated reductions in accounts payable due to vendors and a \$56,819 decrease in interest expense, reflecting lower average levels of debt being mostly offset by a higher effective interest rate during Fiscal 2010.

Net Loss

The net loss for the Fiscal 2010 totaled \$6,331,205, as compared to the \$10,313,514 loss reported for the prior year period.

Fiscal Years Ended March 31, 2009 and March 31, 2008

Summary Overview

Our net sales for Fiscal 2009 totaled \$37,449,868, a decrease of 2.4% from the fiscal year ended March 31, 2008. The sales decrease reflected the impact of the sudden disruptions in the global credit markets, the decline in general economic activity, and the consequent decline in consumer spending that occurred in the second half of our fiscal year. In the first half of the fiscal year (the six month period ended September 30, 2008), our sales increased almost 63.8% reflecting our greatly expanded distribution through our retailer customers; however, the sudden change in the economic environment resulted in our sales declining 34.6% in the second half of the fiscal year. This impact of the economic downturn on sales was experienced in both our sales to retailer customers and in our direct-to-consumer business. In our international business, sales increased 213.7% year-over-year, principally reflecting the comparison to a partial year of operations in the prior fiscal year. Our sales to retailers were also adversely impacted during the second half of the fiscal year by an unusually high level of sales allowances, totaling \$2,077,622, which we recognized to reflect our cost of supporting discounting programs executed by some of our largest retailer customers. These discounting programs were instituted during the 2008 holiday selling season by retailers in recognition of the impact that the global credit crisis, stock market declines, and sudden downturn in economic activity during the fourth calendar quarter of 2008 had on consumer confidence, and therefore on the level of

consumer spending.

Our gross margin for the fiscal year ended March 31, 2009 was 36.7%, down from 40.1% in the prior year. The reduction in margin reflected a number of factors including the \$2,077,622 in unusual sales allowances (which reduced sales and gross profit), inventory reserves we established during the year totaling \$391,490, and the increased percentage mix of our sales that came from our lower-margin international operations. Partially offsetting these negative impacts were cost reductions we achieved in our manufacturing and distribution operations, most notably resulting from the opening of a company-operated distribution facility in Indianapolis, Indiana in July 2008.

Table of Contents

Operating expenses other than cost of revenue for the fiscal year ended March 31, 2009 decreased \$1,811,487, or 7.3%, reflecting reduced spending in our sales and marketing operations and in our research and development operations. In both cases, the declines reflected cost saving actions, including headcount reductions, taken in the second half of the fiscal year in response to the sudden decline in sales volume we experienced. Offsetting the decline in sales and marketing and research and development expense was a year-over-year \$958,663 increase in general and administrative expense. This increase principally reflected severance expense of \$362,271, amortization of debt issuance costs of \$243,937, and a \$414,831 increase in depreciation and amortization, partially offset by the net impact of cost reduction actions taken during the year.

Other expense for the fiscal year ended March 31, 2009, principally interest expense, increased \$646,870 to \$1,089,889 from the prior fiscal year reflecting the higher proportion of debt in our capital structure during the year. Our net loss totaled \$10,313,514 for the fiscal year ended March 31, 2009, \$477,593 higher than the prior year as the increase in other expense more than offset the decline in our loss from operations.

The table set forth below shows quarterly revenues by sales channel for the fiscal years ended March 31, 2009, and March 31, 2008:

	Quarters ended				Year ended
	30-Jun-07	30-Sep-07	31-Dec-07	31-Mar-08	31-Mar-08
Sales – retail	\$4,129,853	\$4,850,298	\$9,145,317	\$5,785,314	\$23,910,782
Sales – direct-to-Consumer	2,148,832	1,433,347	5,109,405	5,013,133	13,704,717
Sales – international	-	-	383,020	358,157	741,177
	\$6,278,685	\$6,283,645	\$14,637,742	\$11,156,604	\$38,356,676

	Quarters ended				Year ended
	30-Jun-08	30-Sep-08	31-Dec-08	31-Mar-09	31-Mar-09
Sales – retail	\$2,642,575	\$11,508,030	\$5,621,688	\$3,048,651	\$22,820,944
Sales – direct-to-Consumer	3,339,410	1,365,438	4,867,808	2,731,362	12,304,018
Sales – international	738,096	981,462	521,389	83,959	2,324,906
	\$6,720,081	\$13,854,930	\$11,010,885	\$5,863,972	\$37,449,868

Revenue

For the fiscal year ended March 31, 2009, revenue totaled \$37,449,868, a decrease of 2.4% from the fiscal year ended March 31, 2008. Overall, the decline reflected the impact of the dramatic slowdown in economic activity in the United States that began in the calendar fourth quarter. For the first half of our fiscal year, net revenue increased 63.8%, principally because of the impact of a substantial increase in the number of retail storefronts in the United States and Canada carrying our AeroGardens, seed kits and accessory items, which rose to over 9,000 stores by the December 2008 holiday shopping season.

The increase in retail storefronts carrying our products resulted in a large volume of stocking shipments to new retailer customers during the six months ended September 30, 2008, causing sales into the retail channel to increase by 57.6% relative to the same time period in the prior year. In the following two quarters, however, our sales were constrained by the combined impact of two factors: first, the economic downturn caused a reduction in the level of consumer spending, and second, our retailer customers reduced the level of their purchases of our products relative to the levels they had originally projected. The combination of these factors resulted in our sales into the retail channel for the second half of the fiscal year to decline by 41.9% from the same period in the prior fiscal year. For the full fiscal year, our sales into the retail channel declined by 4.6%, to \$22,820,944.

As of December 31, 2008, our products were being sold in over 9,000 traditional “brick and mortar” storefronts, as compared to approximately 4,300 as of December 31, 2007. As of March 31, 2009, AeroGrow products were being sold through approximately 7,500 storefronts, as compared to approximately 5,100 storefronts at March 31, 2008.

Table of Contents

Our net revenue from sales into the retail channel was adversely impacted by sales allowances over and above those allowances we normally recognize to account for the costs of our account relationships with larger retailers. These unusual allowances were taken to reflect the cost we incurred to support discounting programs by our retailer customers during the 2008 holiday selling season and in the first calendar quarter of 2009. These discounting programs were instituted during the 2008 holiday selling season by retailers in recognition of the impact that the global credit crisis, stock market declines, and sudden downturn in economic activity during the fourth calendar quarter of 2008 had on consumer confidence, and therefore on the level of consumer spending. Because of these factors, discounting and other price actions were prevalent at most retailers and on many products during the 2008 holiday selling season in order to try to incent the consumer to purchase products during what is traditionally the highest volume selling season for retailers. We recognized \$1,725,213 in unusual allowances in the three months ended December 31, 2008 and \$352,409 during the three months ended March 31, 2009. In the prior fiscal year, we recognized no unusual allowances.

Our direct-to-consumer sales also declined during the fiscal year ended March 31, 2009, by 10.2% to \$12,304,018 from the prior fiscal year. The decline reflected the offsetting impacts of an approximate 85.0% decline in sales generated by television advertising and infomercials, and an approximate 20.0% increase in sales generated from all other direct-to-consumer channels, including an approximate 93.9% increase in sales generated by our catalogue operations. The decline in sales generated by television media was caused by a shift in our media spending from long-form and short-form television infomercials designed specifically to drive direct-to-consumer sales, to more traditional television advertising designed to support the sales and marketing efforts of our retailer customers, as well as support our direct-to-consumer operations. In addition, we reduced the level of our overall television media spending relative to the prior fiscal year, as a result of our constrained capital availability and because of analysis demonstrating that television media purchased during the low seasonal period of our fiscal year represented an inefficient use of our resources as it generated direct-to-consumer sales that were less than the cost of media. The year-over-year increase in sales from all other direct-to-consumer channels during the fiscal year ended March 31, 2009, principally reflected a 132.9% increase in the number of catalogues we mailed to consumers, to more than 4.8 million catalogues. The increase in catalogues mailed reflected our strategy to increase marketing spending in this channel of our direct-to-consumer business, as well as a comparison to operations for only part of the prior fiscal year.

During the fiscal year ended March 31, 2009, from time-to-time we offered our direct customers 36 days to evaluate the product (“Trial Sales”), with the customer paying only the shipping and handling costs for such products before making required installment payments after the expiration of the 36-day trial period. As of March 31, 2009, we were not offering Trial Sales. During the prior fiscal year, we also offered Trial Sales, and therefore did not record \$577,838 of revenue as of March 31, 2008, related to the unpaid balance due for orders shipped in conjunction with these Trial Sales. Also, as of March 31, 2008, we did not record \$175,781 of product costs associated with the foregoing Trial Sales because in the event the customer returned the product, we were able to recover these costs through resale of the goods.

The fiscal year ended March 31, 2009 was the first full fiscal year of revenue for our international operations. Total sales into markets outside the United States and Canada increased to \$2,324,906, or 213.7% higher than international sales during the fiscal year ended March 31, 2008. The increase principally reflected an increase in our penetration of new markets through local distributors, as well as the comparison to a partial fiscal year of operations in the fiscal year ended March 31, 2008. As of March 31, 2009, our products were being sold in nine countries outside the United States and Canada, principally in Europe, Asia and in Australia.

Table of Contents

The following table presents our quarterly sales by product category, in US Dollars and as a percent of total net revenue, for the fiscal years ending March 31, 2009 and March 31, 2008.

	Quarters ended				Year ended
	30-Jun-07	30-Sep-07	31-Dec-07	31-Mar-08	31-Mar-08
Product Revenue					
AeroGardens	\$5,643,885	\$4,816,504	\$12,145,733	\$8,934,285	\$31,540,407
Seed kits and accessories	634,800	1,467,141	2,492,009	2,222,319	6,816,269
Total	\$6,278,685	\$6,283,645	\$14,637,742	\$11,156,604	\$38,356,676
% of Revenue					
AeroGardens	89.9 %	76.7 %	83.0 %	80.1 %	82.2 %
Seed kits and accessories	10.1 %	23.3 %	17.0 %	19.9 %	17.8 %
Total	100.0 %	100.0 %	100.0 %	100.0 %	100.0 %
Quarters ended					
	30-Jun-08	30-Sep-08	31-Dec-08	31-Mar-09	Year ended 31-Mar-09
Product Revenue					
AeroGardens	\$4,983,416	\$11,278,260	\$8,683,670	\$4,189,614	\$29,134,960
Seed kits and accessories	1,736,665	2,576,670	2,327,215	1,674,358	8,314,908
Total	\$6,720,081	\$13,854,930	\$11,010,885	\$5,863,972	\$37,449,868
% of Revenue					
AeroGardens	74.2 %	81.4 %	78.9 %	71.4 %	77.8 %
Seed kits and accessories	25.8 %	18.6 %	21.1 %	28.6 %	22.2 %
Total	100.0 %	100.0 %	100.0 %	100.0 %	100.0 %

Year-over-year, sales of our AeroGardens decreased 7.6% during the fiscal year ended March 31, 2009, to \$29,134,960, reflecting the decline in sales to retailer customers, and in our direct-to-consumer business detailed above. Year-over-year seed kit and accessory sales increased, however, by 22.0%, to \$8,314,908 during the same time period. The increase in seed kit and accessory sales reflected the impact of our expanded base of cumulative gardens sold since inception, to 795,708. On a cumulative basis, we have sold over 1,722,000 seed kits to-date, and, in the fiscal year ended March 31, 2009, sales of seed kits and accessories represented 22.2% of our total net revenue, up from 17.8% in the prior fiscal year.

Cost of Revenue

Cost of revenue for the year ended March 31, 2009 totaled \$23,710,787, a 3.2% increase from the prior fiscal year. Cost of revenue includes product costs for purchased and manufactured products, freight costs for inbound freight from manufacturers and outbound freight to customers, costs related to warehousing and the shipping of products to customers and duties and customs applicable to products imported. The increase in cost of revenue principally reflected the increase in adjusted net revenue (with the increase being calculated after excluding the impact of \$2,077,622 in unusual sales allowances), as well as \$391,490 in reserves established for inventory damage and obsolescence. As a percent of net revenue, cost of revenue increased to 63.3% from 59.9% in the prior fiscal year. This increase reflects the impact of the unusual sales allowances that reduced net revenue in the fiscal year ended March 31, 2009, a higher percentage of our revenue coming from international sales, at a lower average margin, offset partially by the impact of various cost savings initiatives executed in our manufacturing and distribution operations.

Our gross margin varies based upon the factors impacting net revenue and cost of revenue as discussed above, as well as the mix of our revenue that comes from the retail, direct-to-consumer, and international channels. In a

direct-to-consumer sale, we recognize as revenue the full consumer purchase price for the product as opposed to retail sales, where we recognize as revenue the wholesale price for the product which we charge to the retailer. Media costs associated with direct sales are included in sales and marketing costs. For international sales, margins are structured based on the distributor purchasing products by letter of credit or cash in advance terms with the distributor bearing all of the marketing and distribution costs within their territory, hence international margins are lower than margins from domestic retail sales.

Table of Contents

Gross margin for the year ended March 31, 2009 was 36.7% of net revenue, as compared to 40.1% in the prior fiscal year. The decline in gross margin as a percent of net revenue principally reflected the impacts of the unusual sales allowances, the inventory reserves established during the fiscal year ended March 31, 2009, and the higher mix of our sales coming from international operations, offset by the cost reductions we were able to achieve in our manufacturing and distribution operations.

Sales and Marketing

Sales and marketing costs for the fiscal year ended March 31, 2009 totaled \$13,772,822, a reduction of \$2,311,531, or 14.4%, from the prior fiscal year. Sales and marketing costs include all costs associated with the marketing, sales, operations, customer support, and sales order processing for our products. The following table breaks down the components of our sales and marketing costs for the fiscal years ended March 31, 2009 and March 31, 2008:

	Fiscal Years Ended March 31,	
	2009	2008
Advertising	\$ 5,101,910	\$ 8,291,987
Salaries and related expenses	3,772,942	3,541,337
Sales commissions	1,145,141	1,104,241
Trade Shows	302,138	398,337
Other	3,450,691	2,748,451
	\$ 13,772,822	\$ 16,084,353

Advertising is principally made up of the costs of developing and airing our infomercials and short-form television commercials, the costs of development, production, printing, and postage for our catalogues, and mailing and web media costs for search and affiliate web marketing programs. Each of these are key components of our integrated marketing strategy because they help build awareness of, and consumer demand for, our products, for all our channels of distribution, in addition to generating direct-to-consumer sales. Advertising expense totaled \$5,101,910 for the fiscal year ended March 31, 2009, a decrease of \$3,190,077 from the prior fiscal year, reflecting the offsetting impacts of a \$3,647,172 reduction in television advertising expense, and a \$1,720,143 increase in the level of our catalogue and web media spending.

Sales and marketing personnel costs include salaries, payroll taxes, employee benefits and other payroll costs for our sales, operations, customer service, graphics and marketing departments. For the fiscal year ended March 31, 2009, these costs totaled \$3,772,942, an increase of \$231,605 from the prior fiscal year. The increase primarily reflects the impact of higher average levels of staffing in our customer support and telesales operations early in the fiscal year, severance expense totaling \$101,788, reflecting the departure of our Chief Marketing Officer, and new staffing for our Indianapolis, Indiana distribution and manufacturing facility opened in July 2008, partially offset by the impact of headcount reductions implemented in December 2008 and in the first calendar quarter of 2009.

Sales commissions, ranging from 2.5% to 7% of cash collections from our retailer customers, are paid to third-party sales representative organizations that assist us in developing and maintaining our relationships with retailers. For the fiscal year ended March 31, 2009, sales commissions totaled \$1,145,141, a 3.7% increase relative to the prior fiscal year. The increase principally reflects changes in the mix of our collections from retailer customers and the differential commission rates associated with each customer, partially offset by the impact of the overall decline in sales to retailers during the fiscal year.

General and Administrative

General and administrative expense for the fiscal year ended March 31, 2009 totaled \$7,043,391, up \$958,663, or 15.8% from the prior fiscal year. Contributing to the increase was severance expense of \$362,271 relating to overall

staff reductions, including the departure of our former chief executive officer, chief financial officer, and vice president of human resources, and \$243,937 in amortization of debt issuance costs. The balance of the increase principally reflects increases in executive and managerial headcount costs, facility costs, insurance costs, and outside legal costs, in addition to a \$414,831 increase in non-cash depreciation and amortization charges, offset by a \$312,512 reduction in bad debt expense reflecting a comparison to the prior fiscal year that included a \$400,000 reserve established as a result of receivables due from Linens 'N Things, Inc., which filed for protection under Chapter 11 of the U.S. Bankruptcy code on May 2, 2008.

Research and Development

Research and development costs totaled \$2,146,493 for the fiscal year ended March 31, 2009, a \$458,619 or 17.6% decline from the prior fiscal year. Research and development costs comprise the costs associated with our engineering staff that develops new AeroGarden models and technologies, and our plant laboratories that research new plant varieties that will grow well in our AeroGarden products, as well as technologies such as improved lighting and nutrient formulation and delivery to enhance the performance of our products. The decline in expense during the year ended March 31, 2009 principally reflected a comparison to the prior fiscal year that included a high level of spending on product development, testing and certification for products that were launched during the fiscal year ended March 31, 2009, or that will be launched in future periods, as well as reductions in the staffing of the research and development departments.

Table of Contents

Operating Loss

The loss from operations totaled \$9,223,625 for the fiscal year ended March 31, 2009, \$169,277 or 1.8% less than the prior year.

Other Income/Expense

Total other expense was \$1,089,889 during the fiscal year ended March 31, 2009 as compared to \$443,019 for the fiscal year ended March 31, 2008. The \$646,870 year-over-year increase reflected a higher average level of interest-bearing debt and capital leases outstanding, combined with a lower average level of interest-bearing cash equivalents.

Net Loss

Our net loss was \$10,313,514 for the fiscal year ended March 31, 2009, a \$477,593 increase from the previous year as the lower loss from operations was more than offset by the increase in other expense.

Liquidity and Capital Resources

After adjusting the net loss for non-cash items and changes in assets and liabilities, the net cash used by operating activities totaled \$1,192,496 in fiscal year ended March 31, 2010 as compared to \$6,508,410 net cash used by operating activities in the prior fiscal year.

Non-cash items, comprising depreciation, amortization, bad debt allowances, issuances of common stock and options, warrants, change in allowances for bad debt, and gains on the forgiveness of accounts payable obligation totaled to a negative impact of \$509,109 for the fiscal year ended March 31, 2010.

Changes in current assets contributed cash of \$8,292,060 during Fiscal 2010, principally from reductions in inventory totaling \$4,856,403 and the collection of accounts receivable. As of March 31, 2010, the inventory balance was \$3,493,732, representing approximately 108 days of sales activity, and 109 days of sales activity, at the average daily rate of product cost expensed during the 12 months and three months ended March 31, 2010, respectively. Net accounts receivable totaled \$478,113 as of March 31, 2010, representing approximately 25 days of net retail sales activity, and 75 days of net retail sales activity, at the average daily rate of sales recognized during the 12 months and three months ended March 31, 2010, respectively.

Current operating liabilities decreased \$2,515,053 during the twelve months ended March 31, 2010. The reduction included the impact of approximately \$1,747,506 in accounts payable and accrued liabilities. In addition, another \$2,518,040 accounts payable and accrued liabilities were converted to either Series A Preferred shares or into long-term debt in non-cash transactions. Accounts payable as of March 31, 2010 totaled \$3,354,703, representing approximately 52 days of daily expense activity, and 54 days of daily expense activity, at the average daily rate of expenses incurred during the 12 months and three months ended March 31, 2010, respectively.

Financing activity, including the impact of the issuance of Series A Preferred shares, and the conversions of various short-term obligations to Series A Preferred shares and long term debt, as well as the net reduction in other debt obligations, provided net cash of \$1,233,397 during Fiscal 2010

As of March 31, 2010, we had a cash balance of \$693,444, of which \$443,862 was restricted as collateral for letters of credit and other corporate obligations. This compares to a cash balance of \$771,029 as of March 31, 2009, of which \$438,331 was restricted.

We rely upon a variety of funding sources to meet our liquidity requirements:

Table of Contents

First National Loan

On May 19, 2008, the Company and Jack J. Walker, then one of the Company's directors and now the Company's Chairman and CEO, acting as co-borrowers, entered into a Business Loan Agreement with First National Bank (the "FNB Loan Agreement") for a loan to the Company in a principal amount of up to \$1,000,000 (the "FNB Loan"). The Company agreed, among other things, that while the FNB Loan Agreement was in effect, the Company would not (without FNB's prior written consent): (i) incur or assume indebtedness, except for trade debt in the ordinary course of business, capital leases in an amount not to exceed \$500,000, and capital expenditures of not more than \$500,000 during any fiscal year; (ii) sell, transfer, mortgage, assign, pledge, lease, grant a security interest in, or encumber any of the Company's assets (except as specifically allowed); or (iii) sell with recourse any of the Company's accounts, except to FNB. In the event of a default under the FNB Loan, at FNB's option, all indebtedness owed under the FNB Loan would become immediately due and payable. The FNB Loan had an initial maturity date of May 19, 2009.

On May 19, 2009, the Company, Mr. Walker, and FNB entered into a Change in Terms Agreement (the "First Change in Terms Agreement"), extending the maturity of the FNB Loan until July 19, 2009, and increasing the interest rate from the Wall Street Journal Prime Rate plus 0.50% floating to the Wall Street Journal Prime Rate plus 2.0% floating, with a floor interest rate of 5.50%.

On August 28, 2009, the Company, Mr. Walker, and FNB entered into a second Change in Terms Agreement (the "Second Change in Terms Agreement") extending the maturity of the FNB Loan to November 30, 2009. The Second Change in Terms Agreement increased the interest rate to a fixed rate effective July 19, 2009, of 7% per annum, and provided for principal payments of \$100,000 and a loan origination payment of \$2,500 at closing of the Second Change in Terms Agreement and then principal payments of \$50,000, \$50,000, and \$100,000 on August 31, 2009, September 30, 2009, and October 31, 2009, respectively. The terms and conditions of the Second Change in Terms Agreement were consented to by FCC, LLC d/b/a First Capital ("FCC"), the Company's senior lender, in accordance with the Subordination and Intercreditor Agreement by and among FNB, FCC, and the Company (the "Subordination Agreement"). The Company was prohibited from making principal payments against the FNB Loan, including scheduled principal payments, unless and until such time as FCC provided its consent or such time as the Company's liquidity position exceeded certain thresholds defined in the Subordination Agreement.

At closing of the Second Change in Terms Agreement on August 31, 2009, the Company made the scheduled \$100,000 principal payment with the consent of FCC. Principal payments totaling \$200,000 that were due during the term of the Second Change in Terms Agreement were made by Mr. Walker to FNB because FCC did not consent to the Company making such payments. The first \$150,000 of payments made by Mr. Walker was recorded by the Company as an offset to a \$150,000 receivable due from Mr. Walker. Effective as of November 20, 2009, the Company executed a promissory note in favor of Mr. Walker for the remaining \$50,000. The promissory note matured on February 1, 2010 and carried an interest rate of 20% per annum. As of February 1, 2010, Mr. Walker agreed to extend the maturity date of this promissory note to April 30, 2010. As of March 31, 2010, \$53,589 was outstanding under the promissory note, including accrued interest. On May 7, 2010, the Company repaid this promissory note in full.

As of February 16, 2010, Mr. Walker made an additional \$200,000 payment to FNB, reducing the outstanding principal balance on the FNB Loan to \$500,000. Effective as of the same date, the Company executed a promissory note for \$200,000 in favor of Mr. Walker having a maturity date of April 30, 2010 and carrying an interest rate of 20% per annum. As of March 31, 2010, \$213,350 was outstanding under the promissory note, including accrued interest. On June 24, 2010, Mr. Walker converted \$206,406 of principal and accrued interest on this promissory note into three year convertible promissory notes (the "Subordinated Secured Convertible Notes") issued by the Company, as further described below under the caption "Subordinated Secured Convertible Notes."

As of March 31, 2010, \$506,397 in loans were outstanding under the FNB Loan, including accrued interest. On May 24, 2010, the Company paid \$511,647 to repay, in full, the FNB Loan and all accrued interest.

WLLC Loan Agreement

On May 22, 2008, the Company entered into a Loan Agreement (the “WLLC Loan Agreement”) and associated Promissory Note with WLoans, LLC, a Colorado limited liability company (“WLLC”), as lender, and Jack J. Walker. The WLLC Loan Agreement provided for a loan up to a maximum of \$1,500,000 for business purposes, at an annual interest rate of 12% (the “WLLC Loan”). The Company granted WLLC a security interest in all of the Company’s assets, subordinate to the security interests in such assets granted to FCC and FNB. The WLLC Loan had an initial maturity date of April 1, 2009. Mr. Walker is the manager of WLLC and owns a 73.3% membership interest in WLLC, with the remaining membership interest owned by former officers and former directors of the Company.

Table of Contents

On May 19, 2009, Mr. Walker, WLLC, and the Company entered into a Loan Extension Agreement (the “Loan Extension Agreement”) effective April 1, 2009, extending the maturity date of the WLLC Loan until June 30, 2009. The Company paid WLLC \$5,000 in consideration for the loan extension. The balance of principal due on the WLLC Loan as of May 19, 2009, was \$1,200,000.

On June 30, 2009, the principal outstanding under the WLLC Loan Agreement totaling \$1,200,000 was converted to 1,200 shares of Series A Convertible Preferred Stock, and the WLLC Loan Agreement was terminated.

Revolving Credit Facility

On June 23, 2008, the Company entered into a Loan and Security Agreement with FCC (the “FCC Loan Agreement”) for a revolving credit facility up to a maximum amount of \$12,000,000 (the “Revolving Credit Facility”) to fund working capital requirements. The actual amount available for borrowing under the Revolving Credit Facility was limited at any given time to the sum of a percentage of eligible inventory and a percentage of eligible accounts receivable, each as defined in the FCC Loan Agreement.

The Revolving Credit Facility had an initial termination date of June 23, 2010, with one-year renewals thereafter, unless prior written notice was provided by either party. Continued availability of the Revolving Credit Facility was subject to the Company’s compliance with customary financial and reporting covenants. As collateral for the Revolving Credit Facility, the Company granted FCC a first priority security interest over all of the Company’s assets, including, but not limited to, accounts receivable, inventory, and equipment.

As of December 31, 2008, the Company was not in compliance with three covenants under the FCC Loan Agreement. Effective as of January 31, 2009, FCC and the Company executed a forbearance agreement related to the FCC Loan Agreement (the “Forbearance Agreement”). Pursuant to the terms of the Forbearance Agreement, FCC agreed to forbear its rights and remedies under the FCC Loan Agreement and related documents with respect to any existing defaults under the FCC Loan Agreement (the “Existing Defaults”) until the earlier of June 30, 2009, or the date of occurrence of a default other than the Existing Defaults. The Forbearance Agreement also increased the Company’s ability to borrow against inventory and accounts receivable during the term of the Forbearance Agreement (the “Additional Borrowing Capacity”). In return for FCC providing the forbearance period and the Additional Borrowing Capacity, the Company agreed to pay FCC a \$25,000 forbearance fee (in five monthly installments), an amendment fee equal to 1.5% per month on the average utilization of the Additional Borrowing Capacity, and issue to FCC a minimum of 250,000 warrants to purchase common stock of the Company at a purchase price of \$1.00 per share. Simultaneously with the execution of the Forbearance Agreement, Mr. Walker provided a \$1 million guarantee against certain liabilities under the FCC Loan Agreement. As compensation for providing the guarantee, the Company issued to Mr. Walker 50,000 warrants to purchase common stock of the Company at a purchase price of \$1.00 per share.

On June 1, 2009, the Company, FCC, and Jack J. Walker, as guarantor, executed a Second Forbearance Agreement, effective as of April 29, 2009 (the “Second Forbearance Agreement”), in which FCC agreed to forbear from exercising its rights and remedies under the Loan Agreement until June 30, 2009, if no further defaults occurred. The Second Forbearance Agreement also increased the advance rate against inventory until July 1, 2009, and eliminated the Company’s obligation to pay the monthly forbearance and amendment fees and to provide cash flow projections. In return, AeroGrow agreed to pay FCC a fee of \$60,000. In connection with the Second Forbearance Agreement, FCC permitted AeroGrow to borrow up to \$800,000 more than would otherwise be permitted by the applicable borrowing base calculation under the Loan Agreement, with such additional borrowing to be repaid by June 30, 2009. FCC did not charge AeroGrow a fee for the additional borrowing capacity.

As of July 1, 2009, FCC, AeroGrow, and Jack J. Walker, as guarantor, executed an amendment to the FCC Loan Agreement (the "Third FCC Amendment"). The Third FCC Amendment reduced the maximum amount of the Revolving Credit Facility to \$8 million, re-set the covenant levels beginning July 1, 2009, and waived existing defaults. In addition, the Third FCC Amendment re-set the formulas for determining the borrowing base against which the Company could borrow. The Third FCC Amendment also changed the definition of Base Rate to the greater of (a) the Prime Rate, or (b) LIBOR plus 3.25%, and increased the interest rate to Base Rate plus 4.0%. The Third FCC Amendment provided for a \$30,000 success fee to be paid by the Company to FCC on April 30, 2010. In addition, the Third FCC Amendment replaced a minimum borrowing fee with a fee calculated as 0.50% per annum of the daily average unused portion of the Revolving Credit Facility, payable monthly in arrears. Finally, the Third FCC Amendment increased the annual facility fee to 1.0% of the maximum amount of the Revolving Credit Facility, from 0.75%. The Company paid Mr. Walker a \$25,000 fee as compensation for providing the guarantee associated with the Third FCC Amendment. The Third FCC Amendment did not change the original due date of June 23, 2010, with one year renewals, thereafter, unless prior written notice was provided by either party.

Table of Contents

On October 8, 2009, the Company and FCC executed a temporary amendment to the FCC Loan Agreement, effective as of September 30, 2009, that delayed a reduction in the advance rate against inventory from 80% to 70%, originally scheduled to take effect on October 1, 2009, until November 15, 2009.

As of September 30, 2009, the Company was not in compliance with the minimum fixed charge coverage covenant under the revised FCC Loan Agreement. On November 19, 2009, FCC and the Company executed a Waiver Agreement to the FCC Loan Agreement (the "Waiver Agreement"). The Waiver Agreement waived the covenant violations as of September 30, 2009. FCC charged the Company a \$10,000 waiver fee.

As of December 31, 2009, the Company was not in compliance with the minimum fixed charge coverage and minimum tangible net worth covenants under the revised FCC Loan Agreement. As of February 15, 2010, the Company, FCC, and Jack J. Walker, as guarantor, executed a Forbearance Agreement and Fourth Amendment, (the "Fourth Amendment"), in which FCC agreed to forbear from exercising its rights and remedies with regard to the Company's non-compliance with financial covenants until April 30, 2010, if no other defaults occurred. The Fourth Amendment increased the advance rate against eligible inventory from 50% to 60% until April 30, 2010, and reduced the maximum amount of the Revolving Credit Facility to \$2.25 million until March 19, 2010, and then to \$2.0 million thereafter. In connection with the Fourth Amendment, FCC permitted AeroGrow to borrow up to \$600,000 more than would otherwise be permitted by the applicable borrowing base calculation under the Loan Agreement, with such additional borrowing to be repaid by April 30, 2010. The Fourth Amendment was provided for a \$500 per day forbearance fee, with such fee to be payable on the earlier of April 30, 2010 or the date on which loans under the Revolving Credit Facility are repaid in full. Simultaneous with the execution of the Fourth Amendment, Mr. Walker provided a \$1.5 million guarantee against certain liabilities under the FCC Loan Agreement.

As of March 31, 2010, loans totaling \$1,565,395 were outstanding, including accrued interest, under the Revolving Credit Facility. Also as of March 31, 2010, there was approximately \$290,000 in additional borrowing capacity available under the Revolving Credit Facility.

On May 3, 2010, the Company, FCC, and Jack J. Walker, as guarantor, executed a Forbearance Agreement and Fifth Amendment (the "Fifth Amendment") effective as of April 30, 2010. Under the Fifth Amendment FCC agreed to forbear from exercising its rights and remedies with regard to the Company's non-compliance with financial covenants until May 21, 2010, if no other defaults occur. The Fifth Amendment enabled the Company to borrow up to \$600,000 more than would otherwise be permitted by the applicable borrowing base calculation under the Revolving Credit Facility until the earlier of (i) the Company closing on a sale of subordinated secured convertible promissory notes, or (ii) the termination date of the forbearance period. In addition, the Fifth Amendment set the maximum borrowing under the Revolving Credit Facility at \$2,000,000 until such time as the Company closed on a sale of subordinated secured convertible promissory notes, at which time the maximum borrowing amount was required to be reduced to \$1,000,000. The Fifth Amendment provided for a continuation of the \$500 per day forbearance fee set forth in the Fourth Amendment, with such fees related to both the Fourth Amendment and Fifth Amendment to be payable on the earlier of (i) May 21, 2010 or (ii) the date on which loans under the Revolving Credit Facility were repaid in full.

On May 24, 2010, the Company paid \$673,600 to FCC to repay, in full, amounts due under the Revolving Credit Facility, and the Revolving Credit Facility was terminated.

Main Power Promissory Note

On June 30, 2009, the Company entered into a Letter Agreement ("Letter Agreement") with Main Power Electrical Factory, Ltd. ("Main Power") and executed a Promissory Note. Pursuant to the terms of the Letter Agreement, Main Power agreed to release the Company from \$1,386,041 of existing accounts payable obligations owed by the Company to Main Power in return for the Company executing the Promissory Note for the same amount. In addition,

the Letter Agreement included other provisions relating to the terms and conditions under which AeroGrow must purchase AeroGarden products from Main Power. The Promissory Note has a final maturity of June 30, 2011, and carries an interest rate of 8% per annum, with interest accrued and added to the principal amount of the Promissory Note for the first year. During the second year of the Promissory Note, interest is due and payable quarterly. Principal payments of \$150,000 are due and payable monthly beginning January 31, 2011, with a final payment of all principal and accrued but unpaid interest due on June 30, 2011. As of March 31, 2010, the outstanding balance under the Promissory Note totaled \$1,470,957, including accrued interest.

Table of Contents

Bridge Financing

On August 28 through September 1, 2009, the Company entered into bridge financing arrangements totaling \$500,000 (the "Bridge Loans") with six lenders (the "Lenders") as detailed in the table below. The Bridge Loans were unsecured, subordinated to loans made to the Company by FCC, and accrued interest at 15% per annum. The Company issued 500,000 warrants to purchase common shares of the Company to the Lenders. Each of the warrants has a five-year term and an exercise price of \$0.25 per common share.

The Bridge Loans were originally scheduled to mature on November 16, 2009; however, no cash principal payments were made by the Company at maturity because FCC had not provided the consent required under the terms of the intercreditor subordination agreements executed by the Company, the Lenders, and FCC. Interest totaling \$25,069 was paid to the Lenders during the fiscal year ended March 31, 2010. No payments of principal were made to the Lenders during Fiscal 2010. As of March 31, 2010, \$518,493 was outstanding under the Bridge Loans, including accrued interest.

Lender	C u r r e n t Relationship to the Company	Bridge Loan Amount	Date of Loan	Warrants Issued to Lender
Lazarus Investment Partners LLLP	Greater than 10% beneficial owner	\$250,000	September 1, 2009	1,250,000
Jack J. Walker	Chairman and CEO, director, greater than 10% beneficial owner	\$100,000	August 28, 2009	100,000
Michael S. Barish	Director, greater than 10 % beneficial owner	\$75,000	September 1, 2009	1,75,000
Jervis B. Perkins	Former Chief Executive Officer, current director, and greater than 10% beneficial owner	\$25,000	August 28, 2009	25,000
J. Michael Wolfe	Chief Operating Officer and greater than 10% beneficial owner	\$25,000	September 1, 2009	1,25,000
H. Leigh Severance	Greater than 10% beneficial owner	\$25,000	September 1, 2009	1,25,000

On May 6, 2010, \$430,466 of the Bridge Loans, inclusive of accrued interest, was converted into the Subordinated Secured Convertible Notes issued by the Company, as further described below. In addition, on May 6, 2010, \$25,000 of the Bridge Loans was extended to a new maturity date of February 1, 2011. On June 24, 2010, an additional

\$43,594 of the Bridge Loans, inclusive of accrued interest, was converted into the Subordinated Secured Convertible Notes issued by the Company, as described below under the caption “Subordinated Secured Convertible Notes.

Table of Contents

Between October 30 and November 9, 2009, the Company entered into additional bridge financing arrangements totaling \$580,000 (the “Additional Bridge Loans”) with five lenders (the “Additional Lenders”) as detailed in the table below. The Additional Bridge Loans were unsecured, subordinated to loans made to the Company by FCC, and accrued interest at 20% per annum. The Company issued 580,000 warrants to purchase common shares of the Company to the Additional Lenders. Each of the warrants has a five-year term and an exercise price of \$0.25 per common share. One of the Additional Bridge Loans in the principal amount of \$180,000 was guaranteed by Jack J. Walker, the Company’s Chairman and CEO.

The Bridge Loans were originally scheduled to mature on February 1, 2010; however, no cash payments were made by the Company at maturity because FCC had not provided the consent required under the terms of the intercreditor subordination agreements executed by the Company, the Lenders, and FCC. No interest or principal had been paid to the Lenders as of March 31, 2010. As of March 31, 2010, \$626,575 was outstanding under the Bridge Loans, including accrued interest.

Lender	Current Relationship to the Company	Bridge Loan Amount	Date of Loan	Warrants Issued to Lender
Lazarus Investment Partners LLLP	Greater than 10% beneficial owner	\$ 200,000	November 9, 2009	200,000
Grad Wurn LLC	None	\$ 180,000	November 1, 2009	180,000
Michael S. Barish	Director, greater than 10% beneficial owner	\$ 100,000	November 4, 2009	100,000
Jervis B. Perkins	Former Chief Executive Officer, current director, and greater than 10% beneficial owner	\$ 50,000	October 30, 2009	50,000
J. Michael Wolfe	Chief Operating Officer and greater than 10% beneficial owner	\$ 50,000	November 5, 2009	50,000

On May 6, 2010, \$504,534 of the Additional Bridge Loans, inclusive of accrued interest, was converted into the Subordinated Secured Convertible Notes issued by the Company, as described below under the caption “Subordinated Secured Convertible Notes. In addition, on May 6, 2010, \$50,000 of the Additional Bridge Loans was extended to a new maturity date of February 1, 2011. On June 1, 2010, a payment of principal and interest totaling \$74,390 was made against the Additional Bridge Loans.

Series A Convertible Preferred Stock

On June 30, 2009, the Company issued 6,836 shares of Series A Convertible Preferred Stock (the “Series A Shares”) for aggregate consideration totaling \$6,250,341. 2,690 Series A Shares were issued in exchange for cash invested into the Company totaling \$2,690,000. 2,332 Series A Shares were issued in exchange for the release of existing obligations of the Company totaling \$2,332,000. 1,642 Series A Shares were issued in exchange for a combination of \$950,000 in cash, 924,703 shares of the Company’s common stock, and 462,352 warrants to purchase shares of the Company’s common stock. 172 Series A Shares were issued in exchange for \$172,000 in short term notes receivable having maturities of 90 days or less. In addition, the Series A Shares were issued with a total of 3,414 warrants (the “Warrants”) to purchase additional Series A Shares at an exercise price of \$1,250 per Series A Share. The exercise

period for the Warrants expires five years from the date of issuance.

Between October 16, 2009 and October 21, 2009, the Company issued 750 shares of Series A Convertible Preferred Stock (the “Additional Series A Shares”) in exchange for \$599,979 in cash and 24,000 shares of the Company’s common shares. The Additional Series A Shares were issued with a total of 750 warrants (the “Additional Warrants”) to purchase Series A Shares at an exercise price of \$1,250 per Series A Share. The exercise period for the Additional Warrants expires five years from the date of issuance.

Table of Contents

The Series A and Additional Series A Shares (the “Preferred Shares”) carry certain rights, preferences, and designations, including the right to convert each Preferred Share into 5,000 shares of the Company’s common stock. Each Preferred Share has an original issue price of \$1,000. The holders of the Preferred Shares are entitled to receive cumulative dividends in preference to any dividend on the Company’s common stock at the rate of 8% of the original issue price per annum, and are entitled to participate pro rata in any dividends paid on the Company’s common stock on an as-if-converted basis. In the event of a sale, liquidation, or other winding up of the Company, the holders of the Preferred Shares are entitled to receive in preference to the holders of the Company’s common stock a per share amount equal to the greater of (i) 1.5 times the original issue price, plus any accrued but unpaid dividends or (ii) the amount that the holder of a Preferred Share would otherwise receive in such event on an as-converted to common stock basis. The holders of the Preferred Shares vote along with holders of the Company’s common stock on an as-if-converted basis. Each Preferred Share shall have a number of votes equal to the number of shares of the Company’s common stock then issuable upon conversion of such Preferred Share. In addition, the holders of the Preferred Shares are entitled to elect three members of the Company’s Board of Directors by an affirmative vote or consent of the holders of at least a majority of the outstanding Preferred Shares, voting together as a single class. The Preferred Shares also carry certain other rights, including the right to block certain actions of the Company unless such actions are approved by a vote of the holders of the Preferred Shares voting together as a single class, anti-dilution provisions (the “Initial Anti-Dilution Provisions”), and other rights and preferences commonly associated with preferred shares.

The issuance of the Preferred Shares was conducted in reliance upon exemptions from registration under the Securities Act of 1933 (the “Securities Act”) including, without limitation, those under Rule 506 of Regulation D (as promulgated under the Securities Act). The Preferred Shares were offered and sold only to investors who are “accredited investors,” as defined in Rule 501 under the Securities Act.

On March 4, 2010, the anti-dilution provisions of the Preferred Shares were amended such that the effective conversion price of the Preferred Shares would be adjusted to the price at which new equity or equity-related instruments were issued, if these instruments were issued at prices below the effective conversion price of the Preferred Shares. Effective as of March 5, 2010, holders of 7,186 Preferred Shares agreed to waive the anti-dilution adjustments related to the issuance of the Subordinated Secured Convertible Notes on 75% of their shares. These holders also agreed to receive an adjustment related to the issuance of the Subordinated Secured Convertible Notes equal to that provided by the Initial Anti-Dilution Provisions on the 25% balance of their Preferred Shares.

First Western Trust Credit Facilities

On May 21, 2010, the Company and First Western Trust Bank (“FWTB”) executed a business loan agreement and related promissory note (the “FWTB Line of Credit”). The FWTB Line of Credit provides for loans by FWTB to the Company of up to a maximum of \$2 million at any given time, subject to the Company maintaining an equivalent amount of cash on deposit in a restricted account at FWTB. Loans under the FWTB Line of Credit bear interest at a fixed rate of 2.0% per annum. In addition, the Company paid FWTB an origination fee of \$2,500. The terms and conditions of the FWTB Line of Credit include limitations on the Company incurring additional debt and paying dividends on the Company’s stock without the consent of FWTB. In the event of a default under the FWTB Line of Credit, FWTB has the option to declare any loans outstanding immediately due and payable. The FWTB Line of Credit has a maturity date of May 20, 2011.

On May 21, 2010, the Company, FWTB and Jack J. Walker, the Company’s Chairman and CEO, as guarantor, executed a business loan agreement and related promissory note (the “FWTB Term Loan”) for a four-year loan in an initial principal amount of \$1 million. The FWTB Term Loan is secured by a lien on the Company’s assets. In addition, Mr. Walker provided a guaranty of all Company obligations relating to the FWTB Term Loan. The Company paid Mr. Walker \$50,000 as compensation for guaranteeing the FWTB Term Loan. The FWTB Term Loan

bears interest at a fixed rate of 7.25% per annum and the Company paid a \$12,500 origination fee to FWTB. The Company will make equal monthly payments of principal/interest over the four-year term of the FWTB Term Loan, which has a final maturity date of May 21, 2014. The terms and conditions of the FWTB Term Loan include limitations on the Company incurring additional debt and paying dividends on the Company's stock without the consent of FWTB. In the event of a default under the FWTB Term Loan, FWTB has the option to declare the loan immediately due and payable.

Subordinated Secured Convertible Notes

Table of Contents

Beginning in March 2010, the Company began a private offering of units comprising an aggregate of up to \$8.4 million of 8% Senior Secured Convertible Notes and warrants to purchase 84,000,000 shares of the Company's common stock (the "Warrants"). The Company expects the private offering to remain open through September 30, 2010. The Company intends to use the proceeds from the private offering to invest in advertising and marketing programs to support its direct-to-consumer business, provide general working capital, pay commissions and expenses related to the private offering, and repay certain outstanding obligations. The issuance of the Units (as defined below) and the Additional Units (as defined below) was conducted in reliance upon exemptions from registration requirements under the Securities Act, including, without limitation, those under Rule 506 of Regulation D (as promulgated under the Securities Act). The Units and Additional Units were offered and sold only to investors who are "accredited investors," as defined in Rule 501 of Regulation D under the Securities Act. Because the units have not been registered under the Securities Act, investors will not be able to sell their Subordinated Secured Convertible Notes (or the shares of the Company's common stock issuable upon conversion of the Subordinated Secured Convertible Notes or conversion of the Warrants) in the United States absent an effective registration statement or an applicable exemption from registration.

On May 6, 2010, the Company closed on the private sale of units (the "Units") comprising an aggregate of \$4,200,000 in 8% Subordinated Secured Convertible Notes and an aggregate of 42,000,000 Warrants. The Units were sold at a price equal to the face value of the Subordinated Secured Convertible Notes. Consideration for the Units sold comprised \$3,265,000 in cash and \$935,000 from the conversion of existing obligations of the Company into the Subordinated Secured Convertible Notes.

On June 24, 2010, the Company closed on the private sale of additional units (the "Additional Units") comprising an aggregate of \$2,600,000 in 8% Subordinated Secured Convertible Notes and an aggregate of 26,000,000 Warrants. The Additional Units were sold at a price equal to the face value of the Subordinated Secured Convertible Notes. The Company also received a commitment to purchase an additional \$200,000 face value of Subordinated Secured Convertible Notes under the same terms and conditions as the Additional Units. Consideration for the Additional Units sold comprised \$2,300,000 in cash and \$300,000 from the conversion of existing obligations of the Company into the Subordinated Secured Convertible Notes.

The Subordinated Secured Convertible Notes bear interest at 8% per year, payable quarterly in cash, additional Subordinated Secured Convertible Notes, or in registered common stock of the Company, at the option of the Company, and mature on May 6, 2013. The Subordinated Secured Convertible Notes can be converted into shares of the Company's common stock at any time, initially at a conversion price of \$0.10 per share. The Subordinated Secured Convertible Notes will automatically convert into shares of the Company's common stock in the event (i) there is an effective registration statement registering the resale under the Securities Act of 1933 ("Securities Act") of the underlying stock ("Conversion Shares") or the Conversion Shares are eligible to be resold without restriction or limitation under Rule 144 under the Securities Act, and (ii) the closing bid price of the Company's common stock as quoted on the OTC Bulletin Board or other principal trading market is at least \$0.25 per share for 20 out of 30 consecutive trading days with an average daily trading volume of at least one million shares. The Subordinated Secured Convertible Notes are secured by a subordinated lien on all assets of the Company.

Each Warrant entitles the holder to purchase one share of the Company's common stock at a price of \$0.20 per share, and contains customary anti-dilution rights (for stock splits, stock dividends and sales of substantially all the Company's assets) and piggyback registration rights. The Warrants expire May 6, 2015.

In conjunction with the private offering, the Company also provided investors with certain legal notices, as disclosed in "Item 9B Other Information."

Cash Requirements

The Company generally requires cash to:

- fund our operations and working capital requirements,
- develop and execute our product development and market introduction plans,
 - execute our sales and marketing plans,
 - fund research and development efforts, and
 - pay for debt obligations as they come due.

Table of Contents

We expect to fund these and other cash requirements with cash provided by operations, our debt facilities, and with existing cash. At this time, based on a variety of assumptions including, but not limited to, the level of customer and consumer demand, the impact of cost reduction programs, and the state of the general economic environment in which we operate, our business plan for Fiscal 2011 projects that our internal and external sources of funding will be sufficient to meet our cash requirements for the next twelve months.

We cannot predict with certainty the cash and other ongoing operational requirements for our proposed plans as market conditions, competitive pressures, regulatory requirements, and customer requirements can change rapidly. If we are unable to generate cash from operations at currently estimated levels, or if our access to new borrowings under our debt agreements is constrained, our ability to operate at projected levels could be adversely impacted.

At this time, we do not expect to enter into additional capital leases to finance major purchases. In addition, we do not currently have any binding commitments with third parties to obtain any material amount of equity or debt financing other than the financing arrangements described in this report.

Assessment of Future Liquidity and Results of Operations

Liquidity

To assess our ability to fund ongoing operating requirements, we developed assumptions regarding our business plan, projected operating cash flow, anticipated capital expenditures, and availability under our various existing credit facilities. Critical sources of funding, and key assumptions and areas of uncertainty include:

- our cash of \$693,444 (\$443,862 of which is restricted as collateral for letters of credit and other corporate obligations) as of March 31, 2010,
- our cash of \$2,872,227 (\$443,862 of which is restricted as collateral for letters of credit and other corporate obligations) as of June 24, 2010,
 - continued support of, and extensions of credit by, our suppliers and lenders,
 - our anticipated sales to consumers, retailers, and international distributors,
- our historical pattern of increased sales between September and March, (September through December) and lower sales volume from April through August,
 - the anticipated level of spending necessary to support our planned initiatives, and
 - our expectations regarding cash flow from operations.

Based on these assumptions, we believe that we have sufficient liquidity to execute our business plans through the next fiscal year.

Results of Operations

There are several factors that could affect our future results of operations. These factors include, but are not limited to, the following:

- the effectiveness of our consumer-focused marketing efforts in generating both direct-to-consumer sales, and sales to consumers by our retailer customers,
 - uncertainty regarding the impact of macroeconomic conditions on consumer spending,
- uncertainty regarding the capital markets and on our access to sufficient capital to support our current and projected scale of operations,
 - the seasonality of our business, in which we have historically experienced higher sales volume during the holiday season (October through December), and
 - a continued, uninterrupted supply of product from our third-party manufacturing suppliers in China.

During Fiscal 2010 we have taken a number of actions to address our liquidity issues. Specifically, we re-focused our efforts on building our direct-to-consumer business, which we believe carries higher margin opportunities than our retailer business. We also reduced the number of retailers that carry our products in order to focus on those retailers that have proven to be the best and most profitable business partners. We issued approximately \$6.7 million of convertible preferred stock to re-capitalize the Company, restructured the amounts and payment timing of certain of our accounts payable, and reduced the amount of interest-bearing debt outstanding. Furthermore, in the first quarter of Fiscal 2011, we issued \$6,800,000 million in Subordinated Secured Convertible Notes (as described above). Although we cannot assure with certainty that these efforts to address our liquidity issues will be successful over the long-term, we believe, based on the assumptions and factors noted above, that we have sufficient liquidity to execute our business plans through the next fiscal year.

Table of Contents

Off-Balance Sheet Arrangements

We have certain current commitments under capital leases and have not entered into any contracts for financial derivative such as futures, swaps, and options. We do not believe that these arrangements are material to our current or future financial condition, results of operations, liquidity, capital resources or capital expenditures.

Obligations and Commitments

As part of our ongoing operations, we enter into arrangements that obligate us to make future payments under contracts, such as leases and the timing and effect that such commitments are expected to have on our liquidity and cash flow in future periods. The following is a summary of these obligations as of March 31, 2010.

	Less than 1 year	1 -3 years	More than 3 years	Total
Capital Lease Obligations	\$ 32,083	\$ -	\$ -	\$ 32,803
Operating Leases	576,818	332,607	-	909,425
Long term debt	3,965,259	1,020,957	-	4,986,216
Totals:	\$ 4,574,880	\$ 1,353,564	\$ -	\$ 5,928,444

\ See Notes 4 and 8 to our consolidated financial statements for additional information related to our capital and operating leases.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Our interest income is sensitive to fluctuations in the general level of U.S. interest rates. As such, changes in U.S. interest rates affect the interest earned on our cash, cash equivalents, and short-term investments, the value of those investments. However, due to the short-term nature of our cash equivalents and investments, we have concluded that a change in interest rates does not pose a material market risk to us with respect to our interest income.

The interest payable to our lenders is determined in part based on variable interest rates and, therefore, is affected by changes in market interest rates. Interest rates on our capital leases are dependent on interest rates in effect at the time the lease is drawn upon. Total liabilities outstanding at March 31, 2010 under our credit facilities and capital leases were approximately \$5.0 million. Based on amounts borrowed as of March 31, 2010, we would have a resulting decline in future annual earnings and cash flows of approximately \$50,000 for every one percentage point increase in our lending rates.

Foreign Currency Exchange Risk

We transact business in primarily in U.S. currency. Although we purchase our products in U.S. dollars, the prices charged by our China factories are predicated upon their cost for components, labor and overhead. Therefore, changes in the valuation of the U.S. dollar in relation to the Chinese currency may cause our manufacturers to raise prices of our products which could reduce our profit margins.

Table of Contents

In future periods, it is possible that we could be exposed to fluctuations in foreign currency exchange rates on accounts receivable from sales and net monetary assets denominated in foreign currencies and liabilities. To date, however, virtually all of our transactions have been denominated in U.S. dollars.

ITEM 8. FINANCIAL STATEMENTS

Our financial statements appear in a separate section at the end of this Annual Report. Such information is incorporated herein by reference.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Gordon, Hughes & Banks, LLP (“GHB”) has audited our financial statements annually since inception through March 31, 2008. On November 1, 2008, GHB resigned as our independent registered public accounting firm because it had entered into an agreement with Eide Bailly LLP (“Eide Bailly”), pursuant to which Eide Bailly acquired the operations of GHB. Certain of the professional staff and shareholders of GHB joined Eide Bailly either as employees or partners of Eide Bailly and continued to practice as members of Eide Bailly. Concurrent with the resignation of GHB, we engaged Eide Bailly as our independent registered public accounting firm as of November 1, 2008, through and with the approval of our Audit Committee.

The report of GHB on our financial statements for the fiscal years ended March 31, 2008 and 2007 did not contain an adverse opinion or a disclaimer of opinion, and was not qualified or modified as to uncertainty, audit scope, or accounting principles.

In connection with the audit for the fiscal years preceding the acquisition of GHB by Eide Bailly and through November 1, 2008, there were no disagreements with GHB on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of GHB, would have caused GHB to make reference to the subject matter of the disagreements in connection with its audit reports on the Company’s financial statements.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company’s management assessed the effectiveness of the Company’s internal control over financial reporting as of March 31, 2010. In making this assessment, the Company’s management used the criteria set forth by the Committee of Sponsoring Organizations (“COSO”) of the Treadway Commission’s Internal Control-Integrated Framework.

Based on our assessment, management has concluded that, as of March 31, 2010, the Company’s internal control over financial reporting was effective based on those criteria.

Management’s Annual Report on Internal Control Over Financial Reporting

Table of Contents

Management is responsible for establishing and maintaining adequate internal controls over financial reporting for the Company. Internal control over financial reporting is defined in Rule 13a-15(f) and 15d-15(f) promulgated under the Securities Exchange Act of 1934 as a process designed by, or under the supervision of, the company's principal executive and principal financial officers and effected by the company's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the company;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failure. Internal control over financial reporting can also be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

Attestation Report of the Independent Registered Public Accounting Firm

This Annual Report does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the SEC that permit the Company to provide only management's report in this Annual Report.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the fourth quarter of fiscal year ended March 31, 2010 that have or are reasonably likely to materially affect our internal control over financial reporting identified in connection with the previously mentioned evaluation.

ITEM 9B. OTHER INFORMATION

Beginning in March 2010, the Company began a private offering of units comprising an aggregate of up to \$8.4 million of 8% Senior Secured Convertible Notes and warrants to purchase 84,000,000 shares of the Company's common stock (the "Warrants"). The Company expects the private offering to remain open through September 30,

2010. The Company intends to use the proceeds from the private offering to invest in advertising and marketing programs to support its direct-to-consumer business, provide general working capital, pay commissions and expenses related to the private offering, and repay certain outstanding obligations. The issuance of the Units (as defined below) and the Additional Units (as defined below) was conducted in reliance upon exemptions from registration requirements under the Securities Act, including, without limitation, those under Rule 506 of Regulation D (as promulgated under the Securities Act). The Units and Additional Units were offered and sold only to investors who are “accredited investors,” as defined in Rule 501 of Regulation D under the Securities Act. Because the unites have not been registered under the Securities Act, investors will not be able to sell their Subordinated Secured Convertible Notes (or the shares of the Company’s common stock issuable upon conversion of the Subordinated Secured Convertible Notes or conversion of the Warrants) in the United States absent an effective registration statement or an applicable exemption from registration.

Table of Contents

On May 6, 2010, the Company closed on the private sale of units (the “Units”) comprising an aggregate of \$4,200,000 in 8% Subordinated Secured Convertible Notes and an aggregate of 42,000,000 Warrants. The Units were sold at a price equal to the face value of the Subordinated Secured Convertible Notes. Consideration for the Units sold comprised \$3,265,000 in cash and \$935,000 from the conversion of existing obligations of the Company into the Subordinated Secured Convertible Notes.

On June 24, 2010, the Company closed on the private sale of units (the “Additional Units”) comprising an aggregate of \$2,600,000 in 8% Subordinated Secured Convertible Notes and an aggregate of 26,000,000 Warrants. The Company also received a commitment to purchase an additional \$200,000 face value of Subordinated Secured Convertible Notes under the same terms and conditions as the Additional Units. The Additional Units were sold at a price equal to the face value of the Subordinated Secured Convertible Notes. Consideration for the Additional Units sold comprised \$2,300,000 in cash and \$300,000 from the conversion of existing obligations of the Company into the Notes.

The Subordinated Secured Convertible Notes bear interest at 8% per year, payable quarterly in cash, additional Subordinated Secured Convertible Notes, or in registered common stock of the Company, at the option of the Company, and mature on May 6, 2013. The Subordinated Secured Convertible Notes can be converted into shares of the Company's common stock at any time, initially at a conversion price of \$0.10 per share. The Subordinated Secured Convertible Notes will automatically convert into shares of the Company's common stock in the event (i) there is an effective registration statement registering the resale under the Securities Act of 1933 (“Securities Act”) of the underlying stock (“Conversion Shares”) or the Conversion Shares are eligible to be resold without restriction or limitation under Rule 144 under the Securities Act, and (ii) the closing bid price of the Company's common stock as quoted on the OTC Bulletin Board or other principal trading market is at least \$0.25 per share for 20 out of 30 consecutive trading days with an average daily trading volume of at least one million shares. The Subordinated Secured Convertible Notes are secured by a subordinated lien on all assets of the Company.

Each Warrant entitles the holder to purchase one share of the Company's common stock at a price of \$0.20 per share, and contains customary anti-dilution rights (for stock splits, stock dividends and sales of substantially all the Company's assets) and piggyback registration rights. The Warrants expire May 6, 2015.

In conjunction with the private offering, the Company provided the following legal notices:

NOTICES

This Confidential Private Placement Memorandum, including all exhibits hereto (the “Memorandum”) is being furnished by the Placement Agent as agent solely for the use by prospective purchasers of the securities offered hereby. The Company has retained the Placement Agent as agent in connection with this private placement (the “Offering”).

The Company has prepared this Memorandum and no representation or warranty is made as to the accuracy or completeness of the information contained herein. Prospective investors will be given the opportunity to meet with management and conduct their own due diligence investigations, upon which they must rely solely in making their investment decision.

This Memorandum is submitted in connection with the private placement of the securities described herein and may not be reproduced or used for any other purpose. The recipient agrees by accepting this Memorandum that all information regarding this Offering and the information contained herein and in all related and ancillary documents is not to be used for any purpose other than in connection with its consideration of a purchase of the Securities and that such information is of a confidential nature and that the recipient will treat it in a confidential manner, and that it will not, directly or indirectly, disclose or permit its affiliates or representatives to disclose any of such information to any

other person or reproduce this Memorandum in whole or in part without the prior written consent of the Company. Each recipient of this Memorandum further agrees that this confidentiality and other obligations shall apply to any non-public information relating to the Company or the Securities which is provided to such recipient subsequent to the delivery of this Memorandum.

Each recipient of this Memorandum understands that the fact the Company is undertaking this Offering as well as certain information contained in this Memorandum, may be considered to be material, non-public information. We draw your attention to the anti-fraud provisions of the federal and state securities laws, particularly Rule 10b-5 promulgated under the Exchange Act, which prohibits the purchase or sale of securities on the basis of material non-public information. If a person is in possession of material information relating to the Company which he knows or has reason to know is non-public, he should not purchase or sell or cause to be purchased or sold any of the Company's securities. In addition, none of such information should be disclosed unless and until such information has been publicly disclosed.

Table of Contents

If the recipient does not participate in the Offering, the recipient agrees to either promptly return this Memorandum and any accompanying documentation to the Company, if requested, or to destroy all such documents.

WE ARE OFFERING THE SECURITIES WITHOUT REGISTERING THEM UNDER THE SECURITIES ACT OF 1933. WE BELIEVE WE ARE EXEMPT FROM REGISTERING THEM UNDER THE SECURITIES ACT BASED UPON THE EXEMPTION UNDER SECTIONS 4(2) AND 3(B) OF THE SECURITIES ACT AND THE PROVISIONS OF REGULATION D OF THE SECURITIES ACT. NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR DETERMINED IF THIS MEMORANDUM IS ACCURATE OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

We may withdraw, cancel or modify this Offering without notice. We reserve the right, in our sole discretion, to reject any subscription in whole or in part for any reason or to allot to any subscriber less than the amount of Securities subscribed for.

Our officers, directors, shareholders and their affiliates may purchase Securities pursuant to this Offering, although they have made no commitment to do so.

The sale, transfer or other disposition of any securities purchased in this Offering is restricted by applicable federal and state securities law.

We have determined the offering price of the securities to which this Memorandum relates by negotiation with the Placement Agent. That price does not necessarily bear any relationship to the assets, book value or potential earnings of the Company or any other recognized criteria of value.

You should only rely on the information contained in this Memorandum. We have not authorized anyone to provide you with information different from that contained in this Memorandum. We are offering to sell, and seeking offers to buy, only in jurisdictions where offers and sales are permitted. The information contained in this Memorandum is accurate only as of the date of this Memorandum, regardless of the time of delivery of this Memorandum or of any sale of the Securities.

This Memorandum is not an offer to sell or the solicitation of an offer to buy any security other than the securities offered. It is not an offer to sell or a solicitation of an offer to buy our Securities by anyone in any jurisdiction in which such offer or solicitation is not authorized, or in which the person making such offer or solicitation is not qualified to do so.

This Offering is made, and sales of the Securities will be made, only to purchasers who qualify as "Accredited Investors" under Regulation D of the Act.

You are not to consider the contents of this Memorandum as legal, investment or tax advice. You should consult your own advisors as to legal, investment, tax and related matters concerning an investment by you in AeroGrow International, Inc.

It is the responsibility of any individual or entity wishing to purchase the Securities to satisfy itself as to the full observance of the laws of any relevant territory outside the United States in connection with any such purchase, including obtaining any required governmental or other consents or observing any other applicable formalities.

JURISDICTIONAL NOTICES

Table of Contents

Residents of All States:

THE SECURITIES OFFERED IN THIS MEMORANDUM HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, OR THE SECURITIES LAWS OF CERTAIN STATES AND ARE BEING OFFERED AND SOLD IN RELIANCE ON EXEMPTIONS FROM THE REGISTRATION REQUIREMENTS OF THE ACT AND CERTAIN STATE LAWS. THE SECURITIES ARE SUBJECT TO RESTRICTIONS ON TRANSFERABILITY AND RESALE AND MAY NOT BE TRANSFERRED OR RESOLD EXCEPT AS PERMITTED UNDER SAID ACT AND SUCH LAWS PURSUANT TO REGISTRATION OR EXEMPTION THEREFROM. INVESTORS SHOULD BE AWARE THAT THEY WILL BE REQUIRED TO BEAR THE FINANCIAL RISKS OF THIS INVESTMENT FOR AN INDEFINITE PERIOD OF TIME. THE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION ANY STATE SECURITIES COMMISSION OR ANY OTHER REGULATORY AUTHORITY, NOR HAVE ANY OF THE FOREGOING AUTHORITIES PASSED UPON OR ENDORSED THE MERITS OF THIS OFFERING OR THE ACCURACY OR ADEQUACY OF THE MEMORANDUM. ANY REPRESENTATION TO THE CONTRARY IS UNLAWFUL.

IN MAKING AN INVESTMENT DECISION, INVESTORS MUST RELY ON THEIR OWN EXAMINATION OF THE COMPANY AND THE TERMS OF THE OFFERING, INCLUDING THE MERITS AND RISKS INVOLVED. THESE SECURITIES HAVE NOT BEEN RECOMMENDED BY ANY FEDERAL OR STATE SECURITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THESE AUTHORITIES HAVE NOT CONFIRMED THE ACCURACY OR DETERMINED THE ADEQUACY OF THIS DOCUMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

Residents of Florida:

PURSUANT TO SECTION 517.061(11)(A) OF FLORIDA STATUTES, 1987, AS AMENDED, IF SALES OF SECURITIES ARE MADE TO FIVE OR MORE PERSONS IN FLORIDA, EACH FLORIDA PURCHASER MAY VOID HIS, HER OR ITS PURCHASE OF SECURITIES WITHIN THREE (3) DAYS AFTER THE FIRST TENDER OF CONSIDERATION IS MADE BY SUCH PURCHASER TO THE COMPANY.

Residents of New Hampshire:

NEITHER THE FACT THAT A REGISTRATION STATEMENT OR AN APPLICATION FOR A LICENSE HAS BEEN FILED UNDER CHAPTER 421-B OF THE NEW HAMPSHIRE REVISED STATUTE WITH THE STATE OF NEW HAMPSHIRE NOR THE FACT THAT A SECURITY IS EFFECTIVELY REGISTERED OR A PERSON IS LICENSED IN THE STATE OF NEW HAMPSHIRE CONSTITUTES A FINDING BY THE SECRETARY OF STATE OF NEW HAMPSHIRE THAT ANY DOCUMENT FILED UNDER CHAPTER 421-B IS TRUE, COMPLETE AND NOT MISLEADING. NEITHER ANY SUCH FACT NOR THE FACT THAT AN EXEMPTION OR EXCEPTION IS AVAILABLE FOR A SECURITY OR A TRANSACTION MEANS THAT THE SECRETARY OF STATE HAS PASSED IN ANY WAY UPON THE MERITS OR QUALIFICATIONS OF, OR RECOMMENDED OR GIVEN APPROVAL TO, ANY PERSON, SECURITY OR TRANSACTION. IT IS UNLAWFUL TO MAKE, OR CAUSE TO BE MADE, TO ANY PROSPECTIVE PURCHASER, CUSTOMER OR CLIENT ANY REPRESENTATION INCONSISTENT WITH THE PROVISIONS OF THIS PARAGRAPH.

ABOUT THIS MEMORANDUM

You should rely only on the information contained in this Memorandum. We have not authorized anyone to provide you with different information. We are not making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information appearing in this Memorandum is accurate as of the

date of the front cover of this Memorandum only.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors of
AeroGrow International, Inc.
Boulder, Colorado

We have audited the accompanying balance sheets of AeroGrow International, Inc. (“the Company”) as of March 31, 2010 and 2009, and the related statements of operations, changes in stockholders’ equity (deficit) and cash flows for each of the years in the two-year period ended March 31, 2010. The Company’s management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of AeroGrow International, Inc. as of March 31, 2010 and 2009, and the results of its operations and its cash flows for each of the years in the two-year period ended March 31, 2010 in conformity with accounting principles generally accepted in the United States of America.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors
AeroGrow International, Inc.
Boulder, Colorado

We have audited the accompanying statements of operations, shareholders' equity and cash flows of AeroGrow International, Inc. for the year ended March 31, 2008. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the results of operations and cash flows of AeroGrow International, Inc. for the one year period ended March 31, 2008, in conformity with accounting principles generally accepted in the United States of America.

AEROGROW INTERNATIONAL, INC.
NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of the Business and Summary of Significant Accounting Policies

Organization and Description of the Business

AeroGrow International, Inc. ("the Company") was incorporated in the State of Nevada on March 25, 2002. On January 12, 2006, the Company and Wentworth I, Inc., a Delaware corporation ("Wentworth"), entered into an Agreement and Plan of Merger (the "Merger Agreement") which was consummated on February 24, 2006. Under the Merger Agreement, Wentworth merged with and into the Company, and the Company was the surviving corporation ("Merger"). The Merger, for accounting and financial reporting purposes, has been accounted for as an acquisition of Wentworth by the Company. As such, the Company was the accounting acquirer in the Merger, and the historical financial statements of the Company will be the financial statements for the Company following the Merger.

The Company's principal business is developing, marketing, and distributing advanced indoor aeroponic garden systems designed and priced to appeal to the consumer gardening, cooking and small indoor appliance markets worldwide. The Company's principal activities from its formation through March 2006, consisted of product research and development, market research, business planning, and raising the capital necessary to fund these activities. In December 2005, the Company commenced pilot production of its AeroGarden system and, in March 2006, began shipping these systems to retail and catalogue customers. The Company manufactures, distributes and markets more than 15 different models of its AeroGarden systems in multiple colors, as well as over 50 varieties of seed kits and a full line of accessory products through multiple channels including retail, catalogue and direct-to-consumer sales in the United States as well as selected countries in Europe, Asia and Australia.

Liquidity and Basis of Presentation

The Company has incurred net losses since its inception, including a net loss for the fiscal year ended March 31, 2010 of \$6,331,205. As more fully discussed in the Liquidity and Capital Resources section of Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, the Company has developed sources of funding that management believes are sufficient to support the Company's operating plan for the fiscal year ending March 31, 2011. The Company's operating plan is predicated on a variety of assumptions including, but not limited to, the level of customer and consumer demand, the impact of cost reduction programs, and the state of the general economic environment in which the Company operates. There can be no assurances that these assumptions will prove to be accurate in all material respects, or that the Company will be able to successfully execute its operating plan. In such cases, there can also be no assurances that the Company's existing funding sources will prove to be sufficient to support the Company's operations.

Significant Accounting Policies

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. It is reasonably possible that a change in the Company's estimates with regards to return reserves, inventory obsolescence and the allowance for bad debts will occur in the near term.

Net Income (Loss) per Share of Common Stock

The Company computes net income (loss) per share of common stock in accordance with ASC 260 (prior authoritative guidance: Statement of Financial Accounting Standards (“SFAS”) No. 128, Earnings per Share, and SEC Staff Accounting Bulletin No. 98). ASC 260 requires companies with complex capital structures to present basic and diluted Earnings per Share (“EPS”). Basic EPS is measured as the income or loss available to common stock shareholders divided by the weighted average shares of common stock outstanding for the period. Diluted EPS is similar to basic EPS but presents the dilutive effect on a per share basis of potential common stock (e.g., convertible securities, options, and warrants) as if they had been converted at the beginning of the periods presented. Potential shares of common stock that have an anti-dilutive effect (i.e., those that increase income per share or decrease loss per share) are excluded from the calculation of diluted EPS. For the years ended March 31, 2010, March 31, 2009 and March 31, 2008, the Company had 68,191,852, 8,434,815 and 6,248,687, respectively, of securities that could potentially dilute basic EPS in the future that were not included in the computation of diluted EPS because to do so would have been antidilutive for the periods presented.

Table of Contents

Reclassifications

Certain prior year amounts have been reclassified to conform to current year presentation.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. There were no cash equivalents at March 31, 2010 and March 31, 2009.

Restricted Cash

The Company has secured activity related to its corporate credit card purchase account with a restricted money market account. In addition, it has money set aside for potential bankruptcies as required as part of the termination of our factoring relationship. The balances in this account as of March 31, 2010 and March 31, 2009 were \$443,862 and \$438,331, respectively.

Concentrations of Risk

ASC 825-10-50-20 (prior authoritative guidance: SFAS No.105, Disclosure of Information About Financial Instruments with Off-Balance Sheet Risk and Financial Instruments with Concentrations of Credit Risk), requires disclosure of significant concentrations of credit risk regardless of the degree of such risk. Financial instruments with significant credit risk include cash. The amount on deposit with a financial institution exceeded the \$250,000 federally insured limit as of March 31, 2010. However, management believes that the financial institution is financially sound and the risk of loss is minimal.

Customers:

The Company maintains a credit insurance policy on many of its trade accounts receivables. For the year ended March 31, 2010, the Company had two customers who represented 14% and 7% of the Company's net product sales, respectively. For the year ended March 31, 2009, the Company had one customer who represented 10% of the Company's net product sales. For the year ended March 31, 2008, the Company had one customer who represented 15% of the net product sales.

Suppliers:

For the year ended March 31, 2010, the Company purchased inventory and other inventory related items from one supplier totaling \$1,495,163, representing 13% of cost of sales, respectively. Although the Company believes alternate sources of manufacturing could be obtained, loss of any of these suppliers could have an adverse impact on operations. For the year ended March 31, 2009, the Company purchased inventories and other inventory related items from three suppliers totaling \$8,862,484, \$3,857,284 and \$3,345,734, representing 37%, 16% and 14% of cost of sales, respectively. For the year ended March 31, 2008, the Company purchased inventories and other inventory-related items from two suppliers totaling \$7,931,115 and \$4,779,949, representing 35% and 21% of cost of sales, respectively.

The Company's primary contract manufacturers are located in China. As a result, the Company may be subject to political, currency, regulatory, and weather/natural disaster risks. Although the Company believes alternate sources of manufacturing could be obtained, these risks and any potential loss of supply could have an adverse impact on operations.

Account Receivables

As of the year ended March 31, 2010, the Company had two customers who represented 23% and 20% of outstanding accounts receivables. As of the year ended March 31, 2009, the Company had five customers who represented 13%, 15%, 15%, 17% and 18% of outstanding accounts receivables.

Table of Contents

Fair Value of Financial Instruments

The carrying value of financial instruments including cash, receivables, accounts payable, accrued expenses and debt, approximates their fair value at March 31, 2010 and March 31, 2009 due to the relatively short-term nature of these instruments. In February 2008, the FASB issued ASC 820-10-55 (prior authoritative guidance: FSP 157-2/Statement 157, Fair Value Measurements). ASC 820-10-55 delayed the effective date for all non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). On April 1, 2008 the Company adopted the portion of ASC 820-10-55 that was not delayed as it applies to non-financial assets and liabilities. As a result of the delay, ASC 820-10-55 was applied to the Company's non-financial assets and liabilities effective on April 1, 2009. ASC 820-10-55 defines fair value as the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (also referred to as an exit price). ASC 820-10-55 also establishes a three-level fair value hierarchy for classifying financial instruments that is based on whether the inputs to the valuation techniques used to measure fair value are observable or unobservable. The three levels of the ASC 820-10-55 fair value hierarchy are described below:

Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities.

1:

Level 2 Observable market-based inputs, other than quoted prices in active markets for identical assets or liabilities.

2:

Level 3 Unobservable inputs.

3:

As of March 31, 2010, the Company did not have any financial assets or liabilities that were measured at fair value on a recurring basis subsequent to initial recognition.

Property and Equipment

Property and equipment are stated at cost. Depreciation for financial accounting purposes is computed using the straight-line method over the estimated lives of the respective assets. Office equipment and computer hardware are depreciated over five years. Tooling is depreciated over three years. Leasehold improvements are being amortized over the life of the lease.

Property and equipment consist of the following as of:

	March 31 2010	March 31 2009
Manufacturing equipment and tooling	\$ 2,096,708	\$ 2,124,385
Computer equipment and software	800,073	724,088
Leasehold improvements	128,631	129,118
Other equipment	463,495	465,926
	3,488,907	3,443,517
Less: accumulated depreciation	(2,486,377)	(1,675,148)
Property and equipment, net	\$ 1,002,530	\$ 1,768,369

Depreciation expense for the years ended March 31, 2010, March 31, 2009, and March 31, 2008 was \$836,977, \$858,145 and \$494,399, respectively.

Intangible Assets

Intangible assets, to date, have consisted of the direct costs incurred for application fees and legal expenses associated with patents and trademarks on the Company's products. The Company periodically reviews the recoverability from future operations using undiscounted cash flows. To the extent carrying values exceed fair values, an impairment loss will be evaluated for possible recording. The Company amortizes its patent and trademark costs on a straight line basis over their estimated useful life of 17 years.

Table of Contents

Intangible assets consist of the following:

	March 31, 2010	March 31, 2009
Patents	\$ 236,422	\$ 190,100
Trademarks	46,031	45,005
	282,453	235,105
Less: accumulated amortization	(6,854)	(3,515)
Intangible assets, net	\$ 275,599	\$ 231,590

Amortization expense for the years ended March 31, 2010, March 31, 2009 and March 31, 2008, was \$3,338, \$61,656 and \$10,772, respectively.

Inventory

Inventories are valued at the lower of cost, determined by the first-in, first-out method, or market. Included in inventory costs where the Company is the manufacturer are raw materials, labor and manufacturing overhead. The Company records the raw materials at delivered cost. Standard labor and manufacturing overhead costs are applied to the finished goods based on normal production capacity as prescribed under ASC 330 (prior authoritative guidance: Accounting Research Bulletin (“ARB”) No. 43, Chapter 4, Inventory Pricing). A majority of the Company’s products are manufactured overseas and are recorded at cost.

	March 31, 2010	March 31, 2009
Finished goods	\$ 2,515,451	\$ 6,799,996
Raw materials	978,281	1,550,139
	\$ 3,493,732	\$ 8,350,135

The Company determines an inventory obsolescence reserve based on management’s historical experience and establishes reserves against inventory according to the age of the product. As of March 31, 2010, the Company had reserved \$670,134 for inventory obsolescence and as of March 31, 2009, the Company had reserved \$335,704 for inventory obsolescence.

Accounts Receivable and Allowance for Doubtful Accounts

The Company sells its products to retailers and consumers. Consumer transactions are paid primarily by credit card. Retailer sales terms vary by customer, but are generally net 30 days. Accounts receivable are reported at net realizable value and net of the allowance for doubtful accounts. The Company uses the allowance method to account for uncollectible accounts receivable. The Company also maintains a credit insurance policy which insures against losses from most retailer accounts. The Company's allowance estimate is based on a review of the current status of trade accounts receivable which resulted in an allowance of \$87,207 and \$1,423,508 at March 31, 2010 and March 31, 2009, respectively.

Other Receivables

In conjunction with the Company’s processing of credit card transactions and for its direct-to-consumer sales activities and as security with respect to the Company’s performance for required credit card refunds and chargebacks, the Company is required to maintain a cash reserve with Litle and Company, the Company’s credit card processor. This reserve is equal to 5% of the credit card sales processed during the previous six months. As of March 31, 2010 and March 31, 2009, the balance in this reserve account was \$259,831 and \$332,059, respectively.

Advertising and Production Costs

The Company expenses all production costs related to advertising, including, print, television, and radio advertisements when the advertisement has been broadcast or otherwise distributed. The Company records media costs related to its direct-to-consumer advertisements, inclusive of postage and printing costs incurred in conjunction with mailings of direct response catalogues, and related direct response advertising costs, in accordance with ASC 340-20-25 (prior authoritative guidance: Statement of Position, "No. SOP 93-7" Reporting on Advertising Costs). In accordance with ASC 340-20-25, direct response advertising costs incurred should be reported as assets and should be amortized over the estimated period of the benefits, based on the proportion of current period revenue from the advertisement to probable future revenue. As of March 31, 2010 and March 31, 2009, the Company had deferred \$19,058 and \$346,130, respectively, related to such media costs. Advertising expenses for the years ended March 31, 2010, March 31, 2009 and March 31, 2008 were \$2,299,431, \$5,101,910 and \$6,955,555, respectively.

Table of Contents**Research and Development**

Research, development, and engineering costs are expensed as incurred, in accordance with ASC 730-10-25 (prior authoritative guidance: SFAS No. 2 Accounting for Research and Development Costs). Research, development, and engineering expenses primarily include payroll and headcount related costs, contractor fees, infrastructure costs, and administrative expenses directly related to research and development support.

Stock Based Compensation

The Company accounts for share-based payments in accordance with ASC 710-10-55 (prior authoritative guidance: FASB Statement 123(R) Shared-Based Payment). The Company uses the Black-Scholes option valuation model to estimate the fair value of stock option awards issued under ASC 710-10-55. For the years ended March 31, 2010, March 31, 2009 and March 31, 2008, equity compensation in the form of stock options and grants of restricted stock totaled \$452,393, \$723,406, and \$710,899, respectively, and is included in the accompanying Statements of Operations in the following categories:

	Years ended March 31,		
	2010	2009	2008
General and administrative	\$ 319,673	\$ 457,592	\$ 225,730
Research and development	6,644	121,952	300,702
Sales and marketing	126,076	143,862	184,467
	\$ 452,393	\$ 723,406	\$ 710,899

Income Taxes

ASC 740-10 (prior authoritative guidance: FASB Interpretation No. (“FIN”) 48, Accounting for Uncertainty in Income Taxes) clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements. ASC 740-10 defines the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. The Company adopted ASC 740-10 on April 1, 2007. As a result of the implementation, the Company recognized no material adjustment in the liability of unrecognized income tax benefits. At the adoption date, the Company had no unrecognized tax benefits, which would affect the Company’s effective tax rate. It is reasonably possible that the Company’s unrecognized tax benefit could change; however, the Company does not expect any such change to be material.

Deferred income taxes are recognized for the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at the end of each period, based on enacted laws and statutory rates applicable to the periods in which the differences are expected to affect taxable income. Any liability for actual taxes to taxing authorities is recorded as income tax liability. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is established against such assets where management is unable to conclude more likely than not that such asset will be realized. For the years ended March 31, 2010 and March 31, 2009, the Company recognized a valuation allowance equal to 100% of the net deferred tax asset balance.

Revenue Recognition

The Company recognizes revenue from product sales, net of estimated returns, when persuasive evidence of a sale exists: that is, a product is shipped under an agreement with a customer; risk of loss and title has passed to the customer; the fee is fixed or determinable; and collection of the resulting receivable is reasonably assured. Accordingly, the Company did not record \$1,354 and \$0 of revenue as of March 31, 2010 and March 31, 2009, respectively, related to the unpaid balance due for orders shipped in conjunction with the Company’s direct sales to

consumers because the consumer has 36 days to evaluate the product, and is required to pay only the shipping and handling costs for such products before making the required installment payments after the expiration of the 36-day trial period. During the year ending March 31, 2009, the Company discontinued offering the 36-day trial period but as of March 31, 2010 was again testing such offers with customers. The Company also, as of March 31, 2010 and March 31, 2009, did not record \$561 and \$0, respectively, of product costs associated with the foregoing revenue in as much as the customer is required to return the product and the Company is therefore able to recover these costs through resale of the goods. The liability for sales returns is estimated based upon historical experience of return levels.

Table of Contents

Additionally, the Company did not record \$339,041 and \$46,131 of revenue as of March 31, 2010 and March 31, 2009, respectively, related to the wholesale sales value of inventory held by its retail shopping channel customers as these sales are contingent upon the shopping channels selling the goods. Deferred payments for these goods are charged to Customer Deposits. The Company has also deferred, as of March 31, 2010 and March 31, 2009, recognition of \$243,456, and \$21,336 of product and freight costs associated with these sales, which have been included in inventory.

The Company records estimated reductions to revenue for customer and distributor programs and incentive offerings, including promotions and other volume-based incentives. Certain incentive programs require the Company to estimate based on industry experience the number of customers who will actually redeem the incentive. At March 31, 2010 and March 31, 2009, the Company had accrued \$80,119 and \$431,148 respectively, as its estimate for the foregoing deductions and allowances. In addition, for the fiscal years ended March 31, 2010 and March 31, 2009 the Company had accrued \$66,000 and \$1,393,198 for possible returns or price markdowns associated with several large retailer accounts along with \$21,207 and \$30,310 for general allowance for potential returns. These accruals were recorded as bad debt expense, and an increase in allowance for bad debt, which reduced net trade receivables relating to retailers.

Warranty and Return Reserves

The Company records warranty liabilities at the time of sale for the estimated costs that may be incurred under its basic warranty program. The specific warranty terms and conditions vary depending upon the product sold but generally include technical support, repair parts and labor for periods up to one year. Factors that affect the Company's warranty liability include the number of installed units currently under warranty, historical and anticipated rates of warranty claims on those units, and cost per claim to satisfy the Company's warranty obligation. Based upon the foregoing, the Company has recorded as of March 31, 2010 and March 31, 2009 a provision for potential future warranty costs of \$55,842 and \$69,587, respectively.

The Company reserves for known and potential returns from customers and associated refunds or credits related to such returns based upon historical experience. In certain cases, customers are provided a fixed allowance, usually in the 1% to 2% range, to cover returned goods from which this allowance is deducted from payments from such customers. As of March 31, 2010 and March 31, 2009, the Company has recorded a reserve for customer returns of \$47,398 and \$101,743, respectively.

Shipping and Handling Costs

Shipping and handling costs associated with inbound freight are recorded in cost of revenue. Shipping and handling costs associated with freight out to customers are also included in cost of revenue. Shipping and handling charges that are paid by customers to us are included in product sales.

Deferred Rent

In July 2006, the Company entered into a facility lease with a term through January 2012, for its corporate offices in Boulder, Colorado. At March 31, 2010 and March 31, 2009, the Company had recorded deferred rent related to this agreement in the amount of \$40,773 and \$57,283, respectively, based on the difference between rent expense recorded and the rent payment obligation.

Deferred Debt Issuance Costs

The Company capitalizes debt issuance costs that are directly attributable to realizing the proceeds of the debt issued and it is amortized over the contractual life of the debt.

Table of Contents

Segments of an Enterprise and Related Information

ASC 280 (previous authoritative guidance: SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information) replaces the industry segment approach under previously issued pronouncements with the management approach. The management approach designates the internal organization that is used by management for allocating resources and assessing performance as the source of the Company's reportable segments. ASC 280 also requires disclosures about products and services, geographic areas and major customers. At present, the Company only operates in one segment.

New Accounting Pronouncements

In January 2010, the FASB issued a new accounting standard which updates some new disclosures and clarifies some existing disclosure requirements about fair value measurements codified within ASC 820, "Fair Value Measurements and Disclosures." The majority of the provisions of this update are effective for interim and annual reporting periods beginning after December 15, 2009. We do not expect the adoption will have a material impact on our financial statements.

In October 2009, the FASB issued a new accounting standard which provides guidance for arrangements with multiple deliverables. Specifically, the new standard requires an entity to allocate arrangement consideration at the inception of an arrangement to all of its deliverables based on their relative selling prices. In addition, the new standard eliminates the use of the residual method of allocation and requires the relative-selling-price method in all circumstances in which an entity recognizes revenue for an arrangement with multiple deliverables. In October 2009, the FASB also issued a new accounting standard which changes revenue recognition for tangible products containing software and hardware elements. Specifically, if certain requirements are met, revenue arrangements that contain tangible products with software elements that are essential to the functionality of the products are scoped out of the existing software revenue recognition accounting guidance and will be accounted for under the multiple-element arrangements revenue recognition guidance discussed above. We do not expect the adoption will have a material impact on our financial statements. This guidance is effective prospectively for revenue entered into or materially modified in fiscal years beginning after June 15, 2010.

In August 2009, the FASB issued a new accounting standard which provides additional guidance on the measurement of liabilities at fair value. Specifically, when a quoted price in an active market for the identical liability is not available, the new standard requires that the fair value of a liability be measured using one or more of the valuation techniques that should maximize the use of relevant observable inputs and minimize the use of unobservable inputs. In addition, an entity is not required to include a separate input or adjustment to other inputs relating to the existence of a restriction that prevents the transfer of a liability. Adoption does not have a material impact on our financial statements.

In June 2009, the FASB issued ASC 105, Generally Accepted Accounting Principles (prior authoritative guidance: SFAS No. 168, The FASB Accounting Standards Codification™ and the Hierarchy of Generally Accepted Accounting Principles). ASC 105 establishes the FASB ASC as the single source of authoritative nongovernmental U.S. GAAP, except for SEC rules and interpretive releases, which are sources of authoritative GAAP for SEC registrants. The standard is effective for interim and annual periods ending after September 15, 2009. The Company adopted the provisions of the standard on September 30, 2009, which did not have a material impact on our financial statement other than references to accounting standards in our accounting principles disclosures were modified.

In May 2009, the FASB issued ASC 855, Subsequent Events (prior authoritative guidance: SFAS No. 165, Subsequent Events). ASC 855 establishes general accounting standards and disclosures of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. It requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date. This Statement is effective for interim and annual periods ending after June 15, 2009, and as such, adopted this standard in the first

quarter of our fiscal year ending March 31, 2010. The adoption of ASC 855 did not have a material effect on our financial position, results of operations or cash flows. We have performed an evaluation of subsequent events through the date of our filing of this Form 10-K.

In April 2009, the FASB issued ASC 825-10-65, Financial Instruments (prior authoritative guidance: Financial Staff Position (“FSP”) No. FAS 107-1 and Accounting Principles Board (“APB”) Opinion No. 28-1, Interim Disclosures about Fair Value of Financial Instruments). ASC 825-10-65 requires disclosures about fair values of financial instruments for interim reporting periods as well as in annual financial statements. ASC 825-10-65 enhances consistency in financial reporting by increasing the frequency of fair value disclosures and is effective for interim and annual period ending after June 15, 2009, and is to be applied prospectively. The adoption of ASC 825-10-65 did not have a material impact on our financial statements.

Table of Contents

In October 2008, the FASB issued ASC 820-10-35-15A (prior authoritative guidance: FSP No. FAS 157-3, Determining the Fair Value of a Financial Asset in a Market That is Not Active), which clarifies the application of ASC 820 when the market for a financial asset is inactive. Specifically, ASC 820-10-35-15A clarifies how (1) the internal assumptions should be considered in measuring fair value when observable data are not present, (2) observable market information from an inactive market should be taken into account, and (3) the use of broker quotes or pricing services should be considered in assessing the relevance of observable and unobservable data to measure fair value. The guidance in ASC 820-10-35-15A was effective immediately. The adoption of ASC 820-10-35-15A did not have a material effect on our financial statements.

In May 2008, the FASB issued ASC 944-20 (prior authoritative guidance: SFAS No. 163, Accounting for Financial Guarantee Insurance Contracts—an interpretation of FASB Statement No. 60). Diversity exists in practice in accounting for financial guarantee insurance contracts by insurance enterprises under FASB Statement No. 60, Accounting and Reporting by Insurance Enterprises. This results in inconsistencies in the recognition and measurement of claim liabilities. This Statement requires that an insurance enterprise recognize a claim liability prior to an event of default (insured event) when there is evidence that credit deterioration has occurred in an insured financial obligation. This Statement requires expanded disclosures about financial guarantee insurance contracts. The accounting and disclosure requirements of the Statement will improve the quality of information provided to users of financial statements. ASC 944-20 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. The adoption of ASC 944-20 did not have a material impact on our financial position.

In March 2008, the FASB issued ASC 815-10-50 (prior authoritative guidance: SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities—An Amendment of FASB Statement No. 133). ASC 815-10-50 establishes the disclosure requirements for derivative instruments and for hedging activities with the intent to provide financial statement users with an enhanced understanding of the entity's use of derivative instruments, the accounting of derivative instruments, and related hedged items under ASC 815-10-50 and its related interpretations, and the effects of these instruments on the entity's financial position, financial performance, and cash flows. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2008. The adoption of ASC 815-10-50 did not have a material impact on our financial position disclosures.

In December 2007, the FASB issued ASC 805 (prior authoritative guidance: SFAS No. 141(R), Business Combinations), which amends SFAS No. 141, and provides revised guidance for recognizing and measuring identifiable assets and goodwill acquired, liabilities assumed, and any non-controlling interest in the acquiree. It also provides disclosure requirements to enable users of the financial statements to evaluate the nature and financial effects of the business combination. ASC 805 is effective for fiscal years beginning on or after January 1, 2009, and is to be applied prospectively. The adoption of ASC 805 did not have a material impact on our financial position.

In December 2007, the FASB issued ASC 810-10 (prior authoritative guidance: SFAS No. 160, Non-controlling Interests in Consolidated Financial Statements – an amendment of ARB No. 51), which establishes accounting and reporting standards pertaining to ownership interests in subsidiaries held by parties other than the parent, the amount of net income attributable to the parent and to the non-controlling interest, changes in a parent's ownership interest, and the valuation of any retained non-controlling equity investment when a subsidiary is deconsolidated. ASC 810-10 also establishes disclosure requirements that clearly identify and distinguish between the interests of the parent and the interests of the non-controlling owners. ASC 810-10 is effective for fiscal years beginning on or after January 1, 2009. The adoption of ASC 810-10 did not have a material impact on our financial position.

In February 2007, the FASB issued ASC 825-10 (prior authoritative guidance: SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities—including an amendment of FASB Statement 157). The Company adopted ASC 825-10 beginning April 1, 2008. The adoption of ASC 825-10 did not have a material effect on our

financial position.

Note 2 – Current and Long-term portion – Long-term debt

During Fiscal 2010 we relied upon a variety of debt funding sources to help meet our liquidity requirements:

First National Loan

On May 19, 2008, the Company and Jack J. Walker, then one of the Company's directors and now the Company's Chairman and CEO, acting as co-borrowers, entered into a Business Loan Agreement with First National Bank (the "FNB Loan Agreement") for a loan to the Company in a principal amount of up to \$1,000,000 (the "FNB Loan"). The Company agreed, among other things, that while the FNB Loan Agreement is in effect, the Company will not (without FNB's prior written consent): (i) incur or assume indebtedness, except for trade debt in the ordinary course of business, capital leases in an amount not to exceed \$500,000, and capital expenditures of not more than \$500,000 during any fiscal year; (ii) sell, transfer, mortgage, assign, pledge, lease, grant a security interest in, or encumber any of the Company's assets (except as specifically allowed); or (iii) sell with recourse any of the Company's accounts, except to FNB. In the event of a default under the FNB Loan, at FNB's option, all indebtedness owed under the FNB Loan will become immediately due and payable. The FNB Loan had an initial maturity date of May 19, 2009.

On May 19, 2009, the Company, Mr. Walker, and FNB entered into a Change in Terms Agreement (the "First Change in Terms Agreement"), extending the maturity of the FNB Loan until July 19, 2009, and increasing the interest rate from the Wall Street Journal Prime Rate plus 0.50% floating to the Wall Street Journal Prime Rate plus 2.0% floating, with a floor interest rate of 5.50%.

On August 28, 2009, the Company, Mr. Walker, and FNB entered into a second Change in Terms Agreement (the "Second Change in Terms Agreement") extending the maturity of the FNB Loan to November 30, 2009. The Second Change in Terms Agreement increased the interest rate to a fixed rate effective July 19, 2009, of 7% per annum, and provided for principal payments of \$100,000 and a loan origination payment of \$2,500 at closing of the Second Change in Terms Agreement and then principal payments of \$50,000, \$50,000, and \$100,000 on August 31, 2009, September 30, 2009, and October 31, 2009, respectively. The terms and conditions of the Second Change in Terms Agreement were consented to by FCC, LLC d/b/a First Capital ("FCC"), the Company's senior lender, in accordance with the Subordination and Intercreditor Agreement by and among FNB, FCC, and the Company (the "Subordination Agreement"). The Company is prohibited from making principal payments against the FNB Loan, including scheduled principal payments, unless and until such time as FCC provides its consent or such time as the Company's liquidity position exceeds certain thresholds defined in the Subordination Agreement.

At closing of the Second Change in Terms Agreement on August 31, 2009, the Company made the scheduled \$100,000 principal payment with the consent of FCC. Principal payments totaling \$200,000 that were due during the term of the Second Change in Terms Agreement were made by Mr. Walker to FNB because FCC did not consent to the Company making such payments. The first \$150,000 of payments made by Mr. Walker was recorded by the Company as an offset to a \$150,000 receivable due from Mr. Walker. Effective as of November 20, 2009, the Company executed a promissory note in favor of Mr. Walker for the remaining \$50,000. The promissory note matured on February 1, 2010 and carries an interest rate of 20% per annum. As of February 1, 2010, Mr. Walker agreed to extend the maturity date of this promissory note to April 30, 2010. As of March 31, 2010, \$53,589 was outstanding under the promissory note, including accrued interest. On May 7, 2010, the Company repaid this promissory note in full.

As of February 16, 2010, Mr. Walker made an additional \$200,000 payment to FNB, reducing the outstanding principal balance on the FNB Loan to \$500,000. Effective as of the same date, the Company executed a promissory note for \$200,000 in favor of Mr. Walker having a maturity date of April 30, 2010 and carrying an interest rate of 20% per annum. As of March 31, 2010, \$213,350 was outstanding under the promissory note, including accrued

interest. On June 24, 2010, Mr. Walker converted \$206,406 of the principal and accrued interest on this promissory note into three year convertible promissory notes (the “Subordinated Secured Convertible Notes”) issued by the Company, as further described below.

As of March 31, 2010, \$506,397 in loans were outstanding under the FNB Loan, including accrued interest. On May 24, 2010, the Company paid \$511,647 to repay, in full, the FNB Loan and all accrued interest.

Table of Contents

WLLC Loan Agreement

On May 22, 2008, the Company entered into a Loan Agreement (the “WLLC Loan Agreement”) and associated Promissory Note with WLoans, LLC, a Colorado limited liability company (“WLLC”), as lender, and Jack J. Walker. The WLLC Loan Agreement provided for a loan up to a maximum of \$1,500,000 for business purposes, at an annual interest rate of 12% (the “WLLC Loan”). The Company granted WLLC a security interest in all of the Company’s assets, subordinate to the security interests in such assets granted to FCC and FNB. The WLLC Loan had an initial maturity date of April 1, 2009. Mr. Walker is the manager of WLLC and owns a 73.3% membership interest in WLLC, with the remaining membership interest owned by former officers and former directors of the Company.

On May 19, 2009, Mr. Walker, WLLC, and the Company entered into a Loan Extension Agreement (the “Loan Extension Agreement”) effective April 1, 2009, extending the maturity date of the WLLC Loan until June 30, 2009. The Company paid WLLC \$5,000 in consideration for the loan extension. The balance of principal due on the WLLC Loan as of May 19, 2009, was \$1,200,000.

On June 30, 2009, the principal outstanding under the WLLC Loan Agreement totaling \$1,200,000 was converted to 1,200 shares of Series A Convertible Preferred Stock, and the WLLC Loan Agreement was terminated.

Revolving Credit Facility

On June 23, 2008, the Company entered into a Loan and Security Agreement with FCC (the “FCC Loan Agreement”) for a revolving credit facility up to a maximum amount of \$12,000,000 (the “Revolving Credit Facility”) to fund working capital requirements. The actual amount available for borrowing under the Revolving Credit Facility is limited at any given time to the sum of a percentage of eligible inventory and a percentage of eligible accounts receivable, each as defined in the FCC Loan Agreement.

The Revolving Credit Facility has an initial termination date of June 23, 2010, with one-year renewals thereafter, unless prior written notice is provided by either party. Continued availability of the Revolving Credit Facility is subject to the Company’s compliance with customary financial and reporting covenants. As collateral for the Revolving Credit Facility, the Company granted FCC a first priority security interest over all of the Company’s assets, including, but not limited to, accounts receivable, inventory, and equipment.

As of December 31, 2008, the Company was not in compliance with three covenants under the FCC Loan Agreement. Effective as of January 31, 2009, FCC and the Company executed a forbearance agreement related to the FCC Loan Agreement (the “Forbearance Agreement”). Pursuant to the terms of the Forbearance Agreement, FCC agreed to forbear its rights and remedies under the FCC Loan Agreement and related documents with respect to any existing defaults under the FCC Loan Agreement (the “Existing Defaults”) until the earlier of June 30, 2009, or the date of occurrence of a default other than the Existing Defaults. The Forbearance Agreement also increased the Company’s ability to borrow against inventory and accounts receivable during the term of the Forbearance Agreement (the “Additional Borrowing Capacity”). In return for FCC providing the forbearance period and the Additional Borrowing Capacity, the Company agreed to pay FCC a \$25,000 forbearance fee (in five monthly installments), an amendment fee equal to 1.5% per month on the average utilization of the Additional Borrowing Capacity, and issue to FCC a minimum of 250,000 warrants to purchase common stock of the Company at a purchase price of \$1.00 per share. Simultaneously with the execution of the Forbearance Agreement, Mr. Walker provided a \$1 million guarantee against certain liabilities under the FCC Loan Agreement. As compensation for providing the guarantee, the Company issued to Mr. Walker 50,000 warrants to purchase common stock of the Company at a purchase price of \$1.00 per share.

On June 1, 2009, the Company, FCC, and Jack J. Walker, as guarantor, executed a Second Forbearance Agreement, effective as of April 29, 2009 (the "Second Forbearance Agreement"), in which FCC agreed to forbear from exercising its rights and remedies under the Loan Agreement until June 30, 2009, if no further defaults occurred. The Second Forbearance Agreement also increased the advance rate against inventory until July 1, 2009, and eliminated the Company's obligation to pay the monthly forbearance and amendment fees and to provide cash flow projections. In return, AeroGrow agreed to pay FCC a fee of \$60,000. In connection with the Second Forbearance Agreement, FCC permitted AeroGrow to borrow up to \$800,000 more than would otherwise be permitted by the applicable borrowing base calculation under the Loan Agreement, with such additional borrowing to be repaid by June 30, 2009. FCC did not charge AeroGrow a fee for the additional borrowing capacity.

Table of Contents

As of July 1, 2009, FCC, AeroGrow, and Jack J. Walker, as guarantor, executed an amendment to the FCC Loan Agreement (the “Third FCC Amendment”). The Third FCC Amendment reduced the maximum amount of the Revolving Credit Facility to \$8 million, re-set the covenant levels beginning July 1, 2009, and waived existing defaults. In addition, the Third FCC Amendment re-set the formulas for determining the borrowing base against which the Company can borrow. The Third FCC Amendment also changed the definition of Base Rate to the greater of (a) the Prime Rate, or (b) LIBOR plus 3.25%, and increased the interest rate to Base Rate plus 4.0%. The Third FCC Amendment provides for a \$30,000 success fee to be paid by the Company to FCC on April 30, 2010. In addition, the Third FCC Amendment replaces a minimum borrowing fee with a fee calculated as 0.50% per annum of the daily average unused portion of the Revolving Credit Facility, payable monthly in arrears. Finally, the Third FCC Amendment increased the annual facility fee to 1.0% of the maximum amount of the Revolving Credit Facility, from 0.75%. The Company paid Mr. Walker a \$25,000 fee as compensation for providing the guarantee associated with the Third FCC Amendment. The Third FCC Amendment did not change the original due date of June 23, 2010, with one year renewals, thereafter, unless prior written notice is provided by either party.

On October 8, 2009, the Company and FCC executed a temporary amendment to the FCC Loan Agreement, effective as of September 30, 2009, that delayed a reduction in the advance rate against inventory from 80% to 70%, originally scheduled to take effect on October 1, 2009, until November 15, 2009.

As of September 30, 2009, the Company was not in compliance with the minimum fixed charge coverage covenant under the revised FCC Loan Agreement. On November 19, 2009, FCC and the Company executed a Waiver Agreement to the FCC Loan Agreement (the “Waiver Agreement”). The Waiver Agreement waived the covenant violations as of September 30, 2009. FCC charged the Company a \$10,000 waiver fee.

As of December 31, 2009, the Company was not in compliance with the minimum fixed charge coverage and minimum tangible net worth covenants under the revised FCC Loan Agreement. As of February 15, 2010, the Company, FCC, and Jack J. Walker, as guarantor, executed a Forbearance Agreement and Fourth Amendment, (the “Fourth Amendment”), in which FCC agreed to forbear from exercising its rights and remedies with regard to the Company’s non-compliance with financial covenants until April 30, 2010, if no other defaults occurred. The Fourth Amendment increased the advance rate against eligible inventory from 50% to 60% until April 30, 2010, and reduced the maximum amount of the Revolving Credit Facility to \$2.25 million until March 19, 2010, and then to \$2.0 million thereafter. In connection with the Fourth Amendment, FCC permitted AeroGrow to borrow up to \$600,000 more than would otherwise be permitted by the applicable borrowing base calculation under the Loan Agreement, with such additional borrowing to be repaid by April 30, 2010. The Fourth Amendment provided for a \$500 per day forbearance fee, with such fee to be payable on the earlier of April 30, 2010 or the date on which loans under the Revolving Credit Facility are repaid in full. Simultaneous with the execution of the Fourth Amendment, Mr. Walker provided a \$1.5 million guarantee against certain liabilities under the FCC Loan Agreement.

As of March 31, 2010, loans totaling \$1,565,395 were outstanding, including accrued interest, under the Revolving Credit Facility. Also as of March 31, 2010, there was approximately \$290,000 in additional borrowing capacity available under the Revolving Credit Facility.

Main Power Promissory Note

On June 30, 2009, the Company entered into a Letter Agreement (“Letter Agreement”) with Main Power Electrical Factory, Ltd. (“Main Power”) and executed a Promissory Note. Pursuant to the terms of the Letter Agreement, Main Power agreed to release the Company from \$1,386,041 of existing accounts payable obligations owed by the Company to Main Power in return for the Company executing the Promissory Note for the same amount. In addition, the Letter Agreement included other provisions relating to the terms and conditions under which AeroGrow must purchase AeroGarden products from Main Power. The Promissory Note has a final maturity of June 30, 2011, and

carries an interest rate of 8% per annum, with interest accrued and added to the principal amount of the Promissory Note for the first year. During the second year of the Promissory Note, interest is due and payable quarterly. Principal payments of \$150,000 are due and payable monthly beginning January 31, 2011, with a final payment of all principal and accrued but unpaid interest due on June 30, 2011. As of March 31, 2010, the outstanding balance under the Promissory Note totaled \$1,470,957, including accrued interest.

Table of Contents

Bridge Financing

On August 28 through September 1, 2009, the Company entered into bridge financing arrangements totaling \$500,000 (the “Bridge Loans”) with six lenders (the “Lenders”) as detailed in the table below. The Bridge Loans are unsecured, subordinated to loans made to the Company by FCC, and bear interest at 15% per annum. The Company issued 500,000 warrants to purchase common shares of the Company to the Lenders. Each of the warrants has a five-year term and an exercise price of \$0.25 per common share.

The Bridge Loans were originally scheduled to mature on November 16, 2009; however, no cash principal payments were made by the Company at maturity because FCC had not provided the consent required under the terms of the intercreditor subordination agreements executed by the Company, the Lenders, and FCC. Interest totaling \$25,069 was paid to the Lenders during the fiscal year ended March 31, 2010. No payments of principal were made to the Lenders during Fiscal 2010. As of March 31, 2010, \$518,493 was outstanding under the Bridge Loans, including accrued interest.

Lender	Current Relationship to the Company	Bridge Loan Amount	Date of Loan	Warrants Issued to Lender
L a z a r u s I n v e s t m e n t P a r t n e r s L L L P	Greater than 10% beneficial owner	\$ 250,000	September 1, 2009	250,000
Jack J. Walker	Chairman and CEO, director, greater than 10% beneficial owner	\$ 100,000	August 28, 2009	100,000
Michael S. Barish	Director, greater than 10% beneficial owner	\$ 75,000	September 1, 2009	75,000
Jervis B. Perkins	Former Chief Executive Officer, current director, and greater than 10% beneficial owner	\$ 25,000	August 28, 2009	25,000
J. Michael Wolfe	Chief Operating Officer and greater than 10% beneficial owner	\$ 25,000	September 1, 2009	25,000
H . L e i g h S e v e r a n c e	Greater than 10% beneficial owner	\$ 25,000	September 1, 2009	25,000

Between October 30 and November 9, 2009, the Company entered into additional bridge financing arrangements totaling \$580,000 (the “Additional Bridge Loans”) with five lenders (the “Additional Lenders”) as detailed in the table below. The Additional Bridge Loans are unsecured, subordinated to loans made to the Company by FCC, and bear interest at 20% per annum. The Company issued 580,000 warrants to purchase common shares of the Company to the Additional Lenders. Each of the warrants has a five-year term and an exercise price of \$0.25 per common share. One of the Additional Bridge Loans in the principal amount of \$180,000 is guaranteed by Jack J. Walker, the Company’s Chairman and CEO.

Table of Contents

The Bridge Loans were originally scheduled to mature on February 1, 2010; however, no cash payments were made by the Company at maturity because FCC had not provided the consent required under the terms of the intercreditor subordination agreements executed by the Company, the Lenders, and FCC. No interest or principal had been paid to the Lenders as of March 31, 2010. As of March 31, 2010, \$626,575 was outstanding under the Bridge Loans, including accrued interest.

Lender	Current Relationship to the Company	Bridge Loan Amount	Date of Loan	Warrants Issued to Lender
Lazarus Investment Partners LLLP	Greater than 10% beneficial owner	\$ 200,000	November 9, 2009	200,000
Grad Wurn LLC	None	\$ 180,000	November 1, 2009	180,000
Michael S. Barish	Director, greater than 10% beneficial owner	\$ 100,000	November 4, 2009	100,000
Jervis B. Perkins	Former Chief Executive Officer, current director, and greater than 10% beneficial owner	\$ 50,000	October 30, 2009	50,000
J. Michael Wolfe	Chief Operating Officer and greater than 10% beneficial owner	\$ 50,000	November 5, 2009	50,000

Long-term debt maturities

Future maturities under the various debt agreements are as follows:

Year Ended	Amount Due
March 31, 2011	3,965,259
March 31, 2012	1,020,957
	\$ 4,986,216

Note 3 – Due to Factor

On February 9, 2007, the Company entered into an agreement with Benefactor Funding Corp. (“Benefactor”) whereby Benefactor agreed to factor the company’s retail accounts receivable invoices. On April 16, 2008, the Company gave notice to Benefactor of its intent to terminate the facility. The facility was terminated on June 24, 2008. Fees paid to Benefactor for interest, discounts, and other services for the years ended March 31, 2010, March 31, 2009, and March 31, 2008 totaled \$0, \$0, and \$503,164, respectively.

Note 4 - Capital Lease Obligations

The Company has capitalized lease obligations for computer equipment, licensed software, and factory equipment due on various dates through November 2010 of \$31,459 as of March 31, 2010. The interest rates range from 12% to 15% per annum. These lease obligations are collateralized by the related assets with a net book value of \$59,173 as of March 31, 2010. In addition, recorded in deposits is a security deposit of \$48,180 which will be released upon the Company achieving certain financial requirements. The leases also required \$21,465 in prepaid rents.

Table of Contents

Maturities of capital lease obligations as of March 31, 2010, are as follows:

Year ended March 31, 2011	\$32,803
Less - amount related to interest	(1,344)
Principal portion of future obligations	31,459
Less - current portion	(31,459)
	\$-

The following table summarizes the assets recorded in property and equipment that were acquired under the capital leases as of March 31, 2010:

Class of property	
Computer equipment	\$ 34,425
Factory equipment	101,985
	136,410
Accumulated depreciation	(77,237)
Net book value	\$ 59,173

Note 5 – Equity Compensation Plans

In 2003, the Company's Board of Directors approved a Stock Option Plan (the “2003 Plan”) pursuant to which nonqualified stock options were reserved for issuance to eligible employees, consultants and directors of the Company. The 2003 Plan was administered by the Board of Directors, which had the authority to select the individuals to whom awards were to be granted, the number of shares of common stock to be covered by each award, the vesting schedule of stock options, and all other terms and conditions of each award. The Company has granted nonqualified stock options to purchase shares of common stock to certain employees at exercise prices ranging from \$0.01 to \$5.00 per share. In August 2005, the 2003 Plan was merged into the 2005 Equity Compensation Plan and it no longer separately exists. However, options issued and outstanding under the 2003 Plan continue to be governed by the original grant agreements but are administered under the 2005 Equity Compensation Plan.

In August 2005, the Company’s Board of Directors approved the 2005 Equity Compensation Plan (the 2005 Plan) pursuant to which both qualified and nonqualified stock options as well as restricted shares of common stock are reserved for issuance to eligible employees, consultants and directors of the Company. A total of 3,505,000 shares of our common stock may be granted under the 2005 Plan as the original 1,505,000 was increased by 2,000,000 shares at the October 1, 2008 shareholders meeting.

The 2005 Plan is administered by the Company’s compensation committee which has the authority to select the individuals to whom awards are to be granted, the number of shares of common stock to be covered by each award, the vesting schedule of stock options, and all other terms and conditions of each award. The Company has granted qualified stock options to purchase shares of common stock to certain employees at exercise prices ranging from \$0.01 to \$6.00 per share.

The Company accounts for share-based payments in accordance with ASC 710-10-55 (prior authoritative guidance: FASB Statement FASB 123(R) Share-Based Payments). In addition to recognizing compensation expense related to restricted stock and performance units, ASC 710-10-55 also requires recognition of compensation expense related to the estimated fair value of stock options. The Company uses the modified-prospective-transition method. Under that transition method, compensation expense recognized subsequent to adoption includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the values estimated in

accordance with the provisions of ASC 710-10-55, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant-date fair values estimated in accordance with the provisions of ASC 710-10-55. Consistent with the modified-prospective-transition method, the Company's results of operations for prior periods have not been adjusted to reflect the adoption of ASC 710-10-55.

Table of Contents

For the years ended March 31, 2010, March 31, 2009 and March 31, 2008, respectively, the Company granted 1,744,973, 1,781,701, and 272,911 options to purchase the Company's common stock at exercise prices ranging from \$0.07 to \$5.90 per share under the 2005 Plan as follows:

	Years ended March 31,		
	2010	2009	2008
Employees	1,441,573	1,641,591	272,911
Consultants	400	13,110	-
Directors	303,000	127,000	-
	1,744,973	1,781,701	272,911

In November 2007, the Board of Directors of the Company approved a resolution authorizing that an increase of 1.0 million shares in the 2005 Plan be submitted as a matter to be voted on by the shareholders of the Company at the next annual shareholders meeting and that all grants of options in excess of the 1,505,000 shares allowable pursuant to the current 2005 Plan be issued subject to such shareholder approval. On July 23, 2008, the Board of Directors approved a revised resolution that increased the number of shares to be added to the 2005 Plan to 2,000,000. Included in the options granted for the year ended March 31, 2008 were 221,063 options which exceeded the 1,505,000 shares eligible to be issued under the 2005 Plan. On October 1, 2008, the shareholders of the Company approved the increase of 2,000,000 shares for the 2005 Plan.

In March 2007, in as much as the Company's stock had begun trading in the public market but trading history was limited, the Company reviewed the assumptions utilized for the volatility rate, researching companies within the consumer products category with comparable market capitalizations, comparable per share prices and with a minimum of five years of trading history, the length of time the options are exercisable. Accordingly, for the options granted for the period January 1, 2007 through December 31, 2007, the Company used the following weighted average assumptions: no dividend yield; expected volatility rate of 50.3%; risk free interest rate of 5%; and average lives of 3 years resulting in a value of \$2.28 per option granted based upon a market value of \$5.90 per share on the date of grant. The foregoing assumptions were re-evaluated in March 2008 using the same comparison companies and researching additional companies with similar characteristics. Accordingly, for the options granted for the period January 1, 2008 through October 19, 2009, the Company used the following weighted average assumptions: no dividend yield; expected volatility rate of 61.0%; risk free interest rate of 5%; and average lives of 3 years resulting in values of \$.18 to \$2.61 per option granted based upon market values on the date of grant. The assumptions were re-evaluated in January 2010 using the comparison companies and researching additional companies with similar characteristics. Accordingly, for the options granted in January 2010, the Company used the following weighted average assumptions: no dividend yield; expected volatility rate of 103.0%; risk free interest rate of 5%; and average lives of 3 years resulting in values of \$.09 and \$.11 per option granted based upon market values on the date of grant. As a result of recognizing compensation expense for stock options pursuant to the provisions of ASC 710-10-55, the net loss for the years ended March 31, 2010, March 31, 2009 and the March 31, 2008, was increased by \$513,143, \$676,614 and \$710,899, respectively.

A summary of option activity in the 2005 Plan is as follows:

	Options	Exercise price		Weighted-Average
		Low	High	
Balances at April 1, 2007	1,337,360	\$0.01	\$5.00	\$4.58
Granted	272,911	\$4.74	\$5.85	\$5.15
Exercised	(36,358)	\$0.00	\$5.00	\$1.66
Forfeited	(19,962)	\$2.50	\$5.00	\$3.63

Edgar Filing: AeroGrow International, Inc. - Form 10-K

Balances at March 31,2008	1,553,951	\$0.01	\$5.90	\$4.46
Granted	1,781,701	\$0.18	\$2.96	\$1.07
Exercised	(43,576)	\$0.50	\$2.95	\$0.60
Forfeited	(273,003)	\$0.01	\$5.90	\$2.52
Balances at March 31, 2009	3,019,073	\$0.01	\$5.90	\$2.77
Granted	1,744,973	\$0.07	\$0.13	\$0.09
Exercised	(4,075)	\$0.01	\$0.01	\$0.01
Forfeited	(1,591,509)	\$0.21	\$5.90	\$3.65
Balances at March 31, 2010	3,168,462	\$0.18	\$5.90	\$0.83

Table of Contents

Information regarding all stock options outstanding under the 2005 Plan as of March 31, 2010 is as follows:

Exercise price range	OPTIONS OUTSTANDING				OPTIONS EXERCISABLE			
	Options	Weighted-average Remaining Contractual Life (years)	Weighted average Exercise Price	Aggregate Intrinsic Value	Options	Weighted-average Remaining Contractual Life (years)	Weighted average Exercise Price	Aggregate Intrinsic Value
Over \$0.00 to \$0.50	2,710,218	3.38	\$0.15		2,269,934	3.24	\$0.14	
Over \$0.50 to \$2.50	-	-	\$-		-	-	\$-	
Over \$2.50 to \$5.00	2,290	3.00	\$2.96		2,290	3.00	\$2.96	
Over \$5.00 to \$5.50	430,954	1.00	\$5.00		430,954	1.00	\$5.00	
Over \$5.50	25,000	1.97	\$5.90		25,000	1.97	\$5.90	
	3,168,462	3.05	\$0.85	\$ 81,011	2,728,178	2.87	\$0.97	\$ 69,523

The aggregate intrinsic value in the preceding table represents the difference between the Company's closing stock price and the exercise price of each in-the-money option on the last trading day of the period presented. For the year ended March 31, 2010, 4,075 options to purchase the Company's common stock were exercised under the plan resulting in \$20 in proceeds to the Company.

At March 31, 2010 the Company has granted options for 440,284 shares of the Company's common stock that are unvested that will result in \$49,852 of compensation expense over the next 19 months.

Note 6 – Income Taxes

The Company accounts for income taxes in accordance with ASC 740, Income Taxes (previous authoritative guidance: SFAS No., 109, Accounting for Income Taxes). Under the provisions of ASC 740, a deferred tax asset or liability (net of a valuation allowance) is provided in the financial statements by applying the provisions of applicable laws to measure the deferred tax consequences of temporary differences that will result in taxable or deductible amounts in future years as a result of events recognized in the financial statements in the current or preceding years.

Table of Contents

Income tax provision consisted of the following:

	2010	2009
