NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Accounting Policies

Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation have been included.

For further information, refer to the Consolidated Financial Statements and footnotes included in our Annual Report on Form 10-K for the year ended December 31, 2010. The terms Corporation, Kimberly-Clark, K-C, we, our and us refer to Kimberly-Clark Corporation and its consolidated subsidiaries.

Note 2. Fair Value Measurements

The following fair value information is based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels in the hierarchy used to measure fair value are:

Level 1 Unadjusted quoted prices in active markets accessible at the reporting date for identical assets and liabilities.

Level 2 Quoted prices for similar assets or liabilities in active markets. Quoted prices for identical or similar assets and liabilities in markets that are not considered active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 Prices or valuations that require inputs that are significant to the valuation and are unobservable.

During the three months ended June 30, 2011 and 2010, there were no significant transfers among level 1, 2, or 3 fair value determinations.

Set forth below are the assets and liabilities that are measured on a recurring basis at fair value and the inputs used to develop those fair value measurements.

	June 30	Fair Value Measurements					
	2011	Level 1 (Million	Level 2 s of dollars)	Level 3			
Assets							
Company-owned life insurance (COLI)	\$ 47	\$	\$ 47	\$			
Available-for-sale securities	16	16					
Derivatives	100		100				
Total	\$ 163	\$ 16	\$ 147	\$			
Liabilities							
Derivatives	\$ 64	\$	\$ 64	\$			

7

		ember 31	Fair	ements	
	2	010	Level 1 (Millions	Level 2 of dollars)	Level 3
Assets					
Company-owned life insurance (COLI)	\$	46	\$	\$ 46	\$
Available-for-sale securities		15	15		
Derivatives		70		70	
Total	\$	131	\$ 15	\$ 116	\$
Liabilities					
Derivatives	\$	48	\$	\$ 48	\$

The COLI policies are a source of funding primarily for our nonqualified employee benefits and are included in other assets. Available-for-sale securities are included in other assets. The derivative assets and liabilities are included in other current assets, other assets, accrued expenses and other liabilities, as appropriate.

Level 1 Fair Values - The fair values of certain available-for-sale securities are based on quoted market prices in active markets for identical assets. Unrealized losses on these securities aggregating \$2 million at June 30, 2011 and December 31, 2010 are recorded in other comprehensive income until realized. The unrealized losses have not been recognized in earnings because we have both the intent and ability to hold the securities for a period of time sufficient to allow for an anticipated recovery of fair value to the cost of such securities.

Level 2 Fair Values - The fair value of the COLI policies is derived from investments in a mix of money market, fixed income and equity funds managed by unrelated fund managers. The fair values of derivatives used to manage interest rate risk and commodity price risk are based on LIBOR rates and interest rate swap curves and NYMEX price quotations, respectively. The fair value of hedging instruments used to manage foreign currency risk is based on quotations of spot currency rates and forward points, which are converted into implied forward currency rates. Additional information on our use of derivative instruments is contained in Note 9.

Fair Value Disclosures

The following table includes the fair value of our financial instruments for which disclosure of fair value is required:

	Carrying Amount June 3	Estimated Fair Value 0, 2011 (Millions	Carrying Amount December	Estimated Fair Value er 31, 2010
Assets				
Cash and cash equivalents ^(a)	\$ 908	\$ 908	\$ 876	\$ 876
Time deposits ^(b)	93	93	80	80
Notes receivable ^(c)	613	602	611	597
Liabilities and redeemable preferred and common securities of subsidiaries				
Short-term debt ^(d)	367	367	79	79
Monetization loan ^(c)	397	394	397	397
Long-term debt ^(e)	5,668	6,308	4,988	5,556
Redeemable preferred and common securities of subsidiaries ^(f)	1,046	1,117	1,047	1,127

⁽a) Cash equivalents are comprised of certificates of deposit, time deposits and other interest-bearing investments with original maturity dates of 90 days or less, all of which are recorded at cost, which approximates fair value.

Notes receivable represent held-to-maturity securities, which arose from the sale of nonstrategic timberlands and related assets. The notes are backed by irrevocable standby letters of credit issued by money center banks. A consolidated variable interest entity (VIE) has an outstanding long-term monetization loan secured by the related note held by this VIE (indicated by Note 1 and Loan below). The following summarizes the terms of the notes and the monetization loan as of June 30, 2011 (millions of dollars):

	Face	Carrying		
Description	Value	Amount	Maturity	Interest Rate(1)
Note 1	\$ 397	\$ 393	09/30/2014	LIBOR
Loan	397	397	01/31/2014	LIBOR plus 75 bps
Note 2 ⁽²⁾	220	220	07/07/2011	LIBOR minus 12.5 bps

⁽¹⁾ Payable quarterly, 3-month LIBOR.

9

⁽b) Time deposits, included in Other current assets on the Condensed Consolidated Balance Sheet, are comprised of deposits with original maturities of more than 90 days but less than one year, all of which are recorded at cost, which approximates fair value.

On the July 7, 2011 maturity date, we collected \$220 million in cash.

Table of Contents

The difference between the carrying amount of the notes and their fair value represents an unrealized loss position for which an other-than-temporary impairment has not been recognized in earnings because we have both the intent and ability to hold the notes for a period of time sufficient to allow for an anticipated recovery of fair value to the carrying amount of the notes. Neither the notes nor the monetization loan is traded in active markets. Accordingly, their fair values were calculated using a floating rate pricing model that compared the stated spread to the fair value spread to determine the price at which each of the financial instruments should trade. The model used the following inputs to calculate fair values: face value, current LIBOR rate, fair value credit spread, stated spread, maturity date and interest payment dates.

- (d) Short-term debt is comprised of U.S. commercial paper with original maturities up to 90 days and other similar short-term debt issued by non-U.S. subsidiaries, all of which are recorded at cost, which approximates fair value.
- (e) Long-term debt excludes the monetization loan and includes the portion payable within the next twelve months (\$641 million at June 30, 2011 and \$265 million at December 31, 2010). Fair values were estimated based on quoted prices for financial instruments for which all significant inputs were observable, either directly or indirectly.
- The redeemable preferred securities are not traded in active markets. Accordingly, their fair values were calculated using a pricing model that compares the stated spread to the fair value spread to determine the price at which each of the financial instruments should trade. The model used the following inputs to calculate fair values: face value, current benchmark rate, fair value spread, stated spread, maturity date and interest payment dates. We determined the fair value and carrying amount of the redeemable common securities were \$35 million at June 30, 2011 and December 31, 2010 based on various inputs, including an independent third-party appraisal, adjusted for current market conditions.

Note 3. Pulp and Tissue Restructuring

On January 21, 2011, we initiated a pulp and tissue restructuring plan in order to exit our remaining integrated pulp manufacturing operations and improve the underlying profitability and return on invested capital of our consumer tissue and K-C Professional businesses. The restructuring involves the streamlining, sale or closure of 5 to 6 of our manufacturing facilities around the world. In conjunction with these actions, we have begun to exit certain non-strategic products, primarily non-branded offerings, and transfer some production to lower-cost facilities in order to improve overall profitability and returns. Facilities impacted by the restructuring include our pulp and tissue facility in Everett, Washington and the two facilities in Australia that manufacture pulp and tissue.

The restructuring plan commenced in the first quarter of 2011 and is expected to be completed by December 31, 2012. The restructuring is expected to result in cumulative charges of approximately \$400 million to \$600 million before tax (\$280 million to \$420 million after tax) over that period. We anticipate that the charges will fall into the following categories and approximate dollar ranges: workforce reduction costs (\$50 million to \$100 million); incremental depreciation (\$300 million to \$400 million); and other associated costs (\$50 million to \$100 million). Cash costs related to the streamlining of operations, sale or closure, relocation of equipment, severance and other expenses are expected to account for approximately 25 percent to 50 percent of the charges. Noncash charges will consist primarily of incremental depreciation.

As a result of the restructuring, we expect that by 2013 annual net sales will be reduced by \$250 million to \$300 million and operating profit will increase by at least \$75 million. Most of the restructuring will impact the consumer tissue business segment.

10

The following charges were incurred in connection with the restructuring:

	Three Months Ended June 30, 2011	 nths Ended 30, 2011
Incremental depreciation	\$ 76	\$ 116
Charges for workforce reductions	1	43
Asset write-offs	8	8
Cost of products sold Charges for workforce reductions included in Marketing, research and general expenses Provision for income taxes	\$ 85 5 (31)	\$ 167 5 (56)
Net Charges	\$ 59	\$ 116

See Note 10 for additional information on the pulp and tissue restructuring charges by segment.

Pretax charges for the pulp and tissue restructuring relate to activities in the following geographic areas:
