Item 2.02 Results of Operations and Financial Condition.

On February 5, 2018, Leggett & Platt, Incorporated issued a press release announcing its financial results for the fourth quarter and year ended December 31, 2017. The press release is attached as Exhibit 99.1 and is incorporated herein by reference.

This information is being furnished and shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that section. This information shall not be incorporated by reference into any document filed under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

On February 6, 2018, the Company will hold an investor conference call to discuss its fourth quarter and year-end results, annual guidance and related matters.

The press release contains the Company's Net Debt to Net Capital ratio, Total Debt or (Long term debt + current maturities)/Adjusted EBITDA (trailing twelve months) ratio, Adjusted EPS, Adjusted EBIT, Adjusted EBIT Margin, and Adjusted EBITDA (trailing twelve months).

Company management believes the presentation of Net Debt to Net Capital provides investors a useful way to evaluate the Company's debt leverage if the Company was to use its cash to pay down debt. The Company's cash has fluctuated, sometimes significantly, from period to period. Management uses this ratio as supplemental information to track leverage trends across time periods with variable levels of cash. Because we may not be able to use our cash to reduce our debt on a dollar-for-dollar basis, the Net Debt to Net Capital ratio may have material limitations.

Company management believes the presentation of Total Debt or (Long term debt + current maturities)/Adjusted EBITDA (trailing twelve months) provides investors a useful way to assess the time it would take the Company to pay off all of its debt, ignoring various factors including interest and taxes. Management uses this ratio as supplemental information to assess its ability to pay off its incurred debt.

Company management believes the presentation of Adjusted EPS, Adjusted EBIT, Adjusted EBIT Margin and Adjusted EBITDA (trailing twelve months) is useful to investors in that it aids investors' understanding of underlying operational profitability. Management uses these non-GAAP measures as supplemental information to assess the Company's operational performance.

The above non-GAAP measures may not be comparable to similarly titled measures used by other companies and should not be considered a substitute for, or more meaningful than, their GAAP counterparts.

Item 7.01 Regulation FD Disclosure.

The information provided in Item 2.02, including Exhibit 99.1, is incorporated herein by reference.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.
