(3) Comprised of shares of common stock held by Deerfield Partners, L.P. and Deerfield International Master Fund, L.P.

Item 1(a). Name of Issuer:

Lannett Company, Inc.

Item 1(b). Address of Issuer's Principal Executive Offices:

9000 State Road

Philadelphia, PA 19136

Item 2(a). Name of Person Filing:

James E. Flynn, Deerfield Mgmt, L.P., Deerfield Management Company, L.P., Deerfield Partners, L.P. and Deerfield International Master Fund, L.P.

Item 2(b). Address of Principal Business Office, or if None, Residence:

James E. Flynn, Deerfield Mgmt, L.P., Deerfield Management Company, L.P., Deerfield Partners, L.P., Deerfield International Master Fund, L.P. 780 Third Avenue, 37th Floor, New York, NY 10017

Item 2(c). Citizenship:

Deerfield Mgmt, L.P., Deerfield Management Company, L.P. and Deerfield Partners, L.P. - Delaware limited partnerships;

Deerfield International Master Fund, L.P. - British Virgin Islands limited partnership;

James E. Flynn – United States citizen

Item 2(d). Title of Class of Securities:

Common Stock

Item 2(e). CUSIP Number:

516012101

Item 3. If This Statement is Filed Pursuant to Rule 13d-1(b), or 13d-2(b) or (c), Check Whether the Person Filing is a:

(a) Broker or dealer registered under Section 15 of the Exchange Act.

(b) Bank as defined in Section 3(a)(6) of the Exchange Act.

(c) Insurance company as defined in Section 3(a)(19) of the Exchange Act.

(d) Investment company registered under Section 8 of the Investment Company Act.

(e) An investment adviser in accordance with Rule 13d-1(b)(1)(ii)(E);

(f) An employee benefit plan or endowment fund in accordance with Rule 13d-1(b)(1)(ii)(F);

(g) A parent holding company or control person in accordance with Rule 13d-1(b)(1)(ii)(G);

(h) A savings association as defined in Section 3(b) of the Federal Deposit Insurance Act;

(i) A church plan that is excluded from the definition of an investment company under Section 3(c)(14) of the Investment Company Act;

(j) A non-U.S. institution in accordance with Rule 13d-1(b)(1)(ii)(J);

(k) Group, in accordance with Rule 13d-1(b)(1)(ii)(K).

If filing as a non-U.S. institution in accordance with Rule 13d-1(b)(1)(ii)(J), please specify the type of institution: ________________

Item 4. Ownership.

Provide the following information regarding the aggregate number and percentage of the class of securities of the issuer identified in Item 1.

(a) Amount beneficially owned**:

Deerfield Mgmt, L.P. – 3,087,587 shares

Deerfield Management Company, L.P. – 3,087,587 shares

Deerfield Partners, L.P. – 1,997,669 shares

Deerfield International Master Fund, L.P. – 1,089,918 shares

James E. Flynn – 3,087,587 shares

(b) Percent of class**:

Deerfield Mgmt, L.P. – 8.28%

Deerfield Management Company, L.P. – 8.28%

Deerfield Partners, L.P. – 5.36%

Deerfield International Master Fund, L.P. – 2.92%

James E. Flynn – 8.28%

(c) Number of shares as to which such person has**:

(i) Sole power to vote or to direct the vote: All Reporting Persons 0

(ii) Shared power to vote or to direct the vote: Deerfield Mgmt, L.P. – 3,087,587

	Deerfield Management Company, L.P. – 3,087,587
	Deerfield Partners, L.P. – 1,997,669
	Deerfield International Master Fund, L.P. – 1,089,918
	James E. Flynn - 3,087,587
(iii) Sole power to dispose or to direct the disposition of:	All Reporting Persons - 0
(iv) Shared power to dispose or to direct the disposition of:	Deerfield Mgmt, L.P. – 3,087,587 Deerfield Management Company, L.P. – 3,087,587 Deerfield Partners, L.P. – 1,997,669 Deerfield International Master Fund, L.P. – 1,089,918 James E. Flynn - 3,087,587

**See footnotes on cover pages which are incorporated by reference herein.

Item 5. Ownership of Five Percent or Less of a Class.

If this statement is being filed to report the fact that as of the date hereof the reporting person has ceased to be the beneficial owner of more than five percent of the class of securities check the following .

Item 6. Ownership of More Than Five Percent on Behalf of Another Person.

If any other person is known to have the right to receive or the power to direct the receipt of dividends from, or the proceeds from the sale of, such securities, a statement to that effect should be included in response to this item and, if such interest relates to more than five percent of the class, such person should be identified. A listing of the shareholders of an investment company registered under the Investment Company Act of 1940 or the beneficiaries of employee benefit plan, pension fund or endowment fund is not required.

N/A

Item 7. Identification and Classification of the Subsidiary Which Acquired the Security Being Reported on by the Parent Holding Company or Control Person.

If a parent holding company or Control person has filed this schedule, pursuant to Rule 13d-1(b)(1)(ii)(G), so indicate under Item 3(g) and attach an exhibit stating the identity and the Item 3 classification of the relevant subsidiary. If a parent holding company or control person has filed this schedule pursuant to Rule 13d-1(c) or Rule 13d-1(d), attach an exhibit stating the identification of the relevant subsidiary.

N/A

Item 8. Identification and Classification of Members of the Group.

If a group has filed this schedule pursuant to ss.240.13d-1(b)(1)(ii)(J), so indicate under Item 3(j) and attach an exhibit stating the identity and Item 3 classification of each member of the group. If a group has filed this schedule pursuant to ss.240.13d-1(c) or ss.240.13d-1(d), attach an exhibit stating the identity of each member of the group.

See Exhibit B

Item 9. Notice of Dissolution of Group.

Notice of dissolution of a group may be furnished as an exhibit stating the date of the dissolution and that all further filings with respect to transactions in the security reported on will be filed, if required, by members of the group, in their individual capacity. See Item 5.

N/A

Item 10. Certifications.

"By signing below I certify that, to the best of my knowledge and belief, the securities referred to above were not acquired and are not held for the purpose of or with the effect of changing or influencing the control of the issuer of the securities and were not acquired and are not held in connection with or as a participant in any transaction having that purpose or effect, other than activities solely in connection with a nomination under §240.14a–11."

Earnings per common share—diluted (3)	2.32	1.78	4.22	3.30

(1) Our consolidated statements of income for the three and six months ended June 30, 2016 were modified from prior period's presentation to conform to the current period's presentation, which reflects our provision for loan losses and provision for unfunded credit commitments together as our “provision for credit losses”. In prior periods, our provision for unfunded credit commitments were reported as a component of noninterest expense.

(2) Our consolidated statements of income for the three and six months ended June 30, 2016 were modified from prior period's presentation to conform to the current period's presentation, which reflects a new line item to separately disclose net gains on equity warrant assets. In prior periods, net gains on equity warrant assets were reported as a component of gains on derivative instruments, net. We removed the line item gains on derivative instruments, net and reclassified all other gains on derivative instruments, net to other noninterest income.

Table of Contents

(3) Included in income tax expense, net income available to common shareholders, earnings per common share-basic and earnings for common share-diluted, for the three and six months ended June 30, 2017, are tax benefits recognized associated with the adoption of Accounting Standards Update ("ASU") 2016-09, Improvements to Employee Share-Based Payment Accounting in the first quarter of 2017. This guidance was adopted on a prospective basis with no change to prior period amounts.

See accompanying notes to interim consolidated financial statements (unaudited).

Balance at June 30, 2017	52,684,159	$ 53	$ 1,283,485	$ 2,601,007	$ 14,890	$ 3,899,435	$ 140,600	$ 4,040,035

(1) During the first quarter of 2017 we adopted ASU 2016-09, Improvements to Employee Share-Based Payment Accounting. The amendments in this ASU require that all excess tax benefits and tax deficiencies associated with share-based compensation be recognized in income tax expense or benefit in the income statement. Previously, tax effects resulting from changes in the Company's share price subsequent to grant date of share-based compensation awards were recorded through additional paid-in-capital in stockholders' equity at the time of vesting and exercise. This guidance was adopted on a prospective basis with no change to prior period amounts. See Note 1—"Basis of Presentation" of the "Notes to Interim Consolidated Financial Statements (unaudited)" under Part I, Item 1 of this report for additional details.

See accompanying notes to interim consolidated financial statements (unaudited).

SVB FINANCIAL GROUP AND SUBSIDIARIES
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
1. Basis of Presentation
SVB Financial Group is a diversified financial services company, as well as a bank holding company and a financial holding company. SVB Financial was incorporated in the state of Delaware in March 1999. Through our various subsidiaries and divisions, we offer a variety of banking and financial products and services to support our clients of all sizes and stages throughout their life cycles. In these notes to our consolidated financial statements, when we refer to "SVB Financial Group," "SVBFG", the "Company," "we," "our," "us" or use similar words, we mean SVB Financial Group and all of its subsidiaries collectively, including Silicon Valley Bank (the "Bank"), unless the context requires otherwise. When we refer to "SVB Financial" or the "Parent" we are referring only to the parent company, SVB Financial Group (not including subsidiaries).
The accompanying unaudited interim consolidated financial statements reflect all adjustments of a normal and recurring nature that are, in the opinion of management, necessary to fairly present our financial position, results of operations and cash flows in accordance with GAAP. Such unaudited interim consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q pursuant to the rules and regulations of the SEC. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. The results of operations for the three and six months ended June 30, 2017 are not necessarily indicative of results to be expected for any future periods. These unaudited interim consolidated financial statements should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2016 ("2016 Form 10-K").
The accompanying unaudited interim consolidated financial statements have been prepared on a consistent basis with the accounting policies described in Consolidated Financial Statements and Supplementary Data—Note 2—"Summary of Significant Accounting Policies" under Part II, Item 8 of our 2016 Form 10-K.
The preparation of unaudited interim consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates may change as new information is obtained. Significant items that are subject to such estimates include measurements of fair value, the valuation of non-marketable securities, the valuation of equity warrant assets, the adequacy of the allowance for loan losses and allowance for unfunded credit commitments, and the recognition and measurement of income tax assets and liabilities.
Principles of Consolidation and Presentation
Our consolidated financial statements include the accounts of SVB Financial Group and consolidated entities. We consolidate voting entities in which we have control through voting interests or entities through which we have a controlling financial interest in a variable interest entity ("VIE"). We determine whether we have a controlling financial interest in a VIE by determining if we have: (a) the power to direct the activities of the VIE that most significantly impact the entity's economic performance, (b) the obligation to absorb the expected losses, or (c) the right to receive the expected returns of the entity. Generally, we have significant variable interests if our commitments to a limited partnership investment represent a significant amount of the total commitments to the entity. We also evaluate the impact of related parties on our determination of variable interests in our consolidation conclusions. We consolidate VIEs in which we are the primary beneficiary based on a controlling financial interest. If we are not the primary beneficiary of a VIE, we record our pro-rata interests or our cost basis in the VIE, as appropriate, based on other accounting guidance within GAAP.
VIEs are entities where investors lack sufficient equity at risk for the entity to finance its activities without additional subordinated financial support or equity investors, as a group, lack one of the following characteristics: (a) the power to direct the activities that most significantly impact the entity's economic performance, (b) the obligation to absorb the expected losses of the entity, or (c) the right to receive the expected returns of the entity. We assess VIEs to determine if we are the primary beneficiary of a VIE. A primary beneficiary is defined as a variable interest holder that has a controlling financial interest. A controlling financial interest requires both: (a) power to direct the activities that most

significantly impact the VIE's economic performance, and (b) obligation to absorb losses or receive benefits of a VIE that could potentially be significant to a VIE. Under this analysis, we also evaluate kick-out rights and other participating rights which could provide us a controlling financial interest. The primary beneficiary of a VIE is required to consolidate the VIE.

We also evaluate fees paid to managers of our limited partnership investments. We exclude those fee arrangements that are not deemed to be variable interests from the analysis of our interests in our investments in VIEs and the determination of a primary beneficiary, if any. Fee arrangements based on terms that are customary and commensurate with the services provided are deemed not to be variable interests and are, therefore, excluded.

Table of Contents

All significant intercompany accounts and transactions with consolidated entities have been eliminated. We have not provided financial or other support during the periods presented to any VIE that we were not previously contractually required to provide.

Adoption of New Accounting Standards

In March 2016, the FASB issued a new accounting standard update (ASU 2016-09, Improvements to Employee Share-Based Payment Accounting (Topic 718)), which includes provisions intended to simplify various aspects related to how share-based payments are accounted for and presented in the financial statements, including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows. Under the ASU, an entity recognizes all excess tax benefits and tax deficiencies as income tax expense or benefit in the income statement in the period when the awards vest or are settled. The guidance also permits an entity to make an accounting policy election to either estimate the number of awards that are expected to vest or account for forfeitures when they occur. We adopted this guidance on January 1, 2017 and elected to estimate the number of awards that are expected to vest which, is consistent with the previous accounting guidance. In addition, we also elected to apply the amendments related to the presentation of excess tax benefits on the statement of cash flows using the prospective transition method.

Previously, tax effects resulting from changes in the Company's share price subsequent to grant date of share-based compensation awards were recorded through additional paid-in capital in stockholders' equity at the time of vesting and exercise. The adoption of the amended accounting guidance resulted in a $7.0 million and $13.1 million reduction of income tax expense (that previously would have been reflected as additional paid-in capital), or a benefit of $0.13 and $0.25 per diluted common share, for the three and six months ended June 30, 2017, respectively. We expect the impact of this amendment will vary period to period depending on the volatility of the Company's stock price and the timing of vesting and/or settlement of awards.

Recent Accounting Pronouncements

In May 2014, the FASB issued a new accounting standard update (ASU 2014-09, Revenue from Contracts with Customers (Topic 606)), which provides revenue recognition guidance that is intended to create greater consistency with respect to how and when revenue from contracts with customers is shown in the income statement. In March 2016, the FASB issued a new accounting standard update (ASU 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)), which further clarifies ASU 2014-09 by providing implementation guidance on principal versus agent evaluation. In April 2016, the FASB issued a new accounting standard update (ASU 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing), which amends the new revenue recognition guidance on accounting for licenses of intellectual property and identifying performance obligations. These amendments will be effective January 1, 2018, either on a full retrospective approach or a modified retrospective approach. This guidance is not applicable to financial instruments (i.e. loans and fixed income securities) and as such, is not expected to impact a majority of our revenue, which is primarily net interest income. Our initial assessment has identified our credit card products and our carried interest allocations from our venture capital investments as revenue sources most likely to be impacted by the new guidance. We continue to evaluate the impact of this guidance to our noninterest income, on our presentation and disclosures and on timing of revenue recognition.

In January 2016, the FASB issued a new accounting standard update (ASU 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities (Topic 825)), which will significantly change the income statement impact of equity investments, and the recognition of changes in fair value of financial liabilities. This guidance will be effective on January 1, 2018, on a prospective basis with a cumulative-effect adjustment to the balance sheet as of the beginning of the fiscal year of adoption for our cost method venture capital and private equity fund investments with readily determinable fair values. Our cost method venture capital and private equity fund investments that do not have readily determinable fair values will be carried at cost, minus impairment, if any, and remeasured at fair value either upon the occurrence of an observable price change or upon identification of impairment. The actual adjustment to opening retained earnings will depend upon the fair value of our investments at the adoption date.

In February 2016, the FASB issued a new accounting standard update (ASU 2016-02, Leases (Topic 842)), which will require for all operating leases the recognition of a right-of-use asset and a lease liability, in the statement of financial

position. The lease cost will be allocated over the lease term on a straight-line basis. This guidance will be effective on January 1, 2019, on a modified retrospective basis, with early adoption permitted. We plan to adopt the lease accounting guidance in the first quarter of 2019 and are currently evaluating the impact this guidance will have on our consolidated financial statements by reviewing our existing lease contracts and service contracts that may include embedded leases. We expect to recognize right-of-use assets and related lease liabilities associated predominantly with noncancelable operating leases included in the table of minimum future payments in the amount of $217 million as disclosed in Note 18 of our 2016 Form 10-K.

In June 2016, the FASB issued a new accounting standard update (ASU 2016-13, Financial Instruments- Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments), which amends the incurred loss impairment methodology in

---

Table of Contents

current GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. This guidance will be effective January 1, 2020, on a modified retrospective approach, with early adoption permitted, but not before January 1, 2019. We currently have a working project team in place and subject matter experts to assist with our review of key interpretive issues and help in our assessment of our existing credit loss forecasting models and processes against the new guidance to determine what modifications may be required. We are currently evaluating the impact this guidance will have on our financial position, results of operation and stockholders' equity.

In August 2016, the FASB issued a new accounting standard update (ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments), which clarifies the guidance on eight specific cash flow issues. This guidance will be effective January 1, 2018 on a full retrospective approach, with early adoption permitted. Our preliminary evaluation has resulted in the expectation that this guidance will primarily impact the presentation between investing and operating activities within our statements of cash flows related to distributions and net gains from our nonmarketable and other securities portfolio. We are continuing to evaluate any further impact of this guidance to the presentation of our operating, investing and financing activities within our statements of cash flows.

Reclassifications

Certain prior period amounts, primarily related to the changes to our income statement presentation of net gains on derivative instruments and provision for unfunded credit commitments have been reclassified to conform to current period presentations.

2. Stockholders' Equity and EPS

Accumulated Other Comprehensive Income

The following table summarizes the items reclassified out of accumulated other comprehensive income into the Consolidated Statements of Income (unaudited) for the three and six months ended June 30, 2017 and 2016:

		Three months ended June 30,		Six months ended June 30,	
(Dollars in thousands)	Income Statement Location	2017	2016	2017	2016
Reclassification adjustment for losses (gains) included in net income	Gains on investment securities, net	$123	$(12,328)	$(485)	$(11,582)
Related tax (benefit) expense	Income tax expense	(50)	5,017	198	4,713
Total reclassification adjustment for losses (gains) included in net income, net of tax		$73	$(7,311)	$(287)	$(6,869)

12

Table of Contents

EPS

Basic EPS is the amount of earnings available to each share of common stock outstanding during the reporting period. Diluted EPS is the amount of earnings available to each share of common stock outstanding during the reporting period adjusted to include the effect of potentially dilutive common shares. Potentially dilutive common shares include incremental shares issuable for stock options and restricted stock units outstanding under our 2006 Equity Incentive Plan and our ESPP. Potentially dilutive common shares are excluded from the computation of dilutive EPS in periods in which the effect would be antidilutive. The following is a reconciliation of basic EPS to diluted EPS for the three and six months ended June 30, 2017 and 2016:

	Three months ended June 30,		Six months ended June 30,	
(Dollars and shares in thousands, except per share amounts)	2017	2016	2017	2016
Numerator:				
Net income available to common stockholders	$123,193	$92,964	$224,676	$172,138
Denominator:				
Weighted average common shares outstanding—basic	52,537	51,831	52,441	51,739
Weighted average effect of dilutive securities:				
Stock options and ESPP	368	238	397	246
Restricted stock units	289	118	342	145
Weighted average common shares outstanding—diluted	53,194	52,187	53,180	52,130
Earnings per common share:				
Basic	$2.34	$1.79	$4.28	$3.33
Diluted	$2.32	$1.78	$4.22	$3.30

The following table summarizes the weighted-average common shares excluded from the diluted EPS calculation due to the antidilutive effect for the three and six months ended June 30, 2017 and 2016:

	Three months ended June 30,		Six months ended June 30,	
(Shares in thousands)	2017	2016	2017	2016
Stock options	73	462	36	407
Restricted stock units	—	143	—	88
Total	73	605	36	495

3. Share-Based Compensation

For the three and six months ended June 30, 2017 and 2016, we recorded share-based compensation and related tax benefits as follows:

	Three months ended June 30,		Six months ended June 30,	
(Dollars in thousands)	2017	2016	2017	2016
Share-based compensation expense	$9,892	$7,548	$19,095	$14,425
Income tax benefit related to share-based compensation expense	(3,349)	(4,581)	(6,364)	(6,698)

Unrecognized Compensation Expense

As of June 30, 2017, unrecognized share-based compensation expense was as follows:

(Dollars in thousands)	Unrecognized Expense	Weighted Average Expected Recognition Period - in Years
Stock options	$ 12,309	2.88
Restricted stock units	62,942	2.89

Total unrecognized share-based compensation expense	$	75,251

13

Table of Contents

Share-Based Payment Award Activity

The table below provides stock option information related to the 2006 Equity Incentive Plan for the six months ended June 30, 2017:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life - in Years	Aggregate Intrinsic Value of In-The-Money Options
Outstanding at December 31, 2016	1,010,557	$ 87.24		
Granted	111,855	178.16		
Exercised	(196,006)	69.93		
Forfeited	(3,662)	93.88		
Outstanding at June 30, 2017	922,744	101.91	4.00	$ 68,457,617
Vested and expected to vest at June 30, 2017	893,276	100.71	3.94	67,315,191
Exercisable at June 30, 2017	568,202	82.89	2.95	52,783,813

The aggregate intrinsic value of outstanding options shown in the table above represents the pre-tax intrinsic value based on our closing stock price of $175.79 as of June 30, 2017. The total intrinsic value of options exercised during the three and six months ended June 30, 2017 was $5.6 million and $22.1 million, compared to $4.6 million and $6.7 million for the comparable 2016 periods, respectively.

The table below provides information for restricted stock units under the 2006 Equity Incentive Plan for the six months ended June 30, 2017:

	Shares	Weighted Average Grant Date Fair Value
Nonvested at December 31, 2016	670,969	$ 106.64
Granted	230,822	179.94
Vested	(218,336)	102.07
Forfeited	(16,078)	117.29
Nonvested at June 30, 2017	667,377	133.23

4. Variable Interest Entities

Our involvement with VIEs includes our investments in venture capital and private equity funds, debt funds, private and public portfolio companies and our investments in qualified affordable housing projects.

Table of Contents

The following table presents the carrying amounts and classification of significant variable interests in consolidated and unconsolidated VIEs as of June 30, 2017 and December 31, 2016:

(Dollars in thousands)	Consolidated VIEs	Unconsolidated VIEs	Maximum Exposure to Loss in Unconsolidated VIEs
June 30, 2017:			
Assets:			
Cash and cash equivalents	$ 7,440	$ —	$ —
Non-marketable and other securities (1)	194,543	323,426	323,426
Accrued interest receivable and other assets	142	—	—
Total assets	$ 202,125	$ 323,426	$ 323,426
Liabilities:			
Other liabilities (1)	604	86,545	—
Total liabilities	$ 604	$ 86,545	$ —
December 31, 2016:			
Assets:			
Cash and cash equivalents	$ 11,469	$ —	$ —
Non-marketable and other securities (1)	196,140	314,810	314,810
Accrued interest receivable and other assets	294	—	—
Total assets	$ 207,903	$ 314,810	$ 314,810
Liabilities:			
Other liabilities (1)	517	58,095	—
Total liabilities	$ 517	$ 58,095	$ —

(1) Included in our unconsolidated non-marketable and other securities portfolio at June 30, 2017 and December 31, 2016 are investments in qualified affordable housing projects of $140.4 million and $112.4 million, respectively, and related unfunded credit commitments of $86.5 million and $58.1 million, respectively.

Non-marketable and other securities

Our non-marketable and other securities portfolio primarily represents investments in venture capital and private equity funds, SPD Silicon Valley Bank Co., Ltd. (the Bank's joint venture bank in China (“SPD-SVB”)), debt funds, private and public portfolio companies and investments in qualified affordable housing projects. A majority of these investments are through third party funds held by SVB Financial in which we do not have controlling or significant variable interests. These investments represent our unconsolidated VIEs in the table above. Our non-marketable and other securities portfolio also includes investments from SVB Capital. SVB Capital is the funds management business of SVB Financial Group, which focuses primarily on venture capital investments. The SVB Capital family of funds is comprised of direct venture funds that invest in companies and funds of funds that invest in other venture capital funds. We have a controlling and significant variable interest in four of these SVB Capital funds and consolidate these funds for financial reporting purposes.

All investments are generally nonredeemable and distributions are expected to be received through the liquidation of the underlying investments throughout the life of the investment fund. Investments may only be sold or transferred subject to the notice and approval provisions of the underlying investment agreement. Subject to applicable regulatory requirements, including the Volcker Rule, we also make commitments to invest in venture capital and private equity funds. For additional details, see Note 12—“Off-Balance Sheet Arrangements, Guarantees and Other Commitments” of the “Notes to Interim Consolidated Financial Statements (unaudited)” under Part I, Item 1 of this report.

The Bank also has variable interests in low income housing tax credit funds, in connection with fulfilling its responsibilities under the Community Reinvestment Act (“CRA”), that are designed to generate a return primarily through the realization of federal tax credits. These investments are typically limited partnerships in which the general partner, other than the Bank, holds the power over significant activities of the VIE; therefore, these investments are not consolidated. For additional information on our investments in qualified affordable housing projects see Note 6—“Investment Securities" of the “Notes to Interim Consolidated Financial Statements (unaudited)” under Part I, Item 1 of this report.

15

Table of Contents

As of June 30, 2017, our exposure to loss with respect to the consolidated VIEs is limited to our net assets of $201.5 million and our exposure to loss for our unconsolidated VIEs is equal to our investment in these assets of $323.4 million.

5. Cash and Cash Equivalents

The following table details our cash and cash equivalents at June 30, 2017 and December 31, 2016:

(Dollars in thousands)	June 30, 2017	December 31, 2016
Cash and due from banks (1)	$3,658,927	$2,476,588
Securities purchased under agreements to resell (2)	192,421	64,028
Other short-term investment securities	2,896	5,134
Total cash and cash equivalents	$3,854,244	$2,545,750

(1) At June 30, 2017 and December 31, 2016, $1.8 billion and $1.1 billion, respectively, of our cash and due from banks was deposited at the Federal Reserve Bank and was earning interest at the Federal Funds target rate, and interest-earning deposits in other financial institutions were $1.2 billion and $721 million, respectively.

(2) At June 30, 2017 and December 31, 2016, securities purchased under agreements to resell were collateralized by U.S. Treasury securities and U.S. agency securities with aggregate fair values of $196 million and $66 million, respectively. None of these securities were sold or repledged as of June 30, 2017 and December 31, 2016.

6. Investment Securities

Our investment securities portfolio consists of: (i) an available-for-sale securities portfolio and a held-to-maturity securities portfolio, both of which represent interest-earning investment securities, and, (ii) a non-marketable and other securities portfolio, which primarily represents investments managed as part of our funds management business.

Available-for-Sale Securities

The components of our available-for-sale investment securities portfolio at June 30, 2017 and December 31, 2016 are as follows:

	June 30, 2017			
(Dollars in thousands)	Amortized Cost	Unrealized Gains	Unrealized Losses	Carrying Value
Available-for-sale securities, at fair value:

Table of Contents

The following tables summarize our unrealized losses on our available-for-sale securities portfolio into categories of less than 12 months, or 12 months or longer as of June 30, 2017 and December 31, 2016:

	June 30, 2017					
	Less than 12 months		12 months or longer		Total	
(Dollars in thousands)	Fair Value of Investments	Unrealized Losses	Fair Value of Investments	Unrealized Losses	Fair Value of Investments	Unrealized Losses
Available-for-sale securities:						
U.S. Treasury securities	$2,724,519	$(3,599)	$—	$—	$2,724,519	$(3,599)
U.S. agency debentures	762,920	(1,577)	—	—	762,920	(1,577)
Residential mortgage-backed securities:						
Agency-issued collateralized mortgage obligations—fixed rate	851,825	(7,849)	201,986	(5,971)	1,053,811	(13,820)
Agency-issued collateralized mortgage obligations—variable rate	6,185	(14)	69,706	(133)	75,891	(147)
Equity securities	3,561	(649)	—	—	3,561	(649)
Total temporarily impaired securities (1)	$4,349,010	$(13,688)	$271,692	$(6,104)	$4,620,702	$(19,792)

(1) As of June 30, 2017, we identified a total of 184 investments that were in unrealized loss positions, of which 44 investments totaling $271.7 million with unrealized losses of $6.1 million have been in an impaired position for a period of time greater than 12 months. As of June 30, 2017, we do not intend to sell any impaired fixed income investment securities prior to recovery of our adjusted cost basis, and it is more likely than not that we will not be required to sell any of our securities prior to recovery of our adjusted cost basis. Based on our analysis as of June 30, 2017, we deem all impairments to be temporary, and therefore changes in value for our temporarily impaired securities as of the same date are included in other comprehensive income. Market valuations and impairment analyses on assets in the available-for-sale securities portfolio are reviewed and monitored on a quarterly basis.

	December 31, 2016

(1) As of December 31, 2016, we identified a total of 174 investments that were in unrealized loss positions, of which 20 investments totaling $233.5 million with unrealized losses of $6.7 million have been in an impaired position for a period of time greater than 12 months.

Table of Contents

The following table summarizes the fixed income securities, carried at fair value, classified as available-for-sale as of June 30, 2017 by the remaining contractual principal maturities. For U.S. Treasury securities and U.S. agency debentures, the expected maturity is the actual contractual maturity of the notes. Expected maturities for mortgage-backed securities may differ significantly from their contractual maturities because mortgage borrowers have the right to prepay outstanding loan obligations with or without penalties. Mortgage-backed securities classified as available-for-sale typically have original contractual maturities from 10 to 30 years whereas expected average lives of these securities tend to be significantly shorter and vary based upon structure and prepayments in lower rate environments.

	June 30, 2017				
(Dollars in thousands)	Total	One Year or Less	After One Year to Five Years	After Five Years to Ten Years	After Ten Years

Total debt funds	$16,476			$17,020		
Other investments:						
SPD Silicon Valley Bank Co., Ltd.	$75,052	50.0	%	$75,296	50.0	%
Other investments	38,270	Various		48,218	Various	
Total other investments	$113,322			$123,514		

(i) Our ownership includes direct ownership of 1.3 percent and indirect ownership interest of 3.8 percent through our investments in Strategic Investors Fund II, LP.

(ii) Our ownership includes direct ownership interest of 11.5 percent in the fund and an indirect interest in the fund through our investment in Gold Hill Capital 2008, LLC of 4.0 percent.

(5) Represents investments in 244 and 252 funds (primarily venture capital funds) at June 30, 2017 and December 31, 2016, respectively, where our ownership interest is typically less than 5% of the voting interests of each such fund and in which we do not have the ability to exercise significant influence over the partnerships operating activities and financial policies. The carrying value, and estimated fair value, of these venture capital and private equity fund investments (cost method accounting) was $110.0 million and $223.5 million, respectively, as of June 30, 2017. The carrying value, and estimated fair value, of these venture capital and private equity fund investments (cost method accounting) was $114.6 million and $221.7 million, respectively, as of December 31, 2016.

(6) The following table presents the balances of our investments in qualified affordable housing projects and related unfunded commitments included as a component of “other liabilities” on our consolidated balance sheets at June 30, 2017 and December 31, 2016:

(Dollars in thousands)	June 30, 2017	December 31, 2016
Investments in qualified affordable housing projects, net	$140,381	$112,447
Other liabilities	86,545	58,095

The following table presents other information relating to our investments in qualified affordable housing projects for the three and six months ended June 30, 2017 and 2016:

	Three months ended June 30,		Six months ended June 30,	
(Dollars in thousands)	2017	2016	2017	2016
Tax credits and other tax benefits recognized	$3,968	$4,066	$8,660	$8,132
Amortization expense included in provision for income taxes (i)	3,385	3,578	6,621	7,190

(i) All investments are amortized using the proportional amortization method and amortization expense is included in the provision for income taxes.

Other investments	(10)	(167)	(206)	(238)
Total gross losses on investment securities	(6,705)	(7,765)	(10,273)	(22,838)
Gains on investment securities, net	$17,630	$23,270	$33,600	$18,586

(1) Includes realized gains (losses) on sales of available-for-sale equity securities that are recognized in the income statement. Unrealized gains (losses) on available-for-sale fixed income and equity securities are recognized in other comprehensive income. The cost basis of available-for-sale securities sold is determined on a specific identification basis.

(2) For the three months ended June 30, 2017 and 2016, includes OTTI losses of $0.5 million from the declines in value for 8 of the 244 investments and $0.3 million from the declines in value for 10 of the 264 investments, respectively. For the six months ended June 30, 2017 and 2016, includes OTTI losses of $0.6 million for the declines in value for 13 of the 244 investments and $0.4 million for the declines in value for 18 of the 264 investments. We concluded that any declines in value for the remaining investments were temporary, and as such, no OTTI was required to be recognized.

7. Loans, Allowance for Loan Losses and Allowance for Unfunded Credit Commitments

We serve a variety of commercial clients in the technology, life science/healthcare, private equity/venture capital and premium wine industries. Our technology clients generally tend to be in the industries of hardware (semiconductors,

communications, data, storage, and electronics), software/internet (such as infrastructure software, applications, software services, digital content and advertising technology), and energy and resource innovation ("ERI"). Because of the diverse nature of ERI products and services, for our loan-related reporting purposes, ERI-related loans are reported under our hardware, software/internet, life science/healthcare and other commercial loan categories, as applicable. Our life science/healthcare clients primarily tend to be in the industries of biotechnology, medical devices, healthcare information technology and healthcare services. Loans made to private equity/venture capital firm clients typically enable them to fund investments prior to their receipt

23

Table of Contents

of funds from capital calls. Loans to the premium wine industry focus on vineyards and wineries that produce grapes and wines of high quality.

In addition to commercial loans, we make consumer loans through SVB Private Bank and provide real estate secured loans to eligible employees through our EHOP. Our private banking clients are primarily private equity/venture capital professionals and executive leaders in the innovation companies they support. These products and services include real estate secured home equity lines of credit, which may be used to finance real estate investments and loans used to purchase, renovate or refinance personal residences. These products and services also include restricted stock purchase loans and capital call lines of credit.

We also provide community development loans made as part of our responsibilities under the Community Reinvestment Act. These loans are included within “Construction loans” below and are primarily secured by real estate.

The composition of loans, net of unearned income of $127 million and $125 million at June 30, 2017 and December 31, 2016, respectively, is presented in the following table:

(Dollars in thousands)	June 30, 2017	December 31, 2016
Commercial loans:		
Software/internet	$5,392,022	$5,627,031
Hardware	1,118,266	1,180,398
Private equity/venture capital	8,891,662	7,691,148
Life science/healthcare	1,698,617	1,853,004
Premium wine	210,909	200,156
Other	443,337	393,551
Total commercial loans	17,754,813	16,945,288
Real estate secured loans:		
Premium wine (1)	694,060	678,166
Consumer loans (2)	2,127,901	1,926,968
Other	42,893	43,487
Total real estate secured loans	2,864,854	2,648,621
Construction loans	80,540	64,671
Consumer loans	276,259	241,364
Total loans, net of unearned income (3)	$20,976,466	$19,899,944

(1) Included in our premium wine portfolio are gross construction loans of $107 million and $110 million at June 30, 2017 and December 31, 2016, respectively.

(2) Consumer loans secured by real estate at June 30, 2017 and December 31, 2016 were comprised of the following:

(Dollars in thousands)	June 30, 2017	December 31, 2016
Loans for personal residence	$1,837,491	$1,655,349
Loans to eligible employees	223,718	199,291
Home equity lines of credit	66,692	72,328
Consumer loans secured by real estate	$2,127,901	$1,926,968

(3) Included within our total loan portfolio are credit card loans of $253 million and $224 million at June 30, 2017 and December 31, 2016, respectively.

Credit Quality Indicators

For each individual client, we establish an internal credit risk rating for that loan, which is used for assessing and monitoring credit risk as well as performance of the loan and the overall portfolio. Our internal credit risk ratings are also used to summarize the risk of loss due to failure by an individual borrower to repay the loan. For our internal credit risk ratings, each individual loan is given a risk rating of 1 through 10. Loans risk-rated 1 through 4 are performing loans and translate to an internal rating of “Pass”, with loans risk-rated 1 being cash secured. Loans risk-rated 5 through 7 are performing loans, however, we consider them as demonstrating higher risk, which requires more frequent review of the individual exposures; these translate to an internal rating of “Performing (Criticized)”. When a significant payment delay occurs on a criticized loan, the loan is impaired. The loan is also considered for nonaccrual status if full repayment is determined to be improbable. All of our nonaccrual loans are risk-rated 8 or 9 and are classified under the nonperforming impaired category. (For further description of nonaccrual loans, refer to Note 2—“Summary of Significant Accounting Policies” under Part II, Item 8 of our 2016 Form 10-K). Loans rated 10 are charged-off and are not included as part of our loan portfolio balance. We review our credit quality indicators for performance and appropriateness of risk ratings as part of our evaluation process for our allowance for loan losses.

The following table summarizes the credit quality indicators, broken out by portfolio segment and class of financing receivables as of June 30, 2017 and December 31, 2016:

(Dollars in thousands)	Pass	Performing (Criticized)	Performing Impaired (Criticized)	Nonperforming Impaired (Nonaccrual)	Total

Table of Contents

Troubled Debt Restructurings

As of June 30, 2017 we had 18 TDRs with a total carrying value of $102.2 million where concessions have been granted to borrowers experiencing financial difficulties, in an attempt to maximize collection. There were $1.4 million of unfunded commitments available for funding to the clients associated with these TDRs as of June 30, 2017.

The following table summarizes our loans modified in TDRs, broken out by portfolio segment and class of financing receivables at June 30, 2017 and December 31, 2016:

(Dollars in thousands)	June 30, 2017	December 31, 2016
Loans modified in TDRs:		
Commercial loans:		
Software/internet	$67,518	$ 52,646
Hardware	5,582	14,870
Life science/healthcare	25,385	24,176
Premium wine	3,304	3,194
Other	—	387
Total commercial loans	101,789	95,273
Consumer loans:		
Other consumer loans	436	786
Total	$102,225	$ 96,059

The following table summarizes the recorded investment in loans modified in TDRs, broken out by portfolio segment and class of financing receivable, for modifications made during the three and six months ended June 30, 2017 and 2016:

	Three months ended June 30,		Six months ended June 30,	
(Dollars in thousands)	2017	2016	2017	2016
Loans modified in TDRs during the period:				
Commercial loans:				
Software/internet	$16,135	$4,402	$22,242	$5,525
Life science/healthcare	4,588	—	4,588	—
Premium wine	190	—	190	506
Total commercial loans	20,913	4,402	27,020	6,031
Consumer loans:				
Other consumer loans	—	786	—	786
Total loans modified in TDRs during the period (1)	$20,913	$5,188	$27,020	$6,817

(1) There were $12.5 million and $15.1 million of partial charge-offs during the three and six months ended June 30, 2017, respectively, and $0.5 million and $4.3 million of partial charge-offs during the three and six months ended June 30, 2016, respectively.

During the three and six months ended June 30, 2017 all new TDRs of $20.9 million and $27.0 million, respectively, were modified through payment deferrals granted to our clients.

During the three months ended June 30, 2016, all new TDRs were modified through payment deferrals granted to our clients. During the six months ended June 30, 2016, $5.7 million of new TDRs were modified through payment deferrals granted to our clients and $1.1 million were modified through partial forgiveness of principal.

The related allowance for loan losses for the majority of our TDRs is determined on an individual basis by comparing the carrying value of the loan to the present value of the estimated future cash flows, discounted at the pre-modification contractual interest rate. For certain TDRs, the related allowance for loan losses is determined based on the fair value of the collateral if the loan is collateral dependent.

32

Table of Contents

The following table summarizes the recorded investment in loans modified in TDRs within the previous 12 months that subsequently defaulted during the three and six months ended June 30, 2017 and June 30, 2016.

	Three months ended June 30,		Six months ended June 30,	
(Dollars in thousands)	2017	2016	2017	2016
TDRs modified within the previous 12 months that defaulted during the period:				
Commercial loans:				
Software/internet	$—	$1,474	$—	$1,474
Premium wine	190	506	190	506
Total TDRs modified within the previous 12 months that defaulted in the period	$190	$1,980	$190	$1,980

Charge-offs and defaults on previously restructured loans are evaluated to determine the impact to the allowance for loan losses, if any. The evaluation of these defaults may impact the assumptions used in calculating the reserve on other TDRs and impaired loans as well as management's overall outlook of macroeconomic factors that affect the reserve on the loan portfolio as a whole. After evaluating the charge-offs and defaults experienced on our TDRs we determined that no change to our reserving methodology was necessary to determine the allowance for loan losses as of June 30, 2017.

8. Short-Term Borrowings and Long-Term Debt

The following table represents outstanding short-term borrowings and long-term debt at June 30, 2017 and December 31, 2016:

			Carrying Value	
(Dollars in thousands)	Maturity	Principal value at June 30, 2017	June 30, 2017	December 31, 2016
Short-term borrowings:				
Short-term FHLB advances		$—	$—	$ 500,000
Other short-term borrowings	(1)	470	470	12,668
Total short-term borrowings			$470	$ 512,668
Long-term debt:				
3.50% Senior Notes	January 29, 2025	$350,000	$347,140	$ 346,979
5.375% Senior Notes	September 15, 2020	350,000	347,883	347,586
6.05% Subordinated Notes (2)	June 1, 2017	—	—	46,646
7.0% Junior Subordinated Debentures	October 15, 2033	50,000	54,406	54,493
Total long-term debt			$749,429	$ 795,704

(1) Represents cash collateral received from certain counterparties in relation to market value exposures of derivative contracts in our favor.

(2) Our 6.05% Subordinated Notes were repaid on June 1, 2017 and therefore, the interest rate swap agreement related to this issuance was terminated upon repayment of the 6.05% Subordinated Notes. At December 31, 2016, included in the carrying value of our 6.05% Subordinated Notes were $0.8 million related to hedge accounting associated with the notes.

Interest expense related to short-term borrowings and long-term debt was $9.0 million and $18.3 million for the three and six months ended June 30, 2017, respectively, and $9.4 million and $18.4 million for the three and six months ended June 30, 2016, respectively. Interest expense is net of the hedge accounting impact from our interest rate swap agreement related to our 6.05% Subordinated Notes. The weighted average interest rate associated with our short-term borrowings was 1.06 percent as of June 30, 2017 and 0.59 percent as of December 31, 2016.

Table of Contents

Available Lines of Credit

We have certain facilities in place to enable us to access short-term borrowings on a secured (using high-quality fixed income securities as collateral) and an unsecured basis. These include repurchase agreements and uncommitted federal funds lines with various financial institutions. As of June 30, 2017, we did not have any borrowings outstanding against our uncommitted federal funds lines. We also pledge securities to the FHLB of San Francisco and the discount window at the Federal Reserve Bank. The fair value of collateral pledged to the FHLB of San Francisco (comprised primarily of U.S. Treasury securities) at June 30, 2017 totaled $1.7 billion, all of which was unused and available to support additional borrowings. The fair value of collateral pledged at the discount window of the Federal Reserve Bank at June 30, 2017 totaled $0.8 billion, all of which was unused and available to support additional borrowings.

9. Derivative Financial Instruments

We primarily use derivative financial instruments to manage interest rate risk, currency exchange rate risk and to assist customers with their risk management objectives. Also, in connection with negotiating credit facilities and certain other services, we often obtain equity warrant assets giving us the right to acquire stock in private, venture-backed companies in the technology and life science/healthcare industries.

Interest Rate Risk

Interest rate risk is our primary market risk and can result from timing and volume differences in the repricing of our interest rate sensitive assets and liabilities and changes in market interest rates. To manage interest rate risk for our 6.05% Subordinated Notes, we entered into a fixed-for-floating interest rate swap agreement at the time of debt issuance based upon LIBOR with matched-terms. The net cash benefit associated with our interest rate swap is recorded as a reduction in “Interest expense—Borrowings,” a component of net interest income. The fair value of our interest rate swaps is calculated using a discounted cash flow method and adjusted for credit valuation associated with counterparty risk. Changes in fair value of the interest rate swaps are reflected in either other assets (for swaps in an asset position) or other liabilities (for swaps in a liability position). On June 1, 2017, our interest rate swap was terminated upon repayment of the 6.05% Subordinated Notes.

Currency Exchange Risk

We enter into foreign exchange forward contracts to economically reduce our foreign exchange exposure risk associated with the net difference between foreign currency denominated assets and liabilities. We do not designate any foreign exchange forward contracts as derivative instruments that qualify for hedge accounting. Gains or losses from changes in currency rates on foreign currency denominated instruments are recorded in the line item “Other” as part of noninterest income, a component of consolidated net income. We may experience ineffectiveness in the economic hedging relationship, because the instruments are revalued based upon changes in the currency’s spot rate on the principal value, while the forwards are revalued on a discounted cash flow basis. We record forward agreements in gain positions in other assets and loss positions in other liabilities, while net changes in fair value are recorded in the line item “Other” as part of noninterest income, a component of consolidated net income.

Other Derivative Instruments

Also included in our derivative instruments are equity warrant assets and client forward and option contracts, and client interest rate contracts. For further description of these other derivative instruments, refer to Note 2-“Summary of Significant Accounting Policies" under Part II, Item 8 of our 2016 Form 10-K.

Counterparty Credit Risk

We are exposed to credit risk if counterparties to our derivative contracts do not perform as expected. We mitigate counterparty credit risk through credit approvals, limits, monitoring procedures and obtaining collateral, as appropriate. With respect to measuring counterparty credit risk for derivative instruments, we measure the fair value of a group of financial assets and financial liabilities on a net risk basis by counterparty portfolio.

Table of Contents

The total notional or contractual amounts, fair value, collateral and net exposure of our derivative financial instruments at June 30, 2017 and December 31, 2016 were as follows:

(Dollars in thousands)	Balance Sheet Location	June 30, 2017 Notional or Contractual Amount	Fair Value	Collateral (1)	Net Exposure (2)	December 31, 2016 Notional or Contractual Amount	Fair Value	Collateral (1)	Net Exposure (2)

Interest rate risks:									
Interest rate swaps	Other assets	$—	$—	$ —	$—	$45,964	$810	$89	$721
Derivatives not designated as hedging instruments:									
Currency exchange risks:									
Foreign exchange forwards	Other assets	—	—	—	—	219,950	3,057	—	3,057
Foreign exchange forwards	Other liabilities	[illegible]	(2,336)	—	(2,336)	54,338	(968)	—	(968)
Net exposure			(2,336)	—	(2,336)		2,089	—	2,089
Other derivative instruments:									
Equity warrant assets	Other assets	[illegible]	131,750	—	131,750	211,434	131,123	—	131,123
Other derivatives:									
Client foreign exchange forwards	Other assets	[illegible]	76,882	470	76,412	1,251,308	54,587	12,579	42,008
Client foreign exchange forwards	Other liabilities	[illegible]	(68,865)	—	(68,865)	1,068,991	(43,317)	—	(43,317)
Client foreign currency options	Other assets	[illegible]	4,961	—	4,961	775,000	10,383	—	10,383
Client foreign currency options	Other liabilities	[illegible]	(4,969)	—	(4,969)	775,000	(10,383)	—	(10,383)
Client interest rate derivatives	Other assets	[illegible]	11,655	—	11,655	583,511	10,110	—	10,110
Client interest rate derivatives	Other liabilities	[illegible]	(11,765)	—	(11,765)	627,639	(9,770)	—	(9,770)
Net exposure			7,899	470	7,429		11,610	12,579	(969)
Net			$137,313	$ 470	$136,843		$145,632	$12,668	$132,964

(1) Cash collateral received from our counterparties in relation to market value exposures of derivative contracts in our favor is recorded as a component of “short-term borrowings” on our consolidated balance sheets.

(2) Net exposure for contracts in a gain position reflects the replacement cost in the event of nonperformance by all such counterparties. The credit ratings of our institutional counterparties as of June 30, 2017 remain at investment grade or higher and there were no material changes in their credit ratings during the three and six months ended June 30, 2017.

Table of Contents

A summary of our derivative activity and the related impact on our consolidated statements of income for the three and six months ended June 30, 2017 and 2016 is as follows:

(Dollars in thousands)	Statement of income location	Three months ended June 30, 2017	Three months ended June 30, 2016	Six months ended June 30, 2017	Six months ended June 30, 2016
Derivatives designated as hedging instruments:					
Interest rate risks:					
Net cash benefit associated with interest rate swaps	Interest expense—borrowings	$381	$590	$935	$1,199
Changes in fair value of interest rate swaps	Other noninterest income	(6)	(13)	(7)	(30)
Net gains associated with interest rate risk derivatives		$375	$577	$928	$1,169
Derivatives not designated as hedging instruments:					
Currency exchange risks:					
Gains (losses) on revaluations of internal foreign currency instruments, net	Other noninterest income	$14,596	$(5,307)	$18,704	$(2,816)
(Losses) gains on internal foreign exchange forward contracts, net	Other noninterest income	(14,554)	3,923	(17,799)	1,715

Other derivative instruments:					
Gains (losses) on revaluations of client foreign currency instruments, net	Other noninterest income	$2,375	$(133)	$5,129	$3,521
(Losses) gains on client foreign exchange forward contracts, net	Other noninterest income	(2,190)	68	(4,479)	(5,586)
Net gains (losses) associated with client currency risk		$185	$(65)	$650	$(2,065)
Net gains on equity warrant assets	Gains on equity warrant assets, net	$10,820	$5,089	$17,510	$11,695
Net losses on other derivatives	Other noninterest income	$(210)	$(269)	$(486)	$(690)

Balance Sheet Offsetting

Certain of our derivative and other financial instruments are subject to enforceable master netting arrangements with our counterparties. These agreements provide for the net settlement of multiple contracts with a single counterparty through a single payment, in a single currency, in the event of default on or termination of any one contract.

36

Table of Contents

The following table summarizes our assets subject to enforceable master netting arrangements as of June 30, 2017 and December 31, 2016:

(Dollars in thousands)	Gross Amounts of Recognized Assets	Gross Amounts offset in the Statement of Financial Position	Net Amounts of Assets Presented in the Statement of Financial Position	Gross Amounts Not Offset in the Statement of Financial Position But Subject to Master Netting Arrangements		Net Amount

Table of Contents

10. Other Noninterest Income and Other Noninterest Expense

A summary of other noninterest income for the three and six months ended June 30, 2017 and 2016 is as follows:

	Three months ended June 30,		Six months ended June 30,	
(Dollars in thousands)	2017	2016	2017	2016
Fund management fees	$5,536	$4,298	$10,705	$8,918
Service-based fee income	1,496	2,148	3,391	4,240
Gains (losses) on revaluation of client foreign currency instruments, net (1)	2,375	(133)	5,129	3,521
(Losses) gains on client foreign exchange forward contracts, net (1)	(2,190)	68	(4,479)	(5,586)
Gains (losses) on revaluation of internal foreign currency instruments, net (2)	14,596	(5,307)	18,704	(2,816)
(Losses) gains on internal foreign exchange forward contracts, net (2)	(14,554)	3,923	(17,799)	1,715
Other (3)	5,552	4,966	9,581	7,641
Total other noninterest income	$12,811	$9,963	$25,232	$17,633

(1) Represents the net revaluation of client foreign currency denominated financial instruments. We enter into client foreign exchange forward contracts to economically reduce our foreign exchange exposure related to client foreign currency denominated financial instruments.

(2) Represents the net revaluation of foreign currency denominated financial instruments issued and held by us, primarily loans, deposits and cash. We enter into internal foreign exchange forward contracts to economically reduce our foreign exchange exposure related to these foreign currency denominated financial instruments issued and held by us.

(3) Includes dividends on FHLB/FRB stock, correspondent bank rebate income, incentive fees related to carried interest and other fee income.

A summary of other noninterest expense for the three and six months ended June 30, 2017 and 2016 is as follows:

	Three months ended June 30,		Six months ended June 30,	
(Dollars in thousands)	2017	2016	2017	2016
Lending and other client related processing costs	$6,332	$3,541	$11,871	$7,836
Telephone	2,671	2,416	5,374	4,649
Data processing services	2,428	2,387	5,010	4,216
Dues and publications	677	647	1,472	1,449
Postage and supplies	652	784	1,401	1,574
Other	7,639	4,191	11,478	9,035
Total other noninterest expense	$20,399	$13,966	$36,606	$28,759

11. Segment Reporting

We have three reportable segments for management reporting purposes: Global Commercial Bank, SVB Private Bank and SVB Capital. The results of our operating segments are based on our internal management reporting process.

Our Global Commercial Bank and SVB Private Bank segments' primary source of revenue is from net interest income, which is primarily the difference between interest earned on loans, net of funds transfer pricing (“FTP”), and interest paid on deposits, net of FTP. Accordingly, these segments are reported using net interest income, net of FTP. FTP is an internal measurement framework designed to assess the financial impact of a financial institution’s sources and uses of funds. It is the mechanism by which a funding credit is given for deposits raised, and a funding charge is made for loans funded. FTP is calculated at an instrument level based on account characteristics.

We also evaluate performance based on provision for credit losses, noninterest income and noninterest expense, which are presented as components of segment operating profit or loss. In calculating each operating segment’s noninterest expense, we consider the direct costs incurred by the operating segment as well as certain allocated direct costs. As part of this review, we allocate certain corporate overhead costs to a corporate account. We do not allocate income taxes or the provision for

38

Table of Contents

unfunded credit commitments (included in provision for credit losses) to our segments. Additionally, our management reporting model is predicated on average asset balances; therefore, period-end asset balances are not presented for segment reporting purposes. Changes in an individual client's primary relationship designation have resulted, and in the future may result, in the inclusion of certain clients in different segments in different periods.

Unlike financial reporting, which benefits from the comprehensive structure provided by GAAP, our internal management reporting process is highly subjective, as there is no comprehensive, authoritative guidance for management reporting. Our management reporting process measures the performance of our operating segments based on our internal operating structure, which is subject to change from time to time, and is not necessarily comparable with similar information for other financial services companies.

For reporting purposes, SVB Financial Group has three operating segments for which we report our financial information:

- Global Commercial Bank is comprised of results from the following:

  Our Commercial Bank products and services are provided by the Bank and its subsidiaries to commercial clients in the technology, life science/healthcare and private equity/venture capital industries. The Bank provides solutions to the financial needs of commercial clients, through credit, global treasury management, foreign exchange, global trade finance, and other services. It serves clients within the United States, as well as non-U.S. clients in key international innovation markets. In addition, the Bank and its subsidiaries offer a variety of investment services and solutions to its clients that enable them to effectively manage their assets.

  Our Private Equity Division provides banking products and services primarily to our private equity and venture capital clients.

  Our Wine practice provides banking products and services to our premium wine industry clients, including vineyard development loans.

  SVB Analytics provides equity valuation services to companies and private equity/venture capital firms.

  Debt Fund Investments is comprised of our investments in certain debt funds in which we are a strategic investor.

- SVB Private Bank is the private banking division of the Bank, which provides a range of personal financial solutions for consumers. Our clients are primarily private equity/venture capital professionals and executive leaders of the innovation companies they support. We offer a customized suite of private banking services, including mortgages, home equity lines of credit, restricted stock purchase loans, capital call lines of credit and other secured and unsecured lending, as well as cash and wealth management services.

- SVB Capital is the funds management business of SVBFG, which focuses primarily on venture capital investments. SVB Capital manages funds (primarily venture capital funds) on behalf of third party limited partners and, on a more limited basis, SVB Financial Group. The SVB Capital family of funds is comprised of direct venture funds that invest in companies and funds of funds that invest in other venture capital funds. SVB Capital generates income for the Company primarily from investment returns (including carried interest allocations) and management fees.

The summary financial results of our operating segments are presented along with a reconciliation to our consolidated interim results.

Table of Contents

Our segment information for the three and six months ended June 30, 2017 and 2016 is as follows:

(Dollars in thousands)	Global Commercial Bank (1)	SVB Private Bank	SVB Capital (1)	Other Items (2)	Total
Three months ended June 30, 2017					
Net interest income	$311,051	$14,742	$16	$16,887	$342,696
Provision for credit losses	(14,856)	(329)	—	(621)	(15,806)
Noninterest income	83,904	536	15,019	29,069	128,528
Noninterest expense (3)	(175,963)	(4,050)	(6,192)	(65,041)	(251,246)
Income (loss) before income tax expense (4)	$204,136	$10,899	$8,843	$(19,706)	$204,172
Total average loans, net of unearned income	$17,907,635	$2,365,464	$—	$235,442	$20,508,541
Total average assets (5)	45,483,372	2,397,188	355,292	(686,488)	47,549,364
Total average deposits	40,477,823	1,302,890	—	357,933	42,138,646
Three months ended June 30, 2016					
Net interest income (expense)	$254,680	$13,538	$(52)	$15,170	$283,336
(Provision for) reduction of credit losses	(36,454)	121	—	(413)	(36,746)
Noninterest income	77,310	762	11,420	23,284	112,776
Noninterest expense (3)	(147,960)	(2,954)	(3,684)	(45,341)	(199,939)
Income (loss) before income tax expense (4)	$147,576	$11,467	$7,684	$(7,300)	$159,427
Total average loans, net of unearned income	$16,026,605	$1,986,659	$—	$185,995	$18,199,259
Total average assets (5)	40,703,091	2,007,009	331,500	328,430	43,370,030
Total average deposits	36,690,002	1,115,599	—	354,358	38,159,959
Six months ended June 30, 2017					
Net interest income (expense)	$586,929	$28,352	$16	$37,392	$652,689
Provision for credit losses	(43,745)	(1,119)	—	(1,676)	(46,540)
Noninterest income	163,423	1,254	31,794	49,716	246,187
Noninterest expense (3)	(348,337)	(7,968)	(9,664)	(122,910)	(488,879)
Income (loss) before income tax expense (4)	$358,270	$20,519	$22,146	$(37,478)	$363,457
Total average loans, net of unearned income	$17,778,065	$2,305,723	$—	$206,353	$20,290,141
Total average assets (5)	44,193,023	2,335,350	364,036	(460,999)	46,431,410
Total average deposits	39,393,219	1,319,776	—	341,618	41,054,613
Six months ended June 30, 2016					
Net interest income (expense)	$510,858	$27,210	$(52)	$26,741	$564,757
Provision for credit losses	(69,169)	(505)	—	(547)	(70,221)
Noninterest income	152,069	1,389	13,873	31,579	198,910
Noninterest expense (3)	(302,747)	(6,359)	(7,597)	(87,135)	(403,838)
Income (loss) before income tax expense (4)	$291,011	$21,735	$6,224	$(29,362)	$289,608
Total average loans, net of unearned income	$15,473,170	$1,929,239	$—	$203,438	$17,605,847
Total average assets (5)	41,118,263	1,933,123	340,256	388,468	43,780,110
Total average deposits	37,263,823	1,123,167	—	327,054	38,714,044

(1) Global Commercial Bank's and SVB Capital's components of net interest income, noninterest income, noninterest expense and total average assets are shown net of noncontrolling interests for all periods presented. Noncontrolling interest is included within "Other Items".

(2) The "Other Items" column reflects the adjustments necessary to reconcile the results of the operating segments to the consolidated financial statements prepared in conformity with GAAP. Net interest income consists primarily of interest earned from our fixed income investment portfolio, net of FTP. Noninterest income consists primarily of gains on equity warrant assets and gains on the sale of fixed income securities. Noninterest expense consists

primarily of expenses associated with corporate support functions such as finance, human resources, marketing, legal and other expenses.

(3) The Global Commercial Bank segment includes direct depreciation and amortization of $7.1 million and $6.2 million for the three months ended June 30, 2017 and 2016, respectively, and $13.2 million and $11.9 million for the six months ended June 30, 2017 and 2016, respectively.

Table of Contents

(4) The internal reporting model used by management to assess segment performance does not calculate income tax expense by segment. Our effective tax rate is a reasonable approximation of the segment rates.

(5) Total average assets equal the greater of total average assets or the sum of total average liabilities and total average stockholders' equity for each segment to reconcile the results to the consolidated financial statements prepared in conformity with GAAP.

12. Off-Balance Sheet Arrangements, Guarantees and Other Commitments

In the normal course of business, we use financial instruments with off-balance sheet risk to meet the financing needs of our customers. These financial instruments include commitments to extend credit, commercial and standby letters of credit and commitments to invest in venture capital and private equity fund investments. These instruments involve, to varying degrees, elements of credit risk. Credit risk is defined as the possibility of sustaining a loss because other parties to the financial instrument fail to perform in accordance with the terms of the contract.

Commitments to Extend Credit

The following table summarizes information related to our commitments to extend credit at June 30, 2017 and December 31, 2016:

(Dollars in thousands)	June 30, 2017	December 31, 2016
Loan commitments available for funding: (1)		
Fixed interest rate commitments	$1,456,230	$1,475,179
Variable interest rate commitments	13,553,340	13,572,161
Total loan commitments available for funding	15,009,570	15,047,340
Commercial and standby letters of credit (2)	1,777,237	1,695,856
Total unfunded credit commitments	$16,786,807	$16,743,196
Commitments unavailable for funding (3)	$1,999,306	$1,719,524
Maximum lending limits for accounts receivable factoring arrangements (4)	773,742	725,395
Allowance for unfunded credit commitments (5)	47,000	45,265

(1) Represents commitments which are available for funding, due to clients meeting all collateral, compliance and financial covenants required under loan commitment agreements.

(2) See below for additional information on our commercial and standby letters of credit.

(3) Represents commitments which are currently unavailable for funding, due to clients failing to meet all collateral, compliance and financial covenants under loan commitment agreements.

(4) We extend credit under accounts receivable factoring arrangements when our clients' sales invoices are deemed creditworthy under existing underwriting practices.

(5) Our allowance for unfunded credit commitments includes an allowance for both our unfunded loan commitments and our letters of credit.

Commercial and Standby Letters of Credit

The table below summarizes our commercial and standby letters of credit at June 30, 2017. The maximum potential amount of future payments represents the amount that could be remitted under letters of credit if there were a total default by the guaranteed parties, without consideration of possible recoveries under recourse provisions or from the collateral held or pledged.

(Dollars in thousands)	Expires In One Year or Less	Expires After One Year	Total Amount Outstanding	Maximum Amount of Future Payments
Financial standby letters of credit	$ 1,604,367	$ 61,330	$ 1,665,697	$ 1,665,697
Performance standby letters of credit	93,671	8,473	102,144	102,144
Commercial letters of credit	9,396	—	9,396	9,396
Total	$ 1,707,434	$ 69,803	$ 1,777,237	$ 1,777,237

Table of Contents

Deferred fees related to financial and performance standby letters of credit were $10 million at both June 30, 2017 and December 31, 2016. At June 30, 2017, collateral in the form of cash of $888 million was available to us to reimburse losses, if any, under financial and performance standby letters of credit.

Commitments to Invest in Venture Capital and Private Equity Funds

Subject to applicable regulatory requirements, including the Volcker Rule, we make commitments to invest in venture capital and private equity funds, which generally makes investments in privately-held companies. Commitments to invest in these funds are generally made for a 10-year period from the inception of the fund. Although the limited partnership agreements governing these investments typically do not restrict the general partners from calling 100% of committed capital in one year, it is customary for these funds to call most of the capital commitments over 5 to 7 years, and in certain cases, the funds may not call 100% of committed capital. The actual timing of future cash requirements to fund these commitments is generally dependent upon the investment cycle, overall market conditions, and the nature and type of industry in which the privately held companies operate. The following table details our total capital commitments, unfunded capital commitments, and our ownership percentage in each fund at June 30, 2017:

(Dollars in thousands)	SVBFG Capital Commitments	SVBFG Unfunded Commitments	SVBFG Ownership of each Fund (3)
CP I, LP	$ 6,000	$ 270	10.7 %
CP II, LP (1)	1,200	162	5.1
Shanghai Yangpu Venture Capital Fund (LP)	842	—	6.8
Strategic Investors Fund, LP	15,300	688	12.6
Strategic Investors Fund II, LP	15,000	1,050	8.6
Strategic Investors Fund III, LP	15,000	1,275	5.9
Strategic Investors Fund IV, LP	12,239	2,325	5.0
Strategic Investors Fund V funds	515	130	Various
Capital Preferred Return Fund, LP	12,688	—	20.0
Growth Partners, LP	24,670	1,340	33.0
Debt funds (equity method accounting)	58,493	—	Various
Other fund investments (2)	303,662	2,318	Various
Total	$ 465,609	$ 9,558	

(1) Our ownership includes direct ownership of 1.3 percent and indirect ownership interest of 3.8 percent through our investment in Strategic Investors Fund II, LP.

(2) Represents commitments to 250 funds (primarily venture capital funds) where our ownership interest is generally less than five percent of the voting interests of each such fund.

(3) We are subject to the Volcker Rule, which restricts or limits us from sponsoring or having ownership interests in "covered" funds including venture capital and private equity funds. See "Business - Supervision and Regulation" under Item 1 of Part I of our 2016 Form 10-K.

The following table details the amounts of remaining unfunded commitments to venture capital and private equity funds by our consolidated managed funds of funds (including our interest and the noncontrolling interests) at June 30, 2017:

(Dollars in thousands)	Unfunded Commitments
Strategic Investors Fund, LP	$ 1,338
Capital Preferred Return Fund, LP	2,335
Growth Partners, LP	2,936
Total	$ 6,609

13. Income Taxes

We are subject to income tax in the U.S. federal jurisdiction and various state and foreign jurisdictions and have identified our federal tax return and California tax returns as major tax filings. Our U.S. federal tax returns for 2013 and subsequent years remain open to full examination. Our California tax returns for 2012 and subsequent years remain open to full examination.

Table of Contents

At June 30, 2017, our unrecognized tax benefit was $5.8 million, the recognition of which would reduce our income tax expense by $3.8 million. We do not expect that our unrecognized tax benefit will materially change in the next 12 months.
We recognize interest and penalties related to income tax matters as part of income before income taxes. Interest and penalties were not material for the three and six months ended June 30, 2017.

14. Fair Value of Financial Instruments

Fair Value Measurements

Our available-for-sale securities, derivative instruments and certain non-marketable and other securities are financial instruments recorded at fair value on a recurring basis. We make estimates regarding valuation of assets and liabilities measured at fair value in preparing our interim consolidated financial statements.
Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. There is a three-level hierarchy for disclosure of assets and liabilities recorded at fair value. The classification of assets and liabilities within the hierarchy is based on whether the inputs to the valuation methodology used for measurement are observable or unobservable and the significance of those inputs in the fair value measurement. Observable inputs reflect market-derived or market-based information obtained from independent sources, while unobservable inputs reflect our estimates about market data and views of market participants. The three levels for measuring fair value are based on the reliability of inputs and are as follows:

Level 1

Fair value measurements based on quoted prices in active markets for identical assets or liabilities that we have the ability to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these instruments does not entail a significant degree of judgment. Assets utilizing Level 1 inputs include U.S. Treasury securities, exchange-traded equity securities and certain marketable securities accounted for under fair value accounting.

Level 2

Fair value measurements based on quoted prices in markets that are not active or for which all significant inputs are observable, directly or indirectly. Valuations for the available-for-sale securities are provided by independent pricing service providers who have experience in valuing these securities and by comparison to and/or average of quoted market prices obtained from independent brokers. We perform a monthly analysis on the values received from third parties to ensure that the prices represent a reasonable estimate of the fair value. The procedures include, but are not limited to, initial and ongoing review of third party pricing methodologies, review of pricing trends and monitoring of trading volumes. Additional corroboration, such as obtaining a non-binding price from a broker, may be obtained depending on the frequency of trades of the security and the level of liquidity or depth of the market. We ensure prices received from independent brokers represent a reasonable estimate of the fair value through the use of observable market inputs including comparable trades, yield curve, spreads and, when available, market indices. As a result of this analysis, if the Company determines that there is a more appropriate fair value based upon the available market data, the price received from the third party is adjusted accordingly. Below is a summary of the significant inputs used for each class of Level 2 assets and liabilities:
U.S. agency debentures: Fair value measurements of U.S. agency debentures are based on the characteristics specific to bonds held, such as issuer name, coupon rate, maturity date and any applicable issuer call option features. Valuations are based on market spreads relative to similar term benchmark market interest rates, generally U.S. Treasury securities.
Agency-issued mortgage-backed securities: Agency-issued mortgage-backed securities are pools of individual conventional mortgage loans underwritten to U.S. agency standards with similar coupon rates, tenor, and other attributes such as geographic location, loan size and origination vintage. Fair value measurements of these securities are based on observable price adjustments relative to benchmark market interest rates taking into consideration estimated loan prepayment speeds.
Agency-issued collateralized mortgage obligations: Agency-issued collateralized mortgage obligations are structured into classes or tranches with defined cash flow characteristics and are collateralized by U.S. agency-issued mortgage

pass-through securities. Fair value measurements of these securities incorporate similar characteristics of mortgage pass-through securities such as coupon rate, tenor, geographic location, loan size and origination vintage, in addition to incorporating the effect of estimated prepayment speeds on the cash flow structure of the class or tranche. These measurements incorporate observable market spreads over an estimated average life after considering the inputs listed above.

Agency-issued commercial mortgage-backed securities: Fair value measurements of these securities are based on spreads to benchmark market interest rates (usually U.S. Treasury rates or rates observable in the swaps market), prepayment speeds, loan default rate assumptions and loan loss severity assumptions on underlying loans.

Table of Contents

Municipal bonds and notes: Bonds issued by municipal governments generally have stated coupon rates, final maturity dates and are subject to being called ahead of the final maturity date at the option of the issuer. Fair value measurements of these securities are priced based on spreads to other municipal benchmark bonds with similar characteristics; or, relative to market rates on U.S. Treasury bonds of similar maturity.

Interest rate derivative assets and liabilities: Fair value measurements of interest rate derivatives are priced considering the coupon rate of the fixed leg of the contract and the variable coupon on the floating leg of the contract. Valuation is based on both spot and forward rates on the swap yield curve and the credit worthiness of the contract counterparty.

Foreign exchange forward and option contract assets and liabilities: Fair value measurements of these assets and liabilities are priced based on spot and forward foreign currency rates and option volatility assumptions.

Equity warrant assets (public portfolio): Fair value measurements of equity warrant assets of publicly-traded portfolio companies are valued based on the Black-Scholes option pricing model. The model uses the price of publicly-traded companies (underlying stock price), stated strike prices, warrant expiration dates, the risk-free interest rate and market-observable option volatility assumptions.

Level 3

The fair value measurement is derived from valuation techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect our own estimates of assumptions we believe market participants would use in pricing the asset. Below is a summary of the valuation techniques used for each class of Level 3 assets:

Other venture capital investments: Fair value measurements are based on consideration of a range of factors including, but not limited to, the price at which the investment was acquired, the term and nature of the investment, local market conditions, values for comparable securities, and as it relates to the private company, the current and projected operating performance, exit strategies and financing transactions subsequent to the acquisition of the investment. The significant unobservable inputs used in the fair value measurement include the information about each portfolio company, including actual and forecasted results, cash position, recent or planned transactions and market comparable companies. Significant changes to any one of these inputs in isolation could result in a significant change in the fair value measurement, however, we generally consider all factors available through ongoing communication with the portfolio companies and venture capital fund managers to determine whether there are changes to the portfolio company or the environment that indicate a change in the fair value measurement.

Other securities: Fair value measurements of equity securities of public companies are priced based on quoted market prices less a discount if the securities are subject to certain sales restrictions. Marketability discounts generally range from 10 percent to 20 percent depending on the duration of the sale restrictions which typically range from three to six months.

Equity warrant assets (public portfolio): Fair value measurements of equity warrant assets of publicly-traded portfolio companies are valued based on the Black-Scholes option pricing model. The model uses the price of publicly-traded companies (underlying stock price), stated strike prices, warrant expiration dates, the risk-free interest rate and market-observable option volatility assumptions. Modeled asset values are further adjusted by applying a discount of up to 20 percent for certain warrants that have lock-up restrictions or other features that indicate a discount to fair value is warranted. As a lock-up term nears, and other sale restrictions are lifted, discounts are adjusted downward to zero percent once all restrictions expire or are removed.

Equity warrant assets (private portfolio): Fair value measurements of equity warrant assets of private portfolio companies are priced based on a Black-Scholes option pricing model to estimate the asset value by using stated strike prices, option expiration dates, risk-free interest rates and option volatility assumptions. Option volatility assumptions used in the model are based on public market indices whose members operate in similar industries as companies in our private company portfolio. Option expiration dates are modified to account for estimates to actual life relative to stated expiration. Overall model asset values are further adjusted for a general lack of liquidity due to the private nature of the associated underlying company. There is a direct correlation between changes in the volatility and remaining life assumptions in isolation and the fair value measurement while there is an inverse correlation between changes in the liquidity discount assumption and the fair value measurement.

It is our policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements. When available, we use quoted market prices to measure fair value. If market prices are not available, fair value measurement is based upon valuation techniques that use primarily market-based or independently-sourced market parameters, including interest rate yield curves, prepayment speeds, option volatilities and currency rates. Substantially all of our financial instruments use the foregoing methodologies, and are categorized as a Level 1 or Level 2 measurement in the fair value hierarchy. However, in certain cases, when market observable inputs for our valuation techniques may not be readily available, we are required to make judgments about assumptions we believe market participants would use in estimating the

fair value of the financial instrument, and based on the significance of those judgments, the measurement may be determined to be a Level 3 fair value measurement.

The degree of management judgment involved in determining the fair value of a financial instrument is dependent upon the availability of quoted market prices or observable market parameters. For financial instruments that trade actively and have quoted market prices or observable market parameters, there is minimal subjectivity involved in measuring fair value. When observable market prices and parameters are not fully available, management judgment is necessary to estimate fair value. For inactive markets, there is little information, if any, to evaluate if individual transactions are orderly. Accordingly, we are required to estimate, based upon all available facts and circumstances, the degree to which orderly transactions are occurring and provide more weighting to price quotes that are based upon orderly transactions. In addition, changes in the market conditions may reduce the availability of quoted prices or observable data. For example, reduced liquidity in the capital markets or changes in secondary market activities could result in observable market inputs becoming unavailable. Therefore, when market data is not available, we use valuation techniques requiring more management judgment to estimate the appropriate fair value measurement. Accordingly, the degree of judgment exercised by management in determining fair value is greater for financial assets and liabilities categorized as Level 3.

The following fair value hierarchy table presents information about our assets and liabilities that are measured at fair value on a recurring basis as of June 30, 2017:

(Dollars in thousands)	Level 1	Level 2	Level 3	Balance at June 30, 2017
Assets:				
Available-for-sale securities:				
U.S. Treasury securities	$7,801,682	$—	$—	$7,801,682
U.S. agency debentures	—	1,927,253	—	1,927,253
Residential mortgage-backed securities:				
Agency-issued collateralized mortgage obligations—fixed rate	—	1,915,281	—	1,915,281
Agency-issued collateralized mortgage obligations—variable rate	—	419,387	—	419,387
Equity securities	146	7,303	—	7,449
Total available-for-sale securities	7,801,828	4,269,224	—	12,071,052
Non-marketable and other securities (fair value accounting):				
Non-marketable securities:				
Venture capital and private equity fund investments measured at net asset value	—	—	—	135,438
Other venture capital investments (1)	—	—	1,897	1,897
Other securities (1)	788	—	—	788
Total non-marketable and other securities (fair value accounting)	788	—	1,897	138,123
Other assets:				
Foreign exchange forward and option contracts	—	81,843	—	81,843
Equity warrant assets	—	2,798	128,952	131,750
Client interest rate derivatives	—	11,655	—	11,655
Total assets	$7,802,616	$4,365,520	$130,849	$12,434,423
Liabilities:				
Foreign exchange forward and option contracts	$—	$76,170	$—	$76,170
Client interest rate derivatives	—	11,765	—	11,765
Total liabilities	$—	$87,935	$—	$87,935

(1) Included in Level 1 and Level 3 assets are $0.7 million and $1.7 million, respectively, attributable to noncontrolling interests calculated based on the ownership percentages of the noncontrolling interests.

45

Table of Contents

The following fair value hierarchy table presents information about our assets and liabilities that are measured at fair value on a recurring basis as of December 31, 2016:

(Dollars in thousands)	Level 1	Level 2	Level 3	Balance at December 31, 2016
Assets:				
Available-for-sale securities:				
U.S. Treasury securities	$8,909,491	$—	$—	$8,909,491
U.S. agency debentures	—	2,078,375	—	2,078,375
Residential mortgage-backed securities:				
Agency-issued collateralized mortgage obligations—fixed rate	—	1,152,665	—	1,152,665
Agency-issued collateralized mortgage obligations—variable rate	—	474,283	—	474,283
Equity securities	175	5,422	—	5,597
Total available-for-sale securities	8,909,666	3,710,745	—	12,620,411
Non-marketable and other securities (fair value accounting):				
Non-marketable securities:				
Venture capital and private equity fund investments measured at net asset value	—	—	—	141,649
Other venture capital investments (1)	—	—	2,040	2,040
Other securities (1)	753	—	—	753
Total non-marketable and other securities (fair value accounting)	753	—	2,040	144,442
Other assets:				
Interest rate swaps	—	810	—	810
Foreign exchange forward and option contracts	—	68,027	—	68,027
Equity warrant assets	—	2,310	128,813	131,123
Client interest rate derivatives	—	10,110	—	10,110
Total assets	$8,910,419	$3,792,002	$130,853	$12,974,923
Liabilities:				
Foreign exchange forward and option contracts	$—	$54,668	$—	$54,668
Client interest rate derivatives	—	9,770	—	9,770
Total liabilities	$—	$64,438	$—	$64,438

(1) Included in Level 1 and Level 3 assets are $0.6 million and $1.8 million, respectively, attributable to noncontrolling interests calculated based on the ownership percentages of the noncontrolling interests.

The following table presents additional information about Level 3 assets measured at fair value on a recurring basis for the three and six months ended June 30, 2017 and 2016:

(Dollars in thousands)	Beginning Balance	Total Realized and Unrealized Gains (Losses) Included in Income	Sales	Issuances	Distributions and Other Settlements	Transfers Out of Level 3	Ending Balance
Three months ended June 30, 2017							
Non-marketable and other securities (fair value accounting):							
Other venture capital investments (1)	$ 2,040	$ (143)	$—	$ —	$ —	$ —	$ 1,897
Other assets:							
Equity warrant assets (2)	122,199	10,586	(6,500)	3,419	—	(752)	128,952
Total assets	$ 124,239	$ 10,443	$ (6,500)	$ 3,419	$ —	$ (752)	$ 130,849
Three months ended June 30, 2016							
Non-marketable and other securities (fair value accounting):							
Other venture capital investments (1)	$ 2,040	$ 5	$—	$ —	$ (5)	$ —	$ 2,040
Other assets:							
Equity warrant assets (2)	128,982	4,843	(8,178)	2,218	—	(54)	127,811

(1) Realized and unrealized gains (losses) are recorded in the line item “Gains on investment securities, net”, a component of noninterest income.

(2) Realized and unrealized gains (losses) are recorded in the line item “Gains on equity warrant assets, net”, a component of noninterest income.

Table of Contents

The following table presents the amount of net unrealized gains and losses included in earnings (which is inclusive of noncontrolling interest) attributable to Level 3 assets still held at June 30, 2017 and 2016:

	Three months ended June 30,		Six months ended June 30,	
(Dollars in thousands)	2017	2016	2017	2016
Non-marketable and other securities (fair value accounting):				
Other venture capital investments (1)	$(143)	$—	$(143)	$—
Other assets:				
Equity warrant assets (2)	7,984	7,624	7,440	8,856
Total unrealized gains, net	$7,841	$7,624	$7,297	$8,856
Unrealized losses attributable to noncontrolling interests	$(127)	$—	$(127)	$—

(1) Unrealized gains (losses) are recorded in the line item "Gains on investment securities, net", a component of noninterest income.

(2) Unrealized gains (losses) are recorded in the line item "Gains on equity warrant assets, net", a component of noninterest income.

The extent to which any unrealized gains or losses will become realized is subject to a variety of factors, including, among other things, the expiration of current sales restrictions to which these securities are subject, the actual sales of securities and the timing of such actual sales.

The following table presents quantitative information about the significant unobservable inputs used for certain of our Level 3 fair value measurements at June 30, 2017 and December 31, 2016. We have not included in this table our venture capital and private equity fund investments (fair value accounting) as we use net asset value per share (as obtained from the general partners of the investments) as a practical expedient to determine fair value.

(Dollars in thousands)	Fair value	Valuation Technique	Significant Unobservable Inputs	Weighted Average
June 30, 2017:				
Other venture capital investments (fair value accounting)	$ 1,897	Private company equity pricing	(1)	(1)
Equity warrant assets (public portfolio)	683	Black-Scholes option pricing model	Volatility	40.2 %
			Risk-Free interest rate	2.1
			Sales restrictions discount (2)	15.8
Equity warrant assets (private portfolio)	128,269	Black-Scholes option pricing model	Volatility	36.7
			Risk-Free interest rate	1.4
			Marketability discount (3)	16.7
			Remaining life assumption (4)	45.0
December 31, 2016:				
Other venture capital investments (fair value accounting)	$ 2,040	Private company equity pricing	(1)	(1)
Equity warrant assets (public portfolio)	764	Black-Scholes option pricing model	Volatility	46.6 %
			Risk-Free interest rate	2.1
			Sales restrictions discount (2)	17.7
Equity warrant assets (private portfolio)	128,049	Black-Scholes option pricing model	Volatility	36.9
			Risk-Free interest rate	1.3
			Marketability discount (3)	17.1
			Remaining life assumption (4)	45.0

(1) In determining the fair value of our other venture capital investment portfolio, we evaluate a variety of factors related to each underlying private portfolio company including, but not limited to, actual and forecasted results, cash position, recent or planned transactions and market comparable companies. Additionally, we have ongoing communication with the portfolio companies and venture capital fund managers, to determine whether there is a material change in fair value. We use company provided valuation reports, if available, to support our valuation assumptions. These factors are specific to each portfolio company and a weighted average or range of values of the unobservable inputs is not meaningful.

(2) We adjust quoted market prices of public companies, which are subject to certain sales restrictions. Sales restriction discounts generally range from 10 percent to 20 percent depending on the duration of the sales restrictions, which typically range from three to six months.

Table of Contents

(3) Our marketability discount is applied to all private company warrants to account for a general lack of liquidity due to the private nature of the associated underlying company. The quantitative measure used is based upon various option-pricing models. On a quarterly basis, a sensitivity analysis is performed on our marketability discount.

(4) We adjust the contractual remaining term of private company warrants based on our estimate of the actual remaining life, which we determine by utilizing historical data on cancellations and exercises. At June 30, 2017, the weighted average contractual remaining term was 5.8 years, compared to our estimated remaining life of 2.6 years. On a quarterly basis, a sensitivity analysis is performed on our remaining life assumption.

For the three and six months ended June 30, 2017 and 2016, we did not have any transfers between Level 2 and Level 1 or transfers between Level 3 and Level 1. All transfers from Level 3 to Level 2 for the three and six months ended June 30, 2017 and 2016 were due to the transfer of equity warrant assets from our private portfolio to our public portfolio (see our Level 3 reconciliation above). All amounts reported as transfers represent the fair value as of the date of the change in circumstances that caused the transfer.

Financial Instruments not Carried at Fair Value

FASB guidance over financial instruments requires that we disclose estimated fair values for our financial instruments not carried at fair value. Fair value estimates, methods and assumptions, set forth below for our financial instruments, are made solely to comply with these requirements.

Fair values are based on estimates or calculations at the transaction level using present value techniques in instances where quoted market prices are not available. As broadly traded markets do not exist for many of our financial instruments, the fair value calculations attempt to incorporate the effect of current market conditions at a specific time. The aggregation of the fair value calculations presented herein does not represent, and should not be construed to represent, the underlying value of the Company.

The following describes the methods and assumptions used in estimating the fair values of financial instruments for which carrying value approximates fair value and estimated fair values of financial instruments not recorded at fair value on a recurring basis and excludes financial instruments and assets and liabilities already recorded at fair value as described above.

Financial Instruments for which Carrying Value Approximates Fair Value

Certain financial instruments that are not carried at fair value on the Consolidated Balance Sheets are carried at amounts that approximate fair value, due to their short-term nature and generally negligible credit risk. These instruments include cash and cash equivalents; FHLB and FRB stock; accrued interest receivable; short-term borrowings; short-term time deposits; and accrued interest payable. In addition, U.S. GAAP requires that the fair value of deposit liabilities with no stated maturity (i.e., demand, savings and certain money market deposits) be equal to their carrying value; recognition of the inherent funding value of these instruments is not permitted.

Estimated Fair Values of Financial Instruments Not Recorded at Fair Value on a Recurring Basis

Held-to-Maturity Securities

Held-to-maturity securities include similar investments held in our available-for-sale securities portfolio and are valued using the same methodologies. All securities included in our held-to-maturity securities portfolio are valued using Level 2 inputs. Refer to Level 2 fair value measurements above for significant inputs used in the valuation of our held-to-maturity investment securities.

Non-Marketable Securities (Cost and Equity Method Accounting)

Non-marketable securities includes other investments (equity method accounting), venture capital and private equity fund investments (cost method accounting), and other venture capital investments (cost method accounting). Other investments (equity method accounting) includes our investment in SPD-SVB, our joint venture bank in China. At this time, the carrying value of our investment in SPD-SVB is a reasonable estimate of fair value. The fair value of the remaining other investments (equity method accounting) and the fair value of venture capital and private equity fund investments (cost method accounting) and other venture capital investments (cost method accounting) is based on financial information obtained from the fund investments' or debt fund investments' respective general partners. For private company investments, estimated fair value is based on consideration of a range of factors including, but not limited to, the price at which the investment was acquired, the term and nature of the investment, local market

conditions, values for comparable securities, current and projected operating performance, exit strategies, and financing transactions subsequent to the acquisition of the investment. For our fund investments, we utilize the net asset value per share as obtained from the general partners of the investments. We adjust the net asset value per share for differences between our measurement date and the date of the fund investment's net asset value by using the most recently available financial information from the investee general partner, for example March 31st, for our June 30th consolidated financial

Table of Contents

statements, adjusted for any contributions paid, distributions received from the investment, and significant fund transactions or market events during the reporting period.

Loans

The fair value of fixed and variable rate loans is estimated by discounting contractual cash flows using rates that reflect current pricing for similar loans and the projected forward yield curve. This method is not based on the exit price concept of fair value required under ASC 820, Fair Value Measurements and Disclosures.

Long-Term Deposits

The fair value of long-term time deposits is estimated by discounting the cash flows using our cost of borrowings and the projected forward yield curve over their remaining contractual term.

Long-Term Debt

The fair value of long-term debt is generally based on quoted market prices, when available, or is estimated based on calculations utilizing third-party pricing services and current market spread, price indications from reputable dealers or observable market prices of the underlying instrument(s), whichever is deemed more reliable. Also included in the estimated fair value of our 6.05% Subordinated Notes are amounts related to hedge accounting associated with the notes.

Off-Balance Sheet Financial Instruments

The fair value of net available commitments to extend credit is estimated based on the average amount we would receive or pay to execute a new agreement with identical terms and pricing, while taking into account the counterparties' credit standing.

Letters of credit are carried at their fair value, which was equivalent to the residual premium or fee at June 30, 2017 and December 31, 2016. Commitments to extend credit and letters of credit typically result in loans with a market interest rate if funded.

The following fair value hierarchy table presents the estimated fair values of our financial instruments that are not carried at fair value at June 30, 2017 and December 31, 2016:

Table of Contents

(Dollars in thousands)	Carrying Amount	Estimated Fair Value			
		Total	Level 1	Level 2	Level 3
June 30, 2017:

Off-balance sheet financial assets:					
Commitments to extend credit	—	22,074	—	—	22,074

(1) Includes noninterest-bearing demand deposits, interest-bearing checking accounts, money market accounts and interest-bearing sweep deposits.

51

Table of Contents

(2) At December 31, 2016, included in the carrying value and estimated fair value of our 6.05% Subordinated Notes was an interest rate swap valued at $0.8 million related to hedge accounting associated with the notes.

Investments in Entities that Calculate Net Asset Value Per Share

FASB guidance over certain fund investments requires that we disclose the fair value of funds, significant investment strategies of the investees, redemption features of the investees, restrictions on the ability to sell investments, estimate of the period of time over which the underlying assets are expected to be liquidated by the investee, and unfunded commitments related to the investments.

Our investments in debt funds and venture capital and private equity fund investments generally cannot be redeemed. Alternatively, we expect distributions, if any, to be received primarily through IPO and M&A activity of the underlying assets of the fund. Subject to applicable requirements under the Volcker Rule, we do not have any plans to sell any of these fund investments. If we decide to sell these investments in the future, the investee fund's management must approve of the buyer before the sale of the investments can be completed. The fair values of the fund investments have been estimated using the net asset value per share of the investments, adjusted for any differences between our measurement date and the date of the fund investment's net asset value by using the most recently available financial information from the investee general partner, for example March 31st, for our June 30th consolidated financial statements, adjusted for any contributions paid, distributions received from the investment, and significant fund transactions or market events during the reporting period.

The following table is a summary of the estimated fair values of these investments and remaining unfunded commitments for each major category of these investments as of June 30, 2017:

(Dollars in thousands)	Carrying Amount	Fair Value	Unfunded Commitments
Non-marketable securities (fair value accounting):			
Venture capital and private equity fund investments (1)	$ 135,438	$ 135,438	$ 6,609
Non-marketable securities (equity method accounting):			
Venture capital and private equity fund investments (2)	85,609	85,609	4,943
Debt funds (2)	16,476	16,476	—
Other investments (2)	18,943	18,943	—
Non-marketable securities (cost method accounting):			
Venture capital and private equity fund investments (2)	110,001	223,470	8,374
Total	$ 366,467	$ 479,936	$ 19,926

(1) Venture capital and private equity fund investments within non-marketable securities (fair value accounting) include investments made by our managed funds of funds and one of our direct venture funds. These investments represent investments in venture capital and private equity funds that invest primarily in U.S. and global technology and life science/healthcare companies. Included in the fair value and unfunded commitments of fund investments under fair value accounting are $100.6 million and $5.0 million, respectively, attributable to noncontrolling interests. It is estimated that we will receive distributions from the fund investments over the next 10 to 13 years, depending on the age of the funds and any potential extensions of terms of the funds.

(2) Venture capital and private equity fund investments, debt funds, and other fund investments within non-marketable securities (equity and cost method accounting) include funds that invest in or lend money to primarily U.S. and global technology and life science/healthcare companies. It is estimated that we will receive distributions from the funds over the next 5 to 8 years, depending on the age of the funds and any potential extensions of the terms of the funds.

15. Legal Matters

Certain lawsuits and claims arising in the ordinary course of business have been filed or are pending against us and/or our affiliates, and we may from time to time be involved in other legal or regulatory proceedings. In accordance with applicable accounting guidance, we establish accruals for all such matters, including expected settlements, when we

believe it is probable that a loss has been incurred and the amount of the loss is reasonably estimable. When a loss contingency is not both probable and estimable, we do not establish an accrual. Any such loss estimates are inherently uncertain, based on currently available information and are subject to management's judgment and various assumptions. Due to the inherent subjectivity of these estimates and unpredictability of outcomes of legal proceedings, any amounts accrued may not represent the ultimate resolution of such matters.

Table of Contents

To the extent we believe any potential loss relating to such matters may have a material impact on our liquidity, consolidated financial position, results of operations, and/or our business as a whole and is reasonably possible but not probable, we aim to disclose information relating to such potential loss. We also aim to disclose information relating to any material potential loss that is probable but not reasonably estimable. In such cases, where reasonably practicable, we aim to provide an estimate of loss or range of potential loss. No disclosures are generally made for any loss contingencies that are deemed to be remote.

Based upon information available to us, our review of lawsuits and claims filed or pending against us to date and consultation with our outside legal counsel, we have not recognized a material accrual liability for any such matters, nor do we currently expect that these matters will result in a material liability to the Company. However, the outcome of litigation and other legal and regulatory matters is inherently uncertain, and it is possible that one or more of such matters currently pending or threatened could have an unanticipated material adverse effect on our liquidity, consolidated financial position, results of operations, and/or our business as a whole, in the future.

16. Related Parties

We have no material related party transactions requiring disclosure. In the ordinary course of business, the Bank may extend credit to related parties, including executive officers, directors, principal shareholders and their related interests. Additionally, we provide real estate secured loans to eligible employees through our EHOP. For additional details, see Note 16—“Employee Compensation and Benefit Plans" under Part II, Item 8 of our 2016 Form 10-K.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This Quarterly Report on Form 10-Q, including in particular “Management’s Discussion and Analysis of Financial Condition and Results of Operations” under Part I, Item 2 of this report, contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. In addition, management has in the past and might in the future make forward-looking statements orally to analysts, investors, the media and others. Forward-looking statements are statements that are not historical facts. Broadly speaking, forward-looking statements include, but are not limited to, the following:

- Financial projections, including with respect to our net interest income, noninterest income, earnings per share, noninterest expenses (including professional services, compliance, compensation and other costs), cash flows, balance sheet positions, capital expenditures, liquidity and capitalization or other financial items;
- Descriptions of our strategic initiatives, plans or objectives for future operations, including pending sales or acquisitions;
- Forecasts of private equity/venture capital funding and investment levels;
- Forecasts of future interest rates, economic performance, and income from investments;
- Forecasts of expected levels of provisions for loan losses, nonperforming loans, loan growth and client funds; and
- Descriptions of assumptions underlying or relating to any of the foregoing.

You can identify these and other forward-looking statements by the use of words such as “becoming,” “may,” “will,” “should,’ "could," "would," “predict,” “potential,” “continue,” “anticipate,” “believe,” “estimate,” “assume,” “seek,” “expect,” “plan,” “i negative of such words, or comparable terminology. Forward-looking statements are neither historical facts nor assurances of future performance. Although we believe that the expectations reflected in these forward-looking statements are reasonable, we have based these expectations on our current beliefs as well as our assumptions, and such expectations may prove to be incorrect. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. Our actual results of operations and financial performance could differ significantly from those expressed in or implied by our management’s forward-looking statements. Important factors that could cause our actual results and financial condition to differ from the expectations stated in the forward-looking statements include, among others:

- Market and economic conditions, including the interest rate environment, and the associated impact on us;
-

The credit profile and credit quality of our loan portfolio and volatility of our levels of nonperforming assets and charge-offs;

- The adequacy of our allowance for loan losses and the need to make provisions for loan losses for any period;
- The borrowing needs of our clients;
- The sufficiency of our capital and liquidity positions;
- The levels of loans, deposits and client investment fund balances;

53

Table of Contents

- The performance of our portfolio investments; the general condition of the public and private equity and mergers and acquisitions markets and their impact on our investments, including equity warrant assets, venture capital and private equity funds and direct equity investments;
- Our overall investment plans and strategies; the realization, timing, valuation and performance of our equity or other investments;
- The levels of public offerings, mergers and acquisitions and venture capital investment activity of our clients that may impact the borrowing needs of our clients;
- The occurrence of fraudulent activity, including breaches of our information security or cyber security-related incidents;
- Business disruptions and interruptions due to natural disasters and other external events;
- The impact on our reputation and business from our interactions with business partners, counterparties, service providers and other third parties;
- Expansion of our business internationally, and the impact of international market and economic events on us;
- The impact of governmental policy, legal requirements and regulations, including the Dodd-Frank Act, Federal Reserve and other regulatory requirements;
- The impact of lawsuits and claims, as well as, legal or regulatory proceedings;
- Changes in accounting standards and tax laws;
- The levels of equity capital available to our client or portfolio companies;
- The effectiveness of our risk management framework and quantitative models;
- The sale of impaired assets;
- Our ability to maintain or increase our market share, including through successfully implementing our business strategy and undertaking new business initiatives; and
- Other factors as discussed in “Risk Factors” under Part I, Item 1A in our 2016 Form 10-K.

We urge investors to consider all of these factors carefully in evaluating the forward-looking statements contained in this Quarterly Report on Form 10-Q. All subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements. The forward-looking statements included in this filing are made only as of the date of this filing. We assume no obligation and do not intend to revise or update any forward-looking statements contained in this Quarterly Report on Form 10-Q, except as required by law.

The following discussion and analysis of financial condition and results of operations should be read in conjunction with our unaudited interim consolidated financial statements and accompanying notes as presented in Part I, Item 1 of this report and in conjunction with our 2016 Form 10-K.

Reclassifications

Certain prior period amounts, primarily related to the changes to our income statement presentation of gains on derivative instruments, net and provision for unfunded credit commitments have been reclassified to conform to current period presentations.

Management’s Overview of Second Quarter 2017 Performance

Overall, we had a strong second quarter in 2017, which was marked by higher net interest income, increased warrant gains, strong total client funds growth, healthy loan growth and solid credit quality. Additionally, we saw higher noninterest expense, primarily from increased compensation and benefits expenses as well as other noninterest expenses reflective of increased expenses to support our increasing regulatory and compliance initiatives associated with existing operations as well as to support our global expansion. Our core business continued to perform well as a result of our ongoing focus on innovation companies and their investors and continued efforts to secure client relationships. We saw continued success in working with private equity/venture capital firms as well as growth of our private banking division.

A summary of our performance for the three months ended June 30, 2017 (compared to the three months ended June 30, 2016, where applicable) is as follows:

54

Table of Contents

BALANCE SHEET

Assets. $47.5 billion in average total assets (up 9.6%). $48.4 billion in period-end total assets (up 12.2%).
Loans. $20.5 billion in average total loan balances, net of unearned income (up 12.7%). $21.0 billion in period-end total loan balances, net of unearned income (up 11.4%).
Deposits. $42.1 billion in average total deposit balances (up 10.4%). $42.5 billion in period-end total deposit balances (up 12.9%).
Off-Balance Sheet Client Investment Funds. $49.1 billion in total average client investment fund balances (up 14.5%). $51.9 billion in total period-end client investment fund balances (up 20.5%).

EARNINGS

EPS. Earnings per diluted share of $2.32 (up 30.3%).
Net Income. Consolidated net income available to common stockholders of $123.2 million (up 32.5%).
- Net interest income of $342.7 million (up 21.0%).
- Net interest margin of 3.00% (up 27 bps).
- Noninterest income of $128.5 million (up 14.0%), with non-GAAP core fee income+ of $87.3 million (up 17.2%).
- Noninterest expense of $251.2 million (up 25.7%)

ROE. Return on average equity (annualized) (“ROE”) performance of 12.75%.

CAPITAL

Capital. Continued strong capital levels, with all capital ratios considered “well-capitalized” under banking regulations. SVBFG and SVB capital ratios, respectively, were:
- CET 1 risk-based capital ratio of 13.05% and 12.59%.
- Tier 1 risk-based capital ratio of 13.43% and 12.59%.
- Total risk-based capital ratio of 14.39% and 13.59%.
- Tier 1 leverage ratio of 8.40% and 7.66%.

CREDIT QUALITY

Credit Quality. Continued disciplined underwriting.
- Allowance for loan losses of 1.12% as a percentage of period-end total gross loans.
- Provision for loan losses of 0.29% as a percentage of period-end total gross loans (annualized).
- Net loan charge-offs of 0.44% as a percentage of average total gross loans (annualized).

+ Consists of fee income for deposit services, letters of credit, credit cards, client investments, foreign exchange and lending-related activities. This is a non-GAAP financial metric. (See the non-GAAP reconciliation under “Results of Operations—Noninterest Income”)

Table of Contents

A summary of our performance for the three and six months ended June 30, 2017 and 2016 is as follows:

	Three months ended June 30,			Six months ended June 30,		
(Dollars in thousands, except per share data, employees and ratios)	2017	2016	% Change	2017	2016	% Change

(1) See “Results of Operations–Noninterest Income” for a description and reconciliation of non-GAAP core fee income and noninterest income.

Table of Contents

(2) See “Results of Operations–Noninterest Expense” for a description and reconciliation of non-GAAP noninterest expense and non-GAAP operating efficiency ratio.

(3) Ratio represents annualized consolidated net income available to common stockholders divided by quarterly and year-to-date average assets.

(4) Ratio represents annualized consolidated net income available to common stockholders divided by quarterly and year-to-date average SVBFG stockholders’ equity.

(5) See “Capital Resources–Capital Ratios” for a reconciliation of non-GAAP tangible common equity to tangible assets and tangible common equity to risk-weighted assets.

(6) The operating efficiency ratio is calculated by dividing total noninterest expense by total taxable-equivalent net interest income plus noninterest income.

(7) Book value per common share is calculated by dividing total SVBFG stockholders’ equity by total outstanding common shares at period-end.

For more information with respect to our capital ratios, please refer to “Capital Ratios” under “Consolidated Financial Condition-Capital Ratios” below.

Critical Accounting Policies and Estimates

The accompanying management’s discussion and analysis of results of operations and financial condition is based upon our unaudited interim consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements in accordance with GAAP requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosure of contingent assets and liabilities. Management evaluates estimates and assumptions on an ongoing basis. Management bases its estimates on historical experiences and various other factors and assumptions that are believed to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions.

There have been no significant changes during the six months ended June 30, 2017 to the items that we disclosed as our critical accounting policies and estimates in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” under Part II, Item 7 of our 2016 Form 10-K.

Results of Operations

Net Interest Income and Margin (Fully Taxable Equivalent Basis)

Net interest income is defined as the difference between interest earned on loans, fixed income investment portfolio (available-for-sale and held-to-maturity securities), short-term investment securities and interest paid on funding sources. Net interest income is our principal source of revenue. Net interest margin is defined as the amount of annualized net interest income, on a fully taxable equivalent basis, expressed as a percentage of average interest-earning assets. Net interest income and net interest margin are presented on a fully taxable equivalent basis to consistently reflect income from taxable loans and securities and tax-exempt securities based on the federal statutory tax rate of 35 percent.

Analysis of Net Interest Income Changes Due to Volume and Rate (Fully Taxable Equivalent Basis)

Net interest income is affected by changes in the amount and composition of interest-earning assets and interest-bearing liabilities, referred to as “volume change.” Net interest income is also affected by changes in yields earned on interest-earning assets and rates paid on interest-bearing liabilities, referred to as “rate change.” The following table sets forth changes in interest income for each major category of interest-earning assets and interest expense for each major category of interest-bearing liabilities. The table also reflects the amount of simultaneous changes attributable to both volume and rate changes for the periods indicated. For this table, changes that are not solely due to either volume or rate are allocated in proportion to the percentage changes in average volume and average rate.

Net Interest Income (Fully Taxable Equivalent Basis)

Three months ended June 30, 2017 and 2016

Net interest income increased by $59.5 million to $343.2 million for the three months ended June 30, 2017, compared to $283.6 million for the comparable 2016 period. Overall, our net interest income increased primarily from interest earned on loans, reflective of higher average loan balances driven by strong loan growth from our private equity/venture capital and SVB Private Bank loan portfolios and rate increases subsequent to June 30, 2016.

The main factors affecting interest income for the three months ended June 30, 2017, compared to the comparable 2016 period are discussed below:

- Interest income for the three months ended June 30, 2017 increased by $60.1 million due primarily to:

A $44.9 million increase in interest income on loans to $250.2 million for the three months ended June 30, 2017, compared to $205.3 million for the comparable 2016 period. The increase was reflective of an increase in average loan balances of $2.3 billion and an increase in the overall loan yield of 35 basis points to 4.89 percent from 4.54 percent. Gross loan yields, excluding loan interest recoveries and loan fees, increased 21 basis points to 4.20 percent from 3.99 percent, reflective primarily of the benefit of interest rate increases. Loan fee yields increased 10 basis points to 64 basis points from 54 basis points in the comparable 2016 period. The increase in loan fee yields was primarily a result of higher income from loan prepayments.

A $9.4 million increase in interest income on fixed income investment securities to $96.9 million for the three months ended June 30, 2017, compared to $87.5 million for the comparable 2016 period. The increase was reflective of an increase in our fixed income investment securities yield of 19 basis points to 1.81 percent from 1.62 percent resulting primarily from higher reinvestment yields on maturing fixed income investments as well as higher yields on new purchases due to interest rate increases.

A $5.8 million increase in interest income from our interest earning cash and short-term investment securities. The increase was due primarily to an increase of $1.7 billion in average interest-earning Federal Reserve cash

---

Table of Contents

balances as a result of a $4.0 billion increase in average deposit balances and from the impact of the recent increases in the Federal Funds target rate.

The main factors affecting interest income and interest expense for the six months ended June 30, 2017, compared to the comparable 2016 period are discussed below:

- Interest income for the six months ended June 30, 2017 increased by $89.4 million due primarily to:

A $74.3 million increase in interest income on loans to $477.5 million for the six months ended June 30, 2017, compared to $403.2 million for the comparable 2016 period. The increase was reflective of an increase in average loan balances of $2.7 billion and an increase in the overall loan yield of 14 basis points to 4.75 percent from 4.61 percent. Gross loan yields, excluding loan interest recoveries and loan fees, increased to 4.12 percent from 4.02 percent, reflective of the benefit of interest rate increases, partially offset by the strong growth of our lower yielding private equity/venture capital and Private Bank loan portfolios. Our private equity/venture capital loan portfolio represented 42.2 percent and 37.6 percent of our total gross loan portfolio at June 30, 2017 and 2016, respectively. Our Private Bank loan portfolio represented 11.4 percent and 10.5 percent of our total gross loan portfolio at June 30, 2017 and 2016, respectively.

Loan fee yields increased three basis points to 60 basis points from 57 basis points in the comparable 2016 period. The increase in loan fee yields was primarily a result of higher income from loan prepayments.

An $8.2 million increase in interest income on fixed income investment securities to $187.7 million for the six months ended June 30, 2017, compared to $179.5 million for the comparable 2016 period. The increase was reflective of an increase in our fixed income investment securities yield of 17 basis points to 1.77 percent from 1.60 percent resulting primarily from higher reinvestment yields on maturing fixed income investments as well as higher yields on new purchases due to interest rate increases, partially offset by a decrease in average fixed income investment securities of $1.2 billion reflective of sales of investment securities in 2016 to support our loan growth and liquidity needs.

A $6.9 million increase in interest income from our interest earning cash and short-term investment securities. The increase was due primarily to an increase of $0.9 billion in average interest-earning Federal Reserve cash balances as a result of a $2.3 billion increase in average deposit balances. We also saw a benefit from the impact of the recent increases in the Federal Funds target rate.

- Interest expense for the six months ended June 30, 2017 increased by $1.3 million primarily due to:

An increase in deposits interest expense of $1.5 million, due primarily to an increase in interest paid on our interest-bearing money market deposits as a result of market rate adjustments.

Net Interest Margin (Fully Taxable Equivalent Basis)

Three months ended June 30, 2017 and 2016

- Our net interest margin increased by 27 basis points to 3.00 percent for the three months ended June 30, 2017, compared to 2.73 percent for the comparable 2016 period. The higher margin during the second quarter of 2017 was reflective primarily of the increases in the Federal Funds target rate since the second quarter of 2016. In addition, average loans represented 45 percent of interest-earning assets for the second quarter of 2017 compared to 44 percent for the comparable 2016 period.

Six months ended June 30, 2017 and 2016

- Our net interest margin increased by 24 basis points to 2.94 percent for the six months ended June 30, 2017, compared to 2.70 percent for the comparable 2016 period. Our net interest margin increased primarily as a result of the impact of rising interest rates and a higher level of loans as a percentage of our interest-earning assets portfolio during the six months ended June 30, 2017. Average loans represented 45 percent of interest earning assets for the first half of 2017 compared to 42 percent for the comparable 2016 period.

Table of Contents

Average Balances, Yields and Rates Paid (Fully Taxable Equivalent Basis)
The average yield earned on interest-earning assets is the amount of annualized fully taxable equivalent interest income expressed as a percentage of average interest-earning assets. The average rate paid on funding sources is the amount of annualized interest expense expressed as a percentage of average funding sources. The following tables set forth average assets, liabilities, noncontrolling interests and SVBFG stockholders' equity, interest income, interest expense, annualized yields and rates, and the composition of our annualized net interest margin for the three and six months ended June 30, 2017 and 2016:

Reconciliation to reported net interest income:						

Adjustments for taxable equivalent basis	(476)	(309)
Net interest income, as reported	$342,696	$283,336

(1) Includes average interest-earning deposits in other financial institutions of $981 million and $633 million for the three months ended June 30, 2017 and 2016, respectively. For the three months ended June 30, 2017 and 2016, balances also include $2.8 billion and $1.1 billion, respectively, deposited at the FRB, earning interest at the Federal Funds target rate.

(2) Yields on interest-earning investment securities do not give effect to changes in fair value that are reflected in other comprehensive income.

(3) Interest income on non-taxable investment securities are presented on a fully taxable-equivalent basis using the federal statutory income tax rate of 35.0 percent for all periods presented.

(4) Nonaccrual loans are reflected in the average balances of loans.

(5) Interest income includes loan fees of $33.0 million and $24.2 million for the three months ended June 30, 2017 and 2016, respectively.

(6) Average investment securities of $663 million and $824 million for the three months ended June 30, 2017 and 2016, respectively, were classified as other assets as they were noninterest-earning assets. These investments consisted primarily of non-marketable and other securities.

Reconciliation to reported net interest income:						

Adjustments for taxable equivalent basis	(824)	(631)
Net interest income, as reported	$652,689	$564,757

(1) Includes average interest-earning deposits in other financial institutions of $891 million and $600 million for the six months ended June 30, 2017 and 2016, respectively. The balance also includes $2.2 billion and $1.3 billion deposited at the FRB, earning interest at the Federal Funds target rate for the six months ended June 30, 2017 and 2016, respectively.
(2) Yields on interest-earning investment securities do not give effect to changes in fair value that are reflected in other comprehensive income.
(3) Interest income on non-taxable available-for-sale securities is presented on a fully taxable-equivalent basis using the federal statutory income tax rate of 35.0 percent for all periods presented.
(4) Nonaccrual loans are reflected in the average balances of loans.
(5) Interest income includes loan fees of $60.1 million and $49.7 million for the six months ended June 30, 2017 and 2016, respectively.
(6) Average investment securities of $661 million and $803 million for the six months ended June 30, 2017 and 2016, respectively, were classified as other assets as they were noninterest-earning assets. These investments consisted primarily of non-marketable securities.

Provision for Credit Losses

The provision for credit losses is the combination of both the provision for loan losses and the provision for unfunded credit commitments. Our provision for loan losses is a function of our reserve methodology, which is used to determine an appropriate allowance for loan losses for the period. Our reserve methodology is based on our evaluation of the existing allowance for loan losses in relation to total gross loans using historical and other objective information, and on our qualitative assessment of the inherent and identified credit risk of the loan portfolio. Our provision for unfunded credit commitments is determined using a methodology that is similar to the methodology used for calculating the allowance for loan losses, adjusted for factors specific to binding commitments, including the probability of funding and exposure at funding. Our provision for unfunded credit commitments equals our best estimate of probable credit losses that are inherent in the portfolio at the balance sheet date.

The following table summarizes our allowance for loan losses and the allowance for unfunded credit commitments for the three and six months ended June 30, 2017 and 2016:

	Three months ended June 30,		Six months ended June 30,	
(Dollars in thousands, except ratios)	2017	2016	2017	2016
Allowance for loan losses, beginning balance	$243,130	$230,249	$225,366	$217,613
Provision for loan losses (1)	15,185	36,333	44,864	69,674
Gross loan charge-offs	(25,081)	(20,676)	(39,111)	(46,850)
Loan recoveries	2,535	1,261	4,327	6,074
Foreign currency translation adjustments	727	(2,444)	1,050	(1,788)
Allowance for loan losses, ending balance	$236,496	$244,723	$236,496	$244,723
Allowance for unfunded credit commitments, beginning balance	$46,335	$34,541	$45,265	$34,415
Provision for unfunded credit commitments (1)	621	413	1,676	547
Foreign currency translation adjustments	44	(65)	59	(73)
Allowance for unfunded credit commitments, ending balance (2)	$47,000	$34,889	$47,000	$34,889
Ratios and other information:				
Provision for loan losses as a percentage of period-end total gross loans (annualized)	0.29 %	0.77 %	0.43 %	0.74 %
Gross loan charge-offs as a percentage of average total gross loans (annualized)	0.49	0.45	0.39	0.53
Net loan charge-offs as a percentage of average total gross loans (annualized)	0.44	0.43	0.34	0.46
Allowance for loan losses as a percentage of period-end total gross loans	1.12	1.29	1.12	1.29
Provision for credit losses (1)	$15,806	$36,746	$46,540	$70,221
Period-end total gross loans	21,103,946	18,949,902	21,103,946	18,949,902
Average total gross loans	20,632,237	18,310,189	20,412,123	17,716,954

(1) Our consolidated statements of income were modified from prior periods' presentation to conform to the current period presentation, which reflect our provision for loan losses and provision for unfunded credit commitments together as our "provision for credit losses."

(2) The "allowance for unfunded credit commitments" is included as a component of "other liabilities."

Three months ended June 30, 2017 and 2016

Our provision for credit losses was $15.8 million for the three months ended June 30, 2017, consisting of a provision for loan losses of $15.2 million and a provision for unfunded credit commitments of $0.6 million. Our provision for credit losses was $36.7 million for the three months ended June 30, 2016, consisting of a provision for loan losses of $36.3 million and a provision for unfunded credit commitments of $0.4 million.

The provision for loan losses of $15.2 million for the three months ended June 30, 2017 primarily reflects $12.7 million in net new specific reserves for nonaccrual loans and a $5.0 million increase in reserves for period-end loan growth, partially offset

63

Table of Contents

by a benefit from improved credit quality and the continued shift in our loan portfolio to private equity/venture capital loans, which tend to be of higher credit quality.

The provision for loan losses of $36.3 million for the three months ended June 30, 2016, was reflective primarily of $15.4 million of reserves on net new nonaccrual loans, $13.0 million for charge-offs that did not previously have a specific reserve and $10.7 million related to the $1.1 billion increase in period-end loan balances, partially offset by a decrease in our reserves for performing loans.

The provision for unfunded credit commitments of $0.6 million for three months ended June 30, 2017 was driven primarily by an increase of $0.7 billion in unfunded credit commitment balances. Our provision for unfunded credit commitments was $0.4 million for three months ended June 30, 2016.

Gross loan charge-offs were $25.1 million for three months ended June 30, 2017, of which $5.5 million was not specifically reserved for at March 31, 2017. Gross loan charge-offs included two Corporate Finance client loans in our software/internet loan portfolio totaling $13.0 million and $11.7 million from early-stage clients, primarily from our software/internet and life science/healthcare loan portfolios.

Gross loan charge-offs of $20.7 million for the three months ended June 30, 2016 included $13.7 million from early-stage client loans and $5.2 million from one late-stage client loan. These charge-offs were primarily from our software/internet loan portfolio.

Six months ended June 30, 2017 and 2016

Our provision for credit losses was $46.5 million for the six months ended June 30, 2017, consisting of a provision for loan losses of $44.9 million and a provision for unfunded credit commitments of $1.7 million. Our provision for credit losses was $70.2 million for the second quarter of 2016, consisting of a provision for loan losses of $69.7 million and a provision for unfunded credit commitments of $0.5 million.

The provision for loan losses of $44.9 million for the six months ended June 30, 2017 was reflective primarily of $38.1 million in net new specific reserves for nonaccrual loans and $10.0 million from period-end loan growth, partially offset by a benefit from improved credit quality and the continued shift in our loan portfolio to private equity/venture capital loans, which tend to be of higher credit quality.

The provision for loan losses of $69.7 million for the six months ended June 30, 2016 was driven by $27.5 million for charge-offs that did not previously have a specific reserve and $20.2 million from period-end loan growth, with the remaining provision due primarily to reserves for new nonaccrual loans.

The provision for unfunded credit commitments of $1.7 million for six months ended June 30, 2017 was driven primarily by the increase in the large credit component of the unfunded credit commitment portfolio as well as the increase of $0.7 billion in unfunded credit commitment balances during the three months ended June 30, 2017. Our provision for unfunded credit commitments was $0.5 million for six months ended June 30, 2016.

Gross loan charge-offs of $39.1 million for the six months ended June 30, 2017 included $24.1 million from our early-stage loan portfolio and $13.0 million from two Corporate Finance client loans. These charge-offs were primarily from our software/internet loan portfolio. Gross loan charge-offs of $46.9 million for the six months ended June 30, 2016 included $29.1 million from our early-stage portfolio and $13.4 million from two late-stage client loans. These charge-offs were primarily from our software/internet loan portfolio.

See “Consolidated Financial Condition—Credit Quality and Allowance for Loan Losses” below and Note 7—“Loans and Allowance for Loan Losses and Allowance for Unfunded Credit Commitments” of the “Notes to Interim Consolidated Financial Statements (unaudited)” under Part I, Item 1 of this report for further details on our allowance for loan losses.

Noninterest Income

For the three and six months ended June 30, 2017, noninterest income was $128.5 million and $246.2 million, respectively, compared to $112.8 million and $198.9 million for the comparable 2016 periods. For the three and six months ended June 30, 2017, non-GAAP noninterest income, net of noncontrolling interests was $119.0 million and $230.1 million, respectively, compared to $111.2 million and $200.0 million for the comparable 2016 periods. For the three and six months ended June 30, 2017, non-GAAP core fee income was $87.3 million and $169.8 million, respectively, compared to $74.5 million and $151.0 million for the comparable 2016 periods. (See reconciliations of non-GAAP measures used below under “Use of Non-GAAP Financial Measures”.)

Use of Non-GAAP Financial Measures

To supplement our unaudited interim consolidated financial statements presented in accordance with GAAP, we use certain non-GAAP measures of financial performance (including, but not limited to, non-GAAP core fee income, non-GAAP noninterest

64

Table of Contents

income, non-GAAP net gains on investment securities). These supplemental performance measures may vary from, and may not be comparable to, similarly titled measures by other companies in our industry. Non-GAAP financial measures are not in accordance with, or an alternative for, GAAP. Generally, a non-GAAP financial measure is a numerical measure of a company's performance that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP. A non-GAAP financial measure may also be a financial metric that is not required by GAAP or other applicable requirement.

We believe these non-GAAP financial measures, when taken together with the corresponding GAAP financial measures, provide meaningful supplemental information regarding our performance by excluding items that represent income attributable to investors other than us and our subsidiaries and other certain non-recurring items. Our management uses, and believes that investors benefit from referring to, these non-GAAP financial measures in assessing our operating results and when planning, forecasting and analyzing future periods. However, these non-GAAP financial measures should be considered in addition to, not as a substitute for or preferable to, financial measures prepared in accordance with GAAP.

Included in net income is income and expense attributable to noncontrolling interests. We recognize, as part of our investment funds management business through SVB Capital, the entire income or loss from funds consolidated in accordance with ASC Topic 810 as discussed in Note 1—"Basis of Presentation" of the "Notes to Interim Consolidated Financial Statements (unaudited)" under Part I, Item 1 of this report. We are required under GAAP to consolidate 100% of the results of these entities, even though we may own less than 100% of such entities. The relevant amounts attributable to investors other than us are reflected under "Net Income Attributable to Noncontrolling Interests" on our statements of income. Where applicable, the tables below for noninterest income and net gains on investment securities exclude noncontrolling interests.

Core fee income is a non-GAAP financial measure, which represents GAAP noninterest income, but excludes certain line items where performance is typically subject to market or other conditions beyond our control. Core fee income includes foreign exchange fees, deposit service charges, credit card fees, lending related fees, client investment fees and letters of credit fees.

The following table provides a reconciliation of GAAP noninterest income to non-GAAP noninterest income, net of noncontrolling interests, for the three and six months ended June 30, 2017 and 2016:

	Three months ended June 30,			Six months ended June 30,		
(Dollars in thousands)	2017	2016	% Change	2017	2016	% Change
GAAP noninterest income	$128,528	$112,776	14.0 %	$246,187	$198,910	23.8 %
Less: income (loss) attributable to noncontrolling interests, including carried interest allocation	9,536	1,619	NM	16,095	(1,052)	NM
Non-GAAP noninterest income, net of noncontrolling interests	$118,992	$111,157	7.0	$230,092	$199,962	15.1

NM—Not meaningful

The following table provides a reconciliation of GAAP noninterest income to non-GAAP core fee income for the three and six months ended June 30, 2017 and 2016:

	Three months ended June 30,			Six months ended June 30,		
(Dollars in thousands)	2017	2016	% Change	2017	2016	% Change
GAAP noninterest income	$128,528	$112,776	14.0 %	$246,187	$198,910	23.8 %
Less: gains on investment securities, net	17,630	23,270	(24.2)	33,600	18,586	80.8
Less: gains on equity warrant assets, net	10,820	5,089	112.6	17,510	11,695	49.7
Less: other noninterest income	12,811	9,963	28.6	25,232	17,633	43.1
Non-GAAP core fee income (1)	$87,267	$74,454	17.2	$169,845	$150,996	12.5

(1)

Non-GAAP core fee income represents noninterest income, but excludes certain line items where performance is typically subject to market or other conditions beyond our control and includes foreign exchange fees, credit card fees, deposit service charges, lending related fees, client investment fees and letters of credit fees.

Table of Contents

Gains on Investment Securities, Net

Net gains and losses on investment securities include gains and losses from our non-marketable and other securities, as well as gains and losses from sales of our available-for-sale securities portfolio, when applicable.

Our available-for-sale securities portfolio represents primarily interest-earning fixed income investment securities and is managed to earn an appropriate portfolio yield over the long-term while maintaining sufficient liquidity and addressing our asset/liability management objectives. Sales of equity securities held as a result of our exercised warrants, result in net gains or losses on investment securities. These sales are conducted pursuant to the guidelines of our investment policy related to the management of our liquidity position and interest rate risk. Though infrequent, sales of investment securities in our available-for-sale securities portfolio may result in net gains or losses and are also conducted pursuant to the guidelines of our investment policy.

Our non-marketable and other securities portfolio primarily represents investments in venture capital and private equity funds, SPD Silicon Valley Bank Co., Ltd. (the Bank's joint venture bank in China ("SPD-SVB")), debt funds, private and public portfolio companies and investments in qualified affordable housing projects. We experience variability in the performance of our non-marketable and other securities from quarter to quarter, which results in net gains or losses on investment securities (both realized and unrealized). This variability is due to a number of factors, including unrealized changes in the values of our investments, changes in the amount of realized gains and losses from distributions, changes in liquidity events and general economic and market conditions. Unrealized gains or losses from non-marketable and other securities for any single period are typically driven by valuation changes, and are therefore subject to potential increases or decreases in future periods. Such variability may lead to volatility in the gains or losses from investment securities. As such, our results for a particular period are not necessarily indicative of our expected performance in a future period.

The extent to which any unrealized gains or losses will become realized is subject to a variety of factors, including, among other things, the expiration of certain sales restrictions to which these equity securities may be subject to (i.e. lock-up agreements), changes in prevailing market prices, market conditions, the actual sales or distributions of securities, the timing of such actual sales or distributions, which, to the extent such securities are managed by our managed funds, are subject to our funds' separate discretionary sales/distributions and governance processes.

Three months ended June 30, 2017 and 2016

For the three months ended June 30, 2017, we had net gains on investment securities of $17.6 million, compared to $23.3 million for the comparable 2016 period. Non-GAAP net gains on investment securities, net of noncontrolling interests, were $8.2 million for the three months ended June 30, 2017, compared to $21.6 million for the comparable 2016 period.

Non-GAAP net gains on investment securities, net of noncontrolling interests, of $8.2 million for the three months ended June 30, 2017 were driven by the following:

- Gains of $4.9 million from our strategic and other investments, comprised primarily of realized gains from distributions from our strategic venture capital fund investments reflective of prior years' IPO activity, partially offset by losses in our other investments portfolio, and
- Gains of $2.7 million from our managed funds of funds portfolio, related primarily to net unrealized valuation increases in the investments held by the funds driven by IPO and M&A activity during the three months ended June 30, 2017.

Six months ended June 30, 2017 and 2016

For the six months ended June 30, 2017, we had net gains on investment securities of $33.6 million, compared to $18.6 million for the comparable 2016 period. Non-GAAP net gains on investment securities, net of noncontrolling interests, were $17.7 million for the six months ended June 30, 2017, compared to net gains of $19.7 million for the comparable 2016 period.

Non-GAAP net gains, net of noncontrolling interests, of $17.7 million for the six months ended June 30, 2017 were driven by the following:

- Gains of $10.5 million from our strategic and other investments, attributable primarily to distribution gains from our strategic venture capital funds investments and $3.4 million related to the partial sale of shares of one of our direct equity investments, and

- Gains of $6.3 million from our managed funds of funds portfolio, related primarily to net unrealized valuation increases in the investments held by the funds driven by IPO, M&A and private equity-backed financing activity during the six months ended June 30, 2017.

Table of Contents

The following table provides a reconciliation of GAAP total gains (losses) on investment securities, net, to non-GAAP net gains (losses) on investment securities, net of noncontrolling interests, for the three and six months ended June 30, 2017 and 2016:

(Dollars in thousands)	Managed Funds of Funds	Managed Direct Venture Funds	Debt Funds	Available-For-Sale Securities	Strategic and Other Investments	Total

Gains on Equity Warrant Assets, Net

A summary of gains on equity warrant assets, net, for the three and six months ended June 30, 2017 and 2016 is as follows:

	Three months ended June 30,			Six months ended June 30,		
(Dollars in thousands)	2017	2016	% Change	2017	2016	% Change
Equity warrant assets (1)						
Gains on exercises, net	$3,121	$(1,487)	NM%	$11,345	$5,585	103.1 %
Cancellations and expirations	(571)	(769)	(25.7)	(1,129)	(1,384)	(18.4)
Changes in fair value	8,270	7,345	12.6	7,294	7,494	(2.7)
Gains on equity warrant assets, net	$10,820	$5,089	112.6	$17,510	$11,695	49.7

NM—Not meaningful

(1)

At June 30, 2017, we held warrants in 1,808 companies, compared to 1,697 companies at June 30, 2016. The total fair value of our warrant portfolio was $132 million at June 30, 2017 and $130 million at June 30, 2016. Warrants in 15 companies each had fair values greater than $1.0 million and collectively represented $39.4 million, or 30.0 percent, of the fair value of the total warrant portfolio at June 30, 2017.

Table of Contents

Three months ended June 30, 2017 and 2016

Net gains on equity warrant assets were $10.8 million for the three months ended June 30, 2017, compared to net gains of $5.1 million for the comparable 2016 period. Net gains on equity warrant assets for the three months ended June 30, 2017, consisted of:

- Net gains of $8.3 million from changes in warrant valuations for the three months ended June 30, 2017, compared to net gains of $7.3 million for the comparable 2016 period, primarily driven by warrant valuation gains in our private company warrant portfolio reflective of M&A exit activity and comparable market valuations during the three months ended June 30, 2017, and
- Net gains of $3.1 million from the exercise of equity warrant assets during the three months ended June 30, 2017, compared to net losses of $1.5 million for the comparable 2016 period.

Six months ended June 30, 2017 and 2016

Net gains on equity warrant assets were $17.5 million for the six months ended June 30, 2017, compared to net gains of $11.7 million for the comparable 2016 period. Net gains on equity warrant assets consisted of:

- Net gains of $11.3 million from the exercise of equity warrant assets for the six months ended June 30, 2017, compared to $5.6 million for the comparable 2016 period, reflective primarily of increased M&A and IPO activity during the six months ended June 30, 2017, and
- Net gains of $7.3 million from changes in warrant valuations for the six months ended June 30, 2017, compared to $7.5 million for the comparable 2016 period, primarily reflective of warrant valuation gains in our private company warrant portfolio reflective of M&A exit activity and comparable market valuations during the six months ended June 30, 2017.

Non-GAAP Core Fee Income

	Three months ended June 30,			Six months ended June 30,		
(Dollars in thousands)	2017	2016	% Change	2017	2016	% Change
Non-GAAP core fee income (1):						
Foreign exchange fees	$26,108	$24,088	8.4 %	$52,355	$51,054	2.5 %
Credit card fees	18,099	15,424	17.3	35,829	30,931	15.8
Deposit service charges	14,563	13,114	11.0	28,538	25,786	10.7
Client investment fees	12,982	8,012	62.0	22,008	16,007	37.5

Letters of credit and standby letters of credit fees	7,006	6,014	16.5	13,645	11,603	17.6
Total non-GAAP core fee income (1)	$87,267	$74,454	17.2	$169,845	$150,996	12.5

(1) This non-GAAP measure represents noninterest income, but excludes certain line items where performance is typically subject to market or other conditions beyond our control. See “Use of Non-GAAP Measures” above.

Foreign Exchange Fees

Foreign exchange fees were $26.1 million and $52.4 million for the three and six months ended June 30, 2017, compared to $24.1 million and $51.1 million for the comparable 2016 periods. The increases in foreign exchange fees were due primarily to increased trade volumes primarily from our Corporate Finance and Private Equity Division client portfolios.

Table of Contents

Credit Card Fees

Credit card fees were $18.1 million and $35.8 million for the three and six months ended June 30, 2017, compared to $15.4 million and $30.9 million for the comparable 2016 periods. The increases were primarily due to higher interchange fee income driven by an increase in transaction volume reflective of higher spend by our commercial clients. The increases in interchange fee income were partially offset by increases in rebate/rewards expense for the three and six months ended June 30, 2017.

Deposit Service Charges

Deposit service charges were $14.6 million and $28.5 million for the three and six months ended June 30, 2017, compared to $13.1 million and $25.8 million for the comparable 2016 periods. The increases were reflective of higher deposit client counts, as well as an increase in transaction volumes, during the three and six months ended June 30, 2017.

Client Investment Fees

Client investment fees were $13.0 million and $22.0 million for the three and six months ended June 30, 2017, compared to $8.0 million and $16.0 million for the comparable 2016 periods. The increases were attributable primarily to increases in average client investment fund balances driven by our clients' increased utilization of off-balance sheet products managed by SVB Asset Management and third-party sweep money market funds, as well as from improved spreads on our client investment funds due to increases in general market rates and the reintroduction of fees that had been previously waived due to the low rate environment.

The following table summarizes average client investment funds for the three and six months ended June 30, 2017 and 2016:

	Three months ended June 30,			Six months ended June 30,		
(Dollars in millions)	2017	2016	% Change	2017	2016	% Change
Client directed investment assets (1)	$6,223	$7,248	(14.1)%	$5,794	$7,283	(20.4)%
Client investment assets under management (2)	24,423	21,222	15.1	23,735	21,477	10.5
Sweep money market funds	18,464	14,413	28.1	18,091	13,918	30.0
Total average client investment funds (3)	$49,110	$42,883	14.5	$47,620	$42,678	11.6

(1) Comprised of mutual funds and Repurchase Agreement Program assets.

(2) These funds represent investments in third party money market mutual funds and fixed-income securities managed by SVB Asset Management.

(3) Client investment funds are maintained at third party financial institutions and are not recorded on our balance sheet.

The following table summarizes period-end client investment funds at June 30, 2017 and December 31, 2016:

(Dollars in millions)	June 30, 2017	December 31, 2016	% Change
Client directed investment assets (1)	$7,223	$ 5,510	31.1 %
Client investment assets under management (2)	25,426	23,115	10.0
Sweep money market funds	19,249	17,173	12.1
Total period-end client investment funds (3)	$51,898	$ 45,798	13.3

(1) Comprised of mutual funds and Repurchase Agreement Program assets.

(2) These funds represent investments in third party money market mutual funds and fixed-income securities managed by SVB Asset Management.

(3) Client investment funds are maintained at third party financial institutions and are not recorded on our balance sheet.

69

Other Noninterest Income

A summary of other noninterest income for the three and six months ended June 30, 2017 and 2016 is as follows:

	Three months ended June 30,			Six months ended June 30,		
(Dollars in thousands)	2017	2016	% Change	2017	2016	% Change
Fund management fees	$5,536	$4,298	28.8 %	$10,705	$8,918	20.0 %
Service-based fee income	1,496	2,148	(30.4)	3,391	4,240	(20.0)
Gains (losses) on revaluation of client foreign currency instruments, net (1)	2,375	(133)	NM	5,129	3,521	45.7
(Losses) gains on client foreign exchange forward contracts, net (1)	(2,190)	68	NM	(4,479)	(5,586)	(19.8)
Gains (losses) on revaluation of internal foreign currency instruments, net (2)	14,596	(5,307)	NM	18,704	(2,816)	NM
(Losses) gains on internal foreign exchange contracts, net (2)	(14,554)	3,923	NM	(17,799)	1,715	NM
Other (3)	5,552	4,966	11.8	9,581	7,641	25.4
Total other noninterest income	$12,811	$9,963	28.6	$25,232	$17,633	43.1

NM—Not meaningful

(1) Represents the net revaluation of client foreign currency denominated financial instruments. We enter into client foreign exchange forward contracts to economically reduce our foreign exchange exposure related to client foreign currency denominated financial instruments.

(2) Represents the net revaluation of foreign currency denominated financial instruments issued and held by us, primarily loans, deposits and cash. We enter into internal foreign exchange forward contracts to economically reduce our foreign exchange exposure related to these foreign currency denominated financial instruments issued and held by us.

(3) Includes dividends on FHLB/FRB stock, correspondent bank rebate income, incentive fees related to carried interest and other fee income.

Three months ended June 30, 2017 and 2016

Total other noninterest income was $12.8 million for the three months ended June 30, 2017, compared to $10.0 million for the comparable 2016 period. The increase of $2.8 million in other noninterest income was due to the following:

- Fund management fees of $5.5 million compared to fees of $4.3 million for the comparable 2016 period. The increase was due primarily to the addition of new managed funds at SVB Capital.
- Net gains of $0.1 million on internal foreign exchange forward contracts and the revaluation of internal foreign currency denominated cash for the three months ended June 30, 2017, compared to net losses of $1.4 million for the three months ended June 30, 2016. The net losses of $1.4 million for the three months ended June 30, 2016 were primarily due to the strengthening of the U.S. dollar against various foreign currencies during the three months ended June 30, 2016.

Six months ended June 30, 2017 and 2016

Total other noninterest income was $25.2 million for the six months ended June 30, 2017, compared $17.6 million for the comparable 2016 period. The increase of $7.6 million in other noninterest income was due to the following:

- Fund management fees of $10.7 million compared to fees of $8.9 million for the comparable 2016 period. The increase was due primarily to the addition of new managed funds at SVB Capital.
- Net gains of $0.7 million on client foreign exchange forward contracts and the revaluation of client foreign currency denominated cash for the six months ended June 30, 2017, compared to net losses of $2.1 million for the comparable 2016 period. The net losses for the six months ended June 30, 2016 was primarily due to a reclassification of $2.8 million in unrealized gains on forward contracts to foreign exchange fee income reflecting fees earned on forward contracts executed on behalf of our clients that were previously recorded in gains on derivative instruments.

- Net gains of $0.9 million on internal foreign exchange forward contracts and the revaluation of internal foreign currency denominated cash for the six months ended June 30, 2017, compared to net losses of $1.1 million for the comparable 2016 period. The net losses of $1.1 million for the six months ended June 30, 2016 were primarily due to the strengthening of the U.S. dollar against various foreign currencies during the six months ended June 30, 2016.

Table of Contents

Noninterest Expense

A summary of noninterest expense for the three and six months ended June 30, 2017 and 2016 is as follows:

	Three months ended June 30,			Six months ended June 30,		
(Dollars in thousands)	2017	2016	% Change	2017	2016	% Change
Compensation and benefits	$148,973	$115,580	28.9 %	$296,149	$237,842	24.5 %
Professional services	27,925	25,516	9.4	53,344	44,516	19.8
Premises and equipment	18,958	16,586	14.3	34,816	31,570	10.3
Business development and travel	11,389	9,327	22.1	20,584	21,573	(4.6)
Net occupancy	11,126	9,359	18.9	22,777	19,394	17.4
FDIC and state assessments	9,313	6,892	35.1	17,995	13,819	30.2
Correspondent bank fees	3,163	2,713	16.6	6,608	6,365	3.8
Other	20,399	13,966	46.1	36,606	28,759	27.3
Total noninterest expense (1)	$251,246	$199,939	25.7	$488,879	$403,838	21.1

(1) Our consolidated statements of income were modified from prior periods' presentation to the current period presentation, which reflects our provision for loan losses and provision for unfunded credit commitments together as our “provision for credit losses”. In prior periods, our provision for unfunded credit commitments were reported separately as a component of noninterest expense.

Included in noninterest expense is expense attributable to noncontrolling interests. See below for a description and reconciliation of non-GAAP noninterest expense and non-GAAP operating efficiency ratio, both of which exclude noncontrolling interests.

Non-GAAP Noninterest Expense

We use and report non-GAAP noninterest expense, non-GAAP taxable equivalent revenue and non-GAAP operating efficiency ratio, which excludes noncontrolling interests. We believe these non-GAAP financial measures, when taken together with the corresponding GAAP financial measures, provide meaningful supplemental information regarding our performance by: (i) excluding certain items that represent expenses attributable to investors other than us and our subsidiaries, or certain items that do not occur every reporting period; or (ii) providing additional information used by management that is not otherwise required by GAAP or other applicable requirements. Our management uses, and believes that investors benefit from referring to, these non-GAAP financial measures in assessing our operating results and when planning, forecasting and analyzing future periods. However, these non-GAAP financial measures should be considered in addition to, not as a substitute for or preferable to, financial measures prepared in accordance with GAAP.

Table of Contents

The table below provides a summary of non-GAAP noninterest expense and non-GAAP operating efficiency ratio, both net of noncontrolling interests for the three and six months ended June 30, 2017 and 2016:

	Three months ended June 30,			Six months ended June 30,		
(Dollars in thousands, except ratios)	2017	2016	% Change	2017	2016	% Change
GAAP noninterest expense	$251,246	$199,939	25.7 %	$488,879	$403,838	21.1 %
Less: amounts attributable to noncontrolling interests	223	258	(13.6)	392	167	134.7
Non-GAAP noninterest expense, net of noncontrolling interests	$251,023	$199,681	25.7	$488,487	$403,671	21.0
GAAP net interest income	$342,696	$283,336	21.0	$652,689	$564,757	15.6
Adjustments for taxable equivalent basis	476	309	54.0	824	631	30.6
Non-GAAP taxable equivalent net interest income	$343,172	$283,645	21.0	$653,513	$565,388	15.6
Less: income attributable to noncontrolling interests	10	55	(81.8)	17	58	(70.7)
Non-GAAP taxable equivalent net interest income, net of noncontrolling interests	$343,162	$283,590	21.0	$653,496	$565,330	15.6
GAAP noninterest income	$128,528	$112,776	14.0	$246,187	$198,910	23.8
Less: income attributable to noncontrolling interests	9,536	1,619	NM	16,095	(1,052)	NM
Non-GAAP noninterest income, net of noncontrolling interests	$118,992	$111,157	7.0	$230,092	$199,962	15.1
GAAP total revenue	$471,224	$396,112	19.0	$898,876	$763,667	17.7
Non-GAAP taxable equivalent revenue, net of noncontrolling interests	$462,154	$394,747	17.1	$883,588	$765,292	15.5
GAAP operating efficiency ratio	53.32 %	50.48 %	5.6	54.39 %	52.88 %	2.9
Non-GAAP operating efficiency ratio (1)	54.32	50.58	7.4	55.28	52.75	4.8

NM—Not meaningful

(1) The non-GAAP operating efficiency ratio is calculated by dividing non-GAAP noninterest expense, net of noncontrolling interests, by non-GAAP taxable-equivalent revenue, net of noncontrolling interests.

Compensation and Benefits Expense

The following table provides a summary of our compensation and benefits expense for the three and six months ended June 30, 2017 and 2016:

	Three months ended June 30,			Six months ended June 30,		
(Dollars in thousands, except employees)	2017	2016	% Change	2017	2016	% Change
Compensation and benefits:						
Salaries and wages	$68,029	$60,353	12.7 %	$134,888	$119,739	12.7 %
Incentive compensation & ESOP	36,824	22,279	65.3	70,642	48,907	44.4
Other employee incentives and benefits (1)	44,120	32,948	33.9	90,619	69,196	31.0
Total compensation and benefits	$148,973	$115,580	28.9	$296,149	$237,842	24.5
Period-end full-time equivalent employees	2,380	2,188	8.8	2,380	2,188	8.8
Average full-time equivalent employees	2,372	2,182	8.7	2,358	2,171	8.6

(1) Other employee incentives and benefits includes employer payroll taxes, group health and life insurance, share-based compensation, 401(k), warrant and retention plans, agency fees and other employee-related expenses.

Compensation and benefits expense was $149.0 million for the three months ended June 30, 2017, compared to $115.6 million for the comparable 2016 period. The key changes in factors affecting compensation and benefits expense were as follows:

Table of Contents

- An increase of $14.5 million in expenses related to incentive compensation plans and ESOP. Our incentive compensation expense was higher in the second quarter of 2017 primarily due to higher expected full year performance for 2017 related to the trend of our improving return on equity ("ROE") relative to our peers.
- An increase of $11.2 million in total other employee incentives and benefits, related to various expenses, particularly group health and life insurance, personnel contracting expenses, and employer payroll taxes reflective of our increased headcount since the second quarter 2016 and to support our growth both domestically and globally. The increase in other employee incentives and benefits also includes an increase of $2.3 million in share-based compensation expense, primarily due to our accruals based on our performance expectations for our outstanding performance-based restricted stock awards compared to our estimate for the second quarter of 2016, reflective of the increase in our stock price relative to our peers.
- An increase of $7.7 million in salaries and wages, reflective primarily of an increase in the number of average FTE by 190 to 2,372 FTEs for the second quarter of 2017 compared to the same period in 2016, and annual pay raises. The increase in headcount was primarily to support our growth initiatives.

Compensation and benefits expense was $296.1 million for the six months ended June 30, 2017, compared to $237.8 million for the comparable 2016 period. The key changes in factors affecting compensation and benefits expense were as follows:

- An increase of $21.7 million in expenses related to incentive compensation plans and ESOP. Our incentive compensation expense was higher in the first half of 2017 primarily due to higher expected full year performance for 2017 related to the trend of our improving ROE relative to our peers.
- An increase of $21.4 million in total other employee incentives and benefits, related to various expenses, particularly group health and life insurance, personnel contracting expenses, and employer payroll taxes reflective of our increased since the first half of 2016 and to support our growth both domestically and globally. The increase in other employee incentives and benefits also includes an increase of $4.7 million in share-based compensation expense, primarily due to our accruals based on our performance expectations for our outstanding performance-based restricted stock awards as compared to our estimate for the first half of 2016, reflective of the increase in our stock price relative to our peers.
- An increase of $15.1 million in salaries and wages, reflective primarily of an increase in the number of average FTE by 187 to 2,358 FTEs for the first half of 2017 compared to the same period in 2016, and annual pay raises.

Our variable compensation plans consist primarily of our Incentive Compensation Plan, Direct Drive Incentive Compensation Plan, 401(k) and ESOP Plan, Retention Program and Warrant Incentive Plan (see descriptions in our 2016 Form 10-K). Total costs incurred under these plans were $43.1 million and $87.4 million for the three and six months ended June 30, 2017, compared to $26.5 million and $62.1 million for the comparable 2016 periods. These amounts are included in total compensation and benefits expense discussed above.

Professional Services

Professional services expense was $27.9 million and $53.3 million for the three and six months ended June 30, 2017, compared to $25.5 million and $44.5 million for the comparable 2016 periods. The increases were to enhance our risk and compliance infrastructure to support our momentum as we continue to grow both domestically and globally.

Premises and Equipment

Premises and equipment was $19.0 million and $34.8 million for the three and six months ended June 30, 2017, compared to $16.6 million and $31.6 million for the comparable 2016 periods. The increases related to investments to projects, systems and technology to support our revenue growth and related initiatives as well as other operating costs.

Business Development and Travel

Business development and travel was $11.4 million and $20.6 million for the three and six months ended June 30, 2017, compared to $9.3 million and $21.6 million for the comparable 2016 periods. The increases were to support our revenue growth and related initiatives.

Table of Contents

Other Noninterest Expense

A summary of other noninterest expense for the three and six months ended June 30, 2017 and 2016 is as follows:

	Three months ended June 30,			Six months ended June 30,		
(Dollars in thousands)	2017	2016	% Change	2017	2016	% Change
Lending and other client related processing costs	$6,332	$3,541	78.8 %	$11,871	$7,836	51.5 %
Telephone	2,671	2,416	10.6	5,374	4,649	15.6
Data processing services	2,428	2,387	1.7	5,010	4,216	18.8
Dues and publications	677	647	4.6	1,472	1,449	1.6
Postage and supplies	652	784	(16.8)	1,401	1,574	(11.0)
Other	7,639	4,191	82.3	11,478	9,035	27.0
Total other noninterest expense	$20,399	$13,966	46.1	$36,606	$28,759	27.3

Net (Income) Loss Attributable to Noncontrolling Interests

Included in net income is income and expense attributable to noncontrolling interests. The relevant amounts allocated to investors in our consolidated subsidiaries, other than us, are reflected under “Net (income) loss attributable to noncontrolling interests” on our statements of income.

In the table below, noninterest income consists primarily of net investment gains and losses from our consolidated funds. Noninterest expense is primarily related to management fees paid by our managed funds to SVB Financial’s subsidiaries as the funds’ general partners. A summary of net (income) loss attributable to noncontrolling interests for the three and six months ended June 30, 2017 and 2016 is as follows:

	Three months ended June 30,			Six months ended June 30,		
(Dollars in thousands)	2017	2016	% Change	2017	2016	% Change
Net interest income (1)	$(10)	$(55)	(81.8)%	$(17)	$(58)	(70.7)%
Noninterest (income) loss (1)	(9,264)	(1,176)	NM	(14,718)	2,577	NM
Noninterest expense (1)	223	258	(13.6)	392	167	134.7
Carried interest allocation (2)	(272)	(443)	(38.6)	(1,377)	(1,525)	(9.7)
Net (income) loss attributable to noncontrolling interests	$(9,323)	$(1,416)	NM	$(15,720)	$1,161	NM

NM—Not meaningful

(1) Represents noncontrolling interests’ share in net interest income, noninterest income or loss and noninterest expense.

(2) Represents the preferred allocation of income (or change in income) earned by us as the general partner of certain consolidated funds.

Three months ended June 30, 2017 and 2016

Net income attributable to noncontrolling interests was $9.3 million for the three months ended June 30, 2017, compared to $1.4 million for the comparable 2016 period. Net income attributable to noncontrolling interests of $9.3 million for the three months ended June 30, 2017 was primarily a result of $9.5 million of net gains on investment securities (including carried interest allocation) from managed funds of funds portfolio due to net unrealized valuation increases of investments held by the funds. See “Results of Operations—Noninterest Income—Gains on Investment Securities, Net”.

Six months ended June 30, 2017 and 2016

Net income attributable to noncontrolling interests was $15.7 million for the six months ended June 30, 2017, compared to net losses of $1.2 million for the comparable 2016 period. Net income attributable to noncontrolling interests of $15.7 million for the six months ended June 30, 2017 was primarily a result of $15.9 million of net gains on investment securities (including carried interest allocation) from our managed funds of funds portfolio due to net unrealized valuation increases of investments held by the funds. See “Results of Operations—Noninterest Income—Gains

on Investment Securities, Net”.

Table of Contents

Income Taxes

Our effective income tax expense rate was 36.8 percent and 35.4 percent for the three and six months ended June 30, 2017, respectively, compared to 41.2 percent and 40.8 percent for the three and six months ended June 30, 2016, respectively. Our effective tax rate is calculated by dividing income tax expense by the sum of income before income tax expense and the net income attributable to noncontrolling interests.

The reductions in the effective tax rate for the three and six months ended June 30, 2017 resulted from the recognition of a tax benefit of $7.0 million and $13.1 million, respectively, due to the adoption and implementation of Accounting Standards Update ("ASU") 2016-09, Improvements to Employee Share-Based Payment Accounting, in the first quarter of 2017. The new guidance requires tax impacts from employee share-based transactions to be recognized in the provision for income taxes rather than additional paid-in-capital in stockholders' equity required under the previous guidance. Additionally, our effective income tax expense rate for the six months ended June 30, 2017 included the recognition of a one-time tax benefit of $4.7 million reflective of the return of tax funds related to a prior years' tax return.

Excluding the impact of these tax items, we expect the annual effective tax rate for 2017 to be comparable to the full-year 2016 effective tax rate.

Operating Segment Results

We have three segments for which we report our financial information: Global Commercial Bank, SVB Private Bank and SVB Capital.

We report segment information based on the "management" approach, which designates the internal reporting used by management for making decisions and assessing performance as the source of our reporting segments. Please refer to Note 11—"Segment Reporting" of the "Notes to Interim Consolidated Financial Statements (unaudited)" under Part I, Item 1 of this report for additional details.

The following is our reportable segment information for the three and six months ended June 30, 2017 and 2016:

Global Commercial Bank

	Three months ended June 30,			Six months ended June 30,		
(Dollars in thousands)	2017	2016	% Change	2017	2016	% Change
Net interest income	$311,051	$254,680	22.1 %	$586,929	$510,858	14.9 %
Provision for credit losses	(14,856)	(36,454)	(59.2)	(43,745)	(69,169)	(36.8)
Noninterest income	83,904	77,310	8.5	163,423	152,069	7.5
Noninterest expense	(175,963)	(147,960)	18.9	(348,337)	(302,747)	15.1
Income before income tax expense	$204,136	$147,576	38.3	$358,270	$291,011	23.1
Total average loans, net of unearned income	$17,907,635	$16,026,605	11.7	$17,778,065	$15,473,170	14.9
Total average assets	45,483,372	40,703,091	11.7	44,193,023	41,118,263	7.5
Total average deposits	40,477,823	36,690,002	10.3	39,393,219	37,263,823	5.7

Three months ended June 30, 2017 and 2016

Income before income tax expense from our Global Commercial Bank ("GCB") increased to $204.1 million for the three months ended June 30, 2017, compared to $147.6 million for the comparable 2016 period, which reflected the continued acquisition of new clients and growth of our core commercial business. The key components of GCB's performance for the three months ended June 30, 2017 compared to the comparable 2016 period are discussed below.

Net interest income from GCB increased by $56.4 million for the three months ended June 30, 2017, due primarily to an increase in loan interest income resulting mainly from higher average loan balances, as well as from an increase in loan yields as a result of rate increases.

GCB had a provision for credit losses of $14.9 million for the three months ended June 30, 2017, compared to $36.5 million for the comparable 2016 period. The provision of $14.9 million for the three months ended June 30, 2017 primarily reflected $12.7 million in net new specific reserves for nonaccrual loans and a $5.0 million increase in reserves for period-end loan growth, partially offset by a benefit from improved credit quality and the continued shift in our loan portfolio to private equity/venture capital loans, which tend to be of higher credit quality.

The provision of $36.5 million for the three months ended June 30, 2016 primarily reflected $15.4 million of reserves on

75

Table of Contents

new nonaccrual loans, $13.0 million for charge-offs that did not previously have a specific reserve and $10.7 million related to the increase in period-end loan balances, partially offset by a decrease in our reserves for performing loans.
Noninterest income increased by $6.6 million for the three months ended June 30, 2017, related primarily to an increase across our non-GAAP core fee income (higher credit card fees, foreign exchange fees, and client investment fees). This increase was due primarily to the continued growth of our client base and work with larger global companies reflective of investments in our platform, capabilities and global reach.
Noninterest expense increased by $28.0 million for the three months ended June 30, 2017, due primarily to increased compensation and benefits expense. Compensation and benefits expense increased as a result of higher incentive compensation expenses and increased salaries and wages. The increase in incentive compensation expenses was due to the expectation of our performance to exceed budget for 2017. The increase in GCB salaries and wages was due primarily to an increase in the average number of FTEs at GCB, which increased by 133 to 1,852 FTEs for the three months ended June 30, 2017, compared to 1,719 FTEs for the comparable 2016 period.
Six months ended June 30, 2017 and 2016
Net interest income from our GCB increased by $76.1 million for the six months ended June 30, 2017, due primarily to an increase in loan interest income resulting mainly from higher average loan balances as well as from an increase in loan yields, as a result of rate increases.
GCB had a provision for credit losses of $43.7 million for the six months ended June 30, 2017, compared to a provision of $69.2 million for the comparable 2016 period. The provision of $43.7 million for the six months ended June 30, 2017 was reflective primarily of $38.1 million in net new specific reserves for nonaccrual loans and $10.0 million from period-end loan growth, partially offset by a benefit from improved credit quality and the continued shift in our loan portfolio to private equity/venture capital loans, which tend to be of higher credit quality.
The provision of $69.2 million for the six months ended June 30, 2016 was reflective primarily of $27.5 million in charge-offs that did not previously have a specific reserve, $20.2 million from period-end loan growth with the remaining provision due primarily to reserves for new nonaccrual loans.
Noninterest income increased by $11.4 million for the six months ended June 30, 2017, related primarily to an increase across our non-GAAP core fee income (higher credit card fees, foreign exchange fees, and client investment fees). This increase was due primarily to the continued growth of our client base and work with larger global companies reflective of investments in our platform, capabilities and global reach.
Noninterest expense increased by $45.6 million for the six months ended June 30, 2017, due primarily to increased expenses for compensation and benefits. Compensation and benefits expense increased as a result of higher incentive compensation expenses and increased salaries and wages. The increase in incentive compensation expenses was due to the expectation of our performance to exceed budget for 2017. The increase in our salaries and wages expenses was due primarily to an increase in the average number of FTEs at GCB, which increased by 137 to 1,850 FTEs for the six months ended June 30, 2017, compared to 1,713 FTEs for the comparable 2016 period.

Table of Contents

Three months ended June 30, 2017 and 2016
Net interest income from our SVB Private Bank increased by $1.2 million for the three months ended June 30, 2017, due primarily to higher interest income due to loan growth, partially offset by a higher funding charge for loans funded as loan growth exceeded deposit growth.
Noninterest expense increased by $1.1 million for the three months ended June 30, 2017, due primarily to increased compensation and benefits expense. Compensation and benefits expense increased as a result of increased salaries and wages, reflective primarily of annual pay raises, and higher incentive compensation expenses due to the expectation of our performance to exceed budget for 2017.
Six months ended June 30, 2017 and 2016
Net interest income from our SVB Private Bank increased by $1.1 million for the six months ended June 30, 2017, due primarily to higher interest income due to loan growth, partially offset by a higher funding charge for loans funded as loan growth exceeded deposit growth.
SVB Private Bank had a provision for credit losses of $1.1 million for the six months ended June 30, 2017, compared to $0.5 million for the comparable 2016 period. The provision of $1.1 million for the six months ended June 30, 2017 was due primarily to reserves for period-end loan growth. The provision of $0.5 million for the six months ended June 30, 2016 was driven primarily by period-end loan growth.
Noninterest expense increased by $1.6 million for the six months ended June 30, 2017, due primarily to increased compensation and benefits expense. Compensation and benefits expense increased as a result of increased salaries and wages, reflective primarily of annual pay raises, and higher incentive compensation expenses due to the expectation of our performance to exceed budget for 2017.

NM—Not meaningful
SVB Capital's components of noninterest income primarily include net gains and losses on non-marketable and other securities, carried interest and fund management fees. All components of income before income tax expense and average assets discussed below are net of noncontrolling interests.
We experience variability in the performance of SVB Capital from quarter to quarter due to a number of factors, including changes in the values of our funds' underlying investments, changes in the amount of distributions and general economic and market conditions. Such variability may lead to volatility in the gains and losses from investment securities and cause our results to differ from period to period.
Three months ended June 30, 2017 and 2016
SVB Capital had noninterest income of $15.0 million for the three months ended June 30, 2017, compared to $11.4 million for the comparable 2016 period. The increase in noninterest income was due primarily to higher gains on investment securities compared to the comparable 2016 period. SVB Capital's components of noninterest income primarily include the following:

- Net gains on investment securities of $9.1 million for the three months ended June 30, 2017, compared to net gains of $6.7 million for the comparable 2016 period. The gains on investment securities of $9.1 million for the three months ended June 30, 2017 were primarily related to gains from distributions from our strategic venture capital fund

investments and net unrealized valuation increases in the investments held by the funds driven by IPO and M&A activity during the second quarter of 2017, and

77

Table of Contents

- Fund management fees of $5.5 million compared to $4.3 million for the comparable 2016 period. The increase was due primarily to the addition of new managed funds at SVB Capital.

Six months ended June 30, 2017 and 2016

SVB Capital had noninterest income of $31.8 million for the six months ended June 30, 2017, compared to $13.9 million for the comparable 2016 period. The increase in noninterest income was due primarily to higher gains on investment securities compared to the comparable 2016 period. SVB Capital’s components of noninterest income primarily include the following:

- Net gains on investment securities of $19.9 million for the six months ended June 30, 2017, compared to net gains of $4.8 million for the comparable 2016 period. The net gains on investment securities of $19.9 million for the six months ended June 30, 2017 were related to gains from distributions from our strategic venture capital fund investments and net unrealized valuation increases in the investments held by the funds driven by IPO and M&A activity during the first half of 2017, and
- Fund management fees of $10.7 million compared to $8.9 million for the comparable 2016 period. The increase was due primarily to the addition of new managed funds at SVB Capital.

Consolidated Financial Condition

Our total assets and total liabilities and stockholders' equity were $48.4 billion at June 30, 2017 compared to $44.7 billion at December 31, 2016, an increase of $3.7 billion, or 8.3 percent. Below is a summary of the individual components driving the changes in total assets, total liabilities and stockholders' equity.

Cash and Cash Equivalents

Cash and cash equivalents totaled $3.9 billion at June 30, 2017, an increase of $1.3 billion, or 51.4 percent, compared to $2.5 billion at December 31, 2016. The increase in period-end cash balances was primarily due to growth in our deposit balances during the six months ended June 30, 2017.

As of June 30, 2017 and December 31, 2016, $1.8 billion and $1.1 billion, respectively, of our cash and due from banks was deposited at the Federal Reserve Bank and was earning interest at the Federal Funds target rate, and interest-earning deposits in other financial institutions were $1.2 billion and $721 million, respectively.

Investment Securities

Investment securities totaled $22.6 billion at June 30, 2017, an increase of $0.9 billion, or 4.5 percent, compared to $21.7 billion at December 31, 2016. Our investment securities portfolio consists of: (i) an available-for-sale securities portfolio and a held-to-maturity securities portfolio, both of which represent primarily interest-earning fixed income investment securities; and (ii) a non-marketable and other securities portfolio, which represents primarily investments managed as part of our funds management business.

Table of Contents

Available-for-Sale Securities

Our available-for-sale securities portfolio is primarily a fixed income investment portfolio that is managed to earn an appropriate portfolio yield over the long-term while maintaining sufficient liquidity and addressing our asset/liability management objectives. Period-end available-for-sale securities were $12.1 billion at June 30, 2017 compared to $12.6 billion at December 31, 2016, a decrease of $0.5 billion, or 4.4 percent. The $0.5 billion decrease in period-end AFS securities balances from the fourth quarter of 2016 to the second quarter of 2017 was due primarily to $1.7 billion in portfolio paydowns and maturities partially offset by purchases of $1.2 billion of agency backed mortgage securities and U.S. Treasury securities.

Securities classified as available-for-sale are carried at fair value with changes in fair value recorded as unrealized gains or losses in a separate component of stockholders' equity.

The following table summarizes the remaining contractual principal maturities and fully taxable equivalent yields on fixed income securities, carried at fair value, classified as available-for-sale as of June 30, 2017. The weighted average yield is computed using the amortized cost of fixed income investment securities, which are reported at fair value. For U.S. Treasury securities and U.S. agency debentures, the expected maturity is the actual contractual maturity of the notes. Expected remaining maturities for certain U.S. agency debentures may occur earlier than their contractual maturities because the note issuers have the right to call outstanding amounts ahead of their contractual maturity. Expected maturities for mortgage-backed securities may differ significantly from their contractual maturities because mortgage borrowers have the right to prepay outstanding loan obligations with or without penalties. Mortgage-backed securities classified as available-for-sale typically have original contractual maturities from 10 to 30 years whereas expected average lives of these securities tend to be significantly shorter and vary based upon structure and prepayments in lower rate environments. The weighted average yield on mortgage-backed securities is based on prepayment assumptions at the purchase date. Actual yields earned may differ significantly based upon actual prepayments.

	June 30, 2017									
	Total		One Year or Less		After One Year to Five Years		After Five Years to Ten Years		After Ten Years	
(Dollars in thousands)	Carrying Value	Weighted Average Yield	Carrying Value	Weighted Average Yield	Carrying Value	Weighted Average Yield	Carrying Value	Weighted Average Yield	Carrying Value	Weighted Average Yield
U.S. Treasury securities	$7,801,682	1.33%	$2,144,571	0.73%	$5,657,111	1.56%	$—	— %	$—	— %
U.S. agency debentures	1,927,253	1.62	424,613	1.18	1,502,640	1.75	—	—	—	—
Residential mortgage-backed securities:										
Agency-issued collateralized mortgage obligations—fixed rate	1,915,281	2.28	—	—	—	—	554,866	2.00	1,360,415	2.40
Agency-issued collateralized mortgage obligations—variable rate	419,387	0.71	—	—	—	—	—	—	419,387	0.71
Total	$12,063,603	1.51	$2,569,184	0.80	$7,159,751	1.60	$554,866	2.00	$1,779,802	2.00

Held-to-Maturity Securities

Period-end held-to-maturity securities were $9.9 billion at June 30, 2017 compared to $8.4 billion at December 31, 2016, an increase of $1.5 billion, or 17.9 percent. The $1.5 billion increase in period-end HTM security balances from the fourth quarter of 2016 to the second quarter of 2017 was due to new purchases of $2.3 billion primarily in agency backed mortgage securities, partially offset by $0.8 billion in portfolio paydowns and maturities.

Securities classified as held-to-maturity are accounted for at cost with no adjustments for changes in fair value. For securities previously re-designated as held-to-maturity from available-for-sale, the net unrealized gains at the date of transfer will continue to be reported as a separate component of shareholders' equity and amortized over the life of the securities in a manner consistent with the amortization of a premium or discount.

Table of Contents

The following table summarizes the remaining contractual principal maturities and fully taxable equivalent yields on fixed income investment securities classified as held-to-maturity as of June 30, 2017. Interest income on certain municipal bonds and notes (non-taxable investments) are presented on a fully taxable equivalent basis using the federal statutory tax rate of 35 percent. The weighted average yield is computed using the amortized cost of fixed income investment securities. For U.S. agency debentures, the expected maturity is the actual contractual maturity of the notes. Expected maturities for mortgage-backed securities may differ significantly from their contractual maturities because mortgage borrowers have the right to prepay outstanding loan obligations with or without penalties. Mortgage-backed securities classified as held-to-maturity typically have original contractual maturities from 10 to 30 years whereas expected average lives of these securities tend to be significantly shorter and vary based upon structure and prepayments in lower rate environments. The weighted average yield on mortgage-backed securities is based on prepayment assumptions at the purchase date. Actual yields earned may differ significantly based upon actual prepayments.

Portfolio duration is a standard measure used to approximate changes in the market value of fixed income instruments due to a change in market interest rates. The measure is an estimate based on the level of current market interest rates, expectations for changes in the path of forward rates and the effect of forward rates on mortgage prepayment speed assumptions. As such, portfolio duration will fluctuate with changes in market interest rates. Changes in portfolio duration are also impacted by changes in the mix of longer versus shorter term-to-maturity securities. Our estimated

fixed income investment securities portfolio duration was 2.6 years and 2.5 years at June 30, 2017 and December 31, 2016, respectively.

Table of Contents

Non-Marketable and Other Securities

Our non-marketable and other securities portfolio primarily represents investments in venture capital and private equity funds, SPD Silicon Valley Bank Co., Ltd. (the Bank's joint venture bank in China ("SPD-SVB")), debt funds, private and public portfolio companies and investments in qualified affordable housing projects. Included in our non-marketable and other securities carried under fair value accounting are amounts that are attributable to noncontrolling interests. We are required under GAAP to consolidate 100% of these investments that we are deemed to control, even though we may own less than 100% of such entities. See below for a summary of the carrying value (as reported) of non-marketable and other securities compared to the amounts attributable to SVBFG.

Period-end non-marketable and other securities were $630.7 million at June 30, 2017 compared to $622.6 million at December 31, 2016, an increase of $8.1 million, or 1.3 percent. Non-marketable and other securities, net of noncontrolling interests were $506.2 million at June 30, 2017, compared to $500.1 million at December 31, 2016. The following table summarizes the carrying value (as reported) of non-marketable and other securities compared to the amounts attributable to SVBFG (which generally represents the carrying value times our ownership percentage) at June 30, 2017 and December 31, 2016:

(Dollars in thousands)	June 30, 2017		December 31, 2016

Volcker Rule

On June 6, 2017, we received notice that the Board of Governors of the Federal Reserve System approved the Company's application for an extension of the permitted conformance period for the Company's investments in "illiquid" covered funds. The approval extends the deadline by which the Company must sell, divest, restructure or otherwise conform such investments to the provisions of the Volcker Rule until the earlier of (i) July 21, 2022, or (ii) the date by which each fund matures by its terms or is otherwise conformed to the Volcker Rule.

As implemented under the Dodd-Frank Wall Street Reform and Consumer Protection Act, the Volcker Rule prohibits, subject to certain exceptions, a banking entity, such as the Company, from sponsoring or investing in covered funds, defined to include many venture capital and private equity funds. As noted above, the Company currently maintains certain investments deemed to be prohibited investments in "illiquid" covered funds, which are now covered under the approved extension. As of June 30 2017, such prohibited investments had an estimated aggregate carrying value of approximately $166 million (and an aggregate fair value of approximately $279 million). (For more information about the Volcker Rule, see "Business—Supervision and Regulation" under Item 1 of Part 1 of our 2016 Form 10-K.)

Loans

Loans, net of unearned income increased by $1.1 billion to $21.0 billion at June 30, 2017, compared to $19.9 billion at December 31, 2016. Unearned income was $127 million at June 30, 2017 and $125 million at December 31, 2016. Total gross loans were $21.1 billion at June 30, 2017, an increase of $1.1 billion, compared to $20.0 billion at December 31, 2016. Period-end loans increased compared to December 31, 2016, driven primarily by loan growth in our private equity/venture capital portfolio. The breakdown of total gross loans and total loans as a percentage of total gross loans by category is as follows:

Table of Contents

(Dollars in thousands)	June 30, 2017 Amount	Percentage	December 31, 2016 Amount	Percentage

At June 30, 2017, gross loans equal to or greater than $20 million to any single client (individually or in the aggregate) totaled $9.3 billion, or 44.3 percent of our portfolio. These loans represented 251 clients, and of these loans, $77.1 million were on nonaccrual status as of both June 30, 2017 and December 31, 2016.

Table of Contents

The following table provides a summary of loans by size and category. The breakout of the categories is based on total client balances (individually or in the aggregate) as of December 31, 2016:

(Dollars in thousands)	December 31, 2016 Less than Five Million	Five to Ten Million	Ten to Twenty Million	Twenty to Thirty Million	Thirty Million or More	Total
Commercial loans:						
Software/internet	$1,317,707	$779,986	$ 1,657,760	$1,021,486	$ 891,639	$5,668,578

At December 31, 2016, gross loans equal to or greater than $20 million to any single client (individually or in the aggregate) totaled $8.9 billion, or 44.4 percent of our portfolio. These loans represented 233 clients, and of these loans, $79.7 million were on nonaccrual status as of December 31, 2016.

The credit profile of our loan portfolio clients varies based on the nature of the lending we do for different market segments. Our three main market segments include (i) technology (software/internet and hardware) and life science/healthcare, (ii) private equity/venture capital, and (iii) SVB Private Bank.

(i) Technology and Life Science/Healthcare

Our technology and life science/healthcare loan portfolios include loans to clients at all stages of their life cycles and represent the largest segments of our loan portfolio. The primary underwriting method for our technology and life science/healthcare portfolios are classified as investor dependent, balance sheet dependent, or cash flow dependent.

Investor dependent loans represent a relatively small percentage of our overall portfolio at 10 percent of total gross loans at June 30, 2017, compared to 11 percent at December 31, 2016. These loans are made to companies in both our Accelerator (early-stage) and Growth practices. Investor dependent loans typically have modest or negative cash flows and no established record of profitable operations. Repayment of these loans may be dependent upon receipt by borrowers of additional equity financing from venture capital firms or others, or in some cases, a successful sale to a third party or an IPO. Venture capital firms may provide financing selectively, at reduced amounts, or on less favorable terms, which may have an adverse effect on our borrowers' ability to repay their loans to us. When repayment is dependent upon the next round of venture investment and there is an indication that further investment is unlikely or will not occur, it is often likely that the company would need to be sold to repay debt in full. If reasonable efforts have not yielded a likely buyer willing to repay all debt at the close of the sale or on commercially viable terms, the account will most likely be deemed to be impaired.

Balance sheet dependent loans, which includes asset-based loans, represented 12 percent of total gross loans at June 30, 2017 compared to 13 percent at December 31, 2016. Balance sheet dependent loans are structured to require constant current asset coverage (i.e. cash, cash equivalents, accounts receivable and, to a much lesser extent, inventory) in an amount that exceeds the outstanding debt. These loans are generally made to companies in our Growth and Corporate Finance practices. Our asset-based lending, which includes working capital lines and accounts receivable financing, represented seven and one percent of total gross loans as of June 30, 2017 and seven percent and

two percent of total gross loans at December 31, 2016, respectively. The repayment of these arrangements is dependent on the financial condition, and payment ability, of third parties with whom our clients do business.
Cash flow dependent loans, which include sponsored buyout lending, represent our largest source of repayment within our technology and life science/healthcare loan portfolios at approximately 17 percent of total gross loans at June 30, 2017, compared to 20 percent of total gross loans at December 31, 2016. Cash flow dependent loans require the borrower to maintain

84

Table of Contents

cash flow from operations that is sufficient to service all debt. Borrowers must demonstrate normalized cash flow in excess of all fixed charges associated with operating the business. Sponsored buyout loans represented 10 percent of total gross loans at June 30, 2017, compared to 11 percent of total gross loans at December 31, 2016. These loans are typically used to assist a select group of experienced private equity sponsors with the acquisition of businesses, are larger in size, and repayment is generally dependent upon the cash flows of the acquired company. The acquired companies are typically established, later-stage businesses of scale and characterized by reasonable levels of leverage and loan structures that include meaningful financial covenants. The sponsor's equity contribution is often 50 percent or more of the acquisition price.

(ii) Private Equity/Venture Capital
We also provide financial services to clients in the private equity/venture capital community. At June 30, 2017, our lending to private equity/venture capital firms and funds represented 42 percent of total gross loans, compared to 39 percent of total gross loans at December 31, 2016. The vast majority of this portfolio consists of capital call lines of credit, the repayment of which is dependent on the payment of capital calls by the underlying limited partner investors in the funds managed by these firms. These facilities are generally governed by meaningful financial covenants oriented towards ensuring that the funds' remaining callable capital is sufficient to repay the loan, and larger commitments (typically provided to larger private equity funds) are often secured by an assignment of the general partner's right to call capital from the fund's limited partner investors.

(iii) SVB Private Bank
Our SVB Private Bank clients are primarily private equity/venture capital professionals and executive leaders of the innovation companies they support. Our lending to SVB Private Bank clients represented 11 percent of total gross loans at both June 30, 2017 and December 31, 2016. Many of these clients have mortgages, which represented 86 percent of this portfolio at June 30, 2017; the balance of this portfolio consisted of home equity lines of credit, restricted stock purchase loans, capital call lines of credit, and other secured and unsecured lending.

State Concentrations
Approximately 31 percent and 11 percent of our outstanding total gross loan balances as of June 30, 2017 were to borrowers based in California and New York, respectively, compared to 33 percent and 11 percent as of December 31, 2016. Other than California and New York, there are no states with gross loan balances greater than 10 percent.

See generally “Risk Factors–Credit Risks” set forth under Item 1A, Part I in our 2016 Form 10-K.

Credit Quality Indicators
As of June 30, 2017 and December 31, 2016, our total criticized loans and impaired loans represented four percent and six percent of our total gross loans, respectively. Criticized and impaired loans to early-stage clients represented 17 percent of our total criticized and impaired loan balances at both June 30, 2017 and December 31, 2016. Loans to early-stage clients represent a relatively small percentage of our overall portfolio at six percent of total gross loans at June 30, 2017. It is common for an early-stage client’s remaining liquidity to fall temporarily below the threshold for a pass-rated credit during its capital-raising period for a new round of funding. Based on our experience, for most early-stage clients, this situation typically lasts one to two quarters and generally resolves itself with a subsequent round of venture funding, though there are exceptions, from time to time. As a result, we expect that each of our early-stage clients will reside in our criticized portfolio during a portion of their life cycle.
Credit Quality and Allowance for Loan Losses
Nonperforming assets consist of loans on nonaccrual status, loans past due 90 days or more still accruing interest, and Other Real Estate Owned (“OREO”) and other foreclosed assets. We measure all loans placed on nonaccrual status for impairment based on the fair value of the underlying collateral or the net present value of the expected cash flows. The table below sets forth certain data and ratios between nonperforming loans, nonperforming assets and the allowance for loan losses:

85

Table of Contents

(Dollars in thousands)	June 30, 2017	December 31, 2016
Gross nonaccrual, past due, and restructured loans:		
Nonaccrual loans	$120,172	$118,979
Loans past due 90 days or more still accruing interest	85	33
Total nonperforming loans	120,257	119,012
OREO and other foreclosed assets	—	—
Total nonperforming assets	$120,257	$119,012
Performing TDRs	$31,311	$33,732
Nonperforming loans as a percentage of total gross loans	0.57 %	0.59 %
Nonperforming assets as a percentage of total assets	0.25	0.27
Allowance for loan losses	$236,496	$225,366
As a percentage of total gross loans	1.12 %	1.13 %
As a percentage of total gross nonperforming loans	196.66	189.36
Allowance for loan losses for nonaccrual loans	$40,558	$37,277
As a percentage of total gross loans	0.19 %	0.19 %
As a percentage of total gross nonperforming loans	33.73	31.32
Allowance for loan losses for total gross performing loans	$195,938	$188,089
As a percentage of total gross loans	0.93 %	0.94 %
As a percentage of total gross performing loans	0.93	0.94
Total gross loans	$21,103,946	$20,024,662
Total gross performing loans	20,983,689	19,905,650
Allowance for unfunded credit commitments (1)	47,000	45,265
As a percentage of total unfunded credit commitments	0.28 %	0.27 %
Total unfunded credit commitments (2)	$16,786,807	$16,743,196

(1) The “allowance for unfunded credit commitments” is included as a component of other liabilities and any provision is included in the “provision for credit losses” in the statement of income. See “Provision for credit losses” for a discussion of the changes to the allowance.
(2) Includes unfunded loan commitments and letters of credit.

Our allowance for loan losses as a percentage of total gross loans decreased one basis point to 1.12 percent at June 30, 2017. The decrease of one basis point was reflective primarily of the decrease in our allowance for performing loans as a percentage of total gross loans which decreased by one basis point to 0.93 percent, at June 30, 2017.
Our allowance for loan losses for nonaccrual loans was $40.6 million at June 30, 2017, compared to $37.3 million at December 31, 2016. The $3.3 million increase in the allowance for nonaccrual loans included $35.7 million of new nonaccrual loan reserves, partially offset by $27.6 million of charge-offs. New nonaccrual loan reserves of $35.7 million were mostly attributable to our software/internet loan portfolio.
The following table presents a summary of changes in nonaccrual loans:

(Dollars in thousands)	June 30, 2017	December 31, 2016
Beginning balance	$118,979	$123,392
Additions	56,339	128,338
Paydowns	(22,116)	(81,997)
Charge-offs	(33,028)	(49,622)
Other reductions	(2)	(1,132)
Ending balance	$120,172	$118,979

Our nonaccrual loans as of June 30, 2017 included $97.2 million from seven clients (six software/internet clients represented $76.4 million, and one life science/healthcare client which represented $20.8 million). Two of these loans are sponsored buyout

86

Table of Contents

loans that were added to our nonaccrual portfolio in 2015, another is a Corporate Finance client that was a new nonaccrual loan in 2016, and four are new nonaccrual loans added in 2017 in our Accelerator and Growth practices. The total credit exposure for these seven largest nonaccrual loans is $98.1 million, for which we have specifically reserved $28.6 million.

Average nonaccrual loans for the three and six months ended June 30, 2017 were $128.9 million and $127.1 million, respectively, compared to $115.9 million and $113.7 million for the comparable 2016 periods. The $13.0 million increase in average nonaccrual loans for the three months ended June 30, 2017 compared to June 30, 2016 was primarily from our software/internet loan portfolio. If the nonaccrual loans had not been impaired, $2.1 million and $3.9 million in interest income would have been recorded for the three and six months ended June 30, 2017, respectively, compared to $1.2 million and $2.7 million for the comparable 2016 periods.

Accrued Interest Receivable and Other Assets

A summary of accrued interest receivable and other assets at June 30, 2017 and December 31, 2016 is as follows:

(Dollars in thousands)	June 30, 2017	December 31, 2016	% Change
Derivative assets, gross (1)	$225,248	$210,070	7.2 %
Foreign exchange spot contract assets, gross	355,972	53,058	NM
Accrued interest receivable	119,945	111,222	7.8
FHLB and Federal Reserve Bank stock	58,012	57,592	0.7
Accounts receivable	65,187	62,569	4.2
Net deferred tax assets	87,809	71,840	22.2
Other assets	131,952	106,337	24.1
Total accrued interest receivable and other assets	$1,044,125	$672,688	55.2

NM—Not meaningful

(1) See “Derivatives” section below.

Foreign Exchange Spot Contract Assets

Foreign exchange spot contract assets represent unsettled client trades at the end of the period. The increase of $302.9 million was due primarily to an overall increase in activity at period-end.

Net Deferred Tax Assets

The increase of $16.0 million in net deferred tax assets primarily related to an increase in the allowance for loan losses, fair value changes of our AFS securities portfolio, and tax accounting method change adjustments, partially offset by an increase in future taxable income attributable to warrants.

Other

Other includes various asset amounts for other operational transactions. The increase of $25.6 million was reflective of a $10.4 million increase in prepaid purchases of software agreement renewals at June 30, 2017 compared to December 31, 2016.

Table of Contents

Derivatives

Derivative instruments are recorded as a component of other assets and other liabilities on the balance sheet. The following table provides a summary of derivative assets and liabilities, net at June 30, 2017 and December 31, 2016:

(Dollars in thousands)	June 30, 2017	December 31, 2016	% Change
Assets:			
Equity warrant assets	$131,750	$131,123	0.5 %
Foreign exchange forward and option contracts	81,843	68,027	20.3
Interest rate swaps	—	810	(100.0)
Client interest rate derivatives	11,655	10,110	15.3
Total derivative assets	$225,248	$210,070	7.2
Liabilities:			
Foreign exchange forward and option contracts	$(76,170)	$(54,668)	39.3
Client interest rate derivatives	(11,765)	(9,770)	20.4
Total derivative liabilities	$(87,935)	$(64,438)	36.5

Equity Warrant Assets

In connection with negotiating credit facilities and certain other services, we often obtain rights to acquire stock in the form of equity warrant assets in primarily private, venture-backed companies in the technology and life science/healthcare industries. At June 30, 2017, we held warrants in 1,808 companies, compared to 1,739 companies at December 31, 2016. Warrants in 15 companies each had values greater than $1.0 million and collectively represented $39.4 million, or 30.0 percent, of the fair value of the total warrant portfolio at June 30, 2017. The change in fair value of equity warrant assets is recorded in gains on equity warrant assets, net, in noninterest income, a component of consolidated net income. The following table provides a summary of transactions and valuation changes for equity warrant assets for the three and six months ended June 30, 2017 and 2016:

	Three months ended June 30,		Six months ended June 30,	
(Dollars in thousands)	2017	2016	2017	2016
Balance, beginning of period	$124,233	$130,670	$131,123	$137,105
New equity warrant assets	3,419	2,220	7,492	4,606
Non-cash changes in fair value, net	8,270	7,345	7,294	7,494
Exercised equity warrant assets	(3,601)	(9,666)	(13,030)	(18,021)
Terminated equity warrant assets	(571)	(769)	(1,129)	(1,384)
Balance, end of period	$131,750	$129,800	$131,750	$129,800

Foreign Exchange Forward and Foreign Currency Option Contracts

We enter into foreign exchange forward contracts and foreign currency option contracts with clients involved in foreign activities, either as the purchaser or seller, depending upon the clients' needs. For each forward or option contract entered into with our clients, we enter into an opposite way forward or option contract with a correspondent bank, which mitigates the risk of fluctuations in currency rates. We also enter into forward contracts with correspondent banks to economically reduce our foreign exchange exposure related to certain foreign currency denominated instruments. Net gains and losses on the revaluation of foreign currency denominated instruments are recorded in the line item "Other" as part of noninterest income, a component of consolidated net income. We have not experienced nonperformance by any of our counterparties and therefore have not incurred any related losses. Further, we anticipate performance by all counterparties. Our net exposure for foreign exchange forward and foreign currency option contracts at June 30, 2017 was $5.2 million and our net exposure at December 31, 2016 was $0.8 million. For additional information on our foreign exchange forward contracts and foreign currency option contracts, see Note 9—"Derivative Financial Instruments" of the "Notes to Interim Consolidated Financial Statements (unaudited)" under Part I, Item 1 of this report.

Client Interest Rate Derivatives
We sell interest rate contracts to clients who wish to mitigate their interest rate exposure. We economically reduce the interest rate risk from this business by entering into opposite way contracts with correspondent banks. Our net exposure for

88

Table of Contents

client interest rate derivative contracts was zero at June 30, 2017 and our net exposure at December 31, 2016 was $0.3 million. For additional information on our client interest rate derivatives, see Note 9—"Derivative Financial Instruments" of the "Notes to Interim Consolidated Financial Statements (unaudited)" under Part I, Item 1 of this report.

Deposits

Deposits were $42.5 billion at June 30, 2017, an increase of $3.5 billion, or 8.9 percent, compared to $39.0 billion at December 31, 2016. The increase in deposits was driven primarily by new funds coming from existing clients in our Private Equity Services, Growth and Accelerator and China portfolios during the first half of 2017 due to healthy venture capital funding and robust secondary public offering market activities.

At June 30, 2017, the aggregate balance of time deposit accounts individually equal to or greater than $100,000 totaled $52.1 million, compared to $48.3 million at December 31, 2016. At June 30, 2017, $52.1 million of the time deposit accounts individually equal to or greater than $100,000 were scheduled to mature within one year. No material portion of our deposits has been obtained from a single depositor and the loss of any one depositor would not materially affect our business. Approximately 12 percent of our total deposits at June 30, 2017 and at December 31, 2016 were from our clients in Asia.

Short-Term Borrowings

We had $0.5 million in short-term borrowings at June 30, 2017, compared to $512.7 million at December 31, 2016. The decrease was due to the repayment, on January 6, 2017, of our short-term FHLB advances utilized and outstanding at December 31, 2016.

Long-Term Debt

Our long-term debt was $749.4 million at June 30, 2017 and $795.7 million at December 31, 2016.

As of June 30, 2017, long-term debt included our 3.50% Senior Notes, 5.375% Senior Notes, and 7.0% Junior Subordinated Debentures. For more information on our long-term debt, see Note 8—"Short-Term Borrowings and Long-Term Debt" of the "Notes to Interim Consolidated Financial Statements (unaudited)" under Part I, Item 1 of this report.

Our 6.05% Subordinated Notes, issued by the Bank, were repaid on June 1, 2017. The interest rate swap agreement relating to this issuance was terminated upon repayment of the notes.

Other Liabilities

A summary of other liabilities at June 30, 2017 and December 31, 2016 is as follows:

(Dollars in thousands)	June 30, 2017	December 31, 2016	% Change
Foreign exchange spot contract liabilities, gross	$530,539	$68,018	NM
Accrued compensation	84,206	135,842	(38.0)
Allowance for unfunded credit commitments	47,000	45,265	3.8
Derivative liabilities, gross (1)	87,935	64,438	36.5
Other	395,474	304,820	29.7
Total other liabilities	$1,145,154	$618,383	85.2

NM—Not meaningful

(1) See "Derivatives" section above.

Foreign Exchange Spot Contract Liabilities

Foreign exchange spot contract liabilities represent unsettled client trades at the end of the period. The increase of $462.5 million was due primarily to increased client trade activity at period-end.

Accrued Compensation

Accrued compensation includes amounts for our Incentive Compensation Plan, Direct Drive Incentive Compensation Plan, Retention Program, Warrant Incentive Plan, ESOP and other compensation arrangements. The decrease of $51.6 million was primarily the result of 2016 incentive compensation payouts during the first quarter of 2017, partially offset by higher accruals for the six months ended June 30, 2017 due to the expectation of our performance to exceed budget for 2017.

89

Table of Contents

Other

Other includes various accrued liability amounts for other operational transactions. The increase of $90.7 million was reflective primarily of a $57.2 million increase in unsettled investment securities purchases at June 30, 2017 compared to December 31, 2016.

Noncontrolling Interests

Noncontrolling interests totaled $140.6 million and $134.5 million at June 30, 2017 and December 31, 2016, respectively. The $6.1 million increase was due primarily to income attributable to noncontrolling interests of $15.7 million, partially offset by net distributions of $9.6 million to limited partners from various managed funds of funds for the six months ended June 30, 2017.

Fair Value Measurements

The following table summarizes our financial assets and liabilities that are measured at fair value on a recurring basis as of June 30, 2017 and December 31, 2016:

	June 30, 2017		December 31, 2016	
(Dollars in thousands)	Total Balance	Level 3	Total Balance	Level 3
Assets carried at fair value	$12,434,423	$130,849	$12,974,923	$130,853
As a percentage of total assets	25.7 %	0.3 %	29.0 %	0.3 %
Liabilities carried at fair value	$87,935	$—	$64,438	$—
As a percentage of total liabilities	0.2 %	— %	0.2 %	— %
As a percentage of assets carried at fair value		1.1 %		1.0 %

Financial assets valued using Level 3 measurements consist of our non-marketable investment securities in shares of private company stock and equity warrant assets (rights to shares of private and public company capital stock). The valuation methodologies of our non-marketable securities carried under fair value accounting and equity warrant assets involve a significant degree of management judgment. Refer to Note 14—“Fair Value of Financial Instruments” of the “Notes to Interim Consolidated Financial Statements (unaudited)” under Part I, Item 1 of this report for a summary of the valuation techniques and significant inputs used for each class of Level 3 assets.

The inherent uncertainty in the process of valuing securities for which a ready market does not exist may cause our estimated values of these securities to differ significantly from the values that would have been derived had a ready market for the securities existed, and those differences could be material. The timing and amount of changes in fair value, if any, of these financial instruments depend upon factors beyond our control, including the performance of the underlying companies, fluctuations in the market prices of the preferred or common stock of the underlying companies, general volatility and interest rate market factors, and legal and contractual restrictions. The timing and amount of actual net proceeds, if any, from the disposition of these financial instruments depend upon factors beyond our control, including investor demand for IPOs, levels of M&A activity, legal and contractual restrictions on our ability to sell, and the perceived and actual performance of portfolio companies. All of these factors are difficult to predict and there can be no assurances that we will realize the full value of these securities, which could result in significant losses. See “Risk Factors” set forth in our 2016 Form 10-K.

During the three and six months ended June 30, 2017, the Level 3 assets that are measured at fair value on a recurring basis experienced net realized and unrealized gains of $10.4 million and $17.1 million, primarily due to realized and unrealized net gains on equity warrant assets due primarily to M&A and IPO activity. During the three and six months ended June 30, 2016, the Level 3 assets that are measured at fair value on a recurring basis experienced net realized and unrealized gains of $4.8 million and $12.0 million, primarily due to net gains realized on exercised warrant assets.

Table of Contents

Capital Resources

We maintain an adequate capital base to support anticipated asset growth, operating needs and credit and other business risks, and to provide for SVB Financial and the Bank to be in compliance with all regulatory capital guidelines. Our primary sources of new capital include retained earnings and proceeds from the sale and issuance of our capital stock or other securities. In consultation with the Finance Committee of our Board of Directors, management engages in regular capital planning processes in an effort to optimize the use of capital available to us and to appropriately plan for our future capital needs. The capital plan considers capital needs for the foreseeable future and allocates capital to both existing and future business activities. Expected future use or activities for which capital may be set aside include balance sheet growth and associated relative increases in market or credit exposure, investment activity, potential product and business expansions, acquisitions and strategic or infrastructure investments. In addition, we conduct capital stress tests as part of our annual capital planning process. The capital stress tests allow us to assess the impact of adverse changes in the economy and interest rates on our capital adequacy position.

SVBFG Stockholders' Equity

SVBFG stockholders' equity totaled $3.9 billion at June 30, 2017, an increase of $256.9 million, or 7.1 percent, compared to $3.6 billion at December 31, 2016. This increase was due primarily to net income of $224.7 million for the six months ended June 30, 2017 and an increase in additional paid-in capital of $40.7 million attributable primarily to amortization of share-based compensation expense and common stock issued under employee benefit plans. Funds generated through retained earnings are a significant source of capital and liquidity and are expected to continue to be so in the future.

Capital Ratios

Both SVB Financial and the Bank are subject to various regulatory capital requirements administered by state and federal banking agencies.

Regulatory capital ratios for SVB Financial and the Bank exceeded minimum federal regulatory guidelines for a well-capitalized depository institution as of June 30, 2017 and December 31, 2016. Capital ratios for SVB Financial and the Bank, compared to the minimum regulatory ratios applicable to bank holding companies and banks to be considered "well capitalized" and "adequately capitalized", are set forth below:

			Minimum Ratios under Applicable Regulatory Capital Adequacy Requirements	
	June 30, 2017	December 31, 2016	"Well Capitalized"	"Adequately Capitalized"
SVB Financial:				
CET 1 risk-based capital ratio	13.05 %	12.80 %	6.5 %	4.5 %
Tier 1 risk-based capital ratio	13.43	13.26	8.0	6.0
Total risk-based capital ratio	14.39	14.21	10.0	8.0
Tier 1 leverage ratio	8.40	8.34	N/A	4.0
Tangible common equity to tangible assets ratio (1)	8.06	8.15	N/A	N/A
Tangible common equity to risk-weighted assets ratio (1)	13.11	12.89	N/A	N/A
Bank:				
CET 1 risk-based capital ratio	12.59 %	12.65 %	6.5 %	4.5 %
Tier 1 risk-based capital ratio	12.59	12.65	8.0	6.0
Total risk-based capital ratio	13.59	13.66	10.0	8.0
Tier 1 leverage ratio	7.66	7.67	5.0	4.0
Tangible common equity to tangible assets ratio (1)	7.58	7.77	N/A	N/A
Tangible common equity to risk-weighted assets ratio (1)	12.65	12.75	N/A	N/A

(1) See below for a reconciliation of non-GAAP tangible common equity to tangible assets and tangible common equity to risk-weighted assets.

Capital ratios (CET 1, tier 1, total risk-based capital and tier 1 leverage) for SVB Financial increased as of June 30, 2017, compared to the same ratios as of December 31, 2016. The changes were driven by an increase in capital during the first half of 2017, primarily from net income. An increase in additional paid-in capital from share-based compensation expense during the six months ended June 30, 2017 also resulted in a benefit to the capital ratios. The increases in capital were partially offset by

Table of Contents

an increase in risk-weighted assets due to period-end loan growth and higher investment and cash balances driven by increases in deposits.

Capital ratios (CET 1, tier 1, total risk-based capital and tier 1 leverage) for the Bank decreased as of June 30, 2017, compared to the same ratios as of December 31, 2016. The decrease in the Bank's capital ratios reflected $40.0 million of cash dividends paid by the Bank to our bank holding company, SVB Financial, during the first half of 2017. All of our reported capital ratios remain above the levels considered to be “well capitalized” under applicable banking regulations.

The tangible common equity to tangible assets ratio and the tangible common equity to risk-weighted assets ratios are not required by GAAP or applicable bank regulatory requirements. However, we believe these ratios provide meaningful supplemental information regarding our capital levels. Our management uses, and believes that investors benefit from referring to, these ratios in evaluating the adequacy of the Company’s capital levels; however, these financial measures should be considered in addition to, not as a substitute for or preferable to, comparable financial measures prepared in accordance with GAAP. These ratios are calculated by dividing total SVBFG stockholders' equity, by total period-end assets and risk-weighted assets, after reducing both amounts by acquired intangibles, if any. The manner in which this ratio is calculated varies among companies. Accordingly, our ratio is not necessarily comparable to similar measures of other companies.

The following table provides a reconciliation of non-GAAP financial measures with financial measures defined by GAAP for SVB Financial and the Bank for the periods ended June 30, 2017 and December 31, 2016:

Non-GAAP tangible common equity and tangible assets (Dollars in thousands, except ratios)	SVB Financial June 30, 2017	SVB Financial December 31, 2016	Bank June 30, 2017	Bank December 31, 2016
GAAP SVBFG stockholders’ equity	$3,899,435	$3,642,554	$3,607,234	$3,423,427
Tangible common equity	$3,899,435	$3,642,554	$3,607,234	$3,423,427
GAAP total assets	$48,400,379	$44,683,660	$47,571,865	$44,059,340
Tangible assets	$48,400,379	$44,683,660	$47,571,865	$44,059,340
Risk-weighted assets	$29,754,958	$28,248,750	$28,515,724	$26,856,850
Tangible common equity to tangible assets	8.06 %	8.15 %	7.58 %	7.77 %
Tangible common equity to risk-weighted assets	13.11	12.89	12.65	12.75

The tangible common equity to tangible assets ratio decreased for SVB Financial and the Bank due to the proportionally higher increase in our assets compared to the increases in common equity during the six months ended June 30, 2017. Increased capital was reflective primarily of net income for the six months ended June 30, 2017. Total assets increased primarily as a result of loan growth and higher investment and cash balances driven by increases in deposits. The tangible common equity to risk-weighted assets ratio increased for SVB Financial and decreased for the Bank. The increase for SVB Financial was a result of the proportionally higher increase in net income compared to the changes in risk-weighted assets during the six months ended June 30, 2017. The growth in period-end risk-weighted assets was primarily due to period-end loan growth and higher investment and cash balances driven by increases in deposits. The decrease for the Bank was a result of $40.0 million in cash dividends paid by the Bank to our bank holding company, SVB Financial, during the first half of 2017. See “SVBFG Stockholders’ Equity” above for further details on changes to the individual components of our equity balance.

Off-Balance Sheet Arrangements

In the normal course of business, we use financial instruments with off-balance sheet risk to meet the financing needs of our customers. These financial instruments include commitments to extend credit, commercial and standby letters of credit and commitments to invest in venture capital and private equity fund investments. These instruments involve, to varying degrees, elements of credit risk. Credit risk is defined as the possibility of sustaining a loss because other parties to the financial instrument fail to perform in accordance with the terms of the contract. For details of our commitments to extend credit, and commercial and standby letters of credit, please refer to Note 12—“Off-Balance Sheet Arrangements, Guarantees and Other Commitments” of the “Notes to Interim Consolidated Financial Statements (unaudited)” under Part I, Item 1 of this report.

Commitments to Invest in Venture Capital and Private Equity Funds

Subject to applicable regulatory requirements, including the Volcker Rule, we make investments. We make commitments to invest in venture capital and private equity funds, which in turn make investments generally in, or in some cases make loans to, privately-held companies. Commitments to invest in these funds are generally made for a 10-year period from the inception of the fund. Although the limited partnership agreements governing these investments typically do not restrict the general partners from calling 100% of committed capital in one year, it is customary for these funds to generally call most of the capital

Table of Contents

commitments over 5 to 7 years; however in certain cases, the funds may not call 100% of committed capital over the life of the fund. The actual timing of future cash requirements to fund these commitments is generally dependent upon the investment cycle, overall market conditions, and the nature and type of industry in which the privately held companies operate.

For further details on our commitments to invest in venture capital and private equity funds, refer to Note 12—"Off-Balance Sheet Arrangements, Guarantees and Other Commitments" of the "Notes to Interim Consolidated Financial Statements (unaudited)" under Part I, Item 1 of this report.

Liquidity

The objective of liquidity management is to ensure that funds are available in a timely manner to meet our financial obligations, including, as necessary, paying creditors, meeting depositors' needs, accommodating loan demand and growth, funding investments, repurchasing securities and other operating or capital needs, without incurring undue cost or risk, or causing a disruption to normal operating conditions.

We regularly assess the amount and likelihood of projected funding requirements through a review of factors such as historical deposit volatility and funding patterns, present and forecasted market and economic conditions, individual client funding needs, and existing and planned business activities. Our Asset/Liability Committee ("ALCO"), which is a management committee, provides oversight to the liquidity management process and recommends policy guidelines for the approval of the Finance Committee of our Board of Directors, and courses of action to address our actual and projected liquidity needs. Additionally, we routinely conduct liquidity stress testing as part of our liquidity management practices.

Our deposit base is, and historically has been, our primary source of liquidity. Our deposit levels and cost of deposits may fluctuate from time to time due to a variety of factors, including market conditions, prevailing interest rates, changes in client deposit behaviors, availability of insurance protection, and our offering of deposit products. We may also offer more investment alternatives for our off-balance sheet products which may impact deposit levels. At June 30, 2017, our period-end total deposit balances were $42.5 billion, compared to $39.0 billion at December 31, 2016.

Our liquidity requirements can also be met through the use of our portfolio of liquid assets. Our definition of liquid assets includes cash and cash equivalents in excess of the minimum levels necessary to carry out normal business operations, short-term investment securities maturing within one year, available-for-sale securities eligible and available for financing or pledging purposes with a maturity in excess of one year and anticipated near-term cash flows from investments.

We have certain facilities in place to enable us to access short-term borrowings on a secured (using high-quality fixed income securities as collateral) and an unsecured basis. These include repurchase agreements and uncommitted federal funds lines with various financial institutions. We also pledge securities to the FHLB of San Francisco and the discount window at the Federal Reserve Bank. The fair value of collateral pledged to the FHLB of San Francisco (comprised primarily of U.S. Treasury securities) at June 30, 2017 totaled $1.7 billion, all of which was unused and available to support additional borrowings. The fair value of collateral pledged at the discount window of the Federal Reserve Bank at June 30, 2017 totaled $0.8 billion, all of which was unused and available to support additional borrowings.

On a stand-alone basis, SVB Financial's primary liquidity channels include cash flow from investments and interest in financial assets (including equity warrants) held by SVB Financial or its operating subsidiaries other than the Bank; to the extent declared, dividends from the Bank; and to the extent needed, capital market transactions offering debt and equity instruments in the public and private markets.

The ability of the Bank to pay dividends is subject to certain regulations described in "Business—Supervision and Regulation—Restriction on Dividends" under Part I, Item 1 of our 2016 Form 10-K.

Consolidated Summary of Cash Flows

Below is a summary of our average cash position and statement of cash flows for the six months ended June 30, 2017 and 2016. For further details, see our "Interim Consolidated Statements of Cash Flows (Unaudited)" under Part I, Item 1 of this report.

Six months ended June 30,

(Dollars in thousands)	2017	2016
Average cash and cash equivalents	$3,562,811	$2,294,562
Percentage of total average assets	7.7 %	5.2 %
Net cash provided by operating activities	$360,078	$142,067
Net cash (used for) provided by investing activities	(1,982,887)	2,028,151
Net cash provided by (used for) financing activities	2,931,303	(1,819,018)
Net increase in cash and cash equivalents	$1,308,494	$351,200

93

Table of Contents

Average cash and cash equivalents increased by $1.3 billion, or 55.3 percent, to $3.6 billion for the six months ended June 30, 2017, compared to $2.3 billion for the comparable 2016 period.
Cash provided by operating activities was $360.1 million for the six months ended June 30, 2017, reflective primarily of net income before noncontrolling interests of $240.4 million and $159.6 million of increased liabilities for FX spot contracts that were unsettled at June 30, 2017 and settled shortly after period-end.
Cash used for investing activities of $2.0 billion for the six months ended June 30, 2017 was driven by $3.5 billion in purchases of fixed income investment securities, partially offset by $2.5 billion of proceeds from maturities and principal paydowns from our fixed income investment securities portfolio. Additionally, $1.1 billion in cash outflows were used to fund loan growth during the six months ended June 30, 2017.
Cash provided by financing activities was $2.9 billion for the six months ended June 30, 2017, reflective primarily of a net increase of $3.5 billion in deposits, partially offset by $512.2 million of payments on our overnight short-term borrowings and $46.2 million for the repayment of our 6.05% Subordinated Notes upon maturity.
Cash and cash equivalents were $3.9 billion and $1.9 billion, respectively, at June 30, 2017 and June 30, 2016.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk Management

Market risk is defined as the risk of adverse fluctuations in the market value of financial instruments due to changes in market interest rates. Interest rate risk is our primary market risk and can result from timing and volume differences in the repricing of our rate-sensitive assets and liabilities, widening or tightening of credit spreads, changes in the general level of market interest rates and changes in the shape and level of the benchmark LIBOR/SWAP yield curve. Additionally, changes in interest rates can influence the rate of principal prepayments on mortgage securities, which affects the rate of amortization of purchase premiums and discounts. Other market risks include foreign currency exchange risk, equity price risk, including the effect of competition on product pricing. While all of these risks are important considerations, all are inherently difficult to predict, and it is equally difficult to assess the impact of each on the overall simulation results. As a result, simulations used to analyze sensitivity to interest rate risk will differ from actual results due to differences in the timing, frequency, and magnitude of changes in market rates, the impact of competition, fluctuating business conditions, and the impact of strategies taken by management to mitigate these risks.
Interest rate risk is managed by our ALCO. ALCO reviews the sensitivity of the market valuation on earning assets and funding liabilities and 12-month forward looking net interest income from changes in interest rates, structural changes in investment and funding portfolios, loan and deposit activity and current market conditions. Adherence with relevant metrics included in our Interest Rate Risk Policy, which is approved by the Finance Committee of our Board of Directors, is monitored on an ongoing basis.
Management of interest rate risk is carried out primarily through strategies involving our fixed income securities portfolio, available funding channels and capital market activities. In addition, our policies permit the use of off-balance sheet derivative instruments to assist in managing interest rate risk.
We utilize a simulation model to perform sensitivity analysis on the economic value of our equity and our net interest income under a variety of interest rate scenarios, balance sheet forecasts and business strategies. The simulation model provides a dynamic assessment of interest rate sensitivity embedded within our balance sheet which measures the potential variability in economic value and net interest income relating solely to changes in market interest rates over time. We review our interest rate risk position and sensitivity to market rates on a quarterly basis at a minimum.

Table of Contents

Model Simulation and Sensitivity Analysis

One application of the aforementioned simulation model involves measurement of the impact of changes in market interest rates on our economic value of equity ("EVE"). EVE is defined as the market value of assets, less the market value of liabilities, adjusted for any off-balance sheet items, if any. A second application of the simulation model measures the impact of changes in market interest rates on our net interest income ("NII") assuming a static balance sheet as of the period-end reporting date. Meaning, the size and composition of earning assets and funding liabilities are held constant over the simulation horizon. Simulated cash flows during the scenario horizon are assumed to be replaced as they occur, which restores the balance sheet to its original size and composition. More specifically, with respect to earning assets, loan maturities, principal maturities, paydowns and calls on investments are added back as replacement balances as they occur during the simulation horizon. Yield and spread assumptions on cash and investment balances reflect current market rates. Yield and spread assumptions on loans reflect recent market impacts on product pricing. Similarly, we make certain deposit decay rate assumptions on demand deposits and interest bearing deposits, which are replenished to hold the level and mix of funding liabilities constant. Changes in market interest rates that affect us are principally short-term interest rates and include the following benchmark indexes: (i) National and SVB Prime rates, (ii) 1-month and 3-month LIBOR, and (iii) the Federal Funds target rate. Changes in these short-term rates impact interest earned on our variable rate loans, variable rate investment securities and balances held as cash and cash equivalents. Additionally, simulated changes in deposit pricing relative to changes in market rates, commonly referred to as deposit beta, generally follow overall changes in short-term interest rates, although actual changes may lag in terms of timing and magnitude. Overall, the assumed weighted deposit beta on interest bearing deposits is approximately 35.0 percent, which means deposit repricing is assumed to be approximately 35.0 percent of a given change in short-term interest rates. This repricing is reflected as a change in interest expense on interest bearing deposit balances.

For the period ended June 30, 2017, we made a revision to certain behavioral assumptions around the prime rate index in our ALM model that resulted in an updated representation of NII in downward rate shock scenarios. This change primarily impacted NII and EVE interest rate risk sensitivity in the -100, and -200 bps rate shock scenarios. The base case and upward rate shock scenario risk measures were not significantly impacted by this model change. As such, the prior period amounts presented below have been revised for the assumption changes.

The following table presents our EVE and NII sensitivity exposure related to an instantaneous and sustained parallel shift in market interest rates of 100 and 200 basis points at June 30, 2017 and at December 31, 2016:

Change in interest rates (basis points) Dollars in thousands)	Estimated	Estimated Increase/(Decrease) In EVE		Estimated	Estimated Increase/ (Decrease) In NII	
	EVE	Amount	Percent	NII	Amount	Percent
June 30, 2017:						
200	$7,819,802	$ 2,186,501	38.8 %	$1,899,168	$409,825	27.5 %
100	6,796,714	1,163,413	20.7	1,696,143	206,800	13.9
—	5,633,301	—	—	1,489,343	—	—
-100	5,275,121	(358,180)	(6.4)	1,275,089	(214,254)	(14.4)
-200	5,630,161	(3,140)	(0.1)	1,205,404	(283,939)	(19.1)
December 31, 2016 (As revised):						
200	$7,442,322	$ 2,066,751	38.4 %	$1,628,527	$376,073	30.0 %
100	6,470,761	1,095,190	20.4	1,439,562	187,108	14.9
—	5,375,571	—	—	1,252,454	—	—
-100	4,970,406	(405,165)	(7.5)	1,103,255	(149,199)	(11.9)
-200	5,300,642	(74,929)	(1.4)	1,066,303	(186,151)	(14.9)

Economic Value of Equity

The estimated EVE in the preceding table is based on a combination of valuation methodologies including a discounted cash flow analysis and a multi-path lattice based valuation. Both methodologies use publicly available market interest rates to determine discounting factors on projected cash flows. The model simulations and calculations

are highly assumption-dependent and will change regularly as the composition of earning assets and funding liabilities change (including the impact of changes in the value of interest rate derivatives, if any), as interest rate environments evolve, and as we change our assumptions in response to relevant market conditions, competition or business circumstances. These calculations do not reflect forecast changes in our balance sheet or changes we may make to reduce our EVE exposure as a part of our overall interest rate risk management strategy.

Table of Contents

As with any method of measuring interest rate risk, certain limitations are inherent in the method of analysis presented in the preceding table. We are exposed to yield curve risk, prepayment risk, basis risk, and yield spread compression, which cannot be fully modeled and expressed using the above methodology. Accordingly, the results in the preceding table should not be relied upon as a precise indicator of actual results in the event of changing market interest rates. Additionally, the resulting EVE and NII estimates are not intended to represent, and should not be construed to represent our estimate of the underlying value of equity or forecast of NII.

Our base case EVE as of June 30, 2017 increased from December 31, 2016 by $258 million primarily due to balance sheet mix changes as well as changes in the yield curve. Compared to December 31, 2016, period-end loans, as of June 30, 2017, net of unearned income, increased $1.1 billion. Comparing the same periods, period-end total fixed income investment securities increased $1.0 billion and period-end cash and cash equivalents increased by $1.3 billion driven primarily by an increase in deposits balances of $3.5 billion.

Higher short-term LIBOR rates as of June 30, 2017, with marginally lower long-term rates, contributed to a flattening of the yield curve compared to December 31, 2016. Changes in nominal rates and a change in the shape of the yield curve resulted in the market value of deposits decreasing in amounts greater than assets. However, as noted above, balance sheet growth was the primary factor which resulted in a higher base case EVE as of June 30, 2017. Compared to December 31, 2016, proportional growth in loans, investments, and deposits did not significantly impact EVE sensitivity measures in the +100 bps and +200 bps rate shock scenarios as of June 30, 2017. The change in sensitivity in the downward rate shock scenarios can be attributed to the increase in the level of rates across the yield curve, as described above, compared to the level of rates on December 31, 2016. The resulting discount rates applied as of June 30, 2017 are higher than those from the prior period.

12-Month Net Interest Income Simulation

Our simulated 12-month base case NII at June 30, 2017 increased from December 31, 2016 by $237 million, due to the impact of higher rates on LIBOR and Prime rate based loans, higher period-end loan growth as noted above, and a generally higher level of earning assets at June 30, 2017.

NII sensitivity as of June 30, 2017 in the +100 and -100 bps rate shock scenarios is nearly symmetrical at +14% and -14%, respectively. This profile is as expected, given the composition of floating rate loans in our balance sheet. NII sensitivity in the +200 and -200 bps interest rate shock scenarios still shows asymmetry, with less sensitivity in the -200 bps rate shock scenario due to floors on loans.

The simulation model used in the above analysis incorporates embedded floors on loans in our interest rate scenarios, which prevent model benchmark rates from moving below 0.0% in the down rate scenarios. The embedded floors are also a factor in the up rate scenarios to the extent a simulated increase in rates is needed before floored rates are cleared. In addition, we assume different deposit balance decay rates for each interest rate scenario based on a historical deposit study of our clients. These assumptions may change in future periods based on changes in client behavior and at management's discretion. Actual changes in our deposit pricing strategies may differ from our current model assumptions and may have an impact on our actual sensitivity overall.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Disclosure controls and procedures are the controls and other procedures that are designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934, as amended (the “Exchange Act”) is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms. Disclosure controls and procedures include, among other things, processes, controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

We carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of our most recently completed fiscal quarter, pursuant to Exchange Act Rule 13a-15(b). Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, the Company’s disclosure controls and procedures were effective.

Table of Contents

Changes in Internal Control

There were no changes in our internal control over financial reporting identified in management's evaluation pursuant to Rules 13a-15(d) or 15d-15(d) of the Exchange Act during the period covered by this Quarterly Report on Form 10-Q that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 1A. RISK FACTORS

There are no material changes from the risk factors set forth in our 2016 Annual Report on Form 10-K.
