The Notice of Annual Meeting of Shareholders and a Proxy Statement, which describe the formal business to be conducted at the meeting, have been made a part of this invitation.

Your vote is important. Whether or not you plan to attend the annual meeting, I hope that you will vote as soon as possible. Please review the instructions on each of your voting options described in the Proxy Statement and the Notice of Internet Availability of Proxy Materials you received in the mail.

Please also note that if you hold your shares in street name through a bank or broker, that custodian cannot vote your shares on the election of directors without your specific instructions.

The Proxy Statement and related proxy form are first being made available on or about June 15, 2012.

Thank you for your ongoing support of, and continued interest in, Energy Focus.

Very truly yours,

PROXY STATEMENT FOR ANNUAL MEETING OF SHAREHOLDERS

ENERGY FOCUS, INC.

32000 AURORA ROAD

SOLON, OHIO 44139

INFORMATION CONCERNING SOLICITATION AND VOTING OF PROXIES

General

The enclosed proxy is solicited on behalf of the Board of Directors of Energy Focus, Inc., a Delaware corporation ("Energy Focus" or the "Company"), for use at the Annual Meeting of Shareholders (the "Annual Meeting") to be held on Wednesday, July 25, 2012, at 1:00 P.M., local time, or at any adjournments or postponements thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting of Shareholders. The Annual Meeting will be held at the principal executive offices of Energy Focus, Inc., 32000 Aurora Road, Solon, Ohio.

The cost of soliciting these proxies will be borne by the Company. Regular employees and directors of the Company may solicit proxies in person, by telephone, or by mail. No additional compensation will be given to employees or directors for such solicitation. The Company will request brokers and nominees who hold stock in their names to furnish proxy material to the beneficial owners of the shares and will reimburse such brokers and nominees for their reasonable expenses incurred in forwarding solicitation material to such beneficial owners.

Revocability of Proxies

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before its use either by delivering to Energy Focus, Inc., Attention: Mark J. Plush, 32000 Aurora Road, Solon, Ohio 44139, a written notice of revocation or a duly executed proxy bearing a later date, or by attending the Annual Meeting and voting in person. If a proxy is properly signed and not revoked, the shares it represents will be voted in accordance with the instructions of the shareholder. Please note, however, that if your shares are held of record by a broker, bank or other nominee and you wish to revoke your proxy or vote at the Annual Meeting, you must follow the instructions provided to you by the record holder and/or obtain from the record holder a proxy issued in your name. Attendance at the Annual Meeting will not, by itself, revoke a proxy.

Record Date and Share Ownership

Only shareholders of record at the close of business on May 29, 2012 (the "Record Date"), will be entitled to notice of and to vote at the Annual Meeting and any adjournments or postponements thereof. The Company had 44,513,135 shares of Common Stock, par value \$.0001 per share ("Common Stock"), issued and outstanding as of that date.

Voting

Each share of Common Stock held as of the Record Date entitles its holder to one vote on matters to be acted upon at the Annual Meeting, including the election of directors. Votes cast by proxy or in person at the Annual Meeting will be tabulated by the Inspectors of Election. Representatives of Cowden & Humphrey Co. LPA will act as the Inspectors of Election. The Inspectors of Election will also determine whether or not a quorum is present. Except with respect to the election of directors and except in certain other specific circumstances, the affirmative vote of a majority of shares represented and voting at a duly held meeting at which a quorum is present (which shares voting affirmatively also constitute at least a majority of the required quorum) is required under Delaware law for approval of proposals presented to shareholders. Withholding authority to vote on one or more nominees for election as directors will have the practical effect of voting against the election of such nominees for director, because withheld votes will be treated as votes cast under Delaware law. If you hold your shares in "street name" through a bank, broker or other nominee, such bank, broker or nominee will vote those shares in accordance with your instructions. To so instruct your bank, broker or nominee, you should refer to the information provided to you by such entity. Without instructions from you, a bank, broker or nominee will not be permitted to exercise its own voting discretion with respect to the proposals included in this proxy. Thus, if you do not give your bank, broker or nominee specific instructions with respect to the proposals, your shares will not be voted. These shares are called "broker non-votes." Shares represented by such broker non-votes will be counted in determining whether there is a quorum. Under Delaware law, broker non-votes are not considered votes for or against any particular proposal and therefore will have no direct impact on any proposal. We urge you to provide your bank, broker or nominee with appropriate voting instructions so that all your shares may be voted at the Annual Meeting.

Edgar Filing: ENERGY FOCUS, INC/DE - Form DEF 14A

The shares represented by the proxies received, properly marked, dated, signed and not revoked will be voted at the Annual Meeting. Where such proxies specify a choice with respect to any matter to be acted upon, the shares will be voted in accordance with the specifications made. Any proxy in the enclosed form which is returned but is not marked will be voted **FOR** the election of the

seven nominees for director listed in this Proxy Statement, **FOR** the approval of the proposal to the amend the Company's Form of Certificate of Incorporation, **FOR** the proposal to approve the amendment to the Company's 1994 Employee Stock Purchase Plan, and **FOR** the proposal to approve the amendment to the Company's 2008 Incentive Stock Plan.

PROPOSAL NO. 1: ELECTION OF DIRECTORS**Nominees**

Unless otherwise instructed, the proxy holders will vote the proxies received by them for the nominees named below, regardless of whether any other names are placed in nomination by anyone other than one of the proxy holders. If the candidacy of any one or more of such nominees should, for any reason, be withdrawn, the proxy holders will vote in favor of the remainder of those nominated and for such substituted nominees, if any, as shall be designated by the Board of Directors, taking into account any recommendations of the Nominating and Corporate Governance Committee, or the number of directors to be elected at this time may be reduced by the Board of Directors. The Board of Directors has no reason to believe that any of the persons named will be unable or unwilling to serve as a nominee or as a director if elected.

If a quorum is present and voting, the nominees receiving the highest number of votes will be elected as directors at the Annual Meeting to serve until the next annual meeting or until their respective successors are duly elected or appointed.

The Company's Bylaws provide that the number of directors of the Company shall be no less than five and no more than nine, with the exact number within such range to be fixed by the Board of Directors. Vote Required and Board of Directors Recommendation

The seven nominees receiving the highest number of votes at the Annual Meeting will be elected as directors of the Company.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE **FOR** EACH OF THE NOMINEES LISTED ABOVE.

PROPOSAL NO. 2: APPROVAL OF PROPOSAL TO AMEND THE FORM OF CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK

On May 8, 2012, the Board of Directors adopted a resolution setting forth a proposed amendment to the Company's Form of Certificate of Incorporation increasing the total number of authorized shares of Common Stock from 60,000,000 to 100,000,000 shares and directing that the proposed amendment be considered at the next annual meeting of shareholders. The text of that amendment is set forth below in this section.

General

We are asking you to approve an amendment to the Company's Form of Certificate of Incorporation to increase the total number of authorized shares from 62,000,000 shares to 102,000,000 shares. The additional Common Stock to be authorized by adoption of the amendment would have rights identical to the Company's currently outstanding Common Stock. The number of authorized shares of the Company's preferred stock would not be affected by this amendment. The number of authorized shares of the Company's Preferred Stock would be maintained at 2,000,000.

Substantially all of the Company's currently authorized Common Stock has been issued or is reserved for issuance. In order to continue to fund its operations and grow, the Company may need to raise additional capital from financing sources. One of the ways the Company can raise such cash is by issuing shares and derivative securities from time to time. Without additional authorized shares of Common Stock, the Company will be unable to raise all of the financing it will likely need to maintain its operations. Other important corporate needs, including the potential issuance of shares in a merger or acquisition, supporting the Company's existing shareholders' Rights Agreement, or issuing stock-based incentive rewards to the Company's employees and directors, require additional authorized shares of Common Stock as well.

Article IV(A) of the Company's Form of Certificate of Incorporation currently authorizes the Company to issue up to 62,000,000 shares of stock, 60,000,000 of which are designated as Common Stock, par value \$0.0001 per share, and 2,000,000 shares of which are designated as Preferred Stock, par value \$0.0001 per share. The Company's Common Stock is all of a single class, with equal voting, distribution, liquidation, and other rights. As of May 29, 2012, 44,513,135 shares of Common Stock were issued and outstanding. Substantially all of the remaining 15,486,865 authorized shares of Common Stock have been reserved for issuance under our incentive stock plans and stock purchase plan, and outstanding options, warrants, a convertible promissory note, and a purchase agreement. Therefore, we will require additional authorized shares of Common Stock if Proposal No. 3 to increase the number of shares of Common Stock authorized for issuance under the 1994 Employee Stock Purchase Plan, and Proposal No. 4 to increase the number of shares of Common Stock authorized for issuance under the 2008 Stock Incentive Plan, are approved by shareholders. We have no other current plans, proposals, understandings, agreements or commitments to issue additional common shares for any purpose other than those that may be exercised under such plans as described above.

We anticipate that we may find it beneficial to issue additional shares of Common Stock in the future in connection with one or more of the following:

debt or equity restructuring or refinancing transactions, such as debt exchanges or offerings of new convertible debt or modifications to existing securities or as payments of interest on debt securities;

acquisitions;

strategic investments;

partnerships, collaborations and other similar transactions;

the Company's stock incentive plans;

financing transactions, such as private or public offerings of Common Stock or convertible securities;

corporate transactions, such as stock dividends or splits; and

other corporate purposes that have not yet been identified.

If the shareholders approve this proposal to increase the number of authorized shares of Common Stock and the Company were to issue additional shares, such shares could have the effect of delaying or preventing a change of control of the Company without further action by the shareholders. For example, shares of authorized and unissued Common Stock could (within the limits imposed by applicable law) be issued that would make a change of control of the Company more difficult, or be issued to discourage a shareholder seeking to acquire more than 15 percent of the Company's Common Stock (an acquiring shareholder) from attempting to gain control of the Company.

Table of Contents

The share increase authorized by this proposal could permit the Company's Board of Directors to issue shares of Common Stock to all non-acquiring shareholders, who may then be in a position to vote to prevent or delay a proposed business combination that is deemed unacceptable to the Board of Directors, resulting in a potential conflict in the interests of some shareholders and the Company's management. Likewise, shares could be used to facilitate the adoption of measures intended to deter unfair or coercive takeover tactics not believed to be in the best interests of shareholders.

The Board of Directors is not aware of any attempt or contemplated attempt to acquire control of the Company, and the Common Stock increase is not being presented with the intent that it will be utilized as a type of anti-takeover measure.

Although the share increase will not affect the terms or rights of existing shareholders, an issuance of additional shares of Common Stock will generally have the effect of diluting the earnings per share and book value per share of outstanding shares of Common Stock, and the equity and voting rights of shareholders. Depending on the amount of consideration received for any issuance of additional shares of Common Stock, subsequent issuances may also reduce shareholders' equity on a per share basis.

In order to provide our Board with certainty and flexibility to undertake transactions such as those above to support our future business growth, we deem it is in the best interests of the shareholders and the Company to increase the number of authorized shares of the Company's Common Stock.

Text of the Proposed Amendment

If this Proposal 2 is approved, the Company will amend its Form of Certificate of Incorporation by replacing Article IV(A) in its entirety with the following:

ARTICLE IV

PROPOSAL NO. 3: APPROVAL OF AMENDMENT TO THE 1994 EMPLOYEE STOCK PURCHASE PLAN TO INCREASE THE NUMBER OF SHARES OF COMMON STOCK AUTHORIZED FOR ISSUANCE UNDER THE PLAN FROM 400,000 TO 600,000

General

The Company's Employee Stock Purchase Plan (the "Purchase Plan") was adopted by the Board in April 1994 and approved by the Company's shareholders in May 1994. The Purchase Plan provides a means by which employees may purchase Common Stock of the Company through payroll deductions. In 1999, the shareholders approved an amendment to the Purchase Plan to increase the number of shares authorized for issuance under the Purchase Plan from 50,000 to 100,000, and the Purchase Plan was amended to reflect such increase on December 7, 2000. On June 15, 2006 and 2011, shareholders approved amendments to reserve an additional 50,000 and 150,000 shares, respectively. As of May 29, 2012, approximately 110,000 shares remained available for future issuance under the Purchase Plan.

We are asking shareholders to approve an amendment to the Purchase Plan to increase the number of shares authorized for issuance from 400,000 to 600,000.

Description of Plan

The following summary of the Purchase Plan is qualified in its entirety by the specific language of the Purchase Plan, a copy of which is available to any shareholder upon request.

General

The Purchase Plan is intended to qualify as an employee stock purchase plan under section 423 of the Internal Revenue Code of 1986, as amended (the "Code"). Each participant in the Purchase Plan is granted at the beginning of each offering under the plan (an "Offering") the right to purchase through accumulated payroll deductions up to a number of shares of the Common Stock of the Company (a "Purchase Right") determined on the last day of the Offering. The Purchase Right is automatically exercised on the last day of the Offering unless the participant has withdrawn from participation in the Offering or in the Purchase Plan prior to such date.

Shares Subject to Purchase Plan

Currently, a maximum of 400,000 shares of the Company's Common Stock may be issued under the Purchase Plan, subject to appropriate adjustment in the event of a stock dividend, stock split, reverse stock split, combination, reclassification or similar change in the Company's capital structure or in the event of any merger, sale of assets or other reorganization of the Company. On May 8, 2012, the Board, subject to shareholder approval, amended the Purchase Plan to increase its share reserve by 200,000 to an aggregate of 600,000 shares. The shareholders are now being requested to approve the increase in the Purchase Plan reserve at the Annual Meeting.

Administration

The Purchase Plan is administered by the Board or a duly appointed committee of the Board. Subject to the provisions of the Purchase Plan, the Board determines the terms and conditions of Purchase Rights granted under the plan. The Board will interpret the Purchase Plan and Purchase Rights granted thereunder, and all determinations of the Board will be final and binding on all persons having an interest in the Purchase Plan or any Purchase Rights.

Eligibility

Any employee of the Company or of any present or future subsidiary corporation of the Company designated by the Board for inclusion in the Purchase Plan as of the first day of the Offering is eligible to participate in an Offering under the plan, so long as the employee is employed for more than 20 hours per week and more than five (5) months in a calendar year. However, no employee shall be granted an option who owns or holds options to purchase, or as a result of participation in the Purchase Plan would own or hold options to purchase, 5% or more of the total combined voting power or value of all classes of stock of the Company or of any parent or subsidiary corporation of the Company is entitled to participate in the Purchase Plan. As of May 29, 2012, the Company had approximately 50 employees that would be eligible to participate in the Purchase Plan.

Offerings

Generally, each Offering of Common Stock under the Purchase Plan is for a period of six months (an Offering Period) commencing on or about January 1 and July 1 of each year (an Offering Date). The Board may establish a different term for one or more Offerings or different commencement or ending dates for any Offering Period, so long as such change is announced at least fifteen (15) days prior to the scheduled beginning of the first Offering to be affected. Generally, shares are purchased on the last day of the Offering Period (a Purchase Date). The Board may establish Offering Periods of different lengths and commencement dates.

Table of Contents

Participation and Purchase of Shares

Participation in an Offering under the Purchase Plan is limited to eligible employees who authorize payroll deductions prior to the Offering Date. Payroll deductions may not exceed 5% (or such other rate as the Board determines) of an employee's compensation on any payday during the Offering Period. Once an employee becomes a participant in the Purchase Plan, that employee will automatically participate in each successive Offering Period until such time as the employee withdraws from the Purchase Plan, becomes ineligible to participate, or terminates employment. Subject to certain limitations, each participant in an Offering has a Purchase Right equal to the number of whole shares determined by dividing \$12,500 by the fair market value of a share of Common Stock on the Offering Date. However, no participant may purchase under the Purchase Plan shares of Common Stock having a fair market value exceeding \$25,000 in any calendar year (measured by the fair market value of the Company's Common Stock on the first day of the Offering Period in which the shares are purchased).

On each Purchase Date, the Company issues to each participant in the Offering the number of shares of the Company's Common Stock determined by dividing the amount of payroll deductions accumulated for the participant during the Offering Period by the purchase price, limited in any case by the number of shares subject to the participant's Purchase Right for that Offering. The price at which shares are sold under the Purchase Plan is equal to 85% of the lesser of the fair market value per share of the Company's Common Stock on the Offering Date or on the Purchase Date. The fair market value of the Common Stock on any relevant date is established by the Board based on the closing price per share on such date as reported on the Over the Counter Bulletin Board (OTCBB) Capital Market or such other exchange that the Company's Common Stock trades upon. Any payroll deductions under the Purchase Plan not applied to the purchase of shares will be returned to the participant, unless the amount remaining is less than the amount necessary to purchase a whole share of Common Stock, in which case the remaining amount may be applied to the next Offering Period.

A participant may withdraw from an Offering at any time without affecting his or her eligibility to participate in future Offerings. However, once a participant withdraws from an Offering, that participant may not again participate in the same Offering.

Transfer of Control

The Purchase Plan provides that, in the event of (i) a proposed sale of all or substantially all of the assets of the Company, or (ii) a merger of the Company with or into another corporation (a "Transfer of Control"), the acquiring or successor corporation will assume the Company's rights and obligations under the Purchase Plan or substitute equivalent Purchase Rights for such corporation's stock, unless the Board in its sole discretion adjusts the next Purchase Date to a date on or before the date of the Transfer of Control. In the event of a proposed dissolution or liquidation of the Company, the Offering Period will terminate unless otherwise provided by the Board.

Termination or Amendment

The Purchase Plan will continue in effect for a term of 20 years (until May 2014) unless it is terminated by the Board prior to such date. The Board may at any time amend or terminate the Purchase Plan, except that the approval of the Company's shareholders is required within twelve months of the adoption of any amendment increasing the number of shares authorized for issuance under the Purchase Plan, or changing the definition of the corporations which may be designated by the Board as corporations the employees of which may participate in the Purchase Plan.

Summary of United States Federal Income Tax Consequences

The following summary is intended only as a general guide as to the United States federal income tax consequences under current law of participation in the Purchase Plan and does not attempt to describe all possible federal or other tax consequences of such participation or tax consequences based on particular circumstances.

Generally, there are no tax consequences to an employee of either becoming a participant in the Purchase Plan or purchasing shares under the Purchase Plan. The tax consequences of a disposition of shares vary depending on the period such stock is held before its disposition. If a participant disposes of shares within two years after the Offering Date or within one year after the Purchase Date on which the shares are acquired (a "disqualifying disposition"), the participant recognizes ordinary income in the year of disposition in an amount equal to the difference between the fair market value of the shares on the Purchase Date and the purchase price. Such income may be subject to withholding of tax. Any additional gain or resulting loss recognized by the participant from the disposition of the shares is a capital gain or loss. If the participant disposes of shares at least two years after the Offering Date and at least one year after the Purchase Date on which the shares are acquired, the participant recognizes ordinary income in the year of disposition in an amount equal to the lesser of (i) the difference between the fair market value of the shares on the date of disposition

Table of Contents

and the purchase price or (ii) 15% of the fair market value of the shares on the Offering Date. Any additional gain recognized by the participant on the disposition of the shares is a capital gain. If the fair market value of the shares on the date of disposition is less than the purchase price, there is no ordinary income, and the loss recognized is a capital loss. If the participant owns the shares at the time of the participant's death, the lesser of (i) the difference between the fair market value of the shares on the date of death and the purchase price or (ii) 15% of the fair market value of the shares on the Offering Date is recognized as ordinary income in the year of the participant's death.

If the exercise of a Purchase Right does not constitute an exercise pursuant to an employee stock purchase plan under section 423 of the Code, the exercise of the Purchase Right will be treated as the exercise of a non-statutory stock option. The participant would therefore recognize ordinary income on the Purchase Date equal to the excess of the fair market value of the shares acquired over the purchase price. Such income is subject to withholding of income and employment taxes. Any gain or loss recognized on a subsequent sale of the shares, as measured by the difference between the sale proceeds and the sum of (i) the purchase price for such shares and (ii) the amount of ordinary income recognized on the exercise of the Purchase Right, will be treated as a capital gain or loss, as the case may be.

A capital gain or loss will be long-term if the participant holds the shares for more than 12 months and short-term if the participant holds the shares for 12 months or less. Long-term capital gains are currently subject to a maximum tax rate of 15%. Short-term capital gains are generally subject to the same tax rates as ordinary income.

If the participant disposes of the shares in a disqualifying disposition, the Company should be entitled to a deduction equal to the amount of ordinary income recognized by the participant as a result of the disposition, except to the extent such deduction is limited by applicable provisions of the Code or the regulations thereunder. In all other cases, no deduction is allowed the Company.

Changed Plan Benefits

Because benefits under the Purchase Plan will depend on employees' elections to participate and the fair market value of the Company's Common Stock at various future dates, it is not possible to determine the benefits that will be received by executive officers and other employees if the Purchase Plan is approved by the stockholders. Nonemployee directors are not eligible to participate in the Purchase Plan. As a point of reference, employees, including officers as a group, purchased 156,618 shares in 2011. No shares were purchased under the Purchase Plan by any directors who are not executive officers, any other nominees for election as directors or any associates of such directors or nominees or of any executive officers.

Vote Required and Board of Directors' Recommendation

The affirmative vote of a majority of the votes present or represented by proxy and entitled to a vote at the Annual Meeting, at which a quorum representing a majority of all outstanding shares of Common Stock of the Company is present and voting, is required for approval of this proposal.

The Board believes that the availability to purchase shares under the Purchase Plan at a discount from market price is important to attracting and retaining qualified officers and employees essential to the success of the Company, and that stock ownership is important to providing such persons with incentive to perform in the best interest of the Company.

PROPOSAL NO. 4: APPROVAL OF AMENDMENT TO THE 2008 STOCK INCENTIVE PLAN TO INCREASE THE NUMBER OF SHARES OF COMMON STOCK AUTHORIZED FOR ISSUANCE UNDER THE PLAN FROM 3,000,000 TO 5,000,000

General

On May 6, 2008, the Board of Directors adopted the 2008 Incentive Stock Plan (the "2008 Plan") and on September 30, 2008, shareholders approved it. The purpose of the 2008 Plan is to enable the Company to attract and retain top quality employees, officers, directors and consultants and to provide employees, officers, directors and consultants with an incentive to enhance shareholder returns. The Board of Directors believes that the granting of equity compensation awards is necessary to attract the highest quality personnel, as well as to reward and thereby retain existing key personnel. Moreover, the attraction and retention of such personnel is essential to the Company's continued progress, which ultimately is in the interests of its shareholders. Finally, the Board of Directors believes that stock options and other equity based incentives are an important part of the compensation package the Company offers to its employees and directors.

On June 16, 2010, the shareholders approved an amendment to increase the total number of shares of Common Stock authorized for issuance from 1,000,000 to 3,000,000. As of March 31, 2012, approximately 940,000 shares remain available for issuance. In order to continue to enable the Company to attract and retain top quality employees, officers, directors and consultants and to provide employees, officers, directors and consultants with an incentive to enhance shareholder returns, on May 8, 2012, the Board of Directors amended the 2008 Plan to increase the number of shares authorized for issuance from 3,000,000 to 5,000,000 subject to shareholder approval.

In order to grant incentive stock options to employees under Section 422 of the Internal Revenue Code of 1986, as amended, we are required to obtain shareholder approval of the amendment to the 2008 Plan.

Description of the 2008 Plan

The 2008 Plan provides for the grant of stock options, restricted share awards, and stock appreciation rights to directors, officers, employees and consultants of the Company and its subsidiaries. The 2008 Plan may be administered by the Board of Directors or a committee of the Board of Directors (in either case, referred to in this Proposal as the "Committee"), which has complete discretion to select the participants and to establish the terms and conditions of each option award, subject to the provisions of the 2008 Plan. Options granted under the 2008 Plan may be incentive stock options as defined in Section 422A of the Internal Revenue Code of 1986, as amended (the "Code"), or nonqualified options.

Shares Subject to the 2008 Plan

A total of 3,000,000 shares of Common Stock have been reserved for issuance under the 2008 Plan, as amended. If any option granted under the 2008 Plan expires or terminates for any reason without having been exercised in full, then the unpurchased shares subject to that option will once again be available for additional awards.

Administration

The 2008 Plan is administered by the Compensation Committee. Subject to the provisions of the 2008 Plan, the Committee may determine the persons to whom options are to be granted, the number of shares to be covered by each option, whether an option is to be an incentive stock option or a non-statutory stock option, the timing, terms of exercisability, and vesting of each option, including the effect thereon of an optionee's termination of service, the exercise price of and the type of consideration to be paid to the Company upon the exercise of each option, the duration of each option, and all other terms and conditions of the options. The Committee may interpret the 2008 Plan and options granted thereunder, and all determinations of the Committee may be final and binding on all persons having an interest in the 2008 Plan or any option. The Committee may re-price options with the consent of the optionees.

Eligibility

Options may only be granted under the 2008 Plan to employees, directors, and consultants of the Company, or a parent or a subsidiary of the Company. As of May 29, 2012, the Company had approximately 65 full-time employees, including five executive officers. While any person eligible under the 2008 Plan may be granted a non-statutory option, only employees may be granted incentive stock options.

Table of Contents

Non-Employee Director Options

The 2008 Plan provides for the annual automatic grant of an additional option to purchase 15,000 shares of Common Stock on the first business day following each regular annual shareholders meeting to each non-employee director who was not elected to the Board for the first time at such meeting and who will continue serving on the Board of Directors. These options become exercisable in 12 equal monthly installments.

Restricted Share Awards

The terms of any restricted share award under the 2008 Plan will be set forth in a restricted share agreement to be entered into between Energy Focus and each grantee. The Committee will determine the terms and conditions of any restricted share agreements, which need not be identical. Shares may be awarded under the 2008 Plan in consideration of services rendered prior to the award, without a cash payment by the grantee.

Terms and Conditions of Options

Options granted under the 2008 Plan as may not be exercised more than 10 years after the date of grant. Shares subject to cancelled or terminated options will be reserved for subsequently granted options. The number of options outstanding and the exercise price thereof will be subject to adjustment in the case of certain transactions such as mergers, recapitalizations, stock splits or stock dividends. The 2008 Plan will be effective for 10 years, unless sooner terminated or suspended.

Each option granted under the 2008 Plan will be evidenced by a written agreement between the Company and the optionee specifying the number of shares subject to the option and the other terms and conditions of the option, consistent with the requirements of the 2008 Plan. The exercise price of each option granted under the 2008 Plan must equal at least the fair market value of a share of Common Stock on the date of grant. For as long as the shares are listed for trading on the Over the Counter Bulletin Board, the fair market value of a share on the date of grant shall be the last transaction price quoted on that date.

Options granted under the 2008 Plan will become exercisable at such times and in such installments as the Committee shall provide in the terms of each individual stock option grant and agreement. The Committee must also provide in the terms of each stock option grant and agreement when the option expires and becomes un-exercisable, and may also provide the option expires immediately upon termination of employment for any reason. Unless otherwise provided in the applicable stock option grant and agreement, upon termination of employment of an optionee, all options that were then exercisable terminate three months following termination of employment, or such other period of time, not to exceed 12 months, as determined by the Committee.

Amendments to the 2008 Plan

The Committee may at any time amend, alter, suspend or terminate the 2008 Plan. No amendment, alteration, suspension or termination of the 2008 Plan will impair the rights of any optionee, unless mutually agreed otherwise between the optionee and the Committee, which agreement must be in writing and signed by the Company and the optionee. Termination of the 2008 Plan will not affect the Committee's ability to exercise the powers granted to it under the 2008 Plan with respect to options granted under the 2008 Plan prior to the date of such termination.

Certain Federal Income Tax Consequences

Incentive stock options granted under the 2008 Plan will be afforded favorable federal income tax treatment under the Code. If an option is treated as an incentive stock option, the optionee will recognize no income upon grant or exercise of the option unless the alternative minimum tax rules apply. Upon an optionee's sale of the shares (assuming that the sale occurs more than two years after grant of the option and more than one year after exercise of the option), any gain will be taxed to the optionee as long-term capital gain. If the optionee disposes of the shares prior to the expiration of either of the above holding periods, then the optionee will recognize ordinary income in an amount generally measured as the difference between the exercise price and the lower of the fair market value of the shares at the exercise date or the sale price of the shares. Any gain recognized on such a premature sale of the shares in excess of the amount treated as ordinary income will be characterized as capital gain.

All other options granted under the 2008 Plan will be non-statutory stock options and will not qualify for any special tax benefits to the optionee. An optionee will not recognize any taxable income at the time he or she is granted a non-statutory stock option. However, upon exercise of the non-statutory stock option, the optionee will recognize ordinary income for federal income tax purposes in an amount generally measured as the excess of the then fair market value of each share over its exercise price. Upon an optionee's resale of such shares, any difference between the sale price and the fair market value of such shares on the date of exercise will be treated as capital gain or loss and will generally qualify for long term capital gain or loss treatment if the shares have been held for more than one year. The Code provides for reduced tax rates for long term capital gains based on the taxpayer's income and the length of the taxpayer's holding period.

Table of Contents

The recipient of a restricted share award will generally recognize ordinary compensation income when such shares are no longer subject to a substantial risk of forfeiture, based on the excess of the value of the shares at that time over the price, if any, paid for such shares. However, if the recipient makes a timely election under the Code to be subject to tax upon the receipt of the shares, the recipient will recognize ordinary compensation income at that time equal to the fair market value of the shares over the price paid, if any, and no further ordinary compensation income will be recognized when the shares vest.

In the case of an exercise of a stock appreciation right or an award of stock units, the recipient will generally recognize ordinary income in an amount equal to any cash received and the fair market value of any shares received on the date of payment or delivery. The Company is generally entitled to a deduction for federal income tax purposes equal to the amount of ordinary compensation income recognized by the recipient of an award at the time such income is recognized.

The foregoing does not purport to be a complete summary of the federal income tax considerations that may be relevant to holders of options or restricted shares. It also does not reflect provisions of the income tax laws of any municipality, state or foreign country in which an optionee may reside, nor does it reflect the tax consequences of an optionee's death.

In addition, shares issuable pursuant to options and warrants which may be exercised through July 28, 2012 are deemed to be issued and outstanding and are included in the reported beneficial holdings, except as explained at the end of this note. These shares have been treated as outstanding in calculating the percentage ownership of the individual possessing such interest, but not for any other individuals. Thus, the number of shares to be outstanding for the purposes of this table varies depending on each individual's particular circumstances. This table does not include shares that are issuable upon the exercise of warrants that investors acquired as part of units they purchased in the Company's February 2012 private placement of shares of Common Stock and warrants to purchase common shares, but the notes to the table do include those warrant shares for the 5% shareholders who invested in that offering. Narrative Disclosure to Summary Compensation Table

The Compensation Committee (the "Committee") of our Board of Directors has the responsibility for administering our executive compensation program. The Committee reviews and, as appropriate, makes recommendations to the full Board regarding the base salaries and annual cash bonuses for executive officers, and administers our 2008 Incentive Stock Plan, including the grant of stock options. Where appropriate, we have also entered into employment agreements with certain executive officers.

Compensation Philosophy and Objectives: Our principal executive compensation policy, which is endorsed by the Committee, is to provide a compensation program that will attract, motivate and retain persons of high quality and will support a long-standing internal culture of loyalty and dedication to the interests of the Company and our shareholders. In administering the executive compensation program, the Committee is mindful of the following principles and guidelines, which are supported by the full Board:

Base salaries for executive officers should be competitive.

A sufficient portion of annual compensation should be at risk in order to align the interests of executives with those of our shareholders.

The variable part of annual compensation should reflect both individual and corporate performance.

As a person's level of responsibility increases, a greater portion of total compensation should be at risk and include more stock-based compensation to provide executives long-term incentives, and help to align further the interests of executives and shareholders in the enhancement of shareholder value.

Our executive officers' compensation currently has two primary components: base salary and stock-based awards granted pursuant to our 2008 Incentive Stock Plan. In addition, executive officers receive certain benefits that are specifically provided for in their employment agreements or are generally available to all salaried employees. We do not have any defined benefit pension plans, non-qualified deferred compensation arrangements, or supplemental retirement plans for our executive officers.

For each executive officer, the Committee determines the appropriate level for each compensation component based in part, but not exclusively, on its view of competitive market factors, internal equity and consistency, and other considerations deemed relevant, such as rewarding extraordinary performance. Our Chief Executive Officer provides the Committee with recommendations for executive officers other than himself, which the Committee reviews and approves as submitted or with revisions, if any. The Committee has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid compensation, between cash and non-cash compensation, or among different forms of non-cash compensation, and has not sought to formally benchmark our compensation against that of our peers.

In 2011 and 2010, no executive officer received an annual base salary increase, and the Company's executive officers agreed to continue the voluntary salary reductions that began during 2009, with the exception of Mr. Buelow whose salary was restored effective August 22, 2011. The salary reductions are described below.

On May 29, 2009, the Company's executive officers agreed to accept voluntary salary reductions for the remainder of the 2009 calendar year in exchange for the issuance of restricted shares of Common Stock as authorized under the Company's 2008 Stock Incentive Plan. On December 31, 2009, the Company's executive officers agreed to extend these salary reductions through June 30, 2010. On July 9, 2010, the Company's Chief Executive Officer, with the approval of the Board of Directors, decided to continue the cash salary reductions through December 31, 2010. Each executive officer named in the Summary Compensation Table above voluntarily accepted a 10% salary reduction for May 29, 2009 through December 31, 2010. One executive officer who was not included in the table voluntarily accepted a 40% decrease for the period. The number of restricted shares of Common Stock issued to each executive officer was equal to the dollar value of the individual's salary reduction divided by the closing price per share of the Company's Common Stock on May 29, 2009, December 30, 2009 and January 3, 2011. The total number of restricted shares of Common Stock issued to executive officers, including the Named Executive Officers, was 169,547, 137,693 and 93,230, respectively.

Edgar Filing: ENERGY FOCUS, INC/DE - Form DEF 14A

With the exception of Mr. Buelow whose salary was restored effective August 22, 2011, the salary reductions described above were continued in 2011; however, no restricted shares were awarded and no agreement to issue such shares was made. The amounts shown in the Salary caption of the Summary Compensation Table include the value of the restricted shares issued for 2010 as footnoted.

Base Salary: Base salaries for executive officers are based on a review of salaries for similar positions requiring similar qualifications in similar industries. In determining executive officer salaries, the Compensation Committee has approved the use by management of information from salary surveys.

The Committee determines levels of the executive officers' base salaries so as to be competitive with amounts paid to executives performing similar functions in comparable-size, non-durable manufacturing companies. The amount of each executive's annual increase in base salary, if any, is based on a number of largely subjective factors, including changes in the individual's duties and responsibilities, the personal performance of such executive officer, the performance of the Company, cost-of-living increases, and such other factors as the Committee deems appropriate, including the individual's overall mix between fixed and variable compensation and between cash and stock-based compensation.

Table of Contents

The Chief Executive Officer annually assesses the performance of all other executive officers and recommends salary increases to the Compensation Committee based on a number of factors such as performance evaluations, comparative data and other relevant factors. The Compensation Committee then reviews the Chief Executive Officer's recommendations, considers the performance and condition of the Company, and approves the increases for any other officer of the Company.

Bonus Incentive Plan: Prior to fiscal year 2011, the Compensation Committee administered an incentive plan to provide additional compensation to executives who meet established performance goals. In consultation with the Chief Executive Officer, the Compensation Committee annually determined the total amount of cash bonuses available for executive officers and certain other management employees. The target bonuses for executive officers were set by the Compensation Committee. Awards were weighted so that higher awards were received when the Company's performance reached maximum targets, smaller awards were received when the Company's performance reached minimum targets, and no awards are made when the Company did not meet minimum performance targets. After the total eligible bonus pool was determined, annual incentives were paid to executive officers based on their individual performance as determined by the Chief Executive Officer.

For fiscal year 2010, awards under this bonus plan were contingent upon the Company's attainment of operating profit and cash utilization targets set by the Compensation Committee in consultation with the Chief Executive Officer. The Company's performance in 2010 did not meet established performance goals and, consequently, no bonuses were paid under this bonus incentive plan.

Bonus Equity Incentive Plan: The Compensation Committee administers a stock option incentive plan for executive officers. Awards under this plan are contingent upon the Company's attainment of specified revenue and earnings targets set by the Compensation Committee in consultation with the Chief Executive Officer. The Company's performance in 2011 did not meet established performance goals, and consequently, no stock options were awarded under this Plan.

On February 25, 2010, stock options were granted under the Bonus Equity Incentive Plan for the 2010 plan year; however, these options were cancelled on April 1, 2011, as the Company did not attain the specified performance goals in 2010 that were established pursuant to the Plan.

For fiscal year 2012, no Bonus Incentive Plan or Bonus Equity Incentive Plan has been put in place.

Discretionary Bonuses: In addition to bonuses under the incentive plan, each of our executive officers is eligible to receive annual cash bonuses based on determinations made by the Committee in its discretion. The bonus may be based on the specific accomplishments of the individual or on the overall success of the Company, or both.

For 2011 and 2010, the Committee did not adopt a discretionary cash bonus plan and no such bonuses were paid.

Stock Options: The Compensation Committee believes that employee equity ownership provides significant motivation to executive officers to maximize value for the Company's shareholders and, therefore, periodically grants stock options under the Company's 2008 Stock Incentive Plan at the then current market price. The Compensation Committee administers the Company's 2008 Stock Incentive Plan. Stock options will only have value if the Company's stock price increases over the exercise price.

The Compensation Committee grants options to executive officers after consideration of recommendations from the Chief Executive Officer. Recommendations for options are based upon the relative position, responsibilities, and previous and expected contributions of each officer, previous option grants to such officers and customary levels of option grants for the respective position in other comparable companies. The exercise price for Stock Options is equal to the fair market value of the Company's Common Stock on the grant date. Options generally vest over a four-year period at a rate of 25% per year where the first 25% vests one year from the date of grant and the remaining 75% vests equally on a monthly basis over the remaining 36 months. The options expire 10 years from the date of grant. On October 21, 2010, the Company's Board of Directors authorized the immediate vesting of all stock options granted, and the immediate satisfaction or lapse of all restrictions on restricted share granted to the Company's employees and independent directors under the Company's stock option plans upon a Change in Control as defined in the 2008 Incentive Stock Plan, or by a Board of Directors determination following a person becoming an Acquiring Person as defined in the Rights Agreement dated as of October 25, 2006, between the Company and BNY Mellon Shareowners Services LLC. As of April 29, 2011, the 2008 Incentive Stock Plan was the only plan under which new options may be granted.

Our stock-based compensation policies have been impacted by the implementation of ASC 718. Generally, ASC 718 requires all stock-based payments to employees, including grants of employee stock options, to be expensed based on their fair values over the vesting period.

Table of Contents

Section 162(m): Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public corporations for compensation in excess of \$1 million paid for any fiscal year to a company's Chief Executive Officer or to any of the company's other three most highly compensated executive officers (other than the Chief Financial Officer). The statute generally exempts qualifying performance-based compensation from the deduction limit if certain conditions are met. In determining base salary, benefits, perquisites and other compensation, the Committee considers tax deductibility, but a more important goal is to offer compensation that is competitive within our peer group. For 2011, the Company believes that the compensation paid in 2011 to each of the other named executive officers is deductible under 162(m).

Employment agreements with Named Executive Officers: On December 30, 2009, the Company entered into an Officer Continuity Agreement with Mr. Kaveski. Under the agreement, should Mr. Kaveski be involuntarily terminated (i) within three months before or two years after a change of control, or (ii) at any other time, he will be entitled to receive severance benefits for one year from the date of termination. The agreement has a term of three years.

On September 13, 2005, the Company entered into a Management Continuity Agreement with Roger Buelow. Under the agreement, Mr. Buelow would be entitled to receive severance payments equal to one month of base salary, group health coverage premiums, and automobile allowance for each year of employment in the event his employment with the Company was terminated without cause, or if he terminated his employment following a material reduction in his responsibilities inconsistent with his position and past responsibilities under certain other conditions, including following a change in control as defined in the agreement. Mr. Buelow has been employed with the Company for twelve years. The agreement has a term of ten years.

The following table summarizes the estimated severance payments to be made under Mr. Kaveski's Officer Continuity Agreement and Mr. Buelow's Management Continuity Agreement at, following, or in connection with a termination of employment due to voluntary resignation, involuntary termination not for cause, death or disability, or change in control:

Employee	Voluntary Termination without Change in Control (\$)	Involuntary Termination without Change in Control (\$)	Death or Disability (\$)	Termination with Change in Control (\$)
Joseph G. Kaveski				
Severance (1)		239,328		239,328
Roger F. Buelow				
Severance (2)		195,386		195,386

- (1) The estimated severance payment is based on base salary at December 31, 2011. For Mr. Kaveski, the amount of severance equates to total yearly cash compensation received prior to involuntary termination for the term of twelve months from the date of involuntary termination, and \$14,328 for reimbursement of group health coverage premiums for twelve months.
- (2) The estimated severance payment is based on base salary at December 31, 2011. For Mr. Buelow, the amount of severance equates to one month of base salary, group health coverage premiums, and automobile allowance for each year of employment. Mr. Buelow has been employed with the Company for 12 years.

DIRECTOR COMPENSATION

The Company uses a combination of cash and stock-based awards to attract and retain qualified candidates to serve on its Board. In setting director compensation, it considers the significant amount of time that directors expend in fulfilling their duties, as well as the skill level required.

The following table sets forth the annual cash compensation for directors who are not also employees:

Annual Retainer	\$ 20,000
Additional Annual Retainers:	
Lead Director	\$ 10,000
Compensation Committee Chairman	5,000
Audit and Finance Committee Chairman	7,000
Nominating and Corporate Governance Committee Chairman	5,000

Under the terms of the Company's 2008 Stock Incentive Plan as amended, on the first business day following the conclusion of each regular annual meeting of the Company's shareholders, each non-employee director who was not elected to the Board for the first time at such meeting and who will continue serving as a member of the Board of Directors shall receive an option to purchase 15,000 shares of Common Stock. These options have an exercise price of 100% of the fair market value of the stock on the date of grant, become exercisable monthly over the 12-month period following the date of grant, and expire the day before the tenth anniversary of the grant date or 12 months after termination of service on the Board. The options vest if a Change in Control occurs with respect to the Company during the optionee's service, as defined by the 2008 Stock Incentive Plan as amended.

For fiscal year 2011 and 2010, in lieu of the automatic options described above, Messrs. von Paumgarten, Finnerty and Schneeberger were each granted 40,000 options. These options vest over four years with 25% vesting after one year and the remaining 75% vesting monthly over the remaining 36 month period. The exercise price for these options was equal to the fair market value of the Company's Common Stock on the July 23, 2010 grant date.

Table of Contents

In the third quarter of 2010, the Board of Directors approved a program offering Independent Directors of the Company the option of accepting restricted shares of the Company's Common Stock in lieu of quarterly cash compensation. Directors who chose to participate would receive the equivalent of two dollars (\$2.00) of the Company's Common Stock for every one dollar (\$1.00) of their normal cash compensation. Directors that chose to accept this program agreed to receive compensation in restricted shares for four consecutive quarters, covering the period of July 2010 until June 2011, with the Common Stock vesting over the equivalent 12 month period. The price of the restricted shares issued pursuant to this program was based upon the closing price of the Company's Common Stock on September 20, 2010.
