Report of Independent Registered Public Accounting Firm

We have audited the accompanying statements of net assets available for benefits of Fox Investment Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009 and 2008, and the changes in its net assets available for benefits for the year ended December 31, 2009, in conformity with US generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2009, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Fox Investment Plan

Notes to Financial Statements

December 31, 2009

**1. Description of the Plan**

The following description of the Fox Investment Plan (the Plan) provides only general information. Participants should refer to the Plan document and related amendments for more complete information.

**General**

The Plan is a defined contribution plan sponsored by Fox Entertainment Group, Inc. (the Plan Sponsor and the Company). Its purpose is to assist employees in establishing a regular savings and investment program to provide additional financial security for their retirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was adopted effective June 1, 1984. Effective January 1, 1998, the Plan was restated, and has since been amended, to change the name of the Plan Sponsor to Fox Entertainment Group, Inc., to incorporate various optional amendments, and to comply with legislative required amendments.

Effective January 1, 2008, the Plan was amended and restated in its entirety. The Plan adopted a Safe Harbor compliant structure. As a result, the employer match on eligible employee deferrals was changed to 100% of the first 1% plus 50% of the next 5% of eligible compensation contributed from the prior match of 50% of the first 6% of a participant's compensation.

**Eligibility**

The Plan is a defined contribution plan available to certain non-union employees of the Company to which the Plan has been extended. Currently, union employees under certain collective bargaining agreements are also eligible to participate. An eligible employee can enroll in the Plan on the first day of the payroll cycle immediately following commencement of employment or the first day of any payroll cycle thereafter.

**Contributions**

Employees otherwise eligible to participate in the Plan who were hired on or after May 1, 2007 are automatically enrolled in the Plan at a 3% deferral rate, unless they affirmatively opt out of participation. On January 1, 2008, all employees who had never made an affirmative election not to participate in the Plan were auto-enrolled at the 3% deferral rate. The following types of contributions are allowable under the terms of the Plan document:

**Table of Contents**

Fox Investment Plan

Notes to Financial Statements (continued)

**1. Description of the Plan (continued)**

**Participant Contributions** Participants can voluntarily contribute on a before-tax and/or after-tax basis, as defined in the Plan document, subject to certain limitations under the Internal Revenue Code (the Code). Participants who have reached age 50 before the end of the Plan year are eligible to make catch-up contributions which are also subject to certain limitations of the Code. After-tax contributions are subject to a Plan limitation of \$5,000 per year.

**Employer Matching Contributions** The Company shall contribute for each participant each pay period an amount equal to 100% of the first 1% plus 50% of the next 5% of eligible compensation contributed. The annual Company matching contribution may not exceed 3 1/2% of a participant's annual compensation.

**Employer Non-elective Contributions** The Company shall contribute for each participant each pay period a Company non-elective contribution in an amount equal to 2% of pay period compensation for each participant who (1) is ineligible to participate in a Company pension plan and is a non-collective bargaining unit eligible employee or (2) is covered by a collective bargaining agreement requiring said contribution.

**Rollover Contributions** Amounts distributed to participants from other tax-qualified plans and/or individual retirement accounts may be contributed to the Plan.

The total amount contributed to a participant's account (excluding rollover contributions) for the year ended December 31, 2009 may not exceed the lesser of (a) \$49,000, or (b) 100% of the participant's includable compensation, as defined by the Plan document and the Code.

**Vesting**

Participants are immediately 100% vested in their before-tax and after-tax contributions and rollover contributions. In addition, as part of the January 1, 2008 Plan amendment, the employer match vesting schedule was changed to two-year cliff vesting. Participants employed prior to January 1, 2008, will vest at 20% at the end of their first year of service consistent with the prior vesting schedule and then vest 100% at the end of their second year to comply with the amended vesting schedule.

**Table of Contents**

Fox Investment Plan

Notes to Financial Statements (continued)

**1. Description of the Plan (continued)**

A participant becomes 100% vested in the Employer's Matching Contribution account at the earliest of the following dates:

Completion of two years of vesting service

Death

Termination of employment due to total and permanent disability

Retirement at age 65

Termination of the Plan

A participant becomes 100% vested in the Employer Non-elective Contribution account at the earliest of the following dates:

Completion of three years of vesting service

Death

Termination of employment due to total and permanent disability

Retirement at age 65

Termination of the Plan

**Forfeitures**

If a participant elects a distribution of his/her vested account balance upon termination of employment, the nonvested portion of his/her employer contribution account is forfeited. If a participant defers distribution of his/her account balance, the participant's employer contribution account is forfeited after a consecutive 60-month period has elapsed after an employee's termination date. In accordance with the Plan document, such forfeitures are used to reduce future Employer Matching Contributions. For the year ended December 31, 2009, forfeitures of approximately \$1,538,000 were used to reduce the Employer Matching Contributions.

## Edgar Filing: NEWS CORP - Form 11-K

Forfeited balances of approximately \$138,000 and \$196,000 were available to reduce future contributions as of December 31, 2009 and 2008, respectively.

### **Investment Options**

The plan administrator intends the Plan to constitute a Plan described in section 404(c) of ERISA. Upon enrollment in the Plan, a participant may direct employee and employer contributions in 1% increments among various investment options offered by the Plan.

**Table of Contents**

Fox Investment Plan

Notes to Financial Statements (continued)

**1. Description of the Plan (continued)**

Participants may direct their investment balances among these various investment options at anytime, subject to trading restrictions imposed by the mutual fund companies. During the year ended December 31, 2009, the Plan added the Allianz NFJ Small Cap Value Fund Institutional Class and Fidelity Freedom Income Fund to the Plan's fund menu.

**Participant Accounts**

Each participant's account is credited with the participant's contribution and allocation of the Company's contribution, and debited for any distributions. Investment fund gains, losses and expenses are allocated based on the participant's account balances in each fund.

**Participants' Loans**

Participants may borrow from the Plan, subject to a minimum loan of \$1,000 and a maximum loan of \$50,000 or 50% of the participant's vested account balance. The loans are payable over a period of one to five years, or if the proceeds are used for the purchase of a participant's principal residence, the loans are payable over a period not to exceed 15 years. The loans bear interest at the prime rate plus 1%. The loans are secured by the pledge of the participant's interest in the Plan. Participants may either pay off outstanding loan balances when they leave the Company or continue to make loan repayments after termination. The Trustee, Fidelity Management Trust Company, has established a loan fund for recording loan activities.

**Payment of Benefits**

Benefits to participants or beneficiaries are payable in lump sums equal to the value of the participants' vested accounts as of the date of distribution.

Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan document. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

**Administrative Expenses**

The Company may, at its discretion, elect to pay administrative expenses of the Plan. Administrative expenses not paid by the Company are paid from the assets of the Plan. During the year ended December 31, 2009, \$18,968 of administrative expenses were paid from the accounts of the affected participants.

**2. Summary of Accounting Policies**

**Basis of Accounting**

The accompanying financial statements of the Plan have been prepared under the accrual basis of accounting.

**Table of Contents**

Fox Investment Plan

Notes to Financial Statements (continued)

**2. Summary of Accounting Policies (continued)**

**Use of Estimates**

The preparation of the Plan's financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Payment of Benefits**

Benefits are recorded when paid.

**Risks and Uncertainties**

The Plan's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value of such instruments. The Plan's concentration of credit risk and market risk is dictated by the Plan's provisions as well as those of ERISA and the participants' investment preference.

The Plan's investment in News Corporation Class B Common Stock amounted to \$35,168,394 and \$19,031,456 as of December 31, 2009 and 2008, respectively. Such investments represented approximately 4% and 3% of the Plan's total net assets as of December 31, 2009 and 2008, respectively. For risks and uncertainties regarding News Corporation, participants should refer to the News Corporation Current Report on Form 8-K filed with the Securities and Exchange Commission (SEC) on February 12, 2010, which should be read in connection with the News Corporation's Annual Report on Form 10-K for the fiscal year ended June 30, 2009 filed with the SEC on August 12, 2009.

**Table of Contents**

Fox Investment Plan

Notes to Financial Statements (continued)

**2. Summary of Accounting Policies (continued)**

Investments in News Corporation Class B Common Stock, mutual funds, money market funds, common collective funds, synthetic guaranteed investment contracts (GICs), and wrapper contracts are exposed to various risks such as the financial condition of News Corporation, interest rate, market and credit. Due to the level of risk associated with certain securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term could materially affect participants' account balances and the amounts reported in the financial statements.

**New Accounting Pronouncements**

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4). FSP 157-4 amended FASB Accounting Standards Codification 820 (ASC 820) (formerly SFAS No. 157) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12). ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009 and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 5 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

**Table of Contents**

Fox Investment Plan

Notes to Financial Statements (continued)

**2. Summary of Accounting Policies (continued)**

**Investment Valuation and Income Recognition**

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

In accordance with ASC 820 assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recognized when earned. Dividends are recorded on the ex-dividend dates.

**Net Appreciation (Depreciation) in Fair Value of Investments**

All realized and unrealized appreciation (depreciation) in the value of investments is shown in the accompanying statement of changes in net assets available for benefits as net appreciation in fair value of investments.

**Table of Contents**

## Fox Investment Plan

## Notes to Financial Statements (continued)

**3. Investments**

The following table presents investments that represent 5% or more of the Plan's net assets:

	December 31	
	2009	2008
Investments at fair value:		
American Funds AMCAP R5	\$ 102,620,003	\$ 69,312,150
Fidelity Puritan Fund	116,152,644	93,154,115
Julius Baer International Equity Fund II	93,612,449	73,392,860
Mairs & Power Growth Fund	69,186,764	52,266,081
Fidelity Spartan U.S. Equity Index Fund	46,688,802	33,740,470
PIMCO Total Return Fund Institutional Class	86,447,663	63,177,406
Fidelity Mid-Cap Stock Fund	59,759,106	34,193,852

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year ended December 31, 2009) appreciated in fair value as follows:

Mutual funds	\$ 135,852,067
News Corporation Class B Common Stock	14,561,599
	\$ 150,413,666

**4. Fair Value Measurement**

The Plan investments are reported in accordance with FASB ASC 820 (formerly SFAS 157). Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date.

In accordance with FASB ASC 820, the Plan classified its investments as of December 31, 2009 and 2008 based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value (see Note 2). The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement).

**Table of Contents**

Fox Investment Plan

Notes to Financial Statements (continued)

**4. Fair Value Measurement (continued)**

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. Mutual funds, government and corporate securities, and common stock investments are stated at quoted market prices. Investments in fully benefit-responsive investment contracts are recognized at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The fair value of traditional and the separate account GICs was calculated using the present value of the contracts' future cash flow values discounted by comparable duration Wall Street Journal GIC index rates. Fair value is based on market values provided by external investment managers for constant duration synthetic GICs. Fair values for general fixed maturity synthetic GICs are calculated using the sum of all underlying assets' market values provided by an external pricing source. Fair value of the synthetic GIC wrapper contracts are calculated based on the hypothetical wrap fees generated by matrix pricing. Common collective trust funds are valued based on their unadjusted net asset value as determined by the fund sponsor based on the fair value of the underlying investments held in the common collective trust fund at the measurement date. There are no redemption restrictions on the common collective trust funds. The money market fund and short-term investment fund are valued at cost plus interest earned, which approximates fair value. The participant loans are stated at the outstanding principal loan balance, which approximates fair value.

**Table of Contents**

## Fox Investment Plan

## Notes to Financial Statements (continued)

**4. Fair Value Measurement (continued)**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Mutual funds:
