EXPLANATORY NOTE

We are filing this Amendment No. 1 to our quarterly report on Form 10-Q for the quarterly period ended September 30, 2011, filed November 14, 2011 (the "Report"), to revise the description in the Management's Discussion and Analysis of Financial Condition of our appeal to the January 2011 decision by the NASDAQ Listing Qualifications Department to delist our common stock. We incorrectly stated that the decision was made by the NASDAQ Listing and Hearing Review Council in January 2011 rather than the NASDAQ Listing Qualifications Department. We also set forth our belief that NASDAQ's delisting decision constituted: (i) an abuse of its discretionary authority, (ii) disregard of attorney client privilege, (iii) breach of NASDAQ's listing rules as approved by the Securities and Exchange Commission (the "SEC"), and (iv) material procedural unfairness as NASDAQ's staff subjectively determined the economic fairness of the terms of an institutional financing transaction entered into during turbulent market times, which terms we believe were more favorable than similar transactions entered into at the same time, and which we fully disclosed in our current reports and registration statements filed with the SEC. The delisting decision caused our company and shareholders irreparable harm. The appeal to the delisting decision is currently before the Board of Directors of the NASDAQ Stock Market LLC (the "Board"). Should the unfavorable decision be made final by the Board, we are prepared to immediately file an appeal to the SEC. We plan, if necessary, to file an appeal with the U.S. Court of Appeals and continue our efforts until we have exhausted all legal remedies available to us and our shareholders. Except for the foregoing, no further revisions were made to the Report.

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

1. ORGANIZATION AND DESCRIPTION OF BUSINESS

CleanTech Innovations, Inc., formerly known as Everton Capital Corporation (the “Company” or “CleanTech”), was incorporated on May 9, 2006, in the State of Nevada. Through its wholly owned operating subsidiaries in China, the Company designs, manufactures, tests and sells structural towers for on-land and off-shore wind turbines. The Company also manufactures specialty metal products that require advanced manufacturing and engineering capabilities, including bellows expansion joints and connecting bend pipes used for waste heat recycling in steel production, in ultra-high-voltage electricity transmission grids and in industrial pressure vessels.

The Company authorized an 8-for-1 forward split of its common stock, effective July 2, 2010. Prior to the forward split, the Company had 5,501,000 shares of common stock issued and outstanding, and, after giving effect to the forward split, the Company had 44,008,000 shares of common stock issued and outstanding. The effect of the forward stock split was retroactively reflected for all periods presented.

The Company acquired Liaoning Creative Bellows Co., Ltd. (“Creative Bellows”) pursuant to the terms of a Share Exchange Agreement and Plan of Reorganization, dated July 2, 2010, as amended. Under the terms of the Share Exchange Agreement, on July 2, 2010, the Company issued 15,122,000 shares of its common stock to the three owners of Creative Bellows and two of their designees to enter into and consummate a series of transactions, described below, by which the Company acquired 100% of Creative Bellows. Concurrently with the Share Exchange Agreement and as a condition thereof, the Company entered into an agreement with Jonathan Woo, the Company’s former Chief Executive Officer and Director, pursuant to which he returned 40,000,000 shares of the Company’s common stock for cancellation. Mr. Woo received \$40,000 from the Company for the cancellation of his shares of common stock, which was charged to additional paid-in capital. The \$40,000 payment reflected the fair value of the shares in the Company, which was a non-operating public shell with no trading market for its common stock prior to the Share Exchange Agreement. The cancelled shares were retired and, for accounting purposes, the shares were treated as not having been outstanding for any period presented. Upon completion of the foregoing transactions, the Company had 19,130,000 shares of its common stock issued and outstanding. Simultaneously with the foregoing transactions, the Company changed its fiscal year end to December 31.

On July 15, 2010, the State Administration of Industry and Commerce (“AIC”) of the People’s Republic of China (“PRC”) issued a Sino-foreign joint venture business license to Creative Bellows, indicating that a capital injection by Wonderful Limited, a British Virgin Islands company, was approved and registering its ownership of a 4.999% equity interest in Creative Bellows. On August 18, 2010, the AIC issued an approval registration of the Company’s capital injection of \$23.3 million in cash for 87% of Creative Bellows. Finally, on October 15, 2010, the Company obtained PRC government approval to acquire the remaining minority interest in Creative Bellows held by its original shareholders and Wonderful Limited for \$6 million in cash. On October 27, 2010, pursuant to waiver and release agreements, the selling minority shareholders of Creative Bellows waived their rights to receive cash for their equity interests for a mutual release of claims. As a result of these transactions, Creative Bellows became a 100% owned subsidiary of the Company effective October 15, 2010.

For accounting purposes, the Share Exchange Agreement and subsequent transactions described above were treated as a reverse acquisition and recapitalization of Creative Bellows because, prior to the transactions, the Company was a non-operating public shell and, subsequent to the transactions, the shareholders of Creative Bellows owned a majority of the outstanding common stock of the Company and exercise significant influence over the operating and financial policies of the consolidated entity. Pursuant to Securities and Exchange Commission (“SEC”) rules, the merger or

acquisition of a private operating company into a non-operating public shell with nominal net assets is considered a capital transaction.

Creative Bellows was incorporated in the PRC province of Liaoning on September 17, 2007. Creative Bellows designs and manufactures bellows expansion joints, pressure vessels, wind tower components for wind turbines and other fabricated metal specialty products. On May 26, 2009, the three individual shareholders of Creative Bellows established Liaoning Creative Wind Power Equipment Co., Ltd. (“Creative Wind Power”). At the end of 2009, the three shareholders transferred their Creative Wind Power shares to Creative Bellows at cost; as a result of the transfer of ownership, Creative Bellows owned 100% of Creative Wind Power. Creative Wind Power markets and sells wind tower components designed and manufactured by Creative Bellows.

Table of Contents

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

The unaudited financial statements included herein were prepared by the Company pursuant to the rules and regulations of the SEC. The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments) that are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally present in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") were omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the audited financial statements and footnotes included in the Company's 2010 audited financial statements included in the Company's Annual Report on Form 10-K. The results for the nine and three months ended September 30, 2011, are not necessarily indicative of the results to be expected for the full year ending December 31, 2011.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements were prepared in conformity with U.S. GAAP. The Company's functional currency is the Chinese Yuan Renminbi ("RMB"); however, the accompanying consolidated financial statements were translated and presented in United States Dollars ("USD"). The accompanying consolidated financial statements present the historical financial condition, results of operations and cash flows of the operating companies.

Principles of Consolidation

The consolidated financial statements include the accounts of CleanTech and its wholly owned subsidiaries, Creative Bellows and Creative Wind Power. All intercompany transactions and account balances were eliminated in consolidation.

Use of Estimates

In preparing financial statements in conformity with U.S. GAAP, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the dates of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Significant estimates include the recoverability of long-lived assets and the valuation of inventories. Actual results could differ from those estimates.

Cash and Equivalents

Cash and equivalents include cash on hand, demand deposits placed with banks or other financial institutions and all highly liquid investments with an original maturity of three months or less as of the purchase date of such investments.

Restricted Cash

Restricted cash consists of a percentage of sales deposited by the Company into its bank accounts according to contract terms, which serves as a contract execution and product delivery guarantee. The restriction is released upon customer acceptance of the product.

Accounts and Retentions Receivable

The Company maintains reserves for potential credit losses on accounts receivable. Management reviews the composition of accounts receivable and analyzes historical bad debts, customer concentrations, customer creditworthiness, current economic trends and changes in customer payment patterns to evaluate the adequacy of these reserves. Past due receivables are determined based on contractual payment terms specified in the contract. The Company does not anticipate any significant credit risk because the majority of its customers are large, well-capitalized state-owned and publicly traded utility and industrial companies with stable operations. Based on its historical collection activity, the Company had allowances for bad debts of \$139,096 and \$8,884 at September 30, 2011, and December 31, 2010, respectively.

Table of Contents

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

At September 30, 2011, and December 31, 2010, the Company had retentions receivable for product quality assurance of \$2,956,688 and \$2,566,113, respectively. The retention generally is 10% of the sales price with terms of 1-2 years, but no later than the termination of the warranty period. Current retentions receivable were \$2,628,391 and \$105,911 at September 30, 2011, and December 31, 2010, respectively, are current and are due within one year; \$328,297 and \$2,460,202 of the retentions receivable are long-term at September 30, 2011, and December 31, 2010, respectively. The Company has not encountered any significant collectability issues with respect to the retentions receivable.

Inventories

The Company's inventories are valued at the lower of cost or market, with cost determined on a weighted average basis. The Company compares the cost of inventories with market value and allowance made to write down the inventories to their market value, if lower.

Property and Equipment

Property and equipment are stated at cost, net of accumulated depreciation. Expenditures for maintenance and repairs are expensed as incurred; additions, renewals and betterments are capitalized. When property and equipment are retired or otherwise disposed, the related cost and accumulated depreciation are removed from the respective accounts, and any gain or loss is included in operations. Depreciation of property and equipment is provided using the straight-line method for substantially all assets with 5% salvage value and estimated lives as follows:

Buildings	40	Years
Machinery	5 - 15	Years
Vehicle	5	Years
Office equipment	5	Years

Land Use Rights

Right to use land is stated at cost less accumulated amortization. Amortization is provided using the straight-line method over 50 years.

Impairment of Long-Lived Assets

Long-lived assets, which include property, plant and equipment and intangible assets, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Recoverability of long-lived assets to be held and used is measured by comparing the carrying amount of an asset to the estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the assets. Fair value is generally determined using the asset's expected future discounted cash flows or market value, if readily determinable. Based on its review, the Company believes that as of September 30, 2011, and December 31, 2010, there were no significant impairments of its long-lived assets.

Income Taxes

The Company utilizes Statement of Financial Accounting Standards (“SFAS”) No. 109, “Accounting for Income Taxes,” codified in Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 740, which requires recognition of deferred tax assets and liabilities for expected future tax consequences of events that were included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

Table of Contents

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

The Company follows FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48"), codified in FASB ASC Topic 740. When tax returns are filed, it is likely that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. The benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions taken are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50 percent likely of being realized upon settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above is reflected as a liability for unrecognized tax benefits along with any associated interest and penalties that would be payable to the taxing authorities upon examination. Interest associated with unrecognized tax benefits are classified as interest expense and penalties are classified in selling, general and administrative expenses in the statements of income. At September 30, 2011 and December 31, 2010, the Company did not take any uncertain positions that would necessitate recording a tax-related liability.

Revenue Recognition

The Company's revenue recognition policies are in compliance with SEC Staff Accounting Bulletin ("SAB") 104 (codified in FASB ASC Topic 605). Sales revenue, including the final 10% of the purchase price, is recognized after delivery is complete, customer acceptance of the product occurs and collectability is reasonably assured. Customer acceptance occurs after the customer puts the product through a quality inspection, which normally is completed within one to two weeks from customer receipt of the product. The customer is responsible for installation and integration of our component products into its end products. Payments received before satisfaction of all relevant criteria for revenue recognition are recorded as unearned revenue or advances from customers. Unearned revenue or advances from customers consists of payments received from customers prior to customer acceptance of the product.

The Company's standard payment terms with its wind tower customers generally provide that 10% of the purchase price is due upon the Company's deposit of restricted cash into a bank account as a contract guarantee, 20% upon the Company's purchase of raw material for the order, 10% upon delivery of the base ring component of the wind towers, 30% upon delivery of the wind tower tube sections and 20% upon customer inspection and acceptance of the product, which customers normally complete within 1-2 weeks after delivery. As a common practice in the manufacturing business in PRC, payment of the final 10% of the purchase price is due no later than the termination date of the product warranty period, which can be up to 24 months from the customer acceptance date. The final 10% of the purchase price is recognized as revenue upon customer acceptance of the product. For the Company's bellows expansion joints and pressure vessels, payment terms are negotiated on a case-by-case basis and these payment percentages and terms may differ for each customer.

Sales revenue represents the invoiced value of goods, net of value-added tax ("VAT"). The Company's products sold and services provided in China are subject to VAT of 17% of the gross sales price. This VAT may be offset by VAT paid by the Company on raw materials and other materials included in the cost of producing the finished product. The Company recorded VAT payable and VAT receivable net of payments in the financial statements. The VAT tax return is filed offsetting the payables against the receivables.

Warranties

The Company offers a product warranty to its customers of up to 24 months depending on the terms negotiated with each customer. During the warranty period, the Company will repair or replace defective products free of charge. The Company commenced production in 2009 and as of September 30, 2011, the Company accrued \$10,999 in warranty expense. The Company implemented internal manufacturing protocols designed to ensure product quality beginning from the receipt of raw materials to the final inspection at the time products are shipped. The Company monitors warranty claims and accrues for warranty expense accordingly, using ASC Topic 450 to account for its standard warranty.

The Company provides its warranty to all customers and does not consider it an additional service; rather, the warranty is considered an integral part of the product's sale. There is no general right of return indicated in the contracts or purchase orders. If a product under warranty is defective or malfunctions, the Company is responsible for fixing it or replacing it with a new product. The Company's products are its only deliverables.

Table of Contents

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

The Company's warranty reserve activity for the nine months ended September 30, 2011, is as follows:

	2011
Balance at January 1, 2011	\$ 10,555
Provisions	-
Exchange rate gain	444
Actual costs incurred	-
Balance at September 30, 2011 (in current liabilities)	\$ 10,999

After the expiration of the warranty period, the Company charges for after-sales services on its products. Such revenue is recognized when the service is provided. For the nine and three months ended September 30, 2011, the Company had no after-sales services income.

Cost of Goods Sold

Cost of goods sold consists primarily of material, labor and related overhead, which is attributable to the products, and other indirect costs that benefit all products. Write-down of inventory to lower of cost or market is also recorded in cost of goods sold.

Research and Development

Research and development costs are related primarily to the Company's development and testing of its new technologies used to manufacture its bellows-related products. Research and development costs are expensed as incurred. For the nine months ended September 30, 2011 and 2010, research and development was \$160,087 and \$0, respectively, and was included in general and administrative expenses. For the three months ended September 30, 2011 and 2010, research and development was \$45,427 and \$0, respectively.

Subsidy Income

Subsidy income included grants from the LiaoNing Province Finance Bureau to support the Company's special technology development project, and a Science and Technology Support Grant from the Administrative Committee of Liaoning Province Tieling Economic and Technological Development Zone to attract high-tech products businesses to such zone. The grant from the Liaoning Province Tieling Economic and Technological Development Zone was without any conditions and restrictions, did not require repayment and was exempt from income tax in 2008. The grant was based on the Company's investments in high-tech products, its floor space being located in the high-tech zone and certain taxes paid by the Company. The Company received \$510,980 from the Tieling Finance Bureau for technology support fund and \$538,668 from Liaoning Province Tieling Economic and Technological Development Zone in recognition of the Company becoming a U.S. listed company for the nine months and \$51,700 for the three months ended September 30, 2011. The Company also received \$1,009,900 and \$2,600 during the nine and three months ended September 30, 2010, respectively, in recognition of the Company becoming a U.S. listed company. Subsidy income is subject to PRC statutory income tax.

Shipping and Handling Costs

Shipping and handling costs for delivery of finished goods are included in selling expenses. During the nine months ended September 30, 2011 and 2010, shipping and handling costs were \$905,245 and \$54,741, respectively. During the three months ended September 30, 2011 and 2010, shipping and handling costs were \$371,208 and \$11,937, respectively.

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

Basic and Diluted Earnings per Share (EPS)

Basic EPS is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted EPS is computed similar to basic net income per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if all the potential common shares, warrants and stock options had been issued and if the additional common shares were dilutive. Diluted earnings per share are based on the assumption that all dilutive convertible shares and stock options and warrants were converted or exercised. Dilution is computed by applying the treasury stock method for the outstanding options and warrants, and the if-converted method for the outstanding convertible preferred shares. Under the treasury stock method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period. Under the if-converted method, convertible outstanding instruments are assumed to be converted into common stock at the beginning of the period (or at the time of issuance, if later). The following table presents a reconciliation of basic and diluted earnings per share:

	Nine months ended September 30,	
	2011	2010
Net income	\$ 757,606	\$ 2,902,986
Weighted average shares outstanding – basic	24,978,902	17,447,008
Effect of dilutive securities:		
Unexercised warrants and options	88,917	162,133
Weighted average shares outstanding – diluted	25,067,819	17,609,141
Earnings per share – basic	\$ 0.03	\$ 0.17
Earnings per share – diluted	\$ 0.03	\$ 0.16
	Three months ended September 30,	
	2011	2010
Net income	\$ 54,673	\$ 2,321,869
Weighted average shares outstanding – basic	24,982,822	22,021,207
Effect of dilutive securities:		
Unexercised warrants and options	-	481,112
Weighted average shares outstanding – diluted	24,982,822	22,502,319
Earnings per share – basic	\$ 0.00	\$ 0.11
Earnings per share – diluted	\$ 0.00	\$ 0.10

Table of Contents

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

Basic and diluted earnings per share are the same for the nine and three months ended September 30, 2011, because the common stock equivalent of the convertible securities outstanding, consisting of unexercised warrants issued to investors and options issued to the Company's directors, are antidilutive and, accordingly, were excluded from the computation of diluted earnings per share. At September 30, 2011, options to purchase 30,000 shares of common stock were outstanding and exercisable, respectively, and warrants to purchase 2,801,310 shares of common stock were outstanding and exercisable, respectively (see Note 20 and Note 21).

Concentration of Credit Risk

Financial instruments that potentially subject the Company to credit risk consist primarily of accounts and other receivables and advance to supplier. The Company does not require collateral or other security to support these receivables. The Company conducts periodic reviews of its clients' financial condition and customer payment practices to minimize collection risk on accounts receivable.

Cash includes cash on hand and demand deposits in accounts maintained within China. Certain financial instruments, which subject the Company to concentration of credit risk, consist of cash. Balances at financial institutions within China are not covered by insurance. The Company has not experienced any losses in such accounts.

The operations of the Company are located in the PRC. Accordingly, the Company's business, financial condition and results of operations may be influenced by the political, economic and legal environments in the PRC, as well as by the general state of the PRC economy.

Statement of Cash Flows

In accordance with SFAS No. 95, "Statement of Cash Flows," codified in FASB ASC Topic 230, cash flows from the Company's operations are calculated based upon local currencies. As a result, amounts related to assets and liabilities reported on the statement of cash flows may not necessarily agree with changes in the corresponding balances on the balance sheet.

Fair Value of Financial Instruments

Certain of the Company's financial instruments, including cash and equivalents, accounts receivable, other receivables, accounts payable, accrued liabilities and short-term debt, have carrying amounts that approximate their fair values due to their short maturities. ASC Topic 820, "Fair Value Measurements and Disclosures," requires disclosure of the fair value of financial instruments held by the Company. ASC Topic 825, "Financial Instruments," defines fair value and establishes a three-level valuation hierarchy for disclosures of fair value measurement that enhances disclosure requirements for fair value measures. The carrying amounts reported in the consolidated balance sheets for receivables and current liabilities each qualify as financial instruments and are a reasonable estimate of their fair values because of the short period of time between the origination of such instruments and their expected realization and their current market rate of interest. The three levels of valuation hierarchy are defined as follows:

- Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

As of September 30, 2011, and December 31, 2010, the Company did not identify any assets and liabilities required to be presented on the balance sheet at fair value.

Table of Contents

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

Stock-Based Compensation

The Company accounts for its stock-based compensation in accordance with SFAS No. 123R, “Share-Based Payment, an Amendment of FASB Statement No. 123” (codified in FASB ASC Topics 718 and 505). The Company recognizes in the income statement the grant-date fair value of stock options and other equity-based compensation issued to employees and non-employees.

Foreign Currency Translation and Transactions

The accompanying consolidated financial statements are presented in USD. The Company’s functional currency is RMB, which is translated into USD for balance sheet accounts using the current exchange rates in effect as of the balance sheet date and for revenue and expense accounts using the average exchange rate during the fiscal year. The translation adjustments are recorded as a separate component of stockholders’ equity, captioned accumulated other comprehensive income (loss). Gains and losses resulting from transactions denominated in foreign currencies are included in other income (expense) in the consolidated statements of operations.

The RMB to USD exchange rates in effect as of September 30, 2011, and December 31, 2010, were USD\$1 = RMB6.3549 and USD\$1 = RMB6.6227, respectively. The weighted average RMB to USD exchange rates in effect for the nine months ended September 30, 2011 and 2010, were USD\$1 = RMB6.4975 and USD\$1 = RMB6.8068, respectively. The exchange rates used in translation from RMB to USD were published by the People’s Bank of the People’s Republic of China.

Comprehensive Income (Loss)

The Company uses SFAS No. 130 “Reporting Comprehensive Income” (codified in FASB ASC Topic 220). Comprehensive income is comprised of net income and all changes to the statements of stockholders’ equity, except those due to investments by stockholders, changes in paid-in capital and distributions to stockholders. Comprehensive income for the nine and three months ended September 30, 2011 and 2010, included net income and foreign currency translation adjustments.

Segment Reporting

SFAS No. 131, “Disclosures about Segments of an Enterprise and Related Information” (codified in FASB ASC Topic 280), requires use of the “management approach” model for segment reporting. The management approach model is based on the way a company’s management organizes segments within the company for making operating decisions and assessing performance. Reportable segments are based on products and services, geography, legal structure, management structure or any other manner in which management disaggregates a company.

Management determined that the Company’s product lines – wind towers, bellows expansion joints and pressure vessels – constitute a single reportable segment under ASC 280. The Company operates exclusively in one business: the design and manufacture of highly engineered metal components for heavy industry. The manufacturing processes for each of the Company’s products, principally the rolling and welding of raw steel materials, make use of the same pool of production workers and engineering talent for design, fabrication, assembly and testing. The Company’s products are characterized and marketed by their ability to withstand temperature, pressure, structural load and other environmental factors. The Company’s products are used by major electrical utilities and large-scale industrial companies in China

specializing in heavy industry, and the Company's sales force sells its products directly to these companies, which utilize the Company's components in their finished products. All of the Company's long-lived assets for production are located in its facilities in Tieling, Liaoning Province, China, and operate within the same environmental, safety and quality regulations governing industrial component manufacturing companies. The Company established its subsidiary, Creative Wind Power, solely for the purpose of marketing and selling the Company's wind towers, which constitute the structural support cylinder for an industrial wind turbine installation. Management believes that the economic characteristics of the Company's product lines, specifically costs and gross margin, will be similar as production increases and labor continues to be shared across products.

As a result, management views the Company's business and operations for all product lines as a blended gross margin when determining future growth, return on investment and cash flows. Accordingly, management has concluded that the Company had one reportable segment under ASC 280 because: (i) all of the Company's products are created with similar production processes, in the same facilities, under the same regulatory environment and sold to similar customers using similar distribution systems; and (ii) gross margins of all product lines have been converging and should continue to converge.

Table of Contents

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

Following is a summary of sales by products for the nine months ended September 30, 2011 and 2010:

	2011	2010
Revenues from product lines		
Bellows expansion joints and related	\$ 958,810	\$ 1,099,643
Pressure vessels	1,940,707	44,293
Wind towers	11,225,290	13,595,766
Other - resale of raw materials	1,824,857	-
	\$ 15,949,664	\$ 14,739,702

Following is a summary of sales by products for the three months ended September 30, 2011 and 2010:

	2011	2010
Revenues from product lines		
Bellows expansion joints and related	\$ 328,860	\$ 446,989
Pressure vessels	320,524	-
Wind towers	5,127,821	12,609,476
Other – resale of raw materials	48,515	-
	\$ 5,825,720	\$ 13,056,465

New Accounting Pronouncement

In June 2011, FASB issued ASU 2011-05, Comprehensive Income (ASC Topic 220): Presentation of Comprehensive Income. Under the amendments in this update, an entity has the option to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income and a total amount for comprehensive income. In a single continuous statement, the entity is required to present the components of net income and total net income, the components of other comprehensive income and a total for other comprehensive income, along with the total of comprehensive income in that statement. In the two-statement approach, an entity is required to present components of net income and total net income in the statement of net income. The statement of other comprehensive income should immediately follow the statement of net income and include the components of other comprehensive income and a total for other comprehensive income, along with a total for comprehensive income. In addition, the entity is required to present on the face of the financial statements reclassification adjustments for items that are reclassified from other comprehensive income to net income in the statement(s) where the components of net income and the components of other comprehensive income are presented. The amendments in this update should be applied retrospectively and are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Company is currently assessing the effect that the adoption of this pronouncement will have on its financial statements.

Table of Contents

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

3. OTHER RECEIVABLES AND DEPOSITS

Other receivables and deposits consisted of the following at September 30, 2011 and December 31, 2010:

	2011	2010
Deposits for contract bidding	\$ 228,541	\$ 641,145
Advance to employees	104,615	98,725
Other	54,119	36,001
Total	\$ 387,275	\$ 775,871

4. ADVANCES TO SUPPLIERS

Advances to suppliers mainly consisted of prepayments to suppliers for raw material which mainly comprised of steel. At September 30, 2011, the Company's advance to supplier for the purchase of steel amounted to \$7 million.

5. INVENTORIES

Inventories consisted of the following at September 30, 2011 and December 31, 2010:

	2011	2010
Raw materials	\$ 2,482,161	\$ 1,852,451
Finished goods	2,207,154	165,023
Work in process	955,166	423,117
Total	\$ 5,644,481	\$ 2,440,591

6. NOTES RECEIVABLE – BANK ACCEPTANCES

The Company sold goods to its customers and received commercial notes (bank acceptances) from them in lieu of payment for accounts receivable. The Company discounted these notes with a bank or endorsed notes to vendors for payment of its obligations or to get cash from third parties. Most of the commercial notes have a maturity of less than six months. These notes receivable are with recourse and the Company is contingently liable to make the payment to the endorsee in case of a default. As of September 30, 2011, the Company had RMB 10 million (\$1.6 million) notes receivable which were endorsed to third parties but had not yet matured or been cashed.

7. LONG-TERM INVESTMENT

On June 10, 2009, Creative Bellows entered into an investment with a credit union and purchased 600,000 credit union shares for \$94,415 (RMB 600,000). As a result of this investment, Creative Bellows became a 0.57% shareholder in the credit union. The Company accounted for this investment using the cost method. There was no significant impairment of this investment at September 30, 2011 and December 31, 2010.

Table of Contents

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

8. PREPAYMENTS

Current portion of the prepayments included prepaid legal services.

Noncurrent portion of the prepayments mainly represented a prepaid land occupancy fee paid to the inhabitants of the land on which the Company plans to construct a manufacturing plant. Currently, the Company amortizes prepaid rental over a period of 50 years according to the terms of the lease agreement.

9. CONSTRUCTION IN PROGRESS

At September 30, 2011, the Company had construction in progress of \$516,223 to rebuild and improve the workshop ground and road. Total construction cost of the project approximately \$1.59 million and the Company needs to pay \$0.47 million after prepayment of \$0.6 million to complete the construction as of September 30, 2011. The whole project is expected to be completed in August of 2012.

10. PROPERTY AND EQUIPMENT, NET

Property and equipment consisted of the following at September 30, 2011, and December 31, 2010:

	2011	2010
Buildings	\$ 8,351,122	\$ 7,874,278
Equipment and machinery	3,168,041	2,925,164
Vehicle	51,456	53,906
Office equipment	88,815	49,598
Total	11,659,434	10,902,946
Accumulated depreciation	(589,683)	(181,002)
Net value	\$ 11,069,751	\$ 10,721,944

Depreciation for the nine months ended September 30, 2011 and 2010, was \$392,251 and \$94,667, respectively. Depreciation for the three months ended September 30, 2011 and 2010, was \$136,174 and \$46,756, respectively.

11. INTANGIBLE ASSETS

Intangible assets consisted of land use right and patents. All land in the PRC is government-owned and cannot be sold to any individual or company. However, the government grants the user a "land use right" to use the land. The Company has the right to use the land for 50 years and amortizes the right on a straight-line basis over 50 years.

The Company was granted an exclusive license to use a production method patent until December 31, 2016, for lead-free soft solder with mischmetal from the Shenyang Industry University. The Company paid a one-time use of technology fee of RMB 100,000 (\$15,200).

Table of Contents

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

Intangible assets as of September 30, 2011 and December 31, 2010, were as follows:

	2011	2010
Land use right	\$ 3,975,715	\$ 3,814,950
Patents	15,736	15,100
Total	3,991,451	3,830,050
Accumulated amortization	(253,237)	(184,428)
Net	\$ 3,738,214	\$ 3,645,622

Amortization of intangible assets for the nine months ended September 30, 2011 and 2010, was \$59,698 and \$55,677, respectively. Amortization of intangible assets for the three months ended September 30, 2011 and 2010, was \$20,164 and \$18,659, respectively. At September 30, 2011, annual amortization for the next five years was expected to be as follows:

Year	Amount
2012	\$ 81,400
2013	81,400
2014	81,400
2015	81,400
2016	81,400
Thereafter	3,331,214
Total	\$ 3,738,214

As at September 30, 2011, the Company is in the process of acquiring a land use right in the Liaoning Province Tieling Economic and Technological Development Zone for which a land use right deposit of \$0.4 million was made to Tieling Yinzhou Industrial Park Management Committee and Tieling Economic Development Zone Non-Tax Revenue Bureau.

12. OTHER PAYABLES AND ACCRUED EXPENSES

Accrued expenses at September 30, 2011 and December 31, 2010, were as follows:

	2011	2010
Payroll-related	\$ 118,487	\$ 107,817
Warranty	10,999	10,555
Other	790	-
Interest payable	41,096	-
Advance from third party	-	347,290
Total	\$ 171,372	\$ 465,662

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

13. ADVANCE FROM CUSTOMERS

The Company records payments received from customers in advance of their future orders to advance account. These orders normally are delivered within a reasonable period of time based upon contract terms with the customers.

14. SHORT-TERM LOANS

On May 24, 2010, the Company borrowed \$387,997 with interest of 5.346% from a bank. The maturity date was November 24, 2010. The loan was collateralized by raw material inventory and the personal guarantee of the Company's Chief Executive Officer together with a third party's guarantee. As of November 23, 2010, the loan was repaid, and on November 24, 2010, the Company borrowed \$362,390 from the same bank with interest of 5.610%. The maturity date of the new loan was May 24, 2011. The loan was collateralized by raw material inventory. On December 23, 2010, the Company repaid \$120,797 to the bank. On January 26, 2011, the remaining balance of the loan was repaid by the Company.

On September 13, 2010, the Company borrowed \$1,809,627, \$944,153 and \$1,022,833 from three different credit unions. Each loan bore interest of 7.2% and each was set to mature on September 12, 2011. The Company extended the maturity date of the loans through an agreement with the credit unions. Pursuant to this agreement, the Company is required to pay approximately \$314,717 by October of 2011, with the remaining balance to be paid by June 2012. The credit unions will charge an extra 3.6% interest on the remaining principal amount of the loans for the overdue period. These loans were collateralized by one of the Company's buildings and its land use right.

On December 13, 2010, the Company entered into a loan with a lender for \$10 million. The loan bore interest of 10% payable in advance at the beginning of each quarter with a maturity of March 1, 2012. As of September 30, 2011, the Company had interest payable of \$41,096. The prepayment of quarterly interest, due on September 13, 2011, was not required to be made on the date it became due pursuant to a verbal agreement between the Company and the lender. At September 30, 2011, the Company had short-term loans outstanding of \$13,776,613.

15. TAXES PAYABLE

Taxes payable consisted of the following at September 30, 2011, and December 31, 2010:

	2011	2010
Value-added tax	\$ 145,677	\$ 494,715
Income tax	146,814	414,211
Other	17,990	12,841
Total	\$ 310,481	\$ 921,767

16. ADVANCES FROM SHAREHOLDER

On December 3, 2010, the Company's Chief Executive Officer borrowed \$558,101, including principal and interest, from a bank to purchase equipment on the Company's behalf and with the Company's guarantee, which she in turn loaned back to the Company on the same terms. The loan bore interest of 7.28% with a maturity date of December 3, 2012. As of September 30, 2011 and December 31, 2010 advance from shareholder were as follows:

Edgar Filing: CleanTech Innovations, Inc. - Form 10-Q/A

	2011	2010
Total long-term loan	\$ 347,311	\$ 558,101
Less: Current	299,280	302,305
Noncurrent	\$ 48,031	\$ 255,796

 SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

17. LONG-TERM PAYABLE

On September 21, 2009, the Company entered into a construction contract with a local authority, the Administration Committee for Liaoning Special Vehicle Production Base (“LSVPB”), to build a plant for the Company. LSVPB was responsible for the construction of the main body of the plant and the Company was responsible for the construction of certain infrastructure for the plant, including plumbing, heating and electrical systems. The plant is 9,074 square meters with construction costs of RMB 1,350 (\$212) per square meter.

LSVPB was responsible for hiring a qualified construction team according to the Company’s approved design and the Company needed to approve any material changes to the design during construction. LSVPB was also responsible for site survey, quality supervision and completion of inspection, as well as the transfer of all construction completion records to the Company. Upon completion of the Company’s ownership registration, the Company was required to pledge the plant as collateral for payment by the Company to LSVPB of \$1,927,630 (RMB 12,249,900). The pledge will terminate upon payment in full by the Company.

The Company is to pay LSVPB for the cost of the project in five equal annual installments in October of each year beginning in October 2010. The Company is not required to pay interest and ownership of the plant will transfer to the Company upon payment in full. The default penalty is 0.5% of the amount outstanding, compounded daily, in the event of a default. LSVPB has the right to foreclose on the plant if payments are in arrears for more than two years, in which case all prior payments made by the Company will be treated as liquidated damages by LSVPB. As of September 30, 2011, the Company has not made the first payment to LSVPB as verbally consented to by LSVPB and estimated to repay from October of 2012.

The Company recorded the cost of construction at the present value of the five annual payments by imputing interest of 9% from when the Company started using the plant. Amortization of the cost commenced on the date of occupation and use. The Company started using the plant on August 30, 2010. The certificate of the property ownership was received in the third quarter of 2011.

At September 30, 2011, the long-term payable consisted of the following:

Long-term payable	\$ 1,927,631
Less: unamortized interest	(229,602)
Net	1,698,029
Current portion	385,526
Noncurrent portion	\$ 1,312,503

Maturities as of September 30, 2011, for the next five years are as follows:

Year	Amount
2012	\$ 449,033
2013	273,116
2014	297,697
2015	324,490
2016	353,694

Total	\$ 1,698,029
-------	--------------

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

18. MAJOR CUSTOMERS AND VENDORS

Four customers accounted for 77% of sales for the nine months ended September 30, 2011, and each customer accounted for 24%, 22%, 21% and 11% of total sales, respectively. Two customers accounted for 88% of sales for the three months ended September 30, 2011, and each customer accounted for 60%, 28% of total sales, respectively. At September 30, 2011, total receivables from these customers was \$856,040.

Four customers accounted for 85% of sales for the nine months ended September 30, 2010, and each one customer accounted for 24%, 22%, 21% and 18%, respectively. The same four customers accounted for 96% of sales for the three months ended September 30, 2010, and each customer accounted for 27%, 25%, 24% and 20%, respectively. At September 30, 2010, total receivables from these customers was \$11,342,353.

Two vendors accounted for 12% and 31% of purchases for the nine months ended September 30, 2011, respectively. For the three months ended September 30, 2011, two vendors accounted for 12% and 47% of the purchases, respectively. At September 30, 2011, there was \$1,926,631 payable to these vendors.

Two vendors accounted for 56% of purchases for the nine months ended September 30, 2010, and each vendor accounted for 33% and 23% of purchases, respectively. For the three months ended September 30, 2010, three vendors accounted for 67% of purchases, each vendor accounted for 43%, 14% and 10%, respectively. At September 30, 2010, the total payables to these vendors was \$2,191,434.

19. INCOME TAX

The Company is subject to income taxes by entity on income arising in or derived from the tax jurisdiction in which each entity is domiciled.

CleanTech, the U.S. parent company, was incorporated in the U.S. and has net operating losses (NOL) for income tax purposes. CleanTech has NOL of \$1,634,000 as of September 30, 2011, which may be available to reduce future years' taxable income as NOL can be carried forward up to 20 years from the year the loss is incurred. Management believes the realization of benefits from these losses remains uncertain due to CleanTech's, the U.S. parent company, limited operating history and continuing losses. Accordingly, a 100% deferred tax asset valuation allowance was provided.

Creative Bellows and Creative Wind Power generated substantially all of their net income from their PRC operations and are governed by the Income Tax Law of the PRC for privately-run enterprises. According to this law, privately-run enterprises are generally subject to a tax rate of 25% on income reported in the privately-run enterprises' financial statements, after appropriate tax adjustments.

According to the new income tax law that became effective January 1, 2008, new high-tech enterprises given special support by the PRC government are subject to an income tax rate of 15%. Creative Bellows was recognized as a new high-tech enterprise and registered its status with the tax bureau, providing it with an income tax rate of 15% from 2010 through 2012.

The following table reconciles the U.S. statutory rates to the Company's consolidated effective tax rate for the nine months ended September 30, 2011 and 2010:

Edgar Filing: CleanTech Innovations, Inc. - Form 10-Q/A

	2011	2010
U.S. statutory rates	34%	34.0%
Tax rate difference	(19)%	(9)%
Other	4%	1%
Effective tax holiday	(20)%	-
Valuation allowance	37%	-
Effective income tax rate	36%	26%

Table of Contents

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

The following table reconciles the U.S. statutory rates to the Company's consolidated effective tax rate for the three months ended September 30, 2011 and 2010:

	2011	2010
U.S. statutory rates	34%	34.0%
Tax rate difference	(30)%	(9)%
Other	22%	1%
Effective tax holiday	(30)%	-
Valuation allowance	78%	-
Effective income tax rate	74%	256%

There were no material temporary differences that resulted in deferred taxes as of September 30, 2011 and 2010.

If Creative Bellows had not been granted high-tech enterprise status, income tax expense for the nine months ended September 30, 2011 would have been increased by \$233,275 and earnings per share would have been reduced by \$0.01. Income tax expense for the three months ended September 30, 2011 would have been increased by \$63,802 and earnings per share would have been reduced by \$0.003.

20. STOCKHOLDERS' EQUITY

Contribution by Shareholders

On January 29, 2010, three shareholders contributed \$922,900 to the Company. On March 2, 2010, a third party contributed equipment with a fair value of \$820,300 to the Company and became a shareholder; simultaneously, the three shareholders bought this third party's ownership interest and became 100% owners of the Company. On April 15, 2010, one shareholder injected \$1,025,654 in cash to the Company. On July 5, 2010, a third party injected \$167,702 to the Company as a cash contribution and became a shareholder.

Common Stock with Warrants Issued for Cash

On July 12, 2010, the Company completed a private placement in which it sold 3,333,322 units, consisting of one share of its common stock and a warrant to purchase 15% of one share of its common stock, at \$3.00 per unit for a total of \$10,000,000. The warrants are immediately exercisable, expire on the third anniversary of their issuance and entitle the holders to purchase up to 499,978 shares of the Company's common stock at \$3.00 per share. The Company may call the warrants at any time after (i) the registration statement registering the common stock underlying the warrants becomes effective, (ii) the common stock is listed on a national securities exchange and (iii) the trading price of the common stock exceeds \$4.00. The Company also issued warrants, having the same terms and conditions as the warrants issued in the private placement, to purchase 333,332 shares of its common stock to the placement agents in the private placement. The warrants issued in this private placement are exercisable for a fixed number of shares, solely redeemable by the Company and not redeemable by the warrant holders. Accordingly, such warrants are classified as equity instruments. The Company accounted for the warrants issued to the investors and placement agents based on the fair value method under ASC Topic 505. The fair value of the warrants was calculated using the Black-Scholes model and the following assumptions: estimated life of 3 years, volatility of 147%, risk-free interest rate of 1.89% and dividend yield of 0%. No estimate of forfeitures was made as the Company has a short history of granting options and warrants. The fair value of the warrants at grant date was \$5,903,228. The Company received net

proceeds of \$8.4 million from this private placement. The commission and legal cost associated with this offering was \$1.6 million. During the nine and three months ended September 30, 2011, there were 19,500 and 0 warrants exercised into common stock for \$58,500 and \$0, respectively.

Table of Contents

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

On December 13, 2010, the Company completed a closing of \$20,000,000 in a combination of debt and equity offerings through accredited institutional investors. In a private placement of equity, the Company sold 2,500,000 units, consisting of one share of its common stock and a warrant to purchase 67.5% of one share of its common stock, at \$4.00 per unit for \$10,000,000. The warrants are immediately exercisable, expire on the fifth anniversary of their issuance and entitle the holders to purchase up to 1,687,500 shares of the Company's common stock at \$4.00 per share. For its assistance in the private placement of equity, the Company paid a placement agent \$1,000,000 and issued it warrants to purchase 300,000 shares of the Company's common stock under the same terms as the warrants issued in the private placement. The Company also paid the placement agent \$100,000 for its assistance in arranging the loan. The fair value of the warrants was calculated using the Black-Scholes model and the following assumptions: estimated life of 5 years, volatility of 102%, risk-free interest rate of 1.89% and dividend yield of 0%. No estimate of forfeitures was made as the Company has a short history of granting options and warrants. The fair value of the warrants at grant date was \$10,957,039.

Concurrently with the closing of the private placement on December 13, 2010, the Company entered into a long-term loan agreement with a lender for \$10 million. The loan bore interest of 10% payable in advance at the beginning of each quarter with a maturity of March 1, 2012 (See Note 14).

Following is a summary of the warrant activity:

	Number of Shares	Weighted Average Exercise Price per Share	Weighted Average Remaining Contractual Term in Years
Outstanding at December 31, 2010	2,820,810	\$ 3.70	4.23
Exercisable at December 31, 2010	2,820,810	\$ 3.70	4.23
Granted	-		
Exercised	19,500	\$ 3.00	
Forfeited	-		
Outstanding at September 30, 2011	2,801,310	\$ 3.71	3.49
Exercisable at September 30, 2011	2,801,310	\$ 3.71	3.49

21. STOCK-BASED COMPENSATION PLAN

On July 13, 2010, the Company granted non-statutory stock options to its one independent U.S. director. The terms of the options are: 30,000 shares at an exercise price per share of \$8.44, with a life of 3 years and vesting over 2 years with 10,000 shares vested on the grant date and the remainder to vest in increments of 10,000 shares on each subsequent anniversary of the grant date, subject in each case to the director continuing to be associated with the Company as a director. The options were valued using a volatility of 147%, risk-free interest rate of 1.89% and dividend yield of 0%. No estimate of forfeitures was made as the Company has a short history of granting options. The grant date fair value of the options was \$203,235.

On December 16, 2010, the Company granted non-statutory stock options to its other independent U.S. director. The terms of the options are: 30,000 shares at an exercise price per share of \$8.40, with a life of 3 years and vesting over 2 years with 10,000 shares vested on the grant date and the remainder to vest in increments of 10,000 shares on each subsequent anniversary of the grant date, subject in each case to the director continuing to be associated with the Company as a director. The options were valued using a volatility of 102%, risk-free interest rate of 1.89% and dividend yield of 0%. No estimate of forfeitures was made as the Company has a short history of granting options. The grant date fair value of the options was \$149,847. On February 21, 2011, the director resigned from his position with the Company. Accordingly, the unvested 20,000 shares were forfeited. Pursuant to the option agreement, the 10,000 options vested to this independent director expired unexercised as of May 22, 2011.

Table of Contents

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

Based on the fair value method under SFAS No. 123 (Revised) "Share Based Payment" ("SFAS 123(R)") (codified in FASB ASC Financial Instruments, Topic 718), the fair value of each stock option granted is estimated on the date of the grant using the Black-Scholes option pricing model. The Black-Scholes option pricing model has assumptions for risk-free interest rates, dividends, stock volatility and expected life of an option grant. The risk-free interest rate is based upon market yields for U.S. Treasury debt securities at a maturity near the term remaining on the option. Dividend rates are based on the Company's dividend history. The stock volatility factor is based on the historical volatility of the Company's stock price. The expected life of an option grant is based on management's estimate. The fair value of each option grant to independent directors is calculated by the Black-Scholes method and is recognized as compensation expense over the vesting period of each stock option award.

Following is a summary of the option activity:

	Number of Shares	Weighted Average Exercise Price per Share	Weighted Average Remaining Contractual Term in Years
Outstanding at December 31, 2010	60,000	\$ 8.42	2.74
Exercisable at December 31, 2010	20,000	\$ 8.42	2.74
Granted	-		
Exercised	-		
Forfeited	30,000	\$ 8.40	
Outstanding at September 30, 2011	30,000	\$ 8.44	1.78
Exercisable at September 30, 2011	20,000	\$ 8.44	1.78

There were no options exercised during the nine and three months ended September 30, 2011. The Company recorded \$71,795 and \$10,753 as compensation expense for stock options for the nine and three months ended September 30, 2011, and \$90,007 as compensation expense for stock options during the nine and three months ended September 30, 2010. Options expected to vest at September 30, 2011, were 10,000 shares, weighted average exercise price of \$8.44 and weighted-average remaining contractual term of 1.78 years.

22. STATUTORY RESERVES

Pursuant to the corporate law of the PRC effective January 1, 2006, PRC subsidiaries of the Company's operating subsidiaries in China are required to maintain one statutory reserve by appropriating from its after-tax profit before declaration or payment of dividends. The statutory reserve represents restricted retained earnings.

Surplus reserve fund

The Company's Chinese subsidiaries are now required to transfer 10% of their net income, as determined under PRC accounting rules and regulations, to a statutory surplus reserve fund until such reserve balance reaches 50% of the

Company's registered capital. The Company's Chinese subsidiaries are not required to make appropriation to other reserve funds and do not have any intentions to make appropriations to any other reserve funds. There are no legal requirements in the PRC to fund these reserves by transfer of cash to restricted accounts, and the Company's Chinese subsidiaries do not do so.

Table of Contents

CLEANTECH INNOVATIONS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2011 (UNAUDITED) AND DECEMBER 31, 2010

The surplus reserve fund is non-distributable other than during liquidation and can be used to fund previous years' losses, if any, and may be utilized for business expansion or converted into share capital by issuing new shares to existing shareholders in proportion to their shareholding or by increasing the par value of the shares currently held by them, provided that the remaining reserve balance after such issue is not less than 25% of the registered capital.

Common welfare fund

Common welfare fund is a voluntary fund into which the Company can elect to transfer 5% to 10% of its net income. The Company did not make any contribution to this fund in the nine and three months ended September 30, 2011 and 2010.

This fund can only be utilized on capital items for the collective benefit of the Company's employees, such as construction of dormitories, cafeteria facilities and other staff welfare facilities. This fund is non-distributable other than upon liquidation.

23. OPERATING RISKS

The Company's operations in the PRC are subject to specific considerations and significant risks not typically associated with companies in North America and Western Europe. These include risks associated with, among others, the political, economic and legal environments and foreign currency exchange. The Company's results may be adversely affected by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion and remittance abroad, and rates and methods of taxation, among other things.

The Company's sales, purchases and expenses transactions are denominated in RMB and all of the Company's assets and liabilities are also denominated in RMB. The RMB is not freely convertible into foreign currencies under current PRC law. In China, foreign exchange transactions are required by law to be transacted only by authorized financial institutions. Remittances in currencies other than RMB may require certain supporting documentation in order to affect the remittance.

24. CONTINGENCY AND COMMITMENTS

The Company is required to contribute \$14.2 million as additional capital to Creative Bellows by July 2012. If the Company is unable to make the required capital contribution to registered capital the Company may be subject to a negotiated penalty related to the unsatisfied portion of registered capital. If the Company chooses to pay the penalty, the Company can request that its registered capital be reduced to the amount already paid or to another amount that can be completed within a set period of time. The Company may also apply for a grace period, whereby the Company would receive up to an additional 9 months to make the payment, or may apply to reduce its registered capital prior to the payment becoming due.

Table of Contents

Critical Accounting Policies

While our significant accounting policies are more fully described in Note 2 to our consolidated financial statements, we believe the following accounting policies are the most critical to aid you in fully understanding and evaluating this management discussion and analysis.

Basis of Presentation

Our financial statements are prepared in accordance with generally accepted accounting principles in the United States, or U.S. GAAP.

Principles of Consolidation

The consolidated financial statements include the accounts of CleanTech, Creative Bellows and Creative Wind Power. All intercompany transactions and account balances are eliminated in consolidation.

Use of Estimates

In preparing financial statements in conformity with U.S. GAAP, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the dates of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Significant estimates, required by management, include the recoverability of long-lived assets and the valuation of inventories. Actual results could differ from those estimates.

Accounts Receivable and Retentions Receivable

We maintain reserves for potential credit losses on accounts receivable. Management reviews the composition of accounts receivable and analyzes historical bad debts, customer concentrations, customer creditworthiness, current economic trends and changes in customer payment patterns to evaluate the adequacy of these reserves. Past due receivables are determined based on contractual payment terms specified in the contract. We do not anticipate any significant credit risk because the majority of our customers are large, well-capitalized state-owned and publicly traded utility and industrial companies with stable operations.

The retention is 10% of the sales price with a term of 1-2 years, but no later than the termination of the warranty period.

Revenue Recognition

Our revenue recognition policies are in compliance with Securities Exchange Commission (“SEC”) Staff Accounting Bulletin (“SAB”) 104 (codified in Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 605). Sales revenue, including the final 10% of the purchase price, is recognized after delivery is complete, customer acceptance of the product occurs and collectability is reasonably assured. Customer acceptance occurs after the customer puts the product through a quality inspection, which normally is completed within one to two weeks from customer receipt of the product. The customer is responsible for installation and integration of our products into its end products. Payments received before satisfaction of all relevant criteria for revenue recognition are recorded as unearned revenue. Unearned revenue consists of payments received from customers prior to customer acceptance of our products.

Sales revenue represents the invoiced value of goods, net of value-added tax, or VAT. Our products sold and services provided in China are subject to VAT of 17% of gross sales price. This VAT may be offset by VAT paid by us on raw materials and other materials included in the cost of producing the finished product. We recorded VAT payable and VAT receivable net of payments in the financial statements. The VAT tax return is filed offsetting the payables against the receivables.

Table of Contents

Segment Reporting

SFAS No. 131, “Disclosures about Segments of an Enterprise and Related Information” (codified in FASB ASC Topic 280), requires use of the “management approach” model for segment reporting. The management approach model is based on the way a company’s management organizes segments within a company for making operating decisions and assessing performance. Reportable segments are based on products and services, geography, legal structure, management structure or any other manner in which management disaggregates a company.

Management determined that our product lines – wind towers, bellows expansion joints and pressure vessels – constitute a single reportable segment under ASC 280. We operate exclusively in one business: the design and manufacture of highly engineered metal components for heavy industry. The manufacturing processes for each of our products, principally rolling and welding of raw steel materials, make use of the same production workers and engineering talent for design, fabrication, assembly and testing. Our products are characterized and marketed by their ability to withstand temperature, pressure, structural load and other environmental factors. Our products are used by major electrical utilities and large-scale industrial companies in China specializing in heavy industry, and our sales force sells our products directly to these companies, which utilize our components in their finished products. All of our long-lived assets for production are located in our facilities in Tieling, Liaoning Province, China, and operate within the same environmental, safety and quality regulations governing industrial component manufacturing companies. We established our subsidiary, Creative Wind Power, solely to market and sell our wind towers, which constitute the structural support cylinder for industrial wind turbines. Management believes the economic characteristics of our product lines, specifically costs and gross margin, will be similar as production increases and labor continues to be shared across products.

We initiated sales of our wind towers in the second quarter of 2010 and expect the majority of our sales going forward will be of our wind towers, which have a comparatively lower margin than our bellows expansion joints and pressure vessels because of higher raw material costs. Gross margins for our bellows expansion joints and pressure vessels have decreased since 2010 as we have broadened these product lines to include more components with lower margins and increased sales volume. Higher raw material costs in 2011 decreased our gross margins on all products, but as our overall mix of products and product gross margins continues to broaden and sales volume increases, we expect the gross margins of our product lines to converge and stabilize toward a blended gross margin of approximately 27% to 30%. As a result, management views our business and operations for all product lines as a blended gross margin when determining future growth, return on investment and cash flows. Accordingly, management has concluded that we have one reportable segment under ASC 280 because: (i) all of our products are created with similar production processes, in the same facilities, under the same regulatory environment and sold to similar customers using similar distribution systems; and (ii) gross margins of all product lines have been converging and should continue to converge.

RESULTS OF OPERATIONS

Nine Months Ended September 30, 2011, compared to the Nine Months Ended September 30, 2010

The following table presents the consolidated results of operations for the nine months ended September 30, 2011 and 2010.

	2011		2010	
	\$	% of Sales	\$	% of Sales
Net sales	15,949,664	100%	14,739,702	100%
Cost of goods sold	11,979,772	75%	10,519,685	71%

Edgar Filing: CleanTech Innovations, Inc. - Form 10-Q/A

Gross profit	3,969,892	25%	4,220,017	29%
Operating expenses	2,770,927	17%	1,012,202	7%
Income from operations	1,198,965	8%	3,207,815	22 %
Total non-operating income	(22,829)	-%	691,956	5%
Income before income tax	1,176,136	7%	3,899,771	27%
Income tax expense	(418,530)	(2)%	(996,785)	(7)%
Net income	757,606	5%	2,902,986	20%

Table of Contents

NET SALES

Net sales for the nine months ended September 30, 2011, increased to \$15.95 million from \$14.74 million for the nine months ended September 30, 2010, an increase of \$1.21 million or 8%. Net sales for the nine months ended September 30, 2011, consisted of \$11.23 million in sales of wind towers, \$0.96 million in sales of bellows expansion joints, \$1.94 million in sales of pressure vessels and \$1.82 million in other sales. Net sales for the nine months ended September 30, 2010, consisted of \$13.60 million in sales of wind towers, \$1.10 million in sales of bellows expansion joints and \$0.04 million in sales of pressure vessels. The increase in total net sales was attributable to our continued increase in sales of high grade pressure vessels, which have experienced increased demand in the China market in 2011, and the resale of certain raw materials. We believe the decrease in wind towers sales is a temporary condition while we seek additional capital to finance completion of wind tower contracts which had been scheduled for completion in 2011. Our ability to raise capital from the capital markets to finance our already signed wind tower supply contracts has proven impossible since a decision by the NASDAQ Listing Qualifications Department in January 2011 to delist our common stock. This decision is currently before the Board of Directors of the NASDAQ Stock Market LLC. Should the unfavorable decision be made final by the Board, we are prepared to immediately file an appeal to the SEC as we believe the NASDAQ delisting decision was unwarranted, improper and excessive. We plan, if necessary, to file an appeal with the U.S. Court of Appeals and continue our efforts until we have exhausted all legal remedies available to us and our shareholders. We strongly believe the delisting decision constituted: (i) an abuse of NASDAQ's discretionary authority, (ii) disregard of attorney client privilege, (iii) breach of NASDAQ's listing rules as approved by the SEC, and (iv) material procedural unfairness as NASDAQ's staff subjectively determined the economic fairness of the terms of an institutional financing transaction entered into during turbulent market times, which terms we believe were more favorable than similar transactions entered into at the same time, and which we fully disclosed in our current reports and registration statements filed with the SEC. NASDAQ's delisting decision caused irreparable harm to our operations, our reputation and our shareholders. It has also severely negatively impacted our ability to execute on already announced and signed contracts and as a result, we had no choice but to transfer fulfillment of certain contracts to third parties and lose such related revenues.

COST OF GOODS SOLD

Cost of goods sold for the nine months ended September 30, 2011, increased to \$11.98 million from \$10.52 million for the nine months ended September 30, 2010. Cost of goods sold includes material costs, primarily steel, and labor and related overhead costs. The increased cost of goods sold is due to primarily to our increased production and sales of pressure vessels. We also faced increased raw material costs with respect to the production of all of our products due to overall inflation being experienced in China. Cost of goods sold as a percentage of net sales for the nine months ended September 30, 2011, was 75% compared to 71% for the 2010 period. Cost of goods sold as a percentage of sales increased as our overall sales volume increased and we faced higher raw material costs.

GROSS PROFIT

Gross profit for the nine months ended September 30, 2011, decreased to \$3.97 million from \$4.22 million for the nine months ended September 30, 2010. Profit margin decreased to 25% for the nine months ended September 30, 2011, from 29% for the same period in 2010, mainly due to the increased cost of goods sold as a percentage of sales as we faced increased costs of raw materials due to inflation in China.

For the nine months ended September 30, 2010, sales of wind towers and bellows expansion joints attributed 91% and 8% of total sales, respectively. Wind towers had a lower profit margin, approximately 28%, compared to our other products, but experienced high demand during this period. Bellows expansion joints had comparatively lower sales volume, but, because they are based on unique customer design requirements, had higher profit margins of approximately 42% for the nine months ended September 30, 2010. In the 2011 period, profit margins for our bellows

expansion joint and pressure vessel products decreased to 33%, and wind towers decreased to 25%, compared to the same period of 2010, as a result of increased raw material costs due to inflation in China. Management believes sales of bellows expansion joints and pressure vessels will continue to diversify the overall composition of our product sales.

OPERATING EXPENSES

Operating expenses for the nine months ended September 30, 2011, increased to \$2.77 million from \$1.01 million for the nine months ended September 30, 2010. Operating expenses consist of selling, general and administrative expenses. The increase in operating expenses resulted from the increased selling costs of our products as a result of our increased sales and increased cost of raw materials, which included sales commissions, travelling expenses of our sales persons and product shipping costs, and the general expansion of our business, including the expansion of our sales team, increased salary, employee welfare and depreciation expenses. Legal, audit and consulting expenses increased in 2011 as a result of our becoming a U.S. publicly listed company in July 2010. We incurred significant increases in legal expenses for the nine months ended September 30, 2011, due to our appealing of NASDAQ's determination in January 2011 to delist our common stock, which we strongly oppose on procedural grounds, law and fact. Should the unfavorable decision be made final by the Board of Directors of the NASDAQ Stock Market LLC, we are prepared to immediately file an appeal to the SEC. We plan, if necessary, to file an appeal with U.S. Court of Appeals and continue our efforts until we have exhausted all legal remedies available to us and our shareholders. As a result, we anticipate incurring additional extraordinary legal fees until this matter is ultimately resolved. Additionally, non-cash operating expenses included compensation of \$71,795 for stock options granted to our independent directors. Operating expenses as a percentage of net sales for the nine months ended September 30, 2011, were 17% compared to 7% for the 2010 period.

Table of Contents

TOTAL NON-OPERATING INCOME

Total non-operating income for the nine months ended September 30, 2011, was \$22,829 and consisted mainly of \$1,049,648 in subsidy income offset by \$991,165 in interest expense, compared to \$691,956 of non-operating income for the nine months ended September 30, 2010, and consisted mainly of \$1,009,940 in subsidy income offset by \$264,162 in interest expense.

Subsidy income included grants from Liaoning Province Finance Bureau to support our special technology development project, a Science and Technology Support Grant from the Administrative Committee of Liaoning Province Tieling Economic & Technological Development Zone to attract high-tech products businesses to such zone, and a grant from the local government in recognition of our becoming a U.S. listed company. Subsidy income is subject to PRC statutory income tax.

NET INCOME

Net income for the nine months ended September 30, 2011, decreased to \$757,606 from \$2,902,986 for the nine months ended September 30, 2010. Net income as a percentage of net sales for the nine months ended September 30, 2011, was 5% compared to 20% for the 2010 period. The decrease in net income was attributable to increased operating expenses and cost of goods sold despite the increased sales of our products. Also, our non-operating income decreased due to increased interest expense from a long-term loan bearing annual interest at 10%. In addition, our consolidated tax rate rose to 36% for the nine months ended September 30, 2011, compared to 26% for the 2010 period, partly due to an increase in the valuation allowance of CleanTech Innovation's Inc., our U.S. parent company, and partly due to minor increases in 2010 taxes paid by our Creative Bellows subsidiary in 2011.

Three Months Ended September 30, 2011, compared to the Three Months Ended September 30, 2010

The following table presents the consolidated results of operations for the three months ended September 30, 2011 and 2010.

	2011		2010	
	\$	% of Sales	\$	% of Sales
Net sales	5,825,720	100%	13,056,465	100%
Cost of goods sold	4,211,809	72%	9,324,522	71%
Gross profit	1,613,911	28%	3,731,943	29%
Operating expenses	1,043,706	18%	540,374	4%
Income from operations	570,205	10%	3,191,569	24 %
Total non-operating income (expenses)	(355,892)	(6)%	(61,641)	-%
Income before income tax	214,313	4%	3,129,928	24%
Income tax expense	(159,640)	(3)%	(808,059)	(6)%
Net income	54,673	1%	2,321,869	18%

NET SALES

Net sales for the three months ended September 30, 2011, decreased to \$5.83 million from \$13.06 million for the three months ended September 30, 2010, a decrease of \$7.23 million or 55%. Net sales for the three months ended September 30, 2011, consisted of \$5.13 million in sales of wind towers, \$0.33 million in sales of bellows expansion joints, \$0.32 million in sales of pressure vessels and \$0.05 million in other sales. Net sales for the three months ended September 30, 2010, consisted of \$12.61 million in sales of wind towers and \$0.45 million in sales of bellows expansion joints. We believe the decrease in wind towers sales is a temporary condition while we seek additional capital to finance completion of wind tower contracts which had been scheduled for completion in 2011. Our ability to raise capital from the capital markets to finance our already signed wind tower supply contracts has proven impossible since a decision by the NASDAQ Listing Qualifications Department in January 2011 to delist our common stock. This decision is currently before the Board of Directors of the NASDAQ Stock Market LLC. Should the unfavorable decision be made final by the Board, we are prepared to immediately file an appeal to the SEC as we believe the NASDAQ delisting decision was unwarranted, improper and excessive. We plan, if necessary, to file an appeal with the U.S. Court of Appeals and continue our efforts until we have exhausted all legal remedies available to us and our shareholders. We strongly believe the delisting decision constituted: (i) an abuse of NASDAQ's discretionary authority, (ii) disregard of attorney client privilege, (iii) breach of NASDAQ's listing rules as approved by the SEC, and (iv) material procedural unfairness as NASDAQ's staff subjectively determined the economic fairness of the terms of an institutional financing transaction entered into during turbulent market times, which terms we believe were more favorable than similar transactions entered into at the same time, and which we fully disclosed in our current reports and registration statements filed with the SEC. NASDAQ's delisting decision caused irreparable harm to our operations, our reputation and our shareholders. It has also severely negatively impacted our ability to execute on already announced and signed contracts and as a result, we had no choice but to transfer fulfillment of certain contracts to third parties and lose such related revenues.

Table of Contents

COST OF GOODS SOLD

Cost of goods sold for the three months ended September 30, 2011, decreased to \$4.21 million from \$9.32 million for the three months ended September 30, 2010. Cost of goods sold includes material costs, primarily steel, and labor costs and related overhead. The decrease in cost of goods sold is due to the decreased sales volume of our wind towers during the three months ended September 30, 2011, which carry high raw material costs. Cost of goods sold as a percentage of net sales for the three months ended September 30, 2011, was 72% compared to 71% for the 2010 period.

GROSS PROFIT

Gross profit for the three months ended September 30, 2011, decreased to \$1.61 million from \$3.73 million for the three months ended September 30, 2010, on overall decreased sales. Profit margin remained relatively stable and was 28% and 29% for the three months ended September 30, 2011, and September 30, 2010, respectively.

For the three months ended September 30, 2010, sales of wind towers and bellows expansion joints attributed 97% and 3% of total sales, respectively. Wind towers had a lower profit margin, approximately 28%, compared to our other products, but experienced high demand during this period. Bellows expansion joints had comparatively lower sales volume, but, because they are based on customer design requirements, had higher profit margins of approximately 42% for the three months ended September 30, 2010. In the 2011 period, gross profit margins for our bellows expansion joint and pressure vessel products decreased to 33%, and the profit margin of wind tower decreased to 26%, as expected by management, as we experienced increased costs of raw materials due to inflation in China. Management believes sales of bellows expansion joints and pressure vessels will continue to diversify the overall composition of our product sales.

OPERATING EXPENSES

Operating expenses for the three months ended September 30, 2011, increased to \$1.04 million from \$0.54 million for the three months ended September 30, 2010. Operating expenses consist of selling, general and administrative expenses. The increase in operating expenses resulted from the increased selling costs of our products as a result of increased costs of raw materials, travel expenses of our sales persons and product shipping costs, and the general expansion of our business, including the expansion of our sales team, increased salary, employee welfare and depreciation expenses. Legal, audit and consulting expenses increased in 2011 as a result of our becoming a U.S. publicly listed company in July 2010. We incurred significant increases in legal expenses for the three months ended September 30, 2011, due to our appealing of NASDAQ's determination in January 2011 to delist our common stock, which we strongly oppose on procedural grounds, law and fact. Should the unfavorable decision be made final by the Board of Directors of the NASDAQ Stock Market LLC, we are prepared to immediately file an appeal to the SEC. We plan, if necessary, to file an appeal with the U.S. Court of Appeals and continue our efforts until we have exhausted all legal remedies available to us and our shareholders. As a result, we anticipate incurring additional extraordinary legal fees until this matter is ultimately resolved. Operating expenses as a percentage of net sales for the three months ended September 30, 2011, was 18% compared to 4% for the 2010 period.

TOTAL NON-OPERATING INCOME (EXPENSES)

Total non-operating expenses for the three months ended September 30, 2011, were \$355,892 and mainly consisted of \$51,759 in subsidy income offset by \$331,910 in interest expense, while total operating expense was \$61,641 for the three months ended September 30, 2010, and mainly consisted of \$2,644 in subsidy income offset by \$50,576 in interest expense.

NET INCOME

Net income for the three months ended September 30, 2011, decreased to \$54,673 from \$2,321,869 for the three months ended September 30, 2010. Net income as a percentage of net sales for the three months ended September 30, 2011, was 1% compared to 18% for the three months ended September 30, 2010. The decrease in net income was attributable to our decreased sales, increased operating expenses and increased interest expense from the long-term loan bearing annual interest of 10 %. Our consolidated tax rate was 74% for the three months ended September 30, 2011, compared to 26% for the three months ended September 30, 2010, partly due to an increase in the valuation allowance for CleanTech Innovations, Inc, our U.S. parent company, and partly due to minor increases in 2010 taxes paid by our Creative Bellows subsidiary in 2011.

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

Nine Months Ended September 30, 2011, compared to the Nine Months Ended September 30, 2010

Operational and liquidity needs are funded primarily through cash flows from operations, short-term borrowings, shareholder contributions and financing through capital markets. The cash was used primarily in operations and plant construction.

As of September 30, 2011, we had cash and equivalents of \$1,548,213, other current assets of \$33,908,747 and current liabilities of \$18,935,478. Working capital was \$16,521,482 at September 30, 2011. The ratio of current assets to current liabilities was 1.87-to-1 as of September 30, 2011.

The following is a summary of cash provided by or used in each of the indicated types of activities during the nine months ended September 30, 2011 and 2010:

	2011	2010
Cash provided by (used in):		
Operating activities	\$ (9,835,875)	\$ (9,334,523)
Investing activities	(1,785,512)	(3,032,517)
Financing activities	(416,916)	11,355,553

Net cash used in operating activities was \$9.84 million for the nine months ended September 30, 2011, compared to \$9.33 million for the nine months ended September 30, 2010. The increase in net cash used in operating activities during the nine months ended September 30, 2011, was due mainly to decreased net income, increased note receivable, restricted cash, inventories, and advances to suppliers despite the timely collection of our account receivables and other receivables.

Net cash used in investing activities was \$1.79 million during the nine months ended September 30, 2011, compared to net cash used in investing activities of \$3.03 million during the nine months ended September 30, 2010. The cash used in investing activities in the nine months ended September 30, 2011, was for the purchase of property and equipment for \$290,511, construction in progress for \$504,893, prepayment for construction for \$577,520 and deposit for land use right for \$412,588. In the 2010 period, we made payments of \$2.08 million for the purchase of property and equipment, \$74,988 for intangible assets and \$876,207 for construction of a workshop.

Net cash used in financing activities was \$0.42 million in the nine months ended September 30, 2011, compared to net cash provided by financing activities of \$11.36 million in the 2010 period. The increase in cash outflow in 2011 consisted of repayment to shareholder of \$229,167 and bank loan of \$246,249, offset by cash proceeds from warrants exercised of \$58,500. In the 2010 period, we borrowed \$9,473,013 from a bank and repaid \$8,797,218, received cash from issuance of common stock of \$8,253,471 and received a shareholder cash contribution of \$2,426,287.

Our standard payment terms with our wind tower customers generally provide that 10% of the purchase price is due upon our deposit of restricted cash into a bank account as a contract guarantee, 20% upon our purchase of raw material for the order, 10% upon delivery of the base ring component of the wind towers, 30% upon delivery of the wind tower tube sections and 20% upon customer inspection and acceptance of the product, which customers normally complete within 1-2 weeks after delivery. As a common practice in the manufacturing business in China, payment of the final 10% of the purchase price is due no later than the termination date of the product warranty period, which can be up to 24 months from the customer acceptance date. For our bellows expansion joints and pressure vessels, payment terms are negotiated on a case-by-case basis and these payment percentages and terms may differ for each customer. We may experience payment delays from time to time of up to six months from the due date,

but we expect to receive all payments despite any customer delays in payment. We do not anticipate any significant credit risk because the majority of our customers are large, well-capitalized state-owned and publicly traded utility and industrial companies with stable operations. Furthermore, we do not believe the delays have a significant negative impact on our liquidity as payment delays are very common in the manufacturing industry in China.

As of September 30, 2011, we had an accounts receivable of \$12,442,644 (before bad debt allowance of \$139,096), of which \$5,791,427 was current, \$216,982 had aging over 30 days, \$3,219,182 had aging over 90 days and \$3,215,053 had aging over 180 days. Our level of accounts receivable was due to our increased overall sales but slow collections on payment because of delays in the completion of installation of wind towers sold to certain customers in 2011.

Table of Contents

Private Placements

On July 12, 2010, we completed a private placement pursuant to which we sold 3,333,322 units, consisting of one share of our common stock and a warrant to purchase 15% of one share of our common stock, at \$3.00 per unit for a total of \$10,000,000. The warrants are immediately exercisable, expire on the third anniversary of their issuance and entitle the holders to purchase 499,978 shares of our common stock at \$3.00 per share. We may call the warrants at any time after (i) the registration statement registering the common stock underlying the warrants becomes effective, (ii) the common stock is listed on a national securities exchange and (iii) the trading price of the common stock exceeds \$4.00. We also issued warrants, having the same terms and conditions as the warrants issued in the private placement, to purchase 333,332 shares of our common stock to the placement agents in the private placement.

On December 13, 2010, we completed a closing of \$20,000,000 in a combination of debt and equity offerings through accredited institutional investors for working capital to allow us to bid on new wind tower contracts. In a private placement of equity, we sold 2,500,000 units, consisting of one share of our common stock and a warrant to purchase 67.5% of one share of our common stock, at \$4.00 per unit for a total of \$10,000,000. The warrants are immediately exercisable, expire on the fifth anniversary of their issuance and entitle the holders to purchase 1,687,500 shares of our common stock at \$4.00 per share. We also issued warrants, having the same terms and conditions as the warrants issued in the private placement, to purchase 300,000 shares of our common stock to the placement agent in the private placement. Concurrently with this private placement, we entered into a long-term loan agreement, evidenced by a loan agreement and a promissory note, with NYGG (Asia), Ltd. for \$10,000,000. The loan bears interest at 10% payable quarterly beginning on December 13, 2010, and has a maturity date of March 1, 2012.

Recent Accounting Pronouncements

In June 2011, FASB issued ASU 2011-05, Comprehensive Income (ASC Topic 220): Presentation of Comprehensive Income. Under the amendments in this update, an entity has the option to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income and a total amount for comprehensive income. In a single continuous statement, the entity is required to present the components of net income and total net income, the components of other comprehensive income and a total for other comprehensive income, along with the total of comprehensive income in that statement. In the two-statement approach, an entity is required to present components of net income and total net income in the statement of net income. The statement of other comprehensive income should immediately follow the statement of net income and include the components of other comprehensive income and a total for other comprehensive income, along with a total for comprehensive income. In addition, the entity is required to present on the face of the financial statements reclassification adjustments for items that are reclassified from other comprehensive income to net income in the statement(s) where the components of net income and the components of other comprehensive income are presented. The amendments in this update should be applied retrospectively and are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. We currently are assessing the effect that the adoption of this pronouncement will have on our financial statements.

Off-Balance Sheet Arrangements

We have not entered into any other financial guarantees or other commitments to guarantee the payment obligations of any third parties. We have not entered into any derivative contracts indexed to our shares and classified as stockholders' equity or not reflected in our consolidated financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market

risk support to such entity. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or research and development services with us.

Contractual Obligations

On September 21, 2009, we entered into a construction contract with a local authority, the Administration Committee for Liaoning Special Vehicle Production Base, or the LSVPB, to build a plant for us. Under the terms of the construction agreement, LSVPB was responsible for the construction of the plant and we pledged the plant as collateral for our payment to LSVPB of \$1,868,388 (RMB 12,249,900) in plant construction costs over five equal annual installment payments starting in October 2010 with \$373,678 (RMB 2,449,980) as the first installment amount. As of September 30, 2011, we have not yet made the first payment to LSVPB under verbal consent from LSVPB.

Table of Contents

On September 13, 2010, the Company borrowed \$1,809,627, \$944,153 and \$1,022,833 from three different credit unions. Each loan bore interest of 7.2% and each was set to mature on September 12, 2011. The Company extended the maturity date of the loans through an agreement with the credit unions. Pursuant to this agreement, the Company is required to pay approximately \$314,717 by October of 2011, with the remaining balance to be paid by June 2012. The credit unions will charge an extra 3.6% interest on the remaining principal amount of the loans for the overdue period. These loans were collateralized by one of the Company's buildings and its land use right.

On December 13, 2010, the Company entered into a loan with a lender for \$10 million. The loan bore interest of 10% payable in advance at the beginning of each quarter with a maturity of March 1, 2012. As of September 30, 2011, the Company had interest payable of \$41,096. The prepayment of quarterly interest, due on September 13, 2011, was not required to be made on the date it became due pursuant to a verbal agreement between the Company and the lender. At September 30, 2011, the Company had short-term loans outstanding of \$13,776,613.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Not required.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, our principal executive officer and principal financial officer, respectively, evaluated the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended ("Exchange Act"), as of the end of the period covered by this Quarterly Report. Based on this evaluation, our chief executive officer and chief financial officer concluded that, as of September 30, 2011, our disclosure controls and procedures are effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
