COMPANY OUTLOOK

With the cessation of LCM business in April 2014, the Company has been focusing its effort in developing the land parcels in Shenzhen.

In relation to the land parcels (in Guangming and Gushu) in Shenzhen, the construction permit application processes have been proceeding smoothly, and we believe that we can obtain the necessary permits and approvals to carry out the next stages of our property development projects on schedule.

For the Guangming project (Phase 1), the construction permit application processes have been proceeding smoothly, and we are in the final stages of selecting and appointing the qualified professional architectural firms for the next stage of the project. The construction phase of the Guangming project (Phase 1) is expected to commence in Q1 of 2016. Based on the current plan, subject to the final approval of the relevant authorities in China, the Phase 1 of the Guangming project will consist of mixed development of office buildings, retail area, hotel and apartment complexes. The Guangming project (Phase 2) will commence upon the completion of Guangming project (Phase 1). Based on the current timetable, the construction at the Gushu area is expected to commence no earlier than 2017

A summary of our planned gross floor area of the two land parcels in Shenzhen is as follows:

	Guangming		Gushu	
	Phase 1	Phase 2	Phase 1	Phase 2
Plot ratios	2.55 to 3.78		6.25	
Gross floor area (GFA) sq meters	265,000	127,000	140,000	140,000
Underground floor area sq meters	67,600	33,600	27,500	27,500
GFA subtotal (by land area) sq meters	493,200		335,000	

Please note that the eventual plot ratio and GFA, for the two parcels of land could be different from the above, are subject to the final approval of the relevant authorities in China.

In the recent weeks leading to the date of this announcement, the Chinese government has introduced a series of stimulus programs that are favorable to the property market. The average selling prices of properties sold in Shenzhen continued to show modest growth.

At this juncture, we continue to seek potential joint venture partners for the development of the land parcels in Shenzhen. External agents have been engaged to source suitable, capable and experienced joint venture partners. Before a joint venture partner is secured, we will work with other external professional firms in all material matters concerning our permit applications. In the event that no suitable joint venture partners can be found, we will continue with the land development projects mainly by relying on and supported by external professional firms. Based on the current timetable and progress, we do not foresee any immediate difficulties in the application process. We will continue to make timely announcements to keep shareholders informed about material developments.

As for our Wuxi plant, the factory building continues to be listed for sale.

The current headcount of our Group is 61 and we believe that our overhead expenses are under control. We currently derive a majority of our income from rental and interest income. Any future reductions in the official cash deposit interest rates in China and Hong Kong could adversely impact our income. As of March 31, 2015, total cash was \$298 million. As a result of our cash position, we believe our finances remain healthy to fund the initial stages of these property development projects in the next two to three years. All our land development related applications are subject to government policies and regulations in the real estate market. However, this is our first venture into the land

development projects after the cessation of the LCM business, and we may encounter industry-specific difficulties that result in losses as we progress with our projects in Shenzhen. For more information on risks in our business, please refer to the *Risk Factors* section of the 2014 Form 20-F as filed with the SEC and on our website.

The information contained in or that can be accessed through the website mentioned in this announcement does not form part of this announcement.
