Overview

Historically, we have operated our business through a group of complementary companies in the telecommunications industry. These companies include: (i) the MSV Joint Venture, a provider of mobile digital voice and data communications services via satellite in the United States and Canada; (ii) Hughes Network Systems, LLC, a leading developer, manufacturer, installer and provider of advanced satellite based networking solutions and services for businesses, governments and consumers worldwide; (iii) Electronic System Products, Inc., formerly a product development and engineering services firm which is currently focusing on maximizing the license revenues from its intellectual property portfolio and (iv) AfriHUB, LLC, an early stage company that provides a limited amount of satellite based Internet access and domestic and international calling services through exclusive partnerships with certain Nigerian based universities while it actively pursues opportunities to provide technical training in the Nigerian market. On February 21, 2006, we completed the distribution of all of the common stock of Hughes Communications, Inc. (Hughes), formerly a wholly-owned subsidiary, which held our interests in Hughes Network Systems, Electronic System Products and AfriHUB, among other things, to our security holders.

Through MSV Investors, our 80% owned subsidiary, we are an active participant in the MSV Joint Venture, a joint venture that also includes TMI Communications, Inc. (TMI), Motient and certain other investors. The MSV Joint Venture currently provides mobile digital voice and data communications services in the L-band via satellite in the United States and Canada, while pursuing plans to develop, build and operate a next generation integrated network complemented by an ancillary terrestrial component or ATC. MSV Investors owns approximately 20% of the limited partnership interests of the MSV Joint Venture on a fully diluted basis. In addition, MSV Investors owns approximately 15% of TerreStar on a fully diluted basis, which is also pursuing plans to develop, build and operate a next-generation satellite system complemented by an ATC in the 2 GHz band or S-band .

MSV Joint Venture

The MSV Joint Venture is developing an integrated satellite and terrestrial communications network to provide ubiquitous wireless broadband services, including Internet access and voice services, in the United States and Canada. Using an all-Internet protocol, open architecture, the MSV Joint Venture expects its network to provide significant advantages over existing wireless networks. Such potential advantages include higher data speeds, lower costs per bit and flexibility to support a range of custom Internet protocol applications and services. The MSV Joint Venture's current business plan envisions a carrier's carrier wholesale model whereby its strategic partners and other wholesale customers can use its network to provide differentiated broadband services to their subscribers. The MSV Joint Venture expects that its planned open network, in contrast to legacy networks currently operated by incumbent providers, will allow distribution and other strategic partners to have open network access to create a variety of custom applications and services for consumers.

Table of Contents

The MSV Joint Venture expects its next generation integrated network to create the opportunity to use the MSV Joint Venture's spectrum for a substantially broader business plan in the United States and Canada that permits terrestrial wireless deployments similar or superior to those of other third generation wireless operators. By deploying thousands of cell sites and two or more satellites to work jointly in a common continent-wide wireless network, the MSV Joint Venture has stated that it believes its approach will address its greatest business opportunity and maximize spectral efficiency.

The MSV Joint Venture currently offers a range of services using two geo-stationary satellites, or GEOs that support the delivery of data, voice, fax and dispatch radio services. The MSV Joint Venture is licensed by the United States and Canadian governments to operate in the L-band spectrum. The MSV Joint Venture currently has coordinated approximately 30 MHz of spectrum throughout the United States and Canada. Its United States and Canadian spectrum footprint covers a total population of nearly 330 million. In operating its next generation integrated network, the MSV Joint Venture plans to allocate the use of spectrum between satellite and terrestrial service. The MSV Joint Venture's spectrum occupies a portion of the L-band and is positioned between the frequencies used today by terrestrial wireless providers in the United States and Canada. The MSV Joint Venture was the first MSS provider to receive a license to operate an ATC network from the Federal Communications Commission (FCC). These ATC licenses permit the use of its L-band satellite frequencies in the operation of an advanced, integrated network capable of providing broadband services on a fixed, portable and fully mobile basis.

The MSV Joint Venture operates today with approximately 200,000 units in service on its network and had approximately \$29 million in revenue for the year ended December 31, 2005. The MSV Joint Venture provides switched and packet data service and sells bulk capacity to service provider partners through two nearly identical GEOs. Consistent with its strategy to deploy an integrated ATC network, in January 2006 the MSV Joint Venture entered into a contract with Boeing Satellite Systems, Inc. for the design and construction of its next generation satellites, which are expected to launch commencing in 2009. The MSV Joint Venture believes its next generation satellites are designed to be powerful enough to enable subscribers to use transparent wireless devices, which refers to the use of integrated satellite and terrestrial technology on standard wireless devices that are substantially similar to current PCS/cellular devices in terms of aesthetics, cost and functionality within terrestrial applications.

The MSV Joint Venture is also currently in the planning phase of its terrestrial network. The MSV Joint Venture currently expects to start the build-out of the terrestrial network in several markets in 2007 and complete additional market build-outs in the future until it achieves a top 50 market footprint in the United States and Canada. The MSV Joint Venture believes that since it will roll out construction of its terrestrial network to markets based on its success in development along the way, it can mitigate the risk associate with network deployment for the MSV Joint Venture's potential strategic partners and investors. As the MSV Joint Venture reaches scale and sells services to additional wholesale partners, the MSV Joint Venture plans to extend its network footprint incrementally to offer portable and fully mobile services.

TerreStar Networks

TerreStar was established as a wholly owned subsidiary of the MSV Joint Venture in February 2002 to develop business opportunities related to the proposed receipt of certain licenses in the 2 GHz band, or S-band. TMI, one of our partners in the MSV Joint Venture and a stockholder of TerreStar, holds the approval issued by Industry Canada for a 2 GHz space station authorization and related spectrum licenses for the provision of MSS in the 2 GHz band, as well as an authorization from the FCC for the provision of MSS in the 2 GHz band. These authorizations are subject to FCC and Industry Canada milestones relating to construction, launch, and operational date of the system. In order to satisfy the milestone requirements included within the authorizations, TerreStar and TMI entered into an agreement in which TerreStar agreed to enter into a non-contingent satellite procurement contract for the construction and delivery to TMI of a satellite that is consistent with the Canadian

Table of Contents

and FCC authorizations. TMI plans to transfer the Canadian authorizations to an entity that is eligible to hold the Canadian authorizations and in which TerreStar and/or TMI will have an interest, subject to obtaining the necessary Canadian regulatory approvals. Further, TMI agreed that at TerreStar's election, TMI will transfer the 2 GHz assets to the entity described above, subject to any necessary Canadian and United States regulatory approvals. In December 2002, TMI and TerreStar jointly applied to the FCC for authority to transfer TMI's MSS authorizations to TerreStar. In May 2005, the MSV Joint Venture distributed the stock of TerreStar to its limited partners. As a result, MSV Investors owns 15% of TerreStar on a fully diluted basis.

MSV Exchange Transactions

On May 8, 2006, we announced that we had executed definitive agreements with certain other partners in the MSV Joint Venture and the minority stakeholders in MSV Investors that, upon closing, would result in the consolidation of majority ownership and control of the MSV Joint Venture and MSV GP in us. At the initial closing, we will issue an aggregate of 39,596,432 shares of our voting and non-voting common stock to a wholly owned subsidiary of Motient, other partners in the MSV Joint Venture and the minority stakeholders in MSV Investors in exchange for approximately 14.2 million limited partnership interests of the MSV Joint Venture and all of the common stock of MSV GP currently held by these parties, resulting in us owning 52% of the MSV Joint Venture on a fully diluted basis and 78% of MSV GP. Pursuant to the terms of these transactions, Motient has agreed to use its commercially reasonable efforts to take all steps necessary to distribute pursuant to this information statement/prospectus 25,478,273 shares of our common stock that it receives to its common stockholders as soon as practicable following the initial closing. After the initial closing and prior to the distribution by Motient, these shares will be non-voting. On September 1, 2006, we agreed to allow Motient to distribute to TMI a portion of the shares of our non-voting common stock that it receives in the initial closing in the event that TMI exchanges its shares of TerreStar common stock for shares of Motient common stock. To the extent that at the time of the distribution Motient and TMI have executed an agreement to exchange such shares of TerreStar for shares of Motient common stock, but such exchange has not been consummated, Motient will withhold from the distribution to Motient's common stockholders the number of shares of our non-voting stock sufficient to fulfill its agreement with TMI. Any shares of our common stock received by TMI pursuant to such arrangement will remain non-voting. Motient will also have the right to exchange, for five years following the initial closing, its remaining 6.7 million limited partnership interests of the MSV Joint Venture for 18,855,144 shares of our non-voting common stock, which will be exchangeable for a like number of shares of our voting common stock upon the disposition of any such shares. If Motient has not exchanged these MSV Joint Venture interests in the five-year period, we have the right to require such interests to be exchanged for shares of our non-voting common stock at an exchange ratio reflecting the fair market value of such interests and our common stock on May 6, 2021. Following these transactions, we will own approximately 70% of the MSV Joint Venture on a fully diluted basis and 78% of MSV GP.

We may acquire additional limited partnership interests of the MSV Joint Venture if we negotiate and enter into exchange transactions with TMI and/or the MSV Joint Venture option holders and certain other investors in the MSV Joint Venture. For a more detailed discussion, see MSV Exchange Transactions.

The Company understands that a group of related stockholders of Motient have recently filed a lawsuit in the District Court of Travis County, Texas, seeking to enjoin the MSV Exchange Transactions and to rescind the exchange agreement between us and Motient on grounds alleging, among other things, that Motient's entry into the exchange agreement and Motient's consummation of the MSV Exchange Transactions violate the Investment Company Act of 1940. The resolution of any of these claims in favor of this group of stockholders of Motient could negatively affect our ability to consummate the MSV Exchange Transactions. Motient has advised us that it intends to vigorously fight these claims and that it believes that these claims are without merit.

Table of Contents

TerreStar Exchange Transactions

On May 8, 2006, Motient announced that it had executed agreements with affiliates of Columbia Capital and Spectrum Equity Investors pursuant to which Motient will issue 2.7 million shares of its common stock in exchange for 1.5 million shares of TerreStar common stock held by these parties, resulting in Motient owning 59% of TerreStar on a fully diluted basis. In connection with these transactions, MSV Investors will distribute the shares of TerreStar common stock that it currently holds to its members. Following the distribution, we will have the right, but not the obligation, to exchange our 4.2 million shares of TerreStar common stock for 7.5 million shares of Motient common stock for 15 days following closing of these transactions, which will occur concurrently with the MSV Exchange Transactions.

Rights Offering and Redemption of Preferred Stock

On May 6, 2006, we entered into a redemption agreement with the Apollo Stockholders pursuant to which we and the Apollo Stockholders agreed to the redemption of all outstanding shares of our Series A Preferred Stock. Such redemption occurred through a rights offering that we completed on July 25, 2006 and in which we sold 6,661,150 shares of common stock for consideration of approximately \$119.9 million. We distributed to each stockholder of record, as of the close of business on June 22, 2006, 0.38225 of a non-transferable right for each share of common stock then owned, subject to adjustment to eliminate fractional rights. Each full subscription right entitled the holder to purchase one additional share of common stock at a purchase price of \$18.00 per share. Pursuant to the redemption agreement, the Apollo Stockholders agreed to purchase, at the \$18.00 per share subscription price, such number of shares of our common stock equal to the number of shares of common stock not subscribed for by other stockholders in the rights offering so as to ensure the aggregate proceeds from the rights offering were sufficient to redeem the outstanding Series A Preferred Stock at an aggregate price equal to the \$119.9 million aggregate liquidation preference of all outstanding shares of Series A Preferred Stock. Immediately following the consummation of the rights offering, we completed the redemption of all outstanding shares of the Series A Preferred Stock for the \$18.0 million of cash proceeds received in the rights offering and the 5,662,542 shares of common stock which were not subscribed for by other shareholders in the rights offering. In accordance with the redemption agreement, the Apollo Stockholders received 2,434,311 shares of voting common stock and 3,228,231 shares of non-voting common stock such that, following the redemption of the Series A Preferred Stock, the Apollo Stockholders control the vote with respect to 29.9% of our outstanding voting common stock.

A: The distribution will be completed on or around ●, the distribution date.

Q: What will the relationship between SkyTerra and Motient be after the distribution?

A: At the initial closing, we will issue an aggregate of 39,596,432 shares of our voting and non-voting common stock to a wholly owned subsidiary of Motient, other partners in the MSV Joint Venture and the minority stakeholders in MSV Investors in exchange for approximately 14.2 million limited partnership interests of the MSV Joint Venture and all of the common stock of MSV GP currently held by these parties, resulting in Motient receiving 25,478,273 shares of our non-voting common stock. Pursuant to the terms of these transactions, Motient has agreed to use its commercially reasonable efforts to take all steps necessary to distribute up to all of such shares of our common stock to its common stockholders as soon as practicable following the initial closing. The shares of non-voting common stock that Motient receives at the initial closing are exchangeable into voting common stock upon the distribution to its common stockholders. On September 1, 2006, we agreed to allow Motient to distribute to TMI a portion of the shares of our non-voting common stock that it receives in the initial closing in the event that TMI exchanges its shares of TerreStar common stock for shares of Motient common stock. In the event that the Blocker Corporations distribute the shares of our common stock received by them in the MSV Exchange Transactions to their respective stockholders, Motient will receive 3,573,214 shares of our common stock. Motient has agreed that so long as any shares of our voting common stock that it receives via the distribution of shares by the Blocker Corporations are held by Motient, Motient shall cause all such shares held by Motient (or any subsidiary) to be voted at any meeting of our stockholders and in connection with any action by written consent, pro rata with all other votes cast at such meeting (or by written consent) by holders of our common stock. In addition, under the terms of the MSV Exchange Transactions, if Motient does not dispose of the shares of our common stock it receives from the Blocker Corporation within 60 days of such distribution by the Blocker Corporations, such shares of our common stock will automatically be exchanged for shares of our non-voting common stock.

After the initial closing of the MSV Exchange Transactions, Motient will continue to have the right to exchange, for five years following the date of the initial closing, its remaining 6.7 million limited partnership interests of the MSV Joint Venture for 18,855,144 shares of our non-voting common stock, which will be similarly exchangeable for a like number of shares of our voting common stock upon the disposition of any such shares. If Motient has not exchanged these MSV Joint Venture interests in the five-year period, we have the right to require such interests to be exchanged for shares of our non-voting common stock at an exchange ratio reflecting the fair market value of such interests and our common stock on May 6, 2021. Motient has stated that it intends to use the shares of our common stock that it receives in any such subsequent closing or closings to distribute to holders of its outstanding preferred stock upon the conversion of such preferred stock, to dividend to its common stockholders and/or to sell shares of our common stock to raise funds to satisfy tax obligations incurred by Motient in connection with the MSV Exchange Transactions and for general corporate purposes.

PRO FORMA CONDENSED COMBINED FINANCIAL STATEMENTS

The following unaudited pro forma condensed combined statements of operations present our results of operations for the year ended December 31, 2005 and the six months ended June 30, 2006 assuming the following occurred on January 1, 2005: (i) the rights offering and redemption of the Series A Preferred Stock, (ii) the initial closing of the MSV Exchange Transactions and (iii) the distribution by Motient of our common stock to its common stockholders. The following unaudited pro forma condensed combined balance sheet presents our financial position assuming that the initial closing of the MSV Exchange Transactions and the distribution by Motient of our common stock to its common stockholders occurred on June 30, 2006.

The initial closing of the MSV Exchange Transactions will be accounted for as a reverse acquisition under the purchase method of accounting with the MSV Joint Venture being treated as the accounting acquirer. Accordingly, our reported financial position and results of operations after the initial closing of the MSV Exchange Transactions will reflect the historical consolidated financial position and consolidated results of operations of the MSV Joint Venture.

The pro forma condensed combined financial statements include allocations of the purchase price. These allocations are based on preliminary estimates of the fair value of the assets acquired and liabilities assumed, available information and management assumptions. Such allocations will be revised as additional information becomes available. The final purchase price allocation is dependent on the valuations of the actual net tangible and intangible assets that exist on date of the initial closing of the MSV Exchange Transactions. Any adjustments to the fair value assigned to the assets and liabilities will result in a change to the unaudited pro forma condensed combined financial statements.

The unaudited pro forma condensed combined financial statements set forth below should be read in conjunction with our Management's Discussion and Analysis of Financial Condition and Results of Operations, our combined financial statements and the related notes thereto and the consolidated financial statements of the MSV Joint Venture and the related notes thereto incorporated by reference in this document. The unaudited pro forma condensed combined financial statements do not purport to represent what our results of operations or financial condition would actually have been had the initial closing of the MSV Exchange Transactions and the distribution by Motient of our common stock to its common stockholders in fact occurred as of such date or to project our results of operations for any future period or as of any future date.

After the initial closing of the MSV Exchange Transactions, Motient will continue to have the right to exchange, for five years following the date of the initial closing, its remaining 6.7 million limited partnership interests in the MSV Joint Venture for 18,855,144 shares of our non-voting common stock, which will be exchangeable for a like number of shares of our voting common stock upon the disposition of any such

- (1) Pursuant to the separation agreement between Hughes and us, we retained \$12.5 million of cash and cash equivalents. Upon a change of control involving the consolidation of the ownership of the MSV Joint Venture, which would include a transaction such as the initial closing of the MSV Exchange Transactions, the remaining balance of the \$12.5 million of cash and cash equivalents at such time, if any, will be transferred to Hughes. The adjustment reflects the distribution of \$5.3 million of cash and cash equivalents held by us as of June 30, 2006 to Hughes pursuant to the separation agreement.
- (2) Prior to the initial closing of the MSV Exchange Transactions, we account for our interest in the MSV Joint Venture under the equity method. The adjustment reflects the elimination of the carrying value of our investment in the MSV Joint Venture.
- (3) We will account for the initial closing of the MSV Exchange Transactions as a reverse acquisition under the purchase method of accounting with the MSV Joint Venture being treated as the accounting acquirer. Our preliminary estimate of the purchase price is \$424.0 million, which consists of (i) the \$409.3 million fair value attributed to the 24,610,616 shares of our common stock expected to be outstanding as of the initial closing, (ii) the \$7.8 million fair value attributed to outstanding options to purchase shares of our common stock expected to be exercisable as of the initial closing and (iii) the \$6.9 million fair value attributed to our Series 1-A and Series 2-A warrants. The fair value of the outstanding common stock was calculated based on the average closing price of our common stock for a range of trading days around and including the May 8, 2006 announcement date of the MSV Exchange Transactions. The fair value of the outstanding stock options was calculated using the Black-Scholes option pricing model and the following assumptions: a risk-free interest rate of 5.1%, an expected term of less than one year, volatility of approximately 37% and an annual dividend yield of 0%. The fair value of the Series 1-A and Series 2-A warrants was calculated using the Black-Scholes option pricing model and the following assumptions: a risk-free interest rate of 4.8%, an expected term of seven years, volatility of approximately 50% and an annual dividend yield of 0%.

The \$424.0 million total estimated purchase price has been allocated to the acquired assets and liabilities based on their relative estimated fair value, net of the allocation of the excess of fair value of the acquired net assets over purchase price. The final allocation of the purchase price is dependent on a number of factors, including the final evaluation of the fair value of the tangible and identifiable intangible assets acquired and liabilities assumed. The following table presents the preliminary allocation:

	June 30, 2006 (in thousands)
Current assets	\$ 4,493
Investment in Mobile Satellite Ventures LP (a)	294,201
Investment in TerreStar Networks, Inc.	127,261
Total assets acquired	425,955
Current liabilities	(1,922)
Purchase price	\$ 424,033

- (a) As the MSV Joint Venture is treated as the accounting acquirer, the limited partnership units held by us prior to the initial closing of the MSV Exchange Transactions are deemed to be reacquired in a treasury stock transaction. Accordingly, the value allocated to such limited partnership interests is recorded as a reduction of stockholders' equity.
- (4) At the initial closing, we will acquire from the holders of the 20% minority interest in MSV Investors their stake in MSV Investors in exchange for shares of our common stock. The adjustment reflects elimination of the minority interest that is attributable to the group of unaffiliated third parties who own the minority interest in MSV Investors.
- (5) Following the initial closing, we will own approximately 59% of the outstanding limited partnership interests of the MSV Joint Venture. The adjustment reflects the reclassification of the proportionate

share of the historical carrying amounts of the components of limited partners' equity of the MSV Joint Venture that is attributable to the minority interest that holds the remaining 41% of the outstanding limited partnership interests of the MSV Joint Venture.

After the initial closing of the MSV Exchange Transactions, Motient will continue to have the right to exchange, for five years following the date of the initial closing, its remaining 6.7 million limited partnership interests in the MSV Joint Venture for 18,855,144 shares of our non-voting common stock, which will be exchangeable for a like number of shares of our voting common stock upon the disposition of any such shares. If Motient has not exchanged these MSV Joint Venture interests in the five-year period, we have the right to require such interests be exchanged for shares of our common stock at an exchange ratio reflecting the fair market value of such interests and our common stock on May 6, 2021. Upon such exchange, the minority interest in the MSV Joint Venture would be reduced to approximately 22% of the MSV Joint Venture limited partner interests. These future transactions are not reflected in the pro forma condensed combined financial statements.

- (6) On July 25, 2006, we completed the redemption of all outstanding shares of our Series A Preferred Stock. Such redemption was a condition to the initial closing of the MSV Exchange Transactions. The adjustment reflects elimination of the Series A Preferred Stock.
- (7) Adjustment reflects the reclassification of the proportionate share of the historical carrying amount of the limited partners' equity of the MSV Joint Venture to reflect the 39,596,432 shares of our common stock issued at the initial closing of the MSV Exchange Transactions.
- (8) Adjustment reflects the elimination of our historical common stock, accumulated other comprehensive loss and accumulated deficit.

MSV EXCHANGE TRANSACTIONS

The following description is only a summary of the material provisions of the exchange agreements between us, Motient and other partners in the MSV Joint Venture. It does not purport to be complete and we urge you to read the exchange agreements because the exchange agreements, not this description, define your rights as holders of our common stock. You may request a copy of these agreements by written request at our address set forth under the heading [Where You Can Find More Information](#).

MSV Exchange Transactions

On May 8, 2006, we announced that we had executed definitive agreements with certain other partners in the MSV Joint Venture and the minority stakeholders in MSV Investors that, upon closing, would result in the consolidation of ownership and control of the MSV Joint Venture and MSV GP in us. At the initial closing, we will issue an aggregate of 39,596,432 shares of our voting and non-voting common stock to a wholly owned subsidiary of Motient, other partners in the MSV Joint Venture and the minority stakeholders in MSV Investors in exchange for approximately 14.2 million limited partnership interests of the MSV Joint Venture and all of the common stock MSV GP currently held by these parties, resulting in our owning 52% of the MSV Joint Venture on a fully diluted basis and 78% of MSV GP. Motient has agreed to use its commercially reasonable efforts to take all steps necessary to distribute to its common stockholders 25,478,273 shares of our common stock as soon as practicable following the initial closing. On September 1, 2006, we agreed to allow Motient to distribute to TMI a portion of the shares of our non-voting common stock that it receives in the initial closing in the event that TMI exchanges its shares of TerreStar common stock for shares of Motient common stock. To the extent that at the time of the distribution Motient and TMI have executed an agreement to exchange such shares of TerreStar for shares of Motient common stock, but such exchange has not been consummated, Motient will withhold from the distribution to Motient's common stockholders the number of shares of our non-voting stock sufficient to fulfill its agreement with TMI. Any shares of our common stock received by TMI pursuant to such arrangement will remain non-voting. After the initial closing of the MSV Exchange Transactions, Motient will continue to have the right to exchange, for five years following the date of the initial closing, its remaining 6.7 million limited partnership interests of the MSV Joint Venture for 18,855,144 shares of our non-voting common stock, which will be exchangeable for a like number of shares of our voting common stock upon the disposition of any such shares. Following the consummation of all these transactions, we will own approximately 70% of the MSV Joint Venture on a fully diluted basis and 78% of MSV GP.

The basic terms of the transaction include, among other things, the following:

At the initial closing, Motient will immediately exchange 61% of its interest in the MSV Joint Venture (representing 26% of the MSV Joint Venture on a fully diluted basis) for (i) 25,478,273 shares of our non-voting common stock, of which Motient intends to exchange for shares of our voting common stock to be distributed to Motient's common stockholders in the distribution (subject to any reduction in shares resulting from an agreement between Motient and TMI whereby a portion of such shares of non-voting common stock will be distributed to TMI) and (ii) 3,573,214 shares of our voting common stock, assuming the distribution by the Blocker Corporations of the shares of our common stock received by them in the MSV Exchange Transactions to their respective stockholders.

The remaining 39% of Motient's interest in the MSV Joint Venture (representing 17% of the MSV Joint Venture on a fully diluted basis) will be retained by Motient, and Motient will have the right to exchange these MSV Joint Venture interests at the same exchange ratio (i.e., for a total 18,855,144 shares of our non-voting common stock, which will be exchangeable for a like number of shares of our voting stock upon the disposition of any such shares) for five years. If Motient has not exchanged its remaining MSV Joint Venture interests in the five-year period, we have the right to require such interests to be exchanged for shares of our non-voting common stock at an exchange ratio reflecting the

Table of Contents

fair market value of such interests and our common stock on May 6, 2021. Motient has stated that it intends to use the shares of our common stock that it receives in any such subsequent closing or closings to distribute to holders of its outstanding preferred stock upon the conversion of such preferred stock, to dividend to its common stockholders and/or to sell shares of our common stock to raise funds to satisfy tax obligations incurred by Motient in connection with the MSV Exchange Transactions and for general corporate purposes.

At the initial closing, we will acquire control of all of Motient's shares of MSV GP, including those relating to the MSV Joint Venture interests retained by Motient for future exchange.

Certain other MSV Joint Venture limited partners have also agreed to exchange their MSV Joint Venture interests (representing 6% of the MSV Joint Venture) for 6,419,762 shares of our common stock, reflecting the same exchange ratio as for the Motient exchange.

We will acquire from the holders of the 20% minority interest in MSV Investors their stake in MSV Investors in exchange for 4,125,183 shares of our common stock. Immediately prior to that acquisition, MSV Investors will distribute to its members, their pro rata portions of its interests in TerreStar.

In connection with the MSV Exchange Transactions, we have also entered into a series of registration rights agreements with the various parties pursuant to which the shares received in the various transactions will be registered with the SEC, including the registration statement of which this information statement/prospectus forms a part and a registration statement registering the resale of the shares of our common stock delivered in private placements to the Blocker Corporations and minority shareholders in MSV Investors. Closing of the MSV Exchange Transactions are subject to FCC approval and customary closing conditions. Accordingly, there can be no assurances that these transactions will close on the terms outlined here, if at all.

The Company understands that a group of related stockholders of Motient have recently filed a lawsuit in the District Court of Travis County, Texas, seeking to enjoin the MSV Exchange Transactions and to rescind the exchange agreement between us and Motient on grounds alleging, among other things, that Motient's entry into the exchange agreement and Motient's consummation of the MSV Exchange Transactions violate the Investment Company Act of 1940. The resolution of any of these claims in favor of this group of stockholders of Motient could negatively affect our ability to consummate the MSV Exchange Transactions. Motient has advised us that it intends to vigorously fight these claims and that it believes that these claims are without merit.

We may also acquire additional limited partnership interests of the MSV Joint Venture if we negotiate and enter into exchange transactions with TMI and/or the MSV Joint Venture option holders and certain other investors in the MSV Joint Venture, although no assurances can be given in this regard.

TerreStar Exchange Transaction

On May 8, 2006, Motient announced that it had executed agreements with certain other partners in the MSV Joint Venture pursuant to which Motient will issue 2.7 million shares of its common stock in exchange for 1.5 million shares of TerreStar common stock held by these parties, resulting in Motient owning 59% of TerreStar on a fully diluted basis. In connection with these transactions, MSV Investors will distribute the shares of TerreStar common stock that it currently holds to its members. Following the distribution, we will have the right, but not the obligation, to exchange the 4.2 million shares of TerreStar common stock we will then own for 7.5 million shares of Motient common stock for 15 days following closing of these transactions, which will occur concurrently with the MSV Exchange Transaction. In addition, the TerreStar stockholders agreement will be modified to limit the protections afforded to the minority stockholders in TerreStar to certain tag along rights.

TerreStar Amendments

On May 6, 2006, MSV Investors, Motient, certain other partners in the MSV Joint Venture and a sufficient number of TerreStar stockholders entered into Amendment No. 2 to the TerreStar Networks Inc. Stockholders Agreement, which amended, effective immediately, certain provisions of the existing TerreStar Networks Inc. Stockholders Agreement relating to the issuance of additional securities by TerreStar and the tag along rights among TerreStar stockholders.

In addition, on May 6, 2006, the same parties entered into an Amended and Restated TerreStar Networks Inc. Stockholders Agreement, to be effective immediately prior to the initial closing of the MSV Exchange Transactions, which will amend and restate the TerreStar Stockholders Agreement, as amended, to revise and delete certain provisions of the existing agreement among TerreStar stockholders.

MSV GP Amendments

On May 6, 2006, MSV Investors, Motient, certain other partners in the MSV Joint Venture and a sufficient number of stockholders of MSV GP entered into Amendment No. 3 to the Mobile Satellite Ventures GP Inc. Stockholders Agreement, which amended, effective immediately, certain provisions in the existing Stockholders Agreement of MSV GP relating to the tag along rights and right of first refusal among such stockholders.

Rights Offering and Redemption of Preferred Stock

On May 6, 2006, we entered into a redemption agreement with the Apollo Stockholders pursuant to which we and the Apollo Stockholders agreed to the redemption of all outstanding shares of our Series A Preferred Stock. Such redemption occurred through a rights offering that we completed on July 25, 2006 and in which we sold 6,661,150 shares of common stock for consideration of approximately \$119.9 million. We distributed to each stockholder of record, as of the close of business on June 22, 2006, 0.38225 of a non-transferable right for each share of common stock then owned, subject to adjustment to eliminate fractional rights. Each full subscription right entitled the holder to purchase one additional share of common stock at a purchase price of \$18.00 per share. Pursuant to the redemption agreement, the Apollo Stockholders agreed to purchase, at the \$18.00 per share subscription price, such number of shares of our common stock equal to the number of shares of common stock not subscribed for by other stockholders in the rights offering so as to ensure the aggregate proceeds from the rights offering were sufficient to redeem the outstanding Series A Preferred Stock at an aggregate price equal to the \$119.9 million aggregate liquidation preference of all outstanding shares of Series A Preferred Stock. Immediately following the consummation of the rights offering, we completed the redemption of all outstanding shares of the Series A Preferred Stock for the \$18.0 million of cash proceeds received in the rights offering and the 5,662,542 shares of common stock which were not subscribed for by other shareholders in the rights offering. In accordance with the redemption agreement, the Apollo Stockholders received 2,434,311 shares of voting common stock and 3,228,231 shares of non-voting common stock such that, following the redemption of the Series A Preferred Stock, the Apollo Stockholders control the vote with respect to 29.9% of our outstanding voting common stock.

THE DISTRIBUTION

Distribution Structure and Distribution Ratio

Motient has agreed to use its commercially reasonable efforts to take all steps necessary to distribute to its common stockholders 25,478,273 of the shares of our common stock promptly following the initial closing of the MSV Exchange Transactions. On September 1, 2006, we agreed to allow Motient to distribute to TMI a portion of the shares of our non-voting common stock that it receives in the initial closing in the event that TMI exchanges its shares of TerreStar common stock for shares of Motient common stock. To the extent that at the time of the distribution Motient and TMI have executed an agreement to exchange such shares of TerreStar for shares of Motient common stock, but such exchange has not been consummated, Motient will withhold from the distribution to Motient's common stockholders the number of shares of our non-voting stock sufficient to fulfill its agreement with TMI. Any shares of our common stock received by TMI pursuant to such arrangement will remain non-voting.

To effect the distribution, Motient will distribute to each of its common stockholders • of one share of our common stock for each share of Motient common stock held as of the close of business on •, 2006. Immediately after the distribution, Motient's common stockholders, since they will become our stockholders, will own approximately •% of our outstanding common stock. It is a closing condition to Motient's obligation to consummate the initial closing under the MSV Exchange Transactions that a designee of Motient, acceptable to us in our sole and absolute discretion, be appointed to our board of directors. • has been so appointed.

For every one share of Motient common stock that you hold at the close of business on •, the record date, you will receive • of one share of our common stock. For example, if you own 100 shares of Motient common stock, you will receive • shares of our common stock. Immediately after the distribution, you will own shares of our common stock as well as continue to own Motient securities. Fractional shares will not be distributed. Fractional shares will be aggregated and, after the distribution, sold in the public market by the distribution agent and the aggregate net cash proceeds will be distributed ratably to those stockholders of record otherwise entitled to fractional interests. See Manner of Effecting the Distribution below.

To permit Motient to distribute the shares of our common stock into which the shares of our non-voting common stock issued to it under the exchange agreement are exchangeable, we agreed to register the distribution of those shares and to maintain that registration until such time as Motient completes the distribution of our common stock to its common stockholders. We have agreed to pay the registration fee and our expenses incurred in connection with the registration statement.

We and Motient have agreed to indemnify each other against certain liabilities, including under the Securities Act of 1933, or to contribute to payments that may be required in respect of those liabilities.

Motient has stated that does not intend engage in transactions that stabilize the market price of our common stock in connection with the MSV Exchange Transactions.

Distribution Agent

The distribution agent is •.

Manner of Effecting the Distribution

The distribution will be made, at no charge, on •, the distribution date, to each holder of Motient's common stock who is a record holder on •, the record date. Prior to the distribution date, Motient will deliver up to 25,478,273 of the shares of our non-voting common stock that it received at the initial closing of the MSV Exchange Transactions to us and we will exchange such shares of non-voting common stock for shares of our common stock which we will deliver to the distribution agent for distribution. The distribution agent will mail, beginning on or about the distribution date, certificates representing such shares to Motient common stockholders holders of record on the record date. Each Motient common stockholder will receive • of one share of our

Table of Contents

common stock for every share of Motient common stock owned by it of record on the record date, subject to the treatment of fractional shares described below.

Motient common stockholders will not be required to pay for the shares of our common stock received in the distribution, or to surrender or exchange Motient securities in order to receive our common stock. No vote of Motient stockholders is required or sought in connection with the distribution, and Motient stockholders have no appraisal rights in connection with the distribution.

No certificates or scrip representing fractional shares will be issued to Motient common stockholders as part of the distribution. In lieu of receiving fractional shares of our common stock, each record holder of Motient common stock who would otherwise be entitled to receive a fractional interest in our common stock will receive cash. The distribution agent will, as soon as practicable after the distribution date, aggregate and sell all such fractional interests in the over-the-counter market at then-prevailing market prices and distribute the aggregate proceeds (net of brokerage fees) ratably to Motient common stockholders of record otherwise entitled to fractional interests.

IN ORDER TO BE ENTITLED TO RECEIVE OUR COMMON STOCK IN THE DISTRIBUTION, MOTIENT COMMON STOCKHOLDERS MUST BE HOLDERS OF RECORD AT THE CLOSE OF BUSINESS ON THE RECORD DATE, •.

Results of the Distribution

At the initial closing, we will issue an aggregate of 39,596,432 shares of our voting and non-voting common stock to a wholly owned subsidiary of Motient, other partners in the MSV Joint Venture and the minority stakeholders in MSV Investors in exchange for approximately 14.2 million limited partnership interests of the MSV Joint Venture and all of the common stock of MSV GP currently held by these parties, resulting in Motient receiving 25,478,273 shares of our non-voting common stock. Pursuant to the terms of these transactions, Motient has agreed to use its commercially reasonable efforts to take all steps necessary to distribute such shares of the SkyTerra common stock to its common stockholders as soon as practicable following the initial closing. The shares of our non-voting common stock that it receives in the initial closing are exchangeable into voting common stock upon the distribution to its common stockholders.

In the event that the Blocker Corporations distribute the shares of our common stock received by them in the MSV Exchange Transactions to their respective stockholders, Motient will receive 3,573,214 shares of our common stock. Motient has agreed that so long as any shares of our voting common stock that it receives via the distribution of shares by the Blocker Corporations are held by Motient, Motient shall cause all such shares held by Motient (or any subsidiary) to be voted at any meeting of our stockholders and in connection with any action by written consent, pro rata with all other votes cast at such meeting (or by written consent) by holders of our common stock. In addition, under the terms of the MSV Exchange Transactions, if Motient does not dispose of the shares of our common stock it receives from the Blocker Corporation within 60 days of such distribution by the Blocker Corporations, such shares of our common stock will automatically be exchanged for shares of our non-voting common stock.

After the initial closing of the MSV Exchange Transactions, Motient will continue to have the right to exchange, for five years following the date of the initial closing, its remaining 6.7 million limited partnership interests of the MSV Joint Venture for 18,855,144 shares of our non-voting common stock, which will be similarly exchangeable for a like number of shares of our voting common stock upon the disposition of any such shares. If Motient has not exchanged these MSV Joint Venture interests in the five-year period, we have the right to require such interests to be exchanged for shares of our non-voting common stock at an exchange ratio reflecting the fair market value of such interests and our common stock on May 6, 2021. Motient has stated that it intends to use the shares of our common stock that it receives in any such subsequent closing or closings to distribute to holders of its outstanding preferred stock upon the conversion of such preferred stock, to dividend to its common stockholders and/or to sell shares of our common stock to raise funds to satisfy tax obligations incurred by Motient in connection with the MSV Exchange Transactions and for general corporate purposes.

Trading of Our Common Stock

Table of Contents

UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

SkyTerra has been advised by Motient that the following discussion is a summary of certain United States federal income tax consequences to holders of Motient common stock of their receipt of our common stock in connection with the MSV Exchange Transactions. This discussion assumes that the Motient stockholders hold their Motient stock as a capital asset for federal income tax purposes. This discussion is based on the Internal Revenue Code of 1986, as amended (the Code), Treasury regulations promulgated thereunder, Internal Revenue Service (IRS) rulings and pronouncements and judicial decisions in effect on the date hereof, all of which are subject to change (possibly with retroactive effect) and to differing interpretations. This discussion does not address all aspects of federal income taxation that may be relevant to holders in light of their particular circumstances or to holders who may be subject to special tax treatment under the Code, including, without limitation, holders who are dealers in securities or foreign currency, insurance companies, tax-exempt organizations, banks, financial institutions, broker-dealers, holders who hold Motient stock as part of a hedge, straddle, conversion or other risk reduction transaction, or who acquired Motient stock pursuant to the exercise of compensatory stock options or otherwise as compensation. The following summary does not address the tax consequences of the distribution of our shares to Motient stockholders under foreign, state, or local tax laws. Neither we nor Motient has sought, nor will seek, a ruling from the IRS regarding the federal income tax consequences of the distribution by Motient to its stockholders of shares of our common stock. ACCORDINGLY, EACH HOLDER IS URGED TO CONSULT ITS OWN TAX ADVISOR WITH RESPECT TO THE TAX CONSEQUENCES TO IT OF THE DISTRIBUTION.

For purposes of this discussion, a U.S. holder is any beneficial owner of Motient stock that is one of the following:

an individual citizen or resident of the U.S., including an alien individual who is a lawful permanent resident of the U.S. or meets the substantial presence test under section 7701(b)(3) of the Code;

a corporation (or an entity that is treated as a corporation for federal income tax purposes) created or organized in the U.S. or under the laws of the U.S., any state thereof, or the District of Columbia;

an estate, the income of which is subject to federal income tax without regard to its source; or

a trust, if the administration of the trust is subject to the primary supervision of a U.S. court and one or more U.S. persons have the authority to control all substantial decisions of the trust, or a trust that has made a valid election to be treated as a U.S. person pursuant to applicable Treasury regulations.

For purposes of this discussion, a non-U.S. holder is any beneficial owner of Motient stock other than a U.S. holder or a partnership. In the case of a partnership (or any other type of entity that is treated as a partnership for federal income tax purposes) that is a beneficial owner of Motient stock, the status of a holder as a U.S. holder or a non-U.S. holder is determined at the partner level. In such case, the tax treatment of the distribution of our common stock depends upon the activities of the partnership and the status of its partners, including whether each of those partners properly certifies its status as a U.S. holder or a non-U.S. holder and, for non-U.S. holders, whether the holder is entitled to the benefits of an applicable tax treaty.

Tax Consequences of the Distribution

The distribution by Motient of our common stock in connection with the MSV Exchange Transactions will be a taxable distribution to Motient stockholders. The amount of the distribution will be equal to the fair market value of our common stock on the date of the distribution. The distribution will constitute a dividend to the extent of Motient's current or accumulated earnings and profits as determined for federal income tax purposes. The treatment of the distribution as a dividend may result in tax liability to a Motient stockholder. However, neither we nor Motient intends to distribute any cash to Motient stockholders to enable them to pay any such tax liability resulting from the distribution. Motient is not able to predict with certainty either the timing of the

Table of Contents

distribution or the amount of its current or accumulated earnings and profits that will be allocable to the distribution. However, Motient expects that a substantial portion of the distribution will be made from Motient's current earnings and profits if the initial closing of the MSV Exchange Transactions and the distribution of our common stock occur within the same taxable year or if a subsequent closing of a significant portion of the MSV Exchange Transactions and the distribution of our common stock occur within the same taxable year. Motient expects that none or a much lesser part of the distribution will be from Motient's current or accumulated earnings and profits if the distribution occurs in a taxable year that is after the initial closing of the MSV Exchange Transactions (provided there is no subsequent closing of a significant portion of the MSV Exchange Transactions during such year), unless the fair market value of our common stock increases substantially between the closing of the MSV Exchange Transactions and the date of the distribution.

To the extent the distribution exceeds Motient's current and accumulated earnings and profits, it will be treated as a tax-free return of capital to the extent of the stockholder's tax basis in the Motient stock with respect to which the distribution is made, and thereafter, as gain from the sale or exchange of the Motient stock. The gain will be long-term capital gain if the holding period in such Motient stock at the time of the distribution is more than one year.

A Motient stockholder will have a tax basis in our common stock received pursuant to the distribution equal to the fair market value of such common stock on the date of the distribution. The stockholder's holding period for our common stock received pursuant to the distribution will begin on the date of the distribution.

Tax Consequences to U.S. Holders

To the extent the distribution is made from Motient's current or accumulated earnings and profits and is thus treated as a dividend for federal income tax purposes, a U.S. holder that is an individual, estate, or trust generally will be subject to federal income tax on the dividend amount at preferential tax rates, with a maximum tax rate of 15%, provided certain conditions are satisfied, including a minimum holding period requirement. To the extent the amount treated as a dividend by a U.S. holder qualifies for preferential tax rates and constitutes an extraordinary dividend (as defined in section 1059 of the Code), the U.S. holder will be required to treat any subsequent loss on the sale of the Motient stock with respect to which the dividend was paid as a long-term capital loss.

A corporate U.S. holder may be eligible for a partial dividends received deduction, subject to certain conditions and requirements, including a minimum holding period requirement. A corporate U.S. holder that receives an extraordinary dividend within the meaning of section 1059 of the Code is required to (i) reduce its tax basis in the stock with respect to which the dividend was paid (but not below zero) by the portion of the dividend that was not taxed because of the dividends received deduction and (ii) treat the non-taxed portion of the dividend as gain from the sale or exchange of such stock for the taxable year in which the dividend is received to the extent that the non-taxed portion of the dividend exceeds the corporate U.S. holder's tax basis in the stock.

In the case of both individual and corporate U.S. holders, the term extraordinary dividend means dividends with respect to a share of common stock that are equal to or greater than 10% of the tax basis (or fair market value if established to the satisfaction of the IRS) of the share. Whether a U.S. holder receives an extraordinary dividend is generally determined by aggregating dividends that have an ex-dividend date within a period of 85 consecutive days. In addition, dividends are aggregated over a period of 365 consecutive days if the dividends exceed 20% of the tax basis (or fair market value if established to the satisfaction of the IRS) of the share with respect to which the dividends were distributed. Accordingly, in determining whether the distribution by Motient of our common stock constitutes an extraordinary dividend, the distribution will be aggregated with other distributions made by Motient if the distributions occur within a period of 85 consecutive days, or if the distributions together exceed 20% of the tax basis (or fair market value) of the Motient common stock with respect to which the distributions are made for a particular U.S. holder, within a period of 365 consecutive days.

Table of Contents

Tax Consequences to Non-U.S. Holders

To the extent the distribution constitutes a dividend for federal income tax purposes, a non-U.S. holder will be subject to U.S. withholding tax on the dividend amount at a withholding tax rate of 30%, or such lower rate as is prescribed by an applicable income tax treaty, unless the dividend is effectively connected with a trade or business carried on by the non-U.S. holder in the U.S. If the distribution is subject to withholding, Motient will withhold a sufficient portion of our common stock from the distribution and sell such common stock to satisfy its withholding obligation (i.e., either 30% of the fair market value of the dividend amount, or such lower rate as is prescribed by an applicable income tax treaty). If the proceeds of such sale of our common stock exceed the amount required to be withheld, Motient shall distribute the excess to the holder in cash. Under applicable Treasury regulations, a non-U.S. holder will be required to satisfy certain certification requirements, generally on IRS Form W-8BEN or a successor form, in order to claim a reduced rate of withholding under an applicable income tax treaty. For payments made to a foreign partnership or other pass-through entity, the certification requirements generally apply to the owners of the partnership or other pass-through entity (including partners or owners through multiple layers of partnerships or other pass-through entities). The partnership or other pass-through entity must obtain the required certifications from its partners or other owners and deliver them to Motient or Motient's paying agent together with the partnership's certification of its status on IRS Form W-8IMY or a successor form.

Motient must report annually to the IRS any dividends paid to non-U.S. holders as well as the amount of tax withheld with respect to such dividends. Copies of these reports may be made available to tax authorities of the country where the non-U.S. holder resides.

Dividends that are effectively connected with a U.S. trade or business (and, where an income tax treaty applies, are attributable to a U.S. permanent establishment of the non-U.S. holder) generally will not be subject to the 30% withholding tax if the non-U.S. holder provides the required certification on IRS Form W-8ECI or a successor form. Instead, the effectively connected dividends will be subject to federal income tax on a net income basis in the same manner as if the non-U.S. holder were a resident of the U.S. Furthermore, if the non-U.S. holder is a corporation, its dividend equivalent amount (as defined in Section 884 of the Code) generally would be subject to branch profits tax. The branch profits tax rate is 30%, or such lower rate as is available under an applicable income tax treaty.

To the extent the distribution exceeds Motient's current and accumulated earnings and profits, it will be treated as a tax-free return of capital to the extent of a non-U.S. holder's tax basis in the Motient stock with respect to which the distribution is made, and thereafter, as gain from the sale or exchange of the Motient stock. In general, a non-U.S. holder will not be subject to federal income tax on gain from the sale or exchange of the Motient stock unless:

the gain is effectively connected with a U.S. trade or business carried on by the non-U.S. holder (and, where an income tax treaty applies, is attributable to a U.S. permanent establishment of the non-U.S. holder), in which case the non-U.S. holder will be subject to tax on the net gain from the sale at regular graduated federal income tax rates and, if the non-U.S. holder is a corporation, may be subject to branch profits tax;

the non-U.S. holder is an individual who is present in the U.S. for 183 days or more in the taxable year of disposition and certain other conditions are met, in which case the non-U.S. holder will be subject to a 30% tax on the gain from the sale, which may be offset by U.S. source capital losses; or

Motient is or has been a U.S. real property holding corporation for federal income tax purposes during specified periods, in which case the non-U.S. holder will be subject to tax on the net gain from the sale at regular graduated federal income tax rates. Motient does not believe it is or has been a U.S. real property holding corporation during the specified periods.

Table of Contents

Backup Withholding and Information Reporting

The Code and the Treasury regulations require certain payments to be reported to the IRS. Among these payments are dividends and proceeds paid by a broker to its customer. The required information returns enable the IRS to determine whether the recipient has properly included the payments in income. This reporting regime is reinforced by backup withholding rules that require payors of these specified payments to withhold tax from these payments if the recipient fails to cooperate with the reporting regime by failing to provide his taxpayer identification number to the payor, by furnishing an incorrect identification number, or by repeatedly failing to report interest or dividends on his income tax returns. The backup withholding tax rate is currently 28%. These information reporting and backup withholding rules do not apply to payments to corporations, whether domestic or foreign.

In general, U.S. holders (other than corporations or other exempt holders) will be subject to these information reporting requirements with respect to the distribution of our common stock. In addition, a U.S. holder generally will be subject to backup withholding if the holder (i) fails to provide an accurate taxpayer identification number to the payor; (ii) has been notified by the IRS of a failure to report all interest or dividends required to be reported on its federal income tax returns; or (iii) in certain circumstances, fails to comply with applicable certification requirements.

If the distribution of our common stock is subject to backup withholding, Motient will withhold a sufficient portion of our common stock from the distribution and sell such common stock to satisfy its withholding obligation. If the proceeds of such sale of our common stock exceed the amount required to be withheld, Motient shall distribute the excess to the holder in cash.

Payments to non-U.S. holders generally will not be subject to backup withholding provided the non-U.S. holder certifies its nonresident status.

Backup withholding is not an additional tax. The amount of tax withheld is applied as a credit against the federal income tax liability of persons subject to backup withholding. If backup withholding results in an overpayment of federal income tax, a refund may be obtained, provided the required documents are timely filed with the IRS.

Item 15. Indemnification of Officers and Directors.

The Company's restated certificate of incorporation, referred to herein as the certificate of incorporation, contains a provision which provides that no director of the Company shall be personally liable to the Company or its stockholders for monetary damages for a breach of fiduciary duty as a director except for liabilities:

- (i) for any breach of the director's duty of loyalty;
- (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- (iii) for an unlawful dividend payment or an unlawful repurchase or redemption of stock under Section 174 of the Delaware General Corporation Law; or
- (iv) for any transaction from which the director derived an improper personal benefit.

The Company's certificate of incorporation provides that the Company may indemnify each person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the Company) by reason of the fact that he is or was a director, officer, employee or agent of the Company, or is or was serving at the request of the Company as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amount paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding, if he acted in good faith in a manner he reasonably believed to be in or not opposed to the best interest of the Company, and with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interest of the Company, and with respect to any criminal action or proceeding, had reasonable cause to believe that his conduct was unlawful.

The Company's certificate of incorporation provides that the Company may indemnify each person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the Company to procure a judgment in its favor by reason of the fact that he is or was a director, officer, employee or agent of the Company, or is or was serving at the request of the Company as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorneys' fees) actually and reasonably incurred by him in connection with the defense or settlement of such action or suit if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interest of the Company, except that no indemnification shall be made in respect of any claim, issue or matter

as to which such person shall have been adjudged to be liable to the Company unless and only to the extent that the court in which such action or suit was brought shall determine upon application, that despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnify for such expenses which the court of chancery or such other court shall deem proper.

To the extent that a director, officer, employee or agent of the Company has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to above or in defense of any claim, issue or matter therein, the Company's certificate of incorporation provides that he will be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith.

Any indemnification under the provisions of the Company's certificate of incorporation (unless ordered by a court) will be made by the Company upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances because he has met the applicable standard of conduct set forth above. Such determination shall be made (1) by the board of directors by a majority vote of a quorum consisting of directors who were not parties to such action, suit or proceeding, or (2) if such a quorum of disinterested directors so directs, by independent legal counsel in a written opinion, or (3) by the stockholders.

The Company's certificate of incorporation provides that the Company may pay expenses incurred by defending a civil or criminal action, suit or proceeding in advance of the final disposition of such action, suit or proceeding in the manner provided herein upon receipt of any undertaking by or on behalf of the director, officer, employee or agent to repay such amount if it is ultimately determined that he is not entitled to be indemnified by the Company.

The Company's certificate of incorporation provides that the indemnification and advancement of expenses will, unless otherwise provided when authorized or ratified, continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

The Company's certificate of incorporation provides that the indemnification and advancement of expenses provided therein will not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under any by-law, agreement, vote of stockholders or of any disinterested directors or otherwise, both as to action in his official capacity and as to action in another capacity while holding such office.

The Company's certificate of incorporation provides that the Company may purchase and maintain insurance on behalf of any person who is or was serving the Company in any capacity referred to above against any liability asserted against him and incurred by him in such capacity, or arising out of his status as such, whether or not the Company would have the power to indemnify him against such liability under the provisions of its certificate of incorporation.

The Company's amended and restated by-laws, referred to herein as the by-laws, provide that the Company will indemnify any director and any officer of the Company who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative, quasi-administrative or investigative, other than an action by or in the right of the Company, referred to herein as a Third Party Proceeding, by reason of the fact that he or she was or is a director or officer, employee or agent of the Company, acting solely in such capacity, or a person serving at the request of the Company as a director, officer, partner, trustee, employee or agent of another corporation, partnership, joint venture, trust, committee or other enterprise 50% or more of whose voting stock or equitable interest shall be owned by this Company, each referred to herein as an Authorized Representative, against his or her expenses and liabilities (including attorneys' fees), actually and reasonably incurred by him or her in connection with the Third Party Proceeding if he or she acted in good faith and in a manner reasonably believed by him or her to be in, or not opposed to, the best interests of the Company and, with respect to any Third Party Proceeding involving potential criminal liability, referred to herein as

a Criminal Third Party Proceeding, had no reasonable cause to believe his or her conduct was unlawful or in violation of applicable rules. The termination of any Third Party Proceeding by judgment, order, settlement, consent filing of a criminal complaint or information, indictment, conviction or upon a plea of nolo contendere or its equivalent, will not, of itself, create a presumption that the person did not act in good faith and in a manner which he or she reasonably believed to be in, or not opposed to, the best interests of the Company or, with respect to any Criminal Third Party Proceeding, had reasonable cause to believe that his or her conduct was unlawful.

The Company's by-laws provide that the Company will indemnify any director or officer of the Company who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by the Company to produce a judgment in favor of its shareholders, or any threatened, pending or completed action or suit in the right of the Company by its stockholders to procure a judgment in favor of the Company, referred to herein as a Derivative Action, by reason of the fact that the director or officer was or is an Authorized Representative of the Company, against his or her expenses (including attorneys' fees) actually and reasonably incurred by the director or officer in the action if he or she acted in good faith and in a manner reasonably believed by him or her to be in, or not opposed to, the best interests of the Company; except that no indemnification will be made in respect of any claim, issue or matter as to which he or she has been adjudged to be liable for negligence or misconduct in the performance of his or her duty to the Company unless and only to the extent that the court of common pleas, or other similarly constituted state court, located in the county where the registered office of the Company is located or the court in which such Derivative Action is or was pending, determines upon application that, despite the adjudication of liability but in view of all circumstances of the case, he or she is fairly and reasonably entitled to indemnify for expenses which the court deems proper.

An Authorized Representative of the Company (other than a director or officer of the Company) may be indemnified by the Company or have his or her expenses advanced in accordance with the procedures described below. To the extent that an Authorized Representative of the Company has been successful on the merits or otherwise in defense of any Third Party Proceeding or Derivative Action or in defense of any claim, issue or matter therein, the Authorized Representative will be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him or her in connection therewith.

Indemnification under the provisions of the Company's by-laws described above (unless ordered by a court, in which case the expenses, including attorneys' fees of the Authorized Representative in enforcing indemnification will be added to and included in the final judgment against the Company) will be made by the Company only as authorized in the specific case upon a determination that the indemnification of the Authorized Representative is required or proper in the circumstances because he or she has met the applicable standard of conduct set forth above or has been successful on the merits or as otherwise in defense of any Third Party Proceeding or Derivative Action and that the amount requested has been actually and reasonably incurred. Such determination shall be made:

- (b) By the board of directors or a committee thereof, acting by a majority vote of a quorum consisting of directors of the Company who are not parties or have no economic or other collateral personal benefit relating to a Third Party Proceeding or Derivative Action, referred to here in as Disinterested Directors; or
- (c) If a quorum is not obtainable or, even if obtainable, a majority vote of a quorum of Disinterested Directors so directs, by independent legal counsel in a written opinion.

The Company's by-laws provide that expenses incurred in defending a Third Party Proceeding or Derivative Action will be paid on behalf of a director or officer, and may be paid on behalf of any Authorized Representative, by the Company in advance of the final disposition of the action as authorized in the manner provided above (except that the person(s) making the determination thereunder need not make a determination on whether the applicable standard of conduct has been met unless a judicial determination has been made with respect thereto, or the person seeking indemnification has conceded that he or she has not met such standard) upon receipt of an undertaking by or on behalf of the Authorized Representative to repay the amount to be

advanced unless it shall ultimately be determined that the Authorized Representative is entitled to be indemnified by the Company as required in the Company's by-laws or authorized by law. The financial ability of any Authorized Representative to make repayment will not be a prerequisite to making of an advance.

The Company's by-laws provide the Company may purchase and maintain insurance on behalf of any person who is or was an Authorized Representative against any expenses and liabilities asserted against him or her and incurred by him or her in any such capacity, whether or not the Company would have the power to indemnify him or her against such expenses and liabilities under the provisions of the Company's by-laws.

The indemnification provided by the Company's by-laws is not deemed to be exclusive of any other right to which a person seeking indemnification may be entitled under any statute, agreement, vote of Disinterested Directors, or otherwise, regardless of whether the event giving rise to indemnification occurred before or after the effectiveness thereof, both as to action taken in another capacity while holding his or her office or position, and will continue as to a person who has ceased to be an Authorized Representative of the Company and will inure to the benefit of his or her heirs and personal representatives.

Item 17. Undertakings.

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any information statement/prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the information statement/prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of information statement/prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

i. Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

ii. Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

The undersigned registrant hereby further undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d)

of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described in Item 15 Indemnification of Directors and Officers above, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
