Report of Independent Registered Public Accounting Firm

To the Administrator and Plan Participants of

RBC U.S.A. Retirement and Savings Plan

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of RBC U.S.A. Retirement and Savings plan (the Plan) as of December 31, 2017 and December 31, 2016 and the related statement of changes in net assets available for benefits for the year ended December 31, 2017, including the related notes (collectively referred to as the financial statements). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and December 31, 2016, and the changes in net assets available for benefits for the year ended December 31, 2017 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on the Plan s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental Information

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2017 and Schedule of Delinquent Participant Contributions for the Year Ended December 31, 2017 have been subjected to audit procedures performed in conjunction with the audit of the Plan s financial statements. The supplemental schedules are the responsibility of the Plan s management. Our audit procedures included determining whether the supplemental schedules reconcile to the financial statements or the underlying accounting and other recodes, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedules. In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor s Rules

RBC U.S.A. RETIREMENT AND SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the RBC U.S.A. Retirement and Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for complete information regarding the Plan's definitions, benefits, eligibility, and other matters.

General The Plan is a defined contribution plan covering all eligible employees for RBC Wealth Management, RBC Capital Markets, the U.S. office of Royal Bank of Canada, RBC Real Estate Finance Inc., and RBC Bank (Georgia) (the RBC Companies or the Company) in the United States. The Plan Sponsor is RBC Holdco. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (the Code). Fidelity Investments Institutional Operations Company, Inc. is the Plan's Administrator and Fidelity Management Trust Company is the Plan's Trustee. The USA Pensions and Benefits Committee (the Committee) provides oversight of the plan.

Eligibility Employees may make pretax and after-tax contributions to the Plan upon hire. Eligible employees receive employer matching contributions beginning the first of the month following one year of service.

Contributions Employees may contribute up to 50% of their compensation to the Plan on a pretax basis or on an after-tax basis to their Roth 401(k) account. In addition, employees may also contribute up to 5% of their compensation to the Plan on an after-tax basis. Participant contributions are subject to maximum amounts as described in the Code, which was \$18,000 for the 2016 and 2017 plan years. Employees who have attained age 50 before the end of the plan year may also elect to make pretax and/or Roth 401(k) catch-up contributions up to 100% of compensation. Catch-up contributions were subject to an annual limit of \$6,000 under Internal Revenue Service (IRS) regulations during 2017. Catch-up contributions are not subject to RBC Companies' matching contributions. Employees may also contribute to the Plan by making rollover contributions, which represent distributions from other qualified plans.

A fixed matching contribution is paid by the RBC Companies throughout the year as eligible employees make deferrals that are equal to one dollar for every dollar of a participant's pretax contribution or after-tax Roth 401(k) contribution, up to a maximum of 6% of participant compensation. All matching contributions are invested in accordance with participant investment elections.

Employees who have not enrolled in the Plan by the time they become eligible for company match are automatically enrolled for a 3% pretax contribution. If no investment elections are in place, the contribution is allocated to the appropriate JPMorgan SmartRetirement fund based on a normal age 65 retirement. Employees may opt out of this automatic enrollment. Additionally, employees may request a refund of an automatically enrolled amount if they make that request within 90 days of the initial contribution and the related company match would be forfeited.

Employee and employer contributions are limited to the extent necessary to comply with the applicable sections of the Code. Financial Consultants, Financial Advisors, Branch Manager, Regional Directors, or Complex Directors employed by RBC Capital Markets, LLC, are not eligible for fixed matching contributions. After-tax contributions (excluding Roth 401(k)) and catch-up contributions are not eligible for fixed matching contributions.

Table of Contents

Participant Accounts Individual accounts are maintained for each Plan participant. Each participant account is credited with the participant's voluntary pretax and/or after-tax contributions, Roth 401(k) after-tax contributions, the RBC Companies' fixed matching contributions, fund earnings and/or losses, and charged with withdrawals and an allocation of fund losses.

Investments Participants may direct and redirect the balance of their account and contributions into any of the Plan's 26 investment options, including the Fidelity BrokerageLink investment option. The Fidelity BrokerageLink investment is a self-directed mutual fund brokerage account, which participants may choose to invest in a variety of eligible registered mutual funds. Investment elections may be changed by the participant daily. Participants may change the investment of accounts or portions of accounts, including the RBC Common Stock dividends, from the RBC Stock Fund (the Company's unitized common stock fund which invests in RBC shares) into one or more other investment funds. The various investment options available to the participants include the RBC Stock Fund, mutual funds including target date funds, common collective trusts and Fidelity BrokerageLink.

Vesting Participants are immediately vested in their pretax contributions, Roth 401(k) contributions, after-tax contributions, and rollover contributions, plus earnings thereon. Participants are 25% vested in the fixed employer matching contributions after two years of service and vest in 25% increments per year thereafter. All participants are fully vested after five years of service. In addition, all participants become fully vested upon death or disability, attaining retirement age, or if the Plan is terminated.

Forfeitures After a participant's termination of employment, the unvested portion of the participant's account, if any, is forfeited at the time the participant takes a distribution from the Plan or is forfeited at the request of RBC. Forfeited amounts are retained in the Plan and used to reduce future RBC Companies' contributions or to pay administrative expenses of the Plan. Forfeitures of \$1,656,826 were used to reduce RBC Companies' contributions for the Plan year ended December 31, 2017. Forfeiture account balances were \$1,943,043 and \$282,724 as of December 31, 2017 and 2016, respectively.

The following summarizes the changes in the forfeiture accounts for the Plan year ended December 31, 2017:

| | 2017 |
|--|---------------------|
| Forfeiture accounts: | |
| Additions to forfeiture accounts | \$ 3,702,237 |
| Forfeitures used for employer contributions | (1,656,826) |
| Forfeitures used for administrative expenses | (385,092) |
| Net increase in forfeiture accounts | \$ 1,660,319 |

If a participant is rehired by the RBC Companies or by an affiliate within five years after termination, the participant shall receive a full restoration of the amount previously forfeited.

Notes Receivable from Participants Participants may borrow from their vested account balance an amount not to exceed the lesser of 50% of their vested account balance or \$50,000 reduced by the highest outstanding loan balance within the past year. Additionally, the minimum loan amount is \$1,000. The normal maximum loan repayment period is five years. If the purpose of the loan is to acquire a principal residence, then the loan repayment period shall not exceed 15 years. In general, participants are limited to one loan from their vested account balance. A second loan is permitted if used for the

Table of Contents

acquisition of a principal residence. Interest on participant loans is fixed and is based on the Reuters published prime rate, plus 1% at the time of the loan. Current interest on loans ranges from 4.25% to 9.25%. Loans are due at various dates through 2032. Loans are generally repaid through regular payroll deductions and are deemed to be in default if payments are greater than 90 days past due.

Payment of Benefits Upon termination of employment, participants may generally request a lump-sum distribution of the employee pretax, Roth 401(k) and after-tax contributions account balances. Each participant who has terminated employment and whose vested account balance is less than \$1,000 will automatically receive a lump-sum payment. If a participant's account balance is greater than \$1,000 but less than \$5,000, it is automatically rolled to a Fidelity Individual Retirement Account unless elected otherwise. Participants may also request in-service distributions, which are limited to the employee pretax, Roth 401(k), after-tax, catch-up, Roth catch-up and rollover contributions (excluding investment earnings on pretax, Roth 401(k), catch-up and Roth catch-up contributions) account balance, for financial hardship purposes as defined by the Plan. In addition, eligible participants between ages 50 and 59 1/2 may request special distribution of certain amounts from the Plan, subject to minimum service requirements. Participants may withdraw vested matching amounts that have been in their account for at least 24 months. Distributions from the Plan are generally made in cash, except for the RBC Stock Fund where participants can choose to have their value paid in cash or RBC common shares.

Dividend Reinvestment Participants can elect to have quarterly dividends paid on RBC stock in the RBC Stock Fund to be either reinvested or paid out in cash. Reinvested dividends have no current tax consequence to the Plan or participants. The dividends are included in interest and dividends. Dividends that are paid out in cash are considered taxable income in the year that they are paid. Total amount of dividends paid out for the year ended December 31, 2017, and included in benefits paid to participants, was \$1,293,145.

Voting Rights Participants who have accounts invested in the RBC Stock Fund will receive the same information as is distributed to other shareholders of RBC. Each participant with an interest in the RBC Stock Fund will have the right, in accordance with and subject to the terms of the Plan, to direct the trustee of the Plan to vote the whole common shares represented by his or her interest in the fund. The trustee will vote the RBC common shares as to which voting directions are not received from participants in the same proportion as it votes the shares as to which voting directions are received from participants.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The Plan's financial statements and supplemental schedule have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Contributions Participant and RBC Companies' fixed matching contributions are recorded in the period the employer makes the payroll deductions. Employer match true-up contributions are recorded as a receivable for the period to which they are related. Participant accounts are credited with the true-up contribution in the following year. In the event of a delinquent participant contribution, actual lost earnings are determined and recorded in the effected participant's account to make the participant whole. If negative earnings are calculated on a delinquent participant contributions, it will not be taken from the participant's balance.

Benefits Paid to Participants Benefit payments to participants are recorded upon distribution. There were participants, who elected to withdraw from the Plan, who had not yet been paid as of December 31, 2017. The unpaid amount was \$476,691 and \$0 for the years ended December 31, 2017 and 2016, respectively.

Table of Contents

Investment Valuation and Income Recognition The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end. The US Benefits Committee determines the Plan's valuation policies utilizing information provided by the Trustee. Common collective trust funds are stated at fair value as determined by the issuer of the common/collective trust. The RBC Stock Fund is valued based on the underlying assets as shown in Note 3. The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. Notes receivable will be subject to any origination and periodic maintenance fees charged by the Trustee and record keeper and approved by the Committee. The origination fee will be an administrative fee charged to the Participant's Account.

Administrative Expenses Administrative expenses are paid by the Plan Sponsor through the use of forfeitures as provided in the second amendment to the Trust Agreement between Trustee and the Plan Sponsor. Additionally, certain transaction costs for loans and investment redemptions are paid by the participants via reduction of participant account balances.

Use of Estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties The Plan provides for various investment options in shares of registered investment companies, common collective trusts, and RBC Stock Fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

New Accounting Standards In January 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2016-01, *Financial Instruments - Overall (Subtopic 825-10) Recognition and Measurement of Financial Assets and Financial Liabilities* (ASU 2016-01). ASU 2016-1 requires all equity investments to be measured at fair value with changes in fair value recognized in net income. ASU 2016-01 is effective for entities other than public business entities for fiscal years beginning after December 15, 2018 using a modified-retrospective approach that requires that the transition to the amendments be effected by a cumulative-effect adjustment to the statement of financial

Table of Contents

position as of the beginning of the fiscal year in which guidance is adopted. Early application is permitted for non-public business entities as for fiscal years beginning after December 15, 2017. As all equity investments are already measured at fair value with changes recognized in net income this ASU is not expected to have a material impact on our Financial Statements.

In June 2016, the FASB issued Accounting Standards Update 2016-13, *Financial Instruments – Credit Losses (Topic 326) Measurement of Credit Losses on Financial Instruments* (ASU 2016-13). This Update requires financial assets measured at amortized cost to be presented at the net amount expected to be collected. This is a change from the incurred loss model to instead record all expected losses over the life of the asset. ASU 2016-13 is effective for entities other than public business entities for fiscal years beginning after December 15, 2020 using a modified-retrospective approach that requires that the transition to the amendments be effected by a cumulative-effect adjustment to the statement of financial position as of the beginning of the fiscal year in which guidance is effective. Early application is permitted for fiscal years beginning after December 15, 2018. We are currently assessing the impact of adopting this standard on our Financial Statements, but we do not expect it to have a material impact as the only assets in scope are Notes Receivables from Participants.

3. INVESTMENTS

The following summarizes the components of the RBC Common Stock Fund, at December 31, 2017 and 2016:

| | 2017 | 2016 |
|--|----------------|----------------|
| Royal Bank of Canada Common Stock Fund: | | |
| Royal Bank of Canada common stock | \$ 403,901,648 | \$ 347,645,484 |
| Fidelity institutional cash money market funds | 8,816,550 | 6,169,851 |
| Net receivables | | 53,404 |
| Net payables | (431,358) | |
| Total | \$ 412,276,712 | \$ 353,888,810 |

The RBC Common stock fund appreciated \$52,283,468 during Plan year ended December 31, 2017 primarily due to the increase in RBC common stock share price. RBC common stock share price was \$81.65 and \$67.71 at December 31, 2017 and 2016, respectively.

4. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity is the Trustee as defined by the Plan. RBC is the Plan Sponsor. These transactions qualify as exempt party-in-interest transactions, as defined by ERISA. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

At December 31, 2017 and 2016, the Plan held 4,946,744 and 5,134,330 shares, respectively, of common stock of RBC, with a cost basis of \$220,574,823 and \$214,470,390 respectively. During the year ended December 31, 2017, the Plan recorded dividend income of \$13,491,140 from the RBC Common Stock Fund. These transactions qualify as exempt party-in-interest transactions. During 2017 and 2016, the Plan's stock fund had the following transactions related to the Plan sponsor's common stock:

Table of Contents

| | 2017 | 2016 |
|------------------------------------|---------------|---------------|
| Number of common shares purchased | | 55,100 |
| Cost of common shares purchased | \$ | \$ 2,568,856 |
| Number of common shares sold | 187,586 | 203,055 |
| Market value of common shares sold | \$ 13,755,521 | \$ 12,245,894 |
| Cost of common shares sold | \$ 4,845,271 | \$ 5,244,155 |

The Company remitted participant contributions of \$78,118 and \$100 to the trustee on various dates in 2017 and 2018 respectively which were later than required by Department of Labor (DOL) Regulation 2510.3 102. The Company filed Form 5330 with the IRS and paid the required excise tax on the transaction. In addition, participant accounts were credited with the amount of investment income that would have been earned had the participant contribution been remitted on a timely basis.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the RBC Companies have the right under the Plan to discontinue contributions at any time and to amend or terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants will become fully vested in their account balances.

6. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuations techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets for liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

quoted prices for similar assets or liabilities in active markets;

quoted prices for identical or similar assets or liabilities in inactive markets;

inputs other than quoted prices that are observable for the asset or liability;

inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Edgar Filing: ROYAL BANK OF CANADA - Form 11-K

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

- 10 -

Table of Contents

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2017 and 2016.

| | Quoted Prices in Active Markets for Identical Assets (Level 1) | 2017 Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) | Total |
|---|---|--|--|-------------------|
| Common stock | \$ 408,901,648 | \$ | \$ | \$ 408,901,648 |
