**FORWARD-LOOKING STATEMENTS**

The announcement constituting Exhibit 1.1 contains certain forward-looking statements that are, by their nature, subject to significant risks and uncertainties, including those risks and uncertainties described under Item 3. Key Information Risk Factors in our annual report on Form 20-F for the fiscal year ended December 31, 2004. These forward looking statements include, without limitation, statements relating to our business strategies, network expansion plans and related capital expenditure plans, the planned development of new mobile technologies and other technologies and related applications, the expected impact of tariff changes on our business, financial condition and results of operations, the expected impact of new services on our business, financial condition and results of operations, and future developments in the telecommunications industry in Mainland China, including the restructuring of the industry and changes in government policies. The words anticipate, believe, estimate, expect, intend and similar expressions, as they relate to us, are intended to identify certain of such forward-looking statements. We do not intend to update these forward-looking statements.

These forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. Actual results may differ materially from information contained in the forward-looking statements as a result of a number of factors, including, without limitation:

changes in the regulatory policies of the Ministry of Information Industry of China and other relevant government authorities, which could affect, among other things, the granting of requisite government approvals, licenses and permits, interconnection and transmission line arrangements, tariff policies, capital investment priorities, and spectrum allocation;

the effect of competition on the demand for and price of our services;

changes in mobile telephony and related technologies, which could affect the viability and competitiveness of our mobile telecommunications networks; and

changes in political, economic, legal and social conditions in Mainland China, including, without limitation, the Chinese government's policies with respect to new entrants in the telecommunications industry, the entry of foreign companies into China's telecommunications market and China's economic growth.

In addition, our future network expansion and other capital expenditure and development plans are dependent on numerous factors, including, among others:

our ability to obtain adequate financing on acceptable terms;

the adequacy of currently available spectrum or the availability of additional spectrum;

the availability of transmission lines and equipment, and the availability of the requisite number of sites for locating network equipment, on reasonable commercial terms;

our ability to develop or obtain new technology and related applications; and

the availability of qualified management and technical personnel.

We do not intend to update these forward-looking statements.

**SIGNATURES**

**CHAIRMAN'S STATEMENT**

Dear Shareholders,

In the first half of 2005, whilst facing intense competition, the Group leveraged its premium and efficient network and economies of scale and brand advantages, implemented comprehensive refined management methods over its operating companies in Mainland China, strengthened its core competitiveness and adopted effective marketing strategies, thereby steadily enhancing customer satisfaction. The Group achieved commendable operating results. The continued growth of new subscriber base was maintained and the Group recorded robust development of new businesses. The Group's operating revenue sustained a relatively rapid growth. The Company preserved sound fundamentals, further consolidated its financial strengths and reaffirmed its market leading position.

The Group achieved remarkable financial results in the first half of 2005. In the six months ended 30 June 2005, the Group's operating revenue recorded a rapid growth and reached RMB114,547 million, representing an increase of 32.5 per cent. over the same period in the 2004 financial year. EBITDA reached RMB62,675 million, representing an increase of 27.2 per cent. over the same period last year. EBITDA margin was maintained at a relatively high 54.7 per cent. Profit attributable to shareholders reached RMB24,043 million, representing an increase of 27.7 per cent. from the same period in 2004, and the Company's earnings per share was RMB1.22, representing an increase of 27.1 per cent. compared with the same period in the prior year. The Group's capital structure is solid and the Group has sustained robust free cash flow. Following the acquisition of ten mobile telecommunications companies and other telecommunications assets in Mainland China a year ago, the Group actively promoted effective post-acquisition integration and the enhancement of management efficiency, whereby the solid business growth achieved by the newly-acquired companies made positive contributions to the Group's overall business growth. The Group's leading position in the mobile telecommunications market in Mainland China has been consolidated.

For ease of comparison, on the assumption that the Group's current structure of holding 31 operating subsidiaries had been in place since 1 January 2004, the Group's operating revenue, EBITDA and profit attributable to shareholders achieved in the first half of 2005 enjoyed an

increase of 16.8 per cent., 13.8 per cent., and 19.8 per cent., respectively over the combined operating revenue, EBITDA and profit attributable

to shareholders in respect of the 31 provinces, autonomous regions and municipalities during the same period of last year. It is pleasing to note that the Group's revenue attributable to its new businesses continued to grow rapidly, and it amounted to RMB22,557 million. Such revenue accounted for 19.7 per cent. of the Group's operating revenue, representing 4.2 percentage points higher from 15.5 per cent. for the full year of 2004 on a combined basis, and the revenue contribution of new businesses is increasingly notable.

During the first six months of 2005, the Group persisted in its strategic priority of business and service leadership, focused on brand promotion, improved differentiated sales and services capability, increased its market share and raised customer satisfaction. The Group also fostered and consolidated the long-term competitive advantages in brand, service, sales channel and terminal integration, honing itself for competition. In the first half of 2005, the Group demonstrated impressive market performance and secured its leading position in the market. While the Group's mobile telecommunications subscriber base maintained a rapid growth momentum, the development of new businesses was remarkable, with the Short Message Service or SMS maintaining stable growth, Color Ring and WAP businesses developing rapidly, and application businesses such as music and games maturing quickly. As at 30 June 2005, the Group's subscriber net increase reached 19.489 million, and its total subscriber base reached 224 million. Minutes of usage per user per month (MOU) enjoyed a stable increase and average revenue per user per month (ARPU) recorded only a moderate trend of decrease as a result of the revenue contributions from new businesses.

In the first half of 2005, the Group maintained its focus on brand development, and formulated individual promotion strategies for each of the GoTone, M-Zone and Shenzhouxing brands. The marketing focus for GoTone, M-Zone and Shenzhouxing is A+ business and service, business upgrade and brand image integration, respectively. The Group further consolidated and enhanced its brand advantages so that the three major brands were developed in a balanced and coordinated manner. At the same time, the consolidation and development of the Group's sales channels was satisfactorily enhanced and the management of sales channels was further improved. In respect of customer services, the Group has launched the Across Business Process programme, whereby the Company reorganised and standardised its service process, on the basis of the customer habitual behaviour. The consolidation of its customer services and sales channels and leverage of brand power resulted in the Group maintaining its high-value and corporate customers' loyalty level and raising customer satisfaction.

The Group boasted remarkable advantages in terms of network coverage and quality. In the first half of 2005, the Group's various network performance indicators continued to show excellent results, with the wireless connection rate of 99.1%. To better accommodate rapid business growth and increased voice usage volume, the Group actively rationalised its existing network resources, emphasised network optimisation with particular focus on areas of high usage volume, and effectively channel usage volume to improve peak hour network quality and network efficiency, so as to enhance the overall network capacity. The coverage of the Group's global roaming services was further extended. As of the end of June 2005, the Group's GSM global roaming services covered 191 countries and regions and GPRS roaming services covered 79 countries and regions, thereby maintaining the Group's leading business offering position.

In the first half of 2005, the Company emphasised its consolidated management over its operating subsidiaries. The Company implemented comprehensive refined management methods in the aspects of, among others, resource allocation, costs control, human resources and network management. The Company further strengthened and refined its performance appraisal systems. At the same time, the Company established and refined its supervisory mechanism, which facilitated its risk control. By comprehensively implementing a series of management reforms, the Group further enhanced its management efficiency and the overall execution capabilities. In the first half of 2005, the Company's management participated in various large global investors conferences and summit to introduce the Company's latest developments and strengthen its communications with investors. The Company also carried out a road show in Japan to the capital market and arranged for a reverse road show for analysts and fund managers at the operating subsidiaries in Mainland China, which allowed investors to gain a better and deeper understanding of the Company's management and operations. Furthermore, the Company organised a seminar on Wireless Data Business, which was attended by equipment platform vendors, service providers (SP), content providers

(CP) and handset suppliers. At the seminar, there was a detailed and thorough introduction to the operation process of the value chain of wireless data business and its business development. The series of actions taken by the Company reflected the Company's consistent practice of candid communications, truthful, accurate and timely disclosure of information.

The Company's outstanding performance has won popular recognition and acclaim. In the first half of 2005, the Company was again selected by the internationally-renowned Financial Times as one of the FT Global 500, ranking number 64 therein as compared to number 67 last year. The Company was selected and ranked number 128 in the The World's 2000 Biggest Public Companies by Forbes magazine. Taking into account the Company's sustained robust financial strength and stable capital structure, in July 2005, whilst revising upward China's sovereignty rating, Standard & Poor's also revised the Company's credit rating upward from BBB+/Positive Outlook to A-/Positive outlook, as a result of which, the Company has become the only Chinese company with a credit rating equivalent to the sovereignty rating, enjoying the highest corporate credit rating ever granted by Standard & Poor's to Chinese enterprises to date.

The Company holds in the highest regard the interests of its shareholders and the returns achieved for them, especially the minority shareholders. Having taken into account various relevant factors, including the Company's sustained sound corporate fundamentals and robust free cash flow position, the Board has resolved to pay an interim dividend in the amount of HK\$0.45 per share for the year 2005. At the same time, the Company proposes to set the dividend payout ratio at 39 per cent. for the full year of 2005. The Company considers that its strong free cash flow is capable of supporting the investments required to maintain the stable growth of the Company, while also providing shareholders with a favourable cash return. The Company will continue its efforts to achieve a sustainable and steadily increasing dividend over the longer term, with a view to generating the best possible returns for shareholders.

The continued rapid growth of Mainland China's domestic economy, the rise of urban and rural residents' disposable income and purchasing power as well as the increasing popularity and penetration of mobile telecommunications, provide the Group with tremendous development opportunities. The coverage of the Group's mobile telecommunications network extends to all the provinces, autonomous regions and municipalities in Mainland China. This brings about enormous market potential to the Group. The deepening of China's domestic reforms in various aspects will result in a more fair, open and transparent regulatory environment and more orderly and rational competition. This will foster a more healthy market environment for the Group. Meanwhile, the competition of telecommunications market in Mainland China is still intense, and the issuance of 3G licences may bring about changes in the industry.

Looking to the future, the Group sees both opportunities as well as challenges. The Group will persist in its defined development strategies, enhance its core competitiveness and expand its corporate influence, proactively leverage its economies of scale, implement refined management methods, optimise resource allocation and realise synergies through the integration of its 31 operating subsidiaries. The Group will consistently focus on its core mobile telecommunications business, consolidate its brand advantages, pioneer new businesses, and actively prepare for the commercial application of 3G mobile telecommunications technologies. As the only mobile telecommunications services partner for the 2008 Beijing Olympics, the Group will give its solid overall strength into full play, and provide premium mobile telecommunications businesses and services to help make this grand event a greater success. At the same time, the Group will promote rational and orderly competition to foster a healthy and favourable environment for the industry and will strive to develop in a comprehensive, balanced and sustainable manner, so as to provide an even better return for its shareholders and investors.

NOTES ON THE UNAUDITED INTERIM FINANCIAL REPORT

*(Expressed in Renminbi)*

**1. Basis of preparation**

The interim financial report has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, including compliance with the Hong Kong Accounting Standard ( HKAS ) 34 Interim financial reporting issued by the Hong Kong Institute of Certified Public Accountants ( HKICPA ).

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2004 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2005 annual financial statements. Details of these changes in accounting policies are set out in note 2.

The preparation of an interim financial report in conformity with HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

The interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2004 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with Hong Kong Financial Reporting Standards.

The interim financial report is unaudited, but have been reviewed by the Audit Committee of China Mobile (Hong Kong) Limited (the Company ) and by the auditors, KPMG, in accordance with Statement of Auditing Standards 700 Engagements to review interim financial reports , issued by the HKICPA. KPMG s unmodified independent review report to the board of directors is included in the interim report to be sent to shareholders.

The unaudited consolidated financial information of the Group for the six months ended 30 June 2005 includes the financial information of the Company, the mobile telecommunications subsidiaries in each of the thirty-one provinces, autonomous regions and municipalities in the PRC and other major subsidiaries including China Mobile Communication Company Limited, China Mobile Holding Company Limited, China Mobile (Shenzhen) Limited, Advanced Roaming & Clearing House Limited, Aspire Holdings Limited and its subsidiaries, Beijing P&T Consulting and Design Institute Company Limited for the six months ended 30 June 2005.

The unaudited consolidated financial information of the Group for the six months ended 30 June 2004 includes the financial information of the Company, the mobile telecommunications subsidiaries in each of the twenty-one provinces, autonomous regions and municipalities in the PRC and other major subsidiaries including China Mobile Holding Company Limited, China Mobile (Shenzhen) Limited, Aspire Holdings Limited and its subsidiaries for the six months ended 30 June 2004.

The financial information relating to the financial year ended 31 December 2004 that is included in the interim financial report as being previously reported information does not constitute the Group s statutory financial statements for that financial year but is derived from those

Edgar Filing: CHINA MOBILE HONG KONG LTD /ADR/ - Form 6-K

financial statements. Statutory financial statements for the year ended 31 December 2004 are available from the Company's registered office. The auditors have expressed an unqualified opinion on those financial statements in their report dated 11 March 2005.

## 2. Changes in accounting policies

The HKICPA has issued a number of new and revised Hong Kong Financial Reporting Standards (HKFRSs, which term collectively included HKASs and Interpretations) that are effective or available for early adoption for accounting periods beginning on or after 1 January 2005. Based on these HKFRSs in issue, the board of directors has made assumptions about the accounting policies expected to be adopted in the preparation of the Group's annual financial statements of the year ending 31 December 2005.

The HKFRSs that will be effective or are available for voluntary early adoption in the annual financial statements for the year ending 31 December 2005 may be affected by the issue of additional interpretation(s) or other changes announced by the HKICPA subsequent to the date of issuance of this interim report. Therefore the policies that will be applied in the Group's financial statements for that period cannot be determined with certainty at the date of issuance of this interim financial report.

The following sets out further information on the changes in accounting policies for the annual accounting period beginning on 1 January 2005 which have been reflected in this interim financial report.

(a) *Amortisation of positive and negative goodwill (HKFRS 3 Business combinations and HKAS 36 Impairment of assets )*

In prior years:

positive goodwill arising from acquisitions before 1 January 2001 was eliminated against reserves and was reduced by impairment losses recognised in the consolidated income statement;

positive goodwill arising from acquisitions on or after 1 January 2001 was amortised to the consolidated income statement on a straight-line basis over 20 years. Positive goodwill was stated in the consolidated balance sheet at cost less accumulated amortisation and any impairment losses;

negative goodwill arising from acquisitions before 1 January 2001 was credited to a capital reserve; and

negative goodwill which arose from acquisitions on or after 1 January 2001 was amortised over the weighted average useful life of the depreciable/amortisable non-monetary assets acquired, except to the extent is related to identified expected future losses as at the date of acquisition. In such cases it was recognised in the consolidated income statement as those expected losses were incurred.

With effect from 1 January 2005, in order to comply with HKFRS 3 and HKAS 36, the Group adopted a new accounting policy for goodwill. The Group no longer amortises positive goodwill. Such goodwill is tested annually for impairment, including in the year of its initial recognition, as well as when there are indications of impairment. Impairment losses are recognised when the carrying amount of the cash generating unit to which the goodwill has been allocated exceeds its recoverable amount.

With effect from 1 January 2005 and in accordance with HKFRS 3, if the fair value of the net assets acquired in a business combination exceeds the consideration paid (i.e. an amount arises which would have been known as negative goodwill under the previous accounting policy), the excess is recognised immediately in the consolidated income statement as it arises.

The new policy in respect of positive goodwill has been applied prospectively in accordance with the transitional arrangements under HKFRS 3. As a result, comparative amounts have not been restated, the cumulative amount of amortisation as at 1 January 2005 has been offset against the cost of the goodwill and no amortisation charge for goodwill has been recognised in the consolidated income statement for the six months ended 30 June 2005.

Also in accordance with the transitional arrangements under HKFRS 3, goodwill which had previously been taken into reserve (i.e. goodwill which arose before 1 January 2001) will not be recognised in the consolidated income statement on disposal or impairment of the acquired business, or under any other circumstances.

The change in policy relating to negative goodwill had no effect on the interim financial report as there was no negative goodwill deferred as at 31 December 2004.

As a result of the adoption of this accounting policy, the Group's profit for the six months ended 30 June 2005 has been increased by RMB1,000,000,000 and the net assets as at 30 June 2005 have been increased by RMB1,000,000,000.

*(b) Minority interest (HKAS 1 Presentation of financial statements and HKAS 27 Consolidated and separate financial statements )*

In prior years, minority interests at the balance sheet date were presented in the consolidated balance sheet separately from liabilities and as deduction from net assets. Minority interests in the results of the Group for the year were also separately presented in the consolidated income statement as a deduction before arriving at the profit attributable to equity shareholders.

With effect from 1 January 2005, in order to comply with HKAS 1 and HKAS 27, minority interests at the balance sheet date are presented in the consolidated balance sheet within equity, separately from the equity attributable to equity shareholders of the Company, and minority interests in the results of the Group for the period are presented on the face of the consolidated income statement as an allocation of the total profit or loss from ordinary activities after taxation for the period between the minority interests and the equity shareholders of the Company.

The presentation of minority interests in the consolidated balance sheet, consolidated income statement and consolidated statements of changes in equity for the comparative period has been restated accordingly.

*(c) Land use rights and buildings held for own use (HKAS 17 Leases )*

In prior years, land use rights and buildings held for own use were stated at cost less accumulated depreciation and impairment losses. Depreciation was calculated to write-off the cost of such assets on a straight-line basis over their estimated useful lives, to residual value.

## Edgar Filing: CHINA MOBILE HONG KONG LTD /ADR/ - Form 6-K

With effect from 1 January 2005, in order to comply with HKAS 17, land use rights held for own use are accounted for as being held under an operating lease where the fair value of the interest in any buildings situated on the leasehold land could be separately identified from the fair value of the land use rights at the time the lease was first entered into the Group, or taken over from the previous lessee, or at the date of construction of those buildings, if later.

Any pre-paid land premiums for acquiring the land use rights, or other lease payments, are stated at cost and are written off on a straight-line basis over the respective periods of the rights.

Any buildings held for own use which are situated on such land leases continue to be presented as part of property, plant and equipment.

The new accounting policy has been adopted retrospectively, no impact on the Group's net assets as at the period end/year end and on the Group's profit attributable to equity shareholders for the periods presented. Additional line item "Lease prepayments", which previously included in "Property, plant and equipment" and "Construction in progress" has been included on the face of consolidated balance sheet. Comparative figures of "Property, plant and equipment" and "Construction in progress" have been reclassified to conform with the current year's presentation. Depreciation and "Other operating expenses" in the unaudited income statement for the six months ended 30 June 2004 have also been restated.

*(d) Employee share option scheme (HKFRS 2 Share-based payment)*

In prior years, no employee benefit cost or obligation was recognised when employees (which term includes directors) were granted share options by the Group over shares in the Company. When the share options were exercised, equity was increased by the amount of the proceeds received.

With effect from 1 January 2005, in order to comply with HKFRS 2, the Group recognises the fair value of such share options as an expense in the consolidated income statement, or as an asset, if the cost qualifies for recognition as an asset under the Group's accounting policies. A corresponding increase is recognised in a capital reserve within equity.

Where the employees are required to meet vesting conditions before they become entitled to the options, the Group recognises the fair value of the options granted over the vesting period. Otherwise, the Group recognises the fair value in the period in which the options are granted.

If an employee chooses to exercise the options, the capital reserve is transferred to share capital and share premium, together with the exercise price. If the options lapse unexercised the capital reserve is transferred directly to retained earnings.

The new accounting policy has been applied retrospectively with comparatives restated in accordance with HKFRS 2, except that the Group has taken the transitional provisions set out in paragraph 53 of HKFRS 2 under which the new recognition and measurement policies have not been applied to the following grants of options:

all share options granted to employees on or before 7 November 2002; and

all share options granted to employees after 7 November 2002 but which had vested before 1 January 2005.

The amount charged to the consolidated income statement as a result of the adoption of this accounting policy increased personnel expenses for the six months ended 30 June 2005 by RMB697,000,000 with the corresponding amounts credited to the capital reserve.

Edgar Filing: CHINA MOBILE HONG KONG LTD /ADR/ - Form 6-K

The adoption of this accounting policy retrospectively did not have any impact to the consolidated income statement for the six months ended 30 June 2004 as all outstanding options as at 30 June 2004 were granted to employees on or before 7 November 2002 under which the new recognition and measurement policies are not applied.

Details of the share option scheme are presented in the Company's annual report for the year ended 31 December 2004 and the interim report to be sent to shareholders.

- (e) *Financial instruments (HKAS 32 Financial instruments: Disclosure and presentation and HKAS 39 Financial instruments: Recognition and measurement )*

In prior years, convertible notes and bonds were stated in the balance sheet at face value, less unamortised discount arose upon issuance. The discount was amortised on a straight-line basis over the period from the date of issue to the date of maturity.

With effect from 1 January 2005, and in accordance with HKAS 39, the following new accounting policies are adopted:

- (i) Convertible notes issued are split into their liability and equity components at initial recognition by recognising the liability component at its fair value and attributing to the equity component the difference between the proceeds from the issue and the fair value of the liability component. The liability component is subsequently carried at amortised cost. The equity component is recognised in the capital reserve until the note is either converted (in which case is transferred to share premium) or the note is redeemed (in which case it is released directly to retained profits).

This change was adopted by way of an adjustment to the opening balance of the retained profits as at 1 January 2005 of RMB8,000,000. Comparative amounts have not been restated as this is prohibited by the transitional arrangements in HKAS 39.

As a result of this new policy, profit for the six months ended 30 June 2005 for the Group has decreased by RMB1,000,000.

- (ii) Bonds issued are classified as liability at initial recognition at its fair value and is carried at amortised cost.

This change was adopted by way of an adjustment to the opening balance of retained profits as at 1 January 2005 of RMB25,000,000. Comparative amounts have not been restated as this is prohibited by the transitional arrangements in HKAS 39.

As a result of this new policy, profit for the six months ended 30 June 2005 for the Group has increased by RMB7,000,000.

### **3. Segment reporting**

No analysis of the Group's turnover and contribution to profit from operations by geographical segment or business segment has been presented as all the Group's operating activities are carried out in the People's Republic of China (the PRC) and less than 10 per cent. of the Group's turnover and contribution to profit from operations were derived from activities outside the Group's mobile telecommunication and related services activities. There is no other geographical or business segment with segment assets equal to or greater than 10 per cent. of the Group's total assets.

**4. Turnover**

Turnover represents usage fees, monthly fees and other operating revenue derived from the Group's mobile telecommunication networks, net of PRC business tax and government surcharges. Business tax and government surcharges are charged at approximately 3.0 per cent. of the corresponding revenue.

**5. Other operating revenue**

Other operating revenue mainly represents charges for wireless data and value-added services and interconnection revenue.

**6. Profit from ordinary activities before taxation**

Profit from ordinary activities before taxation is arrived at after charging:

**19. Related party transactions**

Following the completion of acquisition of the ten mobile telecommunications companies and other mobile telecommunications assets on 1 July 2004, the Group operates the mobile telecommunications services in all thirty-one provinces, autonomous regions and directly administered municipalities in the PRC. Prior to the acquisition, transactions entered into by the Group with the subsidiaries previously directly owned by the Company's ultimate holding company, CMCC, are considered as related party transactions. Following the acquisition, as these subsidiaries now become the members of the Group, these transactions are eliminated on a consolidated basis and therefore are not considered as related party transactions.

The following is a summary of principal related party transactions entered into by the Group with CMCC and its subsidiaries, excluding the Group, (CMCC Group), for the six months ended 30 June 2005.

**21. Post balance sheet events**

After the balance sheet date the directors declared an interim dividend. Further details are disclosed in note 8(a).

**22. Comparative figures**

Certain comparative figures have been adjusted as a result of the change in accounting policies, details of which are set out in note 2.

**DISCUSSION OF SELECTED ITEMS IN THE INTERIM RESULTS****1. Robust cash flow and solid capital structure**

As a result of encouraging business growth, active cost controls, the realisation of the benefits of economies of scale, effective controls over capital expenditure and the cash flow contribution from the ten mobile telecommunications companies and other telecommunications assets that were acquired in 2004, the Group continued to record strong free cash flow in the first half of 2005. The Group's free cash flow (net cash flow from operating activities after deducting capital expenditure incurred) for the first six-month period of 2005 was RMB40,770 million. As at 30 June 2005, the total cash and bank balances of the Group were RMB95,198 million, of which 88.7 per cent., 6.6 per cent. and 4.7 per cent. were denominated in RMB, US dollars and Hong Kong dollars, respectively.

As at 30 June 2005, the Group's debt to capitalisation ratio (capitalisation represents the sum of total debt and total equity) was approximately 14.8 per cent.

At the end of June 2005, short-term and long-term borrowings of the Group totaled RMB43,479 million, representing a decrease of RMB3,078 million from year-end 2004. Of the Group's borrowings, 15.9 per cent. will mature within one year, 6.9 per cent. will mature after two years but within five years, and 77.2 per cent. will mature after five years. 32.4 per cent. and 67.6 per cent. of the borrowings were denominated in RMB (mainly included RMB denominated bonds, bank loans, etc) and US dollars (mainly represented by convertible notes and the balance of deferred consideration for the acquisitions of assets in 2002 and 2004), respectively. 66.4 per cent. of the total borrowings of the Group were made at floating interest rates. The average interest rate of borrowings (ratio of interest expenses to the average balance of borrowings, including capitalised interest) of the Group was approximately 3.01 per cent. in the first half of 2005, whereas the interest coverage multiple (ratio of profit before interest and tax to interest expenses) amounted to 52 times.

The Group will continue to pursue prudent financial policies, strictly control financial risks, maintain its strong cash-flow generating capability, realise its competitive advantages, allocate its resources in a scientific manner, maintain a prudent debt policy, lower its overall cost of capital and reinforce and develop favourable economic efficiency, with a view to generating greater returns for our shareholders.

## **2. Capital expenditure**

The Group's capital expenditure for the first half of 2005 totaled approximately US\$3.1 billion, which was mainly used for the construction of GSM networks, support systems, transmission facilities, infrastructure buildings and for the development of new technologies and new businesses. Capital expenditure was financed primarily by cash flow generated from operations. The Group will continue to pursue rational investments and cautiously consider the cost efficiency of any capital investment, with a view to ensuring favourable investment returns.

## **3. Personnel expenses**

The Group augmented its efforts in human resources reform and enhanced closed-loop management of budget, performance evaluation and remuneration. While retaining and attracting talented staff, personnel expenses were satisfactorily controlled. The Group employed a total of 93,415 employees as of 30 June 2005. Personnel expenses for the first half of 2005 were RMB6,723 million, represented 5.9 per cent. of the Group's total operating revenue. In order to align the interests of staff with those of shareholders, the Group adopted a share option scheme to grant share options to employees, the Group retrospectively recognised such share options as personnel expenses at fair value as required under Hong Kong Financial Reporting Standard 2 "Share-based Payment". After deducting the expenses recognised in the first half of 2005 for share options amounted to RMB697 million, personnel expenses of the Group for the period were RMB6,026 million, represented 5.3 per cent. of the Group's total operating revenue. Further details of the share option scheme and the share options granted are set forth in Note 18 of the Notes on the Unaudited Interim Financial Report and in the section "Other Information - Directors, Chief Executives and Employees - Rights to Acquire Shares" in the interim report to be sent to shareholders.

## **NEW DEVELOPMENTS AND PROSPECTS**

On 21 July 2005, the "Public Announcement of the People's Bank of China on Reforming the RMB Exchange Rate Regime" was published. The Company considers that from the current perspective, the effect of the RMB exchange rate adjustment on the Company is positive.

Edgar Filing: CHINA MOBILE HONG KONG LTD /ADR/ - Form 6-K

The growth in subscriber base, voice usage volume, turnover and profit all exceeded the Group's expectation, indicating that a very large market potential still exists. In order to capture this opportunity, the Group has appropriately increased the full year capital expenditure budget for 2005 and the increase is expected to be controlled within 15% of the original budgeted amount of US\$7.8 billion.

In the second half of 2005, the Group will continue to undertake further market segmentation, refine its branding strategies, emphasise differentiated services, consolidate and develop mid to high-value customers, provide quality services and implement refined management methods. The Group will also endeavour to reduce operating costs, enhance overall operating efficiency and improve management and control over terminals and marketing and sales channels. In addition, the Group will fully realise the potential of Mainland China's mobile telecommunications market, emphasise on the development of new businesses, actively prepare for the launching of 3G and strive to maintain its long term growth.

#### **PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES**

During the six months ended 30 June 2005, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities.

#### **AUDIT COMMITTEE**

The Audit Committee reviewed with management the accounting principles and practices adopted by the Group and discussed auditing, internal control and financial report matters including the review of the unaudited interim report for the six months ended 30 June 2005.

#### **COMPLIANCE WITH THE CODE PROVISIONS OF THE CODE ON CORPORATE GOVERNANCE PRACTICES**

Throughout the six months ended 30 June 2005, other than the requirements relating to the preparation and content of a Corporate Governance Report (which will come into effect in respect of the Company's annual report for the financial year ending 31 December 2005) and that the roles of the Chairman and the Chief Executive Officer are performed by Mr. Wang Jianzhou, the Company has complied with all the code provisions of the Code on Corporate Governance Practices as set out in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the Listing Rules).

Mr. Wang Jianzhou joined the Board of Directors of the Company in November 2004 and has been the Chairman and the Chief Executive Officer of the Company since his appointment to the Board. Mr. Wang is in charge of the overall management of the Company.

The Company considers that the combination of the roles of Chairman and Chief Executive Officer can promote the efficient formulation and implementation of the Company's strategies which will enable the Group to grasp business opportunities efficiently and promptly. The Company considers that through the supervision of its Board and its Independent Non-executive Directors, a balancing mechanism exists so that the interests of the shareholders are adequately and fairly represented.

#### **COMPLIANCE WITH THE MODEL CODE**

The Company has adopted the Model Code as set out in Appendix 10 to the Listing Rules. All directors have confirmed, following enquiry by the Company, that they have complied with the required standard set out in the Model Code throughout the period from 1 January 2005 to 30

June 2005.
