Here is some important information regarding the Annual Meeting and this Proxy Statement:

**What am I voting on?**

- (1) To elect eight directors to hold office until the next Annual Meeting or until their successors are duly elected and qualified. The nominees are:

Mr. John D. Poe  
Mr. Rockell N. Hankin  
Mr. Glen M. Antle  
Mr. James P. Burra

Mr. James T. Lindstrom  
Mr. Mohan R. Maheswaran  
Gen. John L. Piotrowski USAF (Ret.)  
Mr. James T. Schraith

- (2) To ratify the appointment of Ernst & Young LLP as the independent registered public accountant for the Company.

**Who is entitled to vote?**

Stockholders as of the close of business on April 21, 2006 (the Record Date ) are entitled to vote and are entitled to attend the Annual Meeting. Each stockholder is entitled to one vote for each share of common stock held on the Record Date. Stockholders do not have the right to cumulate votes.

**How do I vote?**

Indicate your voting preferences on the proxy, sign and date it, and return it in the prepaid envelope. If you return your signed proxy but do not indicate your voting preferences, we will vote FOR the two proposals on your behalf. You have the right to revoke your proxy any time before the meeting by (1) notifying the Company's Secretary, or (2) returning a later-dated proxy. You may also revoke your proxy by voting in person at the meeting.

**What does it mean if I get more than one proxy card?**

It means you hold shares registered in more than one account. You must return all proxies to ensure that all your shares are voted.

**Who will count the vote?**

Mellon Investor Services will tabulate the votes and act as inspector of election.

**What constitutes a quorum?**

A majority of the outstanding shares present or represented by proxy constitutes a quorum for the Annual Meeting. As of the Record Date, 72,279,913 shares of Semtech Corporation common stock were issued and outstanding. Proxies submitted by brokers that do not indicate a vote

## Edgar Filing: SEMTECH CORP - Form DEF 14A

for some of the proposals because the holders do not have discretionary voting authority and have not received instructions from the beneficial owners on how to vote on those proposals are called broker non-votes. Abstentions and broker non-votes are each

included in the determination of shares present and voting, with each tabulated separately. Abstentions are counted in tabulations of votes cast on proposals presented to the stockholders, whereas broker non-votes are not counted for purposes of determining whether a proposal has been approved.

**How many votes are needed for approval of each item?**

Directors will be elected by a plurality of the votes cast in person or by proxy at the Annual Meeting, meaning the eight nominees receiving the most votes will be elected directors. A stockholder may not cumulate his or her votes for individual directors. The selection of our independent registered public accountant will be ratified if a majority of the votes present in person or by proxy are voted in favor of the proposal.

**What percentages of stock do the directors and officers own?**

Together, they own approximately 8.7% of Semtech common stock as of April 3, 2006. See the section titled Beneficial Ownership of Securities.

**Who are the largest principal shareholders?**

## CORPORATE GOVERNANCE

### Independence

The Board is comprised of a majority of independent Directors. The Board has determined that Directors Antle, Burra, Hankin, Lindstrom, Piotrowski and Schraith are independent under the Marketplace Rules of The NASDAQ Stock Market, Inc. ( NASDAQ ), as well as in the assessment of the Board. The Board has determined that Directors Poe and Maheswaran do not meet the independence standards due to current or recent employment by the Company.

### Code of Conduct

The Board has adopted a written Code of Conduct that applies to the Directors and everyone in the Company, including the Chief Executive Officer and Chief Financial Officer. The Code of Conduct is the Company's written code of ethics under NASDAQ and SEC rules and was filed with the SEC as Exhibit 14 to the Company's Form 10-K for fiscal year 2004 and is also posted on the Company's website.

### Time Commitment Guidelines

Directors are expected to devote sufficient time to the Board and its committees to carry out their duties and responsibilities effectively. It is expected that each Director will be available to attend all meetings of the Board and any committees on which the Director serves, as well as the Company's annual meeting of shareholders.

The Board believes that service on the boards of other companies, and of civic and charitable organizations, enhances the experience and perspective of Directors. However, Directors are encouraged to limit the number of other boards on which they serve, in order to avoid the possibility of time or business conflicts and to maximize their participation and effectiveness on the Board.

Directors are expected to advise the Company in advance of accepting an invitation to serve on the board of another public company or any assignment to the audit committee or compensation committee of the board of any public company.

To ensure that all members of the Board have sufficient time to devote proper attention to their responsibilities to the Company, Directors are subject to the following limitations unless the Board determines that simultaneous service on additional boards would not impair the Director's ability to serve effectively on the Company's Board:

Directors who are executive officers of the Company may serve on the boards of no more than two other public or private companies with the approval of the Board

Directors who are chief executive officers or senior executives of public corporations or large non-profit entities may serve on the Boards of no more than three other public companies

All other Directors may serve on the boards of no more than four other public companies

The Nominating Committee takes into account the nature and time involved in serving on other boards when assessing director candidates.

### Meetings

During the Company's last fiscal year, the Board held six regularly scheduled meetings and five special meetings. During such fiscal year, each of the incumbent Directors, except Director Maheswaran, attended 75% or more of the sum of the number of such meetings plus the number of meetings of the committees of which such person was a member. The average attendance by these directors was 98%. Director Maheswaran was not a

member of the Board during the last fiscal year. During fiscal year 2006, the Board also conducted some business by resolution without meeting, as provided in the Company's Bylaws. The Board is scheduled to meet on a regular basis during the ensuing year.

During fiscal year 2006, the independent directors met quarterly in executive session without management and are scheduled to continue these quarterly meetings during the current fiscal year. The executive sessions are chaired by the Vice Chairman and are followed by a discussion among the independent directors and the Chief Executive Officer.

#### **Attendance at Annual Meeting**

All of the nominees for Director at the Annual Meeting of Stockholders held in June 2005 attended the meeting. The following policy has been adopted by the Board: The Company considers attendance at the Annual Meeting of Stockholders to be a fundamental duty of each Board member, as it provides an opportunity for shareholders to communicate directly with the Directors about issues affecting the Company. Therefore, it is the Company's policy that Board members attend the Annual Meeting of Stockholders unless health, family or other important personal matters prohibit such attendance.

#### **Committees**

The Board has a standing Compensation Committee, a standing Audit Committee, and a standing Nominating Committee. Committee assignments and designations of Committee chairs are made annually by a vote of the Board at the organizational meeting of Directors held in conjunction with the Annual Meeting of Stockholders.

#### **Compensation Committee**

The Compensation Committee, which met six times during fiscal year 2006, is comprised of Directors Antle, Piotrowski and Schraith. Director Antle serves as chair. The Board has determined that each member of the Compensation Committee is independent as defined by NASDAQ rules. The Compensation Committee determines the compensation of the Chief Executive Officer and all other executive officers, in accordance with NASDAQ rules. The Compensation Committee's responsibilities are set forth in its charter, which has been established by the Board. A copy of the Compensation Committee's charter was attached as Appendix A to the Proxy Statement for the Annual Meeting held in 2005 and is posted on the Company's website.

#### **Audit Committee**

The Audit Committee is comprised of Directors Hankin, Burra, and Lindstrom, with Director Burra serving as chair. The Board has determined that each member of the Audit Committee is independent as defined by NASDAQ and SEC rules applicable to audit committee members. The Board has also determined that Directors Hankin, Burra, and Lindstrom are financially sophisticated as defined by NASDAQ rules and audit committee financial experts as defined by SEC rules.

The Audit Committee met five times during fiscal year 2006. The Audit Committee's responsibilities include appointing and overseeing the engagement of the Company's independent registered public accounting firm; reviewing the scope and results of the audit conducted by the independent accountant; reviewing the Company's significant accounting policies; reviewing the independent accountant's assessment of the adequacy of the Company's internal controls; and reviewing and approving the financial statements to be included in the Company's Annual Report on Form 10-K. The Audit Committee meets periodically with the Company's independent accountant without the presence of Company management. The Audit Committee has also been designated by the Board to serve as the Company's Qualified Legal Compliance Committee, within the meaning of Section 205 of the SEC's Standards of Professional Conduct.

for Attorneys. The current responsibilities of the Audit Committee are more fully described in its written charter. The charter was included as Appendix B to the Company's Proxy Statement for the Annual Meeting held in 2005 and is posted on the Company's website.

The Audit Committee has also adopted a policy regarding pre-approval of services to be provided by the Company's independent public accountant, which is described under the heading "Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services" on page 24, and procedures for the receipt, retention and treatment of complaints regarding accounting, internal accounting controls or auditing matters, which are described under the heading "Contacting the Board of Directors" on page 11.

### **Nominating Committee**

The Nominating Committee is comprised of Director Antle, Director Hankin and Director Lindstrom, who serves as chair. The Board has determined that each member of the Nominating Committee is independent as defined by NASDAQ rules.

The Nominating Committee, which met once during fiscal year 2006, is charged with assisting the Board by identifying and evaluating individuals qualified to become members of the Board and selecting, or recommending to the Board for selection, the director nominees. The Nominating Committee's responsibilities are specified more fully in its charter, which is included as an Appendix to this Proxy Statement (the Appendix) and which is also posted on the Company's website at [www.semtech.com](http://www.semtech.com). Also see *Nomination of Candidates for the Board of Directors* under "Contacting the Board of Directors" on page 11.

### **Director Compensation**

Directors who are Company employees are not paid fees or additional compensation for attending Board or committee meetings. Chief Executive Officer Mohan Maheswaran is currently the only employee on the Board. Set forth below is a summary of the current compensation arrangements for non-employee members of the Board ("Outside Directors"). These arrangements were in place throughout fiscal year 2006.

#### *Stock Options in Lieu of Cash Retainer and Meeting Fees*

In continuation of a policy established in 1998, the compensation program for our Outside Directors is equity based. The program we use was developed by an independent consulting firm and was established to align the interests of the Board with those of stockholders, to reduce the expense associated with director compensation and to attract and retain high quality directors.

On December 5, 2002, a stock option grant was made to each then Outside Director in lieu of a cash retainer and meeting fees for the period July 15, 2003 through July 15, 2008. The number of options was computed by multiplying the forgone cash compensation over the five-year period of service by four (multiplier), and then dividing that amount by the Company's stock price on the date of grant, to compute the number of options to be granted. The multiplier was set to recognize the relative risk of taking stock options, compared to cash compensation. The annual cash compensation foregone was set at \$30,000 for Vice Chairman Hankin and at \$20,000 for each other Outside Director. Using this formula, Vice Chairman Hankin was granted 46,047 stock options and Directors Antle, Burra, Lindstrom, Piotrowski and Schraith were each granted 30,698 stock options.

The vesting period for these options began on July 15, 2003. Twenty percent of the options vest each year, but the annual vesting will not occur, and that portion of the award will be forfeited, if a Director does not attend three of the four most recent regularly scheduled meetings for that year, with certain exceptions. These options are governed by the terms of the Company's Long Term Stock Incentive Plan ("Plan") approved by the stockholders in June 1998 and on file with the SEC. Upon a change in control, as defined in the Plan, these options become fully vested and the Directors will have the right to exercise them immediately.

Director Poe's status changed to that of an Outside Director in October 2003. In lieu of cash retainers and meeting fees for the period from October 6, 2003 through July 15, 2008, Director Poe was granted an option for 45,960 shares of the Company's stock, based on the same formula used for the December 2002 grants to other Outside Directors, taking into account the period of service is less than five years. Taking into consideration the leadership role of the Chairman, the annual cash compensation foregone was set at \$50,000. These options are subject to the same 20% vesting schedule and other terms and conditions as the options granted to the other Outside Directors for service through July 15, 2008.

*Semi-annual Stock Option Grants*

Each January 1 and July 1, each Outside Director also receives a stock option to purchase 5,000 shares of the Company's common stock at the market price as of the date of grant. These options vest in four equal annual installments beginning on the first anniversary of the grant and are governed by the terms of the Plan. Upon a change in control, as defined in the Plan, these options become fully vested and the Directors will have the right to exercise them immediately.

*Insurance*

Outside Directors are covered by a travel accident policy maintained by the Company for officers and employees.

*Reimbursement of Expenses*

Outside Directors are reimbursed for expenses related to Board membership.

*Arrangements with Mr. Poe*

In addition to the compensation provided to Outside Directors generally, the following arrangements were made with Mr. Poe upon his termination of employment and change to Outside Director status in October 2003:

He is entitled to continue participation in Company-sponsored medical and dental plans on an individual or family basis, as he elects, until he reaches the age of sixty-five. The Company is not obligated to provide any insurance not available to Company employees generally and the allocation of premiums between the Company and Mr. Poe is calculated in the same manner as for Company employees generally. Mr. Poe pays his allocated portion of the premiums on an annual basis. During fiscal year 2006, the Company's share of the cost to maintain this insurance coverage for Mr. Poe was approximately \$7,800.

Should Mr. Poe leave the Board in good standing prior to the final vesting date for employee stock options awarded him prior to October 6, 2003, and if he so requests, the Company will employ him on a part time basis from the date he ceases to be a Director until September 21, 2007 on such terms and conditions as the Compensation Committee may then establish.

The Company continues to provide to Mr. Poe, without charge, a computer, cell phone and similar items for use on Company business. As with cell phones provided to employees, the Company permits personal use of the phone without reimbursement. The cost to the Company, if any, is negligible.

During fiscal year 2006, the Company continued to pay premiums of about \$229 per month for supplemental life insurance benefits for Mr. Poe.

Mr. Poe served as acting Chief Executive Officer on an interim basis from September 27, 2005 until April 3, 2006 when Mr. Maheswaran assumed the role. To assist with the transition, Mr. Poe remained in a paid advisory capacity until April 28, 2006. Mr. Poe's compensation for these services is presented in this Proxy Statement under the heading Executive Compensation .

*New Directors*

Any new Outside Director who joins the Board will receive an initial grant of an option to purchase 10,000 shares of the Company's common stock, on such terms and conditions as may be specified at the time of the grant.

**Indemnification**

The Company indemnifies all Directors with respect to their service on the Board so that they will be free to carry out their responsibilities without undue concern about personal liability. Indemnification of Directors is required under the Company's Bylaws and the Company has signed agreements with each Director contractually obligating it to provide this indemnification. The form of these indemnification agreements is attached as Exhibit 10.18 to the Company's Annual Report on Form 10-K for the fiscal year ended January 30, 2005.

**Director Orientation and Continuing Education**

Each Director is expected to take steps reasonably necessary to enable the Director to function effectively on the Board and Committees on which the Director serves, including becoming and remaining well informed about the Company, the industry, and business and economic trends affecting the Company. Each Director is also expected to take steps reasonably necessary to keep informed on principles and practices of sound corporate governance.

In addition to presentations by Company executives regarding their various business units and functional areas, the Company periodically allocates Board meeting time to receive updates on corporate governance issues, including legal and regulatory changes and best practices. The Company provides each Director with membership in the National Association of Corporate Directors and each Director is highly encouraged to participate annually, at the Company's expense, in an accredited director education program. During fiscal year 2006, several of the Directors participated in director roundtables, institutes, and other outside education programs.

The policy calls for an orientation program to be provided when new Directors join the Board. This program is to provide information to enable the new Directors to gain an understanding of the operations, management, and finances of the Company and is to address Director responsibilities and the Company's corporate governance procedures and practices. Each of these individuals has more than three years of service with the Company and is thus fully vested in these matching contributions.
- (b) Company contributions to a now-terminated executive life insurance program in fiscal year 2004, of \$30,324 for Mr. Franz and \$25,746 on behalf of Mr. Pohlman;

- (c) Company matching contributions to its Executive Compensation Plan, which is a non-qualified deferred compensation plan, in fiscal years 2006, 2005 and 2004, respectively, of \$48,600, \$72,900 and \$5,400 for Mr. Carlson; \$44,662, \$44,739 and \$3,364 for Mr. Franz; \$33,399, \$34,041 and \$2,569 for Mr. Peterson; \$28,179, \$22,218 and \$2,168 for Mr. Pohlman; and \$31,158, \$31,651, and \$2,364 for Mr. Wilson. When Mr. Carlson left the Company, he forfeited \$45,900, \$51,300 and \$2,700 of the employer matching contributions made on his behalf in fiscal years 2006, 2005, and 2004, respectively.
- (d) Accrued vacation of \$23,979 paid to Mr. Poe when he retired as CEO in fiscal year 2004 and \$18,875 paid to Mr. Carlson upon termination of employment in fiscal year 2006; and
- (e) Severance paid in fiscal year 2006 to Mr. Carlson, in the form of a \$63,000 lump sum payment and \$120,816 in the form of salary continuation.

Mr. Carlson's employment terminated by mutual agreement on September 27, 2005. In October 2005, the Company and Mr. Carlson executed an Agreement and Release ( " Agreement " ) under which Mr. Carlson received severance in the form of (a) a cash payment of \$63,000 and (b) as contemplated by the parties when Mr. Carlson joined the Company in 2002, base salary continuation and continuation of health insurance and other standard benefits for twenty-six weeks. His termination date was postponed from September 27, 2005 until the end of the twenty-six-week continuation period, although he did not transact any Company business during that time. Vesting in the Semtech Executive Compensation Plan continued during the continuation period but vacation accrual and stock option vesting did not. The Agreement contains a release of claims by Mr. Carlson and restrictions on his post-employment activities, as contemplated by the parties in 2002. The Agreement also provides that Mr. Carlson is not entitled to any bonus under the Company's Cash Bonus Incentive Plan for services in fiscal year 2006.

The foregoing description of the terms of the Agreement does not purport to be complete and is qualified in its entirety by the Agreement, which is attached as Exhibit 10.1 to the Form 8-K filed by the Company on October 14, 2005.

Mr. Carlson received the remainder of his continuation severance, approximately \$58,000, in fiscal year 2007.

- (6) 50,960 of the options granted to Mr. Poe in fiscal year 2004 relate to his service as non-employee Chairman of the Board. See the discussion under the heading " Director Compensation " on page 7.

**OPTION GRANTS IN LAST FISCAL YEAR**

This table gives information about stock options granted during fiscal year 2006 to the Named Executive Officers, including potential realizable values. The actual amount realized upon exercise of stock options will depend upon the amount by which the market price of common stock on the date of exercise is greater than the exercise price. If the stock price does not increase above the exercise price at the time of exercise, realized value to the named executives from these options will be zero.

## REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee reviews and evaluates the Company's long-term strategy of employee compensation, endeavoring to ensure that compensation policies are designed to attract and retain key employees, motivate employees to achieve the Company's business objectives, and align the interests of the Company's executive management with the long-term interests of the Company's shareholders. It seeks to ensure that high levels of individual performance are recognized and rewarded and that the compensation of employees is consistent with the levels of compensation of comparable companies, general economic conditions, and the Company's performance.

### Compensation Policies for Executive Officers

The Compensation Committee believes that a fair and motivating compensation program plays a critical role in the performance of the Company and, to that end, it reviews the program on an ongoing basis to evaluate its continued effectiveness. The Company's overall financial performance is a significant consideration in establishing total compensation for the executive officers. The Compensation Committee believes that at the executive officer level, a greater proportion of total compensation should consist of variable, performance-based components, such as bonuses, which can increase or decrease to reflect changes in corporate and individual performance. Incentive compensation programs are intended to reinforce management's commitment to enhancing profitability and stockholder value.

The Compensation Committee also evaluates the Company's total compensation package in light of those of other analog and mixed-signal semiconductor companies of comparable size. Data from the competitive marketplace are employed to ensure that the Company's executive compensation program as a whole is within the broad middle range of comparative pay for similar sized companies. The Compensation Committee does not target a specific position in the range of comparative data for each individual or for each component of compensation. When deemed appropriate by the Compensation Committee, independent compensation and benefits consultants are retained to assist in evaluating the Company's compensation programs. This provides additional insight and assurance that the programs are reasonable and appropriate to the Company's objectives. Individual compensation for each executive officer is established by considering the comparative data and other relevant factors such as level of responsibility, prior experience, and the Compensation Committee's subjective judgment as to the individual's contribution.

### Compensation Components

The Company's executive compensation program was comprised of following principal components during fiscal year 2006:

*Base Salary.* In determining base salary, we consider the individual's scope of responsibilities, years of experience, past and expected future contributions to the Company's success, and other elements of the compensation package. We also consider industry and peer group comparisons. Salaries are benchmarked against median salaries for similarly situated executives of similar sized companies in the high technology industry.

The base salaries of the Named Executive Officers were not adjusted when we considered the issue early in fiscal year 2006, although the base salaries of two of the other executive officers were adjusted at that time. We considered the issue again early in fiscal year 2007 and, after considering various factors including competitive salary survey data and tally sheets of all elements of each individual's compensation package, we increased the base salaries of the Named Executive Officers then on the payroll, other than Mr. Poe, and some of the other executive officers. The base salaries of the four Named Executive Officers had not been adjusted in more than two, and in one case more than three, years. The increases for the four Named Executive Officers ranged from 2.5% to 13.8%. See the Form 8-K filed by the Company on March 1, 2006.

*Bonus.* The Company maintains a Cash Bonus Incentive Plan under which executive officers and other key employees may earn annual cash bonuses based on performance. Targeted bonuses, and thus the amount of total compensation at risk, increase with the level of responsibility. The plan is intended to reward participants based on the achievement of measurable Company-wide and business unit-wide objectives and the individual's attainment of personal goals related to technical, operational, financial or managerial matters. Goals are established and performance is evaluated quarterly. Additional information regarding the Cash Bonus Incentive Plan as it existed during fiscal year 2006 may be found in Exhibit 10.1 to the Company's Form 10-K for fiscal year 2005.

Target bonuses for fiscal year 2006 ranged from 10% of base salary up to 100% of base salary for the Chief Executive Officer. As noted elsewhere in this Proxy Statement, neither Mr. Carlson nor Mr. Poe received a bonus for fiscal year 2006 performance. Early in fiscal year 2007, the other Named Executive Officers were awarded bonuses for fiscal year 2006 performance ranging from 38% to 120% of target, which equates to 26% to 84% of base salary.

In response to an increasingly visible disconnect between Company and business unit performance and awards under the plan, we amended and restated the plan effective for fiscal year 2007 in order to more closely align them. We believe these modifications will be beneficial in achieving the intent of the plan. We revised the manner in which Company and business unit performance contribute to the award calculation, but retained the quarterly establishment of goals and measurement of performance. We increased the available target award percentages (for example the Chief Executive Officer's target bonus may be set anywhere in a range of from 70 to 150% of base salary) and increased the maximum award payable under the plan from 120% to 205% of the target award, thus providing the flexibility to design compensation packages with a higher at-risk element. We retained the discretion to adjust calculated awards. See the Form 8-K filed by the Company on March 1, 2006. For fiscal year 2007, the target bonuses for the Named Executive Officers, other than Mr. Carlson and Mr. Poe, range from 75% to 90%, with the maximum possible bonuses ranging from 153.75% to 184.5%.

Effective for bonuses earned in fiscal year 2006, we terminated the program under which executive officers could elect to receive up to 50% of their bonus in the form of stock options.

The Company does not maintain a long-term performance plan that pays cash bonuses. Long-term performance is motivated and compensated through the use of equity-based compensation.

*Stock Options.* Stock options are granted from time to time to executives and other employees to serve as a retention incentive and to directly link a portion of employee compensation to stockholders' interest by providing motivation to maximize stockholder value. In granting options, the Compensation Committee takes into account the individual's relative job scope, performance and contribution to the Company's success; the outstanding options held by the individual; and the number of shares available for grant.

Most stock options granted since fiscal year 2001 vest in equal annual installments over four years, beginning on the first anniversary of the grant. In prior years, the Committee awarded some key employees options that vest based on performance; none were granted to individuals who were executive officers at the time of the grant. No performance-based options were awarded in fiscal year 2006.

Most options granted to employees prior to October 3, 2001 will vest and become exercisable upon a change in control, as defined in the applicable plan. All options granted to employees after October 3, 2001 will vest and become exercisable following a change in control only if, within one year, the employee is either terminated without cause or subject to a constructive termination.

*Deferred Compensation.* As a means of providing a retention incentive to executives and other key employees, the Company established the Semtech Executive Compensation Plan, a non-qualified deferred compensation plan, effective in January 2004. This plan was designed with the assistance of an outside compensation consulting firm. Under the plan, executives selected by the Committee, including

the Named Executive Officers, may defer up to 100% of their salary, as defined by the plan. As currently implemented, the Company matches dollar for dollar up to the first 20% of employee contributions for the Chief Executive Officer, Chief Financial Officer, and Chief Operating Officer positions; up to the first 15% for participants at the Vice President level; and up to the first 10% for other participants. The plan also permits the Company to make other contributions on a discretionary basis. No discretionary contributions were made during fiscal year 2006. Amounts deferred by participants are immediately vested. Each company contribution vests separately in equal annual installments over four years, which maximizes the plan's usefulness as a retention incentive.

The Company does not guarantee any rate of return on the compensation deferred by participants or on the matching contributions. Indeed, the participants may lose all or a portion of their deferred compensation or match. The deferred compensation and match are credited with earnings and investment gains and losses that mirror investments chosen by the participants from a selection of investment vehicles offered by the third-party plan provider. Amounts credited to participant accounts are not actually invested in these vehicles. Rather, participants are general creditors of the Company. The Company has purchased whole life insurance on the lives of certain of the participants that is intended to cover a majority of the payments expected to be made under the plan. These policies are held by a grantor trust that was established in connection with the plan. See footnote 12 to the Company's consolidated financial statements included in the Company's Form 10-K for fiscal year 2006.

*Benefit Programs Available to Employees Generally.* The Company's executive officers are eligible to participate in broad-based benefit programs generally available to the Company's salaried employees, including health, disability and life insurance programs and a qualified 401K plan.

*Other.* The Company reimburses employees for business-related expenses. Modest perquisites are provided for the Named Executive Officers and certain other executive officers and employees:

Company cars are not provided, but certain executive officers and employees, including the Named Executive Officers, are paid a monthly car allowance of \$637.50, which includes an allowance for maintenance and insurance, and are reimbursed for actual gasoline expenses.

The Company provides cellular telephones and/or other communication devices to the Named Executive Officers and certain other executive officers and employees for business use. The Company permits personal use of these items without reimbursement. The incremental cost to the Company, if any, is negligible.

Mr. Franz receives one week of paid vacation in addition to paid vacation based on the schedule that applies to employees generally.

*Indemnification.* The Company indemnifies the Named Executive Officers and other executive officers with respect to their employment so that they will be free to carry out their responsibilities without undue concern about personal liability. This indemnification is required under the Company's Bylaws and the Company has signed agreements with each executive officer contractually obligating it to provide this indemnification.

#### **Chief Executive Officer Compensation**

As a matter of Committee policy and in accordance with NASDAQ rules, the Chief Executive Officer is not present during Committee votes or deliberations concerning his compensation.

#### **Mr. Carlson**

Mr. Carlson served as the Company's Chief Executive Officer from October 2003 until his employment was terminated by mutual agreement on September 27, 2005.

The base salary received by Mr. Carlson during fiscal year 2006 resulted from pre-employment negotiations with him in fiscal year 2003. The agreements reached with Mr. Carlson were approved by the Compensation Committee. As an inducement for Mr. Carlson to join Semtech as Chief Operating Officer, the Company agreed that should he be promoted to Chief Executive Officer, his annual salary would be increased by \$50,000 to \$350,000. This commitment regarding base salary was implemented when Mr. Carlson was elected to the CEO position in October 2003. Mr. Carlson's base salary was not further adjusted during his tenure as Chief Executive Officer. Rather, we adjusted his total compensation package to provide the opportunity for him to earn more performance-based compensation. Specifically, the target bonus he could earn during fiscal year 2006 was increased from 80% to 100% of base salary.

In accordance with the terms of the Cash Bonus Incentive Plan, the Compensation Committee approves performance goals and objectives for the CEO each quarter and assesses his accomplishment of previously established objectives on a quarterly basis. The Company's basic financial performance comprised a significant portion of the Chief Executive Officer's objectives for each quarter during fiscal years 2005 and 2006, with the remaining elements reflecting other important financial, operational, technical and/or managerial matters. During fiscal year 2006, we awarded Mr. Carlson a bonus of \$200,000 based on his performance during fiscal year 2005. The award was 71% of his target bonus, equating to 57% of his base salary. As noted below, Mr. Carlson did not receive a bonus for performance during fiscal year 2006.

Mr. Carlson was not awarded any stock options or other equity based compensation during fiscal year 2006.

The Company made matching contributions of \$48,600 to the Semtech Executive Compensation Plan on Mr. Carlson's behalf during fiscal year 2006, but they were forfeited when he left the Company.

In October 2005, the Compensation Committee approved an Agreement and Release between the Company and Mr. Carlson ( Agreement ) under which he received severance in the form of (a) a cash payment of \$63,000 and (b) as contemplated by the parties when he joined the Company in 2002, base salary continuation and continuation of health insurance and other standard benefits for twenty-six weeks. Mr. Carlson's termination date was postponed from September 27, 2005 until the end of the twenty-six-week continuation period, although he did not transact any Company business during that time. Vesting in the Semtech Executive Compensation Plan continued during the continuation period but vacation accrual and stock option vesting did not. The Agreement contains a release of claims by Mr. Carlson and restrictions on his post-employment activities, as contemplated by the parties in 2002. The Agreement also provides that Mr. Carlson is not entitled to any bonus under the Company's Cash Bonus Incentive Plan for services in fiscal year 2006.

#### **Mr. Poe**

Mr. Poe served as acting Chief Executive Officer on an interim basis from September 27, 2005, until April 3, 2006 when Mr. Maheswaran assumed the role. To assist with the transition, Mr. Poe remained in a paid advisory capacity until April 28, 2006. We determined that Mr. Poe should be paid \$50,000 per month for providing these services to the Company, but that he would not be entitled to any bonus or benefits by virtue of performing this work. Although this monthly pay is a significant increase from Mr. Poe's base salary when he last served as Chief Executive Officer in fiscal year 2004, we believe it appropriate compensation for his willingness to interrupt his retirement and accept responsibility for the day to day operation of the Company.

#### **Mr. Maheswaran**

Mr. Maheswaran joined the Company as President and Chief Executive Officer on April 3, 2006. Although he did not serve during fiscal year 2006, we nevertheless provide some brief remarks with respect to his compensation program. The compensation program for Mr. Maheswaran was designed by the Compensation Committee with the guidance of an outside firm specializing in executive compensation matters and the Compensation Committee approved the final compensation package that resulted from

arms-length negotiation with Mr. Maheswaran. The package is heavily weighted in favor of at-risk performance based compensation and includes the opportunity for a significant cash bonus if superior achievement is attained, time-vested restricted stock, time-vested stock options, and performance-vested stock options which vest based on the Company's performance as measured against its peers. Additional information regarding Mr. Maheswaran's compensation is provided on page 9 under the heading "Arrangement with Mr. Maheswaran".

**Tax Matters**

For federal and most state income tax purposes, no more than \$1 million of compensation paid to the chief executive officer and the four other most highly paid executive officers may be deducted in a taxable year unless the compensation is commission or performance based, as those terms are defined by tax regulations. Stock options awarded under the Company's stock option plans are intended to meet the requirements for deductible performance-based compensation. The Compensation Committee awarded inducement equity awards, within the meaning of NASDAQ rules, to Mr. Carlson in November 2002 (these options were never exercised) and to the Mr. Maheswaran in April 2006. Tax deductions for compensation related to these inducement equity awards may be limited in future years, depending on a number of factors, including the timing and amount of option exercises and IRS rules then in existence. The Compensation Committee believes the benefit of using inducement equity awards as a recruitment incentive to attract key executives outweighs the potential loss of tax deductions that may or may not occur in future years.

### INDEPENDENT ACCOUNTANT FEES

In connection with the audit of our financial statements for the fiscal year ended January 29, 2006 and the fiscal year ended January 30, 2005, we entered into engagement letters with Ernst & Young LLP ( EY ) which set forth the terms for EY's performance of the audit services. The agreements provide for alternative dispute resolution and an exclusion of punitive damages.

The following table sets forth the aggregate fees billed, or expected to be billed, by EY for the audit of our financial statements for fiscal years 2006 and 2005 and for other audit and non-audit services for those years:

	Fiscal Year 2006	Fiscal Year 2005
Audit Fees	\$ 1,109,438	\$ 1,052,295
Audit-Related Fees	2,828	0
Tax Fees	3,219	\$ 18,099
All Other Fees	0	0
<b>Total</b>	<b>\$ 1,115,485</b>	<b>\$ 1,060,394</b>

The amounts in the table are net of (i) Value Added Tax assessed by some non-US jurisdictions on the amount billed by EY and (ii) approximately \$51,573 and \$38,000 paid to EY as reimbursement for out-of-pocket expenses associated with performance of these services for fiscal years 2006 and 2005, respectively.

Since the SEC rules regarding pre-approval first became effective in 2003, each new audit and non-audit engagement of EY has been approved in advance by the Audit Committee, and none of those engagements made use of the *de minimis* exception contained in the rules. The Audit Committee has considered the nature and scope of the non-audit services provided by EY and has concluded that EY's performance of these services is compatible with the auditor's independence.

**Audit Fees.** This category includes fees for the audit of the Company's financial statements for fiscal years 2006 and 2005, reviews of the financial statements included in the Company's Form 10-Qs for those fiscal years, and the audit of management's assessment of internal control over financial reporting with respect to those fiscal years. Approximately \$435,580 of the Audit Fees incurred in fiscal year 2006 and \$545,000 of the Audit Fees incurred in fiscal year 2005 represent services associated with work related to internal controls required by Sarbanes-Oxley Section 404. This category also includes other services that are normally provided by the auditor in connection with statutory and regulatory filings or engagements and include services that generally can only be provided by the Company's independent accountant, specifically pre-approved assistance with SEC filings and comment letters and with applying financial accounting principles to specific transactions, totaling \$3,050 in fiscal year 2006 and \$8,800 in fiscal year 2005.

**Audit Related Fees.** This category consists of fees for assurance and related services, such as due diligence, that are traditionally performed by the Company's independent accountant and are reasonably related to the performance of the audit or review of the Company's financial statements. For fiscal year 2006, this category represents fees for services in connection with the acquisition of XEMICS SA. This work was pre-approved by the Audit Committee.

**Tax Fees.** For each fiscal year, this category consists of fees for assistance with German tax matters for the Company's German subsidiary, including review of assessments and filing of returns. These engagements were pre-approved by the Committee.

**POLICY ON AUDIT COMMITTEE PRE-APPROVAL OF AUDIT AND PERMISSIBLE NON-AUDIT SERVICES**

The Audit Committee is responsible for appointing, compensating, and overseeing the work of the independent auditor. In recognition of this responsibility, the Audit Committee has established a policy regarding pre-approval of all audit and permissible non-audit services provided by the independent auditor.

The policy calls for an annual review and pre-approval, up to specified dollar limits, of certain types of services that may be provided by the independent auditor without obtaining specific pre-approval from the Audit Committee. During the year, circumstances may arise when it may become necessary to engage the independent auditor for additional services not contemplated in the original pre-approval categories. In those instances, specific pre-approval must be obtained.

The Audit Committee has delegated to its Chairman the authority to address certain requests for pre-approval of services between meetings of the Audit Committee. The Chairman must report his pre-approval decisions to the Audit Committee at its next scheduled meeting. In accordance with PCAOB Auditing Standard No. 2, all engagements to provide services related to internal control must be specifically pre-approved by the Audit Committee and may not be pre-approved in advance by category or by the Chairman between meetings.

**APPROVAL OF APPOINTMENT**

**OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANT**

**(Proposal Number 2)**

The Audit Committee has appointed Ernst & Young LLP as the Company's independent registered public accountant for fiscal year 2007. Ernst & Young has served as the Company's independent public accountant since June 2002, replacing Arthur Andersen LLP. Ratification of the independent registered accountant is not required by the Company's Bylaws or applicable law, but has historically been submitted to stockholders as a matter of good corporate governance. No determination has been made as to what action the Board would take if stockholders do not ratify the appointment.

Representatives of Ernst & Young LLP are expected to attend the Annual Meeting. They will have the opportunity to make a statement, if they so desire, and respond to appropriate questions from stockholders.

**THE BOARD RECOMMENDS A VOTE FOR PROPOSAL NUMBER 2**

**OTHER MATTERS**

The management of the Company knows of no other matters that may properly be, or which are likely to be, brought before the meeting. However, if any other matters are properly brought before the meeting, the persons named in the proxy or their substitutes will have discretion to vote in accordance with their best judgment on such matters.

**APPENDIX**

The Committee shall have sole authority to retain and terminate any such search firm, including sole authority to approve the firm s fees and other retention terms. The Committee shall also have authority, to the extent it deems necessary or appropriate, to retain other advisors. The Company will provide for appropriate funding, as determined by the Committee, for payment of compensation to any search firm or other advisors employed by the Committee.

6. The Committee will make reports to the Board and will propose any necessary action to the Board.

7. The Committee will recommend to the Board director nominations to be presented for shareholder approval at the annual meeting and to fill any vacancies. Nominee recommendations made by the Committee are subject to selection by and approval of the Board.

B. The Committee will observe the following procedures in identifying and evaluating candidates for the Board:

1.

## Edgar Filing: SEMTECH CORP - Form DEF 14A

The Committee shall consider that continuing service of qualified incumbents promotes stability and continuity, contributing to the Board's ability to work as a collective body, while giving the Company the benefit of the familiarity and insight into the Company's affairs that its directors have accumulated during their tenure. Accordingly, the process of the Committee for identifying nominees shall reflect the Company's practice of re-nominating incumbent directors who (a) continue to satisfy the criteria for membership on the Board, (b) the Committee believes to continue to make worthwhile contributions to the Board and (c) consent to continue to serve on the Board.

2. The Committee will evaluate the qualifications and performance of the incumbent directors that desire to continue their service by:

considering if the director continues to satisfy the minimum qualifications for director candidates;

A-1

assessing the performance of the director during the preceding term; and

determining whether there exist any special, countervailing considerations against re-nomination of the director.

3. If the Committee determines that an incumbent director consenting to re-nomination continues to be qualified and has satisfactorily performed his or her duties as director during the preceding term and the Committee finds no reason, including considerations relating to the composition and functional needs of the Board as a whole, why the incumbent should not be re-nominated, then the Committee will propose the incumbent director for re-election.
4. The Committee will identify and evaluate new candidates for election to the Board where there is no qualified and available incumbent, including for the purpose of filling vacancies arising by reason of the resignation, retirement, removal, death or disability of an incumbent director or a decision of the directors to expand the size of the Board.
5. The Committee will solicit recommendations for nominees from persons that the Committee believes are likely to be familiar with qualified candidates. These persons may include members of the Board, including members of the Committee, and management of the Company. The Committee may also engage a professional search firm to assist in identifying qualified candidates.
6. As to each recommended candidate that the Committee believes merits consideration, the Committee will:

assemble information on the background and qualifications of the candidate, including information concerning the candidate required to be disclosed in the Company's proxy statement under the rules of the SEC and any relationship between the candidate and the person or persons recommending the candidate;

determine if the candidate satisfies the minimum qualifications;

determine if the candidate possesses any of the specific qualities or skills that must be possessed by one or more members of the Board by law or listing regulation;

consider the contribution that the candidate can be expected to make to the overall functioning of the Board; and

consider the extent to which the membership of the candidate on the Board will promote diversity among the directors.

7. It is appropriate for the Committee, in its discretion, to solicit the views of the Chief Executive Officer, other members of the Company's senior management, and other members of the Board regarding the qualifications and suitability of candidates.
8. In its discretion, the Committee may designate one or more of its members (or the entire Committee) to interview any proposed candidate.
9. Based on all available information and relevant considerations, the Committee will select a candidate who in its view is most suited for membership on the Board.

Edgar Filing: SEMTECH CORP - Form DEF 14A

10. In making its selection, the Committee will evaluate candidates proposed by shareholders under criteria similar to the evaluation of other candidates, except that the Committee may consider, as one of the factors in its evaluation of shareholder recommended nominees, the size and duration of the interest of the recommending shareholder or shareholder group in the equity of the Company and whether the recommending shareholder intends to continue holding that interest at least through the time of the annual meeting.
  
11. The Committee shall maintain appropriate records regarding its process of identifying and evaluating candidates for election to the Board.

A-2

- C. The Committee will use the following criteria in identifying and evaluating candidates for the Board, as the Board believes that its members must possess certain basic personal and professional qualities in order to properly discharge their fiduciary duties to shareholders, provide effective oversight of the management of the Company, and monitor the Company's adherence to principles of sound corporate governance:

All persons nominated to serve as a director of the Company should possess the minimum qualifications described below. These are only threshold criteria, and the Committee should also consider the contributions that a candidate can be expected to make to the collective functioning of the Board based upon the totality of the candidate's credentials, experience and expertise, the composition of the Board at the time, and other relevant circumstances.

1. *Integrity.* All candidates must be individuals of personal integrity and ethical character.
2. *Absence of Conflicts of Interest.* Candidates should not have any interests that would materially impair his or her ability to (i) exercise independent judgment, or (ii) otherwise discharge the fiduciary duties owed as a director to the Company and its shareholders.
3. *Fair and Equal Representation.* Candidates must be able to represent fairly and equally all shareholders of the Company without favoring or advancing any particular shareholder or other constituency of the Company.
4. *Achievement.* Candidates must have demonstrated achievement in one or more fields of business, professional, governmental, communal, scientific or educational endeavor.
5. *Oversight.* Candidates are expected to have sound judgment, borne of management or policy-making experience (which may be as an advisor or consultant), that demonstrates an ability to function effectively in an oversight role.
6. *Business Understanding.* Candidates must have a general appreciation regarding major issues facing public companies of a size and operational scope similar to the Company, including regulatory obligations and governance concerns of a public issuer; strategic business planning; competition in a global economy; and basic concepts of corporate finance.
7. *Available Time.* Candidates must be prepared to devote adequate time to the Board and its committees. It is expected that each candidate will be available to attend all meetings of the Board and any committees on which the candidate will serve, as well as the Company's annual meeting of shareholders. In this regard, the following limitations are imposed on the Company's directors:

Directors who are executive officers of the Company may serve on the boards of no more than two other public or private companies with the approval of the Board

Directors who are chief executive officers or senior executives of public corporations or large non-profit entities may serve on the Boards of no more than three other public companies

All other Directors may serve on the boards of no more than four other public companies

8. *Limited Exceptions.* Under exceptional and limited circumstances, the Committee may approve the candidacy of a nominee who does not satisfy all of these requirements if it believes the service of such nominee is in the best interests of the Company and its shareholders.

9. *Additional Qualifications.* In approving candidates for election as director, the Committee will also assure that:

at least a majority of the directors serving at any time on the Board are independent, as defined by the relevant Securities and Exchange Commission ( SEC ) and National Association of Securities Dealers ( NASD ) rules;

at least three of the directors satisfy the financial literacy requirements required for service on the audit committee under NASD rules;

A-3

at least one of the directors qualifies as an audit committee financial expert under SEC rules;

at least some of the independent directors have experience as senior executives of a public or substantial private company; and

at least some of the independent directors have general familiarity with an industry or industries in which the Company conducts a substantial portion of its business or in related industries.

10. *Diversity.* The Committee will seek to promote an appropriate diversity on the Board of professional background, experience, expertise, perspective, age, gender, and ethnicity.

D. The Committee will fully and fairly consider, in the same manner in which it considers any other candidate for Board membership, any candidate submitted by a shareholder that adheres to the following procedure, *provided however*, that in evaluating shareholder-recommended nominees the Committee may consider the size and duration of the recommending shareholder's equity interest in the Company and whether the recommending shareholder intends to continue holding that interest at least through the time of the annual meeting:

1. *Manner and Address for Submission.* All shareholder nominating recommendations must be in writing, addressed to the Company in care of the Secretary at the Company's headquarters. Submissions must be made by certified mail or commercial courier service (Federal Express, for example). Hand delivered or emailed submissions will not be considered.
2. *Information Concerning the Recommending Shareholders.* A nominating recommendation must be accompanied by the following information concerning each recommending shareholder:

The name and address, including telephone number, of the recommending shareholder;

The number of the Company's shares owned by the recommending shareholder and the time period for which such shares have been held;

If the recommending shareholder is not a shareholder of record, a statement from the record holder of the shares verifying the holdings of the shareholder and a statement from the recommending shareholder of the length of time that the shares have been held; and

A statement from the shareholder as to whether the shareholder has a good faith intention to continue to hold the reported shares through the date of the Company's next annual meeting of shareholders.

3. *Information Concerning the Proposed Nominee.* A nominating recommendation must be accompanied by the following information concerning the proposed nominee:

the information required by Item 401 of SEC Regulation S-K (generally providing for disclosure of the name, address, any arrangements or understanding regarding nomination and five year business experience of the proposed nominee, as well as information regarding certain types of legal proceedings within the past five years involving the nominee);

## Edgar Filing: SEMTECH CORP - Form DEF 14A

the information required by Item 403 of SEC Regulation S-K (generally providing for disclosure regarding the proposed nominee's ownership of securities of the Company); and

the information required by Item 404 of SEC Regulation S-K (generally providing for disclosure of transactions between the Company and the proposed nominee valued in excess of \$60,000 and certain other types of business relationships with the Company).

4. *Relationships Between the Proposed Nominee and the Recommending Shareholder.* The nominating recommendation must describe all relationships between the proposed nominee and the recommending shareholder and any agreements or understandings between the recommending shareholder and the nominee regarding the nomination.

A-4

5. *Other Relationships of the Proposed Nominee.* The nominating recommendation shall describe all relationships between the proposed nominee and any of the Company's competitors, customers, suppliers, or other persons with special interests regarding the Company.
6. *Qualifications of the Proposed Nominee.* The recommending shareholder must furnish a statement supporting its view that the proposed nominee possesses the minimum qualifications prescribed by the Company for nominees, and briefly describing the contributions that the nominee would be expected to make to the board and to the governance of the Company.
7. *Ability to Represent All Shareholders.* The recommending shareholder must state whether, in the view of the shareholder, the nominee, if elected, would represent all shareholders and not serve for the purpose of advancing or favoring any particular shareholder or other constituency of the Company.
8. *Consent to be interviewed and, if nominated and elected, to serve.* The nominating recommendation must be accompanied by the consent of the proposed nominee to be interviewed by the Committee, if the Committee chooses to do so in its discretion (and the recommending shareholder must furnish the proposed nominee's contact information for this purpose), and, if nominated and elected, to serve as a director of the Company.
9. *Timing for Submissions Regarding Nominees for Election at Annual Meetings.* A shareholder (or group of shareholders) wishing to submit a nominating recommendation for an annual meeting of shareholders must ensure that it is received by the Company, as provided above, not later than 120 calendar days prior to the first anniversary of the date of the proxy statement for the prior annual meeting of shareholders. In the event that the date of the annual meeting of shareholders for the current year is more than 30 days following the first anniversary date of the annual meeting of shareholders for the prior year, the submission of a recommendation will be considered timely if it is submitted a reasonable time in advance of the mailing of the Company's proxy statement for the annual meeting of shareholders for the current year.
10. *Shareholder Groups.* If a recommendation is submitted by a group of two or more shareholders, the information regarding recommending shareholders must be submitted with respect to each shareholder in the group.
