ITEM 1. ***BUSINESS***

As used herein, the terms (FEPI , we , us , our , or the Company) refer to First Equity Properties, Inc. a Nevada corporation organized on December 19, 1996. The Company s fiscal year ends December 31 of each year.

The Company s principal line of business and source of revenue has been earnings on investments and interest on notes receivables. On December 31, 2010 the Company purchased ART Westwood FL, Inc., for investment purposes. ART Westwood FL, Inc. is a Nevada corporation which owns approximately 0.753 acres of Kelly Lots Land in Farmers Branch, TX, approximately 6.916 acres of Vineyard Land located in Grapevine, TX and approximately 5.618 acres of Nashville Land located in Nashville, TN.

ITEM 1A. ***RISK FACTORS***

An investment in equity securities of the Company involves a high degree of risk as there is no active trading market for our securities and liquidity is not assured. You should carefully consider the following information keeping in mind that the matters described below are not the only potential risks that may affect the Company. Additional risks, which we do not presently consider material or of which we are not currently aware, may also have an adverse impact upon us.

Our governing documents contain anti-takeover provisions that make it difficult for a third party to seek to acquire control of the Company.

Certain provisions of the Articles of Incorporation, Bylaws and Nevada law could, together or separately, discourage, delay or prevent a third party from acquiring the Company, even if doing so might benefit stockholders. The provisions may also affect the price investors might be able to receive for their shares of the Company s common stock. Examples of these provisions are:

- The right of our Board of Directors to issue preferred stock with rights and privileges, which are senior to the common stock, without prior stockholder approval.

- Certain limitations upon the stockholders to make, adopt, alter, amend, change, or repeal the Bylaws of the Corporation except by a vote of 66 2/3% of the holders of record of shares outstanding.

- So-called business combination control requirements when the combination involves the Company and a person that beneficially owns 20% or more of the outstanding common stock, except under certain circumstances.

In addition, while one entity is currently the owner of approximately 75% of the issued and outstanding common stock, the likelihood of any offer to acquire a significant position in the Company s common stock is remote.

There is no established independent trading market for the shares of common stock of the Company.

No trading market presently exists for the shares of common stock and its value is therefore not determinable. Holders of our common stock do not have a vested right to redeem their shares, and therefore may not be able to liquidate their investment in the event of an emergency or otherwise. There simply is no active trading market for the shares of common stock, and accordingly, the transferability of such shares is limited at best.

The Company s business is conducted so as not to become a regulated investment company under the Investment Company Act, which exempt entities that are primarily engaged in the business of purchasing or otherwise acquiring mortgages and other liens on and interest in real estate .

The Company s primary source of income is from affiliated entities.

Our primary source of income is from affiliated entities. If any of these entities were to become insolvent or unable to pay their obligations, it would have a material impact on our financial statements and our ability to continue as a going concern. Management of the Company is exploring other alternatives, seeking to establish or acquire new business operations for the Company. Management cannot predict or give any assurance that any new business enterprise will be acquired or developed at any time in the near future.

ITEM 5. *MARKET FOR REGISTRANT S COMMON EQUITY, RELATED STOCKHOLDER MATTERS, AND ISSUER PURCHASES OF EQUITY SECURITIES*

Pursuant to the requirements of NRS 78.2055, on June 7, 2004, the members of the Board of Directors of the Company proposed and recommended to the stockholders a reverse-split on a 1-for-10 basis of the shares of Common Stock, par value $0.01 per share without any adjustment to the par value per share and without any reduction in the authorized number of shares of Common Stock at the same par value. The recommendation was submitted to the holder of approximately 75% of the outstanding Common Stock, Nevada Sea Investments, Inc. (Nevada Sea), which executed a written consent dated June 8, 2004, pursuant to NRS 78.320 adopting and approving the 1-for-10 reverse stock-split of the shares of Common Stock without any change in the par value and without any reduction in the authorized number of shares of Common Stock of the Company pursuant to the Articles of Incorporation. The 1-for-10 reverse stock split was ultimately effective July 12, 2004, following the distribution of an Information Statement on Schedule 14C to the other stockholders of the Company, and following the filing of an amendment to the Certificate of Incorporation of the Company with the Secretary of State of Nevada. The CUSIP Number for the post-split shares is 320097-20-7.

Under the approved action, based upon the 10,570,944 old shares outstanding on the effective date of July 12, 2004, the 1-for-10 reverse stock-split decreased the number of outstanding shares by approximately 90% which, after giving effect to an upward adjustment or rounding up for any fractional shares, added 534 shares to result in 1,057,628 post-split shares outstanding. The 1-for-10 reverse stock-split did not adversely affect any stockholder s proportionate equity interest in the Company, subject to the provisions for elimination of fractional shares by rounding up to the next whole share which slightly increased the proportionate holdings of all stockholders other than Nevada Sea. Each post-split share continues to be entitled to one vote, as was the case with each outstanding old share.

In connection with the implementation of a 1-for-10 reverse stock-split, no certificate or script representing any fractional share interest was issued, but a holder of the old shares received in lieu of any fraction of a post-split share to which the holder would otherwise have been entitled a single, whole post-split share on a rounding up basis without regard to any price. The result of this rounding up process increased slightly the holdings of those stockholders who held a number of old shares which were not evenly divisible by ten, resulting in an increase of 534 shares.

FEPI s old shares of Common Stock, while available for trading in the over-the-counter market, to the knowledge of Management, have not had any material trading activity since their initial issuance in 1997. The old shares were issued pursuant to the terms of the Modified Plan in the bankruptcy proceeding styled *In Re: WESPAC Investors Trust III*, Case No. 94-00228-K-11 in the United States Bankruptcy Court for the Eastern District of Washington. The CUSIP Number of the old shares was 320097-10-8. The shares of beneficial interest of WESPAC Investors Trust III traded through the first quarter of 1988, and at one time, were quoted on the National Association of Securities Dealers Automatic Quotation System (NASDAQ). Since the cessation of trading on NASDAQ, there has been no established, independent trading market for the shares of beneficial interest of WESPAC or the old shares of Common Stock of FEPI as the successor, or the new shares of Common Stock of the Company after giving effect to the 1-for-10 reverse stock split.

No cash dividends have been declared or paid during the period from January 1, 1994 to the present on either the shares of Beneficial Interest of the Trust or the old shares of Common Stock of FEPI as the successor or the new shares of Common Stock after giving effect to the 1-for-10 reverse stock split.

As of March 31, 2011, the 1,057,628 post-split shares of Common Stock of FEPI issued and outstanding were held by approximately 1,800 holders of record.

During the three years ended December 31, 2010, FEPI did not issue or sell any securities, nor did FEPI purchase any of its equity securities. The Board of Directors has not authorized any stock repurchase program.

ITEM 7. ***MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS***

The following discussion is not an all-inclusive discussion of our operations. The information provided relates to significant items, which Management believes is relevant to an assessment and understanding of the Company s results of operations and financial condition. The discussion should be read in conjunction with the financial statements presented and the notes to the financial statements as included in this Form 10K.

Results of Operations

Our sole source of income is from the interest received on affiliated receivables. The principal balances on those receivables have been consistent for the past years, thus making our revenues consistent from year to year. Our expenses are primarily related to professional and administrative fees. Within the current year, we have incurred additional costs due to operating.

Results of operations for the year ended December 31, 2010 as compared to the same period ended 2009.

Operating expenses increased by $15,118 as compared to the year ended 2009.

Interest expense remained the same as compared to the year ended 2009.

Table of Contents

Results of Operations (Continued)

Results of operations for the year ended December 31, 2009 as compared to the same period ended 2008.

Operating expenses increased by $62,829 as compared to the year ended 2008. The majority of the increase is due to a full year of the lease agreement signed in the prior year. The lease agreement is with an affiliated entity for office space that was effective November 1, 2008. The lease is for $5,717 per month, which accounts for $57,170 of the increase.

Interest expense decreased by $31,226 as compared to the year ended 2008. The affiliated payables were reduced during 2009 which decreased the interest expense incurred.

A substantial asset concentration relates to notes receivables from affiliated entities which is the primary source of income consisting of interest on such receivables. Any adverse conditions effecting the financial condition of either or both of these entities, specifically their ability to service the debt obligation owed, could have a severe adverse impact upon the financial statements of the Company. However, as the entities are related parties to the Company, management of the Company is generally aware of the related parties financial condition. The entities are currently not in default on their obligations and management does not consider it necessary at this time to provide other financial information for such entities. However, management of the Company is aware of the circumstances and any conditions that might impact the ability of such related parties to meet their respective obligations. Management of the Company considers the collectability of such obligations to not be a question at this time.

Financial Condition, Capital Resources and Liquidity

General

Our primary source of liquidity is from proceeds from accrued interest on notes receivables from affiliated entities. At December 31, 2010, we had total assets of $6,523,341. Management determined that we would generate income sufficient to use our deferred tax asset of $1,696. Our overall liabilities have increased and the increase is due to the purchases of the subsidiary and land. We feel that our cash from operations is sufficient to provide for our current cash flow needs.

Cash flow analysis

The following summary discussion of our cash flows are based on the Statements of Cash Flows as presented in this Form 10-K and is not meant to be an all-inclusive discussion of the changes in our cash flows.

2010 as compared to 2009 The cash flow remained static as compared to the year ended 2009.

2009 as compared to 2008 The decrease is mainly attributable to paying down our obligations to affiliates due in the current year.

Contractual Obligations

We have contractual obligations and commitments primarily in regards to payments of operating leases and various notes payable. The following table aggregates our expected contractual obligations and commitments subsequent to December 31, 2010. The $3, 832,399 of long term debt was a result of acquisition of various land parcels. The debt is due to related parties and is collateralized by land and is non-recourse to the Company.

			Payments due by period				
	Total	**2011**	**2012**	**2013**	**2014**	**2015**	**Thereafter**
Long term debt	$ 5,535,275	$ 1,702,876	$	$	$	$ 3,832,399	$
Operating leases	57,170	57,170					

	$ 5,592,445	$ 1,760,046	$	$	$	$ 3,832,399	$

Environmental Matters

Under various federal, state and local environmental laws, ordinances and regulations, the Company may be potentially liable for removal or remediation costs, as well as certain other potential costs, relating to hazardous or toxic substances (including governmental fines and injuries to persons and property) where any property-level manager in the employee of a subsidiary of the Company may have arranged for the removal, disposal or treatment of hazardous or toxic substances. Management is not aware of any environmental liability relating to the above matters that would have a material adverse effect on the Company s business, assets, or results of operations.

Table of Contents

Inflation

The effects of inflation on the Company s operations are not quantifiable. To the extent that inflation affects interest rates, the Company s earnings from any short-term investments and the cost of new financings as well as the cost of variable rate financing will be affected.

ITEM 7A. ***QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK***

The Company is exposed to market risk from changes in interest rates, which may adversely affect its financial position, results of operations and cash flows. In seeking to minimize the risks from interest rate fluctuations, the Company manages exposures through its regular operating activities. The Company does not use financial instruments for trading or other speculative purposes and is not a party to any leveraged financial instruments.

Based upon the Company s market risk sensitive instruments (including variable rate debt) outstanding at December 31, 2010, the Company has determined that there was no material market risk exposure to the Company s financial position, results of operations or cash flows as of such date.

ITEM 8. ***FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA***

The Financial Statements, together with an index thereto, are attached hereto following the signature page to this report.

ITEM 9A. ***CONTROLS AND PROCEDURES***

A review and evaluation was performed by management under the supervision and with the participation of the Principal Executive Officer and Chief Financial Officer of the effectiveness of the Company s disclosure controls and procedures, as required by Rule 13a-15(b) of the Securities Exchange Act of 1934 as of December 31, 2010. Based upon that most recent evaluation, which was completed as of the end of the period covered by this Form 10-K, the Principal Executive Officer and Chief Financial Officer concluded that the Company s disclosure controls and procedures were effective at December 31, 2010 to ensure that information required to be disclosed in reports that the Company files submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and timely reported as provided in the Securities and Exchange Commission (SEC) rules and forms.

Management s Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in the Exchange Act Rules 13a-15(f). The Company s internal control over financial reporting is a process designed under the supervision of the Company s principal executive and principal financial officers to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company s financial statements for external reporting purposes in accordance with U.S. generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or because the degree of compliance with policies or procedures may deteriorate.

Under the supervision and with the participation of our management, including our Chief Financial and Accounting Officer, we conducted an assessment of the effectiveness of our internal control over financial reporting as of December 31, 2010. The assessment was based on criteria established in the framework *Internal Control Integrated Framework,* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management concluded that our internal control over financial reporting was effective as of December 31, 2010.

Changes in Internal Control Over Financial Reporting

There has been no change in the Registrant s internal control over financial reporting during the quarter ended December 31, 2010 that has materially affected, or is reasonably likely to materially affect, the Registrant s internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors

First Equity Properties, Inc.

Dallas, Texas

We have audited the accompanying consolidated balance sheets of First Equity Properties, Inc. as of December 31, 2010 and 2009 and the related consolidated statements of operations, shareholders equity and cash flows for each of the years in the three-year period ending December 31, 2010. First Equity Properties Inc. s management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company s internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in the notes to the financial statements, First Equity Properties, Inc. has significant transactions with and balances due from affiliates.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of First Equity Properties, Inc. as of December 31, 2010 and 2009 the results of its operations, changes in stockholder s equity and its cash flows for each of the years in the three-year period ending December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the consolidated financial statements taken as a whole Schedules III and IV are presented for the purpose of complying with the Securities and exchange Commission s rule and are not a required part of the basic consolidated financial statements and, in our opinion, fairly state, in all material respect, the financial data required to be set forth therein in relation to the basic consolidated financial statements taken as a whole.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE A SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

The Company and its subsidiaries historically provided management services to a variety of commercial and residential real estate companies throughout the continental United States however by 2004 the management contracts and operating subsidiaries were either transferred or sold to other entities. Management of the Company is exploring alternatives, seeking to establish and/or acquire new business operations.

Our current source of revenue consists of the collections of interest on notes receivables from two affiliated entities. We also own several parcels of undeveloped land.

Organization and Business

First Equity Properties Inc. is Nevada based corporation organized in December 19, 1996 and the Company is headquartered in Dallas, TX. The Company s principal line of business and source of revenue has been earnings on investments and interest on notes receivable. FEPI is a publicly traded company however, no trading marked presently exists for the shares of common stock and its value is therefore not determinable.

Basis of Presentation

The accompanying Consolidated Financial Statements include our accounts, and our subsidiary, which is wholly-owned. All significant intercompany balances and transactions have been eliminated in consolidation. Effective December 31, 2010 the Company has a subsidiary, ART Westwood FL, Inc.

Cash Equivalents

For purposes of the statement of cash flows, the Company considers all short-term investments with original maturities of three months or less to be cash equivalents.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Income Taxes

The Company accounts for income taxes in accordance with Accounting Standards Codification, (ASC) No. 740, Accounting for Income Taxes . ASC 740 requires an asset and liability approach to financial accounting for income taxes. In the event differences between the financial reporting basis and the tax basis of the Company s assets and liabilities result in deferred tax assets, ASC 740 requires an evaluation of the probability of being able to realize the future benefits indicated by such assets. A valuation allowance is provided for a portion or all of the deferred tax assets when there is an uncertainty regarding the Company s ability to recognize the benefits of the assets in future years.

Earnings (loss) per Share

Earnings (loss) per share (EPS) are calculated in accordance with Accounting Standards Codification, (ASC) No. 260, Earnings per Share (ASC 260), which was adopted in 1997 for all years presented. Basic EPS is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted EPS does not apply to the Company due to the absence of dilutive potential common shares. The adoption of ASC 260 had no effect on previously reported EPS.

Table of Contents

NOTE A SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FASB Accounting Standards Codification

The company presents its financial statements in accordance with generally accepted accounting principles in the United States (GAAP). In June 2009, the Financial Accounting Standards Board (FASB) completed its accounting guidance codification project. The FASB Accounting Standards Codification (ASC) became effective for the Company s financial statements issued subsequent to June 30, 2009 and is the single source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. As of the effective date, the company will no longer refer to the authoritative guidance dictating its accounting methodologies under the previous accounting standards hierarchy. Instead, the Company will refer to the ASC Codification as the sole source of authoritative literature.
