NOTES TO CONDENSED CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

March 31, 2012

(In thousands, except share and per share data)

1. BASIS OF PRESENTATION

Basis of Consolidation

Watsco, Inc. and its subsidiaries (collectively, *Watsco*, which may be referred to as *we*, *us* or *our*) was incorporated in 1956 in Florida and is the largest distributor of air conditioning, heating and refrigeration equipment and related parts and supplies (*HVAC/R*) in the HVAC/R distribution industry. The accompanying Watsco March 31, 2012 interim condensed consolidated unaudited financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in the annual financial statements prepared in accordance with U.S. generally accepted accounting principles (*GAAP*) have been condensed or omitted pursuant to those rules and regulations, although we believe the disclosures made are adequate to make the information presented not misleading. In the opinion of management, all adjustments, consisting of normal and recurring adjustments, necessary for a fair presentation have been included in the condensed consolidated unaudited financial statements herein. These statements should be read in conjunction with the consolidated financial statements and notes thereto included in our 2011 Annual Report on Form 10-K.

The condensed consolidated unaudited financial statements contained in this report include the accounts of Watsco and all of its wholly-owned subsidiaries and include the accounts of two joint ventures with Carrier Corporation (*Carrier*), in each of which Watsco maintains a 60% controlling interest. All significant intercompany balances and transactions have been eliminated.

The results of operations for the quarter ended March 31, 2012 are not necessarily indicative of the results to be expected for the year ending December 31, 2012. Sales of residential central air conditioners, heating equipment and parts and supplies are seasonal. Furthermore, results of operations can be impacted favorably or unfavorably based on weather patterns during the summer and winter selling seasons. Demand related to the residential central air conditioning replacement market is typically highest in the second and third quarters, and demand for heating equipment is usually highest in the fourth quarter. Demand related to the new construction sectors throughout most of the markets is fairly consistent during the year, except for dependence on housing completions and related weather and economic conditions.

Reclassifications

Certain reclassifications of prior year amounts have been made to conform to the 2012 presentation. These reclassifications had no effect on net income or earnings per share as previously reported.

Use of Estimates

The preparation of condensed consolidated unaudited financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated unaudited financial statements and the reported amounts of revenues and expenses for the reporting period. Significant estimates include valuation reserves for accounts receivable, inventory and income taxes, reserves related to self-insurance programs and valuation of goodwill and indefinite lived intangible assets. While we believe that these estimates are reasonable, actual results could differ from such estimates.

Accounting Changes

Presentation of Comprehensive Income

In June 2011, the Financial Accounting Standards Board issued guidance that requires companies to present net income and other comprehensive income in one continuous statement or in two separate but consecutive statements. We added new primary consolidated statements of other comprehensive income, which immediately follow our condensed consolidated unaudited statements of income to our

condensed consolidated unaudited financial statements.

Table of Contents**2. EARNINGS PER SHARE**

The following table presents the calculation of basic and diluted earnings per common share for our Common and Class B common stock:

<i>Quarters Ended March 31,</i>	2012	2011
Basic Earnings per Share:		
Net income attributable to Watsco, Inc. shareholders	\$ 8,466	\$ 7,500
Less: distributed and undistributed earnings allocated to non-vested (restricted) common stock	1,408	1,152
Earnings allocated to Watsco, Inc. shareholders	\$ 7,058	\$ 6,348
Weighted-average Common and Class B common shares outstanding for basic earnings per share	30,756,626	30,601,573
Basic earnings per share for Common and Class B common stock	\$ 0.23	\$ 0.21
Allocation of earnings for Basic:		
Common stock	\$ 6,405	\$ 5,755
Class B common stock	653	593
	\$ 7,058	\$ 6,348
Diluted Earnings per Share:		
Net income attributable to Watsco, Inc. shareholders	\$ 8,466	\$ 7,500
Less: distributed and undistributed earnings allocated to non-vested (restricted) common stock	1,408	1,152
Earnings allocated to Watsco, Inc. shareholders	\$ 7,058	\$ 6,348
Weighted-average Common and Class B common shares outstanding for basic earnings per share	30,756,626	30,601,573
Effect of dilutive stock options	77,842	92,779
Weighted-average Common and Class B common shares outstanding for diluted earnings per share	30,834,468	30,694,352
Diluted earnings per share for Common and Class B common stock	\$ 0.23	\$ 0.21

Diluted earnings per share for our Common stock assumes the conversion of all of our Class B common stock into Common stock as of the beginning of the fiscal year and adjusts for the dilutive effects of outstanding stock options using the treasury stock method; therefore, no allocation of earnings to Class B common stock is required. As of March 31, 2012 and 2011, our outstanding Class B common stock was convertible into 2,846,334 and 2,858,442 shares of our Common stock, respectively.

Diluted earnings per share excluded 7,628 shares for the quarter ended March 31, 2011 related to stock options with an exercise price per share greater than the average market value, resulting in an anti-dilutive effect on diluted earnings per share. No shares were excluded from diluted earnings per share for the quarter ended March 31, 2012 related to stock options.

3. OTHER COMPREHENSIVE INCOME

Other comprehensive income consists of changes in the unrealized gain on available-for-sale securities and the effective portion of a cash flow hedge that matured in October 2011. The tax effects allocated to each component of other comprehensive income are as follows:

Edgar Filing: WATSCO INC - Form 10-Q

<i>Quarters Ended March 31,</i>	2012	2011
Unrealized gain on derivative instrument	\$	\$ 115
Income tax expense		44
Unrealized gain on derivative instrument, net of tax		71
Unrealized gain on available-for-sale securities	25	11
Income tax expense	9	4
Unrealized gain on available-for-sale securities, net of tax	16	7
Other comprehensive income	\$ 16	\$ 78

8 of 20

Table of Contents

The changes in accumulated other comprehensive loss, net of tax, are as follows:

<i>Quarters Ended March 31,</i>	2012	2011
Derivative instrument:		
Beginning balance	\$	\$ 238
Current period other comprehensive income		71
Ending balance		167
Available-for-sale securities:		
Beginning balance	352	355
Current period other comprehensive income	16	7
Ending balance	336	348
Accumulated other comprehensive loss, net of tax	\$ 336	\$ 515

4. ACQUISITIONS

In 2011, we formed a second joint venture with Carrier that comprises the combination of two transactions. On April 29, 2011, Carrier contributed 28 of its company-owned locations in eight Northeast U.S. states, and we contributed 14 locations in the Northeast U.S. On July 29, 2011, we purchased Carrier's distribution operations in Mexico, which included seven locations. We refer to the foregoing Northeast locations and the Mexico operations together as Carrier Enterprise II. We have a 60% controlling interest in Carrier Enterprise II, and Carrier has a 40% noncontrolling interest.

The unaudited pro forma financial information, combining our results of operations with the operations of Carrier Enterprise II as if the joint venture had been consummated on January 1, 2011, is as follows:

<i>Quarter ended March 31,</i>	2011
Revenues	\$ 587,847
Net income	10,656
Less: net income attributable to noncontrolling interest	3,662
Net income attributable to Watsco, Inc.	\$ 6,994
Diluted earnings per share for Common and Class B common stock	\$ 0.19

This unaudited pro forma financial information is presented for informational purposes only. The unaudited pro forma financial information from the beginning of the period presented until the respective acquisition dates of the above-described Northeast U.S. and Mexican operations includes adjustments to record income taxes related to our portion of Carrier Enterprise II's income and amortization related to identified intangible assets with finite lives. This unaudited pro forma financial information does not include adjustments to add or remove certain corporate expenses of Carrier Enterprise II, which may not be incurred in future periods, or adjustments for depreciation or synergies that may be realized subsequent to the acquisition dates. This unaudited pro forma financial information may not necessarily reflect our future results of operations or what the results of operations would have been had we acquired our 60% controlling interest in and operated Carrier Enterprise II as of the beginning of the period presented.

5. SHAREHOLDERS EQUITY

Common Stock Dividends

Cash dividends of \$0.62 and \$0.52 per share of Common and Class B common stock were paid during the quarters ended March 31, 2012 and 2011, respectively.

Non-Vested (Restricted) Stock

During the quarters ended March 31, 2012 and 2011, we granted 58,301 and 391,852 shares of non-vested (restricted) stock, respectively.

Table of Contents**Stock Options**

During the quarters ended March 31, 2012 and 2011, 21,500 and 65,800, respectively, of stock options were exercised for Common stock. Cash received from Common stock issued upon the exercise of stock options during the quarters ended March 31, 2012 and 2011, was \$987 and \$2,407, respectively.

Employee Stock Purchase Plan

During the quarters ended March 31, 2012 and 2011, 2,962 and 3,997 shares of Common stock were issued under our employee stock purchase plan, respectively, for which we received net proceeds of \$194 and \$241, respectively.

401(k) Plan

During the quarters ended March 31, 2012 and 2011, 26,991 and 27,240 shares of Common stock were issued to our profit sharing retirement plan, respectively, representing discretionary matching contribution of \$1,772 and \$1,718, respectively.

Noncontrolling Interest

We have a 60% controlling interest in both Carrier Enterprise I and Carrier Enterprise II, and Carrier has a 40% noncontrolling interest. The following table reconciles shareholders' equity attributable to the noncontrolling interest:

Noncontrolling interest at December 31, 2011	\$ 198,920
Net income attributable to noncontrolling interest	5,026
Noncontrolling interest at March 31, 2012	\$ 203,946

6. COMMITMENTS AND CONTINGENCIES**Litigation, Claims and Assessments**

We are involved in litigation incidental to the operation of our business. We vigorously defend all matters in which we or our subsidiaries are named defendants and, for insurable losses, maintain significant levels of insurance to protect against adverse judgments, claims or assessments that may affect us. Although the adequacy of existing insurance coverage or the outcome of any legal proceedings cannot be predicted with certainty, based on the current information available, we do not believe the ultimate liability associated with any known claims or litigation will have a material adverse affect on our financial condition or results of operations.

Self-Insurance

Self-insurance reserves are maintained relative to company-wide casualty insurance and health benefit programs. The level of exposure from catastrophic events is limited by the purchase of stop-loss and aggregate liability reinsurance coverage. When estimating the self-insurance liabilities and related reserves, management considers a number of factors, which include historical claims experience, demographic factors, severity factors and valuations provided by independent third-party actuaries. Management reviews its assumptions with its independent third-party actuaries to evaluate whether the self-insurance reserves are adequate. If actual claims or adverse development of loss reserves occur and exceed these estimates, additional reserves may be required. The estimation process contains uncertainty since management must use judgment to estimate the ultimate cost that will be incurred to settle reported claims and unreported claims for incidents incurred but not reported as of the balance sheet date. Reserves in the amounts of \$4,341 and \$4,631 at March 31, 2012 and December 31, 2011, respectively, were established related to such insurance programs and are included in accrued expenses and other current liabilities in our condensed consolidated balance sheets.

7. RELATED PARTY TRANSACTIONS

Purchases from Carrier and its affiliates comprised 52% and 41% of all purchases made during the quarters ended March 31, 2012 and 2011, respectively. At March 31, 2012 and December 31, 2011, approximately \$76,000 and \$41,000, respectively, was payable to Carrier and its affiliates, net of receivables. Our joint ventures with Carrier also sell HVAC products to Carrier and its affiliates. Revenues in our condensed consolidated unaudited statements of income for the quarters ended March 31, 2012 and 2011 include \$6,784 and \$4,104, respectively, of sales to Carrier and its affiliates. We believe these transactions are conducted at arm's-length in the ordinary course of business.

Carrier Enterprise II entered into Transactional Services Agreements (TSAs) with Carrier, pursuant to which Carrier performs certain business processes on its behalf, including processes involving the use of certain information technologies. The services provided by Carrier pursuant to the TSAs terminate on various dates through April 30, 2012 but may be extended as agreed upon by the parties. The fees related to these TSAs were \$584 for the quarter ended March 31, 2012 and are included in selling, general and administrative expenses in our condensed consolidated unaudited statement of income. At March 31, 2012 and December 31, 2011, \$361 and \$941, respectively, related to these TSAs was payable to Carrier and is included in accrued expenses and other current liabilities in our condensed consolidated unaudited balance sheets.

Table of Contents

8. SUBSEQUENT EVENTS

On April 27, 2012, we completed the formation of a joint venture with UTC Canada Corporation (UTC Canada), an affiliate of Carrier, to distribute Carrier, Bryant and Payne branded residential, light-commercial and commercial applied HVAC products in Canada. The newly formed joint venture, Carrier Enterprise Canada, L.P. (Carrier Enterprise III), operates 35 locations throughout all of the provinces and territories in Canada. In the formation of the joint venture, UTC Canada contributed its Canadian distribution business and retained a 40% noncontrolling interest in Carrier Enterprise III. Total consideration paid by us for our 60% controlling interest in Carrier Enterprise III included cash consideration of \$82,042 and the issuance to UTC Canada of 1,250,000 shares of Common stock having a fair value of \$93,250. The final purchase price is subject to working capital adjustments pursuant to the Asset Purchase Agreement that we entered into with UTC Canada.

Also on April 27, 2012, we entered into an unsecured, five-year \$500,000 syndicated revolving credit agreement, which replaced in its entirety both our five-year \$300,000 revolving credit agreement maturing on August 3, 2012 and Carrier Enterprise I s three-year \$125,000 secured revolving credit agreement maturing on July 1, 2012. Proceeds from the new facility were used to pay approximately \$154,000 owed under our facilities and for the acquisition of Carrier Enterprise III and may be used for, among other things, funding seasonal working capital needs and other general corporate purposes, including acquisitions, dividends, stock repurchases and issuances of letters of credit. Included in the facility are a \$50,000 swingline subfacility, a \$50,000 letter of credit subfacility and a \$75,000 multicurrency borrowing sublimit. Borrowings bear interest at either LIBOR-based rates plus a spread which ranges from 100 to 275 basis-points (LIBOR plus 112.5 basis-points at April 27, 2012), depending upon our ratio of total debt to EBITDA, or on rates based on the higher of the Prime rate or the Federal Funds rate, in each case plus a spread which ranges from 0 to 175 basis-points (12.5 basis-points at April 27, 2012), depending upon our ratio of total debt to EBITDA. We pay a variable commitment fee on the unused portion of the commitment, ranging from 12.5 to 40 basis-points (15 basis-points at April 27, 2012). The credit agreement matures in April 2017. The revolving credit agreement contains customary affirmative and negative covenants including financial covenants with respect to consolidated leverage and interest coverage ratios and other customary restrictions.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Information About Forward-Looking Statements

This Quarterly Report contains or incorporates by reference statements that are not historical in nature and that are intended to be, and are hereby identified as, forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995, including statements regarding, among other items, (i) economic conditions, (ii) business and acquisition strategies, (iii) potential acquisitions and/or joint ventures, (iv) financing plans and (v) industry, demographic and other trends affecting our financial condition or results of operations. These forward-looking statements are based largely on management's current expectations and are subject to a number of risks, uncertainties and changes in circumstances, certain of which are beyond their control.

Actual results could differ materially from these forward-looking statements as a result of several factors, including, but not limited to:

general economic conditions;

competitive factors within the HVAC/R industry;

effects of supplier concentration;

fluctuations in certain commodity costs;

consumer spending;

consumer debt levels;

new housing starts and completions;

capital spending in the commercial construction market;

access to liquidity needed for operations;

seasonal nature of product sales;

weather conditions;

insurance coverage risks;

federal, state and local regulations impacting our industry and products;

prevailing interest rates;

foreign currency exchange rate fluctuations; and

the continued viability of our business strategy.

In light of these uncertainties, there can be no assurance that the forward-looking information contained herein will be realized or, even if substantially realized, in whole or in part, that the information will have the expected consequences to, or effects on, our business or operations. For additional information identifying other important factors that may affect our operations and could cause actual results to vary materially from those anticipated in the forward-looking statements, see our SEC filings, including but not limited to, the discussion included in the Risk Factors section of our 2011 Annual Report on Form 10-K under the headings *Business Risk Factors* and *General Risk Factors*. Forward-looking statements speak only as of the date the statement was made. We assume no obligation to update forward-looking information or the discussion of such risks and uncertainties to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information, except as required by applicable law.

The following information should be read in conjunction with the condensed consolidated unaudited financial statements and notes thereto included under Item 1 of this Quarterly Report on Form 10-Q. In addition, reference should be made to our audited consolidated financial statements and notes thereto and related Management's Discussion and Analysis of Financial Condition and Results of Operations included in our 2011 Annual Report on Form 10-K.

Company Overview

Watsco, Inc. and its subsidiaries (collectively, *Watsco*, or *we*, *us* or *our*) was incorporated in 1956 in Florida and is the largest distributor of air conditioning, heating and refrigeration equipment and related parts and supplies (*HVAC/R*) in the HVAC/R distribution industry. At March 31, 2012, we operated from 541 locations in 38 states, Mexico and Puerto Rico with additional market coverage on an export basis to Latin America and the Caribbean.

Revenues primarily consist of sales of air conditioning, heating and refrigeration equipment and related parts and supplies. Selling, general and administrative expenses primarily consist of selling expenses, the largest components of which are salaries, commissions and marketing expenses that are variable and correlate to changes in sales. Other significant selling, general and administrative expenses relate to the operation of warehouse facilities, including a fleet of trucks and forklifts and facility rent, which are payable mostly under non-cancelable operating leases.

Table of Contents

Sales of residential central air conditioners, heating equipment and parts and supplies are seasonal. Furthermore, results of operations can be impacted favorably or unfavorably based on weather patterns during summer and winter selling seasons. Demand related to the residential central air conditioning replacement market is typically highest in the second and third quarters, and demand for heating equipment usually highest in the fourth quarter. Demand related to the new construction sectors throughout most of the markets is fairly consistent during the year, except for dependence on housing completions and related weather and economic conditions.

Joint Ventures with Carrier Corporation

In 2009, we formed a joint venture with Carrier Corporation (Carrier), which we refer to as Carrier Enterprise I, in which Carrier contributed 95 of its company-owned locations in 13 U.S. Sun Belt states and Puerto Rico and its export division in Miami, Florida, and we contributed 15 locations that distributed Carrier products. We have a 60% controlling interest in Carrier Enterprise I, Carrier has a 40% noncontrolling interest and we have options to purchase from Carrier up to an additional 20% interest in Carrier Enterprise I (10% in July 2012 and 10% in July 2014).

In 2011, we formed a second joint venture with Carrier and completed two additional transactions. In April 2011, Carrier contributed 28 of its company-owned locations in eight Northeast U.S. states, and we contributed 14 locations in the Northeast U.S. In July 2011, we purchased Carrier's distribution operations in Mexico, which included seven locations. We refer to the foregoing Northeast locations and the Mexico operations together as Carrier Enterprise II. We have a 60% controlling interest in Carrier Enterprise II, and Carrier has a 40% noncontrolling interest. Neither we nor Carrier have any options to purchase additional ownership interests in Carrier Enterprise II.

In April 2012, we formed a third joint venture with UTC Canada Corporation (UTC Canada), an affiliate of Carrier, which we refer to as Carrier Enterprise III. Carrier contributed 35 of its company-owned locations in Canada to Carrier Enterprise III. We have a 60% controlling interest in Carrier Enterprise III, and UTC Canada has a 40% noncontrolling interest. Neither we nor UTC Canada have any options to purchase additional ownership interests in Carrier Enterprise III.

Critical Accounting Policies

Management's discussion and analysis of financial condition and results of operations is based upon the condensed consolidated unaudited financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the condensed consolidated unaudited financial statements and the reported amount of revenues and expenses during the reporting period. Actual results may differ from these estimates under different assumptions or conditions. At least quarterly, management reevaluates its judgments and estimates, which are based on historical experience, current trends and various other assumptions that are believed to be reasonable under the circumstances.

Our critical accounting policies are included in our 2011 Annual Report on Form 10-K as filed on February 29, 2012. We believe that there have been no significant changes during the quarter ended March 31, 2012 to the critical accounting policies disclosed in our 2011 Annual Report on Form 10-K.

Items Affecting Comparability Between Periods*Accounting Changes*

Refer to Note 1 to the condensed consolidated unaudited financial statements included in this Quarterly Report on Form 10-Q for a discussion of the impact of changes in accounting standards.

Table of Contents

The following narratives include the results of operations for businesses acquired during 2011. The results of operations for these acquisitions have been included in our condensed consolidated unaudited statements of income beginning on their respective dates of acquisition. See Note 4 to our condensed consolidated unaudited financial statements included in this Quarterly Report on Form 10-Q for the pro forma financial information combining our results of operations with the operations of Carrier Enterprise II. There were no businesses acquired during the first quarter of 2012. Please refer to the information set forth following the heading *Acquisitions*, below, and in Note 8 to our condensed consolidated unaudited financial statements included in this Quarterly Report on Form 10-Q for information related to our recent acquisition of a 60% controlling interest in our new joint venture with Carrier.

In the following narratives, computations and disclosure information referring to *same-store basis* exclude the effects of locations acquired or locations opened or closed during the immediately preceding 12 months unless they are within close geographical proximity to existing locations. At March 31, 2012 and 2011, 65 and 20 locations, respectively, were excluded from *same-store basis* information. The table below summarizes the changes in our locations for the 12 months ended March 31, 2012:

	Number of Locations
March 31, 2011	502
Acquired	35
Opened	15
Closed	(10)
December 31, 2011	542
Opened	2
Closed	(3)
March 31, 2012	541

Revenues

Revenues for the first quarter of 2012 increased \$99.2 million, or 19%, compared to the first quarter of 2011, including \$63.2 million attributable to the 35 new Carrier Enterprise II locations acquired in 2011 and \$2.5 million from other locations opened during the immediately preceding 12 months, partially offset by \$4.9 million from closed locations. On a same-store basis, revenues increased \$38.4 million, or 7%, as compared to the same period in 2011, reflecting a 12% increase in sales of HVAC equipment and an 11% increase in sales of commercial refrigeration products, partially offset by a 1% decrease in sales of other HVAC products. The increase in same-store revenues is primarily due to strong demand for the replacement of residential and commercial HVAC equipment.

Gross Profit

Gross profit for the quarter ended March 31, 2012 increased \$15.6 million, or 12%, compared to the same period in 2011, primarily as a result of increased revenues. Gross profit margin for the quarter ended March 31, 2012 declined 150 basis-points to 23.8% versus 25.3% for the same period in 2011, primarily due to a shift in sales mix toward HVAC equipment, which generates a lower gross profit margin than non-equipment products and the timing of inventory purchases, which had a consequential impact on vendor discounts and rebates.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the first quarter of 2012 increased \$12.4 million, or 11%, compared to the first quarter of 2011 primarily due to increased revenues. Selling, general and administrative expenses as a percent of revenues for the quarter ended March 31, 2012 decreased to 20.6% versus 22.1% for the same period in 2011. The decrease in selling, general, and administrative expenses as a percentage of revenues was primarily due to leveraging of fixed operating costs as compared to 2011. On a same-store basis, selling, general and administrative expenses were flat as compared to the same period in 2011.

Interest Expense, Net

Edgar Filing: WATSCO INC - Form 10-Q

Net interest expense for the quarter ended March 31, 2012 increased \$0.1 million, or 8%, compared to the same period in 2011, primarily as a result of an increase in average outstanding borrowings during 2012 as compared to 2011.

Table of Contents

Income Taxes

Income taxes increased to \$5.5 million for the first quarter of 2012 as compared to \$4.8 million for the first quarter of 2011 and are a composite of the income taxes attributable to our wholly-owned operations and investments and 60% of income taxes attributable to the Carrier joint ventures, which are taxed as partnerships for income tax purposes. The effective income tax rate attributable to us was 37.5% and 38.0% for the quarters ended March 31, 2012 and 2011, respectively. The decrease is primarily due to certain non-recurring tax benefits realized in 2012.

Net Income Attributable to Watsco, Inc.

Net income attributable to Watsco for the quarter ended March 31, 2012 increased \$1.0 million, or 13%, compared to the same period in 2011. The increase was primarily driven by higher revenues and reduced selling, general and administrative expenses as a percent of revenues as discussed above.

Liquidity and Capital Resources

We assess our liquidity in terms of our ability to generate cash to execute our business strategy and fund operating and investing activities, taking into consideration the seasonal demand of HVAC/R products, which peaks in the months of May through August. Significant factors that could affect our liquidity include the following:

cash flows generated from operating activities;

the adequacy of our available bank line of credit;

the ability to attract long-term capital with satisfactory terms;

acquisitions;

dividend payments;

capital expenditures; and

the timing and extent of common stock repurchases.

Sources and Uses of Cash

We rely on cash flows from operations and additional borrowing capacity (subject to certain restrictions) under our revolving credit agreement to fund seasonal working capital needs, including our anticipated dividend payments, capital expenditures and funds necessary for business acquisitions, and to support the development of our long-term operating strategies. See Note 8 to our condensed consolidated unaudited financial statements included in this Quarterly Report on Form 10-Q for a discussion of our current revolving credit agreement.

We believe that our operating cash flows, cash on hand and funds available for borrowing under our current line of credit will be sufficient to satisfy our liquidity needs in the foreseeable future, including the expected exercise of our option to acquire an additional 10% interest in Carrier Enterprise I on July 1, 2012 for approximately \$51.0 million. However, there can be no assurance that our current sources of available funds will be sufficient to meet our cash requirements.

Edgar Filing: WATSCO INC - Form 10-Q

Any future disruption in the capital and credit markets, such as those experienced in 2008, could adversely affect our ability to draw on our line of credit. Our access to funds under the line of credit is dependent on the ability of the syndicate banks to meet their respective funding commitments. Disruptions in capital and credit markets also may affect the determination of interest rates for borrowers, particularly rates based on LIBOR, such as the rates under our line of credit. Any future disruptions in these markets and their effect on interest rates could result in increased borrowing costs and/or reduced borrowing capacity under our existing line of credit.

Working Capital

Working capital decreased to \$603.6 million at March 31, 2012 from \$605.1 million at December 31, 2011.

Cash Flows

The following table summarizes our cash flow activity for the quarters ended March 31, 2012 and 2011:

	2012	2011	Change
Cash flows provided by (used in) operating activities	\$ 9.5	\$ (44.9)	\$ 54.4
Cash flows used in investing activities	\$ (3.8)	\$ (1.6)	\$ (2.2)
Cash flows used in financing activities	\$ (3.3)	\$ (44.4)	\$ 41.1

A detail of the individual items contributing to the cash flow changes for the periods presented is included in the condensed consolidated unaudited statements of cash flows included in this Quarterly Report on Form 10-Q.

Table of Contents

Operating Activities

The increase in net cash provided by operating activities was principally attributable to higher net income and to changes in operating assets and liabilities, which were primarily from the timing of the seasonal buildup of inventory in 2011, including the purchase of previously consigned inventory from one of our key suppliers for approximately \$17.0 million, and higher levels of accounts payable and other liabilities in 2012 due to timing of payments, partially offset by higher accounts receivable driven by increased sales volume in 2012. We expect build-up of seasonal inventory during the second quarter of 2012.

Investing Activities

The increase in net cash used in investing activities is due to higher capital expenditures in 2012.

Financing Activities

The decrease in net cash used in financing activities was primarily attributable to a \$32.0 million return of capital to the noncontrolling interest in 2011, higher net borrowings under our revolving credit agreements and a decrease in distributions to the noncontrolling interest, partially offset by an increase in dividends paid in 2012.

Current Revolving Credit Agreement

On April 27, 2012, we entered into an unsecured, five-year \$500.0 million syndicated revolving credit agreement, which replaced in its entirety both our five-year \$300.0 million revolving credit agreement maturing on August 3, 2012 and Carrier Enterprise I's three-year \$125.0 million secured revolving credit agreement maturing on July 1, 2012. Proceeds from the new facility were used to pay approximately \$154.0 million owed under our facilities and for the acquisition of Carrier Enterprise III and may be used for, among other things, funding seasonal working capital needs and other general corporate purposes, including acquisitions, dividends, stock repurchases and issuances of letters of credit. Included in the facility are a \$50.0 million swingline subfacility, a \$50.0 million letter of credit subfacility and a \$75.0 million multicurrency borrowing sublimit. Borrowings bear interest at either LIBOR-based rates plus a spread which ranges from 100 to 275 basis-points (LIBOR plus 112.5 basis-points at April 27, 2012), depending upon our ratio of total debt to EBITDA, or on rates based on the higher of the Prime rate or the Federal Funds rate, in each case plus a spread which ranges from 0 to 175 basis-points (12.5 basis-points at April 27, 2012), depending upon our ratio of total debt to EBITDA. We pay a variable commitment fee on the unused portion of the commitment, ranging from 12.5 to 40 basis-points (15 basis-points at April 27, 2012). The credit agreement matures in April 2017. The revolving credit agreement contains customary affirmative and negative covenants including financial covenants with respect to consolidated leverage and interest coverage ratios and other customary restrictions.

Prior Revolving Credit Agreements

Prior to the entering into our current revolving credit agreement, described above, we maintained a bank-syndicated, unsecured revolving credit agreement that provided for borrowings of up to \$300.0 million. Borrowings were used to fund seasonal working capital needs and for other general corporate purposes, including acquisitions, dividends, stock repurchases and issuances of letters of credit. At March 31, 2012 and December 31, 2011, \$42.5 million and \$20.0 million were outstanding under this revolving credit agreement, respectively. The revolving credit agreement contained customary affirmative and negative covenants including financial covenants with respect to consolidated leverage and interest coverage ratios, limits on capital expenditures, dividends and share repurchases, and other restrictions. We believe we were in compliance with all covenants and financial ratios at March 31, 2012.

Carrier Enterprise I also maintained a separate bank-syndicated, secured revolving credit agreement that provided for borrowings of up to \$125.0 million. Borrowings under the credit facility were used for general corporate purposes, including working capital and permitted acquisitions. The credit facility was secured by substantially all tangible and intangible assets of Carrier Enterprise I. No borrowings were outstanding under this credit facility at March 31, 2012 or December 31, 2011. The Carrier Enterprise I revolving credit agreement contained customary affirmative and negative covenants and representations and warranties, including compliance with a monthly borrowing base certificate with advance rates on accounts receivable and inventory, two financial covenants with respect to its leverage and interest coverage ratios, limits on capital expenditures and cash distributions, and other restrictions. We believe Carrier Enterprise I was in compliance with all covenants and financial ratios at March 31, 2012.

Acquisitions

Edgar Filing: WATSCO INC - Form 10-Q

On April 27, 2012, we completed the formation of a joint venture with UTC Canada to distribute Carrier, Bryant and Payne branded residential, light-commercial and commercial applied HVAC products in Canada. The newly formed joint venture, Carrier Enterprise III, operates 35 locations throughout all of the provinces and territories in Canada. In the formation of the joint venture, UTC Canada contributed its Canadian distribution business and retained a 40% noncontrolling interest in Carrier Enterprise III. Total consideration paid by us for our 60% controlling interest in Carrier Enterprise III included cash consideration of \$82.0 million and the issuance to UTC Canada of 1,250,000 shares of Common stock having a fair value of \$93.3 million. The final purchase price is subject to working capital adjustments pursuant to the Asset Purchase Agreement that we entered into with UTC Canada.

Table of Contents

We intend to exercise our option to acquire an additional 10% interest in Carrier Enterprise I on July 1, 2012 for approximately \$51.0 million in cash, following which we would have a 70% controlling interest in Carrier Enterprise I.

We continually evaluate other potential acquisitions and/or joint ventures and hold discussions with a number of acquisition candidates. Should suitable acquisition opportunities arise that would require additional financing, we believe our financial position and earnings history provide a sufficient basis for us to either obtain additional debt financing at competitive rates and on reasonable terms or raise capital through the issuance of equity securities.

Common Stock Dividends

Cash dividends of \$0.62 per share and \$0.52 per share of Common and Class B common stock were paid during the quarters ended March 31, 2012 and 2011, respectively. On April 2, 2012, the Board of Directors declared a regular quarterly cash dividend of \$0.62 per share of Common and Class B common stock that was paid on April 30, 2012 to shareholders of record as of April 16, 2012. Future dividends and/or dividend rate increases will be at the sole discretion of the Board of Directors and will depend upon such factors as cash flow generated by operations, profitability, financial condition, cash requirements, restrictions under our revolving credit agreement, future prospects and other factors deemed relevant by our Board of Directors.

Company Share Repurchase Program

In September 1999, our Board of Directors authorized the repurchase, at management's discretion, of up to 7,500,000 shares of common stock in the open market or via private transactions. Shares repurchased under the program are accounted for using the cost method and result in a reduction of shareholders' equity. No shares were repurchased during the quarters ended March 31, 2012 or 2011. In aggregate, 6,370,913 shares of Common and Class B common stock have been repurchased at a cost of \$114.4 million since the inception of the program. The repurchase of up to the remaining 1,129,087 shares authorized for repurchase is subject to certain restrictions included in our revolving credit agreement.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in market risk from the information provided in Item 7A, Quantitative and Qualitative Disclosures about Market Risk, of the 2011 Annual Report on Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) that are, among other things, designed to ensure that information required to be disclosed by us under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer (CEO), Senior Vice President (SVP) and Chief Financial Officer (CFO), to allow for timely decisions regarding required disclosure and appropriate SEC filings.

Our management, with the participation of our CEO, SVP and CFO, evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report, and, based on that evaluation, our CEO, SVP and CFO concluded that our disclosure controls and procedures were effective, at a reasonable assurance level, at and as of such date.

Changes in Internal Control over Financial Reporting

We are continuously seeking to improve the efficiency and effectiveness of our operations and of our internal controls. This results in refinements to processes throughout the Company. However, there have been no changes in internal controls over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended March 31, 2012, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. In accordance with the rules and regulations of the SEC, we have not yet assessed the internal control over financial reporting of the 35 locations added by Carrier Enterprise II, which collectively represented approximately 11% of our total consolidated assets at March 31, 2012 and approximately 10% of our consolidated revenues for the three months ended March 31, 2012. From the respective acquisition dates to March 31, 2012, the processes and systems of Carrier Enterprise II did not impact the internal controls over financial reporting for our other consolidated subsidiaries.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved in litigation incidental to the operation of our business. We vigorously defend all matters in which we or our subsidiaries are named defendants and, for insurable losses, maintain significant levels of insurance to protect against adverse judgments, claims or assessments that may affect us. Although the adequacy of existing insurance coverage or the outcome of any legal proceedings cannot be predicted with certainty, based on the current information available, we do not believe the ultimate liability associated with any known claims or litigation will have a material adverse affect on our financial condition or results of operations.

ITEM 1A. RISK FACTORS

Information about risk factors for the quarter ended March 31, 2012 does not differ materially from that set forth in Part I, Item 1A, of our 2011 Annual Report on Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Recent Sales of Unregistered Securities

On March 14, 2012, we issued 26,991 shares of our Common stock to our Profit Sharing Retirement Plan & Trusts (the Plans) representing the employer match under the Plans for the plan year ended December 31, 2011, without registration. This issuance was exempt from registration under the Securities Act of 1933, as amended, pursuant to Section 3(a)(2) thereof. The Plans are profit sharing retirement plans that are qualified under Section 401 of the Internal Revenue Code of 1986, as amended. The assets of the Plans are held in a single trust fund for the benefit of our employees, and no Plan holds assets for the benefit of the employees of any other employer. All of the contributions to the Plans from our employees have been invested in assets other than our Common stock. We have contributed all of the Common stock held by the Plans as a discretionary matching contribution, which, at the time of contribution, was lower in value than the employee contributions that the contribution matched.
