NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Three Months Ended March 31, 2007 and 2006

(Unaudited)

NOTE 1. Description of Business and Basis of Presentation

(a.) Description of Business

Heritage Financial Corporation (Company) is a bank holding company that was incorporated in the State of Washington in August 1997. We were organized for the purpose of acquiring all of the capital stock of Heritage Savings Bank upon our reorganization from a mutual holding company form of organization to a stock holding company form of organization. Effective September 1, 2004, Heritage Savings Bank switched its charter from a State Chartered Savings Bank to a State Chartered Commercial Bank and changed its legal name from Heritage Savings Bank to Heritage Bank. Effective September 1, 2005, Central Valley Bank changed its charter from a Nationally Chartered Commercial Bank to a State Chartered Commercial Bank.

We are primarily engaged in the business of planning, directing, and coordinating the business activities of our wholly owned subsidiaries: Heritage Bank and Central Valley Bank. Heritage Bank is a Washington state-chartered commercial bank whose deposits are insured by the Federal Deposit Insurance Corporation (FDIC) under the Deposit Insurance Fund (DIF). Heritage Bank conducts business from its main office in Olympia, Washington and its thirteen branch offices located in Thurston, Pierce, Mason and south King Counties of Washington State. Central Valley Bank is also a Washington state-chartered commercial bank whose deposits are insured by the FDIC under the DIF. Central Valley Bank conducts business from its main office in Toppenish, Washington and its five branch offices located in Yakima and Kittitas Counties of Washington State.

Our business consists primarily of lending and deposit relationships with small businesses including agribusiness and their owners in our market area, attracting deposits from the general public and originating for sale or investment purposes first mortgage loans on residential properties located in western and central Washington. We also make residential construction loans, income property loans, and consumer loans.

(b.) Basis of Presentation

The accompanying condensed consolidated financial statements have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. These condensed consolidated financial statements should be read with our December 31, 2006 audited consolidated financial statements and its accompanying notes included in our Annual Report on Form 10-K. In our opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ended December 31, 2007. In preparing the consolidated financial statements, we are required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. Actual results could differ from those estimates.

Certain amounts in the consolidated financial statements for the prior year have been reclassified to conform to the current consolidated financial statement presentation.

(c.) Recently Issued Accounting Pronouncements

Effective January 1, 2007, the Company adopted Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainties in Income Taxes, an Interpretation of FASB Statement No. 109* (FIN 48). FIN 48 prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. As of March 31, 2007 and January 1, 2007, we had an insignificant amount of unrecognized tax benefits. Our policy is to recognize interest and penalties on unrecognized tax benefits in Federal income taxes in the Consolidated Statements of Income. The amount of interest and penalties for the three months ended March 31, 2007 was immaterial. The tax years subject to examination by the taxing authorities are the years ending December 31, 2006, 2005, 2004 and 2003.

Edgar Filing: HERITAGE FINANCIAL CORP /WA/ - Form 10-Q

In February 2007, FASB issued Statement of Financial Accounting Standards (SFAS) No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. This statement is effective as of the beginning of the first fiscal year that begins after November 15, 2007. Early adoption of this statement is permitted provided the entity also elects to apply the provisions of SFAS No. 157, *Fair Value Measurements*. Management does not intend to early adopt SFAS No. 159. Management is assessing the impact of adopting SFAS No. 159, which will become effective on January 1, 2008, on the Company's consolidated financial statements.

Table of Contents**NOTE 2. Stockholders Equity***(a.) Earnings per Share*

The following table illustrates the reconciliation of weighted average shares used for earnings per share for the noted periods.

	Three months ended March 31,	
	2007	2006
Basic:		
Weighted average shares outstanding	6,567,677	6,267,471
Less: Weighted average unvested restricted stock awards	(63,128)	(64,486)
Basic weighted average shares outstanding	6,504,549	6,202,985
Diluted:		
Basic weighted average shares outstanding	6,504,549	6,202,985
Incremental shares from unexercised stock options and unvested restricted stock awards	174,011	227,213
Diluted weighted average shares outstanding	6,678,560	6,430,198

Potential dilutive shares are excluded from the computation of earnings per share if their effect is anti-dilutive. For the three months ended March 31, 2007, anti-dilutive shares outstanding related to options to acquire common stock totaled 105,600 as the exercise price was in excess of the market value. For the three months ended March 31, 2006, there were no anti-dilutive shares outstanding related to options to acquire common stock.

(b.) Cash Dividend Declared

On March 20, 2007, we announced a quarterly cash dividend of 21.0 cents per share payable on April 30, 2007 to stockholders of record on April 16, 2007.

NOTE 3. Share Based Payment

The Company maintains a number of stock-based incentive programs, which are discussed in more detail in Note 4. Effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123R (SFAS No. 123R) Share-based Payment. SFAS No. 123R requires that all stock-based compensation be recognized as an expense in the financial statements and that such cost be measured at the fair value of the award on the grant date. This statement was adopted using the modified prospective method of application, which requires the Company to recognize compensation expense on a prospective basis. Therefore, prior period financial statements have not been restated. Under this method, in addition to reflecting compensation expense for new share-based awards, expense is also recognized to reflect the remaining service period of awards that had been included in pro forma disclosures in prior periods.

Total stock-based compensation expense (excluding ESOP expense) for the three months ended March 31, 2007 and 2006 were as follows:

	2007	2006
	(Dollars in thousands)	
Compensation expense recognized	\$ 103	\$ 135
Related tax benefit recognized	10	20

As of March 31, 2007, the total unrecognized compensation expense related to non-vested stock awards was \$546,000 and the related weighted average period over which it is expected to be recognized is approximately 2.7 years.

Edgar Filing: HERITAGE FINANCIAL CORP /WA/ - Form 10-Q

The fair value of options granted during the three months ended March 31, 2006 is estimated on the date of grant using the Black-Scholes option pricing model based on the assumptions noted in the following table (there were no options granted during the three months ended March 31, 2007). The expected term of share options is derived from historical data and represents the period of time that share options granted are expected to be outstanding. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant. Expected volatility is based on historical volatility of Company shares. Expected dividend yield is based on dividends expected to be paid during the expected term of the share options.

Table of Contents

Grant period ended	Weighted Average Risk Free Interest Rate	Expected Term in years	Expected Volatility	Expected Dividend Yield	Weighted Average Fair Value
March 31, 2006	4.80%	4.41	20%	3.60%	\$ 4.37

NOTE 4. Stock Option and Award Plans

On September 24, 1996, Heritage Bank's stockholders approved the adoption of the 1997 stock option plan. On October 15, 1998, the Company's stockholders approved the adoption of the 1998 stock option plan, which is similar to the 1997 plan. The 1998 plan does not affect any options granted under the 1997 plan. On April 25, 2002, the Company's stockholders approved the adoption of the 2002 Incentive Stock Option Plan, the 2002 Director Nonqualified Stock Option Plan and the 2002 Restricted Stock Plan, which are generally similar to the 1997 and 1998 stock plans. On April 27, 2006, the Company's stockholders approved the adoption of the 2006 Incentive Stock Option Plan, the 2006 Director Nonqualified Stock Option Plan and the 2006 Restricted Stock Plan, which are generally similar to the 1997, 1998 and 2002 stock plans.

Under these stock option plans, on the date of grant, the exercise price of the option must at least equal the market value per share of the Company's common stock. The 1997 plan provides for the granting of options and stock awards up to 270,333 common shares. The 1998 plan provides for the grant of stock options for up to 414,750 shares and stock awards for up to 69,431 shares. The 2002 and 2006 Incentive Stock Option plans provide for the grant of stock options for up to 451,500 and 400,000 shares, respectively. The 2002 and 2006 Director Nonqualified Stock Option Plans provide for the grant of stock options for up to 73,500 and 75,000 shares, respectively. The 2002 and 2006 Restricted Stock Plans provide for the grant of stock awards for up to 52,500 and 25,000 shares, respectively.

Stock options generally vest ratably over three years and expire five years after they become exercisable which amounts to an average term of seven years. Restricted Stock awards issued have a five-year cliff vesting. The Company issues new shares to satisfy share option exercises.

The following table summarizes stock option and award activity for the three months ended March 31, 2007.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion is intended to assist in understanding the financial condition and results of the Company. The information contained in this section should be read with the unaudited condensed consolidated financial statements and its accompanying notes, and the December 31, 2006 audited consolidated financial statements and its accompanying notes included in our recent Annual Report on Form 10-K.

Statements concerning future performance, developments or events, expectations for growth and market forecasts, and any other guidance on future periods, constitute forward-looking statements and are subject to a number of risks and uncertainties, which might cause actual results to differ materially from stated expectations. Specific factors include, but are not limited to, the effect of interest rate changes, risks associated with acquisition of other banks and opening new branches, the ability to control costs and expenses, and general economic conditions. Additional information on these and other factors, which could affect our financial results, are included in our filings with the Securities and Exchange Commission.

Overview

Heritage Financial Corporation is a bank holding company, which primarily engages in the business activities of our wholly owned subsidiaries: Heritage Bank and Central Valley Bank. We provide financial services to our local communities with an ongoing strategic focus in expanding our commercial lending relationships, market expansion and a continual focus on asset quality. Effective January 8, 1998, our common stock began to trade on the NASDAQ National Market under the symbol **HFWA**.

Financial Condition Data

Total assets increased \$11.9 million (1.4%) to \$864.8 million as of March 31, 2007 from the December 31, 2006 balance of \$852.9 million. Deposits increased \$16.9 million (2.3%) to \$742.8 million as of March 31, 2007 from the December 31, 2006 balance of \$725.9 million. For the same period, net loans, which include loans held for sale but are net of the allowance for loan losses, increased \$15.8 million (2.1%) to \$755.4 million as of March 31, 2007 from the December 31, 2006 balance of \$739.6 million. Commercial loans increased by \$0.9 million to \$441.4 million as of March 31, 2007 from the December 31, 2006 balance of \$440.5 million. Commercial loans continue to be the largest segment of loans at 57.7% and 58.8% as a percentage of total loans as of March 31, 2007 and December 31, 2006, respectively.

As of March 31, 2007, we have repurchased a total of 5,974,416 of the Company's shares, or 52.4% of the total outstanding at March 31, 1999, which was the inception of our stock repurchase programs, at an average price of \$12.23 per share. We began our current 5% repurchase program on August 2, 2004 with the goal to repurchase approximately 309,750 shares. During the quarter ended March 31, 2007, we repurchased 15,311 shares at an average price of \$24.47. We have repurchased 126,450 shares under the current program at an average price of \$21.91.

Earnings Summary

Net income was \$0.36 per diluted share for the three months ended March 31, 2007 compared to \$0.40 per diluted share for the three months ended March 31, 2006. Actual earnings for the three months ended March 31, 2007 were \$2,373,000 compared to \$2,564,000 for the same period in 2006.

Return on average equity for the quarter ended March 31, 2007 was 11.92% compared to 15.20% for the same period last year. Average equity increased by \$12.3 million to \$80.7 million for the three months ended March 31, 2007 versus \$68.4 million for the same period last year while net income decreased by \$191,000.

Net Interest Income

Net interest income before provision for loan losses for the three months ended March 31, 2007 increased 4.9% to \$8,897,000 from \$8,485,000 for the same quarter in 2006. The net interest margin (net interest income divided by average interest earning assets) decreased to 4.59% for the current quarter from 4.96% for the same quarter last year. A continuation of a flat yield curve and a very competitive business environment has had the effect of reducing our net interest margin.

Interest income increased \$2.6 million, or 20.7%, for the three months ended March 31, 2007 as compared to the first quarter last year and interest expense increased \$2.1 million, or 55.1%, during this same period. Loans averaged \$737.6 million with an average yield of 7.93% for the three months ended March 31, 2007 compared to average loans of \$644.0 million with an average yield of 7.50% for the same period in 2006. Certificates of deposit averaged \$338.3 million with an average cost of 4.80% for the three months ended March 31, 2007 compared to \$285.4 million with an average cost of 3.66% for the same period in 2006.

Table of Contents**Provision for Loan Losses**

The provision for loan losses was \$180,000 for the three months ended March 31, 2007, which was \$40,000 more than the provision for loan losses during the first quarter of 2006.

Noninterest Income

Noninterest income increased 14.8% to \$2,033,000 for the three months ended March 31, 2007 compared with \$1,771,000 for the same quarter in 2006. The increase is due primarily to increases in service charges on deposits of \$115,000, merchant visa income of \$83,000 and brokered mortgage income of \$80,000.

Noninterest Expense

Noninterest expense increased 14.3% to \$7,185,000 during the three months ended March 31, 2007 compared to \$6,285,000 for the same period during 2006. Salaries and employee benefits increased by \$431,000 for the three months ended March 31, 2007 compared to the same period last year. This increase was primarily the result of the acquisition of Western Washington Bancorp, the opening of the Sumner branch and the hiring of additional loan officers. Occupancy and equipment expense and merchant visa expense increased \$100,000 and \$82,000, respectively, compared to the same period last year.

The efficiency ratio for the quarter ended March 31, 2007 was 65.7% compared to 61.3% for the comparable quarter in 2006. The efficiency ratio consists of noninterest expense divided by the sum of net interest income before provision for loan losses plus noninterest income.

Lending Activities

As indicated in the table below, total loans (including loans held for sale) increased to \$765.5 million at March 31, 2007 from \$749.7 million at December 31, 2006.

Allowance for loan losses to nonperforming loans	625.20%	360.05%
Nonperforming assets to total assets	0.20%	0.36%

Nonperforming assets decreased to \$1,693,000, or 0.20% of total assets at March 31, 2007 from \$3,032,000, or 0.36% of total assets at December 31, 2006. We believe that we are adequately reserved for losses in the portfolio as of March 31, 2007. Potential problem loans are those loans that are currently accruing interest, but which are considered possible credit problems because financial information of the borrowers causes us concerns as to their ability to comply with the present repayment program and could result in placing the loan on nonaccrual.

Analysis of Allowance for Loan Losses

Management maintains an allowance for loan losses to absorb estimated credit losses associated with the loan portfolio, including all binding commitments to lend. We determine an adequate allowance through our ongoing quarterly loan quality assessments.

We assess the estimated credit losses inherent in our non-classified loan portfolio by considering a number of elements including:

Risk rating of the credit portfolio;

Levels and trends in delinquencies and nonaccruals;

Trends in loan demand and structure including terms and interest rates;

National and local economic trends;

Specific industry conditions such as commercial and residential construction;

Concentrations of credits in specific industries;

Bank regulatory examination results and our own credit examinations; and

Recent loss experience in the portfolio.

We calculate an adequate allowance for the non-classified portion of our loan portfolio based on an appropriate percentage risk factor that is calculated based on the above-noted elements and trends. We may add specific provisions for each classified loan after a careful analysis of that loan's credit and collateral factors. Our analysis of an adequate allowance combines the provisions made for both our non-classified loans and the specific provisions made for each classified loan.

While we believe we use the best information available to determine the allowance for loan losses, net income could be significantly affected if circumstances differ substantially from the assumptions used in determining the allowance, unforeseen market conditions arise or if we are directed to make adjustments to the allowance for loan losses by our regulators.

While pursuing our growth strategy, we continue to employ prudent underwriting and sound monitoring procedures to maintain asset quality. The allowance for loan losses during the three months ended March 31, 2007 decreased by \$19,000. Based on management's assessment of loan quality, the Company believes that its reserve for loan losses is at an appropriate level under current economic conditions.

Liquidity and Sources of Funds

Our primary sources of funds are customer and local government deposits, loan repayments, loan sales, interest earned on and proceeds from investment securities, and advances from the Federal Home Loan Bank (FHLB) of Seattle. These funds, together with retained earnings, equity, and other borrowed funds, are used to make loans, acquire investment securities and other assets, and fund continuing operations. While maturities and scheduled amortization of loans are a predictable source of funds, deposit flows and mortgage prepayments are greatly influenced by the level of interest rates, economic conditions, and competition.

We must maintain an adequate level of liquidity to ensure the availability of sufficient funds to fund loan originations and deposit withdrawals, satisfy other financial commitments, and fund operations. We generally maintain sufficient cash and short-term investments to meet short-term liquidity needs. At March 31, 2007, cash and cash equivalents totaled \$25.0 million, and investment securities classified as either available for sale or held to maturity with maturities of one year or less amounted to \$15.8 million, or 2.0% of total assets. At March 31, 2007, our banks maintained a credit facility with the FHLB of Seattle for \$152.9 million, with \$29.6 million in FHLB borrowings as of March 31, 2007.

Capital

Edgar Filing: HERITAGE FINANCIAL CORP /WA/ - Form 10-Q

Stockholders' equity at March 31, 2007 was \$80.2 million compared with \$78.6 million at December 31, 2006. During the period, we declared dividends of \$1.4 million, realized income of \$2.4 million, recorded \$84,000 in unrealized gains on securities available for sale, net of tax, repurchased company stock in the amount of \$375,000 and realized the effects of exercising stock options, stock option compensation and earned ESOP and restricted stock shares totaling \$838,000.

Banking regulations require bank holding companies and banks to maintain a minimum leverage ratio of core capital to adjusted quarterly average total assets of at least 3%. At both March 31, 2007 and December 31, 2006, our leverage ratio was 8.0%. In addition, banking regulators have adopted risk-based capital guidelines, under which risk percentages are assigned

Table of Contents

to various categories of assets and off-balance sheet items to calculate a risk-adjusted capital ratio. Tier I capital generally consists of common shareholders' equity, while Tier II capital includes the allowance for loan losses, subject to certain limitations. Regulatory minimum risk-based capital guidelines require Tier I capital of 4% of risk-adjusted assets and total capital (combined Tier I and Tier II) of 8%. At both March 31, 2007 and December 31, 2006, our Tier I and total risk based capital ratios were 9.1% and 11.1%, respectively.

During 1992, the FDIC published the qualifications necessary to be classified as a well-capitalized bank, primarily for assignment of FDIC insurance premium rates beginning in 1993. To qualify as well-capitalized, banks must have a Tier I risk based capital ratio of at least 6%, a total risk based capital ratio of at least 10%, and a leverage ratio of at least 5%. Heritage Bank and Central Valley Bank qualified as well-capitalized at March 31, 2007.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

Our results of operations are highly dependent upon our ability to manage interest rate risk. We consider interest rate risk to be a significant market risk that could have a material effect on our financial condition and results of operations. In our opinion, there has not been a material change in our interest rate risk exposure since our most recent year-end at December 31, 2006.

We do not maintain a trading account for any class of financial instrument nor do we engage in hedging activities or purchase high-risk derivative instruments. Moreover, we have no material risk with foreign currency exchange rate risk or commodity price risk.

ITEM 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures. We maintain controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934 are recorded, processed, summarized, and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. Based upon their evaluation of those controls and procedures, the Chief Executive and Chief Financial officers of the Company concluded that the Company's disclosure controls and procedures were adequate as of March 31, 2007.

(b) Changes in internal control over financial reporting. We made no changes in our internal controls over financial reporting that occurred during the Company's quarter ended March 31, 2007, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 1A. Risk Factors

There have been no material changes from the risk factors as previously disclosed in Item 1A to Part I of the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company has had various stock repurchase programs since March 1999. In August 2004, the Board of Directors approved a new stock repurchase plan, allowing the Company to repurchase up to 5% of the then outstanding shares, or approximately 309,750 shares over a period of eighteen months. This marked the Company's eighth stock repurchase plan. On January 25, 2006, the Board of Directors authorized an eighteen month extension to this program. During the quarter ended March 31, 2007, the Company repurchased 15,311 shares at an average price of \$24.47. In total, the Company has repurchased 126,450 shares at an average price of \$21.91 under this plan.

The following table sets forth information about the Company's purchases of its outstanding common stock during the quarter ended March 31, 2007.

Item 5. Other Information

In the quarter ended March 31, 2007, the Company entered into material agreements with several of its executive officers. Because these agreements were not filed pursuant to periodic reports, the Company is filing them on this Form 10-Q.

Edgar Filing: HERITAGE FINANCIAL CORP /WA/ - Form 10-Q

In February 2007, the Company amended and restated its employment contract with President and CEO Brian L. Vance. The contract is effective on October 1, 2006 and provides that Mr. Vance serve as President and CEO of Heritage Financial Corporation for a term of three years ending September 30, 2009 after which time this agreement will automatically renew for additional terms of one year each. Subject to the terms and conditions set forth in the agreement, this agreement may be terminated by either party by giving written notice to the other party at least one year prior to the expiration date of the original term or any renewal term. The agreement is attached to this Form 10-Q as Exhibit 10.13.

In March 2007, D. Michael Broadhead executed an employment agreement with Central Valley Bank. The agreement commenced on April 1, 2007 and will continue until March 31, 2008, after which time this agreement will automatically renew for additional terms of one year each. Subject to specified terms and conditions set forth in the agreement, the agreement may be terminated by either party by giving written notice to the other party at least 90 days prior to the expiration date of the original term or any renewal term. The agreement is attached to this Form 10-Q as Exhibit 10.14.

In March 2007, Edward D. Cameron entered into a severance agreement with Heritage effective April 1, 2007. In the event of a change in control, if (1) termination of executive's employment by Heritage without cause or by executive for good reason within 365 days of date of change of control, or (2) executive is terminated without cause by employer prior to 60 days prior to the public announcement of the change in control and change of control occurs within eighteen months of executive's termination, Mr. Cameron shall be paid a severance benefit in an amount equal to one times his then current

Table of Contents

annual base salary or equal to his salary to be paid from the date of change of control through April 30, 2008, whichever is less. In addition, vesting of all stock options and lapse of all restrictions with respect to restricted stock awards shall occur. The severance agreement stipulates that the change in control payment will be less than the amount that would cause it to be a parachute payment within the meaning of Section 280G of the Internal Revenue Code. Under the terms of the agreement, Mr. Cameron agrees that for a period of one year after receiving his severance payment he will not become involved with a competing business or serve, directly or indirectly, a competing business in any manner except as provided in the agreement, nor will he solicit or attempt to solicit any employee or customer of Heritage or its subsidiaries to leave the employ of Heritage or its subsidiaries or remove their business from Heritage or its subsidiaries. The agreement is attached to this Form 10-Q as Exhibit 10.15.

In March 2007, Gregory D. Patjens entered into a severance agreement with Heritage effective April 1, 2007. In the event of a change in control, if (1) termination of executive's employment by Heritage without cause or by executive for good reason within 365 days of date of change of control, or (2) executive is terminated without cause by employer prior to 60 days prior to the public announcement of the change in control and change of control occurs within eighteen months of executive's termination, Mr. Patjens shall be paid a severance benefit in an amount equal to two times his then current annual base salary. In addition, vesting of all stock options and lapse of all restrictions with respect to restricted stock awards shall occur. The severance agreement stipulates that the change in control payment will be less than the amount that would cause it to be a parachute payment within the meaning of Section 280G of the Internal Revenue Code. Under the terms of the agreement, Mr. Patjens agrees that for a period of two years after receiving his severance payment he will not become involved with a competing business or serve, directly or indirectly, a competing business in any manner except as provided in the agreement, nor will he solicit or attempt to solicit any employee or customer of Heritage or its subsidiaries to leave the employ of Heritage or its subsidiaries or remove their business from Heritage or its subsidiaries. The agreement is attached to this Form 10-Q as Exhibit 10.16.
