Table of Contents**ENERSYS****NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (Unaudited)****(In Thousands, Except Share and Per Share Data)****1. Basis of Presentation**

The accompanying interim unaudited consolidated condensed financial statements of EnerSys (the Company) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and notes required for complete financial statements. In the opinion of management, the unaudited consolidated condensed financial statements include all normal recurring adjustments considered necessary for the fair presentation of the financial position, results of operations, and cash flows for the interim periods presented. The financial statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto included in the Company's 2011 Annual Report on Form 10-K (SEC File No. 001-32253), which was filed on May 31, 2011.

The Company reports interim financial information for 13-week periods, except for the first quarter, which always begins on April 1, and the fourth quarter, which always ends on March 31. The four quarters in fiscal 2012 end on July 3, 2011, October 2, 2011, January 1, 2012, and March 31, 2012, respectively. The four quarters in fiscal 2011 ended on July 4, 2010, October 3, 2010, January 2, 2011, and March 31, 2011, respectively.

Recent Accounting Pronouncements

In June 2011, the Financial Accounting Standards Board (FASB) issued authoritative guidance requiring entities to present net income and other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements and eliminated the option to present components of other comprehensive income as part of the statement of shareholders' equity. Recently, FASB has decided to delay the effective date of certain provisions of this guidance. This guidance will be effective for the Company in the first quarter of fiscal 2013 and is not expected to have a material impact on its financial statements.

In September 2011, the FASB issued revised guidance to simplify how entities test goodwill for impairment. The amendments will permit an entity to first assess qualitative factors to determine whether it is necessary to perform the two-step goodwill impairment test. An entity will no longer be required to calculate the fair value of a reporting unit unless the entity determines, based on a qualitative assessment that it is more likely than not that its fair value is less than its carrying amount. The amendments are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, with early adoption permitted. The Company plans to adopt this guidance for its annual goodwill impairment test performed in fiscal 2013 and thereafter. The Company does not believe the adoption to have a material impact on its financial statements.

2. Acquisitions

During the third quarter of fiscal 2012, the Company completed three acquisitions, with a combined net purchase price of \$19,936, using cash on hand. The acquisition in South America is wholly owned by the Company. The acquisitions in South Africa and Germany are both joint ventures in which the Company has majority ownership and control. The Company made initial allocations of the purchase prices at the dates of acquisition based on estimated fair value of the acquired assets and liabilities assumed. The Company will finalize the estimates of fair value and the allocations of purchase prices will be adjusted accordingly.

3. Inventories

Inventories, net consist of:

	January 1, 2012	March 31, 2011
Raw materials	\$ 101,477	\$ 92,928
Work-in-process	105,699	100,261

Edgar Filing: EnerSys - Form 10-Q

Finished goods	142,429	141,814
Total	\$ 349,605	\$ 335,003

Inventory reserves for obsolescence and other estimated losses were \$17,483 and \$15,052 at January 1, 2012 and March 31, 2011, respectively, and have been included in the net amounts shown above.

Table of Contents**4. Fair Value of Financial Instruments**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company uses the following valuation techniques to measure fair value for its financial assets and financial liabilities:

Level 1 Inputs are unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 Inputs are quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable and market-corroborated inputs which are derived principally from or corroborated by observable market data.

Level 3 Inputs are derived from valuation techniques in which one or more significant inputs or value drivers are unobservable.

The following tables represent the financial assets and (liabilities), measured at fair value on a recurring basis as of January 1, 2012 and March 31, 2011 and the basis for that measurement:

	Total Fair Value Measurement January 1, 2012	Quoted Price in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest rate swap agreements	\$ (4,483)	\$	\$ (4,483)	\$
Lead forward contracts	805		805	
Foreign currency forward contracts	(465)		(465)	
Total derivatives	\$ (4,143)	\$	\$ (4,143)	\$

	Total Fair Value Measurement March 31, 2011	Quoted Price in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest rate swap agreements	\$ (5,847)	\$	\$ (5,847)	\$
Lead forward contracts	9,575		9,575	
Foreign currency forward contracts	(2,591)		(2,591)	
Total derivatives	\$ 1,137	\$	\$ 1,137	\$

The fair value of interest rate swap agreements are based on observable prices as quoted for receiving the variable three month LIBOR and paying fixed interest rates and, therefore, were classified as Level 2.

The fair value of lead forward contracts are calculated using observable prices for lead as quoted on the London Metal Exchange (LME) and, therefore, were classified as Level 2.

The fair value for foreign currency forward contracts are based upon current quoted market prices and are classified as Level 2 based on the nature of the underlying market in which these derivatives are traded.

Financial Instruments

The fair value of the Company's cash and cash equivalents, accounts receivable and accounts payable approximate carrying value due to their short maturities.

Edgar Filing: EnerSys - Form 10-Q

The fair value of the Company's \$350,000, 2011 senior secured revolving credit facility (2011 Credit Facility), the 75,000 Chinese renminbi (RMB) (\$11,900) credit facility (China Term Loan), and short-term debt approximate their carrying value, as they are variable rate debt and the current terms are comparable to market terms as of the balance sheet dates.

The Convertible Notes, with a face value of \$172,500, were issued when the Company's stock price was trading at \$30.19 per share. On January 1, 2012, the Company's stock price closed at \$25.97 per share. The Convertible Notes have a conversion option at \$40.60 per share, and due to current conditions in the financial markets, the Company's Convertible Notes were trading at 100% of face value on January 1, 2012, and 125% of face value on March 31, 2011. As of January 1, 2012 and March 31, 2011, the unamortized discount on the Convertible Notes was \$25,888 and \$30,663, respectively.

Table of Contents

The carrying amounts and estimated fair values of the Company's derivatives and Convertible Notes at January 1, 2012 and March 31, 2011 were as follows:

	January 1, 2012		March 31, 2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets:				
Derivatives ⁽¹⁾	\$ 805	\$ 805	\$ 9,575	\$ 9,575
Financial liabilities:				
Convertible Notes	\$ 146,612 ⁽²⁾	\$ 172,500 ⁽³⁾	\$ 141,837 ⁽²⁾	\$ 215,625 ⁽³⁾
Derivatives ⁽¹⁾	4,948	4,948	8,438	8,438

⁽¹⁾ Represents interest rate swap agreements, lead and foreign currency hedges (see Note 5 for asset and liability positions of the interest rate swap agreements, lead and foreign currency hedges at January 1, 2012 and March 31, 2011).

⁽²⁾ The carrying amounts of the Convertible Notes at January 1, 2012 and March 31, 2011 represent the \$172,500 principal value, less the unamortized debt discount (see Note 10).

⁽³⁾ The fair value amounts of the Convertible Notes at January 1, 2012 and March 31, 2011 represent the trading values of the Convertible Notes with a principal value of \$172,500.

5. Derivative Financial Instruments

The Company utilizes derivative instruments to reduce its exposure to commodity price, foreign exchange risks and interest rates, under established procedures and controls. The Company does not enter into derivative contracts for speculative purposes. The Company's agreements are with creditworthy financial institutions and the Company anticipates performance by counterparties to these contracts and therefore no material loss is expected.

Derivatives in Cash Flow Hedging Relationships***Lead Hedge Forward Contracts***

The Company enters into lead hedge forward contracts to fix the price for a portion of lead purchases. Management considers the lead hedge forward contracts to be effective against changes in the cash flows of the underlying lead purchases based on the criteria under FASB guidance. The vast majority of such contracts are for a period not extending beyond one year and the notional amounts at January 1, 2012 and March 31, 2011 were \$51,021 and \$68,212, respectively.

Foreign Currency Forward Contracts

The Company uses foreign currency forward contracts to hedge a portion of the Company's exposure to certain lead purchases and to certain foreign currency denominated revenues so that gains and losses on these contracts offset changes in the underlying foreign currency denominated exposures. Each contract is for a period not extending beyond one year. As of January 1, 2012 and March 31, 2011, the Company had entered into a total of \$48,081 and \$82,829, respectively, of such contracts.

In the coming twelve months, the Company anticipates that (\$3,915) of the current pretax loss will be reclassified from accumulated other comprehensive income (AOCI) as part of cost of goods sold. This amount represents the current unrealized impact of hedging lead and foreign exchange rates, which will change as market rates change in the future, and will ultimately be realized in the income statement as an offset to the corresponding actual changes in lead costs to be realized in connection with the variable lead cost and foreign exchange rates being hedged.

Table of Contents***Derivatives not Designated in Hedging Relationships******Interest Rate Swap Agreements***

As of January 1, 2012 and March 31, 2011, the Company maintained interest rate swap agreements that converted \$85,000 of variable-rate debt to a fixed-rate basis, utilizing the three-month London Interbank Offered Rate, or LIBOR, as a floating rate reference. These agreements, which expire between February 2013 and May 2013, no longer qualified for hedge accounting at the end of fiscal 2011 as a result of the refinancing of the Company's previous credit facility. Changes in the fair value of these agreements of \$118 and (\$763) during the third quarter and nine months of fiscal 2012, respectively, have been recorded in the Consolidated Condensed Statements of Income in other (income) expense, net. In the comparable periods of fiscal 2011, the changes in the fair value of these agreements were recorded in AOCI.

Foreign Currency Forward Contracts

The Company also enters into foreign currency forward contracts to hedge foreign currency fluctuations on intercompany loans and foreign currency denominated receivables. These are not designated as hedging instruments. The notional amount of these contracts was \$17,358 as of January 1, 2012. Changes in the fair value of these agreements of \$133 and (\$1,354) during the third quarter and nine months of fiscal 2012, respectively, have been recorded in the Consolidated Condensed Statements of Income in other (income) expense, net.

Presented below in tabular form is information on the location and amounts of derivative fair values in the Consolidated Condensed Balance Sheets and derivative gains and losses in the Consolidated Condensed Statements of Income:

Fair Value of Derivative Instruments**January 1, 2012 and March 31, 2011**

Table of Contents**6. Income Taxes**

The Company's income tax provisions for all periods consist of federal, state and foreign income taxes. The tax provisions for the third quarters of fiscal 2012 and 2011 were based on the estimated effective tax rates applicable for the full years ending March 31, 2012 and March 31, 2011, respectively, after giving effect to items specifically related to the interim periods.

The effective income tax rates for the third quarters of fiscal 2012 and 2011 were 23.0% and 21.6%, respectively. The effective income tax rates for the nine months of 2012 and 2011 were 24.3% and 25.6%, respectively. The rate increase in the third quarter of fiscal 2012 as compared to the prior year quarter and the rate decrease in the nine months of fiscal 2012 as compared to the comparable prior year period is primarily due to changes in the mix of earnings among tax jurisdictions and the release of tax liabilities related to the expiration of statutes in certain jurisdictions in all of the periods referenced.

7. Warranties

The Company provides for estimated product warranty expenses when the related products are sold, with related liabilities included within accrued expenses. Warranty estimates are forecasts that are based on the best available information, primarily historical claims experience, and claims costs may differ from amounts provided. An analysis of changes in the liability for product warranties is as follows:

	Quarter ended		Nine months ended	
	January 1, 2012	January 2, 2011	January 1, 2012	January 2, 2011
Balance at beginning of period	\$ 38,025	\$ 33,220	\$ 36,006	\$ 31,739
Current period provisions	4,908	3,684	17,038	12,615
Costs incurred	(4,654)	(4,550)	(14,083)	(12,587)
Foreign exchange and other	(256)	(113)	(938)	474
Balance at end of period	\$ 38,023	\$ 32,241	\$ 38,023	\$ 32,241

Table of Contents

8. Commitments, Contingencies and Litigation

Litigation and Other Legal Matters

The Company is involved in litigation incidental to the conduct of its business, the results of which, in the opinion of management, are not likely to be material to the Company's financial condition, results of operations, or cash flows (see Note 19 to the Consolidated Financial Statements included in the Company's 2011 Annual Report on Form 10-K).

In fiscal 2009, the Court of Commerce in Lyon, France ruled that the Company was partially responsible for a fire in a French hotel under construction. The Company's portion of damages was assessed at 2,700 or \$4,200, which was duly recorded and paid by the Company, but the ruling was appealed. In a subsequent ruling by the Court of Appeal of Lyon, France, the portion of damages was reduced, entitling the Company to a refund of the monies paid of 671 or \$900, which was recorded and collected in the second quarter of fiscal 2012. The Company still has an appeal pending with the Supreme Court of France.

Environmental Issues

As a result of its operations, the Company is subject to various federal, state, and local, as well as international environmental laws and regulations and is exposed to the costs and risks of handling, processing, storing, transporting, and disposing of hazardous substances, especially lead and acid. The Company's operations are also subject to federal, state, local and international occupational safety and health regulations, including laws and regulations relating to exposure to lead in the workplace.

As more fully described in Note 19 to the Consolidated Financial Statements included in the Company's 2011 Annual Report on Form 10-K, the Company has potential environmental liabilities at its Sumter, South Carolina facility and has reserves of \$3,017 at January 1, 2012, and \$3,279 at March 31, 2011. Based on information available at this time, management believes that the Company's reserves are sufficient to satisfy its environmental liabilities.

In September 2011, the Company's facility in Jiangsu Province, China, was closed by government authorities for an environmental review. After demonstrating compliance with the applicable environmental requirements, the government authorities allowed the plant to reopen in November 2011 on a conditional basis.

Lead Contracts

To stabilize its costs, the Company has entered into contracts with financial institutions to fix the price of lead. The vast majority of such contracts are for a period not extending beyond one year. Under these contracts, at January 1, 2012 and March 31, 2011, the Company has hedged the price to purchase 56,116 and 63,396 pounds of lead, respectively, for a total purchase price of \$51,021 and \$68,212, respectively.

Foreign Currency Forward Contracts

The Company quantifies and monitors its global foreign currency exposures. On a selective basis, the Company will enter into foreign currency forward and option contracts to reduce the volatility from currency movements that affect the Company. The maturity period of these contracts is less than one year. The Company's largest exposure is from the purchase and conversion of U.S. dollar based lead costs into local currencies in Europe. Additionally, the Company has currency exposures from intercompany and third party trade transactions. To hedge these exposures, the Company has entered into a total of \$65,439 and \$82,829, respectively, of foreign currency forward contracts with financial institutions as of January 1, 2012 and March 31, 2011.

Interest Rate Swap Agreements

The Company is exposed to changes in variable U.S. interest rates on borrowings under its credit agreements. On a selective basis, from time to time, the Company enters into interest rate swap agreements to reduce the negative impact that increases in interest rates could have on its outstanding variable rate debt. At January 1, 2012 and March 31, 2011, such agreements which expire between February 2013 and May 2013, converted \$85,000 of variable-rate debt to a fixed-rate basis, utilizing the three-month LIBOR, as a floating rate reference. Fluctuations in LIBOR and fixed rates affect both the Company's net financial investment position and the amount of cash to be paid or received under these agreements.

Table of Contents**9. Restructuring Plans**

The Company has acquisition related restructuring plans and non-acquisition related restructuring plans and bases its restructuring accounting and disclosures on the applicable accounting guidance. As a result, charges to net earnings were made in the periods in which restructuring plan liabilities were incurred.

Acquisition related restructuring plan

In fiscal 2010, the Company acquired the stock of OEB Traction Batteries and certain operating assets and liabilities of the reserve power battery business of Accu Holding AG and its Swedish sales subsidiary (all collectively referred to as Oerlikon). The Company completed the process of closing the two manufacturing facilities of Oerlikon during the third quarter of fiscal 2011, which resulted in the reduction of approximately 105 employees. Based on commitments incurred to date, the Company recorded \$3,815 in fiscal 2010 and 2011 in charges relating to this plan and \$711 during the nine months of fiscal 2012. As of January 1, 2012, the reserve balance associated with these actions is \$29. The Company expects to finalize this plan in fiscal 2012 and does not expect to record any significant additional restructuring charges in fiscal 2012 related to these actions.

A roll-forward of the acquisition related restructuring reserve is as follows:

	Employee Severance	Plant Closure and Other	Total
Balance at March 31, 2011	\$ 257	\$ 146	\$ 403
Accrued	81	630	711
Costs incurred	(321)	(785)	(1,106)
Foreign currency impact and other	12	9	21
Balance at January 1, 2012	\$ 29	\$	\$ 29

Non-acquisition related restructuring plans

In February and May 2009, the Company announced a plan to restructure certain of its European and American operations, which will result in a reduction of approximately 515 employees upon completion across its operations. These actions are primarily in Europe, the most significant of which was the closure of its leased Italian manufacturing facility and the opening of a new Italian distribution center. The Company estimates that the total charges for these actions will amount to approximately \$33,000, which includes cash expenses of approximately \$24,000, primarily for employee severance-related payments, and a non-cash charge of approximately \$9,000, primarily for impairment of fixed assets. Based on commitments incurred to date, the Company recorded restructuring charges of \$31,894 in fiscal 2009 through fiscal 2011, with \$170 of additional charges offset by a favorable accrual adjustment of \$203 during the nine months of fiscal 2012. The Company incurred \$2,033 of costs during the nine months of fiscal 2012. As of January 1, 2012, the reserve balance associated with these actions is \$317. The Company does not expect to record any significant additional restructuring charges in fiscal 2012 related to these actions.

During fiscal 2011, the Company announced a further restructuring of its European operations, which will result in the reduction of approximately 60 employees upon completion across its operations. The Company estimates that the total charges for these actions will amount to approximately \$5,000, primarily from cash expenses for employee severance-related payments and site closure costs. Based on commitments incurred to date, the Company recorded restructuring charges of \$3,830 in fiscal 2011, with \$1,059 of additional charges, offset by a favorable accrual adjustment of \$435 related to the fiscal 2011 plan recorded in the nine months of fiscal 2012. The Company incurred \$1,316 of costs against the accrual during fiscal 2011, with an additional \$2,450 of costs incurred during the nine months of fiscal 2012. As of January 1, 2012, the reserve balance associated with these actions is \$626. The Company expects to be committed to an additional \$900 of restructuring charges in fiscal 2012 related to these actions.

During fiscal 2012, the Company announced restructuring plans related to its operations in Europe, primarily consisting of the transfer of manufacturing of select products between certain of its manufacturing operations and restructuring of its selling, general and administrative operations, which is expected to result in the reduction of approximately 80 employees upon completion. The Company estimates that the total charges for these actions will amount to approximately \$4,100, primarily from cash expenses for employee severance-related payments. During the nine months of fiscal 2012, the Company recorded restructuring charges of \$1,450 and incurred \$973 of costs against the accrual. As of

Edgar Filing: EnerSys - Form 10-Q

January 1, 2012, the reserve balance associated with these actions is \$446. The Company expects to be committed to an additional \$2,700 of restructuring charges in fiscal 2012 related to these actions.

Table of Contents

A roll-forward of the non-acquisition related restructuring reserve is as follows:

	Employee Severance
Balance at March 31, 2011	\$ 4,920
Accrual adjustment	(638)
Accrued	2,679
Costs incurred	(5,456)
Foreign currency impact and other	(116)
 Balance at January 1, 2012	 \$ 1,389

10. Debt

The following summarizes the Company's long-term debt including capital lease obligations:

	January 1, 2012	March 31, 2011
3.375% Convertible Notes, net of discount, due 2038	\$ 146,612	\$ 141,837
2011 Credit Facility due 2016	100,000	100,000
China Term Loan due 2017	6,355	6,112
Capital lease obligations and other	1,031	2,291
	253,998	250,240
Less current portion	1,321	862
 Total long-term debt and capital lease obligations	 \$ 252,677	 \$ 249,378

The Convertible Notes are represented by a liability component which is reported herein as long-term debt, net of discount and an equity component representing the convertible feature, which is included in additional paid-in-capital in EnerSys stockholders' equity.

The following represents the principal amount of the liability component, the unamortized discount, and the net carrying amount of our Convertible Notes as of January 1, 2012 and March 31, 2011, respectively:

	January 1, 2012	March 31, 2011
Principal	\$ 172,500	\$ 172,500
Unamortized discount	(25,888)	(30,663)
 Net carrying amount	 \$ 146,612	 \$ 141,837
 Carrying amount of equity component	 \$ 29,850	 \$ 29,850

As of January 1, 2012, the remaining discount will be amortized over a period of 41 months. The conversion price of the \$172,500 in aggregate principal amount of the Convertible Notes is \$40.60 per share and the number of shares on which the aggregate consideration to be delivered upon conversion is 4,248,761.

Edgar Filing: EnerSys - Form 10-Q

The effective interest rate on the liability component of the Convertible Notes was 8.50%. The amount of interest cost recognized for the amortization of the discount on the liability component of the Convertible Notes was \$1,625 and \$1,495, respectively, during the quarters ended January 1, 2012 and January 2, 2011 and \$4,775 and \$4,391, respectively, during the nine months ended January 1, 2012 and January 2, 2011.

Table of Contents

Available Lines of Credit

As of January 1, 2012 and March 31, 2011, the Company had available and undrawn, under all its lines of credit, \$343,012 and \$356,447, respectively. Included in the January 1, 2012 and March 31, 2011 amounts are \$82,084 and \$95,049, respectively, of uncommitted lines of credit.

As of January 1, 2012 and March 31, 2011, the Company had \$7,111 and \$1,150, respectively, of standby letters of credit. As of January 1, 2012 and March 31, 2011, the Company had no bank guarantees.

11. Retirement Plans

The following tables present the components of the Company's net periodic benefit cost related to its defined benefit pension plans:

	3.8 - 6.0 United States Plans Quarter ended		3.8 - 6.0 International Plans Quarter ended	
	January 1, 2012	January 2, 2011	January 1, 2012	January 2, 2011
Service cost	\$ 73	\$ 60	\$ 137	\$ 144
Interest cost	168	161	610	625
Expected return on plan assets	(177)	(156)	(437)	(407)
Amortization and deferral	61	68	6	4
Net periodic benefit cost	\$ 125	\$ 133	\$ 316	\$ 366

	3.8 -6.0 United States Plans Nine months ended		3.8 -6.0 International Plans Nine months ended	
	January 1, 2012	January 2, 2011	January 1, 2012	January 2, 2011
Service cost	\$ 213	\$ 190	\$ 490	\$ 420
Interest cost	500	484	1,898	1,834
Expected return on plan assets	(529)	(468)	(1,344)	(1,201)
Amortization and deferral	177	181	19	12
Net periodic benefit cost	\$ 361	\$ 387	\$ 1,063	\$ 1,065

Significant assumptions used to determine the net periodic benefit cost for the US and international plans were as follows:

	3.8 - 6.0 United States Plans Nine months ended		3.8 - 6.0 International Plans Nine months ended	
	January 1, 2012	January 2, 2011	January 1, 2012	January 2, 2011
Discount rate	5.7%	6.5%	4.0 - 5.5%	3.8 - 6.0%
Expected return on plan assets	8.0%	8.0%	5.5 - 7.0%	5.5 - 7.0%
Rate of compensation increase	N/A	N/A	2.0 - 4.0%	2.0 - 3.5%

Edgar Filing: EnerSys - Form 10-Q

The Company anticipates contributing approximately \$2,349 to its defined benefit pension plans in fiscal 2012, based on current actuarial information. The Company has defined contribution plans covering all U.S. based employees who are not covered by a collective bargaining agreement and substantially all UK employees, both direct and salaried.

Table of Contents

12. Stock-Based Compensation

As of January 1, 2012, the Company maintains the EnerSys 2010 Equity Incentive Plan (2010 EIP) for the grant of various types of equity awards including nonqualified stock options, restricted stock, restricted stock units, market share units and other forms of equity-based compensation. As of January 1, 2012, the Company had 2,875,120 shares available for future grants.

The Company recognized equity-based compensation expense associated with its equity incentive plans of \$3,030, with a related tax benefit of \$748, for the third quarter of fiscal 2012, and \$2,367 with a related tax benefit of \$511, for the third quarter of fiscal 2011. The Company recognized equity-based compensation expense associated with its equity incentive plans of \$8,764, with a related tax benefit of \$2,194, for the nine months of fiscal 2012, and \$6,694 with a related tax benefit of \$1,726, for the nine months of fiscal 2011.

As of January 1, 2012 and March 31, 2011, unrecognized compensation expense associated with unvested equity incentive awards outstanding was \$21,713 and \$15,403, respectively. The January 1, 2012 unrecognized compensation expense amount is expected to be recognized over a weighted average period of 22 months.

Common stock activity for the nine months of fiscal 2012 included the exercise of 130,698 options and the vesting of 258,533 restricted stock units and for the comparable period in fiscal 2011 included the exercise of 1,332,198 options and the vesting of 176,149 restricted stock units. Net cash received, reflecting the cost of equity awards surrendered for option price and withholding taxes were \$250 and \$16,900, respectively, for the nine months of fiscal 2012 and 2011.

In the nine months of fiscal 2012, the Company granted to management and other key employees 137,368 restricted stock units, and 224,397 market share units. In the nine months of fiscal 2011, the Company granted to management and other key employees 308,460 restricted stock units and 124,093 market share units.

As of January 1, 2012 there were 730,081 non-qualified stock options, 614,610 restricted stock units and 346,563 market share units outstanding. At March 31, 2011, there were 860,779 non-qualified stock options, 741,299 restricted stock units and 124,093 market share units outstanding.

Table of Contents**13. Stockholders Equity***Common Stock*

The following demonstrates the change in the number of shares of Common Stock outstanding during the nine months ended January 1, 2012:

Shares outstanding as of March 31, 2011	50,034,353
Repurchase of common shares	(2,646,885)
Shares issued as part of equity-based compensation plans, net of equity awards surrendered for option price and taxes	340,337
Shares outstanding as of January 1, 2012	47,727,805

Treasury Stock

During the nine months ended January 1, 2012, the Company purchased 2,646,885 shares of its common stock for \$58,383 from institutional shareholders.

Accumulated Other Comprehensive Income

The components of accumulated other comprehensive income are as follows:

	March 31, 2011	Before-Tax Amount	Tax Benefit (Expense)	Net-of-Tax Amount	January 1, 2012
Pension funded status adjustment	\$ (3,512)	\$ 121	\$	\$ 121	\$ (3,391)
Unrealized gain (loss) on derivative instruments	4,436	(10,868)	3,985	(6,883)	(2,447)
Foreign currency translation adjustment	114,256	(55,976)		(55,976)	58,280
Accumulated other comprehensive income	\$ 115,180	\$ (66,723)	\$ 3,985	\$ (62,738)	\$ 52,442

Table of Contents**14. Earnings Per Share**

Net earnings per common share basic is based on the weighted average number of shares of the Company's common stock outstanding. Net earnings per common share diluted gives effect to all potentially dilutive common shares that were outstanding during the period. As of January 1, 2012 and January 2, 2011, the Company had outstanding stock options, market share units and restricted stock units that could potentially dilute basic earnings per share in the future. Weighted average common shares basic and common shares diluted were as follows:

	Quarter ended		Nine months ended	
	January 1, 2012	January 2, 2011	January 1, 2012	January 2, 2011
Weighted average shares of common stock outstanding basic	47,704,567	49,564,495	49,075,629	49,168,320
Assumed exercise and lapse of equity awards, net of shares assumed reacquired	341,333	767,059	431,418	672,037
Weighted average common shares diluted	48,045,900	50,331,554	49,507,047	49,840,357
Anti-dilutive equity awards not included in weighted average common shares diluted	523,445	250,559	455,896	390,669

The aggregate number of common shares that the Company could be obligated to issue upon conversion of its Convertible Notes that the Company sold in May 2008, is 4,248,761. It is the Company's current intent to settle the principal amount of any conversions in cash, and any additional conversion consideration in cash, shares of the Company's common stock or a combination of cash and shares. No contingent shares were included in diluted shares outstanding during the third quarter of fiscal 2012 and 2011, as the specified conversion price exceeded the average market price of the Company's common stock, and the inclusion of contingent shares would have been anti-dilutive.

Table of Contents**15. Business Segments**

The Company has three reportable business segments based on geographic regions, defined as follows:

Americas, which includes North and South America, with segment headquarters in Reading, Pennsylvania, USA,

Europe, which includes Europe, the Middle East and Africa, with segment headquarters in Zurich, Switzerland, and

Asia, which includes Asia, Australia and Oceania, with segment headquarters in Singapore.

The following table provides selected financial data for the Company's reportable business segments and product lines:

	Quarter ended		Nine months ended	
	January 1, 2012	January 2, 2011	January 1, 2012	January 2, 2011
Net sales by segment to unaffiliated customers				
Europe	\$ 247,557	\$ 236,403	\$ 745,886	\$ 632,263
Americas	281,210	224,602	792,688	651,442
Asia	45,479	47,591	152,041	132,703
Total net sales	\$ 574,246	\$ 508,596	\$ 1,690,615	\$ 1,416,408
Intersegment sales				
Europe	\$ 22,437	\$ 13,370	\$ 51,856	\$ 42,881
Americas	7,298	10,549	27,498	34,100
Asia	6,297	4,014	13,352	19,024
Total intersegment sales	\$ 36,032	\$ 27,933	\$ 92,706	\$ 96,005
Operating earnings by segment				
Europe	\$ 16,292	\$ 15,927	\$ 45,026	\$ 35,122
Americas	35,657	31,008	94,671	91,086
Asia	3,268	3,139	7,087	9,315
Legal proceedings settlement income (Europe)			900	
Restructuring charges (Europe)	(1,440)	(1,754)	(2,752)	(5,227)
Total operating earnings ⁽¹⁾	\$ 53,777	\$ 48,320	\$ 144,932	\$ 130,296

⁽¹⁾ The Company does not allocate interest expense or other (income) expense to the reportable segments.

16. Subsequent Events

The Company evaluated all subsequent events through the date that the Consolidated Condensed Financial Statements were issued. No material subsequent events have occurred since January 1, 2012 that required recognition or disclosure in the Consolidated Condensed Financial Statements.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
FORWARD-LOOKING STATEMENTS**

The Private Securities Litigation Reform Act of 1995 (the Reform Act) provides a safe harbor for forward-looking statements made by or on behalf of EnerSys. EnerSys and its representatives may, from time to time, make written or verbal forward-looking statements, including statements contained in our filings with the Securities and Exchange Commission and its reports to stockholders. Generally, the inclusion of the words believe, expect, intend, estimate, anticipate, will, and similar expressions identify statements that constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and that are intended to come within the safe harbor protection provided by those sections. All statements addressing operating performance, events, or developments that EnerSys expects or anticipates will occur in the future, including statements relating to sales growth, earnings or earnings per share growth, and market share, as well as statements expressing optimism or pessimism about future operating results, are forward-looking statements within the meaning of the Reform Act. The forward-looking statements are and will be based on management's then-current views and assumptions regarding future events and operating performance, and are applicable only as of the dates of such statements.

Forward-looking statements involve risks, uncertainties and assumptions. Although we do not make forward-looking statements unless we believe we have a reasonable basis for doing so, we cannot guarantee their accuracy. Actual results may differ materially from those expressed in these forward-looking statements due to a number of uncertainties and risks, including the risks described in the Company's 2011 Annual Report on Form 10-K and other unforeseen risks. You should not put undue reliance on any forward-looking statements. These statements speak only as of the date of this Quarterly Report on Form 10-Q, even if subsequently made available on our website or otherwise, and we undertake no obligation to update or revise these statements to reflect events or circumstances occurring after the date of this Quarterly Report on Form 10-Q.

Our actual results may differ materially from those contemplated by the forward-looking statements for a number of reasons, including the following factors:

general cyclical patterns of the industries in which our customers operate;

the extent to which we cannot control our fixed and variable costs;

the raw material in our products may experience significant fluctuations in market price and availability;

certain raw materials constitute hazardous materials that may give rise to costly environmental and safety claims;

legislation regarding the restriction of the use of certain hazardous substances in our products;

risks involved in foreign operations such as disruption of markets, changes in import and export laws, environmental regulations, currency restrictions and currency exchange rate fluctuations;

our ability to raise our selling prices to our customers when our product costs increase;

the extent to which we are able to efficiently utilize our global manufacturing facilities and optimize our capacity;

general economic conditions in the markets in which we operate;

competitiveness of the battery markets throughout the world;

our timely development of competitive new products and product enhancements in a changing environment and the acceptance of such products and product enhancements by customers;

our ability to adequately protect our proprietary intellectual property, technology and brand names;

unanticipated litigation and regulatory proceedings to which we might be subject;

Table of Contents

changes in our market share in the geographic business segments where we operate;

our ability to implement our cost reduction initiatives successfully and improve our profitability;

unanticipated quality problems associated with our products;

our ability to implement business strategies, including our acquisition strategy, and restructuring plans;

our acquisition strategy may not be successful in locating advantageous targets;

our ability to successfully integrate any assets, liabilities, customers, systems and management personnel we acquire into our operations and our ability to realize related revenue synergies and cost savings within expected time frames;

our debt and debt service requirements which may restrict our operational and financial flexibility, as well as imposing unfavorable interest and financing costs;

our ability to maintain our existing credit facilities or obtain satisfactory new credit facilities;

adverse changes in our short-and long-term debt levels under our credit facilities;

our exposure to fluctuations in interest rates on our variable-rate debt;

our ability to attract and retain qualified personnel;

our ability to maintain good relations with labor unions;

credit risk associated with our customers, including risk of insolvency and bankruptcy;

our ability to successfully recover in the event of a disaster affecting our infrastructure; and

terrorist acts or acts of war, whether in the United States or abroad, could cause damage or disruption to our operations, our suppliers, channels to market or customers, or could cause costs to increase, or create political or economic instability.

This list of factors that may affect future performance is illustrative, but by no means exhaustive. Accordingly, all forward-looking statements should be evaluated with the understanding of their inherent uncertainty.

In the following discussion and analysis of results of operations and financial condition, certain financial measures may be considered non-GAAP financial measures under Securities and Exchange Commission rules. These rules require supplemental explanation and reconciliation, which is provided in this Quarterly Report on Form 10-Q. EnerSys management uses the non-GAAP measures primary working

Edgar Filing: EnerSys - Form 10-Q

capital , primary working capital percentage (see definitions in Liquidity and Capital Resources below) and capital expenditures in its evaluation of business segment cash flow and financial position performance. These disclosures have limitations as an analytical tool, should not be viewed as a substitute for cash flow determined in accordance with GAAP, and should not be considered in isolation or as a substitute for analysis of the Company's results as reported under GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. Management believes that this non-GAAP supplemental information is helpful in understanding the Company's ongoing operating results.

Table of Contents

Overview

EnerSys (the Company, we, or us) is the world's largest manufacturer, marketer and distributor of industrial batteries. We also manufacture, market and distribute related products such as chargers, power equipment and battery accessories, and we provide related after-market and customer-support services for industrial batteries. We market and sell our products globally to over 10,000 customers in more than 100 countries through a network of distributors, independent representatives and our internal sales force.

We operate and manage our business in three geographic regions of the world—Americas, Europe and Asia, as described below. Our business is highly decentralized with manufacturing locations throughout the world. More than half of our manufacturing capacity is located outside of the United States, and approximately 60% of our net sales were generated outside of the United States. The Company has three reportable business segments based on geographic regions, defined as follows:

Americas, which includes North and South America, with our segment headquarters in Reading, Pennsylvania, USA,

Europe, which includes Europe, the Middle East and Africa, with our segment headquarters in Zurich, Switzerland, and

Asia, which includes Asia, Australia and Oceania, with our segment headquarters in Singapore.

We evaluate business segment performance based primarily upon operating earnings, exclusive of highlighted items. Highlighted items are those that the Company deems are not indicative of ongoing operating results, including those charges that the Company incurs as a result of restructuring activities and those charges and credits that are not directly related to ongoing business segment performance. All corporate and centrally incurred costs are allocated to the business segments based principally on net sales. We evaluate business segment cash flow and financial position performance based primarily upon capital expenditures and primary working capital levels (see definition of primary working capital in Liquidity and Capital Resources below). Although we monitor the three elements of primary working capital (receivables, inventory and payables), our primary focus is on the total amount, due to the significant impact it has on our cash flow.

Table of Contents

Our management structure, financial reporting systems, and associated internal controls and procedures, are all consistent with our three geographic business segments. We report on a March 31 fiscal year-end. Our financial results are largely driven by the following factors:

general cyclical patterns of the industries in which our customers operate;

changes in our market share in the geographic business segments where we operate;

changes in our selling prices and, in periods when our product costs increase, our ability to raise our selling prices to pass such cost increases through to our customers;

the extent to which we are able to efficiently utilize our global manufacturing facilities and optimize our capacity;

the extent to which we can control our fixed and variable costs, including those for our raw materials, manufacturing, distribution and operating activities;

changes in our level of debt and changes in the variable interest rates under our credit facilities; and

the size and number of acquisitions and our ability to achieve their intended benefits.

We have two primary industrial battery product lines: reserve power products and motive power products. Net sales classifications by product line are as follows:

Reserve power products are used for backup power for the continuous operation of critical applications in telecommunications systems, uninterruptible power systems, UPS applications for computer and computer-controlled systems, and other specialty power applications, including security systems, for premium starting, lighting and ignition applications, in switchgear, electrical control systems used in electric utilities and energy pipelines, in commercial aircraft, satellites, military aircraft, submarines, ships, tactical vehicles and portable energy packs.

Motive power products are used to provide power for manufacturing, warehousing and other material handling equipment, primarily electric industrial forklift trucks, mining equipment, and for diesel locomotive starting and other rail equipment.

Table of Contents

Economic Climate

Recent indicators suggest a mixed trend in economic activity among our different geographical regions. We continue to focus on reducing our manufacturing costs through investments in automation and restructuring.

Volatility of Commodities and Foreign Currencies

Our most significant commodity and foreign currency exposures are related to lead and the euro. Volatility of commodity costs and foreign currency exchange rates have caused large swings in our production costs. As the global economic climate changes, we anticipate that our commodity costs may continue to fluctuate significantly as they have in the past several years. The increase in our cost of lead due to increases in average lead prices was approximately \$23 million and \$60 million in the current quarter and nine months of fiscal 2012, respectively, compared to the comparable prior year periods.

Customer Pricing

Our selling prices fluctuated during the last several years to offset the volatile cost of commodities. Beginning in the third quarter of fiscal 2009, as a result of reductions in the cost of lead, our average selling prices began to decline on a sequential quarterly basis. As the cycle of lead costs turned upward in early fiscal 2010, we began to increase average selling prices to help offset the higher costs. During the current quarter and nine months of fiscal 2012, our selling prices increased to reflect rising commodity prices. Selling price increases of approximately \$14 million offset increased lead cost of \$23 million during the current quarter and selling price increases of approximately \$41 million offset increased lead cost of \$60 million in the nine months of fiscal 2012. Approximately 35% to 40% of our revenue is currently subject to agreements that adjust pricing to a market-based index for lead.

Liquidity and Capital Resources

Our capital structure and liquidity remain strong. As of January 1, 2012, we had approximately \$120 million of cash and cash equivalents, approximately \$261 million of undrawn, committed credit lines, and approximately \$82 million of available and uncommitted credit lines. We believe that we have the financial resources and the capital available to fund the foreseeable organic growth in our business and to remain active in pursuing further acquisition opportunities.

Table of Contents**Results of Operations****Net Sales**

<i>Current quarter by segment</i>	\$00000000	\$00000000	\$00000000	\$00000000	\$00000000	\$00000000
	Quarter ended January 1, 2012		Quarter ended January 2, 2011		Increase (Decrease)	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	%
Europe	\$ 247.6	43.1%	\$ 236.4	46.5%	\$ 11.2	4.7%

<i>Year to date by segment</i>	\$00000000	\$00000000	\$00000000	\$00000000	\$00000000	\$00000000
	Nine months ended January 1, 2012		Nine months ended January 2, 2011		Increase (Decrease)	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	%
Europe	\$ 745.9	44.1%	\$ 632.3	44.6%	\$ 113.6	18.0%
Americas	792.7	46.9	651.4	46.0	141.3	21.7
Asia	152.0	9.0	132.7	9.4	19.3	14.6
Total net sales	\$ 1,690.6	100.0%	\$ 1,416.4	100.0%	\$ 274.2	19.4%

Net sales increased \$65.6 million or 12.9% in the third quarter of fiscal 2012 from the comparable period in fiscal 2011. This increase for the quarter was the result of a 4% increase in organic volume, a 3% increase due to pricing and a 6% increase from acquisitions. Net sales increased \$274.2 million or 19.4% in the nine months of fiscal 2012 from the comparable period in fiscal 2011. This increase for the nine months of fiscal 2012 was the result of a 9% increase in organic volume, a 3% increase due to pricing, a 3% increase from acquisitions and a 4% increase from foreign currency translation impact.

Segment sales

The Americas segment experienced improved year over year economic and market conditions which led to organic volume improvements in the third quarter of fiscal 2012 compared to the comparable prior year period. Our Europe segment experienced sales growth from acquisitions, partially offset by organic volume reductions in the third quarter of fiscal 2012, compared to the comparable period of fiscal 2011, while our Asia segment was temporarily slowed by the two month shutdown of the Jiangsu Province, China facility.

Our Europe segment's net sales increased \$11.2 million or 4.7% in the third quarter of fiscal 2012, as compared to the third quarter of fiscal 2011. Acquisitions and pricing contributed approximately 8% and 2%, respectively, offset by declining organic volume of approximately 5%. Revenue increased \$113.6 million or 18.0% in the nine months of fiscal 2012, as compared to the nine months of fiscal 2011. Currency translation impact and acquisitions contributed approximately 7% and 5%, respectively, while increases in organic volume and pricing contributed approximately 3% each.

Our Americas segment's revenue increased \$56.6 million or 25.2% in the third quarter of fiscal 2012, as compared to the third quarter of fiscal 2011, primarily due to higher organic volume, which contributed approximately 17% of the increased revenue. Pricing and acquisitions contributed approximately 4% and 5%, respectively, to the improvement offset by currency translation impact of approximately 1%. Revenue increased \$141.3 million or 21.7% in the nine months of fiscal 2012, as compared to the nine months of fiscal 2011, primarily due to higher

Edgar Filing: EnerSys - Form 10-Q

organic volume which contributed approximately a 16% increase while pricing and acquisitions contributed approximately 3% each.

Our Asia segment's revenue decreased \$2.2 million or 4.4% in the third quarter of fiscal 2012, as compared to the third quarter of fiscal 2011, primarily due to organic volume which declined by approximately 9%. Pricing and currency translation impact offset this decline by approximately 1% and 4%, respectively. Revenue increased \$19.3 million or 14.6% in the nine months of fiscal 2012, as compared to the nine months of fiscal 2011, primarily due to organic volume growth of 6%, pricing of 1% and foreign currency changes of 8%.

Table of Contents*Product line sales*

	\$ 1,690.6	\$ 1,690.6	\$ 1,690.6	\$ 1,690.6	\$ 1,690.6	\$ 1,690.6

	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	%
Reserve Power	\$ 810.5	47.9%	\$ 707.8	50.0%	\$ 102.7	14.5%
Motive Power	880.1	52.1	708.6	50.0	171.5	24.2
Total net sales	\$ 1,690.6	100.0%	\$ 1,416.4	100.0%	\$ 274.2	19.4%

Sales of our reserve power products in the third quarter and nine months of fiscal 2012 increased \$24.4 million or 9.7% and \$102.7 million or 14.5%, respectively, compared to the comparable periods of fiscal 2011. In the third quarter of fiscal 2012, acquisitions contributed approximately 8% and organic volume and pricing contributed approximately 1% each to the improvement. In the nine months of fiscal 2012, organic volume and foreign currency changes contributed approximately 4% each, while acquisitions and pricing contributed approximately 5% and 1%, respectively, to the improvement.

Sales of our motive power products in the third quarter and nine months of fiscal 2012 increased \$41.2 million or 16.1% and \$171.5 million or 24.2%, respectively, compared to the comparable periods of fiscal 2011. The third quarter increase was primarily due to higher organic volume of approximately 8%. Pricing and acquisitions contributed approximately 4% and 5%, respectively, offset by a 1% decrease due to foreign currency changes. In the nine months of fiscal 2012, organic volume increase was approximately 14% with pricing and foreign currency changes contributing approximately 4% each and acquisitions contributing approximately 2%.

Gross Profit

	\$ 1,690.6	\$ 1,690.6	\$ 1,690.6	\$ 1,690.6	\$ 1,690.6	\$ 1,690.6
	Quarter ended January 1, 2012		Quarter ended January 2, 2011		Increase (Decrease)	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	%
Gross Profit	\$ 130.8	22.8%	\$ 117.9	23.2%	\$ 12.9	11.0%

Edgar Filing: EnerSys - Form 10-Q

	\$ 1,690.6	\$ 1,690.6	\$ 1,690.6	\$ 1,690.6	\$ 1,690.6	\$ 1,690.6
	Nine months ended January 1, 2012		Nine months ended January 2, 2011		Increase (Decrease)	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	%
Gross Profit	\$ 367.2	21.7%	\$ 325.2	23.0%	\$ 42.0	12.9%

Gross profit increased \$12.9 million or 11.0% in the third quarter of fiscal 2012 and increased \$42.0 million or 12.9% in the nine months of fiscal 2012, when compared to the comparable periods of fiscal 2011, due mainly to higher sales volume and pricing partially offset by higher commodity costs.

Gross profit, as a percentage of net sales decreased 40 basis points in the third quarter and 130 points in the nine month period of fiscal 2012, when compared to the comparable periods of fiscal 2011. This decrease is primarily attributed to higher commodity costs partially offset by on-going cost reduction programs, higher selling prices and increased volume, as discussed below.

We estimate that the cost of lead alone, our most significant raw material, increased our cost of sales by approximately \$23 million and \$60 million, in the third quarter and nine months of fiscal 2012, respectively, compared to the comparable periods in fiscal 2011. Selling price increases offset approximately \$14 million and \$41 million, of the increased lead cost in the third quarter and in the nine months of fiscal 2012, respectively.

Table of Contents

Our sales initiatives will continue to emphasize pricing activities to improve gross profit and continue to focus on improving product mix to higher margin products.

Additionally, we remain highly focused on our cost reduction programs, which we believe continue to be effective in reducing our costs.

Restructuring charges	\$ 2.7	0.2%	\$ 5.2	0.4%	\$ (2.5)	(47.4)%

NM = not meaningful

Operating expenses as a percentage of net sales decreased 10 and 40 basis points, respectively, in the third quarter and nine months of fiscal 2012 compared to the third quarter and nine months of fiscal 2011. Operating expenses, excluding the effect of foreign currency translation, increased 10.9% or \$7.4 million in the third quarter of fiscal 2012 and increased 11.1% or \$20.9 million in the nine months of fiscal 2012 compared to the comparable period of fiscal 2011, due primarily to higher sales volume. Selling expenses, our main component of operating expenses, were 60.2% and 59.6% of total operating expenses in the third quarter and nine months of fiscal 2012 compared to 58.6% and 59.2% of total operating expenses in the third quarter and nine months of fiscal 2011.

Legal proceedings settlement income

In fiscal 2009, the Court of Commerce in Lyon, France ruled that the Company was partially responsible for a fire in a French hotel under construction. The Company's portion of damages was assessed at 2.7 million or \$4.2 million, which was duly recorded and paid by the Company, but the ruling was appealed. In a subsequent ruling by the Court of Appeal of Lyon, France, the portion of damages was reduced, entitling the Company to a refund of the monies paid of 0.7 million or \$0.9 million, which has been recorded and collected in the second quarter of fiscal 2012. The Company still has an appeal pending with the Supreme Court of France.

Restructuring charges

Edgar Filing: EnerSys - Form 10-Q

Included in our third quarter and nine months of fiscal 2012 operating results are \$1.4 million and \$2.7 million of restructuring charges, respectively, primarily for staff reductions in Europe. Included in our third quarter and nine months of fiscal 2011 operating results are \$1.8 million and \$5.2 million, respectively, of restructuring charges primarily for staff reductions in Europe.

Total operating earnings	\$ 144.9	8.6%	\$ 130.3	9.2%	\$ 14.6			11.2%

(1) The percentages shown for the segments are computed as a percentage of the applicable segment's net sales.

Operating earnings increased \$5.4 million or 11.3% in the third quarter and increased \$14.6 million or 11.2% in the nine months of fiscal 2012 in comparison to the third quarter and nine months of fiscal 2011. Operating earnings as a percentage of net sales, as shown in the table above, decreased 10 basis points in the third quarter of fiscal 2012 and decreased 60 basis points in the nine months of fiscal 2012 when compared to the comparable periods of 2011.

We experienced a slight increase in operating earnings in our Europe segment in the third quarter of fiscal 2012 in comparison to the comparable quarter in the prior year, with the operating margin decreasing 10 basis points to 6.6%. This decrease in operating margin is attributable to decline in organic volume, acquisitions and higher commodity costs, partially offset by pricing and benefits of the restructuring programs on both production and operating expenses.

Operating earnings increased 28.2% in our Europe segment in the nine months of fiscal 2012 in comparison to the comparable period in the prior year, with the operating margin increasing 40 basis points to 6.0%. This improvement in operating margin is primarily attributable to an increase

Edgar Filing: EnerSys - Form 10-Q

in organic volume, pricing and the benefits of the restructuring programs on both production and operating expenses, partially offset by acquisitions and higher commodity costs.

Our Americas segment had an increase in operating earnings in the third quarter of fiscal 2012 in comparison to the comparable quarter in the prior year, with the operating margin decreasing 110 basis points to 12.7%. The operating margin decrease is primarily attributable to higher commodity costs, pricing pressure and product mix, partially offset by higher organic volume. Americas operating margins in the prior year were an all time record for any third quarter.

Operating earnings in our Americas segment increased in the nine months of fiscal 2012 in comparison to the comparable period in the prior year, with the operating margin decreasing 210 basis points to 11.9%. This decline of operating margin in our Americas segment, despite a 16% increase in organic volumes was due to pricing pressure, increased commodity costs and product mix.

Operating earnings increased 4.1% in our Asia segment in the third quarter of fiscal 2012 in comparison to the comparable quarter in the prior year, with the operating margin increasing 60 basis points to 7.2%. Operating earnings decreased 23.9% in the nine months of fiscal 2012 in comparison to the comparable period in the prior year, with the operating margin as a percentage of sales decreasing from 7.0% to 4.7%. The improvement in the third quarter of fiscal 2012 in comparison to the prior year quarter is primarily due to product mix which was partially offset by decreased volume and higher commodity costs. The reduction in our Asia segment earnings in the nine months of fiscal 2012 was primarily attributable to higher commodity and freight costs, and more difficult pricing conditions. In addition, approximately \$0.9 million start-up costs related to our new facility in Chongqing, China, were incurred in the third quarter of fiscal 2012 along with

Table of Contents

approximately \$0.5 million of costs related to a temporary closure of our facility in Jiangsu Province, China, by government authorities for an environmental review, as were, to our knowledge, all lead processing facilities in that province. After demonstrating compliance with the applicable environmental requirements, the government authorities allowed the plant to reopen in November 2011 on a conditional basis. Start-up costs related to Chongqing were approximately \$2.5 million in the nine months of fiscal 2012. In the comparable period in fiscal 2011, we had no significant start-up costs for Chongqing. Costs related to the temporary closure of our facility in Jiangsu Province, China were approximately \$0.9 million for the nine months of fiscal 2012.

	Net Sales	Net Sales	Net Sales	Net Sales	Millions	%
Interest expense	\$ 12.3	0.7%	\$ 17.7	1.3%	\$ (5.4)	(30.4)%

Interest expense of \$4.8 million in the third quarter of fiscal 2012 (net of interest income of \$0.2 million) was \$0.8 million lower than the interest expense of \$5.6 million in the third quarter of fiscal 2011 (net of interest income of \$0.2 million). Interest expense of \$12.3 million in the nine months of fiscal 2012 (net of interest income of \$0.7 million) was \$5.4 million lower than the \$17.7 million (net of interest income of \$0.8 million) in the nine months of fiscal 2011.

The decrease in interest expense in the third quarter of fiscal 2012 compared to the third quarter of fiscal 2011 is attributable primarily to the interest rate swaps that qualified for hedge accounting in the prior year quarter and lower average borrowings. The Company recorded interest expense of \$1.8 million on the interest rate swaps during the third quarter of fiscal 2011. This favorable impact was partially offset by higher interest expense in Asia and South America. In the third quarter of fiscal 2012, the swaps no longer qualified for hedge accounting and the gains realized on the swaps amounting to \$0.1 million were included in other (income) expense, net.

The decrease in interest expense in the nine months of fiscal 2012 compared to the nine months of fiscal 2011 is attributable primarily to the interest rate swaps that qualified for hedge accounting in the prior period. The Company recorded interest expense of \$5.6 million on the interest rate swaps during the nine months of fiscal 2011. In the nine months of fiscal 2012, the swaps no longer qualified for hedge accounting and the losses realized on the swaps amounting to \$0.8 million were included in other (income) expense, net.

Included in interest expense are non-cash charges for deferred financing fees of \$0.4 million and \$1.0 million, respectively, in the third quarter and nine months of fiscal 2012 and \$0.4 million and \$1.5 million, respectively, in the third quarter and nine months of fiscal 2011.

Included in interest expense is non-cash, accreted interest on the Convertible Notes of \$1.6 million and \$4.8 million, respectively, in the third quarter and nine months of fiscal 2012 and \$1.5 million and \$4.4 million, respectively, in the third quarter and nine months of fiscal 2011. (See Note 10 to the Consolidated Condensed Financial Statements).

Our average debt outstanding (reflecting the reduction of the Convertible Notes discount) was \$288.0 million and \$272.4 million in the third quarter and nine months of fiscal 2012, compared to \$334.2 million and \$344.7 million, respectively, in the third quarter and nine months of fiscal 2011. The average Convertible Notes discount excluded from our average debt outstanding was \$26.7 million and \$28.3 million, respectively, in the third quarter and nine months of fiscal 2012 and \$33.0 million and \$34.4 million, respectively, in the third quarter and nine

months of fiscal 2011.

Table of Contents**Other (Income) Expense, Net**

	\$ 130.3	\$ 130.3	\$ 130.3	\$ 130.3	\$ 130.3	\$ 130.3
	Quarter ended January 1, 2012		Quarter ended January 2, 2011		Increase (Decrease)	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	%
Other (income) expense, net	\$ 1.1	0.2%	\$ (0.4)		% \$ 1.5	NM

	\$ 130.3	\$ 130.3	\$ 130.3	\$ 130.3	\$ 130.3	\$ 130.3
	Nine months ended January 1, 2012		Nine months ended January 2, 2011		Increase (Decrease)	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	%
Other (income) expense, net	\$ 2.3	0.1%	\$ 0.6		% \$ 1.7	NM

Other (income) expense, net for the third quarter of fiscal 2012 was \$1.1 million compared to (\$0.4) million in the third quarter of fiscal 2011. The unfavorable impact in the third quarter of fiscal 2012 is mainly attributable to \$1.3 million foreign currency losses in the third quarter of fiscal 2012 compared to \$0.6 million foreign currency gains in the prior year quarter.

Other expense, net was \$2.3 million in the nine months of fiscal 2012 compared to \$0.6 million in the comparable period of fiscal 2011. This \$1.7 million unfavorable change is attributable to \$0.5 million foreign currency losses in the nine months of fiscal 2012 compared to \$0.3 million foreign currency losses in the comparable prior year period along with miscellaneous charges and taxes of \$1.4 million in the current fiscal period compared to \$0.1 million of miscellaneous charges and taxes in the comparable prior period.

Earnings Before Income Taxes

	\$ 130.3	\$ 130.3	\$ 130.3	\$ 130.3	\$ 130.3	\$ 130.3
	Quarter ended January 1, 2012		Quarter ended January 2, 2011		Increase (Decrease)	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	%
Earnings before income taxes	\$ 47.8	8.3%	\$ 43.1	8.4%	\$ 4.7	11.1%

	\$ 130.3	\$ 130.3	\$ 130.3	\$ 130.3	\$ 130.3	\$ 130.3
	Nine months ended January 1, 2012		Nine months ended January 2, 2011		Increase (Decrease)	
	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	%
Earnings before income taxes	\$ 130.3	7.7%	\$ 112.0	7.9%	\$ 18.3	16.4%

As a result of the above, earnings before income taxes in the third quarter of fiscal 2012 increased \$4.7 million or 11.1% compared to the third quarter of fiscal 2011 and earnings before taxes in the nine months of fiscal 2012 increased \$18.3 million or 16.4% compared to the nine months

Edgar Filing: EnerSys - Form 10-Q

of fiscal 2011. Earnings before income taxes as a percentage of sales were 8.3% and 7.7%, respectively, in the third quarter and nine months of fiscal 2012 in comparison to 8.4% and 7.9%, respectively, in the third quarter and nine months of fiscal 2011.

Table of Contents**Income Tax Expense**

	Millions Quarter ended January 1, 2012 In Millions	Millions Percentage of Total Net Sales	Millions Quarter ended January 2, 2011 In Millions	Millions Percentage of Total Net Sales	Millions Increase (Decrease) In Millions	Millions %
Income tax expense	\$ 11.0	1.9%	\$ 9.4	1.8%	\$ 1.6	18.3%
Effective tax rate		23.0%		21.6%		1.4%

	Millions Nine months ended January 1, 2012 In Millions	Millions Percentage of Total Net Sales	Millions Nine months ended January 2, 2011 In Millions	Millions Percentage of Total Net Sales	Millions Increase (Decrease) In Millions	Millions %
Income tax expense	\$ 31.7	1.9%	\$ 28.7	2.0%	\$ 3.0	10.5%
Effective tax rate		24.3%		25.6%		(1.3)%

The Company's income tax provisions for both periods consist of federal, state and foreign income taxes. The tax provisions for the third quarters of fiscal 2012 and fiscal 2011 were based on the estimated effective tax rates applicable for the full years ending March 31, 2012 and March 31, 2011, respectively, after giving effect to items specifically related to the interim periods.

The effective income tax rates for the third quarters of fiscal 2012 and fiscal 2011 were 23.0% and 21.6%, respectively. The effective income tax rates for the nine months of fiscal 2012 and 2011 were 24.3% and 25.6%, respectively. The rate increase in the third quarter of fiscal 2012 as compared to the prior year quarter and the rate decrease in the nine months of fiscal 2012 as compared to the comparable prior year period is primarily due to changes in the mix of earnings among tax jurisdictions and the release of tax liabilities related to the expiration of statutes in certain jurisdictions in all of the periods referenced.

Net Earnings

	Millions Quarter ended January 1, 2012 In Millions	Millions Percentage of Total Net Sales	Millions Quarter ended January 2, 2011 In Millions	Millions Percentage of Total Net Sales	Millions Increase (Decrease) In Millions	Millions %
Net earnings	\$ 36.8	6.4%	\$ 33.7	6.6%	\$ 3.1	9.2%

	Millions Nine months ended January 1, 2012	Millions Percentage of Total Net Sales	Millions Nine months ended January 2, 2011	Millions Percentage of Total Net Sales	Millions Increase (Decrease) In Millions	Millions %
--	--	---	--	---	---	---------------

Edgar Filing: EnerSys - Form 10-Q

	In Millions	Percentage of Total Net Sales	In Millions	Percentage of Total Net Sales	In Millions	%
Net earnings	\$ 98.6	5.8%	\$ 83.3	5.9%	\$ 15.3	18.4%

As a result of the above, net earnings in the third quarter of fiscal 2012 were \$36.8 million or 6.4% of net sales, compared to net earnings in the third quarter of fiscal 2011 of \$33.7 million or 6.6% of net sales. Net earnings in the nine months of fiscal 2012 were \$98.6 million or 5.8% of net sales, compared to net earnings in the nine months of fiscal 2011 of \$83.3 million or 5.9% of net sales.

Net earnings per common share in the third quarter of fiscal 2012 were \$0.77 per basic share and diluted share, compared to \$0.68 per basic share and \$0.67 per diluted share in the third quarter of fiscal 2011. Net earnings per common share in the nine months of fiscal 2012 were \$2.01 per basic share and \$1.99 per diluted share, compared to \$1.69 per basic share and \$1.67 per diluted share in the nine months of fiscal 2011.

Table of Contents

Critical Accounting Policies and Estimates

There have been no material changes to our critical accounting policies from those discussed under the caption Critical Accounting Policies and Estimates in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations in our 2011 Annual Report on Form 10-K.

Liquidity and Capital Resources

During the nine months of fiscal 2012, operating activities provided cash of \$120.0 million compared to \$44.9 million in the comparable period of fiscal 2011. In the nine months of fiscal 2012, net earnings of \$98.6 million and depreciation and amortization of \$37.0 million were offset by cash used for the increase in primary working capital of \$24.5 million, net of currency translation changes. In the nine months of fiscal 2011, operating activities provided cash of \$44.9 million and was mainly driven by net earnings of \$83.3 million and depreciation and amortization of \$33.2 million, substantially offset by cash used for the increase in primary working capital of \$70.9 million, net of currency translation changes.

Primary working capital for this purpose is trade accounts receivable, plus inventories, minus trade accounts payable. The resulting net amount is divided by the trailing three month net sales (annualized) to derive a primary working capital percentage. Primary working capital was \$556.6 million (yielding a primary working capital percentage of 24.2%) at January 1, 2012, \$511.5 million at January 2, 2011 (yielding a primary working capital percentage of 25.1%) and \$547.3 million (yielding a primary working capital percentage of 25.0%) at March 31, 2011. The primary working capital percentage of 24.2% at January 1, 2012 is 0.8 percentage points below that for March 31, 2011, and 0.9 percentage points below that for the prior year quarter.

Primary working capital decreased during the third quarter of fiscal 2012, largely due to a decrease in accounts receivable.

Primary working capital and primary working capital percentages at January 1, 2012, March 31, 2011 and January 2, 2011 are computed as follows:

Balance At	(In Millions)				Quarter Revenue Annualized	Primary Working Capital %
	Trade Receivables	Inventory	Accounts Payable	Total		
January 1, 2012	\$ 453.9	\$ 349.6	\$ (246.9)	\$ 556.6	\$ 2,297.0	24.2%
March 31, 2011	464.1	335.0	(251.8)	547.3	2,192.2	25.0
January 2, 2011	420.2	305.8	(214.5)	511.5	2,034.4	25.1

Investing activities used cash of \$56.0 million in the nine months of fiscal 2012, compared to cash used of \$42.2 million in the comparable period in fiscal 2011. Capital expenditures in the nine months of fiscal 2012 were \$35.0 million compared to \$41.2 million in the comparable period of fiscal 2011. Investing activities in the nine months of fiscal 2012 included acquisitions for a total purchase price of approximately \$21.0 million and the prior year comparable period included acquisitions of \$1.4 million.

Financing activities utilized cash of \$50.5 million in the nine months of fiscal 2012, primarily reflecting the repurchase of common stock of \$58.3 million and capital lease payments of \$1.3 million offset by borrowings on short-term debt of \$5.7 million and exercise of stock options and the related tax benefits that contributed \$3.4 million. During the nine months of fiscal 2012, we borrowed \$19.0 million on the revolver and subsequently repaid the entire amount. The borrowings financed a portion of our share repurchases in the second quarter of fiscal 2012 and were repaid on account of a strong third quarter cash generation. In the nine months of fiscal 2011, financing activities provided cash of \$1.0 million, primarily reflecting repayment of long-term debt of \$23.8 million, offset by the exercise of stock options and the related tax benefits that contributed \$24.2 million.

As a result of the above, total cash and cash equivalents increased by \$10.9 million to \$119.8 million in the nine months of fiscal 2012 compared to an increase of \$4.8 million to \$205.8 million in the comparable period of fiscal 2011.

All obligations under our 2011 Senior Secured Revolving Credit Facility are secured by, among other things, substantially all of our U.S. assets. This credit agreement contains various covenants which, absent prepayment in full of the indebtedness and other obligations, or the receipt of waivers, limit our ability to conduct certain specified business transactions, buy or sell assets out of the ordinary course of business, engage in sale and leaseback transactions, pay dividends and take certain other actions. There are no prepayment penalties on loans under this credit facility.

Edgar Filing: EnerSys - Form 10-Q

We are in compliance with all covenants and conditions under our credit agreements. Since we believe that we will continue to comply with these covenants and conditions, we believe that we have the financial resources and the capital available to fund the foreseeable organic growth in our business and to remain active in pursuing further acquisition opportunities. See Note 8 to the Consolidated Financial Statements included in our 2011 Annual Report on Form 10-K for a detailed description of debt.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market Risks

Our cash flows and earnings are subject to fluctuations resulting from changes in interest rates, foreign currency exchange rates and raw material costs. We manage our exposure to these market risks through internally established policies and procedures and, when deemed appropriate, through the use of derivative financial instruments. Our policy does not allow speculation in derivative instruments for profit or execution of derivative instrument contracts for which there are no underlying exposures. We do not use financial instruments for trading purposes and are not a party to any leveraged derivatives. We monitor our underlying market risk exposures on an ongoing basis and believe that we can modify or adapt our hedging strategies as needed.

Interest Rate Risks

We are exposed to changes in variable U.S. interest rates on borrowings under our credit agreements. On a selective basis, from time to time, we enter into interest rate swap agreements to reduce the negative impact that increases in interest rates could have on our outstanding variable rate debt. At the end of fiscal 2011, these interest rate swaps no longer qualified for hedge accounting due to the refinancing of the Company's then existing credit facility. Changes in the fair value of these contracts for the quarter ended January 1, 2012 have therefore been recorded in the income statement in other (income) expense, net while changes in fair value for the comparable period in fiscal 2011 were recorded in accumulated other comprehensive income.

At January 1, 2012 and March 31, 2011, the aggregate notional amount of interest rate swap agreements is \$85.0 million. These agreements expire between February 2013 - May 2013.

Under the interest rate swaps, the Company receives three-month LIBOR and pays a fixed interest rate which averaged 4.28% and 4.46% on January 1, 2012 and January 2, 2011, respectively.

A 100 basis point increase in interest rates would increase annual interest expense by approximately \$1.2 million on the variable rate portions of our debt.

Table of Contents**Commodity Cost Risks - Lead Contracts**

We have a significant risk in our exposure to certain raw materials. Our largest single raw material cost is for lead, for which the cost remains volatile. In order to hedge against increases in our lead cost, we have entered into contracts with financial institutions to fix the price of lead. A vast majority of such contracts are for a period not extending beyond one year. We had the following contracts outstanding at the dates shown below:

Date	\$ s Under Contract (in millions)	# Pounds Purchased (in millions)	Average Cost/Pound	Approximate % of Lead Requirements ⁽¹⁾
January 1, 2012	\$ 51.0	56.1	\$ 0.91	13%
March 31, 2011	68.2	63.4	1.08	14
January 2, 2011	35.5	34.9	1.02	8

⁽¹⁾ Based on approximate annual lead requirements for the periods then ended.

For the remaining quarter of this fiscal year, we believe approximately 90% of the cost of our lead requirement is known. This takes into account the hedge contracts in place at January 1, 2012, lead purchased by January 1, 2012 that will be reflected in future costs under our FIFO accounting treatment, and the benefit from our lead tolling program.

We estimate that a 10% increase in our cost of lead would increase our cost of goods sold by approximately \$15 million and \$46 million, in the third quarter and nine months of fiscal 2012, respectively.

Foreign Currency Exchange Rate Risks

We manufacture and assemble our products primarily in Bulgaria, China, the Czech Republic, France, Germany, Mexico, Poland, the United Kingdom and the United States. Approximately 60% of our sales and expenses are transacted in foreign currencies. Our sales revenue, production costs, profit margins and competitive position are affected by the strength of the currencies in countries where we manufacture or purchase goods relative to the strength of the currencies in countries where our products are sold. Additionally, as we report our financial statements in U.S. dollars, our financial results are affected by the strength of the currencies in countries where we have operations relative to the strength of the U.S. dollar. The principal foreign currencies in which we conduct business are the Euro, Swiss franc, British pound, Polish zloty, Chinese renminbi and Mexican peso.

We quantify and monitor our global foreign currency exposures. Our largest foreign currency exposure is from the purchase and conversion of U.S. dollar based lead costs into local currencies in Europe. Additionally, we have currency exposures from intercompany financing and trade transactions. On a selective basis, we enter into foreign currency forward contracts and option contracts to reduce the impact from the volatility of currency movements; however, we cannot be certain that foreign currency fluctuations will not impact our operations in the future.

Table of Contents

To hedge these exposures, we have entered into forward contracts with financial institutions to fix the value at which we will buy or sell certain currencies. Each contract is for a period not extending beyond one year. Forward contracts outstanding as of January 1, 2012 and March 31, 2011 were \$65.4 million and \$82.8 million, respectively. The details of contracts outstanding as of January 1, 2012 were as follows:

Transactions Hedged	\$US Equivalent (in millions)	January 1, 2012	
		Average Rate Hedged	Approximate % of Annual Requirements ⁽¹⁾
Sell Euros for U.S. dollars	\$ 14.7	\$/ 1.36	7%
Sell Euros for Polish zloty	31.6	PLN/ 4.21	47
Sell Euros for British pounds	16.6	/£ 0.87	28
Sell U.S. dollars for Chinese renminbi	2.0	¥/\$ 6.35	12
Other	0.5		
Total	\$ 65.4		

⁽¹⁾ Based on the fiscal year currency requirements.

Foreign exchange translation adjustments are recorded in the Consolidated Condensed Statements of Comprehensive Income.

Based on changes in the timing and amount of interest rate and foreign currency exchange rate movements and our actual exposures and hedges, actual gains and losses in the future may differ from our historical results.

ITEM 4. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, our disclosure controls and procedures are effective.

(b) Internal Control Over Financial Reporting. There have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. Legal Proceedings**

From time to time, we are involved in litigation incidental to the conduct of our business. We do not expect that any of this litigation, individually or in the aggregate, will have a material adverse effect on our financial condition, results of operations or cash flow.

Item 1A. Risk Factors

In addition to the other information set forth in this Form 10-Q, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended March 31, 2011, which could materially affect our business, financial condition or future results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**Purchases of Equity Securities by the Issuer and Affiliated Purchasers**

The following table summarizes the number of shares of common stock we purchased from participants in our equity incentive plans as well as repurchases of common stock authorized by the Board of Directors. As provided by our equity incentive plans, vested options outstanding may be exercised through surrender to the Company of option shares or vested options outstanding under the Plan to satisfy the applicable aggregate exercise price (and any withholding tax) required to be paid upon such exercise.

Purchases of Equity Securities

Period	(a) Total number of shares (or units) purchased	(b) Average price paid per share (or unit)	(c) Total number of shares (or units) purchased as part of publicly announced plans or programs		(d) Maximum number (or approximate dollar value) of shares (or units) that may be purchased under the plans or programs
			shares (or units)	value	of shares (or units) purchased
October 3 - October 30, 2011	456	\$ 20.84			80,692 ⁽¹⁾
October 31 - November 27, 2011					80,692
November 28, 2011 - January 1, 2012					80,692
Total		\$ 20.84			80,692

⁽¹⁾ On May 26, 2011, the Company's Board of Directors authorized the Company to repurchase up to the number of shares exercised through previous stock option awards and common stock issued under the 2010 Equity Incentive Plan.
