**Item 8.01 Other Events.**

Omax Corporation ( Omax ) filed suit against Flow International Corporation ( Flow ) on November 18, 2004. The suit alleges that Flow 's products infringe Omax 's Patent Nos. 5,508,596 entitled Motion Control with Precomputation and 5,892,345 entitled Motion Control for Quality in Jet Cutting. The suit also seeks to have Flow 's Patent No. 6,766,216 entitled Method and System for Automated Software Control of Waterjet Orientation Parameters declared invalid, unenforceable and not infringed. Omax manufactures waterjet equipment that competes with Flow 's equipment. Both the Omax and the Flow patents are directed at the software that controls operation of the waterjet equipment. Although the suit seeks damages of over \$100 million, Flow believes Omax 's claims are without merit and intends not only to contest Omax 's allegations of infringement but also to vigorously pursue its claims with regard to its own patent.
