KIRKLAND'S, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1 Basis of Presentation

Kirkland's, Inc. (the Company) is a specialty retailer of home décor and gifts with 297 stores in 30 states as of April 28, 2012. The condensed consolidated financial statements of the Company include the accounts of Kirkland's, Inc. and its wholly-owned subsidiaries, Kirkland's Stores, Inc., Kirkland's DC, Inc., Kirkland's Texas, LLC, and Kirklands.com, LLC. Significant intercompany accounts and transactions have been eliminated.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required for complete financial statements. In the opinion of management, all adjustments, including normal recurring accruals, considered necessary for a fair presentation have been included. These financial statements should be read in conjunction with the audited financial statements included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on April 12, 2012.

It should be understood that accounting measurements at interim dates inherently involve greater reliance on estimates than those at fiscal year-end. In addition, because of seasonality factors, the results of the Company's operations for the 13-week period ended April 28, 2012 are not indicative of the results to be expected for any other interim period or for the entire fiscal year. The Company's fiscal year ends on the Saturday closest to January 31, resulting in years of either 52 or 53 weeks. All references to a fiscal year refer to the fiscal year ending on the Saturday closest to January 31 of the following year.

The preparation of the condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. Actual results could differ from the estimates and assumptions used.

Changes in estimates are recognized in the period when new information becomes available to management. Areas where the nature of the estimate makes it possible that actual results could materially differ from amounts estimated include: impairment assessments on long-lived assets, inventory reserves, self-insurance reserves, income tax liabilities, stock-based compensation, gift card breakage, customer loyalty program accruals and contingent liabilities.

Note 2 Income Taxes

An estimate of the annual effective tax rate is used at each interim period based on the facts and circumstances available at that time, while the actual effective tax rate is calculated at year-end. For the 13-week period ended April 28, 2012, the Company recorded income tax expense of 38.4% of income before income taxes. In the prior year period, the Company recorded income tax expense of 38.2% of income before income taxes. The slight increase in the rate reflects the lower amount of pretax income versus the prior year.

Note 3 Earnings Per Share

Basic earnings per share is computed by dividing net income by the weighted average number of shares outstanding during each period presented, which excludes non-vested restricted stock. Diluted earnings per share is computed by dividing net income by the weighted average number of shares outstanding plus the dilutive effect of stock equivalents outstanding during the applicable periods using the treasury stock method. Diluted earnings per share reflects the potential dilution that could occur if options to purchase stock were exercised into common stock. Stock options that were not included in the computation of diluted earnings per share because to do so would have been antidilutive were 440,000 and 282,500 shares for the 13-week periods ended April 28, 2012, and April 30, 2011, respectively.

Note 4 Commitments and Contingencies

The Company is party to pending legal proceedings and claims. Although the outcome of such proceedings and claims cannot be determined with certainty, the Company's management is of the opinion that it is unlikely that these proceedings and claims in excess of insurance coverage will have a material effect on the financial condition, operating results or cash flows of the Company.

Table of Contents

Note 5 Stock-Based Compensation

The Company maintains equity incentive plans under which it may grant non-qualified stock options, incentive stock options, restricted stock, restricted stock units, or stock appreciation rights to employees, non-employee directors and consultants.

No stock options were granted during the 13-week periods ended April 28, 2012, and April 30, 2011. Total stock-based compensation expense (a component of compensation and benefits) was \$793,000 for the 13-week period ended April 28, 2012, compared to \$749,000 for the prior year period. Compensation expense is recognized on a straight-line basis over the vesting period. There have been no material changes in the assumptions used to compute compensation expense during the current quarter.

Note 6 Stock Repurchase Program

On August 19, 2011, the Company announced that its Board of Directors authorized a stock repurchase plan providing for the purchase in the aggregate of up to \$40 million of the Company's outstanding common stock from time to time until February 2013. Through April 28, 2012, the Company had repurchased and retired a total of approximately 2.3 million shares at an aggregate cost of \$26.6 million. As of April 28, 2012, the Company had \$13.4 million remaining under the Board's authorization to repurchase its common stock. Subsequent to April 28, 2012, the Company has repurchased and retired approximately 580,000 shares of common stock at an aggregate cost of \$6.9 million.

Note 7 Related Party Transactions

In July 2009, the Company entered into an agreement with a related party vendor to purchase merchandise inventory. The vendor is considered a related party for financial reporting purposes because one of its principals is the spouse of the Company's Vice President of Merchandising. During the first quarter of fiscal 2012 and 2011, purchases from this vendor totaled approximately \$5.8 million, or 12% of total merchandise purchases, and \$4.5 million, or 10% of merchandise purchases, respectively. Included in cost of sales for the first quarter of fiscal 2012 and 2011 were \$5.8 million and \$4.5 million, respectively related to this vendor. Payable amounts outstanding to this vendor were approximately \$800,000 and \$1.3 million as of April 28, 2012 and April 30, 2011, respectively. The Company's payable terms with this vendor are consistent with the terms offered by other vendors in the ordinary course of business.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS **Forward Looking Statements**

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to provide an understanding of our financial condition, change in financial condition, cash flow, liquidity and results of operations. The following MD&A discussion should be read in conjunction with the condensed consolidated financial statements and notes to those statements that appear elsewhere in this Form 10-Q and in the Company's Annual Report on Form 10-K, filed April 12, 2012. The following discussion contains forward-looking statements that reflect the Company's plans, estimates and beliefs. The Company's actual results could differ materially from those discussed or referred to in the forward-looking statements. Factors that could cause or contribute to any differences include, but are not limited to, those discussed under the caption Cautionary Statement for Purposes of the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995 and under Part II, Item 1A Risk Factors.

Net income	\$ 1,955	0.2%	\$ 3,170	3.4%	\$ (1,215)	(38.3%)

Net sales. Net sales increased 3.6% to \$97.8 million for the first fiscal quarter of 2012 compared to \$94.4 million for the prior year period. The impact of net new store growth accounted for an increase in sales of \$4.5 million. These increases in net sales were offset by a decline in comparable store sales of 1.2%, accounting for a \$1.1 million decline versus the prior year quarter. Comparable store sales decreased 8.4% in the prior year period. The comparable store sales decrease for the first quarter of 2012 was primarily due to a decrease in number of transactions, partially offset by an increase in the average ticket. The decrease in transactions resulted from a decline in the conversion rate partly offset by a slight increase in traffic. The increase in the average ticket reflected an increase in items sold per transaction combined with a flat average unit selling price. The strongest performing merchandise categories were mirrors, floral, outdoor living and furniture, while the weakest performing categories were decorative accessories, wall décor and lamps.

Gross profit. Gross profit as a percentage of total revenue decreased from 40.3% in the first quarter of 2011 to 39.3% in the first quarter of 2012. Merchandise margins increased from 54.9% in the first quarter of fiscal 2011 to 55.5% in the first quarter of fiscal 2012. Merchandise margin is calculated as net sales minus product cost of sales. Merchandise margin excludes outbound freight, store occupancy and central distribution costs. The increase in merchandise margin was primarily the result of lower inbound freight costs. Store occupancy costs as a percentage of net sales increased 1.0%. This increase resulted from the decline in comparable store sales, combined with the reduction in the number of leases

Edgar Filing: KIRKLAND'S, INC - Form 10-Q

with negotiated rent reductions in comparison to the prior year. Outbound freight costs and central distribution expenses increased as a percentage of sales primarily due to comparable store sales deleverage and an increase in diesel fuel costs as well as shipping and packaging costs associated with E-commerce.

Compensation and benefits. At the store-level, the compensation and benefits expense ratio increased slightly over the prior year period primarily due to the negative comparable store sales performance. At the corporate level, the compensation and benefits ratio decreased over the prior year period primarily due to lower bonus accruals.

Other operating expenses. Other operating expenses increased as a percentage of net sales versus the prior year period due to increases in marketing expenses, as well as deleverage due to the decline in comparable store sales.

Table of Contents

Depreciation. The decrease in depreciation as a percentage of sales reflects the impact of lease extensions during the preceding twelve months for store locations in which the majority of the fixed assets had been fully depreciated.

Income tax expense. We recorded income tax expense of approximately \$1.2 million, or 38.4% of pre-tax income during the first quarter of fiscal 2012, versus approximately \$2.0 million, or 38.2% of pre-tax income, in the prior year quarter.

Net income and earnings per share. As a result of the foregoing, we reported net income of \$2.0 million, or \$0.10 per diluted share, for the first quarter of fiscal 2012 as compared to net income of \$3.2 million, or \$0.15 per diluted share, for the first quarter of fiscal 2011.

Liquidity and Capital Resources

Our principal capital requirements are for working capital and capital expenditures. Working capital consists mainly of merchandise inventories offset by accounts payable, which typically reach their peak by the end of the third quarter of each fiscal year. Capital expenditures primarily relate to new store openings; existing store expansions, remodels or relocations; and purchases of equipment or information technology assets for our stores, distribution facilities and corporate headquarters. Historically, we have funded our working capital and capital expenditure requirements with internally generated cash and borrowings under our credit facility.

Cash flows from operating activities. Net cash provided by (used in) operating activities was approximately (\$2.7) million and \$2.1 million for the first quarter of fiscal 2012 and fiscal 2011, respectively. Cash flows from operating activities depend heavily on operating performance, changes in working capital and the timing and amount of payments for income taxes. The change in the amount of cash used in operations as compared to the prior year period was primarily the result of the decline in our operating performance versus the prior year and an increase in working capital. Cash tax payments for the first quarter of fiscal 2012 totaled approximately \$2.5 million compared to cash tax payments of \$2.7 million in the prior year period.

Cash flows from investing activities. Net cash used in investing activities for the first quarter of fiscal 2012 consisted of \$4.1 million in capital expenditures as compared to \$3.1 million in capital expenditures for the prior year period. The capital expenditures primarily related to new store construction and information technology assets. During the first quarter of fiscal 2012, we opened five stores compared to three stores during the first quarter of fiscal 2011. We expect that capital expenditures for all of fiscal 2012 will be approximately \$29 to \$32 million, primarily to fund the leasehold improvements of new stores, make improvements in our information technology infrastructure, and maintain our investments in existing stores and our distribution center.

Cash flows from financing activities. Net cash used in financing activities was approximately \$3.1 million for the first quarter of fiscal 2012, and was primarily related to repurchase and retirement of common stock. Net cash provided by financing activities was approximately \$68,000 for the first quarter of fiscal 2011, and was related to the exercise of employee stock options as well as employee stock purchases.

Revolving credit facility. On August 19, 2011, we entered into an Amended and Restated Credit Agreement, dated as of August 19, 2011 (the Credit Agreement), with Bank of America, N.A. as administrative agent and collateral agent, and the lenders named therein (the Lenders), replacing our prior credit agreement entered into in 2004. The Credit Agreement increased the Company's senior secured revolving credit facility from \$45 million to \$50 million and extended the maturity date to August 2016. Borrowings under the facility bear interest at an annual rate equal to LIBOR plus a margin ranging from 175 to 225 basis points with no LIBOR floor. Additionally, a fee of 0.375% per annum is assessed on the unused portion of the facility.

Pursuant to the Credit Agreement, borrowings are subject to certain customary conditions and contain customary events of default, including, without limitation, failure to make payments, a cross-default to certain other debt, breaches of covenants, breaches of representations and warranties, a change in control, certain monetary judgments and bankruptcy and ERISA events. Upon any such event of default, the principal amount of any unpaid loans and all other obligations under the Credit Agreement may be declared immediately due and payable. The maximum availability under the facility is limited by a borrowing base formula which consists of a percentage of eligible inventory and eligible credit card receivables, less reserves.

Also on August 19, 2011, the Company entered into an Amended and Restated Security Agreement, dated as of August 19, 2011 with its Lenders. Pursuant to the Security Agreement, the Company pledged and granted to the administrative agent, for the benefit of itself and the secured parties specified therein, a lien on and security interest in all of the rights, title and interest in substantially all of the Company's assets to secure the payment and performance of the obligations under the Credit Agreement.

Table of Contents

As of April 28, 2012, the Company was in compliance with the covenants in the facility and there were no outstanding borrowings under the credit facility, with approximately \$31.4 million available for borrowing. We do not anticipate any borrowings under the credit facility during fiscal 2012.

At April 28, 2012, our balance of cash and cash equivalents was approximately \$73.2 million and the borrowing availability under our facility was \$31.4 million. We believe that the combination of our cash balances, line of credit availability and cash flow from operations will be sufficient to fund our planned capital expenditures and working capital requirements for at least the next twelve months.

Share Repurchase Authorization. On August 19, 2011, the Company announced that its Board of Directors authorized a stock repurchase plan providing for the purchase in the aggregate of up to \$40 million of the Company's outstanding common stock from time to time until February 2013.
