(Active, the Company, we or us). PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Code of Conduct

We have adopted a Code of Conduct that applies to all of our directors, officers, and employees, including our principal executive officer and principal financial officer. This Code of Conduct is reviewed on an annual basis and modified as deemed necessary. A copy of our Code of Conduct, and any amendments to this code, or any waivers of its requirements, is located on our website at www.activenetwork.com, as permitted under SEC rules and regulations. A copy of the Code of Conduct may also be obtained free of charge, from us upon a request directed to The Active Network, Inc., 10182 Telesis Court, San Diego, California 92121, Attention: Investor Relations. We will disclose within four business days any substantive changes in or waivers of the Code of Conduct granted to our principal executive officer, principal financial officer, principal accounting officer, or controller, or persons performing similar functions, by posting such information on our website as set forth above rather than by filing a Form 8-K with the Securities and Exchange Commission (SEC).

Stockholder Recommendations for Director Nominees

In nominating candidates for election as a director, the Nominating and Corporate Governance Committee will consider a reasonable number of candidates recommended by a single stockholder who has held over 0.1% of Active common stock for over one year and who satisfies the notice, information and consent provisions set forth in our Amended and Restated Bylaws and Corporate Governance Guidelines. Stockholders who wish to recommend a candidate may do so by writing to the Nominating and Corporate Governance Committee in care of the Corporate Secretary, The Active Network, Inc., 10182 Telesis Court, San Diego, CA 92121. The Nominating and Corporate Governance Committee will use the same evaluation process for director nominees recommended by stockholders as it uses for other director nominees. A printed copy of our Amended and Restated Bylaws and Corporate Governance Guidelines may be obtained by any stockholder upon request to our Investor Relations Department.

Identification and Evaluation of Director Nominees

Our Nominating and Corporate Governance Committee uses a variety of methods for identifying and evaluating director nominees. Our Nominating and Corporate Governance Committee regularly assesses the appropriate size and composition of the Board, the needs of the Board and the respective Board Committees, and the qualifications of candidates in light of these needs. Candidates may come to the attention of the Nominating and Corporate Governance Committee through stockholders, management, current members of the Board, or search firms. The evaluation of these candidates may be based solely upon information provided to the Nominating and Corporate Governance Committee or may also include discussions with persons familiar with the candidate, an interview of the candidate or other actions the Nominating and Corporate Governance Committee deems appropriate, including the use of third parties to review candidates.

While we do not have a stand-alone diversity policy, in considering whether to recommend any director nominee, including candidates recommended by stockholders, we believe that the backgrounds and qualifications of our directors, considered as a group, should provide a significant mix of experience, knowledge and abilities that will allow our Board and its Committees to fulfill their respective responsibilities. As set forth in our Corporate Governance Guidelines, these criteria generally include, among other things, an individual's business experience and skills (including skills in core areas such as operations, management, technology, accounting and finance, strategic planning and international markets), as well as independence, judgment, knowledge of our business and industry, professional reputation, leadership, integrity and ability to represent the best interests of the Company's stockholders. In addition, the Nominating and Corporate Governance Committee will also consider the ability to commit sufficient time and attention to the activities of the Board, as well as the absence of any potential conflicts with the Company's interests. The Nominating and Corporate Governance Committee

Table of Contents

does not assign specific weights to particular criteria and no particular criterion is necessarily applicable to all prospective director nominees. Our Board will be responsible for selecting candidates for election as directors based on the recommendation of the Nominating and Corporate Governance Committee.

We believe that our current Board includes individuals with a strong background in executive leadership and management, accounting and finance, and Company and industry knowledge. In addition, each of our directors has a strong professional reputation and has shown a dedication to his profession and community. We also believe that our directors' diversity of backgrounds and experiences results in different perspectives, ideas, and viewpoints, which make our Board more effective in carrying out its duties. We believe that our directors hold themselves to the highest standards of integrity and that they are committed to representing the long-term interests of our stockholders.

The Nominating and Corporate Governance Committee and the Board believe that each of the director nominees for election at the annual meeting brings a strong and unique set of qualifications, attributes and skills and provides the Board as a whole with an optimal balance of experience, leadership and competencies in areas of importance to our Company.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act, requires our executive officers and directors and persons who beneficially own more than 10% of our common stock to file initial reports of beneficial ownership and reports of changes in beneficial ownership with the SEC. Such persons are required by SEC regulations to furnish us with copies of all Section 16(a) forms filed by such persons.

To our knowledge, no person who, during the fiscal year ended December 31, 2012, was a director or officer of the company, or beneficial owner of more than ten percent of our common stock (which is the only class of our securities registered under Section 12 of the Exchange Act), failed to file on a timely basis reports required by Section 16 of the Exchange Act during such fiscal year with the exception of Bruns Grayson who filed a Form 4 filing on August 16, 2012. The foregoing is based solely upon a review by us of Forms 3 and 4 relating to the most recent fiscal year as furnished to us under Rule 16a-3(d) under the Exchange Act, and Forms 5 and amendments thereto furnished to us with respect to its most recent fiscal year, and any representation received by us from any reporting person that no Form 5 is required.

Information regarding our executive officers may be found under the caption "Directors, Executive Officers and Corporate Governance Executive Officers" in Item 10 of the Form 10-K filed on February 27, 2013. Such information is incorporated herein by reference.

Our directors are elected at the annual meeting of stockholders to hold office until the annual meeting of stockholders for the ensuing year or until their successors have been duly elected and qualified. determining in advance whether to engage our independent registered public accounting firm and their activities with respect to our financial reporting and compliance with our disclosure policies;

reviewing our annual and quarterly consolidated financial statements and reporting and discussing the financial statements and reports with our independent auditors and management;

approving the disclosures in and filing of our periodic reports on Form 10-K and Form 10-Q to be filed with the SEC;

establishing procedures for the receipt, retention and treatment of complaints received by us regarding internal controls, accounting or auditing matters;

establishing procedures for the confidential, anonymous submissions by employees regarding accounting, internal controls or accounting matters;

reviewing and, if appropriate, approving proposed related party transactions; and

developing, reviewing and amending our code of conduct.

Both our independent auditors and management periodically meet separately with our Audit Committee. A copy of our Audit Committee charter is available on our website www.activenetwork.com.

The current members of our Audit Committee are Messrs. Clancy, Grayson and Green. Mr. Green serves as chairman of the Audit Committee. Our Board of Directors has determined that all of the members of our Audit Committee meet the requirements for financial literacy under the applicable rules and regulations of the SEC and the NYSE. Our Board of Directors has determined that each member of Audit Committee is an Audit Committee financial expert as defined under the applicable rules of the SEC and has the requisite financial sophistication as defined under the applicable rules and regulations of the NYSE. Compensation Committee. Our Compensation Committee adopts and administers the compensation policies, plans and benefit programs for our executive officers and all other members of our executive team. The responsibilities of this committee include, among other things:

determining the compensation and other terms of employment of our executive officers and senior management, and reviewing and approving corporate performance goals and objectives relevant to such compensation;

recommending to our Board of Directors the type and amount of compensation to be paid or awarded to members of our Board of Directors;

evaluating and recommending to our Board of Directors the equity incentive plans, compensation plans and similar programs advisable for us, as well as modification or termination of existing plans and programs;

administering the issuance of stock options and other equity incentive arrangements under our equity incentive plans;

establishing policies with respect to equity compensation arrangements; and

reviewing and approving the terms of employment agreements, severance arrangements, change-in-control protections and any other compensatory arrangements for our executive officers and senior management.

Our Compensation Committee with the input of senior management evaluates potential risks related to our compensation policies and practices for employees and has determined that we have no compensation risks that are reasonably likely to have a material adverse effect on our company. We structure our compensation to address company-wide risk. This is accomplished in part by tying compensation to corporate goals and individual performance goals. These goals can be adjusted annually to address risks identified in the annual risk assessment. We also use a mix of different compensation elements to balance short-term awards versus long-term awards to align compensation with our business strategy and stockholders' interests. We believe the combination of base salary, performance-based cash awards and stock-based incentive awards with multi-year vesting periods is balanced and serves to motivate our employees to accomplish our business plan without creating risks that are reasonably likely to have a material adverse effect on our company. We have adopted a Compensation Committee charter, a copy of which is available on our website at www.activenetwork.com.

The current members of our Compensation Committee are Messrs. Clancy, Green and Levin. Mr. Clancy serves as the chairman of the Compensation Committee. Our Board of Directors has determined that all of the members of our Compensation Committee are independent directors under the applicable rules and regulations of the SEC and NYSE. Our Compensation Committee met 13 times during 2012.

Nominating and Corporate Governance Committee. Our Nominating and Corporate Governance Committee is responsible for, among other things, making recommendations regarding corporate governance, the composition of our Board of Directors, identification, evaluation and nomination of director candidates and the structure and composition of committees of our Board of Directors.

The responsibilities of this committee include, among other things:

ITEM 11. EXECUTIVE COMPENSATION

Compensation Committee Interlocks and Insider Participation

No member of our Compensation Committee is or has at any time during the past year been one of our officers or employees. None of our executive officers currently serves or in the past year has served as a member of the Board of Directors or Compensation Committee of any entity that has one or more executive officers serving on our Board of Directors or Compensation Committee.

DIRECTOR COMPENSATION

Our directors play a critical role in guiding our strategic direction and overseeing the management of the Company. Ongoing developments in corporate governance and financial reporting have resulted in an increased demand for such highly qualified and productive public company directors. The many responsibilities and risks and the substantial time commitment of being a director of a public company require that we provide adequate incentives for our directors' continued performance by paying compensation commensurate with our directors' workload. Our non-employee directors are compensated based upon their respective levels of board participation and responsibilities, including service on Board committees. Directors who are our employees, such as Mr. Alberga and Mr. Landa, receive no separate compensation for their services as directors.

Our director compensation is overseen by the Compensation Committee, which makes recommendations to the Board of Directors on the appropriate amount and structure of our programs in light of then-current competitive practice. The Compensation Committee receives advice and recommendations from Compensia, an independent compensation consultant retained by the Compensation Committee, with respect to its determination on director compensation matters.

Pursuant to our 2012 Non-Employee Director Compensation Policy, non-employee directors are compensated for their services on our Board of Directors. Pursuant to the policy:

each non-employee director received an annual fee of \$32,500 payable for the director's service during the year and 16,911 options to purchase shares of common stock;

the Chairman of the Audit Committee received an additional annual fee of \$20,000 for the Chairman's service during the year and each other Audit Committee member received an additional annual fee of \$5,500;

the Chairman of the Compensation Committee received an additional annual fee of \$10,000 for the Chairman's service during the year and each other Compensation Committee member received an additional annual fee of \$4,000; and

the Chairman of the Nominating and Corporate Governance Committee received an additional annual fee of \$8,750 for the Chairman's service during the year and each other Nominating and Corporate Governance Committee member received an additional annual fee of \$2,750.

Annual option grants were granted on the date of the Company's 2012 annual meeting of stockholders and vest in equal monthly installments over the 12-month period following the date of grant. The cash portion of the non-employee director compensation is payable in equal quarterly installments over the 12-month period following the Company's 2012 annual meeting of stockholders. Each director is also entitled to be reimbursed for reasonable travel and other expenses incurred in connection with attending meetings of the Board of Directors and any Committee on which he serves.

Our executive compensation program is designed to deliver on this commitment by using a balanced performance measurement framework that is aligned with the key drivers of performance and stockholder value creation. This executive summary provides an overview of our program, including our fiscal 2012 company performance and its alignment with the compensation paid to our executives.

We believe that the pay-for-performance philosophy of our executive compensation program helped drive improvement of our financial and operational performance in fiscal 2012, despite the challenges of the continued uncertainty of the economic environment. Notwithstanding these challenges, we believe fiscal 2012 was a good performance year due to the strength of our leadership team and employees, our business model, and continued focused on enhancing our products and customer experience. Highlights of our 2012 performance include (all comparisons are made to fiscal year 2011):

Total net revenue up 24% to \$418.9 million.

Table of Contents

Technology revenue increased 28% and constituted 88%, or \$370.5 million, of total net revenue.

Net registration revenue increased 21% to \$275.8 million with the number of registrations up 12% and the revenue per registration up 8%.

Approximately 55,000 organizations utilized the Company's technology solutions, up 7%.

Marketing services revenue constituted 12%, or \$48.4 million, of total net revenue.

Net loss was \$43.0 million compared to a net loss of \$27.1 million.

Adjusted EBITDA, a non-GAAP financial measure described in the Company's Annual Report on Form 10-K filed with the SEC on February 27, 2013, was \$38.4 million. Excluding the impact of business combination accounting rules related to deferred revenue, Adjusted EBITDA was \$50.8 million. A reconciliation of Adjusted EBITDA is also set forth on Annex A to this Amendment.

We have designed our compensation and benefits programs and philosophy to attract, retain, motivate and engage talented, qualified and committed executive officers who share our commitment to our customers and participant communities and desire to work toward our corporate objectives and annual and long-term goals. We believe compensation incentives for our executive officers should promote the success of our company and motivate them to pursue corporate objectives, and above all should be structured so as to reward clear and easily measurable performance goals that closely align the executive officers' incentives with the long-term interests of our stockholders. Our executive compensation programs combine short- and long-term components, cash and equity and fixed and performance based measures in the amounts and proportions that we believe are most appropriate to create incentives and reward our executive officers for achieving our objectives. Our executive compensation program also is intended to make us competitive in our industry, where there is considerable competition for talented executives.

The Compensation Committee of our Board of Directors oversees our executive compensation program. In this role, the Compensation Committee reviews on an annual basis and approves compensation decisions relating to our executives, including our named executive officers. Prior to becoming a public company in 2011, our compensation programs reflected our status as a start-up company, and our principal objective had been to preserve cash resources while attracting and retaining executive talent, largely through the grant of equity incentives consisting of stock options that vest over time. Following our initial public offering, we began to shift the orientation of our program from a heavy reliance on equity compensation as a recruitment and motivation tool to a more balanced mix of cash and equity compensation opportunities, as well as a more balanced approach to short term and long term incentives. In fiscal year 2012, we continued to favor long term incentives and specifically began utilizing time-based restricted stock units and performance based equity awards for all of our named executive officers as a means to directly align executive compensation with company performance.

Our Compensation Committee re-engaged Compensia, an independent executive compensation consulting firm, to evaluate our executive compensation programs for fiscal year 2012 relative to those of a public company peer group and to make recommendations with respect to appropriate levels and forms of compensation for named executive officers. The objective of this evaluation and the resulting compensation adjustments was to ensure that we remain competitive as a public company and that our named executive officers have meaningful incentives to remain employed with us and are aligned towards the achievement of our corporate goals. Based on these recommendations, our Compensation Committee adjusted our compensation programs in 2012, as described below.

Our Compensation Committee determines allocations of compensation between cash and equity compensation or among different forms of non-cash compensation based on its review of typical allocations within our compensation peer group. The Compensation Committee has not adopted, however, and has no current plans to adopt, any policy requiring a specific allocation between cash and equity compensation or between short-term and long-term compensation. In the course of its deliberations, the Compensation Committee

Table of Contents

reviews each component of compensation, how they relate to each other and, in particular, how they relate to and affect total compensation. The Compensation Committee's philosophy is that a substantial portion of an executive officer's compensation should be performance-based, whether in the form of equity or cash compensation. In that regard, during fiscal year 2012, we began granting performance based restricted stock units and performance based options to our named executive officers as a significant component of compensation because we believe that they best align individual compensation with the creation of stockholder value. Since we did not meet the financial targets under our 2012 Bonus Plan, we did not pay annual incentive payouts to our named executive officers for 2012.

Our named executive officers for fiscal year 2012 were Matthew Landa, Chief Executive Officer and Director; Darko Dejanovic, President; David Alberga, our Executive Chairman and Chairman of the Board; Scott Mendel, Chief Financial Officer; Kory Vossoughi, Chief Legal Officer; and Sheryl Roland, our former Executive Vice President, Human Resources. In November 2012, Ms. Roland resigned from the company.

Consideration of Say-on-Pay Vote Results

The non-binding advisory proposal regarding compensation of the named executive officers submitted to stockholders at our 2012 annual meeting of stockholders was approved by over 99% of the votes cast. The Compensation Committee considered this favorable stockholder vote as a strong endorsement of our executive compensation program. The Compensation Committee will continue to consider the outcome of the Company's say-on-pay votes when conducting its regular practice of evaluating the program and making future compensation decisions for the named executive officers.

Overview of Compensation Program

The elements of our compensation program are directed toward providing our executives with both annual and long-term performance incentives, with the overall objective to motivate our executives to help us achieve our corporate goals and build value for our stockholders. The elements of our compensation program primarily include:

base salary;

performance-based cash bonus awards;

stock-based incentive awards, including performance-based awards; and

retention and change in control agreements.

We also provide our executives with long-term disability insurance, eligibility to participate in our deferred compensation plan and 401(k) plan with matching contributions, and a limited number of additional benefits that are provided to all of our employees. Each of these compensation elements is described in more detail below.

In determining the relevant amounts for each of these compensation elements to be awarded to our named executive officers, our Compensation Committee considers the following objectives:

A Substantial Portion of Executive Compensation Should Be Performance-Based. We believe that a substantial portion of the compensation received by each of our executives should be directly tied to, and contingent upon, the performance of our company as a whole and the executive's individual contribution and performance. To support this objective, we established the 2012 Active Incentive Plan, or the Bonus Plan. The Bonus Plan is designed to align each named executive officer's efforts with our key corporate goals by providing an opportunity for the executive to earn an annual cash bonus with amounts determined by considering our success in achieving our key corporate goals, which are Adjusted EBITDA and revenue targets. In 2012, we also began utilizing performance-based equity awards to directly align our Company's stock performance and achievement of Adjusted EBITDA and

revenue targets with long-term incentive compensation.

Table of Contents

Stock-Based Incentive Awards Should Comprise a Substantial Portion of Executive Compensation. We believe that a substantial portion of executive compensation should be delivered in the form of stock-based incentive awards, where realizable value is tied directly to the market price of the Company's common stock, in order to align the long-term interests of our executives with those of our stockholders and to provide a retention incentive for our executives.

Our Executive Compensation Should Be Competitive and Fair. In order to help us attract and retain talented executives, we believe that our compensation programs should be competitive when compared to our peers as well as perceived as fair, when considered both externally as well as internally.

Compensation Process

Our Compensation Committee is responsible for establishing our compensation philosophy and setting the compensation levels for our executives, including base salaries, target-based cash bonus awards and stock-based incentive awards. The Compensation Committee is responsible for approving the corporate goals for purposes of determining annual cash bonus awards. To assist the Compensation Committee, our Chief Executive Officer prepares a report during the first quarter of each fiscal year recommending base salaries, target annual bonus awards, stock-based incentive awards, corporate goals for the fiscal year and individual performance goals for each named executive officer. The Compensation Committee in its sole discretion may accept or adjust the compensation recommendations it is provided and reviews the recommendations in conjunction with market compensation data as described below. No executive officer is present at the time his or her compensation is being discussed or determined by the Compensation Committee.

The Compensation Committee utilizes an empirically-based approach that involves formal benchmarking as well as best practices with respect to compensation and benefits. As we continue to gain experience as a public company, we expect that the specific direction, emphasis and components of our executive compensation program will continue to evolve.

In January 2012, the Compensation Committee reengaged Compensia, an independent compensation consulting firm, to provide executive compensation advisory services for 2012. Compensia performed the following services during 2012:

performed analysis with respect to the Company's 2012 peer group;

advised the Compensation Committee on current compensation market trends;

assessed our executives' base salaries, cash bonuses and equity compensation levels and plan structures against our peer group companies;

reviewed market and best practices with respect to executive severance/change-of-control arrangements;

reviewed considerations and market practices related to short-term cash incentive plans; and

reviewed board of director compensation market practices among public high-technology companies.

In addition, the Company has engaged Towers Watson to provide various human resources consulting services, including advice on compensation for our named executive officers.

Determination of Executive Compensation

In setting the compensation for our named executive officers, our Compensation Committee places significant emphasis on the recommendation of our Chief Executive Officer (other than with respect to determining his own compensation), considers our overall performance during the prior fiscal year and the executive's individual contributions during the prior fiscal year, as well as relevant market data.

Table of Contents

Components of Executive Compensation

As indicated above, we compensate our executives through a combination of annual and long-term incentives that are designed to motivate our executives to help us achieve our key corporate goals and build value for our stockholders. During 2012, our executive compensation program consisted of the following elements:

Base Salary. Our Compensation Committee is responsible for setting our named executive's base salaries. One of the primary objectives of our compensation program is to provide our named executives with base salaries that are competitively reasonable and appropriate in the talent market for our business needs and circumstances. The Compensation Committee evaluates and sets the base salaries for our executives on an annual basis following performance reviews, as well as upon a promotion or other changes in responsibilities.

In setting 2012 base salaries for our named executive officers, our Compensation Committee considered the executive's position, our success in achieving our prior year corporate goals, the individual's contribution and performance during the prior fiscal year and formal benchmarking based on an executive compensation peer group. The Compensation Committee also considered many other factors in the process of determining base salary levels for each named executive officer, including:

our belief that our compensation amounts should be internally fair and equitable relative to roles, responsibilities and relationships among our named executive officers;

prior compensation or amounts realized or realizable from equity compensation by named executive officers;

the evaluations and recommendations proposed by our Chief Executive Officer (other than with respect to his own compensation); and

criticality of each named executive officer's skills and experience to the overall business.

Our Compensation Committee does not have a predefined framework that determines which factors may be more or less important, and the emphasis placed on specific factors may vary among the named executive officers. Ultimately, it is our Compensation Committee's judgment of these factors, along with competitive market data, that form the basis for determining named executives' base salaries. With the assistance of Compensia, in February 2012, our Compensation Committee conducted an analysis of base salaries using compensation data disclosed in public filings to establish reference points that we used to compare our named executive officers' 2011 base salaries to those base salaries offered by similar peer group companies.

Our Compensation Committee selected our peer group for fiscal year 2012, taking into account Compensia's recommendations, based on the following characteristics:

principal business in a related industry segment compared to our company (i.e. software as a service - SaaS);

broadly similar in revenue and market capitalization compared to our company and consistent with Institutional Shareholder Services (ISS) guidelines; and

companies that we compete directly with for key executive talent.

As a result of the peer group criteria, our Compensation Committee approved the following peer group companies for fiscal 2012:

We removed several companies from our peer group, including Ancestry.com, Blue Nile, comScore, Demand Media, and Quinstreet given their primary business model was focused on an internet and not a Software as a Service (SaaS)-based model.

As a result of analyzing compensation data from our 2012 peer group, our Compensation Committee determined that 2011 base salaries for named executive officers were well below that of our peer group companies. Based upon our Compensation Committee's analysis of this market data and the other factors enumerated above, our Compensation Committee set base salaries at approximately the 50th percentile as compared to our peer group companies. In addition, in connection with the promotions of Mr. Landa to Chief Executive Officer and Mr. Dejanovic to President in September 2012, our Compensation Committee increased the base salaries of these named executive officers in October 2012. As a result, the annualized base salaries of our named executive officers were set at the following levels as of December 31, 2012:

Name and Title	Base Salary (\$)
Matthew Landa, <i>Chief Executive Officer</i> (1)	\$ 525,000

Edgar Filing: ACTIVE NETWORK INC - Form 10-K/A

Darko Dejanovic, <i>President</i> (1)	\$ 500,000

2012 Bonus Plan. Our Compensation Committee is responsible for administering our Bonus Plan. All named executive officers are eligible to participate in the Bonus Plan. The Bonus Plan is designed to align each executive's efforts with our corporate goals. For fiscal year 2012, our corporate goals were based on two equally weighted goals: Adjusted EBITDA (as further detailed in our Annual Report on Form 10-K filed with the SEC on February 27, 2013 and Annex A to this Amendment) and revenue.

The Bonus Plan has three thresholds of achievement for the Company's corporate goals: base plan (27% of target), target plan (100% of target) and maximum plan (130% of target). The base plan represents the minimum threshold below which no bonuses are payable. Each threshold requires the Company to achieve both Adjusted EBITDA and revenue targets for the applicable threshold bonus to be paid for 2012. Following achievement of a threshold, bonuses are assessed independently on a linear basis and the degree to which the Company performs against these goals determines the amounts payable under the Bonus Plan. The resulting calculation of the Adjusted EBITDA component (50%) and revenue component (50%) is summed to arrive at a total target bonus amount for each named executive officer. The Committee then applies a modifier based upon individual performance as determined by the Compensation Committee.

At the time the corporate goals were set, our Compensation Committee believed that the corporate goals were challenging and aggressive. For example, at each of the thresholds, we would have had to achieve a significant year-over-year increase in our Adjusted EBITDA and revenue. Our Compensation Committee believed that the achievement of the Adjusted EBITDA and revenue goals at each of the threshold levels would require substantial efforts, excellent leadership, effective leveraging of our competencies and a clear focus on driving results throughout the year.

Our Compensation Committee is responsible for setting the actual bonus amounts to be awarded. To assist our Compensation Committee, our Chief Executive Officer provides the Compensation Committee with documentation regarding full or partial achievement of our corporate goals. For fiscal 2012, the minimum threshold under the base plan for revenue was set at \$435 million and the minimum threshold for Adjusted EBITDA was set at \$50 million. We failed to meet these objectives, and as a result, we did not pay out any bonuses to our named executive officers under the Bonus Plan.

We may terminate the Bonus Plan at any time, and may alter the terms and conditions under which the bonus awards are set, calculated or paid. For fiscal year 2012, our Compensation Committee set the potential amounts payable at each of the thresholds under the Bonus Plan based on each named executive officer's role and responsibilities and their respective base salaries in effect as of May 2012. The potential amounts payable at each of the three thresholds is set forth below:

Name and Title	Base Plan (\$) (27% Target)(1)	Target Plan (\$) (100% Target)	Maximum Plan (\$) (130% Target)
Matthew Landa, <i>Chief Executive Officer</i> (2)	133,650	495,000	643,500
Darko Dejanovic, <i>President</i> (2)	97,200	360,000	468,000
David Alberga, <i>Executive Chairman</i> (2)	148,500	550,000	715,000
Scott Mendel, <i>Chief Financial Officer</i>	94,500	280,000	364,000
Kory Vossoughi, <i>Chief Legal Officer</i>	35,640	132,000	171,600
Sheryl Roland, <i>Former EVP, Human Resources</i> (3)	35,046	129,800	168,740

- (1) For fiscal year 2012, we failed to achieve our minimum Adjusted EBITDA and revenue targets under the base plan and no bonuses were awarded to the named executive officers
- (2) On September 28, 2012, Mr. Alberga transitioned from his position as Chief Executive Officer to Executive Chairman of the Company. In connection with the transition, Mr. Landa was promoted to Chief Executive Officer and Mr. Dejanovic was promoted to President.
- (3) Ms. Roland resigned as EVP, Human Resources on November 30, 2012.

Spot Bonuses. From time to time, our Compensation Committee may grant spot bonuses to named executive officers for strong performance. In May 2012, our Compensation Committee granted cash spot bonuses to Mr. Dejanovic in the amount of \$64,963 and to Mr. Mendel in the amount of \$30,000 for their strong performance during the first quarter of 2012. The bonuses were also granted in part to increase their total compensation which was well below market as compared to similar executives at the Company's peer group companies.

Stock-Based Incentive Awards. We also provide long-term stock-based incentive awards to our executive officers. During 2012, we implemented a new long-term incentive compensation program for named executive officers consisting of time-based restricted stock units, performance-based restricted stock units and performance-based option awards. We believe that a mix of time-based and performance-based awards help further our compensation objectives by encouraging retention of our executives and by providing our executives with incentives to continue to focus on our financial performance and increasing stockholder value. We expect to implement a long-term incentive compensation program with a mix of both time-based and performance-based equity incentive awards on an annual basis. This supports our succession plans by helping ensure retention of key leaders critical to growing the business and also aligns with our practice prior to fiscal 2012 of granting stock options annually to the named executive officers to provide a greater alignment between their compensation and stockholder returns. During 2012, as part of our long-term incentive compensation program, we awarded the below stock-based incentive awards to our named executive officers excluding one-time grants for retention or promotional purposes.

Name	Title	Performance		Performance RSU		
		RSU Grant (Total # of Shares)	Option Grant (Total # of Shares)	Threshold # of Shares	Target # of Shares	Maximum # of Shares (1)

Darko Dejanovic (2)	President	45,419	150,240	34,064	45,419	136,257
David Alberga (2)	Executive Chairman	59,045	195,313	44,284	59,045	177,135

Sheryl Roland (3)	Former EVP, HR	16,250	48,829	12,188	16,250	48,750

- (1) Represents the maximum number of restricted stock units that may vest on the third year anniversary of the grant date contingent upon the Company's achievement of corporate objectives for the three year performance period ended December 31, 2014. Any restricted stock units vesting above the target number of shares may be settled in shares of the Company's common stock or cash at the election of the Compensation Committee based on the Company's closing stock price on the date of vesting. Achievement of the Company's objectives relating to revenue and Adjusted EBITDA, a non-GAAP financial measure described in the Company's Annual Report on Form 10-K filed with the SEC on February 27, 2013, will determine the actual number of restricted stock units to vest on such date. A reconciliation of Adjusted EBITDA is also set forth on Annex A to this Amendment.
- (2) On September 28, 2012, Mr. Alberga transitioned from his position as Chief Executive Officer to Executive Chairman of the Company. In connection with the transition, Mr. Landa was promoted to Chief Executive Officer and Mr. Dejanovic was promoted to President.
- (3) Mr. Roland resigned as EVP, Human Resources on November 30, 2012.

Time-Based Restricted Stock Units. The first component in our long-term portfolio mix is time-based restricted stock units. Stock ownership and stock-based incentive awards align the interests of our named executive officers with the interests of our stockholders, as the value of this incentive rises and falls with the stock price, consistent with stockholder returns. The time-based restricted stock units vest twenty-five percent (25%) on the first year anniversary of the grant date and in equal installments on each of the three anniversaries thereafter, subject to the named executive officer's continuous employment through each of the vesting dates.

Table of Contents

The restricted stock units promote executive retention, as unvested shares held at the time an executive's employment is terminated are forfeited. Our Chief Executive Officer, together with our human resources staff, periodically reviews the value and frequency of grants against competitive market data as described above and may recommend changes to the Compensation Committee. Our Compensation Committee, in its judgment, sets award levels based on several factors, including what it believes to be a desirable mix of long-term compensation, its determination of an appropriate weighting of potential future contributions to the Company, retention incentives, and competitive grants based on market data of the Company's peer companies.

Performance-Based Restricted Stock Units. The second component in our long-term portfolio mix is performance-based restricted stock units. The performance-based restricted stock units vest upon achievement of the Company's critical financial goals as determined by the Compensation Committee. The performance-based stock restricted stock units are designed to align the interests of the Company's executives with those of stockholders by encouraging executives to enhance the value of the Company through achievement of these goals. This is true pay for performance: executives are rewarded only if we achieve these goals, and they get nothing if we fail to achieve these goals. When determining the grants, the Compensation Committee considers a number of factors including the individual's performance, management succession, competitive market data as described above, internal pay equity for comparable positions, and a desirable mix of long-term incentives. Our Chief Executive Officer, together with our human resources department, periodically tests the reasonableness of our restricted stock units grants against competitive market data and may make recommendations to the Compensation Committee. Performance-based restricted stock units for fiscal year 2012 were granted by the Compensation Committee on May 23, 2012 with a supplemental award granted on August 28, 2012. The supplemental awards were granted to reward achievement of corporate goals above and beyond target objectives and these awards only vest to the extent the Company achieves these goals.

The performance-based restricted stock units vest on May 23, 2015 contingent upon the Company's achievement of revenue and Adjusted EBITDA performance objectives for the three year performance period ended December 31, 2014. The actual number of performance-based restricted stock units which vests will be determined based upon the extent to which the Company achieves the performance objectives beyond certain base level objectives. A portion of the performance-based restricted stock units may be settled in shares of the Company's common stock or cash at the Compensation Committee's election based on the Company's closing stock price on the date of vesting.

Performance-Based Stock Options. The third component in our long-term portfolio mix is performance-based stock options. The performance-based options vest over four years in equal monthly installments, subject to the named executive officer's continuous employment through each of the vesting dates; provided however, the options do not become exercisable until the Company's 15-day moving average stock price meets or exceeds (a) \$20.00 within two years from the grant date, (b) \$22.50 within three years from the grant date, or (c) \$25.00 within four years from the grant date. In addition, each named executive officer's vested options become immediately exercisable following a change in control of the Company.

The performance-based stock options are designed to align the interests of the Company's executives with those of stockholders by encouraging executives to enhance the value of the Company. This is true pay for performance as executives are rewarded only if the market price of our stock rises to the levels noted above, and the performance-based options do not become exercisable if the Company's stock price does not rise to these levels. When determining the grants, the Compensation Committee considers a number of factors including the individual's performance, management succession, competitive market data as described above, internal pay equity for comparable positions, and a desirable mix of long-term incentives. Our Chief Executive Officer, together with our human resources department, periodically tests the reasonableness of our stock option grants against competitive market data and may make recommendations to the Compensation Committee. Stock options for fiscal 2012 were granted by the Compensation Committee on May 23, 2012 with an exercise price equal to the closing market price of our stock on that date. Options we grant generally vest over a four year period in equal monthly installments, and are forfeited if the employee leaves before vesting occurs, to promote executive retention.

Table of Contents

Retention Plan. From time to time, the Compensation Committee may also grant restricted stock units that vest based on continued service through a future service date with the Company specifically to further promote retention of key employees. The awards have no value to the executive unless the executive remains employed with the Company for the full vesting period, and will be canceled if the executive terminates or retires within the vesting period. During 2012, we awarded restricted stock units for retention purposes to the named executive officers as follows:

Name	RSU Awards
Matthew Landa	16,013
Darko Dejanovic	13,964
David Alberga	17,843
Scott Mendel	12,959
Kory Vossoughi	5,080
Sheryl Roland	5,080

The Compensation Committee determined that the grants were necessary as a retention mechanism given the Company's base salaries were well below market as compared to its peer group in 2012. The restricted stock units granted for retention purposes vested in full on March 28, 2013.

Equity Grant Practices. Our named executive officers generally receive equity awards in connection with their initial hire, following promotions and on an annual basis. Our Chief Executive Officer, together with our human resources department, recommends to our Compensation Committee the specific number of shares to be subject to each equity award granted to a named executive officer; provided however, the Chief Executive Officer does not make any recommendations with respect to his own grant awards. The recommendation is based on the assessment of company performance and the named executive officer's performance during the prior fiscal year, the other components of the named executive officer's compensation, the dilutive effects of equity grants, and competitive market data. With respect to individual performance of the named executive officers, our Compensation Committee gives significant deference to the recommendations of our Chief Executive Officer, as he is most familiar with the other named executive officers' performance. Our Compensation Committee does not utilize any predefined criteria that determines which factors may be more or less important, and the emphasis placed on specific factors varies among the named executive officers. Ultimately, it is our Compensation Committee's judgment of these factors, along with the analysis of market data, that forms the basis for determining the equity awards granted to our named executive officers. The same process is used to determine the specific number of shares to be subject to each equity award granted to our Chief Executive Officer, with the exception that the Chief Executive Officer's performance is assessed by the Compensation Committee with input from the other independent members of our Board of Directors.

In accordance with these practices, the Compensation Committee granted 100,000 restricted stock units to Mr. Dejanovic in October 2012 in connection with his promotion to President and his corresponding increased level of responsibilities. The restricted stock units vest over four years.

Stock and option awards granted to new and current employees, including our named executive officers, are generally granted at pre-determined meeting dates of the Compensation Committee. Our Compensation Committee grants the equity awards in accordance with the dates fixed by this policy whether or not we are aware of any material non-public information (whether positive or negative) at the time of grant. The amount of realizable value related to such awards is determined by our stock price on the date the awards vest, and therefore is determined by our financial performance during the period prior to vesting. Whether our stock price moves up or down shortly after the grant date is largely irrelevant for purposes of the equity awards.

The exercise price of any option grant is determined by reference to the fair market value of such shares, which the 2011 Equity Incentive Award Plan, or 2011 Plan, defines as the closing price of our common stock on the New York Stock Exchange on the date of grant.

Table of Contents

2011 Equity Incentive Plan. In April 2011, our stockholders adopted and approved our 2011 Equity Incentive Plan, or 2011 Plan, which became effective upon our initial public offering. Awards may be granted under our 2011 Plan to employees, including officers, directors, or consultants, of the company and our present or future affiliated entities. The 2011 Plan is administered by our Compensation Committee. Subject to the provisions of our 2011 Plan, the Compensation Committee determines, in its discretion, the persons to whom, and the times at which, awards are granted, as well as the size, terms and conditions of each award. All awards are evidenced by a written agreement between us and the holder of the award. The Compensation Committee has the authority to construe and interpret the terms of our 2011 Plan and awards granted under our 2011 Plan.

Other Benefits

In order to attract, retain and pay market levels of compensation, our executives are also eligible for the following benefits:

Health Insurance. We provide each of our executives and their spouses and children the same health, dental and vision insurance coverage we make available to our other eligible employees.

Disability Insurance. We provide each of our executives with disability insurance.

Retirement Benefits. We do not provide pension arrangements or post-retirement health coverage for our executives or employees. Our executives and other eligible employees are eligible to participate in our 401(k) defined contribution plan. Pursuant to our 401(k) plan, we made matching contributions for each of our participating named executive officers in an amount equal to \$0.25 for every \$1.00 contributed up to maximum of 1% of earnings.

Nonqualified Deferred Compensation. On July 30, 2012, the Compensation Committee authorized the Company to adopt the Executive Nonqualified Excess Plan (the Deferred Compensation Plan). The Deferred Compensation Plan is a nonqualified deferred compensation plan, pursuant to which certain highly compensated employees, including the Company's named executive officers (Participants), may elect to make deferrals of compensation that are not subject to the various limits imposed by the Internal Revenue Code on qualified retirement plans. Pursuant to the Deferred Compensation Plan, Participants may elect to defer up to 80% of base salary and up to 100% of performance-based compensation. The Company may also make discretionary contributions to a Participant's deferred compensation account, which vest in increments based on the Participant's number of years of service and become fully vested upon the Participant's completion of four years of service (or, if earlier, upon the Participant's death or disability or upon a change in control event as defined in the Deferred Compensation Plan). A Participant's deferrals and any discretionary employer contributions are credited to a deferred compensation account pending the occurrence of an applicable Qualifying Distribution Event. Qualifying Distribution Events may include (i) separation from service with the Company, (ii) disability, (iii) death, (iv) specified in-service dates designated by the Participant in his or her participation agreement, and (v) unforeseeable emergencies. The Deferred Compensation Plan is administered by the management of the Company. The Deferred Compensation Plan is an unfunded, nonqualified deferred compensation plan that is intended to comply with the requirements of Section 409A of the Internal Revenue Code of 1986, as amended. We maintain this plan for purposes of providing a competitive benefit by providing our executive officers an opportunity to defer income tax payments on their cash compensation. As of December 31, 2012, none of our named executive officers have elected to participate in this plan.

Perquisites. We have historically limited the perquisites made available to our executive officers. This policy could change if we find it important to provide perquisites to increase our ability to attract and retain key employees. Our named executives are entitled to relocation expenses following their initial hire and other benefits that are not otherwise available to all of our employees. Mr. Dejanovic is also entitled to receive a monthly car allowance and reimbursement for travel and relocation expenses.

2011 Employee Stock Purchase Plan. In April 2011, our stockholders adopted and approved our 2011 Employee Stock Purchase Plan, or our 2011 ESPP, in which most employees, including named executive officers, may choose to participate. Participants may purchase up to \$25,000 in our stock per calendar year at a price equal to 85% of the fair market value of the stock at either the beginning or end of each six-month purchase period, whichever is lower. The Compensation Committee believes that the 2011 ESPP provides another effective vehicle for enabling our executives and employees to increase their ownership position in the Company, thereby promoting an ownership mentality and a tighter link between the interests of employees and stockholders.

Post-Employment Compensation

Certain terms and conditions of employment for each of our named executive officers are set forth in retention or change in control agreements. We recognized that it would be necessary to develop competitive compensation packages designed to attract and retain qualified candidates at our most critical positions. At the same time, we were sensitive to the need to integrate new executive officers into our existing executive compensation structure, balancing both competitive and internal equity considerations.

The retention agreements and change in control agreements that we extended to our named executive officers provide for certain protections in the event of their termination of employment under specified circumstances, or following a change in control. We believe that these protections were necessary to induce these individuals to forego other opportunities or leave their current employment for a position in a new organization. We also believe that entering into these arrangements will help our executives maintain continued focus and dedication to their responsibilities to help maximize stockholder value should certain strategic opportunities arise.

For a summary of the material terms and conditions of these severance and change in control arrangements, see [Employment Arrangements](#) below.

Employment Arrangements

Letter Agreement with Sheryl Roland

On November 30, 2012, Sheryl Roland, our Executive Vice President, Human Resources resigned from the Company. In connection with her departure from the Company, Ms. Roland entered into a letter agreement with the Company pursuant to which the Company agreed to (i) accelerate the vesting of 16,148 of Ms. Roland's unvested shares of the Company's common stock which were previously acquired by Ms. Roland upon the early exercise of options granted under the Company's 2002 Stock Option/Stock Issuance Plan, and (ii) accelerate the vesting of 5,080 of Ms. Roland's unvested restricted stock units. In consideration for entering into the letter agreement, Ms. Roland agreed to certain non-solicitation and non-disparagement provisions and a waiver and general release.

Retention Agreements

We have entered into executive retention agreements with each of Messrs. Landa, Dejanovic, Alberga, Mendel and Vossoughi. Each of these agreements provides that if we terminate the executive's employment without cause (as defined in each of the respective retention agreements), if the executive terminates his employment for good reason (as defined in each of the respective retention agreements) or if the executive's employment is terminated due to death or complete disability (as defined in each of the respective retention agreements), the executive would be entitled to receive the following:

base salary and accrued and unused vacation benefits earned through the date of termination, less standard tax withholding;

subject to certain exceptions, one year of severance from the date of termination at the executive's then base salary payable within ten days following termination of employment, plus (i) reimbursement of

Table of Contents

premiums for continued health care coverage for a one year period and (ii) an amount equal to the executive's target annual bonus for the fiscal year assuming all performance objectives have been met and prorated based on the number of days the executive was employed with us prior to termination, payable within ten (10) days following termination of employment; and

except with respect to performance-based restricted stock units granted to named executive officers in 2012 (the 2012 Performance RSUs), vesting of stock options and restricted stock units on the date of termination with respect to the number of options and restricted stock awards that would have vested over the 12-month period following the date of termination. In addition, all stock options would remain exercisable for a period of one year following termination of employment.

In addition to the foregoing, in the event of a change in control (as defined in each of the respective retention agreements), regardless of termination, all of the named executive officer's stock options and restricted stock units (except with respect to the 2012 Performance RSUs) would become fully vested upon a change in control of the Company and all stock options would remain exercisable for a period of two years following the date of any termination of employment in connection with a change in control of the Company.

With respect to the 2012 Performance RSUs, if a named executive officer's employment with the Company is terminated by the Company without cause, or if the named executive officer terminates employment with the Company for good reason, in each case within twelve (12) months following a change in control of the Company, such number of 2012 Performance RSUs will become fully vested upon the named executive officer's termination of employment in accordance with the following formula:

Target amount of 2012 Performance RSUs, multiplied by the quotient of (A) Number of full months elapsed from May 23, 2012 to the date that is one year following the date of such named executive officer's termination of employment, divided by (B) 36.

Change in Control Agreement

We also entered into a change in control agreement with Sheryl Roland. The agreement provided that if Ms. Roland's employment was terminated within the twelve (12) month period immediately following the date of a change in control (as defined in the change in control agreement) by us without cause (as defined in the change in control agreement) or by Ms. Roland for good reason (as defined in the change in control agreement), Ms. Roland would have been entitled to receive the following:

base salary earned through the date of termination, less standard tax withholding plus all other amounts to which Ms. Roland would have been entitled under any of our compensation plans or practices at the time such payments were due; provided, however, that any accrued but unpaid bonus would only have been paid to Ms. Roland if she was employed on the date such bonus would otherwise be paid in accordance with our standard practices;

subject to certain exceptions, nine months of (i) severance from the date of termination at the executive's then base salary payable within fifteen days following termination of employment and (ii) reimbursement of premiums for continued health care coverage, unless Ms. Roland had become eligible for coverage by a health insurance plan of a subsequent employer prior to that time; and

except with respect to the 2012 Performance RSUs, vesting of one hundred percent (100%) of Ms. Roland's unvested equity awards on the date of termination. Any 2012 Performance RSUs granted to Ms. Roland would have been treated in the same manner as the other named executive officers upon a change in control as described under Employment Arrangements Retention Agreements above.

On November 30, 2012, Ms. Roland resigned from the Company, and as a result, is no longer eligible to receive the change in control benefits described above.

Accounting and Tax Considerations

Internal Revenue Code (the Code) Section 162(m) limits the amount that we may deduct for compensation paid to our Chief Executive Officer and to each of our four most highly compensated officers to \$1,000,000 per person, unless certain exemption requirements are met. Exemptions to this deductibility limit may be made for various forms of performance-based compensation. In addition to salary and bonus compensation, upon the exercise of stock options that are not treated as incentive stock options, the excess of the current market price over the option price, or option spread, is treated as compensation and accordingly, in any year, such exercise may cause an officer's total compensation to exceed \$1,000,000. Under certain regulations, option spread compensation from options that meet certain requirements will not be subject to the \$1,000,000 cap on deductibility, and in the past, we have granted options that we believe met those requirements. While the Compensation Committee cannot predict how the deductibility limit may impact our compensation program in future years, the Compensation Committee intends to maintain an approach to executive compensation that strongly links pay to performance. While the Compensation Committee has not adopted a formal policy regarding tax deductibility of compensation paid to our named executive officers, the Compensation Committee intends to consider tax deductibility under Section 162(m) as a factor in compensation decisions.

Section 409A of the Code imposes additional significant taxes in the event that an executive officer, director, or other service provider receives deferred compensation that does not satisfy the requirements of Section 409A. Although we do not maintain traditional nonqualified deferred compensation plans, Section 409A does apply to certain change in control severance arrangements. Consequently, to assist in avoiding additional tax under Section 409A, we have designed the change in control severance arrangements described above in a manner to avoid the application of Section 409A.

- (1) The amounts reported in the Salary column reflect amounts paid to each applicable named executive officer during the year ended December 31, 2012. See the table under Compensation Process Components of Executive Compensation Base Salary for each named executive officer's current base salary.
- (2) The amounts reflect the aggregate grant date fair value of the restricted stock awards granted during 2012. Restricted stock awards with time-based vesting are valued on the date of grant at the closing sale price per share of our common stock. For performance-based restricted stock units, the grant date fair value is based on the probable outcome of the performance condition on the date of grant. Please see the Grants of Plan-Based Awards Table for more information regarding the stock awards we granted in 2012.
- (3) The amounts reflect the grant date fair value of the options granted to the named executive officers in the year reflected, determined using the Black-Scholes option model and the Lattice option model for performance options. For information relating to the assumptions made by us in valuing the option awards made to our named executive officers in fiscal years 2011 and 2012, refer to Note 16 of our financial statements included in our 2012 Annual Report on Form 10-K filed with the SEC on February 27, 2013. For Ms. Roland, the Compensation Committee accelerated the vesting of (i) 16,148 of Ms. Roland's unvested shares of the Company's common stock which were previously acquired by Ms. Roland upon the early exercise of options and (ii) 5,080 of Ms. Roland's unvested restricted stock units, and the amount also reflects the incremental fair value of such modified option awards, computed as of the modification date in accordance with FASB ASC Topic 718, in the amount of \$75,134. The fair value of such modified option awards has been included in the All Other Compensation column. See footnote 5.

- (3) The restricted stock units vest in full on March 28, 2013, subject to acceleration as described under Potential Payments upon Termination or Change in Control below.
- (4) The restricted stock units vest twenty-five percent (25%) on the first year anniversary of the grant date and in equal installments on each of the three anniversaries thereafter, subject to acceleration as described under Potential Payments upon Termination or Change in Control below.
- (5) Represents the target number of restricted stock units that may vest on the third year anniversary of the grant date contingent upon the Company's achievement of corporate objectives for the three year performance period ended December 31, 2014. Achievement of the Company's objectives relating to revenue and Adjusted EBITDA, a non-GAAP financial measure described in the Company's Annual Report on Form 10-K filed with the SEC on February 27, 2013, will determine the actual number of restricted stock units to vest on such date. A reconciliation of Adjusted EBITDA is also set forth on Annex A to this Amendment.
- (6) The options vest over four years in equal monthly installments; provided however, the options do not become exercisable until the Company's 15-day moving average stock price meets or exceeds (a) \$20.00 within two years from the grant date, (b) \$22.50 within three years from the grant date, or (c) \$25.00 within four years from the grant date. The options become exercisable upon vesting following a change in control of the Company. Vesting of the options is subject to acceleration as described under Potential Payments upon Termination or Change in Control below.
- (7) Represents the number of restricted stock units that may vest above the target number on May 23, 2015 contingent upon the Company's achievement of corporate objectives for the three year performance period ended December 31, 2014. Achievement of the Company's objectives relating to revenue and Adjusted EBITDA, a non-GAAP financial measure described in the Company's Annual Report on Form 10-K filed with the SEC on February 27, 2013, will determine the actual number of restricted stock units to vest on such date. Restricted stock units may be settled in shares of the Company's common stock or cash at the election of the Compensation Committee based on the Company's closing stock price on the date of vesting. A reconciliation of Adjusted EBITDA is also set forth on Annex A to this Amendment.
- (8) Ms. Roland resigned from the Company on November 30, 2012.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Since January 2012, there has not been any transaction or series of similar transactions to which we were or are a party in which the amount involved exceeded or exceeds \$120,000 and in which any of our directors or executive officers, any holder of more than 5% of any class of our voting securities or any member of the immediate family of any of the foregoing persons had or will have a direct or indirect material interest, other than the compensation arrangements described in Compensation Discussion and Analysis and Executive Compensation and the transactions set forth below. We believe that we have executed all of the transactions set forth below on terms no less favorable to us than we could have obtained from unaffiliated third parties.

Transactions with the USTA

In August 2006, we entered into a Master Services Agreement and certain other related agreements with the United States Tennis Association, or USTA, as amended in December 2010. Scott Schultz, a former member of our Board of Directors, is the managing director for recreational tennis at the USTA, and Edward Neppel, a current member of our Board of Directors, is the Chief Financial Officer of the USTA. Pursuant to the terms of these agreements, the USTA purchases certain software services from us. For the year ended December 31, 2012, revenue from USTA and its affiliates was approximately \$5.1 million.

Transactions with ESPN and Disney

Entities affiliated with ESPN hold in the aggregate more than 5% of our common stock. ESPN is a wholly-owned subsidiary of The Walt Disney Company (Disney). We have entered into an online registration services agreement with Disney to provide online advertising. We recorded revenues from Disney of approximately \$1.4 million for the year ended December 31, 2012.

Policy for Approval of Related Party Transactions

Our Audit Committee is responsible for reviewing and approving all transactions in which we are a participant and in which any parties related to us, including our executive officers, directors, beneficial owners of more than 5% of our securities, immediate family members of the foregoing persons and any other persons whom our Board of Directors determines may be considered related parties, has or will have a direct or indirect material interest. If advanced approval is not feasible, the Audit Committee has the authority to ratify a related party transaction at the next Audit Committee meeting. For purposes of our Audit Committee charter, a material interest is deemed to be any consideration received by such a party in excess of \$120,000 per year.

In reviewing and approving such transactions, the Audit Committee shall obtain, or shall direct our management to obtain on its behalf, all information that our committee believes to be relevant and important to a review of the transaction prior to its approval. Following receipt of the necessary information, a discussion shall be held of the relevant factors if deemed to be necessary by our committee prior to approval. If a discussion is not deemed to be necessary, approval may be given by written consent of our committee. This approval authority may also be delegated to the chairman of the Audit Committee in respect of any transaction in which the expected amount is less than \$500,000. No related party transaction may be entered into prior to the completion of these procedures.

The Audit Committee or its chairman, as the case may be, shall approve only those related party transactions that are determined to be in, or not inconsistent with, the best interests of us and our stockholders, taking into account all available facts and circumstances as our committee or the chairman determines in good faith to be necessary. These facts and circumstances will typically include, but not be limited to, the material terms of the transaction, the nature of the related party's interest in the transaction, the significance of the transaction to the related party and the nature of our relationship with the related party, the significance of the transaction to us, and whether the transaction would be likely to impair (or create an appearance of impairing) the judgment of a director or executive officer to act in our best interest. No member of the Audit Committee may participate in any review, consideration or approval of any related party transaction with respect to which the member or any of his or her immediate family members is the related party, except that such member of the Audit Committee will be required to provide all material information concerning the related party transaction to the Audit Committee.

Director Independence

The Board has established categorical standards to assist it in making its determination of director independence. As embodied in our Corporate Governance Guidelines, using standards that the Board has adopted to assist it in assessing independence and in accordance with applicable SEC rules and the listing standards of the NYSE, the Board defines an independent director to be a director who:

is not and has not been during the last three years an employee of, and whose immediate family member is not and has not been during the last three years an executive officer of, the Company (provided, however, that, in accordance with NYSE listing standards, service as an interim executive officer, by itself, does not disqualify a director from being considered independent under this test following the conclusion of that service);

has not received, and whose immediate family member has not received other than for service as an employee (who is not an executive officer), more than \$120,000 in direct compensation from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), in any 12-month period during the last three years (provided however, that, in accordance with NYSE listing standards, compensation received by a director for former service as an interim executive officer need not be considered in determining independence under this test);

(a) is not a current partner or employee of a firm that is our internal or external auditor; (b) does not have an immediate family member who is a current partner of our internal or external auditor; and (c) is not and was not during the last three years, and whose immediate family member is not and was not during the last three years, a partner or employee of our internal or external auditor who personally worked on our audit within that time;

is not and has not been during the last three years employed, and whose immediate family member is not and has not been during the last three years employed, as an executive officer of another company during a time when any of our present executive officers serve on that other company's Compensation Committee;

is not, and whose immediate family member is not, serving as a paid consultant or advisor to the Company or to any of our executive officers, or a party to a personal services contract with the Company or with any of our executive officers;

is not a current employee of, and whose immediate family member is not a current executive officer of, a company that has made payments to, or received payments from, us for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million, or 2% of such other company's consolidated gross revenues;

is not, and whose immediate family member is not, an executive officer of a non-profit or other tax-exempt organization to which we have made contributions during the past three years that, in any single fiscal year, exceeded the greater of \$1 million or 2% of the organization's consolidated gross revenues (amounts that we contribute under matching gift programs are not included in the contributions calculated for purposes of this standard); and

has no other material relationship with us (either directly or as a partner, stockholder or officer of an organization that has a relationship with us).

The Board assesses on a regular basis, and at least annually, the independence of our directors and, based on the recommendation of the Nominating and Corporate Governance Committee, makes a determination as to which directors are independent. References to us, we or the Company above would include any subsidiary in a consolidated group with The Active Network, Inc. The terms immediate family member and executive officer above are expected to have the same meaning specified for such terms in the NYSE listing standards.

Table of Contents

The Board has determined that the following directors, comprising all of our non-employee directors, are independent under the listing standards of the NYSE and our Corporate Governance Guidelines: Messrs. Clancy, Grayson, Green, Levin and Nepl, representing five of our seven directors. In making this determination, our Board of Directors considered the current and prior relationships that each non-employee director has with our company and all other facts and circumstances our Board of Directors deemed relevant in determining their independence, including the beneficial ownership of our capital stock by each non-employee director.

Policy Regarding Pre-Approval of Services Provided by the Independent Auditor

The Audit Committee has established an Audit and Non-Audit Services Compliance Policy (the "Policy") requiring pre-approval of all audit and permissible non-audit services performed by the independent auditor to monitor the auditor's independence from the Company. The Policy provides for the annual pre-approval of specific types of services pursuant to policies and procedures adopted by the Audit Committee, and gives detailed guidance to management as to the specific services that are eligible for such annual pre-approval.

The Policy requires the specific pre-approval of all other permitted services. For both types of pre-approval, the Audit Committee considers whether the provision of a non-audit service is consistent with the SEC's rules on auditor independence. Additionally, the Audit Committee considers whether the independent auditor is best positioned to provide the most effective and efficient service, for reasons such as its familiarity with the Company's business, people, culture, accounting systems, risk profile and other factors, and whether the service might enhance the Company's ability to manage or control risk or improve audit quality. Also, unless a service is a pre-approved service set forth in the Policy and within the established guidelines, it will require approval by the Audit Committee in order for it to be provided by the independent auditor. In its review, the Audit Committee will also consider the relationship between fees for audit and non-audit services in deciding whether to pre-approve such services.

Table of Contents

As provided under the Sarbanes-Oxley Act of 2002 and the SEC's rules, the Audit Committee has delegated pre-approval authority to the Chair of the Audit Committee to address certain requests for pre-approval of services for up to \$250,000, and the Chair must report his or her pre-approval decisions to the Audit Committee at its next regular meeting. The Policy is designed to help ensure that there is no delegation by the Audit Committee of authority or responsibility for pre-approval decisions to management. The Audit Committee monitors compliance by requiring management to report to the Audit Committee on a regular basis regarding the pre-approved services rendered by the independent auditor. Management has also implemented internal procedures to promote compliance with the Policy.
