CKX Lands, Inc.

Notes to Financial Statements

March 31, 2009

Note 1. Basis of Presentation

In the opinion of management, the accompanying balance sheets and related interim statements of income, and cash flows include all adjustments, consisting only of normal recurring items, necessary for their fair presentation in accordance with generally accepted accounting principles. Interim results are not necessarily indicative of results for a full year. The information included in this Form 10-Q should be read in conjunction with Management's Discussion and Analysis and financial statements and notes thereto included in the CKX Lands, Inc. Form 10-K for the fiscal year ended December 31, 2008.

Note 2. Nature of Business and Significant Accounting Policies

Nature of business:

The Company's business is the ownership and management of land. The primary activities consist of leasing its properties for minerals (oil and gas) and raising timber and agriculture.

Significant accounting policies:

Cash and equivalents:

For purposes of the statement of cash flows, cash equivalents include time deposits, certificates of deposit, and all highly liquid debt instruments with original maturities of three months or less.

Pervasiveness of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect: the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment securities:

The Company complies with the provisions of the Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 115, *Accounting for Certain Investments in Debt and Equity Securities*. Under the provisions of this statement, management must make a determination at the time of acquisition whether certain investments in debt and equity securities are to be held as investments to maturity, held as available for sale, or held for trading. Management, under a policy adopted by the board of directors of the Company, made a determination that all debt and equity securities owned at that date and subject to the provisions of the statement would be classified as held available-for-sale.

Under the accounting policies provided for investments classified as held available-for-sale, all such debt securities and equity securities that have readily determinable fair value shall be measured at fair value in the balance sheet. Unrealized holding gains and losses for available-for-sale securities shall be excluded from earnings and reported net of income taxes as a separate component of retained earnings until realized. Realized gains and losses on available-for-sale securities are included in income. The cost of securities sold is based on the specific identification method. Interest on debt securities is recognized in income as earned, and dividends on marketable equity securities are recognized in income when declared.

Table of Contents

CKX Lands, Inc.

Declines in the fair value of available-for-sale securities below their cost that are deemed to be other-than-temporary are reflected in earnings as realized losses. In estimating other-than-temporary impairment losses, management considers (1) length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value.

Property and equipment:

Property and equipment is stated at cost. Major additions are capitalized, and maintenance and repairs are charged to income. Depreciation is computed on the straight-line and accelerated methods over the estimated useful lives of the assets.

Timber:

When timber land is purchased with standing timber, the cost is divided between land and timber based on timber cruises contracted by the Company. The costs of reforestation are capitalized. The timber asset is amortized when the timber is sold based on the percentage of the timber sold from a particular tract applied to the amount capitalized for timber for that tract.

Oil and gas:

Oil and gas income is booked when the Company is notified by the well s operators as to the Company s share of the sales proceeds together with the withheld severance taxes. The Company has no capitalized costs relating to oil and gas producing activities and no costs for property acquisition, exploration and development activities.

Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 provides guidance for using fair value to measure assets and liabilities. The standard expands required disclosures about the extent to which companies measure assets and liabilities at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings. SFAS 157 is effective for fiscal years beginning after November 15, 2007. The Company adopted SFAS 157 which did not have an impact on our financial statements.

Note 3. Net Income and Dividends per common stock:

Net Income and Dividends per share of common stock are based on the weighted average number of common stock shares outstanding during the period.

Note 4. Income taxes:

Deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws.

In July 2006, the FASB issued Interpretation (FIN) No. 48 *Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109* (FIN 48) to create a single model to address accounting for uncertainty in tax positions. FIN 48 clarifies that a tax position must be more likely than not of being sustained before being recognized in the financial statements. As required, we adopted the provisions of FIN 48 as of January 1, 2007. The adoption of FIN 48 did not have a material impact on our financial statements.

Note 5. Contingencies:

Edgar Filing: CKX Lands Inc - Form 10-Q

There are no material contingencies known to management. The Company does not participate in off balance sheet arrangements.

Table of Contents**CKX Lands, Inc.****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**
Results of Operations**Revenue**

Revenue for the first three months of 2009 was \$503,375 a decrease of \$323,890 or 39.2% over the first three months of 2008. Oil and gas income decreased by \$335,819 compared to the same period in 2008. As illustrated in the schedule below, barrels and MCF produced as well as average price per barrel and per MCF were lower in 2009.

	2009	2008
Oil Income	\$ 267,806	\$ 488,673
Barrels produced	5,019	5,068
Average price per barrel	\$ 53.35	\$ 96.43
Gas income	\$ 175,428	\$ 275,448
MCF produced	22,298	33,388
Average price per MCF	\$ 7.87	\$ 8.25

The decrease in both oil and gas production was due to depletion in older fields exceeding new fields and new wells within existing fields. The decrease in average price per barrel and MCF is directly related to current energy market price decreases.

Total oil and gas cash receipts from the top 5 production companies for the three months ended March 31, 2009 are as follows:

Production Company	Oil	Barrels	Gas	MCF
Swift Energy	\$ 181,117	2,679	58,711	5,476
Riceland Petroleum	13,840	296	36,271	5,184
Cox & Perkins	36,575	801	8,051	1,017
Kaiser-Francis Oil	13,898	256	19,160	2,467
Denbury Oil	4,172	22	17,775	2,471
	\$ 249,602	4,054	\$ 139,968	16,615

Costs and Expenses

Total costs and expenses decreased by \$77,918 or 35.1% during the three months ended March 31, 2009 over the same period in 2008. Oil and gas production costs decreased by \$25,784; the decrease is directly related to lower oil and gas revenues. General and administrative expenses decreased by \$58,314 primarily due to amortization of prepaid annual stock exchange fee and state franchise tax.

Table of Contents

CKX Lands, Inc.

Financial Condition

Current assets including securities available-for-sale totaled \$6,919,143 and total liabilities equaled \$462,740 at March 31, 2009. Management believes existing cash and short-term investments together with funds generated from operations should be sufficient to meet operating requirements and provide funds for strategic acquisitions.

The Company declared the normal seven cents per common share during the quarter ended March 31, 2009. It is anticipated that the Company will be able to continue paying a seven cents per common share each quarter. From time to time, the Company may elect to pay an extra dividend. In determining if an extra dividend will be declared, the Board of Directors will take into consideration the Company's current liquidity and capital resources and the availability of suitable timberland that has mineral potential.

Issues and Uncertainties

This Quarterly Report contains forward-looking statements. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could differ materially because of issues and uncertainties such as those discussed below, which, among others, should be considered in evaluating the Company's financial outlook.

Revenues from oil and gas provide most of the Company's income. All of these revenues come from wells operated by other companies from property belonging to CKX Lands, Inc. Consequently, these revenues fluctuate due to changes in oil and gas prices and changes in the operations of the other companies.

Item 3. Not applicable.

Item 4T. CONTROLS AND PROCEDURES
Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designated to ensure that information required to be disclosed in the Company's Securities Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
