ALLSCRIPTS HEALTHCARE SOLUTIONS, INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: ALLSCRIPTS HEALTHCARE SOLUTIONS, INC. - Form 10-Q

Delaware
(State or other jurisdiction of
incorporation or organization)

36-4392754
(I.R.S. Employer

Identification Number)

222 Merchandise Mart, Suite 2024

Chicago, IL 60654

(Address of principal executive offices)

(866) 358-6869

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 31, 2011, there were 189,573,007 shares of the registrant's \$0.01 par value common stock outstanding.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation and Significant Accounting Policies

Eclipsys Merger

On August 24, 2010, Allscripts-Misys Healthcare Solutions, Inc. (which changed its name to Allscripts Healthcare Solutions, Inc., Allscripts or the Company) completed the merger (the Eclipsys Merger) contemplated by an Agreement and Plan of Merger dated June 9, 2010 (Merger Agreement) by and among Allscripts, Arsenal Merger Corp., a wholly-owned subsidiary of Allscripts, and Eclipsys Corporation, an enterprise provider of solutions and services to hospitals and clinicians (Eclipsys). Eclipsys became a wholly-owned subsidiary of Allscripts as a result of the merger. The results of Eclipsys are consolidated with the results of Allscripts from August 24, 2010.

The merger with Eclipsys has been accounted for as a purchase business combination. Under the acquisition method of accounting, the purchase price was allocated to the tangible and intangible assets acquired and liabilities assumed based on their estimated fair values as of the acquisition date. The operating results of Eclipsys are included in the accompanying consolidated statements of operations for periods subsequent to the completion of the merger, August 24, 2010.

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (SEC). The accompanying unaudited interim consolidated financial statements include the consolidated accounts of Allscripts Healthcare Solutions, Inc. and its wholly-owned subsidiaries with all significant intercompany transactions eliminated. In management's opinion, all adjustments (consisting only of normal recurring adjustments) necessary for a fair statement of the financial position, results of operations and cash flows for the interim periods presented have been made. The Company derived its consolidated balance sheet at December 31, 2010 from the audited consolidated financial statements at that date. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles (GAAP) have been condensed or omitted pursuant to SEC rules and regulations. These financial statements should be read in conjunction with the consolidated financial statements for the seven months ended December 31, 2010 and the notes thereto in our Transition Report on Form 10-KT for the seven months ended December 31, 2010. Operating results for the three and nine months ended September 30, 2011 are not necessarily indicative of the results for the full year. Certain prior period amounts have been reclassified to conform to the current period presentation.

Table of Contents

Revenue Recognition

Revenue represents the fair value of consideration received or receivable from clients for goods and services provided by the Company. Revenue from system sales includes software and related hardware. Revenue from professional services includes implementation, training and consulting services. Revenue from maintenance includes post contract customer support and maintenance services. Revenue from transaction processing and other includes electronic data interchange (EDI) services, Software-as-a-Service (SaaS) transactions, software hosting services, and outsourcing. For some clients, we host the software applications licensed from us remotely using our own or third party servers, which saves these clients the cost of procuring and maintaining hardware and related facilities. For other clients, we offer an outsourced solution in which we assume partial to total responsibility for a healthcare organization's information technology operations using our employees.

Revenue from software licensing arrangements where the service element is not considered essential to the functionality of the other elements of the arrangement is recognized upon delivery of the software or as services are performed, provided persuasive evidence of an arrangement exists, fees are considered fixed or determinable, and collection of the receivable is probable. The revenue recognized for each separate element of a multiple-element software contract is based upon vendor-specific objective evidence of fair value, which is based upon the price the customer is required to pay when the element is sold separately or renewed. For arrangements in which vendor-specific objective evidence of fair value only exists for the undelivered elements, the delivered elements (software license revenues) are accounted for using the residual method.

Revenue from software licensing arrangements, where the service element is considered essential to the functionality of the other elements of the arrangement, is accounted for on an input basis under percentage of completion accounting using actual hours worked as a percentage of total expected hours required by the arrangement, provided that persuasive evidence of an arrangement exists, the fee is fixed or determinable and collection of the receivable is probable. Maintenance and support from these agreements is recognized over the term of the support agreement based on vendor-specific objective evidence of fair value of the maintenance revenue, which is based upon contractual renewal rates. For income statement presentation, consideration from agreements accounted for under percentage of completion accounting is allocated between software and services based on vendor specific evidence of our hourly services rate multiplied by the amount of hours performed with the residual amount allocated to software license fee.

Revenue from certain value-added reseller (VAR) relationships in which software is directly sold to VARs is recognized upon delivery of the software assuming all other revenue recognition criteria have been met. Revenue recognition is deferred until the software is delivered to the ultimate end user if the arrangement terms do not satisfy the criteria for revenue recognition upon delivery of the software to the VAR.

Table of Contents

We also enter into multiple-element arrangements that may include a combination of various software-related and nonsoftware-related products and services. Management applies judgment to ensure appropriate accounting for multiple deliverables, including the allocation of arrangement consideration among multiple units of accounting, the determination of whether undelivered elements are essential to the functionality of delivered elements, and the timing of revenue recognition, among others. In such arrangements, we first allocate the total arrangement consideration based on a selling price hierarchy at the inception of the arrangement. The selling price for each element is based upon the following selling price hierarchy: vendor-specific objective evidence of fair value if available, third-party evidence of fair value if vendor-specific objective evidence of fair value is not available, or estimated selling price if neither vendor-specific objective evidence or third-party evidence of fair value is available (a description as to how we determine vendor-specific objective evidence of fair value, third-party evidence of fair value and estimated selling price is provided below). Upon allocation of consideration to the software elements as a whole and nonsoftware elements, we then further allocate consideration within the software group to the respective elements following higher-level, industry-specific guidance and our policies described above. After the arrangement consideration has been allocated to the elements, we account for each respective element in the arrangement as described above.

To determine the selling price in multiple-element arrangements, we establish vendor-specific objective evidence of fair value using the price charged for a deliverable when sold separately and contractual renewal rates for maintenance fees. For nonsoftware multiple element arrangements, third-party evidence of fair value is established by evaluating similar and interchangeable competitor products or services in standalone arrangements with similarly situated customers. If we are unable to determine the selling price because vendor-specific objective evidence or third-party evidence of fair value doesn't exist, we determine an estimated selling price by considering several external and internal factors including, but not limited to, pricing practices, margin objectives, competition, customer demand, internal costs and overall economic trends. The determination of an estimated selling price is made through consultation with and approval by our management, taking into consideration our go-to-market strategy. As our, or our competitors', pricing and go-to-market strategies evolve, we may modify our pricing practices in the future, which could result in changes to our determination of vendor-specific objective evidence of fair value, third-party evidence of fair value, and estimated selling price. Selling prices are analyzed on an annual basis or more frequently if we experience significant changes in our selling prices.

For those arrangements where the deliverables do not qualify as separate units of accounting, revenue recognition is evaluated for the combined deliverables as a single unit of accounting and generally the recognition pattern of the final deliverable will dictate the revenue recognition pattern for the single, combined unit of accounting. Changes in circumstances and customer data may affect management's analysis of separation criteria which may lead to an upward or downward adjustment to the amount of revenue recognized under the arrangement.

We assess whether fees are fixed or determinable at the time of sale and recognize revenues if all other revenue recognition requirements are met. Our payment arrangements with clients typically include milestone-based software license fee payments and payments based upon delivery for services and hardware.

While most of our arrangements include short-term payment terms, we periodically provide extended payment terms to clients from the date of contract signing. We do not recognize revenue under extended payment term arrangements until such payments become due. In certain circumstances, where all other revenue recognition criteria have been met, we occasionally offer discounts to clients in order to accelerate the timing of when payments are made. Changes to extended payment term arrangements do not have a material impact on our consolidated results of operations.

Table of Contents

Business Combinations

Goodwill as of the acquisition date is measured as the excess of consideration transferred and the net of the acquisition date fair values of the assets acquired and the liabilities assumed. While we use our best estimates and assumptions as a part of the purchase price allocation process to accurately value assets acquired, including intangible assets, and liabilities assumed at the acquisition date, our estimates are inherently uncertain and subject to refinement. As a result, during the measurement period, which may be up to one year from the acquisition date, we may record adjustments to the assets acquired and liabilities assumed, with the corresponding offset to goodwill. Upon the conclusion of the measurement period or final determination of the values of assets acquired or liabilities assumed, whichever comes first, any subsequent adjustments are recorded to our consolidated statements of operations.

Goodwill and Intangible Assets

Goodwill and intangible assets acquired in a business combination and determined to have an indefinite useful life are not amortized in accordance with accounting guidance, but accounting guidance requires that we perform an impairment test at least annually. The goodwill impairment analysis is comprised of two steps. In step one the estimated fair value of a reporting unit is compared to its carrying value. Step two is required only if there is a deficiency (the estimated fair value is less than the carrying value). In step two the actual amount of the goodwill impairment is calculated by comparing the implied fair value of the reporting unit's goodwill with the carrying amount of that goodwill. The implied fair value is determined in the same manner as the amount of goodwill recognized in a business combination. If the carrying value of a reporting unit's goodwill exceeds its implied fair value, then an impairment loss equal to the difference would be recorded. The recoverability of indefinite lived intangible assets is assessed by comparison of the carrying value of the asset to its estimated fair value. If we determine that the carrying value of the asset exceeds its estimated fair value, an impairment loss would be recorded equal to the excess.

We have historically performed our annual impairment test of goodwill and indefinite lived intangible assets as of May 31, and have completed step one of our annual goodwill impairment test for our reporting units as of May 31, 2011. For each reporting unit, the fair value of the reporting unit is estimated using the income approach by discounting to present value the estimated future cash flows of the reporting unit. For each reporting unit, fair value substantially exceeded its carrying value as of May 31, 2011 and no indicators of impairment were identified as a result of the annual impairment test; therefore, step two was not required. We will also test for impairment between annual test dates if an event occurs or circumstances change that would indicate the carrying amount may be impaired.

During the three months ended June 30, 2011, we voluntarily changed the date of our annual impairment test for goodwill and indefinite lived intangible assets from May 31 to the first day of the fiscal fourth quarter. This change is preferable under the circumstances as it aligns the timing of the annual goodwill impairment test with our strategic planning and budgeting process, which will allow management to utilize the updated strategic business plans that result from the budget process in the discounted cash flow analyses that it uses to estimate the fair value of our reporting units. The change did not delay, accelerate, nor avoid an impairment charge. This change is not applied retrospectively as it is impracticable to do so because retrospective application would require the application of significant estimates and assumptions with the use of hindsight. Accordingly, the change has been applied prospectively.

Accounting guidance also requires that intangible assets with estimable useful lives be amortized over their respective estimated useful lives and reviewed for impairment. We estimate the useful lives of our intangible assets and ratably amortize the value over the remaining estimated economic lives of those assets, including the period being reported on. If the actual useful life is shorter than our estimated useful life, we will amortize the remaining book value over the remaining useful life or the asset may be deemed to be impaired and, accordingly, a write-down of the value of the asset may be required.

Table of Contents**2. Business Combinations*****Allscripts Healthcare Solutions, Inc. and Eclipsys Corporation***

On August 24, 2010, the transactions contemplated by the Merger Agreement were completed and Eclipsys became a wholly-owned subsidiary of Allscripts, the accounting acquirer. Pursuant to the terms of the Merger Agreement, each outstanding share of Eclipsys common stock, other than shares held by Eclipsys in its treasury, by any wholly owned subsidiary of Eclipsys, by Allscripts or by any wholly owned subsidiary of Allscripts, was converted into the right to receive 1.2 shares (the Exchange Ratio) of Allscripts common stock (plus cash in lieu of fractional shares). Additionally, each outstanding Eclipsys stock option, restricted stock award, restricted stock unit, deferred stock unit and performance stock unit award was converted into an Allscripts option, restricted stock award, restricted stock unit, deferred stock unit or performance stock unit award, as the case may be, with appropriate adjustments to the number of shares subject to the award and, if applicable, the per share exercise price to reflect the Exchange Ratio.

Under the acquisition method of accounting, the purchase price was allocated to the tangible and intangible assets acquired and liabilities assumed based on their estimated fair values as of the acquisition date. The fair value of the assets acquired and liabilities assumed represent management's estimate of fair value.

The results of Eclipsys are included in the accompanying consolidated statements of operations for periods subsequent to the completion of the merger, August 24, 2010.

The total purchase price for the acquisition is comprised of the following:

(Dollar amounts in thousands, except per share amounts)	
Fair value of Eclipsys (69 million Allscripts common shares at \$17.47, the closing stock price of Allscripts on August 24, 2010)	\$ 1,209,366
Share-based compensation value	21,914
Total purchase price	\$ 1,231,280

Acquisition and integration-related costs included in selling, general and administrative expenses for the three months ended September 30, 2011 and 2010 totaled \$8 million and \$27 million, respectively, and \$32 million and \$39 million for the nine months ended September 30, 2011 and 2010, respectively.

Table of Contents

The purchase price has been allocated to the tangible and intangible assets acquired and liabilities assumed based on management's estimates of their current fair values as follows:

(In thousands)	
Acquired cash and cash equivalents, and restricted cash	\$ 174,543
Accounts receivable, net	136,053
Prepaid expenses and other current assets	31,520
Fixed assets and other long-term assets	83,982
Goodwill	625,974
Intangible assets	377,000
Deferred tax liabilities, net	(12,012)
Accounts payable and accrued liabilities	(62,799)
Deferred revenue	(106,344)
Other liabilities	(16,637)
Net assets acquired	\$ 1,231,280

Goodwill represents the residual difference between the purchase price and the value assigned to tangible and intangible assets and liabilities, and is not deductible for tax purposes. Among the factors that contributed to a purchase price resulting in the recognition of goodwill were Eclipsys' history of profitability and high operating margins, strong sales force and overall employee base, and position in the healthcare information technology market.

As of the acquisition date of August 24, 2010, goodwill and intangible assets have been attributed to the hospital solutions segment. The acquired intangible assets are being amortized on a straight-line basis over their useful lives and consist of the following:

(Dollar amounts in thousands)		
Description	Useful Life in Years	Fair Value
Maintenance and outsourcing agreements	20	\$ 59,000
Hosting agreements	15	26,000
Services agreements	12	37,000
Developed technology	7	69,000
Core technology	12	95,000
Trade name	3	13,000
Maintenance and outsourcing contract backlog	5	48,000
Hosting contract backlog	6	16,000
Services backlog	2	14,000
		\$ 377,000

Table of Contents

The following unaudited pro forma information assumes the legacy Allscripts and legacy Eclipsys Merger occurred as of the beginning of the period presented. The pro forma financial information also includes the business combination accounting effects resulting from the Eclipsys Merger including our amortization charges from acquired intangible assets, the elimination of certain intangible asset amortization incurred by Eclipsys, stock-based compensation charges for equity awards assumed, adjustments to interest expense for certain borrowings, adjustments for transaction-related expenses and the related tax effects as though the aforementioned companies were combined at the beginning of the periods presented. The unaudited pro forma supplemental results have been prepared based on estimates and assumptions, which we believe are reasonable and are not necessarily indicative of the consolidated financial position or results of operations had the merger occurred at the beginning of the earliest period presented, nor of future results of operations. For pro forma purposes, quarterly financial results of legacy Eclipsys have been combined with the recast historical financial results of Allscripts for the three and nine months ended September 30, 2010. The unaudited supplemental pro forma results are as follows:

(In thousands, except per share amounts)	Three Months Ended September 30, 2010	Nine Months Ended September 30, 2010
Total Revenue	\$ 313,636	\$ 921,203
Net income (loss)	\$ 16,177	(\$ 2,899)
Earnings (loss) per share basic and diluted	\$ 0.08	(\$ 0.02)

The unaudited pro forma information for the three and nine months ended September 30, 2010 includes the following adjustments:

Net increase in revenues and net increase in net income representing legacy Eclipsys pre-merger revenues and net income as follows: revenues of \$80 million and \$342 million and net income of \$3 million and \$10 million for the three and nine months ended September 30, 2010, respectively;

Decrease in revenues of \$8 million and \$39 million for the three and nine months ended September 30, 2010, respectively, relating to deferred revenue acquisition accounting adjustments;

Increase to amortization expense for the three and nine months ended September 30, 2010 of \$3 million and \$13 million, respectively, related to management's estimate of the fair value of intangible assets acquired as a result of the Eclipsys Merger. This increase reflects the elimination of all legacy Eclipsys historical intangible asset and capitalized software amortization for the applicable period;

Increase to interest expense for the three and nine months ended September 30, 2010 of \$5 million and \$18 million, respectively, related to the debt used to finance a portion of the stock transactions and contingent share repurchase (Coniston Transactions) contemplated by the Framework Agreement dated as of June 9, 2010 (the Framework Agreement), among Allscripts, Eclipsys and Misys plc (Misys). This increase reflects the elimination of previously recognized interest expense of legacy Allscripts and legacy Eclipsys;

Increase to stock-based compensation expense for the three and nine months ended September 30, 2010 of \$0 and \$5 million, respectively, related to equity awards of legacy Eclipsys assumed as part of the Eclipsys Merger; and

Operating expenses include a decrease of \$36 million and \$0 for the three and nine months ended September 30, 2010, respectively, to reflect transaction-related expenses of legacy Allscripts and legacy Eclipsys as if the merger occurred as of the beginning of the period presented.

Excluding the net pre-merger impacts of legacy Eclipsys described above, all pro forma adjustments are reflected in pro forma earnings/(loss) assuming an effective income tax rate of 39%.

Table of Contents**3. Fair Value Measurements**

The fair values of assets and liabilities required to be measured at fair value are categorized based upon the level of judgment associated with the inputs used to measure their value. Hierarchical levels are as follows:

Level 1: Inputs are unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date. Our Level 1 investments include money market funds valued daily by the fund companies, and the valuation is based on the publicly reported net asset value of each fund.

Level 2: Inputs, other than quoted prices included in Level 1, are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar instruments in active markets, and inputs other than quoted prices that are observable for the asset or liability. Our Level 2 non-derivative investments include marketable securities and consist of mortgage and asset-backed bonds. Marketable securities are recorded at fair value determined using a market approach, based on prices and other relevant information generated by market transactions involving identical or comparable assets which are considered to be Level 2 inputs. Our Level 2 derivative financial instrument represents an interest rate swap contract.

Level 3: Inputs are unobservable for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. We have no Level 3 financial instruments.

The following table summarizes our financial assets and liabilities measured at fair value on a recurring basis as of the respective balance sheet dates:

(In thousands)	Balance Sheet Classifications	September 30, 2011			December 31, 2010		
		Level 1	Level 2	Total	Level 1	Level 2	Total
Money market funds	Cash equivalents	\$ 2,908	\$ 0	\$ 2,908	\$ 32,003	\$ 0	\$ 32,003
Marketable securities	Long-term marketable securities	0	1,681	1,681	0	1,733	1,733
Derivatives	Other liabilities and Other assets, respectively	0	(2,193)	(2,193)	0	2,003	2,003
Total		\$ 2,908	(\$ 512)	\$ 2,396	\$ 32,003	\$ 3,736	\$ 35,739

We measure our cost method investments at fair value on a nonrecurring basis when they are deemed to be other-than-temporarily impaired. If an evaluation is required, the fair value of these investments will be determined based on valuation techniques using the best information available, and may include quoted market prices, market comparables, and discounted cash flow projections.

In January 2011, we purchased preferred stock of dbMotion Ltd., an innovative provider of health interoperability solutions for connected healthcare. The investment of \$4 million is included in other assets at September 30, 2011.

In April 2011, we purchased preferred stock of Humedica, Inc., a next-generation clinical informatics company that provides SaaS based business intelligence solutions to the healthcare industry. The investment of \$9 million is included in other assets at September 30, 2011.

Our long-term financial liabilities consist of long-term debt with a carrying value that approximates fair value since the interest rate approximates current market rates.

Table of Contents

4. Stockholders Equity

Stock Repurchases

In April 2011, our Board of Directors approved a stock repurchase program under which we may purchase up to \$200 million of our common stock over three years. Any share repurchases may be made through open market transactions, block trades, privately negotiated transactions (including accelerated share repurchase transactions) or other means. We have repurchased approximately 3 million shares of our common stock for \$50 million pursuant to the stock repurchase program. As of September 30, 2011, the amount available for repurchase of common stock under the program was \$150 million.

Any repurchase activity will depend on factors such as our working capital needs, cash requirements for investments, debt repayment obligations, our stock price, and economic and market conditions. Our stock repurchase program may be accelerated, suspended, delayed or discontinued at any time.

Restricted Stock Unit Awards

During the nine months ended September 30, 2011, certain executives were granted awards totaling 426 thousand shares that vest over four years with a grant date fair value of \$9 million. The vesting of these executive awards is also subject to a performance metric specifically designed to qualify the awards for the performance-based exemption under Section 162(m) of the Internal Revenue Code. Stock-based compensation expense related to these awards will be recognized over a four-year vesting period under the accelerated attribution method. Additionally, 85 thousand time-based awards with a grant date fair value of \$2 million were awarded to certain executives. Stock-based compensation expense related to these awards will be recognized over the vesting period which is four years.

During the nine months ended September 30, 2011, certain executives were also awarded performance-based restricted stock units (PBRSU) under the following two performance categories:

Revenues and Adjusted Operating Income

The first category of awards totaling 284 thousand shares with a grant date fair value of \$6 million is based on the achievement of targeted revenue and adjusted operating income for the year ending December 31, 2011, both as defined in the grant agreement. The awards are earned based on actual results achieved compared to targeted amounts. Stock-based compensation expense related to these awards will be recognized over a three-year vesting period under the accelerated attribution method.

Total Shareholder Return

The second category of awards totaling 142 thousand shares with a grant date fair value of \$3 million is dependent on our total shareholder return relative to a specified peer group of companies over a three-year performance period with vesting based on three annual performance segments from the grant date. Fair value of the awards was estimated at the date of grant using the Monte Carlo pricing model. Following completion of the three-year performance period, the Compensation Committee will determine the number of PBRsUs that would vest considering overall performance over the three-year performance period. If the number of shares that would vest under this scenario is greater than the amount vesting under the three annual performance segments, then such greater number of PBRsUs shall vest, reduced by the number of PBRsUs previously vested. Stock-based compensation expense related to these awards will be recognized over a three-year vesting period under the accelerated attribution method.

Table of Contents***Net Share-settlements***

Beginning in 2011, upon vesting, restricted stock units (RSUs) and restricted stock awards (RSAs) are generally net share-settled to cover the required withholding tax and the remaining amount is converted into an equivalent number of shares of common stock. The majority of RSUs and RSAs that have vested in 2011 were net-share settled such that we withheld shares with value equivalent to the employees' minimum statutory obligation for the applicable income and other employment taxes and remitted the cash to the appropriate taxing authorities. The total shares withheld were 116 thousand and 0 for the nine months ended September 30, 2011 and 2010, respectively, and were based on the value of the RSUs and RSAs on their vesting date as determined by our closing stock price. Total payments for the employees' tax obligations to the taxing authorities were \$2 million and \$0 during the nine months ended September 30, 2011 and 2010, respectively, and are reflected as a financing activity within the consolidated statements of cash flows. These net-share settlements had the effect of share repurchases by us as they reduced the number of shares that would have otherwise been issued as a result of the vesting.

5. Comprehensive Income

The components of comprehensive income are as follows:

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Net income	\$ 20,984	\$ 1,373	\$ 49,473	\$ 33,040
Unrealized (loss) gain on marketable securities, net of tax	(7)	4	(6)	65
Foreign currency translation adjustment	(1,933)	381	(1,091)	381
Net unrealized loss on derivative financial instruments, net of tax	(1,147)	0	(2,561)	0
Total comprehensive income	\$ 17,897	\$ 1,758	\$ 45,815	\$ 33,486

Table of Contents**6. Earnings Per Share**

Basic income per share is computed by dividing net income by the weighted-average shares of outstanding common stock. For purposes of calculating diluted earnings per share, the denominator includes both the weighted average shares of common stock outstanding and dilutive potential common stock equivalents. Dilutive common stock equivalent shares consist of stock options and restricted stock unit awards using the treasury stock method.

The calculations of earnings per share are as follows:

(In thousands, except per share amounts)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Basic Earnings per Common Share:				
Net income	\$ 20,984	\$ 1,373	\$ 49,473	\$ 33,040
Weighted average common shares outstanding	188,330	156,112	189,110	149,545
Basic Earnings per Common Share	\$ 0.11	\$ 0.01	\$ 0.26	\$ 0.21
Earnings per Common Share Assuming Dilution:				
Net income	\$ 20,984	\$ 1,373	\$ 49,473	\$ 33,040
Weighted average common shares outstanding	188,330	156,112	189,110	149,545
Dilutive effect of stock options and restricted stock units awards	3,142	3,502	2,906	3,608
Weighted average common shares outstanding assuming dilution	191,472	159,614	192,016	153,153
Earnings per Common Share Assuming Dilution	\$ 0.11	\$ 0.01	\$ 0.26	\$ 0.21

The following stock options and share awards are not included in the computation of diluted earnings per share because the aggregate value of proceeds considered received upon either exercise or vesting were greater than the average market price of our common stock during the related periods and the effect of including such stock options and share awards in the computation would be anti-dilutive:

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Shares subject to anti-dilutive stock options and share awards excluded from calculation	326	250	800	52

Table of Contents**7. Goodwill and Intangible Assets**

Goodwill and intangible assets consist of the following:

(In thousands)	September 30, 2011			December 31, 2010		
	Gross Assets	Accumulated Amortization	Intangible Assets, Net	Gross Assets	Accumulated Amortization	Intangible Assets, Net
Intangibles subject to amortization						
Proprietary technology	\$ 361,660	(\$ 163,350)	\$ 198,310	\$ 361,660	(\$ 142,679)	\$ 218,981
Customer contracts and relationships	534,355	(278,737)	255,618	534,355	(250,667)	283,688
Total	\$ 896,015	(\$ 442,087)	\$ 453,928	\$ 896,015	(\$ 393,346)	\$ 502,669
Intangibles not subject to amortization						
Registered trademarks			\$ 52,000			\$ 52,000
Goodwill			1,039,364			1,037,004
Total			\$ 1,091,364			\$ 1,089,004

Changes in the carrying amount of goodwill by segment were as follows:

(In thousands)	Clinical Solutions Segment	Hospital Solutions Segment	Health Solutions Segment	Total
Balance as of December 31, 2010				
Goodwill	\$ 341,286	\$ 623,614	\$ 72,104	\$ 1,037,004
Accumulated impairment losses	0	0	0	0
	341,286	623,614	72,104	1,037,004
Purchase accounting adjustments	0	2,360	0	2,360
Balance as of September 30, 2011				
Goodwill	341,286	625,974	72,104	1,039,364
Accumulated impairment losses	0	0	0	0
	\$ 341,286	\$ 625,974	\$ 72,104	\$ 1,039,364

Pursuant to our business combinations accounting policy, we record goodwill adjustments for the effect on goodwill of changes to net assets acquired during the measurement period (which can be up to one year from the date of an acquisition). Goodwill purchase accounting adjustments during the nine months ended September 30, 2011 for our hospital solutions segment are primarily related to fair value adjustments of certain acquired tax liabilities.

Table of Contents**8. Debt**

Debt outstanding consisted of the following:

(In thousands)	September 30, 2011	December 31, 2010
Senior Secured Credit Facilities (long-term portion)	\$ 337,557	\$ 459,750
Senior Secured Credit Facilities (current portion)	39,713	29,375
Total debt	\$ 377,270	\$ 489,125

Interest expense consisted of the following:

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Interest expense	\$ 2,981	\$ 2,582	\$ 10,801	\$ 3,186
Debt cost amortization	765	487	3,982	665
Write off of unamortized deferred debt issuance costs	0	468	1,940	614
Total interest expense	\$ 3,746	\$ 3,537	\$ 16,723	\$ 4,465

Table of Contents***Credit Facility***

In connection with the Coniston Transactions, on August 20, 2010 (the Closing Date), Allscripts entered into a Credit Agreement with JPMorgan Chase Bank, N.A., as administrative agent, UBS Securities LLC and Barclays Capital, as co-syndication agents, and a syndicate of banks as co-documentation agents (the Credit Agreement).

The Credit Agreement provides for a \$470 million senior secured term loan facility (the Term Facility) and a \$250 million senior secured revolving facility (the Revolving Facility), each of which has a five year term (collectively the Senior Secured Credit Facilities). In connection with the closing of the Coniston Transactions, Allscripts borrowed \$470 million under the Term Facility and \$100 million under the Revolving Facility. Allscripts incurred \$22 million in debt issuance costs related to the Senior Secured Credit Facilities. The net proceeds were used by Allscripts to finance a portion of the Coniston Transactions. The Revolving Facility is available to finance working capital needs and general corporate purposes.

On March 31, 2011, we entered into an agreement (the Amended and Restated Credit Agreement) with participating lenders to amend and restate the Credit Agreement among the Company and certain parties. The Amended and Restated Credit Agreement includes certain changes to the terms of the Credit Agreement. Certain members of the syndicate of banks supporting the Senior Secured Credit Facilities withdrew upon execution of the Amended and Restated Credit Agreement. Accordingly, funds provided by the withdrawing banks totaling \$49 million were repaid and the same amount was subsequently borrowed from other banks. We incurred additional debt issuance costs totaling \$1 million and wrote off previously deferred debt issuance costs totaling \$2 million to interest expense on the consolidated statement of operations during the nine months ended September 30, 2011 in connection with executing the Amended and Restated Credit Agreement. The additional debt issuance costs incurred were deferred and are included in other assets on the balance sheet at September 30, 2011.

The Amended and Restated Credit Agreement reduces the applicable interest margin for borrowings under the senior credit facilities by 75 basis points at each level of the leverage based pricing grid. In addition, the Commitment Fee was reduced at certain levels of the leverage based pricing grid. The Amended and Restated Credit Agreement also allows the Company to borrow up to \$100 million under its revolving credit facility in certain foreign currencies and increases the leverage ratio in which the Company can make unlimited Restricted Payments from 1.75 to 1 to 2.00 to 1.

The maturity date and principal amount of the senior secured credit facilities remains the same as in the Credit Agreement. In addition, the prepayment provisions and covenants included in the Credit Agreement have not changed, except as discussed above.

The Term Facility matures in quarterly installments which commenced on December 31, 2010, provided that, notwithstanding the above, the remaining principal balance shall be due and payable on the fifth anniversary of the Closing Date. The remaining quarterly installment payments, as adjusted for any prepayments on the Term Facility through September 30, 2011, are as follows (in thousands):

Quarterly Installments	Quarterly Principal Amount
December 31, 2011 to September 30, 2012	\$ 9,928
December 31, 2012 to September 30, 2013	14,892
December 31, 2013 to September 30, 2014	19,856
December 31, 2014 to June 30, 2015	24,820
August 20, 2015	Remaining balance

Table of Contents

A total of \$50 million of the Revolving Facility is available for the issuance of letters of credit and \$10 million of the Revolving Facility is available for swingline loans. Allscripts is also permitted to add one or more incremental revolving and/or term loan facilities in an aggregate amount of up to \$250 million, subject to certain conditions.

Borrowings under the Senior Secured Credit Facilities bear interest, at Allscripts' option, at a rate per annum equal to either (1) the highest of (a) the rate of interest publicly announced by JPMorgan Chase Bank, N.A. as its prime rate in effect at its principal office in New York City, (b) the federal funds effective rate from time to time plus 0.5%, and (c) the rate for Eurodollar deposits as reflected on the applicable Reuters Screen LIBOR01 for a one month interest period, as such rate may be adjusted for certain reserve requirements, plus 1.0%, or (2) the rate for Eurodollar deposits as reflected on the applicable Reuters Screen LIBOR01 for the interest period relevant to such borrowing, as such rate may be adjusted for certain reserve requirements, plus, in each case, the applicable margin. The applicable margin for borrowings under the Senior Secured Credit Facilities was fixed until the date that was three business days after Allscripts' financial statements were delivered to lenders with respect to the first fiscal period ending after September 30, 2010, and thereafter the applicable margin for borrowings under the Senior Secured Credit Facilities is subject to further adjustment based on an agreed upon leverage grid.

Subject to certain agreed upon exceptions, all obligations under the Senior Secured Credit Facilities are guaranteed by each of Allscripts' existing and future direct and indirect material domestic subsidiaries, other than Coniston Exchange LLC (successor to Coniston, Inc.) (the "Guarantors").

The obligations of Allscripts and each Guarantor under the Senior Secured Credit Facilities, any swap agreements and any cash management arrangements provided by any lender, are secured, subject to permitted liens and other agreed upon exceptions, by a perfected first priority security interest in all of the tangible and intangible assets (including, without limitation, intellectual property, material owned real property and all of the capital stock of each Guarantor and, in the case of foreign subsidiaries, up to 65% of the capital stock of first tier material foreign subsidiaries) of Allscripts and the Guarantors.

Subject to certain exceptions, Allscripts is required to prepay the Term Facility: (i) with 100% of the net cash proceeds received from the incurrence of certain indebtedness for borrowed money; (ii) with 100% of the net cash proceeds of the sale of any assets in excess of \$5 million outside the ordinary course of business (including, without limitation, insurance and condemnation proceeds) in any fiscal year, subject to reinvestment rights; and (iii) with 50% of Allscripts' excess cash flow for each fiscal year, beginning with the 2012 fiscal year. No prepayments under clauses (ii) or (iii) above are required to the extent that Allscripts' total leverage ratio is less than 2.5 to 1.0. Allscripts may voluntarily prepay outstanding loans under the Senior Secured Credit Facilities, in whole or in part, at Allscripts' option at any time upon prior notice.

Table of Contents

The Senior Secured Credit Facilities contain a number of covenants that, among other things, restrict, subject to certain exceptions, Allscripts ability to:

incur indebtedness (including guarantee obligations);

create liens on and sell assets;

engage in mergers or consolidations;

declare dividends and other payments in respect of our capital stock;

make investments, loans and advances;

engage in transactions with affiliates;

enter into sale and leaseback transactions; and

change lines of business.

In addition, the Senior Secured Credit Facilities include a maximum leverage ratio of 3.0 to 1.0 and a minimum interest coverage ratio of 4.5 to 1.0. The leverage ratio is calculated by dividing total indebtedness by earnings before interest expense, income tax expense, depreciation and amortization expense. The minimum interest coverage ratio is calculated by dividing earnings before interest expense and income tax expense by cash interest expense.

The facilities also contain certain customary events of default, including relating to non-payment, breach of covenants, cross-default, bankruptcy and change of control.

As of September 30, 2011, \$377 million in borrowings and \$2 million in letters of credit were outstanding under the Amended and Restated Credit Agreement. As of September 30, 2011, the interest rate on the Senior Secured Credit Facilities was LIBOR plus 1.75%, which totaled 1.99%. Refer to Note 12 for the discussion of the interest rate swap agreement. There was no default under the Amended and Restated Credit Agreement as of September 30, 2011. As of September 30, 2011, the unamortized deferred debt issuance costs totaled \$16 million, and are included within other assets on the balance sheet.

As of September 30, 2011, we had \$248 million available, net of any outstanding borrowings and letters of credit, under the Revolving Facility. There can be no assurance that we will be able to draw on the full available balance of our Amended and Restated Credit Agreement if the financial institutions that have extended such credit commitments become unwilling or unable to fund such borrowings.

Table of Contents

9. Income Taxes

We account for income taxes in accordance with authoritative accounting guidance which establishes financial accounting and reporting standards for the effect of income taxes. The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in an entity's financial statements or tax returns. Judgment is required in addressing the future tax consequences of events that have been recognized in our consolidated financial statements or tax returns.

In addition, we are subject to the continuous examination of our income tax returns by the Internal Revenue Service and other tax authorities. A change in the assessment of the outcomes of such matters could materially impact our consolidated financial statements.

We file income tax returns in the U.S. federal jurisdiction, numerous states and multiple international countries.

The acquired tax position related to the Coniston Transactions is indemnified by Misys in accordance with the Framework Agreement. Accordingly, an indemnification asset totaling \$28 million, including related interest, has been recorded and is included in other assets. The recoverability of the indemnification asset is supported by a bank guarantee. The amount of the bank guarantee might be insufficient to fully cover taxes applicable to the historical transactions of Coniston Exchange LLC (successor to Coniston, Inc.) that might be imposed. Furthermore, although not expected, there could be circumstances in which the bank guarantee is reduced or terminated prior to the extinguishment of the resulting tax liabilities.

The provision for income taxes reflects our estimate of the effective tax rate expected to be applicable for the full year. To the extent that actual pre-tax results for the year differ from the forecasted estimates applied at the end of the most recent interim period, the actual tax rate recognized during calendar 2011 could be different from the forecast rate. The effective tax rate was 38.5% and 130.5% for the three months ended September 30, 2011 and 2010, respectively, and 36.9% and 31.0% for the nine months ended September 30, 2011 and 2010, respectively.

The effective tax rate decreased in the three months ended September 30, 2011 compared to the prior year due to nondeductible expenses incurred in the prior year related to the Eclipsys merger and Coniston transactions. The effective tax rate for the nine months ended September 30, 2011 is higher compared to the prior year primarily due to the recognition of several years' research and development credits during the prior year and the recognition of a benefit related to the revaluation of state deferred tax liabilities during the nine months ended September 30, 2010.

Table of Contents

10. Commitment with Strategic Partner

On March 31, 2011, we entered into a ten year agreement with Affiliated Computer Services, Inc. (ACS) to provide services to support our remote hosting services for our Sunrise acute care clients. We will maintain all customer relationships and domain expertise with respect to the hosted applications. The agreement encompasses our payment to ACS for current Allscripts employees to be retained by ACS from our hosting staff, new remote hosting staff and technology infrastructure, as well as other data center and hosting services, in the amount of approximately \$50 million per year. During April 2011, in connection with the agreement we sold a portion of our hosting equipment and infrastructure related to our Sunrise acute care clients to ACS for cash at a value approximating book value of such assets totaling \$20 million. Expenses incurred under this agreement are included in cost of revenue and totaled \$10 million and \$14 million for the three and nine months ended September 30, 2011, respectively.

Table of Contents**11. Business Segments**

Authoritative guidance establishes standards for reporting information about operating segments in annual financial statements and requires selected information about operating segments in interim financial reports issued to stockholders. Operating segments are defined as components of an enterprise for which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance.

We have organized our business around groups of similar customers, which resulted in three reportable segments: clinical solutions, hospital solutions and health solutions. The clinical solutions segment derives its revenue from the sale of clinical and practice management solutions and related services to physicians. Clinical solutions include electronic medical records software, practice management software, related installation and training services, electronic claims administration services and the resale of related hardware. The hospital solutions segment reflects the operations, subsequent to the completion of the merger, August 24, 2010, of our acute care hospital solutions acquired in the Eclipsys Merger. The hospital solutions segment derives its revenue from the sale of clinical and practice management solutions and related services to hospital providers. Hospital solutions include software, related installation and training services, the resale of related hardware, hosting of our software and outsourced solutions. The health solutions segment derives its revenue from the sale of clinical and practice management solutions and related services to hospital and homecare providers. Health solutions include software, related installation and training services, the resale of related hardware and hosting of our software.

We do not track our assets by segment or allocate interest and income taxes to its operating segments. In addition, we record corporate selling, general, and administrative expenses and amortization of intangibles in its unallocated corporate costs. These costs are not included in the evaluation of the financial performance of the operating segments.

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Revenue				
Clinical solutions	\$ 173,375	\$ 160,957	\$ 514,678	\$ 478,557
Hospital solutions	162,411	51,228	451,955	51,228
Health solutions	32,977	30,208	94,269	88,373
Total revenue	\$ 368,763	\$ 242,393	\$ 1,060,902	\$ 618,158
Income from operations				
Clinical solutions	\$ 42,991	\$ 40,574	\$ 131,491	\$ 128,070
Hospital solutions	34,748	8,005	100,240	8,005
Health solutions	18,414	16,570	50,630	46,593
Unallocated corporate expenses	(58,727)	(66,368)	(188,387)	(131,274)
Total income (loss) from operations	\$ 37,426	(\$ 1,219)	\$ 93,974	\$ 51,394

Table of Contents**12. Derivative Financial Instruments*****Interest Rate Swap Agreement***

We entered into an interest rate swap agreement with an effective date of October 29, 2010 that has the economic effect of modifying the variable rate component of the interest obligations associated with a portion of our variable rate debt. The initial notional amount of the interest rate swap agreement is \$300 million, with scheduled step downs in the future, and a final termination date of October 31, 2014. The interest rate swap agreement converts the one-month LIBOR rate on the corresponding notional amount of debt to an effective fixed rate of 0.896% (exclusive of the applicable margin currently charged under the Senior Secured Credit Facilities). The critical terms of the interest rate swap agreement and the related debt agreement match and allow us to designate the interest rate swap agreement as a highly effective cash flow hedge under GAAP. The interest rate swap agreement protects us against changes in interest payments due to benchmark interest rate movements. The change in fair value of this interest rate swap agreement is recognized in other comprehensive income with the corresponding amounts included in other assets or other liabilities in our consolidated balance sheet. Amounts accumulated in other comprehensive income are indirectly recognized in earnings as periodic settlements of the swap occur and the fair value of the swap declines to zero.

The interest rate swap agreement is currently our only derivative instrument and it is not used for trading purposes. Allscripts has not entered into any foreign currency hedging contracts during the three and nine months ended September 30, 2011 and 2010. In the future we may enter into foreign currency exchange contracts to offset certain operational exposures from the impact of changes in foreign exchange rates.

The fair value of the derivative instrument was as follows:

(In thousands)	September 30, 2011	December 31, 2010
Fair value of interest rate swap agreement	(\$ 2,193)	\$ 2,003

We recognized the following activity related to our interest rate swap agreement:

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Effective Portion				
Loss recognized in OCI, net of tax effects of \$738, \$0, \$1,635 and \$0, respectively	(\$ 1,147)	\$ 0	(\$ 2,561)	\$ 0
Loss reclassified from OCI to interest expense	\$ 535	\$ 0	\$ 1,528	\$ 0
Amount excluded from Effectiveness Assessment and Ineffective Portion				
Gain (loss) recognized in other income (expense)	\$ 0	\$ 0	\$ 0	\$ 0

We estimate that \$2 million of derivative losses included in other comprehensive income (OCI) will be reclassified into earnings within the next 12 months. This amount has been calculated assuming the variable effective interest rate 1.99% as of September 30, 2011 remains the same through the next 12 months. No gains (losses) were reclassified from OCI into earnings as a result of forecasted transactions that failed to occur during the three and nine months ended September 30, 2011. We held no other derivative instruments during the three and nine months ended September 30, 2010.

There were no realized gains (losses) on derivatives for the three and nine months ended September 30, 2011 and 2010, other than those related to the periodic settlement of the swap.

Table of Contents

13. Recent Accounting Pronouncements

In September 2011, the Financial Accounting Standards Board (FASB) issued updated authoritative guidance for testing goodwill for impairment. This guidance allows entities to use a qualitative approach to test goodwill for impairment. The guidance permits an entity to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value. If it is concluded that this is the case, it is necessary to perform the currently prescribed two-step goodwill impairment test. Otherwise, the two-step goodwill impairment test is not required. This guidance is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted. We do not believe our adoption of this new guidance will have a significant impact on our consolidated financial statements.

In June 2011, the FASB issued guidance on the presentation of comprehensive income. Specifically, the new guidance requires an entity to present components of net income and other comprehensive income in one continuous statement, referred to as the statement of comprehensive income, or in two separate, but consecutive statements. The new guidance eliminates the current option to report other comprehensive income and its components in the statement of changes in equity. While the new guidance changes the presentation of comprehensive income, there are no changes to the components that are recognized in net income or other comprehensive income under current accounting guidance. This new guidance is effective for fiscal years and interim periods beginning after December 15, 2011 and should be applied retrospectively. Early adoption is permitted. We do not believe our adoption of this new guidance will have a significant impact on our consolidated financial statements.

In May 2011, the FASB issued additional authoritative guidance related to fair value measurements and disclosures to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. This guidance changes certain fair value measurement principles and enhances the disclosure requirements particularly for level 3 fair value measurements. The guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2011 and should be applied prospectively. We are currently evaluating the potential impact of this guidance on our consolidated financial statements.

In December 2010, the FASB issued accounting guidance for when to perform step 2 of the goodwill impairment test for reporting units with zero or negative carrying amounts. This guidance amends the criteria for performing step 2 of the goodwill impairment test for reporting units with zero or negative carrying amounts and requires performing step 2 if qualitative factors indicate that it is more likely than not that a goodwill impairment exists. This accounting guidance is effective for fiscal years beginning after December 15, 2010. Early adoption is not permitted. This guidance did not have an impact on the consolidated financial statements.

In December 2010, the FASB issued guidance regarding the disclosure of supplementary pro forma information for business combinations to improve consistency in how pro forma disclosures are calculated by enhancing the disclosure requirements and requiring a description of the nature and amount of any material, nonrecurring pro forma adjustments directly attributable to a business combination. This updated guidance is effective for us in 2011 and should be applied prospectively to business combinations for which the acquisition date is after the effective date. Early adoption is permitted. Accordingly, we adopted this new guidance on the effective date and it will be applied prospectively to business combination disclosures for which the acquisition date is on or after the effective date.

Table of Contents

In February 2010, the FASB revised the guidance to include additional disclosure requirements related to fair value measurements. The guidance adds the requirement to disclose transfers in and out of Level 1 and 2 measurements and the reasons for the transfers and a gross presentation of activity within the Level 3 roll forward. The guidance also includes clarifications to existing disclosure requirements on the level of disaggregation and disclosures regarding inputs and valuation techniques. The guidance applies to all entities required to make disclosures about recurring and nonrecurring fair value measurements. We adopted the guidance on June 1, 2010 for interim and annual reporting, except for the gross presentation of the Level 3 roll forward information, which will be required for interim and annual periods beginning June 1, 2011. This guidance did not have a material impact on the consolidated financial statements.

In October 2009, the FASB issued updated guidance that amends existing revenue recognition accounting pronouncements that have multiple element arrangements. This updated guidance provides accounting principles and application guidance on whether multiple deliverables exist, how the arrangement should be separated, and the consideration allocated. This new approach is effective for fiscal years beginning on or after June 15, 2010 and may be applied retrospectively or prospectively for new or materially modified arrangements. In addition, early adoption is permitted. We adopted the updated guidance prospectively effective January 1, 2011. This guidance did not have a material impact on the consolidated financial statements.

In October 2009, the FASB issued updated guidance related to certain arrangements that contain software elements, which amends revenue recognition to exclude tangible products that include software and non-software components that function together to deliver the product's essential functionality. This updated guidance will be applied on a prospective basis for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Earlier application is permitted as of the beginning of a company's fiscal year provided the company has not previously issued financial statements for any period within that year. An entity shall not elect early application of this update unless it also elects early application of the update related to multiple element arrangements. We therefore adopted the updated guidance prospectively effective January 1, 2011. This guidance did not have a material impact on the consolidated financial statements.

14. Contingencies

On August 4, 2009, a lawsuit was filed in the United States District Court for the Northern District of Illinois against the Company, Glen Tullman and William Davis by the Plumbers and Pipefitters Local Union No. 630 Pension-Annuity Trust Fund on behalf of a purported class consisting of stockholders who purchased Allscripts common stock between May 8, 2007 and February 13, 2008. On October 13, 2009, David Robb was appointed lead plaintiff, and on November 25, 2009, an amended complaint was filed containing allegations that the Company, Tullman and Davis made materially false and misleading statements and/or omissions in connection with the release of TouchWorks EHR, Version 11. On January 11, 2010, the Company filed a motion to dismiss the lawsuit. On April 13, 2010, the court granted the Company's motion to dismiss on the grounds that plaintiffs failed to sufficiently describe the confidential sources upon which the allegations in the amended complaint were based. On May 12, 2010, the court granted plaintiffs leave to replead. On May 14, 2010, plaintiffs filed a second amended complaint, which attributed certain allegations to four different confidential witnesses, but made no other substantive changes. On June 11, 2010, the Company filed a motion to dismiss the second amended complaint. On March 10, 2011, the motion was granted in substantial part. However, the Court denied the motion with respect to two alleged false statements. The defendants have answered the remaining portions of the complaint, are engaged in discovery and intend to vigorously defend the litigation.

On or about June 15, 2010, Rajesh Nama, on behalf of himself and the public stockholders of Eclipsys, filed a purported class action complaint in the Superior Court of DeKalb County, State of Georgia, captioned Nama v. Pead, et al. The lawsuit names Allscripts, Arsenal Merger Corp. (Arsenal), Eclipsys, and each of the directors of Eclipsys as defendants. On or about June 17, 2010, John Scoggins, on behalf of himself and the public stockholders of Eclipsys, filed a second purported class action complaint in the same court and against the same defendants (except not Arsenal) captioned Scoggins v. Eclipsys Corp., et al. On or about June 18, 2010, Colleen Witmer, on behalf of herself and the public stockholders of Eclipsys, filed a third purported class action complaint in the same court and against the same defendants as the first case and captioned Witmer v. Casey, et al. On or about June 22, 2010, Michael Hiers, on behalf of himself and the public stockholders of Eclipsys, filed a fourth purported class action complaint in the same court and against the same parties as the first case and captioned Hiers v. Casey, et al. On or about June 22, 2010, the Iron Workers of Western Pennsylvania Pension Plan, on behalf of itself and the public stockholders of Eclipsys, filed a fifth purported class action complaint in the Superior Court of Fulton County, State of Georgia, and against the same defendants as the first case (except not Allscripts or Arsenal) and captioned Iron Workers of W. Pennsylvania Pension Plan v. Pead, et al.

On or about June 30, 2010, the plaintiff in the Iron Workers case dismissed its complaint in the Superior Court of Fulton County, State of Georgia and refiled its complaint in the Superior Court of Gwinnett County, State of Georgia. On or about July 9, 2010, the plaintiff in the Iron Workers case filed an Amended Complaint. On or about July 9, 2010, Jody Madala, individually and on behalf of the public stockholders of Eclipsys, filed a sixth purported class action complaint in the Superior Court of Gwinnett County, State of Georgia against the same defendants as the first case (except not Allscripts or Arsenal) captioned Madala v. Pead et al. The cases in the Superior Court of DeKalb County were subsequently transferred to the Superior Court of Gwinnett County, Business Case Division.

Table of Contents

The lawsuits allege, among other things, that the Eclipsys directors breached their fiduciary duties and that Eclipsys aided and abetted those breaches. Five of the complaints (excepting the first) also allege facts concerning the proposed secondary public offering of certain Allscripts shares owned by Misys and the buy back by Allscripts of certain shares owned by Misys. Certain lawsuits also contain allegations that the joint proxy statement/prospectus/information statement on Form S-4 is materially misleading in certain respects including the omission of information concerning certain financial projections and whether or how the parties and their financial advisors have accounted for certain proceeds to be paid to Misys in the stock buy back. Certain lawsuits also allege that Allscripts aided and abetted such alleged breaches of fiduciary duties by the directors of Eclipsys. Based on these allegations, the lawsuits seek, among other relief, rescission of the merger or damages. They also purport to seek recovery of the costs of the action, including reasonable attorneys' fees.

On or about July 27, 2010, the Superior Court of Gwinnett County, Business Case Division, granted the Eclipsys defendants' motion to dismiss the Iron Workers' Amended Complaint. On or about August 5, 2010, the Georgia Court of Appeals denied Iron Workers' emergency request for an injunction pending appeal. The appeal was then briefed in the ordinary course. On November 12, 2010, Iron Workers moved to dismiss its appeal, which the Georgia Court of Appeals granted, rendering conclusive the Superior Court's dismissal with prejudice of the Iron Workers lawsuit.

Also on November 12, 2010, the plaintiff in the Madala case filed a motion to amend her complaint and to lift the litigation stay that had been entered by the Superior Court in the other five cases listed above pending the Iron Workers appeal. Defendants opposed Madala's motion. On January 19, 2011, the parties filed a stipulation of dismissal, pursuant to which the Superior Court dismissed Madala's claims with prejudice. The remaining four lawsuits remain stayed by the Superior Court.

The outcome of any of the foregoing litigation is inherently uncertain, and no reasonable estimate of potential damages is possible. Each company may incur substantial defense costs and expenses. An unfavorable outcome may adversely affect the combined company's business, financial condition or results of operations.

In addition to commitments and obligations in the ordinary course of business, we are subject to various claims, other pending and potential legal actions for damages and other matters arising in the normal conduct of our business, including intellectual property infringement, misappropriation or other intellectual property violation claims. The matter described below relates to an intellectual property claim asserted against the Company. The Company believes that the matter described in the next paragraph is not material and does not relate to the core of the Company's applications. The Company also believes that it has strong defensive positions in such matter, but the outcomes of patent and other intellectual property lawsuits are often uncertain and such lawsuits are typically expensive to litigate.

On September 14, 2010, Pegasus Imaging Corporation ("Pegasus") filed a lawsuit against the Company and AllscriptsMisys, LLC in the Circuit Court of the Thirteenth Judicial Circuit of the State of Florida in and for Hillsborough County, Florida. The lawsuit also named former officers Jeffrey Amrein and John Reinhart as defendants. Prior to serving the complaint, Pegasus filed an amended complaint dropping two of the claims that had been asserted and adding two additional defendants, which are two now-defunct Florida corporations that formerly did business with the Company. The amended complaint asserts causes of action against defendants for fraudulent misrepresentations, negligent misrepresentations, and deceptive and unfair trade practices under Florida law, arising from previous business dealings between Pegasus and Advanced Imaging Concepts, Inc., a software company based in Louisville, Kentucky that the Company purchased in August 2003. On or about November 1, 2010, Defendants moved to transfer the case to the special court for complex business litigation that resides in Hillsborough County, Florida. The Florida Business Court granted Defendants' motion for transfer on January 13, 2011. The Defendants also filed motions to dismiss the amended complaint on November 16, 2010 and December 6, 2010. The motions to dismiss were denied on April 1, 2011 and we have answered the complaint. Discovery in this matter is ongoing. The case is currently on the court's September 2012 trial calendar.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Overview

Eclipsys Merger

On August 24, 2010, Allscripts-Misys Healthcare Solutions, Inc. (which changed its name to Allscripts Healthcare Solutions, Inc., Allscripts or the Company) completed the merger (the Eclipsys Merger) contemplated by an Agreement and Plan of Merger dated June 9, 2010 (Merger Agreement) by and among Allscripts, Arsenal Merger Corp., a wholly-owned subsidiary of Allscripts, and Eclipsys Corporation, an enterprise provider of solutions and services to hospitals and clinicians (Eclipsys). Eclipsys became a wholly-owned subsidiary of Allscripts as a result of the merger. The results of Eclipsys are consolidated with the results of Allscripts from August 24, 2010.

Basis of Presentation

The merger with Eclipsys has been accounted for as a purchase business combination. Under the acquisition method of accounting, the purchase price was allocated to the tangible and intangible assets acquired and liabilities assumed based on their estimated fair values as of the acquisition date. The operating results of Eclipsys are included in the accompanying consolidated statements of operations for periods subsequent to the completion of the merger, August 24, 2010.

Table of Contents

Business Overview

Allscripts is a leading provider of clinical, financial, connectivity and information solutions and related professional services that empower hospitals, physicians and post-acute organizations to deliver world-class outcomes. Our businesses deliver innovative solutions that provide physicians, nurses and other healthcare professionals with just-right, just-in-time information, connect them to each other across the entire community of care, and transform healthcare by improving the quality and efficiency of patient care.

We provide a variety of integrated clinical software applications for hospitals, physician practices and post-acute organizations. For hospitals and health systems these include our Sunrise Enterprise suite of clinical solutions, comprising a full acute care Electronic Health Record (EHR), integrated with financial/administrative solutions including performance management and revenue cycle/access management. Our acute care solutions include modules of the Sunrise suite available on a stand-alone basis, as well as additional stand-alone solutions including Emergency Department Information System (EDIS), care management and discharge management. Allscripts Outsourcing enables hospitals to concentrate on their core mission while using IT to improve clinical, financial and operational outcomes. Allscripts Remote Hosting helps healthcare organizations manage their complex healthcare IT solutions infrastructure while freeing up the physical space, resources and costs associated with maintaining computer servers and deploying client-based applications on-site.

For physician practices of every size and kind, our solutions include: integrated EHR and practice management functionality available either via traditional on-premise delivery or as a Software-as-a-Service (SaaS) or cloud-based solution; revenue cycle management software and our new Revenue Cycle Management Services solution that enable practices to outsource their full revenue cycle to Allscripts or address requirements in-house; clearinghouse services; stand-alone electronic prescribing; and document imaging solutions for physician practices. Allscripts also provides a variety of solutions for home care and other post-acute organizations ranging from EHR to referral management.

All three categories of clients leverage Allscripts mobile solutions that deliver EHR and other capabilities for remote use on a wide variety of mobile devices including iPad, iPhone, BlackBerry, Android and Windows Mobile smartphones. Additional add-on applications include our patient portal, patient kiosk, prenatal, and analytics solutions. Our community-based solutions for hospitals and health systems, delivered in partnership with dbMotion, deliver meaningful health information exchange and enable information connectivity across entire communities of providers, which helps our clients compete in an evolving marketplace.

We have reported our financial results utilizing three business segments: clinical solutions, hospital solutions and health solutions.

We primarily derive our revenue from sales of our proprietary software and related hardware and professional services in the segments presented above. These sales also are the basis for our complementary recurring service contracts for maintenance and transaction processing. See below for a discussion of our outlook for new orders and other factors that could have an impact on our revenue and cash flows.

Table of Contents

We believe a combination of executive branch and legislative leadership at the federal level, the promulgation of new industry standards, expanded support from private payers, and the availability of several federal and state incentives that exist today for e-prescribing, EHR utilization and pay-for-quality initiatives will soon make EHRs as common as practice management systems in ambulatory physician offices. It is our belief that the HITECH Act (passed as part of the American Recovery and Reinvestment Act of 2009 (ARRA)) and provisions included in other pieces of legislation is becoming the single biggest driver of technology adoption in the history of the healthcare industry since the requirement of electronic claims submissions. We believe that widespread expectations that the Department of Health and Human Services may defer the start of Stage 2 of the HITECH incentive program is helping larger provider organizations feel comfortable moving forward with their implementation plans. At the same time, we believe we are well positioned to capitalize on growth opportunities beyond ARRA, especially as the industry transitions to a value-driven reimbursement system within both public and private payment schemas. The approach of paying providers more for improving patient health rather than for the volume of services they provide will increasingly require healthcare organizations to invest in information solutions like those provided by Allscripts to enable them to track, analyze, aggregate and report patient health outcomes and then implement improvement plans after analyzing the information.

Management believes that ARRA has resulted in additional related new orders for all of our EHR products and we expect this to remain the case in the short term.

Additionally, we continue to experience demand in small physician offices for subscription-based SaaS arrangements as opposed to pure licensing arrangements, which reflects a broader motivation to reduce capital outlays. This shift to subscription from license (which is the manner in which we traditionally sell our software applications) results in recurring revenue over a longer period of time than we have achieved historically, as opposed to revenue recognized on license fees.

We also continue to see an increase in local community-based buying activity whereby individual hospitals, health systems and integrated delivery networks are subsidizing the purchase of EHR licenses or related services for their affiliated physicians to leverage buying power and take advantage of ARRA incentives across their physician base. This activity has also resulted in a pull-through effect where smaller practices affiliated with the community hospital are also incentivized to participate, even without a subsidy, so the health system can expand connectivity within the larger local provider community and connect to its affiliated providers. This pull-through effect has contributed to new orders for our Professional EHR and MyWay offerings. Management believes that the focus on new orders driven by the federal EHR incentive program will continue to expand as more physicians seek to qualify for the federal incentives and other healthcare IT-driven programs. The associated challenge facing our management is to successfully position and sell our products to the hospital, health system or integrated delivery network that is subsidizing its affiliated physicians.

Table of Contents

A significant number of our acute care and ambulatory customers are focused on qualifying for ARRA incentive payments in 2011. As a result, much of our professional services deployment capacity is focused on helping our customers upgrade to the current releases of our EHR products that are certified EHR technology under HITECH regulatory definitions as well as implement any additional modules that may be required by our customers to achieve meaningful use. Our professional services margins could be impacted as we supplement our staff with third party resources to help meet the demand. We expect this adoption trend to continue into the near future as meaningful use Stage 2 requirements are defined and customers react to such requirements as well as other value-driven programs being unveiled by the government. These might include the Accountable Care Organization concept, value-based purchasing regulations, and the expansion of the patient-centered medical home concept, which is an area of significant interest among the Allscripts client base.

Today we provide one of the most comprehensive solution offerings for healthcare organizations of every size and setting. By combining physician-office and post-acute care solutions with enterprise solutions for hospitals and health systems, the company offers a single platform of clinical, financial, connectivity and information solutions connecting every significant sector of healthcare.

Given the breadth of our solutions portfolio and customer types, we are uniquely positioned to connect physicians, other care providers and patients across care settings including hospitals, small or large physician practices, post-acute care facilities, or in a home care setting. We are experiencing increasing success competing for net-new opportunities among hospitals and health systems that are looking to one information technology vendor to provide a single, end-to-end solution across all points of care. We believe our leading market share in the ambulatory space, in particular, gives us a competitive advantage in this regard as hospitals and health systems increasingly seek to leverage the EHR to build referring relationships with independent physicians across the communities they serve. At the same time, we are experiencing increasing success competing for new opportunities among hospitals and health systems that prefer to keep the best of their existing IT systems while upgrading their inpatient EHR. Our open Helios-based architecture platform for Sunrise Clinical Manager enables Allscripts to deliver an inpatient EHR that can easily be interfaced with existing laboratory, radiology, financial and other third-party systems. We are seeing significant interest in this approach among both large and community hospitals who prefer to avoid a rip-and-replace strategy.

Other recently enacted public laws reforming the U.S. healthcare system may also have an impact on our business. The Patient Protection and Affordable Care Act (H.R. 3590; Public Law 111-148) (PPACA) and The Health Care and Education and Reconciliation Act of 2010 (H.R. 4872) (the Reconciliation Act), which amends the PPACA (collectively the Health Reform Laws), were signed into law in March 2010. The Health Reform Laws contain various provisions which may impact the Company and the Company's customers. Some of these provisions may have a positive impact, such as prompting further expansion in the use of electronic health records in certain federal programs, for example, while others, such as reductions in reimbursement for certain types of providers, may have a negative impact. Increases in fraud and abuse penalties may also adversely affect participants in the healthcare sector, including the Company. Additionally, the recent legislation addressing the need for an increase in the country's debt ceiling could prove to negatively affect client cash flow from the Medicare and Medicaid programs, as could the potential compromise currently under discussion by the Joint Select Committee on Deficit Reduction, thereby leading to a delay in purchasing plans. The implementation of regulations related to ANSI-5010 and ICD-10 are also of immediate interest to our client base; these will present a positive opportunity for the company in the context of product upgrades but also could place a burden on Allscripts to meet implementation and training demands in the midst of an already demanding environment.

Table of Contents

Critical Accounting Policies and Estimates

There were no material changes to our critical accounting policies as previously disclosed in our Transition Report on Form 10-KT for the seven months ended December 31, 2010 except for the change described below.

During the three months ended June 30, 2011, we voluntarily changed the date of our annual impairment test for goodwill and indefinite lived intangible assets from May 31 to the first day of the fiscal fourth quarter. This change is preferable under the circumstances as it aligns the timing of the annual goodwill impairment test with our strategic planning and budgeting process, which will allow management to utilize the updated strategic business plans that result from the budget process in the discounted cash flow analyses that it uses to estimate the fair value of our reporting units. The change did not delay, accelerate, nor avoid an impairment charge. This change is not applied retrospectively as it is impracticable to do so because retrospective application would require the application of significant estimates and assumptions with the use of hindsight. Accordingly, the change will be applied prospectively.

Table of Contents**Revenue**

Revenue for the three and nine months ended September 30, 2011 includes the results of Eclipsys, and revenue for the three and nine months ended September 30, 2010 includes the results of Eclipsys from the date of the merger, August 24, 2010. Excluding the impact of Eclipsys revenue totaling \$162 million and \$51 million for the three months ended September 30, 2011 and 2010, respectively, and \$452 million and \$51 million for the nine months ended September 30, 2011 and 2010, respectively, as shown below in the Hospital Solutions segment, revenue for the three and nine months ended September 30, 2011 and 2010 consists of the following:

(Dollar amounts in thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2011	2010	% Change	2011	2010	% Change
Revenue:						
System sales	\$ 40,040	\$ 40,276	(0.6%)	\$ 121,911	\$ 128,936	(5.4%)
Professional services	33,843	28,054	20.6%	93,199	71,447	30.4%
Maintenance	70,173	64,444	8.9%	204,207	194,089	5.2%
Transaction processing and other	62,296	58,391	6.7%	189,630	172,458	10.0%
Total revenue	\$ 206,352	\$ 191,165	7.9%	\$ 608,947	\$ 566,930	7.4%

Three and Nine Months Ended September 30, 2011 Compared to the Three and Nine Months Ended September 30, 2010

Excluding the revenues contributed by Eclipsys during the three and nine months ended September 30, 2011 and 2010, total revenue increased due to higher professional services revenue which was driven by an increase in professional services headcount which increased our ability to provide more billable services. We increased headcount primarily in response to the demand associated with meaningful use upgrade services. Also, maintenance revenue and transaction processing revenue both increased primarily related to growth in our customer base and annual maintenance fee increases under existing contracts. Partially offsetting the increase in maintenance revenue for the nine months ended September 30, 2011 is a \$4 million decrease in hardware maintenance revenues. SaaS revenues are included in transaction processing and other and contributed \$4 million and \$12 million of the increase in revenue compared to the three and nine months ended September 30, 2010, respectively. Partially offsetting the increase in total revenue for the nine months ended September 30, 2011 is a decrease in system sales compared to the prior year due to a decrease in system software revenues. The recast prior year comparable period includes the last two months of our fourth quarter results under our prior fiscal year, May 31. Our fourth quarter has historically been the quarter with the highest amount of software revenues. Accordingly, the recast 2010 comparable period's software revenues are high when compared to the software revenues for the nine months ended September 30, 2011.

Table of Contents**Gross Profit**

Gross profit for the three and nine months ended September 30, 2011 includes the results of Eclipsys, and gross profit for the three and nine months ended September 30, 2010 includes the results of Eclipsys from the date of the merger, August 24, 2010. Excluding the impact of Eclipsys gross profit totaling \$65 million and \$21 million for the three months ended September 30, 2011 and 2010, respectively, and \$183 million and \$21 million for the nine months ended September 30, 2011 and 2010, respectively, as shown below in the Hospital Solutions segment, gross profit for the three and nine months ended September 30, 2011 and 2010 consists of the following:

(Dollar amounts in thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2011	2010	% Change	2011	2010	% Change
Total cost of revenue	\$ 103,942	\$ 87,277	19.1%	\$ 297,361	\$ 254,412	16.9%
Gross profit	\$ 102,410	\$ 103,888	(1.4%)	\$ 311,586	\$ 312,518	(0.3%)
% of Revenue	49.6%	54.3%		51.2%	55.1%	

Three Months Ended September 30, 2011 Compared to the Three Months Ended September 30, 2010

Excluding the impact of gross profit contributed by Eclipsys during the three months ended September 30, 2011 and 2010, the slight decrease in gross profit is attributable to a \$3 million increase in the amortization of software development costs and an increase in professional services cost of revenue primarily due to the increased use of third party resources to assist us in meeting demand attributable to meaningful use upgrade services which offset an increase in professional services revenue. Also, an increase in transaction processing and other revenue was offset by higher costs as we added headcount and made infrastructure improvements in response to an increase in our customer base due to increased demand for our SaaS solutions. These decreases were partially offset by an increase in software maintenance revenue. Gross profit as a percent of revenue declined compared to the prior year due primarily to the increases in amortization of software development costs, professional services costs and transaction processing related costs.

Nine Months Ended September 30, 2011 Compared to the Nine Months Ended September 30, 2010

Excluding the impact of gross profit contributed by Eclipsys during the nine months ended September 30, 2011 and 2010, we realized a small decrease in gross profit attributable to a decrease in software revenues discussed above combined with a \$9 million increase in the amortization of software development costs, and an increase in professional services revenue which is offset by an increase in costs due to the increased use of third party resources to assist us in meeting demand attributable to meaningful use upgrade services. These decreases were partially offset by an increase in software maintenance revenue and an increase in transaction processing and other revenue that was driven by an increase in our customer base due to increased demand for our SaaS solutions. Transaction processing revenue was partially offset by higher costs due to an increase in headcount and costs associated with infrastructure improvements. Gross profit as a percent of revenue declined compared to the prior year due primarily to the increases in amortization of software development costs, professional services costs and additional transaction processing related costs.

Table of Contents**Income from Operations**

Income from operations for the three and nine months ended September 30, 2011 includes the results of Eclipsys, and income from operations for the three and nine months ended September 30, 2010 includes the results of Eclipsys from the date of the merger, August 24, 2010. Excluding the impact of Eclipsys income (loss) from operations totaling \$10 million and (\$7) million for the three months ended September 30, 2011 and 2010, respectively, and \$26 million and (\$7) million for the nine months ended September 30, 2011 and 2010, respectively, income from operations for the three and nine months ended September 30, 2011 and 2010 consists of the following:

(Dollar amounts in thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2011	2010	% Change	2011	2010	% Change
Income from operations	\$ 27,920	\$ 6,012	364.4%	\$ 68,024	\$ 58,625	16.0%

Three Months Ended September 30, 2011 Compared to the Three Months Ended September 30, 2010

Excluding the impact of operating income by Eclipsys during the three months ended September 30, 2011 and 2010, the increase in operating income is primarily due to a decrease in expenses incurred relating to the Eclipsys Merger and other integration-related costs totaling \$18 million as compared to the prior year and a decrease in headcount-related expenses. Partially offsetting these decreases in expenses was a decrease in gross profit discussed above and a net increase in research and development expenses of \$2 million due primarily to a decrease in the capitalization of software development costs during the three months ended September 30, 2011 compared to the prior year. Income from operations reflects capitalization of software development costs during the three months ended September 30, 2011 and 2010 totaling \$8 million and \$14 million, respectively. Capitalization of such costs is higher in the prior year as we increased development efforts to address initial meaningful use requirements.

The Eclipsys income from operations for the three months ended September 30, 2011 and 2010 includes a \$2 million and \$7 million, respectively, deferred revenue adjustment related to the Eclipsys Merger that negatively impacts revenue, amortization of intangibles acquired in the Eclipsys Merger totaling \$12 million and \$5 million, respectively, and reflects capitalized software development costs of \$8 million and \$2 million, respectively.

Nine Months Ended September 30, 2011 Compared to the Nine Months Ended September 30, 2010

Excluding the impact of operating income by Eclipsys during the nine months ended September 30, 2011 and 2010, the increase in operating income is primarily due to a decrease in expenses incurred relating to the Eclipsys Merger and other integration-related costs totaling \$8 million as compared to the prior year and a decrease in headcount-related expenses. Partially offsetting these decreases in expenses is an increase in stock compensation expense and an increase in legal expenses in connection with general legal matters, negotiating transactions with customers and addressing claims asserted against the Company. Research and development expenses increased slightly primarily due to a decrease in the capitalization of software development costs compared to the prior year.

The Eclipsys income from operations for the nine months ended September 30, 2011 and 2010 includes a \$19 million and \$7 million, respectively, deferred revenue adjustment related to the Eclipsys Merger that negatively impacts revenue, amortization of intangibles acquired in the Eclipsys Merger totaling \$37 million and \$5 million, respectively, and reflects capitalized software developments costs of \$22 million and \$2 million, respectively.

Table of Contents

Revenue

Three and Nine Months Ended September 30, 2011 Compared to the Three and Nine Months Ended September 30, 2010

Clinical solutions revenue increased during the three and nine months ended September 30, 2011 primarily due to an increase in professional services revenue driven by an increase in professional services headcount which increased our ability to provide more billable services. Maintenance revenue and transaction processing revenue also increased primarily related to growth in our customer base and annual maintenance fee increases under existing contracts. These increases in revenue for the nine months ended September 30, 2011 were partially offset by a decrease in system sales compared to the nine months ended September 30, 2010 primarily due to a decrease in software revenues. The recast prior year comparable period includes the last two months of our fourth quarter results under our prior fiscal year, May 31. Our fourth quarter has historically been the quarter with the highest amount of software revenues. Accordingly, the recast comparable period software revenues are high when compared to the software revenues for the nine months ended September 30, 2011.

Gross Profit

Three Months Ended September 30, 2011 Compared to the Three Months Ended September 30, 2010

Clinical solutions gross profit decreased during the three months ended September 30, 2011 primarily due to an increase in professional services cost of revenue attributable to the increased use of third party resources to assist us in meeting demand attributable to meaningful use upgrade services which offset an increase in professional services revenue, an increase of \$2 million in the amortization of software development costs, and an increase in transaction processing-related costs as we increased headcount and improved our infrastructure in response to demand for our SaaS and hosting solutions which offset the increase transaction processing revenue. These increases were partially offset by an increase in maintenance revenue. Gross profit as a percent of revenue declined compared to the prior year comparable period due primarily to the increases in amortization of software development costs, professional services costs and additional transaction processing related costs incurred.

Nine Months Ended September 30, 2011 Compared to the Nine Months Ended September 30, 2010

Clinical solutions gross profit decreased during the nine months ended September 30, 2011 primarily due to the decrease in software revenues discussed above combined with a \$7 million increase in the amortization of software development costs and an increase in professional services cost of revenue attributable to the increased use of third party resources to assist us in meeting demand attributable to meaningful use upgrade services which offset an increase in professional services revenue. Partially offsetting these changes was an increase in maintenance primarily related to growth in our customer base and annual maintenance fee increases under existing contracts. Gross profit as a percent of revenue declined compared to the prior year due primarily to the increases in amortization of software development costs, and professional services costs described above and additional transaction processing related costs incurred as we increased headcount and improved our infrastructure in response to increased demand for our SaaS and hosting solutions.

Table of Contents

Selling, General and Administrative

Three and Nine Months Ended September 30, 2011 Compared to the Three and Nine Months Ended September 30, 2010

Clinical solutions selling, general and administrative expenses during the three and nine months ended September 30, 2011 decreased compared to the prior year comparable periods primarily due to lower headcount-related costs.

Research and Development

Three and Nine Months Ended September 30, 2011 Compared to the Three and Nine Months Ended September 30, 2010

Clinical solutions research and development costs increased slightly during the three and nine months ended September 30, 2011 primarily due to a decrease in the capitalization of software development costs of \$3 million and \$1 million, respectively, which was partially offset by a decrease in headcount-related costs due to fewer external research and development resources required to achieve our development objectives. Capitalization of software development costs is higher in the prior year as we increased development efforts to address initial meaningful use requirements.

Income from operations	\$ 34,748	\$ 8,005	NM	\$ 100,240	\$ 8,005	NM

Revenues and expenses for the three and nine months ended September 30, 2010 reflect the operations, subsequent to the completion of the merger, August 24, 2010, of our acute care hospital solutions acquired in the Eclipsys Merger.

System sales and professional services are revenue categories driven by client orders and the mix of such orders (i.e., software, hardware, professional services, etc.). Maintenance and transaction processing and other revenues are also driven by client orders; however, these revenue categories are more recurring in nature and include offerings such as remote hosting and outsourcing. Overall, revenues are negatively impacted by the amortization of a deferred revenue adjustment related to the Eclipsys Merger totaling \$2 million and \$19 million for the three and nine months ended September 30, 2011, respectively. Gross profit is also negatively impacted by this same adjustment in addition to amortization of intangibles acquired in the Eclipsys Merger totaling \$4 million and \$13 million for the three and nine months ended September 30, 2011, respectively. Selling, general and administrative expenses, and research and development expenses, reflect recurring costs of the hospital solutions segment, and are net of capitalized software development costs of \$8 million and \$22 million for the three and nine months ended September 30, 2011, respectively.

Revenue

Three and Nine Months Ended September 30, 2011 Compared to the Three and Nine Months Ended September 30, 2010

Health solutions revenue increased during the three and nine months ended September 30, 2011 primarily as a result of increases in transaction processing and other revenue driven by increased demand for our SaaS solutions. Partially offsetting these increases is a decrease in system sales as our revenue mix continues to shift more to SaaS solutions.

Gross Profit

Three and Nine Months Ended September 30, 2011 Compared to the Three and Nine Months Ended September 30, 2010

Health solutions gross profit during the three and nine months ended September 30, 2011 increased compared to the prior year due to increase in maintenance and transaction processing and other revenue which was offset by a decrease in system sales and an increase in the amortization of software development costs. Gross profit as a percentage of revenue for the three and nine months ended September 30, 2011 decreased from the prior year primarily due to an increase in amortization of software development costs and other software-related costs. We also realized a slight change in our revenue mix which included a higher percentage of lower margin hardware sales.

Selling, General and Administrative

Three and Nine Months Ended September 30, 2011 Compared to the Three and Nine Months Ended September 30, 2010

Health solutions selling, general and administrative expenses for the three and nine months ended September 30, 2011 decreased due to lower headcount-related expenses.

Research and Development

Three and Nine Months Ended September 30, 2011 Compared to the Three and Nine Months Ended September 30, 2010

Edgar Filing: ALLSCRIPTS HEALTHCARE SOLUTIONS, INC. - Form 10-Q

Health solutions research and development costs increased in the three months ended September 30, 2011 primarily due to a decrease in the capitalization of software development costs. Research and development expenses in the nine months ended September 30, 2011 were in line with the prior year amount.

Table of Contents*Unallocated Corporate Expenses*

(Dollar amounts in thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2011	2010	% Change	2011	2010	% Change
Unallocated corporate expenses						
Selling, general and administrative expenses	(49,305)	(60,792)	(18.9%)	(160,316)	(120,722)	32.8%
Amortization of intangible assets	(9,422)	(5,576)	69.0%	(28,071)	(10,552)	166.0%
Total unallocated corporate expenses included in income from operations	(\$ 58,727)	(\$ 66,368)	(11.5%)	(\$ 188,387)	(\$ 131,274)	43.5%

Three and Nine Months Ended September 30, 2011 Compared to the Three and Nine Months Ended September 30, 2010

Selling, general and administrative expenses decreased during the three months ended September 30, 2011 primarily due to a decrease in expenses incurred relating to the Eclipsys Merger and other integration-related costs totaling \$18 million and a decrease in headcount-related expenses partially offset by increases in stock compensation expense and legal expenses incurred in connection with general legal matters, negotiating transactions with customers and addressing claims asserted against the Company.

Selling, general and administrative expenses increased during the nine months ended September 30, 2011 primarily due to increases in headcount-related expenses, stock compensation expense and legal expenses incurred in connection with general legal matters, negotiating transactions with customers and addressing claims asserted against the Company. These increases were partially offset by a decrease in expenses incurred relating to the Eclipsys Merger and other integration-related costs totaling \$8 million.

Unallocated corporate selling, general and administrative expenses include expenses incurred by legacy Eclipsys totaling \$17 million and \$12 million for the three months ended September 30, 2011 and 2010, respectively, and \$51 million and \$12 million for the nine months ended September 30, 2011 and 2010, respectively.

Unallocated corporate amortization of intangible assets increased during the three and nine months ended September 30, 2011 as a result of amortization expense related to intangible assets acquired in the Eclipsys Merger totaling \$8 million and \$3 million for the three months ended September 30, 2011 and 2010, respectively, and \$24 million and \$3 million for the nine months ended September 30, 2011 and 2010, respectively.

Table of Contents**Interest Expense**

(Dollar amounts in thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2011	2010	% Change	2011	2010	% Change
Interest expense	(\$ 3,746)	(\$ 3,537)	5.9%	(\$ 16,723)	(\$ 4,465)	274.5%

Three and Nine Months Ended September 30, 2011 Compared to the Three and Nine Months Ended September 30, 2010

Interest expense increased during the three and nine months ended September 30, 2011 as compared to the prior year comparable periods due to interest incurred on the amounts drawn against the Senior Secured Credit Facilities in order to fund the Coniston Transactions, and the write-off during the nine months ended September 30, 2011 of previously deferred debt issuance costs totaling \$2 million in connection with executing the Amended and Restated Credit Agreement.

Interest Income and Other, Net

(Dollar amounts in thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2011	2010	% Change	2011	2010	% Change
Interest income and other, net	\$ 425	\$ 250	70.0%	\$ 1,184	\$ 979	20.9%

Three and Nine Months Ended September 30, 2011 Compared to the Three and Nine Months Ended September 30, 2010

The increase in interest income and other, net during the three months ended September 30, 2011 is primarily due to an increase in the imputed interest income from the indemnification asset provided in connection with the acquired tax positions from the Coniston Transactions.

Interest income and other, net during the nine months ended September 30, 2011 was in line with the prior year comparable period.

Table of Contents**Income Tax Expense**

(Dollar amounts in thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2011	2010	% Change	2011	2010	% Change
(Provision) benefit for income taxes	(\$ 13,121)	\$ 5,879	(323.2%)	(\$ 28,962)	(\$ 14,868)	94.8%
Effective tax rate	38.5%	130.5%		36.9%	31.0%	

Three and Nine Months Ended September 30, 2011 Compared to the Three and Nine Months Ended September 30, 2010

The effective tax rate decreased in the three months ended September 30, 2011 compared to the prior year due to nondeductible expenses incurred in the prior year related to the Eclipsys merger and Coniston transactions. The effective tax rate for the nine months ended September 30, 2011 is higher compared to the prior year primarily due to the recognition of several years' research and development credits during the prior year and the recognition of a benefit related to the revaluation of state deferred tax liabilities during the nine months ended September 30, 2010.

Contract Backlog

As of September 30, 2011 and 2010, we had a committed contract backlog of \$2,765 million and \$2,593 million, respectively. Of the total contract backlog, \$631 million and \$589 million, as of September 30, 2011 and 2010, respectively, was related to long-term SaaS contract commitments.

Bookings

Bookings reflect the value of executed contracts for software, hardware, services, remote hosting, outsourcing and SaaS, and totaled \$267 million and \$199 million in the three months ended September 30, 2011 and 2010, respectively, and \$724 million and \$640 million in the nine months ended September 30, 2011 and 2010, respectively. Bookings amounts for the three and nine months ended September 30, 2010 include pre-merger amounts of legacy Eclipsys.

Table of Contents**Liquidity and Capital Resources**

As of September 30, 2011 and 2010, our principal sources of liquidity consisted of cash, cash equivalents and marketable securities of \$86 million and \$122 million, respectively, and our revolving credit facility described below. The change in our cash balance is reflective of the following:

Operating Cash Flow Activities

(In thousands)	Nine Months Ended September 30,		
	2011	2010	\$ Change
Net income	\$ 49,473	\$ 33,040	\$ 16,433
Non-cash adjustments to net income	158,376	73,669	84,707
Cash impact of changes in operating assets and liabilities	(46,524)	(2,140)	(44,384)
Net cash provided by operating activities	\$ 161,325	\$ 104,569	\$ 56,756

Nine Months Ended September 30, 2011 Compared to the Nine Months Ended September 30, 2010

Net cash provided by operating activities increased in the nine months ended September 30, 2011 primarily due to an increase in cash received from customers attributable to the cash contribution by legacy Eclipsys from the date of the merger, August 24, 2010. This increase was partially offset by an increase in operating disbursements also attributable to legacy Eclipsys.

Table of Contents**Investing Cash Flow Activities**

(In thousands)	Nine Months Ended September 30,		
	2011	2010	\$ Change
Capital expenditures	(\$ 33,301)	(\$ 18,622)	(\$ 14,679)
Capitalized software	(46,529)	(28,767)	(17,762)
Net (purchases) sales and maturities of marketable securities and other investments	(12,857)	2,788	(15,645)
Proceeds received from sale of fixed assets	20,000	0	20,000
Change in restricted cash	2,225	2,216	9
Net cash acquired in merger with Eclipsys	0	170,102	(170,102)
Net cash (used in) provided by investing activities	(\$ 70,462)	\$ 127,717	(\$ 198,179)

Nine Months Ended September 30, 2011 Compared to the Nine Months Ended September 30, 2010

Net cash used in investing activities increased during the nine months ended September 30, 2011 primarily due to increases in capital expenditures and software development expenditures. Also, the prior year includes cash and restricted cash acquired in the Eclipsys Merger. The increase in capital expenditures is related to the acquisition of computer equipment and software to improve our information systems infrastructure and to accommodate data management and hosting related to our SaaS and hosting solutions. The capitalization of software development costs increased as a result of the increased level of research and development expenditures during the nine months ended September 30, 2011 that was driven by new product initiatives and regulatory updates to existing products related to meaningful use. Capital expenditures and capitalized software expenditures are also higher during the nine months ended September 30, 2011 due to the inclusion of amounts related to legacy Eclipsys. Our investments in dbMotion Ltd. and Humedica, Inc. also contributed to the increase. These increases were partially offset by proceeds received from the sale of a portion of our hosting equipment and infrastructure related to our Sunrise acute care clients to Affiliated Computer Services, Inc. (ACS), and the elimination of our restricted cash balance due to the expiration of certain letters of credit.

Financing Cash Flow Activities

(In thousands)	Nine Months Ended September 30,		
	2011	2010	\$ Change
Net proceeds from stock-based compensation activities and employee stock purchase plan	\$ 27,481	\$ 2,913	\$ 24,568
Excess tax benefits from stock-based compensation	4,688	(605)	5,293
Taxes paid related to net share settlement of equity awards	(2,179)	0	(2,179)
Payments on debt instruments	(161,570)	(64,953)	(96,617)
Credit facility borrowings, net of issuance costs	47,193	547,744	(500,551)
Repurchase of common stock	(50,051)	(679,000)	628,949
Net cash used in financing activities	(\$ 134,438)	(\$ 193,901)	\$ 59,463

Nine Months Ended September 30, 2011 Compared to the Nine Months Ended September 30, 2010

Net cash used in financing activities decreased during the nine months ended September 30, 2011 compared to the prior year primarily due to the current year increase in proceeds from stock-based compensation activities and considering the prior year effects of the repurchase of common stock related to the reduction of Misys plc ownership in Allscripts and proceeds from the Senior Secured Credit Facilities which were used to fund the Coniston Transactions in connection with the Eclipsys Merger did not recur. Payments on debt instruments increased due to repayment of borrowings under the Senior Secured Credit Facilities which originated in August 2010. Also, additional payments and borrowings, each totaling \$49 million, net of \$1 million in debt issuance costs, occurred in the current year in connection with the Amended and Restated Credit Agreement. We repurchased approximately 3 million shares of our common stock for \$50 million during the nine months ended September 30,

Edgar Filing: ALLSCRIPTS HEALTHCARE SOLUTIONS, INC. - Form 10-Q

2011 pursuant to the stock repurchase program. As of September 30, 2011, the amount available for repurchase of common stock under the program was \$150 million.

Table of Contents***Free Cash Flow***

To supplement our statements of cash flows presented on a GAAP basis, we use a non-GAAP measure of free cash flow which we believe is also useful as one of the bases for evaluating our performance. We believe free cash flow is an important liquidity metric, as it measures the amount of cash generated that is available to repay our current debt obligations, make investments, fund acquisitions, repurchase our common stock and for certain other activities. The presentation of non-GAAP free cash flow is not meant to be considered in isolation and should not be considered a substitute for income from operations, net income, net cash provided by operating activities or any other measure determined in accordance with GAAP. Operating asset and liability balances can fluctuate significantly from period to period and there can be no assurance that free cash flow will not be negatively impacted by material changes in operating assets and liabilities in future periods, since these changes depend upon, among other things, management's timing of payments and cash receipts. In addition to fluctuations resulting from changes in operating assets and liabilities, free cash flow can vary significantly from period to period depending upon, among other things, operating efficiencies, increases or decreases in capital expenditures and capitalized software, and other factors.

We calculate free cash flow as follows:

(In thousands)	Nine Months Ended September 30,		
	2011	2010	\$ Change
Net cash provided by operating activities	\$ 161,325	\$ 104,569	\$ 56,756
Capital expenditures	(33,301)	(18,622)	(14,679)
Capitalized software	(46,529)	(28,767)	(17,762)
Free cash flow	\$ 81,495	\$ 57,180	\$ 24,315

Amounts for each element of the table above are as reported in our consolidated statements of cash flows presented in accordance with GAAP.

Table of Contents**Future Capital Requirements**

In connection with the Coniston Transactions, on August 20, 2010 (the Closing Date), Allscripts entered into a Credit Agreement with JPMorgan Chase Bank, N.A., as administrative agent, UBS Securities LLC and Barclays Capital, as co-syndication agents, and a syndicate of banks as co-documentation agents (the Credit Agreement).

The Credit Agreement provides for a \$470 million senior secured term loan facility (the Term Facility) and a \$250 million senior secured revolving facility (the Revolving Facility), each of which has a five year term (collectively the Senior Secured Credit Facilities). In connection with the closing of the Coniston Transactions, Allscripts borrowed \$470 million under the Term Facility and \$100 million under the Revolving Facility. Allscripts incurred \$22 million in debt issuance costs related to the Senior Secured Credit Facilities. The net proceeds were used by Allscripts to finance a portion of the Coniston Transactions. The Revolving Facility is available to finance working capital needs and general corporate purposes.

On March 31, 2011, we entered into an agreement (the Amended and Restated Credit Agreement) with participating lenders to amend and restate the Credit Agreement among the Company and certain parties. The Amended and Restated Credit Agreement includes certain changes to the terms of the Credit Agreement. Certain members of the syndicate of banks supporting the Senior Secured Credit Facilities withdrew upon execution of the Amended and Restated Credit Agreement. Accordingly, funds provided by the withdrawing banks totaling \$49 million were repaid and the same amount was subsequently borrowed from other banks. We incurred additional debt issuance costs totaling \$1 million and wrote off previously deferred debt issuance costs totaling \$2 million to interest expense on the consolidated statement of operations during the nine months ended September 30, 2011 in connection with executing the Amended and Restated Credit Agreement. The additional debt issuance costs incurred were deferred and are included in other assets on the balance sheet at September 30, 2011.

The Amended and Restated Credit Agreement reduces the applicable interest margin for borrowings under the senior credit facilities by 75 basis points at each level of the leverage based pricing grid. In addition, the Commitment Fee was reduced at certain levels of the leverage based pricing grid. The Amended and Restated Credit Agreement also allows the Company to borrow up to \$100 million under its revolving credit facility in certain foreign currencies and increases the leverage ratio in which the Company can make unlimited Restricted Payments from 1.75 to 1 to 2.00 to 1.

The maturity date and principal amount of the senior secured credit facilities remains the same as in the Credit Agreement. In addition, the prepayment provisions and covenants included in the Credit Agreement have not changed, except as discussed above.

The Term Facility matures in quarterly installments which commenced on December 31, 2010, provided that, notwithstanding the above, the remaining principal balance shall be due and payable on the fifth anniversary of the Closing Date. The remaining quarterly installment payments, as adjusted for any prepayments on the Term Facility through September 30, 2011, are as follows (in thousands):

Quarterly Installments	Quarterly Principal Amount
December 31, 2011 to September 30, 2012	\$ 9,928
December 31, 2012 to September 30, 2013	14,892
December 31, 2013 to September 30, 2014	19,856
December 31, 2014 to June 30, 2015	24,820
August 20, 2015	Remaining balance

Table of Contents

A total of \$50 million of the Revolving Facility is available for the issuance of letters of credit and \$10 million of the Revolving Facility is available for swingline loans. Allscripts is also permitted to add one or more incremental revolving and/or term loan facilities in an aggregate amount of up to \$250 million, subject to certain conditions.

Borrowings under the Senior Secured Credit Facilities bear interest, at Allscripts' option, at a rate per annum equal to either (1) the highest of (a) the rate of interest publicly announced by JPMorgan Chase Bank, N.A. as its prime rate in effect at its principal office in New York City, (b) the federal funds effective rate from time to time plus 0.5%, and (c) the rate for Eurodollar deposits as reflected on the applicable Reuters Screen LIBOR01 for a one month interest period, as such rate may be adjusted for certain reserve requirements, plus 1.0%, or (2) the rate for Eurodollar deposits as reflected on the applicable Reuters Screen LIBOR01 for the interest period relevant to such borrowing, as such rate may be adjusted for certain reserve requirements, plus, in each case, the applicable margin. The applicable margin for borrowings under the Senior Secured Credit Facilities was fixed until the date that was three business days after Allscripts' financial statements were delivered to lenders with respect to the first fiscal period ending after September 30, 2010, and thereafter the applicable margin for borrowings under the Senior Secured Credit Facilities is subject to further adjustment based on an agreed upon leverage grid.

Subject to certain agreed upon exceptions, all obligations under the Senior Secured Credit Facilities are guaranteed by each of Allscripts' existing and future direct and indirect material domestic subsidiaries, other than Coniston Exchange LLC (successor to Coniston, Inc.) (the "Guarantors").

The obligations of Allscripts and each Guarantor under the Senior Secured Credit Facilities, any swap agreements and any cash management arrangements provided by any lender, are secured, subject to permitted liens and other agreed upon exceptions, by a perfected first priority security interest in all of the tangible and intangible assets (including, without limitation, intellectual property, material owned real property and all of the capital stock of each Guarantor and, in the case of foreign subsidiaries, up to 65% of the capital stock of first tier material foreign subsidiaries) of Allscripts and the Guarantors.

Subject to certain exceptions, Allscripts is required to prepay the Term Facility: (i) with 100% of the net cash proceeds received from the incurrence of certain indebtedness for borrowed money; (ii) with 100% of the net cash proceeds of the sale of any assets in excess of \$5 million outside the ordinary course of business (including, without limitation, insurance and condemnation proceeds) in any fiscal year, subject to reinvestment rights; and (iii) with 50% of Allscripts' excess cash flow for each fiscal year, beginning with the 2012 fiscal year. No prepayments under clauses (ii) or (iii) above are required to the extent that Allscripts' total leverage ratio is less than 2.5 to 1.0. Allscripts may voluntarily prepay outstanding loans under the Senior Secured Credit Facilities, in whole or in part, at Allscripts' option at any time upon prior notice.

Table of Contents

The Senior Secured Credit Facilities contain a number of covenants that, among other things, restrict, subject to certain exceptions, Allscripts ability to:

incur indebtedness (including guarantee obligations);

create liens on and sell assets;

engage in mergers or consolidations;

declare dividends and other payments in respect of our capital stock;

make investments, loans and advances;

engage in transactions with affiliates;

enter into sale and leaseback transactions; and

change lines of business.

In addition, the Senior Secured Credit Facilities include a maximum leverage ratio of 3.0 to 1.0 and a minimum interest coverage ratio of 4.5 to 1.0. The leverage ratio is calculated by dividing total indebtedness by earnings before interest expense, income tax expense, depreciation and amortization expense. The minimum interest coverage ratio is calculated by dividing earnings before interest expense and income tax expense by cash interest expense.

The facilities also contain certain customary events of default, including relating to non-payment, breach of covenants, cross-default, bankruptcy and change of control.

As of September 30, 2011, \$377 million in borrowings and \$2 million in letters of credit were outstanding under the Amended and Restated Credit Agreement. As of September 30, 2011, the interest rate on the Senior Secured Credit Facilities was LIBOR plus 1.75%, which totaled 1.99%. Refer to Quantitative and Qualitative Disclosures About Market Risk for the interest rate swap agreement. There was no default under the Amended and Restated Credit Agreement as of September 30, 2011.

As of September 30, 2011, we had \$248 million available, net of any outstanding borrowings and letters of credit, under the Revolving Facility. There can be no assurance that we will be able to draw on the full available balance of our Amended and Restated Credit Agreement if the financial institutions that have extended such credit commitments become unwilling or unable to fund such borrowings.

Table of Contents

On March 31, 2011, we entered into a ten year agreement with ACS to provide services to support our remote hosting services for our Sunrise acute care clients. We will maintain all customer relationships and domain expertise with respect to the hosted applications. The agreement encompasses our payment to ACS for current Allscripts employees to be retained by ACS from our hosting staff, new remote hosting staff and technology infrastructure, as well as other data center and hosting services, in the amount of approximately \$50 million per year. During April 2011, in connection with the agreement we sold a portion of our hosting equipment and infrastructure related to our Sunrise acute care clients to ACS for cash at a value approximating book value of such assets totaling \$20 million.

In April 2011, our Board of Directors approved a stock repurchase program under which we may purchase up to \$200 million of our common stock over three years. Any share repurchases may be made through open market transactions, block trades, privately negotiated transactions (including accelerated share repurchase transactions) or other means. We have repurchased approximately 3 million shares of our common stock for \$50 million pursuant to the stock repurchase program. As of September 30, 2011, the amount available for repurchase of common stock under the program was \$150 million.

Any repurchase activity will depend on factors such as our working capital needs, cash requirements for investments, debt repayment obligations, our stock price, and economic and market conditions. Our stock repurchase program may be accelerated, suspended, delayed or discontinued at any time.

We believe that our cash, cash equivalents and marketable securities of \$86 million as of September 30, 2011, our future cash flows, and our borrowing capacity under our Amended and Restated Credit Agreement, taken together, provide adequate resources to fund ongoing operating cash requirements for the next twelve months, funding interest payments on our debt instruments, contractual obligations, including the agreement with ACS, and investment needs of our current business. We cannot provide assurance that our actual cash requirements will not be greater than we expect as of the date of this report. We will, from time to time, consider the acquisition of, or investment in, complementary businesses, products, services and technologies, which might impact our liquidity requirements or cause us to issue additional equity or debt securities.

If sources of liquidity are not available or if we cannot generate sufficient cash flow from operations during the next twelve months, we might be required to obtain additional sources of funds through additional operating improvements, capital market transactions, asset sales or financing from third parties, a combination thereof or otherwise. We cannot provide assurance that these additional sources of funds will be available or, if available, would have reasonable terms.

Contractual Obligations, Commitments and Off Balance Sheet Arrangements

We have various contractual obligations, which are recorded as liabilities in our consolidated financial statements. Other items, such as operating lease contract obligations are not recognized as liabilities in our consolidated financial statements but are required to be disclosed.

With the exception of the agreement with ACS described above under Future Capital Requirements, there were no material changes, outside of the ordinary course of business, to our off-balance sheet arrangements and contractual obligations as previously disclosed in our Transition Report on Form 10-KT for the seven months ended December 31, 2010.

Recent Accounting Pronouncements

We hereby incorporate by reference Note 13, *Recent Accounting Pronouncements*, of the Notes to Consolidated Financial Statements in Part I, Item 1 of this report.

Safe Harbor for Forward-Looking Statements

This report contains forward-looking statements within the meaning of the federal securities laws that involve risks and uncertainties. We develop forward-looking statements by combining currently available information with our beliefs and assumptions. These statements relate to future events, including our future performance, and management's expectations, beliefs, intentions, plans or projections relating to the future and some of these statements can be identified by the use of forward-looking terminology such as believes, expects, anticipates, estimates, projects, intends, seeks, future, continue, contemplate, would, will, may, should, and the negative or other variations of those terms or other terminology or by discussion of strategy, plans, opportunities or intentions. As a result, actual results, performance or achievements may vary materially from those anticipated by the forward-looking statements.

Among the factors that could cause actual results, performance or achievements to differ materially from those indicated by such forward-looking statements are:

the risk that we will not achieve the strategic benefits of the Eclipsys Merger;

the possibility that the expected synergies and cost savings of the Eclipsys Merger will not be realized, or will not be realized within the expected time period;

the risk that our business will not be integrated successfully with the business of Eclipsys;

disruption from the Eclipsys Merger and related transactions making it more difficult to maintain business relationships with customers, partners and others;

unexpected requirements to achieve interoperability certification pursuant to the Health Information Technology for Economic and Clinical Health Act, with resulting increases in development and other costs for us;

the volume and timing of systems sales and installations, the length of sales cycles and the installation process and the possibility that our products will not achieve or sustain market acceptance;

the timing, cost and success or failure of new product and service introductions, development and product upgrade releases;

competitive pressures including product offerings, pricing and promotional activities;

errors or similar problems in our software products;

the outcome of any legal proceeding that has been or may be instituted against us and others;

compliance obligations under existing laws, regulations and industry initiatives and future changes in laws or regulations in the healthcare industry, including possible regulation of our software by the U.S. Food and Drug Administration;

the possibility of product-related liabilities;

our ability to attract and retain qualified personnel;

the implementation and speed of acceptance of the electronic record provisions of the American Recovery and Reinvestment Act of 2009, as well as elements of the Patient Protection and Affordable Care Act (aka health reform) which pertains to health IT adoption;

maintaining our intellectual property rights and litigation involving intellectual property rights;

legislative, regulatory and economic developments;

risks related to third-party suppliers and our ability to obtain, use or successfully integrate third-party licensed technology;

breach of our security by third parties; and

those factors discussed in **Risk Factors** in our periodic filings with the Securities and Exchange Commission (the **SEC**). We make these statements under the protection afforded by Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Because forward-looking statements are subject to assumptions and uncertainties, actual results, performance or achievements may differ materially from those expressed or implied by such forward-looking statements. Stockholders are cautioned not to place undue reliance on such statements, which speak only as of the date such statements are made. Except to the extent required by applicable law or regulation, Allscripts undertakes no obligation to revise or update any forward-looking statement, or to make any other forward-looking statements, whether as a result of new information, future events or otherwise.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risks, primarily changes in U.S. and LIBOR interest rates. Allscripts is exposed to the risk that our earnings and cash flows could be adversely impacted by fluctuations in interest rates due to the cash borrowed under our Senior Secured Credit Facilities. Based upon our balance of \$377 million of debt under our Senior Secured Credit Facilities as of September 30, 2011, an increase in interest rates of 1.0% would cause a corresponding increase in our annual interest expense of \$4 million. We entered into an interest rate swap agreement with an effective date of October 29, 2010 that has the economic effect of modifying the variable rate component of the interest obligations associated with a portion of our variable rate debt. The initial notional amount of the interest rate swap agreement is \$300 million, with scheduled step downs in the future, and a final termination date of October 31, 2014. The interest rate swap agreement converts the one-month LIBOR rate on the corresponding notional amount of debt to an effective fixed rate of 0.896% (exclusive of the applicable margin currently charged under the Senior Secured Credit Facilities). The interest rate swap agreement protects us against changes in interest payments due to benchmark interest rate movements.

Allscripts has international operations; therefore, we are exposed to risks related to foreign currency fluctuations. Foreign currency fluctuations through September 30, 2011 have not had a material impact on our financial position or results of operations. We continually monitor our exposure to foreign currency fluctuations and may use derivative financial instruments and hedging transactions in the future if, in our judgment, the circumstances warrant their use. We believe most of our international operations are naturally hedged for foreign currency risk as our foreign subsidiaries invoice their clients and satisfy their obligations primarily in their local currencies with the exception of our development center in India. Our development center in India is not naturally hedged for foreign currency risk since their obligations are paid in their local currency but are funded in U.S. dollars. There can be no guarantee that the impact of foreign currency fluctuations in the future will not be significant and will not have a material impact on our financial position or results of operations.

As of September 30, 2011, we had cash, cash equivalents and marketable securities in financial instruments of \$86 million. Declines in interest rates over time will reduce our interest income from our investments. Based upon our balance of cash, cash equivalents and marketable securities as of September 30, 2011, a decrease in interest rates of 1.0% would cause a corresponding decrease in our annual interest income of \$1 million.

Table of Contents

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures

As of September 30, 2011, our management, including our Chief Executive Officer and Chief Financial Officer, have reviewed and evaluated the effectiveness of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b). Based on their review and evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective.

Changes in Internal Controls over Financial Reporting

There has been no change in our internal controls over financial reporting during the quarter ended September 30, 2011 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. Legal Proceedings**

We hereby incorporate by reference Note 14, Contingencies, of the Notes to Consolidated Financial Statements in Part I, Item 1 of this report.

Item 2. Unregistered Sales of Equity Securities, Use of Proceeds and Issuer Purchases of Equity Securities

In April 2011, our Board of Directors approved a stock repurchase program under which we may purchase up to \$200 million of our common stock over three years. Any share repurchases may be made through open market transactions, block trades, privately negotiated transactions (including accelerated share repurchase transactions) or other means.

Any repurchase activity will depend on factors such as our working capital needs, cash requirements for investments, debt repayment obligations, our stock price, and economic and market conditions. Our stock repurchase program may be accelerated, suspended, delayed or discontinued at any time.

The following table summarizes the stock repurchase activity for the three months ended September 30, 2011 and the approximate dollar value of shares that may yet be purchased pursuant to our stock repurchase program:

(In thousands, except per share amounts)

Period	Total Number Of Shares Purchased	Average Price Paid Per Share	Total Number Of Share Purchased As Part Of Publicly Announced Plans Or Programs	Approximate Dollar Value Of Shares That May Yet Be Purchased Under The Plans Or Programs
7/1/11 7/31/11	0	\$ 0.00	0	\$ 150,000
8/1/11 8/31/11	0	\$ 0.00	0	\$ 150,000
9/1/11 9/30/11	0	\$ 0.00	0	\$ 150,000
	0	\$ 0.00	0	

Item 5. Other Information

In April 2011, the Company disclosed the separation from the Company of John Gomez, former Executive Vice President and Chief Technology Officer, Product Development & Delivery, of the Company and that Mr. Gomez would remain a consultant for 18 months. In September 2011, despite the parties' intentions, the Company and Mr. Gomez were unable to agree on terms and, as a result, Mr. Gomez is not providing consulting services to the Company. As previously announced in July 2011, Cliff Meltzer joined the Company as Executive Vice President, Product Solutions.
