Recent Developments

For the second quarter of fiscal 2009, Toys R Us - Delaware, Inc. s (Toys - Delaware) comparable store net sales decreased by 6.8%. Declines in the entertainment product category (where sales have been particularly soft due to the video game cycle), accounted for the majority of the decline in comparable store net sales in the second quarter of fiscal 2009. For the first 12 weeks of the third quarter of fiscal 2009, Toys-Delaware estimates that comparable store net sales were down 7.2%, with the entertainment product category accounting for more than one-third of the decline. Comparable store net sales in the final week of the third quarter were adversely impacted by the shift of the Big Book promotional event from the last week of the third quarter in fiscal 2008 to the first week of the fourth quarter in fiscal 2009. As a result, Toys-Delaware currently estimates that total comparable store net sales in the third quarter of fiscal 2009 were down approximately 9.0%, with the entertainment product category accounting for slightly less than half of the decline.

Despite the negative comparable store net sales in the third quarter of fiscal 2009, Toys-Delaware believes that results for the quarter will show gross margin rate improvement and expense reductions in sufficient amounts to more than offset the impact of the net sales decline on the operating results for the quarter.
