MESSAGE TO SHAREHOLDERS

Dear Virtus Global Multi-Sector Income Fund Shareholder:

I am pleased to share with you the annual report for the Virtus Global Multi-Sector Income Fund that discusses performance for the eleven months ended November 30, 2015. This report reflects the change in the fund's fiscal year-end from December 31 to November 30, as previously approved by the board of directors, and contains commentary from the portfolio management team at Newfleet Asset Management on how the fixed income markets and the fund performed during the period, including the contribution of the options overlay strategy.

For the eleven months ended November 30, 2015, the fund's NAV gained 4.34%, including \$1.888 in reinvested distributions. For the same period, the fund's benchmark, the Barclays Global Aggregate Bond Index, declined 3.67%, including reinvested dividends.

On behalf of Newfleet Asset Management and Virtus Investment Partners, I welcome our new investors and thank all shareholders for entrusting your assets to us. Should you have any questions or require support, the Virtus customer service team is ready to assist you at 1-866-270-7788 or through the closed-end fund section of our website, www.virtus.com.

Sincerely,

George R. Aylward

MANAGER'S DISCUSSION OF FUND PERFORMANCE

NOVEMBER 30, 2015

(Unaudited)

About the Fund

The Virtus Global Multi-Sector Income Fund's (NYSE: VGI) (the "Fund") investment objective is to maximize current income while preserving capital. The Fund seeks to achieve its investment objective by applying a time-tested approach and extensive credit research to capitalize on opportunities across undervalued areas of the global bond market. *There is no guarantee that the Fund will achieve its objective.*

The use of leverage enables the Fund to borrow at short-term rates and invest at higher yields on its investments. As of November 30, 2015, the Fund's leverage consisted of \$68 million of debt, which represented approximately 26% of the Fund's total assets.

Portfolio Review – Newfleet Asset Management LLC ("Newfleet")

Newfleet's Multi-Sector Fixed Income Strategies team manages the Fund, leveraging the knowledge and skill of investment professionals with expertise in every sector of the bond market, including evolving, specialized, and out-of-favor sectors. The team employs active sector rotation and disciplined risk management for portfolio construction, avoiding interest rate bets and remaining duration neutral. Newfleet also manages the Fund's options overlay strategy. The options overlay strategy seeks to generate additional income through the purchase and sale of paired out-of-the-money puts and calls. The following commentary discusses Newfleet's management of the Fund from January 1, 2015 through November 30, 2015.

How did the global fixed income markets perform during the year-to-date period ended November 30, 2015?

Most fixed income spread sectors underperformed U.S. Treasuries year to date.

Oil prices dominated market volatility and investor concerns during the period. Brent crude oil hit a 12-month low of roughly \$40 a barrel on August 24, 2015.

Globally, concerns over China's slowing growth and the Greek debt crisis weighed on the fixed income markets. A looming Federal Reserve interest rate hike, with its negative implications for capital flows and debt financing, added to the turmoil with some emerging market central banks (unlike the International Monetary Fund and the World Bank) calling for the Federal Reserve (the "Fed") to raise rates and remove the uncertainty that could prove to be more harmful than the actual impact of a hike itself.

The waiting game for the Fed to raise rates from their near-zero level, which have been in place since December 2008, continued through the end of November. As of its October meeting, the Federal Reserve's Federal Open Market Committee had decided to leave its benchmark rate unchanged, balancing relatively strong U.S. growth and labor market conditions against a lack of inflation, a strengthening U.S. dollar, and a shaky global economy.

Year to date through November 30, 2015, yields increased across the U.S. Treasury curve and the curve flattened slightly.

What factors affected the Fund's performance during the period?

The underperformance of higher beta and non-U.S. dollar-denominated fixed income spread sectors relative to U.S. Treasuries and agency mortgages was the key driver of the Fund's underperformance year to date as the market rewarded an up-in-quality bias.

In terms of sectors, the Fund's allocation to emerging markets high yield, more specifically exposure to Argentina, and

(Unaudited)

short-dated Venezuela and Russian debt, were the largest contributors to performance for the period. Within the structured product sector, asset-backed securities, commercial mortgage-backed securities, and non-agency residential mortgages were positive contributors to performance.

Year to date, the Fund's allocation to corporate high yield, non-U.S. dollar, and Yankee high-quality bonds detracted from performance. The Fund's exposure to commodity issuers within the energy and metals & mining industries also negatively impacted performance.

How did the options overlay strategy perform over the period?

The Fund benefited from the options overlay strategy both from an income and total return perspective. This strategy seeks to generate additional income through the use of index-based, out-of-the money put and call spreads. This strategy is driven by implied volatility, as measured by the CBOE Volatility Index (or VIX as it's also known), and seeks to exploit pricing inefficiencies in options on the S&P 500® Index.

During low volatility periods, as experienced for the majority of the year, a range-bound market is an ideal environment for the strategy. This is because the strategy is able to retain all of the premium generated from the options program due to no in-the-money settlements of the short option positions. When the S&P 500 makes large and fast moves that are not priced into the implied volatility of the options market, the strategy can and will take losses as we saw in August of 2015. Since August, the strategy adjusted to the change in environment and returned to more profitable trades. For the eleven months ended November 30, 2015, the strategy performed as expected, generating income within its targeted yield

range, and enhancing the Fund's total return by 4.83% (gross of fees).

What is your outlook for fixed income markets?

While we are encouraged by the strength and resilience of the U.S. economy, the global turmoil of the past year is a clear reminder of the interconnectivity between markets and the potential for any event or combination of events to stall or derail the U.S. recovery.

As we enter the final month of 2015 and prepare for 2016, we expect that consequences from the slowdown in China will continue to play out and that volatility will be a dominant theme going into next year. The impact on emerging markets has taken on increasing significance. With China no longer the engine of global growth, deteriorating conditions in these markets have implications that extend far beyond their borders. All eyes will continue to be on the Federal Reserve as it seeks to balance the path of the U.S. economy with a myriad of geopolitical and global economic concerns.

In the current environment, we believe it is especially important to stay diversified, have granular positions, and emphasize liquid investments. We continue to look for opportunities in all sectors of the bond market, striving to

uncover any out-of-favor or undervalued sectors and securities.

We are constructive on fixed income spread sectors as credit fundamentals remain positive and spreads have become more attractive after widening during the year. With positive fundamentals such as low credit defaults and good interest coverage, modest demand for fixed income among investors, and a supportive environment for the asset class, spread sectors continue to offer attractive investment opportunities to investors searching for both total return and current income.

Credit & Interest: Debt securities are subject to various risks, the most prominent of which are credit and interest rate risk. The issuer of a debt security may fail to make interest and/or principal payments. Values of debt securities may rise or fall in response to changes in interest rates, and this risk may be enhanced with longer-term maturities.

Foreign & Emerging Markets: Investing internationally, especially in emerging markets, involves additional risks such as currency, political, accounting, economic, and market risk.

High Yield-High Risk Fixed Income Securities: There is a greater level of credit risk and price volatility involved with high yield securities than investment grade securities.

ABS/MBS: Changes in interest rates can cause both extension and prepayment risks for asset- and mortgage-backed securities. These securities are also subject to risks associated with the repayment of underlying collateral.

Bank Loans: Loans may be unsecured or not fully collateralized, may be subject to restrictions on resale and/or trade infrequently on the secondary market. Loans can carry significant credit and call risk, can be difficult to value and have longer settlement times than other investments, which can make loans relatively illiquid at times.

Leverage: When a fund leverages its portfolio, the value of its shares may be more volatile and all other risks may be compounded.

Call/Put Spreads: Buying and selling call and put option spreads on the SPX Index risks the loss of the premium when buying and may increase downside losses.

Market Price/NAV: Shares of closed-end funds often trade at a discount to their net asset value, which may increase investors' risk of loss. At the time of sale, an investor's shares may have a market price that is above or below the fund's NAV.

KEY INVESTMENT TERMS

Barclays Global Aggregate Bond Index

The Barclays Global Aggregate Bond Index is a market-weighted index of global government, government-related agencies, corporate and securitized fixed income investments.

The index is calculated on a total return basis. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and it is not available for direct investment.

Brent Crude

Roughly two-thirds of all crude contracts around the world reference Brent Blend, making it the most widely used marker of all. These days, Brent actually refers to oil from four different fields in the North Sea: Brent, Forties, Oseberg and Ekofisk. Crude from this region is light and sweet, making them ideal for the refining of diesel fuel, gasoline and other high-demand products. And because the supply is water-borne, it's easy to transport to a distant locations.

Chicago Board Options Exchange (CBOE) Volatility Index, (VIX CBOE)

The Chicago Board Options Exchange (CBOE) Volatility Index, which shows the market's expectation of 30-day volatility. It is constructed using the implied volatilities of a wide range of S&P 500 index options. This volatility is meant to be forward looking and is calculated from both calls and puts. The VIX is a widely used measure of market risk and is often referred to as the investor fear gauge.

Exchange-Traded Funds (ETF)

An open-end fund that is traded on a stock exchange. Most ETFs have a portfolio of stocks or bonds that track a specific market index.

Federal Reserve (the Fed)

The Central bank of the United States, responsible for controlling the money supply, interest rates and credit with the goal of keeping the U.S. economy and currency stable. Governed by a seven-member board, the system includes 12 regional Federal Reserve Banks, 25 branches and all national and state banks that are part of the system.

International Monetary Fund (IMF)

The IMF is an organization of 188 countries working to foster global monetary cooperation, secure financial stability, facilitate international trade, promote high employment and sustainable economic growth, and reduce poverty around the world.

S&P 500[®] Index

The S&P 500[®] Index is a free-float market capitalization-weighted index of 500 of the largest U.S. companies. The index is calculated on a total return basis with dividends reinvested. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and it is not available for direct investment.

World Bank

The World Bank is an international organization dedicated to providing financing, advice and research to developing nations to aid their economic advancement.

Yield Curve

A line that plots the interest rates, at a set point in time, of bonds having equal credit quality, but differing maturity dates. The most frequently reported yield curve compares the three-month, two-year, five-year and 30-year U.S. Treasury debt. This yield curve is used as a benchmark for other debt in the market, such as mortgage rates or bank lending rates. The curve is also used to predict changes in economic output and growth.

Transfers from Level 3 ^(a)			
Balance as of November 30, 2015	\$ 1,851^(e)	\$ 1,435^(e)	\$ 416^(e)

(a) Transfers into and/or from represent the ending value as of November 30, 2015, for any investment security where a change in the pricing level occurred from the beginning to the end of the period.

(b) Includes paydowns on securities.

(c) Amount is less than \$500.

(d) Included in the related net change in unrealized appreciation (depreciation) on investments in the Statement of Operations. The change in unrealized appreciation (depreciation) on securities still held at November 30, 2015, was \$(55).

(e) The Fund's investments that are categorized as Level 3 were valued utilizing third party pricing information without adjustment. Such valuations are based on unobservable inputs. A significant change in third party information inputs could result in a significantly lower or higher value of Level 3 investments.

(f) The transfer is due to a decrease in trading activities at period end.

None of the securities in this table are internally fair valued.

VIRTUS GLOBAL MULTI-SECTOR INCOME FUND

NOTES TO FINANCIAL STATEMENTS

NOVEMBER 30, 2015

Note 1. Organization

The Fund was incorporated as a statutory trust under the laws of the State of Delaware on November 9, 2011. The Fund commenced operations on February 23, 2012, as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund's investment objective is to maximize current income while preserving capital.

Note 2. Significant Accounting Policies

The significant accounting policies consistently followed by the Fund in the preparation of its financial statements are summarized below and for derivatives, included in Note 3 below. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates, and those differences could be significant.

A. Security Valuation

Security valuation procedures for the Fund, which include nightly price variance, as well as back-testing such as bi-weekly unchanged price, monthly secondary source and transaction analysis, have been approved by the Board of Trustees (the Board , or the Trustees). All internally fair valued securities are approved by a valuation committee (the Valuation Committee) appointed by the Board. The Valuation Committee is comprised of certain members of management as identified to the Board and convenes independently from portfolio management. All internally fair valued securities are updated daily and reviewed in detail by the Valuation Committee monthly unless changes occur within the period. The Valuation Committee reviews the validity of the model inputs and any changes to the model. Quarterly fair valuations are reviewed by the Board.

The Fund utilizes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The Fund's policy is to recognize transfers between levels at the end of the reporting period.

Level 1 quoted prices in active markets for identical securities (security types generally include listed equities).

Level 2 prices determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Edgar Filing: Virtus Global Multi-Sector Income Fund - Form N-CSR

Level 3 prices determined using significant unobservable inputs (including the Valuation Committee's own assumptions in determining the fair value of investments).

A description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis is as follows:

Equity securities are valued at the official closing price (typically last sale) on the exchange on which the securities are primarily traded or, if no closing price is available, at the last bid price and are categorized as Level 1 in the hierarchy. Restricted equity

VIRTUS GLOBAL MULTI-SECTOR INCOME FUND

NOTES TO FINANCIAL STATEMENTS (Continued)

NOVEMBER 30, 2015

securities and private placements that are not widely traded, are illiquid, or are internally fair valued by the Valuation Committee, are generally categorized as Level 3 in the hierarchy.

Certain non-U.S. securities may be fair valued in cases where closing prices are not readily available or are deemed not reflective of readily available market prices. For example, significant events (such as movement in the U.S. securities market, or other regional and local developments) may occur between the time that non-U.S. markets close (where the security is principally traded) and the time that the Fund calculates its net asset value (NAV) (at the close of regular trading on the New York Stock Exchange (NYSE), generally 4 p.m. Eastern time) that may impact the value of securities traded in these non-U.S. markets. In such cases the Fund fair values non-U.S. securities using an independent pricing service which considers the correlation of the trading patterns of the non-U.S. security to the intraday trading in the U.S. markets for investments such as ADRs, financial futures, ETFs, and certain indexes, as well as prices for similar securities. Such fair valuations are categorized as Level 2 in the hierarchy. Because the frequency of significant events is not predictable, fair valuation of certain non-U.S. common stocks may occur on a frequent basis.

Debt securities, including restricted securities, are valued based on evaluated quotations received from independent pricing services or from dealers who make markets in such securities. For most bond types, the pricing service utilizes matrix pricing that considers one or more of the following factors: yield or price of bonds of comparable quality, coupon, maturity, current cash flows, type, and current day trade information, as well as dealer supplied prices. These valuations are generally categorized as Level 2 in the hierarchy. Structured debt instruments, such as mortgage-backed and asset-backed securities, may also incorporate collateral analysis and utilize cash flow models for valuation and are generally categorized as Level 2 in the hierarchy. Pricing services do not provide pricing for all securities and therefore indicative bids from dealers are utilized which are based on pricing models used by market makers in the security and are generally categorized as Level 2 in the hierarchy. Debt securities that are not widely traded, are illiquid, or are internally fair valued by the Valuation Committee, are generally categorized as Level 3 in the hierarchy.

Listed derivatives, such as options, that are actively traded are valued based on quoted prices from the exchange and are categorized as Level 1 in the hierarchy. Over-the-counter derivative contracts, which include forward currency contracts and equity-linked instruments, do not require material subjectivity as pricing inputs are observed from actively quoted markets and are categorized as Level 2 in the hierarchy.

Investments in open-end mutual funds are valued at NAV. Investments in closed-end funds are valued as of the close of regular trading on the NYSE each business day. Both are categorized as Level 1 in the hierarchy.

A summary of the inputs used to value the Fund's net assets by each major security type is disclosed at the end of the Schedule of Investments for the Fund. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

B. Security Transactions and Investment Income

Security transactions are recorded on the trade date. Realized gains and losses from sales of securities are determined on the identified cost basis. Dividend income is

VIRTUS GLOBAL MULTI-SECTOR INCOME FUND

NOTES TO FINANCIAL STATEMENTS (Continued)

NOVEMBER 30, 2015

recognized on the ex-dividend date or, in the case of certain foreign securities, as soon as the Fund is notified. Interest income is recorded on the accrual basis. The Fund amortizes premiums and accretes discounts using the effective interest method.

C. Income Taxes

The Fund is treated as a separate taxable entity. It is the Fund's intention to comply with the requirements of Subchapter M of the Internal Revenue Code and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes or excise taxes has been made.

The Fund may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable based upon current interpretations of the tax rules and regulations that exist in the markets in which it invests.

Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. As of November 30, 2015, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2012 (inception of the Fund) forward (with limited exceptions).

D. Distributions to Shareholders

Distributions are recorded by the Fund on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations that may differ from accounting principles generally accepted in the United States of America. These differences may include the treatment of non-taxable dividends, market premium and discount, non-deductible expenses, expiring capital loss carryovers, foreign currency gain or loss, operating losses and losses deferred due to wash sales. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications to capital paid in on shares of beneficial interest.

E. Foreign Currency Translation

Non-U.S. investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the foreign currency exchange rate effective at the end of the reporting period. Cost of investments is translated at the currency exchange rate effective at the trade date. The gain or loss resulting from a change in currency exchange rates between the trade and settlement date of a portfolio transaction is treated as a gain or loss on foreign currency. Likewise, the gain or loss resulting from a change in currency exchange rates between the date income is accrued and the date it is paid is treated as a gain or loss on foreign currency. The Fund does not isolate that portion of the results of operations arising from changes in foreign exchange rates on investments from the fluctuations arising from changes in the market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

F. When-issued Purchases and Forward Commitments (Delayed-Delivery)

The Fund may engage in when-issued or forward commitment transactions. Securities purchased on a when-issued or forward commitment basis are also known as delayed delivery transactions. Delayed delivery transactions involve a commitment by the Fund to purchase or sell a security at a future date (ordinarily up to 90 days later). When-issued or

VIRTUS GLOBAL MULTI-SECTOR INCOME FUND

NOTES TO FINANCIAL STATEMENTS (Continued)

NOVEMBER 30, 2015

forward commitments enable the Fund to lock in what is believed to be an attractive price or yield on a particular security for a period of time, regardless of future changes in interest rates. The Fund records when-issued and delayed delivery securities on the trade date. The Fund maintains collateral for the securities purchased. Securities purchased on a when-issued or delayed delivery basis begin earning interest on the settlement date.

G. Loan Agreements

The Fund may invest in direct debt instruments which are interests in amounts owed by a corporate, governmental, or other borrower to lenders or lending syndicates. Loan Agreements are generally non-investment grade and often involve borrowers that are highly leveraged. The Fund may invest in obligations of borrowers who are in bankruptcy proceedings. Loan agreements are typically senior in the corporate capital structure of the borrower. A loan is often administered by a bank or other financial institution (the lender) that acts as agent for all holders. The agent administers the terms of the loan, as specified in the loan agreement. The Fund's investments in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties. When investing in loan participations, the Fund has the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the loan participation and only upon receipt by the lender of payments from the borrower. The Fund generally has no right to enforce compliance with the terms of the loan agreement with the borrower. As a result, the Fund may be subject to the credit risk of both the borrower and the lender that is selling the loan agreement. When the Fund purchases assignments from lenders it acquires direct rights against the borrower on the loan.

The Fund may invest in multiple series or tranches of a loan, which may have varying terms and carry different associated risks. Loan agreements may involve foreign borrowers and investments may be denominated in foreign currencies. Direct indebtedness of emerging countries involves a risk that the government entities responsible for the repayment of the debt may be unable, or unwilling, to pay the principal and interest when due.

The loan agreements have floating rate loan interests which generally pay interest at rates that are periodically determined by reference to a base lending rate plus a premium. The base lending rates are generally LIBOR (London Interbank Offered Rate), the prime rate offered by one or more U.S. banks or the certificate of deposit rate. When a loan agreement is purchased the Fund may pay an assignment fee. On an ongoing basis, the Fund may receive a commitment fee based on the undrawn portion of the underlying line of credit portion of a loan agreement. Prepayment penalty fees are received upon the prepayment of a loan agreement by a borrower. Prepayment penalty, facility, commitment, consent and amendment fees are recorded to income as earned or paid.

At November 30, 2015, all loan agreements held by the Fund are assignment loans.

H. Expenses

Expenses incurred together by the Fund and other affiliated mutual funds are allocated in proportion to the net assets of each such fund, except where allocation of direct expense to each fund or an alternative allocation method can be more appropriately used.

VIRTUS GLOBAL MULTI-SECTOR INCOME FUND

NOTES TO FINANCIAL STATEMENTS (Continued)

NOVEMBER 30, 2015

In addition to the net annual operating expenses that the Fund bears directly, the shareholders of the Fund indirectly bear the Fund's pro rata expenses of any underlying mutual funds in which the Fund invests.

Note 3. Derivative Financial Instruments and Transactions

(\$ reported in thousands)

Disclosures about derivative instruments and hedging activities are intended to enable investors to understand how and why the Fund uses derivatives, how derivatives are accounted for, and how derivative instruments affect the Fund's results of operations and financial position. Summarized below is a specific type of derivative instrument used by the Fund.

A. Options contracts

An options contract provides the purchaser with the right, but not the obligation, to buy (call option) or sell (put option) a financial instrument at an agreed upon price. The Fund pursues an option income strategy whereby it purchases and sells out-of-the-money puts and calls, creating an options spread designed to generate a consistent level of option cash flow which should result in additional yield. The Fund is subject to equity price risk in the normal course of pursuing its investment objectives.

When the Fund purchases an option, it pays a premium and an amount equal to that premium is recorded as an asset. When the Fund writes an option, it receives a premium and an amount equal to that premium is recorded as a liability. The asset or liability is adjusted daily to reflect the current market value of the option. Holdings of the Fund designated to cover outstanding written options are noted in the Schedule of Investments. Purchased options are reported as an asset within Investment in securities at value in the Statement of Assets and Liabilities. Options written are reported as a liability within Written options outstanding at value. Changes in value of the purchased option is included in Net change in unrealized appreciation (depreciation) on investments in the Statement of Operations. Changes in value of written options is included in Net change in unrealized appreciation (depreciation) on written options.

If an option expires unexercised, the Fund realizes a gain or loss to the extent of the premium received or paid. If an option is exercised, the premium received or paid is recorded as an adjustment to the proceeds from the sale or the cost basis of the purchase. The difference between the premium and the amount received or paid on effecting a closing purchase or sale transaction is also treated as a realized gain or loss. Gain or loss on purchased options is included in Net realized gain (loss) on investments in the Statement of Operations. Gain or loss on written options is presented separately as Net realized gain (loss) on written options in the Statement of Operations.

The risk in writing covered put options is that the Fund may incur a loss if the market price of the security decreases and the option is exercised. The risk in buying options is that the Fund pays a premium whether or not the option is exercised. The use of such instruments may involve certain additional risks as a result of unanticipated movements in the market. Writers (sellers) of options are normally subject to unlimited risk of loss, as the seller will be obligated to

deliver or take delivery of the security at a predetermined price which may, upon exercise of the option, be significantly different

VIRTUS GLOBAL MULTI-SECTOR INCOME FUND**NOTES TO FINANCIAL STATEMENTS (Continued)****NOVEMBER 30, 2015**

from the then-market value. However, the Fund may limit its risk of loss when writing an option by purchasing an option similar to the one that is sold, except for the fact it is further out of the money .

The Fund invested in derivative instruments during the fiscal period in the form of writing put/call options and buying put/call options on the S&P 500® Index. The primary risk associated with these derivative instruments is equity risk.

The Fund had transactions in written options for the period ended November 30, 2015, as follows:

	Calls		Puts

NOTES TO FINANCIAL STATEMENTS (Continued)

NOVEMBER 30, 2015

For the period ended November 30, 2015, the average daily premiums paid by the Fund for purchased options was \$258 and the average daily premiums received by the Fund from written options was \$(625).

Note 4. Investment Advisory Fees and Related Party Transactions

(\$ reported in thousands)

A. Adviser

Virtus Investment Advisers, Inc. (the Adviser), an indirect wholly owned subsidiary of Virtus Investment Partners, Inc. (Virtus), is the adviser to the Fund. The Adviser manages the Fund's investment program and general operations of the Fund, including oversight of the Fund's subadviser.

As compensation for its services to the Fund, the Adviser will receive a monthly fee at an annual rate of 0.95% as a percentage of the average daily managed assets which is defined as the value of the total assets of the Fund minus the sum of all accrued liabilities of the Fund (other than the aggregate amount of any outstanding borrowings or other indebtedness, entered into for the purpose of constituting financial leverage).

B. Subadviser

Newfleet Asset Management, LLC (Newfleet), an indirect, wholly owned subsidiary of Virtus, is the subadviser for the Fund. The subadviser manages the investments of the Fund for which they are paid a fee by the Adviser.

C. Administrator

Virtus Fund Services, LLC (VFS), an indirect wholly owned subsidiary of Virtus, serves as administrator to the Fund.

For the fiscal period ended November 30, 2015, the Fund incurred administration fees totaling \$250 which are included in the Statement of Operations.

For the year ended December 31, 2014, the Fund incurred administration fees totaling \$304 which are included in the Statement of Operations.

D. Trustees

For the fiscal period ended November 30, 2015, the Fund incurred Trustees fees totaling \$104 which are included in the Statement of Operations.

For the year ended December 31, 2014, the Fund incurred Trustees fees totaling \$153 which are included in the Statement of Operations.

E. Payment from Affiliate

During the fiscal period, the Adviser reimbursed the Fund for certain losses in the amount of \$4. There was no impact on total return.

Note 5. Purchases and Sales of Securities

(\$ reported in thousands)

Purchases and sales of securities (excluding U.S. Government and agency securities, and short-term investments) during the fiscal period ended November 30, 2015 were as follows:

	Purchases	Sales
	\$ 98,923	\$ 118,822

VIRTUS GLOBAL MULTI-SECTOR INCOME FUND**NOTES TO FINANCIAL STATEMENTS (Continued)****NOVEMBER 30, 2015**

The purchases and sales of long term U.S. Government and agency securities for the fiscal period ended November 30, 2015, were as follows:

	Purchases	Sales
	\$ 33,585	\$ 24,177

Note 6. Illiquid and Restricted Securities

Investments generally are considered illiquid if they cannot be disposed of within seven days in the ordinary course of business at the approximate amount at which such securities have been valued by the Fund. Additionally, the following information is also considered in determining liquidity: the frequency of trades and quotes for the investment, whether the investment is listed for trading on a recognized domestic exchange and/or whether two or more brokers are willing to purchase or sell the security at a comparable price, the extent of market making activity in the investment and the nature of the market for investment. Illiquid securities are footnoted as such at the end of the Fund's Schedule of Investments, where applicable. However, a portion of such footnoted securities could be liquid where it is determined that some, though not all, of the position could be disposed of within seven days in the ordinary course of business at the approximate amount at which such securities have been valued by the Fund.

Restricted securities are illiquid securities, as defined above, not registered under the Securities Act of 1933, as amended (the "1933 Act"). Generally, 144A securities are excluded from this category, except where defined as illiquid.

The Fund will bear any costs, including those involved in registration under the 1933 Act, in connection with the disposition of such securities.

At November 30, 2015, the Fund did not hold any securities that are both illiquid and restricted.

Note 7. Credit Risk and Asset Concentrations

In countries with limited or developing markets, investments may present greater risks than in more developed markets and the prices of such investments may be volatile. The consequences of political, social or economic changes in these markets may have disruptive effects on the market prices of these investments and the income they generate, as well as the Fund's ability to repatriate such amounts.

High-yield/high risk securities typically entail greater price volatility and/or principal and interest rate risk. There is a greater chance that an issuer will not be able to make principal and interest payments on time. Analysis of the creditworthiness of issuers of high-yield/high-risk securities may be complex, and as a result, it may be more difficult for the Adviser and/or subadviser to accurately predict risk.

The Fund may invest a high percentage of its assets in specific sectors of the market in the pursuit of its investment objective. Fluctuations in these sectors of concentration may have a greater impact on the Fund, positive or negative, than if the Fund did not concentrate its investments in such sectors. At November 30, 2015, the Fund held 26% of its

total investments net of written options in securities within the financials sectors.

The Fund borrows through its line of credit for the purpose of leveraging. While leverage presents opportunities for increasing the Fund's total return, it also has the effect of potentially increasing losses. Accordingly, any event which adversely affects the value of an investment held by the Fund would be magnified to the extent the Fund is leveraged.

VIRTUS GLOBAL MULTI-SECTOR INCOME FUND**NOTES TO FINANCIAL STATEMENTS (Continued)****NOVEMBER 30, 2015****Note 8. Borrowings**

(\$ reported in thousands)

The Fund has entered into a Credit Agreement (the Agreement) with a commercial bank (the Bank) that allows the Fund to borrow cash from the Bank, up to a limit of \$125,000, which may be increased to \$150,000 under certain circumstances (Commitment Amount). Borrowings under the Agreement are collateralized by investments of the Fund. The Agreement results in the Fund being subject to certain covenants including asset coverage and portfolio composition (among others). If the Fund fails to meet or maintain certain covenants as required under the Agreement, the Fund may be required to repay immediately, in part or in full, the loan balance outstanding under the credit agreement, necessitating the sale of securities at potentially inopportune times. Interest is charged at LIBOR (London Interbank Offered Rate) plus an additional percentage rate on the amount borrowed. Commitment fees are charged on the undrawn balance, if less than 50% of the Commitment Amount is outstanding as a loan to the Fund. There were no commitment fees paid or accrued for the period ended November 30, 2015. The Agreement is renewable by the Fund with the Bank's consent. The Agreement can also be converted to a 364 day fixed term facility, one time at the Fund's option. The Bank has the ability to require repayment of outstanding borrowings under the Agreement upon certain circumstances such as an event of default. From January 1, 2015 to November 30, 2015, the average daily borrowings under the Agreement and the weighted daily average interest rate were \$73,904 and 0.983%, respectively. At November 30, 2015, the amount of such outstanding borrowings was as follows:

	Outstanding Borrowings	Interest Rate
	\$ 68,000	1.032%

Note 9. Indemnifications

Under the Fund's organizational documents, its Trustees and officers are indemnified against certain liabilities arising out of the performance of their duties to the Fund. Each Trustee has also entered into an indemnification agreement with the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide a variety of indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund and that have not occurred. However, the Fund has not had prior claims or losses pursuant to such arrangements and expects the risk of loss to be remote.

Note 10. Capital Transactions

At November 30, 2015, the Fund had one class of common stock, no par value shares, of which unlimited shares are authorized and 11,255,236 shares are outstanding. Registered shareholders may elect to have all distributions paid by check mailed directly to the shareholder by Computershare as dividend paying agent. Pursuant to the Automatic Reinvestment and Cash Purchase Plan (the Plan), shareholders not making such election will have all such amounts automatically reinvested by Computershare, as the Plan agent, in whole or fractional shares of the Fund, as the case may be. During the periods ended November 30, 2015, December 31, 2014 and December 31, 2013, there were no

shares issued pursuant to the Plan.

VIRTUS GLOBAL MULTI-SECTOR INCOME FUND**NOTES TO FINANCIAL STATEMENTS (Continued)****NOVEMBER 30, 2015**

On December 3, 2015, the Fund announced a distribution of \$0.156 to shareholders of record on December 14, 2015. This distribution has an ex-dividend date of December 10, 2015, and is payable on December 18, 2015.

Note 11. Regulatory Matters and Litigation

From time to time, the Fund's investment adviser and/or its affiliates and/or subadvisers may be involved in litigation and arbitration as well as examinations and investigations by various regulatory bodies, including the SEC, involving compliance with, among other things, securities laws, client investment guidelines, laws governing the activities of broker dealers and other laws and regulations affecting their products and other activities. The outcomes of such matters are not likely, either individually or in the aggregate, to be material to these financial statements.

As part of an SEC non-public, confidential investigation of a matter entitled *In the Matter of F-Squared Investments Inc.*, the SEC staff informed the Fund's investment adviser that it was inquiring into whether it had violated securities laws or regulations with respect to circumstances related to that matter. On November 16, 2015, without admitting or denying the SEC's findings, the Fund's investment adviser consented to the entry of an order providing that it cease and desist from committing or causing any violations and future violations of Sections 204, 206(2) and 206(4) of the Investment Advisers Act of 1940, as amended, and Rules 204-2, 206(4)-1, 206(4)-7 and 206(4)-8 thereunder, and Section 34(b) of the Investment Company Act of 1940, as amended; agreed to a censure; and paid \$16.5 million, which included a civil money penalty of \$2 million, disgorgement of \$13.4 million and prejudgment interest of \$1.1 million. This matter had no impact upon these financial statements.

Note 12. Federal Income Tax Information

(\$ reported in thousands)

At November 30, 2015, federal tax cost and aggregate gross unrealized appreciation (depreciation) of securities held by the Fund were as follows:

	Federal Tax Cost	Unrealized Appreciation	Unrealized (Depreciation)	Net Unrealized Appreciation (Depreciation)
Investments (including purchased options)	\$271,464	\$3,288	(22,851)	(19,563)
Written Options	(447)			

The differences between book basis cost and tax basis cost were attributable primarily to the tax deferral of losses on wash sales.

Capital losses realized after October 31 and certain late year losses may be deferred and treated as occurring on the first day of the following fiscal year. For the fiscal period ended November 30, 2015, the Fund deferred post-October capital losses of \$0 and qualified late year ordinary losses of \$7 and recognized post-October capital losses of \$0 and

qualified late year ordinary losses of \$0.

The components of distributable earnings on a tax basis (excluding unrealized appreciation (depreciation) which are disclosed above) consist of undistributed ordinary income of \$0 and undistributed long-term capital gains of \$0.

VIRTUS GLOBAL MULTI-SECTOR INCOME FUND**NOTES TO FINANCIAL STATEMENTS (Continued)****NOVEMBER 30, 2015**

The differences between the book and tax basis components of distributable earnings relate principally to the timing of recognition of income and gains for federal income tax purposes. Short-term gain distributions reported in the Statements of Changes in Net Assets, if any, are reported as ordinary income for federal tax purposes. Distributions are determined on a tax basis and may differ from net investment income and realized capital gains for financial reporting purposes.

The tax character of dividends and distributions paid during the fiscal periods ended November 30, 2015 and December 31, 2014 and December 31, 2013 was as follows:

	Period Ended		
	2015	2014	2013
Ordinary Income	\$ 10,006	\$ 14,814	\$ 17,016
Long-term capital gains	1,014	4,658	767
Return of Capital	5,953		
Total	\$ 16,973	\$ 19,472	\$ 17,783

The difference between the distributions reported on the Statement of Changes and this table is due to distributions that are declared in the current fiscal year and paid in the following fiscal year that qualify to be treated, for tax purposes, as paid in the year the distribution was declared.

Note 13. Reclassification of Capital Accounts

(\$ reported in thousands)

For financial reporting purposes, book basis capital accounts are adjusted to reflect the tax character of permanent book/tax differences. Permanent reclassifications can arise from differing treatment of certain income and gain transactions, nondeductible current year net operating losses, expiring capital loss carryovers and investments in passive foreign investment companies. The reclassifications have no impact on the net assets or net asset value of the Fund. As of November 30, 2015, the Fund recorded reclassifications to increase (decrease) the accounts as listed below:

**Capital Paid

Beneficial
Interest**
\$(1)

**Undistributed
Net Investment

**Accumulated

(1) Amount is less than \$500.

Note 14. Subsequent Events

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued, and has determined that there are no subsequent events requiring recognition or disclosure in these financial statements.

Report of Independent Registered Public

Accounting Firm

To the Board of Trustees and Shareholders of

Virtus Global Multi-Sector Income Fund:

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations, of changes in net assets, and of cash flows and the financial highlights present fairly, in all material respects, the financial position of Virtus Global Multi-Sector Income Fund (the Fund) at November 30, 2015, the results of its operations and its cash flows for the period ended November 30, 2015 and for the year ended December 31, 2014, the changes in its net assets for the period ended November 30, 2015 and each of the two years in the period ended December 31, 2014 and the financial highlights for each of the periods indicated, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements) are the responsibility of the Fund s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at November 30, 2015 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

TAX INFORMATION NOTICE

NOVEMBER 30, 2015

(Unaudited)

For the fiscal period ended November 30, 2015, the Fund makes the following disclosures for federal income tax purposes. Below is listed the percentage, or the maximum amount allowable, of its ordinary income dividends to qualify for the lower tax rates (QDI) applicable to individual shareholders, and the percentage of ordinary income dividends earned by the Fund which qualifies for the dividends received deduction (DRD) for corporate shareholders. The actual percentage of QDI and DRD for the calendar year will be designated in year-end tax statements. The Fund designates the amount below as long-term capital gains dividends (LTCG) taxable at a 20% rate, or lower depending on the shareholder's income (\$ reported in thousands). LTCG amount, if subsequently different, will be designated in the next annual report.

For general information and literature, as well as updates on net asset value, share price, major industry groups and other key information

REINVESTMENT PLAN

The Reinvestment Plan (the Plan) offers shareholders a convenient way to acquire additional shares of the Fund. Registered holders will be automatically placed in the Plan. If shares are held at a brokerage firm, contact your broker about participation in the Plan.

REPURCHASE OF SECURITIES

Notice is hereby given in accordance with Section 23(c) of the 1940 Act that the Fund may from time to time purchase its shares of common stock in the open market when Fund shares are trading at a discount from their net asset value.

PROXY VOTING INFORMATION (FORM N-PX)

The Adviser and subadviser vote proxies relating to portfolio securities in accordance with procedures that have been approved by the Fund's Board. You may obtain a description of these procedures, along with information regarding how the Fund voted proxies during the most recent 12-month period ended June 30, free of charge, by calling toll-free 1-866-270-7788. This information is also available through the SEC's website at <http://www.sec.gov>.

FORM N-Q INFORMATION

The Fund files a complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Form N-Q is available on the SEC's website at <http://www.sec.gov>. Form N-Q may be reviewed and copied at the SEC's Public Reference Room. Information on the operation of the SEC's Public Reference Room can be obtained by calling toll-free 1-800-SEC-0330.

AUTOMATIC REINVESTMENT AND CASH PURCHASE PLAN

The Virtus Global Multi-Sector Income Fund (the Fund) allows you to conveniently reinvest distributions quarterly in additional Fund shares thereby enabling you to compound your returns from the Fund. By choosing to reinvest, you will be able to invest money regularly and automatically, and watch your investment grow.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

Enrollment in the Reinvestment Plan

It is the policy of the Fund to automatically reinvest distributions payable to shareholders. A registered shareholder automatically becomes a participant in the Fund's Automatic Dividend Reinvestment and Cash Purchase Plan. (the Plan). The Plan authorizes the Fund to credit all shares of common stock to participants upon a distribution regardless of whether the shares are trading at a discount or premium to the net asset value. Registered shareholders may terminate their participation and receive distributions in cash by contacting Computershare Trust Company, N.A. (the Plan Administrator). The termination will become effective with the next distribution if the Plan Administrator is notified at least 7 business days prior to the distribution payment date. Registered shareholders that wish to change their distribution option from cash payment to reinvest may do so by contacting the Plan Administrator at 1-866-270-7788.

In the case of banks, brokers, or other nominees which hold your shares for you as the beneficial owner, the Plan Administrator will administer the Plan based on the information provided by the bank, broker or nominee. To the extent that you wish to participate in the Plan, you should contact the broker, bank or nominee holding your shares to ensure that your account is properly represented. If necessary, you may have your shares taken out of the name of the broker, bank or nominee and register them in your own name.

How shares are purchased through the Reinvestment Plan

When a distribution is declared, nonparticipants in the plan will receive cash. Participants in the plan will receive shares of the Fund valued as described below:

If on the payable date of the distribution, the market price of the Fund's common stock is less than the net asset value, the Plan Administrator will buy Fund shares on behalf of the Participant in the open market, on the New York Stock Exchange (NYSE) or elsewhere. The price per share will be equal to the weighted average price of all shares purchased, including commissions. Commission rates are currently \$0.02 per share, although the rate is subject to change and may vary. If, following the commencement of purchases and before the Plan Administrator has completed its purchases, the trading price equals or exceeds the most recent net asset value of the common shares, the Plan Administrator may cease purchasing shares on the open market and the Fund may issue the remaining shares at a price equal to the greater of (a) the net asset value on the last day the Plan Administrator purchased shares or (b) 95% of the market price on such day. In the case where the Plan Administrator has terminated open market purchase and the Fund has issued the remaining shares, the number of shares received by the Participant in respect of the cash distribution will be based on the weighted average of prices paid for shares purchased in the open market and the price at which the Fund issued the remaining shares. Under certain circumstances, the rules and regulations of the Securities and Exchange Commission may require limitation or temporary suspension of market purchases of shares under the Plan. The Plan Administrator will not be accountable for its inability to make a purchase during such a period.

If on the payable date of the distribution, the market price is equal to or exceeds the net asset value, Participants will be issued new shares by the Fund at the greater of the (a) the net asset value on the payable date or (b) 95% of the market price on such date.

AUTOMATIC REINVESTMENT AND CASH PURCHASE PLAN (Continued)

The automatic reinvestment of distributions will not relieve Participants of any income tax which may be payable on such distributions. A Participant in the Plan will be treated for federal income tax purposes, as having received on a payment date, a distribution in an amount equal to the cash the participant could have received instead of shares. If you participate in the Plan, you will receive a Form 1099-DIV concerning the Federal tax status of distributions paid during the year.

Charges to Participate in the Plan

As a Participant in the Plan you will not pay any charge to have your distributions reinvested in additional shares. The Plan Administrator's fees for handling the reinvestment of distributions will be paid by the Fund. There will be no brokerage commissions for shares issued directly by the Fund in payment of distributions. However, each Participant will pay a pro rata share of brokerage commissions incurred (currently \$0.02 per share, but may vary and is subject to change) with respect to the Plan Administrator's open market purchases in connection with the reinvestment of distributions.

Voluntary Cash Purchase Plan

Participants in the Plan have the option of making additional cash payments for investment in shares of the Fund. Such payments can be made in any amount from \$100 per payment to \$3,000 per month. The Plan Administrator will use the funds received to purchase Fund shares in the open market on the 15th of each month or the next business day if the 15th falls on a weekend or holiday (the Investment Date). The purchase price per share will be equal to the weighted average price of all shares purchased on the Investment Date, including commissions. There is no charge to shareholders for Cash Purchases. The plan administrator's fee will be paid by the Fund. However, each participating shareholder will pay pro rata share of brokerage commissions incurred (currently \$0.02 per share, but may vary and is subject to change) with respect to the Plan Administrator's open market purchases in connection with all cash investments. Voluntary cash payments should be sent to Computershare Trust Company, N.A., PO Box 43078, Providence, RI 02940-3078.

Participants have an unconditional right to obtain the return of any cash payment if the Plan Administrator receives written notice at least 5 business days before such payment is to be invested.

Automatic Monthly Investment

Participants in the Plan may purchase additional shares by means of an Automatic Monthly Investment of not less than \$100 nor more than \$3,000 per month by electronic funds transfer from a predesignated U.S bank account. If a Participant has already established a Plan account and wishes to initiate Automatic Monthly Investments, the Participant must complete and sign an automatic monthly investment form and return it to the Plan Administrator together with a voided check or deposit slip for the account from which funds are to be withdrawn. Automatic monthly investment forms may be obtained from the Plan Administrator by calling 1-866-270-7788.

Termination of Shares

Shareholders wishing to liquidate shares held with the Plan Administrator must do so in writing or by calling 1-866-270-7788. The Plan Administrator does not charge a fee for liquidating your shares; however, currently a brokerage commission of \$0.02 will be charged. This charge may vary and is subject to change.

Once terminated, you may re-enroll in the Plan (provided you still have shares registered in your name) by contacting the Plan Administrator at 1-866-270-7788.

AUTOMATIC REINVESTMENT AND CASH PURCHASE PLAN (Continued)

Additional Information

For more information regarding the Automatic Reinvestment and Cash Purchase Plan, please contact the Plan Administrator at 1-866-270-7788 or visit our website at Virtus.com.

The Fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any distribution paid subsequent to written notice of the change sent to the members of the Plan at least 90 days before the record date for such distribution. The Plan also may be amended or terminated by the Plan Administrator with at least 90 days written notice to participants in the Plan.

- (a) The aggregate fees billed for each of the last two fiscal years for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years are \$30,500 for 2015 and \$30,500 for 2014.

Audit-Related Fees

- (b) The aggregate fees billed in each of the last two fiscal years for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this Item are \$4,747 for 2015 and \$2,268 for 2014. Such audit-related fees include out of pocket expenses and cross fund fees.

Tax Fees

- (c) The aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning are \$6,650 for 2015 and \$5,900 for 2014.

Tax Fees are those primarily associated with review of the Trust's tax provision and qualification as a regulated investment company (RIC) in connection with audits of the Trust's financial statement, review of year-end distributions by the Fund to avoid excise tax for the Trust, periodic discussion with management on tax issues affecting the Trust, and reviewing and signing the Fund's federal income tax returns.

All Other Fees

- (d) The aggregate fees billed in each of the last two fiscal years for products and services provided by the principal accountant, other than the services reported in paragraphs (a) through (c) of this Item are \$0 for 2015 and \$0 for 2014.

- (e)(1) Disclose the audit committee's pre-approval policies and procedures described in paragraph (c)(7) of Rule 2-01 of Regulation S-X.

The Virtus Global Multi-Sector Income Fund (the "Fund") Board has adopted policies and procedures with regard to the pre-approval of services provided by PwC. Audit, audit-related and tax compliance services provided to the Fund on an annual basis require specific pre-approval by the Board. As noted above, the Board must also approve other non-audit services provided to the Fund and those non-audit services provided to the Fund's Affiliate Service Providers that related directly to the operations and financial reporting of the Fund. Certain of these non-audit services that the Board believes are a) consistent with the SEC's auditor independence rules and b) routine and recurring services that will not impair the independence of the independent auditors may be approved by the Board without consideration on a specific case-by-case basis ("general pre-approval").

The Audit Committee has determined that Mr. William Moyer, Chair of the Audit Committee, may provide pre-approval for such services that meet the above requirements in the event such approval is sought between regularly scheduled meetings. In any event, the Board is informed of each service approved subject to general pre-approval at the next regularly scheduled in-person board meeting.

- (e)(2) The percentage of services described in each of paragraphs (b) through (d) of this Item that were approved by the audit committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X are as follows:
 - (b) 0%
 - (c) 0%
 - (d) N/A

- (f) The percentage of hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons other than the principal accountant's full-time, permanent employees was less than fifty percent.

- (g) The aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for each of the last two fiscal years of the registrant was \$553,483 for 2015 and \$430,462 for 2014.

- (h) The registrant's audit committee of the board of directors has considered whether the provision of non-audit services that were rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

Item 5. Audit Committee of Listed Registrants.

- (a) The registrant has a separately designated audit committee consisting of all the independent directors of the registrant. The members of the audit committee are: William Moyer, Thomas Mann, Phil McLoughlin and James Oates.

- (b) If applicable, provide the disclosure required by Rule 10A-3(d) under the Exchange Act (17 CFR 240.10A-3(d)) regarding an exemption from the listing standards for audit committees.

Item 6. Investments.

- (a) Schedule of Investments in securities of unaffiliated issuers as of the close of the reporting period is included as part of the report to shareholders filed under Item 1 of this form.
- (b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The Proxy Voting Policies are as follows:

POLICY REGARDING PROXY VOTING

- I. **Definitions.** As used in this Policy, the following terms shall have the meanings ascribed below:
 - A. **Adviser** refers to the primary adviser of each registered investment company covered by this policy.
 - B. **Board** refers to the Boards of Trustees or Directors of the Funds (collectively, the **Fund**).
 - C. **Corporate Governance Matters** refers to changes involving the corporate ownership or structure of an issuer whose securities are within a **Portfolio Holding**, including changes in the state of incorporation, changes in capital structure, including increases and decreases of capital and preferred stock issuance, mergers and other corporate restructurings, and anti-takeover provisions such as staggered boards, poison pills, and supermajority voting provisions.
 - D. **Delegate** refers to the Adviser or Subadviser to whom responsibility has been delegated to vote proxies for the applicable **Portfolio Holding**, including any qualified, independent organization engaged by an Adviser or Subadviser to vote proxies on behalf of such delegated entity.
 - E. **Management Matters** refers to stock option plans and other management compensation issues.
 - F. **Portfolio Holding** refers to any company or entity whose securities are held within the investment portfolio(s) of one or more of the Funds as of the date a proxy is solicited.
 - G. **Proxy Contests** refer to any meeting of shareholders of an issuer for which there are at least two sets of proxy statements and proxy cards, one solicited by management and the others by a dissident or group of dissidents.
 - H. **Social Issues** refers to social and environmental issues.

Edgar Filing: Virtus Global Multi-Sector Income Fund - Form N-CSR

- I. Subadviser refers, individually or collectively, to each registered investment adviser that serves as investment subadviser to one or more of the Fund.
- J. Subadviser Procedures shall have such meaning as described in Article IV, Section C hereof.
- K. Takeover refers to hostile or friendly efforts to effect radical change in the voting control of the board of directors of a company.

II. **General Policy.** It is the intention of the Fund to exercise stock ownership rights in Portfolio Holdings in a manner that is reasonably anticipated to further the best economic interests of shareholders of the Fund. Accordingly, the Fund or its Delegate(s) shall endeavor to analyze and vote all proxies that are considered likely to have financial implications, and, where appropriate, to participate in corporate governance, shareholder proposals, management communications and

¹ Funds include Virtus Alternative Solutions Trust, Virtus Equity Trust, Virtus Insight Trust, Virtus Opportunities Trust, Virtus Retirement Trust, Virtus Global Multi-Sector Income Fund, Virtus Total Return Fund, Virtus Variable Insurance Trust, Duff & Phelps Select Energy MLP Fund, Inc., The Zweig Fund, Inc. and The Zweig Total Return Fund, Inc.

legal proceedings. The Fund and its Delegate(s) must also identify potential or actual conflicts of interest in voting proxies and address any such conflict of interest in accordance with this Policy.

III. *Factors to consider when voting.*

- A. A Delegate may abstain from voting when it concludes that the effect on shareholders' economic interests or the value of the Portfolio Holding is indeterminable or insignificant.
- B. In analyzing **anti-takeover measures**, the Delegate shall vote on a case-by-case basis taking into consideration such factors as overall long-term financial performance of the target company relative to its industry competition. Key measures which shall be considered include, without limitation, five-year annual compound growth rates for sales, operating income, net income, and total shareholder returns (share price appreciation plus dividends). Other financial indicators that will be considered include margin analysis, cash flow, and debit levels.
- C. In analyzing **contested elections**, the Delegate shall vote on a case-by-case basis taking into consideration such factors as the qualifications of all director nominees. The Delegate shall also consider the independence and attendance record of board and key committee members. A review of the corporate governance profile shall be completed highlighting entrenchment devices that may reduce accountability.
- D. In analyzing **corporate governance matters**, the Delegate shall vote on a case-by-case basis taking into consideration such factors as tax and economic benefits associated with amending an issuer's state of incorporation, dilution or improved accountability associated with changes in capital structure, management proposals to require a supermajority shareholder vote to amend charters and bylaws and bundled or conditioned proxy proposals.
- E. In analyzing **executive compensation proposals and management matters**, the Adviser shall vote on a case-by-case basis taking into consideration such factors as executive pay and spending on perquisites, particularly in conjunction with sub-par performance and employee layoffs.
- F. In analyzing **proxy contests for control**, the Delegate shall vote on a case-by-case basis taking into consideration such factors as long-term financial performance of the target company relative to its industry; management's track record; background to the proxy contest; qualifications of director nominees (both slates); evaluation of what each side is offering shareholders as well as the likelihood that the proposed objectives and goals can be met; and stock ownership positions.
- G. A Delegate shall generally vote against shareholder **social matters** proposals.

IV. *Delegation.*

- A. In the absence of a specific direction to the contrary from the Board of the Fund, the Adviser or Sub-adviser that is managing a Fund is responsible for voting proxies for all Portfolio Holdings of such Fund in accordance with this Policy, or for delegating such responsibility as described below.
- B. The Adviser and any Subadviser delegated with authority to vote proxies for Portfolio Holdings shall be deemed to assume a duty of care to safeguard the best interests of the Fund and its shareholders. No Delegate shall accept direction or inappropriate influence

from any other client, director or employee of any affiliated company and shall not cast any vote inconsistent with this Policy without obtaining the prior approval of the Fund or its duly authorized representative(s).

- C. With regard to each Fund for which there is a duly appointed Subadviser, the Subadviser shall vote proxies for the Portfolio Holdings in accordance with Articles II, III and V of this Policy, provided, however, that the Subadviser may vote proxies in accordance with its own proxy voting policy/procedures (Subadviser Procedures) provided that the Adviser must have reviewed the Subadviser Procedures and determined them to be reasonably designed to further the best economic interests of the affected Fund shareholders. The Subadviser will promptly notify the Adviser of any material changes to the Subadviser Procedures. The Adviser will periodically review the votes by the Subadviser for consistency with this Policy.

V. ***Conflicts of Interest.***

- A. The Fund and its Delegate(s) seek to avoid actual or perceived conflicts of interest in the voting of proxies for Portfolio Holdings between the interests of Fund shareholders, on one hand, and those of the Adviser, Subadviser, Delegate, principal underwriter, or any affiliated person of the Fund, on the other hand. The Board may take into account a wide array of factors in determining whether such a conflict exists, whether such conflict is material in nature, and how to properly address or resolve the same.
- B. While each conflict situation varies based on the particular facts presented and the requirements of governing law, the Board or its delegate(s) may take the following actions, among others, or otherwise give weight to the following factors, in addressing material conflicts of interest in voting (or directing Delegates to vote) proxies pertaining to Portfolio Holdings: (i) rely on the recommendations of an established, independent third party with qualifications to vote proxies such as Institutional Shareholder Services; (ii) vote pursuant to the recommendation of the proposing Delegate; (iii) abstaining; or (iv) where two or more Delegates provide conflicting requests, vote shares in proportion to the assets under management of each proposing Delegate.
- C. Each Adviser or Subadviser that is managing a Fund shall promptly notify the Chief Compliance Officer of the Fund (or, in the case of a Subadviser, the Chief Compliance Officer of the Adviser) in the event that any actual or potential conflict of interest is identified, and provide the Adviser's or Subadviser's recommendations for protecting the best interests of Fund's shareholders. No Adviser (or Subadviser) shall waive any conflict of interest or vote any conflicted proxies without the prior approval of the Board or the President of the Fund pursuant to section D of this Article.
- D. In the event that a determination, authorization or waiver under this Policy is requested at a time other than a regularly scheduled meeting of the Board, the President of the Fund shall be empowered with the power and responsibility to interpret and apply this Policy and provide a report of his or her determinations at the next following meeting of the Board.

VI. ***Miscellaneous.***

- A. A copy of the current Policy with Respect to Proxy Voting and the voting records for each Fund reconciling proxies with Portfolio Holdings and recording proxy voting guideline compliance and justification, shall be kept in an easily accessible place and

available for inspection either physically or through electronic posting on an approved website.

- B. The Adviser shall present a report of any material deviations from this Policy at every regularly scheduled meeting of the Board and shall provide such other reports as the Board may request from time to time. Each Adviser shall provide to the Fund or any shareholder a record of its effectuation of proxy voting pursuant to this Policy at such times and in such format or medium as the Fund or such shareholders shall reasonably request. Each Adviser and each affected Subadviser shall be solely responsible for complying with the disclosure and reporting requirements under applicable laws and regulations, including, without limitation, Rules 204-2 and 206(4)-6 under the Investment Advisers Act of 1940 (the 1940 Act), as amended. Each Adviser shall gather, collate and present information relating to the its proxy voting activities of those of each Delegate in such format and medium as the Fund shall determine from time to time in order for the Fund to discharge its disclosure and reporting obligations pursuant to Rule 30b1-4 under the 1940 Act.

- C. Each Adviser and/or each affected Subadviser shall pay all costs associated with proxy voting for Portfolio Holdings pursuant to this Statement of Policy and assisting the Fund in providing public notice of the manner in which such proxies were voted.

- D. Each Adviser or Subadviser may delegate its responsibilities hereunder to a proxy committee established from time to time by the Adviser or Subadviser, as the case may be. In performing its duties hereunder, the Adviser or Subadviser, or any duly authorized committee, may engage the services of a research and/or voting adviser or agent, the cost of which shall be borne by such entity.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

He was also the lead portfolio manager for the Phoenix High Yield Fund from 2003 until 2005 and the Phoenix Emerging Market Fund from 2004 to 2005. Earlier in his career, Mr. Senecal completed a formal credit training program at Shawmut National Bank where he was a credit research analyst and lender. He also worked at BankBoston as a corporate bond analyst. Mr. Senecal earned a B.A. in economics and English from Assumption College and an M.B.A. in finance from the University of Connecticut. He has been a CFA (Chartered Financial Analyst) charter holder since 1995. He began his career in the investment industry in 1990.

(a)(2) Other Accounts Managed by Portfolio Manager(s) or Management Team Member

There may be certain inherent conflicts of interest that arise in connection with the portfolio managers' management of the Fund's investments and the investments of any other accounts they manage. Such conflicts could include the aggregation of orders for all accounts managed by

a particular portfolio manager, the allocation of purchases across all such accounts, the allocation of IPOs and any soft dollar arrangements that the adviser may have in place that could benefit the Fund and/or such other accounts. The Board of Trustees has adopted policies and procedures designed to address any such conflicts of interest to ensure that all transactions are executed in the best interest of the Fund's shareholders. Each Adviser is required to certify its compliance with these procedures to the Board of Trustees on a quarterly basis. There have been no material compliance issues with respect to any of these policies and procedures during the Fund's most recent fiscal year. Additionally, there are no material conflicts of interest between the investment strategy of any Fund and the investment strategy of other accounts managed by portfolio managers since portfolio managers generally manage funds and other accounts having similar investment strategies.

The following table provides information as of November 30, 2015, regarding any other accounts managed by the portfolio managers and portfolio management team members for the Fund. As noted in the table, the portfolio managers managing the Funds may also manage or be members of management teams for other mutual funds within the Virtus Mutual Fund complex or other similar accounts.

Potential Conflicts of Interests

Describe any material conflicts of interest that may arise in connection with a Portfolio Manager's or Management Team Member's management of the registrant's investments and investments of other accounts. Include, for example, material conflicts between the investment strategy of the registrant and investment strategy of other accounts managed by the Portfolio Manager or Team Member and material conflicts in allocation of investment opportunities between the registrant and other accounts managed by the Portfolio Manager or Team Member.

(a)(3) Compensation Structure of Portfolio Manager(s) or Management Team Members

Virtus and certain of its affiliated investment management firms, including Duff & Phelps, Euclid, Kayne, Newfleet and Newfound (collectively, Virtus), believe that the firm's compensation program is adequate and competitive to attract and retain high-caliber investment professionals. Investment professionals at Virtus receive a competitive base salary, an incentive bonus opportunity and a benefits package. Certain professionals who supervise and manage others also participate in a management incentive program reflecting their personal contribution and team performance. Certain key individuals also have the opportunity to take advantage of a long-term incentive compensation program, including potential awards of Virtus restricted stock units (Virtus RSUs) with multi-year vesting, subject to Virtus board of directors' approval.

Following is a more detailed description of Virtus' compensation structure.

Base Salary. Each portfolio manager is paid a fixed base salary, which is designed to be competitive in light of the individual's experience and responsibilities. Base salary is determined using compensation survey results of investment industry compensation conducted by an independent third party in evaluating competitive market compensation for its investment management professionals.

Incentive Bonus. Annual incentive payments are based on targeted compensation levels, adjusted based on profitability, investment performance factors and a subjective assessment of contribution to the team effort. The short-term incentive payment is generally paid in cash, but a portion may be made in Virtus RSUs. Individual payments are assessed using comparisons of actual investment performance with specific peer group or index measures. Performance of the Funds managed is generally measured over one-, three- and five year periods and an individual manager's participation is based on the performance of each Fund/account managed.

While portfolio manager compensation contains a performance component, this component is adjusted to reward investment personnel for managing within the stated framework and for not taking unnecessary risk. This approach ensures that investment management personnel remain focused on managing and acquiring securities that correspond to a Fund's mandate and risk profile and are discouraged from taking on more risk and unnecessary exposure to chase performance for personal gain. Virtus believes it has appropriate controls in place to handle any potential conflicts that may result from a substantial portion of portfolio manager compensation being tied to performance.

Other benefits. Portfolio managers are also eligible to participate in broad-based plans offered generally to employees of Virtus and its affiliates, including 401(k), health and other employee benefit plans.

In summary, the Investment Manager believes that overall compensation is both fair and competitive while rewarding employees for not taking unnecessary risks to chase personal performance.

(a)(4) Disclosure of Securities Ownership

For the most recently completed fiscal year ended November 30, 2015, beneficial ownership of shares of the Fund by Messrs. Albrycht, Caron, Jennings and Senecal are as follows. Beneficial ownership was determined in accordance with rule 16a-1(a)(2) under the Securities Exchange Act of 1934 (17 CFR 240.161-1(a)(2)).

Name of Portfolio Manager or Team Member	Dollar (\$) Range of Fund Shares Beneficially Owned
