Peoples Financial Corporation 401(k) Profit Sharing Plan

Biloxi, Mississippi

We have audited the accompanying statements of net assets available for benefits of Peoples Financial Corporation 401(k) Profit Sharing Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Peoples Financial Corporation 401(k) Profit Sharing Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the year ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2011 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the United States Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements, and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTE A DESCRIPTION OF PLAN

The following description of the Peoples Financial Corporation (the Company) 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan s provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who are age 21 or older and employed in a position requiring the completion of at least 1,000 hours of service per plan year. Entrance in the Plan is on January 1st or July 1st, following the employee s initial date of eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employer Contributions

A summary of employer contributions is as follows:

Company Matching Contributions: Contributions are determined solely by the Company s Board of Directors. Contributions can be up to a dollar amount or percentage of included compensation that is uniformly determined by the Company for all eligible participants. In addition, the Company may make a discretionary matching contribution to all eligible participants that is allocated equally as a percentage of 401(k) deferrals that do not exceed a specific dollar amount or a percentage of included compensation that is uniformly determined by the Company. The matching contribution is allocated among the investment options according to each participant s instructions.

Company Nonelective Contributions: Contributions are determined solely by the Company s Board of Directors. The allocation for each eligible participant is a uniform percentage of included compensation. Qualified nonelective contributions will be allocated as a uniform percentage of included compensation to all eligible participants who are non-highly compensated employees. The Company nonelective contributions are allocated among the investment options according to each participant s instructions.

Participant Accounts

Each participant will have separate accounts established to reflect the employee s interest under the Plan. A summary of the possible accounts is as follows:

Employer Discretionary Matching Contribution Account:

This account is credited quarterly with the amount of the Employer Discretionary Matching Contribution allocable to the participant, and with the employee s share of

A participant may authorize a contribution to the Plan on the employee s behalf, a salary reduction contribution cannot exceed 80% of compensation. The employee s interest in this account will always be 100% vested.

Company Nonelective Contribution Account:

Eligible participants are entitled to receive required minimum distributions in annual installments.

7

There were no forfeitures during the year ended December 31, 2011 or as of December 31, 2011.

Participant Loans

Participant loans are not permitted by the Plan.

NOTE B SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

New Accounting Pronouncements

There were no new accounting pronouncements issued which are applicable to the Plan.

Investment Valuation

The Plan has invested in the MetLife Stable Value Fund, a group trust which is a holder of a Met Managed Guaranteed Interest Contract (GIC). The investment contract is stated at fair value and is adjusted to contract value (which represent contributions made under the contract, plus interest earned, less withdrawals and administrative expenses) on the Statement of Net Assets Available for Benefits. As described in Accounting Standards Codification (ASC) Topic 962, Defined Contribution Pension Plans, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the ASC, the Statement of Net Assets Available for Benefits presents the fair value of the Plan s investment contract as well as the adjustment of the investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

The Plan s investments in mutual funds and Company common stock are recorded at fair value as determined by the closing price on actively traded markets. Purchases and sales of securities are recorded on trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net change in the fair value of investments includes the Plan s gains and losses on investments bought and sold as well as held during the Plan year.

Benefit Payments

Benefit payments to participants are recorded upon approval to be distributed.

8

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

NOTE C PARTICIPANTS INVESTMENTS

All investments are held by Fidelity Investments in an account managed by 401(k) Plus, Inc., the administrator of the Plan. Investments representing more than 5% of net assets are as follows:

December 31,	2011	2010
GIC Group Annuity Contract:		
MetLife Stable Value Fund	\$ 6,302,220	\$ 5,609,609
Registered investment companies (Mutual Funds):		
Fidelity Spartan U.S. Equity Index Fund		675,226
BlackRock U.S. Opportunities Fund	1,129,967	1,267,958

T. Rowe Price New American Growth Fund	931,894	963,450
Investment in common stock:		
Peoples Financial Corporation, common stock	814,748	1,124,781

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2011.

Mutual funds: Valued at the closing price reported on the active market on which the funds are traded.

Common stock: Valued at the closing price reported on the active market on which individual securities are traded.

Guaranteed investment contract: The investment contract is valued at the fluctuating value of the separate account assets backing the contract and the wrap contract is valued based on the wrap contract fees provided by the insurance company.

Financial assets and liabilities reported at fair value at each reporting date are classified and disclosed in one of the following categories: Level 1

Quoted market prices in active markets for identical assets or liabilities, Level 2

Observable market based inputs or unobservable inputs that are corroborated by market data, or Level 3

Unobservable inputs that are not corroborated by market data.

The asset s or liability s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The balance of investments which are measured at fair value on a recurring basis, by level within the fair value hierarchy, as of December 31, 2011 and 2010 are as follows:

NOTE D METLIFE STABLE VALUE FUND

The MetLife Stable Value Fund (the Fund) is fully-benefit responsive. The average yield and crediting interest rates for such investments were 8.69% and 2.95%, respectively, for 2011 and 8.97% and 2.95%, respectively, for 2010. The average yield credited to participants was 4.12% and 3.73% for 2011 and 2010, respectively. These investments were rated Aa3 and AA- at December 31, 2011.

In a Met Managed GIC, the assets are invested in a MetLife separate account. MetLife guarantees principal and accrued interest, based on credited interest rates, for participant-initiated withdrawals as long as the contract remains active. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio. The credited rate resets quarterly and has a minimum interest rate of 0%. MetLife resets the rate by amortizing the difference between the market value of the portfolio and the guaranteed value over the weighted average duration of the Fund s investments. Participants receive the principal and accrued earnings credited to their accounts upon withdrawal for allowed events. These events include transfers to other investment options, and payments due to retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

The Plan may terminate its participation in the contract at any time. If it chooses to do so, the Plan will receive the lesser of the guaranteed or market value.

The sensitivity of an increase or decrease in the Fund s market yield, with no other change in the duration of the underlying portfolio and no contributions or withdrawals, on the weighted average crediting rate for 2011 and for each quarter in 2012 is as follows:

	Actual 12/31/2011	Projected 3/31/2012	Projected 6/30/2012	Projected 9/30/2012	Projected 12/31/2012

Decrease of 25%	3.53%	3.46%	3.40%	3.34%	3.28%

The sensitivity of an increase or decrease in the Fund s market yield, with no change in the duration of the underlying portfolio, no contributions and the immediate withdrawal of 10% of the fund, on the weighted average crediting rate for 2011 and for each quarter in 2012 is as follows:

The Plan purchased \$73,369 (5,499 shares) and sold \$9,457 (668 shares) of the Company s common stock during the year ended December 31, 2011. NOTE F CONCENTRATION OF MARKET RISK

The Plan has invested a significant portion of its assets in the Company s common stock, which approximates 6% of the Plan s net assets available for benefits as of December 31, 2011.
