CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934. All statements other than statements of historical fact included in this Annual Report on Form 10-K are forward-looking statements. Forward-looking statements give our current expectations relating to our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to current or historical facts. These statements may include words such as anticipate, estimate, expect, project, forecast, plan, intend, believe, may, should, would, likely and other words of similar expression. Forward-looking statements should not be relied upon. They give expectations about the future and are not guarantees. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance and achievements to materially differ from any future results, performance and achievements expressed or implied by such forward-looking statements. These forward-looking statements present our estimates and assumptions only as of the date of this Annual Report on Form 10-K. Except as may be required by law, we undertake no obligation to modify or revise any forward-looking statements to reflect events or circumstances occurring after the date of this report.

Factors that could cause actual results to differ materially from those expressed or implied by forward-looking statements include:

our history of losses;

our inability to obtain operating and development capital;

a prolonged recession in the national economy and adverse economic conditions in the retail sector;

our inability to compete effectively;

our directors may be involved or have interests in other businesses, including real estate activities and investments;

our inability to control certain of our properties due to the joint ownership of such property and our inability to successfully attract desirable strategic partners;

potential conflicts with GGP (as defined below) arising from agreements with GGP with respect to certain of our assets;

risks associated with our spin-off from GGP not qualifying as a tax-free distribution for U.S. federal income tax purposes;

substantial stockholders having influence over us, whose interests may be adverse to ours or other stockholders; and

the other risks described in Item 1A. Risk Factors.

PART I

Throughout this Annual Report on Form 10-K, references to the Company, we and our refer to The Howard Hughes Corporation and its consolidated subsidiaries, unless the context requires otherwise.

ITEM 1. BUSINESS

OVERVIEW

The Howard Hughes Corporation's mission is to be the preeminent developer and operator of master planned communities and mixed use properties. We create timeless places and memorable experiences that inspire people while driving sustainable, long-term growth and value for our shareholders. We specialize in the development of master planned communities and ownership, management and the redevelopment or repositioning of real estate assets currently generating revenues, also called operating assets as well as other strategic real estate opportunities in the form of entitled and unentitled land and other development rights, also called strategic developments. We are headquartered in Dallas, Texas and our assets are located across the United States.

Unlike most real estate companies which are limited in their activities because they have elected to be taxed as a real estate investment trust, we have no restrictions on our operating activities or types of services that we can offer. We believe our structure provides the greatest flexibility for maximizing the value of our real estate portfolio. As of December 31, 2011, our consolidated debt equaled approximately 17.9% of our total assets and we had \$227.6 million of cash on hand.

Our master planned communities have won numerous awards for, among other things, design and community contribution. We expect the competitive position and desirable locations of our assets (which collectively comprise millions of square feet and thousands of acres of developable land), combined with their operations and long-term opportunity through entitlements, land and home site sales and project developments will drive our long-term growth.

We are pursuing development opportunities for a number of our assets that were previously postponed due to lack of liquidity resulting from deteriorating economic conditions, the credit market collapse and the bankruptcy filing of our predecessors, we are also developing plans for other assets for which plans had not yet been developed.

We currently operate our business in three segments: Master Planned Communities, Operating Assets and Strategic Developments. Financial information about each of our segments is presented in Note 15 to our audited financial statements included elsewhere in this Annual Report on Form 10-K.

We were incorporated in Delaware in 2010 to receive certain assets and liabilities of GGP, Inc., formerly known as General Growth Properties, Inc. (GGP and collectively with its subsidiaries, our predecessors) in connection with our predecessors' emergence from bankruptcy. We completed our spin-off from GGP on November 9, 2010.

Overview of Business Segments

Master Planned Communities. Our Master Planned Communities segment primarily consists of the development and sale of residential and commercial land, primarily in large-scale projects. After acquiring our partner's 47.5% economic interest in The Woodlands Operating Company, L.P. and subsidiaries, TWPC Holdings, LP and subsidiaries and TWLDC Holdings, L.P. and subsidiaries (collectively The Woodlands) on July 1, 2011, we now wholly own our four master planned communities (The Woodlands, Summerlin, Bridgeland and Maryland). Our master planned community in Maryland includes four separate communities that are collectively referred to as the Maryland Communities.

Our Master Planned Communities include over 14,000 acres of land remaining to be sold. Residential sales, which are made primarily to home builders, include standard and custom parcels as well as high density (e.g., condominium, town homes and apartments) parcels designated for detached and attached single- and multi-

Table of Contents

family homes, ranging from entry-level to luxury homes. Commercial sales include land parcels designated for retail, office, resort, services and other for-profit activities, as well as those parcels designated for use by government, schools and other not-for-profit entities.

Operating Assets. Our Operating Assets segment contains 26 properties and investments, consisting primarily of commercial mixed-use, retail and office properties that currently are generating revenue. The assets include nine mixed use and retail properties, six office properties (one of which includes several individual buildings), a resort and conference center, a 36-hole golf and country club, six equity investments and three other operating assets. We believe that there are opportunities to redevelop or reposition many of these assets, primarily the retail properties, to increase operating performance. These opportunities will require new capital investment and vary in complexity and scale. The redevelopment opportunities range from minimal disruption to the property to the partial or full demolition of existing structures for new construction. Beginning with the consolidation of The Woodlands in 2011, this segment also includes the commercial properties located at The Woodlands, which consist primarily of newly-constructed or stabilized office, retail and golf properties, and a resort and conference center.

Strategic Developments. Our Strategic Developments segment is made up of near, medium and long-term development projects for 19 of our real estate properties. We believe most of these 19 assets will require substantial future development to achieve their highest and best use. We are in various stages of creating or executing strategic plans for many of these assets based on market conditions and availability of capital. In addition to the permitting and approval process attendant to almost all large-scale real estate developments of this nature, we will likely need to obtain financing to realize a development plan for one or more of these assets.

The chart below presents our assets by reportable segment.

Table of Contents**Master Planned Communities**

Our Master Planned Communities segment consists of the development and sale of residential and commercial land, primarily in large-scale projects in and around Las Vegas, Nevada; Houston, Texas; and Columbia, Maryland. Summerlin and the Maryland Communities are additionally divided into regions or projects as described below in each of the separate community narratives. Revenues are derived primarily from the sale of finished lots and undeveloped pads to both residential and commercial developers. Additional revenues are earned through participations with builders in their sales of finished homes to homebuyers. Revenues and net income are affected by factors such as: (1) the availability to purchasers of construction and permanent mortgage financing at acceptable interest rates; (2) consumer and business confidence; (3) regional economic conditions in the areas surrounding the projects; (4) employment levels; (5) levels of homebuilder inventory; (6) other factors generally affecting the homebuilder business and sales of residential properties; (7) availability of saleable land for particular uses; and (8) our decisions to sell, develop or retain land.

Our Master Planned Communities are located in geographic markets which are experiencing different rates of recovery following the housing market decline that started in 2007. Our communities in Houston, Texas, have benefited from companies relocating to Houston and the expansion of energy sector companies. The Las Vegas, Nevada market is recovering more slowly and our Summerlin master planned community is experiencing more variability in sales pace and volume compared to our Houston communities. As a business venture, development of master planned communities requires expertise in large-scale, long-range land use planning, residential and commercial real estate development, sales and other special skills. The development of our large scale master planned communities requires decades of investment and a continual focus on the changing market dynamics surrounding these communities. We believe that the long-term value of our master planned communities remains strong because of their competitive and dominant positioning, our expertise and flexibility in land use planning and the fact that we have substantially completed the entitlement process within our communities.

The following table summarizes our master planned communities as of December 31, 2011:

Community	Location	Ownership (%)	Total Gross Acres(a)	Remaining Saleable Acres(b)		Other Acres	Total	Remaining Saleable Lots(c)	Projected Community Sell-Out Date
				People Living in Community (Approx. No.)	Residential (c)				
Summerlin	Las Vegas, NV	100.0	22,500	100,000	5,880	891	6,771	38,684	2039
Bridgeland	Houston, TX	100.0	11,400	4,750	3,797	1,226	5,023	18,900	2036
Maryland									
Columbia	Howard County	100.0	14,200	100,000				35(e)	2018(g)
Gateway	Howard County	100.0	630			121	121		2017
Emerson	Howard County	100.0	520	2,200	2	68	70	28	2017
Fairwood	Prince George's County	100.0	1,100	2,500		11	11	24	2013
The Woodlands	Houston, TX	100.0(f)	28,400	101,000	1,164	961	2,125	3,669	2022
Total			78,750	310,450	10,843	3,278	14,121	59	61,281

- (a) Encompasses all of the land located within the borders of the master planned community, including parcels already sold, saleable parcels and non-saleable areas, such as roads, parks and recreation and conservation areas.
- (b) Includes only parcels that are intended for sale or joint venture. The mix of intended use, as well as the amount of remaining saleable acres, are primarily based on assumptions regarding entitlements and zoning of the remaining project and are likely to change over time as the master plan is refined. Remaining saleable acres are estimates.
- (c) Includes standard, custom and high density residential land parcels. Standard residential lots are designed for detached and attached single- and multi-family homes, of a broad range, from entry-level to luxury homes. At Summerlin and The Woodlands, we have designated certain residential parcels as custom lots as their premium price reflects their larger size and other distinguishing features such as being within a gated community, having golf course access, or being located at higher elevations. High density residential includes townhomes, apartments and condominiums. Reflected are the remaining residential acres and lots associated with those acres.
- (d) Designated for retail, office, resort, services and other for-profit activities, as well as those parcels allocated for use by government, schools, houses of worship and other not-for-profit entities.

Table of Contents

- (e) Reflects the number of net developable acres in raw land and subdivided land parcel available for new development, but which we currently intend to hold. During 2011, we contributed approximately 4.2 acres (Columbia Parcel D) to a joint venture to construct an apartment building on the site.
- (f) Prior to July 1, 2011 our economic ownership interest was 52.5%. On July 1, 2011, we acquired the remaining 47.5% of the economic ownership of The Woodlands from our partner.
- (g) We currently intend to develop this land surrounding the Columbia Town Center. The data represents our estimated redevelopment completion date.

Summerlin (Las Vegas, Nevada)

Spanning the western rim of the Las Vegas Valley and located approximately nine miles from downtown Las Vegas, our 22,500 acre Summerlin master planned community is comprised of planned and developed villages and offers suburban living with accessibility to the Las Vegas Strip. For much of its 20-year history, Summerlin has consistently ranked in the Robert Charles Lesser annual poll of Top Ten Master Planned Communities in the nation. With 26 public and private schools, five institutions of higher learning, nine golf courses, and cultural facilities, Summerlin is a fully integrated community. The first residents moved into their homes in 1991. As of December 31, 2011, there were approximately 40,000 homes occupied by approximately 100,000 residents.

Summerlin is comprised of hundreds of neighborhoods located in 19 developed villages with nearly 150 neighborhood and village parks, all connected by a 150-mile long trail system. Summerlin is located adjacent to Red Rock Canyon National Conservation Area, a landmark in southern Nevada, which has become a world-class hiking and rock climbing destination and is in close proximity to our Shops at Summerlin Centre development site. Red Rock Casino Resort & Spa, which is adjacent to our site, receives more than one million visitors annually. Summerlin contains approximately 1.7 million square feet of developed retail space, 3.2 million square feet of developed office space and three hotel properties containing approximately 1,400 hotel rooms, as well as health and medical centers, including Summerlin Hospital and the Nevada Cancer Institute.

Summerlin is divided into three separate regions or projects known as Summerlin North, Summerlin West and Summerlin South. Summerlin North is fully developed. In Summerlin South, we are entitled to develop 740 acres of commercial property with no square footage restrictions, 354 acres of which are owned by third parties or already committed to commercial development. We also have entitlements for an additional 19,000 units yet to be developed in Summerlin South. In Summerlin West, we are entitled to develop 5.85 million square feet of commercial space on up to 508 acres of which 100,000 square feet have already been developed through the construction of a grocery store anchored shopping center. We are also entitled to develop 30,000 residential units in Summerlin West, approximately 25,000 of which remain to be developed. Summerlin does not currently utilize all of its remaining entitlements for residential units. The total residential units reflected in the chart on page 4 represents Summerlin's best estimate of the units that will be developed on its remaining land, based on economic conditions now and expected in the future; however, market forces could change these assumptions. As of December 31, 2011, Summerlin had approximately 5,880 residential acres and 891 commercial acres remaining to be sold. Summerlin's population upon completion of the project is expected to be approximately 220,000 residents.

Bridgeland (Houston, Texas)

Bridgeland is a master planned community near Houston, Texas consisting of approximately 11,400 acres, and was voted by The National Association of Home Builders as the Master Planned Community of the Year in 2009. The first residents moved into their homes in June 2006. There were approximately 1,375 homes occupied by approximately 4,750 residents as of December 31, 2011. Bridgeland's conceptual plan includes four villages—Lakeland Village, Parkland Village, Prairieland Village and Creekland Village—plus a town center mixed-use district and a carefully designed network of trails totaling over 60 miles that will provide pedestrian connectivity to distinct residential villages and neighborhoods and recreational, educational, cultural, employment, retail, religious and other offerings. Bridgeland's first five neighborhoods are located in Lakeland Village. These neighborhoods offer a unique home buying experience that includes two convenient model home parks showcasing 18 models by ten of Houston's top builders. Bridgeland has many home sites that enjoy views of

Table of Contents

water, buried power lines to maximize the views of open space and water, fiber-optic technology, brick-lined terrace walkways and brick, stone and timber architecture. The prices of the homes range from approximately \$170,000 to more than \$1.0 million. Lakeland Village is approximately 60% completed. The Lakeland Activity Center, the first of several planned activity complexes to be constructed as development progresses and more residents move to Bridgeland, opened in May 2007. The complex is anchored by a 6,000 square foot community center and features a water park with three swimming pools, two lighted tennis courts and a state-of-the-art fitness room. A grand promenade wrapping around Lake Bridgeland offers a boat dock, canoes, kayaks, sailboats and paddleboats. Bridgeland is expected to feature more than 3,000 acres of waterways, lakes, trails, parks and open spaces, as well as an expansive town center with room for employment, retail, educational and entertainment facilities.

Bridgeland's conceptual plan includes a 900-acre town center mixed-use district. The conceptual plan contemplates that the town center will be located adjacent to the expansion of State Highway 99 (the Grand Parkway), which is an approved 180 mile circumferential highway traversing seven counties and providing access to southwest, west, northwest, north and northeast Houston. Segment E of the Grand Parkway will be a 15-mile four-lane controlled access toll road with intermittent frontage roads from Interstate 10 to Highway 290 through Harris County. Segment E will provide direct access to the portion of Bridgeland designated for the town center. Construction on Segment E began in October 2011 and is estimated to be completed by the end of 2013 or beginning of 2014.

We anticipate that the Bridgeland community will eventually accommodate more than 20,000 homes and 65,000 residents, and we believe that it is poised to be one of the top master planned communities in the nation. As more fully described below, we are leveraging the 37 years of master planned community development experience of The Woodlands organization to develop and market Bridgeland. As of December 31, 2011, Bridgeland had approximately 3,797 residential acres and 1,226 commercial acres remaining to be sold.

Maryland Communities

Our Maryland communities consist of four distinct projects:

Columbia;

Gateway;

Emerson; and

Fairwood.
Columbia

Columbia, located in Howard County, Maryland, is an internationally recognized model of a successful master planned community developed in the 1960's. As of December 31, 2011, Columbia was home to approximately 100,000 people. Columbia's full range of housing options is located in ten distinct, self-contained villages. Each village is comprised of several neighborhoods, a shopping center and community and recreational facilities. In Columbia Town Center's downtown, 1.6 million square feet of office space is located close to shopping, restaurants and entertainment venues.

In 2005, the U.S. Government enacted the Base Alignment and Closure Act (BRAC) resulting in the relocation of governmental agencies to the 5,000 acre Fort Meade military base. Fort Meade is located approximately 11 miles from the Columbia Town Center. According to published reports, Fort Meade is the largest single employer of Howard County residents, with more than 10,000 employed, and directly or indirectly supports approximately 170,000 jobs in the region. Since 2005, Fort Meade's workforce has expanded from 34,000 to 56,000 employees, with BRAC accounting for just 5,800 of the 22,000 new positions. Recent news reports estimate that the relocation of military personnel due to BRAC created demand for 1.3 million square feet of new space to Fort Meade, and some estimates indicate that another 5.6 million square feet of space may be developed

Table of Contents

in the future, including growth of the Cyber Command headquarters. By 2015, the overall workforce on the base is expected to exceed 65,000 primarily because of the base's role in cyber security and protecting the U.S.'s information technology assets from foreign threats. Between 2007 and 2015, 8,800 new job holders and 5,500 new households are expected to come into Howard County because of the Fort Meade growth.

We own approximately 35 net acres of land in Columbia which we expect to develop. The land currently consists of raw land and subdivided land parcels readily available for new development. During 2011, we contributed over four acres of land to the Columbia Parcel D joint venture. We are developing a 375 unit apartment building on this land with a local partner as more fully described under Strategic Developments. In addition, we own five office properties comprising 300,000 square feet collectively referred to as the Columbia Office Properties as more fully described under Operating Assets as well as surface and structured parking and dedicated open space. We believe there is a significant opportunity to redevelop this portion of the master planned community in the future. During 2010, we received entitlements to develop up to 5,500 new residential units, approximately one million square feet of retail, approximately five million square feet of commercial office space and 640 hotel rooms.

In November 2010, we entered into development agreements with GGP that provide for the division of properties between our Company and GGP in an area within the mall ring road adjacent to The Mall in Columbia which is owned by GGP. The development agreements contain the key terms, conditions, responsibilities and obligations with respect to the future development of this area within the greater Downtown Columbia Redevelopment District. The agreements designate us as the preferred residential and commercial developer, and provide us with a five-year right of first offer and a subsequent six-month purchase option to acquire seven office buildings and associated parking lots, totaling approximately 22 acres.

Gateway

Gateway is a 630-acre premier master planned corporate community located in a high traffic area in Howard County, Maryland. Gateway offers quality office space in a campus setting with approximately 121 commercial acres remaining to be sold as of December 31, 2011.

Emerson

Emerson is a substantially completed master planned community located in Howard County, Maryland and consists of approximately 520 acres. The first residents moved into their homes in 2002. There were approximately 975 homes occupied by approximately 2,200 residents as of December 31, 2011.

Emerson offers a wide assortment of single-family and townhome housing opportunities by some of the region's top homebuilders, and is located in one of Maryland's top-performing public school districts. As of December 31, 2011, we had approximately two residential acres and 68 commercial acres remaining to be sold. The remaining land is fully entitled for build-out, subject to meeting local requirements for subdivision and land development permits. In addition, 28 of our townhouse lots are under contract for approximately \$3.9 million to builders and scheduled to close in stages through 2012. As of December 31, 2011, we have sold 58 townhouse lots for an aggregate price of \$7.3 million.

Fairwood

Fairwood is a fully developed master planned community located in Prince George's County, Maryland, consisting of approximately 1,100 acres. As of December 31, 2011, 11 commercial acres were available for sale. The first residents moved into their single-family homes in 2002. There were approximately 1,100 homes occupied by approximately 2,500 residents on December 31, 2011. Fairwood consists of single-family and townhouse lots, as well as undedicated open space and two historic houses. In addition to the commercial acres remaining to be sold, we own a few undedicated open space parcels, and 24 acres of unsubdivided land which cannot be developed as long as the nearby airport is operating.

Table of Contents

The Woodlands (Houston, Texas)

The Woodlands is a mixed-use master planned community situated 27 miles north of Houston and consists of 28,400 acres. The Woodlands is a self-contained community that integrates recreational amenities, residential neighborhoods, commercial office space, retail shops and entertainment venues. Home site sales began in 1974. As of December 31, 2011, we estimated that there were approximately 38,000 homes occupied by approximately 101,000 residents and more than 1,755 businesses providing employment for approximately 49,960 people.

Approximately 28% of The Woodlands is dedicated to green space, including parks, pathways, open spaces, golf courses and forest preserves. The population of The Woodlands is projected to be approximately 130,000 by 2020. The Woodlands has full or partial ownership interests in commercial properties totaling 434,328 square feet of office space, 203,282 square feet of retail and service space and 865 rental apartment units. We also own and operate a 440 room resort and conference center facility and a 36-hole golf and country club. These commercial properties are more fully described under Operating Assets. As of December 31, 2011, The Woodlands had approximately 1,164 acres of unsold residential land, representing approximately 3,669 lots, and approximately 961 acres of unsold land for commercial use.

The Woodlands includes a waterway, outdoor art and an open-air performance pavilion, a resort and conference center, a luxury hotel and convention center, educational opportunities for all ages, hospitals and health care facilities and office space. The Fountains at Waterway Square located on The Woodlands Waterway connects the projects to the community via a water taxi system serving The Woodlands Town Center area.

On July 1, 2011, we acquired our former partner's 47.5% economic interest in The Woodlands and now own 100% of the master planned community. After the acquisition of our partner's interest, we consolidated management of Bridgeland and The Woodlands. Our strategy is to leverage The Woodlands' 37-plus years of master planned community development experience to replicate the success of The Woodlands at Bridgeland, which is in the early stages of its development life cycle.

Operating Assets

We own 26 assets consisting of nine retail properties, six office properties, a resort and conference center, an exclusive golf and country club, six equity investments in commercial properties and three other assets currently generating revenues. We believe, based on a variety of factors, that there are opportunities to redevelop or reposition several of these assets, primarily the retail properties, to improve their operating performance. These factors include, but are not limited to the following: (1) existing and forecasted demographics surrounding the property; (2) competition related to existing and/or alternative uses; (3) existing entitlements of the property and our ability to change them, compatibility of the physical site with proposed uses; and (4) environmental considerations, traffic patterns and access to the properties. We believe that, subject to obtaining all necessary consents and approvals, these assets have the potential for future growth by means of an improved tenant mix, additional gross leasable area (GLA), or repositioning of the asset for alternative use. Our retail operating assets include approximately 2.7 million total square feet of GLA in the aggregate. Redevelopment plans for these assets may include office, retail or residential space, shopping centers, movie theaters, parking complexes and open space. Any future redevelopment will require the receipt of permits, licenses, consents and waivers from various parties and may include a reclassification of the asset to the Strategic Developments segment.

Retail Operating Assets

Ward Centers (Honolulu, Hawaii)

Ward Centers is comprised of approximately 60 acres situated along Ala Moana Beach Park and is within one mile of Waikiki and downtown Honolulu. It is also a ten minute walk from Ala Moana Center, Hawaii's largest shopping center. Ward Centers currently includes a 630,000 square foot shopping district containing six specialty centers and over 135 unique shops, a variety of restaurants and an entertainment center which includes a 16

Table of Contents

screen movie theater. In January 2009, the Hawaii Community Development Authority (HCDA) approved a 15-year master plan, which entitles us to develop a mixed-use development encompassing a maximum of 9.3 million square feet, including up to 7.6 million square feet of residential. In January 2011, we executed a development agreement with the HCDA.

During 2011, we completed a 722 stall parking deck that is expected to facilitate the leasing of additional space at Ward Centers and restarted construction of approximately 65,000 square feet of retail space adjacent to the garage. A tenant has already leased and taken possession of approximately 36,000 square feet of this new space. Ward Centers also includes approximately 374,000 square foot of industrial and office properties.

In September 2011, we entered into a \$250.0 million credit facility to support the redevelopment plan for Ward Centers. The loan initially funded \$212.5 million to refinance three existing mortgage loans and for closing costs. Prior to December 31, 2011, we borrowed an additional \$7.5 million to fund capital expenditures at the property.

South Street Seaport (New York, New York)

South Street Seaport is comprised of two landmarked historic buildings, one non-historic structure and one pavilion shopping mall located on Pier 17 on the East River in Manhattan. We also lease 24,000 square feet for sublet to retailers at the base of an adjacent 1.1 million square foot office tower. All of the property except the office tower retail space is subject to a lease with the City of New York. The total property includes 301,086 square feet of space, substantially all of which is retail.

During December 2011, we entered into a letter of intent with the New York City Economic Development Corporation which enables us to pursue redevelopment plans for the South Street Seaport. The City of New York is the lessor and the letter of intent describes the business terms of future amendments to the lease, the first of which must be finalized by June 30, 2012. The amendments to the lease will be effective upon achievement of certain development milestones, but generally become effective after all approvals have been obtained to begin construction. Once they are finalized, lease amendments will, among other things, eliminate any supplemental or participation rent the City of New York would be entitled to under the existing lease. Certain of the amendments also will permit us, subject to obtaining necessary approvals from other constituencies, to renovate the Pier 17 building. We will assume all Pier 17 maintenance obligations as part of the amendment to permit the Pier 17 renovation. The letter of intent also sets several milestones for the Pier 17 renovation, including a construction commencement date for Pier 17 no later than June 30, 2013. We agreed to pay approximately \$1.1 million of the maintenance costs for the East River Esplanade maintenance, which is part of the South Street Seaport, over a five-year period as consideration for entering into the letter of intent. This obligation will continue to exist regardless of whether the lease is amended. Please refer to Note 14 of the audited financial statements for more information regarding the letter of intent.

Landmark Mall (Alexandria, Virginia)

Currently anchored by Macy's and Sears, Landmark Mall is an 879,262 square foot shopping mall located in affluent Alexandria, Virginia. This mall is located just nine miles west of Washington, D.C. and the Pentagon, and is within approximately one mile of public rail service on D.C.'s metro blue line. Following a re-zoning effort that allows for the development of up to 5.5 million square feet, Landmark Mall has the potential to be developed into a dynamic destination for shopping, dining, working and living. Any redevelopment of Landmark Mall will be dependent upon the Company reaching agreements with existing anchor tenants.

Park West (Peoria, Arizona)

Park West is a 249,168 square foot open-air shopping, dining and entertainment destination in Peoria, Arizona. Park West is approximately one mile northwest of the Arizona Cardinals football stadium and the Phoenix Coyotes hockey arena. Park West has an additional 100,000 square feet of available development rights as permitted for retail, restaurant and hotel uses.

Table of Contents

Rio West Mall (Gallup, New Mexico)

Rio West Mall is located in Gallup, New Mexico. This 514,023 square foot shopping center is the only enclosed regional shopping center within a 125 mile radius, and is easily accessed from I-40 and historic Route 66.

Riverwalk Marketplace (New Orleans, Louisiana)

Riverwalk Marketplace is located along the Mississippi River in downtown New Orleans. The 193,874 square foot shopping center is comprised of more than 100 local and national retail shops, restaurants and entertainment venues. It is adjacent to the New Orleans Memorial Convention Center and the Audubon Aquarium of the Americas.

Cottonwood Square (Salt Lake City, Utah)

Cottonwood Square is a 77,079 square foot community center located in Salt Lake City, Utah. The center is located in a high traffic area and sits across from our Cottonwood Mall, providing an opportunity for development synergies.

20 & 25 Waterway Avenue (The Woodlands, Texas)

20 & 25 Waterway Avenue are two retail properties located in The Waterway Square commercial district in The Woodlands Town Center. The properties total 49,972 square feet and were completed in 2009 and 2007, respectively.

Waterway Garage Retail (The Woodlands, Texas)

Waterway Garage Retail is attached to The Waterway Square Garage located within The Woodlands Town Center. The property totals 21,260 square feet and was completed in 2011 is currently available for lease.

Office Operating Assets

110 N. Wacker (Chicago, Illinois)

We own a 99% joint venture interest in an entity that has a ground leasehold interest in the land underlying a 226,000 square foot office building located at 110 N. Wacker Drive in downtown Chicago. The ground lease expires in 2055 and the building is 100% leased to a subsidiary of GGP through October 2019. GGP has several options to extend their lease through the duration of the ground lease. We have the right to terminate GGP's lease with six months' notice following the expiration of the initial term in 2019.

We receive 100% of the annual lease payments made by the subsidiary of GGP. The amount totals approximately \$6.1 million. As part of our joint venture agreement, we remit a monthly payment of \$31,250 to our partner through May 1, 2013.

Columbia Office Properties (Columbia, Maryland)

We own four office buildings and are a master tenant of a fifth office building. The office building ground lease has a 2020 initial expiration and a 2060 final expiration date, including market renewal options. The buildings comprise approximately 300,000 square feet in the heart of downtown Columbia including: (1) American City Building (master tenant); (2) the Columbia Association Building; (3) the Columbia Exhibit Building; (4) the Ridgley Building; and (5) the Columbia Regional Building. This group also contains the Merriweather Post Pavilion, an outdoor amphitheater and concert venue. Both the Columbia Regional Building and Merriweather Post Pavilion were designed by Frank Gehry. Columbia, Maryland is located 14 miles from the Baltimore Beltway and 17 miles from the Washington Beltway.

Table of Contents

4 Waterway Square (The Woodlands, Texas)

4 Waterway Square is a nine-story Class A office building located within The Woodlands Town Center. The property totals 218,551 square feet and was completed in 2010.

9303 New Trails (The Woodlands, Texas)

9303 New Trails is a four-story Class B office building located within the Research Forest district of The Woodlands. The property totals 97,705 square feet and was completed in 2008.

1400 Woodloch Forest Drive (The Woodlands, Texas)

1400 Woodloch Forest Drive is a five-story Class B office building located at the entrance to The Woodlands Town Center. The property totals 95,667 square feet and was completed in 1981.

2201 Lake Woodlands Drive (The Woodlands, Texas)

2201 Lake Woodlands Drive is a two-story Class C office building located in the East Shore commercial district of The Woodlands. The property totals 24,024 square feet and was completed in 1994.

Resort and Conference Center and Country Club Operating Assets

The Woodlands Resort & Conference Center (The Woodlands, Texas)

The Woodlands Resort and Conference Center is located approximately two miles south of The Woodlands Town Center. The property operates 440 hotel rooms, has 60,000 square feet of meeting space and the latest phase was completed in 2002. For the year ended December 31, 2011, the property generated revenue per available room of \$95.73.

The Club at Carlton Woods (The Woodlands, Texas)

The Club at Carlton Woods is located within one of the most exclusive communities in The Woodlands. It contains an 18-hole Jack Nicklaus Signature Golf Course and an 18-hole Tom Fazio Championship Course, in addition to two clubhouses, spa, tennis, and fitness facilities.

Equity Investments and Other Operating Assets

Waterway Square Garage (The Woodlands, Texas)

The wholly owned Waterway Square Garage, located within The Woodlands Town Center, is a five-story parking garage that contains 1,942 parking spaces and 21,260 square foot of retail space. The garage was completed in 2009 and the retail space is classified under our Operating Assets segment.

The Millennium Waterway Apartments (The Woodlands, Texas)

We have an 83.55% economic interest in a 393-unit apartment building located within The Woodlands Town Center. The property was completed in 2010 as a partnership with The Dinerstein Companies. We account for our interest in The Millennium Waterway Apartments as a non-consolidated investment using the equity method.

Forest View/Timbermill Apartments (The Woodlands, Texas)

Forest View apartments is a 216 unit, multi-family rental community developed in 1994 under the Federal Low-income Housing Tax Credit Program (FLHTCP). Timbermill apartments is a 256 unit multi-family rental community developed in 1993 under the FLHTCP. We have 50% cash flow interest in these investments as well as receive a five percent management fee. These investments are under contract for sale, and we expect to receive proceeds in the amount of \$8.6M.

Table of Contents

Interest in Head Acquisition (Hexalon)

We own 100% of the ownership interests in Hexalon Real Estate, LLC (Hexalon). Hexalon owns a 1.42% interest in Head Acquisition, LP, a joint venture between GGP, Simon Property Group, L.P. and Westfield Group. The partnership owns certain retail mall interests. Hexalon receives a quarterly preferred interest distribution from Head Acquisition, L.P. which totaled approximately \$321,000 in 2011. The entity possesses significant tax attributes that we could utilize to reduce future taxable income. These attributes are expected to reduce our tax liability by approximately \$75.5 million (net of a valuation allowance as of December 31, 2011), subject to potential offset provided in the Tax Matters Agreement between us and GGP. Our annual taxable income will determine how our tax liability is reduced each year. This tax attribute carries over indefinitely until it is fully utilized.

Woodlands Sarofim #1 Limited (The Woodlands, Texas)

We own a 20% interest in three office/industrial buildings located in The Woodlands Research Forest district within The Woodlands. The portfolio contains 132,050 square feet and various phases were constructed between the late 1980 s and 2002.

Interest in Summerlin Hospital Medical Center (Las Vegas, Nevada)

We have an indirect ownership interest of approximately 6.8% in the Summerlin Hospital Medical Center. This property is a 450-bed hospital located on a 32-acre medical campus near Las Vegas. Summerlin Hospital Medical Center is located in our Summerlin master planned community. It is an acute care facility with adjoining outpatient services for surgery, laboratory and radiology, as well as two medical office buildings. The hospital completed a major renovation in 2009 that expanded the hospital to 450 beds (from 281 beds) and added a new six-story patient tower, an expanded emergency room, a four-story, 80,000 square foot medical office building and a 600-space parking garage.

The property s majority owner and operator is a subsidiary of Universal Health Services, Inc. (UHS), one of the largest healthcare management companies in the nation. UHS and our predecessors formed a joint venture to build and manage the hospital. Our predecessors contributed the land and UHS provided the funds to build the hospital. The ownership structure entitles us to a pro rata share of the cumulative undistributed profit in the hospital. We typically receive a distribution one time per year during the first quarter. During 2011, we received a \$3.9 million distribution, of which approximately \$2.0 million was related to 2010 and \$1.9 million was deferred from prior years due to the renovation and expansion of the hospital noted above.

Interest in Stewart Title (The Woodlands, Texas)

We own a 50% interest in Stewart Title, a company located in The Woodlands which handles a majority of the residential and commercial land sale closings for The Woodlands.

Note Approximating Office Lease Payments

We receive payments approximating the capital lease revenue that GGP receives from the Arizona 2 Office in Phoenix, Arizona. These payments total approximately \$6.9 million per year through the end of 2015 and are recorded as interest income and principal amortization. The underlying real property interests in the Arizona 2 Office will continue to be owned by GGP, and we will not own or obtain any real property interest therein or have any rights to receive payments after 2015. The right to receive these payments is in the form of a promissory note issued by a subsidiary of GGP.

Participation Interest in Golf Courses at Summerlin and TPC Las Vegas, located in the Summerlin Master Planned Community (Las Vegas, Nevada)

We are entitled to receive residual payments from the Professional Golfers Association of America (the PGA) with respect to two golf courses, the TPC Summerlin and the TPC Las Vegas, through October 31, 2021. We

Table of Contents

receive 75% of the net operating profits and 90% of all profits from membership sales at TPC Summerlin until such time as the original investment in the courses of \$23.5 million has been recouped, which is projected to occur no sooner than 2015. As of December 31, 2011, the remaining balance on our investment is approximately \$6.6 million, approximately \$4.3 million greater than our \$2.3 million net book value at December 31, 2011. Once we have received payments from the PGA totaling \$23.5 million, we are entitled to receive 20% of all net operating profits from the two courses through October 31, 2021, the termination date of the agreement with the PGA. The TPC Summerlin is an 18-hole private championship course designed by golf course architect Bobby Weed with player consultant Fuzzy Zoeller. TPC Las Vegas is an 18-hole public championship course designed by golf course architect Bobby Weed with player consultant Raymond Floyd. These courses represent the only two golf courses in Nevada that are owned and operated by the PGA Tour.

Strategic Developments

Our Strategic Developments segment is made up of near, medium and long-term real estate properties and development projects. At present, we believe these assets will require substantial future development to achieve their highest and best use. We are in the process of creating strategic plans for each of these assets based on market conditions and availability of capital. The new plans may differ significantly from our predecessors. To be able to realize a development plan for any of these assets, in addition to the permitting and approval process attendant to almost all large-scale real estate developments of this nature, we will likely need to obtain financing.

The following table summarizes our strategic development projects as of December 31, 2011:

Asset	Location	GLA	Size (Acres)	Net Book Value, December 31, 2011 (Millions)	Acquisition Year
Ala Moana Condo Project	Honolulu, HI			\$ 22.9	2002
Bridges at Mint Hill	Charlotte, NC		162	12.6	2007
Columbia Parcel D	Columbia, MD		4	3.0	
3 Waterway Square	Houston, TX	232,774(a)	0.825	0.2	2012
Alameda Plaza	Pocatello, ID	190,341	22	2.3	2002
AllenTowne	Allen, TX		238	25.4	2006
Century Plaza	Birmingham, AL	169,072	63	4.5	1997
Circle T Ranch and Power Center	Dallas/Ft. Worth, TX		279	18.0	2005
Cottonwood Mall	Holladay, UT	6,600	54	19.6	2002
Elk Grove Promenade	Elk Grove, CA		100	5.5	2003
Fashion Show Air Rights	Las Vegas, NV				2004
Kendall Town Center	Kendall, FL		75	17.5	2004

Total		598,787	1,827	\$ 198.0	

(a) 3 Waterway Square development was announced in October 2011. After the announcement, the building size was increased to 232,774 square feet from 192,000 square feet due to strong market demand. Construction is expected to begin during the first quarter 2012.

Table of Contents

Ala Moana Tower Condo Project (Honolulu, Hawaii)

We own the rights to develop a residential condominium tower over a parking structure at Ala Moana Center in Honolulu, Hawaii pursuant to a condominium property regime declaration. The declaration permits the construction of a first-class residential tower with approximately 18 stories, and requires, among other things, that the scope of work for the residential tower project will include certain street-level and sewer improvements. The plans and specifications for the residential tower project will be subject to GGP's review and reasonable approval per the declaration.

During October 2011, our Company and two local developers formed a joint venture to explore the development of the luxury condominium tower. We and an entity jointly owned by the two development partners each own 50% of the venture. Unanimous consent of the partners is required for all major decisions and the partners will equally fund all pre-development costs relating to the project. The venture is responsible for all pre-development activities, as well as for obtaining construction financing for the project. The venture also intends to raise third party capital to fund up to 80% of the equity required for the project. Our partner's joint venture entity has committed to contribute at least 10% of the required equity and we will obtain a 10% equity interest in the venture in exchange for our contribution of the condominium rights. We have retained the right to sell the condominium rights any time prior to obtaining a commitment from third party equity investors to fund up to 80% of the required equity capital. In the event we sell the condominium rights to a third party prior to completing the third-party equity raise, our partners would be entitled to 20% of the net sale proceeds in excess of the sum of \$47.5 million, and the actual amount of pre-development costs incurred prior to such sale. Our book value of the Ala Moana condominium rights was \$22.9 million as of December 31, 2011.

Bridges at Mint Hill (Charlotte, North Carolina)

This property consists of vacant land located southeast of Charlotte, North Carolina, in the middle of some of the fastest growing areas in the Charlotte region. The parcel is approximately 162 acres and consists of 120 developable acres and is currently zoned for approximately 997,000 square feet of retail, hotel and commercial development. The land is divided by a small stream known as Goose Creek. The current zoning plan contemplates connecting the two resulting parcels with two bridges over the creek. Development will require construction of internal roadways, connecting bridges, expansion of roads and an installation of a force main (offsite) and pump station (onsite) for sewer utility. The Mint Hill parcel is adjacent to a 52-acre parcel owned by a Charlotte-based regional developer. The developer's parcel has been approved for up to 270,000 square feet of space and is expected to be anchored by three to five junior box retailers.

During 2011, we entered into a joint venture with the owner of land adjacent to our property to develop a shopping center on our properties. The parties have agreed to contribute their respective properties free of any encumbrances to the venture by October 31, 2012. Our partner's land is currently encumbered by a \$4.5 million mortgage. If the appraised fair market value of our partner's land as of the contribution date is equal to or greater than \$4.5 million and the mortgage has not been repaid, then we will be required to contribute \$4.5 million cash to the venture (in addition to our land) to repay the mortgage. If the appraised fair market value is less than \$4.5 million, then we must contribute the greater of \$3.0 million or the appraised fair market value of the land. Our partner would then be required to contribute cash equal to the difference between the outstanding mortgage amount and our cash contribution, and in no event more than \$1.5 million. Our initial ownership in the venture is 79.0%, and our ownership percentage could increase to 90.5% if we are required to make the \$4.5 million cash contribution. Please refer to Note 6 of our audited financial statements included elsewhere in this Annual Report on Form 10-K for more information regarding this joint venture.

The joint venture entity entered into a development agreement with an affiliate of our partner, and both our partner and the Company will act as leasing agents for the project. We will fund the venture's capital needs for operating expenses and development costs. Such amounts will be senior to the initial contributed capital and will accrue at 12% per annum compounded return.

Table of Contents

3 Waterway Square (The Woodlands, Texas)

In late October 2011, we announced the construction of a new nine-story, 192,000 square foot office building that will be located in The Woodlands Town Center adjacent to the 4 Waterway Square office building. Subsequent to the announcement of the 3 Waterway Square office building, due to high demand for Class A office space in The Woodlands, the building size was recently increased to eleven stories and will now total 232,774 square feet. Approximately 67.0% of the space has been leased as of February 17, 2012, and average net base rent for the first year is expected to be in excess of \$26.00 per square foot. The building is expected to cost approximately \$51.4 million to construct (excluding our estimated land value and pre-existing garage allocation). We closed on a \$43.3 million non-recourse construction loan for 3 Waterway Square in the first quarter of 2012.

Alameda Plaza (Pocatello, Idaho)

Alameda Plaza is located in Pocatello, Idaho at the intersection of Yellowstone Park Highway and Alameda Road. The 22-acre site contains 190,341 square feet of mostly vacant retail space. We are exploring a potential sale of this asset.

AllenTowne (Allen, Texas)

AllenTowne consists of 238 acres located at the high-traffic intersection of Highway 121 and U.S. Highway 75 in Allen, Texas, 27 miles northeast of downtown Dallas. We are considering plans to best position the property for the opportunities presented by evolving market conditions.

Century Plaza (Birmingham, Alabama)

Century Plaza is located on the eastern side of Birmingham, Alabama, on U.S. Route 78 (Crestwood Blvd.) near Interstate 20, across from Eastwood Village. In May 2009, the mall was shuttered. The site consists of approximately 63 acres with 750,000 of GLA.

Columbia Parcel D (Columbia, Maryland)

In October 2011, we entered into a joint venture with a local developer to construct an approximate 375 unit Class A apartment building with approximately 10,000 square feet of ground floor retail space in downtown Columbia, Maryland. We contributed its 4.2 acre site, having a \$3.0 million book value, to the joint venture. The transaction values the Company's land at \$53,500 per to-be-constructed unit, or \$20.1 million, based on 375 units. The Company and its partner each own 50% of the venture, and unanimous consent of the partners is required for all major decisions. We are responsible for obtaining certain entitlements for the project, and our partner will provide construction and property management services, including the funding and oversight of pre-development activities and obtaining construction financing. Our partner, with limited exceptions, is required to cover any project cost overruns and to provide all guarantees or other recourse obligations as may be required under the construction financing. At any time after the stabilization of the property, either us or our partner may offer to sell the project to an unrelated third party, subject to the other party's right of first refusal. When the venture closes on the construction loan and upon completion of certain other conditions, including obtaining all of the necessary entitlements, completed site development and construction plans, and an approved project budget, the partner will be required to contribute cash to the venture which, after valuing the our contributed land at \$53,500 per unit and considering total expected project costs less financing proceeds, will enable the venture to make a cash distribution to the us to equalize the partners' capital accounts. We have the right to purchase its partner's equity interest in the venture for \$10.00 if the conditions noted above have not been met by October 27, 2013, so long as such failure was not caused by us.

Table of Contents

Circle T Ranch and Circle T Power Center (Dallas-Fort Worth, Texas)

Located at the intersection of Texas highways 114 and 170, Circle T Ranch is 20 miles north of downtown Fort Worth, in Westlake, Texas. The property is approximately 279 total acres on two parcels. The Circle T Ranch parcel contains 128 acres while the Circle T Power Center parcel contains 151 acres. We have a 50% joint venture ownership interest with a local developer.

Cottonwood Mall (Holladay, Utah)

Located 7.5 miles from downtown Salt Lake City, in the city of Holladay, Utah, Cottonwood Mall is a unique infill development opportunity. In 2008, work began on a complete redevelopment of the 54-acre site, but development was delayed due to the changing economic environment. The original mall was completely demolished with the exception of Macy's which continues to operate as a stand-alone store on the site. The project is entitled for 575,000 square feet of retail, 195,000 square feet of office and 614 residential units. We are exploring the feasibility of a mixed-use development and are soliciting retailer interest in the site.

Kendall Town Center (Kendall, Florida)

Kendall Town Center is part of a 158-acre site located at the intersection of North Kendall Drive and SW 158th, approximately 20 miles southwest of downtown Miami. A 31 acre parcel was sold to Baptist Hospital in March 2008, and a 282,000 square foot hospital with 133 beds, along with a 62,000 square foot medical office building, opened in 2011. In 2011, we sold 5 acres and 18 acres in 2009. Those parcels are expected to include a 120 room hotel with ancillary office and retail, office space and a senior housing development. We own the remaining 75 acres, which are currently entitled for 621,300 square feet of retail, 60,000 square feet of office space, and a 50,000 square foot community center.

Elk Grove Promenade (Elk Grove, California)

Elk Grove Promenade was originally planned as a 1.1 million square foot outdoor shopping center on approximately 100 acres. Construction of the site began in 2007, but was delayed due to changing economic conditions. Located approximately 17 miles southeast of Sacramento, the location affords easy access and visibility from State Highway 99 at Grant Line Road. Plans for the site are being evaluated in light of evolving market conditions.

Fashion Show Air Rights (Las Vegas, Nevada)

We entered into a binding set of core principles with GGP pursuant to which we will have the right to acquire for nominal consideration an 80% ownership interest in the air rights above the portions of Fashion Show Mall located on the Las Vegas Strip. This right is contingent upon the satisfaction of a number of conditions and will not become effective unless and until the existing loans and guaranties of Fashion Show Mall and The Shoppes at the Palazzo are satisfied in full, which is currently expected to occur with the scheduled repayment in May 2017.

Lakemoor (Volo) Land (Lakemoor, Illinois)

This 40-acre vacant land parcel is located on Route 12 which is located 50 miles north of Chicago in a growing suburb. The project has no utilities in place, but is located near two planned regional centers.

Maui Ranch Land (Maui, Hawaii)

This site consists of two, non-adjacent, ten-acre undeveloped land-locked parcels located near the Kula Forest Preserve on the island of Maui, Hawaii. The land currently is zoned for native vegetation. There is no ground right of way access to the land and there is no infrastructure or utilities currently in the surrounding area. Accordingly, only a nominal value was ascribed to these parcels when they were acquired by our predecessors in conjunction with the purchase of Ward Centers.

Table of Contents

Nouvelle at Natick Condominium (Natick, Massachusetts)

Nouvelle at Natick is a full service luxury condominium community comprised of 215 residences located in the Natick Collection in the Boston suburb of Natick, Massachusetts. Nouvelle at Natick's amenities include a 4,000 square foot private club, a 2,800 square foot fitness center and a 1.2-acre rooftop garden with winding boardwalks, native grasses, flowers and trees. During 2011, 57 units were sold for \$22.1 million. Two units remain for sale as of December 31, 2011.

Redlands Promenade (Redlands, California)

Redlands Promenade is a ten acre site located at Eureka and the I-10 freeway off ramp in Redlands, California. The project is entitled for 125,000 square feet of retail development.

The Shops at Summerlin Centre (Las Vegas, Nevada)

Construction of The Shops at Summerlin Centre began in 2008, but was delayed due to changing market conditions. The development project fronts Interstate 215 between Sahara Drive and Charleston Boulevard approximately nine miles west of the Las Vegas Strip. Originally planned for approximately 1.5 million square feet of retail and office development, the 106 acre parcel is part of a 1,300 acre mixed-use town center for the Summerlin Master Planned Community. The project has the potential to be developed with retail, office, hotel and multifamily residential. We are evaluating alternative designs for a mixed use project on this site that should incorporate many of the infrastructure improvements made by our former parent. We are also soliciting anchor and in-line retailer interest in the project.

Village at Redlands (Redlands, California)

The Redlands Mall is a single-level, 174,787 square foot enclosed shopping center at the intersection of Redlands Boulevard and Orange Street. Currently anchored by CVS, Denny's and Union Bank, the site is located in downtown Redlands two blocks south of the Redlands Promenade site. The interior portion of the mall closed in September 2010. Originally envisioned as a mixed-use retail and residential redevelopment, plans for the future of Redlands Mall are being evaluated in light of evolving market conditions.

West Windsor (West Windsor, New Jersey)

West Windsor is a former Wyeth Agricultural Research & Development Campus on Quakerbridge Road and U.S. Route One near Princeton, New Jersey. The land consists of 658 total acres comprised of two large parcels which are bisected by Clarksville Meadows Road and a third smaller parcel. Zoning, environmental and other development factors are currently being addressed in conjunction with a feasibility study of the site.

Competition

The nature and extent of the competition we face depends on the type of property involved. With respect to our master planned communities, we compete with other landholders and residential and commercial property developers in the development of properties within Las Vegas, Nevada and Houston, Texas and the Baltimore/Washington, D.C. markets. Significant factors which we believe allow us to compete effectively in this business include:

the size and scope of our master planned communities;

the recreational and cultural amenities available within the communities;

the commercial centers in the communities, including those retail properties that we own and/or operate or may develop;

our relationships with homebuilders;

our level of debt relative to total assets; and

the proximity of our developments to major metropolitan areas.

Table of Contents

We primarily compete for retail and office tenants within our Operating Assets. We believe the principal factors that retailers consider in making their leasing decisions include: (1) consumer demographics; (2) quality, design and location of properties; (3) neighboring real estate projects that have been developed by our predecessors or that we, in the future, may develop; (4) diversity of retailers and anchor tenants at shopping center locations; (5) management and operational expertise; and (6) rental rates.

With respect to malls and development projects, our direct competitors include other commercial property developers, retail mall development and operating companies and other owners of retail real estate that engage in similar businesses. With respect to our mixed-use development projects, we also will be required to compete for financing.

Environmental Matters

Under various federal, state and local laws and regulations, an owner of real estate is liable for the costs of removal or remediation of certain hazardous or toxic substances on such real estate. These laws often impose such liability without regard to whether the owner knew of, or was responsible for, the presence of such hazardous or toxic substances. The costs of remediation or removal of such substances may be substantial, and the presence of such substances, or the failure to promptly remediate such substances, may adversely affect the owner's ability to sell such real estate or to borrow using such real estate as collateral. In connection with our ownership and operation of our properties, we, or the relevant joint venture through which the property is owned, may be potentially liable for such costs.

Substantially all of our properties have been subject to Phase I environmental assessments, which are intended to evaluate the environmental condition of the surveyed and surrounding properties. Phase I environmental assessments typically include a historical review, a public records review, a site visit and interviews, but do not include soil sampling or subsurface investigations. To date, the assessments have not revealed any known environmental liability that we believe would have a material adverse effect on our overall business, financial condition or results of operations. Nevertheless, it is possible that these assessments do not reveal all environmental liabilities or that the conditions have changed since the assessments were prepared (typically at the time the property was purchased or developed). Moreover, no assurances can be given that future laws, ordinances or regulations will not impose any material environmental liability on us, or the current environmental condition of our properties will not be adversely affected by tenants and occupants of the properties, by the condition of properties in the vicinity of our properties (such as the presence on such properties of underground storage tanks) or by third parties unrelated to us.

Future development opportunities may require additional capital and other expenditures to comply with federal, state and local statutes and regulations relating to the protection of the environment. In addition, there is a risk when redeveloping sites, that we might encounter previously unknown issues that require remediation or residual contamination warranting special handling or disposal, which could affect the speed of redevelopment. In addition, where redevelopment involves renovating or demolishing existing facilities, we may be required to undertake abatement and/or the removal and disposal of building materials or other remediation or cleanup activities that contain hazardous materials. We may not have sufficient liquidity to comply with such statutes and regulations or to address such conditions and may be required to halt or defer such development projects. We cannot predict with any certainty the magnitude of any such expenditures or the long-range effect, if any, on our operations. Compliance with such laws has not had a material adverse effect on our predecessors' operating results or competitive position in the past, but could have such an effect on our operating results or competitive position in the future.

Employees

As of December 31, 2011, we had approximately 835 employees.

Available Information

We maintain an internet website at www.howardhughes.com. Our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports are available and may be accessed free of charge through the Investors section of our internet website under the SEC Filings subsection, as soon as reasonably practicable after those documents are filed with, or furnished to, the SEC. Our internet website and included or linked information on the website are not intended to be incorporated into this Annual Report on Form 10-K.

ITEM 1A. RISK FACTORS

The risks and uncertainties described below are those that we deem currently to be material, and do not represent all of the risks that we face. Additional risks and uncertainties not presently known to us or that we currently do not consider material may in the future become material and impair our business operations. If any of the following risks actually occur, our business could be materially harmed, and our financial condition and results of operations could be materially and adversely affected. Our business, prospects, financial condition or results of operations could be materially and adversely affected by the following:

Risks Related to our Business

We have a history of losses and may not be profitable in the future.

Prior to November 9, 2010, our historical combined financial data was carved-out from the financial information of GGP. This data shows that had we been a stand-alone company, we would have had a history of losses. We cannot assure you that we will achieve sustained profitability going forward. For the years ended December 31, 2010 and 2009, we incurred losses from continuing operations of \$69.2 million and \$702.9 million, respectively. The losses from continuing operations subsequent to our spin-off from GGP were primarily due to significant impairment losses due to revised operating strategies by the new management team for certain of our assets and warrant liability expenses related to our sponsors and new management team. In addition, for the years ended December 31, 2010 and 2009, net cash used in operating activities was \$67.9 million and \$17.9 million, respectively, whereas for the year ended December 31, 2011, cash provided by operations was \$86.5 million. If we cannot improve our profitability or generate positive cash flow from our operating activities, the trading value of our common stock may decline.

We have minimal operating history as an independent company upon which investors can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any newly independent public company encounters.

We have a limited operating history as an independent public company. There can be no assurance that we will be able to successfully implement our business plan. Further, at this early stage of our operation, we face certain risks and uncertainties frequently encountered by new companies in an intensely competitive industry. Our prospects must be considered in light of these risks.

We may face potential difficulties in obtaining operating and development capital.

The successful execution of our business strategy will require us to obtain substantial amounts of operating and development capital. Sources of such capital could include bank borrowings, public and private offerings of debt or equity, or sale of certain assets and joint ventures with one or more third parties. In recent years, it has been difficult for companies with substantial profitable operating histories to source capital for real estate development and acquisition projects, as well as basic working capital needs. Although the capital markets have shown signs of improving, we may be unable to obtain financing in the future and financing we are able to secure may only be available on unfavorable terms.

Table of Contents

A prolonged recession in the national economy, or a further downturn in national or regional economic conditions, could adversely impact our business.

The collapse of the housing market, together with the crisis in the credit markets, have resulted in prolonged high unemployment, a lower gross domestic product and reduced consumer spending. During such times, potential customers often defer or avoid real estate purchases due to the substantial costs involved, causing land and other real estate prices to significantly decline. Significantly tighter lending standards for borrowers are also having a significant negative effect on demand. A record number of homes are in foreclosure and forced sales by homeowners under distressed economic conditions are significantly contributing to the high levels of inventories of lots available for sale in some of our master planned communities.

The housing market and the demand from builders for lots vary depending on location. Projected lot sales used in our feasibility analysis may not be met. In addition, the success of our master planned communities business is heavily dependent on local housing markets in Las Vegas, Nevada, Houston, Texas and Baltimore, Maryland/Washington, D.C., which in turn are dependent on the health and growth of the economies and availability of credit in these regions.

We do not know how long the downturn in the residential and commercial real estate markets will last or when real estate markets will return to more stable and predictable conditions. High unemployment, lack of consumer confidence and other adverse conditions in the current economic environment could significantly delay a recovery in real estate markets. Our business may suffer until market conditions improve. If market conditions were to worsen, the demand for our real estate products could further decline, negatively impacting our earnings, cash flow and liquidity. A prolonged low growth or recessionary period could have a material adverse effect on our business, results of operations and financial condition.

We may be unable to develop and expand our properties in our Strategic Developments segment.

Our business objective in our Strategic Developments segment is to develop and redevelop our properties, which we may be unable to do if we do not have or cannot obtain sufficient capital to proceed with planned development, redevelopment or expansion activities. In addition, the construction costs of a project, including labor and materials may exceed original estimates or available financings. We may be unable to obtain anchor store, mortgage lender and property partner approvals that are required for any such development, redevelopment or expansion. We may abandon redevelopment or expansion activities already under way that we are unable to complete, which may result in charge-offs of costs previously capitalized. In addition, if redevelopment, expansion or reinvestment projects are unsuccessful, the investment in such projects may not be fully recoverable from future operations or sale resulting in impairment charges.

Development of properties in our Strategic Developments segment entails a lengthy, uncertain and costly entitlement process.

Approval to develop real property entails an extensive entitlement process involving multiple and overlapping regulatory jurisdictions and often requires discretionary action by local governments. This process is often political and uncertain. Real estate projects must generally comply with local land development regulations and may need to comply with state and federal regulations. The process to comply with these regulations is usually lengthy and costly, may not result in the approvals we seek, and can be expected to materially affect our Strategic Developments segment activities.

Our Master Planned Communities segment is highly dependent on homebuilders.

We are highly dependent on our relationships with homebuilders to purchase lots at our master planned communities. Our business will be adversely affected if homebuilders do not view our master planned communities as desirable locations for homebuilding operations. Also, some homebuilders may be unwilling or unable to close on previously committed lot purchases. As a result, we may sell fewer lots and may have lower sales revenues, which could have an adverse effect on our financial position and results of operations.

Table of Contents

Our results of operations in our Operating Assets and Strategic Developments segments are subject to significant fluctuation by various factors that are beyond our control.

Our results of operations in our Operating Assets and Strategic Developments segments are subject to significant fluctuations by various factors that are beyond our control. Fluctuations in these factors may decrease or eliminate the income generated by a property, and include:

the regional and local economy, which may be negatively impacted by plant closings, material relocation by residents industry slowdowns, increased unemployment, lack of availability of consumer credit, levels of consumer debt, housing market conditions, adverse weather conditions, natural disasters and other factors;

local real estate conditions, such as an oversupply of, or a reduction in demand for, retail space or retail goods, and the availability and creditworthiness of current and prospective tenants;

perceptions by retailers or shoppers of the safety, convenience and attractiveness of the retail property;

the convenience and quality of competing retail properties and other retailing options such as the internet;

our ability to lease space, collect rent and attract new tenants; and

tenant rental rates, which may decline for a variety of reasons, including the impact of co-tenancy provisions in lease agreements with certain tenants.

A decline in our results of operations in our Operating Assets and Strategic Developments segments could have a negative impact on the trading price of our common stock.

The Houston, Texas economy is highly dependent on the energy sector

The greater Houston area is home to a large amount of energy companies. A decline in the prices of oil and natural gas could have a significant negative effect on the performance of energy companies and may lead to layoffs. A decrease in economic activity and increased unemployment levels in Houston may negatively affect The Woodlands and Bridgeland by decreasing demand for housing and commercial space.

Significant competition could have an adverse effect on our business.

The nature and extent of the competition we face depends on the type of property involved. With respect to our master planned communities, we compete with other landholders and residential and commercial property developers in the development of properties within the Las Vegas, Nevada, Houston, Texas and Baltimore/Washington, D.C. markets. A number of residential and commercial developers, some with greater financial and other resources, compete with us in seeking resources for development and prospective purchasers and tenants. Competition from other real estate developers may adversely affect our ability to attract purchasers and sell residential and commercial real estate, sell undeveloped rural land, attract and retain experienced real estate development personnel, or obtain construction materials and labor. These competitive conditions can make it difficult to sell land at desirable prices and can adversely affect operations, financial condition or results of operations.

There are numerous shopping facilities that compete with our operating retail properties in attracting retailers to lease space. In addition, retailers at these properties face continued competition from other retailers, including retailers at other regional shopping centers, outlet malls and other discount shopping centers, discount shopping clubs, catalog companies, internet sales and telemarketing. Competition of this type could adversely affect our results of operations and financial condition.

Edgar Filing: Howard Hughes Corp - Form 10-K

In addition, we will compete with other major real estate investors with significant capital for attractive investment and development opportunities. These competitors include REITs, investment banking firms and private institutional investors.

Table of Contents

Our business model includes entering into joint venture arrangements with strategic partners. This model may not be successful and our business could be adversely affected if we are not able to successfully attract desirable strategic partners or complete agreements with strategic partners or if our strategic partners fail to satisfy their obligations to the joint venture.

We currently have and intend to enter into further joint venture partnerships. These joint venture partners may bring local market knowledge and relationships, development experience, industry expertise, financial resources, financing capabilities, brand recognition and credibility or other competitive assets. In the future, we may not have sufficient resources, experience and/or skills to locate desirable partners. We also may not be able to attract partners who want to conduct business in the locations where our properties are located, and who have the assets, reputation or other characteristics that would optimize our development opportunities.

While we generally participate in making decisions for our jointly owned properties and assets, we might not always have the same objectives as the partner in relation to a particular asset, and we might not be able to formally resolve any issues that arise. In addition, actions by a partner may subject property owned by the joint venture to liabilities greater than those contemplated by the joint venture agreements or have other adverse consequences. We cannot control the ultimate outcome of any decision made, which may be detrimental to our interests. Some of our interests, such as the Summerlin Medical Hospital Center, are controlled entirely by our partners.

The bankruptcy of one of the other investors in any of our properties could materially and adversely affect the relevant property or properties. If this occurred, we would be precluded from taking some actions affecting the estate of the other investor without prior court approval which would, in most cases, entail prior notice to other parties and a hearing. At a minimum, the requirement to obtain court approval may delay the actions we would or might want to take. If the relevant joint venture through which we have invested in a property has incurred recourse obligations, the discharge in bankruptcy of one of the other investors might result in our ultimate liability for a greater portion of those obligations than would otherwise be required.

If the recoverable values of our remaining inventory of real estate assets were to drop below the book value of those properties, we would be required to write-down the book value of those properties, which would have an adverse effect on our balance sheet and our earnings.

Adverse market conditions, in certain circumstances, may require the book value of real estate assets to be decreased, often referred to as a write-down or impairment. A write-down of an asset would decrease the value of the asset on our balance sheet and would reduce our earnings for the period in which the write-down is recorded.

Although we did not record any impairment charges in 2011, we recorded impairment charges of \$503.4 million and \$680.3 million for the years ended December 31, 2010 and 2009, respectively. If market conditions were to continue to deteriorate, and the recoverable values for our real estate inventory and other project land were to fall below the book value of these assets, we could be required to take additional write-downs of the book value of those assets and such write-downs could be material.

Indebtedness could have an adverse impact on our financial condition and operating flexibility.

As of December 31, 2011, our consolidated debt was approximately \$606.5 million, of which \$7.0 million is recourse. Our share of the debt of our Real Estate Affiliates is \$43.7 million. Our indebtedness, particularly if increased over time, could have important consequences, including:

limiting our ability to borrow additional amounts for working capital, capital expenditures, debt service requirements, execution of business strategy or other purposes;

limiting our ability to use operating cash flow in other areas of the business or to pay dividends;

increasing our vulnerability to general adverse economic and industry conditions, including increases in interest rates, particularly given that certain indebtedness bears interest at variable rates;

Table of Contents

limiting our ability to capitalize on business opportunities, reinvest in and develop their properties, and to react to competitive pressures and adverse changes in government regulation;

limiting our ability, or increasing the costs, to refinance indebtedness; and

giving secured lenders the ability to foreclose on assets.

The derivative instruments that we may use to hedge against interest rate fluctuations may not be successful in mitigating our risks associated with interest rates.

We seek to manage our exposure to interest rate volatility by using interest rate hedging arrangements, such as interest rate swap agreements. There cannot be any assurance that our hedging strategy and the derivatives that we use will adequately offset the risk of interest rate volatility or that our hedging of these transactions will not result in losses. Our policy is to use derivatives only to hedge interest rate risks related to our borrowings, not for speculative or trading purposes, and to enter into contracts only with major financial institutions based on their credit ratings and other factors. These hedging arrangements, which could include a number of counterparties, may expose us to additional risks, including failure of any of our counterparties to perform under these contracts, and may involve extensive costs, such as transaction fees or breakage costs, if we terminate them. Failure to hedge effectively against interest rate changes may materially adversely affect our results of operations.

In addition, hedging instruments involve risks because the business failure of a hedging counterparty with whom we entered into a hedging transaction will most likely result in the counterparty's default on its obligation to pay. Further, the credit quality of the counterparty owing money on the hedge may be downgraded to such an extent that it impacts our ability to sell or assign our side of the hedging transaction.

Changes in our income tax estimates could affect our profitability.

In preparing our consolidated financial statements, significant management judgment is required to estimate our income taxes. Our estimates are based on our interpretation of federal and state tax laws. We estimate our actual current tax due and assess temporary differences resulting from differing treatment of items for tax and accounting purposes. The temporary differences result in deferred tax assets and liabilities, which are included in our consolidated balance sheets. Adjustments may be required by a change in assessment of our deferred tax assets and liabilities, changes due to audit adjustments by federal and state tax authorities, and changes in tax laws and rates. To the extent adjustments are required in any given period, we include the adjustments in the tax provision in our financial statements. These adjustments could materially impact our financial position, cash flow and results of operations.

We may not realize the value of our tax assets.

We have tax assets. Certain provisions of the Internal Revenue Code could limit our ability to fully utilize the tax assets if there were to experience a change of control. If such an event were to occur, the cash flow benefits we might otherwise have would be eliminated.

Security breaches and other disruptions could compromise our information and expose us to liability, which would cause our business and reputation to suffer.

In the ordinary course of our business, we collect and store sensitive data, including intellectual property, our proprietary business information and that of our tenants and business partners and personally identifiable information of our employees, in on our networks. The secure processing, maintenance and transmission of this information is critical to our operations. Despite our security measures, our information technology and infrastructure may be vulnerable to attacks by hackers or breached due to employee error, malfeasance or other disruptions. Any such breach could compromise our networks and the information stored there could be accessed, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could result in legal claims or proceedings and liability under laws that protect the privacy of personal information, which could adversely affect our business.

Table of Contents

Some of our directors are involved in other businesses including real estate activities and public and/or private investments and, therefore, may have competing or conflicting interests with us.

Certain of our directors have and may in the future have interests in other real estate business activities, and may have control or influence over these activities or may serve as investment advisors, directors or officers. These interests and activities, and any duties to third parties arising from such interests and activities, could divert the attention of such directors from our operations. Additionally, certain of our directors are engaged in investment and other activities in which they may learn of real estate and other related opportunities in their non-director capacities. Our Code of Business Conduct and Ethics applicable to our directors expressly provides, as permitted by Section 122(17) of the Delaware General Corporation Law (the "DGCL"), that our non-employee directors are not obligated to limit their interests or activities in their non-director capacities or to notify us of any opportunities that may arise in connection therewith, even if the opportunities are complementary to or in competition with our businesses. Accordingly, we have no expectation that we will be able to learn of or participate in such opportunities. If any potential business opportunity is expressly presented to a director exclusively in his or her director capacity, the director will not be permitted to pursue the opportunity, directly or indirectly through a controlled affiliate in which the director has an ownership interest, without the approval of the independent members of our board of directors.

We are a holding company and depend on our subsidiaries for cash.

We are a holding company, with no operations of our own. In general, we rely on our subsidiaries for cash and our operations are conducted almost entirely through our subsidiaries. Our ability to generate cash to pay our operating expenses is dependent on the earnings of and the receipt of funds from subsidiaries through dividends, distributions or intercompany loans. The ability of our subsidiaries to pay dividends or to make distributions or other payments to us will depend on their respective operating results and may be restricted by, among other things, the laws of their respective jurisdiction of organization, regulatory requirements, agreements entered into by those operating subsidiaries and the covenants of any existing or future outstanding indebtedness that we or our subsidiaries may incur. For example, the credit agreements entered into by certain of our subsidiaries for The Woodlands contain restrictions on their ability to pay dividends and make distributions.

We may face potential successor liability.

We may be subject to successor liability based on previous actions of our predecessors. Such liability may arise in a number of circumstances, such as: (1) if a creditor of our predecessors did not receive proper notice of the pendency of the GGP bankruptcy proceedings or the deadline for filing claims; (2) the injury giving rise to, or source of, a creditor's claim did not manifest itself in time for the creditor to file the creditor's claim; (3) a creditor did not timely file the creditor's claim in such bankruptcy case due to excusable neglect; (4) we are found liable for our predecessors' tax liabilities under a federal and/or state theory of successor liability; or (5) the order of confirmation for the GGP bankruptcy plan is found to be procured by fraud. If we should become subject to such successor liability, it could materially adversely affect our business, financial condition and results of operations.

Ineffective internal controls could impact the Company's business and results of operations.

Our internal control over financial reporting may not prevent or detect misstatements because of its inherent limitations, including the possibility of human error, the circumvention or overriding of controls or fraud. Even effective internal controls can provide only reasonable assurance with respect to the preparation and fair presentation of financial statements. If we fail to maintain the adequacy of its internal controls, including any failure to implement required new or improved controls, or if the Company experiences difficulties in their implementation, the Company's business and operating results could be harmed and the Company could fail to meet its financial reporting obligations.

Table of Contents

Possible terrorist activity or other acts of violence could adversely affect our financial condition and results of operations.

Future terrorist attacks in the United States or other acts of violence may result in declining economic activity, which could harm the demand for goods and services offered by tenants and the value of our properties and might adversely affect the value of an investment in our securities. Such a resulting decrease in retail demand could make it difficult to renew or re-lease properties at lease rates equal to or above historical rates. Terrorist activities or violence also could directly affect the value of our properties through damage, destruction or loss, and the availability of insurance for such acts, or of insurance generally, might be lower or cost more, which could increase our operating expenses and adversely affect our financial condition and results of operations. To the extent that tenants are affected by future attacks, their businesses similarly could be adversely affected, including their ability to continue to meet obligations under their existing leases. These acts might erode business and consumer confidence and spending and might result in increased volatility in national and international financial markets and economies. Any one of these events might decrease demand for real estate, decrease or delay the occupancy of new or redeveloped properties, and limit access to capital or increase the cost of capital.

Some of our properties are subject to potential natural or other disasters.

A number of our properties are located in areas which are subject to natural or other disasters, including hurricanes, floods, earthquakes and oil spills. Some of our properties are located in coastal regions, and would therefore be affected by increases in sea levels, the frequency or severity of hurricanes and tropical storms, or environmental disasters, whether such events are caused by global climate changes or other factors.

Some potential losses are not insured.

We carry comprehensive liability, fire, flood, earthquake, terrorism, extended coverage and rental loss insurance on all of our properties. We believe the policy specifications and insured limits of these policies are adequate and appropriate. There are some types of losses, including lease and other contract claims, which generally are not insured. If an uninsured loss or a loss in excess of insured limits occurs, we could lose all or a portion of the capital invested in a property, as well as the anticipated future revenue from the property. If this happens, we might remain obligated for any mortgage debt or other financial obligations related to the property.

We may be subject to potential costs to comply with environmental laws.

Under various federal, state or local laws, ordinances and regulations, a current or previous owner or operator of real estate may be required to investigate and clean up hazardous or toxic substances released at a property and may be held liable to a governmental entity or to third parties for property damage or personal injuries and for investigation and clean-up costs incurred by the parties in connection with the contamination. These laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the release of the hazardous or toxic substances. The presence of contamination or the failure to remediate contamination may adversely affect the owner's ability to sell or lease real estate or to borrow using the real estate as collateral. Other federal, state and local laws, ordinances and regulations require abatement or removal of asbestos-containing materials in the event of demolition or certain renovations or remodeling, the cost of which may be substantial for certain redevelopments, and also govern emissions of and exposure to asbestos fibers in the air. Federal and state laws also regulate the operation and removal of underground storage tanks. In connection with our ownership, operation and management of certain properties, we could be held liable for the costs of remedial action with respect to these regulated substances or tanks or related claims.

There is a risk of investor influence over our company that may be adverse to our best interests and those of our other stockholders.

M.B. Capital Partners and certain of its affiliates (collectively, "M.B. Capital"), Pershing Square Capital Management, L.P. ("Pershing Square") and Brookfield Retail Holdings LLC ("Brookfield") beneficially own 11.2%, 9.4% and 6.4%, respectively, of our outstanding common stock (excluding shares issuable upon the

Table of Contents

exercise of warrants). Under the terms of our stockholder agreements, Pershing Square currently has the ability to designate three members of our board of directors, and Brookfield currently has the ability to designate one member. As of December 31, 2011, there is no Brookfield designee on our board of directors.

Although Pershing Square has entered into a standstill agreement to limit its influence over us, the concentration of ownership of our outstanding common stock held by M.B. Capital, Pershing Square, Brookfield and other substantial stockholders may make some transactions more difficult or impossible without the support of these stockholders, or more likely with the support of these stockholders. The interests of our substantial stockholders could conflict with or differ from the interests of our other stockholders. For example, the concentration of ownership held by M.B. Capital, Pershing Square and Brookfield, even if these stockholders are not acting in a coordinated manner, could allow M.B. Capital, Pershing Square and Brookfield to influence our policies and strategy and could delay, defer or prevent a change of control or impede a merger, takeover or other business combination that may otherwise be favorable to us and our other stockholders.

Certain of our directors have interests in GGP that may be adverse to our interests, limiting how we conduct business with GGP.

Pershing Square holds material economic interests in GGP. Accordingly, we expect that a number of our directors may have, or appear to have, conflicting interests relating to us and GGP. It may be important for us to do business with GGP in the future or to supplement or amend the initial agreements between us and the reorganized GGP as circumstances change. Actual or perceived conflicts of interest may decrease the effectiveness of our board of directors in dealing with GGP. For example, directors with helpful expertise may be required or decide to recuse themselves from deliberation or voting on matters involving GGP, and certain transactions in our best interests may not be pursued at all because of the risk of an appearance of a conflict or other considerations.

Risks Related to Spin-off.

We may be required to pay substantial U.S. federal income taxes related to certain prior sales of assets in our Master Planned Communities segment.

In connection with the spin-off, GGP has agreed to indemnify us from and against 93.75% of any losses, claims, damages, liabilities and reasonable expenses to which we become subject, in each case solely to the extent attributable to certain taxes related to sales of certain assets in our Master Planned Communities segment prior to March 31, 2010, in an amount equal to a maximum of \$303.8 million, plus applicable interest. We will be responsible for the remainder of any such taxes. GGP may not have sufficient cash to reimburse us for its share of these taxes described above. We have ongoing IRS audits related to the foregoing taxes that, whether resolved by litigation or otherwise, could impact the timing of the items subject to indemnification by GGP. In addition, if the IRS were successful in litigation with respect to such audits, we may be required to change our method of tax accounting for certain transactions, which could affect the timing of our future tax payments, increasing our tax payments in the short term relative to our current tax cost projections.

If the spin-off does not qualify as a tax-free distribution under Section 355 of the Internal Revenue Code, then GGP and its subsidiaries may be required to pay substantial U.S. federal income taxes, and we may be obligated to indemnify GGP and its subsidiaries for such taxes.

In connection with our spin-off, GGP received a private letter ruling from the IRS to the effect that the spin-off transactions qualified as tax-free to GGP and its subsidiaries for U.S. federal income tax purposes. A private letter ruling from the IRS generally is binding on the IRS. Such IRS ruling does not establish that the spin-off satisfied every requirement for a tax-free spinoff, and the parties have relied solely on the advice of counsel for comfort that such additional requirements are satisfied.

The IRS ruling is based on, among other things, certain representations and assumptions as to factual matters made by GGP. The failure of any factual representation or assumption to be true, correct and complete in all

Table of Contents

material respects could adversely affect the validity of the IRS ruling at the time of and subsequent to the spin-off. In addition, the IRS ruling is based on current law and cannot be relied upon if current law changes with retroactive effect. If the spin-off were to be treated as taxable, GGP and holders of GGP's common stock may be faced with significant tax liability with respect to the spin-off.

We entered into a Tax Matters Agreement with GGP, pursuant to which GGP may be held liable for the cost of the failure of the spin-off to qualify as a tax-free distribution if GGP caused such failure, whether by an action taken before or after the spin-off. If we caused such failure, whether by an action taken before or after the spin-off, we could be liable for such costs. If the cause for the failure cannot be determined or was not caused by a single party, then we and GGP will share such liability based on relative market capitalization. Moreover, although we have agreed to share certain tax liabilities with GGP, we may be liable at law to a taxing authority for some of these tax liabilities and, if GGP were to default on their obligations to us, we would be responsible for the entire amount of these liabilities.

In connection with the spin-off we entered into several agreements with GGP with respect to certain of our assets and we may have conflicts with GGP which could adversely affect our business.

We may have economic or business interests that are divergent from GGPs in relation to a particular asset, and we may have disagreements with GGP with respect to how these assets are managed and developed in the future.

Risks Related to Our Common Stock

The trading price of our common stock may fluctuate widely.

We cannot predict the prices at which our common stock may trade. The market price of our common stock may fluctuate widely, depending upon many factors, some of which may be beyond our control, including:

our quarterly or annual earnings, or those of other comparable companies;

actual or anticipated fluctuations in our operating results and other factors related to our business;

announcements by us or our competitors of significant acquisitions or dispositions;

the failure of securities analysts to cover our common stock;

changes in earnings estimates by securities analysts or our ability to meet those estimates;

the operating and stock price performance of other comparable companies;

our ability to implement our business strategy;

our tax payments;

our ability to raise capital;

Edgar Filing: Howard Hughes Corp - Form 10-K

overall market fluctuations; and

general economic conditions.

Further, M.B. Capital, Pershing Square and Brookfield may hold their investments for an extended period of time, thereby decreasing the number of shares available in the market and creating artificially low supply for, and trading prices of our common stock. If one or more of these principal holders sell a significant amount of our common stock, it could decrease the price of our common stock.

Provisions in our certificate of incorporation, our by-laws, Delaware law, stockholder rights agreement and certain other agreements may prevent or delay an acquisition of us, which could decrease the trading price of our common stock.

Our certificate of incorporation and bylaws contain the following limitations:

the inability of our stockholders to act by written consent;

Table of Contents

restrictions on the ability of stockholders to call a special meeting without 15% of more of the voting power of the issued and outstanding shares entitled to vote generally in the election of our directors;

rules regarding how stockholders may present proposals or nominate directors for election at stockholder meetings; and

the right of our board of directors to issue preferred stock without stockholder approval.

Additionally, our certificate of incorporation imposes certain restrictions on the direct or indirect transferability of our securities to assist in the preservation of our valuable tax attributes (generally consisting of (1) approximately \$400 million of suspended federal income tax deductions and (2) a relatively high federal income tax basis in our assets), including, subject to certain exceptions, that until such time as our board of directors determines that it is no longer in our best interests to continue to impose such restrictions (i) no person or entity may acquire or accumulate the Threshold Percentage (as defined below) or more (as determined under tax law principles governing the application of section 382 of the Internal Revenue Code) of our securities, and (ii) no person owning directly or indirectly (as determined under such tax law principles) on the date of our spin-off, after giving effect to the spin-off plan, the Threshold Percentage or more of our securities may acquire additional securities of ours. Notwithstanding the restrictions in our certificate of incorporation, no assurance can be given regarding our ability to preserve our tax attributes. Threshold Percentage means, in the case of (i) our common stock, 4.99% of the number of outstanding shares of our common stock and (ii) any other class of our equity, 4.99% of each such class.

We have also implemented a so-called poison pill by adopting our stockholders rights agreement. The poison pill assists in the preservation of our valuable tax attributes by significantly increasing the costs that would be incurred by an unwanted third party acquirer if such party owns or announces its intent to commence a tender offer for the Threshold Percentage or more of our securities. The stockholder rights agreement will automatically terminate if not approved by our stockholders at our 2012 Annual Meeting of Stockholders and otherwise expires on March 14, 2015. All of these provisions could limit the price that investors might be willing to pay in the future for shares of our common stock.

There may be dilution of our common stock from the exercise of outstanding warrants, which may materially adversely affect the market price of our common stock and negatively impact a holder's investments.

The exercise of some or all of the outstanding warrants to purchase shares of our common stock would materially dilute the ownership interest of our existing stockholders. Likewise, any additional issuances of common stock, through The Howard Hughes Corporation 2010 Equity Incentive Plan or otherwise, will dilute the ownership interests of our existing stockholders. Any sales in the public market of such additional common stock could adversely affect prevailing market prices of the outstanding shares of our common stock. In addition, the existence of our outstanding warrants may encourage short selling or arbitrage trading activity by market participants because the exercise of our warrants could depress the price of our common stock.

Additional issuances and sales of our capital stock or securities convertible into or exchangeable for our capital stock, or the perception that such issuances and sales could occur, may cause prevailing market prices for our common stock to decline and may adversely affect our ability to raise additional capital in the financial markets at a favorable time and price.

Brookfield is subject to restrictions on its ability to sell our common stock and its warrants to acquire our common stock. After these restrictions expire, shares held by Brookfield may be sold in the public markets. The price of our common stock may drop significantly when such restrictions expire. In addition, certain of our substantial stockholders, including Brookfield and Pershing Square, have the right to purchase the number of our shares as necessary to allow the stockholder to maintain its proportionate ownership interests on a fully diluted basis, for so long as the stockholder beneficially owns at least 5% of our outstanding common stock on a fully-diluted basis.

Table of Contents

In most circumstances, stockholders will not be entitled to vote on whether or not additional capital stock or securities convertible into or exchangeable for our capital stock is issued. In addition, depending on the terms and pricing of an additional offering of common stock or securities convertible into or exchangeable for our capital stock, and the value of our properties, stockholders may experience dilution in both the book value and the market value of their shares.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Our principal executive offices are located in Dallas, Texas where we lease approximately 21,710 square feet under an arrangement that expires in 2021. We also maintain offices at certain of our properties as well as in Houston, Texas and in Los Angeles, California. We believe our present facilities are sufficient to support our operations.

Our Master Planned Communities and our Strategic Developments assets are described above in Item 1. Business Overview of Business Segments. The tables below summarize certain metrics of the properties within our Operating Assets segment as of December 31, 2011. Leases with our tenants at our real property retail operating asset locations within our Operating Assets segment generally include base rent and common area maintenance charges:

Property	Location	Existing Gross Leasable Area	Size (Acres)	Year Ended December 31, 2011							Acquisition Year
				Net Book Value, December 31 (Millions)	Average Annual Tenant Sales per Square Foot(a)	Mall and Other Rental (000)(b)	NOI Square Foot(c)	Occupancy Cost(d)	NOI Margin(e)		
Ward Centers	Honolulu, HI	1,004,781(f)	60	\$ 348.8	\$ 542	\$ 21,481	\$ 62	11.4%	54.1%	2002

Total		2,670,622	224	\$ 507.8		\$ 31,878					

- (a) Average Annual Tenant Sales per Square Foot includes only inline tenants and excludes anchors, outparcels and specialty leasing tenants. The calculation is the sum of all comparable sales for the year ending December 31, 2011 for tenants that are contractually obligated to submit sales data, divided by the comparable square footage for the same period. We include in our calculations of comparable sales and comparable square footage, properties that have been owned and operated for the entire time during the twelve month period and exclude properties at which significant physical or merchandising changes have been made. Inline Tenants are defined as any tenant operating under a lease agreement that is less than 30,000 square feet and whereby the landlord maintains or operates the building for the leasehold premises.

(b)

Edgar Filing: Howard Hughes Corp - Form 10-K

Mall and Other Rental NOI includes mall and other rental revenue and expenses according to U.S. GAAP, excluding straight-line rent, market lease amortization, depreciation and other amortization expense. (See Operating Asset NOI and EBT table under the Operating Assets Segment in Item 7)

- (c) Average Sum of Rent and Recoverable Common Area Costs per Square Foot is calculated as the sum of total rent and tenant recoveries for the year ending December 31, 2011 for the tenant base used to calculate (h) Average Annual Tenant Sales per Square Foot, divided by the total square footage occupied by the above mentioned tenant base.
- (d) Occupancy Cost is calculated by dividing (c) Average Sum of Rent and Recoverable Common Area Costs per Square Foot by (a) Average Annual Tenant Sales per Square Foot.

Table of Contents

- (e) NOI Margin is calculated by dividing NOI by total contractual and other property revenue.
- (f) Excludes 153,928 square feet related to ground leases of which we are the lessor.
- (g) All of the project is on a ground lease where we are the ground lessee.
- (h) Excludes 438,937 square feet in project that is owned and occupied by Sears and Macy's.
- (i) Excludes 180,946 square feet of outparcel improvements in project currently owned by tenant.
- (j) Reflects the year that Rio West Mall opened.
- (k) Cottonwood Square is not required to report tenant sales.
- (l) 41,612 square feet of the Existing Gross Leasable Area is part of a ground lease where we are the ground lessee. This space is currently leased but not occupied. The ground lease payments are paid by the current lessee directly to the ground lessor.
- (m) Property opened July 1, 2011. Property has one retail tenant and is not required to report sales data.
- (n) Ground floor retail space attached to the Waterway Square Garage.

The following table summarizes certain metrics of our Operating Assets other than retail Operating Assets as of December 31, 2011:

Asset	Economic Ownership %	Property Type	Sqr. Feet / Keys	% Leased	Year Complete	Net Book Value, December 31, 2011 (Millions)
4 Waterway Square	100%	Office	218,551	98.8%	2010	\$ 59.0

n.a. not available

- (a) Occupancy rates represent the weighted average occupancy for the year divided by total GLA.
- (b) In prior years 871,200 square feet of Maui ranch land had been included in the calculation of Annual Weighted Average Occupancy Rates. The occupancy rates reflected in this table have been adjusted to now exclude the above mentioned Maui ranch land as part of the calculation for all years.
- (c) Excludes 153,928 square feet related to ground leases of which we are the lessor.
- (d) Loss of permanent and specialty tenants in 2010 due to potential redevelopment. Excludes 438,937 square feet of anchor owned improvements as well as 120,000 square feet of anchor space that is leased but not occupied.
- (e) Partially opened in 2007, the 2008 occupancy rate reflects a lower GLA due to the timing of space added on-line. Full GLA was achieved in 2009.
- (f) Includes 41,612 square feet of retail space leased through March 2013 that is currently unoccupied.
- (g) 25 Waterway opened in February 2007 and 20 Waterway opened in May 2009.
- (h) Waterway Garage Retail Opened in July 2011.
- (i) 4 Waterway Square opened in January 2010.
- (j) From January 1, 2010 through October 15, 2011, 9,969 square feet, representing 10.2% of total GLA, was occupied by The Woodlands. From October 15, 2011 through January 2012, when The Woodlands moved out of the space, The Woodlands' occupancy at this property was reduced to 5,914 square feet, or 6.1% of total GLA.
- (k) Average Weighted Average Occupancy Rates are computed based on the weighted average square feet of each office building. At December 31, 2011 the occupancies of each building were as follows: American City Building 99.2%; Columbia Association Building 100%; Columbia Exhibit Building 100%; Ridgely Building 39.4%; Columbia Regional Building 100%.
- (l) The Woodlands acquired 2201 Lake Woodlands Drive in late 2008.

ITEM 3. LEGAL PROCEEDINGS

In the ordinary course of our business, we are from time to time involved in legal proceedings related to the ownership and operations of our properties. Neither we nor any of our Real Estate Affiliates is currently involved in any legal or administrative proceedings that we believe are likely to have a materially adverse effect on our business, results of operations or financial condition.

ITEM 4. MINE SAFETY DISCLOSURE

Not applicable.

Table of Contents**PART II****ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES*****Market Prices of Common Stock***

The following table shows the high and low sales prices of the Company's common stock on the New York Stock Exchange (the "NYSE"), as reported in the consolidated transaction reporting system for each quarter of fiscal 2011 and the fourth quarter of 2010. Prior to our spin-off in November 2010, there was no public market for our common stock. The Company's common stock is traded on the NYSE under the symbol HHC.

	Common Stock Price Range		Dividends Per Share
	High	Low	
Year Ended December 31, 2011			
Fourth Quarter	\$ 49.67	\$ 35.51	\$
Third Quarter	\$ 66.42	\$ 41.53	\$
Second Quarter	\$ 76.83	\$ 56.86	\$
First Quarter	\$ 71.94	\$ 49.00	\$
Year Ended December 31, 2010			
Fourth Quarter	\$ 56.25	\$ 31.00	\$
(Since November 5, 2010)			

Number of Holders of Record

As of February 15, 2012, there were 2,630 shareholders of record of the Company's common stock.

No dividends have been declared or paid in 2011 or 2010. Any future determination related to our dividend policy will be made at the discretion of our board of directors and will depend on a number of factors, including future earnings, capital requirements, financial condition and future prospects and other factors the board of directors may deem relevant.

Table of Contents

Performance Graph

The following performance graph compares the monthly dollar change in the cumulative shareholder return on the Company's common stock with the cumulative total returns of the NYSE Composite Index and the group of companies in the Morningstar Real Estate General Index. The graph was prepared on the following assumptions:

\$100 was invested on November 5, 2010 in the Company's common stock, the NYSE Composite Index and the Morningstar Real Estate General Index.

Dividends have been reinvested subsequent to the initial investment.

Table of Contents

ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth the selected consolidated and combined financial and other data of our business for the most recent five years. We were formed in 2010 to receive certain assets and liabilities of our predecessors in connection with their emergence from bankruptcy. We did not conduct any business and did not have any material assets or liabilities until our spin-off was completed on November 9, 2010.

Our selected historical data for 2011 presented in accordance with generally accepted accounting principles is not comparable to prior periods due to the acquisition of our partner's 47.5% economic interest in The Woodlands on July 1, 2011. As of the acquisition date, we consolidated The Woodlands' financial results. Prior to the acquisition, we accounted for our investment using the equity method.

The selected historical financial data as of December 31, 2011 and 2010 and for the years ended December 31, 2011, 2010, and 2009 has been derived from our audited consolidated and combined financial statements, which are included elsewhere in this Annual Report on Form 10-K. The selected historical combined financial data as of and for the year ended December 31, 2008 was derived from our audited combined financial statements which are not included in this Annual Report on Form 10-K. The selected historical combined financial statements as of December 31, 2007 and for the year ended December 31, 2007 were derived from our unaudited combined financial statements which are not included in this Annual Report on Form 10-K. Our spin-off did not change the carrying value of our assets and liabilities with the exception of our debt which was recorded at fair value. Operations for 2010 are presented as the aggregation of the combined results from January 1, 2010 to November 9, 2010 and the consolidated results from November 10, 2010 to December 31, 2010.

Prior to the spin-off, our combined financial statements were carved out from the financial books and records of GGP at a carrying value reflective of historical cost in GGP's records. Our historical financial results for these periods reflect allocations for certain corporate costs, and we believe such allocations are reasonable. Such results do not reflect what our expenses would have been had the Company been operating as a separate stand-alone publicly traded company. The historical combined financial information presented for periods prior to our separation from GGP will not be indicative of the results of operations, financial position or cash flows that would have been obtained if we had been an independent, stand-alone entity during such periods.

The historical results set forth below do not indicate results expected for any future periods. The selected financial data set forth below are qualified in their entirety by, and should be read in conjunction with, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations and our financial statements and related notes thereto included elsewhere in this Annual Report on Form 10-K.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our consolidated financial statements and the related notes included elsewhere in this Annual Report on Form 10-K. This discussion contains forward-looking statements that involve risks, uncertainties, assumptions and other factors, including those described in Part I, Item 1A. Risk Factors and elsewhere in this Annual Report on Form 10-K. These factors could cause our actual results in 2012 and beyond to differ materially from those expressed in, or implied by, those forward-looking statements. You are cautioned not to place undue reliance on this information which speaks only as of the date of this report. We are not obligated to update this information, whether as a result of new information, future events or otherwise, except to the extent we are required to do so in connection with our obligation to file periodic reports with the SEC.

All references to numbered Notes are to specific footnotes to our Consolidated and Combined Financial Statements included in this Annual Report on Form 10-K and which descriptions are incorporated into the applicable response by reference. The following discussion should be read in conjunctions with such Consolidated and Combined Financial Statements and related Notes.

Overview

The Howard Hughes Corporation's mission is to be the preeminent developer and operator of master planned communities and mixed-use properties. We create timeless places and memorable experiences that inspire people while driving sustainable, long-term growth and value for our shareholders. We specialize in the development of master planned communities, the redevelopment or repositioning of real estate assets currently generating revenues, also called operating assets, and other strategic real estate opportunities in the form of entitled and unentitled land and other development rights. Our assets are located across the United States. We expect to drive income and growth through entitlements, land and home site sales and project developments. We are focused on maximizing value from our assets, and we continue to develop and refine business plans to achieve that goal.

We operate our business in three segments: master planned communities (MPCs), Operating Assets and Strategic Developments. Unlike real estate companies that are limited in their activities because they have elected to be taxed as real estate investment trusts, we have no restrictions on our operating activities or types of services that we can offer, which we believe provides us with flexibility for maximizing the value of our real estate portfolio.

Master Planned Community development has a significant impact to our business. The cash flows and earnings from the business can be much more variable than from our operating assets because the MPC business generates revenues from land sales rather than recurring contractual revenues from operating leases.

We believe many of our assets require re-positioning to maximize their value. In addition, we are pursuing development opportunities for a number of our assets that were previously postponed due to lack of liquidity resulting from deteriorating economic conditions, the credit market collapse and the bankruptcy filing of our predecessors. We are also developing plans for other assets for which no formal plans had been previously developed.

The development and re-development process for each specific asset can be complex and take from several months to several years prior to the commencement of actual construction. Each local market must be studied, the highest and best use of the land and improvements determined, entitlements and permits obtained, architectural designs made, construction drawings and plans completed, tenant commitments secured, and sources of capital committed. During this period, these activities generally have very little impact on our financial statements relative to the activity and effort involved in the pre-development process.

During 2011, we assessed our assets to identify the best repositioning opportunities, conducted pre-development activities for many of those opportunities and, in certain cases, partnered with local developers to conduct

Table of Contents

development activities for the related asset. We are also in the process of creating development plans for several of our assets, determining how to finance their re-development or completion and how to maximize their long term value potential. In addition, we implemented leasing strategies that preserve the flexibility to re-develop operating assets that currently generate cash flows and are re-development candidates, such as Ward Centers, the South Street Seaport and Riverwalk Marketplace. To preserve flexibility, we frequently do not sign long term leases or we otherwise require provisions allowing us to terminate the leases prior to their expiration. These restrictions are typically unattractive to retailers and may negatively impact our rental revenues during this period.

Significant operating and development milestones achieved during 2011 include the following:

We generated a \$32.3 million increase in MPC land sales revenue for 2011, a 25% increase compared to 2010 (on a same store basis assuming The Woodlands was consolidated by us during both periods);

We acquired our former partner's 47.5% economic interest in The Woodlands. The transaction enabled us to internalize and leverage The Woodlands' well-regarded master planned community development team, access attractive commercial development activities in The Woodlands' Town Center and control of unsold residential and commercial land and cash flowing commercial real estate assets;

We accelerated lot sales and realized price increases at Bridgeland. Lot sales and average price per lot for 2011 increased by 10% to 318 lots and 1.9% to \$53,000 per lot, respectively, compared with 2010;

We closed on new or renewal leases totaling 258,480 square feet of space, excluding leases with terms of one year or less, for certain of our retail operating properties, while maintaining the flexibility to redevelop these properties;

We completed leasing of 4 Waterway Square, a 218,551 square foot office building in The Woodlands. Average net rent per square foot is \$25.36;

We pre-leased over 67.0% of 3 Waterway Square, a 232,774 square foot office building that will be constructed in 2012 at average net rents per square foot of \$26.16 and at a total cost to build estimated to be \$51.4 million (exclusive of land value and pre-existing garage allocation);

We completed a 722 stall parking garage at Ward Centers and delivered a 35,744 square foot adjacent retail shell to a new tenant;

We entered into a letter of intent with the Economic Development Corporation of the City of New York to modify the ground lease to permit the redevelopment of Pier 17 and the option to pursue a mixed use development of the uplands area of South Street Seaport;

We partnered with a local development team to explore the construction of an approximately 210 unit condominium tower above the Nordstrom Parking garage at Ala Moana Center in Honolulu, HI. We equally own the venture with our partner. The venture values our condominium rights at \$47.5 million, which is a 107.4% premium to our \$22.9 million book value at December 31, 2011;

We entered into a joint venture with a local developer to construct an approximate 375 unit Class A apartment building with 10,000 square feet of retail space on a 4.2 acre site we own at the Columbia Town Center. This site is named Columbia Parcel D. We equally own the venture with our partner. The venture values our land at approximately \$20.1 million, which is a 570.0% premium to our aggregate \$3.0 million book value at December 31, 2011;

Edgar Filing: Howard Hughes Corp - Form 10-K

We formed a joint venture and entered into a development agreement with the owner of land adjacent to our Bridges at Mint Hill site to explore development of a shopping center on our combined properties. The project is entitled for 1.2 million square feet of retail development; and

We closed on an aggregate \$334.0 million of non-recourse mortgage financings generating approximately \$73.6 million of liquidity and future borrowing capacity. This amount includes a \$250.0 million financing for Ward Centers which repaid three separate securitized mortgages totaling

Table of Contents

approximately \$208.7 million. This new five-year financing will provide flexibility to redevelop Ward Centers in phases and also created \$37.5 million of excess proceeds capacity that can be drawn down and reinvested into the property, subject to cash flow coverage tests. We obtained a \$55.0 million first mortgage loan which refinanced approximately \$13.1 million of mortgage debt and is secured by the 4 Waterway Square and 9303 New Trails office buildings. The excess proceeds were used to repay credit facility debt and for working capital. We also refinanced \$29.0 million of mortgage debt secured by the 110 N. Wacker office building with a \$29.0 million mortgage maturing in 2019.

Results of Operations

Our revenues primarily are derived from the sale of individual lots at our master planned communities to home builders and from tenants at our operating assets in the form of fixed minimum rents, overage rent and recoveries of operating expenses.

The Woodlands operating results for historical periods when this investment was a Real Estate Affiliate are now presented on a consolidated basis for the purposes of this Management Discussion and Analysis and segment reporting, in order to provide comparability between periods for analyzing operating results. We continue to reconcile the segment presentation to reported EBT (as defined below). Our other Real Estate Affiliates, including equity investments owned by The Woodlands, primarily represent entities that are accounted for using the equity or cost method as appropriate.

We use a number of operating measures for assessing operating performance of our communities, assets, properties and projects within our segments, some of which may not be common among all three of our segments. We believe that investors may find some operating measures more useful than others when separately evaluating each segment. One common operating measure used to assess operating results for our business segments is real estate property earnings before taxes (EBT). Management believes that EBT provides useful information about our operating performance.

We define EBT as net income (loss) from continuing operations excluding general and administrative expenses, corporate interest income and depreciation expense, investment in real estate basis adjustment, benefit from income taxes, warrant liability gain (loss), reorganization items and the effects of the previously mentioned items within our equity in earnings (loss) from Real Estate Affiliates. We present EBT because we use this measure, among others, internally to assess the core operating performance of our assets. We also present this measure because we believe certain investors use it as a measure of a company's historical operating performance. We believe that the inclusion of certain adjustments to net income (loss) from continuing operations to calculate EBT is appropriate to provide additional information to investors because EBT therefore excludes certain non-recurring and non-cash items, including reorganization items related to the bankruptcy, which we believe are not indicative of our core operating performance.

EBT should not be considered as an alternative to GAAP net income (loss) attributable to common stockholders or GAAP net income (loss) from continuing operations, as it has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of the limitations of this metric are that it:

does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;

does not reflect income taxes that we may be required to pay;

does not reflect any cash requirements for replacement of depreciated or amortized assets or that these assets have different useful lives; and

does not reflect limitations on, or costs related to, transferring earnings from our Real Estate Affiliates to us.

Table of Contents

See Note 15 of our audited financial statements for additional information about our segments and a reconciliation of EBT to net income (loss) attributable to common stockholders.

Operating Assets Net Operating Income

We believe that net operating income (NOI) is a useful supplemental measure of the performance of our Operating Assets. We define NOI as property specific revenues (rental income, tenant recoveries and other income) less expenses (real estate taxes, repairs and maintenance, marketing and other property expenses) and excluding the operations of properties held for disposition. NOI also excludes straight line rents, market lease amortization, impairments, depreciation, ground rent and other amortization expense.

Because NOI excludes general and administrative expenses, interest expense, impairments, depreciation and amortization, gains and losses from property dispositions, allocations to non-controlling interests, reorganization items, strategic initiatives, provision for income taxes, discontinued operations and extraordinary items, the Company believes that it provides a performance measure that, when compared year over year, reflects the revenues and expenses directly associated with owning and operating real estate properties and the impact on operations from trends in occupancy rates, rental rates, and operating costs. The Company uses NOI to evaluate its operating performance on a property-by-property basis because NOI allows the Company to evaluate the impact that factors such as lease structure, lease rates and tenant base, which vary by property, have on the Company's operating results, gross margins and investment returns.

In addition, we believe that NOI provides useful information to the investors about the performance of our Operating Assets. However, due to the exclusions noted above, NOI should only be used as an alternative measure of the financial performance of such assets and not as an alternative to GAAP operating income (loss) or net income (loss) available to common stockholders. For reference, and as an aid in understanding our computation of NOI, a reconciliation of NOI to EBT has been presented in the Operating Assets segment discussion below and a reconciliation of EBT to consolidated operating income (loss) from continuing operations as computed in accordance with GAAP has been presented in Note 15.

Year Ended December 31, 2011, 2010 and 2009

Master Planned Communities Segment

MPC revenues vary between years based on economic conditions and several factors such as location, development density and commercial or residential use, among others. Reported GAAP earnings results may differ significantly from actual cash flows generated principally because cost of sales for GAAP purposes is a reduction from earnings and is derived from margins calculated using carrying values, projected future improvements and other capitalized costs in relation to future land sale revenues. Carrying values generally represent acquisition costs and improvements incurred by us and our predecessors in prior periods and may also have been previously written down through impairment charges. Expenditures for improvements in the current period are capitalized and therefore generally would not be reflected in the income statement in the current year.

Table of Contents

Total segment land sales have increased to \$161.4 million for the year ended December 31, 2011 from \$129.0 million and \$97.3 million for the years ended December 31, 2010 and 2009, respectively. Revenues for Bridgeland, Summerlin and The Woodlands have increased each year since 2009. Columbia is nearly sold out, and has just 202 remaining saleable acres as of December 31, 2011. Excluding a \$15.0 million land sale transaction during 2009, Columbia's sales have also increased each year since 2009.

In 2011, we sold 364 residential acres compared to 266 and 426 in 2010 and 2009, respectively. Acres sold in 2009 include the bulk sale of 239 acres at our Fairwood project in Columbia. This transaction represented nearly all of the remaining saleable land at Fairwood. These acreage sales represented approximately 1,657 lot sales for 2011, compared to 1,218 and 963 (excluding Fairwood) for the years ended December 31, 2010 and 2009, respectively. Lot sales from The Woodlands and Bridgeland communities from 2009 to 2011 represent 85.1% of all MPC lot sales during that three year time period. During 2011, residential lot sales for The Woodlands and Bridgeland increased 10.5% and 10.0%, respectively, over 2010, while residential lot sales in 2010 increased by 41.7% and 41.6%, respectively, over 2009. In 2011, The Woodlands average lot prices increased by 4.3% to \$88,986 and Bridgeland's average price per lot increased by 1.9% to \$53,000 over this same period. The Woodlands' average lot price decreased by 8.0% for the year ended December 31, 2010 compared to 2009, and Bridgeland's average lot prices increased by 4.3% during the same period.

Commercial land sales at The Woodlands decreased by 39.0% to \$14.4 million for 2011 compared to 2010 while commercial sales in 2010 increased by 59.7% as compared to 2009. The decrease principally reflects a change in strategy for The Woodlands since we acquired a controlling interest in 2011. In prior years, ownership favored generating cash from commercial land sales to deliver dividends to the parent companies. We believe that the commercial land, especially within and surrounding The Woodlands Town Center, is poised for strategic growth and we may develop and hold properties in this desirable area. We believe that through controlling a greater share of the commercial development within The Woodlands, we can better serve our customers and generate premium rents by doing so.

Bridgeland had no commercial land sales during 2011. We expect minimal commercial sales until new home sales generate a critical mass of demand for local commercial retail, office and lodging properties.

The Houston, Texas area has benefitted from a strong energy sector. According to the Bureau of Labor Statistics (BLS), the area's unemployment rate at the end of 2011 was approximately 7.6%, nearly one percentage point lower than the 8.5% national average. ExxonMobil is constructing a large corporate campus on a 400 acre site just south of The Woodlands. The site is expected to include approximately 20 buildings, representing 3 million square feet of space. According to several reports, ExxonMobil expects to begin relocating employees into this new location starting in 2014 and ending in 2015. We believe that the direct and indirect jobs related to this relocation will have a significantly positive impact on The Woodlands and Bridgeland due to increased housing demand, as well as commercial space needs for companies servicing ExxonMobil. As of December 31, 2011 The Woodlands has approximately 3,669 residential lots remaining, which represents approximately six years of expected future sales. Bridgeland, which is in its early stages of development, has approximately 18,900 lots remaining to be developed, representing an estimated 25 years of expected future sales.

Our acquisition of our partner's interest in The Woodlands has allowed us to integrate The Woodlands' operations into our company. We also consolidated the management teams of The Woodlands and Bridgeland and expect that we can leverage The Woodlands' 37-plus years of development experience to Bridgeland's benefit.

Residential land sales at our Summerlin community improved to \$30.9 million for the year ended December 31, 2011, compared to \$11.2 million and \$0.6 million for the years ended December 31, 2010 and 2009, respectively. The Las Vegas residential market continues to be challenging. According to the BLS, the Las Vegas, NV area unemployment rate was approximately 12.5% at the end of 2011, four percentage points higher than the national average. New home closings in the overall market were down approximately 30% in 2011 compared to 2010 and

Table of Contents

increased 2% in 2010 compared to 2009. The increase from 2009 to 2010 was caused primarily by the federal tax incentive for first-time homebuyers. The housing market has been burdened by foreclosures, short-sales, downward price pressures and a significant percentage of the population in their current homes having negative equity. A total of 3,894 home closings were recorded in 2011, the lowest in 23 years, down from its peak of nearly 39,000 units in 2005. Additionally, the median price for a new home was \$212,250 in 2011, down from over \$330,000 at the top of the market. Due to uncertain local economic conditions and the continued challenging housing market, it remains difficult to predict homebuilder demand. From September to December 2011, we had two builders that did not close on contracts representing \$18.8 million of potential revenues for 212 lots in 2011, and \$4.8 million of potential revenues representing 56 lots in 2012. The builders forfeited approximately \$1.8 million of deposits to us for not closing on the lots.

In early 2012 builder activity at Summerlin has begun to increase. Year to date through February 28, 2012, Summerlin has entered into residential lot sale contracts with four homebuilders for 153 lots and two superpad sites representing approximately \$22.5 million of revenues if all of the sales are completed. Approximately \$21.2 million of the sales are scheduled to occur in 2012, with the remaining \$1.3 million scheduled for 2013.

Major Items of Revenues and Expenses

	Year Ended December 31,		
	2011	2010	2009
	(In thousands)		
Master Planned Communities (*)			
Land sales	\$ 161,382	\$ 129,044	\$ 97,287
Builder price participation	4,924	6,901	8,976
Other land sale revenues	17,732	15,186	15,520
Total revenues	184,038	151,131	121,783
Cost of sales - land	94,040	73,133	51,235
Land sales operations	36,505	45,192	47,460
Provisions for impairments		405,331	52,766
Depreciation and amortization	48	128	146
Interest, net	(3,562)	(7,094)	(4,522)
Total expenses	127,031	516,690	147,085
Venture partner share of The Woodlands EBT	(6,202)	(14,434)	(8,837)
MPC EBT	\$ 50,805	\$ (379,993)	\$ (34,139)

(*) Our master planned communities segment includes revenues and expenses related to The Woodlands at 100%. On July 1, 2011, we acquired our partner's equity interest. As a result of the acquisition, we now consolidate The Woodlands operations. Prior to the acquisition, The Woodlands was accounted for using the equity method. For a detailed breakdown of EBT, refer to Note 15.

Land sales increased \$32.3 million for the year ended December 31, 2011 as compared to the year ended December 31, 2010. The increase for the year ended December 31, 2010 as compared to 2009 was \$31.8 million. These year to year increases were due to factors described more fully above.

Builder price participation represents the contractual percentage we collect from builder home settlements. Generally the percentage ranges from one to two percent of the home price, but can vary by contract and by community. Builder price participation has declined in each year as home settlements have slowed in Summerlin and home sales in Bridgeland and Summerlin are at lower price points producing lower builder price participation. The decline is also impacted by a change in strategy at The Woodlands. During 2010 land sales contracts were restructured to eliminate price participation in exchange for a greater fixed lot sale price. Participation amounts collected at lot closing are considered to be a part of land sales revenue.

Edgar Filing: Howard Hughes Corp - Form 10-K

Other revenue for the year ended December 31, 2011 is \$17.7 million. It is comprised of \$5.2 million of ground maintenance revenue and \$3.2 million of energy easement fees from The Woodlands. Also included are \$2.6 million of home owner s association fees and \$1.8 million of income from contract defaults from Summerlin and

Table of Contents

\$0.8 million in revenue recognized as a result of a reduction in a contingent purchase price obligation to a former owner at Bridgeland. The balance is made up of several income items from all of our communities. Some of these items are transfer fees, advertising fees, ground rent and interest income.

Other revenue for the year ended December 31, 2011 increased \$2.5 million as compared to 2010 primarily because of the \$1.8 million collected from contract defaults from Summerlin and \$0.8 million of revenue recognized as a result of a reduction in a contingent purchase price obligation at Bridgeland. These items were not present in 2010. The amount for the year ended December 31, 2010 as compared to 2009 is consistent.

Land sales margins were 41.7%, 43.3% and 47.3% for the periods ended December 31, 2011, 2010 and 2009, respectively. The decrease in the 2011 margin as compared to 2010 was principally caused by higher cost percentage attributed to The Woodlands sales in the third and fourth quarters of 2011. The majority of The Woodlands third and fourth quarter cost of sales reflected the finished lots at the fair value established in connection with our July 1, 2011 acquisition of our partner's interest. Once the approximately 577 acquired finished lots are sold, The Woodlands margins are expected to return to levels approximating 44.0%. Also, Summerlin sales, which have a lower margin than Bridgeland and The Woodlands, comprised a larger portion of total sales for 2011 than in 2010. The decline in the margins from 2009 to 2010 was due to the majority of our sales occurring in Bridgeland, Columbia and The Woodlands in 2009. Summerlin sold one custom lot and one commercial lot in 2009. Costs of land sales is based on carrying values of the lots sold and varies by community based on historical purchase price of the land and improvements made, and to be made, by us, less any impairment charges previously recorded on the land.

Land sales operations costs decreased \$8.7 million for the year ended December 31, 2011 as compared to the year ended December 31, 2010, and decreased \$2.3 million for the year ended December 31, 2010 as compared to 2009. The decrease in 2011 as compared to 2010 is principally due to approximately \$6.6 million of real estate tax savings in our Summerlin project as a result of a successful tax appeal, in addition to approximately \$2.6 million of reduced net legal costs related to development matters in our Summerlin and Bridgeland communities. During 2011, we collected approximately \$0.8 million of settlements which reduced our overall net legal costs. The decrease in land sales operations costs from 2009 to 2010 is primarily related to management efforts to reduce payroll and overhead costs, marketing and other land related costs during a sluggish economy.

Master Planned Communities recorded impairment charges of \$345.9 million for Summerlin South and \$59.4 million for Columbia and Gateway in 2010, and \$52.8 million for Fairwood in 2009. There were no impairment charges in 2011. The detail of these impairment charges are described below.

Interest, net reflects the amount of interest that is capitalized at the project level. The decrease is related to lower company interest costs for the year ended December 31, 2011 due to our current debt structure as compared to our Predecessors for the years ended December 31, 2010 and 2009.

In addition to EBT for the Master Planned Communities, management believes that certain investors measure the value of the assets in this segment based on their annual contribution to liquidity and capital available for investment. Accordingly, the following table sets forth MPC Net Contribution for the years ended 2011, 2010 and 2009. MPC Net Contribution is defined as MPC EBT, plus MPC cost of sales, provisions for impairment and depreciation and amortization, and reduced by MPC development and acquisition expenditures.

Table of Contents**MPC Net Contribution**

	Year Ended December 31,		
	2011	2010	2009
	(In thousands)		
MPC EBT (*)	\$ 50,805	\$ (379,993)	\$ (34,139)
Plus:			
Cost of sales - land	82,672	49,504	40,163
Provisions for impairments		405,331	52,766
Depreciation and amortization	26	75	92
Less:			
MPC land/residential development and acquisitions expenditures	89,169	57,138	61,226
MPC Net Contribution	\$ 44,334	\$ 17,779	\$ (2,344)

(*) Our master planned communities segment includes revenues and expenses related to The Woodlands Partnerships. On July 2, 2011, we acquired our partner's equity interest. As a result of the acquisition, we now consolidate The Woodlands' operations into our consolidated financial statements. Prior to such acquisitions, we accounted for The Woodlands using the equity method. For a detailed breakdown of EBT, refer to Note 15.

The improvement in MPC Net Contribution during 2011 compared to 2010 and 2009 is primarily attributable to increased land sales and the results of efforts to reduce operational costs. Although MPC Net Contribution can be computed from GAAP elements of income and cash flows, it is not a GAAP based operational metric and should not be used to measure operating performance of the MPC assets as a substitute for GAAP measures of such performance. A reconciliation of EBT to consolidated operating income (loss) from continuing operations as computed in accordance with GAAP has been presented in Note 15.

Operating Assets Segment

We view NOI as an important measure of the operating performance of our Operating Assets. These assets typically generate rental revenues sufficient to cover their operating costs, and variances between years in net operating income typically results from changes in rental rates, occupancy, tenant mix and operating expenses.

Table of Contents**Operating Assets NOI and EBT**

- (a) Straight-line ground rent amortization was excluded from 2010 and 2009 amounts to conform to the 2011 presentation and to be consistent with the exclusion of straight-line revenues.
- (b) Includes a provision for bad debt of \$1.2 million related to a single tenant.
- (c) Amounts relating to an operating lease in which we are the lessee and the related sublease income totaling \$0.1 million and less than \$0.1 million for 2010 and 2009, respectively, and which were included in Columbia Operating Properties for 2011, 2010 and 2009, were reclassified to general and administrative expenses to conform to the 2011 presentation.
- (d) Since November 2009, a portion of The Woodlands staff has occupied from approximately 5,900 square feet to almost 10,000 square feet of this building.
- (e) Adjustments to NOI include straight-line and market lease amortization, depreciation and amortization and non-real estate taxes.

Retail Properties

Ward Centers NOI for 2011 decreased by approximately \$1.5 million compared to 2010 primarily due to lower rental revenue of \$0.6 million (principally as a result of a bankrupt tenant), higher compensation, legal, travel and other non-recoverable costs of \$0.9 million and higher energy costs of \$0.5 million. These negative variances were partially offset by lower bad debt expense of \$0.7 million due to the collection of aged receivables. The \$0.8 million increase in NOI for 2010 compared to 2009 is primarily due to new specialty leasing tenants taking occupancy in late 2009 and early 2010.

South Street Seaport NOI for 2011 increased by \$1.4 million compared to 2010. The increase was primarily the result of new leasing and new kiosk cart rental revenue of approximately \$1.4 million in addition to \$1.2 million of tenant receivable collections for which a reserve was established in prior years, partially offset by approximately \$1.2 million of higher expenses, including \$0.4 million higher professional and legal fees in 2011 as compared to 2010.

Rio West Mall's NOI for 2011 decreased by \$0.6 million as compared to 2010 primarily due to the bankruptcy of two major tenants, as well as increased overhead and property management costs. Some leasing terms were adjusted to a gross rents basis resulting in excess occupancy costs being absorbed by the property and not passed on to the tenants.

Riverwalk Marketplace's NOI for 2011 decreased by \$0.2 million compared to 2010 primarily due to a one-time tenant settlement of \$0.4 million received during 2010. This decrease was partially offset by higher specialty leasing revenues and higher tenant recoveries in 2011.

Landmark Mall's NOI for 2011 decreased by \$0.9 million primarily because of increased vacancies and a change from base minimum rents to percent lieu for certain tenants who are having financial difficulties. Occupancy costs for tenants on percent in lieu of rents leases are generally not recoverable, resulting in our absorbing a greater percentage of the property's operating costs. The \$0.9 million decrease in NOI for the year ended December 31, 2010 compared to 2009 resulted from one of the mall's anchor tenants vacating.

Park West's NOI for 2011 improved by \$0.2 million over 2010 principally as a result of lower property taxes from lower assessed property values in 2011. This operating asset continues to suffer from a weak market and its occupancy was 64.9% at December 31, 2011. We are focused on attracting tenants who can drive increased traffic during the day and evening, such as entertainment concepts. If we are unsuccessful at increasing occupancy and traffic, many of our existing tenants may be unable to continue to occupy their leased spaces because their sales volumes will likely be inadequate to support their operating costs.

Table of Contents

20 and 25 Waterway Avenue and Waterway Garage Retail were completed in 2007 and 2009, respectively and are located at The Woodlands. As of December 31, 2011, 20 and 25 Waterway Avenue are 100% leased and are expected to reach stabilized annual NOI of approximately \$1.6 million in the first quarter of 2012.

Waterway Garage Retail is 19.3% leased. Before retail properties are fully leased and have stabilized, we do not think yearly comparisons are informative.

Office Properties

All of the office properties listed in the NOI schedule, except for 110 N. Wacker and the Columbia Office Properties, are located in The Woodlands.

110 N. Wacker NOI increased in 2010 primarily due to an increase in the tenant's rental rate effective in November 2009.

4 Waterway Square was completed in 2010 and is 98.9% leased as of December 31, 2011. The asset is expected to reach stabilized annual NOI of \$5.5 million in the second quarter of 2012. Before office properties are fully leased and have stabilized, we do not think yearly comparisons are informative.

9303 New Trails is 100% leased as of December 31, 2011. The asset is expected to reach stabilized annual NOI of \$1.8 million in the second quarter 2012. From November 2009 through January 2012, we occupied a portion of the office space ranging from 5,914 square feet to 9,969 square feet, which represents 6.1% and 10.2% respectively, of the total building square footage; however, we moved into another third party owned asset in January 2012.

Other

The Woodlands Resort and Conference Center's \$3.3 million increase in NOI for 2011 compared to 2010 is due primarily to higher overall revenue per available room (which is the average daily room rate multiplied by average occupancy), which increased 16.0% to \$95.73 compared to \$82.52 for the same period in the prior year. Increased business activity and improving economic conditions at The Woodlands and surrounding areas, including higher commercial occupancies, are driving increased revenue and NOI as compared to 2010. Revenue per available room also increased by 6.9% in 2010 from \$77.16 in 2009, but the increased revenues were more than offset by higher fixed costs in 2010.

The Club at Carlton Woods (the Club) is a 36-hole golf and country club at The Woodlands with 565 total members as of December 31, 2011. We estimate the Club requires approximately 800 members to achieve break-even NOI, and therefore we expect to incur NOI losses into the foreseeable future. The Club's NOI loss increased by \$1.2 million to \$5.1 million for the year ended December 31, 2011, however, 2010 NOI includes approximately \$1.6 million of income relating to inactive lot incentives. The incentives were built into the total sales price of the lots and purchasers of homes at the Club, and the purchasers of such lots receive credit toward membership initiation fees at the Club. They have 60 days after closing on the home purchase to do so. The inactive lot incentive amount represents unused credits that had accumulated over the years. Excluding these credits, 2010 NOI loss would have been \$5.4 million.

The Club's revenues and expenses are included in other property and rental revenues, and other property operating costs. Such amounts were \$11.4 million and \$16.5 million, respectively, for the year ended December 31, 2011, \$9.4 million and \$14.9 million, respectively, for the years ended December 31, 2010, and \$9.4 million and \$14.7 million, respectively, for the year ended December 31, 2009.

The Woodlands Parking Garages comprise nearly 3,000 parking spaces in two separate parking structures. The Waterway Square Garage (1,942 spaces) is located in The Woodlands Town Center and has excess parking

Table of Contents

capacity for future commercial development. Woodloch Forest garage has approximately 1,000 total spaces with 300 spaces available for future adjacent office development. Until such development is undertaken, we anticipate the excess capacity to generate losses. NOI decreased by \$0.9 million for the year ended December 31, 2010 compared to 2009 primarily because the Waterway Square Garage was put into service in the fourth quarter of 2009. Prior to being put into service no costs would have been expensed.

Partially Owned

The Millennium Waterway Avenue Apartments are approximately 95.4% leased as of December 31, 2011, and had an average occupancy of 74.6% for 2011. The apartments were in their initial lease-up period during 2011 and we expect these apartments to reach annual NOI of approximately \$4.6 million during 2012.

Major Items of Revenues and Expenses

	2011	Year Ended December 31, 2010 (In thousands)	2009
Operating Assets (*)			
Minimum rents	\$ 72,405	\$ 69,937	\$ 70,267
Resort and conference center revenues	34,850	28,850	29,314
Other rental and property revenues	41,318	41,874	39,281
Total revenues	148,573	140,661	138,862
Rental property real estate taxes	11,924	12,148	11,267
Rental property maintenance costs	6,758	7,225	5,827
Resort and conference center operations	27,012	24,471	23,842
Other property operating costs	54,748	47,491	51,213
Provisions for doubtful accounts		1,760	2,296
Provisions for impairment		80,923	50,964
Depreciation and amortization	20,309	23,461	26,482
Interest, net	10,850	17,183	14,146
Early Extinguishment of debt	11,305		
Equity in Earnings from Real Estate Affiliates	(3,926)	338	(2,172)
Total expenses	138,980	215,000	183,865
Venture partner share of The Woodlands EBT	(91)	1,945	2,864
Operating Assets EBT	\$ 9,502	\$ (72,394)	\$ (42,139)

(*) For a detailed breakdown of our Operating Assets segment EBT, refer to Note 15. Such amounts include The Woodlands at 100%. Minimum rents increased \$2.5 million in 2011 compared to 2010 primarily due to 4 Waterway Square reaching full stabilization in 2011.

Resort and conference center revenues for 2011 are up as discussed above due to a 4.4% increase in the average daily room rate as well as an 11.1% increase in occupancy as compared to 2010. Resort and conference center operations expenses increased as a result of higher occupancy.

Other property operating costs increased \$7.3 million to \$54.7 million for the year ended December 31, 2011 compared to 2010, and decreased by \$3.7 million in 2010 compared to the year ended December 31, 2009. These costs generally include recoverable and non-recoverable costs relating to our properties, with the exception of real estate taxes and maintenance costs which are shown separately. The principal reasons for the increase in

Table of Contents

2011 compared to 2010 were, a \$0.5 million increase related to certain insurance costs \$0.5 million of increased legal costs recorded at our properties, \$0.8 million of higher utilities costs, and \$1.5 million related to increased operating costs at the Club. The \$3.7 million decrease in other property operating costs from 2009 to 2010 was primarily attributable to lower building lease back rent for The Woodlands of 2.5 million which expired in 2009.

Depreciation expense decreased \$1.8 million at Riverwalk and \$1.1 million at Landmark as a result of impairment charges in prior years offset somewhat by increased depreciation expense at Ward Centers of \$1.3 million, principally relating to putting the new parking garage in service during 2011. Depreciation expense for The Woodlands operating assets decreased by \$1.4 million due to the assets being remeasured at fair value as of the date of acquisition. The \$3.0 million decrease in depreciation expense from 2009 to 2010 is primarily a result of impairment taken during 2009 and 2010.

The provision for bad debts in 2010 included \$1.2 million relating to a single tenant at South Street Seaport. In 2011, the tenant agreed to a payment plan which requires payment of current amounts when due and payment of past due balances. As of December 31, 2011 the tenant has substantially complied with the agreement resulting in a favorable variance for 2011 as compared to 2010.

In 2011, interest expense decreased from prior year primarily due to the refinancing at Ward Centers. In 2010, GGP allocated interest expense of \$2.7 million to Ward Centers as part of their corporate allocations. Additionally, the early extinguishment of debt amount of \$11.3 million in 2011 resulted from the debt refinancing at Ward Centers in the third quarter.

We received distributions of \$3.9 million from our Summerlin Hospital cost investment in the first quarter of 2011. We did not receive a distribution in 2010. Dividends by Summerlin Hospital are typically made one time per year; however, no dividends were paid in 2010 principally due to a capital project at the hospital. Approximately \$2.0 million of the amount received in the first quarter of 2011 relates to calendar year 2010. The remaining \$1.9 million relates to periods prior to 2010 which were deferred pending completion of the capital project.

Strategic Developments Segment

Our Strategic Development assets generally require substantial future development to achieve their highest and best use. Most of the properties in this segment generate no revenues. Our expenses relating to these assets are primarily related to carrying costs, such as property taxes and insurance, and other ongoing costs relating to maintaining the assets in their current condition. If we decide to redevelop a Strategic Development asset, we would expect that, upon completion of redevelopment, the asset would be reclassified to the Operating Assets segment and NOI would become an important measure of its operating performance.

Table of Contents**Major Items of Revenues and Expenses**

	2011	Year Ended December 31, 2010 (In thousands)	2009
Strategic Developments (*)			
Minimum rents	\$ 917	\$ 1,015	\$ 1,902
Condominium unit sales	22,067	1,139	
Other rental and property revenues	1,877	363	(2,262)
Total revenues	24,861	2,517	(360)
Condominium unit cost of sales	14,465	1,000	
Rental and other property operations	6,528	10,540	8,400
Provisions for impairment		17,101	576,618
Depreciation and amortization	234	212	2,104
Interest, net	323	34	(2,725)
Equity in Earnings from Real Estate Affiliates			19,046
Total expenses	21,550	28,887	603,443
Strategic Developments EBT	\$ 3,311	\$ (26,370)	\$ (603,803)

(*) For a detailed breakdown of our Strategic Developments segment of EBT, refer to Note 15.

During 2011, Nouvelle at Natick sold 57 condominium units and there are two remaining for sale as of December 31, 2011. These sales were a significant source of cash flow for 2011 which will not be replicated in 2012.

The increase in other rental and property revenues for 2011 as compared to 2010 is primarily due to the sale of two ancillary parcels of land, aggregating approximately 4.6 acres, at the Kendall Town Center property which occurred in the third quarter of 2011. In 2009, Kendall Town Center sold land parcels at a \$3.9 million loss. This loss was partially offset by other income from various Strategic Development properties.

Rental and other property operations decreased in 2011 as compared to 2010 primarily due to a \$1.3 million property tax refund resulting from a tax protest associated with our Elk Grove development which occurred in the first quarter of 2011. Rental property operations increased \$2.1 million in 2010 as compared to 2009, as certain costs such as overhead that were previously capitalized were expensed as development efforts on all of the properties in our Strategic Developments segment were postponed.

Table of Contents**Certain Significant Consolidated and Combined Expenses**

The following table contains certain significant expenses on a consolidated and combined basis that are not otherwise included within the segment analyses. Variances related to income and expenses included in NOI or EBT are explained within the segment variance discussion contained within this Item 7 using the combined consolidated and proportionate share of our non-consolidated Real Estate Affiliates revenues and expenses associated with the related segment. Significant variances for combined expenses not included in NOI or EBT are described below.

(In thousands)	Year Ended December 31,		
	2011	2010	2009
General and administrative	\$ (35,182)	\$ (21,538)	\$ (23,023)

Investment in real estate affiliate basis adjustment	(6,053)		
Benefit for income taxes	18,325	633,459	23,969
Equity in earnings from Real Estate Affiliates	8,578	9,413	(28,209)
Reorganization items		(57,282)	(6,674)

We did not become a public company and did not operate as an entity separate from GGP until November 9, 2010; therefore, our 2010 and 2009 financial results reflect allocations made by GGP for general and administrative expenses based on actual costs incurred, or are based upon our percentage of GGP's total assets and revenues. Since our separation from GGP, we have been operating as an independent public company and have been building our organization to analyze, create and implement development plans for our assets. On July 1, 2011, we consolidated the operations of The Woodlands, increasing our employee base from 190 employees to 835 employees at December 31, 2011. For these reasons, we do not believe that current year general and administrative expenses are comparable to prior year amounts.

Our general and administrative costs for 2011 totaled \$35.2 million, of which \$5.7 million was attributable to The Woodlands. General and administrative expenses of \$29.5 million, excluding The Woodlands, increased by \$8.0 million over 2010, principally due to infrastructure growth and our becoming an independent public company on November 9, 2010. Non-equity based compensation costs totaled approximately \$18.1 million and non-cash stock compensation costs totaled \$3.2 million for the year ended December 31, 2011. If all corporate personnel employed as of December 31, 2011 and whose compensation is included in general & administrative expenses had been employed as of January 1, 2011, we estimate our cash compensation costs would have been approximately \$22.6 million for 2011. For 2011, our consulting, transitional services, recruiting and temporary staffing costs were approximately \$3.0 million. Many of these costs relate to our transition to an independent public company and the building of infrastructure. We expect these costs to be significantly lower in 2012. Legal, accounting, internal audit and other professional services totaled \$5.7 million for 2011. The remaining \$5.2 million of costs primarily represent occupancy, travel, IT infrastructure and public company costs.

Reorganization items under the bankruptcy filings are expense or income items that were incurred or realized as a result of the bankruptcy filings under Chapter 11. These items include professional fees and similar types of expenses incurred directly related to the bankruptcy filings, gains or losses resulting from activities of the reorganization process, including gains related to recording the mortgage debt at fair value upon emergence from bankruptcy and interest earned on cash accumulated by the debtors. Due to the consummation of the reorganization plan in November 2010, no items were classified as reorganization items in 2011. See Note 1 Reorganization items for additional detail.

Table of Contents

Emergence initiatives, included in general and administrative costs, for the year ended December 31, 2009 consist of professional fees for restructuring that were incurred prior to the filing for protection under the Bankruptcy Code of certain of our subsidiaries. Similar costs incurred after filing for protection under the Bankruptcy Code are recorded as reorganization items.

Impairments

We evaluate our real estate assets for impairment whenever events or changes in circumstances indicate that the carrying value of the assets may not be recoverable. Recoverability in this context means that the expected cumulative undiscounted future cash flows of an asset are less than its carrying value. The recoverability analysis, as an accounting concept, considers hold periods, but ignores when the future cash flows are expected to be received within that hold period and whether we currently expect to receive an above or below market rate of return over our anticipated holding period. If expected cumulative undiscounted cash flows are less than carrying value, then we are required to record the asset at the lower of its carrying value or fair value. The process for deriving fair value involves discounting the expected future cash flows at a rate of return that we believe an investor would require based on the risk profile of the cash flows and returns available in the market for other investments having similar risk. We may also use other inputs such as appraisals and recent transactions for comparable properties, if appropriate. Book value for assets that have been recently impaired from an accounting perspective may more likely reflect market value than book values of assets that have not been impaired; consequently, unimpaired assets may be expected to generate above or below market returns relative to their respective book values. The lower book basis resulting from an impairment charge increases reported profitability from the asset in future periods, but has no impact on cash flow. As of December 31, 2011 we evaluated whether impairment indicators existed at all of our assets. In most instances, we concluded no impairment indicators were present. When indicators of impairment were present, we reconsidered expected cash flows and concluded that there were no impairments. We recorded \$503.4 million and \$680.3 million of impairment charges for the years ended December 31, 2010 and 2009, respectively.

We are focused on maximizing value for stockholders. To achieve this, we seek to implement strategies that increase the value of an asset, not necessarily the aggregate of its future undiscounted cash flows. As such, a given strategy may result in an accounting impairment charge even though we believe that such strategy will maximize the value of the asset.

Master Planned Communities Impairments

Impairment charges to our master planned communities totaled \$405.3 million and \$52.8 million for the years ended December 31, 2010 and 2009, respectively. There were no impairments recorded for the year ended December 31, 2011. Large master planned community assets by their nature have characteristics that may create a wider range of outcomes in an impairment analysis compared to other types of real estate such as office, retail and industrial facilities. Unlike operating real estate, master planned community assets have extended life cycles that may last 20 to 40 years and have few long-term contractual cash flows (such as operating lease revenue). Further, the majority of the master planned community assets generally have minimal to no residual values because of their liquidating characteristics and development periods often occur through several economic cycles. Subjective factors such as the expected timing of property development and sales, optimal development density and sales strategy impact the timing and amount of expected future cash flows and fair value.

Our master planned communities comprise thousands of acres that include distinct communities. Our management team may implement development strategies for those communities that are different than those planned by our predecessors. Such strategies vary from those of our predecessors and may warrant separate impairment evaluation for regions or projects within a single master planned community if we believe the cash flows for those assets are independent from other regions or projects within the community. Separating master planned communities into multiple entities for impairment testing may result in a different accounting conclusion than if the community was evaluated as a whole; however, the accounting has no impact on economic value or fair value.

Table of Contents

Our two remaining developable Summerlin regions (South and West) are separated for impairment testing because their characteristics and future business plans are distinct. In December 2010, we modified our business plans for Summerlin South based on our expectation to: (1) replace high density product with low density product; (2) change the strategy from developing and selling finished lots to the sale of undeveloped pads; and (3) reduce saleable acre assumptions for a high-end village having significant topography and development challenges. As a result, projected undiscounted future cash flows for Summerlin South were less than its then carrying value and this asset was impaired as of December 31, 2010. We recorded a \$345.9 million pre-tax charge to write down Summerlin South to its estimated \$203.3 million fair value at December 31, 2010.

At December 31, 2010, we also recorded \$56.8 million and \$2.6 million pre-tax impairment charges for the Columbia and Gateway, Maryland properties, respectively. Columbia was written down to a \$34.8 million fair value based on a ten-year land sale program for the future mixed-use development of 4.9 million square feet. For the year ended December 31, 2009, we recorded a \$52.8 million pre-tax impairment charge for the Fairway, Maryland property.

Operating Assets Impairments

There were no impairments recorded for the year ended December 31, 2011. Operating property pre-tax impairments within our Operating Assets segment totaled \$80.4 million and \$51.0 million for the years ended December 31, 2010 and 2009, respectively. Riverwalk Marketplace and Landmark properties were impaired by \$56.0 million and \$24.4 million, respectively, and their estimated fair values were \$10.2 million and \$23.8 million, respectively, as of December 31, 2010. Riverwalk was evaluated based on our current plan to reposition and hold the asset for an 11-year period, and we applied an 8.5% discount rate to the estimated future cash flows and derived a residual value on the leasehold interest using a 8.5% capitalization rate. The Landmark property impairment is based on an appraisal which incorporates many factors including, but not limited to, physical condition, location, demographics and retail market condition. For the year ended December 31, 2009, we took a \$27.3 million pre-tax impairment charge relating to the Landmark property. We have not yet created a specific re-development plan for this asset.

Strategic Developments Impairments

There were no impairments recorded for the year ended December 31, 2011. Strategic Developments properties pre-tax impairments totaled \$17.0 million and \$600.3 million for the year ended December 31, 2010 and 2009, respectively. Century Plaza Mall (Birmingham, AL) and Nouvelle at Natick (Natick, MA) properties were impaired by \$12.9 million and \$4.1 million, respectively, and their estimated fair values are \$4.5 million and \$13.4 million, respectively, as of December 31, 2010. Century Plaza Mall is a vacant property for which we do not currently have a re-development plan, and the impairment is based upon our best estimates utilizing, among other things, a broker's opinion of value. Nouvelle is a condominium development for which the estimated fair value is based on discounted cash flow analysis of the remaining units available for sale. The impairments for the year ended December 31, 2009 relate to ten Strategic Development assets. Elk Grove Promenade and The Shops at Summerlin Centre were the largest two impairments at \$175.3 million and \$176.1 million, respectively.

Two regions within our Master Planned Communities had impairment indicators and carrying values in excess of estimated fair value at December 31, 2011. Aggregate undiscounted cash flows for such master planned communities projects significantly exceeded their respective aggregate book values and therefore no impairment provisions were required with respect to such projects at December 31, 2011. The significant assumptions in our Master Planned Communities segment relate to future sales prices of land and future development costs needed to prepare land for sale, over the planned life of the project, which are based, in part, on assumptions regarding sales pace, timing of related development costs, and the impact of inflation and other market factors. With respect to operating properties within our Operating Assets segment at December 31, 2011, there were three operating properties which had impairment indicators. The estimated undiscounted cash flows for such operating properties exceeded their book values by 109%. A significant assumption for these operating properties is our

Table of Contents

future revenue assumption. The combined book value of the three properties is \$115.8 million. A reduction of the estimated undiscounted cash by 10% would result in the impairment of Park West.

The decrease in depreciation and amortization for the years ended December 31, 2011 and 2010, primarily resulted from the decrease in the carrying amount of buildings and equipment due to the impairment charges recorded in 2010 and 2009.

All interest expense for 2011 was capitalized as part of the development costs within the Master Planned Community and Strategic Developments segments in accordance with our capitalized interest policy. We recognized a loss of \$11.3 million during the third quarter of 2011 related to the debt refinancing at Ward Centers. The \$11.3 million represented the unamortized market rate adjustment as of the date of refinancing. Interest expense increased during the year ended December 31, 2010 primarily due to a \$1.9 million increase in the amortization of debt market rate adjustments, partially offset by a \$0.4 million decrease in the amortization of deferred finance costs.

The increase in the benefit for income taxes for the year ended December 31, 2010 was primarily attributable to the creation of certain deferred tax assets prior to separation from GGP as a result of the transfer of certain of our predecessors' REIT assets to taxable entities (for more information see Note 9) and a decrease in deferred tax liabilities due to our impairments, partially offset by a significant increase in valuation allowances compared to the year ended December 31, 2009.

The \$37.6 million increase in our equity in income (loss) of Real Estate Affiliates in 2010 was primarily due to the 2009 recognition of \$10.6 million of impairment on our investment in Circle T as well as the recognition in 2009 by the Circle T venture of impairment of \$38.1 million, of which our share was \$19.0 million. See Note 6 for additional information on our Real Estate Affiliates.

Reorganization items under the bankruptcy filings are expense or income items that were incurred or realized by our predecessors as a result of their bankruptcy. These items include professional fees and similar types of expenses incurred directly related to the bankruptcy filings, gains or losses resulting from activities of the reorganization process, including gains related to recording the mortgage debt at fair value upon emergence from bankruptcy and interest earned on cash accumulated by the our predecessors. See Note 2 Reorganization Items for additional detail.

Our net loss in 2010 reflects our operations prior to and subsequent to the spin-off from GGP. Income for the period prior to the spin-off, as detailed in the accompanying Statement of Equity, was attributable to GGP and reflects significant income tax benefits from restructuring. For more information see Note 9. The loss subsequent to the spin-off of \$528.5 million is primarily attributable to the impairment charges and warrant liability expense described above.

Liquidity and Capital Resources

Our primary sources of cash for 2011 include cash flow from land sales in our Master Planned Communities segment, cash generated from our operating assets, condominium sales proceeds, net proceeds from asset sales and first mortgage financings secured by our assets. Our primary uses of cash include working capital, overhead, debt repayment, property improvements, pre-development and development costs. We believe that our sources of cash, including existing cash on hand and available credit, will provide sufficient liquidity to meet our existing contracted obligations, and anticipated ordinary course operating expenses for at least the next twelve months. The pursuit of development and re-development opportunities in our Operating Assets and Strategic Developments segments are capital intensive and will require significant additional funding. We intend to raise this additional funding with a mix of construction, bridge and long-term financings, by entering into joint venture arrangements and the sale of non-core assets at the appropriate time.

Table of Contents

The negative operating cash flows prior to 2011 presented in this Annual Report on Form 10-K primarily were the result of reorganization items of \$60.0 million and \$2.4 million for the years ended December 31, 2010 and 2009, respectively, as well as costs associated with land/residential development and acquisitions expenditures in our Master Planned Communities segment of \$57.1 million and \$61.2 million for the years ended December 31, 2010 and 2009, respectively. The funds for these expenditures came from GGP and are reflected in our consolidated and combined statement of cash flows in change in GGP investment, net.

As of December 31, 2011, our consolidated debt was approximately \$606.5 million of which approximately \$7.0 million is recourse. We have \$52.2 million of required amortization or initial debt maturities in 2012, of which approximately \$36.1 million may be extended beyond 2012. In addition, as of December 31, 2011, our share of the debt of our Real Estate Affiliates was approximately \$43.7 million.

On December 5, 2011, we secured a \$55.0 million loan for 4 Waterway Square and 9303 New Trails. Proceeds from the loan were partially used to refinance a \$13.1 million mortgage secured by 9303 New Trails. The excess proceeds were used to partially repay the credit facility at The Woodlands and to increase cash. The loan matures on December 11, 2023 and has a fixed interest rate of 4.88%.

On September 29, 2011, we closed on a \$250.0 million first mortgage financing secured by the Ward Centers in Honolulu, Hawaii, which bears interest at LIBOR plus 2.50%. The loan matures on September 29, 2016, and we entered into an interest rate swap pursuant to which \$143.0 million of the principal balance was fixed at a 3.81% interest rate for the term of the loan. Initial loan proceeds of approximately \$212.5 million were used to repay approximately \$209.5 million of mortgage debt and to fund closing costs. We were advanced an additional \$7.5 million in the fourth quarter of 2011. Also, the loan may be drawn to a maximum \$250.0 million to fund capital expenditures at the property, provided that maximum leverage cannot exceed the lesser of 65% of the property's appraised value and a 10.0% debt yield. At December 31, 2011, the loan had a \$220.0 million outstanding balance.

In March 2011, The Woodlands refinanced a portion of its debt by entering into a \$270.0 million credit facility which matures in 2015 and a \$36.1 million financing which has an initial maturity in 2012. At December 31, 2011, there was approximately \$34.2 million of undrawn borrowing availability under the credit facility.

The following table summarizes our Net Debt on a segment basis. Net Debt is defined as our share of mortgages, notes and loans payable, at our ownership share, reduced by short-term liquidity sources to satisfy obligations such as our ownership share of cash and cash equivalents and Special Improvement District receivables. Although Net Debt is not a recognized GAAP financial measure, it is readily computable from existing GAAP information and we believe, as with our other non-GAAP measures, that such information is useful to our investors and other users of our financial statements.

Segment Basis (a) (In thousands)	Master Planned Communities	Operating Assets	Strategic Developments	Segment Totals	Non- Segment Amounts	Total December 31, 2011
Mortgages, notes and loans payable	\$ 261,688(b)	\$ 383,786(c)	\$ 4,541	\$ 650,015	\$ 147	\$ 650,162
Less: Cash and cash equivalents	(11,902)	(74,553)(d)		(86,455)	(144,398)	(230,853)
Special Improvement District receivables	(40,579)			(40,579)		(40,579)
Municipal Utility District receivables	(83,407)			(83,407)		(83,407)
Net debt	\$ 125,800	\$ 309,233	\$ 4,541	\$ 439,574	\$ (144,251)	\$ 295,323

(a) Refer to Note 15 Segments in the Notes to the Consolidated Financial Statements.

(b) Includes \$183.0 million Master Credit Facility outstanding balance.

Table of Contents

(c) Includes our \$43.7 million share of debt of our Real Estate Affiliates.

(d) Includes our \$3.3 million share of cash and cash equivalents of our Real Estate Affiliates.

Cash flow for the period July 1, 2011 through December 31, 2011 includes the consolidated cash flow of The Woodlands.

Cash Flows from Operating Activities

Net cash provided by operating activities was \$86.5 million for the year ended December 31, 2011, compared to net cash used in operating activities of \$67.9 million for the year ended December 31, 2010, and \$17.9 million for the year ended December 31, 2009.

The approximate \$145.5 million increase in cash provided by operating activities for the year ended December 31, 2011 compared to 2010 is primarily a result of a \$75.4 million increase in master planned community land sales and a \$20.9 million increase in Natick condominium sales for 2011, as well as approximately \$57.3 million of reorganization items in 2010 which were not incurred in 2011. These items were partially offset by an additional \$32.0 million of real estate acquisition and development expenditures in 2011 compared to 2010. The remaining \$24.0 million of the increase in 2011 compared to 2010 is primarily the result of having six months of commercial property income from The Woodlands in 2011 and several other miscellaneous working capital items.

Cash used in operating activities increased by \$50.0 million for the year ended December 31, 2010 compared to 2009. The principal cause of the increase in cash used relates to a \$50.6 million increase in reorganization costs during 2010 compared to 2009.

Cash used for real estate acquisition and development expenditures was \$90.1 million for the year ended December 31, 2011, \$57.1 million for the year ended December 31, 2010, and \$61.2 million for the year ended December 31, 2009.

Net cash provided by certain assets and liabilities, including accounts and notes receivable, prepaid expense and other assets, deferred expenses, and accounts payable and accrued expenses totaled \$34.2 million, \$17.2 million and \$22.5 million for the years ended December 31, 2011, 2010 and 2009, respectively.

Cash Flows from Investing Activities

Net cash used in investing activities was \$39.7 million, \$111.8 million and \$21.4 million for the years ended December 31, 2011, 2010 and 2009, respectively. Cash used for development of real estate and property expenditures was \$44.4 million, \$111.8 million and \$27.7 million for the years ended December 31, 2011, 2010 and 2009, respectively. The 2011 expenditures primarily relate to the 722-space structured garage and land improvements placed in service in the third quarter. Also, in the third quarter of 2011, we received reimbursements from a municipality of \$5.6 million related to our infrastructure improvements for the Elk Grove Promenade strategic development.

Cash Flows from Financing Activities

Net cash used in financing activities was \$103.9 million for the year ended December 31, 2011. Cash used in financing activities for 2011 includes repayment of a \$96.5 million acquisition note relating to the acquisition of our partner's interest in The Woodlands. Net cash provided by financing activities was \$461.2 million for the year ended December 31, 2010 and to \$37.5 million for the year ended December 31, 2009.

Cash provided by financing activities in 2011 of \$304.9 million resulted primarily from \$220.0 million of borrowings relating to the Ward Centers mortgage financing, the \$55.0 million loan for 4 Waterway Square and 9303 New Trails and \$29.0 million for the 110 N. Wacker Drive office building mortgage financing (See Note 7).

Table of Contents

Principal payments on mortgages, notes and loans payable were \$407.0 million, \$22.1 million and \$10.5 million for the years ended December 31, 2011, 2010 and 2009, respectively. We received contributions from GGP of \$216.5 million for the year ended December 31, 2010 and \$50.9 million for the year ended December 31, 2009. In addition, we issued 5.25 million shares of our common stock and warrants to purchase an additional 8.0 million shares of our common stock for an aggregate price of \$250 million.

Contractual Cash Obligations and Commitments

The following table aggregates our contractual cash obligations and commitments as of December 31, 2011:

	2012	2013	2014	2015	2016	Subsequent / Other	Total
Long-term debt-principal	\$ 52,166	\$ 31,896	\$ 35,553	\$ 126,670	\$ 232,639	\$ 127,553	\$ 606,477
Interest payments (a)	27,306	24,096	21,760	17,142	13,240	43,689	147,233
Ground lease payments	5,197	5,187	5,205	5,241	4,965	179,235	205,030
Uncertainty in income taxes, including interest (b)						129,939	129,939
Total	\$ 84,669	\$ 61,179	\$ 62,518	\$ 149,053	\$ 250,844	\$ 480,416	\$ 1,088,679

- (a) Excludes interest expense related to interest payments on special improvements district bonds. Includes obligations under our \$270.0 million credit facility, \$250.0 million credit facility at The Woodlands, \$250.0 million first mortgage on Ward Centers, \$55.0 million secured loan for 4 Water Way Square and 9303 New Trails and \$43.7 million share of debt of our Real Estate Affiliates.
- (b) The remaining uncertainty in income tax liability for which reasonable estimates about timing of payments cannot be made is disclosed within the Subsequent / Other column.

We lease land or buildings at certain properties from third parties. The leases generally provide us with a right of first refusal in the event of a proposed sale of the property by the landlord. Rental payments are expensed as incurred and have been, to the extent applicable, straight-lined over the term of the lease. Contractual rental expense, including participation rent, was \$3.9 million, \$3.5 million and \$3.5 million for 2011, 2010 and 2009, respectively. The amortization of above and below-market ground leases and straight-line rents included in the contractual rent amount, was not significant.

Off-Balance Sheet Financing Arrangements

We do not have any off-balance sheet financing arrangements. We have interests in property owning non-consolidated ventures which have mortgage financing. The financings are non-recourse to us and totaled \$60.0 million at December 31, 2011.

REIT Requirements

In order for Victoria Ward, Limited to remain qualified as a REIT for federal and state income tax purposes, Victoria Ward must distribute or pay tax on 100% of its capital gains and distribute at least 90% of its ordinary taxable income to its stockholders, including us. See Note 9 for more detail on this entity's ability to remain qualified as a REIT.

Seasonality

Revenues from development, redevelopment or sale of property in our Master Planned Communities segment and Strategic Developments segment are not subject to seasonal variations. Rental income recognized, including overage rent, is higher during the second half of the year for some of our operating assets. As a result, rental revenue production in the Operating Assets segment is generally highest in the fourth quarter of each year. Additionally, some of the retail properties in our Operating Assets segment are subject to seasonal variations, with a significant portion of their sales and earnings occurring during the last two months of the year.

Table of Contents

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. For example, significant estimates and assumptions have been made with respect to the fair value of assets for measuring impairment; valuation of debt of emerged entities; useful lives of assets; capitalization of development and leasing costs; provision for income taxes; recoverable amounts of receivables and deferred taxes; initial valuations and related amortization periods of deferred costs and intangibles; and cost ratios and completion percentages used for land sales. Actual results could differ from those estimates.

Critical Accounting Policies

Critical accounting policies are those that are both significant to the overall presentation of our financial condition and results of operations and require management to make difficult, complex or subjective judgments. Our critical accounting policies are those applicable to the following:

Impairment Properties, developments in progress and Master Planned Communities Assets

We review our real estate assets, including Operating Assets, land held for development and sale and developments in progress, for potential impairment indicators whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Significant estimates and assumptions have been made with respect to impairment of long-lived assets. Actual results could differ from these assumptions and estimates.

Impairment indicators for our Master Planned Communities segment are assessed separately for each community and in certain circumstances, regions or projects within the community, and include, but are not limited to, significant decreases in sales pace and decreasing average selling prices. We also monitor local economic conditions and other factors that may relieve demand expectation.

Impairment indicators for pre-development costs, which are typically costs incurred during the beginning stages of a potential development, and developments in progress are assessed by project and include, but are not limited to, significant changes in projected completion dates, revenues or cash flows, development costs, market factors and the feasibility of development projects.

Impairment indicators for our Operating Assets segment are assessed separately for each property and include, but are not limited to, significant decreases net operating income, significant decreases in occupancy or low occupancy and significant net operating losses.

Impairment indicators for our Strategic Developments segment are assessed separately for each property and include, but are not limited to, significant decreases in comparable property sale prices.

If an indicator of potential impairment exists, the asset is tested for recoverability by comparing its carrying amount to the estimated future undiscounted cash flow. Significant assumptions used in the estimation of future undiscounted cash flow include, for the master planned communities, estimates of future lot sales, costs to complete and sales pace, and for properties in our Operating Assets segment and Strategic Developments segment, future market rents, renewals and capital expenditures. Historical experience in such matters and future economic projections were used to establish such factors. These factors are subject to uncertainty. A real estate asset is considered to be impaired when its carrying amount cannot be recovered through estimated future

Table of Contents

undiscounted cash flows and the carrying value is less than the fair value. To the extent an impairment provision is necessary, the excess of the carrying amount of the asset over its estimated fair value is charged to operations. In addition, the impairment is allocated proportionately to adjust the carrying amount of the asset. The adjusted carrying amount for operating assets, which represents the new cost basis of the asset, is depreciated over the remaining useful life of the asset. The adjusted carrying amount for master planned communities is recovered through future land sales.

Recoverable amounts of receivables and deferred tax assets

We make periodic assessments of the collectability of receivables (including those resulting from the difference between rental revenue recognized and rents currently due from tenants) and the recoverability of deferred taxes based on a specific review of the risk of loss on specific accounts or amounts. The receivable analysis places particular emphasis on past-due accounts and considers the nature and age of the receivables, the payment history and financial condition of the payee, the basis for any disputes or negotiations with the payee and other information which may impact collectability. For straight-line rents receivable, the analysis considers the probability of collection of the unbilled deferred rent receivable given our experience regarding such amounts. For deferred tax assets, an assessment of the recoverability of the tax asset considers the current expiration periods of the prior net operating loss carry-forwards or other tax attributes and our estimated future taxable income generated by deferred tax liabilities. The resulting estimates of any allowance or reserve related to the recovery of these items is subject to revision as these factors change and is sensitive to the effects of economic and market conditions on such payees.

Capitalization of development and leasing costs

We capitalize the costs of development and leasing activities of our properties. These costs are incurred both at the property location and at the regional and corporate office levels. The amount of capitalization depends, in part, on the identification and justifiable allocation of certain activities to specific projects and leases. Differences in methodologies of cost identification and documentation, as well as differing assumptions as to the time incurred on projects, can yield significant differences in the amounts capitalized and, as a result, the amount of depreciation recognized.

Revenue recognition and related matters

Revenues from land sales are recognized using the full accrual method provided that various criteria relating to the terms of the transactions and our subsequent involvement with the land sold are met. Revenues relating to transactions that do not meet the established criteria are deferred and recognized when the criteria are met or using the installment or cost recovery methods, as appropriate, in the circumstances. In addition, in certain land sale transactions, we also share in a percentage of the builders' finished home sales revenue, which we term builder's price participation. For land sale transactions in which we are required to perform additional services and incur significant costs after title has passed, revenues and cost of sales are recognized on a percentage of completion basis.

Cost ratios for land sales are determined as a specified percentage of land sales revenues recognized for each master planned community project. The cost ratios used are based on actual costs incurred and estimates of development costs and sales revenues through completion of each project. The ratios are reviewed regularly and revised for changes in sales and cost estimates or development plans. Significant changes in these estimates or development plans, whether due to changes in market conditions or other factors, could result in changes to the cost ratio used for a specific project. The specific identification method is used to determine cost of sales for certain parcels of land, including acquired parcels we do not intend to develop or for which development is complete at the date of acquisition.

Minimum rent revenues are recognized on a straight-line basis over the terms of the related leases. Minimum rent revenues also include amounts collected from tenants to allow the termination of their leases prior to their

Table of Contents

scheduled termination dates and accretion related to above and below-market tenant leases on acquired properties. Straight-line rents receivable represent the current net cumulative rents recognized prior to when billed and collectible as provided by the terms of the leases. Overage rent is recognized on an accrual basis once tenant sales exceed contractual tenant lease thresholds. Recoveries from tenants are established in the leases or computed based upon a formula related to real estate taxes, insurance and other shopping center operating expenses and are generally recognized as revenues in the period the related costs are incurred.

Purchase Price Allocation

Upon the acquisition of real estate properties, we recognize the assets acquired, the liabilities assumed, and any noncontrolling interest as of the acquisition date, measured at their fair values. In allocating the purchase price of each of our properties, management makes assumptions and uses various estimates, including, but not limited to, the estimated useful lives of the assets, the cost of replacing certain assets, discount rates used to determine present values, market rental rates per square foot and the period required to lease the property up to its occupancy at acquisition if it were vacant. Many of these estimates are obtained from independent third party appraisals. However, management is responsible for the source and use of these estimates. A change in these estimates and assumptions could result in the various categories of our real estate assets and/or related intangibles being overstated or understated which could result in an overstatement or understatement of depreciation and/or amortization expense and/or rental revenue. These variances could be material to our financial statements.

Recently Issued Accounting Pronouncements and Developments

New accounting pronouncements have been issued which impact or could impact the prior, current or subsequent years. See Note 2 for additional information about new accounting pronouncements.

Inflation

Revenue from our Operating Assets may be impacted by inflation. In addition, materials and labor costs relating to our development activities may significantly increase in an inflationary environment. Finally, inflation poses a risk to us due to the possibility of future increases in interest rates in the context of loan refinancings.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are subject to interest rate risk with respect to our fixed-rate financing in that changes in interest rates will impact the fair value of our fixed-rate financing and with respect to our floating rate financings in that increases in interest rates could adversely affect cash flow. As of December 31, 2011, we had \$468.1 million of variable-rate debt outstanding of which \$172.0 million has been swapped to a fixed-rate. Annual interest expense would increase approximately \$3.0 million for every 1% increase in interest rates on this balance. Generally, our interest expense is capitalizable; therefore, the impact on our Statement of Income (Loss) is expected to be minimal. For additional information concerning our debt, and management's estimation process to arrive at a fair value of our debt as required by GAAP, reference is made to Item 7, the Liquidity and Capital Resources discussion above and to Notes 2 and 7. We seek to manage a portion of our floating rate interest exposure by using interest rates swaps and caps.

The following table summarizes principal cash flows on our debt obligations and related weighted-average interest rates by expected maturity dates as of December 31, 2011:

(In thousands)	Contractual Maturity Date						
	2012	2013	2014	2015	2016	Thereafter	Total
Mortgages, notes and loans payable	\$ 52,166	\$ 31,896	\$ 35,553	\$ 126,670	\$ 232,639	\$ 127,553	\$ 606,477
Weighted - average interest rate	4.61%	4.57%	4.52%	4.33%	5.72%	5.74%	

Table of Contents

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Information with respect to this Item is set forth beginning page F-1.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) that are designed to provide reasonable assurance that information required to be disclosed in our reports to the SEC is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and our principal financial and accounting officer, as appropriate, to allow timely decisions regarding required disclosure.

As required by SEC rules, we carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and our principal financial and accounting officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2011, the end of the period covered by this report. Based on the foregoing, our principal executive officer and principal financial and accounting officer concluded that our disclosure controls and procedures were effective as of December 31, 2011.

Internal Controls over Financial Reporting

There have been no changes in our internal controls during our most recently completed fiscal quarter that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

In making its assessment of the changes in internal controls over financial reporting as of December 31, 2011, our management excluded the evaluation of the disclosure controls and procedures at The Woodlands due to our acquisition of the remaining interest from our former partner on July 1, 2011.

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining a system of internal control over financial reporting designed to provide reasonable assurance that transactions are executed in accordance with management authorization and that such transactions are properly recorded and reported in the financial statements, and that records are maintained so as to permit preparation of the financial statements in accordance with U.S. generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Our evaluation of and conclusion on the effectiveness of internal control over financial reporting as of December 31, 2011 did not include the internal controls for the acquisition of The Woodlands, because of the timing of the acquisition, which was completed in July 2011. As of December 31, 2011, this entity constituted approximately \$581.1 million of total assets, \$84.6 million of revenues and \$2.1 million of pre-tax income for the year then ended. In 2012, we will expand our evaluation of the effectiveness of the internal controls over financial reporting to include The Woodlands. Management has assessed the effectiveness of the Company's internal control over financial reporting utilizing the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control - Integrated Framework. Management concluded, based on its assessment, that The Howard Hughes Corporation's internal control over financial reporting was effective as of December 31, 2011. Deloitte & Touche LLP, an independent registered public accounting firm, has audited the Company's internal control over financial reporting as of December 31, 2011, as stated in their report which is included in this Annual Report on Form 10-K.

Attestation Report of the Independent Registered Public Accounting Firm

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of

The Howard Hughes Corporation

We have audited the internal control over financial reporting of The Howard Hughes Corporation and subsidiaries (the Company) as of December 31, 2011, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. As described in Management’s Report on Internal Control over Financial Reporting, management excluded from its assessment the internal control over financial reporting at The Woodlands Operating Company, L.P. and subsidiaries, TWPCP Holdings, LP and subsidiaries and TWLDC Holdings, L.P. and subsidiaries (collectively The Woodlands), which were acquired on July 1, 2011 and whose financial statements constitute 18.8% and 17.1% of net and total assets, respectively, 30.7% of revenues, and 1.6% of pre-tax income of the consolidated financial statement amounts as of and for the year ended December 31, 2011. Accordingly, our audit did not include the internal control over financial reporting at The Woodlands. The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed by, or under the supervision of, the company’s principal executive and principal financial officers, or persons performing similar functions, and effected by the company’s board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on the criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2011 of the Company and our report dated February 29, 2012 expressed an unqualified opinion on those financial statements and financial statement schedule and included an explanatory paragraph regarding the allocations of certain operating expenses from General Growth properties, Inc included in the Company’s combined financial statements prior to November 9, 2010.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of

The Howard Hughes Corporation

We have audited the accompanying consolidated balance sheets of The Howard Hughes Corporation and subsidiaries (the Company) as of December 31, 2011 and 2010, and the related consolidated and combined statements of income (loss) and comprehensive income (loss), equity, and cash flows for each of the three years in the period ended December 31, 2011. Our audits also included the financial statement schedule listed in the Index at Item 15. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated and combined financial statements present fairly, in all material respects, the financial position of The Howard Hughes Corporation and subsidiaries as of December 31, 2011 and 2010, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated and combined financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

As discussed in Note 2 to the financial statements, the combined financial statements of certain entities that were transferred from General Growth Properties, Inc. to the Company on November 9, 2010 (the HHC Businesses) include allocations of certain operating expenses from General Growth Properties, Inc. until the entities were transferred to the Company on November 9, 2010. These costs may not be reflective of the actual level of costs which would have been incurred had the HHC Businesses operated as an independent, stand-alone entity separate from General Growth Properties, Inc.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2011, based on the criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 29, 2012 expressed an unqualified opinion on the Company's internal control over financial reporting.

NOTE 1 ORGANIZATION

General

The Howard Hughes Corporation's (HHC or the Company) mission is to be the preeminent developer and operator of Master Planned Communities and mixed-use properties. We create timeless places and memorable experiences that inspire people while driving sustainable, long-term growth and value for our shareholders. We specialize in the development of master planned communities, and ownership, management, and the development or repositioning of real estate assets currently generating revenues, also called operating assets, as well as other strategic real estate opportunities in the form of entitled and unentitled land and other development rights, also called strategic developments. We are a Delaware corporation that was formed on July 1, 2010 to hold, after receipt via a tax-free distribution, certain assets of General Growth Properties, Inc. (GGP) and certain of its subsidiaries (collectively, the Predecessors) pursuant to their plans of reorganization (the Plan) under Chapter 11 of the United States Code (Chapter 11). Pursuant to the Plan, certain of the assets and liabilities of the Predecessors (the HHC Businesses) were transferred to us and our common stock was distributed to the holders of GGP's common stock and common units (the Separation) on a pro-rata basis (approximately 32.5 million shares of our common stock) on GGP's date of emergence from bankruptcy, November 9, 2010 (the Effective Date). Also as part of the Plan, approximately 5.25 million shares of our common stock and 8.0 million warrants were purchased by certain of the investors sponsoring the Plan for \$250.0 million. Unless the context otherwise requires, references to we, us and our refer to HHC and its subsidiaries.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Combination and Basis of Presentation

The accompanying financial statements for the year ended December 31, 2011 and the balance sheet as of December 31, 2010 reflects the consolidation of the HHC Businesses with HHC, as of such date, with all intercompany balances and transactions between the HHC Businesses eliminated. The accompanying combined financial statements for the periods prior to the Separation have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) on a carve-out basis from the consolidated financial statements of GGP using the historical results of operations and basis of the assets and liabilities of the transferred businesses and including allocations from GGP. This presentation incorporates the same principles used when preparing consolidated financial statements, including elimination of intercompany transactions. The presentation also includes the accounts of the HHC Businesses in which we have a controlling interest. The noncontrolling equity holders' share of the assets, liabilities and operations are reflected in noncontrolling interests within permanent equity. All intercompany balances and transactions between the HHC Businesses have been eliminated. Accordingly, the statements of income (loss) and comprehensive income (loss), equity and cash flows presented for the year ended December 31, 2010 reflect the aggregate of operations, changes in cash flows and equity on a carved-out basis for the period from January 1, 2010 through November 9, 2010 and on a consolidated basis for the period from November 10, 2010 through December 31, 2010.

We were formed for the purpose of receiving, via a tax-free distribution, certain assets and assuming certain liabilities of our predecessors pursuant to the Plan. We conducted no business and had no separate material assets or liabilities until the Separation was consummated. No previous historical financial statements for the HHC Businesses have been prepared and, accordingly, our combined financial statements for periods prior to November 9, 2010 are derived from the books and records of GGP and were carved-out from GGP at a carrying value reflective of the historical cost in GGP records. Our historical financial results reflect allocations for certain corporate expenses which include, but are not limited to, costs related to property management, human resources, security, payroll and benefits, legal, corporate communications, information services and restructuring and reorganizations. Costs of the services, which were approximately \$8.4 million and \$9.9 million for 2010 and

Table of Contents**THE HOWARD HUGHES CORPORATION****NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS**

2009, respectively that were allocated or charged to us were based on either actual costs incurred or a proportion of costs estimated to be applicable to us based on a number of factors, most significantly our percentage of GGP's adjusted revenue and assets and the number of properties. We believe these allocations are reasonable; however, these results do not reflect what our expenses would have been had we been operating as a separate, stand-alone public company. In addition, the HHC Businesses were operated as subsidiaries of GGP, which operates as a real estate investment trust (REIT). We operate as a taxable corporation. The carved out combined financial information included in the 2010 and the 2009 financial statements are not indicative of the results of operations, financial position or cash flows that would have been obtained if we had been an independent, stand-alone entity during the periods shown or of our future performance as an independent, stand-alone entity.

On July 1, 2011, we acquired our partner's economic interest in TWPC Holdings, L.P., (The Woodlands Commercial), The Woodlands Operating Company, L.P. (The Woodlands Operating) and The Woodlands Land Development Company, L.P. (The Woodlands MPC), and together with The Woodlands Commercial and The Woodlands Operating, (The Woodlands), located near Houston, Texas. As a result of the acquisition, we now consolidate The Woodlands' operations in our consolidated financial statements. Prior to such acquisition, we accounted for The Woodlands using the equity method.

In 2011, certain amounts in the December 31, 2010 consolidated balance sheet were reclassified to conform to the current period presentation. We reclassified our Municipal Utility Districts receivables of \$28.1 million to a separate line item from prepaid expenses and other assets. We also reclassified the cost of in-place leases of \$6.1 million from buildings and equipment as well as the related in-place lease accumulated amortization of \$4.5 million from accumulated depreciation to prepaid expenses and other assets.

Management has evaluated all material events occurring subsequent to the date of the consolidated financial statements up to the date and time this Annual Report is filed.

Investment in Real Estate

Real estate assets are stated at cost less any provisions for impairments. Construction and improvement costs incurred in connection with the development of new properties or the redevelopment of existing properties are capitalized. Real estate taxes and interest costs incurred during development and construction periods are also capitalized. Capitalized interest costs are based on qualified expenditures and interest rates in place during the construction period.

Pre-development costs, that generally include legal and professional fees and other directly-related third-party costs associated with specific development properties, are capitalized as part of the property being developed. In the event that management no longer has the ability or intent to complete a development, the costs previously capitalized are expensed (see also our impairment policies below).

Tenant improvements relating to our operating assets, either paid directly or in the form of construction allowances paid to tenants, are capitalized and depreciated over the shorter of their economic lives or the lease term. Maintenance and repairs are charged to expense when incurred. Expenditures for significant improvements are capitalized.

Depreciation or amortization expense is computed using the straight-line method based upon the following estimated useful lives:

Asset Type	Years
Buildings and improvements	40-45
Equipment, tenant improvements and fixtures	5-10

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

Acquisitions of Properties

We account for business combinations in accordance with Accounting Standards Codification (ASC) 805, Business Combinations. The acquisition method of accounting requires that assets acquired and liabilities assumed be recorded at their fair values on the date of a business combination. Our consolidated financial statements and results of operations reflect an acquired business from the completion date of an acquisition. On July 1, 2011, we completed the acquisition of The Woodlands (See Note 3).

Investments in Real Estate Affiliates

We account for investments in joint ventures where we own a non-controlling participating interest using the equity method and investments in joint ventures where we have virtually no influence on the joint venture s operating and financial policies, on the cost method. Under the equity method, the cost of our investment is adjusted for our share of the equity in earnings (losses) of such Real Estate Affiliates from the date of acquisition and reduced by distributions received. Generally, the operating agreements with respect to our Real Estate Affiliates provide that assets, liabilities and funding obligations are shared in accordance with our ownership percentages. We generally also share in the profit and losses, cash flows and other matters relating to our Real Estate Affiliates in accordance with our respective ownership percentages. Differences between the carrying amount of our investment in the Real Estate Affiliates and our share of the underlying equity of such Real Estate Affiliates are amortized over lives ranging from five to forty-five years. For cost method investments, we recognize earnings to the extent of distributions received from such investments.

Impairment

The generally accepted accounting principles related to accounting for the impairment or disposal of long-lived assets require that if impairment indicators exist and the undiscounted cash flows expected to be generated by an asset are less than its carrying amount, an impairment provision should be recorded to write down the carrying amount of such asset to its fair value. The impairment analysis does not consider the timing of future cash flows and whether the asset is expected to earn an above or below market rate of return. We review our real estate assets (including those held by our Real Estate Affiliates) for potential impairment indicators whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

Impairment indicators for our assets, regions or projects within our Master Planned Communities segment are assessed separately and include, but are not limited to, significant decreases in sales pace or average selling prices, significant increases in expected land development and construction costs or cancellation rates, and projected losses on expected future sales. Master Planned Community assets have extended life cycles that may last 20 to 40 years and have few long-term contractual cash flows. Further for sale portions of master planned community assets generally have minimal to no residual values because of their liquidating characteristics. Master planned community development periods often occur through several economic cycles. Subjective factors such as the expected timing of property development and sales, optimal development density and sales strategy impact the timing and amount of expected future cash flows and fair value.

Impairment indicators for our Operating Assets segment are assessed separately for each property and include, but are not limited to, significant decreases in net operating income, significant decreases in occupancy or low occupancy and significant net operating losses.

Impairment indicators for our Strategic Developments segment are assessed separately for each property and include, but are not limited to, significant decreases in comparable property sale prices.

Table of Contents

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

Impairment indicators for pre-development costs, which are typically costs incurred during the beginning stages of a potential development, and developments in progress are assessed by project and include, but are not limited to, significant changes in projected completion dates, revenues or cash flows, development costs, market factors and sustainability of development projects.

If an indicator of potential impairment exists, the asset is tested for recoverability by comparing its carrying amount to the estimated future undiscounted cash flow. The cash flow estimates used both for determining recoverability and estimating fair value are inherently judgmental and reflect current and projected trends in rental, occupancy, pricing, development costs, sales pace and capitalization rates, and estimated holding periods for the applicable assets. Although the estimated fair value of certain assets may be exceeded by the carrying amount, a real estate asset is only considered to be impaired when its carrying amount is not expected to be recovered through estimated future undiscounted cash flows. To the extent an impairment provision is necessary, the excess of the carrying amount of the asset over its estimated fair value is expensed to operations. In addition, the impairment provision is allocated proportionately to adjust the carrying amount of the asset. The adjusted carrying amount, which represents the new cost basis of the asset, is depreciated over the remaining useful life of the asset or, for Master Planned Communities, is expensed as a cost of sales when land is sold. Assets that have been impaired will in the future have lower depreciation and cost of sale expenses, but the impairment will have no impact on cash flow.

With respect to our investment in the Real Estate Affiliates, a series of operating losses of an asset or other factors may indicate that a decrease in value has occurred which is other-than-temporary. The investment in each of the Real Estate Affiliates is evaluated periodically and as deemed necessary for recoverability and valuation declines that are other-than-temporary. If the decrease in value of our investment in a Real Estate Affiliate is deemed to be other-than-temporary, our investment in such Real Estate Affiliate is reduced to its estimated fair value. Accordingly, in addition to the property-specific impairment analysis that we perform on the investment properties, land held for development and sale and developments in progress owned by such joint ventures (as part of our investment property impairment process described above), we also considered the ownership and distribution preferences and limitations and rights to sell and repurchase our ownership interests.

Cash and Cash Equivalents

Highly-liquid investments with maturities at dates of purchase of three months or less are classified as cash equivalents.

Notes Receivable

Notes receivable includes amounts due from builders for previous sold lots, primarily at our Maryland master planned community and a note from GGP received at the Effective Date in connection with the Plan. This GGP note, also known as the Arizona II lease, has a balance of \$25.2 million as of December 31, 2011. The GGP note carries an interest rate of 4.41%, and cash payments under the note are approximately \$6.9 million per year through the end of 2015.

Deferred Expenses

Deferred expenses consist principally of financing fees and leasing costs and commissions. Deferred financing fees are amortized to interest expense using the effective interest method (or other methods which approximate the effective interest method) over the terms of the respective financing agreements. Deferred leasing costs and commissions are amortized using the straight-line method over periods that approximate the related lease terms.

Table of Contents

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

Deferred expenses in our consolidated balance sheets are shown at cost, net of accumulated amortization, of \$5.7 million as of December 31, 2011 and \$6.6 million as of December 31, 2010.

Sponsor and Management Warrants

On the Effective Date, we issued warrants to purchase 8.0 million shares of our common stock to certain of the sponsors of the Plan (the Sponsors Warrants) with an estimated initial value of approximately \$69.5 million. The initial exercise price for the warrants of \$50.00 per share is subject to adjustment for future stock dividends, splits or reverse splits of our common stock or certain other events. Approximately 6.1 million warrants are currently exercisable without restriction and approximately 1.9 million warrants are exercisable upon 90 days prior notice for the first 6.5 years after issuance and are subsequently exercisable without notice any time thereafter. The Sponsors Warrants expire on November 9, 2017.

In November 2010 and February 2011, we entered into certain warrant agreements (the Management Warrants) with David R. Weinreb, our Chief Executive Officer, Grant Herlitz, our President, and Andrew C. Richardson, our Chief Financial Officer, in each case prior to his appointment to such position. The Management Warrants representing 2,862,687 underlying shares were issued pursuant to such agreements at fair value in exchange for a combined total of approximately \$19.0 million in cash from such executives at the commencement of their respective employment. Mr. Weinreb and Mr. Herlitz's warrants have exercise prices of \$42.23 per share and Mr. Richardson's warrant has an exercise price of \$54.50 per share. Generally, the Management Warrants become exercisable in November 2016 and expire by February 2018.

The estimated \$102.6 million fair value for the Sponsors Warrants and estimated \$25.2 million fair value for the Management Warrants as of December 31, 2011, have been recorded as a liability because the holders of these warrants could require HHC to settle such warrants in cash upon a change of control. The fair values were estimated using an option pricing model and level 3 inputs due to the unavailability of comparable market data. Changes in the fair value of the Sponsors Warrants and the Management Warrants are recognized in earnings and, accordingly, warrant liability gains reflecting decreases in value of approximately \$101.6 million were recognized for the year ended December 31, 2011.

Revenue Recognition and Related Matters

Rental Revenue

Operating property revenue consists of minimum rent, percentage rent in lieu of fixed minimum rent, overage rent and tenant recoveries.

Minimum rent revenues are recognized on a straight-line basis over the terms of the related leases and include base minimum rent and percentage rent in lieu of fixed minimum rent. Percentage rent in lieu of fixed minimum rent recognized from tenants for the years ended December 31, 2011, 2010 and 2009 was \$3.9 million, \$3.9 million and \$3.0 million, respectively, and is included in minimum rents in our financial statements. Minimum rent revenues also include amortization related to above and below-market tenant leases on acquired properties.

Straight-line rent receivables, which represent the current net cumulative rents recognized prior to when billed and collectible as provided by the terms of the leases, of \$3.3 million as of December 31, 2011 and \$2.0 million as of December 31, 2010, are included in Accounts receivable, net in our financial statements.

Overage rent is recognized on an accrual basis once tenant sales exceed contractual thresholds contained in the lease and is calculated by multiplying the tenant sales in excess of the minimum amount by a percentage defined

Table of Contents**THE HOWARD HUGHES CORPORATION****NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS**

in the lease. Overage rent of approximately \$3.0 million, \$3.4 million, and \$2.7 million for 2011, 2010 and 2009, respectively is included in other rental and property revenues.

Recoveries from tenants are stipulated in the leases and are generally computed based upon a formula related to real estate taxes, insurance and other real estate operating expenses and are generally recognized as revenues in the period the related costs are incurred.

We provide an allowance for doubtful accounts against the portion of accounts receivable, including straight-line rents, which is estimated to be uncollectible. Such allowances are reviewed periodically based on our recovery experience. This analysis considers the long-term nature of our leases, as a certain portion of the straight-line rent currently recognizable will not be billed to the tenant until future periods. Our experience relative to unbilled deferred rent receivable is that a certain portion of the amounts recorded as straight-line rental revenue are never collected from (or billed to) tenants due to early lease terminations. For that portion of the otherwise recognizable deferred rent that is not deemed to be probable of collection, an allowance for doubtful accounts has been provided. Accounts receivable in our consolidated and combined balance sheets are shown net of an allowance for doubtful accounts of \$14.4 million as of December 31, 2011 and \$16.3 million as of December 31, 2010. The following table summarizes the changes in allowance for doubtful accounts:

	2011	2010 (In thousands)	2009
Balance as of January 1	\$ 16,277	\$ 16,812	\$ 21,712
Provision*		1,782	2,539
Write-offs	(1,829)	(2,317)	(7,439)
Balance as of December 31	\$ 14,448	\$ 16,277	\$ 16,812

* Collection of significantly aged receivables previously reserved resulted in no provision in 2011.

Resort and Conference Center Revenue

Revenue for the resort and conference center is recognized as services are performed and primarily represents room rentals and food and beverage sales.

Land and Condominium Sales Revenue

Revenues from land sales are recognized using the full accrual method if various criteria provided by GAAP relating to the terms of the transactions and our subsequent involvement with the land sold are met. Revenues relating to transactions that do not meet the established criteria are deferred and recognized when the criteria are met or using the installment or cost recovery methods. Revenue related to builder participation rights is recognized when collected.

Cost of land sales is determined as a specified percentage of land sales revenues recognized for each community development project. These cost ratios are based on actual costs incurred and estimates of future development costs and sales revenues to completion of each project. The ratios are reviewed regularly and revised for changes in sales and cost estimates or development plans. Significant changes in these estimates or development plans, whether due to changes in market conditions or other factors, could result in changes to the cost ratio used for a specific project. For certain parcels of land, however, the specific identification method is used to determine the cost of sales including acquired parcels that we do not intend to develop or for which development was complete at the date of acquisition. Expenditures in our MPC business to develop land for sale are classified as an

Table of Contents

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

operating activity under real estate acquisition and development expenditures in our consolidated and combined statements of cash flows.

Nouvelle at Natick is a 215 unit residential condominium project, located in Natick, Massachusetts. Pursuant to the Plan, only the unsold units at Nouvelle at Natick on the Effective Date were distributed to us and no deferred revenue or sales proceeds from unit closings prior to the Effective Date were allocated to us. As of December 31, 2011, two units were unsold at Nouvelle at Natick. Income related to unit sales subsequent to the Effective Date is accounted for on a unit-by-unit full accrual method.

Income Taxes

Deferred income taxes are accounted for using the asset and liability method. Deferred tax assets and liabilities are recognized for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the differences between the financial reporting and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Deferred income taxes also reflect the impact of operating loss and tax credit carryforwards. A valuation allowance is provided if we believe it is more likely than not that all or some portion of the deferred tax asset will not be realized. An increase or decrease in the valuation allowance that results from a change in circumstances, and which causes a change in our judgment about the realizability of the related deferred tax asset, is included in the deferred tax provision. There are events or circumstances that could occur in the future that could limit the benefit of deferred tax assets. In addition, we recognize and report interest and penalties, if necessary, related to uncertain tax positions within our provision for income tax expense.

In many of our Master Planned Communities, gains with respect to sales of land for commercial use are reported for tax purposes on the percentage of completion method. Under the percentage of completion method, a gain is recognized for tax purposes as costs are incurred in satisfaction of contractual obligations. The method used for determining the percentage complete for income tax purposes is different than that used for financial statement purposes. In addition, gains with respect to sales of land for single family residences are reported for tax purposes under the completed contract method. Under the completed contract method, a gain is recognized for tax purposes when 95% of the costs of our contractual obligations are incurred or the contractual obligation is transferred.

Earnings Per Share

Basic earnings per share (EPS) is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding. Diluted EPS is computed after adjusting the numerator and denominator of the basic EPS computation for the effects of all potentially dilutive common shares. The dilutive effect of options and nonvested stock issued under stock-based compensation plans is computed using the treasury stock method. The dilutive effect of the Sponsors Warrants and Management Warrants is computed using the if-converted method. Gains associated with the Sponsors Warrants and Management Warrants are excluded from the numerator in computing diluted earnings per share because inclusion of such gains in the computation would be anti-dilutive.

In connection with the Separation on November 9, 2010, GGP distributed to its stockholders 32.5 million shares of our common stock and approximately 5.25 million shares were purchased by certain investors sponsoring the Plan. This share amount is used in the calculation of basic and diluted EPS for the year ended December 31, 2010 and 2009 as our common stock was not traded prior to November 9, 2010 and there were no dilutive securities in the prior periods.

Table of Contents**THE HOWARD HUGHES CORPORATION****NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS**

Information related to our EPS calculations is summarized as follows:

	Years Ended December 31,		
	2011	2010	2009
