Dear CME Member and Class B-1 Shareholder,

Thank you for the support you've shown during my first term on the CME Group Board. I'm requesting your vote to continue my work as your Class B-1 Share Director. As an active trader with five CME Group exchange memberships and 12,030 shares of CME Group Class A common stock, you can be sure my interests are well aligned with yours. My 33 years of membership and experience in many aspects of our industry should give you confidence that I have the knowledge and skills to be effective as your elected CME Group Board Director.

As promised, I've remained accessible and open to the input of our membership during this first term. I've had the opportunity to forge constructive working relationships with a broad cross-section of CME Group employees, Management Team members, and fellow Board Members. Our board has entrusted me with the responsibility of Audit Committee membership (where I am the sole industry director) to help assure our board and shareholders that reported financials accurately reflect the business results of CME Group.

A weak economy, PE contraction, regulatory changes, potential tax changes, and the failure of MF Global have presented CME Group with far more challenges than we would have hoped for over the last three years. Challenges remain. Yet I have been fortunate to have been able to support our Management Team in many successful initiatives. At the same time, I have not shied away from expressing different perspectives and raising questions when it's been important to do so. With first-term experience under my belt, I expect to be even more effective in a second term. I welcome your comments and look forward to working with you to secure our future success as members and shareholders of CME Group.

*Letter to Shareholders:*

March 14<sup>th</sup>, 2012

My word is my bond. For over a century, these five simple words have served as the tie that holds the exchange together. Trust and integrity are the backbone of this organization and no one knows that better than Jeff Bernacchi. Since 1979, Jeff has been an active member of the Chicago Mercantile Exchange. From his first exchange job as a Heinold Commodities runner, Jeff has never shied away from trying to make a difference. He was a pioneer in trading the Certificate of Deposit and Eurodollar contracts and one of the first E-Mini S&P traders. An early adopter of trading floor technology, he continues to actively trade our markets from his office in the CBOT building.

Jeff gave the membership his word when he agreed to serve as our Class B-1 director. As our Class B-1 director, he continuously raised awareness of issues relating to the membership community. His commitment to the shareholders was clear from the start when he chose to serve on CME Group's very demanding audit committee. We believe Jeff has increased a positive dialogue between members and management. In addition, he consistently encouraged exchange management to listen, learn, and utilize our vast pool of market expertise.

We the undersigned are longtime members of CME and victims of the MF Global bankruptcy. During that stressful time one individual was regularly available to listen, connect us with the proper exchange resources, and relay our concerns back to exchange management. This trader's gold badge has the letters JMB - Jeff Bernacchi. Jeff did not clear MF Global, but he still made himself available to us each day because of the care, concern and responsibility he feels towards the CME and its membership. Jeff provided us constant assistance during a time of crisis and followed the creed of this exchange, my word is my bond, for which we all should be grateful.

I ask you to join us in reelecting Jeff Bernacchi to the Board of Directors of CME Group.

I'm Jeff Bernacchi. In 2009, I asked you, the members of the CME, to support me as a fresh voice on the CME Group, Board of Directors. You responded, and charged me with a responsibility that I've taken to heart. I have worked hard, and brought to our Board the perspective of a successful businessman, multiple membership owner, active trader, and shareholder at the corporate equity member level. I have actively shared our perspectives and not shied away from raising good questions when it's been important to do so.

As the economy has endured a multi-year de-leveraging cycle, we have not been immune to fallout. Unfortunately, the failure of MF Global is an event we don't want to see repeated. We are challenged to increase the level of trust in the safety of our markets. By listening to the concerns and needs of our members and market users, we can, and will, earn and increase this trust. This is not the first difficult period we've emerged from, improved and stronger. We will do so again.

*Letter to Shareholders:*

GARY THOMAS LARK

(GTX)

April, 2012

Dear Fellow Member

I am a candidate for the CME Group B-1 Director in the May 2012 election. This letter is a humble request for your support and your vote. My pledge is to work for the betterment of the entire Exchange, bringing the perspective of an active member of the trading floor community, along with extensive and varied experience in the commodity futures industry.

I have had the opportunity to participate in CME's growth for nearly forty years. My first employment at CME was an interim job as a board marker. I fully understand that my success has been tied to the Exchange's success and that the Exchange's success is attributable in large measure to its embracing change, innovation and technology. It has advanced from chalk to the luminescent Ferranti-Packard boards to CME Globex's unimaginable bandwidth and distribution. Over this time I have also seen new products and the increases in trade volumes and open interest. I wholly supported becoming a publicly-traded entity and then joining with the CBOT and NYMEX efforts which have significantly boosted overall competitive strength. With our growth ever larger challenges are presented.

It is impossible to cogently speak to the challenges facing our institution in one election letter. However, I can express a strong belief that those challenges are best confronted with the participation of an active member of the B-Share trading community. A community that provides vital risk-taking liquidity and essential customer execution services. A member of the CME Group board of directors who has known the future's industry looking out from the pits and in from the corporate meeting rooms. A board member who has used our markets to hedge risk as well as to assume it. A board member who can bring to the table a measured voice and the viewpoint of a community integral to the Exchange's continued success.

Those who know me, know my independence and that I value the informed opinions of my fellow members. I ask for your consideration and your support. A short bio is provided below.

Thank you and best regards,

Gary T. Lark

BIO: After graduating from the University of Illinois with an eye toward law school, I took an interim job as a CME board marker. I was immediately absorbed by the energy of the trading floor and interim became permanent. I clerked for a bit and then spent a few years as a livestock market news reporter for the Knight-Ridder news organization. From their assistant bureau chief I became a market analyst and CME member with Smith Barney, then livestock risk manager with Continental Grain Company. This led to a position as vice-president in charge of risk management with Granada Corporation, at the time the largest cattle feeding/raising entity in the world. In time I returned to the trading floor as an independent trader with a commercial book. In the mid-to-late 80's I directed the cash and futures livestock profit center for Drexel Burnham Lambert. I departed some months before they succumbed to their larger financial struggles. Since 1990, I have been solely an independent trader and market advisor/executing broker for independent and multi-national commercial users of futures markets. My extensive CME committee service includes Business Conduct and Probable Cause.

*Letter to Shareholders:*

Dear Fellow Shareholders,

I am confident that the future of CME Group holds tremendous opportunity for all of us as individuals and collectively to thrive.

However, capitalizing on tomorrow's opportunities means facing the challenges of today. I believe we have to be both realistic and optimistic. And we have to accept that acting boldly in the best interest of everyone is the best way for each of us to prosper.

Please take a moment to review my approach, as your CME Group Class B-1 Board Nominee, for moving us forward into a more secure and lucrative future:

- 1) **Increasing Shareholder Value: A Two-Pronged Strategy**
  - a. **Overall Class A and B-Share Value:** Adhere more stringently to a core business model that will drive the volume of contracts traded and consequently drive up revenue. This should lead to an increase in the value of both Class A Shares and B Shares.
  - b. **Individual B-1 Shareholders/CME Members:** Become more creative and aggressive in looking for ways to increase demand for our trading memberships. For example, we could generate better dialogue between members who want to lease their memberships and those in the CME community who have the ability to help them.
- 2) **Combating Competitive Threats: Playing Offense and Defense**
  - a. **Increased Regulation:** Become hyper-vigilant in understanding and strictly adhering to new regulatory requirements steering clear of violations and ensuring daily productivity is uninterrupted.
  - b. **Competing Exchanges:** Work to maintain CME Group's status as the leading and most diverse derivatives marketplace by understanding what rival exchanges do better and rising to the challenge to create a superior environment for investors and customers.
- 3) **Bridging the Open Outcry/E-Trade Gap: A Focus on Our Collective Future** Acknowledge the critical role of open outcry within the CME Group community, and be realistic about the fact that volume is moving to the screen. We cannot stop this. Rather, we should recognize that profitability for every CME stakeholder lies in quickly embracing and capitalizing upon the rapidly evolving electronic future of the exchange.
- 4) **Restoring Market Confidence: Communicating with Customers** Establish proactive, consistent dialogue with customers. Assure them that specific measures have been put in place to increase transparency and maintain the integrity of segregated funds. Once we bring customers back to the table, liquidity and confidence will improve.
- 5) **Advocating for Diverse Board Representation: A Voice for Everyone** Make sure that the Principal Trading Group segment of the exchange, which is responsible for driving a significant percentage of the exchange's volume, has a voice on the Board. Currently, independent and open outcry traders have a voice. PTG does not. In the interests of fairness and profitability, this important constituency must have a place at the table.

My ideas have been shaped by extensive conversations with you coupled with my deep experience as both a floor and electronic trader for almost three decades.

I began my trading career in 1893, and became a member of the exchange in 1984. I founded GMS Trading Corp in 1985, trading actively on the floor, and in 2003 became an early practitioner of incorporating electronic trading as an alternative venue for my trading activities. I also was a partner with Mercury Marketplace LLC from 2008 to 2010.

Since 2010, I have served as a managing member and partner of Geneva Trading USA, LLC, a 106-J corporate equity member firm. As a partner with Geneva Trading, I continue to use both electronic and floor venues to support Geneva's business. I also have served on numerous functional committees at the Exchange

If elected to be your Class B-1 Board member, I will continue to ask for your ideas, listen to your ideas and convey them to the Board. And I will welcome open, honest and frequent conversation with you about our future as shareholders and my role as a fiduciary of one of the most vaunted and historic exchanges in the world.

Warm Regards,

Gerard Shannon

I am confident that the future of CME Group holds tremendous opportunity for all of us as individuals and collectively to thrive.

However, capitalizing on tomorrow's opportunities means facing the challenges of today. I believe we have to be both realistic and optimistic. And we have to accept that acting boldly in the best interest of everyone is the best way for each of us to prosper.

Please take a moment to review my approach, as your CME Group Class B-1 Board Nominee, for moving us forward into a more secure and lucrative future:

I remember that day in 2000 like it was yesterday.

## Edgar Filing: CME GROUP INC. - Form DEFA14A

(TITLE CARD: Gerard Shannon: 28 Years as a Floor and Electronic Trader)

CME leaders Jack Sandner and Leo Melamed called all the floor traders together to talk about the question on all of our minds: would electronic trading mean the end of open outcry and, consequently, the end of our careers?

(TITLE CARD: Combating Competitive Threats)

I recall that Jack and Leo said this moment was an inflection point for both the trading community and the CME. They urged us to embrace it, not be afraid of it. Twelve years later, as I look back on the strategic decisions I made to adapt, I am extremely grateful for their advice. I also believe it is still 100% relevant.

(TITLE CARD: Bridging the Open Outcry/E-Trade Gap. Advocating for Diverse Representation.)

I believe that no one who accepts the challenges of this exciting new era is going to be left behind. And everyone who embraces change should be able to share in the continued growth and prosperity that lies ahead for the exchange.

(TITLE CARD: Restoring Market Confidence. Increasing Shareholder Value.)

I believe this. And as a member of the CME Group B-1 Board of Directors, I will work to make it happen. (TITLE CARD: Gerard Shannon. For An Open Exchange.)

Dear Fellow IMM Members and Class B-2 shareholders:

As a previous sitting board member (1997-2003), I am well aware of the commitment demanded of a CME Group board member. It is with this knowledge that I enter the current election, seeking your support. The wide range of roles I have assumed over the last 35 years as an active member of CME has given me a broad perspective on what is really required to serve the shareholders, members and clients of CME Group Inc. I have been a floor trader, risk manager, CTA, order filler, committee member and chair of nominating and various disciplinary and strategic planning committees.

I would like to return as a board member of CME Group for the following reasons. Based on my extensive background in the realm of global macro trading, I bring an in depth knowledge of trading in financial instruments, foreign currencies, global equities and commodities. My experience as a foreign exchange arbitrageur has provided me with a strong working knowledge of currency cash markets. I have attained a measure of expertise in the global bond markets and the prime broker system through my experience as a portfolio manager at a New York hedge fund. I also bring regulatory experience from sitting on a CFTC oversight committee from 1992 to 1997. I believe this experience in particular, has provided me with an inside, practical understanding of CFTC decision-making as well as the ability to analyze problems that occur when regulation fails. I am confident this insight would serve the CME Group board well in sorting through the maze of regulatory issues that are certain to arise in the post Dodd-Frank era.

As the 2007-2008 economic crises fades, the near future is going to present CME Group with many new opportunities and challenges. With the enhanced capital requirements the banking industry is going to have to meet, our members and market makers less restrictive cost of capital should provide them with a great advantage. In addition, I believe the anticipated winding down of the Federal Reserve's zero interest rate policy will increase the need for liquid and transparent hedging mechanisms leading to increased volume in CME Group's interest rate contracts. Furthermore, as Terry Duffy, said in a February 16, 2012 interview on CNBC, he believes the foreign currency markets offer CME Group a great growth opportunity. I concur with this vision and believe I have a unique skill set to bring this growth to fruition.

We have many opportunities and challenges ahead of us and I believe I have the knowledge and vision to help CME Group make the most of these opportunities and resolve the simultaneous challenges.

I would appreciate your vote in the upcoming IMM Class B-2 director election. Thank you for your consideration.

Sincerely,

Yra G. Harris

Dear Fellow Class B-2 Shareholder:

P: 312.604.6114  
F:312.604.6118

Once again, I seek your support and vote for the election to the Board of Directors of CME Group Inc.

I have had the privileged opportunity to serve you for the past nine years as your representative on the Board of Directors. This past year has been challenging with the unprecedented financial turmoil in the equity and credit markets, regulatory and legislative issues, and the collapse of MF Global.

As we enter a new year, many of the global economic problems are still working their way through the system. As we go forward, I feel that we are well positioned to be the product of choice for institutions, speculators, funds and investors. Our diverse product mix will allow CME Group to lead the way when the economy recovers.

Now is not the time to rest on our past laurels. It is the time for us to take stock of what we have accomplished and build from there. We need to address the following issues:

Proprietary Group Trading- We need to continue to promote our ability to grow organically. Proprietary Trading Groups accounted for a lot of the exchange's liquidity the past few years, but more growth is still needed.

Funds: Hedge and Mutual Funds- Market to hedge and mutual funds our transparency and central counter party clearing to restore confidence in the financial markets to their clients.

Global Positioning- Through our Strategic Partnerships around the world we are in a strong position to take advantage of a new wave of customers and international products. In 2011, we reached record levels of non-U.S. electronic trading revenues estimated at more than \$550 million. (See attachment "Creating Global Demand").

Legislative Issues- More than ever, it is important to tell our story to Congress. I have served as Vice-Chairman of the CME PAC and have hosted many of the congressional visits through the past years. The transaction tax, the regulatory agencies mergers, the allegations of speculators causing volatility and the threat of losing 60/40 tax treatment will be more pressing than ever before.

During my service on the Board, I always attempted to be open-minded, logical, rational, and above all fair. My previous terms on the Board and many various committees, have given me the experience and leadership qualities required for the position (see attached resume). I pledge to you my time, dedication, and commitment to serving this exchange. I will continue to live in the city during the week for the term of the directorship. This will make me accessible to you, the shareholder, at any time of the day or night. I can be reached by phone at 312-604-6114 or cell at 312-714-5907.

Sincerely,

David J. Wescott (COT)

**(CREATION OF GLOBAL DEMAND FOR CME**

**GROUP PRODUCTS AND MEMBERSHIP**

**INTERESTS)**

1. Benefits of Membership- CME Group Website lists information regarding the benefits of CME Membership. Exchange members benefit substantially from reduced transaction fees when trading products within their membership division. The essence of one page in particular can be realized by the following example;

Equity owners of a B-2 trading right, who trade 250 Round Turns in the CME Eurodollars on the CME® Globex® electronic trading platform could save approximately \$120,000 per year in reduced fees. Leasing an IMM (B-2) membership with the same volume would result in an annual savings of approximately \$90,000.

2. International Incentive Program - This initiative will continue to attract new customers to CME's products and membership benefits allowing us to effectively compete with International futures exchanges.

3. In addition to its international incentive programs, CME Group undertakes other initiatives designed to drive global growth and new demand for CME Group products and memberships outside of the U.S., including the following accomplishments during 2011:

Reached record levels of non-U.S. electronic trading revenues estimated at more

than \$550 million.

Completed the restructuring of its Products and Services Division and it now has key leaders in place in each business line; in its global sales function and in its Europe and Asia offices.

Enhanced its global partnerships with BM&FBOVESPA, Bursa Malaysia and the Mexican Derivatives Exchange.

Launched CME Clearing Europe which now provides clearing for more than 170 different energy, commodity, metal and freight contracts. In January 2012, CME Group experienced a significant increase in cleared volumes, clearing approximately 75 percent of the activity that was cleared for the entire year in 2011.

4. In order to attract more participants to our markets, the Board reduced the A Share requirements for clearing fees. Over the years the requirement of A Shares for clearing fee purposes has been reduced from 72,000 to 8,000. The requirement for membership interest requirements have remained the same- requiring all seven memberships (B-Shares) for clearing. This reduction in A Share requirements make the bar for entry that much more affordable to prospective clearing members and has put capital back into our current proprietary clearing members businesses, which in time should create higher trading volume, thus spawning demand.

5. The Board of Directors created a Family of Funds Membership Class for Hedge Funds. Again, Family of Funds creates a market for CME memberships. This requires that funds have one additional membership for every five of their funds within their group.

The initiatives listed here provide a member of CME the opportunity to participate in decreased transaction fees, thus resulting in an increase of trading volume and shareholder value.

Dear IMM Member/B-2 Shareholder,

I have had the privilege of being a business partner with Dave Wescott for over 20 years. I can personally testify that his moral and business ethics are above reproach. He has tremendous experience at the Board level and has tirelessly chaired and served on many of our most influential committees.

I, along with you, have witnessed the dedication and commitment that Dave has to the Chicago Mercantile Exchange. Dave is willing to reach out to all members to discuss any and all topics no matter how divisive.

Dave is a Director who speaks with a strong clear voice; I believe that he has made a positive contribution at the Board level and can be counted on to put the shareholders first.

Dave has been an equity member of CME for over 30 years. He has been personally responsible for guaranteeing a number of proprietary traders and has helped to finance the purchases of exchange memberships. Currently, Dave is a Managing Partner of the DWG Futures, LLC.

I hope you agree with me that we could not find a better representative for our interests. Please join me in supporting Dave in the upcoming election. If you have any questions or need additional information, please feel free to contact me. If you would like to meet with Dave, I would be happy to arrange a meeting at your convenience.

Thank you for your support in this matter.

Sincerely,

Dear IMM Member/B-2 Shareholder,

In times of upheaval and uncertainty it is imperative to have solid, experienced leadership with forward-looking vision, influence, and the ability to execute initiatives crucial to our business. An effective leader is unafraid to voice a dissenting opinion and fight for the rights of those he represents. In the years I have known him, David J. Wescott has continuously proven himself to be such a leader with his incredible dedication, tireless hard work, industry insight and fierce loyalty to his clients, constituents, employees, and friends.

The collapse of MF Global has affected all of us on multiple levels and shaken confidence in an industry known for its safeguards. However, Dave's ability to maintain the confidence of his clients and employees in the face of turmoil speaks to the remarkable leadership within the DWG Clearing Firm. During this time I watched as those within DWG rapidly mobilized to ensure their traders would be able to trade despite not knowing the future of their own firm. Today I see Dave's loyalty to his employees reflected back to him via the fact that none of his employees moved to competing firms. Strength in the midst of chaos, garnering support among employees and peers in order to get the job done, and the resourcefulness to overcome unforeseen obstacles are vital characteristics of a leader. I believe that David has demonstrated these qualities time and time again throughout his tenure at the CME.

David has never been in favor of the status quo; his capacity for reinvention and constant drive to innovate, combined with his capability to anticipate trends, is an invaluable asset to the future of our exchange.

We all know how quickly our business moves. Yesterday's losses may be tomorrow's gains if we make the right decisions today. I have absolute confidence that David's leadership is a step toward a prosperous future. I hope you will join me in supporting David Wescott in his bid to serve as our Class B-2 director the CME BOD by voting for his re-election.

This reduction in A Share requirements make the bar for entry that much more affordable to prospective clearing members and has put capital back into our current proprietary clearing members businesses, which in time should create higher trading volume, thus spawning demand.

5. The Board of Directors created a Family of Funds Membership Class for Hedge Funds. Again, Family of Funds creates a market for CME memberships. This requires that funds have one additional membership for every five of their funds within their group.

The initiatives listed here provide a member of CME the opportunity to participate in decreased transaction fees, thus resulting in an increase of trading volume and shareholder value.

Dear IMM Member/B-2 Shareholder,

I have had the privilege of being a business partner with Dave Wescott for over 20 years. I can personally testify that his moral and business ethics are above reproach. He has tremendous experience at the Board level and has tirelessly chaired and served on many of our most influential committees.

I, along with you, have witnessed the dedication and commitment that Dave has to the Chicago Mercantile Exchange. Dave is willing to reach out to all members to discuss any and all topics no matter how divisive.

Dave is a Director who speaks with a strong clear voice; I believe that he has made a positive contribution at the Board level and can be counted on to put the shareholders first.

Dave has been an equity member of CME for over 30 years. He has been personally responsible for guaranteeing a number of proprietary traders and has helped to finance the purchases of exchange memberships. Currently, Dave is a Managing Partner of the DWG Futures, LLC.

I hope you agree with me that we could not find a better representative for our interests. Please join me in supporting Dave in the upcoming election. If you have any questions or need additional information, please feel free to contact me. If you would like to meet with Dave, I would be happy to arrange a meeting at your convenience.

Thank you for your support in this matter.

Sincerely,

Michael Dowd

Dear IMM Member/B-2 Shareholder,

In times of upheaval and uncertainty it is imperative to have solid, experienced leadership with forward-looking vision, influence, and the ability to execute initiatives crucial to our business. An effective leader is unafraid to voice a dissenting opinion and fight for the rights of those he represents. In the years I have known him, David J. Wescott has continuously proven himself to be such a leader with his incredible dedication, tireless hard work, industry insight and fierce loyalty to his clients, constituents, employees, and friends.

The collapse of MF Global has affected all of us on multiple levels and shaken confidence in an industry known for its safeguards. However, Dave's ability to maintain the confidence of his clients and employees in the face of turmoil speaks to the remarkable leadership within the DWG Clearing Firm. During this time I watched as those within DWG rapidly mobilized to ensure their traders would be able to trade despite not knowing the future of their own firm. Today I see Dave's loyalty to his employees reflected back to him via the fact that none of his employees moved to competing firms. Strength in the midst of chaos, garnering support among employees and peers in order to get the job done, and the resourcefulness to overcome unforeseen obstacles are vital characteristics of a leader. I believe that David has demonstrated these qualities time and time again throughout his tenure at the CME.

David has never been in favor of the status quo; his capacity for reinvention and constant drive to innovate, combined with his capability to anticipate trends, is an invaluable asset to the future of our exchange.

We all know how quickly our business moves. Yesterday's losses may be tomorrow's gains if we make the right decisions today. I have absolute confidence that David's leadership is a step toward a prosperous future. I hope you will join me in supporting David Wescott in his bid to serve as our Class B-2 director the CME BOD by voting for his re-election.

**Dear Fellow Class B-2 Shareholder:**

Once again, I seek your support and vote for the election to the Board of Directors of the CME Group Inc.

I have had the privileged opportunity to serve you for the past nine years as your representative on the Board of Directors. This past year has been challenging with the unprecedented financial turmoil in the equity and credit markets, regulatory and legislative issues, and the collapse of MF Global.

As we enter a new year, many of the global economic problems are still working their way through the system. As we go forward, I feel that we are well positioned to be the product of choice for institutions, speculators, funds and investors. Our diverse product mix, will allow CME Group to lead the way when the economy recovers.

Now is not the time to rest on our past laurels. It is the time for us to take stock of what we have accomplished and build from there. We need to address the following issues:

Proprietary Group Trading- We need to continue to promote our ability to grow organically. Proprietary Trading Groups accounted for a lot of the exchange's liquidity the past few years, but more growth is still needed.

Funds: Hedge and Mutual Funds- Market to hedge and mutual funds our transparency and central counter party clearing to restore confidence in the financial markets to their clients.

Global Positioning-Through our Strategic Partnerships around the world we are in a strong position to take advantage of a new wave of customers and international products. In 2011, we reached record levels of non-U.S. electronic trading revenues estimated at more than \$550 million. ([Click here to view Creating Global Demand](#) ).

Legislative Issues- More than ever, it is important to tell our story to Congress. I have served as Vice-Chairman of the CME PAC and have hosted many of the congressional visits through the past years. The transaction tax, the regulatory agencies mergers, the allegations of speculators causing volatility and the threat of losing 60/40 tax treatment will be more pressing than ever before.

During my service on the Board, I always attempted to be open-minded, logical, rational, and above all fair. My previous terms on the Board and many various committees, have given me the experience and leadership qualities required for the position (see attached resume). I pledge to you my time, dedication, and commitment to serving this exchange. I will continue to live in the city during the week for the term of the directorship. This will make me accessible to you, the shareholder, at any time of the day or night. I can be reached by phone at 312-604-6114 or cell at 312-714-5907.

Sincerely,

David J. Wescott (COT)

**(CREATION OF GLOBAL DEMAND FOR  
CME GROUP PRODUCTS AND  
MEMBERSHIP INTERESTS)**

1. **Benefits of Membership-** CME Group Website lists information regarding the benefits of CME Membership. Exchange members benefit substantially from reduced transaction fees when trading products within their membership division. The essence of one page in particular can be realized by the following example:  
-Equity owners of a B-2 trading right, who trade 250 Round Turns in the CME Eurodollars on the CME® Globex® electronic trading platform could save approximately \$120,000 per year in reduced fees. Leasing an IMM (B-2) membership with the same volume would result in an annual savings of approximately \$90,000.
2. **International Incentive Program** This initiative will continue to attract new customers to CME's products and membership benefits allowing us to effectively compete with International futures exchanges.
3. In addition to its international incentive programs, CME Group undertakes other initiatives designed to drive global growth and new demand for CME Group products and memberships outside of the U.S., including the following accomplishments during 2011:

**Reached record levels of non-U.S. electronic trading revenues**

**estimated at more than \$550 million.**

Completed the restructuring of its Products and Services Division and it now has key leaders in place in each business line, in its global sales function and in its Europe and Asia offices.

Enhanced its global partnerships with BM&FBOVESPA, Bursa Malaysia and the Mexican Derivatives Exchange.

Launched CME Clearing Europe which now provides clearing for more than 170 different energy, commodity, metal and freight contracts. In January 2012, CME Group experienced a significant increase in cleared volumes, clearing approximately 75 percent of the activity that was cleared for the entire year in 2011.

4. In order to attract more participants to our markets, the Board reduced the A Share requirements for clearing fees. Over the years the requirement of A Shares for clearing fee purposes has been reduced from 72,000 to 8,000. The requirement for membership interest requirements have remained the same- requiring all seven memberships (B-Shares) for clearing. This reduction in A Share requirements make the bar for entry that much more affordable to prospective clearing members and has put capital back into our current proprietary clearing members businesses, which in time should create higher trading volume, thus spawning demand.
5. The Board of Directors created a Family of Funds Membership Class for Hedge Funds. Again, Family of Funds creates a market for CME memberships. This requires that funds have one additional membership for every five of their funds within their group. The initiatives listed here provide a member of CME the opportunity to participate in decreased transaction fees, thus resulting in an increase of trading volume and shareholder value.
