Audit Committee

The Company has established a standing Audit Committee. The Audit Committee provides oversight of (i) the financial reporting process, the system of internal financial controls and the audit process of BioMarin; and (ii) BioMarin's independent registered public accounting firm. The Audit Committee also recommends to the Board the appointment of the independent registered public accounting firm for BioMarin. The members of the Audit Committee are: Mr. Cristiani, Chairman, Dr. Heron and Mr. Klein. Each of the members of the Audit Committee is an audit committee financial expert as defined by Nasdaq and Securities and Exchange Commission rules and, as required by the Audit Charter, is an independent Director. The committee charter is available in the investors section of the Company's website at www.bmm.com. Information on the Company's website is not incorporated by reference in this report.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended (the Exchange Act), requires the Company's Directors and officers and persons who own more than 10% of a registered class of the Company's equity securities to file reports of ownership and reports of changes in the ownership with the Securities and Exchange Commission. Executive officers, Directors and greater than 10% stockholders are required by the Securities and Exchange Commission to furnish the Company with copies of all Section 16(a) forms they file.

To the best of the Company's knowledge, except as noted in the following sentence, based solely on a review of the copies of such reports furnished to the Company or written representation that no other reports were required, during the fiscal year ended December 31, 2005, all officers, Directors, and greater than 10% stockholders complied with all Section 16(a) filing requirements. Mr. Grey's initial Form 4 disclosing his option grant on appointment to the Board was filed approximately one week late.

Standards of Business Conduct and Ethics

The Board has adopted Standards of Business Conduct and Ethics which are applicable to all employees and Directors, including the Company's Chief Executive Officer, Chief Financial Officer, other executive officers and senior financial personnel. A copy of the Company's Standards of Business Conduct and Ethics is available on the Company's website at www.bmrn.com. Information on the Company's website is not incorporated by reference in this report. The Company intends to post any waiver of or material changes to these Standards, if any, to its website within five business days of such event.

- (1) Based on an aggregate of 2,712,471 shares subject to options granted by BioMarin during fiscal year 2005 to employees, consultants and the Named Executive Officers.
- (2) Options were granted at an exercise price equal to the closing price of BioMarin's common stock on Nasdaq on the date of the grant.
- (3) The 5% and 10% assumed annual rates of compounded stock price appreciation are mandated by rules of the Securities and Exchange Commission. The actual stock price over the option term could be substantially more or less than the assumed 5% and 10% levels included in the table. Unless the market price of the Company's common stock appreciates over the option period, no value will be realized from the option grants made to the Named Executive Officers. The potential realizable value is calculated by assuming that the closing price per share on the date of grant appreciates at the indicated rate for the entire term of the option and that the option is exercised at the exercise price and sold on the last day of its term at the appreciated price. The potential realizable value computation is net of the applicable exercise price, but does not take into account applicable federal or state income tax consequences and other expenses of option exercises. The values shown do not consider non-transferability or termination of the options upon termination of such employee's employment.

Fiscal 2005 Option Exercises and Option Value Table

The following table sets forth the number of shares covered by both exercisable and unexercisable stock options held by each of the Named Executive Officers and certain information with respect to options exercised by the Named Executive Officers during the Company's fiscal year 2005.

Employment Agreements

BioMarin is party to employment agreements with Mr. Bienaimé, Dr. Baffi, Dr. Kakkis and Dr. Swiedler on the terms set forth in the chart below. Each of these employment agreements, other than Mr. Bienaimé's agreement, is terminable without cause by BioMarin upon six months prior written notice to the officer, or by the officer upon three months prior written notice to BioMarin. BioMarin is obligated to pay each of the officers' salary and benefits until termination. In addition, with respect to Drs. Baffi, Kakkis and Swiedler, if any of them is involuntarily terminated within one year of a change of control, he is entitled to receive from the Company a severance payment equal to six months of his then-current annual salary and fifty percent of the annual bonus that he would otherwise be entitled to receive for the calendar year in which he was involuntarily terminated, and fifty percent of the then-unvested portion of all of his options in the Company shall immediately vest. With respect to Mr. Cooper, his employment is terminable by the Company or by Mr. Cooper at will. Each of the Named Executive Officers other than Mr. Bienaimé is entitled to receive benefits under the Company's Severance Plan, described below.

With respect to Mr. Bienaimé's employment agreement, the Company can terminate the agreement at any time upon written notice to Mr. Bienaimé. If the Company terminates Mr. Bienaimé's employment without cause or if Mr. Bienaimé resigns for good reason or becomes permanently disabled while employed by the Company or if the Company files bankruptcy, Mr. Bienaimé will be entitled to receive: (i) cash compensation in an amount equal to his then current annual base salary as of the date of termination for a period of 18 months; (ii) a cash bonus equal to 100 percent of his target bonus for such year provided that the senior vice presidents of the Company are paid bonuses under the Company's bonus plan for the year of his termination, and provided that certain performance goals are met; (iii) a continuation of all Company-paid health benefits for a period of 18 months after the date of termination; (iv) reimbursement of up to \$18,000 for outplacement services; and (v) automatic vesting of all options granted to Mr. Bienaimé that have not vested as of the date of termination. If Mr. Bienaimé has been employed by the Company for more than 3 years as of the date of termination, the applicable period for purposes of clauses (i) and (iii) of this paragraph will be 24 months instead of 18 months.

If the Company terminates Mr. Bienaimé's employment without cause or if Mr. Bienaimé resigns for good reason or becomes permanently disabled while employed by the Company, in any such case following a change

of control of the Company, Mr. Bienaimé will be entitled to receive: (i) cash compensation in an amount equal to the present value of his then current annual base salary that he would have collected over the 24 month period following the date of termination; (ii) a cash bonus equal to 100 percent (250 percent if employed for more than 3 years) of his target bonus for such year provided that the senior vice presidents of the Company are paid bonuses under the Company's bonus plan for the year of his termination, and provided that certain performance goals are met; (iii) a continuation of all Company-paid health benefits for a period of 24 months after the date of termination; (iv) a cash payment of \$18,000 for outplacement services (plus an amount for taxes payable on such cash payment); (v) the fully-paid whole life insurance policy with a stated death benefit of \$500,000 maintained for Mr. Bienaimé (plus an amount for taxes payable on imputed income and such amount for taxes); (vi) a cash payment of up to \$5,000 for tax preparation (plus an amount for taxes payable on such cash payment); (vii) the Company's annual contribution to Mr. Bienaimé's 401k plan for the year of termination to the extent allowable; and (viii) automatic vesting of all options granted to Mr. Bienaimé that have not vested as of the date of termination. If Mr. Bienaimé has been employed by the Company for more than 3 years as of the date of termination, the applicable period for purposes of clauses (i) and (iii) of this paragraph will be 30 months instead of 24 months.

If amounts payable to Mr. Bienaimé as the result of a change of control of the Company would result in a parachute payment under Section 280G of the Internal Revenue Code of 1986, as amended (the Code), which would be subject to an excise tax under Code Section 4999, or interest or penalties are incurred with respect to such excise tax, the Company will pay Mr. Bienaimé an additional payment such that, after payment by Mr. Bienaimé of all taxes imposed upon this payment and any interest or penalties imposed with respect to such taxes, Mr. Bienaimé retains an amount equal to the sum of: (i) the excise tax (including interest and penalties) imposed; and (ii) the product of any income tax deductions disallowed to Mr. Bienaimé because of the inclusion of the payment in his adjusted gross income, and the highest applicable marginal rate of federal income taxation for the calendar year in which the payment is to be made.

- (1) 2005 Annual Salary Rate reflected in the above table reflects 2005 annual salary rate as of December 31, 2005. The table entitled Summary Compensation Table reflects actual salaries paid in 2005 and includes mid-year salary adjustments.
- (2) Options in this table were granted on commencement of employment for each individual.
- (3) Mr. Drapeau retired on October 31, 2005.
- (4) Dr. Starr retired on December 31, 2005.

In January 2004, the Company instituted a Severance Plan that is applicable to each of the officers listed in the table above. This policy was amended and restated in March 2005. Under the plan, on a change of control, vesting of all employee options under the 1997 Option Plan is accelerated in full, which is unchanged from the plan adopted in January 2004. Further, upon an involuntary termination on or within one year of a change of control, employees are entitled to receive certain specified benefits consisting of cash severance and a continuation of employee benefits. Under the plan, Senior Vice Presidents and Vice Presidents who are not offered a position or who decline an offer of employment from the successor company are entitled to receive one year of benefit continuation and a severance payment equal to one year of base salary. If voluntarily terminated by the successor company, Vice Presidents are entitled to receive 10.5 months of benefit continuation and a

severance payment equal to 10.5 months of base salary. Senior Vice Presidents and Vice Presidents are entitled to the greater of the actual bonus paid for the prior year or the target bonus payable for the current year. Benefits payable under this policy may be reduced for employees who are entitled to severance benefits under separate arrangements with the Company to avoid the payment of duplicate benefits.

On December 1, 2005, following approval by the Company's Compensation Committee and the Board on November 28, 2005, the Company entered into the BioMarin Pharmaceutical Inc. Nonqualified Deferred Compensation Plan (the "Deferred Compensation Plan"). The Deferred Compensation Plan allows members of management, other highly compensated employees and members of the Board to make voluntary irrevocable deferrals of the compensation that they would otherwise be paid by the Company to specified future dates, employment termination, hardship events, disability, retirement or death. Participants are permitted to defer up to 100% of salary, annual cash bonus and restricted stock awards, subject to limitations to allow the Company to make necessary withholding payments. Plan participants' deferred compensation is 100% vested under the Deferred Compensation Plan. The Company may make additional direct contributions to the Deferred Compensation Plan for the benefit of the participants, but any such Company contributions must be approved by the Board. Company contributions, if any, will become 100% vested after 3 years of service with the Company (or such other time as the Company designates at the time of the contribution), or upon a change of control, death or disability. Participants have an unsecured contractual commitment by the Company to pay the amounts that become due under the Deferred Compensation Plan. Deferred compensation may be held in trust and is deemed invested based on participant direction as allowed by the Deferred Compensation Plan. Any funds held in a trust will be the sole property of the Company, subject to any claims of general creditors in the event of bankruptcy, and plan participants will have no vested interest with respect to such trust fund.

The Company has adopted a form of indemnification agreement to be entered into between BioMarin and each of its executive officers and Directors. This indemnification agreement requires the Company, among other things, to indemnify executive officers and Directors against liabilities that may arise by reason of their status or performance of their duties as executive officers or Directors and to advance their expenses incurred as a result of any proceeding against them as to which they could be indemnified. For a description of other transactions between BioMarin and its affiliates, see *Certain Relationships and Related Transactions*.

Section 162(m)

The Company has considered the potential future effects of Section 162(m) of the Internal Revenue Code on the compensation paid to its executive officers. Section 162(m) disallows a tax deduction for any publicly held corporation for individual compensation exceeding \$1.0 million in any taxable year for any of the Named Executive Officers, unless compensation is performance-based. The Company has adopted a policy that, where reasonably practicable, it will seek to qualify the variable compensation paid to its executive officers for an exemption from the deductibility limitations of Section 162(m).

1998 Director Option Plan

The 1998 Director Option Plan was adopted by the Board in December 1999. It was approved by BioMarin's stockholders as of January 15, 2000. The 1998 Director Option Plan provides for the grant of nonstatutory stock options to non-employee Directors. A total of 1,489,650 shares of BioMarin common stock have been reserved for issuance under the 1998 Director Option Plan. The 1998 Director Option Plan also

provides for an annual increase in this number of shares equal to the lesser of: (i) 0.5% of BioMarin's outstanding common stock; (ii) 200,000 shares; or (iii) a lesser amount determined by the Board.

In fiscal year 2005, options to purchase, in the aggregate, 210,000 shares were issued to Directors under the 1998 Director Option Plan.

The 1998 Director Option Plan, as amended in 2003 and May 2004, provides that each non-employee Director shall automatically be granted an initial option and subsequent annual options to purchase 30,000 shares of BioMarin common stock on the date that such person first becomes a non-employee Director and on each anniversary of the date of the non-employee Director's appointment to the Board. These options have a term of 10 years. The shares subject to these options vest quarterly over one year. These options continue to vest only while the Director serves. The exercise price per share of each of these options is 100% of the fair market value of a share of BioMarin's common stock at the date of the grant of the option.

In the event of a merger or the sale of substantially all of the assets of BioMarin, each option issued under the 1998 Director Option Plan may be assumed or substituted by the successor corporation. If an option is assumed or substituted, it shall continue to vest as provided in the 1998 Director Option Plan. However, if a non-employee Director's status as a Director of BioMarin or the successor corporation, as applicable, is terminated, other than upon a voluntary resignation by the non-employee Director, the option immediately becomes fully vested and exercisable. If the successor corporation does not agree to assume or substitute options, each option becomes fully vested and exercisable for a period of 30 days from the date the Board notifies the optionee of the option's full exercisability, after which period the option terminates.

Options granted under the 1998 Director Option Plan are required to be exercised within three months of the end of the optionee's tenure as a Director, or within 12 months after termination by death or disability, or within the original option expiration if the Director retires from the Board after having served 4.5 years, but in no event later than the expiration of the option's ten-year term. No option granted under the 1998 Director Option Plan is transferable by the optionee other than by will or the laws of descent or distribution. Each option is exercisable, during the lifetime of the optionee, only by the optionee. Unless sooner terminated by the Board, the 1998 Director Option Plan will terminate automatically 10 years from the effective date of the 1998 Director Option Plan.

Compensation Committee Interlocks and Insider Participation

During all of 2005, and through the date of this report, the Compensation Committee consisted of three of the Company's independent Directors. From January 2005 through June 2005, the members of the Committee were Dr. Urquhart (Chair) and Messrs. Sager and Lapalme. At the end of June, 2005, following the Annual Meeting of Stockholders, the members of the Committee were Mr. Sager (Chair), Mr. Lapalme and Dr. Lewis. Effective March 1, 2006, the Compensation Committee consists of Dr. Lewis (Chair) and Messrs. Grey and Lapalme. None of the members of the Compensation Committee: (i) was an officer or employee of the Company or any of its subsidiaries during the last or current fiscal year; (ii) was formerly an officer of the Company or any of its subsidiaries; or (iii) had any relationships requiring disclosure by the Company under the SEC's rules requiring disclosure of certain relationships and related party transactions. None of the Company's executive officers serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on the Board or Compensation Committee.

The following is not deemed filed with the Securities and Exchange Commission and is not to be incorporated by reference into any filing of the Company under the Securities Act of 1933 or the Securities Exchange Act of 1934, whether made before or after the date hereof and irrespective of any general incorporation by reference language in such filing.

REPORT OF COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

The Compensation Committee is responsible for setting general compensation goals and operational guidelines for BioMarin personnel, for setting all elements of the compensation of the executive officers of BioMarin, and for approving grants of stock options for officers of BioMarin. During 2005, the Compensation Committee was composed of three members of the Board. The Compensation Committee meets at regular intervals during the year, and holds additional meetings as necessary. The Compensation Committee met four times in 2005.

Compensation Goals and Policies

The goal of BioMarin's compensation policies is to provide compensation sufficient to attract, motivate and retain executives and staff of outstanding ability and potential. Compensation policies are intended to establish an appropriate relationship between executive compensation and the creation of stockholder value as measured by the equity markets. BioMarin uses the following principles to help achieve that goal:

- (1) BioMarin provides competitive compensation packages incorporating all compensation elements for executives and staff based upon BioMarin's internal policies and compensation packages at similarly situated U.S. pharmaceutical and biotechnology companies.
- (2) BioMarin rewards executives and senior staff for outstanding performance by the individual and by BioMarin.
- (3) BioMarin seeks to align the long-term interests of the stockholder and the executives and the senior staff through the use of employee stock options and other stock price related compensation, such as its Employee Stock Purchase Program.

2005 Compensation

In 2005, the Compensation Committee continued to use an independent consultant to provide expertise in various matters that come before the Committee, including the review and analysis of executive compensation at BioMarin. The levels of compensation at competitor companies, based upon compensation surveys, were used for comparison in establishing the Company's executive compensation and cash and long-term equity compensation bonus plans. The primary comparator companies consisted of biotechnology companies with market capitalization between \$500 million and \$1.5 billion, with emphasis given to companies located in the San Francisco Bay Area.

Increases in base salary for 2005 were made effective January 1, 2005 primarily based on the progress and achievements of BioMarin during 2004 and competitive conditions in the job marketplace for biotechnology expertise in the San Francisco Bay Area marketplace. The Compensation Committee noted the achievements during 2004, including the completion of the clinical program for Naglazyme and filing of the marketing application for Naglazyme and the very substantial progress achieved in the development of Phenoptin. However, the Compensation Committee also noted the disappointing results associated with Orapred sales and the overall slight decline in the Company's share price.

Edgar Filing: BIOMARIN PHARMACEUTICAL INC - Form 10-K/A

Based on the substantial efforts associated with the positive events, the Committee provided option grants to most staff below the rank of officer. Additionally, for this group, at the beginning of 2005, cash compensation was increased by an average of 6.2%, which was intended to bring compensation closer to the averages for the biotechnology industry in the San Francisco Bay Area. Additionally, in the middle of 2005, the Compensation

Committee approved additional salary increases for employees that were significantly below the industry average. This was deemed to be appropriate in order to ensure that the Company is able to hire and retain qualified individuals.

With respect to officer salary, the Compensation Committee determined, based on the factors described above, with the concurrence of the officers, that it was appropriate not to grant the officers any salary increase or cash bonus for performance during 2004 and therefore there were no changes to cash compensation for 2005. However, to better align the officers' compensation to creating shareholder value, the officers were given stock option grants in January 2005 appropriate for their positions.

Additionally, in order to make the Company's overall compensation structure more competitive with peer companies, during 2005, the Compensation Committee established a company-wide cash bonus program. The program had specific performance metrics approved by the entire Board, which included both product program development milestones and financial performance goals. The funding of the program was based on achieving these goals and, in March 2006, the Compensation Committee, in applying these metrics, funded 91% of the targeted bonus. The individual pay-outs were based on employee level and individual performance ratings. Employees with sub-standard performance ratings were not entitled to receive a bonus.

Actions Related to 2006 Compensation

In December 2005, the Compensation Committee considered officers' compensation packages. It was determined that the officers' total compensation packages were generally significantly below the average for peer companies. Further, the Compensation Committee noted that officers had led the company through very significant accomplishments during 2005, including the successful launch of Naglazyme, the creation of the partnership with Serono and the substantial progress with Phenoptin. Based on these factors, the Compensation Committee determined to grant the officers both salary increases and stock option awards effective in January 2006.

Further, the Compensation Committee believes that the cash bonus program was highly successful at motivating performance, reducing turnover and attracting qualified employees. Accordingly, the Compensation Committee and the full Board renewed the cash bonus program and updated the performance metrics based on goals for 2006.

Chief Executive Officer Compensation

In May 2005, the Company hired Jean-Jacques Bienaimé as the Company's Chief Executive Officer. His employment package was negotiated with the help of an independent compensation consultant. The Compensation Committee considered Mr. Bienaimé's extensive qualifications and demonstrated ability to create long term stockholder value at his prior companies. Based on these factors, the Compensation Committee and the full Board approved Mr. Bienaimé's employment agreement.

The Compensation Committee believes that the foregoing actions are recognition for and appropriate to the Company's achievements. The Compensation Committee further believes that the above authorized compensation actions based upon BioMarin achievements and competitive compensation levels will serve to help retain a highly qualified and motivated staff led by excellent senior management that is a requirement for the prosperity of BioMarin and the creation of stockholder value.

- (1) Does not include any shares of BioMarin common stock issuable under its 1998 Employee Stock Purchase Plan. The Company issues shares under this plan once every six months based on employee elections in the preceding six months. Pursuant to the terms of this plan, the number of shares to be issued and the price per share is not determined until immediately before the date of issuance.
- (2) Includes options and shares of common stock issuable pursuant to BioMarin's 1997 Stock Plan, as amended, 1998 Director Option Plan as amended and 1998 Employee Stock Purchase Plan. Pursuant to the terms of these plans, the number of shares of common stock available for future issuance under these plans increases on the first day of each fiscal year of the Company or January 1 of each year. On the first day of each of the Company's fiscal years, the common stock available for future issuance under the 1997 Stock Plan increases by the lesser of: (i) 4% of the then outstanding capital stock of BioMarin; (ii) 2,000,000 shares; or (iii) a lower amount set by the Company's Board. On the first day of each of the Company's fiscal years, the common stock available for future issuance under each of the 1998 Director Option Plan and the 1998 Employee Stock Purchase Plan increases by the lesser of: (i) 100,000 shares in the case of the 1998 Employee Stock Purchase Plan and 200,000 shares in the case of the 1998 Director Option Plan; (ii) 0.5% of the then outstanding capital stock of BioMarin; or (iii) a lower amount set by the Company's Board.

Item 13. Certain Relationships and Related Transactions**Certain Relationships And Related Transactions**

Since January 1, 2005, there has not been nor is there currently proposed any transaction or series of similar transactions to which the Company was or is to be a party in which the amount involved exceeds \$60,000 and in which any Director, executive officer, holder of more than 5% of the common stock of the Company or any member of the immediate family of any of the foregoing persons had or will have a direct or indirect material interest other than: (i) compensation agreements and other arrangements, which are described elsewhere in this form; and (ii) the transactions described below.

Transactions with Directors, Executive Officers and 5% Stockholders

The Company's Chief Medical Officer, Emil D. Kakkis, M.D., Ph.D. held an adjunct faculty position with Harbor-UCLA Research Educational Institute (REI) for purposes of conducting research. REI licenses certain intellectual property and provides other research services to the Company. The Company is also obligated to pay REI royalties on future sales of products covered by the license agreement. Minimum annual royalties payable to REI are \$25,000. The Company paid REI approximately \$0.3 million and \$0.1 million in 2004 and 2005, respectively, primarily for research and certain related license fees. The Company's joint venture with Genzyme

is subject to a second agreement with REI that requires the joint venture to pay REI a royalty on sales of products covered by the license agreement through November 2019, of which Dr. Kakkis is entitled to certain portions, based on net sales of Aldurazyme per the terms of the agreement. The license agreement was effective before Dr. Kakkis was an officer of the Company. Pursuant to these agreements, Dr. Kakkis was entitled to approximately \$498,000 and \$888,000 during 2004 and 2005, respectively.

In February 2006, BioMarin transferred the intellectual property associated with the former NeuroTrans program to a new company formed by BioMarin's former Chief Scientific Officer and founder, Dr. Christopher Starr. NeuroTrans is a platform technology intended to allow for large molecule therapeutics, such as proteins, to be transported across the blood-brain barrier. The terms of the transaction were negotiated after Dr. Starr had retired from the Company. In consideration for the assignment, BioMarin will be entitled to receive milestones and royalties on net sales, if the technology is successfully developed. The milestones are not material to BioMarin unless the technology completes a successful Phase 3 clinical trial.

Indebtedness Of Directors And Executive Officers

No Director or executive officer of the Company or associate of any Director or executive officer is or at any time since January 1, 2005 has been indebted to the Company.

Item 14. Principal Accountant Fees and Services

Independent Registered Public Accounting Firm

Since June 11, 2002, KPMG LLP has been BioMarin's independent registered public accounting firm. The following is a summary of the fees and services provided for the fiscal years 2005 and 2004.

Description of Services Provided by KPMG LLP	Year Ended December 31, 2005	Year Ended December 31, 2004
<i>Audit Fees</i>	\$ 607,000	\$ 777,137
<i>Audit Related Fees:</i> These services primarily involved review and assurance services associated with certain regulatory filings (for fees incurred in 2005) the Company's debt and equity offerings and related regulatory filings (for fees incurred in 2004).	\$ 54,800	\$ 23,401
<i>Tax Compliance Fees:</i> These services related to the preparation of federal, state and foreign tax returns and other filings.	none	\$ 51,246
<i>Tax Consulting and Advisory Services:</i> These services primarily relate to the area of tax strategy and minimizing Federal, state, local and foreign taxes.	none	none
<i>All Other Fees</i>	none	none

As provided in the Audit Committee charter, the Audit Committee pre-approves all services provided by its independent registered public accounting firm. All of the above services and estimates of the expected fees were reviewed and approved by the Audit Committee before the respective services were rendered.

The Audit Committee has considered the nature and amount of the fees billed by KPMG LLP and believes that the provision of the services for activities unrelated to the audit is compatible with maintaining KPMG LLP's independence.
