**Item 7.01. Regulation FD Disclosure.**

Today, May 24, 2012, members of senior management of ConAgra Foods, Inc. (the Company) will present at the Citi 2012 Global Consumer Conference in New York City, New York. The presentation, which is scheduled to begin at 9:05 a.m. EDT this morning, will be webcast. The Company expects the majority of its presentation to be in the form of a question-and-answer session. The slides used in the presentation by the Company are furnished as Exhibit 99.1 to this Current Report on Form 8-K and are incorporated herein by reference.

The Company expects to affirm its previously announced guidance of modest diluted earnings per share growth in its fourth quarter of fiscal 2012 (year-over-year), adjusted for items impacting comparability; long-term annual sales growth of approximately 3% over the long term; long-term annual earnings per share growth, excluding items impacting comparability, of 6 to 8%; and long-term return on invested capital, excluding items impacting comparability, of 13 to 14% over the long term.

This Current Report on Form 8-K and the presentation slides include the non-GAAP financial measures of diluted earnings per share, adjusted for items impacting comparability; return on invested capital, adjusted for items impacting comparability; and earnings before income tax, depreciation and amortization. Management considers GAAP financial measures as well as such non-GAAP financial information in its evaluation of the Company's financial statements and believes these non-GAAP measures provide useful supplemental information to assess the Company's operating performance, financial position, cash generating capacity and its ability to meet its future debt service. The inability to predict the timing and amount of future items impacting comparability makes a detailed reconciliation of earnings per share growth and return on invested capital impracticable.
