HARMONY WARNS AGAINST MISREPRESENTATIONS REGARDING ITS RESERVES OR OTHER COMPANY DATA

Issued by Harmony Gold Mining Company Limited

Johannesburg, Tuesday 10 May 2005 - Harmony Gold Mining Company Limited (NYSE: HMY JSE: HAR) today announced that it had embarked on a legal process to investigate some of the comments attributed to Gold Fields executives and reported by the South African media on 9 May 2005.

Harmony views these media reports in a serious light. We are tired of having Gold Fields executives and the media misrepresenting many issues ranging from Harmony's financial statements to our Competent Persons Report. For the media to headline mere allegations and spin is irresponsible. For the Gold Fields executives to make these allegations in the first place is more serious. They have gone one step too far this time. commented Chief Executive Bernard Swanepoel.

Bernard Swanepoel

Chief Executive

SRK has confirmed and ratified our reserve statement. It has also reviewed and accepted the macroeconomic assumptions contained in our reserve statement. In the interests of full disclosure, SRK has also provided a range of macroeconomic scenarios under which it calculates our reserves, as we do in our annual report. The result of this process is that our estimate of Proven and Probable reserves of 55,651 million ounces as stated in January 2005, shows a 6% variance from SRK's, and our Life of Mine production estimate of 62,347 million ounces shows a 3% variance from SRK's. These variances were highlighted some time ago by Harmony itself for the benefit of the investing public and are variances easily explained through subtle differences in certain technical assumptions in the respective calculations. We are satisfied that the SRK report re-affirms our January 2005 reserve statement. Bernard added.

It concerns us not only that certain Gold Fields employees continue to misrepresent the facts to the media, but more importantly to their own shareholders who continue to be disenfranchised in the process.
