<sup>3</sup> Plan subject to agreement with employee representatives

**PARIS, France November 5<sup>th</sup> 2015** CGG (ISIN: 0000120164 NYSE: CGG), **world leader in Geoscience**, announced today its non-audited 2015 third quarter results.

**Commenting on these results, Jean-Georges Malcor, CGG CEO, said:**

*In a very challenging market, our good cash performance this quarter is the result of the cost and capex reduction measures taken since the end of 2013 in the context of our Transformation Plan which aims at transforming CGG from a seismic acquisition company into an integrated geoscience company.*

*Anticipating market conditions that continue to deteriorate in Q4 and that could remain at such levels for longer, we intend to strengthen this strategy which has been implemented over the last two years. This new major step in our transformation will mainly translate into the resizing of our marine fleet to five vessels, two thirds of their capacity being dedicated to multi-client programs. Looking forward, this action will allow our contractual data acquisition activity to represent less than 15% of our consolidated revenue, thereby reducing the Group's exposure to this cyclical, highly competitive and high capital-intensive*

*business. This adjustment of our fleet and the cost-reduction measures will result in the cut of around 13% of job positions worldwide. This new phase in our Transformation Plan is being submitted for the approval of our employee representatives to be implemented during the first half of 2016. It triggers \$950 million non-cash costs already booked in our Q3 accounts and around \$200 million cash costs to be booked in the future.*

*We plan to finance the Group needs, notably related to the Transformation Plan, through disposal of non-core assets and equity offering or sale of a minority interest.*

*This new phase will allow us to build a rebalanced company supported by our unique positions in Equipment, in Multi-Client, in Imaging and Reservoir and by our technology expertise in Data Acquisition. CGG should remain resilient all along the downturn of the cycle to become strongly cash-generative when the market bounces back.*

### **Post-closing event**

CGG sold its Canadian onshore Multi-Client Library, on October 31, 2015.

### **Third quarter 2015 results:**

Revenue at \$470m, stable sequentially

Operating income, before Non-Recurring Charges (NRC), at \$4m

Group EBIT, before NRC, at \$15m with positive contribution from Equity Income mainly driven by the SBGS Joint-Venture

EBITDA at \$122m, and positive Free Cash Flow before NRC at \$22m

Following the strong deterioration of market conditions and the reduction in CGG's fleet, assets impairment & write-off and Non-Recurring Charges of \$1,015m booked in Q3:

\$500m split between \$365m of Marine goodwill impairment and \$135m of additional impairments, mainly vessels related

\$450m write-off mainly related to non-allocated GGR goodwill

\$48m depreciation of our deferred tax assets on past losses

\$17m other restructuring costs, mainly related to redundancies

Net Income at \$(1,074)m after NRC

Backlog at \$821m as of October 1st, 2015. As of today, marine fleet coverage is at 92% in Q4 2015. Indicator no longer relevant in 2016, as the fleet will be mainly dedicated to Multi-Client activity

**Decision to implement in Q3 a New Segment Reporting**

New segmentation with no impact at consolidated level

Creation of a new segment Non-Operated Resources sheltering marine idle assets and Group restructuring costs

GGR segment now includes Marine capital employed dedicated to Multi-Client activity

Data Acquisition segment now strictly limited to contractual revenues

**Equipment Total Revenue** was \$103 million, down 43% compared to the third quarter of 2014 and 4% sequentially. Marine equipment sales were still impacted by low volumes in a weak marine market. Land sales benefited from partial deliveries to our Middle East clients.

Marine equipment sales represented 28% of total sales, compared to 24% in the second quarter of 2015. Internal sales have slightly decreased sequentially, representing only 7% of total sales this quarter compared to 9% in the second quarter of 2015. External sales were \$96 million, stable compared to the second quarter of 2015.

**Equipment EBITDAs** was \$15 million, a margin of 15.0%.

**Equipment Operating Income** was \$5 million, a margin of 4.8% thanks to strong and continuing cost reduction measures.

**Equipment Capital Employed** was \$0.7 billion at the end of September 2015.

**Contractual Data Acquisition Total Revenue** was \$152 million, down 35% year-on-year and up 17% sequentially.

**Contractual Marine Acquisition** revenue was \$110 million, down 37% year-on-year and up 29% sequentially. The vessel availability rate was 84%. This compares to a 74% availability rate in the second quarter of 2015 and a 92% rate in the third quarter of 2014. Our vessel production rate was at 92% compared to a 92% production rate in the third quarter of 2014 and 94% in the second quarter of 2015.

**Land and Multi-Physics Acquisition** revenue was \$42 million, down 30% year-on-year and 5% sequentially. The restructuring measures implemented over the last two years led to a positive financial performance of our Land activity.

**Contractual Data Acquisition EBITDAs** was \$11 million, a margin of 6.9%.

**Contractual Data Acquisition Operating Income** was \$(24) million. The higher availability rate and our cost reduction program enabled us to significantly reduce the marine negative contribution this quarter.

**Contractual Data Acquisition EBIT** was \$(13) million. Positive contribution from Investments in Equity can be mainly explained by the positive contributions from the Seabed Geosolutions and Argas JVs.

**Contractual Data Acquisition EBIT** after NRC includes \$(505) million of non-recurring items linked to the Transformation Plan.

**Contractual Data Acquisition Capital Employed** was \$0.8 billion at the end of September 2015.
