Managed Distribution Plan (MDP)

The Board of Directors of the Fund has authorized quarterly distributions under the MDP at an annual rate of 10% of the Fund's net asset value (NAV) per share recorded on the last business day of the previous calendar year. With each distribution, the Fund will issue a notice to stockholders and an accompanying press release which will provide detailed information regarding the amount and composition of the distribution and other information required by the Fund's MDP exemptive order. The Fund's Board of Directors may amend or terminate the MDP at any time without prior notice to stockholders; however, at this time, there are no reasonably foreseeable circumstances that might cause the termination of the MDP. You should not draw any conclusions about the Fund's investment performance from the amount of distributions or from the terms of the Fund's MDP.

2013 Annual Report

October 31, 2013

Highlights

The Fund's fiscal year 2013 ended on October 31, 2013.

The deceleration of the Mexican economy seems to be ending, as gross domestic product (GDP) accelerated to 0.8% during the third quarter of 2013, from -0.6% during the second quarter, both compared with the corresponding previous quarters. For the first nine months of 2013, Mexico's GDP grew 1.2%, compared with the same period of 2012. Mexican economists estimate that GDP growth will continue to gradually recover to 3.4% during calendar 2014.

During fiscal 2013, the Fund's market price and net asset value (NAV) per share registered total returns of 14.50% and 8.73%, respectively. These returns registered by the Fund compare favorably with returns of 0.57% and -0.84% registered by the Morgan Stanley Capital International (MSCI) Mexico Index and the Bolsa IPC Index, respectively.

Despite the recent economic slowdown, investors continue to recognize the Fund's strong performance and commitment to its Managed Distribution Plan (MDP), as well as Mexico's competitive situation, as shown by the favorable valuation of the Fund's shares. As of October 31, 2013, the Fund's market price and NAV per share were \$28.81 and \$28.30, respectively, reflecting a premium of 1.80%, compared with a discount of 3.73% at the end of fiscal 2012.

Since June 2013, the Fund has been issuing additional Fund shares when the Fund is trading at a premium under an Equity Shelf Program (ESP). The ESP is conducted pursuant to a shelf registration statement filed with the Securities and Exchange Commission (SEC). Under the ESP, the Fund issued 608,012 shares during fiscal 2013, resulting in additional available assets of \$18,114,247 to enable the Fund to take advantage of additional investment opportunities.

The Board has ratified the continuation of the Fund's MDP during fiscal 2014 at the annual rate of 10% of NAV per share recorded on December 31, 2013. The Fund has declared the fourth distribution of fiscal 2013 to be paid on January 13, 2014 to stockholders of record on December 26, 2013.

¹ Performance figures for the Fund take into account the reinvestment of distributions; however, performance figures for the Morgan Stanley Capital International (MSCI) Mexico Index and the Bolsa IPC Index do not.

The Mexico Fund, Inc. is a non-diversified closed-end management investment company with the investment objective of long-term capital appreciation through investments in securities, primarily equity, listed on the Mexican Stock Exchange. The Fund provides a vehicle to investors who wish to invest in Mexican

Edgar Filing: MEXICO FUND INC - Form N-CSR

companies through a managed non-diversified portfolio as part of their overall investment program.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may purchase, from time to time, shares of its common stock in the open market.

The Mexico Fund, Inc.

To Our Stockholders:

We present to you the Fund's 2013 Annual Report for the year ended October 31, 2013. In this Report, we summarize the period's prevailing economic, political and market conditions in Mexico and outline the Fund's investment strategy and resulting performance. We hope you find this Report useful and informative.

Economic and Political Environment

Under the Administration of President Enrique Peña Nieto, who took office on December 1, 2012, Mexican Congress approved the Labor, Public Sector Accounting, Competitiveness Law, Education, Telecommunication, Fiscal and Financial Reforms, which are expected to result in greater flexibility to create jobs, greater transparency, enhanced competition terms and conditions, higher quality teachers, greater competition in the telecommunications sector, higher tax collection and credit penetration, respectively, among other benefits. In addition, the Mexican Congress recently approved the Energy Reform, which is the most important economic reform, because of its potential growth, since the North American Free Trade Agreement (NAFTA) was signed in 1994. Several constitutional changes were implemented to allow private sector investments in areas that were reserved exclusively to Petróleos Mexicanos (Pemex), the Mexican state-owned oil company, for the past 75 years. The Energy Reform is expected to reverse eight years of declining oil production and place Mexico within the world's top five crude oil exporting countries. Still pending, but likely to be implemented soon, is the Political Reform. All these structural reforms are intended to boost Mexico's economic growth.

In the international arena, equity markets continue to be affected by the uncertainty resulting from the fiscal and solvency problems in the Eurozone and, in the United States, by concerns regarding a government shutdown, difficulty to increase the debt ceiling and the tapering of the monetary policy. Despite these external adverse factors, Mexico continues to distinguish itself from other emerging markets by having a solid macroeconomic framework and the additional growth potential that may come from the implementation of the structural reforms. Mexico maintains healthy public sector finances, with a modest fiscal deficit that during calendar 2012 was equivalent to 2.6% of GDP. Also, Mexico's current account has a deficit of around 1.7% of GDP and the Mexican financial system is in a healthy situation, as current levels of capital of commercial banks represent around 16% of assets, twice the amount required by the regulator.

The deceleration of the Mexican economy seems to be ending, as Mexico's GDP accelerated to 0.8% during the third quarter of 2013, from -0.6% during the second quarter, both compared with the corresponding previous quarters. For the first nine months of 2013, Mexico's GDP grew 1.2%, compared with the same nine-month period of 2012. We believe the economic deceleration was mostly attributed to temporary factors such as the deceleration of the US industrial sector, slow growth in the global manufacturing industry and, with respect to Mexico, a stagnation of public sector investment and expenditures, which is typical of the first year of a Presidential administration. Also, during the third quarter of calendar 2013, there was a negative effect from two storms that impacted Mexico's two coastal areas. Mexican economists estimate that GDP growth will continue to gradually recover to 3.3% during calendar 2014.

Table of Contents

The Mexico Fund, Inc.

Recognizing the weakness of the Mexican economic activity, the Mexican Central Bank reduced the domestic reference interest rates, from 4.50% (level that prevailed since July 17, 2009 until March 8, 2013) to 3.50% at the end of October 2013. The Central Bank announced that there is no intention to further reduce interest rates in the near term. As a result, the interest rate paid by 28-day Cetes (Treasury Bills) decreased from 4.22% at the end of fiscal 2012 to a minimum historical level of 3.40% at the end of October 2013, while the 10- and 30-year bonds paid interest rates of 6.07% and 7.33%, respectively, also at the end of October 2013. Analysts estimate that the rate of 28-day Cetes will remain near 3.50% during the next months and that it will gradually increase to 3.6% at the end of 2014. Mexico's country risk, as measured by the spread between the yields of Mexican sovereign debt instruments denominated in dollars and traded abroad, versus U.S. Treasury bonds, increased from 137 basis points at the end of fiscal 2012 to 170 basis points at the end of October 2013. Mexico's country risk of 170 basis points is among the lowest of Latin American countries, slightly higher than that of Chile, which is at 161, and lower than those of Colombia, Brazil and Argentina, which are at 172, 220 and 921 basis points, respectively.

During fiscal 2013, the Mexican peso registered a small appreciation of 0.6% against the U.S. dollar, as the exchange rate decreased from Ps. 13.0949 per dollar at the end of October 2012 to Ps. 13.0217 per dollar at the end of October 2013. This appreciation of the peso occurred despite a volatile performance that resulted from the adverse events mentioned above. Among the factors that explain this positive performance of the Mexican currency are foreign investment in debt instruments (due to the attractive spread between U.S. and Mexican interest rates) and equity securities, high levels of international oil prices, remittances from Mexican citizens living abroad and foreign direct investment (FDI). In recent years, Mexico's FDI was affected by the global economic deceleration, but it has recovered and for the first half of calendar 2013 it amounted to \$23.85 billion, 148% higher than it was during the same period of 2012.

Approximately 56% of this amount came from the acquisition of the Mexican brewer Grupo Modelo (producer of Corona beer) by the Belgian company Anheuser Busch-InBev. FDI is expected to continue flowing, especially to the automotive sector, and is expected to amount to \$33.4 billion and \$25.4 billion during 2013 and 2014 respectively. Analysts surveyed by the Central Bank at the end of October 2013 believed that the strength of the Mexican peso will continue and estimated that the exchange rate may be Ps. 12.90 at the end of 2013 and Ps 12.74 at the end of 2014.

Mexico's inflation rate remains under control despite some temporary pressures resulting from a bird-flu outbreak that increased prices of eggs and chicken. For the year ended October 31, 2013, Mexico's inflation rate was 3.4%, which is consistent with the target set by the Central Bank to achieve annual inflation levels of 3% with a margin of error of $\pm 1\%$. Analysts remain confident that the Central Bank will continue obtaining positive results in controlling inflation and consider that it will remain within this target, with estimates of 3.7% and 3.9% for calendar years 2013 and 2014, respectively.

Table of Contents**The Mexico Fund, Inc.**

The Mexican Central Bank continues accumulating international reserves as a result of a capital account surplus that exceeds by far the current account deficit. A total of \$10.5 billion in international reserves was accumulated from January 1 until October 31, 2013 for a total amount of \$174.1 billion of international reserves at the end of such month. Additionally, Mexico has available credit lines for \$73.0 billion from the International Monetary Fund. Together, international reserves and IMF credit lines amount to approximately \$247.1 billion, equivalent to 5.5 months of imports, and provide the Central Bank with additional flexibility to manage the monetary policy and may protect against external downside risks.

Management Discussion of Fund's Performance and Portfolio Strategy

The Fund's investment strategy and actions to reduce the discount have resulted in positive results. During fiscal 2013, the Fund outperformed the most representative indices of the Mexican equity market and the stock price discount to NAV per share gradually disappeared and converted into a premium. During fiscal 2013, the MSCI Mexico Index and the Bolsa IPC Index registered returns of 0.57% and -0.84%, respectively, while the Fund's market price and NAV registered returns of 14.50% and 8.73%, respectively. During fiscal 2013, the Adviser increased the Fund's exposure to defensive issuers that may benefit from the implementation of structural reforms and the recovery of the domestic market. The Adviser preferred investments in companies with low debt levels, including those in sectors such as department stores, restaurants, beverages, mining and energy. The Fund also invested in companies of the infrastructure, cement and financial sectors. At the same time, the Fund reduced its exposure to some companies more exposed to the external economy or with certain specific disadvantages in sectors including chemical, conglomerates, airports, health care, telecommunications, media, steel, housing, self-service stores, pawn shops and construction. The Fund does not have exposure to the housing sector.

The following table shows the annualized performance¹ of the Fund's market price and NAV per share as well as that of the two most relevant benchmarks, for periods ended October 31, 2013.

	Years			
	One	Three	Five	Ten
Fund's Market Price	14.50	13.81	26.52	18.85
Fund's NAV	8.73	9.01	20.77	17.32
Bolsa IPC Index	-0.84	3.03	14.40	15.75
MSCI Mexico Index	0.57	4.00	15.31	14.47

Sources: Impulsora del Fondo México, sc and Lipper Inc.

¹ Performance figures for the Fund take into account the reinvestment of distributions; however, performance figures for the Morgan Stanley Capital International (MSCI) Mexico Index and the Bolsa IPC Index do not.

Table of Contents**The Mexico Fund, Inc.**

The following table shows the top five contributors to the outperformance of the Fund's NAV relative to the Bolsa IPC Index during fiscal 2013. The table is sorted according to the relative contribution of these issuers to the Fund's outperformance, and shows their market price returns during such period. The Fund maintained an underweight exposure to América Móvil, Peñoles and Walmart Mexico, issuers with negative performances, and an overweight exposure to Grupo Carso and Alfa, issuers with positive returns in excess of 50%.

Top Five Contributors to Relative Performance vs the Bolsa IPC Index

Issuer	Industry	Return	Relative Contribution to Fund Performance	Average Over/Under Weight
América Móvil	Telecommunications	-14.09	2.44	-10.44
Peñoles	Mining	-40.02	1.31	-2.07
Walmart México	Retail	-10.09	1.05	-4.35
Grupo Carso	Conglomerate	59.17	0.87	1.96
Alfa	Conglomerate	50.36	0.77	1.80

The following table shows the top five detractors to the performance of the Fund's NAV relative to the Bolsa IPC Index during fiscal 2013 and shows their respective market price returns during such period. The Fund maintained an underexposure to four of these five issuers that registered positive performances.

Top Five Detractors from Relative Performance vs the Bolsa IPC Index

Issuer	Industry	Return	Relative Contribution to Fund Performance	Average Over/Under Weight
Televisa	Media	35.38	-1.02	-2.88
Gfnorte	Financial	16.11	-0.52	-1.08
Cultiba	Beverages	-28.21	-0.42	0.93
Gruma	Food	135.34	-0.35	-0.35
Compartamos	Financial	49.19	-0.34	-0.83

The following chart shows the Fund's portfolio composition by sector, expressed as a percentage of the Fund's net assets as of October 31, 2013, which amounted to \$398.52 million. More detailed information about the Fund's portfolio is available below in this report.

Table of Contents

The Mexico Fund, Inc.

Portfolio Composition by Sector

Percentage of Net Assets,

October 31, 2013

Increased investor demand for Fund shares has resulted in a higher volume of shares traded. During fiscal 2013, a total of 15.31 million shares traded on all US consolidated markets, compared with 7.32 million during fiscal 2012 and with 14.08 million shares outstanding at the end of October 2013.

The average price-to-earnings ratio (PER) of the Mexican equity market at the end of October 2013 was 18.9 times, while the price-to-book value ratio was 3.0 times³. The market capitalization of the Bolsa at the end of October 2013 amounted to \$549.8 billion. Mexican listed companies reflected the slowdown of the general economy and the negative effects of the volatile performance of the peso, as described above. During the third quarter of 2013, revenue of listed companies⁴ increased 1.4%, EBITDA² increased 4.4% and net income increased 7.8%. These are the first positive figures after two difficult quarters for Mexican listed companies. The Adviser believes that as temporary negative factors have passed, the implementation of the structural reforms and an expected recovery of public sector investment and expenditure will result in higher economic growth and bring about attractive investment opportunities in selected

² EBITDA refers to earnings before interest, taxes, depreciation and amortization.

³ Source: Impulsora del Fondo México, S.C. with figures provided by the Mexican Stock Exchange.

⁴ América Móvil was excluded from these figures to avoid a distorting effect from a 45.8% decline on its net income

The Mexico Fund, Inc.

issuers. We will continue to be prudent and look for companies with strong balance sheets with manageable debt levels, positive free cash flows, strong corporate governance policies, high-quality management teams, attractive growth potential and proven business models.

Equity Shelf Program

Since June 2013, the Fund has been issuing additional Fund shares when the Fund is trading at a premium under an Equity Shelf Program (ESP). The ESP is conducted pursuant to a shelf registration statement filed with the Securities and Exchange Commission (SEC). Under the ESP, the Fund issued 608,012 shares during fiscal 2013, resulting in additional available assets, of \$18,114,247 to enable the Fund to take advantage of additional investment opportunities.

Efforts to Monitor Fund Stock Price

The Fund continues to maintain and implement the following strategies as part of its ongoing efforts to enhance its stock price valuation:

- i) Under the Fund's MDP, the Fund pays quarterly distributions at an annual rate of 10% of the Fund's NAV per share recorded on the last business day of the previous calendar year. See details below.
- ii) The Fund has in place an open market share repurchase policy. See details below.
- iii) In an effort to provide investors with more timely information about the Fund's assets, since March 2010, the Fund has been publishing, during the first five business days of each month, its portfolio of investments as part of its Monthly Summary Report, which is filed with the SEC on Form 8K and is also available at the Fund's website. Please see the section captioned "Investors Relations; Reports to Stockholders" below for more information.

During fiscal 2013, the discount between the Fund's market price and NAV gradually disappeared and turned into a premium of 1.80% at the end of October 2013, compared with a discount of 3.73% at the end of fiscal 2012. Before the implementation of the Fund's MDP the Fund traded at an average discount of 14.7% during fiscal 2008. There can be no assurance that the Fund's share price will continue to trade at a market price above NAV.

Declaration of Distributions Under MDP

Under the MDP, the Fund pays quarterly distributions at an annual rate of 10% of the Fund's NAV per share recorded on the last business day of the previous calendar year. The Fund has maintained this rate of distributions since May 2009 and all distributions paid since then were composed of net investment income and long-term realized capital gains. The Board has ratified the continuation of the Fund's MDP during fiscal 2014 at the same annual rate of 10%, with distributions to be based on the Fund's NAV per share as of December 30, 2013. In making this determination, the Board considered all of the relevant facts and circumstances, including both the challenging global economic environment and the value to stockholders of steady cash distributions.

Table of Contents

The Mexico Fund, Inc.

Pursuant to the MDP, the Board of Directors has declared a dividend distribution of \$0.8648 per share, payable in cash on January 13, 2014 to stockholders of record on December 26, 2013.

For each distribution under the MDP, the Fund will issue a notice to stockholders and an accompanying press release which will provide detailed information regarding the amount and composition of the distribution and other information. The Fund's Board of Directors may amend or terminate the MDP at any time without prior notice to stockholders; however, at this time, there are no reasonably foreseeable circumstances that might cause the termination of the MDP. You should not draw any conclusions about the Fund's investment performance from the amount of distributions or from the terms of the Fund's MDP.

Impact of Mexican Fiscal Reform on Fund Stockholders

Currently, the Mexican Income Tax Law provides a tax exemption for gains realized on sales of securities listed on the Mexican Stock Exchange. Under the Tax Bill approved by Congress, starting January 1, 2014, such gains will be subject to a 10% income tax payment for non-residents of Mexico. However, non-resident sellers that reside in a country with which Mexico has in effect a tax treaty (such as the United States) and that are eligible for the benefits of such tax treaty are generally exempt from such tax. The Fund, as an investment company organized in the United States, believes that it is eligible for the benefits of the tax treaty between the United States and Mexico. Therefore, the Fund believes that it should generally be exempt from such tax, although there can be no assurance in this regard. The new Tax Bill also includes a 10% income tax withholding on dividends distributed by companies to non-residents of Mexico, which will apply to profits generated since 2014. Accordingly, the Fund's Board of Directors and Investment Adviser expect that this new withholding tax will be applicable to some dividend distributions made to the Fund by portfolio companies starting January 1, 2015.

Open Market Repurchases

Under the Fund's open market share repurchase policy, the Fund may repurchase up to 10% of the Fund's outstanding common stock in open market transactions during any 12-month period if and when Fund shares trade at a price which is at a discount of at least 10% to NAV. During fiscal 2013 the discount did not exceed 10% and therefore the Fund did not repurchase Fund shares in open market transactions.

Mandatory Cost Basis Reporting

As of January 1, 2012, U.S. federal law requires that investment companies report certain cost basis information to shareholders of record. For further information (including instructions on how to select a cost basis calculation method other than the default method chosen by the Fund), please see the box entitled "Cost Basis Information" on page 23 of this Annual Report.

General Information

Continued

Investment Policy Relating to Temporary Defensive Investments

The Fund generally invests at least 80% of its total assets in equity securities listed on the Mexican Stock Exchange, but may reduce its holdings in equity securities listed on the Mexican Stock Exchange below 80% of its total assets for temporary defensive purposes when unusual market or economic conditions occur.

Investment Policy Relating to Issuers Listed on the Mexican Stock Exchange and Organized Outside of Mexico

The Fund may invest up to 20% of its assets in issuers that are listed on the Mexican Stock Exchange, but which are organized outside of Mexico, provided each such issuer has a subsidiary organized in Mexico.

Concentration Policy

The Fund has a concentration policy that permits it to concentrate its investments in any industry or group of industries in the IPC Index (or any successor or comparable index as determined by the Board to be an appropriate measure of the Mexican market) if, at the time of investment, such industry represents 20% or more of the IPC Index; provided, however, that the Fund will not exceed the IPC Index concentration by more than 5%. At the end of October 2013, no industry group represented 20% or more of the value of the securities included in the IPC Index.

Proxy Voting

Information about how the Fund voted proxies during the twelve-month period ended June 30, 2012 is available, without charge, upon request by calling collect Mr. Eduardo Solano, the Fund's Investor Relations Vice President, or on the SEC's website at www.sec.gov. The Fund's and its Investment Adviser's proxy voting policies and procedures are on the Fund's website, www.themexicofund.com under the heading "Corporate Governance", on the SEC's website at www.sec.gov, or are available without charge, upon request, by calling Mr. Eduardo Solano. Mr. Solano can be contacted at (+52 55) 5282-8900, during Mexico City business hours (10:00 am to 3:00 pm and 5:00 to 7:00 pm ET).

Investor Relations; Reports to Stockholders

Reports and Proxy Statements are published on the Fund's website, www.themexicofund.com, under the section "Investor Reports".

Stockholders will receive printed versions of the Fund's semi-annual and annual reports. This information is also available in the Fund's quarterly electronic Form N-Q filings submitted to the SEC. Stockholders who wish to receive, electronically upon their dissemination, public reports and press releases regarding the Fund should contact the Fund's Investor Relations Office via e-mail (see address below). The Fund publishes a Monthly Summary Report which is distributed via e-mail to interested investors and available on the Fund's website; effective March 2010, the

Distribution Reinvestment and Stock Purchase Plan

The Fund's Distribution Reinvestment and Stock Purchase Plan (the Plan) provides a convenient way to increase your holdings in the common stock of the Fund through the reinvestment of distributions paid by the Fund. The Plan includes the following:

Edgar Filing: MEXICO FUND INC - Form N-CSR

- (1) **Voluntary Stock Purchase Option.** All registered stockholders (regardless of whether they are Plan participants) can make monthly voluntary cash investments in Fund shares through the Plan Agent, American Stock Transfer & Trust Company, LLC (AST). The minimum investment for a voluntary cash investment is \$25.00; you may vary the amount of your investment as long as it equals or exceeds this \$25.00 minimum. There is a fixed transaction fee of \$2.50 and a \$0.10 per share commission for this service. Optional cash payments can be made online or by mail, as described further in the enclosed brochure. Stockholders can also authorize AST to make automatic withdrawals from a bank account.

- (2) **Clarification Regarding Reinvestment of Distributions.** Distributions received through the Fund's Managed Distribution Plan can be reinvested directly in additional Fund shares, regardless of the character of such distributions for accounting and tax reporting purposes.

- (3) **Online Enrollment in the Plan.** As an alternative to mailing an authorization card to AST, stockholders may enroll in the Plan through AST's website at www.amstock.com. To have distributions

Table of Contents

The Mexico Fund, Inc.

reinvested, stockholder authorization must be received by AST by the record date for a given distribution.

- (4) **Withdrawal from the Plan.** Stockholders may withdraw from the Plan by notifying AST. If a request for withdrawal is received by AST more than three (3) business days before a distribution payment date that distribution will be paid out in cash.
- (5) **Amendment of Plan.** The Fund reserves the right to amend or supplement the Plan at any time, but only by mailing to participants appropriate written notice at least thirty (30) days prior to the effective date thereof, except when necessary to comply with applicable laws or the rules or policies of the Securities and Exchange Commission or other regulatory authority.

The Plan brochure can be accessed through AST's or the Fund's website, at www.amstock.com or www.themexicofund.com. If you have any questions, please contact AST at 1-877-573-4007 or 1-718-921-8124. You may also contact AST via mail at:

American Stock Transfer & Trust Company, LLC

Attention: Plan Administration Department

PO Box 922

Wall Street Station

New York, NY 10269-0560

If you are a Fund shareholder of record, you may enroll in the Plan by mail or online at www.amstock.com. Please contact AST for further information or to request an authorization card for enrollment. If your shares are held in nominee or street name through a broker, bank or other nominee who does not provide an automatic reinvestment service and you wish to have distributions reinvested in shares of the Fund, you must notify such nominee and request that the change be made on your behalf or that your shares be re-registered in your own name.

You may withdraw from the Plan without penalty at any time by notice to AST. If your request to withdraw from the Plan is received more than three business days before any distribution payment date, then that distribution will be paid out in cash. If your request to withdraw from the Plan is received less than three business days prior to any distribution payment date, then that distribution will be reinvested. However, all subsequent distributions would be paid out in cash on all balances. Should you choose to withdraw any shares from the Plan or discontinue your participation in the Plan, you will receive a certificate or certificates for the appropriate number of full shares, along with a check in payment for any fractional share interest you may have. The payment for the fractional shares will be valued at the market price of the Fund's shares on the date your termination is effective. In lieu of receiving a certificate, you may request the Plan Agent to sell part or all of your shares at market price and remit the proceeds to you, net of any brokerage commissions.

Under the terms of the Plan, whenever the Fund declares a distribution, Plan participants will receive their distribution entirely in shares of common stock purchased either in the open market or from the Fund. If, on the date a distribution becomes payable or such other date as may be

The Mexico Fund, Inc.

General Information

Concluded

specified by the Fund's Board (the valuation date), the market price of the common stock plus estimated brokerage commissions is equal to or exceeds the NAV per share of common stock, the Plan Agent will invest the distribution in newly issued shares of common stock, which will be valued at the greater of NAV per share or the current market price on the valuation date. If on the valuation date, the market price of the common stock plus estimated brokerage commissions is lower than the NAV per share, the Plan Agent will buy common stock in the open market. As a participant in the Plan, you will be charged a *pro-rata* portion of brokerage commissions on all open market purchases.

If you have any questions concerning the Plan, or would like a hard copy of the Plan brochure, please contact AST using the contact information listed above.

New York Stock Exchange Certifications

The Fund is listed on the New York Stock Exchange (NYSE). As a result, it is subject to certain corporate governance rules and related interpretations issued by the NYSE. Pursuant to those requirements, the Fund must include information in this report regarding certain certifications. The Fund's President and Treasurer have filed certifications with the SEC regarding the quality of the Fund's public disclosure. Those certifications were made pursuant to Section 302 of the Sarbanes-Oxley Act (Section 302 Certifications). The Section 302 Certifications were filed as exhibits to the Fund's annual report on Form N-CSR, which included a copy of this annual report along with other information about the Fund. After the Fund's 2013 annual meeting of stockholders, it filed an annual certification with the NYSE stating that its President was unaware of any violation of the NYSE's Corporate Governance listing standards.

Electronic Delivery of Fund Materials

We encourage our stockholders to receive Fund materials via e-mail in order to save on printing expenses and contribute to saving the environment. Please inform about your preference for electronic delivery to your broker (if you are holding your shares in street name) or by sending us an e-mail to investor-relations@themexicofund.com.

The Mexico Fund, Inc.

Cost Basis Information

Beginning with the 2012 calendar year, the Fund is required to report to shareholders of record and the Internal Revenue Service, annually on Form 1099-B, not only the gross proceeds of Fund shares sold, but also their cost basis, for shares purchased or acquired on or after January 1, 2012. Cost basis will be reported using the Fund's default method of first-in-first-out (FIFO), unless the shareholder of record instructs the Fund to use an average cost method for their shares purchased or acquired on or after January 1, 2012. Alternatively, a shareholder can generally supply instructions for specific lot identification for a given transaction.

If your Fund shares are registered in your name and you wish to elect an average cost method rather than the default method of FIFO, you may do so by downloading a form that is available on the Fund's website, www.themexicofund.com, under the section "Services", and mailing it to the Fund's Transfer Agent at the address indicated on the form. If you hold Fund shares through a financial intermediary, please contact that financial intermediary for instructions on how to make your election. If you wish to supply instructions for specific lot identification for shares purchased or acquired on or after January 1, 2012, please contact the Fund's Transfer Agent at (800) 937-5449.
