The Administrative Committee

Time Warner Savings Plan

We have audited the accompanying statements of net assets available for benefits of the Time Warner Savings Plan as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2012 and 2011, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of loans or fixed income obligations in default or classified as uncollectible and assets (held at end of year) as of December 31, 2012 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Time Warner Savings Plan

Notes to Financial Statements

December 31, 2012

1. Description of the Plan

The following is an abbreviated description of the Time Warner Savings Plan (the Plan). Time Warner Inc. (Time Warner) is the Plan sponsor. More complete descriptions of the Plan are provided in the Plan documents, as amended, and the summary plan description/prospectus. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

General

The Plan is a defined contribution profit sharing plan with a 401(k) feature generally covering eligible employees of Time Warner and certain of its subsidiaries and affiliates (each, an Employing Company and, collectively, the Employing Companies).

The Plan is the only participating plan in the Time Warner Defined Contribution Plans Master Trust (the Master Trust).

The Plan administrator is a committee (the Administrative Committee) appointed by Time Warner 's board of directors. Certain administrative functions of the Plan have been delegated to others in accordance with the terms of the Plan.

Effective January 1, 2011, the Plan is a Qualified Automatic Contribution Arrangement in accordance with the Internal Revenue Code of 1986, as amended (the Code), and thus is exempt from nondiscrimination testing.

Investment Funds, Contributions and Vesting

The Plan provides for multiple investment funds made available through Fidelity Management Trust Company (Fidelity) pursuant to the Master Trust. Prior to November 4, 2011, the Plan 's investment funds consisted of four asset allocation (target risk) funds and thirteen core investment funds (nine of which are actively managed and four of which are index funds). Effective November 4, 2011, an additional actively managed core investment fund was added. The Plan also offers a self-directed brokerage option that is limited to mutual funds. Participant contributions, Matching Contributions (as defined below) and Rollovers (as defined below) may generally be invested in specified increments in the investment funds. Participants may periodically transfer account balances among the investment funds offered under the Plan.

Effective July 1, 2010, contributions or investment fund transfers into the Time Warner Inc. Stock Fund are prohibited, but Plan participants who hold Time Warner common stock in the

Table of Contents

Time Warner Savings Plan

Notes to Financial Statements (continued)

Time Warner Inc. Stock Fund have the option to reinvest cash dividends paid by Time Warner on its common stock in Time Warner common stock through the Time Warner Inc. Stock Fund in lieu of receiving the cash dividends. Effective July 1, 2010, the Time Warner Inc. Stock Fund was designated as an employee stock ownership plan component of the Plan.

Generally, the Plan provides for voluntary participant contributions on a pre-tax basis at an elected percentage of a participant's eligible compensation, up to an annual limit established by the Internal Revenue Service (IRS). Effective January 1, 2011, the elective deferral limit for highly compensated employees increased from 10%, or 20% for Turner Broadcasting System, Inc. employees, to 50% for pre-tax contributions, subject to the limit established by the IRS. After two months of continuous employment (or, with respect to employees classified as hourly or temporary employees, after 1,000 hours of credited service in any one year), matching contributions by Employing Companies (Matching Contributions) are made as a percentage of a participant's contributions to the Plan and are capped at certain percentages of the participant's eligible compensation deferred.

Employees hired on or after January 1, 2007 were automatically enrolled in the Plan at a pre-tax contribution rate of 2% approximately 90 days following the hire date, unless employees elected otherwise during the first 60 days of employment. Effective July 1, 2010, all eligible Plan participants with a pre-tax contribution rate of less than 3%, newly eligible Plan participants, and employees classified as hourly or temporary employees who are credited with at least 1,000 hours of service in any one year are automatically enrolled in the Plan at a pre-tax contribution rate of 3% unless they change their contribution rate or opt out of the Plan. Unless participants who were automatically enrolled in the Plan elected or elect otherwise, their contribution rate automatically increased by 1% beginning on either January 1, 2012 or the first anniversary of their automatic enrollment date (depending on the date they were automatically enrolled) and will continue to increase by 1% annually until the 6% maximum for automatic contributions is reached. These participant contributions and Matching Contributions are invested in a target risk fund unless participants elect other investment option(s). Participants who are automatically enrolled in the Plan may change their contribution rate or opt out of the Plan at any time.

Prior to July 1, 2010, Matching Contribution rates varied among Employing Companies and were calculated based on one of the following formulas: 66.67% on up to the first 6% of the participant's eligible compensation contributed to the Plan; or 160% on up to the first 4% of the participant's eligible compensation contributed to the Plan. Effective July 1, 2010, Matching Contribution rates for eligible Plan participants became consistent across all participating Employing Companies at a rate of 133 1/3% on up to the first 3% of eligible compensation deferred and 100% on up to the next 3% of eligible compensation deferred.

Table of Contents

Time Warner Savings Plan

Notes to Financial Statements (continued)

Participants are allowed to transfer amounts from certain other tax qualified plans to the Plan (Rollovers). Rollovers are included as participant contributions in the Statements of Changes in Net Assets Available for Benefits.

Matching Contributions and any other amounts contributed by an Employing Company, including those transferred into the Plan, are deemed Employing Company contributions (Employing Company Contributions). Each participant s account is credited with the participant s contributions, Rollovers, Employing Company Contributions and any earnings or losses thereon, as appropriate. Participant contributions, Rollovers and earnings thereon are fully vested.

Matching Contributions and earnings thereon generally vest based on years or periods of service as follows:

Matching Contributions Made and Earnings Thereon: ⁽¹⁾**March 1, 2007 through**

| Prior to March 1, 2007 | | June 30, 2010 | | On or After July 1, 2010 | |
|-------------------------------|-------------------|-------------------------|-------------------|---------------------------------|-------------------|
| Years or Periods | Vested | Years or Periods | Vested | Years or Periods | Vested |
| of Service | Percentage | of Service | Percentage | of Service | Percentage |
| Less than 2 years | 0% | Less than 1 year | 0% | Less than 2 years | 0% |
| 2 but less than 3 years | 25 | 1 but less than 2 years | 20 | 2 years or more | 100 |
| 3 but less than 4 years | 50 | 2 but less than 3 years | 40 | | |
| 4 but less than 5 years | 75 | 3 but less than 4 years | 60 | | |
| 5 years or more | 100 | 4 but less than 5 years | 80 | | |
| | | 5 years or more | 100 | | |

(1) Any completed service prior to the dates set forth in this table generally counts toward vesting.

Table of Contents

Time Warner Savings Plan

Notes to Financial Statements (continued)

Matching Contributions and earnings thereon also become fully vested upon a participant's termination of service due to death or disability, attainment of age 65, or upon the termination of the Plan.

The Plan provisions described above that became effective July 1, 2010 (relating to (i) the automatic enrollment of certain eligible Plan participants, (ii) the Matching Contributions rate and (iii) the vesting of Matching Contributions (and earnings thereon) made on or after July 1, 2010) do not apply to certain employees subject to a collective bargaining agreement at one of Time Warner's subsidiaries.

Forfeited Accounts

Forfeited Employing Company Contributions and earnings thereon may be used to reduce future Employing Company Contributions to the Plan and/or to pay Plan expenses. Forfeited Employing Company Contributions and earnings thereon for 2012 and 2011 were \$3.2 million and \$3.3 million, respectively. The amount of forfeited nonvested accounts as of December 31, 2012 and 2011 was \$4.8 million and \$4.2 million, respectively, and is included in the Statements of Net Assets Available for Benefits.

Notes Receivable From Participants

Under the Plan, subject to certain restrictions and penalties, participants may withdraw amounts and/or take loans from their accounts. The maximum number of loans a participant may have outstanding is limited to three at any one time, in the form of either one primary residence loan and two general loans or three general loans; provided, however, that if the primary residence loan was obtained before 2008, it does not limit the availability of the three general loans. The minimum loan amount is \$1,000 and the maximum loan amount is \$50,000. Loans are valued at their outstanding balances, which approximate fair value, and are treated as transfers between the individual investment funds and the participant loan fund. Loan terms may be for up to five years or 15 years if for the purchase of a primary residence. Participants who have transferred accounts to the Plan with existing loans for the purchase of a primary residence may have loan terms of up to 30 years based on the provisions of the plan from which the original loan was obtained. Effective April 1, 2007, interest rates charged for loans originated under the Plan within any quarter are set at the prime rate in effect on the first day of such quarter plus 1%. Prior to April 1, 2007, interest rates for such loans were set at the prime rate in effect at the time of the loan plus 1%. Participants who have transferred accounts to the Plan with existing loans may be subject to different interest rates on those loans, as set in accordance with the provisions of the plan from which the original loan was obtained. Interest rates on outstanding participant loans as of December 31, 2012 and 2011 ranged from 4.25% to 10.50%.

Table of Contents

Time Warner Savings Plan

Notes to Financial Statements (continued)

Payment of Benefits

In-service withdrawals are available in certain limited circumstances, as provided under the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated under the Code and the regulations thereunder, and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Generally, on termination of service, participants are eligible to receive the vested portion of their account in a lump sum. However, subject to certain restrictions, the Plan permits other payment options. In addition, at the option of the participant, the commencement of payments may be deferred, subject to certain limitations. Benefits distributed from all investment funds in the Plan will be paid in cash, except for benefits distributed from the Time Warner Inc. Stock Fund, which also offers shares of Time Warner common stock as a distribution election. Fractional shares are paid in cash.

Plan Termination

Although it has not expressed any intent to do so, Time Warner reserves the right to discontinue Employing Company Contributions or to terminate or modify the Plan at any time. In the event of termination of the Plan, participants will become fully vested in their accounts and the net assets of the Plan will be distributed to participants in accordance with the Plan's provisions and applicable law.

Table of Contents

Time Warner Savings Plan

Notes to Financial Statements (continued)

2. Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Costs and expenses incurred for the purchase, sale or transfer of investments reflected in the accompanying financial statements are considered a cost of the investment or a reduction in the proceeds of a sale, as appropriate. Investment management fees and certain administrative costs are paid by the Plan's investment funds and included in Investment income, net of fees in the Statements of Changes in Net Assets Available for Benefits.

Payment of Benefits

Participant withdrawals are recorded when paid.

Administrative Expenses

Certain administrative costs are charged to the Plan as permitted under ERISA, including, for example, fees for auditing, investment advice, recordkeeping, custodial and trustee services. Other administrative costs, for example, compensation of employees responsible for the administration of the Plan, are paid by Time Warner.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Table of Contents

Time Warner Savings Plan

Notes to Financial Statements (continued)

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Investments in the Statements of Net Assets Available for Benefits include fully benefit-responsive investment contracts recognized at fair value with a corresponding adjustment to reflect these investments at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Recent Accounting Standard

On January 1, 2012, the Plan adopted, on a prospective basis, guidance issued by the Financial Accounting Standards Board related to fair value measurements and disclosures that (i) states that the concepts of highest and best use and valuation premise are only relevant when measuring the fair value of nonfinancial assets and, therefore, do not apply to financial assets or any liabilities, (ii) prohibits the application of a blockage factor (i.e., premiums and discounts related to size as a characteristic of the entity's holding) for all fair value measurements, regardless of hierarchy level, (iii) allows an entity that manages market risks and counterparty credit risk exposure of a group of financial instruments to measure those financial instruments on the basis of the net position for the risk being managed, (iv) requires that an entity measure the fair value of its own equity instruments from the perspective of a market participant that holds the instruments as assets and (v) requires new and enhanced disclosures. The adoption of this guidance did not have a material effect on the Plan's financial statements.

3. Investments

Plan investments are made in a variety of investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is possible that changes in values could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Table of Contents

Time Warner Savings Plan

Notes to Financial Statements (continued)

During the years ended December 31, 2012 and 2011, the Plan's investments appreciated (depreciated) in fair value as follows:

| | Year Ended December 31, | |

* Less than 5%

The Capital Preservation Fund, an investment fund available in the Plan, includes fully benefit-responsive synthetic investment contracts that are valued at fair value and adjusted to contract value in the Statements of Net Assets Available for Benefits. In a synthetic investment contract, debt securities (such as fixed-income, asset-backed and mortgage-backed securities) are purchased and then a financial institution agrees to provide for liquidity and an adjustable rate of return thereon (a "Wrapper"), which, when taken together with the underlying securities, generally results in a guaranteed return of principal and accrued interest. See Note 4 for further discussion and disclosures related to fair value measurements.

The Capital Preservation Fund and the Wrapper contracts purchased by that fund are designed to pay all participant-initiated transactions at contract value. However, the Wrapper contracts limit the ability of the fund to transact at contract value upon the occurrence of certain events. These events include, but are not limited to:

Complete or partial termination of the Plan;

Table of Contents

Time Warner Savings Plan

Notes to Financial Statements (continued)

Any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the fund's cash flow;

Merger or consolidation of the Plan with another plan, the transfer of Plan assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the Plan sponsor; and

Any early retirement program, group termination, group layoff, facility closing or similar program.

At this time, the occurrence of an event that would limit the ability of the Capital Preservation Fund to transact at contract value is not probable. The completion of the Time Separation (as described in Note 7) is not expected to limit the ability of the Capital Preservation Fund to transact at contract value.

A Wrapper issuer may terminate a Wrapper contract at any time by providing the appropriate notification. In the event that the market value of the Capital Preservation Fund's covered assets is below their contract value at the time of such termination, Fidelity, as the Capital Preservation Fund's investment manager, may elect to keep the Wrapper contract in place through another Wrapper provider until such time as the market value of the Capital Preservation Fund's covered assets is equal to their contract value. Plan participants will continue to receive the Capital Preservation Fund's Crediting Rate (as defined below).

Interest income in the Capital Preservation Fund is accrued at the weighted-average return of individual fund investments, net of investment management and certain administrative fees (the Crediting Rate). The Crediting Rate is calculated daily. Wrapper contracts use the Crediting Rate formula to convert market value changes in the underlying assets into income distributions in order to minimize the difference between the market and contract value of the underlying assets over time. Using the Crediting Rate formula, an estimated future market value is calculated by compounding a portfolio's current market value at such portfolio's current yield to maturity for a period equal to such portfolio duration. The Crediting Rate is the discount rate that equates that estimated future market value with such portfolio's current contract value. Crediting Rates are reset monthly. The Wrapper contracts are designed so that the Crediting Rate will not fall below 0%. The Capital Preservation Fund's Crediting Rate as of December 31, 2012 and 2011 was 1.9% and 2.3%, respectively. The average annualized yield of the Capital Preservation Fund for the years ended December 31, 2012 and 2011 was 2.2% and 2.4%, respectively.

Certain investment managers of investment funds offered under the Plan are authorized to use derivative financial instruments, either directly or within a commingled fund structure, in accordance with established guidelines of the investment funds. Derivative financial instruments may be used for the purpose of managing interest rate and foreign exchange risk, and for yield

Table of Contents

Time Warner Savings Plan

Notes to Financial Statements (continued)

enhancement. Changes in the fair value of derivative financial instruments are recorded in the Statements of Changes in Net Assets Available for Benefits; therefore, no gains or losses are deferred. At December 31, 2012 and December 31, 2011, the fair value of derivative financial instruments held by the Plan was not material. The derivative financial instruments held by the Plan at December 31, 2012 consisted of foreign currency forward contracts, interest rate and credit default swap contracts, futures on swap contracts and interest rate option contracts and at December 31, 2011 consisted of foreign currency forward contracts. Significant derivative positions at December 31, 2012 included written interest rate option contracts and interest rate swap contracts with notional amounts of \$143.7 million and \$87.2 million, respectively.

4. Fair Value Measurements

A fair value measurement is determined based on the assumptions that a market participant would use in pricing an asset or liability. A three-tiered hierarchy draws distinctions between market participant assumptions based on (i) observable inputs such as quoted prices in active markets (Level 1), (ii) inputs other than quoted prices in active markets that are observable either directly or indirectly (Level 2) and (iii) unobservable inputs that require the Plan to use present value and other valuation techniques in the determination of fair value (Level 3).

Table of Contents

Time Warner Savings Plan

Notes to Financial Statements (continued)

The following table presents information about the Plan's assets and liabilities required to be carried at fair value on a recurring basis as of December 31, 2012 and December 31, 2011 (in thousands):

| | December 31, 2012 | | | Total | December 31, 2011 | | |

The following is a description of the valuation methodologies used for assets measured at fair value. Investments are recorded by the Plan on a trade date basis at fair value.

Commingled trust funds: Valued at the net asset value per unit at year end as reported to Fidelity by each fund company managing such trusts. Investments in the underlying commingled trust funds can generally be redeemed daily at net asset value.

Equity securities: Valued at the closing price at year end as reported on the active market on which the individual securities are traded.

Synthetic investment contracts: The fair value of the benefit-responsive synthetic investment contracts at year end is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. Contract value represents contributions made under the contract, plus interest at the contract rate, less withdrawals under the contract. As of December 31, 2012 and 2011, there were no reserves against contract values for the credit risk of contract issuers or otherwise.

Table of Contents

Time Warner Savings Plan

Notes to Financial Statements (continued)

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Fixed income securities: Valued at the closing price at year end as reported on the active market on which the individual securities are traded. Securities not traded on an active market are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar securities, the securities are valued using a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks. Due to the subjectivity involved in this assessment, these investments may be classified in Level 3 of the fair value hierarchy.

Cash equivalents and other investments: Cash equivalents consist of investments in short term investment funds and a money market fund valued at net asset value per unit equal to one dollar at year end. Other investments can consist of certificates of deposit, commercial paper, repurchase agreements and futures, option and swap contracts. Certificates of deposit and repurchase agreements are valued at amortized cost, which approximates fair value. Commercial paper is valued using broker quotes that utilize observable market inputs. Futures and option contracts are generally valued at closing settlement prices. Swap contracts are marked-to-market as the net amount due to and from the Plan in accordance with the terms of the contract based on the closing level of the relevant market rate of interest.

5. Transactions with Parties-in-Interest

Under the terms of the Plan and the Master Trust, Time Warner may elect to contribute shares of Time Warner common stock and/or cash for Employing Company Contributions to the Plan. There were no shares of Time Warner common stock contributed in 2012 or 2011 as Employing Company Contributions to the Plan. The Plan may also purchase or sell shares of Time Warner common stock directly from or to Time Warner, respectively. There were no purchases or sales of Time Warner common stock by the Plan directly from or to Time Warner in 2012 or 2011.

Table of Contents

Time Warner Savings Plan

Notes to Financial Statements (continued)

Certain Plan investments are managed by Fidelity. State Street Bank acts as sub-custodian for certain Plan investments. Therefore, Fidelity's management of such Plan investments and State Street Bank's holding of such investments as sub-custodian qualify as party-in-interest transactions; however, these transactions are exempt from the prohibited transaction rules under ERISA.

6. Tax Status of Plan

The Plan has received a determination letter from the IRS, dated May 13, 2010, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. The Plan filed for a new determination letter from the IRS on January 31, 2013. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Administrative Committee believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan, as amended, is qualified and the related trust is tax exempt. The Plan is subject to audits, from time to time, by various authorities. The Administrative Committee believes that the Plan's information statement on Form 5500 is subject to examination for years after 2008; however, there are currently no audits for any periods in progress.

7. Subsequent Event

On March 6, 2013, Time Warner announced that its board of directors has authorized management to proceed with plans for the complete legal and structural separation of Time Warner's Publishing segment (as described in Time Warner's annual report on Form 10-K for the year ended December 31, 2012) from Time Warner (the "Time Separation"). The Time Separation is currently expected to be effected as a spin-off of Time Inc., a wholly owned subsidiary and an Employing Company. In the Time Separation, Time Warner will distribute all of the Time Inc. common stock to Time Warner stockholders, and Time Inc. will become an independent publicly-traded company. The Time Separation is contingent on the satisfaction of a number of conditions. Time Warner expects to complete the Time Separation by the end of 2013. Time Inc. and the other entities in the Publishing segment that are Employing Companies (the "Publishing Segment Employing Companies") will cease to be such effective upon the completion of the Time Separation. However, at this time, it is not known how the Plan participants employed by the Publishing Segment Employing Companies will be affected and what the impact to the Plan will be.

8. Reconciliation to Form 5500

The net assets of the Plan that are attributed to fully benefit-responsive investment contracts will be recorded at fair value on the 2012 IRS Form 5500 and related schedules. The following is a reconciliation of the Plan's net assets available for benefits and changes in net assets available for benefits between the financial statements and Form 5500:

| | December 31, | 2011 |
|--|-----------------------|--------------|
| | 2012 | 2011 |
| | <i>(In Thousands)</i> | |
| Net assets available for benefits per the financial statements | \$ 4,086,816 | \$ 3,556,062 |
| Adjustment from contract value to fair value for fully benefit-responsive investment contracts | 23,018 | 22,959 |
| Net assets per the Form 5500 | \$ 4,109,834 | \$ 3,579,021 |

| | Year Ended | December 31, |
|---|-----------------------|---------------------|
| | 2012 | |
| | <i>(In Thousands)</i> | |
| Net investment income from the Plan per the financial statements | \$ 494,520 | |
| Reversal of prior year adjustment from contract value to fair value for fully benefit-responsive investment contracts | | (22,959) |
| Adjustment from contract value to fair value for fully benefit-responsive investment contracts | | 23,018 |
| Net investment income from the Plan per the Form 5500 | \$ 494,579 | |
