Consolidated Costs

% Revenues

Consolidated Operating Costs

The Cost of Services Provided, General & Administrative Expenses and Selling Expenses, (excluding Results on disposal of PP&E, writedown of PP&E and related assets that resulted in a loss of P\$165 million), totaled P\$10,501 million in 1H13, an increase of P\$1,993 million, or +23% vs. 1H12. The increase is a consequence of higher commercial costs, higher taxes related to the increase in sales, the inflationary effects in the general cost structure, and greater expenses related to the intense competition.

The cost breakdown is as follows:

Employee benefit expenses and severance payments totaled P\$1,873 million (+26% vs. 1H12), mainly affected by increases in salaries granted to the unionized employees, increases to the non-unionized workforce, together with the social security contributions associated with such concepts, and to an increase in the number of unionized employees. Total employees (including temporary employees) at the end of the period totaled 16,717 similar levels to those achieved one year ago.

Taxes and fees with regulatory authorities reached P\$1,248 million (+33% vs. 1H12), impacted mainly by a higher volume of revenues, a higher incidence in turnover taxes derived from increases in municipal jurisdictions, higher municipal taxes and higher taxes with the regulatory authority.

Interconnection costs and other telecommunication charges (includes TLRD, Roaming, Interconnection, international settlement charges and lease of circuits) amounted to P\$1,006 million, +25% vs. 1H12. This increase resulted from higher Data and SMS roaming costs as well as voice roaming and TLRD charges due to a higher volume of traffic of minutes, partially compensated by

savings arising from *on-net* traffic stimulation.

Commissions (Commissions paid to Agents, prepaid card commissions and others) totaled P\$1,024 million (+14% vs. 1H12), mainly due to the increase in commissions paid to commercial agents associated with the increase in sales. Agent commissions capitalized as SAC amounted to P\$218 million (+42% vs. 1H12).

Table of Contents

Advertising amounted to P\$286 million (-9% vs. 1H12), mainly explained by minor commercial expenses and campaigns in comparison to 1H12 when Mobile Number Portability was introduced.

Cost of handsets sold totaled P\$1,288 million (+34% vs. 1H12), due to an increase in high-end handsets sales at higher unit prices, following the strategy of stimulating VAS usage, partially compensated by a lower quantity of handset sold. Deferred costs from SAC amounted to P\$164 million (-33% vs. 1H12).

D&A

(in billion P\$)

Fees for services, maintenance and materials amounted to \$1,214 million (+20% vs. 1H12), principally due to increases in the maintenance of radiobases, systems and real estate in the mobile business and higher costs associated to suppliers in both fixed and mobile segments.

This evolution to new architectures and technologies provides higher speeds and optimizes service quality in terms of stability and availability, improving the customer experience.

Capex

In the mobile business, the technological reconversion plan of the network continues with the optimization of 2G and 3G/HSPA+ services in all the country, increasing capacity spectrum usage efficiency. It is expected to double the capacity of the 3G network in 2013.
