SIRONA DENTAL SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. General

The Company and its Operations

Sirona Dental Systems, Inc. (Sirona , Company , we , us or our) and its subsidiaries manufacture high quality, technologically advanced dental equipment and systems solutions for the global dental equipment market. We offer a broad range of products across all major segments of the dental equipment market including CAD/CAM systems, digital and film based intra oral and panoramic imaging systems, treatment centers and instruments. We acquired Schick Technologies, Inc. in 2006, which further expanded our global presence and product offerings and strengthened our research and development capabilities. Sirona has served equipment dealers and dentists worldwide for more than 125 years. Sirona's headquarters are located in Long Island City, New York with its primary facility located in Bensheim, Germany, as well as other support, manufacturing, assembling and sales & service facilities located elsewhere throughout the world.

Basis of Presentation

These unaudited interim condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP). Preparation of the interim financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions related to the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as at the reporting date and the reported amounts of revenues and expenses for the interim period. Actual results could differ from those estimates. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations. However, the Company believes that the disclosures are adequate to make the information not misleading. The year-end condensed consolidated balance sheet data was derived from the audited consolidated financial statements, but does not include all disclosures required by U.S. GAAP. These consolidated financial statements should be read in conjunction with the Consolidated Financial Statements and the Notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2008.

In the opinion of management, all adjustments (consisting of those of a normal recurring nature) considered necessary to present fairly the Company's financial position as of December 31, 2008 and September 30, 2008 and the results of operations and cash flows for the three months ended December 31, 2008 and 2007, as applicable to interim periods have been made. The results of operations for the three months ended December 31, 2008 are not necessarily indicative of the operating results for the full fiscal year or future periods.

All amounts are reported in thousands of U.S. Dollars (\$), except per share amounts or as otherwise disclosed.

Fiscal year

The Company's fiscal year is October 1 to September 30.

Principles of consolidation

The consolidated financial statements include, after eliminating inter-company transactions and balances, the accounts of Sirona Dental Systems, Inc. and its subsidiaries.

Fair Value Measurements

On October 1, 2008, the Company adopted the provisions of Statement of Financial Accounting Standards (SFAS) No. 157 *Fair Value Measurements* for assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. SFAS No. 157 does not establish requirements for any new fair value measurements but it does apply to existing pronouncements in which fair value measurements are already required. SFAS No. 157 defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly

Table of Contents

transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities that are required to be recorded or disclosed at fair value, the Company considers the principal or most advantageous market in which it would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as inherent risk, transfer restrictions, and the credit risk of the Company and counterparties to the arrangement.

SFAS No. 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is available and significant to the fair value measurement. SFAS No. 157 establishes and prioritizes the following three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs that are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

Assets/Liabilities Measured at Fair Value on a Recurring Basis

The following table presents the Company's assets and liabilities measured at fair value on a recurring basis as of December 31, 2008:

	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
	\$ 000s			
Assets				
Derivative Assets	\$	\$ 580	\$	\$ 580
Liabilities				
Derivative Liabilities	\$	\$ 10,416	\$	\$ 10,416

Derivative assets and derivative liabilities are classified in the Company's December 31, 2008 Condensed Consolidated Balance Sheet as Prepaid expenses and other current assets and Accrued liabilities and deferred income, respectively.

As allowed by FASB Staff Position (FSP) FAS 157-2, *Effective Date of FASB Statement No. 157*, the Company has elected to defer until October 1, 2009 the adoption of SFAS No. 157 for nonfinancial assets and liabilities that are recognized or disclosed at fair value on a nonrecurring basis. Accordingly, the Company has not applied SFAS No. 157 to inventories, property, plant and equipment, or intangible assets with definite useful lives.

As allowed by SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, which was adopted effective October 1, 2008, the Company did not elect the fair value option for any eligible financial instruments as of December 31, 2008.

Table of Contents**2. Recently Issued Accounting Pronouncements**

In December 2007, the FASB issued SFAS No. 141 (Revised), *Business Combinations* (SFAS 141R), which establishes principles and requirements for the reporting entity in a business combination, including recognition and measurement in the financial statements of the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. This statement also establishes disclosure requirements to enable financial statement users to evaluate the nature and financial effects of the business combination. SFAS 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. SFAS 141R will become effective for our fiscal year beginning October 1, 2009.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51*, (SFAS 160), which amends Accounting Research Bulletin No. 51, *Consolidated Financial Statements* (ARB No. 51), to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. This standard defines a noncontrolling interest, previously referred to as minority interest, as the portion of equity in a subsidiary not attributable, directly or indirectly, to a parent. SFAS 160 requires, among other items, that a noncontrolling interest be included in the consolidated balance sheet within equity separate from the parent's equity; consolidated net income to be reported at amounts inclusive of both the parent's and noncontrolling interest's shares and, separately, the amounts of consolidated net income attributable to the parent and noncontrolling interest all on the consolidated statement of income; and if a subsidiary is deconsolidated, any retained noncontrolling equity investment in the former subsidiary be measured at fair value and a gain or loss be recognized in net income based on such fair value. SFAS 160 is effective for fiscal years beginning after December 15, 2008, which corresponds to the Company's fiscal year beginning October 1, 2009. The Company is currently evaluating the potential impact of adopting SFAS 160 on its consolidated financial statements.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133* (SFAS 161), which requires enhanced disclosures about an entity's derivative and hedging activities and thereby improves the transparency of financial reporting. The objective of the guidance is to provide users of financial statements with an enhanced understanding of how and why an entity uses derivative instruments; how derivative instruments and related hedged items are accounted for; and how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS 161 is effective for interim and annual periods beginning after November 15, 2008, which corresponds to the Company's quarterly period beginning January 1, 2009. Management is currently evaluating the impact SFAS 161 will have on the Company's consolidated financial statements, but it currently does not expect the effect to be material.

3. Employee Share-Based Compensation

The total stock compensation expense for the Company's stock option plans amounted to \$3,835 for the three months ended December 31, 2008. These expenses include the impact of the stock option grant discussed below.

On October 1, 2008, and December 8, 2008 the Company granted 20,000 and 1,106,700 stock options under the Equity Incentive Plan (the 2006 Plan), respectively. The stock options vest over a period of four years and expire ten years after the date of the grant. The exercise price of such options may not be less than 100% of the fair market value of a share of the Company's common stock as determined by the closing price as of the date of the grant. The 2006 Plan provides for granting in total up to 2,275,000 stock options to employees, directors and consultants and received stockholder approval at the Company's Annual Meeting of Stockholders held on February 27, 2007.

The fair values of the stock options granted under the 2006 Plan were estimated using the Black-Scholes option pricing model and the assumptions set forth in the following table. The exercise price is equal to the fair market value of Sirona's stock at the grant date. The expected volatility is determined based on the Company's historical stock volatility. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of the grant and has a term equal to the expected life of the options. The expected life represents the period of time the options are expected to be outstanding based on anticipated grantee behavior. The expected dividend yield is based on the Company's history of not paying regular dividends in the past and the Company's current intention not to pay dividends in the foreseeable future.

Table of Contents

	December 2008-Grant	October 2008-Grant
Exercise price	\$ 11.90	\$ 21.32
Expected volatility	51%	51%
Risk-free rate	1.76%	2.87%
Expected life	5 years	5 years
Expected dividends		
Grant date fair value	\$5.51	\$10.45

In December 2008 the Company offered eligible optionees (optionees who held options with an exercise price of \$21.32 or higher) the ability to exchange up to 1,041,500 out of the money stock options granted under the 2006 Stock Option Plan for options of the same aggregate value. The replacement options have an exercise price equal to the closing market price on January 21, 2009, the date the offer expired, and extended vesting terms. Holders of 1,000,500 eligible options agreed to accept 421,428 replacement options with an exercise price of \$11.73. Accordingly, 579,072 have been put back into the plan and are available for future grant.

4. Comprehensive Income

	Three months ended December 31, 2008		2007
	\$ 000s		
Net Income	\$ 5,559	\$ 16,985	
Other Comprehensive Income	(13,416)	16,670	
Total Comprehensive Income	\$ (7,857)	\$ 33,655	

Other comprehensive income for the three months ended December 31, 2008 relates to the cumulative translation adjustment and the pension obligation adjustment. The cumulative translation adjustment for the three months ended December 31, 2008 includes unrealized non-cash losses on intra-group foreign currency transactions of a long-term investment nature between entities consolidated in these financial statements in the amount of \$8,131, the cumulative translation adjustment resulting from the translation of the financial statements of subsidiaries with functional currencies other than the U.S. Dollar in the amount of \$5,167 and the pension obligation adjustment includes the amortization of actuarial gains in the amount of \$118. Other comprehensive income for the three months ended December 31, 2007 includes unrealized non-cash gains on intra-group foreign currency transactions of a long-term investment nature between entities consolidated in these financial statements in the amount of \$11,544, the cumulative translation adjustment resulting from the translation of the financial statements of subsidiaries with functional currencies other than the U.S. Dollar in the amount of \$5,164 and the pension obligation adjustment includes the amortization of actuarial gains in the amount of \$38.

Other debt	1,141	2,140
	547,315	551,613
Less current portion	93,103	7,263
	\$ 454,212	\$ 544,350

Senior Term Loans

On November 22, 2006, Sirona Dental Systems, Inc. entered into a senior credit facility (the "Senior Facilities Agreement") as original guarantor, with Schick Technologies, Inc., a New York company and wholly owned subsidiary of Sirona ("Schick NY"), as original borrower and original guarantor, with Sirona Dental Systems GmbH, as original borrower and original guarantor, with Sirona Dental Services GmbH, as original borrower and original guarantor and with Sirona Dental Systems LLC, Sirona Holding GmbH and with Sirona Immobilien GmbH as original guarantors. Initial borrowings under the Senior Facilities Agreement plus excess cash were used to retire the outstanding borrowings under the Company's previous credit facilities.

The Senior Facilities Agreement includes: (1) a term loan A1 in an aggregate principal amount of \$150 million (the "tranche A1 term loan") available to Sirona's subsidiary, Schick NY, as borrower; (2) a term loan A2 in an aggregate principal amount of Euro 275 million (the "tranche A2 term loan") available to Sirona's subsidiary, Sirona Dental Services GmbH, as borrower; and (3) a \$150 million revolving credit facility available to Sirona Dental Systems GmbH, Schick NY and Sirona Dental Services GmbH, as initial borrowers. The revolving credit facility is available for borrowing in Euro, U.S. Dollar, Yen or any other freely available currency agreed to by the facility agent. The facilities are made available on an unsecured basis. Subject to certain limitations, each European guarantor guarantees the performance of each European borrower, except itself, and each U.S. guarantor guarantees the performance of each U.S. borrower, except itself. There are no cross-border guarantees since all guarantees are by entities that have the same functional currency as the currency in which the respective guaranteed borrowing is denominated.

Each of the senior term loans are to be repaid in three annual installments beginning on November 24, 2009 and ending on November 24, 2011. Of the amounts borrowed under the term loan facilities, 15% is due on November 24, 2009, 15% is due on November 24, 2010 and 70% is due on November 24, 2011. At the Company's current leverage multiples, the facilities bear interest at a margin of 55 basis points plus, in the case of Euro-denominated loans, EURIBOR and, in the case of other loans, LIBOR.

Table of Contents

The Senior Facilities Agreement contains a margin ratchet. Pursuant to this provision, which applies from November 24, 2007 onwards, the applicable margin will vary between 90 basis points and 45 basis points per annum according to our leverage multiple (i.e. the ratio of consolidated total net debt to consolidated adjusted EBITDA as defined in the Senior Facilities Agreement). Interest rate swaps have been established for 66.6% of the interest until March 2010. The interest rate swaps fix the LIBOR or EURIBOR element of interest payable on 66.6% of the principal amount of the loans for defined twelve and thirteen month interest periods over the lifetime of the swaps, respectively. The defined interest rates fixed for each twelve or thirteen month interest period range from 3.50% to 5.24%. Settlement of the swaps is required on a quarterly basis.

The Senior Facilities Agreement contains restrictive covenants that limit Sirona's ability to make loans, make investments (including in joint ventures), incur additional indebtedness, make acquisitions or pay dividends, subject to agreed-upon exceptions. The Company has agreed to certain financial debt covenants in relation to the financing. The covenants stipulate that the Company must maintain certain ratios in respect of interest payments and defined earnings measures. If the Company breaches any of the covenants, the loans will become repayable on demand.

Debt issuance costs of \$5.6 million were incurred in relation to the financing in November 2006 and were capitalized as deferred charges and are amortized using the effective interest method over the term of the loan.

9. Income Taxes

For fiscal year 2009, an estimated effective tax rate of 28% has been applied compared to an effective tax rate of 24% for fiscal year 2008. The 2009 effective tax rate has been impacted by the expected distribution of profits across different countries.

With limited exception, the Company and its subsidiaries are no longer subject to income tax examinations by any major tax jurisdiction for the years prior to 2005.

10. Income per Share

The computation of basic and diluted income per share is as follows:

	Three months ended December 31,	
	2008	2007
	\$ 000s (except per share amounts)	
Net income	\$ 5,559	\$ 16,985
Weighted average shares outstanding - basic	54,862,708	54,768,324
Dilutive effect of stock options	267,665	668,417
Weighted average shares outstanding - diluted	55,130,373	55,436,741
Income per share		
Basic	\$ 0.10	\$ 0.31
Diluted	\$ 0.10	\$ 0.31

Stock options to acquire 3,981,700 shares and 561,000 shares of Sirona's common stock that were granted in connection with the Company's stock option Plans were not included in the computation of diluted earnings per share for the three months ended December 31, 2008 and 2007, respectively, because the options' underlying exercise prices were greater than the average market price of Sirona's common stock for the respective period.

Table of Contents**11. Product Warranty**

The following table provides the changes in the product warranty accrual for the three months ended December 31, 2008 and December 31, 2007:

	Three months ended December 31,	
	2008	2007
	\$ 000s	
Balance at beginning of the period	\$ 12,176	\$ 12,547
Accruals for warranties issued during the period	5,545	5,442
Warranty settlements made during the period	(5,047)	(4,921)
Translation adjustment	(293)	451
Balance at the end of the period	\$ 12,381	\$ 13,519

12. Pension Plans

Components of net periodic benefit costs are as follows:

	Three months ended December 31,	
	2008	2007
	\$ 000s	
Service cost	\$ 70	\$ 87
Interest cost	639	654
Amortization of actuarial gains	(118)	(38)
Net periodic benefit cost	\$ 591	\$ 703

Table of Contents

13. Segment Reporting

The following tables show the results of the Company's reportable segments under the Company's management reporting system. The segment performance measure used to monitor segment performance is gross profit excluding the impact of the acquisition of control of the Sirona business by Sirona Holdings Luxco S.C.A. (Luxco), a Luxembourg-based holding entity owned by funds managed by Madison Dearborn Partners (MDP), Beecken Petty O Keefe and management of Sirona, through a leveraged buyout transaction on June 30, 2005 (the MDP Transaction) and the acquisition of Schick Technologies, Inc. (the Exchange). This measure is considered by management to better reflect the performance of each segment as it eliminates the need to allocate centrally incurred costs and significant purchase accounting effects that the Company does not believe to be representative of the performance of the segments. Furthermore, the Company monitors performance geographically by region. As the Company manages its business on both a product and a geographical basis, U.S. GAAP requires segmental disclosure based on product information.

Table of Contents**Reconciliation of the results of the segment performance measure to the consolidated statements of operations**

The following table and discussion provide a reconciliation of the total results of operations of the Company's business segments under management reporting to the consolidated financial statements. The differences shown between management reporting and U.S. GAAP for the three month periods ended December 31, 2008 and 2007, are due to the impact of purchase accounting. Purchase accounting effects are not included in gross profit as the Company does not believe these to be representative of the performance of each segment.

Inter-segment transactions are based on amounts which management believes are approximate to the amounts of transactions with unrelated third parties.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with the Condensed Consolidated Financial Statements included elsewhere in this report and the MD&A included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2008.

All amounts are reported in thousands of U.S. Dollars (\$), except as otherwise disclosed.

This report contains forward-looking statements that involve risk and uncertainties. All statements, other than statements of historical facts, included in this report regarding the Company, its financial position, products, business strategy and plans and objectives of management of the Company for future operations, are forward-looking statements. When used in this report, words such as anticipate, believe, estimate, expect, intend, objectives, plans and similar expressions, or the negatives thereof or variations thereon or comparable terminology as they relate to the Company, its products or its management, identify forward-looking statements. Such forward-looking statements are based on the beliefs of the Company's management, as well as assumptions made by and information currently available to the Company's management. Actual results could differ materially from those contemplated by the forward-looking statements as a result of various factors, including, but not limited to, those contained in the Risk Factors set forth in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2008. All forward looking statements speak only as of the date of this report and are expressly qualified in their entirety by the cautionary statements included in this report. We undertake no obligation to update or revise forward-looking statements which may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events other than required by law.

Overview

Sirona is a leading manufacturer of high-tech dental equipment. Sirona focuses on developing innovative systems and solutions for dentists globally. Sirona has served equipment dealers and dentists worldwide for more than 125 years. The Company has its headquarters in Long Island City, New York and in addition the Company has its primary facility in Bensheim, Germany. Sirona manages its business on both a product and geographic basis and has four reporting segments: Dental CAD/CAM Systems, Imaging Systems, Treatment Centers and Instruments. Products from each category are marketed in all geographical sales regions.

Significant Factors that Affect Sirona's Results of Operations

Increased Focus on Sirona's Position in the U.S. Market and Further Global Expansion

The U.S. market is the largest individual market for Sirona. Over the last three fiscal years, Sirona experienced strong revenue growth, with U.S. Dollar revenue, bolstered by the June 2006 acquisition of Schick Technologies, increasing on average by 21% annually. Several products have generated significant interest in the U.S. market, including, but not limited to, CEREC, Schick imaging products, GALILEOS, the ORTHOPHOS XG line, inLab, inEos, C8+, electrical handpieces and SIROLaser.

Sirona works together with large distributors in the U.S. market, including Patterson Dental and Henry Schein, which accounted for 30% and 16%, respectively, of Sirona's global revenues for the three month period ended December 31, 2008. The relationship with Henry Schein was expanded beyond the European markets to the United States in January 2005. Patterson Dental made a payment of \$100 million to Sirona in July 2005 in exchange for the exclusive distribution right for CEREC CAD/CAM products in the United States and Canada until 2017 (the Patterson exclusivity payment). The amount Sirona received was recorded as deferred income and is being recognized on a straight-line basis commencing at the beginning of the extension of the exclusivity period in fiscal 2008.

Focus on Further Global Expansion

In addition to increased U.S. market growth, Sirona has pursued expansion in the rest of the world. Over the last three fiscal years, sales in the rest of the world grew on average by 17% annually. To support this growth, Sirona expanded its local presence and distribution channels by establishing new sales and service locations in Spain, France

Table of Contents

and the United Kingdom in 2004; in Japan and Australia in 2005; in China in 2006 and in Italy in 2007. This expansion helped to increase sales and gross profit but also contributed to higher SG&A expense.

Transactions Accounted for as Business Combinations

The MDP Transaction and the Exchange were accounted for as business combinations and are described in detail in the Company's annual reports on Form 10-K for fiscal years 2008 and 2007.

As a result of these transactions, Sirona's cost of goods sold and SG&A expense have been and will continue to be materially affected by (i) higher depreciation and amortization costs arising from the step-up of Sirona's assets and liabilities to fair value; and (ii) accounting for the Company's stock option plans. Taxes, interest and net income have also been and will continue to be substantially impacted by the structural changes resulting from these business combinations.

IPR&D projects acquired in connection with the Exchange and the MDP Transaction, with fair values of \$6.0 million and \$33.8 million, respectively, were appraised and charged to the income statement at the respective dates of acquisition. The projects primarily related to (i) 3D-Imaging, (ii) enhancements to the CAD/CAM system's hardware and software, (iii) the new treatment center platform and (iv) intra-oral digital imaging. The fair value of \$6.0 million in connection with the Exchange related primarily to the intra-oral digital imaging projects. As of December 31, 2008, all of these projects had been completed.

Readers are directed to review the general risks relating to the Company as discussed under "Risk Factors" as set forth in our Form 10-K for the fiscal year ended September 30, 2008.

Fluctuations in U.S. Dollar/Euro Exchange Rate

Although the U.S. Dollar is Sirona's reporting currency, its functional currency varies depending on the country of operation. For the three months ended December 31, 2008, approximately 50% of Sirona's revenue and approximately 71% of its expenses were denominated in Euros. During the periods under review, the U.S. Dollar/Euro exchange rate has fluctuated significantly, thereby impacting Sirona's financial results. Between October 1, 2007 and December 31, 2008, the U.S. Dollar/Euro exchange rate used to calculate items included in Sirona's financial statements varied from a low of 1.2439 to a high of 1.6017. As of December 31, 2008 and September 30, 2008 the U.S. Dollar/Euro exchange rates were 1.3977 and 1.4340, respectively. Although Sirona does not apply hedge accounting, Sirona has entered into foreign exchange forward contracts to manage foreign currency exposure. As of December 31, 2008, these contracts had notional amounts totaling \$48.6 million. Because these agreements are relatively short-term (generally six months), continued fluctuation in the U.S. Dollar/Euro exchange rate could materially affect Sirona's results of operations.

Certain revenue information under "Results of Operations" below is presented on a constant currency basis. This information is a non-GAAP financial measure. Sirona supplementally presents revenue on a constant currency basis because it believes this information facilitates a comparison of Sirona's operating results from period to period without regard to changes resulting solely from fluctuations in currency rates. Sirona calculates constant currency revenue growth by comparing current period revenues to prior period revenues with both periods converted at the U.S. Dollar/Euro average foreign exchange rate for the current period. The exchange rates used in converting Euro denominated revenues into U.S. Dollar in the Company's financial statements prepared in accordance with U.S. GAAP were: \$1.31883 and \$1.44850 for the three months ended December 31, 2008 and 2007, respectively.

Loans made to Sirona under the senior credit facility entered into November 22, 2006 are denominated in the functional currency of the respective borrowers. See "Liquidity and Capital Resources" for a discussion of our senior credit facility. However, inter-company loans are denominated in the functional currency of only one of the parties to the loan agreements. Where inter-company loans are of a long-term investment nature, the potential non-cash fluctuations in exchange rates are reflected within other comprehensive income. These fluctuations may be significant in any period due to changes in the exchange rates between the Euro and the U.S. Dollar.

Fluctuations in Quarterly Operating Results

Sirona's quarterly operating results have varied in the past and are likely to vary in the future. These variations result from a number of factors, many of which are substantially outside its control, including:

the timing of new product introductions by Sirona or its competitors;

Table of Contents

the timing of industry trade shows;

developments in government reimbursement policies;

changes in product mix;

Sirona's ability to supply products to meet customer demand;

fluctuations in manufacturing costs;

income tax incentives; and

currency fluctuation.

Due to the variations which Sirona has experienced in its quarterly operating results, it does not believe that period-to-period comparisons of results of operations of Sirona are necessarily meaningful or reliable as indicators of current and future performance.

Results of Operations

Three Months Ended December 31, 2008 Compared to Three Months Ended December 31, 2007

Revenue

Revenue for the three months ended December 31, 2008 was \$179.7 million, a decrease of \$20.4 million, or down 10.2%, compared with the three months ended December 31, 2007. On a constant currency basis, adjusting for the fluctuations in the U.S. Dollar/Euro exchange rate, total revenue decreased by 4.4%. By segment, Imaging Systems declined 4.5% (flat on a constant currency basis), Treatment Centers declined 12.2% (down 3.8% on a constant currency basis), CAD/CAM declined 13.4% (down 8.9% on a constant currency basis) and Instruments declined 14.3% (down 6.4% on a constant currency basis).

All segments were impacted by the weak global economy which resulted in a challenging environment for selling dental equipment. In the current slowdown, we are seeing that some dentists are postponing investments in equipment. At the same time, they continue to experience solid demand for innovative high tech products that improve the dentist's competitive position and increase their practice income; such products include CAD/CAM systems, digital imaging and Galileos 3D imaging systems.

The Dental CAD/CAM Systems segment faced a challenging year over year comparison due to the trade-in program for the MC-XL milling unit, which was still effective in the first quarter of fiscal 2008.

The Imaging Systems segment benefited from positive results in the United States, solid performances in Japan, Australia and Italy, off-set by weakness in Germany.

Revenue in the United States for the three months ended December 31, 2008 decreased by 5.9% compared to the same period of the prior year. Revenue outside the United States decreased by 12.2%. On a constant currency basis, adjusting for the fluctuations in the U.S. Dollar/Euro exchange rate, revenue decreased by 3.6%. Positive revenue growth in non-U.S. and non-European markets, driven by Sirona's expanded presence in Japan and Russia, was more than offset by declines in Europe.

Cost of Sales

Edgar Filing: SIRONA DENTAL SYSTEMS, INC. - Form 10-Q

Cost of sales for the three months ended December 31, 2008 was \$92.7 million, a decrease of \$13.0 million, or down 12.3%, as compared with the prior year. Gross profit as a percentage of revenue was 48.4% compared to 47.2% in the prior year. Cost of sales included amortization and depreciation expense resulting from the step-up to fair values of tangible and intangible assets of \$16.2 million for the three months ended December 31, 2008, compared to amortization and depreciation expense resulting from the step-up to fair values of tangible and intangible assets of \$20.6 million for the three months ended December 31, 2007. Excluding these amounts, costs of

Table of Contents

sales as a percentage of revenue was 42.5% for the three months ended December 31, 2008 compared with 42.4% for the three months ended December 31, 2007 and therefore gross profit as a percentage of revenue was 57.5% compared to 57.6%.

Selling, General and Administrative Expense

For the three months ended December 31, 2008, SG&A expense was \$57.4 million, an increase of \$1.5 million, or 2.7%, as compared with the three months ended December 31, 2007. SG&A expense included amortization and depreciation resulting from the step-up to fair values of tangible and intangible assets of \$1.0 million, as well as non-cash option expense in the amount of \$3.6 million for the three months ended December 31, 2008, compared with \$1.0 million and \$3.2 million, respectively, for the three months ended December 31, 2007. Excluding these amounts, as a percentage of revenue, SG&A expense increased to 29.4% for the three months ended December 31, 2008 as compared with 25.8% for the three months ended December 31, 2007. This increase was primarily due to our expanded presence in Japan and increased expenses in the U.S.

Research and Development

R&D expense for the three months ended December 31, 2008 was \$11.1 million, a decrease of \$2.6 million, or down 19.0%, as compared with the three months ended December 31, 2007. The decrease was mainly due to the timing of our new product introductions. R&D expense included non-cash stock option expense in the amount of \$0.2 million and \$0.3 million, respectively, for the three months ended December 31, 2008 and for the three months ended December 31, 2007. Excluding these amounts, as a percentage of revenue, R&D expense decreased to 6.1% for the three months ended December 31, 2008, compared with 6.7% for the three months ended December 31, 2007.

Net other operating income

Net other operating income for the three months ended December 31, 2008 was \$3.5 million, compared to \$2.5 million for the three months ended December 31, 2007. In both periods net other operating income included \$2.5 million resulting from the amortization of the deferred income relating to the Patterson exclusivity payment. In the three months ended December 31, 2008 net other operating income also included a gain from the sale of a sales and service subsidiary in Spain of \$1.0 million.

Loss/(gain) on Foreign Currency Transactions

Loss on foreign currency transactions for the three months ended December 31, 2008 amounted to \$3.6 million compared to a gain of \$5.9 million for the three months ended December 31, 2007. For the three months ended December 31, 2008 the loss included an unrealized non-cash foreign currency loss of \$2.3 million on the U.S. Dollar denominated deferred income, resulting from the currency revaluation adjustment of Patterson's exclusivity payment and a \$1.4 million loss due to the currency revaluation of U.S. Dollar denominated short-term intra-group loans. For the three months ended December 31, 2007 the gain included an unrealized non-cash foreign currency gain of \$3.6 million on the U.S. Dollar denominated deferred income, resulting from the currency revaluation adjustment of Patterson's exclusivity payment, as well as a non-cash foreign currency gain on U.S. Dollar denominated short-term intra-group loans to European entities of \$2.1 million.

Table of Contents

Loss on Derivative Instruments

Loss on derivative instruments for the three months ended December 31, 2008 amounted to \$5.0 million compared to a loss of \$2.2 million for the three months ended December 31, 2007. For the three months ended December 31, 2008 the loss included an unrealized non-cash loss of \$8.1 million on interest swaps, as well as a non-cash gain on foreign currency derivatives of \$3.1 million. The loss for the three months ended December 31, 2007 included an unrealized non-cash loss of \$1.7 million on interest swaps, as well as a non-cash loss on foreign currency derivatives of \$0.5 million.

Interest Expense

Net interest expense for the three months ended December 31, 2008 was \$6.1 million, compared to \$6.7 million for the three months ended December 31, 2007. This decrease was primarily due to lower LIBOR and EURIBOR rates.

Income Tax Provision

The income tax provision for the three months ended December 31, 2008 was \$2.0 million, compared to \$7.2 million for the three months ended December 31, 2007. For fiscal year 2009, an estimated effective tax rate of 28% has been applied compared to an effective tax rate of 24% for fiscal year 2008. The 2009 effective tax rate is expected to be higher than 2008, due to a variety of factors including the estimated distribution of profits across the different countries.

Net Income

Sirona's net income for the three months ended December 31, 2008 was \$5.6 million, a decrease of \$11.4 million, as compared with the three months ended December 31, 2007. First quarter 2009 net income included amortization and depreciation expense resulting from the step-up to fair values of intangible and tangible assets related to the Exchange and the MDP Transaction (deal related amortization and depreciation) of \$17.2 million (\$12.4 million net of tax), unrealized, non-cash foreign currency losses on the deferred income from the Patterson exclusivity payment of \$2.3 million (\$1.6 million net of tax) and losses on short-term intra-group loans of \$1.4 million (\$1.0 million net of tax). Sirona's net income for the three month period ended December 31, 2007 included deal related amortization and depreciation of \$21.7 million (\$15.2 million net of tax), currency revaluation gains on the Patterson exclusivity payment of \$3.6 million (\$2.5 million net of tax) and revaluation gains on short-term intra-group loans of \$2.1 million (\$1.5 million net of tax).

The estimated tax rate for fiscal year 2009 is 28% compared to an estimated tax rate of 24% for fiscal year 2008. Option expense was \$3.8 million (\$2.8 million net of tax) in the first quarter of 2009, compared to \$3.7 million (\$2.6 million net of tax) in the prior year period.

Liquidity and Capital Resources

Historically, Sirona's principal uses of cash, apart from operating requirements, including research and development expenses, have been for interest payments, debt repayment and acquisitions. Periodic capital expenditures have approximately equaled depreciation (excluding any effects from the increased amortization and depreciation expense resulting from the step-up to fair values of Sirona's and Schick's assets and liabilities required under purchase accounting). Sirona's management believes that Sirona's working capital is sufficient for its present requirements.

Table of Contents

	Three months ended	
	December 31, 2008	December 31, 2007
	\$ 000s	
Net cash (used in)/provided by operating activities	\$ (1,574)	\$ 2,637
Net cash provided by/(used in) investing activities	364	(5,212)
Net cash (used in) financing activities	(1,417)	(9,917)
 (Decrease) in cash during the period	 \$ (2,627)	 \$ (12,492)

Net Cash (Used in)/Provided by Operating Activities

Net cash (used in)/provided by operating activities represents net cash from operations, returns on investments, and payments for interest and taxation.

Net cash (used in)/provided by operating activities was \$(1.6) million for the three months ended December 31, 2008 compared to \$2.6 million for the three months ended December 31, 2007. The primary contributing factors to the decrease in cash from operating activities were a decrease in net income as well as an increase in working capital, mainly driven by the development of accounts receivables. Net cash (used in)/provided by operating activities was also impacted by net interest income of \$0.7 million for the three months ended December 31, 2008 and net interest payments of \$14.2 million for the three months December 31, 2007 resulting from different interest payment periods.

Net Cash Provided by/(Used in) Investing Activities

Net cash provided by/(used in) investing activities represents cash provided by/(used in) capital expenditures in the course of normal operating activities, proceeds from the disposal of long-lived assets and the proceeds from the sale of an investment in a subsidiary for the three months ended December 31, 2008. Effective November 28, 2008 the Company sold its sales and services subsidiary in Spain. The primary contributors to the investing cash outflow for the three months ended December 31, 2007 were capital expenditures in the course of normal operating activities.

Net Cash Used in Financing Activities

Net cash used in financing activities was \$(1.4) million for the three months ended December 31, 2008, compared to \$(9.9) million for the three months ended December 31, 2007. Net cash used in financing activities in the three months ended December 31, 2008 relates to the repayment of a bank loan in China and the purchase of treasury shares under the stock repurchase program. Net cash used in financing activities in the three months ended December 31, 2007 relates to the repayment of the utilized portion of the Company's revolving credit facility.

Sirona's management believes that Sirona's operating cash flows and available cash (including restricted cash), together with its long-term borrowings, will be sufficient to fund its working capital needs, research and development expenses (including but not limited to the acquired in-process research and development), anticipated capital expenditure and debt service requirements for the foreseeable future.

Capital Resources***Senior Term Loans***

On November 22, 2006, Sirona Dental Systems, Inc. entered into a senior credit facility (the "Senior Facilities Agreement") as original guarantor, with Schick Technologies, Inc., a New York company and wholly owned subsidiary of Sirona ("Schick NY") as original borrower and original guarantor, with Sirona Dental Systems GmbH, as original

Table of Contents

borrower and original guarantor, with Sirona Dental Services GmbH, as original borrower and original guarantor and with Sirona Dental Systems LLC, Sirona Holding GmbH and Sirona Immobilien GmbH as original guarantors. Initial borrowings under the Senior Facilities Agreement plus excess cash were used to retire the outstanding borrowings under the Company's previous credit facilities.

The Senior Facilities Agreement includes: (1) a term loan A1 in an aggregate principal amount of \$150 million (the "tranche A1 term loan") available to Sirona's subsidiary, Schick NY, as borrower; (2) a term loan A2 in an aggregate principal amount of Euro 275 million (the "tranche A2 term loan") available to Sirona's subsidiary, Sirona Dental Services GmbH, as borrower; and (3) a \$150 million revolving credit facility available to Sirona Dental Systems GmbH, Schick NY and Sirona Dental Services GmbH, as initial borrowers. The revolving credit facility is available for borrowing in Euro, U.S. Dollars, Yen or any other freely available currency agreed to by the facility agent. The facilities are made available on an unsecured basis. Subject to certain limitations, each European guarantor guarantees the performance of each European borrower, except itself, and each U.S. guarantor guarantees the performance of each U.S. borrower, except itself. There are no cross-border guarantees since all guarantees are by entities that have the same functional currency as the currency in which the respective guaranteed borrowing is denominated.

Each of the senior term loans has a five year maturity and is to be repaid in three annual installments beginning on November 24, 2009 and ending on November 24, 2011. Of the amounts borrowed under the term loan facilities, 15% is due on November 24, 2009, 15% is due on November 24, 2010 and 70% is due on November 24, 2011. At the Company's current leverage multiples, the facilities bear interest at a margin of 55 basis points plus, in the case of Euro-denominated loans, EURIBOR and, in the case of other loans, LIBOR.

The Senior Facilities Agreement contains a margin ratchet. Pursuant to this provision, which applies from November 24, 2007 onwards, the applicable margin will vary between 90 basis points and 45 basis points per annum according to the Company's leverage multiple (i.e. the ratio of consolidated total net debt to consolidated adjusted EBITDA as defined in the Senior Facilities Agreement). Interest rate swaps have been established for 66.6% of the interest until March 2010. The interest rate swaps fix the LIBOR or EURIBOR element of interest payable on 66.6% of the principal amount of the loans for defined twelve and thirteen month interest periods over the lifetime of the swaps, respectively. The defined interest rates fixed for each twelve or thirteen month interest period range from 3.50% to 5.24%. Settlement of the swaps is required on a quarterly basis.

The Senior Facilities Agreement contains restrictive covenants that limit Sirona's ability to make loans, make investments (including in joint ventures), incur additional indebtedness, make acquisitions or pay dividends, subject to agreed exceptions. The Company has agreed to certain financial debt covenants in relation to the financing. The covenants stipulate that the Company must maintain certain ratios in respect of interest payments and defined earnings measures. If the Company breaches any of the covenants, the loans will become repayable on demand.

Debt issuance costs of \$5.6 million were incurred in relation to the financing and were capitalized as deferred charges and are amortized using the effective interest method over the term of the loan.

Table of Contents**Other Financial Data**

	Three months ended December 31,	
	2008	2007
	\$ 000s	
Net income	\$ 5,559	\$ 16,985
Net interest expense	6,064	6,746
Provision for income taxes	1,998	7,242
Depreciation	4,608	3,793
Amortization	17,613	22,329
 EBITDA	 \$ 35,842	 \$ 57,095

EBITDA is a non-GAAP financial measure that is reconciled to net income, its most directly comparable U.S. GAAP measure, in the accompanying financial tables. EBITDA is defined as net earnings before interest, taxes, depreciation, and amortization. Sirona's management utilizes EBITDA as an operating performance measure in conjunction with U.S. GAAP measures, such as net income and gross margin calculated in conformity with U.S. GAAP. EBITDA should not be considered in isolation or as a substitute for net income prepared in accordance with U.S. GAAP. There are material limitations associated with making the adjustments to Sirona's earnings to calculate EBITDA and using this non-GAAP financial measure. For instance, EBITDA does not include:

interest expense, and because Sirona has borrowed money in order to finance its operations, interest expense is a necessary element of its costs and ability to generate revenue;

depreciation and amortization expense, and because Sirona uses capital and intangible assets, depreciation and amortization expense is a necessary element of its costs and ability to generate revenue; and

tax expense, and because the payment of taxes is part of Sirona's operations, tax expense is a necessary element of costs and impacts Sirona's ability to operate.

In addition, other companies may define EBITDA differently. EBITDA, as well as the other information in this filing, should be read in conjunction with Sirona's consolidated financial statements and footnotes.

In addition to EBITDA, the accompanying financial tables also set forth certain supplementary information that Sirona believes is useful for investors in evaluating Sirona's underlying operations. This supplemental information includes gains/losses recorded in the periods presented which relate to the early extinguishment of debt, share based compensation, revaluation of Dollar-denominated exclusivity payment and borrowings where the functional currency is Euro, and the Exchange. Sirona's management believes that these items are either nonrecurring or noncash in nature, and should be considered by investors in assessing Sirona's financial condition, operating performance and underlying strength.

Sirona's management uses EBITDA together with this supplemental information as an integral part of its reporting and planning processes and as one of the primary measures to, among other things:

- (i) monitor and evaluate the performance of Sirona's business operations;

Edgar Filing: SIRONA DENTAL SYSTEMS, INC. - Form 10-Q

- (ii) facilitate management's internal comparisons of the historical operating performance of Sirona's business operations;

- (iii) facilitate management's external comparisons of the results of its overall business to the historical operating performance of other companies that may have different capital structures and debt levels;

Table of Contents

(iv) analyse and evaluate financial and strategic planning decisions regarding future operating investments; and

(v) plan for and prepare future annual operating budgets and determine appropriate levels of operating investments.

Sirona's management believes that EBITDA and the supplemental information provided is useful to investors as it provides them with disclosures of Sirona's operating results on the same basis as that used by Sirona's management.

Supplemental Information

	Three months ended December 31,	
	2008	2007
	\$ 000s	
Share-based compensation	\$ 3,835	\$ 3,660
Unrealized, non-cash loss/(gain) on revaluation of the carrying value of the \$-denominated exclusivity fee	2,291	(3,631)
Unrealized, non-cash loss/(gain) on revaluation of the carrying value of short-term intra-group loans	1,402	(2,110)
	\$ 7,528	\$ (2,081)

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes to the Company's market risk since September 30, 2008.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934), as of December 31, 2008. Based upon this evaluation, our chief executive officer and chief financial officer concluded that, as of December 31, 2008, the Company's disclosure controls and procedures were effective. Our disclosure controls and procedures are designed to ensure that information relating to the Company, including our consolidated subsidiaries, that is required to be disclosed in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Commission's rules and forms.

Changes in Internal Control over Financial Reporting

No change in our internal control over financial reporting (as defined in rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) occurred during the quarter ended December 31, 2008 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II.****ITEM 1. LEGAL PROCEEDINGS**

There are currently no material legal proceedings pending.

ITEM 1A. RISK FACTORS

There are no material changes from risk factors as previously disclosed by the Company in Part I, Item IA of its 2008 Annual Report on Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In December 2008, the Company authorized a stock repurchase program to purchase up to an aggregate of \$50,000,000 of its common stock in open market transactions. The table below presents information pursuant to Item 703(a) of Regulation S-K regarding the repurchase of the Company's common stock by the Company in the three-month period ended December 31, 2008.

ISSUER PURCHASES OF EQUITY SECURITIES

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
12/1/08 - 12/31/08	25,716	\$ 10.28	25,716	\$ 49,735,640
Total	25,716	\$ 10.28	25,716	\$ 49,735,640

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

ITEM 5. OTHER INFORMATION

The Company and Theo Haar, Executive Vice President, have agreed that Mr. Haar will retire. Pursuant to the terms of Mr. Haar's employment agreement, Mr. Haar's retirement from the Company will be effective as of February 28, 2011.
