Section 16(a) of the Securities Exchange Act of 1934 requires our trustees and officers and persons who own more than 10% of our common shares to file reports of ownership and changes in ownership with the SEC. These persons are required by SEC rules to furnish us with copies of these reports. Based solely on our review of the copies of these reports received by us and representations from certain reporting persons that they have complied with the relevant filing requirements, we believe that all of these filing requirements were complied with during the year ended December 31, 2007.

Code of Ethics

Our Board has adopted a code of business conduct that is applicable to all members of our Board, our executive officers and our employees. We have posted our code of business conduct on our website at www.whitstonereit.com.

Shareholder Nominations

There have been no material changes to the procedures by which shareholders may recommend nominees to the Company's board of directors since the Company last disclosed such procedures in the Proxy Statement for its 2007 Annual Meeting of Shareholders. In April 2008 the Company amended its bylaws to expand the requirements for an individual to qualify for nomination or election as a Trustee.

Audit Committee

The audit committee also prepares a report each year in conformity with the rules of the SEC for inclusion in our annual proxy statement.

The committee currently consists of Chris A. Minton, Jack L. Mahaffey and Donald F. Keating, with Mr. Minton serving as chairman. Our Board has determined that Mr. Minton qualifies as an "audit committee financial expert" as defined by the rules and regulations promulgated by the SEC. Each member of the committee is "independent" under the NASDAQ listing standards, applicable SEC rules and the standards prescribed by our declaration of trust.

COMPENSATION DISCUSSION AND ANALYSIS

The Compensation Committee (for purposes of this discussion and analysis, the “Committee”) of our Board has responsibility for establishing, implementing and continually monitoring our executive compensation programs. Additionally, they are responsible for the assessment of the relationship of compensation relative to Company performance, the rationale in the application of our compensation plans to specific incentive awards, and all recommendations to the Board relative to compensation under their charter.

The scope of this Compensation Discussion & Analysis (“CD&A”) relates to (1) all compensation components for the Named Executive Officers of the Company, (2) compensation to other key executives of the Company who may be included in the Summary Compensation Table (and other tables), and (3) to the extent appropriate in order to define Committee activities, responsibilities and decisions, summary information on: Overall Company compensation programs; performance evaluation methodology; compensation plan development/adoption; and comparative market compensation assessment.

Throughout this discussion James C. Mastandrea, our Chairman and Chief Executive Officer, John J. Dee, our Chief Operating Officer, David K. Holeman, our Chief Financial Officer, Valarie L. King, our Senior Vice President of Property Management, and Daniel E. Nixon, Jr., our Senior Vice President of Leasing and Redevelopment, are referred to as the “Named Executive Officers.” We did not have any other executive officers who earned more than \$100,000 in 2007.

Compensation Strategy and Philosophy

The Committee believes that the most effective executive compensation strategy is one that is designed to target specific annual and long-term goals defined by management and approved by the Board, which align the economic interests of employees with shareholders. This strategy should be designed to reward the achievement of performance above established goals that contribute to increased shareholder value. The Committee believes that an effective executive compensation strategy has several components aimed at specific objectives and timeframes.

Base Salary – reflective of position, responsibility and experience, and correlated with market based salary levels for similar positions and competitor companies. The Committee presently believes that the competitive market 50th percentile level is the appropriate benchmark to target for base salary at this time in the Company's growth and size.

Annual Incentive Bonus – an opportunity for selected employees (and potentially all employees) to receive an annual cash (or potentially cash and shares) award based on the achievement of specific organization, operating and financial goals and objectives at three levels during any fiscal year of Company operation:

- Corporate performance;
- Business unit (functional area) performance; and
- Individual performance.

The Company currently has not formalized an annual incentive plan, but will be designing a plan in the near future. The Committee believes that any design of an annual incentive plan should establish a threshold, target and maximum incentive opportunity for participants. Additionally, the annual incentive plan should be designed to provide an effective weighting and performance measurement system to Company, business unit (functional) and individual objectives, and be flexible to adapt to changing Company needs and circumstances.

Long-Term Incentive Plan – an opportunity for selected key employees (and potentially all employees) to participate in a long-term equity incentive plan which would provide awards of equity (restricted stock, phantom units or options) upon the long-term achievement of incremental value of the Company and its shareholders. The Company is in the process of evaluating such a program and will be further developing the plan during 2008. This plan would be designed to align employees with the long-term strategy of the Company and is expected to be an important component of total compensation and key employee retention.

Benefits and Other Perquisites – The Company provides the Named Executive Officers (and all other employees) a full range of benefits related to insurances for health and security. These benefit plans, and other perquisites to key employees, are consistent with the Company's competitors for experienced executives and are an important component of employee retention.

The Compensation Committee Charter outlines its key objectives in the governance of compensation plan development and award decisions, including its major responsibilities to evaluate Company performance and executive compensation (and the relationship between them in any year and over time), one of the fundamental rationales for incentive compensation. Additionally, the Committee must ensure to the extent possible that the Company maintains its ability to attract and retain superior employees in key positions and that compensation opportunities to key employees remain competitive relative to that paid to similarly situated executives of our peer companies. To that end, the Committee believes executive compensation packages provided and to be developed will reflect the elements outlined above, and will require the Company to define specific performance measurement and accountability procedures to correlate with incentive awards.

Compensation Objectives

In association with the overall compensation strategy and philosophy outlined above, the Committee defines its core values and fundamental guiding principles relating to executive compensation as follows:

Compensation is linked to performance. Executive pay is linked to Company and individual performance. Named Executive Officers should be rewarded for achieving annual strategic, operating, and financial goals. Goals should be defined and directed by the Company strategic plan. Long-term compensation should promote retention and align management and employees with the long-term interests of shareholders.

Compensation elements should be appropriately balanced. The mix of compensation elements will vary with position and with Company circumstances. Base salary and benefits are designed to attract and retain experienced key personnel. Annual incentives emphasize annual objectives, while long-term compensation emphasizes growth in profitability and shareholder value. The proportion of “guaranteed” and “at risk (incentive)” compensation should be structured by position consistent with responsibility, target total compensation level, and market benchmarks. Additionally, a severance benefits program is appropriate to encourage retention and objectivity in connection with events that may trigger a change in control of the Company or other circumstances of separation. The Company does not currently have a severance benefits program, but expects to develop one in the future.

Compensation should be fair and competitive. The Company and the Committee strive to establish fair and competitive compensation for the Named Executive Officers (and other management), and does so by the process and assessment methods to be outlined in the Company plan documents.

Executive stock ownership is expected. The Company believes that all executive officers (and to the extent possible, all employees) should be shareholders of the Company. The Company and the Committee will facilitate, and adopt a program to achieve this objective for executive ownership.

The Committee and Board exercise independent judgment. On behalf of the shareholders, the Committee and the Board ensure that executive compensation is appropriate and effective, and that all assessments, advisors, analysis, discussion, rationale and decision making are through the exercise of independent judgment.

Compensation may be structured to meet corporate tax and accounting rules. The Company generally structures the Named Executive Officers’ compensation so that all elements of pay are tax deductible to the Company. Section 162(m) of the Internal Revenue Code limits the amount of compensation the Company may deduct in any fiscal year. Compensation above these limits can be deducted if it is awarded under shareholder approved “performance based” incentive compensation plan. Under an annual incentive plan, awards which would limit the deductibility of compensation by the Company may (upon approval of the Committee) be delayed into a period where the deduction can be taken. The Company adheres to all Financial Accounting Standards Board rules and regulations related to the accounting treatment and reporting of compensation expense and valuation.

Roles and Responsibilities in Compensation Decisions

The Committee is specifically responsible for compensation decisions related to the Chairman and Chief Executive Officer.

The Committee philosophy and strategy, and the programs adopted by the Board, establish the general parameters within which the Chairman and Chief Executive Officer determines recommended compensation for the other Named Executive Officers. The Committee reviews, assesses and approves recommendations from the Chairman and Chief Executive Officer regarding any determination regarding base salary and bonuses to all officers, management and employees, including the other Named Executive Officers.

James C. Mastandrea, Chairman and Chief Executive Officer, and John J. Dee, Chief Operating Officer, annually review the performance of our other executive officers. The conclusions reached and recommendations made based on these reviews, including relative to base salary adjustments as well as bonuses, are presented to the Committee. The Committee can exercise its discretion in modifying any recommended salary adjustment or bonus award. The Committee reviews in detail the performance of our Named Executive Officers.

Compensation consultants familiar with the real estate industry and the Company's competitors are used by the Chairman and Chief Executive Officer, Chief Operating Officer, and the Committee to provide updated market compensation information regarding competitor compensation levels for various positions; trends in the industry related to compensation awards and industry performance; and address questions related to effective compensation plans and employee retention.

Setting Executive Compensation

Based on the strategy and philosophy described above, the Committee is in the process of structuring annual and long-term executive compensation plans aimed at attracting, retaining, and motivating executive officers to achieve our strategic business goals and rewarding them upon success. In furtherance of this agenda in 2007, the Committee engaged CEL & Associates, Inc./CEL Compensation Advisors, LLC ("CEL"), an independent executive compensation consulting firm with specific expertise in the real estate industry, to conduct a review and benchmarking of total compensation levels for our executive officers. CEL has provided the Committee with relevant market data and plan alternatives to consider when designing and adopting compensation programs for our executive officers. The Committee also independently reviews public disclosures made by companies in the real estate industry and on published surveys with particular focus on companies of similar size within our industry.

As a part of the compensation decision making process, the Committee compares each element comprising total compensation for Company positions against similar positions in a peer group of publicly-traded REITs and private owner/developer/investment companies (collectively, the "Compensation Peer Group"). The Compensation Peer Group, which is periodically reviewed and updated by the Committee, consists of companies which we believe we compete for talent, investment opportunity, and shareholder investment. The companies comprising the Compensation Peer Group were selected based on the following criteria:

Competitive public real estate companies in Whitestone's major markets;

Public companies with market capitalization (implied market cap) of \$150 million to \$750 million and within the retail shopping center, office, industrial and diversified sectors.

Private real estate investment and development companies based on portfolio size and range of geographic investments.

A total of seventeen (17) public companies and nine (9) private companies were used in the CEL analysis. The public companies include:

Acadia Realty Trust	PS Business Parks
AmREIT	Ramco-Gershenson Properties Trust
Capital Lease funding, Inc.	Republic Property Trust
Cedar Shopping Centers, Inc.	Saul Centers, Inc.
Columbia Equity Trust	Spirit Finance Corporation
First Potomac Realty Trust	Thomas Properties Group, Inc.
Government Properties Trust, Inc.	Urstadt Biddle Properties, Inc.
Kite Realty Group Trust	Winthrop Realty Trust
Marcus Corporation	

Whitestone competes with many companies for experienced executives, and the Committee generally has set compensation for executive officers relative to the range of compensation paid to similarly situated executives of the companies comprising the Compensation Peer Group. Variations to this objective may occur as dictated by the experience level of the individual, market factors, and Company situation.

As a young Company, one whose formation was in late 2006 and was operationally stabilized in 2007, salaries were, by necessity and directive, to be below market (below the 50th percentile). Bonuses were awarded in 2007 (on a discretionary bases but highly related to performance in a new company start-up environment) to make-up some of this difference. The Committee (and the Company) believes that it is important to have an equity-based incentive program to retain experienced and qualified executives and to provide them long-term compensation aligned with the economic growth of the company and the creation of shareholder value.

The philosophy of the Committee is to provide programs that offer a significant percentage of total compensation from performance based incentives. Alignment of key management and employees with the growth of the Company and the creation of value is the guiding principle of the Company compensation program. Currently, given the Company's limited operating history, policies, specific incentive compensation opportunity "targets," and the mix between cash and equity incentives for key employees are not completed. The Committee will continue to review a variety of information, including that provided by CEL, to determine the appropriate level and mix of incentive compensation. Income from incentive compensation is realized as a result of the Company's performance and that of individual performance, measured against established goals. We currently do not have an approved annual or long-term incentive plan. The Committee believes that a significant portion of total compensation to our executive officers should be in the form of non-cash stock-based long-term incentive compensation. Annual and long-term incentive plans are currently being reviewed and evaluated by the Committee, management and CEL. A comprehensive incentive compensation program is a key strategic plan element for the Company and will be adopted as soon as possible.

Executive Compensation Elements - 2007

Several significant components of our executive compensation are under development, including an annual bonus opportunity based on strategic, operating and financial performance, and a long-term incentive compensation plan, which may include grants of shares and/or options based on the achievement of future growth performance measures. Until those plans are completed and adopted by the Board, the Company must rely on base salary, discretionary bonuses for superior performance and competitive company benefits and perquisites. A description of the Company compensation elements during 2007 are presented below.

Base Salary. The Named Executive Officers receive a base salary established by an assessment of the responsibilities, skills and experience related to their respective positions, and an evaluation of base salary of comparable positions in peer companies and the market in general. Other factors considered in base salary determinations are individual performance, the success of each business unit (functional area), the competitiveness of the executive's total compensation, our ability to pay an appropriate and competitive salary, and internal and/or external equity. The Named Executive Officers are eligible for annual increases in their base salary as a result of: Individual performance; their salary relative to the compensation paid to similarly situated executives in companies comprising the Compensation Peer Group; cost of living considerations; and the time interval and changes in responsibility since the last salary increase. As a young Company, one whose formation was in late 2006 and was operationally stabilized in 2007, salaries were, by necessity and directive, to be below market (below the 50th percentile).

Annual Bonus. At this time, the Company does not have a formal annual incentive plan. In the future, the Committee plans to adopt an annual incentive plan and may, in accordance with such a plan, award annual bonuses to executives for the achievement of specific operating and financial goals by Whitestone; the individual's business unit or functional area; and the individual's personal achievements and performance. Daniel E. Nixon, Jr. was the only Named Executive Officer to receive a discretionary bonus in 2007.

Long-Term Incentive Compensation. The Company currently does not have a long-term compensation plan in place, and in 2007, no amounts were awarded to any employee as long-term incentive compensation. The Committee is designing and evaluating an appropriate plan for adoption by the Company and its shareholders. We intend to implement a plan in 2008. Because today's business decisions affect the Company over a number of years, we intend to tie long-term incentive awards to long-term value of the enterprise, and the growth in the financial benchmarks which drive the market value of the Company.

Perquisites and Other Personal Benefits. The Company provides the Named Executive Officers with benefits and other personal perquisites that the Company deems reasonable and consistent with our overall compensation program. Such benefits enable the Company to attract and retain superior employees for key positions. The Committee periodically reviews the Company benefits program and specific perquisites provided to the Named Executive Officers.

During 2007, certain of the Named Executive Officers were provided automobiles for business and personal purposes, temporary housing, and reimbursements for personal and spousal travel. We also maintain other executive benefits we consider necessary in order to offer fully competitive opportunities to our executive officers. These include 401(k) retirement savings plans, including a Company match, car allowances and related travel reimbursements. Executive officers are also eligible to participate in all of our employee benefit plans, including medical, dental, group life, disability and accidental death and dismemberment insurance, in each and all cases on the same basis as other employees. Additionally, three (3) of the Named Executive Officers (James C. Mastandrea, John J. Dee, and Daniel E. Nixon, Jr.) will be relocating to the Houston area in 2008. To accommodate this relocation, the Company, with review and approval by the Committee, will be defining and offering a financial assistance package to accommodate portions of the cost of their transition.

Employment Agreements for Named Executive Officers

None of the Named Executive Officers are under an employment agreement or individual severance agreement and were not in 2007.

Report of the Compensation Committee of the Board of Trustees

The Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on the review and discussions, the Committee recommended to the Board that the Compensation Discussion and Analysis be included in the Company's Form 10-K/A for 2007.

Respectfully submitted,

Whitestone REIT Compensation Committee

Jack L. Mahaffey, Chairman
 Donald F. Keating
 Chris A. Minton

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

The following table sets forth beneficial ownership information, unless otherwise indicated, as of March 31, 2008 with respect to (i) each person known by us to own beneficially 5% or more of the outstanding common shares assuming the conversion of all OP Units (defined below), (ii) each of our trustees, (iii) each of our Named Executive Officers and (iv) all of our trustees and executive officers as a group. We are not aware of any shareholder who owns 5% or more of our outstanding common shares. The table also shows ownership information regarding outstanding units of Whitestone REIT Operating Partnership, L.P. (the "Operating Partnership"), which are convertible into our common shares of beneficial interest on a one-for-one basis ("OP Units"). As of March 31, 2008, we had 10,001,269 common shares outstanding and 15,448,118 OP Units outstanding.

- (1) Beneficial ownership is determined in accordance with the rules of the SEC that deem shares to be beneficially owned by any person or group who has or shares voting and investment power with respect to those shares. Actual amounts do not take into account OP Units held by the named person that are exchangeable for our common shares. The percentage ownership column that includes the OP Units assumes only the named person has converted his OP Units for our shares and does not give effect to any conversion of OP Units by any other person.
- (2) Includes 44,671.74 common shares and 30,230.79 OP Units owned by Mr. Minton's wife for which Mr. Minton shares voting and dispositive power.
- (3) Mr. Vyas resigned in January 2008 due to personal time constraints and due to his own company business requiring more of his time.
- (4) None of the shares beneficially owned by our trustees has been pledged as security for an obligation.

- (5) Information obtained from corporate shareholder records. Includes ownership of 1,231,392.58 OP Units received in exchange for properties that were contributed from Hartman RE Income Properties XIV, LP to the Operating Partnership. Mr. Hartman is general partner of Hartman RE Income Properties XIV, LP, and he may have the ability to convert the OP units into common shares and to vote the common shares after conversion, though he has not disclosed to us his ownership rights in those OP units.

Item 13. Certain Relationships and Related Transactions, and Trustee Independence.

Related Person Transactions

We have not formally adopted any policies or procedures for approval of related party transactions. Any proposed related party transactions would be disclosed to our Board and addressed on a case-by-case basis.

Trustee Independence

Our Board has affirmatively determined that three of our four trustees are “independent” under the NASDAQ listing standards, applicable SEC rules, and the standards prescribed by our declaration of trust. These trustees are Donald F. Keating, Jack L. Mahaffey and Chris A. Minton.

Item 14. Principal Accountant Fees and Services.

The following table sets forth the fees for professional audit services rendered by Pannell Kerr Forster of Texas, P.C., or PKF, our independent registered public accounting firm, for the audit of our annual consolidated financial statements for the years ended December 31, 2007 and 2006, and fees billed for other services rendered by PKF for those periods:

Category of Service	2007		2006
	(in thousands)		
Audit fees (1)	\$	233.4	\$ 249.7
Audit-related fees (2)		—	39.3
Tax fees (3)		58.9	5.4
All other fees		—	—
Total	\$	292.3	\$ 294.4

(1) Audit fees were for professional services rendered in connection with the audit of our 2007 and 2006 consolidated financial statements and reviews of our quarterly consolidated financial statements within those years.

(2) Audit-related fees were for professional services rendered in connection with a review of our consolidated financial statements and other financial data included in our Registration Statement on Form S-11.

(3) Tax fees were for assistance with matters principally related to tax compliance, tax planning and tax advice.

Our Audit Committee has considered the audit and non-audit services rendered by PKF and has determined that the provision of these services is compatible with maintaining the independence of PKF.

Pre-Approval Policies and Procedures

Our Audit Committee has adopted a policy requiring it to approve all services (audit and/or non-audit) to be performed by our independent registered public accounting firm to assure that the provision of the services does not impair the firm’s independence. All services, engagement terms, conditions and fees, as well as changes in the terms, conditions and fees must be approved by our Audit Committee in advance. Our Audit Committee will annually review and approve services that may be provided by our independent registered public accounting firm during the next year and will revise the list of approved services from time to time based on subsequent determinations. Our Audit Committee believes that our independent registered public accounting firm can provide tax services to us, such as tax compliance, tax planning and tax advice, without impairing the firm’s independence and that the tax services do

not constitute prohibited services pursuant to the SEC and/or NASDAQ rules. The authority to approve services may be delegated by our Audit Committee to one or more of its members, but may not be delegated to management. If authority to approve services has been delegated to an Audit Committee member, any approval of services must be reported to our Audit Committee at its next scheduled meeting. All audit and non-audit services rendered by our independent registered public accounting firm during 2007 and 2006 were pre-approved by our Audit Committee.
