Board of Directors and Committee Information

Our Board has appointed a Compensation Committee and a Nominating and Corporate Governance Committee, as well as an Audit Committee that was established in accordance with Section 3a(58)(A) of the Securities and Exchange Act of 1934. Our Board has determined that each director who serves on these standing committees is independent, as that term is defined by applicable listing standards of The Nasdaq Stock Market and SEC rules. Our independent directors regularly schedule executive sessions of the Board in which management does not participate. In 2010, our independent directors met during every Board meeting in a separate executive session without any member of our management present. The Chairman of the Board, who is an independent director, presides over these meetings.

Our Board has determined that having an independent director serve as Chairman of the Board is in the best interest of our stockholders at this time. The structure ensures a greater role for the independent directors in the oversight of Atheros, including the oversight of risks, and active participation of the independent directors in setting agendas and establishing priorities and procedures for our Board.

Our Board is actively involved in oversight of risks that could affect us. This oversight is conducted primarily through the committees of our Board, as disclosed in the descriptions of each of the committees below and in the charters of each of the committees, but our Board has retained responsibility for general oversight of risks. Our Board satisfies this responsibility through full reports by each committee chair regarding the committee's considerations and actions, as well as through regular reports directly from officers responsible for oversight of particular risks within Atheros.

The Non-Executive Stock Option Committee is a secondary committee responsible for granting and issuing awards of options and restricted stock units under the 2004 Stock Incentive Plan (2004 Plan) to eligible employees, other than to members of our Board, individuals designated by our Board as Section 16 officers or employees who hold the title of Vice President or above. In addition, the Non-Executive Stock Option Committee may not make any awards or grants of stock options to any one employee that total more than 50,000 shares of common stock in any calendar year or grants of restricted stock units that total more than 16,667 shares of common stock in any calendar year.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, requires our executive officers and directors, and persons who own more than 10% of a registered class of our equity securities, to file reports of ownership on Forms 3, 4 and 5 with the Securities and Exchange Commission. Officers, directors and greater than 10% stockholders are required to furnish us with copies of all Forms 3, 4 and 5 they file. Specific due dates for these reports have been established, and we are required to identify in this report those persons who failed to timely file these reports. Based solely on our review of copies of such reports received by us, or written representations from certain reporting persons, all of the filing requirements for such persons were satisfied for 2010, except that the Forms 4 reporting a grant of options to purchase 7,500 shares of common stock in May 2010 to each of our non-employee directors, Dr. John Hennessy (a former director), Drs. Meng and Shih, Messrs. Artusi, Harris, Mohr, and Rappaport, and Ms. King, were inadvertently filed one week late.

Item 11. Executive Compensation

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview of our Executive Compensation Policies and Objectives

We believe that compensation of our executive officers should encourage the creation and enhancement of stockholder value and achievement of strategic corporate objectives, attract qualified, skilled and dedicated executives, retain key leaders, reward past performance and incent future performance. It is our philosophy to align the interests of our stockholders and management by integrating compensation with our annual and long-term corporate and financial objectives. We also consider the appropriate balance between incentives for long-term and short-term performance. In addition, in order to attract and retain the most qualified, skilled and dedicated personnel, we offer a total compensation package competitive with companies in the semiconductor industry, taking into account relative company size, performance and geographic location as well as individual responsibilities and performance.

We believe that compensation of each executive officer should be based on the individual's performance and their ability to enhance long-term stockholder value. Factors we consider in determining executive officer compensation include:

the executive officer's level of responsibilities;

the executive officer's performance compared to the goals and objectives established for that executive officer for the year;

the executive officer's contributions to our financial results; and

the executive officer's effectiveness in leading initiatives to determine and achieve our business goals.

Our Chief Executive Officer reviews the compensation of each of the other executive officers each year, measuring their compensation levels against individual business objectives established for the prior year. These objectives are developed annually by him and the respective executive officers. The conclusions reached and recommendations based on this review, including salary adjustments, bonus amounts and annual equity awards, are presented by our Chief Executive Officer to the Compensation Committee for consideration. The Compensation Committee reviews these materials and recommendations and has full authority to exercise its judgment in determining the final compensation payable to each executive officer.

We also consider market information and executive officer compensation survey data regarding the base salaries, cash bonuses and other incentives paid to executive officers of companies comparable to us in the semiconductor industry. However, we do not restrict our decisions to any particular range or level of total compensation paid to executive officers at these companies.

In making executive officer compensation decisions for 2010, the Compensation Committee retained Frederic W. Cook & Co., Inc. (FWC) as its independent compensation consultant and used a survey prepared by FWC based on the 2009 executive compensation of a peer group of companies (2009 FWC survey). The 2009 FWC survey provided competitive comparisons against a group of 20 publicly-traded U.S.-based semiconductor companies that are competitors with us in the labor and capital markets, have similar revenues and stock market capitalizations, and similar growth and performance potential. The Compensation Committee believes that the survey reflects a reasonable cross-section of our market for executive talent.

The following companies were included in our peer group in the 2009 FWC survey:

Atmel Corporation	Microsemi Corporation
Cree, Inc.	National Semiconductor Corporation
Cypress Semiconductor Corporation	OmniVision Technologies, Inc.
Diodes Incorporated	ON Semiconductor Corporation
Fairchild Semiconductor International, Inc.	PMC-Sierra, Inc.
Integrated Device Technology, Inc.	RF Micro Devices, Inc.
International Rectifier Corporation	Semtech Corporation
Intersil Corporation	Silicon Laboratories Inc.
LSI Corporation	Skyworks Solutions, Inc.
Microchip Technology Inc.	Triquint Semiconductor, Inc.

In making executive officer compensation decisions for 2011, the Compensation Committee also retained FWC its independent compensation consultant, and used a survey prepared by FWC based on the 2010 executive compensation of a peer group of companies (2010 FWC survey). The 2010 FWC survey provided competitive comparisons against the same group of 20 publicly-traded U.S.-based semiconductor companies that were included in the 2009 FWC survey and that are competitors with us in the labor and capital markets, have similar revenues and stock market capitalizations, and similar growth and performance potential. The Compensation Committee believes that the survey reflects a reasonable cross-section of our market for executive talent.

Components of our Executive Compensation

The components of executive officer compensation consist of base salary, bonus, and stock options and restricted stock units grants.

Annual Base Salary

Each year our Chief Executive Officer makes salary recommendations to our Compensation Committee for executive officers other than the Chief Executive Officer, which are designed to compensate each executive officer for services rendered during the year. Our Compensation Committee generally sets base salaries at levels designed to attract and retain qualified executive officers with strong leadership skills, taking into account the individual's level of responsibilities and performance. Our Compensation Committee also considers the executive officer's current salary, prior-year bonus, market information and executive officer compensation survey data regarding the base salaries, as well as other incentives paid to executive officers at our peer companies. Our Compensation Committee may adjust salaries from time to time to recognize promotions and outstanding individual performance, and to maintain competitive compensation.

Based on the 2009 FWC survey, our Chief Executive Officer's base salary for 2010 was substantially below the 25th percentile base salary level for other chief executive officers in the FWC peer group, the base salaries for 2010 for our Senior Vice President and General Manager of Networking and our Chief Financial Officer and Senior Vice President of Corporate Development were between the 25th and 50th percentile base salary levels for the comparable positions in the FWC peer group, and the base salaries for 2010 for our Vice President of Worldwide Sales and our Vice President and General Manager of Consumer Electronics (who at the time that 2010 compensation was determined was our Vice President of Worldwide Sales) were between the 50th and 75th percentile base salary levels for the comparable positions in the FWC peer group. The 2009 FWC survey did not include information with regard to comparable base salary levels for 2010 for our Senior Vice President and General Manager of Asia Pacific. The base salaries for our named executive officers in 2010 are reflected in the Summary Compensation Table below.

In February 2011, our Compensation Committee increased the annual base salary for our Chief Executive Officer by 8.1% from its 2010 level, and the annual base salaries for our other executive officers between 3.6% and 8.9% from their 2010 levels, based on the executive officer's level of responsibility and performance. Based on the 2010 FWC survey, our Chief Executive Officer's base salary for 2011 is substantially below the 25th percentile base salary level for other chief executive officers in the FWC peer group; the base salaries for our Chief Financial Officer and Senior Vice President of Corporate Development and our Vice President of Worldwide Sales for 2011 are between the 25th and 50th percentile base salary levels for the comparable positions in the FWC peer group; and the base salaries for our Senior Vice President and General Manager of Networking, our Senior Vice President and General Manager of Asia Pacific, and our Vice President and General Manager of Consumer Electronics are above the 75th percentile base salary levels for the comparable positions in the FWC peer group.

Cash Bonuses

We believe that a portion of executive officer compensation should be contingent upon our performance and an individual's contribution to our success in meeting corporate and financial objectives. Bonuses paid for 2010 were determined based on the 2010 bonus plan adopted by the Compensation Committee in February 2010.

2010 Bonus Plan

Bonuses earned under our 2010 bonus plan by our Chief Executive Officer and the other executive officers were based 50% on our achievement of certain financial corporate performance objectives and 50% on our achievement of certain individual non-financial performance objectives specific to each executive officer. For all executive officers, the financial corporate performance objectives were specifically tied to our 2010 corporate revenue, operating income, gross margin and earnings per share, as well as days sales outstanding and inventory turns on a quarterly basis. The Compensation Committee did not weight such factors in advance. The non-financial performance objectives include individual objectives related to personal and organizational operational excellence by each executive officer, and customer and market share goals and product delivery milestones. At the time these objectives were set in February 2010, we believed that they were attainable at the established target levels, but substantial uncertainty nevertheless existed as to the actual attainment of the objectives at any of the established levels.

Under our 2010 bonus plan, each executive officer was entitled to receive:

a bonus of up to 100% of base salary actually paid for the Chief Executive Officer, up to 60% of base salary actually paid for the Senior Vice President and General Manager of Networking, the Senior Vice President and General Manager of Asia Pacific, and the Vice President and General Manager of Consumer Electronics, up to 45% of base salary actually paid for the Chief Financial Officer and Senior Vice President of Corporate Development, and up to 17.5% of base salary actually paid for the Vice President of Worldwide Sales, for the achievement of baseline financial corporate performance objectives and non-financial operational and individual performance objectives; and

a bonus of up to an additional 100% of base salary actually paid for the Chief Executive Officer, up to an additional 60% of base salary actually paid for the Senior Vice President and General Manager of Networking, the Senior Vice President and General Manager of Asia Pacific, and the Vice President and General Manager of Consumer Electronics, up to an additional 45% of base salary actually paid for the Chief Financial Officer and Senior Vice President of Corporate Development, and up to an additional 5% of base salary actually paid for the Vice President of Worldwide Sales, for the achievement of higher levels of financial corporate performance objectives and operational and individual performance objectives.

Based on the 2009 FWC survey, the target bonus for 2010 measured as a percentage of salary, excluding the bonus for achieving higher levels of objectives, of our Chief Executive Officer was between the 25th and 50th percentile bonus levels measured as a percentage of salary for the chief executive officers in the FWC peer group; the target bonus for 2010 measured as a percentage of salary, excluding the bonus for achieving higher levels of objectives, of our Chief Financial Officer and Senior Vice President of Corporate Development was below the 25th percentile bonus level measured as a percentage of salary for the comparable positions in the FWC peer group; the target bonus for 2010 measured as a percentage of salary, excluding the bonus for achieving higher levels of objectives, of our Senior Vice President and General Manager of Networking, was between the 25th and 50th percentile bonus levels measured as a percentage of salary for the comparable positions in the FWC peer group; the target bonus for 2010 measured as a percentage of salary, excluding the bonus for achieving higher levels of objectives, of our Vice President and General Manager of Consumer Electronics, who also served as our Vice President of Worldwide Sales until September 2010, was between the 50th and 75th percentile bonus levels measured as a percentage of salary for the comparable positions in the FWC peer group; and the target bonus for 2010 measured as a percentage of salary, excluding the bonus for achieving higher levels of objectives, of our current Vice President of Worldwide Sales, which includes an additional bonus based on corporate revenue objectives described below, was between the 50th and 75th percentile bonus levels measured as a percentage of salary for the comparable positions in the FWC peer group. The 2009 FWC survey did not include information with regard to comparable target bonuses for 2010 for our Senior Vice President and General Manager of Asia Pacific.

The financial corporate performance objectives under our 2010 bonus plan included the following:

	Baseline Objective	Higher Objective	Actual Performance
Annual Revenue	\$ 822.0 million	\$ 904.0 million	\$ 926.8 million
Annual Gross Margin Percentage (non-GAAP)	48.85%	48.72%	49.66%
Annual Operating Income (non-GAAP)	\$ 157.5 million	\$ 178.4 million	\$ 197.2 million
Annual Diluted Earnings Per Share (non-GAAP)	\$ 2.01	\$ 2.24	\$ 2.48
Quarterly Days Sales Outstanding (non-GAAP)	55 days	45 days	29 to 41 days
Quarterly Inventory Turns (non-GAAP)	4.5 to 5.5 turns	5.0 to 6.0 turns	4.8 to 5.5 turns

The non-GAAP measures described above and elsewhere in this report exclude, where applicable, stock-based compensation, acquisition-related charges, other-than-temporary impairments of long-term investments, net of subsequently realized gains, litigation settlement costs, and any tax detriment or benefit between the income tax expense with and without the non-GAAP measures.

In addition to our financial corporate performance objectives, our named executive officers had individual objectives related to personal and organizational operational excellence and customer and market share goals and product delivery milestones under our 2010 bonus plan. These included:

	Specific Goals

As a result, 75% of the target bonus for our Vice President of Worldwide Sales was based on these corporate revenue objectives and 25% of the target bonus was based on the 2010 bonus plan applicable to all executive officers. The baseline corporate revenue objective for 2010 was \$822.0 million on an annualized basis, and the higher corporate revenue objective for 2010 was \$904.0 million on an annualized basis. The bonuses paid to our named executive officers in 2010 are reflected in the Summary Compensation Table below.

2011 Bonus Plan

In January 2011, our Compensation Committee approved the 2011 bonus plan for our Chief Executive Officer and our other executive officers, which will be based 50% on our achievement of certain financial corporate performance objectives and 50% on our achievement of certain individual non-financial performance objectives specific to each executive officer. For all executive officers, the financial corporate performance objectives are specifically tied to our 2011 corporate revenue, operating income, gross margin and earnings per share, as well as days sales outstanding and inventory turns on a quarterly basis. The Compensation Committee did not weight such factors in advance. The non-financial performance objectives include individual objectives related to personal and organizational operational excellence by each executive officer, and customer and market share goals and product delivery milestones. We believe that the objectives are attainable at the established target levels, but substantial uncertainty nevertheless exists as to the actual attainment of the objectives at any of the established levels. If earned, these bonuses are expected to be paid in early 2012.

Under our 2011 bonus plan, each executive officer is entitled to receive:

a bonus of up to 100% of base salary actually paid for the Chief Executive Officer, up to 60% of base salary actually paid for the Senior Vice President and General Manager of Networking, the Senior Vice President and General Manager of Asia Pacific, and the Vice President and General Manager of Consumer Electronics, up to 45% of base salary actually paid for the Chief Financial Officer and Senior Vice President of Corporate Development, and up to 17.5% of base salary actually paid for the Vice President of Worldwide Sales, for the achievement of baseline financial corporate performance objectives and non-financial operational and individual performance objectives; and

a bonus of up to an additional 100% of base salary actually paid for the Chief Executive Officer, up to an additional 60% of base salary actually paid for the Senior Vice President and General Manager of Networking, the Senior Vice President and General Manager of Asia Pacific, and the Vice President and General Manager of Consumer Electronics, up to an additional 45% of base salary actually paid for the Chief Financial Officer and Senior Vice President of Corporate Development, and up to an additional 5% of base salary actually paid for the Vice President of Worldwide Sales, for the achievement of higher levels of financial corporate performance objectives and operational and individual performance objectives.

In addition to the bonus under the 2011 bonus plan described above, our Vice President of Worldwide Sales will also be entitled to receive a bonus of up to 52.5% of his base salary for the achievement of a baseline corporate revenue objective that is calculated on a quarterly basis cumulated over the year, and up to an additional 15% of his base salary for the achievement of a higher corporate revenue objective that is calculated on a quarterly basis cumulated over the year. As a result, 75% of the target bonus for our Vice President of Worldwide Sales will be based on these corporate revenue objectives and 25% of the target bonus will be based on the 2011 bonus plan applicable to all executive officers.

Based on the 2010 FWC survey, the target bonus for 2011 measured as a percentage of salary, excluding the bonus for achieving higher levels of objectives, of our Chief Executive Officer is below the 25th percentile bonus level measured as a percentage of salary for the other chief executive officers in the FWC peer group; the target bonus for 2011 measured as a percentage of salary, excluding the bonus for achieving higher levels of objectives, of our Chief Financial Officer and Senior Vice President of Corporate Development, is below the 25th percentile bonus level measured as a percentage of salary for the comparable position in the FWC peer group; the target bonuses for 2011 measured as a percentage of salary, excluding the bonus for achieving higher levels of objectives, of our Senior Vice President and General Manager of Networking, our Senior Vice President and General Manager of Asia Pacific, our Vice President and General Manager of Consumer Electronics, and our Vice President of Worldwide Sales are between the 50th and 75th percentile bonus levels measured as a percentage of salary for the comparable positions in the FWC peer group.

Equity Awards

Our Compensation Committee administers our 2004 Plan for executive officers, employees, consultants and outside directors, under which it may grant stock options and stock appreciation rights with an exercise price equal to the fair market value of a share of the common stock on the date of grant, restricted stock awards and restricted stock units with time vesting and performance-based vesting.

We believe that equity awards (1) align our executives' interests with our stockholders' interests by creating a direct link between compensation and stockholder return, (2) provide our executives with a significant, long-term interest in our success and (3) help retain key executives in a competitive market for executive talent. Accordingly, when annually reviewing executive officer compensation we also consider equity awards as appropriate. At its discretion, from time to time our Compensation Committee may also grant equity awards based on individual and corporate achievements. Our Compensation Committee determines the number of shares underlying each equity award based upon several factors, including:

the executive officer's and our performance;

the executive officer's role and responsibilities;

the executive officer's base salary; and

a comparison with awards to individuals in similar positions in the industry.

In February 2010, our Compensation Committee granted to our named executive officers who were then employed with us stock options pursuant to our 2004 Plan that vest in 48 equal monthly installments commencing on March 11, 2010. These stock options have an exercise price equal to the fair market value of our common stock on the date of grant and terminate seven years after the date of grant, subject to the executive officer's continued employment with us.

In February 2010, our Compensation Committee also granted to our named executive officers who were then employed with us restricted stock units (RSUs) pursuant to our 2004 Plan that vest based upon the achievement of performance goals (Performance-based RSUs). These Performance-based RSUs provide our executive officers with the opportunity to earn shares of our common stock, subject to the attainment of corporate financial performance goals and the executive officer's continued employment with us. The corporate financial performance goals were based on our non-GAAP diluted earnings per share as reported publicly by us (EPS (non-GAAP)) for fiscal year 2010 as follows:

If EPS (non-GAAP) for 2010 was not greater than \$1.50, the RSUs would terminate.

If EPS (non-GAAP) for 2010 was greater than \$1.50 and less than \$2.10, the RSUs would vest over four (4) years, with the first 1/4 of the RSUs vesting on February 8, 2011 and the remaining RSUs vesting in equal quarterly installments over the following three (3) years.

Edgar Filing: ATHEROS COMMUNICATIONS INC - Form 10-K/A

If EPS (non-GAAP) for 2010 was greater than or equal to \$2.10, the RSUs would vest over three (3) years, with the first 1/3 of the RSUs vesting on February 8, 2011 and the remaining RSUs vesting in equal quarterly installments over the following two (2) years, provided the target has been met.

Edgar Filing: ATHEROS COMMUNICATIONS INC - Form 10-K/A

In January 2011, the Compensation Committee determined that our EPS (non-GAAP) for 2010 was \$2.48 per diluted share, and the Performance-based RSUs therefore would vest over three years, with the first one-third of the Performance-based RSUs vesting on February 8, 2011 and the remaining Performance-based RSUs vesting in equal quarterly installments over the following two years.

Our named executive officers were granted the following stock options and performance-based RSUs in February 2010:

	Stock Options	Performance-based RSUs
Chief Executive Officer	143,000 shares	44,000 shares
Chief Financial Officer and Senior Vice President of Corporate Development	50,000 shares	15,000 shares
Senior Vice President and General Manager of Networking	N/A	N/A
Senior Vice President and General Manager of Asia Pacific	50,000 shares	15,000 shares
Vice President of Worldwide Sales	N/A	N/A
Vice President and General Manager of Consumer Electronics	50,000 shares	15,000 shares

In March 2010, in connection with Gary L. Szilagyi's promotion as a General Manager, our Compensation Committee granted to Mr. Szilagyi an option to purchase 30,000 shares of Atheros common stock, vesting monthly over 48 months commencing on April 10, 2010. The options have a per share exercise price equal to 100% of the fair market value of the underlying shares on the date of grant and will terminate seven years after the date of grant, subject to his continued employment with us.

Effective in May 2010, our Compensation Committee granted to Daniel A. Rabinovitsj, our Senior Vice President and General Manager of Networking, pursuant to his employment offer letter with us (1) an option to purchase 50,000 shares of Atheros common stock, with the first 25% of the options vesting after one year of employment and the remaining options vesting monthly over the following 36 months, and (2) restricted stock units for 40,000 shares of Atheros common stock, with the first 25% of the restricted stock units vesting after approximately one year of employment and the remaining restricted stock units vesting quarterly over the following 12 quarters. The options have a per share exercise price equal to 100% of the fair market value of the underlying shares on the date of grant and will terminate ten years after the date of grant, subject to his continued employment with us.

Effective in August 2010, our Compensation Committee granted to Richard E. Hegberg, our Vice President of Worldwide Sales, pursuant to his employment offer letter with us (1) an option to purchase 65,000 shares of Atheros common stock, with the first 25% of the options vesting after one year of employment and the remaining options vesting monthly over the following 36 months, and (2) restricted stock units for 40,000 shares of Atheros common stock, with the first 25% of the restricted stock units vesting after approximately one year of employment and the remaining restricted stock units vesting quarterly over the following 12 quarters. The options have a per share exercise price equal to 100% of the fair market value of the underlying shares on the date of grant and will terminate ten years after the date of grant, subject to his continued employment with us.

Based on the 2009 FWC survey, the estimated grant date value of the equity awards granted to our Chief Executive Officer was between the 50th and 75th percentile estimated equity award value level for the chief executive officers in the FWC peer group, and the estimated grant date value of the equity awards granted to our other executive officers in 2010 was above the 75th percentile estimated equity award value levels for the comparable positions in the FWC peer group. The 2009 FWC survey did not include information with regard to comparable grant date value of equity awards granted for 2010 for our Senior Vice President and General Manager of Asia Pacific. The grant date value of the equity awards granted to our named executive officers in 2010 is reflected in the Summary Compensation Table below.

In addition, our employees generally are able to participate in our 2004 Employee Stock Purchase Plan (2004 ESPP). Under our 2004 ESPP, each executive officer may purchase up to 1,875 shares of our common stock in a six-month period at a discount to the market price. The number of shares that may be purchased by each participant is limited by applicable tax laws.

Tax Deductibility Considerations

Section 162(m) of the Internal Revenue Code (the Code) disallows a tax deduction for compensation in excess of \$1 million paid to our Chief Executive Officer or any of our other executive officers whose total compensation is required to be reported in this report on Form 10-K/A by reason of being one of the three most highly compensated officers (other than our Chief Executive Officer and Chief Financial Officer). Our Compensation Committee may elect to provide our executive officers with compensation that is not fully deductible under Section 162(m) if it determines that such awards are consistent with our philosophy and in the best interests of our stockholders.

Section 409A of the Code provides that amounts deferred under nonqualified deferred compensation plans are included in an employee's income when they vest unless specified requirements are met. If these requirements are not met, employees are also subject to an additional income tax and interest penalties. None of our named executive officers participates in or has account balances in non-qualified defined contribution plans or other deferred compensation plans maintained by us.

Employment Agreements

All of our executive officers serve on an at will employment basis and not for a fixed term.

We have an offer letter with Craig H. Barratt, our President and Chief Executive Officer, entered into on April 9, 2003, under which Dr. Barratt was originally entitled to an annual base salary of \$258,000, and is eligible for an annual bonus pursuant to our bonus program as determined by our Board. Pursuant to this letter, Dr. Barratt was granted in 2003 an option to purchase 1,274,999 shares of Atheros common stock vesting over four years from the date of grant. The options terminate ten years after the date of grant.

We have an offer letter with Jack R. Lazar, our Chief Financial Officer and Senior Vice President of Corporate Development, entered into on September 22, 2003, under which Mr. Lazar was originally entitled to an annual base salary of \$250,000 and is eligible for an annual bonus pursuant to our bonus program as determined by our Board with an original target annual bonus set at 25% of his base salary. Pursuant to this offer letter, Mr. Lazar was granted an option in 2003 to purchase 412,499 shares of Atheros common stock, with the first 25% of the options vesting after one year of employment and the remaining options vesting monthly over the following 36 months. The options terminate ten years after the date of grant.

We have an offer letter with Daniel A. - (3) Represents the aggregate value of the accelerated vesting of the executive officer's unvested stock options and restricted stock units. This value was calculated for the options by multiplying (i) the difference between the fair market value of our common stock on December 31, 2010 (\$35.92) and the applicable exercise price, by (ii) the assumed number of option shares vesting on an accelerated basis on December 31, 2010. This value was calculated for the restricted stock units by multiplying the fair market value of our common stock on December 31, 2010 (\$35.92) by the assumed number of restricted stock shares vesting on an accelerated basis on December 31, 2010.
- (4) Dr. Barratt will have until the earlier of two years following his termination date or the expiration date of the options in which to exercise these stock options. The other executive officers will have until the earlier of one year following their termination date or the expiration date of the options in which to exercise these stock options.

See Note 10 of the Notes to Consolidated Financial Statements in Item 8 in our Annual Report on Form 10-K for the year ended December 31, 2010, filed on February 11, 2011, for the assumptions made in determining ASC 718 values. - (4) John Hennessy retired from the Board in September 2010.
- (5) Includes the following payments made to Mr. Harris in 2010 pursuant to his employment agreement with us: (1) \$15,000 in salary, (2) \$114,702 pursuant to the Intellon Corporation annual cash incentive plan for performance in the second half of 2009, (3) \$579,278 in severance payments to which Mr. Harris would otherwise have been entitled from Intellon Corporation, (4) \$29,118 in vacation benefits payments to which Mr. Harris would otherwise have been entitled from Intellon Corporation and (5) \$15,395 in medical benefits payments. A description of the terms of Mr. Harris employment agreement with us are set forth below under Narrative of Director Compensation .

Narrative of Director Compensation

Under our cash compensation plan for our independent directors, we pay each independent director an annual retainer of \$25,000. In addition, each committee member receives an annual retainer of \$2,500, except that members of the Audit Committee receive an annual retainer of \$5,000. We also pay each committee chair an additional annual retainer of \$2,500, except that we pay our Audit Committee Chair an additional annual retainer of \$5,000. These annual retainers are payable on a pro rata basis for the portion of the year on which a director serves on our Board or a committee. We also reimburse all of our directors for reasonable expenses in connection with attendance at board and committee meetings. In 2010, our independent directors received these annual retainers as applicable to each such independent director.

Our independent directors also receive nondiscretionary, automatic grants of nonstatutory stock options under our 2004 Plan. Under our 2004 Plan, an independent director will be automatically granted an initial option to purchase 37,500 shares upon first becoming a member of our Board. The initial option vests and becomes exercisable over four years, with the first 25% of the shares subject to the initial option vesting on the first anniversary of the date of grant and the remainder vesting ratably over the following 36 months. In addition, immediately after each of our regularly scheduled annual meetings of stockholders, each independent director is automatically granted a nonstatutory option to purchase 7,500 shares of our common stock, provided the director has served on our Board for at least six months. Each annual option granted to independent directors who are first elected to our Board on or after November 1, 2003 vests and becomes exercisable ratably over 48 months and to the other outside directors vests and becomes exercisable ratably over 12 months. The options granted to independent directors have a per share exercise price equal to 100% of the fair market value of the underlying shares on the date of grant, and will become fully vested if we are subject to a change of control. Pursuant to these automatic grant provisions, in 2010, we granted to each of Dr. Hennessy, who retired from the Board in September 2010, Mr. Artusi, Ms. King, Dr. Meng, Mr. Mohr, Mr. Rappaport, and Dr. Shih an annual option to purchase 7,500 shares.

In April 2010, our Board approved the payment of \$25,000 per year to Mr. Harris for his services as a member of our Board, commencing on April 22, 2010. This annual payment is in lieu of receiving the annual retainers paid to independent directors and is payable at the same time and in the same manner as the fees paid to the independent directors. In addition, effective in May 2010, our Board granted to Mr. Harris an option to purchase 7,500 shares of our common stock, for his services as a director, in lieu of the automatic option grant under our 2004 Plan. This option vests ratably over 48 months and has a per share exercise price equal to 100% of the fair market value of the underlying shares on the date of grant. Mr. Harris is not eligible to receive the cash compensation for independent directors or the automatic option grants under the 2004 Plan, which are described above.

Directors also are eligible to receive and have received discretionary grants of nonstatutory stock options under our 2004 Plan. The exercise price of stock options granted to directors is equal to 100% of the fair market value of the underlying shares, as determined pursuant to the 2004 Plan on the date of grant.

With respect to Mr. Harris, who joined our Board in January 2010, we entered into an employment agreement with Mr. Harris, who is the former Chairman of the Board and Chief Executive Officer of Intellon Corporation, on December 14, 2009 in connection with our acquisition of Intellon on December 15, 2009. This employment agreement amended Mr. Harris' former employment agreement with Intellon to reflect the terms of Mr. Harris' engagement with us following the consummation of the acquisition. Pursuant to this employment agreement, Mr. Harris agreed to provide thirty hours per month of transition assistance services to us on an as-needed basis, for a period of up to four months following the consummation of the acquisition. During the term of his services under this employment agreement, Mr. Harris received \$5,000 per month and the use of appropriate office space and support services. We also reimbursed him for all proper expenses incurred in the performance of such services.

Under this employment agreement, effective immediately upon the consummation of the acquisition, Mr. Harris became entitled to receive the same severance benefits he would have otherwise received under his former employment agreement with Intellon upon a change in control and subsequent termination of employment without cause. These severance benefits are as follows: (1) a cash payment equal to 150% of the aggregate of his base salary for the year of termination plus 150% of his annual incentive bonus for the year prior to the year of termination, payable over an 18-month period; (2) continued company-paid medical benefits for 18 months; and (3) full vesting of Mr. Harris' outstanding equity awards.

In accordance with these provisions, immediately upon the consummation of the acquisition, all of Mr. Harris' outstanding Intellon equity awards vested in full on December 15, 2009. Pursuant to the terms of the merger agreement with Intellon, we assumed Mr. Harris' outstanding Intellon restricted stock units and options, and Mr. Harris received on December 15, 2009, (1) restricted stock units for 27,539 shares of our common stock, (2) options to purchase 20,563 shares of our common stock at an exercise price of \$38.30, and (3) options to purchase 31,225 shares of our common stock at an exercise price of \$8.41 per share, all of which were fully vested on the date the equity awards were assumed. As Mr. Harris was deemed terminated in connection with the acquisition for purposes of receiving severance payments, and based on his annual base salary at Intellon of \$360,500 and incentive bonus of \$218,770, Mr. Harris became entitled to a cash payment of \$868,905 from us, payable in equal installments twice per month over 18 months from December 15, 2009, and we will continue Mr. Harris' company-paid medical benefits for 18 months after December 15, 2009. In addition, under the terms of Mr. Harris' employment agreement with Intellon and pursuant to the merger agreement with Intellon, Mr. Harris received a payment in 2010 of \$114,702, in accordance with Intellon's annual cash incentive plan for performance in the second half of 2009.

We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person.
