Message from the Chairman of the Board

Fellow shareholders:

On behalf of the Board of Directors, I am pleased to invite you to CP's 2017 annual meeting of shareholders at 9:00 a.m. MDT on Wednesday, May 10, 2017. The meeting will be held at the Royal Canadian Pacific Pavilion located at CP's head office, 7550 Ogden Dale Road S.E., Calgary, Alberta.

At the meeting, we will discuss our 2016 performance and you will vote on several items of business, including the election of directors and the advisory vote on the compensation of our Named Executive Officers (say-on-pay). This proxy statement contains important information. Be sure to take some time to read it before you decide how to vote your shares.

A clear message from shareholders

CP has achieved another excellent year in 2016. However, before I discuss our successes, I wish to address our failed say-on-pay vote at last year's annual meeting.

That vote made it clear that we had work to do to establish the proper course on executive compensation. To that end, over the last six months, I, together with Ms. Isabelle Courville, Chair of our Management Resources and Compensation Committee and members of CP senior management have met with shareholders across North America to hear their concerns face-to-face. As a result of those meetings, CP has made significant changes to executive compensation which are addressed in depth in

Ms. Courville's letter beginning on page 5. The Management Resources and Compensation Committee and the full Board are confident that these changes will effectively address your concerns. Further, we believe that the changes are appropriate for CP at this stage of its evolution and that executive compensation is now more closely aligned with the long-term interests of CP shareholders.

Your Board is committed to engaging with shareholders face-to-face on a continual basis. This is your Company. As stewards of your investment, we want your input. In addition to participating in meetings with members of our Board, you may also contact me at any time through the Office of the Corporate Secretary at CP.

A company transformed

CP's turnaround under Hunter Harrison's leadership has been remarkable: the Company has seen dramatic improvements across all financial and operating metrics, and achieved its initial four-year targets two years ahead of

plan. Thus, 2016 was a pivotal year for CP. It continued the Company's five-year transformation from the railroad industry's laggard in 2012 to one of North America's pre-eminent railroad companies.

On its own, 2016 was a record-breaking year: the annual operating ratio, which is the primary measure of operational efficiency, was CP's best on record, at 58.6%, despite a challenging economic environment. 2016 was the fifth consecutive year of improvement in this ratio. Diluted earnings per share were \$10.63, an increase of 27% over 2015 and adjusted diluted earnings per share rose 2% over 2015 to \$10.29⁽¹⁾. In the area of safety, CP's performance in 2016 was also stellar. The Company ended 2016 with an industry leading Federal Railroad Administration (FRA) reportable train accident rate of 0.97. This result is not only a 27% improvement over 2015, but also represents the best train accident performance of any Class 1 railway over the last decade. CP's FRA reportable personal injury rate was 1.64, an 11% improvement over 2015.

CP also delivered value to shareholders: annual total shareholder return in 2016 was 9.5% and the five-year return has been 192%. In the second quarter of 2016 we raised our quarterly dividend to \$0.50 from \$0.35 per common share, the first increase since 2012. Since June of 2012 CP's market capitalization has grown by more than \$15 billion.

MESSAGE FROM THE CHAIRMAN OF THE BOARD **2017 MANAGEMENT PROXY STATEMENT** 3

The turnaround under Hunter Harrison's leadership confirms the strength of CP's operating model in delivering sustained business growth and value for shareholders. A railroad turnaround specialist with over 50 years of railroad experience, Hunter embraced a new vision for CP and he delivered.

Seamless leadership transition

The Board feels extremely fortunate to have had Hunter as Chief Executive Officer for the past five years. His retirement from CP effective January 31, 2017 took place five months ahead of schedule. Hunter had approached the Board to discuss his retirement from CP and potential related modifications to his employment arrangements that would allow him to pursue opportunities involving certain other Class 1 railroads. A special committee of the Board discussed the matter with Hunter. Following negotiations, receipt of independent legal advice and careful deliberation, the special committee recommended to the Board that CP enter into a separation agreement with him. As more fully described in Ms. Courville's letter in this report, under the terms of that agreement, Hunter Harrison returned to the Company, by forfeiture, approximately \$122.9 million worth of compensation in exchange for his separation.

In what may be described as a textbook succession planning scenario, Keith Creel, our President and Chief Operating Officer, succeeded Hunter as CEO on January 31, 2017. Keith, also a highly regarded railroader and leader, had worked beneath Hunter for over two decades and alongside Hunter through CP's turnaround. Keith's appointment as President and CEO was an integral part of our succession plan and the two have worked closely to ensure the resulting, seamless transition. Keith joined our Board last May as part of the transition plan; we look forward to working more closely with him and his leadership team moving forward.

Strong and committed Board

The Board has also experienced significant change over the past few years. This turnover has been a result of personal circumstances affecting directors, the professional commitments of CP's directors outside of CP and an unwavering commitment on the part of the Board to excellence in corporate governance. I can say with confidence that we are committed, engaged and actively involved in overseeing CP's business and future direction and the strength of its leadership team.

This Board is continually evaluating itself to ensure that it continues to exceed the standards of good governance and that its members are able to function efficiently and effectively with each other and with management. Where additional directors have been added in the past years, those appointments have been made in order to enhance the skills and experiences of the Board, but never at the cost of CP's high corporate governance standards. In 2016 and 2017 CP welcomed Matthew Paull, Jill Denham, William Fatt, Jane Peverett and Gordon T. Trafton II to the Board. Each of these individuals brings extensive and unique business experience to the Board of CP that will be invaluable going forward, including railroading, finance, energy, financial services, corporate leadership and other board experience. You can read about this year's director nominees beginning on page 21.

On behalf of the Board, I would like to acknowledge the valuable contributions of two directors who stepped down since our last Annual Shareholders Meeting. Dr. Anthony Melman joined the Board in 2012, was chair of the Finance Committee and a member of the Audit Committee, and brought extensive financial and business leadership to the Board. Bill Ackman joined the Board in 2012 and was a member of the Finance and Corporate Governance and

Nominating Committees. Bill was instrumental in CP's turnaround and his experience, energy, commitment and knowledge served the Board well.

This Board is highly confident in CP's prospects for future growth and success and in the strength of our very capable management team to lead us there.

We thank you for your continued confidence in CP and look forward to seeing you at the meeting on May 10, 2017. Please remember to vote your shares.

Sincerely,

/s/ Andrew F. Reardon

4 CANADIAN PACIFIC MESSAGE FROM THE CHAIRMAN OF THE BOARD

Message from the Chair of the Management Resources and Compensation Committee

Dear fellow shareholders,

Last year 50.1% of shareholders voted *against* our say-on-pay advisory vote. This was very concerning for the Management Resources and Compensation Committee (the Compensation Committee) and the Board.

We spent a good part of the past year meeting with shareholders to hear their concerns first-hand, provide more information about our executive compensation program, and answer their questions. Our engagement program included in-person meetings with 16 of our largest shareholders who represent approximately 30% of our public float as well as shareholder advocacy groups and two proxy advisory firms. Andrew Reardon, Chairman of the Board, led these meetings. I participated in every meeting, along with representatives from management. The table below is a summary of the feedback we received, and what we're doing to address it:

MESSAGE FROM THE CHAIR OF THE MRCC **2017 MANAGEMENT PROXY STATEMENT** **5**

Compensation has mirrored strategy

In 2012, shareholders voted overwhelmingly for change, and CP's executive compensation program was designed at that time to recruit unique talent that could lead an operational and cultural transformation and turn the Company around. It was also designed to give management an intense focus on specific high impact levers.

In 2016, we can see the results of that strategy: we've gone from the clear industry laggard to an industry leader, and are now transitioning towards a period focused on revenue growth.

We're changing our incentive plans to support this new stage in the Company's evolution and are working to align the plans more closely with the long-term interests of our shareholders. This year we also signed a new employment agreement with our incoming CEO, Keith Creel. The terms of his new agreement are in-line with the market and our peers.

The tables below show you the changes we are making to the incentive plans. Some are in place now. The others will be introduced for compensation decisions in 2017.

We will continue to review our executive compensation program against the market and best practices and to respond to CP's changing needs as it grows and evolves its strategy. We are confident that these changes will clarify our practices, address your concerns and earn back your confidence.

Short-Term Incentive Plan (STIP)

Our short-term incentive plan rewards executives for achieving pre-determined corporate and individual performance objectives that are tied directly to CP's strategy and operational requirements. In response to concerns highlighted by shareholders, we've also capped the individual performance rating for the CEO such that it cannot exceed the corporate performance factor.

Starting in 2017, the corporate performance factor is based on improving revenue growth in a cost-effective manner. We are using both financial and non-financial measures, which creates a balanced approach to performance assessment. Payouts range from 0% to 200% of target for each performance measure, with pre-defined levels for threshold, target and exceptional performance. A summary of the changes to the performance measures under our STIP is provided in the table below:

Measure	2016 STIP		New in 2017 STIP	Why we're making the change
Ø Operating ratio <i>Operating expenses divided by total revenues</i>	50%	g	40%	Successfully focused on driving down costs during the turnaround, resulting in an 1,840 basis point improvement since 2012
				Shifting the focus to growth by reducing the weighting slightly
Ø Operating income <i>Total revenues less operating expenses</i>	25%	g	40%	Significantly increasing the weighting to reflect the importance of revenue growth
Ø Free cash flow	25%	g	0%	Successfully focused executives on increasing cash flow during the turnaround, drove a 219% improvement since

<i>Cash from operating activities less cash used in investing activities</i>		2012	
Ø Safety	0% g 10%	Being replaced by safety and operating measures Adding a safety metric to create a more balanced scorecard	
<i>FRA frequency of train accidents</i>		Safety measure pays out at maximum only if the Company achieves the stretch target and remains best in the industry	
Ø Operating performance	0% g 10%	Adding an operating metric to create a more balanced scorecard	
<i>Train Speed</i>		Train Speed is a key measure for improved asset utilization and delivery times leading to enhanced customer experience	

Long-Term Incentive Plan (LTIP)

Our long-term incentive plan includes:

performance share units (PSUs) focus executives on medium-term goals over a three-year performance period

stock options focus executives on generating long-term shareholder value

We are increasing the weighting of PSUs under the LTIP to 60% (from 50%), to tie more compensation directly to our performance, and reducing the term for options to seven years instead of ten. Option grants will continue to vest 25% each year over four years on the anniversary date of the grant.

The performance measures for 2017 PSU awards focus executives on medium-term growth, and performance will be assessed as an average over the three-year performance period. Payouts range from 0% to 200% of target for each performance measure, with pre-defined levels for threshold, target and exceptional performance. A summary of the changes to the performance measures applicable to PSUs granted under our LTIP is provided in the table below:

6 CANADIAN PACIFIC MESSAGE FROM THE CHAIR OF THE MRCC

Measure	2016 LTIP		New in 2017 LTIP	Why we re making the change
Ø Final year operating ratio <i>Operating expenses divided by total revenues</i>	60%	g	0%	Using operating ratio as a singular focus successfully focused executives on driving down costs during the turnaround: resulting in an 1,840 basis point improvement since 2012 As CP transitions towards a growth strategy, ROIC is a more appropriate long-term measure Eliminates overlap with the short-term incentive plan
Ø Three-year average return on invested capital (ROIC) <i>Net operating profit after tax divided by average invested capital</i>	20%	g	60%	Increasing the weighting significantly to focus executives on the effective use of capital as we grow
Ø Total shareholder return <i>Compound average growth rate compared to the S&P/TSX Capped Industrial Index rather than the S&P/TSX60 as was done in 2016</i>	10%	g	20%	Increasing the weighting to align with shareholder interests Comparing to the S&P/TSX Capped Industrial Index which represents a broad range of Canadian investment alternatives
Ø Total shareholder return <i>Compound average growth rate compared to the S&P 1500 Road and Rail Index rather than Class 1 peers as was done in 2016.</i>	10%	g	20%	Increasing the weighting to align with shareholder interests Comparing to the S&P1500 Road and Rail Index which represents a broad range of transportation peers (previously CP more narrowly compared performance to its publicly traded Class 1 peers)

2016 Performance and Compensation

Despite a challenging economic and operating environment in 2016, CP delivered strong results. The CP team adapted resources and costs quickly and efficiently in response to the softer-than-expected volume environment, enabling the Company to produce a Company record-low operating ratio of 58.6%.

From an operating and safety perspective, key metrics such as network speed, terminal dwell and fuel efficiency all saw solid year-over-year improvement, and Federal Railway Administration (FRA) train accident frequency improved 27% to the lowest level in the Company's history.

CP's share price grew by 8.4% on the Toronto Stock Exchange and 11.9% on the New York Stock Exchange, underperforming the S&P/TSX Composite Index and modestly outperforming the S&P 500 Index.

2016 Short-Term Incentive Plan payout

Corporate performance in 2016 was assessed against three measures: operating ratio, operating income and free cash flow. The resulting overall corporate performance factor based on the weighting of the components was 165%; however the Board, on the recommendation of management and the Compensation Committee, elected to exercise negative discretion to bring the corporate performance factor down to 150%. Please refer to the Compensation

Discussion and Analysis section on page 56 for more information.

Keith Creel, our new President and CEO

We signed a new employment agreement with Keith effective January 31, 2017, which sets out the terms of his compensation as CEO. This new agreement puts his total compensation in-line with the market, does not include tax equalization and limits his use of the corporate aircraft.

With respect to Keith's long-term incentives, we have carefully designed them to maximize retention and be performance focused while staying within the market median level. Specifically, rather than use the market median annual target of 500% of salary, we are reducing the annual target to 400% of salary for five years which frees up 500% (five years x 100%) for an upfront grant of performance-vested stock options. This upfront grant has an expected grant date value of \$5,625,000 (500% of salary). These performance Options will vest five years from the grant date based on our five-year total shareholder return relative to two equally weighted measures: the S&P/TSX Capped Industrial Index and the S&P 1500 Road and Rail Index. Granting the award upon Mr. Creel becoming CEO maximizes the retentive effect of the reward. We do not consider this grant to be additional compensation as his LTIP annual target has been reduced to 400%, which is below market median, to account for it.

Keith is regarded as one of the top railroaders in North America having worked with Hunter for over 20 years. The rail industry is entering a period of significant change at the executive level, as other railroads look to recruit key operating talent, the Board wanted to ensure that Keith had a compensation package that would reward his performance and retain him during this key period.

You can read more about his 2016 compensation on page 63.

Hunter Harrison, the end of an era

Hunter resigned from CP effective January 31, 2017, five months ahead of schedule. Under Hunter's leadership, CP succeeded in hitting initial four-year targets in two years. As quoted by CNBC, what he accomplished has been called the greatest corporate turnaround in history. Over his five year tenure, which began in 2012, CP has generated more than \$15 billion in shareholder value, a significant return on CP's investment in Hunter of \$55.8 million (0.35% of shareholder value created) over this period. No matter how you look at his compensation over his tenure, Hunter Harrison's time at CP was incredibly positive for shareholders.

Forfeiture on leaving

Hunter asked to modify his employment agreement to allow him to pursue opportunities involving other Class 1 railroads. A special committee of the Board oversaw discussions with Hunter, and, after careful deliberation and independent legal advice, the special committee recommended to the Board that CP enter into a separation agreement with Hunter.

Under the terms of this separation agreement, when he left CP, Hunter forfeited approximately \$122.9 million of compensation, reflecting the value of his CN pension that we replaced and the value of in-the-money equity incentive awards. In addition, Hunter did not receive a long-term incentive award for 2017, and his \$3.9 million (US\$3 million) post-retirement consulting agreement with CP that was to start at the end of June 2017 is null and void. The following table summarizes these amounts based on CP's share price and closing exchange rate on January 30, 2017:

Value forfeited by Mr. Harrison:

In the money value of vested equity award:	\$ 72,174,453
In the money value of unvested equity award:	\$ 11,070,100
Commuted value of Pension:	\$ 27,050,642
Expected value of foregone 2017 LTIP Grant:	\$ 8,659,200
Value of foregone consulting contract:	\$ 3,936,000
Total value:	\$ 122,890,395

To illustrate the value forfeited from what was disclosed in the Summary Compensation Table (SCT) when granted, the following table shows SCT values for each year and restates those values to exclude the items forfeited.

Year	Total Compensation as disclosed in SCT	Total Compensation as disclosed in restated SCT after forfeitures	Difference
2016	\$ 18,829,794	\$ 13,830,037	\$ 4,999,757
2015	\$ 20,195,323	\$ 9,993,340	\$ 10,201,983
2014	\$ 18,735,941	\$ 14,723,918	\$ 4,012,023
2013	\$ 7,206,365	\$ 2,776,765	\$ 4,429,600
2012	\$ 49,441,613	\$ 14,439,716	\$ 35,001,897
Total:	\$ 114,409,036	\$ 55,763,776	\$ 58,645,260

A complete revised SCT is provided on page 75.

From the shareholder perspective, as a result of these forfeitures, CP will recognize a recovery of \$51 million in Compensation and Benefits in the first quarter of 2017 (as disclosed in Note 27 of Form 10-K).

Ensuring appropriate compensation for Hunter throughout his tenure was a unique challenge for the Committee. When considering Mr. Harrison's compensation, the Committee encourages shareholders to consider his total compensation over five years and also consider his actual compensation paid, taking into consideration the forfeitures discussed above.

8 CANADIAN PACIFIC MESSAGE FROM THE CHAIR OF THE MRCC

The following chart illustrates the relative degree of alignment of Mr. Harrison's pay, taking into consideration the forfeitures, and total shareholder return over his tenure to that of his peers in the S&P 1500 Road and Rail Index. The dark shaded area indicates an alignment between pay and performance based on the ISS thresholds for Relative Degree of Alignment (RDA).

Annual say-on-pay vote

On behalf of the Management Resources and Compensation Committee, I encourage you to take some time to read the compensation discussion and analysis, which starts on page 51, and invite you to vote on our approach to executive compensation at this year's annual meeting.

We will continue to actively engage with shareholders, and plan to hold a say-on-pay vote every year. If you have any questions about the changes to our compensation program for 2017, or the compensation decisions we have made for 2016, you can contact me through the office of the Corporate Secretary at CP, or by sending an email to shareholder@cpr.ca.

I look forward to seeing you at the annual meeting on May 10, 2017.

Sincerely,

/s/ Isabelle Courville

10 CANADIAN PACIFIC PROXY SUMMARY

CORPORATE GOVERNANCE HIGHLIGHTS

CP is committed to maintaining high standards of corporate governance and nurturing a culture of good business ethics. Good governance is essential to the effective management of CP and protects the interests of our investors, employees and other stakeholders. The table below is a summary of our governance practices. You can read more about governance at CP beginning on page 29.

What we do	For more information

× Permit pledging of equity holdings in CP	page 71

EXECUTIVE COMPENSATION HIGHLIGHTS

Executive compensation at CP includes base salary and a mix of short-term and long-term incentives and is based on three core principles:

At risk: the majority of executive compensation is at risk and linked to performance

Linked to strategy: performance is measured using metrics that are directly tied to our annual business plan, long-term strategy and the creation of shareholder value

Long-term focus: executives are motivated to focus on CP's long-term success through the strong link between compensation and corporate performance, long-term strategy and equity accumulation

The table below is a summary of our compensation practices. You can read more about executive compensation at CP beginning on page 49.

The message from Isabelle Courville, Chair of the Management Resources and Compensation Committee (the Compensation Committee) beginning on page 5 discusses our 2016 engagement program and changes to executive compensation in 2016 and 2017.

Best Practices in Executive Compensation

The Compensation Committee ensures that our compensation programs are aligned with CP's strategic plan, emphasizing the importance of long-term value creation and risk mitigation. Our overall plan includes certain best practices:

What we do	For More Information
Pay for performance a majority of executive compensation is at-risk or variable pay and is contingent on performance and not guaranteed	page 53
Performance-based vesting align vesting criteria for performance share units with our long-term strategic plan and shareholder value	page 53
Share ownership have share ownership requirements for our top 71 senior management employees	page 69
Independent advice the Compensation Committee receives compensation advice from an independent advisor	page 30
Caps on incentive payouts our STIP and PSU plans cap payouts at a maximum of 200% of target. With regards to STIP the CEO cannot achieve more on his individual performance component than the corporate achievement component	page 53
Clawbacks maintain a clawback policy for senior executive incentive compensation	page 71
What we don't do	
× Guarantee bonuses	page 53
× Have single-trigger change of control benefits	page 84
× Reprice or backdate options	page 79

12 CANADIAN PACIFIC PROXY SUMMARY

MEETING INFORMATION

We are sending you this Proxy Statement (the **Proxy Statement**) to solicit proxies by the management of Canadian Pacific to be used at the annual meeting (the **Meeting**) of shareholders of Canadian Pacific to be held on May 10, 2017.

In this document you and your refer to the shareholders of Canadian Pacific; and CP, Canadian Pacific, the Corporation, the Company or we, us and our refer to Canadian Pacific Railway Limited and, where applicable, its subsidiaries; the Board of Directors or the Board refer to the board of directors of Canadian Pacific; and Shares refers to Common Shares in the Capital of Canadian Pacific Railway Limited. Unless otherwise noted, the information contained in this Proxy Statement is given as of March 15, 2017 and all dollar amounts used in this document are shown in Canadian dollars. Unless otherwise noted, payments made in 2016 in United States dollars (US\$) were converted into Canadian dollars using the Bank of Canada year-end exchange rate for 2016 of 1.3427 Canadian dollars per United States dollar.

Location of the Meeting

The Meeting will be held at:

Royal Canadian Pacific Pavilion
Canadian Pacific Head Office
7550 Ogden Dale Road S.E.
Calgary, Alberta, T2C 4X9,
at 9:00 a.m. (Mountain Daylight Time)
on Wednesday, May 10, 2017

Business of the Meeting

At the Meeting, you will be asked to vote on the following matters:

the appointment of Deloitte LLP as the Corporation's auditor;

in an advisory, non-binding capacity, the Corporation's compensation of its NEOs (Say-on-Pay); and

the election of directors.

Voting Recommendations

The Board recommends that you vote **FOR** the appointment of Deloitte LLP as the Corporation's auditor, **FOR** the advisory resolution to approve CP's compensation of its NEOs, and **FOR** each of the Nominees.

Information Regarding Outstanding Shares and Principal Shareholders

As of March 15, 2017, there were 146,648,385 Shares issued and outstanding. Each Share carries one vote on each matter voted upon at the Meeting.

For information regarding the ownership of certain individuals, including directors and officer of the Corporation, see Security Ownership of Certain Beneficial Owners and Management on page 86.

MEETING AND VOTING INFORMATION **2017 MANAGEMENT PROXY STATEMENT 13**

VOTING INFORMATION

Please carefully read this section, as it contains important information regarding how to vote your common Shares of the Corporation (Shares). Canadian Pacific has sent or caused to be sent forms of proxy to the Corporation's registered shareholders, and voting instruction forms and, in some cases, forms of proxy, to the Corporation's non-registered shareholders.

Who Can Vote

The Board has fixed March 15, 2017 as the record date (the Record Date) for the purpose of determining shareholders entitled to receive the Notice of Annual Meeting of Shareholders (the Notice) and to vote at the Meeting or any adjournment or postponement thereof, either in person or by proxy. Only shareholders of record at 5:00 p.m. (Eastern Daylight Time) on the Record Date are entitled to vote at the Meeting. Each shareholder is entitled to one vote for each Share held.

Solicitation of Proxies

Management of Canadian Pacific is soliciting proxies in connection with this Proxy Statement and the Meeting. The cost of this solicitation will be borne by the Corporation. Proxies will be solicited by mail, in person, by telephone or by electronic communications. Canadian Pacific has retained Kingsdale Advisors as strategic shareholder advisor and proxy solicitation agent located at the Exchange Tower, 130 King Street West, Suite 2950, Toronto, Ontario, M5X 1E2 to assist with our communications with shareholders and solicitation of proxies. In connection with these services, Kingsdale Advisors will receive an initial fee of \$66,000. In addition, Kingsdale Advisors will be reimbursed for disbursements and out-of-pocket expenses, as well as an additional \$8 fee for each telephone call to or from Canadian Pacific shareholders and additional fees as determined by Canadian Pacific and Kingsdale Advisors.

Shareholders wishing to be represented by proxy at the Meeting must deposit a properly executed proxy with the Corporation or its agent, Computershare Investor Services Inc. (Computershare), or Kingsdale Advisors, not less than 24 hours prior to the time fixed for holding the Meeting (or any adjournment thereof). The time limit for the deposit of proxies may be waived or extended by the Chair of the Meeting at his or her discretion without notice. All Shares represented by a properly executed proxy will be voted or withheld from voting in accordance with the instructions of the shareholder on any ballot that may be called for and if the shareholder specifies a choice with respect to any matter to be acted upon, the Shares will be voted accordingly.

Exercise of Discretion and Voting by Management Proxyholder

Shareholders who have appointed a named appointee of management to act and vote on their behalf, as provided in the enclosed form of proxy or voting instruction form, and who do not provide instructions concerning any matter identified in the Notice, will have the Shares represented by such form of proxy or voting instruction form voted FOR the appointment of Deloitte LLP as the Corporation's auditor, FOR the advisory resolution to approve CP's compensation of its NEOs, and FOR each of the Nominees.

The enclosed form of proxy or voting instruction form to be used in connection with the Meeting also confers discretionary authority on the person or persons named to vote on any amendment or variation to the matters identified in the Notice and on any other matter properly coming before the Meeting. As of March 15, 2017, management is not aware of any such amendment, variation or other matter. If, however, any such amendment, variation or other matter properly comes before the Meeting, proxies will be voted at the discretion of the person or persons named on the enclosed form of proxy or voting instruction form. If you appoint a non-management proxyholder, please make them aware and ensure they will attend the meeting for the vote to count.

Registered Shareholder Voting Information

You are a registered shareholder if your name appears on your Share certificate. If this is the case, this Proxy Statement will be accompanied by a form of proxy. If you are a registered shareholder, there are two ways, listed below, that you can vote your Shares:

1) Voting by Proxy

You may appoint the management appointee or someone else that need not be a shareholder to vote for you as your proxyholder by using the enclosed form of proxy. A shareholder has the right to appoint a person or company other than the named appointee of management to represent such shareholder at the Meeting. To appoint a person or company other than the named appointee, write the name of the person or company you would like to appoint in the space provided. If you appoint a non-management proxyholder, please make them aware and ensure they will attend the meeting for the vote to count.

You may vote using any of the methods outlined on the form of proxy.

2) Voting in Person

As a registered shareholder, you may exercise your right to vote by attending and voting your Shares in person at the Meeting. Upon arriving at the Meeting, report to the desk of our registrar and transfer agent, Computershare, to sign in and revoke any proxy previously given. You do not need to complete or return your form of proxy if you intend to vote at the Meeting. If you appoint a non-management proxyholder, please make them aware and ensure they will attend the meeting for the vote to count.

14 CANADIAN PACIFIC MEETING AND VOTING INFORMATION

To be valid, a proxy must be signed by the shareholder or his or her attorney authorized in writing. There are several ways to submit your form of proxy that are indicated on the form of proxy. Carefully review your form of proxy for these instructions.

Beneficial Shareholder Voting Information

If your Shares are not registered in your name and are held in the name of a nominee such as a trustee, financial institution or securities broker, you are a non-registered shareholder. If your Shares are listed in an account statement provided to you by your broker, those Shares will, in all likelihood, not be registered in your name.

Such Shares will more likely be registered under the name of your broker or an agent of that broker. Without specific instructions, Canadian brokers and their agents or nominees are prohibited from voting Shares for the broker's client. Without specific instructions, U.S. brokers and their agents or nominees are prohibited from voting Shares for the broker's client with respect to the non-binding advisory vote on the Corporation's compensation of its NEOs, and the election of directors, but may vote such Shares with respect to the appointment of Deloitte LLP.

If you are a non-registered shareholder, there are two ways, listed below, that you can vote your Shares:

1) Giving Your Voting Instructions

Your nominee is required to seek voting instructions from you in advance of the Meeting. Accordingly, you will receive, or have already received, from your nominee either (i) a voting instruction form for completion and execution by you, or (ii) a form of proxy for completion by you, executed by the nominee and restricted to the number of Shares owned by you. These procedures are to permit non-registered shareholders to direct the voting of the Shares that they beneficially own.

Each nominee has its own procedures which should be carefully followed by non-registered shareholders to ensure that their Shares are voted at the Meeting. Please contact your nominee for instructions in this regard. You may vote using any of the methods outlined on the voting instruction form or form of proxy.

Additionally, Canadian Pacific may use the Broadridge QuickVote service to assist non-registered shareholders with voting their shares. Non-registered shareholders may be contacted by Kingsdale Advisors to conveniently obtain a vote directly over the telephone. Broadridge then tabulates the results of all instructions received and provides the appropriate instructions respecting the voting shares to be represented at the Meeting.

2) Voting in Person

If you wish to vote in person at the Meeting, insert your own name in the space provided on the voting instruction form or form of proxy to appoint yourself as proxyholder and follow the instructions of your nominee.

Non-registered shareholders who instruct their nominee to appoint themselves as proxyholders should, at the Meeting, present themselves to a representative of Computershare. Do not otherwise complete the voting instruction form or form of proxy sent to you as your vote will be taken and counted at the Meeting. If you appoint a non-management proxyholder, please make them aware and ensure they will attend the meeting for the vote to count.

Employee Share Purchase Plan Voting Information

Employees of the Corporation are eligible to participate in an employee share purchase plan (ESPP) under which they purchase Shares. Shares held by participants under the ESPP (ESPP Participants) are held in a custodial account until such time as the Shares held by ESPP Participants are withdrawn from the ESPP pursuant to its terms and conditions.

Voting rights attached to Shares held by ESPP Participants may be exercised through the use of a voting instruction form, which provides instructions regarding the voting of Shares held by ESPP Participants. ESPP Participants will have received this Proxy Statement together with the voting instruction form, or advice as to the availability of these documents electronically, from the Corporation's registrar and transfer agent, Computershare.

Shares held by ESPP Participants will be voted in accordance with the instructions received from the employee.

Revocability of Proxy

A shareholder may revoke a proxy by depositing an instrument in writing executed by such shareholder or by such shareholder's attorney authorized in writing (or, in the case of a corporation, by a duly authorized officer or attorney), either at the Office of the Corporate Secretary, Canadian Pacific, 7550 Ogden Dale Road S.E., Calgary, Alberta, T2C 4X9, or with the Chairman of the Meeting on the day of the Meeting, or by an adjournment or postponement of the Meeting, or in any other manner permitted by law.

In addition to any other manner permitted by law, a shareholder may change a previously submitted proxy or voting instruction by submitting a new proxy or conveying new voting instructions by any of the means described under "How do I vote if I am a REGISTERED shareholder?" or "How do I vote if I am a NON-REGISTERED shareholder?", as applicable. Non-registered shareholders must ensure that any change in voting instructions is communicated to the applicable nominee sufficiently in advance of the time of voting at the Meeting. Non-registered shareholders who have voted and who wish to change their voting instructions should contact their nominee promptly if assistance is required.

Voting Deadline

To be effective, your proxy must be received not less than 24 hours prior to the time fixed for holding the Meeting (or any adjournment thereof). The time limit for the deposit of proxies may be waived or extended by the Chair of the Meeting at his or her discretion without notice.

The Corporation reminds shareholders that only the most recently dated voting instructions will be counted and any prior dated instructions will be disregarded.

Vote Tabulation

Proxies will be counted and tabulated by the Corporation's registrar and transfer agent, Computershare. Computershare maintains the confidentiality of individual shareholder votes. However, proxies will be submitted to management where they contain comments clearly intended for management or to meet legal requirements.

Additional Information

If you have any questions about the information contained in this document or require assistance in completing your form of proxy or voting instruction form, please contact our strategic shareholder advisor and proxy solicitation agent Kingsdale Advisors, located at The Exchange Tower, 130 King Street West, Suite 2950, P.O. Box 361, Toronto, Ontario, M5X 1E2, or by telephone at North American Toll Free: 1-866-879-7649, Outside North America, Banks and Brokers Call Collect: 416-867-2272 or by email at contactus@kingsdaleadvisors.com.

Registrar and Transfer Agent Information

You may contact Computershare, Canadian Pacific's registrar and transfer agent, by telephone, Internet or mail, as follows: by telephone 1-877-4-CP-RAIL / 1-877-427-7245 (within Canada and the United States) between the hours of 8:30 a.m. and 8:00 p.m. Eastern, or 1-514-982-7555 (international direct dial); by Internet at www.investorcentre.com/cp, by mail addressed to Computershare, 100 University Ave., 8th Floor, Toronto, Ontario, M5J 2Y1.

16 CANADIAN PACIFIC MEETING AND VOTING INFORMATION

GENERAL INFORMATION

Note Regarding Presentation

CP is not currently considered a foreign private issuer pursuant to applicable U.S. securities laws. Accordingly, this proxy statement has been prepared in compliance with the disclosure requirements under the rules of the U.S. Securities & Exchange Commission (the "SEC") applicable to U.S. domestic issuers, as well as in accordance with Canadian disclosure requirements.

Non-GAAP Measures

This Proxy Statement contains certain earnings measures that have no standardized meanings prescribed by generally accepted accounting principles in the United States of America and, therefore, may not be comparable to similar measures presented by other companies, including adjusted operating ratio, adjusted diluted earnings per share and free cash flow, included in the messages from the Chairman of the Board and the Chair of the Compensation Committee and under the heading "Compensation Discussion and Analysis". These measures are defined and reconciled under the heading "Non-GAAP Measures" in Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" of the Corporation's Annual Report on Form 10-K filed with the SEC and on SEDAR on February 16, 2017.

Forward-Looking Information

This Proxy Statement contains certain forward-looking information and forward-looking statements (collectively, "forward-looking information") within the meaning of applicable securities laws relating, but not limited, to our compensation programs, operations, anticipated financial performance, business prospects, planned capital expenditures and strategies. This forward-looking information also includes, but is not limited to, statements concerning expectations, beliefs, plans, goals, objectives, assumptions, information and statements about possible future events, conditions, and results of operations or performance. Forward-looking information may contain statements with words such as "anticipate", "believe", "expect", "plan" or similar words suggesting future outcomes.

Undue reliance should not be placed on forward-looking information as actual results may differ materially from the forward-looking information. Forward-looking information is not a guarantee of future performance. By its nature, CP's forward-looking information involves numerous assumptions, inherent risks and uncertainties that could cause actual results to differ materially from the forward-looking information, including but not limited to the following factors: changes in business strategies; general North American and global economic, credit and business conditions; the availability and price of commodities; the effects of competition; industry capacity; shifts in demand; changes in laws and regulations, cost increases; claims and litigation; labour disputes; liabilities arising from derailments. The foregoing list of factors is not exhaustive.

These and other factors are detailed from time to time in reports filed by CP with securities regulators in Canada and with the SEC in the United States. Reference should be made to Item 1A "Risk Factors" and Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations - Forward-Looking Information" in CP's annual and interim reports on Form 10-K and 10-Q.

Forward-looking information is based on current expectations, estimates and projections and it is possible that predictions, forecasts, projections, and other forms of forward-looking information will not be achieved by CP. Except as required by law, CP undertakes no obligation to update publicly or otherwise revise any forward-looking information, whether as a result of new information, future events or otherwise.

Availability of Documents

Edgar Filing: CANADIAN PACIFIC RAILWAY LTD/CN - Form DEF 14A

Copies of the following documents are available free of charge on written request to the Office of the Corporate Secretary, Canadian Pacific, 7550 Ogden Dale Road S.E., Calgary, Alberta, T2C 4X9 or online at www.cpr.ca, www.sedar.com and www.sec.gov: the Articles and by-laws of the Company, Terms of Reference of the Board and each of the committees of the Board, the 2016 Annual Report to Shareholders on Form 10-K containing the consolidated financial statements for the year ended December 31, 2016, together with the auditor's report and MD&A, the interim financial statements on Form 10-Q for periods subsequent to December 31, 2016, and the 2017 Proxy Statement.

The Corporation's financial information is provided in the Corporation's comparative annual financial statements and MD&A for the year ended December 31, 2016.

GENERAL INFORMATION **2017 MANAGEMENT PROXY STATEMENT** 17

BUSINESS OF THE MEETING

1. FINANCIAL STATEMENTS

The audited consolidated financial statements of Canadian Pacific for the year ended December 31, 2016, and the report of the auditor, will be placed before the shareholders at the Meeting. These audited consolidated financial statements form part of the Annual Report of Canadian Pacific, which was mailed to registered shareholders and to all non-registered shareholders who requested it. Additional copies of the Annual Report may be obtained from the Corporate Secretary of Canadian Pacific upon request. The Annual Report is also available online at www.cpr.ca or www.sedar.com.

2. APPOINTMENT OF AUDITOR

Deloitte LLP was last appointed as Canadian Pacific's auditor at the Company's last annual meeting of shareholders, held on April 20, 2016. Deloitte was first appointed on May 12, 2011.

The Board recommends that Deloitte LLP be appointed as Canadian Pacific's auditor until the close of the next annual meeting of shareholders. Unless otherwise instructed, the persons designated in the form of proxy or the voting instruction form, intend to vote **FOR** the appointment of Deloitte LLP as auditor of Canadian Pacific to hold office until the next annual meeting of shareholders at remuneration to be fixed by the Audit Committee. Representatives of Deloitte LLP are expected to be present at the Meeting, will have an opportunity to make a statement if they desire to do so, and will be available to respond to questions.

Vote Required for Approval

The appointment of Deloitte LLP as the Corporation's auditor requires an affirmative vote of the Shareholders at the Meeting.

Audit and Non-Audit Fees and Services 2016 & 2015

In accordance with applicable laws and the requirements of stock exchanges and securities regulatory authorities, the Audit Committee must pre-approve all audit and non-audit services to be provided by the independent auditor.

Fees payable to Deloitte LLP for the years ended December 31, 2016, and December 31, 2015, totaled \$2,861,400 and \$3,589,300, respectively, as detailed in the following table:

For the year ended	Total	Total
December 31	2016 (\$)	2015 (\$)
Audit Fees	2,398,500	2,741,100
Audit-Related Fees	289,800	525,500
Tax Fees	147,000	322,700
All Other Fees	26,100	
TOTAL	2,861,400	3,589,300

The nature of the services provided under each of the categories indicated in the table is described below.

Audit Fees

Audit fees were for professional services rendered for the audit and interim reviews of CP's annual financial statements and services provided in connection with statutory and regulatory filings or engagements, including the attestation engagement for the report from the independent registered public accounting firm on the effectiveness of internal controls over financial reporting, the audit or interim reviews of financial statements of certain subsidiaries and of various pension and benefits plans of CP; special attestation services as may be required by various government entities; and general advice and assistance related to accounting and/or disclosure matters with respect to new and proposed U.S. accounting standards, securities regulations, and/or laws.

Audit-Related Fees

Audit-related fees were for assurance and related services reasonably related to the performance of the audit or review of the annual financial statements, but which are not reported under **Audit Fees** above. These services consisted of audit work related to securities filings; compliance review of third-party agreement; refinancing of subsidiary companies; and accounting training.

Tax Fees

Tax fees were for professional services related to tax compliance, tax planning and tax advice. These services consisted of: tax compliance including the review of tax returns; assistance with questions regarding corporate tax audits; tax planning and advisory services relating to common forms of domestic and international taxation (i.e. income tax, capital tax, goods and services tax, and value added tax); and access fees for taxation database resources.

18 CANADIAN PACIFIC BUSINESS OF THE MEETING

All Other Fees

Fees disclosed under this category would be for products and services other than those described under Audit Fees , Audit-Related Fees and Tax Fees above. These services relate to assistance with an insurance loss claim in 2016. There were no such services in 2015.

3. ADVISORY VOTE TO APPROVE COMPENSATION OF NAMED EXECUTIVE OFFICERS

In accordance with the Exchange Act of 1934 (the Exchange Act) and a related U.S. Securities and Exchange Commission (SEC) rule, we are providing shareholders with the opportunity to vote for or against, on a non-binding advisory basis, the compensation of our Named Executive Officers (NEOs) as disclosed in this proxy statement, commonly known as say-on-pay . As this is an advisory vote, the results will not be binding on the Board. However, when considering the Corporation s approach to compensation for our NEOs, the Board will take into account the results of this vote, together with other shareholder feedback and best practices in compensation and governance. In 2016 the shareholders of the Corporation approved the holding of this vote on an annual basis.

Canadian Pacific is committed to providing shareholders with clear, comprehensive and transparent disclosure on executive compensation. For information on Canadian Pacific s approach to executive compensation and what the Board has done since the last annual meeting, refer to the message from the Chair of the Management Resources and Compensation Committee beginning on page 5 and information under the heading Executive Compensation Summary and Compensation Discussion and Analysis beginning on page 49.

The Compensation Committee has spent considerable time and effort recruiting top-level talent and developing our executive compensation program to fit extraordinary circumstances. The Board believes that the executive compensation program that has been implemented achieves the goal of maximizing long-term shareholder value while attracting, motivating and retaining world-class talent. We recognize that the proper structure of executive compensation is critical to both managing risk and appropriately incentivizing our NEOs. We have been successful in recruiting individuals with unique and demonstrated abilities to improve railway performance, and shareholders have enjoyed extraordinary results. We believe that our approach to executive compensation is fair and balanced, and creates incentives for our NEOs that are well-aligned with shareholders interests over the long-term.

The Board recommends that shareholders vote FOR the resolution set out below and, unless otherwise instructed, the persons designated in the form of proxy or the voting instruction form intend to vote FOR the following resolution:

RESOLVED, on an advisory basis and not to diminish the role and responsibilities of the Board of Directors, that the shareholders approve the compensation of the Named Executive Officers of Canadian Pacific as disclosed in the Corporation s proxy statement (which disclosure includes the Compensation Discussion and Analysis, the compensation tables, and the narrative disclosures that accompany the compensation tables) delivered in advance of the 2017 annual meeting of shareholders in accordance with the compensation disclosure rules of the SEC and Canadian securities regulatory authorities.

Vote Required for Approval

In order to be approved, the advisory resolution on the compensation of our NEOs requires an affirmative vote of the majority of the votes duly cast at the Meeting.

4. ELECTION OF DIRECTORS

Directors are elected annually by shareholders, each to hold office until the close of the next annual meeting of shareholders or until such person s successor is elected or appointed. Between shareholder meetings, the Board may

appoint additional directors.

Our governing documents provide that the Board shall consist of a minimum of five and a maximum of 20 directors. The Corporate Governance and Nominating Committee (the Governance Committee), with the assistance of an external search consultant if necessary, identifies and recommends to the Board the proposed nominees for appointment or election at each annual meeting of shareholders consistent with criteria approved by the Board. For additional information refer to Statement of Corporate Governance Nomination of Directors on page 36.

CP is committed to Board diversity. In determining qualified nominees for election as directors of CP, the Governance Committee takes into account diversity considerations such as gender, age, cultural heritage and regional representation of candidates in order to ensure that the Board reflects the gender, age, cultural and geographic representation of the regions in which CP operates.

Pursuant to a resolution of the Board, 10 persons are to be elected as directors at the Meeting, each to hold office until the close of the next annual meeting of shareholders unless he or she resigns or is otherwise removed from office earlier. The persons named in the section Nominees for Election to the Board (the Nominees) beginning on page 21 will be presented for election at the Meeting.

The Board recommends that you vote FOR each of the Nominees. Unless otherwise instructed, the persons designated in the form of proxy and the voting instruction form intend to vote FOR the election of the Nominees. If, prior to the Meeting, any of the Nominees becomes unable or unwilling to serve, the persons designated in the form of proxy or voting instruction form will have the right to use their discretion in voting for such other properly qualified nominees.

Vote Required for Approval

The 10 Nominees receiving the highest number of FOR votes cast in person or by proxy at the Meeting will be elected to the Board.

Majority Voting Policy

CP has in place a Majority Voting Policy. Pursuant to the Majority Voting Policy, if a Nominee receives more withheld votes than for votes at the Meeting, he or she will be required to immediately tender his or her resignation. The Board would then determine, within 90 days of the Meeting, whether to accept or reject the resignation. Other than in extraordinary circumstances, the Board would accept a resignation under the Majority Voting Policy. For additional information refer to Statement of Corporate Governance Nomination of Directors on page 36.

Advance Notice of Director Nominations

At the annual meeting of shareholders held on May 14, 2015, CP's shareholders approved and adopted By-Law No. 2 of the Company (the Advance Notice By-Law), which establishes a framework for advance notice of nominations of directors by the shareholders of CP. Pursuant to the Advance Notice By-Law, if a shareholder intends to nominate a person for election as a director of CP at the Meeting, other than pursuant to a shareholder proposal, as described above, such nominations must comply with the procedures set out the Advance Notice By-Law, including providing written notice to the Corporation setting forth information about each proposed nominee not later than April 10, 2017. A copy of the Advance Notice By-Law was filed on SEDAR and EDGAR on Form 6-K on March 13, 2015.

20 CANADIAN PACIFIC BUSINESS OF THE MEETING

NOMINEES FOR ELECTION TO THE BOARD

INTRODUCTION

The Board is elected by shareholders to oversee the management of the Company and to ensure that the long-term interests of the shareholders are served. The Board is the ultimate decision-making authority within the Company except with respect to matters, such as the election of the directors, that are reserved for the Company's shareholders.

Since the last annual meeting of shareholders there have been numerous changes to the Board. Since the last annual shareholders meeting, Dr. Anthony Melman and Mr. William Ackman resigned from the Board in order to allow them to focus on other interests and Mr. E. Hunter Harrison resigned from the Board concurrently with his retirement as CP's Chief Executive Officer. Additionally, the Board, through the Governance Committee, engaged in a Board renewal project, in order to continue the transition of CP that began in 2012. This renewal resulted in the appointment of four new directors to the Board; Ms. Jill Denham and Mr. William R. Fatt on September 6, 2016, Ms. Jane Peverett on December 13, 2016 and Mr. Gordon T. Trafton II on January 1, 2017. Each of these individuals brings extensive and unique business experience to the Board.

To ensure the proper stewardship of CP, the Board needs to operate independently and needs to have the correct mix of relevant skills and experience, including industry knowledge, financial and accounting expertise, strategic planning, human resources and executive compensation experience and expertise in risk management, to understand and address the business challenges facing the Company. An effective Board also needs to include sufficiently diverse opinions and viewpoints, which is encouraged by having diversity of gender, age, cultural heritage and geographical representation. We believe that the Nominees meet all of the requirements. For additional information on the Nominees' skills and experience considered by the Company, see [Director Skills Matrix](#) on page 37. For additional information of diversity at CP, see [Statement of Corporate Governance - Diversity at CP](#) on page 32.

BOARD SIZE AND TENURE

CP's governing documents provide for the Board to consist of a minimum of five and a maximum of 20 directors. The Governance Committee assesses the optimal size annually, and believes the current size is appropriate for the Board to fulfill its responsibilities.

As of March 15, 2017 the average tenure of CP's Board is two years, with three directors having tenure of greater than three years and seven directors having tenure of less than or equal to three years.

DIRECTOR OVERBOARDING

Director overboarding refers to the situation where a director sits on an excessive number of boards, which could result in excessive time commitments and an inability to fulfill their duties. The Board of CP addresses the matter of overboarding on a case-by-case basis. Prior to the recommendation of a director candidate, the Governance Committee reviews the number of public company boards that the candidate sits on and considers whether those commitments would create additional risk that the candidate would be unable to fulfill the significant commitment required to sit on the Company's Board. Additionally, prior to any director of CP joining another Board, they are required to advise the Chairman of the Board and the Chair of the Governance Committee in order to ensure that the director will continue to provide the expected level of commitment to CP.

CP takes the policy guidelines of proxy advisory firms in both Canada and the United States into account when considering director candidates, during the Board's annual review process and in the event that a current director is considering an additional outside board position. None of the Director Nominees are overboarded pursuant to these policies.

NOMINEES FOR ELECTION TO THE BOARD **2017 MANAGEMENT PROXY STATEMENT 21**

The Corporation considers an outside board to be any board of directors of a public company other than Canadian Pacific Railway Limited or its wholly owned subsidiary, Canadian Pacific Railway Company (CPRC). CPRC is the principal operating entity of CP in Canada and directly or indirectly owns all of the voting shares of all of CP's other subsidiaries. All of the directors of the Corporation are also directors of CPRC and the two Boards meet concurrently. CPRC is a reporting issuer in Canada due to its outstanding debt securities.

No Director Nominee has attended less than 95% of the Board and Committee meetings held and, while CP maintains vigorous standards with respect to each directors' engagement, there have not been any concerns raised by the Board or management with respect to the Director Nominees' ability to fulfill their duties to CP.

DIRECTOR ATTENDANCE

Regularly scheduled Board and committee meeting dates are established approximately two years in advance. Special meetings are also scheduled as needed and these meetings can be called on short notice. In 2016, the Board called twelve unscheduled meetings, the Finance Committee called one unscheduled meeting, the Compensation Committee called two unscheduled meetings and the Governance Committee called two unscheduled meetings.

Directors are expected to attend all regularly scheduled Board meetings and meetings of committees on which they serve and to exercise best efforts to attend all special meetings. All directors are also invited to attend all of the regularly scheduled meetings of the committees. In 2016, the incumbent Nominees attended 99% of all Board and Committee meetings, as set forth below. Additionally, the independent directors met in executive sessions without management present at each of the regular meetings of the Board in 2016.

Board and committee meeting materials are typically provided to the directors in advance of meetings. If a director is unable to attend a meeting, the director provides his or her comments to the Chair, Chair of the committee or the Corporate Secretary in advance of the meeting, and the recipient will ensure those comments and views are considered at the meeting.

The following table is a summary of each incumbent Nominee's attendance at Board and committee meetings in 2016:

28 CANADIAN PACIFIC NOMINEES FOR ELECTION TO THE BOARD

STATEMENT OF CORPORATE GOVERNANCE

BOARD OF DIRECTORS

CP's Board is dedicated to maintaining the highest standards of corporate governance and to nurturing a culture of good business ethics and corporate governance throughout the organization

CP's philosophy is that effective governance involves more than policies, procedures and protocols; it must be ingrained in the everyday business practices of all those who work for CP

CP's Board of Directors represents Company, shareholder and other stakeholder interests

The Board is responsible for CP's long-term strategic direction, succession plans for senior officers and risk management oversight

The Board and management believe that good corporate governance practices are essential to the effective management of CP and to the protection of its investors, employees and other stakeholders. The Board has developed Corporate Governance Principles and Guidelines (Governance Guidelines), available on our website at www.cpr.ca, which set out the Corporation's governance standards and requirements. CP's corporate governance practices fully comply with or exceed the requirements of the Canadian Securities Administrators (CSA) National Policy 58-201 Effective Corporate Governance, item 407 of Regulation S-K of the SEC and the corporation governance guidelines of the NYSE.

The Governance Guidelines provide that the Board is the ultimate decision-making authority within the Corporation, except with respect to those matters, including the election of directors, which are reserved to shareholders. As the Board has plenary power, its Terms of Reference, found at www.cpr.ca, are intended not to limit the power of the Board but to assist it in the exercise of its powers and the fulfillment of its duties.

Independent Directors

All current directors are independent, with the exception of the President and CEO

The roles of Chairman and CEO are separate

There are no interlocking directorships at other public companies

The Board has adopted standards for director independence based on criteria of the NYSE, SEC and CSA. The Board annually conducts, through a combination of questionnaires, biographical reviews and discussions, a comprehensive assessment of all business and other relationships and interests of each director vis-à-vis the Corporation and its subsidiaries and has determined that each director, except for Mr. Keith Creel, is independent of the Corporation in accordance with the standards for independence established by the NYSE, and NI 58-101 Disclosure of Governance Practices and that each member of the Audit Committee meets the additional independence standards established for audit committee members under Section 10A(m)(3) and Rule 10A-3(b)(1) of the Exchange Act, and NI 52-110 Audit Committees. Mr. Creel is not independent by virtue of the fact that he is the President and Chief Executive Officer of the Corporation.

Other Board Memberships and Interlocks

Several of the directors of CP are also directors of other public companies. Information regarding the other public company directorships of the Director Nominees can be found under each of their biographies under the heading Nominees for Election to the Board Director Nominee Profiles beginning on page 23. The Governance Committee considers it to be good governance to avoid interlocking relationships if possible. No CP Board Members sit on the same board of directors of any outside public company.

Independent Chair

The Chairman of the Board, Mr. Reardon, is an independent director. He has served as Chairman of the Board since July 20, 2015. The Chairman of the Board presides at meetings of shareholders and directors. He also serves as an advisor to the CEO and other members of senior management. His mandate provides, among other things, that he is responsible for establishing and ensuring:

efficient and effective procedures to govern the Board's operations and functions

that processes are in place for the assessment of the effectiveness of the Board and Board Committees, and the fulfillment of their mandates

collaboration with the CEO and Committee chairs in setting meeting agendas

conduct of Board meetings in a manner that facilitates full participation

regular executive sessions of the Board without management present

directors have access to adequate resources and independent advisors

effective relationships are developed between the Board and management

Executive Sessions

The Board holds two in-camera executive sessions at each regularly scheduled meeting, the first includes the President and CEO, and then a second that includes only independent directors. Additionally, the Audit Committee and the Compensation Committee include at least one executive session of independent directors at the beginning and/or end of each meeting. Other standing committees determine at each regularly scheduled and ad-hoc meeting whether an executive session is necessary. At each executive session, the Chairman of the Board or the independent Chair of the applicable committee presides over the executive session.

Access to Independent Advisors

The Board and its committees have the authority to retain independent financial, legal, compensation and other advisors.

Director Attendance

Each director is expected to attend each meeting of the Board and the Board committees of which he or she is a member. The attendance record of each incumbent Nominee for all Board and committee meetings held in 2016 is set out under *Nominees for Election to the Board Director Attendance* on page 22. In addition, regularly scheduled Board and committee meetings are held sequentially and all directors are invited to attend each of the committee meetings.

COMMITTEES OF THE BOARD

*Committees of the Board assist CP's Board in fulfilling its responsibilities and duties
Fully independent Audit, Compensation, Finance and Governance committees*

The Board fulfills its responsibility for the overall oversight of the Company, in part, through the activities of its four Committees. The responsibilities of the Committees are summarized below.

The Audit Committee is responsible for assisting the Board in fulfilling its oversight of: the disclosure of financial statements and information derived from financial statements; the integrity and quality of the Corporation's financial reporting and internal controls; the performance and independence of the Corporation's external auditor, and the performance of the Corporation's internal audit function;

The Corporate Governance and Nominating Committee is responsible for oversight of the functioning of the Board and the Committees, for developing and implementing good corporate governance practices and for the review and recommendation of individuals to become Board Members;

The Finance Committee is responsible for assisting the Board in oversight of the Corporation's financial position, financing plans, return of capital to shareholders; strategic plans and opportunities for the Corporation, the Corporation's budgets and CP's pension plans; and

The Management Resources and Compensation Committee oversees the development and approval of CP's compensation philosophy, strategy and design. The Compensation Committee drives performance behaviour through compensation plans that balance risk and incentives while taking into consideration independent data and market practices.

CP's Board has approved and annually reviews and revises where necessary the terms of reference for each of the Committees as well as written position descriptions for the independent Chairman of the Board, Committee Chairs, and CEO. These documents are available at <http://www.cpr.ca>.

The Board's four Committees are comprised solely of directors who are independent and directors who are not independent do not participate in selecting members.

BOARD MANDATE

Strategic Planning

The Board oversees the development, execution and fulfillment of CP's strategic goals. This responsibility includes a strategic planning process whereby, prior to approval by the Board of CP's multi-year strategic plan (the Strategic Plan): (i) the Finance Committee reviews and makes recommendations on the financial aspects of, and strategic options and opportunities associated with, the Strategic Plan; and (ii) the Board as a whole reviews management's proposed strategy, plans and objectives within the Strategic Plan that support continuous improvement in operating performance. As part of these reviews, the Finance Committee and Board consider and discuss the key issues, assumptions, risks, opportunities and strategies that relate to the development and implementation of the Strategic Plan.

One Board meeting per year is specifically set aside for a substantial strategic planning session in which the Board reviews and discusses the Strategic Plan developed by management, following which the Board provides its approval. As part of this, the Board considers CP's major opportunities, priorities and the risk impact of the Strategic Plan, and reviews and approves CP's financial objectives, including significant capital allocations. Subsequently, it oversees the implementation of the Strategic Plan and monitors CP's performance against the plan.

Succession Planning

The Board and the Compensation Committee are actively engaged in the succession planning processes. A detailed and documented process exists which includes reviewing the depth and diversity of succession pools for the CEO, CFO, senior operations executives and other key leadership roles. The Compensation Committee and Board review at least annually the Corporation's leadership and development strategies, succession plans for key leadership roles, as well as plans and programs for the assessment and development of senior talent.

The Board provides opportunities for directors to get to know employees who have been identified as succession candidates. These individuals make presentations to the Board and are invited to functions where they can interact with directors more informally.

The Compensation Committee reviews, reports on and, where appropriate, provides recommendations to the Board on the structure and reporting relationships of senior management, the appointment of persons to the rank of Vice-President and above, and the leadership development of senior management.

DIVERSITY AT CP

CP has implemented a Diversity Philosophy

CP is committed to diversity throughout the Corporation and is a founding member of the Canadian Board Diversity Council and a member of the 30% Club

Women currently represent 40% of CP's directors, including the Chairs of the Compensation Committee and the Governance Committee

CP is committed to Board diversity, including with respect to gender, age, cultural heritage and geographical representation and has therefore adopted a diversity philosophy that reflects CP's ongoing commitment to maintaining and increasing diversity at the Board level. CP's diversity philosophy can be found on the Company's website at www.cpr.ca under Corporate Governance. CP is also a founding member of the Canadian Board Diversity Council, an organization that is dedicated to advancing diversity on Canadian boards and a member of the 30% Club, a leading international organization created with the aim of developing a diverse pool of talent for all businesses through the efforts of members who are committed to better gender balance at all levels of their organizations.

The Governance Committee and the Board do not adhere to any quotas or specific targets in determining Board membership as we do not believe that it is in the Corporation's best interest to implement arbitrary targets with respect to the composition of the Board. However, CP's diversity philosophy states that the Governance Committee will take into account the diversity considerations, such as gender, age, cultural heritage and regional representation of candidates when identifying and recommending qualified director nominees in order to ensure that the Board reflects the gender, age, cultural and geographic representation of the regions in which CP operates. The Governance Committee's thorough investigation and nominating process, including the engagement of an external search consultant where necessary, acts to ensure implementation of CP's Governance Principles and Guidelines respecting director nominations, including diversity.

In 2016, the Governance Committee engaged in a renewal process that resulted in the appointment of four new directors since the last annual meeting of shareholders, including two women. During this renewal process the Governance committee ensured that top female candidates were included in the search process and vetting. Due to CP's ongoing commitment to diversity of experience and competencies as well as through the regular review and consideration of the Board's skills matrix, CP's Board currently consists of four women representing 40% of the Board and includes representation from numerous regions in Canada and the United States. In addition, the Chair of both the Compensation Committee and the Governance Committee, two key committees at CP, are female.

CP encourages the advancement of women and other individuals with diverse backgrounds at the Corporation through its employment equity program. CP has put in place an in-depth Diversity and Employment Equity program pursuant to the *Employment Equity Act* (Canada) to remove workplace barriers at all levels that impede or prevent the inclusion of qualified individuals and minority groups, including women, from consideration for positions. CP has not implemented quotas or specific targets with respect to gender diversity at the Executive Officer level other than with respect to CP's Diversity and Employment Equity Program. CP believes that the Diversity and Employment Equity Program encourages the advancement and employment of women and that arbitrary targets are not in the best interests of CP in obtaining the highest calibre Executives. CP does not currently have any female executive officers.

RISK OVERSIGHT

The Board has overall responsibility for risk oversight as a whole and specifically oversees risks related to business operations, health, safety, security and environment, including relating to implementation of business plans and opportunities, rail plans and disaster planning. The Board reviews and discusses directly the key issues, assumptions, risks, opportunities and strategies related to the development and implementation of the Corporation's operations. All Committees of the Board have a role in risk oversight, as follows:

Committee	Risk Oversight Responsibility	Specific Risk Oversight
Audit	Assists with identification of principal business risks, ensures the implementation of appropriate risk assessment and risk management policies	Monitors risks that may have a material affect on financial disclosures
Compensation	Oversight of risks associated with the Corporation's compensation, succession and human resources strategy with the goal of preventing excessive or undue risk taking	Reviews insurance program to mitigate risk Oversees risks relating to compensation, talent management, succession, labour relations, and the Company's health, morale and employee attitudes
Finance	Oversight of financial risks and contingent exposure that may have a material impact on the Corporation	Review and recommendation of the Corporation's strategic plan and budget Oversight of risk relating to pension plans Oversight of financings and M&A risk
Governance	Monitors the Board oversight of enterprise risk management and oversight of corporate governance risk and Board composition risk	Oversight of enterprise risk management by the Board and its committees Oversight of compliance with corporate governance requirements, legal and regulatory requirements and best practices Oversight of process to determine the competencies, and personal qualities required for new directors to add value to the Corporation

Governance

The Board and its Governance Committee are responsible for developing CP's approach to corporate governance. This includes annual reviews of the Corporate Governance Principles and Guidelines, as well as the terms of reference for the Board and each of its committees.

Internal Controls and Certification

The Board and its Audit Committee oversee the integrity of the internal control and management information systems of the Corporation and its subsidiaries, which are designed, monitored and periodically reviewed by the CEO, the CFO, Controller, and are also periodically reviewed by the Internal Audit Department. Such systems are also examined periodically by CP's external auditor. On a quarterly basis, all senior officers are required to review the operation of the key internal controls within their respective areas of responsibility, report any changes to the Office of the Controller, and provide written confirmations as to the operation and effectiveness of such controls. Management has, in accordance with the requirements of Section 404 of the Sarbanes Oxley Act, assessed the effectiveness of its internal controls over financial reporting in accordance with the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in *Internal Control - Integrated Framework (2013)* and has reported to the Audit Committee. Based on this assessment, management determined that CP maintained effective control over financial reporting as of December 31, 2016.

Annually and quarterly, the CEO and CFO certify that they are responsible for establishing and maintaining disclosure controls and procedures and internal control over financial reporting for both the Corporation and CPRC.

These certifications have been filed with the SEC as an exhibit to our annual report on Form 10-K and will be filed as an exhibit to our interim reports on Form 10-Q, and, prior to January 1, 2016, on our annual report on Form 40-F or furnished to the SEC on Form 6-K as a foreign private issuer, as applicable. As an issuer listed in Canada and the United States, CP fulfills Canadian requirements by filing these certifications annually and quarterly.

In addition, the CEO and CFO, following review by senior management and CP's Disclosure Policy Committee, also certify that our annual and quarterly filings do not contain an untrue statement of material fact, or omit to state a material fact, and that the financial statements and other financial information included in the annual and quarterly filings fairly present, in all material respects, CP's financial condition, the results of our operations and cash flows.

COMMUNICATION AND SHAREHOLDER ENGAGEMENT

The Board believes that regular and constructive communication is an important part of creating an open, candid and productive dialogue. The Board annually communicates information about the Board and individual directors, the Company's corporate governance and executive compensation practices through the Company's management proxy circular.

Shareholders may themselves initiate communications directly with the Board. To do so, shareholders should communicate their questions or concerns to the independent directors through the Chairman of the Board by delivering a sealed envelope, marked "confidential", to:

Chairman of the Board

c/o Office of the Corporate Secretary

Canadian Pacific

7550 Ogden Dale Road SE

Calgary, AB T2C 4X9

Email: shareholder@cpr.ca

Although communications may be submitted anonymously, parties are encouraged to identify themselves so that the Chair of the Board may acknowledge the communication.

In 2016 members of the Board of Directors began a formal shareholder engagement program that involved in-person meetings with institutional shareholders, shareholder advocacy groups and two proxy advisory firms. The outreach and engagement program is summarized in the diagram below.

For additional details regarding the topics discussed and outcomes resulting from these engagement activities please refer to the message from the Chair of the Management Resources and Compensation Committee on page 5 as well as the Compensation Discussion and Analysis starting on page 51.

34 CANADIAN PACIFIC STATEMENT OF CORPORATE GOVERNANCE

ETHICAL BUSINESS CONDUCT

Annual certification for all directors, officers and non-union employees

Code of Business Ethics and Code of Ethics for CEO and Senior Financial Officers available at www.cpr.ca and in print to any shareholder upon request

Code of Business Ethics

The Corporation's Code of Business Ethics (the Code) specifically addresses, among other things, conflicts of interest, protection and proper use of corporate assets and opportunities, confidentiality of corporate information, fair dealing with third parties, compliance with laws, rules and regulations and reporting of illegal or unethical behaviour. The Code applies to all directors, officers and employees, both unionized and non-unionized, of the Corporation and its subsidiaries in Canada, the United States and elsewhere, and forms part of the terms and conditions of employment of all such individuals. All directors have signed acknowledgments that they have read, understood and agree to comply with the Code, and they annually confirm compliance. Annually, officers and non-union employees are required to acknowledge that they have read, understood and agree to comply with the Code. Contractors engaged on behalf of the Corporation or its subsidiaries must undertake, as a condition of their engagement, to adhere to principles and standards of business conduct consistent with those set forth in the Code. The Code is, and all amendments to the Code, and all waivers of the Code with respect to any director or Executive Officer will be, posted on CP's website and provided in print to any shareholder who requests them.

Code of Ethics for Chief Executive Officer and Senior Financial Officers

A Code of Ethics for the CEO and Senior Financial Officers applies to the Corporation's CEO, CFO and Controller. All amendments to the code, and all waivers of the code with respect to any of the officers covered by it, will be posted on CP's website and provided in print to any shareholder who requests them.

Monitoring of Ethics Codes

The Governance Committee, with the assistance of the Audit Committee, is responsible for periodically reviewing, and if appropriate recommending changes to, the Code and the Code of Ethics for the CEO and Senior Financial Officers of the Corporation, monitoring compliance with the codes, and reviewing, and if appropriate approving, waivers from compliance therefrom for directors or Executive Officers and promptly disclosing such waivers to the shareholders.

The Governance Committee did not approve any waivers of the codes for any directors or Executive Officers during 2016.

Related Party Transactions

If a director has a material interest in a transaction or agreement involving the Corporation they are required to disclose that interest to the CEO and the Chairman of the Board, and will not participate in any discussions or votes concerning such transactions. In addition, the Board annually reviews related party transactions in conjunction with making director independence determinations. Pursuant to the Code of Business Conduct, all employees, including officers of the Corporation are required to report related party transactions. The Corporation requires senior management employees to annually confirm any related party transactions that they are party to or that have been reported to them during the year. These are reviewed by the Corporation's accounting and legal departments to ensure

appropriate reporting. During 2016 there were no transactions between the Corporation and related persons as described in Item 404 of Regulation S-K. For the purposes of the foregoing, related person is defined as (i) a director, nominee director or executive officer of the Corporation; (ii) an immediate family member of a director, nominee director or executive officer, or (iii) a beneficial holder of greater than 5% of the Corporation's shares or an immediate family member of such holder.

Promotion of Ethical Culture

The Board promotes a culture of ethical business conduct and sets the tone for a foundation of high business standards, integrity and respect.

Insider Trading and Disclosure Policies

The Board has approved a disclosure and insider trading/reporting policy. It is available on CP's website at www.cpr.ca and reflects the commitment of the Board and management to promote timely, factual and accurate communications to the investing public. Among the matters addressed in the policy are guidelines on CP's interaction with analysts and the public and measures to avoid selective disclosure.

The Board has also appointed a Disclosure Policy Committee, currently comprised of the Company's Chief Financial Officer, Chief Legal Officer and Chief Risk Officer. The committee reports to the Board and is responsible for overseeing and monitoring disclosure matters and implementing additional policies and procedures, where necessary. The committee reviews all major disclosure documents. These documents are also approved by the Board and/or one or more of its committees, in each case before they are distributed. Under the direction of the CEO and CFO, the Disclosure Policy Committee also oversees the Corporation's disclosure controls and procedures and provides quarterly reports to the Audit Committee.

NOMINATION OF DIRECTORS

CP's shareholders elect individual directors annually

The Board has a majority voting policy in the uncontested election of directors

A skills matrix is used to assess areas of director expertise and experience

Nomination Process

Directors are elected annually by shareholders, each to hold office until the close of the next annual meeting of shareholders or until such person's successor is elected or appointed. Between shareholder meetings, the Board may appoint additional directors.

The Governance Committee, with the assistance of an external search consultant if necessary, identifies and recommends to the Board qualified director nominees for appointment or election at the annual meeting of shareholders consistent with criteria approved by the Board which takes into account:

- (a) the competencies and skills the Board, as a whole, should possess;
- (b) the competencies, skills and personal and other diverse qualities the existing directors possess;
- (c) the competencies, skills and personal and other diverse qualities required for new directors in order to add value to CP in light of the opportunities and risks facing the Corporation; and
- (d) the size of the Board, with a view to facilitating effective decision-making.

The requirements derived from this process are used in determining whether, and how many, new directors should be added to the Board. The Board considers a skills matrix and regularly reviews and updates, as applicable, the industries, regions and companies where director candidates meeting the skills required by CP are most likely to be identified, and will, if necessary or deemed advisable, retain outside advisors to assist in the identification of director candidates. A table identifying some of the current skills and experience of the Nominees is set out under the heading *Nominees for Election to the Board – Director Skills Matrix* on page 37.

The Governance Committee also considers director nominees, if any, recommended by the shareholders for election as directors.

Evergreen Process

Each year the Governance Committee reviews the composition of the Board in order to ensure it has the best representation of skills and experience. This information is compiled through the use of a competency/skills matrix that outlines the areas of expertise and experience for each director. The skills matrix currently in use by the Board is provided below under the heading *Director Skills Matrix* on page 37.

In line with CP's needs, the Governance Committee reviews and updates, as applicable, the industries, regions and companies where director candidates meeting the skills required by CP are most likely to be identified.

Term Limits and Retirement Age

The Board believes that the need to have experienced directors who are familiar with the business of CP must be balanced with the need for renewal, fresh perspectives and a healthy skepticism when assessing management and its recommendations. The average age of CP's directors is 59 and the average director tenure at CP is currently two years with directors ranging from less than one year's experience to five years on the Board. In November 2013, the Board approved removing the mandatory retirement age for directors. After considering the director profile at CP, the Board has determined that neither a mandatory retirement age nor term limits are appropriate for the Corporation. Instead, the Board has implemented a more comprehensive assessment process that evaluates the performance, skills and contribution of each director on an annual basis, as well as an ongoing assessment of the outside activities of each director to ensure that each director continues to meet the standards and requirements of the Board. The Board believes that this is the preferable route to Board refreshment.

Majority Voting Policy

In an uncontested election of directors, a director is required to immediately tender his or her resignation if that director receives more withheld votes than for votes. The Governance Committee would be expected to recommend that the Board accept the resignation except in extenuating circumstances and the Board will act upon the recommendation of the Governance Committee within 90 days of the certification of the shareholder vote. A director who has tendered his or her resignation pursuant to the majority voting policy shall not participate in Board or Governance Committee deliberations concerning the resignation. The majority voting policy is set forth in CP's Governance Guidelines, which can be found on the Company's website at www.cpr.ca under Corporate Governance.

DIRECTOR SKILLS MATRIX

The Governance Committee maintains and annually evaluates a matrix which summarizes the skills, experience, qualifications, and competencies identified as important for directors to provide effective oversight of the Corporation. The matrix below shows the areas of experience and expertise that the nominees have indicated that they bring to the Board.

Skills and Qualifications	J.R. Baird	Courville	E.C. Heenan	Wm.R. MacDonell	M.H. Paul	Peverett	Fitt	Reardon	G. T. Trafton II

TOTAL

ORIENTATION AND CONTINUING EDUCATION

Orientation material and educational presentations are delivered to new directors to provide a basis of informed decision-making

Ongoing education on matters of significance and developing issues are provided periodically

Site visits are provided to increase understanding of CP's operations

Orientation

CP has developed a directors' orientation program to provide prospective Board candidates with background on both the Corporation's business and the role of the Board and its committees. Prospective Board candidates are provided with substantial information about CP's operations and the rail industry. Annual Board and Board committee schedules and work plans are also provided to all prospective directors.

New directors are provided with the opportunity to interact with management, particularly in those areas of activity overseen by the committees to which the new director is appointed. They also receive a formal orientation session held at one of CP's operations facilities where a detailed program is provided with respect to railroad operations fundamentals.

Continuing Education

The Board recognizes the importance of ensuring that all directors understand the business of CP and the railway industry to assist in the fulfillment of their duties. The continuing education program is comprised of director site visits, director education sessions, a directors' handbook, as well as procedures in place to ensure that the Board is kept up to date with information related to the fulfillment of directors' duties.

(a) *Director Site Visits* – directors are provided from time to time with site tours of CP facilities, and on occasion, tours of CP customer facilities.

(b) *Director Education Sessions* – directors are regularly provided with education sessions on CP and the railway industry. Management and external advisors make presentations to the Board and committees on topical issues in preparation for key business decisions, during strategic planning meetings and in response to requests from directors. In 2016, these presentations included director education provided to all directors relating to cyber security, rail industry financial metrics and operating terminology and the Audit Committee was provided with a review of depreciation studies.

The Board also receives regular reports and presentations on the regulatory and business environment from senior executives, as well as CP's Investor Fact Book and a daily media scan which covers important news and developments about the Corporation and the railroad industry in general. In addition, CP has a policy of encouraging, supporting and paying for individual Board members' outside director education.

(c) *Directors Handbook* the Corporate Secretary's office prepares and regularly updates a Corporate Handbook for new and existing directors. The Handbook contains, among other items: copies of all Board and Committee terms of reference, the Corporation's charter documents, a corporate organizational chart outlining the Corporation's structure and subsidiaries, current lists of directors and officers, information on directors' and officers' liability insurance, Corporate Governance Principles and Guidelines, Code of Business Ethics, Code of Ethics for CEO and Senior Financial Officers, and position descriptions for the Board chair, chairs of the Board committees and the CEO.

(d) Procedures are in place to provide the Board with timely and efficient access to information necessary to fulfill its duties including:

provision of detailed Board and Board committee meeting schedules and agendas in advance with ongoing review and updates

maintenance of a directors' Intranet site to facilitate ongoing communication of Company and industry developments

provision of comprehensive documentation approximately one week in advance in preparation for Board and Board committee meetings

provision of reports from each Board committee on their work at previous committee meetings

periodic updates from the CEO provided to directors between scheduled meetings

Board Dinner Sessions

The Board meets for dinner the evening of committee meetings prior to regularly scheduled Board meetings. Board dinners function as an opportunity to achieve a number of important governance objectives including meeting in a less formal atmosphere with the President and Chief Executive Officer and other senior officers. This permits the Board to meet high potential employees for succession planning purposes, learn more about the Company's business and strategic direction, and strengthen the collegial working relationship of the Board of Directors.

BOARD ASSESSMENT

The Board has implemented a comprehensive process to annually assess individual directors, Board committees, Committee Chairs, the Board Chair as well as the overall functioning of the Board. The process is under the supervision of the Governance Committee who retains an independent advisor to facilitate the process.

This formal assessment consists of individual director interviews conducted by the Chairman of the Board, as well as interviews with select executive officers and Governance Committee and Board discussions. In 2016, the evaluation process included:

The Chairman of the Board conducted an annual private meeting with each director in order to review and assess the individual performance of each director as well as the performance of the Board as a whole and each of the committees.

Formal discussion between the Chairman of the Board and the Chair of the Governance Committee to review the results of the meetings between directors and the Chairman and to formulate recommendations.

The Governance Committee met to review and discuss the recommendations from the process and recommend specific Board action regarding director, committee and Board performance.

Due to the Board's ongoing monitoring of its performance, recommendations were discussed by the Governance Committee and the Board as a whole with respect to changes required in order to maintain best in class governance and to streamline Board and Committee process. These led to the restructuring of the Board committees to bring oversight of operations, health, safety, security and environmental issues to the Board level.

The Board and Committee Chairs take into consideration the overall results and suggestions derived from the annual performance review in order to improve the functioning of the Board and its committees. The Governance Committee monitors progress on suggestions made as a result of the performance assessment at each meeting.

The evaluation of the Board Chair is led by the Chair of the Governance Committee who contacts every director and conducts confidential one-on-one discussions with each director.

DIRECTORS COMPENSATION

Directors' compensation is aligned with shareholder interests and compensates fairly based on market standards to attract and retain qualified directors

Directors' compensation is comprised entirely of an annual retainer in the form of deferred share units with a one-year post-retirement holding period. Directors who have met their share ownership requirement may elect to take 50% of their retainer in cash

PHILOSOPHY

Canadian Pacific's directors' compensation program shares the same objectives as the Corporation's executive compensation program, namely to attract and retain skilled director talent and to create alignment with shareholder interests.

The compensation elements used to achieve these objectives consist of annual retainers, share ownership requirements and director deferred share units (DDSUs) granted under the Directors' Deferred Share Unit Plan (the DDSU Plan). These elements are described in further detail below.

Mr. Paul Hilal, who resigned as a director on January 26, 2016 and Mr. William Ackman, who resigned as a director of CP on September 6, 2016 each previously elected not to receive any retainer or fees, or any initial, annual or quarterly DDSUs, in connection with his service on the Board or any committees.

Directors who are also employees of CP do not receive any compensation for Board or committee service.

DIRECTORS' 2016 COMPENSATION

The Governance Committee reviews directors' compensation every two to three years after considering the advice of an independent compensation consultant, taking into account such factors as the time commitment required of directors, compensation provided by comparable companies, and responsibilities of directors.

The comparator group used to establish competitive pay practices for directors' compensation is a group of capital-intensive Canadian businesses ranging from one-third to three times the size of CP on an asset basis. The comparator group used during the last completed review in 2014 is set out below, with the Class 1 railroads being used as a secondary reference.

Agrium	Kinross Gold Corp.
Air Canada	Maple Leaf Foods
ATCO Group	Penn West Petroleum Ltd.
Blackberry	Potash Corp Sask Inc.
Bombardier	Rogers Communications
CN	SNC-Lavalin Group

Cenovus Energy
 Encana
 Finning International Inc.

Teck Resources
 Telus
 TransAlta
 Corporation

The Board has a flat fee structure for director compensation, consisting entirely of deferred share units with a one-year post-retirement hold period. The flat fee structure is simpler to administer and disclose, and aligns with the ongoing responsibilities of the Board. Attendance at meetings is an important component of the role of a director; however, CP's Board believes that a flat fee structure better compensates for the directors' continual oversight role and responsibility.

Item or Service	Annual Retainer
Board Chair Retainer	\$ 395,000
Director Retainer	\$ 235,000
Committee Chair Retainer	\$ 30,000

Directors are reimbursed for travel and out-of-pocket expenses related to Board and committee meetings.

Canadian directors are paid in Canadian dollars, with DDSUs being granted based on the trading price of the Shares on the TSX. U.S. directors are paid in U.S. dollars, with DDSUs being granted based on the trading price of the Shares on the NYSE.

40 CANADIAN PACIFIC DIRECTORS' COMPENSATION

Directors Deferred Share Unit Plan

All directors will receive 100% of their annual retainer entirely in the form of DDSUs until they have met the share ownership requirements and at least 50% in DDSUs after that. A DDSU is a bookkeeping entry having the same value as one Share, paid after the director leaves the Board, thereby providing an ongoing equity stake in the Corporation throughout the director's tenure. DDSUs earn dividends in the form of additional DDSUs at the same rate as dividends on Shares. DDSUs are subject to a one year post-retirement holding period. One year after a director leaves the Board, the director will receive a cash amount equal to the value of the DDSUs held by the director, based on the market value of the Shares at that time, minus applicable withholding taxes.

A director who has met the share ownership requirements may elect annually to receive up to 50% of his or her retainer in cash. To participate in this aspect of the DDSU Plan, the director's election must be received prior to the beginning of each calendar year. Only non-employee directors participate in the DDSU Plan.

DIRECTOR SHARE OWNERSHIP REQUIREMENTS

To enhance the alignment of directors' interests with those of shareholders, non-employee directors are required to hold \$1,175,000 in Shares/DDSUs within five years of their initial election or appointment to the Board. The Chairman of the Board is required to hold \$1,975,000 in Shares/DDSUs within five years of the Chair's initial appointment. These amounts represent five times their respective annual retainers. The share ownership requirement may alternatively be satisfied through a direct or indirect interest in Shares.

The following table sets out each incumbent Nominee's equity ownership interest in the Corporation as of December 31, 2016 and 2015, the total value of Shares and DDSUs held, and the amount needed to meet the minimum share ownership requirement.

Andrew F. Reardon

Full biographies of the members of the Audit Committee describing the education and experience relevant to the performance of their duties is provided under Nominees for Election to the Board Director Nominee Profiles.

A member of the Audit Committee may not serve on the audit committees of more than three public companies, unless the Board determines that this simultaneous service would not impair the ability of that individual to effectively serve on the Audit Committee. No member of the Audit Committee serves on more than three public company audit committees.

The Audit Committee has adopted a written policy governing the pre-approval of audit and non-audit services to be provided to CP by its independent auditor. The policy is reviewed by the Audit Committee as necessary to reflect the Company's needs and the audit and non-audit services to be provided to CP by its external auditor, as well as the budgeted amounts for such services, are pre-approved at least annually, including by the Board in respect of fees for audit services. CP's Controller must submit to the Audit Committee at least quarterly a report of all services performed or to be performed by the external auditor pursuant to the policy. Any additional non-audit services to be provided by the external auditor either not included among the pre-approved services or exceeding the budgeted amount for such pre-approved services by more than 10% must be individually pre-approved by the Audit Committee or its Chairman, who must report all such additional pre-approvals to the Audit Committee at its next meeting following the granting thereof. The external auditor's annual audit services engagement terms are subject to the specific pre-approval of the Audit Committee, with the associated fees being subject to approval by the Board. In addition, prior to the granting of any pre-approval, the Audit Committee or its Chairman, as the case may be, must be satisfied that the performance of the services in question will not compromise the independence of the external auditor. Compliance with this policy is monitored by CP's Chief Internal Auditor. In accordance with this policy, the Audit Committee pre-approved all services performed by the Corporation's external auditor.

A copy of the Audit Committee Charter is provided as Schedule A to this Proxy Statement.

EXECUTIVE COMPENSATION SUMMARY

Executive Compensation

CP's executive compensation programs are structured to have a clear focus on pay for performance and to align management's interests with CP's business strategy and shareholder interests. Attracting and retaining high calibre executives is crucial to our long-term success, therefore, our programs are designed to be market competitive with a majority of pay at risk. We believe strong performance should yield significant rewards.

At our 2016 Annual General Meeting, our shareholders voted 50.1% against our non-binding advisory vote on executive compensation (say-on-pay). In light of these results, the Chairman of the Board and the Chair of the Management Resources and Compensation Committee, accompanied by select members of CP management, embarked on a shareholder engagement program that involved in-person meetings with shareholder advocacy groups, two proxy advisory firms and 16 of CP's largest institutional shareholders who collectively represent approximately 30% of the Company's public float.

The agenda for the meetings requested feedback from shareholders and generally included the following additional content:

- an overview of the Company's compensation principles;

- discussion of CP's strategic direction outlining the Company's transition from corporate turnaround to a growth story;

- an overview of the new executive employment contracts and how they would align with the Company's new strategic direction; and

- recent changes to the Board of Directors and executive team.

In some cases management representatives were excused from discussions with institutional shareholders.

As noted in the message from Ms. Isabelle Courville on page 5, the common themes emerging from these discussions included the alignment between pay and long-term performance as our corporate strategy transitions, improved transparency and disclosure on changes to performance metrics, the inclusion of safety and operating metrics as performance measures, as well as concerns related to transition awards for departing executives and the calculation of the CEO's annual bonus relative to corporate performance.

Selected shareholders also provided feedback on Board diversity, sustainability reporting and succession planning which were conveyed back to the Board of Directors.

Taking into consideration the feedback received, the following changes were made to the 2017 compensation plans:

Practice	Change	Rationale
----------	--------	-----------

<i>Long-Term Incentive Plan</i>	Increased the proportion of performance based awards in the long-term incentive plan from 50% to 60% for 2017	Better aligns at-risk pay to long-term corporate performance
<i>Option Grants</i>	Reduced the option term for future grants from 10 years to 7 years	Reduces the dilution horizon
<i>Performance Share Units</i>	Operating ratio was removed as a long-term measure; the weightings for ROIC and TSR were increased	Operating ratio was intended to be a singular metric for the Company to focus on during its turnaround; as the Company matures and enters a new strategic phase, it is appropriate to focus management on longer-term return metrics
<i>Short-Term Incentive Plan</i>	<p>Changed the short-term incentive plan measures and weightings: operating ratio reduced from 50% to 40%, operating income increased from 25% to 40%, free cash flow removed and replaced with safety and operating measures</p> <p>Individual component of the CEO's bonus is capped at the corporate performance factor</p>	<p>With the turnaround largely complete and the Company transitioning towards a growth-based strategy, less emphasis on cost reduction and more emphasis on increased operating income was deemed appropriate. Safety and operating performance had previously been taken into consideration when determining the individual performance rating of the CEO and other executives; providing explicit targets provides more rigour and transparency to the determination</p>

Practice	Change	Rationale
<i>Executive Perquisites</i>	The incoming CEO will no longer receive tax equalization. Aircraft usage restricted to corporate travel and family visitation within North America	Better aligns corporate needs with common market practices. Mr. Creel is required to regularly travel by air for executive and operational meetings; for safety, security, immediate availability and efficiency purposes, the Company prefers he travels using the corporate aircraft. As an executive of a Calgary-based company, enabling him to visit his family situated in the Eastern and Southern United States is an important retention tool

50 CANADIAN PACIFIC EXECUTIVE COMPENSATION SUMMARY

COMPENSATION DISCUSSION AND ANALYSIS

OUR APPROACH TO EXECUTIVE COMPENSATION

CP's executive compensation program is closely linked to the crucial metrics that drive the achievement of our strategic plan and create shareholder value. We have created a railroad-focused culture with compensation plans designed to align management compensation with shareholder interests. The Compensation Committee believes that the Company's compensation philosophy enables CP to reward behaviour that drives short- and long-term business performance and effectively manages risk. For more information on the Compensation Committee, please refer to the Report of the Management Resources and Compensation Committee on page 48 and the Compensation Governance section on page 68.

Our executive compensation program is weighted towards pay-for-performance components that are integrated into a comprehensive executive compensation program. A significant proportion of pay is at risk, meaning, if the Company performs well, executives earn more and when performance is not as strong, pay is less. Compensation is aligned with shareholders' interests through having a significant portion tied to equity value.

The chart below illustrates the pay mix for our NEOs, with the exception of our former CFO, based on their target total compensation.

2016 Percent of Total Target Direct Compensation

Benchmarking Compensation

In determining compensation for the NEOs and other executive officers, the Compensation Committee considers a peer comparator group of the following Class 1 railroads: BNSF Railway, CN, CSX Corporation, Kansas City Southern Railroad, Norfolk Southern Corporation and Union Pacific Corporation. The Company benchmarks each component of compensation for the NEOs against those for employees in similar positions at these railroads.

This comparator group reflects CP's need to attract and retain experienced railroad executives with highly specialized skills by ensuring that we offer compensation programs that are competitive with those offered by competing North American railroads.

Throughout the annual executive compensation review process, depicted below, the Compensation Committee receives advice from its independent compensation consultant, Meridian Compensation Partners LLC.

For the incentive plans, the Compensation Committee aligns performance goals directly with CP's strategic plan, which is reviewed and approved by the Board. In setting STIP targets for the upcoming year, CP generally excludes items that are outside the normal business of the Company and can impact the comparability of CP's year-over-year financial performance. The Compensation Committee also considers safety as part of its overall assessment of performance; safety is treated as an integral part of each employee's responsibility in addition to forming part of the operations teams' individual objectives. Effective with the 2017 plan year, CP has added a specific safety metric to the corporate component of the STIP.

In determining the performance level achieved under the STIP, the Compensation Committee may decrease payouts even if CP achieves its financial and operational objectives, where safety and minimization of environmental impact have not been achieved. In addition, the Compensation Committee may, at its discretion, make adjustments to the Company's reported results (for purposes of calculating payouts under the STIP) to reflect unusual items.

52 CANADIAN PACIFIC COMPENSATION DISCUSSION AND ANALYSIS

Compensation Program

CP's total compensation consists of three main elements: base salary, annual incentives and long-term incentives (PSUs and Options). CP also provides the NEOs with a standard pension benefit plan as well as a modest perquisites plan. The following table summarizes the various elements of CP's executive compensation program:

Compensation Element	Description and Purpose	Risk-Mitigating Elements	Link to Business and Talent Strategies	
Base Salary	Fixed pay with individual salary recommendations based on competitive assessment and economic outlook, leadership, retention, and succession considerations.	Provides an adequate fixed component of pay to ensure access to talented employees and is set taking into account external advisor and peer group analysis.	Competitive base salaries help attract and retain highly qualified leaders: benchmarking against the comparator group ensures that base pay is competitive.	page 56
Cash	Reviewed annually and adjusted when appropriate.		Increases are not automatic or guaranteed, to promote a performance culture.	
Short-Term Incentive Plan	Target awards are based on the executive's level in the organization and are benchmarked to the 50th percentile of the comparator group; actual payouts are based on achievement of pre-determined corporate and individual objectives.	Multiple performance metrics used with plan targets reviewed and approved annually based on detailed review of strategic plan. Payouts are capped with no guaranteed minimum payout.	Attract and retain highly qualified leaders through an opportunity to earn a market-competitive level of cash incentives, based on annual performance. Cash	One-year performance period.		Alignment of personal objectives with area of responsibility and role in realizing operating results. Corporate measures remained the same in 2016 as the achievement of certain goals for operating ratio, operating income and free cash flow directly align with achievement of CP's financial strategy.

Target Compensation Mix

CP's compensation philosophy is designed so that the portion of total compensation at risk increases by level in the organization. Incentive compensation is more focused on corporate results for executives (75% of target) than for lower-level employees (50% of target), for whom there is a higher emphasis on individual and departmental goals. This design reflects CP's view that short-term incentives should be tied to both overall corporate performance as well as those areas of its business that each employee influences directly.

The Compensation Committee strives to strike a balance between short-, medium- and long-term compensation. The mix of fixed and variable compensation is designed to align NEOs' financial incentives with shareholder interests. The following chart shows our different compensation components for 2016 and the timeline for receipt.

Short-Term Incentive Plan (STIP)

This plan provides an opportunity for employees to earn an annual cash award based on the achievement of corporate targets and specific individual performance objectives. Employees are required to set individual performance objectives annually, and the individual component of the STIP is based on achievement of these and other pre-determined goals set prior to the performance year, which reflect the strategic and operational priorities critical to each executive's function. Each goal has a minimum, target, and maximum standard achievement. An employee's payout on the individual component of the STIP may be zero or range from 50% to 200%. Any award payable under the individual component is subject to a minimum level of corporate performance, which is set annually by the Board. No award under the STIP is paid unless this minimum corporate hurdle is achieved. The Compensation Committee also considers safety as part of its overall assessment of performance; safety is treated as an integral part of each employee's responsibility in addition to forming part of the operations teams' individual objectives. Minimum, target, and maximum payouts, expressed as a percentage of base salary are established for the NEOs as follows:

	Minimum Payout	Target Payout as	Maximum Payout
	as Percentage of	Percentage of	as Percentage of
Level	Base Salary (%)	Base Salary (%)	Base Salary (%)
CEO	75	150	300
Other NEOs	30 50	60 100	120 200

Payouts under the STIP are a sum of the corporate and individual components calculated as follows:

$$\begin{array}{rcccl}
 & & \text{Target Attributable} & & \text{CP Performance} \\
 & & \text{to CP} & \times & \text{Factor} & = \\
 X & & & & & \\
 & & \text{Performance} & & \text{(0\% - 200\%)} & \\
 & & \text{(\% of salary)} & & & \\
 & & & & & \\
 & & & & & \text{Total STIP} \\
 \text{Salary} & & & & & \text{Award}
 \end{array}$$

$$\begin{array}{rcccl}
 & & \text{Target Attributable} & & \text{Individual} \\
 & & \text{to} & \times & \text{Performance} \\
 X & & \text{Individual} & & \text{Factor} & = \\
 & & \text{Performance} & & \text{(0\% - 200\%)} & \\
 & & \text{(\% of salary)} & & &
 \end{array}$$

The Board has discretion to adjust targets and payouts under the STIP. Adjustments, whether positive or negative, are reviewed on an individual basis, using guidelines adopted by the Compensation Committee. The Compensation Committee may also approve a downward adjustment on the corporate component of the STIP for any executive officer.

To determine NEO payouts under the STIP, the Compensation Committee, in addition to assessing corporate performance, directly assesses the individual performance of the CEO and considers the CEO's assessment of the individual performance of the NEOs. The CEO evaluates individual NEO performance against quantitative and qualitative financial, operational and strategic assessments of pre-defined performance objectives including management, safety, financial and other objectives. The actual annual incentive payouts for each NEO in 2016 are provided in the Summary Compensation Table on page 72.

Long-Term Incentive Plan (LTIP)

In 2016, with the exception of the CEO, long-term incentive grants to NEOs consisted of 50% PSUs and 50% Options. To determine the appropriate value of long-term incentive grants provided to NEOs, the Board and the Compensation Committee consider our comparator groups' practices and external market data together with internal factors including executive retention, dilution impact, long-term value-creation and executive stock ownership.

The granting of PSUs and Options to NEOs is annually reviewed and approved at a meeting of the Board on the recommendation of the Compensation Committee. The annual broad-based long-term incentive awards are granted at approximately the same time each year following the release of year-end financial information. Any off-cycle grants are made the first Tuesday of the month following approval unless the Company is in a blackout period in which case the grant would be made after the blackout has been lifted. No equity grants are awarded when the Company

possesses material non-public information.

The Compensation Committee does not take into account previous executive grants when setting individual awards, as long-term plans are contingent on future performance. At the CEO's recommendation, the Board may eliminate or adjust an executive's actual grant (but may not increase a grant more than 25% above an executive's target). In determining adjustments, the Compensation Committee considers, among other factors, the competitive positioning of each individual's compensation.

The objective of PSU grants is to focus executives on medium-term goals within a three-year performance period. Performance measures, thresholds and targets are set by the Board at the beginning of each performance period. Performance measures are assessed independently. If threshold measures are not met for a given performance period, no award is payable in respect of PSUs for that period. If performance is exceptional, a PSU payout of up to a maximum of 200% may be approved by the Board.

PSUs vest after three years dependent on the level of performance achieved, and upon vesting the executive is paid out in cash or, at the CEO's recommendation, in Shares using an after-tax value, based on the number of units that are earned and the average closing Share price for the 30 trading days prior to the end of the performance period on the TSX or NYSE, as applicable. If performance targets are not achieved at the end of the three-year period, PSUs are forfeited for no consideration. The Board may exercise discretion to adjust payouts. PSUs are credited with dividend equivalents which are reinvested into additional PSUs, and which vest at the same time and are based on the achievement of the same performance conditions as the PSUs.

Options are granted to provide a long-term incentive to NEOs to create enduring long-term shareholder value. If our Share price increases between the grant date and the vesting date, Options are in-the money and provide value to the Option holder once the Options are exercised.

2016 COMPENSATION AND PERFORMANCE

Base Salary

The Compensation Committee reviews the base salaries of NEOs on an annual basis. The Compensation Committee considers each individual's leadership abilities, performance, responsibilities and experience as well as median comparator group practices, succession and retention considerations and economic outlook.

The following changes to base pay for the NEOs occurred during 2016:

No change was made to Mr. Harrison's salary

Mr. Creel received an increase of 2.7% on January 1, 2016 as a result of changes to his existing employment agreement during 2015, and an annual increase of 2% on April 1, 2016

Mr. Velani received an aggregate increase of 69% in 2016, including a 33% increase when he was appointed Interim CFO and a further increase of 10% on October 18th, 2016 when he was appointed CFO

Mr. Johnson received an annual increase of 3.5% on April 1, 2016

Mr. Pitz received an annual increase of 3% on April 1, 2016 and a further increase of 6% effective October 18, 2016

The Committee reviewed the NEO salaries for 2017 and approved the following increases:

Mr. Velani received an 11% increase effective February 14, 2017

Mr. Creel's salary was increased by 17.6% upon becoming CEO on January 31, 2017

2016 Short-Term Incentive Plan Results

The 2016 STIP was based on three metrics: Operating Income, Operating Ratio and Free Cash Flow. These measures were chosen because they support CP's strategic plan and are linked to the creation of long-term shareholder value.

In 2016, corporate performance was assessed against measures approved by the Board in December of 2015 as follows:

Company Measure	Performance Range			
	Weight	Threshold	Target	Exceptional
	50%	61%	59.5%	58%

Operating Ratio	Operating expenses divided by total revenues based on assumed fuel price and foreign exchange (FX)				
Operating Income (\$M)	Total revenues less operating expenses based on an assumed FX	25%	2,618	2,719	2,819
Free Cash Flow (\$M)	Cash provided by operating activities less cash used in investing activities as shown on the Consolidated Statement of Cash-Flows	25%	774	874	975

Target levels for the 2016 STIP were designed to drive significant improvements over actual results achieved in 2015 and align with CP's strategic plan. In assessing targets, the Compensation Committee considered, among other things, the results achieved on these metrics (both in whole amount and in pace of improvement) by other Class 1 railroads during similar transformational periods. This ensured that our targets not only require achievement of significant improvement year over year, but reflect a very high level of improvement relative to the performance that other Class 1 railroads have been able to achieve.

For 2016, Free Cash Flow targets were set lower than 2015 achievement levels to reflect significant asset sales in 2015 that were not expected to be repeated, and the expectation of a significant increase in cash tax payments in 2016 as a result of CP becoming fully cash taxable in Canada.

The following table shows the 2016 corporate performance objectives and results achieved (with 2015 results for comparison):

Measure	2015			2016			STIP Performance	
	Target	STIP Results	Threshold	Target	Exceptional Target	Reported Results	Results	Assessment
Operating Ratio	64.5%	64.25%	61%	59.5%	58.0%	58.6%	58.2%	above target
Operating Income	\$ 2,440 M	\$ 2,318 M	\$ 2,618 M	\$ 2,719 M	\$ 2,819 M	\$ 2,578 M	\$ 2,694 M	below target
Free Cash Flow	\$ 660 M	\$ 1,059 M	\$ 774 M	\$ 874 M	\$ 975 M	\$ 1,007 M	\$ 1,021 M	exceptional

Free Cash Flow is a Non-GAAP measure, for a full description and reconciliation see CP's Form 10-K at www.cpr.ca

STIP targets are set using certain FX and fuel assumptions. Consistent with the definitions provided above, results are adjusted to reflect changes to those assumptions in order to accurately measure the true operating performance of the business. Additionally, STIP results may be adjusted to reflect non-recurring items that would not accurately reflect the ongoing operating results or business trends of CP. Therefore, STIP results may differ from CP's reported GAAP results.

Based on the results above the payout would have been above target on Operating Ratio (187%), below target on Operating Income (88%) and exceptional on Free Cash Flow (200%). The resulting overall corporate performance factor, based on the weighting of the components, would have been 165%. Taking into consideration broader corporate performance in particular, softer-than-expected revenue and earnings growth the Board, on the recommendation of the Compensation Committee, exercised their discretion to lower the payment to 150%.

2017 Short-Term Incentive Plan

The metrics and weightings for 2017 have been adjusted to reflect the Company's shift in focus to growing revenue in a cost effective manner; the weighting for Operating Income has been increased and the weighting for Operating Ratio reduced. Safety and operating measures have been added to create a more balanced scorecard. In addition, although the payout for the individual component may range from 0% to 200% of target, effective in 2017, the CEO's payout on the individual component may not exceed the corporate performance payout level achieved. Following is a description of the metrics and weighting approved for the 2017 STIP:

Performance Measure	Definition	2017 Weighting
Operating Ratio	Total operating expenses divided by total revenues based on an assumed FX.	40%
Operating Income	Total revenues less total operating expenses based on an assumed FX.	40%
Safety Measure (NEW)	FRA Train Accident Frequency is defined as train accidents per million train miles.	10%
Operating Measure (NEW)	Train Speed measures the movement of trains from origin to destination including all time between departure origin and arrival destination. Excludes: bulk trains, local trains, passenger trains, and trains used for repairing track. Hours of delay caused by customer and foreign railroad issues are removed from the transit time. For all mainline trains, total train hours (excluding foreign railway and customer delays), divided by total train miles.	10%

2016 Long-Term Incentive Grants

Options were granted on January 22, 2016 to all NEOs. PSUs were granted on February 23, 2016 to all NEOs with the exception of the CEO who received a smaller cash bonus in lieu of a PSU grant.

Further information on CP's long-term incentive plan can be found on page 55. Options under the LTIP are granted to NEOs pursuant to the Management Stock Option Incentive Plan (MSOIP), which is described in detail on page 79. In 2016, Options had a ten-year term, and will vest over four years at a rate of 25% on each anniversary of the grant date. The exercise price was \$165.74 for Options granted in respect of Shares listed on the TSX and US\$116.80 for Options granted in respect of Shares listed on the NYSE. The grant date fair value, determined in accordance with FASB ASC Topic 718, of the Options awarded to NEOs is included in the Summary Compensation Table on page 72, in the Option Awards column.

PSUs under the LTIP are granted to NEOs and other executives pursuant to our PSU Plan. The PSUs granted in 2016 are subject to a three-year performance period beginning on January 1, 2016, and ending on December 31, 2018.

The Board approved 2016 PSU grants on February 23, 2016 with four performance measures: OR, ROIC, Total Shareholder Return (TSR) against the S&P/TSX 60 and the TSR against Class 1 railroads. PSUs vest contingent on performance against these four measures as summarized in the table below:

Measure		Weight	Performance Range	Rationale
2018 Operating Ratio	Total operating expenses divided by total revenues	60%	61% to 58%	OR was chosen as a metric because it is a rigorous quantifiable measure of cost-efficient growth and is fundamental to achieving the Corporation's strategic plan. Based on CP's significant reduction in OR the Compensation Committee has determined that beginning in 2017, the OR metric will apply only to awards under the short-term incentive plan.
2016 to 2018 average ROIC	Net operating profit after tax divided by average invested capital	20%	14% to 15.5%	Return On Invested Capital was chosen to measure profitable returns on our invested capital and is strongly linked to shareholder value. In 2017 the weighting of ROIC will increase to 60%.
Total Shareholder Return (Measured over 3 years)	Compound average growth rate (CAGR) relative to S&P/TSX 60 Index	10%	0% to 5% above the index	TSR was chosen as a performance measure to align long-term incentive compensation with long-term shareholder interests by rewarding performance above the performance in our two key comparative markets for investors.
	Ranking relative to Class 1 railroads	10%	fourth-first	TSR is calculated as the increase in the value of CP's Shares listed on the TSX from the beginning of the performance period to the end of the performance period (including the reinvestment of dividends paid). In 2017, CP will measure TSR relative to the S&P/TSX Capped Industrial Index and S&P 1500 Road & Rail Index. The weighting will increase to 20% each.

For a full description and reconciliation of Non-GAAP measures see CP's Form 10-K at www.cpr.ca

In assessing the PSU targets, the Compensation Committee considers CP's historical performance long-term strategic objectives and performance achieved on these metrics by investors in other Class 1 railroads. The Compensation Committee determined that our targets require significant and sustained improvement, reflect a very high level of improvement relative to the performance that the other Class 1 railroads have been able to achieve and, if achieved, should provide a significant increase in value to long-term shareholders.

The grant date fair value, in accordance with FASB ASC Topic 718, of the PSUs awarded to NEOs is included in the Summary Compensation Table on page 72, under the Stock Awards column.

Payout of 2014 PSU Grant

For the three-year performance period ending December 31, 2016, there were four performance measures applicable to PSU grants: Operating Ratio, Free Cash Flow, Total Shareholder Return CAGR relative to the S&P/TSX 60 Index and TSR CAGR relative to Class 1 railroads. The Company's overall performance was above target, at a payout of 118% as outlined in the following table:

Performance Metric	Operating Ratio	Free Cash (\$M)	TSR CAGR	TSR CAGR
			relative to Index	relative to Class 1 RR
Measure Weighting	40%	40%	10%	10%
Threshold	65%	790	0%	fourth
Target 100%	63%	961	1%	third
Exceptional 200%	61.8%	1,132	5%	first
Result	58.6%	942	0.27%	fifth
Payout Level Achieved	200%	94%	0%	0%

The number of PSUs vested and their value for each NEO is included in the Option Exercise & Stock Vested table on page 79.

2017 LTIP Grant

As referenced in the message from the Chair of the Management Resources and Compensation Committee on page 6, based on input from our shareholders, changes have been made to our 2017 long-term incentives as follows:

the weighting for PSUs has increased to 60% and the weighting of Options to 40%. Previously the split was 50%/50%

The term for options was reduced to seven years from ten years

The weighting for return on invested capital has increased to 60% from 20% and final year operating ratio has been removed as a measure for PSUs to better reflect CP's transition to a growth strategy and in response to shareholder feedback

The comparator indexes for the relative TSR metric have changed to S&P/TSX Capped Industrial Index and S&P 1500 Road and Rail index. The S&P/TSX Capped Industrial Index provides a broader performance comparison than the S&P/TSX 60 which was previously used. The S&P Road and Rail Index is a larger transportation comparator group than the Class 1 railroads, which provides less volatility and represents our broader business competitors in the U.S.

The weighting for relative TSR has increased from 20% to 40%

On January 20, 2017, under the LTIP, Options were granted to NEOs with the exception of the CEO. The exercise price was \$201.49 for Options granted in respect of Shares listed on the TSX and US\$150.99 in respect of Shares listed on the NYSE.

On February 21, 2017 the Board approved a PSU grant with a performance period beginning January 1, 2017, and ending December 31, 2019. The grant has three performance measures, as detailed below:

Measure		Weight
2017 to 2019 average ROIC	Net operating profit after tax divided by average invested capital	60%
Total Shareholder Return (Measured over 3 years)	The percentile ranking of CP's compound average growth rate (CAGR) relative to the constituents in the S&P/TSX Capped Industrial Index	20%
Total Shareholder Return (Measured over 3 years)	The percentile ranking of CP's CAGR relative to the constituents in the S&P 1500 Road and Rail Index	20%

PERFORMANCE GRAPHS

Historically CP's total shareholder return performance has tracked the S&P/TSX Composite Index, however, in late 2011, CP's performance began to diverge from the Index. This divergence has magnified under the leadership of our former Chief Executive Officer, E. Hunter Harrison, who joined us in 2012.

Assuming the initial \$100 investment was made on the last trading day in 2011 and the reinvestment of dividends are to the end of the period, the following performance graph illustrates the cumulative total shareholder return in CP's common Shares on both the TSX and the NYSE compared with the cumulative total return of the S&P/TSX Composite and the S&P 500 indices from the last trading day in 2011 to December 31, 2016.

	2011	2012	2013	2014	2015	2016
CP TSR (C\$)	100.00	147.98	238.19	334.24	265.73	290.69
S&P/TSX Composite Index (C\$)	100.00	107.19	121.11	133.90	122.76	148.64
CP TSR (US\$)	100.00	151.96	228.77	293.53	195.68	220.98

60 CANADIAN PACIFIC COMPENSATION DISCUSSION AND ANALYSIS

Assuming the initial \$100 investment was made on the last trading day in 2012 and the reinvestment of dividends are to the end of the period, the following performance graph illustrates the cumulative total shareholder return in CP's common Shares on the TSX compared with the cumulative total shareholder return of the Class 1 railroads from December 31, 2012 to December 31, 2016.

Performance of CP TSR vs. Class 1 Railroads

	2011	2012	2013	2014	2015	2016
CP (C\$)	100.00	147.98	238.19	334.24	265.73	290.69
CN (C\$)	100.00	114.69	156.27	209.37	205.68	244.65
NS	100.00	87.38	134.57	162.40	128.65	168.80
UP	100.00	120.53	164.28	237.40	160.28	217.79
CSX	100.00	96.04	143.29	184.14	134.94	191.52
KCS	100.00	124.02	185.06	184.10	114.08	131.75

The following graph illustrates the relationship between shareholder value and Total Direct Compensation (TDC) for the NEOs. TDC is defined as a NEO 's Total Compensation amount less the Change in Pension Value and Nonqualified Deferred Compensation Earnings amount, each as reported in the Summary Compensation Table. The Total Shareholder Return is defined as the return on an initial \$100 investment in CP 's common Shares (assuming the reinvestment of dividends are to the end of the period) made on December 31, 2011, to December 31 of each year from 2012 to 2016.

The NEO Total Direct Compensation, when compared with the trend in Total Shareholder Return from the period shows a close correlation between compensation earned by NEOs and shareholder return.

CP Total Shareholder Return vs. Total Direct Compensation

	2012	2013	2014	2015	2016
TDC (\$ thousands)	59,780	44,049	35,080	35,845	32,162
CP TSR (C\$)	147.98	238.19	334.24	265.73	290.69
Actual TDC (\$ thousands) after resignations	24,779	39,619	30,126	21,095	27,162

In years where there were more than five NEOs, the following guidelines were used:

In 2016, NEOs for the purpose of calculating TDC were Messrs. Harrison, Velani, Creel, Johnson and Pitz.

In 2015, NEOs for the purpose of calculating TDC were Messrs. Harrison, Erceg, Creel, Pitz and Wallace.

In 2014, NEOs for the purpose of calculating TDC were Messrs. Harrison, Demosky, Creel, Johnson and Marquis.

In 2013, NEOs for the purpose of calculating TDC were Messrs. Harrison, Creel, Grassby and Guthrie and Ms. O Hagan.

In 2012, NEOs for the purpose of calculating TDC were Messrs. Harrison, Grassby, Guthrie and Edwards and Ms. O Hagan. Mr. Harrison 's cash compensation was annualized.

Messrs. Harrison, Creel, Johnson, and Pitz are paid in U.S. dollars, amounts reported have been converted using the following average exchange rate of \$1.3248 for 2016, \$1.2787 for 2015, \$1.1045 for 2014, \$1.0299 for 2013 and \$0.9996 for 2012. Actual TDC after resignations reflects the amounts previously reported in the Summary Compensation table that were forfeited upon departure from the Company for Messrs. Harrison, Erceg, and Demosky.

NAMED EXECUTIVE OFFICER COMPENSATION FOR 2016

KEITH E. CREEL PRESIDENT AND CHIEF OPERATING OFFICER

Mr. Creel was appointed as the President and Chief Executive Officer on January 31, 2017. During the financial year ended December 31, 2016, Mr. Creel was CP's President and Chief Operating Officer (COO). In that role, Mr. Creel provided strategic leadership and drove superior customer service and operational excellence across the organization. Mr. Creel was responsible for CP's operations and sales and marketing teams.

Prior to joining Canadian Pacific, Mr. Creel had a very successful operating career which began at Burlington Northern as a management trainee in operations and eventually led to his becoming the EVP and COO at CN in 2010.

Mr. Creel obtained a Bachelor of Science in marketing from Jacksonville State University and has completed the Advanced Management Program at the Harvard Business School. He served as a commissioned officer in the U.S. Army during which time he served in the Persian Gulf War.

As part of CP's long-term succession plan, in June 2016, CP entered into an agreement with Mr. Creel concerning the terms of his employment upon becoming President and CEO.

Upon appointment to President and CEO, Mr. Creel's target total cash compensation (base salary plus target short-term incentive award) will be positioned at the 50th percentile of similar positions at the Class 1 railroads. As a retention measure, he received an initial grant of 177,255 performance-vested Options upon appointment that vest no earlier than five years from the date of grant. The number of such options that vest depends on CP's total shareholder return performance relative to two key indices. In connection with the upfront grant, his subsequent annual LTIP awards will be reduced for five years to ensure that the total value of LTIP received over the five year time period including the retention grant, is targeted at the 50th percentile of similar positions at the Class 1 railroads.

Mr. Creel's access to the corporate aircraft for personal use is now limited to business commuting and family visits in North America. He will not be eligible for tax equalization payments. Mr. Creel will continue to be provided reasonable accommodation in the city of Calgary.

Mr. Creel's employment agreement includes non-competition and non-solicitation restrictions.

For 2016, Mr. Creel's performance was assessed against individual performance objectives, which included improvements in service performance and operating efficiency. Safety and environmental principles, which are fundamental to how the Company operates, were taken into consideration during the assessment. Mr. Creel was assessed as exceeding on his overall individual performance objectives. Based on these individual objectives and the Company's financial performance, Mr. Creel received a 2016 annual bonus in the amount of \$1,900,765 calculated as follows:

	Salary	STIP	Target Award Level	Component	Rating/Results	Bonus
Corporate:	\$ 1,267,176	x	100%	x 75%	x 150%	= \$ 1,425,573
Individual:	\$ 1,267,176	x	100%	x 25%	x 150%	= \$ 475,192
Total:						\$ 1,900,765

Following is a summary of the Total Direct Compensation received:

Actual 2016 Pay Mix

Compensation (\$ 000)	2016	2015	2014

Total Direct Compensation:	7,697	6,855	8,909
Total Target Direct Compensation:	6,336	5,836	4,870

Base salary is actual amount received in the applicable year. Payments made in U.S. dollars have been converted for each year to Canadian dollars using an average exchange rate of \$1.3248 for 2016, \$1.2787 for 2015 and \$1.1045 for 2014. The 2014 MSOIP value includes a performance Option grant that was awarded in July 2014.

Ownership Target Multiple of Salary	Minimum Ownership Value	Total Ownership Level (Multiple of Salary)	Total Ownership

Ownership is valued at December 30, 2016. U.S. values have been converted using a year-end exchange rate of \$1.3427.

NADEEM S. VELANI VICE-PRESIDENT AND CHIEF FINANCIAL OFFICER

Mr. Velani was appointed Interim Vice-President and Chief Financial Officer on September 9, 2016 and was appointed on October 18, 2016 as Vice-President and Chief Financial Officer. Mr. Velani is a key member of the senior management team responsible for the long-term strategic direction of the Company. Other responsibilities include financial planning, reporting and accounting systems, as well as pension, treasury and tax functions. In addition, Mr. Velani continues to be responsible for Investor Relations.

Mr. Velani joined CP in March 2013 and most recently served as Vice-President Investor Relations. Prior to CP, Mr. Velani spent approximately 15 years at CN where he worked in a variety of positions in financial planning, sales and marketing, investor relations and the Office of the President and CEO.

In 2016, Mr. Velani's performance was assessed by the CEO against individual performance objectives, which included developing a culture and organizational structure in finance better aligned to support an operations-focused Company, building a strong team of financial leaders, and improving the financial planning, budgeting and forecasting process.

All aspects of these functions were taken into consideration during the assessment.

Mr. Velani was assessed as having exceeded his overall individual performance objectives. Based on these individual objectives and the Company's financial performance, Mr. Velani received a 2016 bonus in the amount of \$373,500 calculated as follows:

	Salary	STIP	Target	Award Level	Component	Rating/Results	Bonus
Corporate:	415,000	x	60%	x	75%	x	= \$ 280,125
Individual:	415,000	x	60%	x	25%	x	= \$ 93,375
Total:							\$ 373,500

64 CANADIAN PACIFIC NAMED EXECUTIVE OFFICER COMPENSATION

ROBERT A. JOHNSON EXECUTIVE VICE-PRESIDENT, OPERATIONS

Mr. Johnson was appointed as Executive Vice-President, Operations in April of 2016. In this role, Robert has overall operational responsibility for CP's rail network, including aspects of operational safety, service, engineering and mechanical services in both Canada and the U.S. with a focus on train performance and overall fluidity of the network.

Prior to this appointment, Robert was CP's Senior Vice-President Operations, Southern Region.

Mr. Johnson's railroad career spans 32 years with BNSF where he held successively more responsible roles in operations, transportation, engineering, and service excellence. His most recent position at BNSF was General Manager, Northwest Division, overseeing day-to-day operations for that region.

Mr. Johnson was assessed as having exceeded his overall individual performance objectives, which included safety, service, cost control, optimizing assets and people development. Based on these individual objectives and the Company's financial performance, Mr. Johnson received a 2016 bonus in the amount of \$648,324 calculated as follows:

	Salary	STIP	Target	Award Level	Component	Rating/Results	Bonus
Corporate:	\$ 576,288	x	75%	x	75%	x	= \$ 486,243

LAIRD J. PITZ VICE-PRESIDENT AND CHIEF RISK OFFICER

Mr. Pitz was appointed Vice-President and Chief Risk Officer in October of 2014. He is responsible for all aspects of risk-management in Canada and the U.S., including police services, casualty and general claims, environmental risk, field safety and systems, operational regulatory affairs and training, disability management and forensic audit investigations. Mr. Pitz joined CP on April 2, 2014, as Vice-President of Security and Risk Management.

Mr. Pitz, a Vietnam War veteran and former FBI special agent, is a 40-year career professional who has directed strategic and operational risk-mitigation, security and crisis-management functions for companies operating in a wide range of fields including defence, logistics, and transportation.

In 2016, Mr. Pitz's performance was assessed by the CEO against individual performance objectives, which included mitigating risks in Safety, Environmental, Risk Management, Police, Casualty Management, Regulatory/Operating Practices, Forensic Audit, and Disability Management for the Company. Safety, environmental and risk-management principles, which are fundamental to how the Company operates, were taken into consideration during the assessment. Mr. Pitz was assessed as having exceeded his overall individual performance objectives. Based on these individual objectives and the Company's financial performance, Mr. Pitz received a 2016 annual bonus in the amount of \$417,312 calculated as follows:

E. HUNTER HARRISON CHIEF EXECUTIVE OFFICER AS AT DECEMBER 31, 2016

Mr. Harrison was appointed Chief Executive Officer (CEO) on June 28, 2012. As CEO, Mr. Harrison was responsible for leading CP to achieve operational and strategic goals that will build long-term shareholder value.

Mr. Harrison resigned from CP effective January 31, 2017. As part of a separation agreement, Mr. Harrison forfeited all of his outstanding equity awards with the exception of 215,348 Options from an initial grant he received in 2012. These Options were exercised on February 14, 2017. Mr. Harrison's annual bonus for 2016 was also agreed to be paid at 100% of the corporate amount which the Board approved at 150%. As a result of Mr. Harrison's resignation, he forfeited \$122.9 million dollars of compensation. For further information please refer to the message from the Chair of the Management Resources and Compensation Committee on page 5.

Mr. Harrison's total target compensation value considering his forfeitures from June 29, 2012 to January 31, 2017 was 0.35% of the total additional value created for shareholders over the same period (\$16,009,943,247).

MARK J. ERCEG FORMER EXECUTIVE VICE-PRESIDENT AND CHIEF FINANCIAL OFFICER

Mr. Erceg was appointed Executive Vice-President and Chief Financial Officer on May 18, 2015. On September 23, 2016 Mr. Erceg resigned from CP to pursue other opportunities.

Mr. Erceg was provided with certain payments in the form of cash, Options, PSUs and DSUs as Executive Vice-President and CFO. As a result of Mr. Erceg's resignation, the following equity awards reported in the Summary Compensation Table on page 72 for the indicated years were forfeited:

Year	Forfeited Stock Awards	Forfeited Options
2015	\$ 1,965,587	\$ 1,658,189
2016	\$ 1,419,151	\$ 1,052,731
	\$ 3,384,738	\$ 2,710,920

In addition, per the terms of Mr. Erceg's offer of employment, Mr. Erceg repaid the US\$750,000 cash payment that he received upon hire.

In accordance with our Short-Term Incentive Plan, Mr. Erceg resigned and therefore forfeited any potential 2016 annual bonus.

NAMED EXECUTIVE OFFICER COMPENSATION **2017 MANAGEMENT PROXY STATEMENT 67**

COMPENSATION GOVERNANCE

The Compensation Committee is fully independent and has no interlocks
The Compensation Committee and management retain separate independent compensation advisors
CP has adopted Say-on-Pay
CP has policies in place prohibiting hedging and pledging of CP securities

Compensation Committee Interlocks and Insider Participation

The Compensation Committee has no interlocks or insider participation. The members of the Compensation Committee during fiscal 2016 were, Isabelle Courville (Chair), Hon. John Baird PC, Rebecca MacDonald, and Andrew Reardon. None of these members have ever been employed by Canadian Pacific, and no members had any relationship with CP during 2016 requiring disclosure as a transaction with a related person, promoter, or control person under Item 404 or Regulation S-K or under the Compensation Committee Interlocks disclosure requirements of Item 407(e)(4) of Regulation S-K.

Composition of the Compensation Committee

In 2016, the Compensation Committee consisted of four independent directors.

Each member of the Compensation Committee has education, skills and experience that are relevant to the performance of their responsibilities as a member of the Compensation Committee. The following skills and experience enable the Compensation Committee members to make decisions on the suitability of CP's compensation policies and practices:

- Ø Isabelle Courville (Chair) is Chair of the Board of the Laurentian Bank of Canada. From 2007 to 2013, Ms. Courville was President of Hydro-Québec Distribution and Hydro-Québec TransÉnergie. Ms. Courville was active for 20 years in the Canadian telecommunications industry. She served as President of Bell Canada's Enterprise Group and as President and Chief Executive Officer of Bell Nordiq Group.

The Compensation Committee benefits from Ms. Courville's experience in managing large companies, including the design and planning of executive compensation.

- Ø John Baird most recently served as a Member of Parliament of Canada until his resignation on March 16, 2015. Prior to being elected as a MP, Mr. Baird was a Member of the Legislative Assembly of Ontario, during which time he served in a number of capacities including Minister of Community and Social Services, Minister Responsible for Children, Minister of Francophone Affairs, Deputy House Leader, Chief Government Whip, Minister of Energy and Government House Leader.

Mr. Baird's extensive experience at senior levels in the government includes having managed numerous federal government ministries and planning and structuring of senior level compensation.

- Ø Rebecca MacDonald is founder and current Executive Chair of Just Energy Group Inc., a Toronto-based independent marketer of deregulated gas and electricity. Ms. MacDonald served as President and Chief Executive Officer of Just Energy prior to becoming Executive Chair in 2007. As Chief Executive Officer, the

head of the human resources department reported directly to her.

Ms. MacDonald has strong succession planning experience including her development of candidates in preparation for her succession as Chief Executive Officer of Just Energy.

Ø Andrew Reardon is a forty-year veteran of the railroad industry, and is the former Chairman and Chief Executive Officer of TTX Company, the leading railcar leasing company in North America. Mr. Reardon has extensive experience in compensation policies and practices, discussion of compensation matters with investors, talent development, succession planning, executive recruitment and human resource management in the rail industry. From 2007 to 2015, Mr. Reardon served on the Board of Appvion Inc. (formerly Appleton Papers, Inc) where he served on the Compensation Committee.

Mr. Paul Hilal, a former director, was Chair of the Compensation Committee until his resignation in January 2016.

Overall, the Compensation Committee members possess human resources and compensation-related experience in the following areas:

Direct responsibility for executive compensation matters

Membership on other human resources committees

Compensation plan design and administration, compensation decision-making and understanding the Board's role in the oversight of these practices

Understanding the principles and practices related to leadership development, talent management, succession planning and employment contracts

Engagement with investors and investor representatives on compensation issues

Oversight of financial analysis related to compensation plan design and practices

Oversight of labour matters and a unionized workforce

Pension benefit oversight

Recruitment of senior executives

Executive Compensation Consultants

The Compensation Committee and management retain separate independent executive compensation advisors.

Compensation Committee Advisors

In 2016, the Compensation Committee continued to engage Meridian Compensation Partners LLC (Meridian) as its independent compensation consultant. Meridian was originally retained by the Compensation Committee in 2012. Meridian has agreed not to perform any services for CP management. During 2016, Meridian advised the Compensation Committee on executive compensation. The Chair of the Compensation Committee approves all fees and work performed by Meridian. Meridian's fees were \$170,267 for 2016 and \$100,005 for 2015.

Management Advisors

In 2016, CP management engaged Towers Watson to provide market data and survey results relating to executive compensation. Total fees paid in this regard were \$59,264 for 2016 and \$89,519 for 2015.

Tax and Accounting Considerations Deductibility

Tax and accounting implications are considered when designing incentive and equity compensation plans, but the Compensation Committee has not adopted a policy that all compensation must be deductible for income tax purposes. Other important considerations outweigh tax or accounting considerations. With respect to executives paid by a U.S. entity, Section 162(m) of the Internal Revenue Code does not generally permit a public company to deduct non-performance-based compensation paid to a named executive officer (other than the principal financial officer) to the extent the compensation exceeds \$1 million in any year. The Company's annual and long-term incentive plans have been structured with the intent of enabling the Compensation Committee to grant compensation that constitutes qualified performance-based compensation under Section 162(m) of the Internal Revenue Code pursuant to the Section 162(m) Incentive Plan. Generally under GAAP, compensation is expensed as it is earned. Equity compensation is generally expensed, over its vesting period in accordance with ASC Topic 718.

Summary of Risk Profile and Risk Management

The Compensation Committee oversees risk management related to executive compensation and considers the implications of the risks associated with CP's compensation policies and practices. Broad-based short-term and long-term incentive plans as well as the executive compensation program are aligned with CP's strategic plan and enterprise risk management practices. Our compensation programs, policies and practices operate to encourage the right behaviours, to reward performance, and to align with long-term shareholder interests. Risks are mitigated through appropriate plan design, implementation of risk mitigating policies, and specific risk mitigation measures discussed below.

Share Ownership Requirements

Executive share ownership is strongly encouraged by CP. Share ownership requirements call for a minimum level of share ownership, expressed as a multiple of base salary, to be achieved within a five-year period. Share ownership requirements can be met through the holding of common Shares and deferred share units. Ownership in 2016 was determined using the greater of acquisition value and the closing price of a CP Share on December 30, 2016 which was \$191.56 per Share on the TSX and US\$142.77 on the NYSE.

The share ownership requirements apply to approximately 71 executives and senior management employees. The following guidelines were in place for 2016:

Position	Guidelines
CEO	5 times salary
President and COO	4 times salary
EVP	3 times salary
SVP	2 times salary
VP	1.5 to 2 times salary
Senior Management	1 times salary

Messrs. Harrison and Creel have met their ownership requirements. Messrs. Velani, Johnson and Pitz are expected to achieve their ownership requirement within five years.

Governance Structure and Risk Mitigation in Compensation Programs

The Compensation Committee is focused on supporting CP's key goal of creating enduring shareholder value by developing an executive compensation program that aligns with CP's strategic plan, emphasizes the importance of long-term value creation and mitigates risk.

Risk management is integral to CP's overall business strategies and long-term success. The Board believes that executive compensation programs should not raise the Company's risk profile. Accordingly, the Compensation Committee undertakes a comprehensive annual compensation risk review. The focus of this review is to ensure that compensation risks are identified and appropriate mitigation measures are in place. This review is undertaken with the assistance of the Compensation Committee's independent compensation consultant. As a result of this review in 2016, the Compensation Committee concluded that CP's pay programs and policies are not reasonably likely to have a material adverse effect on CP, its business or its value.

In assessing compensation-related risk, the Compensation Committee reviews the broad-based STIP and LTIP programs with anticipated payout levels and key risks presented to the Compensation Committee when targets are set and again when performance is assessed. Targets in incentive plans are based on the Board-approved strategic plan. This links targets to corporate objectives within CP's appetite for corporate risk. The Company's executive compensation program is designed to reward performance by giving long-term incentives significant weight in NEOs compensation, which rewards sustainable financial and operating performance. The Compensation Committee believes that the Company's approach to goal-setting, establishing target performance metrics and evaluating performance results serves to mitigate risk-taking that could reward poor judgment by executives or negatively impact shareholder value.

The Compensation Committee also reviews and recommends to the Board for approval compensation for NEOs and individuals reporting directly to the CEO. CP's compensation programs and its policies and practices are aligned with enterprise risk-management practices and the Compensation Committee considers the implications of risks associated with compensation practices. Risks are mitigated through appropriate plan design, implementation of risk-mitigating policies, and specific risk-mitigation measures including the following:

Plan Design

Executive compensation consists of a mix of fixed and variable compensation with significant pay at risk

The STIP is capped and not guaranteed with the Compensation Committee having discretion to reduce awards

The payout curve under the STIP is designed asymmetrically to reflect that target performance has significant stretch

The STIP and LTIP have multiple specific measurable criteria that are closely aligned with the achievement of CP's long-term business strategy and are set based on the performance required to achieve results in accordance with guidance provided to the market

The LTIP is designed with overlapping vesting periods to address longer-term risks and maintain executives' exposure to the risks of their decision-making through unvested share based awards

Policies

A clawback policy is in place for senior executives

A holdback policy was in place with respect to our former CEO, Mr. Harrison, pursuant to which the earliest date he would have been eligible to exercise the majority of his Options was June 2017 and his DSUs would not be settled until one year after retirement. As part of his separation agreement with CP he forfeited the majority of his equity and had an immediate time frame to exercise his remaining Options.

Share ownership requirements apply to a broad group of senior management

A whistleblowing policy is in place for all employees and includes prohibitions on retaliating

An anti-hedging policy prohibits directors, officers and employees from hedging Shares and share-based awards

Mitigation Measures

Pay mix is managed so that more senior roles have a significant portion of their compensation deferred

Awards under the STIP are examined to ensure they constitute a reasonable percentage of net earnings

No payments are made under the STIP unless a specified operating income threshold is achieved

Financial performance is verified by CP's auditor before decisions are made respecting payouts under the STIP

The Compensation Committee has approved principles for adjustments to STIP payouts

The Compensation Committee takes safety and environmental principles which are fundamental to how CP achieves its financial and operational objectives, into account in exercising its discretion to determine payouts under the STIP

Safety is considered as part of the individual performance component under the STIP for the CEO and operations executives

Executive compensation is benchmarked regularly against our comparator group

The Compensation Committee uses an independent compensation consultant who attends all Compensation Committee meetings as required and meets with the Chair of the Compensation Committee in advance of each meeting

Incentive plans are stress tested to understand possible outcomes

The Compensation Committee also benefits from overlapping membership with other committees with respect to risk monitoring. All Compensation Committee members are also members of the Governance Committee, and Mr. Reardon is also a member of the Audit and Finance Committees. This overlapping membership provides a link between the committees' risk oversight responsibilities and ensures that the Compensation Committee has an in-depth understanding of enterprise risks.

70 CANADIAN PACIFIC COMPENSATION GOVERNANCE

Executive Compensation Clawback

CP has a clawback policy under which the Board may require reimbursement of short-term and long-term incentive compensation paid to a senior executive or former senior executive if:

- (a) the incentive compensation received by the senior executive or former senior executive was calculated based upon the achievement of financial results that were subsequently materially restated or corrected, in whole or in part;
- (b) the senior executive or former senior executive engaged in gross negligence, fraud or intentional misconduct that caused or partially caused the need for such restatement or correction, as admitted by the senior executive, or, in the absence of such admission, as determined by the Board acting reasonably; and
- (c) the incentive compensation paid to the senior executive or former senior executive would have been lower based on the restated or corrected results.

In such circumstances, reimbursement of all or a portion of the applicable incentive compensation paid to the senior executive or former senior executive will be sought as permitted by applicable laws and to the extent that the Board determines, in its sole discretion, that such clawback is in the best interests of the Corporation.

Anti-Hedging Policy

Under CP's Disclosure and Insider Trading/Reporting Policy, CP directors, officers and employees are prohibited from purchasing financial instruments that are designed to hedge or offset a decrease in market value of Shares or equity awards of CP granted as compensation or held, directly or indirectly, by them.

Anti-Pledging Policy

The Company has a policy that prohibits Executive Officers and Directors of the Company from holding securities of the Company in a margin account or otherwise pledging such securities as collateral for a loan.

COMPENSATION DETAILS

SUMMARY COMPENSATION TABLE

The following disclosure of executive compensation provides information on the compensation of CP's NEOs, including the CEO, CFO, former CFO and the three next highest paid NEOs during the years ended December 31, 2016, 2015 and 2014. Mr. Johnson was a NEO in 2014 and 2016.

Messrs. Harrison, Creel, Johnson and Pitz receive their compensation in U.S. dollars which has been converted for each year to Canadian dollars using an average exchange rate of \$1.3248 for 2016, \$1.2787 for 2015 and \$1.1045 for 2014. Mr. Erceg's employment agreement specified that his compensation is in U.S. dollars; however, all cash payments on Mr. Erceg's behalf were converted to Canadian dollars at time of payment.

Salary (Column (c))

The amounts in the Salary column represent the base salary earned by each NEO in the applicable year. Salary differs from annualized salary because annual increases occur on April 1 of the relevant year.

Bonus (Column (d))

The amounts in the Bonus column represent cash payments made to the NEOs. In 2016, the Board approved a request that a portion of Mr. Harrison's 2016 LTIP award be paid in cash. The Board provided a lower cash award in lieu of PSUs since Mr. Harrison already had significant equity holdings (16X his annual salary) and the value of this cash payment was less than the value of the ordinary course PSU grant that Mr. Harrison would have otherwise received in 2016.

Stock Awards (Column (e))

The amounts in the Stock Awards column represent share awards in the form of PSUs that were granted in the applicable year. For Messrs. Erceg and Pitz, the value also includes the value of matching DSU awards that they received as a result of deferring all or a part of their annual bonus. The grant date accounting value of these awards is calculated in accordance with FASB ASC Topic 718: Compensation - Stock Compensation, which represents the grant date fair value (with reference to the Shares underlying the awards), measured using a latticed-based valuation model assuming the probable outcome of the applicable performance conditions and excluding the effect of estimated forfeitures during the applicable vesting periods. The fair value of PSUs granted in respect of Shares traded on the NYSE has been converted using an average exchange rate of \$1.3248 for 2016, \$1.2787 for 2015 and \$1.1045 for 2014. Refer to Item 8, Financial Statements and Supplementary Data, Note 21: Stock-based compensation, in the Company's Form 10-K filed with the SEC on February 16, 2017 for further details.

72 CANADIAN PACIFIC COMPENSATION DETAILS

Upon Mr. Harrison's resignation, his PSUs granted in 2015 were forfeited. Upon Mr. Erceg's resignation, both his 2015 and 2016 grants of PSUs were forfeited.

The maximum grant date fair value of the PSUs for each NEO by grant would be as follows:

Name	2016	2015	2014
E.H. Harrison	\$	\$ 9,775,692	\$ 6,424,657
N.S. Velani	\$ 263,268	\$	\$
M.J. Erceg	\$ 2,611,472	\$ 3,931,175	\$
K.E. Creel	\$ 4,807,824	\$ 3,918,488	\$ 2,483,018
R.A. Johnson	\$ 717,349	\$ 600,908	\$ 364,655
L.J. Pitz	\$ 629,504	\$ 529,824	\$

Option Awards (Column (f))

The amounts reported in the Option Awards column represent the grant date fair value of stock option awards granted to each of the NEOs, calculated in accordance with FASB ASC Topic 718: Compensation - Stock Compensation. The grant date fair value of stock option awards is measured using the Black-Scholes option-pricing model (with reference to the Shares underlying the Options). Refer to Item 8, Financial Statements and Supplementary Data, Note 21: Stock-based compensation filed with the SEC on February 16, 2017 for further details. The fair value of Options granted with respect to Shares traded on the NYSE have been converted using an average exchange rate of \$1.3248 for 2016, \$1.2787 for 2015 and \$1.1045 for 2014.

Upon Messrs. Harrison and Erceg's resignations, all Options relating to the disclosed values were forfeited.

Refer to the Grants of Plan-Based Awards Table on page 76 for further information on 2016 grants.

Non-Equity Incentive Plan Compensation (Column (g))

The amounts reported in the Non-Equity Incentive Plan Compensation column reflect the amounts earned by each NEO under the Company's annual STIP.

Change in Pension Value and Nonqualified Deferred Compensation Earnings (Column (h))

Further details on the amounts reported can be found in the sections entitled Pension Plan Benefits and Nonqualified Deferred Compensation.

None of the NEOs received above-market or preferential earnings (as defined by the SEC) on their nonqualified deferred compensation accounts.

All Other Compensation (Column (i))

The amounts reported in the All Other Compensation column reflect, for each NEO, the sum of the benefits set forth below:

Name	Perquisites (\$)	Club	Other Compensation (\$)	Total

Aircraft Usage

The amount reflects the value of Mr. Harrison's and Mr. Creel's personal travel on Company-owned or leased aircraft. The aggregate incremental cost is determined by multiplying the variable cost per air hour by the number of hours used for travel other than for Company business. This includes costs to the Company such as fuel, maintenance, landing fees and other miscellaneous variable costs.

Auto Benefits

The NEOs are entitled to an executive automobile benefit consisting of a company-leased vehicle and reimbursement for associated operating costs.

Relocation Benefits

The Company provides relocation benefits such as a paid home search trip including airfare, car rental, meals and accommodations, temporary lodging and final destination transportation costs, mortgage assistance in higher cost areas (described below under Housing Allowance), legal fees, movement of household goods and an incidental allowance. NEOs are eligible for these benefits under our corporate relocation policy, pursuant to the same terms and using the same formulas as other participating employees.

Housing Allowance

Messrs. Harrison and Creel are provided with reasonable accommodation in the city of Calgary. This is reflected in the amounts disclosed. The value is based on aggregate incremental operating costs to the Company such as condo fees, housekeeping, and other miscellaneous costs.

Messrs. Johnson and Pitz are entitled to a relocation housing subsidy and applicable tax gross-ups as per the relocation policy available to all employees. Mr. Erceg also received these benefits prior to his resignation.

Financial and Tax Planning

The Company provides a taxable reimbursement to the NEOs for financial planning services, which includes tax preparation. Under current Canadian income tax legislation, financial/retirement counseling does not generate a taxable benefit, other than with respect to the preparation of income tax returns. The Company grosses up this portion of the non-cash taxable benefit to a limit of \$1,000.

Additional Medical

The Company makes executive physicals available to all NEOs and provided additional fees related to medical expenses not covered under CP's group health plans for Mr. Harrison.

Club Memberships

Additional perquisites are given as part of a flexible perquisites program available to all executives for the use of club memberships.

Additional All Other Compensation

Company Contributions to the 401(k), the Defined Contribution Plan, the Supplemental Plan and the ESPP

The Company makes matching contributions to certain NEOs' accounts under the applicable Company 401(k), U.S. Salaried Retirement Income Plan, Canadian Defined Contribution Plan and ESPP on the same terms and using the same formulas as other participating employees.

Employee Share Purchase Plan

CP's Employee Share Purchase Plan (ESPP) is available to all employees and provides the opportunity to purchase voting Shares on the open market through payroll deductions. Employees may contribute between 1% and 10% of their base salary to the ESPP every pay period. CP provides a 33% match on the first 6% of non-unionized employees contributions that vest after four consecutive quarters. Employees must remain participants of the ESPP at the time of vesting in order to receive the CP match. As of December 31, 2016, approximately 38% of CP's employees participated in the ESPP.

Matching Contributions to the Senior Executives - Deferred Share Unit Plan

Messrs. Erceg and Pitz received matching DSUs in 2016 as a result of deferring all or a part of their 2015 STIP awards. Upon resignation Mr. Erceg forfeited those units. The number of matching units granted can be found in the Grants of Plan-Based Awards table. The values are also disclosed in the Nonqualified Deferred Compensation table.

Tax Reimbursements

NEOs are eligible for automobile-related gross-ups, as well as gross-ups for any housing subsidy that is available to all eligible relocated employees.

Employment Agreements

The employment agreements for executive officers, with the exception of Messrs. Harrison and Creel, are set out in a standard offer letter template from CP. These offer letters contain the standard terms as described in the Compensation Discussion and Analysis and include an annual salary, participation in the STIP and LTIP plans as approved annually by the Compensation Committee, participation in the benefit plans or programs generally available to management employees, and modest perquisites. All senior management are subject to share ownership requirements.

Messrs. Harrison and Creel were subject to employment agreements in 2016, however, effective January 31, 2017, Mr. Harrison resigned and this employment agreement is no longer in effect. Mr. Harrison's 2016 agreement included:

reasonable accommodations in Calgary

use of the corporate jet

reimbursement for full medical, dental and prescription drug coverage not covered under the Company's Canadian and U.S. employee benefit plans

tax equalization representing incremental tax, if any, as a result of working for the Company in Canada

non-disclosure, non-solicitation covenants

an annual pension of US\$1.5 million which equals the annual pension forfeited from his previous employer

severance provisions as described on page 85

Mr. Creel's 2016 agreement provided for:

reasonable accommodations in Calgary

use of the corporate jet; beginning in 2017, this is limited to business commuting and family visits within North America

reimbursement for club membership up to US\$15,000 annually

tax equalization representing incremental tax, if any as a result of working for the Company in Canada; beginning in 2017, Mr. Creel will no longer receive this benefit

non-disclosure, non-solicitation covenants

severance provisions as described on page 85

2016 Summary Compensation Table After Forfeited Payments

The following table is provided for informational purposes and sets forth the annual compensation for NEOs for 2014, 2015 and 2016 for NEOs excluding any compensation that was forfeited by Mr. Harrison and Mr. Erceg upon their resignation. This table does not replace the Summary Compensation Table required by item 402 of Regulation S-K, which is found on Page 72.

INCENTIVE PLAN AWARDS

2016 GRANTS OF PLAN-BASED AWARDS

The NEOs are eligible to receive annual cash awards under the STIP. If a NEO's ownership requirements have not been met he may defer a portion of his STIP award into DSUs in the year that the STIP award was paid and receive Company matching DSUs on that deferral. NEOs are also eligible for awards of PSUs and Options under the LTIP. The following table provides information on grants of awards under all plans made to the NEOs in 2016. Messrs. Harrison, Creel, Erceg, Johnson and Pitz received their compensation in U.S. dollars; the estimated future payout under Non-Equity Incentive Plan Awards has been converted to Canadian dollars using an average exchange rate of \$1.3248. Messrs. Harrison and Erceg forfeited the awarded equity reported below. Mr. Erceg also forfeited the amount reported under the non-equity incentive plan award column.

For each plan year, the Compensation Committee establishes a minimum level of corporate operating income performance, below the threshold level, called the corporate hurdle. When performance falls below the corporate hurdle, no awards are paid. If corporate performance falls below the threshold level but above the corporate hurdle, only the individual component of the award may be paid. The threshold value in the chart assumes that the NEO

earned the minimum amount payable (and assumes that the corporate hurdle was achieved).

Annually, executives may defer all or part of their annual bonus into DSUs, up to their required ownership level. The Company provides a 25% match on the amount deferred in the year that the bonus is actually paid. Messrs. Erceg and Pitz received matching DSUs in 2016 as a result of deferring all or a part of their 2015 awards. Mr. Erceg forfeited these matching DSUs upon his resignation. Deferred Compensation Plans are discussed in more detail on page 82.

PSUs at target are as disclosed in the Summary Compensation Table. The exercise price of the 2016 Options is based on the closing Share price on the TSX on the grant date. With respect to Messrs. Harrison, Creel, Johnson and Pitz, the exercise price is reported in U.S Dollars based on the closing Share price on the NYSE on the grant date.

COMPENSATION DETAILS 2017 MANAGEMENT PROXY STATEMENT 77

In general, regular Options granted prior to 2017, vest over four years at a rate of 25% on each anniversary of the grant date and expire ten years from the date of grant. Exercise prices are shown in Canadian dollars, except that, with respect to Options granted to Messrs. Harrison, Creel, Johnson and Pitz that were made in 2015 or thereafter, exercise prices are in United States dollars.

The Value of Unexercised In-the-Money Options/SARs at 2016 Year-End is based on the closing Share price on the TSX on December 30, 2016 (\$191.56). However, with respect to Option grants to Messrs. Harrison, Creel, Johnson and Pitz that were made in 2015 or thereafter, the value is based on the closing Share price on the NYSE on December 31, 2016 (US\$142.77) converted into Canadian dollars using a year-end exchange rate of \$1.3427.

Mr. Creel was awarded a performance-vested Option grant on July 24, 2014. These Options vested upon meeting certain operating ratio and operating income hurdles. None of the Options would become exercisable before June 1, 2018 (50% of the Options vested upon CP's attainment of an annual Operating Ratio of 63%, and the other 50% vested upon CP attaining an annual Operating Income of \$2,618 million).

The Market Value of Shares or Units of Stock That Have Not Vested includes the value of unvested DSUs and restricted share units (RSUs) based on the closing Share price on the TSX on December 30, 2016 (\$191.56) with respect to Mr. Velani.

For Messrs. Johnson and Pitz the DSU or RSU value is based on the closing Share price on the NYSE on December 30, 2016 (US\$142.77) converted into Canadian dollars using a year-end exchange rate of \$1.3427. The DSU awards are deferred and not redeemable until termination of employment.

The number of shares shown in the column *Equity Incentive Plan Awards: Number of Unearned Shares, Units or Other Rights That Have Not Vested* includes the sum of the performance units that would be payable under the 2015-2017 and 2016-2018 PSU cycles if the Company's actual performance in 2016 were applied to each plan's performance measures. The Company's 2016 performance would have resulted in a 160% payout for the 2015-2017 cycle and 144% for the 2016-2018 cycle. The SEC requires that projected payouts be shown at the next higher performance measure; therefore, the number of performance units shown is equal to the maximum payout for the 2015-2017 cycle (200%) and the maximum pay out for the 2016-2018 cycle (200%). The value of the PSUs is based on the year-end Share value on the applicable stock exchange.

For stock awards, the number of unvested shares reported above includes dividends earned. The original grant units and grant date fair values for 2016 stock awards are disclosed in the Grants of Plan-Based Awards Table.

The following table shows the vesting dates and the corresponding number of shares in the Outstanding Equity Awards at Fiscal Year End table, assuming continued employment through the vesting date.

OPTION EXERCISES AND STOCK VESTED

The following table provides details regarding Options exercised by the NEOs, and stock awards vested during the financial year ended December 31, 2016.

Name	Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise	Value Realized on Exercise	Number of Shares Acquired on Vesting	Value Realized on Vesting
	(#)	(\$) ^(a)	(#)	(\$) ^(b)
E. H. Harrison			38,803	7,463,388
N.S. Velani			568	112,755
M.J. Erceg				
K.E. Creel			18,640	3,525,031
R.A. Johnson			3,809	685,661
L.J. Pitz			1,037	205,897

The number of shares acquired on vesting include PSUs, related to the 2014 grant that vested at 118%, and DSUs. The value realized on vesting is calculated by multiplying the number of shares acquired on vesting by the market price of the shares on the respective vesting dates.

With respect to Mr. Harrison, 6,452 of the stock awards which vested were DSUs, which are settled only upon termination of employment per the terms of the Executive DSU Plan described below under the heading "Deferred Compensation Plans". As described in the message from our Management Resources and Compensation Committee Chair, Mr. Harrison forfeited these DSUs upon resignation. With respect to Mr. Creel and Mr. Johnson, 6,137 of Mr. Creel's stock awards and 1,973 of Mr. Johnson's stock awards that vested were DSUs.

MANAGEMENT STOCK OPTION INCENTIVE PLAN

The Management Stock Option Incentive Plan (MSOIP) was established in October 2001 for the purpose of providing certain officers and select key employees of the Company with an incentive to enhance shareholder value.

The number of Options granted to a recipient is determined by dividing a targeted dollar amount (determined taking into account market practice and a number of other factors), which is expressed as a percentage of the recipient's salary, by the theoretical value of an Option. That value is determined using broadly used valuation models that estimate the probable future payout, applied to the 30 day average closing Share price prior to the issuance of the grant. Neither the amount nor the terms of previously granted Options are taken into consideration in determining the size of a new grant, which otherwise might result in the unintended consequence of encouraging early exercise to avoid having future grants reduced due to significant outstanding Option holdings. In addition, it might disadvantage long-serving employees and those who remain committed to the stock.

Regular Options expire 10 years from the date of grant. Options generally vest over four years at a rate of 25% on each anniversary date of the grant. Option grants made after January 1, 2017 have a 7-year term.

An Option will expire before its normal expiry date if: (a) an Option holder resigns from his or her employment, in which case the Option will expire 30 days following such resignation; (b) an Option holder's employment is terminated without cause, in which case the Option will expire six months following such termination; (c) an Option holder's employment is terminated for cause, including where an Option holder resigns after being requested to do so as an alternative to being terminated for cause, in which case the Option will expire immediately upon such termination; (d) an Option holder dies, in which case the Option will expire 12 months following his death and may be exercised by the holder's estate. An Option will continue to vest and expire on its normal expiry date if an Option holder's employment ceases due to permanent disability. An Option granted will expire on the earlier of (a) its normal expiry date or (b) five years after the Option holder retires, upon attaining the applicable mandatory or early retirement age.

If an Option would otherwise expire during a blackout period, it will be extended beyond its normal expiry date to a date 10 business days after the date on which the blackout period ends, provided that if a further blackout period is imposed prior to the end of the extension, the Option term will be further extended to a date 10 business days after the date on which the additional blackout period expires.

Options may be assigned only to an Option holder's family trust, personal holding corporation, or retirement trust or a legal representative of an Option holder's estate or a person who acquires the Option holder's rights by bequest or inheritance.

The MSOIP includes change of control provisions that cause all Options held by an Option Holder who is terminated without cause upon a change of control to immediately vest. The change of control provisions in the MSOIP, as well as the Corporation's other incentive plans, are substantially similar to the change of control provisions described below under "Change in Control and Termination Benefits", except that: (i) under the terms of the MSOIP and other incentive plans, the Board cannot adopt a resolution confirming that a change of control has occurred; and (ii) under the MSOIP and other incentive plans the threshold for Shares of the Corporation held by a new entity to cause a change of control is 50%.

Under the terms of the MSOIP, the maximum number of Shares that may be reserved for issuance to insiders as Options is 10% of the number of Shares outstanding. The maximum number of Options that may be granted to insiders within a one-year period is 10% of the number of Shares outstanding and to any one insider is 5% of the number of Shares outstanding. The maximum number of Options that may be granted to any one individual is 5% of the number of Shares outstanding at the time of the reservation.

Notwithstanding the limits noted above, the dilution level, measured by the number of Options available for issuance as a percentage of outstanding Shares continues to be capped, at the discretion of the Board, at 7%. CP's potential dilution level at year end is 2.2%.

The CEO, as well as the Chairman of the Board and the Chair of the Compensation Committee, have authority to grant Options to employees within certain defined parameters, which include the position of the grantee and the expected value of the Options being granted. For 2016, the Compensation Committee authorized a pool of 100,000 Options for allocation by the CEO under this authority from which 1,478 Options in total were granted to one employee for the purposes of performance recognition and retention. In 2017, the number of Options for allocation by the CEO has been reduced to 50,000 Options.

Participants in the MSOIP are granted a number of Options, exercisable at the last closing market price of Shares on the TSX or the NYSE (for grants after December 15, 2014 depending on the grant currency) prior to the approval of the grant. The exercise price of Options may not be reduced without shareholder approval. The following table illustrates information relating to Options as of and for the year ended December 31, 2016.

Options Outstanding and Available for Grant as of December 31, 2016:

2016	Number of Options/Shares	Percentage of Outstanding Shares
Options outstanding		
(as at December 31, 2016)	1,687,407	1.2%
Options available to grant		
(as at December 31, 2016)	1,549,868	1.1%
Shares issued on exercise of Options in 2016	277,200	0.2%
Options granted in 2016	403,740	0.3%

Messrs. Harrison and Creel were granted stand-alone stock Options in 2012 and 2013 respectively; they were not granted under the MSOIP.

Since the inception of the MSOIP in October 2001, a total of 18,078,642 Shares have been made available for issuance under the MSOIP and 14,841,367 Shares have been issued through the exercise of Options. No financial assistance is provided to Option holders to facilitate the purchase of Shares under the MSOIP. In addition, CP has a policy that prohibits employees from forward selling Shares that may be delivered upon the future exercise of Options under the MSOIP or otherwise monetizing Options granted under the MSOIP, other than through exercising the Option and subsequently selling the Shares in a public venue.

The Board may amend the MSOIP, but no amendment may be made without required regulatory or shareholder approval. Other than as set forth elsewhere in this Proxy Statement, no Options have been granted under the MSOIP

that require ratification by shareholders.

The MSOIP was amended effective February 28, 2012, to provide that on a change in control the vesting of Options held by a participant will not accelerate unless the participant is thereafter terminated without cause or constructively dismissed.

The MSOIP was amended effective November 19, 2015 to provide Net Stock Settlement as a method of exercise. Net Stock Settlement allows an option holder to exercise Options without the need to have the Corporation sell the securities on the open market. The Corporation experiences less dilution from the exercise of stock options that are net settled in this manner.

Securities Authorized For Issuance Under Equity Compensation Plans

The following table shows, as of December 31, 2016, compensation plans under which equity securities of the Corporation are authorized for issuance upon the exercise of Options outstanding under the MSOIP and the Director Stock Option Plan (DSOP). The table also shows the number of Shares remaining available for issuance and includes 340,000 Shares under the DSOP. On July 21, 2003, the Board suspended all further grants of Options under the DSOP.

Plan Category	Number of Securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in the first column)

Equity compensation plans not approved by security holders		\$	
Total	2,456,732	\$ 121.79	1,889,868

80 CANADIAN PACIFIC COMPENSATION DETAILS

The equity compensation plans referred to in the previous table, being the MSOIP and DSOP, are described in the Corporation's audited consolidated financial statements for the year ended December 31, 2016, and in this Proxy Statement. See page 79 for MSOIP details and see above for DSOP details.

Section 162(m) Incentive Plan

The Section 162(m) Incentive Plan is intended to allow us to grant equity and cash awards under our other plans described in this Proxy Statement (the Sub-Plans), while providing us the flexibility to designate awards that will qualify as performance-based compensation under Section 162(m) of the US Internal Revenue Code of 1986 (the Code). Section 162(m) of the Code generally limits the annual deduction that a company may take for compensation of covered employees, consisting of the company's CEO and the next three highest compensated executive officers other than the CEO and the CFO who are serving at the end of the year. Under Section 162(m), certain compensation, including compensation based on the attainment of performance goals, will not be subject to this limitation if certain requirements are met. One such requirement is that the material terms pursuant to which the performance-based compensation is to be paid must be disclosed to and approved by the shareholders. The Section 162(m) Incentive Plan was approved by our shareholders at our 2016 Annual Meeting.

PENSION PLAN BENEFITS

Canadian Pension Plans

CP has a defined contribution plan (DC Plan) in which Messrs. Creel, Velani and Erceg participated in during 2016.

Depending on the individual's age and years of service, he will contribute between 4% and 6% of earnings and the Company will contribute between 4% and 8% of earnings. Total contributions are limited to the maximum allowed under the Canadian *Income Tax Act* (\$26,010 in 2016).

Messrs. Creel, Velani and Erceg also participated in a defined contribution supplemental plan (DC SERP). The DC SERP is a non-registered plan that provides benefits in excess of the Canadian *Income Tax Act* limits applicable to the DC Plan. Specifically, the SERP provides a company contribution equal to 6% of a participant's base salary and annual bonus. There are no employee contributions and there is a two-year vesting period. Upon resignation, Mr. Erceg's company contributions did not meet the vesting requirements and were therefore forfeited.

U.S. Retirement Plans

The U.S. retirement program has three elements:

A voluntary qualified 401(k) plan with employer match

A qualified defined contribution plan which provides automatic employer contributions

A nonqualified defined contribution plan for certain employees whose compensation exceeds the IRS limits (US \$265,000 for 2016)

401(k) Plan

Individuals can contribute pre-tax contributions to the 401(k) plan subject to limitations imposed by the U.S. *Internal Revenue Code*. The Company provides a matching contribution of 50% on the first 6% of eligible earnings. All contributions are immediately vested.

Defined Contribution Plan (U.S. DC Plan)

The U.S. DC Plan is employer-funded with an annual contribution amount equal to 3.5% of eligible earnings. Eligible earnings include base salary and annual bonus. These earnings are subject to compensation limitations imposed by the U.S. *Internal Revenue Code*. These amounts are included in the Summary Compensation Table under the column heading "All Other Compensation".

Supplemental Defined Contribution Plan (U.S. SERP)

The U.S. SERP is an unfunded, nonqualified defined contribution plan that provides an additional company contribution equal to 6% of eligible earnings without regard to the limitations imposed by the U.S. *Internal Revenue Code*. Eligible earnings include base salary and annual bonus. In addition, for earnings in excess of the limitations imposed by the U.S. Internal Revenue Code, an additional 3.5% contribution is made. Company contributions are subject to a three-year cliff vesting schedule.

Messrs. Creel, Johnson and Pitz participated in the U.S. SERP in 2016.

DEFERRED COMPENSATION PLANS

Officers and other individuals with share ownership requirements may elect to receive all or a portion of their short-term incentive award in DSUs. This is designed to promote the sustained alignment of executive officers interests with shareholders. Executive officers must make their election prior to the beginning of the calendar year for which the short-term incentive award is paid. When any short-term incentive award is determined, the amount elected is converted to DSUs, which have a value equal to the average market price of a Share for the 10 trading days immediately prior to December 31 of the calendar year for which the award is paid.

CP will grant an additional 25% of the amount that each participant elects to receive as DSUs as a Company match, which vest after three years. Once the value of a participant's DSU account is sufficient to meet CP's stock ownership requirement the participant may no longer elect to receive any portion of his short-term incentive award in DSUs.

Executive DSU participants may redeem their DSUs only after termination of employment or retirement. Redemption is permissible only following the date that is six months after the end of the executive's employment and must be redeemed no later than the end of the following calendar year. The value of the DSU at the time of payment will be based on the average market price of a Share for the 10 trading days immediately preceding the payment date. Payment is made in a lump sum following the termination of employment. For eligible U.S. executives, in compliance with U.S. tax regulations, payment of amounts deferred until termination of employment is made after a six-month waiting period.

Mr. Creel also received a special make-whole DSU payment at his time of hire. The DSUs are not redeemable until after the end of the executive's employment.

82 CANADIAN PACIFIC COMPENSATION DETAILS

The following table shows the number of DSUs outstanding and their value based on the closing Share price on December 30, 2016.

	Unvested	Vested	Total	Value as at
	DSUs	DSUs	DSUs	December 30, 2016
	(#)	(#)	(#)	(\$)

R.A. Johnson	0	5,500	5,500	1,054,321
L.J. Pitz	860	3,442	4,302	824,768

The value of vested and unvested DSUs as of December 30, 2016, is based on the closing Share price on the TSX of \$191.56 for Messrs. Velani and Erceg, and a closing Share price on the NYSE of US\$142.77 with a year-end exchange rate of \$1.3427 for Messrs. Harrison, Creel, Johnson and Pitz. Mr. Harrison forfeited the reported number of DSUs upon resignation.

NONQUALIFIED DEFERRED COMPENSATION TABLE

The following table shows, as of December 31, 2016, each NEO's balance under our nonqualified deferred compensation plans, including the Senior Executives' Deferred Share Unit Plan (DSU), the Canadian Pacific Management Supplemental Pension Plan (DC SERP) and the U.S. Senior Executive Retirement Plan (U.S. DC SERP).

Name	Executive Plan Name	Registrant Contributions in Fiscal 2016 (\$)	Aggregate		Aggregate Balance at December 31, 2016 (\$)

L.J. Pitz	DSU	335,035		99,944	659,342

U.S. DC SERP	62,727	2,552
--------------	--------	-------

For Messrs. Harrison and Creel, the value of the registrant contributions is calculated with respect to DSUs that vested in 2016. As disclosed in previous Summary Compensation Tables, Mr. Harrison was issued DSUs in 2012 that would vest 25% each year and Mr. Creel was issued DSUs in 2013 that vested in 2016. For Messrs. Erceg and Pitz, the value of the executive contributions is the deferral of 2015 bonus into DSUs that vested immediately in 2016.

DC SERP and U.S. DC SERP Contributions have been disclosed in the Change in Pension Value and Nonqualified Deferred Compensation Earnings Column in the Summary Compensation Table.

CHANGE IN CONTROL AND TERMINATION BENEFITS**Change in Control Agreements**

Mr. Harrison was the only NEO party to a change in control agreement with CP. On January 18, 2017, Mr. Harrison entered into a separation agreement with the Company pursuant to which he resigned as CEO on January 31, 2017. Therefore as of January 31, 2017, the change in control and termination benefits described below are no longer applicable.

The change in control agreement with Mr. Harrison was double trigger, meaning that cash severance payments would not have been made and no awards under any equity plan would be subject to accelerated vesting upon a change in control of the Corporation unless Mr. Harrison was thereafter terminated without cause or constructively dismissed. Note that effective February 22, 2013, all equity awards under CP's equity incentive plans vest in connection with a change in control only on a double trigger basis. Although Mr. Harrison received unvested DSUs issued prior to this date, these DSUs, which were vested as of December 31, 2016, could not be redeemed until one year after cessation of his employment, regardless of whether there was an intervening change in control. Mr. Harrison has forfeited these DSUs upon his resignation.

A change in control would have arisen under Mr. Harrison's change in control agreement in the following circumstances:

More than 20% or more of the Shares were acquired by any person or persons acting jointly or in concert

80% or more of the Corporation's Shares were held by a new entity created by any transaction or series thereof

All or substantially all of the assets of the Corporation were sold, assigned or transferred

A majority (more than 50%) change in the Corporation's Board of Directors over a 12-month period or

The Board adopted a resolution confirming that a change in control has occurred

Payable on Change in Control

Name	Severance Period (# of months)	Severance Payment				Value of early vesting of Options & equity based awards (\$)	Payable on Change of Control (\$)
		Base Pay (\$)	Short-term Incentive at target (\$)	Additional Retirement Benefits (\$)	Other Benefits (\$)		
E.H. Harrison	6	1,476,970				8,563,305	10,040,275
Total NEOs		1,476,970	0	0	0	8,563,305	10,040,275

The value of early vesting of Options and equity-based awards is based on the closing Share price on December 30, 2016, on the TSX of \$191.56 and for awards issued in respect of Shares traded on the NYSE, the value is based on the closing Share price of US\$142.77 converted into Canadian dollars using a year-end exchange rate of \$1.3427.

Compensation on Termination of Employment

We have developed policies to cover all forms of termination that occur absent the prior occurrence of a change in control. Messrs. Velani, Johnson and Pitz are subject to the same terms as all other employees of the Company for voluntary termination, retirement, and termination for cause. No NEO receives an excise tax gross-up provision in relation to any termination benefit. In the event that Messrs. Harrison and Creel ceased to be employees on December 31, 2016, they would have received compensation as summarized below:

Payable on Termination without Cause

Name	Severance Payment					Value of Options & equity based awards (\$)	Payable on Termination without Cause (\$)
	Severance Period (# of months)	Base Pay (\$)	Short-term Incentive (\$)	Retirement Benefits (\$)	Other Benefits (\$)		
E.H. Harrison	N/A	2,685,400				4,586,795	7,272,195
K.E. Creel	36	3,852,894	3,852,894		30,039	6,792,752	14,528,579
Total NEOs		6,538,294	3,852,894	0	30,039	11,379,547	21,800,774

Other benefits represents the value of accelerated vesting of ESPP Shares.

The value of Options and equity-based awards represents the value of Options vesting within six months following termination and the prorated value as of the termination date of PSU awards.

The value of the Options and equity-based awards is based on the closing Share price on the TSX of \$191.56 or, for awards in respect of Shares traded on the NYSE, a closing Share price on the of US\$142.77 on December 30, 2016, converted into Canadian dollars using a year-end exchange rate of \$1.3427.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires the Company's executive officers, directors and persons who own more than 10% of a registered class of the Company's equity securities to file initial reports of ownership and reports of changes in ownership of the Company's common stock with the SEC. SEC regulations require executive officers, directors and greater than 10% shareholders to furnish the Company with copies of all forms they file pursuant to Section 16(a). As a matter of practice, the Company's administrative staff assists the Company's executive officers and directors in preparing initial reports of ownership and reports of changes in ownership and filing such reports with the SEC. Other than as described below, during the fiscal year ended December 31, 2016, CP believes that all Section 16(a) filing requirements were timely met during 2016.

The Corporation's ESPP was designed for use in Canada, and the ESPP is not considered a qualified plan, exempt from Section 16 reporting requirements, pursuant to US requirements. Late filings with respect to purchases of CP shares in the Corporation's ESPP for Messrs. Creel, Edwards, Ellis, Redeker and Wallace were made on April 2, 2016, as well as on June 2, 2016 and on September 1, 2016 on behalf of Mr. Creel.

Form 4s with respect to the acquisition of common Shares pursuant to CP's Directors' Deferred Share Unit Plan were inadvertently filed late on July 5, 2016 and August 3, 2016 on behalf of Ms. Courville, Ms. MacDonald and Messrs. Baird, Paull and Reardon.

Form 4s with respect to acquisitions of common Shares pursuant to CP's Senior Executive Deferred Share Unit Plan were inadvertently filed late on August 3, 2016 on behalf of Messrs. Creel, Edwards, Ellis, Harrison, Pitz, Redeker and Wallace and Form 4s with respect to acquisitions of common Shares pursuant to CP's Restricted Share Unit Plan were inadvertently filed late on September 1, 2016 on behalf of Messrs. Redeker and Wallace.

SHAREHOLDER PROPOSALS

In 2016, Canadian Pacific did not receive any shareholder proposals to be included in this Proxy Statement.

The Company is subject to both the rules of the SEC under the Exchange Act and the provisions of the Canada Business Corporations Act (CBCA) with respect to shareholder proposals. As clearly indicated under the CBCA and in the rules of the SEC under the Exchange Act, simply submitting a shareholder proposal does not guarantee its inclusion in the proxy materials.

Shareholder proposals submitted pursuant to the rules of the SEC under the Exchange Act for inclusion in the Company's proxy materials for its annual meeting of shareholders to be held in 2018 (the 2018 Meeting), must be received no later than November 15, 2017. Such proposals must also comply with all applicable provisions of Exchange Act Rule 14a-8.

Proposals submitted pursuant to the applicable provisions of the CBCA that a shareholder intends to present at the 2018 Meeting and wishes to be considered for inclusion in CP's proxy statement and form of proxy relating to the 2018 annual meeting of shareholders must be received no later than December 15, 2017. Such proposals must also comply with all applicable provisions of the CBCA and the regulations thereunder.

All shareholder proposals must be delivered to the Office of the Corporate Secretary by mail at 7550 Ogden Dale Road S.E., Calgary, Alberta, T2C 4X9.

DIRECTORS' APPROVAL

The contents of this Proxy Statement and its distribution have been approved by the Directors of the Corporation.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING
COMPLIANCE 2017 MANAGEMENT PROXY STATEMENT 87

SCHEDULE A AUDIT COMMITTEE TERMS OF REFERENCE

CANADIAN PACIFIC RAILWAY LIMITED

AND

CANADIAN PACIFIC RAILWAY COMPANY

AUDIT COMMITTEE TERMS OF REFERENCE

The term "Corporation" herein shall refer to each of Canadian Pacific Railway Limited ("CPRL") and Canadian Pacific Railway Company ("CPRC"), and the terms "Board," "Directors," "Board of Directors" and "Committee" shall refer to the Board, Directors, Board of Directors, or Committee of CPRL or CPRC, as applicable.

A. Committee and Procedures

1. Purpose

The purposes of the Audit Committee (the "Committee") of the Board of Directors of the Corporation are to fulfill applicable public company audit committee legal obligations and to assist the Board of Directors in fulfilling its oversight responsibilities in relation to the disclosure of financial statements and information derived from financial statements, including:

the review of the annual and interim financial statements of the Corporation;

the integrity and quality of the Corporation's financial reporting and systems of internal control;

the Corporation's compliance with applicable legal and regulatory requirements;

the qualifications, independence, engagement, compensation and performance of the Corporation's external auditors; and

the performance of the Corporation's internal audit function;
and to prepare, if required, an audit committee report for inclusion in the Corporation's annual management proxy circular, in accordance with applicable rules and regulations. In addition, the Committee will assist the Board with the identification of the principal risks of the Corporation's business and ensure the implementation of appropriate risk assessment and risk management policies and processes to manage these risks.

The Corporation's external auditors shall report directly to the Committee.

2. Composition of Committee

The members of the Committee of each of CPRL and CPRC shall be identical and shall be Directors of CPRL and CPRC, respectively. The Committee shall consist of not less than three and not more than the number of Directors who are not officers or employees of the Corporation, none of whom is either an officer or employee of the Corporation or any of its subsidiaries. Members of the Committee shall meet applicable requirements and guidelines for audit committee service, including requirements and guidelines with respect to being independent and unrelated to the Corporation and to having accounting or related financial management expertise and financial literacy, as set forth in applicable securities laws or the rules of any stock exchange on which the Corporation's securities are listed for trading. No Director shall be eligible to serve on the Committee if such Director currently serves on the audit committees of three public companies other than the Corporation, unless the Board of Directors has determined that such simultaneous service would not impair the ability of such member to effectively serve on the Committee. Determinations as to whether a particular Director satisfies the requirements for membership on the Committee shall be affirmatively made by the full Board, upon recommendation from the Corporate Governance and Nominating Committee.

3. Appointment of Committee Members

Members of the Committee shall be appointed from time to time by the Board and shall hold office at the pleasure of the Board.

4. Vacancies

Where a vacancy occurs at any time in the membership of the Committee, it may be filled by the Board. The Board shall fill a vacancy whenever necessary to maintain a Committee membership of at least three Directors.

5. Committee Chair

The Board shall appoint a Chair for the Committee.

6. Absence of Committee Chair

If the Chair of the Committee is not present at any meeting of the Committee, one of the other members of the Committee who is present at the meeting shall be chosen by the Committee to preside at the meeting.

7. Secretary of Committee

The Committee shall appoint a Secretary who need not be a Director of the Corporation.

8. Meetings

The Committee shall meet at regularly scheduled meetings at least once every quarter and shall meet at such other times during each year as it deems appropriate, and as part of such meetings, shall meet in executive session without management being present. In addition, the Chair of the Committee or the Chairman of the Board or any two of its other members may call a meeting of the Committee at any time.

9. Quorum

Three members of the Committee shall constitute a quorum.

10. Notice of Meetings

Notice of the time and place of every meeting shall be given in writing by any means of transmitted or recorded communication, including facsimile, telex, telegram or other electronic means that produces a written copy, to each member of the Committee at least 24 hours prior to the time fixed for such meeting; provided however, that a member may in any manner waive a notice of a meeting. Attendance of a member at a meeting constitutes a waiver of notice of the meeting, except where a member attends a meeting for the express purpose of objecting to the transaction of any business on the grounds that the meeting is not lawfully called.

11. Attendance of Others at Meetings

At the invitation of the Chair of the Committee, other individuals who are not members of the Committee may attend any meeting of the Committee.

12. Procedure, Records and Reporting

Subject to any statute or the articles and by-laws of the Corporation, the Committee shall fix its own procedures at meetings, keep records of its proceedings and report to the Board when the Committee may deem appropriate (but not later than the next regularly scheduled meeting of the Board).

13. Delegation

The Committee may delegate from time to time to any person or committee of persons any of the Committee's responsibilities that may be lawfully delegated.

14. Report to Shareholders

The Committee shall prepare a report to shareholders or others, concerning the Committee's activities in the discharge of its responsibilities, when and as required by applicable laws or regulations.

15. Guidelines to Exercise of Responsibilities

The Board recognizes that meeting the responsibilities of the Committee in a dynamic business environment requires a degree of flexibility. Accordingly, the procedures outlined in these Terms of Reference are meant to serve as guidelines rather than inflexible rules, and the Committee may adopt such different or additional procedures as it deems necessary from time to time.

16. Use of Outside Legal, Accounting or Other Advisers; Appropriate Funding

The Committee may retain, at its discretion, outside legal, accounting or other advisors, at the expense of the Corporation, to obtain advice and assistance in respect of any matters relating to its duties, responsibilities and powers as provided for or imposed by these Terms of Reference or otherwise by law.

The Committee shall be provided by the Corporation with appropriate funding, as determined by the Committee, for payment of:

- (i) compensation of any outside advisers as contemplated by the immediately preceding paragraph;
- (ii) compensation of any independent auditor engaged for the purpose of preparing or issuing an audit report or performing other audit, review or attest services for the Corporation; or

(iii) ordinary administrative expenses that are necessary or appropriate in carrying out the Committee's duties. All outside legal, accounting or other advisors retained to assist the Committee shall be accountable ultimately to the Committee.

17. Remuneration of Committee Members

No member of the Committee shall receive from the Corporation or any of its affiliates any compensation other than the fees to which he or she is entitled as a Director of the Corporation or a member of a committee of the Board. Such fees may be paid in cash and/or shares, options or other in-kind consideration ordinarily available to Directors.

B. Mandate of Committee

1. Committee Role:

The Committee's role is one of oversight. Management is responsible for preparing the interim and annual financial statements of the Corporation and for maintaining a system of risk assessment and internal controls to provide reasonable assurance that assets are safeguarded and that transactions are authorized, recorded and reported properly, for maintaining disclosure controls and procedures to ensure that it is informed on a timely basis of material developments and the Corporation complies with its public disclosure obligations, and for ensuring compliance by the Corporation with applicable legal and regulatory requirements. The external auditors are responsible for auditing the Corporation's financial statements.

In carrying out its oversight responsibilities: (i) each member of the Committee is entitled to, absent knowledge to the contrary, rely upon the accuracy and completeness of the Corporation's records and upon information, opinions, reports or statements presented by any of the Corporation's officers or employees, or consultants of the Corporation which the member reasonably believes are within such other person's professional or expert competence and who has been selected with reasonable care by or on behalf of the Corporation; and (ii) the Committee and its members do not provide any professional certification or special assurance as to the Corporation's financial statements or the external auditors' work.

The Committee shall:

External Auditors' Report on Annual Audit

- a) obtain and review annually prior to the completion of the external auditors' annual audit of the year-end financial statements a report from the external auditors describing:
 - (i) all critical accounting policies and practices to be used;
 - (ii) all alternative treatments of financial information within generally accepted accounting principles that have been discussed with management, the ramifications of the use of such alternative disclosures and treatments, and the treatment preferred by the external auditors; and
 - (iii) other material written communications between the external auditors and management, such as any consent or comfort letters issued by the external auditors, management representation letters provided to the external auditors or a schedule of unadjusted differences;

Management's/Internal Auditors' Reports on External Audit Issues

- b) review any reports on the above or similar topics prepared by management or the internal auditors and discuss with the external auditors any material issues raised in such reports;

Annual Financial Reporting Documents and External Auditors' Report

- c) meet to review with management, the internal auditors and the external auditors the Corporation's annual financial statements, the report of the external auditors thereon, the related Management's Discussion and Analysis, and the information derived from the financial statements, as contained in the Annual Information Form and the Annual Report. Such review will include obtaining assurance from the external auditors that the audit was conducted in a manner consistent with applicable law and will include a review of:
- (i) all major issues regarding accounting principles and financial statement presentations, including any significant changes in the Corporation's selection or application of accounting policies or principles;
 - (ii) all significant financial reporting issues and judgments made in connection with the preparation of the financial statements, including the effects on the financial statements of alternative methods within generally accepted accounting principles;
 - (iii) the effect of regulatory and accounting issues, as well as off-balance sheet structures, on the financial statements;
 - (iv) all major issues as to the adequacy and effectiveness of the Corporation's internal controls and any special steps adopted in light of material control deficiencies and any consideration by the external auditors of fraud during the performance of the audit of the Corporation's annual financial statements; and
 - (v) the external auditors' judgment about the appropriateness and quality, not just the acceptability, of the accounting principles applied in the Corporation's financial reporting;
- d) following such review with management and the external auditors, recommend to the Board whether to approve the audited annual financial statements of the Corporation and the related Management's Discussion and Analysis, and report to the Board on the review by the Committee of the information derived from the financial statements contained in the Annual Information Form and Annual Report;

Interim Financial Statements and MD&A

- e) review with management, the internal auditors and the external auditors the Corporation's interim financial statements and its interim Management's Discussion and Analysis, and if thought fit, approve the interim financial statements and interim Management's Discussion and Analysis and the public release thereof by management;

Earnings Releases, Earnings Guidance

- f) review and discuss earnings press releases, including the use of pro forma or adjusted information determined other than in accordance with accounting principles generally accepted in the United States, and the disclosure by the Corporation of earnings guidance and other financial information to the public including analysts and rating agencies, it being understood that such discussions may, in the discretion of the Committee, be done generally (i.e., by discussing the types of information to be disclosed and the type of presentation to be made) and be satisfied that adequate procedures are in place for the review of such public disclosures and periodically assess the adequacy of those procedures;

Material Litigation, Tax Assessments, Etc.

- g) review with management, the external auditors and, if necessary, legal counsel all legal and regulatory matters and litigation, claims or contingencies, including tax assessments, that could have a material effect upon the financial position of the Corporation, and the manner in which these matters may be, or have been, disclosed in the financial statements; and obtain reports from management and review with the Corporation's chief legal officer, or appropriate delegates, the Corporation's compliance with applicable legal and regulatory requirements;

Oversight of External Auditors

- h) subject to applicable law relating to the appointment and removal of the external auditors, be directly responsible for the appointment, retention, termination and oversight of the external auditors; recommend to the Board the approval of compensation of the external auditors as such compensation relates to the provision of audit services; and be responsible for the resolution of disagreements between management and the external auditors regarding financial reporting;

Rotation of External Auditors Audit Partners

- i) review and evaluate the lead audit partner of the external auditors and assure the regular rotation of the lead audit partner and the audit partner responsible for reviewing the audit and other audit partners, as required by applicable law;

External Auditors Internal Quality Control

- j) obtain and review, at least annually, and discuss with the external auditors a report by the external auditors describing the external auditors' internal quality-control procedures, any material issues raised by the most recent internal quality-control review, or peer review, of the external auditors, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years, respecting one or more independent audits carried out by the external auditors, and any steps taken to deal with any such issues;

External Auditors Independence

- k) review and discuss, at least annually (and prior to the engagement of any new external auditors), with the external auditors all relationships that the external auditors and their affiliates have with the Corporation and its affiliates in order to assess the external auditors' independence, including, without limitation:
 - (i) obtaining and reviewing, at least annually, a formal written statement from the external auditors delineating all relationships that in the external auditors' professional judgment may reasonably be thought to bear on the independence of the external auditors with respect to the Corporation;
 - (ii) discussing with the external auditors any disclosed relationships or services that may affect the objectivity and independence of the external auditors; and
 - (iii) recommending that the Board take appropriate action in response to the external auditors' report to satisfy itself as to the external auditors' independence;

Policies Regarding Hiring of External Auditors' Employees, Former Employees

- l) set clear policies for the hiring by the Corporation of partners, employees and former partners and employees of the external auditors;

Pre-Approval of Audit and Non-Audit Services Provided by External Auditors

- m) be solely responsible for the pre-approval of all audit and non-audit services to be provided to the Corporation and its subsidiary entities by the external auditors (subject to any prohibitions provided in applicable law), and of the fees paid for the non-audit services; provided however, that the Committee may delegate, to an independent member or members of the Committee, authority to pre-approve such non-audit services, and such member(s) shall report to the Committee at its next scheduled meeting following the granting any pre-approvals granted pursuant to such delegated authority;

o) review the external auditors' engagement letter;

Oversight of Internal Audit

p) oversee the internal audit function by being directly responsible for the appointment or dismissal of the Chief Internal Auditor, who shall report directly to the Committee and administratively to the Chief Risk Officer; afford the Chief Internal Auditor unrestricted access to the Committee; review the charter, activities, internal audit plan, organizational structure, and the skills and experience of the Internal Audit Department; discuss with management and the external auditors the competence, performance, resources, and cooperation of the internal auditors; and approve, after discussion with management and proper performance evaluation, the compensation of the Chief Internal Auditor;

q) review and consider, as appropriate, any significant reports and recommendations issued by the Corporation or by any external party relating to internal audit issues, together with management's response thereto;

Internal Controls and Financial Reporting Processes

r) review with management, the internal auditors and the external auditors, the Corporation's financial reporting processes and its internal controls;

s) review with the internal auditors the adequacy of internal controls and procedures related to corporate activities of Directors and officers of the Corporation at the level of Vice-President and above, including related party transactions, expense claims and use of corporate assets, and consider the results of any reviews thereof by the internal or external auditors;

CEO and Chairman Expenses

t) review, at least annually, a report on the expense claims of the Chief Executive Officer, as approved by the Chairman of the Board, and the expense claims of the Chairman of the Board, as approved by the Chair of the Audit Committee;

Complaints Processes

u) establish procedures for:

(i) the receipt, retention and treatment of complaints received by the Corporation regarding accounting, internal accounting controls or auditing matters; and

(ii) the confidential, anonymous submission by employees of the Corporation of concerns regarding questionable accounting or auditing matters;
and review periodically with management and the internal auditors these procedures and any significant complaints received;

Separate Meetings with External Auditors, Internal Audit, Management

- v) meet separately with management, the external auditors and the internal auditors periodically to discuss matters of mutual interest, including any audit problems or difficulties and management's response thereto, the responsibilities, budget and staffing of the Internal Audit Department and any matter that they recommend bringing to the attention of the full Board;

Enterprise Risk Management

- w) discuss risk assessment and risk management policies and processes to be implemented for the Corporation, review with management and the Corporation's internal auditors the effectiveness and efficiency of such policies and processes and their compliance with other relevant policies of the Corporation, and make recommendations to the Board with respect to any outcomes, findings and issues arising in connection therewith;
- x) review management's program to obtain appropriate insurance to mitigate risks;
- y) oversee risks that may have a material impact on the Corporation's financial statements;

Tax

- z) review the Corporation's tax status and strategy as it relates to or has a material impact on the Corporation's financial statements, including tax reserves and potential reassessments and audits;

Codes of Ethics

- aa) monitor compliance with the Corporation's code of business ethics and the code of ethics applicable to the Chief Executive Officer and senior financial officers of the Corporation, as well as waivers from compliance therefrom, and ensure that any issues relating to financial governance which are identified by the Directors are raised with management;

Review of Terms of Reference

- bb) review and reassess the adequacy of these Terms of Reference annually or otherwise as it deems appropriate and recommend changes to the Board;

Other

- cc) perform such other activities, consistent with these Terms of Reference, the Corporation's articles and by-laws and governing law, as the Committee or the Board deems appropriate; and
