The exact stock prices and effective dates may not be set forth in the table above, in which case:

if the applicable stock price is between two stock prices in the table or the effective date is between two effective dates in the table, the fundamental change early settlement rate will be determined by straight-line interpolation between the fundamental change early settlement rates set forth for the higher and lower stock prices and the two effective dates, as applicable, based on a 365-day year;

if the applicable stock price is in excess of \$100.00 per share (subject to adjustment), then the fundamental change early settlement rate will be the minimum settlement rate; or

if the applicable stock price is less than \$5.00 per share (subject to adjustment), the minimum stock price, the fundamental change early settlement rate will be determined as if the stock price equaled the minimum stock price, and using straight line interpolation, as described in the first bullet of this paragraph, if the effective date is between two dates in the table.

The maximum number of shares of the Issuer's common stock deliverable under a Purchase Contract is 1.3095, subject to adjustment.

Delivery of Common Stock:

Subject to the assumptions and provisions described in the Preliminary Prospectus Supplement, the following table illustrates that a holder of a Unit or a separate Purchase Contract, as applicable, will receive upon mandatory settlement the following numbers of shares of the Issuer's common stock at the following assumed constant daily VWAPs:

Assumed Constant Daily VWAP	Number of Shares of Common Stock
\$10.00	1.3095
\$12.50	1.3095
\$15.00	1.3095
\$17.50	1.3095
\$19.09	1.3095
\$20.00	1.2500
\$21.00	1.1905
\$22.00	1.1364
\$22.91	1.0913
\$23.00	1.0913
\$25.00	1.0913
\$27.50	1.0913

As a result, if, for the applicable observation period, the daily VWAP remains constant and is greater than or equal to the Threshold Appreciation Price, the holder would receive only approximately 83.33% of the appreciation in market value of the Issuer's common stock that the holder would have received had it purchased \$25.00 worth of shares of the Issuer's common stock at the Reference Price instead of a Unit.
