MLP & Strategic Equity Fund Inc. Annual Report October 31, 2008

Fund Profile as of October 31, 2008

Fund Information	
Symbol on New York Stock Exchange (NYSE)	MTP
Initial Offering Date	June 29, 2007
Yield on Closing Market Price as of October 31, 2008 (\$13.00)*	9.23%
Current Monthly Distribution per share of Common Stock**	\$.10
Current Annualized Distribution per share of Common Stock**	\$1.20

Yield on closing market price is calculated by dividing the current annualized distribution per share by the closing market price. Past performance does not guarantee future results.

** The distribution is not constant and is subject to change. A substantial portion of the distribution may be deemed a tax return of capital or net realized gain at fiscal year end.

The table below summarizes the changes in the Fund s market price and net asset value for the twelve-month period:

	10/31/08 (a)	10/31/07	Change(b)	High	Low
Market Price(c)	\$13.00	\$16.24	(19.95%)	\$16.67	\$7.00
Net Asset Value	\$11.70	\$18.06	(35.22%)	\$18.06	\$8.57

(a) For the year, the Common Stock of the Fund had a total investment return of (29.45%) based on net asset value per share and (12.82%) based on market price per share, assuming reinvestment of distributions. For the same period, the most commonly referenced index of publicly traded master limited partnership (MLP) securities had a total investment return of (23.65%) and has no expenses associated with performance.

(b) Does not include reinvestment of distributions.

(c) Primary Exchange Price, NYSE.

MLP & STRATEGIC EQUITY FUND INC.

A Summary From Your Fund s Portfolio Managers

We are pleased to provide you with this shareholder report for MLP & Strategic Equity Fund Inc. The Fund is advised by IQ Investment Advisors LLC and sub-advised by Fiduciary Asset Management.

The investment objective of MLP & Strategic Equity Fund Inc. (the Fund) is to provide a high level of after-tax total return by investing substantially all of its net assets in a portfolio of publicly traded master limited partnerships (MLPs) operating in the energy infrastructure sector of the market. To enhance its returns, when market conditions are favorable, the Fund will enter into variable prepaid forward contracts (Forward Contracts), with terms of approximately one year, to sell particular equity securities that the Fund will strategically purchase with the proceeds of the Forward Contracts. At the maturity of the most recent contracts in 2008, market conditions were unfavorable and the Fund did not re-enter into the Forward Contracts.

For the annual period ended October 31, 2008, the Common Stock of the Fund had a total investment return as set forth in the table below, based on the change per share in net asset value from \$18.06 to \$11.70. For the same period, the Fund s most commonly referenced index of publicly-traded MLP securities had a total investment return as shown below. All of the Fund and index information presented includes the reinvestment of any dividends or distributions. Distribution information may be found in the Notes to Financial Statements, Note 6.

		Commonly Referenced	
Period	Fund*	Index**	Difference
Fiscal year ended			
October 31, 2008	(29.45%)	(23.65%)	(5.80%)
Year to Date	(25.25%)	(20.98%)	(4.27%)
Inception through			
October 31, 2008 * Fund performance is net of expenses.	(32.11%)	(26.27%)	(5.84%)

** No expenses are associated with performance.

Despite relatively strong fundamentals, MLP valuations decoupled from business performance during the period, reflecting investor uncertainty in regards to the broader markets and the economy as a whole.

For more detail with regard to the Fund s total investment return based on a change in the per share market value of the Fund s Common Stock (as measured by the trading price of the Fund s shares on the New York Stock Exchange), please refer to the Financial Highlights section of this report.

In a press release dated September 29, 2008, the Fund indicated that due primarily to market conditions preventing the effective use of the Fund s Forward Contracts, the Fund no longer qualifies as a regulated investment company pursuant to Subchapter M of the Internal Revenue Code for the taxable year ended October 31, 2008. We do not believe that this event had any detrimental effect on the performance of the Fund this year.

As a closed-end fund, the Fund s shares may trade in the secondary market at a premium or discount to the Fund s net asset value. As a result, total investment returns based on changes in the market value of the Fund s Common Stock can vary significantly from total investment returns based on changes in the Fund s net asset value.

Notes to Financial Statements

1. Significant Accounting Policies:

MLP & Strategic Equity Fund Inc. (the Fund) is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company. The Fund pursues its investment objective by investing substantially all of its net assets in publicly traded master limited partnerships (MLPs). To enhance its returns, the Fund normally enters into variable prepaid forward contracts (Forward Contracts) with terms of approximately one year, to sell particular equity securities that the Fund will strategically purchase with the proceeds of the Forward Contracts. Due to the market conditions, the Fund did not replace the expiring Forward Contracts during the current fiscal year ended October 31, 2008. Please see Note 1(e) for additional information. The Fund s financial statements are prepared in conformity with U.S. generally accepted accounting principles, which may req uire the use of management accruals and estimates. Actual results may differ from these estimates. All cash balances are invested on a daily basis in a money market fund. The Fund determines and makes available for publication the net asset value of its Common Stock on a daily basis. The Fund s Common Stock shares are listed on the New York Stock Exchange (NYSE) under the symbol MTP. The following is a summary of significant accounting policies followed by the Fund:

(a) Valuation of investments Portfolio securities that are held by the Fund that are traded on stock exchanges or the NASDAQ Global Market are valued at the last sale price or official close price on the exchange, as of the close of business on the day the securities are being valued or, lacking any sales, at the last available bid price for long positions, and at the last available asked price for short positions. In cases where securities are traded on more than one exchange, the securities are valued on the exchange designated as the primary market by or under the authority of the Board of Directors of the Fund. Long positions traded in the over-the-counter (OTC) market, NASDAQ Capital Market or Bulletin Board are valued at the last available bid price or yield equivalent obtained from one or more dealers or pricing services approved by the Board of Directors of the Fund. Short positions traded in the OTC market are valued at the last available asked price. Portfolio securities that are traded both in the OTC market and on an exchange are valued according to the broadest and most representative market. Other investments are valued at market value.

Exchange-traded options are valued at the mean between the last bid and ask prices at the close of the option market. Options traded in the OTC market are valued at the last asked price (options written) or the last bid price (options purchased). Swap agreements and variable prepaid forward contracts are valued based upon quoted fair valuations received daily by the Fund from a pricing service or counter-party. Financial futures contracts and options thereon, which are traded on exchanges, are valued at their last sale price as of the close of such exchanges. Valuation of short-term investment vehicles is generally based on the net asset value of the underlying investment vehicle or amortized cost.

The Fund may employ pricing services to provide certain securities prices for the Fund. Securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund, including valuations furnished by the pricing services retained by the Fund, which may use a matrix system for valuations. The procedures of a pricing service and its valuations are reviewed by the officers of the Fund under the general supervision of the Fund s Board of Directors. Such valuations and procedures will be reviewed periodically by the Board of Directors of the Fund.

Generally, trading in foreign securities, as well as U.S. government securities, money market instruments and certain fixed-income securities is substantially completed each day at various times prior to the close of business on the NYSE. The values of such securities used in computing the net asset value of the Fund s shares are determined as of such times. Foreign currency exchange rates will generally be determined as of the close of business on the NYSE. Occasionally, events affecting the values of such securities and such exchange rates may occur between the times at which they are determined and the close of business on the NYSE that may not be reflected in the computation of the Fund s net asset value. If events (for example, a company announcement, market volatility or a natural disaster) occur during such periods that are expected to materially affect the value of such securities, those securities will be valued at their fair value as determined in good faith by the Fund s Board of Directors or by the investment adviser using a pricing service and/or procedures approved by the Fund s Board of Directors.

(b) Master Limited Partnerships The Fund will purchase both domestic and international MLPs. The Fund s investment in MLPs may include ownership of MLP common units and MLP subordinated units. The Fund also may purchase MLP I-Shares (together with the MLPs, the MLP Entities). MLP I-Shares are pay-in-kind securities created as a means to facilitate institutional ownership of MLPs by simplifying the tax and administrative implications of the MLP structure.
