PART I FINANCIAL INFORMATION

**Item 1. *Financial Statements*
Introductory Comments**

The unaudited Consolidated Financial Statements included herein have been prepared by Kansas City Southern, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). As used herein, KCS or the Company may refer to Kansas City Southern or, as the context requires, to one or more subsidiaries of Kansas City Southern. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) have been condensed or omitted, pursuant to such rules and regulations. The Company believes that the disclosures are adequate to enable a reasonable understanding of the information presented. The Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations included in this Form 10-Q should be read in conjunction with the consolidated financial statements and the related notes, as well as Management's Discussion and Analysis of Financial Condition and Results of Operations, included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010. Results for the three and six months ended June 30, 2011 are not necessarily indicative of the results expected for the full year ending December 31, 2011.

See accompanying notes to consolidated financial statements.

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements****1. Accounting Policies, Interim Financial Statements and Basis of Presentation**

In the opinion of the management of KCS, the accompanying unaudited consolidated financial statements contain all adjustments necessary for a fair presentation of the results for interim periods. All adjustments made were of a normal and recurring nature. Certain information and footnote disclosure normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. These consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010. The results of operations for the three and six months ended June 30, 2011 are not necessarily indicative of the results to be expected for the full year ending December 31, 2011. Certain prior year amounts have been reclassified to conform to the current year presentation.

2. Recent Accounting Pronouncements

In June 2011, the Financial Accounting Standards Board (the "FASB") issued new guidance on the presentation of comprehensive income, which eliminates the option for entities to present components of other comprehensive income ("OCI") as a part of the statement of changes in stockholders' equity and requires that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. While the new guidance changes the presentation of comprehensive income, there are no changes to the components that are recognized in net income or other comprehensive income under current accounting guidance. Additionally, the standard does not affect the calculation or reporting of earnings per share. This standard is effective for the Company beginning the first quarter of 2012.

3. Earnings Per Share Data

Basic earnings per common share is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding for the period. Nonvested stock awards granted to employees and officers are included in weighted average shares as they are earned for purposes of computing basic earnings per common share. Diluted earnings per share adjusts basic earnings per common share for the effects of potentially dilutive common shares, if the effect is not anti-dilutive. Potentially dilutive common shares include the dilutive effects of shares issuable upon the conversion of preferred stock to common stock and shares issuable under the Stock Option and Performance Award Plan. During the first quarter of 2011, the Company converted all of the remaining outstanding Cumulative Convertible Perpetual Preferred Stock, Series D, into 6,999,887 shares of common stock.

The following table reconciles the basic earnings per share computation to the diluted earnings per share computation (*in millions, except share and per share amounts*):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2011	2010	2011	2010
Net income available to common stockholders for purposes of computing basic earnings per share	\$ 70.7	\$ 34.6	\$ 133.3	\$ 67.2
Effect of dividends on conversion of convertible preferred stock			1.4	
Net income available to common stockholders for purposes of computing diluted earnings per share	\$ 70.7	\$ 34.6	\$ 134.7	\$ 67.2
Weighted-average number of shares outstanding (in thousands):				
Basic shares	109,428	99,907	106,858	97,946
Effect of dilution	382	459	2,918	514
Diluted shares	109,810	100,366	109,776	98,460

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

Basic earnings per share	\$ 0.65	\$ 0.35	\$ 1.25	\$ 0.69
Diluted earnings per share	\$ 0.64	\$ 0.34	\$ 1.23	\$ 0.68

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements (Continued)**

Potentially dilutive shares excluded from the calculation (*in thousands*):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Stock options which effect on diluted earnings per share is anti-dilutive	97	205	101	205
Convertible preferred stock which is anti-dilutive		7,000		7,000

4. Hurricane Alex

Hurricane Alex made landfall on June 30, 2010, causing widespread damage and flooding in central and northeastern Mexico. The hurricane resulted in extensive damage to Kansas City Southern de México, S.A. de C.V.'s track and bridge infrastructures, and also caused multiple track-related incidents and significantly disrupted the Company's rail service.

The Company maintains a comprehensive insurance program intended to cover such events. The property and casualty insurance program covers loss or damage to Company property and third party property over which the Company has custody and control and covers losses associated with business interruption. This program has combined coverage for both property damage and business interruption and has a self-insured retention amount of \$10.0 million for flood related losses. In addition, the Company also maintains a general liability insurance program. This program had a self-insured retention of \$1.0 million in Mexico at the time of Hurricane Alex. The Company's policy limits are in excess of the hurricane losses incurred.

Hurricane Alex affected revenues as customers were required to use alternate carriers or modes of transportation until rail service was restored. The Company estimated that resulting lost revenues in the third quarter of 2010 were approximately \$40.0 million before related avoided costs. In addition, the Company incurred losses related to property damage and incremental expenses of \$36.2 million. The \$36.2 million of incurred losses related to property damage and incremental expense was offset by a receivable for probable insurance recoveries. Effective July 7, 2011, the Company settled the portion of the insurance claim related to the property and casualty program, including business interruption for \$66.0 million before the related self-insured retention of \$10.0 million. Through June 30, 2011, the Company has received \$40.0 million of insurance proceeds related to the property and casualty claim (see table below) and expects to receive final settlement proceeds of \$16.0 million in the third quarter of 2011. The \$19.8 million of proceeds in excess of the receivable will be recognized as a gain on insurance recovery within operating expenses in the third quarter of 2011.

As of June 30, 2011, \$40.0 million of insurance proceeds were collected in the following periods (*in millions*):

Period Received	Amount Collected
Fourth quarter 2010	\$ 10.0
First quarter 2011	15.0
Second quarter 2011	15.0
Total proceeds collected	\$ 40.0

On July 5, 2011, the Company received \$3.0 million of insurance proceeds for the portion of the insurance claim related to general liability. The Company expects to settle the general liability insurance claim during the third quarter of 2011, and related proceeds will be recognized as a gain on insurance recovery within operating expenses when all contingencies have been resolved, which generally occurs at the time of final settlement.

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements (Continued)****5. Property and Equipment (including Concession Assets)**

Property and equipment, including concession assets, and related accumulated depreciation and amortization are summarized below (*in millions*):

	December 31, June 30, 2011	December 31, December 31, 2010
Land	\$ 176.8	\$ 177.0
Concession land rights	141.2	141.2
Road property	5,100.7	4,939.1
Equipment	679.3	678.1
Technology and other	126.1	121.9
Construction in progress	150.8	143.5
Total property	6,374.9	6,200.8
Accumulated depreciation and amortization	1,380.8	1,298.4
Property and equipment (including concession assets), net	\$ 4,994.1	\$ 4,902.4

Concession assets, net of accumulated amortization of \$323.2 million and \$305.3 million, totaled \$1,826.5 million and \$1,800.1 million at June 30, 2011 and December 31, 2010, respectively.

6. Fair Value Measurements

The Company's short-term financial instruments include cash and cash equivalents, accounts receivable, and accounts payable. The carrying value of the short-term financial instruments approximates their fair value.

The fair value of the Company's debt is estimated using quoted market prices when available. When quoted market prices are not available, fair value is estimated based on current market interest rates for debt with similar maturities and credit quality. The fair value of the Company's debt was \$1,721.9 million and \$1,739.8 million at June 30, 2011 and December 31, 2010, respectively. The carrying value was \$1,632.8 million and \$1,639.7 million at June 30, 2011 and December 31, 2010, respectively.

7. Long-Term Debt

On May 6, 2011, pursuant to an offer to purchase, Kansas City Southern de México, S.A. de C.V. (KCSM), a wholly-owned subsidiary of KCS, commenced a cash tender offer for all of its 7⁵/₈% Senior Notes due December 1, 2013 (the 7⁵/₈% Senior Notes) and, pursuant to a separate offer to purchase, KCSM commenced a cash tender offer for all of its 7³/₈% Senior Notes due June 1, 2014 (the 7³/₈% Senior Notes). Through June 7, 2011, KCSM purchased and redeemed the remaining \$32.4 million of the 7⁵/₈% Senior Notes and all of the outstanding \$165.0 million of the 7³/₈% Senior Notes using the proceeds received from the issuance of \$200.0 million principal amount of 6¹/₈% senior unsecured notes due June 15, 2021 (the 6¹/₈% Senior Notes) and cash on hand. The Company recorded debt retirement costs of \$10.3 million in the second quarter of 2011.

On May 20, 2011, KCSM issued \$200.0 million principal amount of 6¹/₈% Senior Notes, at par, bearing interest semiannually at a fixed annual rate of 6¹/₈%. KCSM used proceeds from the issuance of the 6¹/₈% Senior Notes and cash on hand to purchase and redeem the 7⁵/₈% Senior Notes and 7³/₈% Senior Notes as discussed above, and pay all fees and expenses incurred in connection with the 6¹/₈% Senior Notes offering and the tender offers. The 6¹/₈% Senior Notes are redeemable at KCSM's option, in whole or in part, on and after June 15, 2016, at the following

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

redemption prices (expressed as percentages of principal amount) if redeemed during the 12-month period commencing on June 15 of the following years, plus any accrued and unpaid interest to the date of redemption: 2016 103.063%, 2017 102.042%, 2018 101.021% and 2019 100.000%. In addition, KCSM may redeem up to 35% of the 6¹/₈% Senior Notes at a redemption price equal to 106.125% any time prior to June 15, 2014 from the proceeds of the sale of KCSM's capital stock or the capital stock of KCS and the notes are redeemable, in whole but not in part, at KCSM's option at their principal amount, plus any accrued unpaid interest in the event of certain changes in the Mexican withholding tax rate.

The 6¹/₈% Senior Notes are denominated in dollars and are unsecured, unsubordinated obligations, rank *pari passu* in right of payment with KCSM's existing and future unsecured, unsubordinated obligations, and are senior in right of payment to KCSM's

Table of Contents

Kansas City Southern

Notes to Consolidated Financial Statements (Continued)

future subordinated indebtedness. In addition, the 6¹/₈% Senior Notes include certain covenants which are customary for these types of debt instruments and borrowers with similar credit ratings. The 6¹/₈% Senior Notes contain certain covenants that, among other things, prohibit or restrict KCSM from taking certain actions, including KCSM's ability to incur debt, pay dividends or make other distributions in respect of its stock, issue guarantees, enter into certain transactions with affiliates, make restricted payments, sell certain assets, create liens, engage in sale-leaseback transactions and engage in mergers, divestitures and consolidations. However, these limitations are subject to a number of important qualifications and exceptions.

8. Conversion of Cumulative Convertible Perpetual Preferred Stock, Series D

During the first quarter of 2011, the Company converted all of the remaining outstanding 209,995 shares of the 5.125% Cumulative Convertible Perpetual Preferred Stock, Series D, into 6,999,887 shares of KCS common stock.

On May 5, 2011, the Company's Restated Certificate of Incorporation was amended to eliminate the Series D Preferred Stock and change the status to undesignated preferred stock of the Company.

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements (Continued)****10. Commitments and Contingencies**

Concession Duty. Under KCSM's 50-year railroad concession from the Mexican government (the "Concession"), the Mexican government has the right to receive a payment from KCSM equivalent to 0.5% of KCSM's gross revenue during the first 15 years of the Concession period and, beginning on June 24, 2012, 1.25% of KCSM's gross revenue for the remaining years of the Concession period. For the three and six months ended June 30, 2011, the concession duty expense, which is recorded within operating expenses, was \$1.3 million and \$2.4 million, respectively, compared to \$1.1 million and \$2.1 million for the same periods in 2010.

Litigation. The Company is a party to various legal proceedings and administrative actions, all of which, except as set forth below, are of an ordinary, routine nature and incidental to its operations. Included in these proceedings are various tort claims brought by current and former employees for job-related injuries and by third parties for injuries related to railroad operations. KCS aggressively defends these matters and has established liability provisions, which management believes are adequate to cover expected costs. Although it is not possible to predict the outcome of any legal proceeding, in the opinion of management, other than those proceedings described in detail below, such proceedings and actions should not, individually, or in the aggregate, have a material adverse effect on the Company's financial condition and liquidity. However, a material adverse outcome in one or more of these proceedings could have a material adverse impact on the results of operations in a particular quarter or fiscal year.

Environmental Liabilities. The Company's U.S. operations are subject to extensive federal, state and local environmental laws and regulations. The major U.S. environmental laws to which the Company is subject include, among others, the Federal Comprehensive Environmental Response, Compensation and Liability Act (CERCLA, also known as the Superfund law), the Toxic Substances Control Act, the Federal Water Pollution Control Act, and the Hazardous Materials Transportation Act. CERCLA can impose joint and several liabilities for cleanup and investigation costs, without regard to fault or legality of the original conduct, on current and predecessor owners and operators of a site, as well as those who generate, or arrange for the disposal of, hazardous substances. The Company does not believe that compliance with the requirements imposed by the environmental legislation will impair its competitive capability or result in any material additional capital expenditures, operating or maintenance costs. The Company is, however, subject to environmental remediation costs as described below.

The Company's Mexico operations are subject to Mexican federal and state laws and regulations relating to the protection of the environment through the establishment of standards for water discharge, water supply, emissions, noise pollution, hazardous substances and transportation and handling of hazardous and solid waste. The Mexican government may bring administrative and criminal proceedings and impose economic sanctions against companies that violate environmental laws, and temporarily or even permanently close non-complying facilities.

The risk of incurring environmental liability is inherent in the railroad industry. As part of serving the petroleum and chemicals industry, the Company transports hazardous materials and has a professional team available to respond to and handle environmental issues that might occur in the transport of such materials. Additionally, the Company is a partner in the Responsible Care® program and, as a result, has initiated additional environmental, health and safety management system programs and has been certified by an outside professional auditing company in the American Chemistry Council's Responsible Care Management System®. The Company performs ongoing reviews and evaluations of the various environmental programs and issues within the Company's operations, and, as necessary, takes actions intended to limit the Company's exposure to potential liability. Although these costs cannot be predicted with certainty, management believes that the ultimate outcome of identified matters will not have a material adverse effect on the Company's consolidated financial position or cash flows.

Personal Injury. The Company's personal injury liability is based on semi-annual actuarial studies performed on an undiscounted basis by an independent third party actuarial firm and reviewed by management. This liability is based on personal injury claims filed and an estimate of claims incurred but not yet reported. Actual results may vary from estimates due to the number, type and severity of the injury, costs of medical treatments and uncertainties in litigation. Adjustments to the liability are reflected within operating expenses in the period in which changes to estimates are known. Personal injury claims in excess of self-insurance levels are insured up to certain coverage amounts, depending on the type of claim and year of occurrence. The personal injury liability as of June 30, 2011 is based on an updated actuarial study of personal injury claims through May 31, 2011 and review of the last month's experience. For the six months ended June 30, 2011 and 2010, the Company recorded a \$9.2 million and a \$12.4 million reduction in personal injury liability due to changes in estimates as a result of the Company's continuing favorable claims development and settlement experience.

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements (Continued)**

The personal injury liability activity was as follows (*in millions*):

	2011 Six Months Ended 2011	2011 Six Months Ended 2010
Balance at beginning of year	\$ 62.2	\$ 86.9
Accruals	5.4	9.9
Change in estimate	(9.2)	(12.4)
Payments	(9.7)	(8.8)
Balance at end of period	\$ 48.7	\$ 75.6

Settlement Agreement. On February 9, 2010, (i) KCSM and (ii) *Ferrocarril Mexicano, S.A. de C.V.* (*Ferromex*), *Ferrosur, S.A. de C.V.* (*Ferrosur*), *Minera México, S.A. de C.V.*, *Infraestructura y Transportes Ferroviarios, S.A. de C.V.*, *Infraestructura y Transportes México, S.A. de C.V.*, *Líneas Ferroviarias de México, S.A. de C.V.*, *Grupo Ferroviario Mexicano, S.A. de C.V.*, and *Grupo México, S.A.B. de C.V.* (jointly, the *Ferromex Parties*) entered into a Settlement Agreement (the *Settlement Agreement*).

Pursuant to the Settlement Agreement, the parties agreed to completely, definitively and irrevocably terminate (i) certain disputes, procedures and controversies among KCSM and the Ferromex Parties, in connection with the merger between Ferromex and Ferrosur, including KCSM's involvement in such procedures as an interested party; and (ii) the lawsuit filed against KCSM and the Mexican Government in connection with several disputes, procedures and controversies before judicial authorities with respect to the acquisition of the shares of *Ferrocarril del Noreste, S.A. de C.V.* (now KCSM) by *Grupo Transportación Ferroviaria Mexicana, S.A. de C.V.*, in 1997 (the *Settlement Procedures*). The parties waived their rights to any future actions derived from or related to the Settlement Procedures. Further, the parties did not settle or agree to settle any disputes, controversies or procedures other than the Settlement Procedures.

Under the Settlement Agreement, Ferrosur agreed to grant KCSM certain trackage and switching rights within Veracruz, México, and switching rights in the Puebla-Tlaxcala zone. In a related agreement, the parties further agreed to amend the *Ferrocarril y Terminal del Valle de México, S.A. de C.V.* (*FTVM*) by-laws to, among other changes, grant certain veto and voting rights to KCSM at the shareholders' and the board of directors' levels.

In November 2005, Ferromex acquired control of and merged with Ferrosur creating Mexico's largest railway, though such merger had been previously rejected by the *Comisión Federal de Competencia* (Mexican Antitrust Commission or *COFECO*). The Settlement Agreement provides that if *COFECO* does not authorize the merger of Ferromex and Ferrosur, the Settlement Agreement shall be terminated twelve months after the relevant resolution of the Governmental Authority is issued or when the unwinding is effective, whichever is later. On May 12, 2010, the Administrative and Fiscal Federal Court annulled the decision of *COFECO* and approved the merger between Ferromex and Ferrosur. On October 21, 2010, *COFECO* filed an appeal with the Collegiate Circuit Federal Court and on March 25, 2011, the Collegiate Circuit Federal Court dismissed the appeal and the merger between Ferromex and Ferrosur is considered final.

Certain Disputes with Ferromex. KCSM and Ferromex use certain trackage rights, haulage rights, and interline services (the *Services*) provided by each other. The rates to be charged after January 1, 2009, were agreed to pursuant to the Trackage Rights Agreement, dated February 9, 2010 (the *Trackage Rights Agreement*), between KCSM and Ferromex. The rates payable for these Services for the period beginning in 1998 through December 31, 2008 are still not resolved. If KCSM cannot reach an agreement with Ferromex for rates applicable for Services prior to January 1, 2009 which are not subject to the Trackage Rights Agreement, the Mexican *Secretaría de Comunicaciones y Transportes* (*Secretary of Communications and Transportation* or *SCT*) is entitled to set the rates in accordance with Mexican law and regulations. KCSM and Ferromex both initiated administrative proceedings seeking a determination by the *SCT* of the rates that KCSM and Ferromex should pay each other in connection with the Services. The *SCT* issued rulings in 2002 and 2008 setting the rates for the Services and both KCSM and Ferromex challenged these rulings.

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

In addition, KCSM is currently involved in judicial, civil and administrative proceedings and negotiations with Ferromex regarding the rates payable to each other for the Services for the periods prior to January 1, 2009. Although KCSM and Ferromex have challenged these matters based on different grounds and these cases continue to evolve, management believes the amounts recorded related to these matters are adequate.

Table of Contents

Kansas City Southern

Notes to Consolidated Financial Statements (Continued)

While the outcome of these matters cannot be predicted with certainty, the Company does not believe, when finally resolved, that these disputes will have a material effect on its results of operations or financial condition. However, an unexpected adverse resolution could have a material effect on the results of operations in a particular quarter or fiscal year.

SCT Sanction Proceedings. In April 2006, the SCT initiated proceedings against KCSM, claiming that KCSM had failed to make certain minimum capital investments projected for 2004 and 2005 under its five-year business plan filed with the SCT prior to its April 2005 acquisition by KCS (collectively, the Capital Investment Proceedings). KCSM responded to the SCT by providing evidence in support of its investments and explaining why it believes sanctions were not appropriate. On March 24, 2011, the Company received a favorable resolution from the Tax and Administration Court and the Company considers this matter resolved.

On July 23, 2008, the SCT delivered notice to KCSM of proceedings against KCSM, claiming, among other things, that KCSM refused to grant Ferromex access to certain trackage over which Ferromex alleges it has trackage rights on six different occasions and thus denied Ferromex the ability to provide service to a Mexican subsidiary of a large U.S. Auto Manufacturer at this location. On August 13, 2008, KCSM filed a response to the SCT. On July 15, 2010, the SCT resolved to consolidate these six sanction proceedings into a single proceeding, determining that the actions that motivated the underlying claims constitute a single occasion. On August 19, 2010, Ferromex filed an appeal which KCSM considers to be without merit. Management believes that even if KCSM were to be found liable, a single sanction would be imposed and could be challenged in the Administrative and Fiscal Federal Court. A single sanction makes it more likely that any unfavorable resolution will not have a material impact on KCSM's results of operations. However, if KCSM is ultimately sanctioned by the SCT for generic sanctions on five occasions over the term of the Concession, KCSM could be subject to possible future SCT action seeking revocation of the Concession.

Contractual Agreements. In the normal course of business, the Company enters into various contractual agreements related to commercial arrangements and the use of other railroads or governmental entities infrastructure needed for the operations of the business. The Company is involved or may become involved in certain disputes involving transportation rates, product loss or damage, charges, and interpretations related to these agreements. While the outcome of these matters cannot be predicted with certainty, the Company does not believe, when finally resolved, that these disputes will have a material effect on its results of operations or financial condition. However, an unexpected adverse resolution could have a material effect on the results of operations in a particular quarter or fiscal year.

Credit Risk. The Company continually monitors risks related to the economic changes and certain customer receivables concentrations. Significant changes in customer concentration or payment terms, deterioration of customer credit-worthiness or further weakening in economic trends could have a significant impact on the collectability of the Company's receivables and operating results. If the financial condition of the Company's customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. The Company has recorded provisions for uncollectability based on its best estimate at June 30, 2011.

Income Tax. Tax returns filed in the U.S. from 2007 through the current year and in Mexico from 2004 through the current year remain open to examination by the taxing authorities. The 2004 and 2005 Mexico tax returns are currently under examination. The Company believes that an adequate provision has been made for any adjustment (tax and interest) that will be due for all open years. However, an unexpected adverse resolution could have a material effect on the results of operations in a particular quarter or fiscal year.

Panama Canal Railway Company (PCRC) Guarantees and Indemnities. The Company has issued four irrevocable standby letters of credit totaling approximately \$1.5 million to fulfill the Company's fifty percent guarantee of additional equipment loans. The Company agreed to fund fifty percent of any debt service reserve or liquidity reserve required from PCRC, reserves which were established by PCRC in connection with the issuance of the 7.0% Senior Secured Notes due November 1, 2026 (the Notes). At June 30, 2011, the Company has issued a related standby letter of credit in the amount of \$3.9 million. Additionally, KCS has pledged its shares of PCRC as security for the Notes.

11. Geographic Information

The Company strategically manages its rail operations as one reportable business segment over a single coordinated rail network that extends from the midwest and southeast portions of the United States south into Mexico and connects with other Class I railroads. Financial information reported at this level, such as revenues, operating income and cash flows from operations, is used by corporate management, including the Company's chief operating decision-maker, in evaluating overall financial and operational performance, market strategies, as well as the

decisions to allocate capital resources.

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements (Continued)**

The Company's strategic initiatives, which drive its operational direction, are developed and managed at the Company's headquarters and targets are communicated to its various activity centers. Corporate management is responsible for, among others, KCS's marketing strategy, the oversight of large cross-border customer accounts, overall planning and control of infrastructure and rolling stock, the allocation of capital resources based upon growth and capacity constraints over the coordinated network, and other functions such as financial planning, accounting, and treasury.

The role of each region is to manage the operational activities and monitor and control costs over the coordinated rail network. Such cost control is required to ensure that pre-established efficiency standards set at the corporate level are attained. The activity centers are responsible for executing the overall corporate strategy and operating plan established by corporate management as a coordinated system.

12. Condensed Consolidating Financial Information

The Kansas City Southern Railway Company (KCSR), a wholly-owned subsidiary of KCS, has outstanding \$275.0 million principal amount of 8.0% Senior Notes due June 1, 2015 and \$123.5 million principal amount of 13.0% Senior Notes due December 15, 2013, which are unsecured obligations of KCSR, and which are also jointly and severally and fully and unconditionally guaranteed on an unsecured senior basis by KCS and certain wholly-owned domestic subsidiaries. As a result, the following condensed consolidating financial information (*in millions*) has been prepared and presented pursuant to SEC Regulation S-X Rule 3-10. Financial statements of guarantors and issuers of guaranteed securities registered or being registered. The 8.0% Senior Notes were registered by means of an amendment to KCS's shelf registration statement. The 13.0% Senior Notes were registered under KCS's shelf registration statement.

13. Subsequent Event

On July 12, 2011, KCS, together with its wholly-owned subsidiary, The Kansas City Southern Railway Company, as Borrower (KCSR), and certain subsidiaries named therein as guarantors (the *Subsidiary Guarantors*), entered into an amended and restated credit agreement (the *Credit Agreement*) with various lenders named in the Credit Agreement. The Credit Agreement provides KCSR with (i) a five-and-one-half year \$300.0 million term loan credit facility (the *Term Loan Facility*) and (ii) a five-year \$200.0 million revolving credit facility consisting of a revolving facility up to \$200.0 million (the *Revolving Facility*), a letter of credit facility of \$25.0 million (the *Letter of Credit Facility*) and a swing line facility of up to \$15.0 million (the *Swing Line Facility*). The Letter of Credit Facility and the Swing Line Facility each constitute usage under the Revolving Facility.

The \$305.8 million outstanding term loans under KCSR s prior amended and restated credit agreement were combined and refinanced with those under the Term Loan Facility and KCSR used available cash to reduce the principal balance of the prior term loans by \$5.8 million. Under the

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

Credit Agreement, the final maturity of the term loans was extended from April 28, 2013 to January 15, 2017. Commitments under KCSR's prior revolving credit facility were rolled over into the new Revolving Facility, the maturity was extended from April 28, 2013 to July 15, 2016, and the available principal amount of such commitments was increased from \$125.0 million to \$200.0 million.

KCSR is required to make quarterly principal payments on the Term Loan Facility commencing December 31, 2011, with any remaining unpaid principal balance due and payable on January 15, 2017. The outstanding principal balance of loans under the Term Loan Facility and the Revolving Facility bear interest at floating rates. At KCSR's option, the loans will bear interest at either (i) the greater of (a) The Bank of Nova Scotia's base rate, (b) federal funds rate plus 0.50% or (c) one-month LIBOR plus 1.00% (the Base Rate) plus a margin of 0.25% to 1.50% (depending on the leverage ratio) or (ii) LIBOR plus a margin of 1.25% to 2.50% (depending on the leverage ratio). The outstanding principal balance of loans under the Swing Line Facility will bear interest at the Base Rate plus a margin of 0.25% to 1.50% (depending on the leverage ratio).

Table of Contents

The obligations under the Credit Agreement are secured by substantially all of the assets of KCS, KCSR and the Subsidiary Guarantors pursuant to a Security Agreement dated July 12, 2011 (the Security Agreement) among KCS, KCSR, each Subsidiary Guarantor and The Bank of Nova Scotia, as administrative agent and collateral agent for the lenders. Under the terms of the Security Agreement, KCS, KCSR and their restricted subsidiaries (as defined in the Credit Agreement) agreed to subordinate payment of certain intercompany debt. In addition, KCS and each Subsidiary Guarantor guaranteed repayment of the amounts due under the Credit Agreement and the equity interests of KCSR and each Subsidiary Guarantor have been pledged pursuant to the Security Agreement to secure obligations under the Credit Agreement.

The Credit Agreement contains covenants that restrict or prohibit certain actions, including, but not limited to, KCS and KCSR s ability to incur debt, create or suffer to exist liens, make prepayment of particular debt, pay dividends, make investments, engage in transactions with stockholders and affiliates, issue capital stock, sell certain assets, and engage in mergers and consolidations or in sale-leaseback transactions. In addition, KCS must meet certain consolidated interest coverage and leverage ratios. Failure to maintain compliance with the covenants could constitute a default which could accelerate the payment of any outstanding amounts under the Credit Agreement.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The discussion below, as well as other portions of this Form 10-Q, contain forward-looking statements that are not based upon historical information. Readers can identify these forward-looking statements by the use of such verbs as *expects, anticipates, believes or similar verbs or conjugations of such verbs*. Such forward-looking statements are based upon information currently available to management and management's perception thereof as of the date of this Form 10-Q. However, such statements are dependent on and, therefore, can be influenced by, a number of external variables over which management has little or no control, including: domestic and international economic conditions; interest rates; the business environment in industries that produce and consume rail freight; competition and consolidation within the transportation industry; fluctuation in prices or availability of key materials, in particular diesel fuel; labor difficulties, including strikes and work stoppages; credit risk of customers and counterparties and their failure to meet their financial obligations; the outcome of claims and litigation; legislative and regulatory developments; political and economic conditions in Mexico and the level of trade between the United States and Mexico; changes in securities and capital markets; disruptions to the Company's technology infrastructure, including its computer systems; natural events such as severe weather, hurricanes and floods; acts of terrorism or risk of terrorist activities; and war or risk of war. For more discussion about each risk factor, see Item 7 *Management's Discussion and Analysis of Financial Condition and Results of Operations* in the Company's Annual Report on Form 10-K for the year ended December 31, 2010, which is on file with the U.S. Securities and Exchange Commission (File No. 1-4717) and Part I Item 1A *Risk Factors* in the Form 10-K and any updates contained herein. Readers are strongly encouraged to consider these factors when evaluating forward-looking statements. Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the timing when, or by which, such performance or results will be achieved. As a result, actual outcomes or results could materially differ from those indicated in forward-looking statements. Forward-looking statements contained in this Form 10-Q will not be updated.

This discussion is intended to clarify and focus on Kansas City Southern's (KCS or the Company) results of operations, certain changes in its financial position, liquidity, capital structure and business developments for the periods covered by the consolidated financial statements included under Item 1 of this Form 10-Q. This discussion should be read in conjunction with those consolidated financial statements and the related notes, and is qualified by reference to them.

Critical Accounting Policies and Estimates

The Company's discussion and analysis of its financial position and results of operations is based upon its consolidated financial statements. The preparation of these consolidated financial statements requires estimation and judgment that affect the reported amounts of revenue, expenses, assets, and liabilities. The Company bases its estimates on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the accounting for assets and liabilities that are not readily apparent from other sources. If the estimates differ materially from actual results, the impact on the consolidated financial statements may be material. The Company's critical accounting policies are disclosed in the 2010 Annual Report on Form 10-K.

Overview

The Company is engaged in the freight rail transportation business, operating a coordinated rail network under one reportable business segment. The primary operating subsidiaries of the Company consist of the following: The Kansas City Southern Railway Company (KCSR), Kansas City Southern de México, S.A. de C.V. (KCSM), Meridian Speedway, LLC (MSLLC), and The Texas Mexican Railway Company (TexMex). The Company generates revenues and cash flows by providing customers with freight delivery services within its regions, and throughout North America through connections with other Class I rail carriers. Customers conduct business in a number of different industries, including electric-generating utilities, chemical and petroleum products, industrial and consumer products, agriculture and mineral products, automotive products and intermodal transportation. Appropriate eliminations and reclassifications have been recorded in deriving consolidated financial statements.

Second Quarter Analysis

The Company reported quarterly earnings of \$0.64 per diluted share on consolidated net income of \$70.8 million for the three months ended June 30, 2011, compared to quarterly earnings of \$0.34 per diluted share on consolidated net income of \$37.4 million for the same period in 2010. This earnings increase reflects a 16% increase in revenues during the three months ended June 30, 2011 as compared to the same period in 2010, driven primarily by positive pricing impacts, increased fuel surcharge and the overall increase in carload/unit volumes resulting from the continued improvement in the economy.

Table of Contents

Operating expenses increased 15% compared to the same period in 2010, primarily due to higher volumes, increases in fuel prices and compensation and benefits rates and the effect of fluctuations in the value of the U.S. dollar against the value of the Mexican peso for operating expenses denominated in Mexican pesos.

KCSM's revenues and operating expenses are affected by fluctuations in the value of the U.S. dollar against the value of the Mexican peso. Based on the volume of revenue and expense transactions denominated in Mexican pesos, revenue and expense fluctuations generally offset, with insignificant net impacts to operating income.

Operating expenses as a percentage of revenues declined to 71.7% for the three months ended June 30, 2011 as compared to 72.4% for the same period in 2010.

Results of Operations

The following summarizes KCS's consolidated income statement components (*in millions*):

	Three Months Ended June 30,		Change Dollars
	2011	2010	
Revenues	\$ 534.9	\$ 461.6	\$ 73.3
Operating expenses	383.3	334.4	48.9
Operating income	151.6	127.2	24.4
Equity in net earnings of unconsolidated affiliates	5.3	4.6	0.7

(i) Included in revenues:									
Fuel surcharge	\$ 112.7	\$ 74.4							

Freight revenues include both revenue for transportation services and fuel surcharges. For the three and six months ended June 30, 2011, revenues increased \$73.3 million and \$125.6 million compared to the same periods in 2010, primarily due to positive pricing impacts, increased fuel surcharge and a 7% increase in carload/unit volumes. Revenue per carload/unit increased by 9% and 7% for the three and six months ended

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

June 30, 2011, compared to the same periods in 2010, reflecting favorable commodity mix in addition to the factors discussed above. The effect of fluctuations in the value of the U.S. dollar against the value of the Mexican peso was not significant for these periods.

Table of Contents

KCS's fuel surcharge is a mechanism to adjust revenue based upon changing fuel prices. Fuel surcharges are calculated differently depending on the type of commodity transported. For most commodities, fuel surcharge is calculated using a fuel price from a prior time period that can be up to 60 days earlier. In a period of volatile fuel prices or changing customer business mix, changes in fuel expense and fuel surcharge may differ.

The following discussion provides an analysis of revenues by commodity group:

**Revenues by commodity
group for the three months
ended June 30, 2011**

Chemical and petroleum. Revenues increased \$13.5 million and \$20.8 million for the three and six months ended June 30, 2011, compared to the same periods in 2010, primarily due to increases in pricing, volume and fuel surcharge. Petroleum revenues increased due to a Mexican government initiated oil export program that began in 2010 that effectively increased length of haul. Additionally, revenues increased in plastics and chemicals used to manufacture glass and paint as a result of continuing growth in the automotive industry.

Industrial and consumer products. Revenues increased \$15.8 million and \$34.5 million for the three and six months ended June 30, 2011, compared to the same periods in 2010, primarily due to increases in volume, pricing and fuel surcharge. Metals and scrap business growth was primarily due to growing demand for slab and steel coil driven by continuing growth in the automotive industry and appliance manufacturing, as well as increases in demand for pipe. Paper product revenue increased primarily due to diminished truck capacity driving business to rail as demand has increased.

Agriculture and minerals. Revenues increased \$5.6 million and \$4.7 million for the three and six months ended June 30, 2011, compared to the same periods in 2010, primarily due to increases in fuel surcharge and pricing that were partially offset by a decrease in volume. Food product revenue increased due to increased demand for corn syrup, sugar and alternative grains in Mexico. The increase for the six months ended June 30, 2011, compared to the same period in 2010, was partially offset by a decrease in grain volume and average length of haul in the first quarter of 2011 as traffic patterns shifted due to a decline in cross border traffic into Mexico as availability of crops from a strong Mexico harvest has been sufficient to meet the local demand. In June 2011, grain volumes were affected by flooding in the upper Midwest, which delayed deliveries from connecting carriers.

Coal. Revenues increased \$14.7 million and \$20.3 million for the three and six months ended June 30, 2011, compared to the same periods in 2010, primarily due to increases in pricing and fuel surcharge. Revenues to existing electric generation customers increased due to re-pricing of coal contracts in the second half of 2010. In June 2011, volumes were affected by flooding in the upper Midwest, which delayed deliveries from connecting carriers.

Intermodal. Revenues increased \$12.4 million and \$24.0 million for the three and six months ended June 30, 2011, compared to the same periods in 2010, primarily due to increases in volume and fuel surcharge. Growth was driven by increased domestic and cross border business,

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

conversion of truck traffic to rail and South American/trans-Pacific container volume.

Automotive. Revenues increased \$10.1 million and \$19.5 million for the three and six months ended June 30, 2011, compared to the same periods in 2010, primarily due to increases in volume, pricing and fluctuations in the value of the U.S. dollar against the value of the Mexican peso. The volume increase was driven by strong year over year growth in North American automobile sales, new cross border vehicle routings and the introduction of new automobile models.

Table of Contents**Operating Expenses**

Operating expenses, as shown below (*in millions*), increased \$48.9 million and \$81.6 million for the three and six months ended June 30, 2011, when compared to the same periods in 2010, primarily due to higher volumes, increases in fuel prices and compensation and benefit rates and the effect of fluctuations in the value of the U.S. dollar against the value of the Mexican peso for operating expenses denominated in Mexican pesos.

	Three Months Ended		Change	
	June 30,		Dollars	Percent
	2011	2010		
Compensation and benefits	\$ 104.4	\$ 93.7	\$ 10.7	11%
Purchased services	54.8	48.0	6.8	14%
Fuel	92.0	69.1	22.9	33%
Equipment costs	42.7	41.3	1.4	3%
Depreciation and amortization	45.5	46.9	(1.4)	(3)%
Materials and other	43.9	35.4	8.5	24%
Total operating expenses	\$ 383.3	\$ 334.4	\$ 48.9	15%

	Six Months Ended		Change	
	June 30,		Dollars	Percent
	2011	2010		
Compensation and benefits	\$ 204.8	\$ 184.4	\$ 20.4	11%
Purchased services	102.9	92.9	10.0	11%
Fuel	171.5	129.9	41.6	32%
Equipment costs	84.1	80.0	4.1	5%
Depreciation and amortization	91.2	92.7	(1.5)	(2)%
Materials and other	89.6	82.6	7.0	8%
Total operating expenses	\$ 744.1	\$ 662.5	\$ 81.6	12%

Compensation and benefits. Compensation and benefits increased \$10.7 million and \$20.4 million for the three and six months ended June 30, 2011, compared to the same periods in 2010, primarily due to annual salary and benefit rate increases and increased carload/unit volumes. In addition, compensation and benefits increased in Mexico due to fluctuations in the value of the U.S. dollar against the value of the Mexican peso.

Purchased services. Purchased services increased \$6.8 million and \$10.0 million for the three and six months ended June 30, 2011, compared to the same periods in 2010, due to increases in volume-sensitive costs, primarily locomotive maintenance expense, freight car repairs, security and truck and terminal services and an increase in track structure maintenance expense.

Fuel. Fuel expense increased \$22.9 million and \$41.6 million for the three and six months ended June 30, 2011, compared with the same periods in 2010, primarily due to higher diesel fuel prices as the average fuel price per gallon increased by approximately 21% and 22%, respectively.

Equipment costs. Equipment costs increased \$1.4 million and \$4.1 million for the three and six months ended June 30, 2011, compared with the same periods in 2010, primarily due to the increase in the use of other railroads freight cars due to increased traffic volumes and higher car lease expense.

Depreciation and amortization. Depreciation and amortization expense decreased by \$1.4 million and \$1.5 million for the three and six months ended June 30, 2011, compared to the same periods in 2010 due to changes in depreciation rates on certain locomotive and road assets based on reassessment of the adequacy of the accumulated depreciation provisions, asset usage and replacement patterns, which were effective October 1, 2010, offset by the increase in depreciation and amortization expense due to a larger asset base. Depreciation expense on the asset base as of year-end 2010 is expected to be lower on a quarterly basis by approximately \$1.0 million as a result of the rate changes.

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

Materials and other. Materials and other expense increased \$8.5 million and \$7.0 million for the three and six months ended June 30, 2011, compared to the same periods in 2010 primarily due to higher derailment expense, materials and supplies expense, increased personal property taxes and the Company recognized a larger reduction in the personal injury liability in the second quarter of 2010 as compared to the same period in 2011. In addition, for the six months ended June 30, 2011, as compared to the same period in 2010, these increases were partially offset by the settlement of a legal dispute in the first quarter of 2010.

Table of Contents
Non-Operating Income and Expenses

Equity in net earnings of unconsolidated affiliates. Equity in earnings from unconsolidated affiliates increased \$0.7 million and decreased \$2.1 million for the three and six months ended June 30, 2011, compared to the same periods in 2010. Significant components of this change are as follows:

Equity in earnings of Southern Capital Corporation, LLC decreased \$0.2 million and \$3.6 million for the three and six months ended June 30, 2011, compared to the same periods in 2010, primarily due to the recognition of a gain on sale of railcars and other equipment in the first quarter of 2010.

KCSM's equity in earnings of Ferrocarril y Terminal del Valle de México, S.A. de C.V. (FTVM) decreased \$0.1 million and increased \$0.5 million for the three and six months ended June 30, 2011, compared to the same periods in 2010. The increase during the first half of 2011 is primarily due to an increase in volumes.

Equity in earnings from the operations of Panama Canal Railway Company increased \$1.0 million for the three and six months ended June 30, 2011, compared to the same periods in 2010, primarily due to an increase in container volume attributable to the improvement of the economy.

Interest expense. Interest expense decreased by \$9.5 million and \$20.8 million for the three and six months ended June 30, 2011, compared to the same periods in 2010, primarily due to lower average debt balances and interest rates. During the three and six months ended June 30, 2011, the average debt balance was \$1,647.1 million and \$1,642.1 million, respectively, compared to \$1,863.3 million and \$1,920.4 million for the same periods in 2010.

Debt retirement costs. Debt retirement costs decreased by \$22.2 million and \$37.1 million for the three and six months ended June 30, 2011, compared to the same periods in 2010. In the second quarter of 2011, KCSM purchased and redeemed the remaining \$32.4 million and all of the outstanding \$165.0 million aggregate principal amount of its 7⁵/₈% Senior Notes due December 1, 2013 (the 7⁵/₈% Senior Notes) and 7⁷/₈% Senior Notes due June 1, 2014 (the 7⁷/₈% Senior Notes), respectively. KCSM recognized debt retirement cost of \$10.3 million related to the call and tender premiums and the write-off of unamortized debt issuance costs. On June 4, 2010, the Company redeemed \$66.5 million principal amount of the 13.0% Senior Notes due 2013 issued by KCSR, \$70.0 million principal amount of the 12¹/₂% Senior Notes due 2016 issued by KCSM and \$100.0 million principal amount of the 9³/₈% Senior Notes due 2012 (the 9³/₈% Senior Notes) issued by KCSM, and paid \$19.7 million of call premiums and other expenses associated with such redemptions. In addition the Company wrote-off \$12.8 million of unamortized debt issuance costs and original issue discounts associated with the redemption of the notes. In the first quarter of 2010, KCSM purchased \$296.3 million of the 9³/₈% Senior Notes and the Company recorded debt retirement costs of \$14.9 million related to the tender premium and the write-off of unamortized debt issuance costs.

Foreign exchange. Fluctuations in the value of the U.S. dollar against the value of the Mexican peso resulted in a foreign exchange gain of \$0.4 million and \$0.3 million for the three and six months ended June 30, 2011, compared to a foreign exchange loss of \$1.4 million and a gain of \$1.2 million for the same periods in 2010.

Other income, net. Other income, net decreased by \$1.0 million for the three months ended June 30, 2011, compared to the same period in 2010, primarily due to lower gains on sale of land. For the six months ended June 30, 2011, other income, net increased \$0.2 million, compared to the same period in 2010, primarily due to miscellaneous income partially offset by lower gains on sale of land.

Income tax expense. Income tax expense increased \$23.3 million and \$34.9 million for the three and six months ended June 30, 2011, compared to the same periods in 2010, primarily due to higher pre-tax income. The effective income tax rate was 37.4% and 36.7% for the three and six months ended June 30, 2011, compared to 34.4% and 38.0% for the same periods in 2010. In the second quarter of 2010, the Company recognized a tax benefit from the sale of KCSM's 49% ownership interest in Mexrail, Inc. to Kansas City Southern. Excluding this 2010 tax benefit, the effective income tax rate decreased for the three and six month periods primarily due to foreign exchange rate fluctuations and the increase in income taxed at a lower rate in Mexico.

Table of Contents

Liquidity and Capital Resources

Overview

KCS's primary uses of cash are to support operations; maintain and improve its railroad; pay debt service costs; acquire new and maintain existing locomotives, rolling stock and other equipment; and meet other obligations. KCS's cash flow from operations has historically been sufficient to fund operations, maintenance capital expenditures and debt service. External sources of cash (principally bank debt, public and private debt, common and preferred stock and leases) have historically been used to refinance existing indebtedness and to fund acquisitions, new investments and equipment additions. As a result of the Company's recent improvement in cash flows, the Company has the ability to fund certain investments and equipment additions or repay debt using available cash. On June 30, 2011, total available liquidity (the unrestricted cash balance plus revolving credit facility availability) was \$381.0 million.

In the first quarter of 2011, the Company converted all of the remaining outstanding 5.125% Cumulative Convertible Perpetual Preferred Stock, Series D, into 6,999,887 shares of common stock. As a result of this conversion, the Company will no longer be required to pay a dividend on this series of the Company's preferred stock, resulting in annual cash flow savings of approximately \$10.8 million.

On May 6, 2011, pursuant to an offer to purchase, KCSM commenced a cash tender offer for all of its 7⁵/₈% Senior Notes and, pursuant to a separate offer to purchase, KCSM commenced a cash tender offer for all of its 7³/₈% Senior Notes. Through June 7, 2011, KCSM purchased and redeemed the remaining \$32.4 million of the 7⁵/₈% Senior Notes and all of the outstanding \$165.0 million of the 7³/₈% Senior Notes using the proceeds received from the issuance of \$200.0 million principal amount of 6¹/₈% senior unsecured notes due June 15, 2021 (the 6¹/₈% Senior Notes) and cash on hand. The Company recorded debt retirement costs of \$10.3 million in the second quarter of 2011.

On May 20, 2011, KCSM issued \$200.0 million principal amount of 6¹/₈% Senior Notes, at par, bearing interest semiannually at a fixed annual rate of 6¹/₈%. KCSM used proceeds from the issuance of the 6¹/₈% Senior Notes and cash on hand to purchase and redeem the 7⁵/₈% Senior Notes and 7³/₈% Senior Notes as discussed above, and pay all fees and expenses incurred in connection with the 6¹/₈% Senior Notes offering and the tender offers. The 6¹/₈% Senior Notes are redeemable at KCSM's option, in whole or in part, on and after June 15, 2016, at the following redemption prices (expressed as percentages of principal amount) if redeemed during the 12-month period commencing on June 15 of the following years, plus any accrued and unpaid interest to the date of redemption: 2016 103.063%, 2017 102.042%, 2018 101.021% and 2019 100.000%. In addition, KCSM may redeem up to 35% of the 6¹/₈% Senior Notes at a redemption price equal to 106.125% any time prior to June 15, 2014 from the proceeds of the sale of KCSM's capital stock or the capital stock of KCS and the notes are redeemable, in whole but not in part, at KCSM's option at their principal amount, plus any accrued unpaid interest in the event of certain changes in the Mexican withholding tax rate.

The 6¹/₈% Senior Notes are denominated in dollars and are unsecured, unsubordinated obligations, rank *pari passu* in right of payment with KCSM's existing and future unsecured, unsubordinated obligations, and are senior in right of payment to KCSM's future subordinated indebtedness. In addition, the 6¹/₈% Senior Notes include certain covenants which are customary for these types of debt instruments and borrowers with similar credit ratings. The 6¹/₈% Senior Notes contain certain covenants that, among other things, prohibit or restrict KCSM from taking certain actions, including KCSM's ability to incur debt, pay dividends or make other distributions in respect of its stock, issue guarantees, enter into certain transactions with affiliates, make restricted payments, sell certain assets, create liens, engage in sale-leaseback transactions and engage in mergers, divestitures and consolidations. However, these limitations are subject to a number of important qualifications and exceptions.

On July 12, 2011, KCS, together with its wholly-owned subsidiary, The Kansas City Southern Railway Company, as Borrower (KCSR), and certain subsidiaries named therein as guarantors (the Subsidiary Guarantors), entered into an amended and restated credit agreement (the Credit Agreement) with various lenders named in the Credit Agreement. The Credit Agreement provides KCSR with (i) a five-and-one-half year \$300.0 million term loan credit facility (the Term Loan Facility) and (ii) a five-year \$200.0 million revolving credit facility consisting of a revolving facility up to \$200.0 million (the Revolving Facility), a letter of credit facility of \$25.0 million (the Letter of Credit Facility) and a swing line facility of up to \$15.0 million (the Swing Line Facility). The Letter of Credit Facility and the Swing Line Facility each constitute usage under the Revolving Facility.

The \$305.8 million outstanding term loans under KCSR's prior amended and restated credit agreement were combined and refinanced with those under the Term Loan Facility and KCSR used available cash to reduce the principal balance of the prior term loans by \$5.8 million. Under the Credit Agreement, the final maturity of the term loans was extended from April 28, 2013 to January 15, 2017. Commitments under KCSR's prior revolving credit facility were rolled over into the new Revolving Facility, the maturity was extended from April 28, 2013 to July 15, 2016, and the available principal amount of such commitments was increased from \$125.0 million to \$200.0 million.

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

KCSR is required to make quarterly principal payments on the Term Loan Facility commencing December 31, 2011, with any remaining unpaid principal balance due and payable on January 15, 2017. The outstanding principal balance of loans under the Term

Table of Contents

Loan Facility and the Revolving Facility bear interest at floating rates. At KCSR's option, the loans will bear interest at either (i) the greater of (a) The Bank of Nova Scotia's base rate, (b) federal funds rate plus 0.50% or (c) one-month LIBOR plus 1.00% (the Base Rate) plus a margin of 0.25% to 1.50% (depending on the leverage ratio) or (ii) LIBOR plus a margin of 1.25% to 2.50% (depending on the leverage ratio). The outstanding principal balance of loans under the Swing Line Facility will bear interest at the Base Rate plus a margin of 0.25% to 1.50% (depending on the leverage ratio).

The obligations under the Credit Agreement are secured by substantially all of the assets of KCS, KCSR and the Subsidiary Guarantors pursuant to a Security Agreement dated July 12, 2011 (the Security Agreement) among KCS, KCSR, each Subsidiary Guarantor and The Bank of Nova Scotia, as administrative agent and collateral agent for the lenders. Under the terms of the Security Agreement, KCS, KCSR and their restricted subsidiaries (as defined in the Credit Agreement) agreed to subordinate payment of certain intercompany debt. In addition, KCS and each Subsidiary Guarantor guaranteed repayment of the amounts due under the Credit Agreement and the equity interests of KCSR and each Subsidiary Guarantor have been pledged pursuant to the Security Agreement to secure obligations under the Credit Agreement.

The Credit Agreement contains covenants that restrict or prohibit certain actions, including, but not limited to, KCS and KCSR's ability to incur debt, create or suffer to exist liens, make prepayment of particular debt, pay dividends, make investments, engage in transactions with stockholders and affiliates, issue capital stock, sell certain assets, and engage in mergers and consolidations or in sale-leaseback transactions. In addition, KCS must meet certain consolidated interest coverage and leverage ratios. Failure to maintain compliance with the covenants could constitute a default which could accelerate the payment of any outstanding amounts under the Credit Agreement.

The Company believes, based on current expectations, that cash and other liquid assets, operating cash flows, access to debt and equity capital markets, and other available financing resources will be sufficient to fund anticipated operating, capital and debt service requirements and other commitments in the foreseeable future.

As of June 30, 2011, KCS had a debt to capitalization ratio (total debt as a percentage of total debt plus total equity) of 36.4%. KCS's primary sources of liquidity are cash flows generated from operations, borrowings under its revolving credit facilities and access to debt and equity capital markets. Although KCS has had adequate access to the capital markets, as a non-investment grade company, the financial terms under which funding is obtained often contain restrictive covenants. The covenants constrain financial flexibility by restricting or prohibiting certain actions, including the ability to incur additional debt for any purpose other than refinancing existing debt, create or suffer to exist additional liens, make prepayments of particular debt, pay dividends on common stock, make investments, engage in transactions with stockholders and affiliates, issue capital stock, sell certain assets, and engage in mergers and consolidations or in sale leaseback transactions. These restrictions, however, are subject to a number of qualifications and exceptions that provide the Company with varying levels of additional borrowing capacity. The Company was in compliance with all of its debt covenants as of June 30, 2011. For a discussion of the agreements representing the indebtedness of KCS, see Liquidity and Capital Resources Debt and Capital Structure in the Annual Report on Form 10-K for the year ended December 31, 2010 of KCS.

Table of Contents

KCS's operating results and financing alternatives can be unexpectedly impacted by various factors, some of which are outside of its control. For example, if KCS was to experience a reduction in revenues or a substantial increase in operating costs or other liabilities, its earnings could be significantly reduced, increasing the risk of non-compliance with debt covenants. Additionally, the Company is subject to economic factors surrounding debt and equity capital markets and its ability to obtain financing under reasonable terms is subject to market conditions. Volatility in capital markets and the tightening of market liquidity could impact KCS's access to capital. Further, KCS's cost of debt can be impacted by independent rating agencies, which assign debt ratings based on certain factors including credit measurements such as interest coverage and leverage ratios, liquidity and competitive position.

Standard & Poor's Rating Services (S&P) and Moody's Investors Service (Moody's) each rate the debt, preferred stock and corporate credit of KCS and KCSM as non-investment grade and provide their view of each company's outlook. On June 30, 2011, Moody's upgraded the non-investment grade ratings of KCS and KCSM and assigned an investment grade rating to the senior secured credit facility under the new Credit Agreement. These ratings and outlooks change from time to time and can be found on the websites of S&P and Moody's.

Cash Flow Information

Summary cash flow data follows (in millions):

	Six Months Ended June 30,	
	2011	2010
Cash flows provided by (used for):		
Operating activities	\$ 268.9	\$ 220.3
Investing activities	(174.1)	(145.4)
Financing activities	(24.2)	(108.1)
Net increase (decrease) in cash and cash equivalents	70.6	(33.2)
Cash and cash equivalents beginning of year	85.4	117.5
Cash and cash equivalents end of period	\$ 156.0	\$ 84.3

Cash flows from operating activities increased \$48.6 million for the six month period ended June 30, 2011, compared to the same period in 2010, primarily as a result of increased net income from positive pricing impacts, higher carload/unit volumes due to the continued improvement in the economy and insurance proceeds related to hurricane damage. These increases were partially offset by changes in working capital items, resulting mainly from the timing of certain payments and receipts. Net cash used for investing activities increased \$28.7 million primarily due to an increase in capital expenditures, partially offset by the acquisition of an intermodal facility in the first quarter of 2010 and insurance proceeds related to hurricane damage. Insurance proceeds recognized in investing cash flows are related to proceeds from property damage. All other insurance proceeds related to hurricane damage are recognized in operating cash flows. Additional information regarding capital expenditures is provided below. Cash used for financing activities decreased \$83.9 million primarily due to debt reduction and refinancing activities and associated debt cost payments incurred during the first half of 2010, partially offset by proceeds from a common stock offering received in the second quarter of 2010.

Table of Contents**Capital Expenditures**

KCS has funded, and expects to continue to fund capital expenditures with funds from operating cash flows, equipment leases, and debt and equity financing.

The following table summarizes capital expenditures by type (*in millions*):

	Six Months Ended June 30,	
	2011	2010
Roadway capital program	\$ 117.2	\$ 98.4
Equipment	2.9	5.4
Information technology	3.4	7.3
Capacity	3.4	0.9
Other	30.7	9.3
Total capital expenditures (accrual basis)	157.6	121.3
Change in capital accruals	14.2	(0.4)
Total cash capital expenditures	\$ 171.8	\$ 120.9

The Company's 2011 capital expenditures projections have increased and are currently expected to be approximately \$500 million. The increase is due to the anticipated acceleration of 2012 capital in order to recognize tax depreciation benefits and potential lease buyout opportunities.

Other Matters

Approximately 80% of KCSR employees are covered by collective bargaining agreements. KCSR participates in industry-wide bargaining as a member of the National Carriers' Conference Committee. Long-term settlement agreements were reached during 2007 and 2008 covering all of KCSR's unionized work force through June 30, 2010. A negotiating process for new, major collective bargaining agreements covering substantially all of KCSR's union employees has been underway since the bargaining round was initiated in November of 2009. The agreements reached in 2007 and 2008 continue in effect until new agreements are reached. Contract negotiations with the various unions generally take place over an extended period of time and have not historically resulted in any strike, boycott, or other disruption in the Company's business operations. The Company does not believe the expected settlements will have a material impact on the consolidated financial statements.

KCSM union employees are covered by one labor agreement, which was signed on June 23, 1997, between KCSM and the *Sindicato de Trabajadores Ferrocarrileros de la República Mexicana* (Mexican Railroad Union), for a term of 50 years, for the purpose of regulating the relationship between the parties. Approximately 80% of KCSM employees are covered by this labor agreement. The compensation terms under this labor agreement are subject to renegotiation on an annual basis and all other terms are subject to negotiation every two years. In June of 2011, the negotiation of compensation terms and all other benefits was started with the Mexican Railroad Union. The anticipated resolution of this negotiation is not expected to have a material impact to the consolidated financial statements. The union labor negotiation with the Mexican Railroad Union has not historically resulted in any strike, boycott, or other disruption in KCSM's business operations.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There was no material change during the quarter from the information set forth in Part II, Item 7A. Quantitative and Qualitative Disclosure about Market Risk in the Annual Report on Form 10-K for the year ended December 31, 2010.

Table of Contents

Item 4. *Controls and Procedures*

(a) Disclosure Controls and Procedures

As of the end of the period for which this Quarterly Report on Form 10-Q is filed, the Company's Chief Executive Officer and Chief Financial Officer have each reviewed and evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act.)). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have each concluded that the Company's current disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting that occurred during the second quarter of 2011 that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.
