Filed Pursuant to Rule 424(b)(2)
Registration No. 333-40362

PROSPECTUS SUPPLEMENT

(To prospectus dated July 24, 2000)

\$55,000,000

Laclede Gas Company

First Mortgage Bonds, 6.15% Series due June 1, 2036

We will pay interest on the new bonds on June 1 and December 1 of each year, beginning December 1, 2006. The new bonds will be issued in denominations of \$1,000. The new bonds will mature on June 1, 2036. We may redeem some or all of the new bonds as described herein, including at any time at the make-whole redemption price discussed in this prospectus supplement under the heading Description of New Bonds Redemption at Our Option.

The new bonds will be secured equally with all other bonds outstanding or hereafter issued under our mortgage and deed of trust.

Investing in the new bonds involves risks that are discussed in the Risk Factors section beginning on page S-5 of this prospectus supplement.

	<u>Per Bond</u>	<u>Total</u>
Public offering price (1)	99.852%	\$54,918,600
Underwriting discount	.875%	\$481,250
Proceeds, before expenses, to us	98.977%	\$54,437,350

- (1) Plus accrued interest from June 9, 2006, if settlement occurs after that date

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The new bonds will be ready for delivery in book-entry form only through The Depository Trust Company on or about June 9, 2006.

Merrill Lynch & Co.

A.G. Edwards

BNY Capital Markets, Inc.

Morgan Keegan & Company, Inc.

NatCity Investments, Inc.

The date of this prospectus supplement is June 6, 2006.

FORWARD-LOOKING STATEMENTS

Some matters included or incorporated by reference in this prospectus supplement and the accompanying prospectus, excluding historical information, include forward-looking statements. Words such as may, anticipate, believe, estimate, expect, intend, plan, seek and similar and expressions identify forward-looking statements that involve uncertainties and risks. Future developments may not be in accordance with our expectations or beliefs and the effect of future developments may not be those anticipated. Among the factors that may cause results to differ materially from those contemplated in any forward-looking statement are:

weather conditions and catastrophic events, particularly severe weather in the natural gas producing areas of the country;

volatility in gas prices, particularly sudden and sustained spikes in natural gas prices;

the impact of higher natural gas prices on our competitive position in relation to suppliers of alternative heating sources, such as electricity;

changes in gas supply and pipeline availability, particularly those changes that impact supply for and access to our service area;

legislative, regulatory and judicial mandates and decisions, some of which may be retroactive, including those affecting

allowed rates of return

incentive regulation

industry structure

purchased gas adjustment provisions

rate design structure and implementation

franchise renewals

environmental or safety matters

taxes

pension and other post-retirement benefit liabilities and funding obligations

Edgar Filing: LACLEDE GAS CO - Form 424B2

accounting standards;

the results of litigation;

retention, ability to attract, ability to collect from and conservation efforts of customers;

capital and energy commodity market conditions, including the ability to obtain funds for necessary capital expenditures and general operations and the terms and conditions imposed for obtaining sufficient gas supply;

discovery of material weakness in internal controls; and

employee workforce issues.

You are urged to consider the risks, uncertainties and other factors that could affect our business included or incorporated by reference in this prospectus supplement and the accompanying prospectus. All of these forward-looking statements rely upon the safe harbor protections provided under the Private Securities Litigation Reform Act of 1995. We do not, by including this statement, assume any obligation to review or revise any particular forward-looking statement in light of future events.

S-3

Table of Contents

LACLEDE GAS COMPANY

We are a public utility that principally distributes and transports natural gas to the public in the City of St. Louis and surrounding counties in eastern Missouri with over 630,000 customers. In addition, we operate underground natural gas storage fields. We are subject to the jurisdiction of the Missouri Public Service Commission, which has authority to regulate substantially all phases of public utility business in Missouri, including our issuance of long-term debt. We are a subsidiary of The Laclede Group, Inc. The new bonds are not obligations of, nor guaranteed by, The Laclede Group, Inc. Our principal executive offices are located at 720 Olive Street, St. Louis, Missouri 63101. Our telephone number is 314-342-0500.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and special reports and other information with the Securities and Exchange Commission. You may read and copy any document that we file at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for information on the operation of the Public Reference Room. Our SEC filings also are available to you at the SEC's website at <http://www.sec.gov>. Our filings with the SEC are also available on our own website at <http://www.lacledegas.com>. The other information on our web site is not part of this prospectus supplement or the accompanying prospectus, and you should not rely upon such information.

The SEC allows us to incorporate by reference the information we file with them, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is an important part of this prospectus supplement and the accompanying prospectus. The annual and quarterly reports listed below have been filed with the SEC on a combined basis by us and our parent, The Laclede Group, but we are only incorporating the information that relates to us, not the information that relates to The Laclede Group or its other affiliates. We are incorporating by reference the documents listed below and any future filings we make with the SEC under Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 (other than information furnished pursuant to Items 2.02 and 7.01 of Form 8-K and any related exhibits) until we sell the new bonds offered by this prospectus supplement. Those future filings, if any, will update, supercede and replace the information contained in any documents incorporated by reference in this prospectus supplement and the accompanying prospectus at the time of the future filings.

Annual Report on Form 10-K for the fiscal year ended September 30, 2005;

Quarterly Reports on Form 10-Q for the fiscal quarters ended December 31, 2005 and March 31, 2006; and

Current Report on Form 8-K filed on December 23, 2005.

You may obtain copies of these filings from our website referred to above or request copies of these filings, at no cost, by writing or telephoning us at the following address and phone number:

Table of Contents

RISK FACTORS

In considering whether to purchase the new bonds, you should carefully consider the information we have included or incorporated by reference in this prospectus supplement and the accompanying prospectus. In particular, you should carefully consider the factors listed in Forward-Looking Statements above as well as the risk factors described below.

Risks related to the regulation of our utility business could impact rates we are able to charge, our costs and our profitability.

We are regulated by the Missouri Public Service Commission. This authority regulates many aspects of our distribution operations, including construction and maintenance of facilities, operations, safety, the rates that we may charge customers, the terms of service to our customers and the rate of return that we are allowed to realize. Our ability to obtain rate increases and rate supplements to maintain the current rate of return depends upon regulatory discretion. There can be no assurance that we will be able to obtain rate increases or rate supplements or continue receiving the current authorized rates of return.

Our liquidity and, in certain circumstances, our results of operations could be adversely affected by the cost of purchasing natural gas during periods in which natural gas prices are rising significantly.

Our tariff rate schedules contain purchased gas adjustment clauses that permit us to file for rate adjustments to recover the cost of purchased gas. Increases in the cost of purchased gas have no direct impact on profit margins, but do affect cash flows and can therefore impact the amount of our capital resources. Currently we are allowed to adjust the gas cost component of our rates up to four times each year. We must make a mandatory gas cost adjustment in November at the beginning of the winter, and during the next twelve months, we may make up to three additional discretionary gas cost adjustments, so long as each of these adjustments is separated by at least two months.

The Missouri Public Service Commission typically approves our purchased gas adjustment changes on an interim basis, subject to refund and the outcome of a subsequent audit and prudence review. Due to such review process, there is a risk of a disallowance of full recovery of these costs. Any material disallowance of purchased gas costs would adversely affect our revenues. Increases in the prices we charge for gas may also adversely affect our revenues because they could lead customers to reduce usage and cause our customers to have trouble paying the resulting higher bills. These higher prices may increase our bad debt expenses and ultimately reduce earnings. We have used short-term borrowings in the past to finance storage inventories and purchased gas costs, and we expect to do so in the future.

Hedging procedures may not fully protect our sales and results of operations from volatility, and the use of derivative contracts in the normal course of business could result in financial losses.

To lower financial exposure to commodity price fluctuations, we enter into contracts to hedge the forward commodity price of our natural gas supplies. As part of this strategy, we may use fixed-price, forward, physical purchase contracts, futures and option contracts traded on the NYMEX. However, we do not hedge the entire exposure of energy assets or positions to market price volatility, and the coverage will vary over time. Any costs, gains or losses we experience through our hedging procedures generally flow through our purchased gas adjustment clause, thereby limiting our exposure to volatility. However, these procedures remain subject to prudence review by the Missouri Public Service Commission.

We are dependent on bank lines of credit and continued access to capital markets to successfully execute our operating strategies.

In addition to our longer term debt that is issued to the public under our mortgage, we have relied, and continue to rely, upon shorter term bank borrowings or commercial paper supported by bank lines of credit to

S-5

Table of Contents

finance the execution of a portion of our operating strategies. We are dependent on these capital sources to purchase our natural gas supply and maintain our properties. The availability and cost of these credit sources is cyclical and these capital sources may not remain available to us, or we may not be able to obtain money at a reasonable cost in the future. Our ability to borrow under our lines of credit, or to issue commercial paper supported by our lines of credit, depends on our compliance with our obligations under the lines of credit.

A downgrade in our credit rating could negatively affect our ability to access capital.

Standard & Poor's Ratings Group, Moody's Investor Service, Inc. and Fitch, Inc. from time to time implement new requirements for various ratings levels. To maintain our current credit ratings in light of any new requirements, we may find it necessary to take steps or change our business plans in ways that may affect our results of operations.

Currently our first mortgage bonds are rated A by Standard & Poor's, A3 by Moody's and A+ by Fitch. Our commercial paper currently is rated A-1 and P-2 by Standard & Poor's and Moody's, respectively. If the rating agencies lowered our ratings, particularly below investment grade, it might significantly limit our access to the commercial paper market and would increase our costs of borrowing. In addition, we would likely be required to pay a higher interest rate in future financings and our potential pool of investors and funding sources would likely decrease. Also, credit ratings are an independent assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the specific debt instruments, including the new bonds, that are rated.

Transporting and storing natural gas involves numerous risks that may result in accidents and other operating risks and costs.

There are inherent in gas distribution activities a variety of hazards and operations risks, such as leaks, accidental explosions and mechanical problems, that could cause substantial financial losses. In addition, these risks could result in loss of human life, significant damage to property, environmental pollution, impairment of our operations and substantial losses to us. The location of pipelines and storage facilities near populated areas, including residential areas, commercial business centers and industrial sites, could increase the level of damages resulting from these risks. These activities may subject us to litigation or administrative proceedings from time to time. Such litigation or proceedings could result in substantial monetary judgments, fines or penalties against us or be resolved on unfavorable terms. In accordance with customary industry practices we maintain insurance against some, but not all, of these risks and losses. To the extent that the occurrence of any of these events is not fully covered by insurance, they could adversely affect our financial position and results of operations.

Table of Contents**USE OF PROCEEDS**

We will use the net proceeds from the sale of the new bonds to reduce our short-term borrowings and for general corporate purposes. As of March 31, 2006, our outstanding short-term debt was \$201.6 million and bore interest at a weighted average rate of 4.8% per annum. We used the proceeds of short-term debt, some of which is to be repaid with the net proceeds of this offering, to pay gas supply costs and to make capital expenditures for assets acquired in the ordinary course of business, including construction and office equipment, and to retire \$40 million principal amount of our 8⁵/₈% first mortgage bonds that matured in May 2006.

RATIO OF EARNINGS TO FIXED CHARGES

The following table shows our ratio of earnings to fixed charges for the periods indicated:

Fiscal Years Ended September 30,					Twelve Months Ended
2001	2002	2003	2004	2005	March 31, 2006
2.58	2.22	3.15	2.89	2.62	2.48

In computing these ratios, earnings consist of income before taxes and fixed charges. Fixed charges consist of all interest expense and the portion of rentals representing interest. We currently estimate the portion of rentals representing interest to be one-third.

Table of Contents

DESCRIPTION OF NEW BONDS

This description of the particular terms of the new bonds supplements and should be read in conjunction with the statements under **Description of First Mortgage Bonds** in the accompanying prospectus. The description of certain provisions of the new bonds and our mortgage does not purport to be complete and is subject to and is qualified in its entirety by reference to the description in the accompanying prospectus and our mortgage.

General

The new bonds will be issued as a series of first mortgage bonds under our mortgage, as supplemented by a supplemental indenture dated as of June 1, 2006 that will establish the specific terms of the new bonds. The new bonds, with an aggregate principal amount of \$55 million, will be issued on the basis of redeemed and retired first mortgage bonds and will mature on June 1, 2036. We may redeem the new bonds prior to maturity as set forth under **Redemption at Our Option** below. Additional information describing the new bonds and our mortgage under which they are to be issued is set forth below and included under **Description of First Mortgage Bonds** in the accompanying prospectus.

Interest

We will pay interest on the new bonds at the annual rate set forth on the cover page of this prospectus supplement, which will accrue from June 9, 2006. We will pay interest on June 1 and December 1 of each year, beginning on December 1, 2006, to holders of record at the close of business on the immediately preceding May 15 or November 15, respectively.

Redemption at Our Option

We may redeem the new bonds prior to maturity, as described below. The new bonds will not be entitled to the benefit of any sinking fund, which means that we will not deposit money on a regular basis into any separate custodial account to repay the new bonds.

We will have the right to redeem the new bonds, in whole or in part, at our option, at any time and from time to time prior to its stated maturity:

in whole if all or substantially all of our property subject to our mortgage is taken by eminent domain or sold to a governmental body or its designee; or

in whole or in part, at our option, at any time or from time to time through a **make-whole** redemption feature.

In the first case above, the redemption price would be equal to 100% of the principal amount of the new bonds being redeemed, plus accrued interest to the redemption date, without premium. If we redeem all or any part of the new bonds under the **make-whole** redemption feature, we

Edgar Filing: LACLEDE GAS CO - Form 424B2

will pay a redemption price equal to the greater of:

100% of the principal amount of the new bonds being redeemed; and

the sum of the present values of the remaining scheduled payments of principal and interest on the new bonds being redeemed (excluding the portion of any such interest accrued to the redemption date), discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Adjusted Treasury Rate plus .15%

plus, in each case, accrued interest on the new bonds being redeemed to the redemption date.

S-8

Table of Contents

Adjusted Treasury Rate means, with respect to any redemption date:

- (1) the yield, under the heading that represents the average of the immediately preceding week, appearing in the most recently published statistical release designated H.15(519) or any successor publication that is published weekly by the Board of Governors of the Federal Reserve System and that reports yields on actively traded United States Treasury securities adjusted to constant maturity under the caption Treasury Constant Maturities, for the maturity corresponding to the Comparable Treasury Issue (if no maturity is within three months before or after the remaining term of the new bonds to be redeemed, yield for the two published maturities most closely corresponding to the Comparable Treasury Issue shall be determined and the Adjusted Treasury Rate shall be interpolated or extrapolated from those yields on a straight line basis, rounding to the nearest month); or
- (2) if such release (or any successor release) is not published during the week preceding the calculation date or does not contain those yields, the rate per annum equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for the redemption date.

The Adjusted Treasury Rate shall be calculated on the third business day preceding the redemption date.

Comparable Treasury Issue means the United States Treasury Security selected by the Independent Investment Banker as having a maturity comparable to the remaining term of the new bonds to be redeemed that would be used, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the new bonds to be redeemed.

Comparable Treasury Price means, with respect to any redemption date,

- (1) the average of five Reference Treasury Dealer Quotations for the redemption date after excluding the highest and lowest Reference Treasury Dealer Quotations, or
- (2) if the Independent Investment Banker obtains fewer than five such Reference Treasury Dealer Quotations, the average of all the Reference Treasury Dealer Quotations.

H.15(519) means the weekly statistical release entitled H.15(519) Selected Interest Rates, or any successor publication, published by the Board of Governors of the Federal Reserve System.

Independent Investment Banker means the Reference Treasury Dealer.

Reference Treasury Dealer means Merrill Lynch Government Securities, Inc. and its successors; provided, however, that if the foregoing shall cease to be a primary U.S. Government securities dealer in New York City (a Primary Treasury Dealer), we shall substitute therefor another Primary Treasury Dealer.

Edgar Filing: LACLEDE GAS CO - Form 424B2

Reference Treasury Dealer Quotation means, with respect to the Reference Treasury Dealer and any redemption date, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker by the Reference Treasury Dealer at 5:00 p.m. on the third business day preceding the redemption date.

In each instance of redemption, we will give registered holders (which, as long as the new bonds are in the book-entry only system, will be DTC or its nominee or a successor depository) at least 30 days , and not more than 90 days , notice of any redemption. If, at the time notice of redemption is given, the redemption moneys are not held by the trustee, the redemption may be made subject to their receipt on or before the date fixed for redemption and the notice shall be of no effect unless such moneys are so received. A completed default under our mortgage may occur if we fail to deposit money for the redemption with the trustee by the tenth day after the

S-9

Table of Contents

redemption date. If we do not deposit redemption moneys on or before the date fixed for redemption or if any of the new bonds called for redemption is not paid upon surrender for redemption, the principal amount of the new bonds called for redemption will continue to bear interest at the rate indicated on the cover page of this prospectus supplement until paid. If the redemption notice is given and funds are deposited as required by the supplemental indenture to our mortgage relating to the new bonds, then interest will cease to accrue on and after the redemption date on the new bonds or portions of new bonds called for redemption. If any redemption date is not a business day, we will pay the redemption price on the next business day without any interest or other payment due to the delay.

Subject to the foregoing and to applicable law (including, without limitation, United States federal securities laws), we or our affiliates may, at any time and from time to time, purchase outstanding new bonds by tender, in the open market or by private agreement. We may apply cash on deposit under provisions of our mortgage, with certain exceptions, to the redemption or purchase of any series of our first mortgage bonds, including the new bonds.

Dividend Restriction Covenant

Our mortgage contains several restrictions on our ability to pay dividends on our common stock. Under the most restrictive of these provisions, we may not declare or pay any dividend if, after the dividend, the aggregate net amount spent for all dividends after September 30, 1953 would exceed a maximum amount determined by using a formula in our mortgage, which is described below. This provision does not, however, restrict dividends paid in the form of our common stock. In addition, the amount we have spent on the acquisition or retirement of our common stock since that date is added to, and the amount received from the issuance of new stock is deducted from, the aggregate amount spent for dividends. Under our mortgage's formula, the maximum amount is the sum of \$8 million plus our earnings applicable to common stock (adjusted for stock repurchases and issuances) for the period from September 30, 1953 to the last day of the quarter before the declaration or payment date for the dividend. As of March 31, 2006, the amount under our mortgage's formula that was available to pay dividends was \$279 million.

Maintenance and Improvement Fund

The new bonds will not be entitled to the benefits of a maintenance and improvement fund described under "Description of First Mortgage Bonds Maintenance and Improvement Fund" in the accompanying prospectus. However, so long as the outstanding series of first mortgage bonds created prior to the issuance of the new bonds remain outstanding, we will be required to comply with the maintenance and improvement fund requirements.

Reservation of Rights

In the supplemental indenture to our mortgage that establishes the specific terms of the new bonds, we have reserved the right to amend or supplement our mortgage without any consent or other action of the holders of the new bonds or any series of first mortgage bonds created after the issuance of the new bonds for any of the following purposes:

to correct or amplify the description of property subject to the lien of our mortgage, to better assure, convey and confirm to the trustee any property required to be subject to our mortgage or to subject additional property to the lien of our mortgage; and

Edgar Filing: LACLEDE GAS CO - Form 424B2

to change or eliminate any provision of our mortgage or to add any new provision to our mortgage, provided that the change, elimination or addition must not adversely affect the interests of the holders of the first mortgage bonds of any series.

We have also provided that our mortgage shall be deemed to be amended to comply with the Trust Indenture Act of 1939, as in effect from time to time.

S-10

Table of Contents

Trustee

UMB Bank & Trust, n.a. is the trustee under our mortgage. UMB Bank, n.a., an affiliate of the trustee, serves as transfer agent for our preferred stock, transfer agent for our parent company's common stock, rights agent for our parent company's preferred share purchase rights, and plan agent for our parent company's dividend reinvestment and stock purchase plan. Our parent also has a line of credit from UMB Bank, n.a., and we have also recently had, and may from time to time in the future have, lines of credit from UMB Bank, n.a.

Book-Entry Only

General

The new bonds will be represented by one or more global securities that will be deposited with, or on behalf of, and registered in the name of DTC or its nominee. This means that we will not issue certificates to you for the new bonds. Each global security will be issued to DTC, which will keep a computerized record of its participants, known as direct participants, whose clients have purchased the new bonds. Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. Each participant will then keep a record of its clients. Unless a global security is exchanged in whole or in part for a certificated security, a global security may not be transferred. However, DTC, its nominees and their successors may transfer a global security as a whole to one another.

Beneficial interests in a global security will be shown on, and transfers of the global security will be made only through, records maintained by DTC and its direct participants. DTC holds securities that its direct participants deposit with DTC. DTC also records the settlement among direct participants of securities transactions, such as transfers and pledges, in deposited securities through computerized records for direct participants accounts. This eliminates the need to exchange certificates.

DTC's book-entry system is also used by other organizations such as securities brokers and dealers, banks and trust companies, known as indirect participants, that work through a direct participant. The rules that apply to DTC and its participants are on file with the SEC. DTC is owned by a number of its direct participants and by the New York Stock Exchange, the American Stock Exchange and NASD.

DTC has advised us that DTC is a limited-purpose trust company organized under New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934.

Purchases under the DTC System

When you purchase new bonds through the DTC system, the purchases must be made by or through a direct participant, who will receive credit for the new bonds on DTC's records. Because you actually own the new bonds, you are the beneficial owner. Your ownership interest will be recorded only on the direct (or indirect) participants' records. DTC has no knowledge of your individual ownership of the new bonds. DTC's records show only the identity of the direct participants and the amount of the new bonds held by or through them. You will not receive a written

Edgar Filing: LACLEDE GAS CO - Form 424B2

confirmation of your purchase or sale or any periodic account statement directly from DTC. You will receive these from your direct (or indirect) participant. As a result, the direct (or indirect) participants are responsible for keeping accurate account of the holdings of their customers.

Payments under the DTC System

The trustee will wire payments on the new bonds to DTC's nominee. We and the trustee will treat DTC's nominee as the owner and holder of each global security representing new bonds for all purposes. Accordingly, we and the trustee will have no direct responsibility or liability to pay amounts due on a global security to you or any other beneficial owners in the global security.

S-11

Table of Contents

Any redemption notices will be sent by us and the trustee directly to DTC, who will in turn inform the direct participants, who will then contact you as a beneficial owner. If less than all the new bonds are being redeemed, DTC's practice is to choose by lot the amount of the interest of each direct participant to be redeemed. The direct participant will then use an appropriate method to allocate the redemption among its beneficial owners.

It is DTC's current practice, upon receipt of any payment, to credit direct participants' accounts on the relevant payment date in accordance with their respective holdings as shown on DTC's records. In addition, it is DTC's current practice to assign any consenting or voting rights to direct participants whose accounts are credited with new bonds on a record date, by using an omnibus proxy. Payments by direct participants to owners of beneficial interests in the global securities, and voting by direct participants, will be based on the customary practices between the direct participants and owners of beneficial interests, as is the case with securities held for the account of customers registered in street name. However, payments will be the responsibility of the direct participants and not of DTC, the trustee or us.

Exchange of Global Securities

The new bonds represented by a global security will be exchangeable for certificated securities with the same terms in authorized denominations only if:

DTC elects to discontinue its services as depository and a successor depository is not appointed by the trust within 90 days;

a completed default has occurred and is continuing under our mortgage; or

we elect to discontinue use of the system of book-entry transfer through DTC (or any successor depository).

If the book-entry system is discontinued for the new bonds, we will issue new bonds in definitive form in exchange for the entire global security or securities representing the new bonds. In addition, we may at any time, and in our sole discretion, determine not to have the new bonds represented by a global security and, in that event, will issue new bonds in definitive form in exchange for the global security. In any such instance, an owner of a beneficial interest in the global security will be entitled to physical delivery in definitive form of new bonds represented by the global security equal in principal amount to the beneficial interest and to have the new bonds registered in its name. New bonds so issued in definitive form will be issued as registered new bonds in denominations that are integral multiples of \$1,000.

Table of Contents**UNDERWRITING**

Subject to the terms and conditions of an underwriting agreement dated the date of this prospectus supplement between us and the underwriters, we have agreed to sell to each of the underwriters named below, for whom Merrill Lynch, Pierce, Fenner & Smith Incorporated is acting as representative, and each of the underwriters has severally agreed to purchase from us, the principal amounts of the new bonds listed opposite their names below.

<u>Underwriters</u>	<u>Principal Amount</u>
Merrill Lynch, Pierce, Fenner & Smith Incorporated	\$ 36,850,000
A.G. Edwards & Sons, Inc.	6,600,000
BNY Capital Markets, Inc. .	3,850,000
Morgan Keegan & Company, Inc.	3,850,000
NatCity Investments, Inc.	3,850,000
Total	\$ 55,000,000

The underwriters have agreed to purchase all of the new bonds sold pursuant to the underwriting agreement if any are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of non-defaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the new bonds, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the new bonds, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The representative has advised us that they propose to offer the new bonds directly to the public at the public offering prices set forth on the cover page of this prospectus supplement, and to securities dealers at those prices less a concession not to exceed .50% of the principal amount of the new bonds. The underwriters may allow, and the dealers may reallow, a concession not to exceed .25% of the principal amount of the new bonds to other dealers. After the new bonds are released for sale to the public, the public offering prices, concessions and discounts may be changed.

Edgar Filing: LACLEDE GAS CO - Form 424B2

The expenses of the offering, including rating agency fees, trustee's fees, independent auditors' fees and legal fees, but not including underwriting discounts, are estimated to be \$95,000 and are payable by us.

New Issue of Bonds

The new bonds are new issues of securities with no established trading market. We do not intend to apply for listing of the new bonds on any national securities exchange or for quotation of the new bonds on any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the new bonds after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of

S-13

Table of Contents

the trading market for the new bonds or that an active public market for the new bonds will develop. If an active public trading market for the new bonds does not develop, the market prices and liquidity of the new bonds may be adversely affected.

Price Stabilization and Short Positions

In connection with this offer, the underwriters are permitted to engage in transactions that stabilize the market prices of the new bonds. Such transactions consist of bids or purchases to peg, fix or maintain the prices of the new bonds. If the underwriters create a short position in the new bonds in connection with the offering, in other words if they sell more new bonds than are set forth on the cover page of this prospectus supplement, the underwriters may reduce that short position by purchasing new bonds in the open market. Purchases of a security to stabilize the price or to reduce a short position could cause the price of the security to be higher than it might be in the absence of such purchases.

Neither we nor any of the underwriters makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the prices of the new bonds. In addition, neither we nor any of the underwriters makes any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

These activities by the underwriters may stabilize, maintain or otherwise affect the market price of the new bonds. As a result, the price of the new bonds may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time.

Other Relationships

The underwriters and their affiliates have engaged in, and may in the future engage in, various general financing and banking transactions with us and our affiliates for customary compensation.

LEGAL MATTERS

The legality of the new bonds will be passed on for us by Mark C. Darrell, our General Counsel, or Mary C. Kullman, our Chief Governance Officer and Corporate Secretary. Certain legal matters will be passed upon for the underwriters by Pillsbury Winthrop Shaw Pittman LLP, New York, New York.

EXPERTS

The financial statements, the related financial statement schedule and management's report on the effectiveness of internal control over financial reporting incorporated by reference from our Annual Report on Form 10-K for the fiscal year ended September 30, 2005 have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their reports, which are incorporated herein by reference,

Edgar Filing: LACLEDE GAS CO - Form 424B2

and have been so incorporated in reliance upon the reports of such firm given upon their authority as experts in accounting and auditing.

PROSPECTUS

\$350,000,000

LACLEDE GAS COMPANY

First Mortgage Bonds

We may offer from time to time our first mortgage bonds.

We will provide specific terms of any first mortgage bonds we offer, including their offering prices, interest rates and maturities, in supplements to this prospectus. The supplements may also add, update or change information contained in this prospectus. You should read this prospectus and any supplements carefully.

We may offer our first mortgage bonds directly or through underwriters, agents or dealers. The supplements to this prospectus will describe the terms of any particular plan of distribution, including any underwriting arrangements. The Plan of Distribution section of this prospectus also provides more information on this topic.

Our principal executive offices are located at 720 Olive Street, St. Louis, Missouri 63101 and our telephone number is (314) 342-0500.

**NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS
APPROVED OR DISAPPROVED OF THESE SECURITIES OR**

DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY

REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this Prospectus is July 24, 2000

Table of Contents

Laclede Gas Company

We are a public utility that distributes and transports natural gas. We serve approximately 637,000 customers as of March 31, 2000 in the City of St. Louis, St. Louis County and parts of eight other counties in eastern Missouri and are subject to the jurisdiction of the Missouri Public Service Commission. Generally, we sell gas for househeating, certain other household uses, and commercial and industrial space heating. In addition, we operate underground natural gas storage fields and transport and store liquid propane. We have also invested in other minor, non-utility businesses.

For the three months ended March 31, 2000, we had operating utility revenues of \$230 million, approximately 63% of which came from sales to residential customers and 25% from sales to commercial and industrial customers. The balance of our utility operating revenues are primarily attributable to our off-system sales, gas supply incentive plan and transportation service. Due to the seasonal nature of our business, earnings are typically concentrated in the first six months of the fiscal year, which generally corresponds with the heating season.

Where You Can Find More Information

We file annual, quarterly and special reports, proxy statements and other information with the Securities and Exchange Commission. You may read and copy any document that we file at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for information on the operation of the Public Reference Room. Our SEC filings also are available to you at the SEC's website at <http://www.sec.gov>.

The SEC allows us to incorporate by reference the information we file with them, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is an important part of this prospectus. We are incorporating by reference the documents listed below and any future filings we make with the SEC under Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 until we sell all of the first mortgage bonds offered by this prospectus or they are removed from registration by means of a post-effective amendment. Any of those future filings will update, supercede and replace the information contained in any documents incorporated by reference in this prospectus at the time of the future filings.

Annual Report on Form 10-K for the fiscal year ended September 30, 1999.

Quarterly Reports on Form 10-Q for the fiscal quarters ended December 31, 1999 and March 31, 2000.

Current Reports on Form 8-K filed on October 29, 1999 and January 28, 2000.

Table of Contents**Ratio of Earnings to Fixed Charges**

The following table shows our ratio of earnings to fixed charges for the periods indicated:

Twelve Months ended March 31, 2000	Fiscal Years Ended September 30,				
	1999	1998	1997	1996	1995
2.79	2.93	3.01	3.62	3.81	2.65

Use of Proceeds

Except as may be set forth in any prospectus supplement, the net proceeds from the sale of our first mortgage bonds will be used to reduce short-term debt, to redeem or discharge certain maturing long-term indebtedness, to finance a portion of our capital expenditures, to reimburse our treasury, for corporate development purposes including, without limitation, acquisitions made by us, and for other general corporate purposes.

Description of First Mortgage Bonds

General. The first mortgage bonds offered by this prospectus are to be issued under our Mortgage and Deed of Trust, dated as of February 1, 1945, to Mississippi Valley Trust Company, as trustee. State Street Bank and Trust Company of Missouri, N.A., is the current trustee. The Mortgage and Deed of Trust as supplemented and amended and as may be further supplemented and amended is referred to as the Mortgage. The following description sets forth certain general terms and provisions of our first mortgage bonds and the Mortgage. You should read the Mortgage for provisions that may be important to you. We will describe the particular terms of any series of first mortgage bonds and provisions that vary from those described below in one or more prospectus supplements.

The prospectus supplement relating to any series of first mortgage bonds being offered will include specific terms relating to that offering. These terms will include any of the following terms that apply to that series:

the date or dates on which the principal of the first mortgage bonds will be payable and how it will be paid;

the rate or rates at which the first mortgage bonds will bear interest;

the place for payment and for the registration and transfer of the first mortgage bonds;

Edgar Filing: LACLEDE GAS CO - Form 424B2

the date or dates from which interest on the first mortgage bonds will accrue, the interest payment dates on which interest will be paid, and the record dates for interest payments;

any date or dates on which, and the price or prices at which, the first mortgage bonds may be redeemed at our option and any restrictions on such redemption;

any sinking fund or other provisions or options held by holders of first mortgage bonds that would obligate us to repurchase or otherwise redeem the first mortgage bonds; and

any other terms of the first mortgage bonds not inconsistent with terms of the Mortgage.

Payment and Paying Agent. Interest on the first mortgage bonds payable on the applicable interest payment date will be paid to the person in whose name the first mortgage bond is registered at the close of business on the record date for the interest payment date. However, if we default in the payment of interest on any first mortgage bond, the defaulted interest will be paid to the person in whose name the first mortgage bond is registered on the date of payment of such defaulted interest. (See Supplemental Indenture Section 2.7.)

Table of Contents

Unless otherwise specified in the prospectus supplement, principal and interest on first mortgage bonds at maturity will be paid upon presentation of the first mortgage bonds at the corporate trust office of the trustee in The City of New York as paying agent for us. We may change the place of payment on the first mortgage bonds, may appoint one or more additional paying agents (including us) and may remove any paying agent, all at our discretion. (See Mortgage Sections 9.03 and 9.04.)

Registration and Transfer. The first mo
