IRSA Inversiones y Representaciones Sociedad Anónima announces its first quarter fiscal year 2004 results, ended on September 30, 2003.

Operating income totaled Ps. 8.8 million compared to a loss of Ps. 4.7 million in the previous year.

We have prepaid US\$ 16 million of our debt due in 2009, obtaining a 32% discount.

The rate of occupancy at our shopping centers continued to increase, reaching 97%. Our lessees increased their sales during the period by 27% in real terms, with a positive impact on our collections.

During the quarter, the EBITDA of APSA increased by 53% to Ps. 24.2 million as compared to the previous year.

The improved outlook perceived as a consequence of the economic recovery, encourage us to continue to plan the launching of new projects.

Buenos Aires, November 11, 2003 IRSA Inversiones y Representaciones Sociedad Anónima (NYSE: IRS) (BCBA: IRSA), the leading real estate company in Argentina, announces its first quarter fiscal year 2004 results, ended on September 30, 2003.

Comment on the fiscal year operations

The quarter ended on September 30, 2003 was marked by certain stability in the country, both at macroeconomic and political level. Exchange rates and inflation seem to have stabilized while the rate of economic recovery would have accelerated to 2.8% quarterly rate, indicating a projected 7.1% growth for calendar year 2003.

The prudent short-term economic policy was decisive for this recovery. The proper liquidation of international reserves and the extraordinarily positive trade balance prevented the rampant inflation previously anticipated. In addition, the considerable increase in tax revenues from export withholdings and the tax on financial transfers resulted in a highest historic primary tax surplus of 2.5% of the GDP.

Results for the first quarter of fiscal year 2004 showed a Ps. 15.2 million loss as compared to a Ps. 58.0 million profit during the same quarter of fiscal year 2003. As in the first quarter of the previous fiscal year, these results are mainly due to fluctuations in the peso, which depreciated 4% during the period under review, generating a Ps. 14.1 million net loss in exchange differences. In addition, operating results showed a Ps. 8.8 million profit, as compared to a Ps. 4.7 million loss during the previous period.

Consolidated net sales for the three-month period totaled Ps. 49.1 million, as compared to Ps. 51.1 million during the same period of the previous year.

As announced at the end of the previous quarter on July 23, 2003, and after making a proposal for the repurchase of our debt to all the banks which are holders of such debt, we proceeded to the early repayment of US\$ 16 million corresponding to the Syndicated Loan (Loan Agreement US\$ 51,000,000) due end of November 2009 to HSBC Bank Argentina S.A. The transaction was settled for a total amount of US\$ 10.9 million, 68% of the nominal value of the debt, with a US\$ 5.1 million discount.

The strong growth of the Argentine economy has led us to accelerate the launching of new development projects directed to the high-quality residential segment. In addition, we anticipate that the occupancy rate in our office buildings will continue to improve, accompanying the considerable recovery of those sectors of the economy that are based on exports and imports substitution; additionally, we have positive expectations in relation to sustained growth in the tourism industry which will benefit our hotels portfolio and will attract high-income consumers to our shopping centers.

Analysis of results

Net results for the three-month period ended on September 30, 2003 showed a Ps. 15.2 million loss or Ps. 0.07 loss per share, as compared to a Ps. 58.0 million profit, or Ps. 0.28 per share for the same period of fiscal year 2003.

Consolidated net sales for the three-month period totaled Ps. 49.1 million, as compared to Ps. 50.2 million during the same period of the previous year.

The contribution of the various segments to net sales was as follows: Sales and Developments Ps. 6.0 million, Offices and Other Lease Properties Ps. 3.7 million, Shopping Centers Ps. 31.2 million and Hotels Ps. 8.3 million. The operating profit for the period amounted to Ps. 8.8 million.

The Financial Statements ended on September 30, 2003 show the effects of inflation up to February 28, 2003, the date on which the adjustment for inflation of financial statements was eliminated as established by the Argentine Securities Commission. The corresponding amounts for the period ended on September 30, 2003 have been restated at year-end, adjusted by the 0.9938 wholesale inflation coefficient during September 2002 and February 2003.

EBITDA for the three-month period ended on September 30, 2003 amounted to Ps. 21,4 million, 1% lower than the same quarter of last fiscal year.

First quarter of fiscal year 2004 highlights, including significant operations occurred after the end of the period.

I. Offices and Other Rental Properties

During the period ended on September 30, 2003, the rent from lease properties totaled Ps. 3.7 million, as compared to Ps. 5.7 million recorded during the same period of fiscal year 2003.

Average occupancy reached 70%, which represents a slight change with respect to the same period of the previous fiscal year. It should be mentioned that the occupancy rate for our properties is above the market average.

Although occupancy rates show slight variations, we consider that they show a favorable trend and are in line with the strong growth indicators of the economy, which suggest a significant increase in the activity over the next months.

The chart below presents information on the Company's offices and other rental properties as of September 30, 2003.

II. Shopping Centers Alto Palermo S.A (APSA).

As of September 30, 2003, we had a 54,95% interest in Alto Palermo S.A. (APSA), the company that operates our shopping centers. Total income at September 30, 2003 amounted to Ps. 31.2 million, that is, 27.2% higher than those in the same period of the previous year. This is mainly attributable to the increase in basic rent charged to our lessees and increased occupancy.

Net Loss for the three-month period was Ps. 3.9 million, as compared to the Ps. 15.3 million profit for the same period of the previous year. The results for the three months ended on September 30, 2002 had been positively affected by the Ps. 27.8 million income from Financial Results and by the Ps. 10.6 million income from the repurchase of Company's Bonds. In addition, the result for the first quarter of Fiscal Year 2004 was adversely affected by the depreciation of local currency against the U.S. Dollar, from Ps. 2.80 per US\$ 1.00 to Ps. 2.915 per US\$ 1.00, which gave rise to negative Exchange Differences for Ps. 5.2 million principally on the US\$ 49.8 million outstanding debt. After the end of the quarter, the exchange rate has returned to the levels prevailing at the end of Fiscal Year 2003, which would result in a profit for the second quarter of Fiscal Year 2004 if the exchange rate remains at around Ps. 2.80 per U.S. Dollar.

Gross profit for the period showed a significant increase to Ps. 14.3 million, 68.5% higher than gross profit for the same period of the previous year. This result is basically due to the fact that costs did not rise as much as income.

In this way, the consolidated Operating Result for the period was a Ps. 8.1 million profit as compared to a Ps. 2.0 million loss for the same period of the previous year. Additionally, this was the result of a steep drop in bad debt charges, which fell from Ps. 4.5 million in the first quarter of Fiscal Year 2003 to Ps. 0 in the period ended on September 30 of the current year.

APSA Tenenats continued to increase their sales, reaching Ps. 255.1 million in the three-month period ended on September 30, 2003. These sales are 33% higher in nominal terms than those for the same period of the previous year, and 27% higher in real terms¹.

¹ Deflated by the Consumers Price Index prepared by the National Institute of Statistics and Census (INDEC).

The business success of APSA tenants continues to increase demand for space at APSA Shopping Centers. In this way, we have increased occupancy to 96.7%, surpassing the levels prevailing before the crisis. The evolution of this variable not only shows an improvement in our business, but also the excellent quality of our Shopping Centers portfolio. Competitors' occupancy in the Metropolitan Area of Buenos Aires only reaches 91.1%².

Due to the improved situation of our tenants, we continue to apply the Reference Stabilization Coefficient (CER) to most specified agreements. Thus, Shopping Centers such as Abasto de Buenos Aires has extended the application of the CER from 10% of their tenants as of November 2002 to 100% of tenants as of September 2003.

Additionally, the current bonanza in the retail sector allows us to enter into new lease agreements under better conditions, e.g. increasing the goodwill charge required for the renewal or execution of new agreements at our Shopping Centers.

On the other hand, the improvement in our tenants' economic and financial situation caused no allowance to be created for bad debts, which as of September 30, 2002 amounted to Ps. 4.5 million. In addition, in accordance to our management reports, the Company's operating cash flow reached highest historic levels at a monthly average of Ps. 7.5 million. These high levels are partially attributable to the excellent collection of bad debts, as a result of which the Company's revenues are higher than its invoicing.

Tarjeta Shopping

Tarshop S.A. is the credit card company in which we have an 80% interest Through APSA.

During the quarter ended on September 30, 2003, our credit card business unit reverted the negative results shown on its financial statements during several quarters. In this way, for the first quarter of Fiscal Year 2004, Tarshop S.A. recorded a Ps. 0.5 million profit, as compared to the Ps. 2.8 million loss for the same period of the previous year, a considerable improvement.

This was the result of business restructuring. Our customers' consumption increased by 66% during the quarter with respect to the same period of the previous year, totaling Ps. 41.8 million. This represents a 58% increase in real terms. The recovery of Tarjeta Shopping as a financial instrument for purchasing is reflected in the fact that the increase in sales made through this payment method is significantly higher than the increase in sales of our Shopping Centers.

Additionally, in relation to collections, short-term bad debts as of September 30, 2003 were even lower than the levels prevailing before the crisis. Bad debts three months past due, which exceeded 11% during 2002, decreased to only 3.1% by the end of the quarter.

At September 30, 2003, the number of members and the credit portfolio, including securitized coupons, totaled 151,350 members and Ps. 48.1 million, respectively. The level of card activation reached 52%.

² According to company estimates based on information derived from the Shopping Centers Research conducted by the INDEC.

III. Sales and Developments

During the first quarter of fiscal year 2004, net sales for the sales and developments segment decreased to Ps. 6.0 million, as compared to Ps. 14.3 million during the same period of fiscal year 2003.

The improved prospects that can be perceived as a result of the recovery of the Argentine economy encourage us to plan future developments, which, along with our important stock of ideally located land, will permit us to evaluate and launch new projects over the next months.

Sales

Madero 1020 On August 20, 2003, the deed of conveyance for three stories of the Madero 1020 office building was executed. A total of 2,018 square meters were sold for US\$ 1,650,000 at an average of US\$ 818 per square meter.

Abril, Hudson, Province of Buenos Aires During the quarter ended on September 30, 2003, 4 lots of Abril country club were sold. All projected neighborhoods are being marketed and 93% of the lots have been sold. There are 566 completed houses, and 73 houses are under construction.

Sarmiento 517 During the quarter ended on September 30, 2003, one office unit with a surface of 151 square meters was sold for Ps. 151,000.

Developments

Cruceros, Dique 2 This is a unique project in Puerto Madero. The residential building of 6,400 square meters will be constructed next to the Edificios Costeros office building. It is intended for the high-income segment and all common areas have spectacular river views. There will be approximately 50 units with two swimming pools, gymnasium and other amenities. The project is at an advanced stage of completion and we estimate it will be launched by the end of 2003.

Purchase of plot of land at San Martín de Tours During March 2003, we executed an agreement for the purchase of a plot of land at San Martín de Tours street, Barrio Parque sector, the most exclusive residential area of the city of Buenos Aires. Upon the execution of the bill of sale US\$ 80,000 were advanced, and upon execution of the deed of conveyance in June 2003, US\$ 230,000 were paid. In addition, on that occasion a mortgage was created in favor of Providence for US\$ 750,000 in guarantee of 25% of the functional units that IRSA shall deliver when the building is completed. IRSA plans to build a complex of high-quality house-type residential units, a different product among the existing offer. The works will begin in December and we plan that the inauguration and launching for sale will take place in October 2004. The project will be financed with working capital and is intended for the high-income segment.

Below is a detail of property being developed by IRSA as of September 30, 2003.

IV. Hotels

Our first-class hotel segment continues to show positive signals; during the first quarter of fiscal year 2004 occupancy rates improved, with price levels being maintained.

Accumulated average occupancy rates for our hotels during this period increased to 58%, as compared to 53% during the previous year. Average prices showed a slight decrease, with an average price per room of Ps. 266, as compared to Ps. 269 during the previous fiscal year. The Llao Llao hotel, which has positioned itself as a first-class resort, the only one in Argentina based both on its services and location, has one of the highest prices per room in the country.

Income from the hotel activity for the year ended on September 30, 2003 totaled Ps. 8.3 million, as compared to Ps. 7.3 million during the same period of fiscal year 2003.

This increase in income reflects the general improvement in the activity as a result of the growing inflow of tourists due to attractive local prices. Consequently, all our hotels are showing good cash inflows.

The chart below shows information regarding our Company's hotels estimated for the three-month period ended September 30, 2003.

V. Financial and other transactions

Impact of exchange difference on the Company's financial position Our dollar-denominated liabilities were adversely affected by the 4% depreciation of the Peso during the period ended on September 30, 2003, which resulted in a Ps. 18.9 million loss. Exposure of our assets to this economic variable during the same period resulted in a Ps. 4.8 million profit. The net loss generated by the depreciation of the Peso amounted to Ps. 14.1 million and was shown on the Effects of financing line, considerably contributing to the loss shown on that line and for the period.

Replacement of Mortgage Security. In August 2003, the mortgage backing the security for the US\$ 37.4 million floating rate Secured Bonds due 2009 was replaced. These Bonds are secured with a first mortgage for a value equal to 50% of the debt originally created on some of our properties, and during August 2003 that mortgage was replaced with first mortgages on the following buildings: Dique IV (Cossentini 340), Prouban (Avda. Del Libertador 498) and Laminar Plaza.

Early repayment of US\$ 16 million of debt On July 23, 2003, we proceeded to the early repayment of US\$ 16 million corresponding to the Syndicated Loan (Loan Agreement US\$ 51,000,000) due end November 2009 to HSBC Bank Argentina S.A. The transaction was settled for the amount of US\$ 10.9 million, 68% of the nominal value of the debt, with a US\$ 5.1 million discount. The repurchase was made based on the procedure established in the Syndicated Loan Agreement.

Improvement of the risk rating of our Global Bond Program for up to US\$ 250 billion. In October 2003, Fitch Argentina Calificadora de Riesgo S.A. raised the rating of our Global Bond Program for up to US\$ 250 billion from B- (arg) to B (arg). This rating improvement is due to the restructuring of our debt, which is in its entirety concentrated in the long term. Our secured debt for US\$ 37.4 million has been issued under this program.

Conversion of Bonds. To date, conversion rights have been exercised for 115,322 units. In this regard, 211,598 common shares were issued with par value of Ps. 1.0 each. In this way, the amount of outstanding Convertible Bonds is now US\$ 99,884,678 while the number of shares of the Company to date totals 212,210,871.

Distribution of dividends in APSA. On October 31, 2003, the General Ordinary and Extraordinary Shareholders Meeting of Alto Palermo S.A. (APSA) approved the cash distribution of Ps. 10.0 million as dividends (Ps. 0.141 per share of US\$ 1 par value each, or Ps. 0.5642 per ADR) as one of the uses of the Ps. 77.4 million profit for fiscal year 2003. The above distribution generated at IRSA a Ps. 5.5 million income equivalent to its shareholding in APSA.

Appointment of Directors. The Shareholders Meeting resolved to fix the number of full directors at 8, and the number of alternate directors at 5. The following were reelected for the term of three years as Directors: Elsztain, Eduardo Sergio; Zang, Saúl and Bergotto, Pedro Oscar, all of whom are non-independent directors under the terms of Resolution 400 of the Argentine Securities Commission; Messrs. Fishman, Marcos and Bridger, Cedric were appointed directors, and Mr. Cárdenas, Emilio was appointed alternate director for the statutory term, all of whom are independent except for Mr. Fishman.
