**LG.PHILIPS LCD REPORTS THIRD QUARTER 2007 RESULTS**

SEOUL, Korea - October 9, 2007 - LG.Philips LCD [NYSE: LPL, KRX: 034220], one of the world's leading TFT-LCD manufacturers, today reported unaudited earnings results based on consolidated Korean GAAP for the three-month period ended September 30, 2007. Amounts in Korean Won (KRW) are translated into US dollars (USD) at the noon buying rate in effect on September 28, 2007, which was KRW 914 per US dollar.

Sales in the third quarter of 2007 increased by 18% to KRW 3,953 billion (USD 4,325 million) from sales of KRW 3,355 billion (USD 3,671 million) in the second quarter of 2007 and increased 43% compared to KRW 2,773 billion (USD 3,034 million) in the third quarter of 2006.

Operating profit in the third quarter of 2007 was KRW 693 billion (USD 758 million) compared to an operating profit of KRW 150 billion (USD 164 million) in the second quarter of 2007, and an operating loss of KRW 382 billion (USD 418 million) in the third quarter of 2006.

EBITDA in the third quarter of 2007 was KRW 1,376 billion (USD 1,505 million), an increase of 62% from KRW 850 billion (USD 930 million) in the second quarter of 2007 and a year-over-year increase of 366% from KRW 295 billion (USD 323 million) in the third quarter of 2006.

Net income in the third quarter of 2007 was a profit of KRW 524 billion (USD 573 million) compared to a profit of KRW 228 billion (USD 249 million) in the second quarter of 2007 and a loss of KRW 321 billion (USD 351 million) in the third quarter of 2006.

Young Soo Kwon, CEO of LG.Philips LCD, said, "We are pleased with our financial performance this quarter, underscored by better than expected profit levels. These strong results reflect our focus on value based management including our continued diligence on reducing costs, maintaining a disciplined CAPEX strategy, developing marketing initiatives focused on our customer base, and managing appropriate inventory levels given both the current and projected market demand. Additionally, better than anticipated cost savings this quarter of 9 percent in terms of USD came as a result of our product development effort and effectively managing the supply chain. We are well on our way to achieving this year's guided cost reduction of approximately 30 percent."

Mr. Kwon continued, "Today, the Board of Directors approved investment in a Gen 8 facility with additional CAPEX of around KRW 2.5 trillion, targeting ramp-up in the first half of 2009. We believe this timing is in line with expected market demand of large-sized LCD TVs."

In conclusion, our current strategic decisions produced constructive results in the third quarter and attest that we are progressing in the right direction and well positioned to retain our role as a disciplined leader in this dynamic industry.

### **Third Quarter Financial Review**

#### *Revenue and Cost*

Revenue for the three-month period ended September 30, 2007, increased by 43% to KRW 3,953 billion (USD 4,325 million) from KRW 2,773 billion (USD 3,034 million) for the corresponding period of 2006. TFT-LCD panels for TVs, monitors, notebook PCs and other applications accounted for 48%, 25%, 22% and 5%, respectively, on a revenue basis in the third quarter of 2007.

Overall, the Company shipped a total of 3.1 million square meters of net display area in the third quarter of 2007, an increase of 11% quarter-on-quarter. The average selling price per square meter of net display area shipped was USD 1,364, which was an increase of approximately 7% compared to the average of the second quarter of 2007. The ending average selling price per square meter was USD 1,369, an increase of approximately 4% compared to the end of the second quarter of 2007.

For the third quarter of 2007, the cost of goods sold per square meter of net display area shipped decreased 9 % to KRW 1.0 million (USD 1,071) from the second quarter of 2007.

#### *Liquidity*

Cash and cash equivalents of LG.Philips LCD were KRW 1,656 billion (USD 1,812 million) as of September 30, 2007. Total debt was KRW 4,432 billion (USD 4,849 million), and the net debt-to-equity ratio was 37% as of September 30, 2007, compared to 49% as of June 30, 2007.

#### *Capital Spending*

Capital expenditures in the third quarter of 2007 were KRW 328 billion (USD 359 million) compared to KRW 908 billion (USD 993 million) in the third quarter of 2006, and were largely for P7.

#### *Capacity*

Total production input capacity on an area basis increased approximately 17 % sequentially in the third quarter and was largely due to increase of production, mainly in P7.

### **Outlook**

The following expectations are based on information as of October 9, 2007. The Company does not expect to update its expectations until next quarter's earnings announcement. However, the Company reserves the right to update its full business outlook, or any portion thereof, at any time and for any reason.

We are encouraged by the progress we have made over the last 5 quarters, as we have fundamentally shifted the company's perspective from being volume driven to becoming value-based. This focus will continue into the quarters ahead. Our overriding goal is to generate greater

shareholder value and our management team is committed to making the right strategic decisions to that effect. said Ron Wirahadiraksa, CFO of LG.Philips LCD.

Looking ahead, we expect shipments in the fourth quarter of 2007 to increase by a mid single digit percentage with a low single digit percentage declining average and ending ASP. We expect shipments in the TV segment to increase by a high single digit percentage with a mid single digit percentage declining average and ending ASP. In the IT segment, we anticipate shipments to decrease by a low single digit percentage with an average ASP flat and a mid single digit percentage declining ending ASP. Our COGS reduction per square meter is expected to be a low single digit percentage in the fourth quarter. As a result, we expect our EBITDA margin for the fourth quarter of 2007 to be in the mid thirties percentage range. We plan to maintain our capital expenditures in 2007 to approximately KRW 1 trillion. In addition, we expect our CAPEX for 2008 to be around KRW 3 trillion, which we feel is the right approach to capital spending given market demand. Mr. Wirahadiraksa concluded.

#### **Earnings Conference and Conference Call**

LG.Philips LCD will hold a Korean language earnings conference on October 9, 2007, at 4:30 p.m. Korea Standard Time on the 4th floor, in the Grand Conference room of the Korea Investment & Securities Building, 27-1 Yeouido-dong, Yeongdeungpo-gu, Seoul, Korea. An English language conference call will follow at 9:00 p.m. Korea Standard Time, 8:00 a.m. EDT and 12:00 p.m. GMT. The call-in number is +82 (0)31-810-3001 for both callers in Korea and callers outside of Korea. The confirmation number is 3777. Corresponding slides will be available at the Investor Relations section of the LG.Philips LCD web site: <http://www.lgphilips-lcd.com>.

Investors can listen to the conference call via the Internet at <http://www.lgphilips-lcd.com>. To listen to the live call, please go to the Investor Relations section of the web site at least 15 minutes prior to the call to register and install any necessary audio software.

For those who are unable to participate in the call, a replay will be available for 30 days after the call. The call-in number is 031-810-3100 for callers in Korea and +82-31-810-3100 for callers outside of Korea. The confirmation number for the replay is 110120#.

#### **About LG.Philips LCD**

LG.Philips LCD Co., Ltd. [NYSE: LPL, KRX: 034220] is a leading manufacturer and supplier of thin-film transistor liquid crystal display (TFT-LCD) panels. The Company manufactures TFT-LCD panels in a wide range of sizes and specifications for use in TVs, monitors, notebook PCs, and various applications. LG.Philips LCD currently operates seven fabrication facilities and four back-end assembly sites in Korea, China and Poland. The Company has a total of 23,000 employees operating in ten countries around the world. Please visit <http://www.lgphilips-lcd.com> for more information.

Disclaimer

Disclaimer

This presentation contains forward-looking statements. We may also make written or oral forward-looking statements in our periodic reports to the United States Securities and Exchange Commission and the Korean Financial Supervisory Service, in our annual report to shareholders, in our proxy statements, in our offering circulars and prospectuses, in press releases and other written materials and in oral statements made by our

officers, directors or employees to third parties. Statements that are not historical facts, including statements about our beliefs and expectations, are forward-looking statements. These statements are based on current plans, estimates and projections, and therefore you should not place undue reliance on them. Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

Forward-looking statements involve inherent risks and uncertainties.

We caution you that a number of

important factors could cause actual results to differ materially from those contained in any forward-looking statement. Such factors include, but are not limited to: our highly competitive environment; the cyclical nature of our industry; our ability to introduce new products on a timely basis; our dependence on growth in the demand for our products; our ability to successfully execute our expansion strategy; our dependence on key personnel; and general economic and political conditions, including those related to the TFT-LCD industry; possible disruptions in business activities caused by natural and human-induced disasters, including terrorist activity and armed conflict; and fluctuations in foreign currency exchange rates. Additional information as to these and other factors that may cause actual results to differ materially from our forward-looking statements can be found in our filings with the United States Securities and Exchange Commission.

This presentation also includes information regarding our historical financial performance through September 30, 2007, and our expectations regarding future performance as reflected in certain non-GAAP financial measures as defined by United States Securities and Exchange Commission rules. As required by such rules, we have provided a reconciliation of those measures to the most directly comparable GAAP measures, which

is available on our investor relations website at

<http://www.lgphilips-lcd.com> under the file name Q3 2007 Earnings Results Presentation.

EBITDA Reconciliation

EBITDA Reconciliation

20  
EBITDA Reconciliation (Continued)  
EBITDA Reconciliation (Continued)  
EBITDA is defined as net income (loss) plus: interest income (expense); provision (benefit) for income taxes; depreciation of property, plant and equipment; amortization of intangible assets; and amortization of debt issuance cost. EBITDA is a key financial measure used by our senior management to internally evaluate the performance of our business and for other required or discretionary purposes.

We believe that the presentation of EBITDA will enhance an investor's understanding of our operating performance as we believe it is commonly reported and widely used by analysts and investors in our industry. It also provides useful information for comparison on a more comparable basis of our operating performance and those of our competitors, who follow different accounting policies.

EBITDA is not a measure determined in accordance with U.S. GAAP.

EBITDA should not be considered as an alternative to operating income, cash flows from operating activities or net income, as determined in accordance with U.S. GAAP. Our calculation of EBITDA may not be comparable to similarly titled measures reported by other companies.

Concerns on PDP price decline

-

But PDP price decline may not affect significantly on LCD

The shortage situation will be continued or eased depending on products

Sales may be decreased as a result of some equipment alteration for CAPA enhancement

Considering the profit deterioration from strong Korean won against USD, operating profit is forecasted to be reduced a bit compared to Q3 '07 operating profit
