Commission File No. 000-16276

James E. Rohr, Chairman of The PNC Financial Services Group, Inc. ( PNC ), gave a presentation to investors on November 13, 2007 at the PNC Banking & Financial Services Conference in New York. This presentation was accompanied by a series of electronic slides that pertain to the financial results and business strategies of PNC. The following slides and related material were posted on PNC's website on November 13, 2007.

This presentation contains forward-looking statements regarding our outlook or expectations relating to PNC's future business operations, financial condition, financial performance and

asset  
quality.  
Forward-looking  
statements  
are  
necessarily  
subject  
to  
numerous assumptions, risks and uncertainties, which change over  
time.

The  
forward-looking  
statements  
in  
this  
presentation  
are  
qualified  
by  
the  
factors  
affecting  
forward-looking  
statements  
identified  
in  
the  
more  
detailed  
Cautionary  
Statement  
included  
in  
the  
Appendix,  
which  
is  
included  
in  
the  
version  
of  
the  
presentation  
materials

posted on our corporate website at [www.pnc.com/investorevents](http://www.pnc.com/investorevents). We provide greater detail regarding these factors in our 2007 Form 10-K, including in the Risk Factors and Risk Management sections, and in our current quarter 2007 Form 10-Q and other reports (accessible on the SEC's website at [www.sec.gov](http://www.sec.gov) and on or through our corporate website).

Future events or circumstances may change our outlook or expectations and may also affect the nature of the assumptions, risks and uncertainties to which our forward-looking statements are subject. The forward-looking statements in this presentation sp

only as of the date of this presentation. We do not assume any duty and do not undertake to update those statements.

In this presentation, we will sometimes refer to adjusted results to help illustrate the impact of the deconsolidation of BlackRock near the end of third quarter 2006 and the impact of certain types of items. Adjusted results reflect, as applicable, the following

types

of

adjustments:

(1)

2006

periods

reflect

the

impact

of

the

deconsolidation

of

BlackRock

by

adjusting

as

if

we

had

recorded

our BlackRock investment on the equity method prior to its deconsolidation; (2) adjusting the 2006 periods to exclude the impact

of the

third

quarter

2006

gain

on

the

BlackRock/MLIM

transaction

and

losses

on

the

repositioning

of

PNC's

securities

and

mortgage

loan portfolios; (3) adjusting fourth quarter 2006 and the 2007 periods to exclude the net mark-to-market adjustments on PNC

remaining BlackRock LTIP shares obligation and, as applicable, the gain PNC recognized in first quarter 2007 in connection with

company's transfer of BlackRock shares to satisfy a portion of its BlackRock LTIP shares obligation; (4) adjusting all 2007 and

2006 periods to exclude, as applicable, integration costs related to acquisitions and to the BlackRock/MLIM transaction; and (5)

adjusting, as appropriate, for the tax impact of these adjustments. We have provided these adjusted amounts and reconciliations

so that investors, analysts, regulators and others will be better able to evaluate the impact of these items on our results for the

periods presented, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation given the magnitude of the impact of deconsolidation on various components of our income statement and balance sheet.

We believe that information as adjusted for the impact of the specified items may be useful due to the extent to which these items are not indicative of our ongoing operations as the result of our management activities on those operations. While we have not provided other adjustments for the periods discussed, this is not intended to imply that there could not have been other similar types of adjustments, but any such adjustments would not have been similar in magnitude to the amount of the adjustments shown. In certain discussions, we may also provide revenue information on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. We believe this adjustment may be useful when comparing yields and margins for all earning assets.

This presentation may also include a discussion of other non-GAAP financial measures, which, to the extent not so qualified thereto or in the Appendix, is qualified by GAAP reconciliation information available on our corporate website at [www.pnc.com](http://www.pnc.com) under

Changes in customer preferences and behavior, whether as a result of changing business and economic conditions or other factors

A continuation of recent turbulence in significant portions of the global financial markets could impact our performance, both and the value of our assets and liabilities and indirectly by affecting the economy generally.

Our operating results are affected by our liability to provide shares of BlackRock common stock to help fund certain BlackRock

programs, as our LTIP liability is adjusted quarterly ( marked-to-market ) based on changes in BlackRock s common stock price and committed shares, and we recognize gain or loss on such shares at such times as shares are transferred for payouts under the LTIP.

Competition can have an impact on customer acquisition, growth and retention, as well as on our credit spreads and product prices per share, deposits and revenues.

Legal and regulatory developments could have an impact on our ability to operate our businesses or our financial condition or competitive position or reputation. Reputational impacts, in turn, could affect matters such as business generation and retention management, liquidity, and funding. These legal and regulatory developments could include: (a) the unfavorable resolution of and other governmental inquiries; (b) increased litigation risk from recent regulatory and other governmental developments; (c) the results of the regulatory examination process, our failure to satisfy the requirements of agreements with governmental agencies, and regulators

Our business and operating results are affected by our ability to identify and effectively manage risks inherent in our business  
through the effective use of third-party insurance, derivatives, and capital management techniques.

Our ability to anticipate and respond to technological changes can have an impact on our ability to respond to customer needs  
demands.

The adequacy of our intellectual property protection, and the extent of any costs associated with obtaining rights in intellectual  
impact our business and operating results.

Our business and operating results can also be affected by widespread natural disasters, terrorist activities or international hostilities  
impact on the economy and capital and other financial markets generally or on us or on our customers, suppliers or other countries.

Also, risks and uncertainties that could affect the results anticipated in forward-looking statements or from historical performance  
in BlackRock, Inc. are discussed in more detail in BlackRock's 2006 Form 10-K, including in the Risk Factors section, and information  
accessible on the SEC's website and on or through BlackRock's website at [www.blackrock.com](http://www.blackrock.com).
